BILINGUAL RESOLUTION MET STRONG OPPOSITION IN HOUSE IRISH PARTY IS AROUSED OVER PUNISHMENT OF REBELS Violent Artillery Duels Fought Before Verdun Front

BILINGUAL DEBATE INDICATED INSURGENCY AMONG LIBERALS

Hon. Frank Oliver Took Strong Stand Against Interference With Ontario, But Graham and Pardee Stood By Laurier—Debated in Early Morning.

OTTAWA, Friday, May 12.—An early hour this morning the House of Commons is still debating the bilingual resolution. The vote, however, will probably be reached before adjournment.

Shortly after the house assembled the debate was resumed by Hon. Chas. Maclellan. He was followed by Dr. J. W. Edwards of Frontenac, who made a strong, earnest presentation of Ontario's position. He spoke with some authority upon the bilingual school question, having years ago taught a school in Essex County, attended by both English and French pupils.

The man who advocated today however, was Mr. Paul Lamarche, Nationalist member for Nicolet. Mr. Lamarche spoke in English and proved himself to be a good lawyer and a skilled debater. Other prominent members who participated in today's discussion included Sir George Foster, Hon. G. F. Gauthier, Hon. Frank Oliver, chief Liberal whip, Hon. Frank Oliver, Mr. Robt. (Hullington), Mr. Morphy (South Park), and Col. Hugh Clark.

British Gained Advantage In Much Mining Activity

Camouflets Exploded by Both Sides Near Beaumont, Hamer and Fricourt—German Raiding Party Repulsed.

LONDON, May 11, 11.50 p.m.—The following official communication was issued tonight: "The enemy made an unsuccessful attempt to raid our trenches near Orville last night. Today there has been mining activity near Beaumont, Hamer and Fricourt, both sides blowing up camouflets. The advantage remains with us.

"The artillery on both sides has been active about Angres and southeast of Ypres. At the Hohenzollern redoubt a severe mutual bombardment developed this afternoon."

ASQUITH'S VISIT CAUSES COMMENT

London Papers Speak Various as to His Coming Trip.

LONDON, May 12.—Premier Asquith's visit to Ireland is giving the political experts much food for thought. The London morning papers speak variously as to exactly what he expects to accomplish.

The Daily News lobby correspondent believes that Mr. Asquith's idea is to sound Irish opinion on the spot as to the possibility of a deal or a compromise over the home rule question, a deal which might include putting into effect immediately some measure of home rule, coupled perhaps with the compulsion bill.

The Nationalists in London are worried because the prime minister failed to consult them.

RUSHED TO RESCUE WOUNDED OFFICER

Mrs. F. Sheehy Skeffington Narrates Good Deeds of Husband.

LONDON, May 11, 7.44 p.m.—Mrs. F. Sheehy Skeffington, widow of the Irish editor, in a further statement today declared that her husband, at the risk of his own life, went to the rescue of a wounded officer outside of Dublin castle on Easter Monday afternoon, the crowd being afraid to venture near.

When he arrived at the spot he found that soldiers already had taken the officer away. Skeffington was arrested, his widow's statement continues, and he was taken to the hospital, and on Tuesday, was taken to Portobello Barracks and shot without trial, no priest being summoned to attend him.

Mrs. Skeffington declares that her statement can be corroborated by other witnesses. Her husband, she says, was the victim of a gross miscarriage of justice under a martial law. He took no part in the rebellion and tried to prevent looting and was shot without pretense of a trial. She last saw her husband alive the evening of April 25. He had called a meeting to stop the looting that was going on and was waiting to see if anyone would defend it.

ALLISON NOT IN PLANS TO SHARE MILLION

Cadwell, Yoakum and Baswick Charged Company Forty Cents Per Fuse.

OUTPUT WAS COSTLY

Sweeping Rejections Led to Suspicions of Tampering by German Agents.

OTTAWA, May 11.—There were two features to today's sitting of the royal commission. One was the admission by Edward Cadwell, president of the American Ammunition Co., that an agreement did exist between himself, Yoakum and Baswick for the division of \$1,000,000 commission on the 2,000,000 order for fuses received from the shell committee.

The other was a passage-at-arms between Mr. Wallace Nesbitt and Mr. Carvell, as a result of which Mr. Justice Duff threatened to resign.

Mr. Cadwell related the facts up till the time when they were assured of the fuse order. Then Baswick and Yoakum fell out over the arrangement of the division of the profits. Mr. Cadwell said that these two gentlemen took the view that, as they were instrumental in securing the business for the American Ammunition Company, they should receive a commission of \$1,000,000, and thought as to who should get the larger share.

Mr. Cadwell should get 25 per cent, Yoakum 42 1/2 per cent, and Baswick 32 1/2 per cent. Mr. Cadwell declared he never heard of any subsequent agreement between Baswick and Yoakum and Colonel J. Wesley Allison, for a redistribution of the fund.

LIQUOR QUESTION STIRRED SENATE

Proposal to Make Doherty Bill More Effective Was Defeated.

THIRD READING GIVEN

Senators Choquette and Davis Wished to Show up "Hypocrites."

OTTAWA, May 11.—Third reading was given the government bill to make provincial prohibition effective. Senator Davis made a speech in support of his amendment which would have made it a penalty for a brewer or a dealer in a province which has enacted prohibitory legislation. He said only effective. There was no use prohibiting the sale of liquor if its manufacture was not also forbidden.

Senator Choquette said he was against prohibition. However, he believed the views of the majority should always prevail. If a province voted prohibition, that province should have prohibition; this amendment would give it to them; he would vote for the bill. Senator Thompson congratulated Senator Davis and Senator Choquette on their recent and speedy conversion.

Senator Murray said there had been no demand for this bill. He said his amendment would prevent the manufacture of alcohol for manufacturing or medicinal, or for other purposes.

Third reading was also given the bill to amend the Liquor Control Act to bring the measure into harmony with the government's bill aiding provincial prohibition.

WOUNDED CANADIAN OFFICERS IN LONDON

LONDON, May 11.—The following wounded officers have arrived in London: Lieut. Aud, wounded in right arm, leg in hand and suffering from shell shock; Lieut. Underhill, wounded in right thigh; Lieut. Bauret, shot in left hand; Lieut. Robertson, shot in left leg; Lieut. Major Thomson, shot in left leg; Lieut. Major Thomson, shot in left leg; Lieut. Major Thomson, shot in left leg.

SIX MORE REBELS WERE SENTENCED TO BE SHOT

DUBLIN, May 11.—A court-martial sentenced to death, but whose sentences were commuted to various terms of imprisonment, and of four others who were sentenced to terms in prison.

The statement adds that trials for the murder of Head Constable Rowan occurred at Cork May 4, with the following results: Wm. Kent acquitted; Thomas Kent found guilty and sentenced to death. Sentences confirmed and execution performed the ninth.

German Force Approaches British East African Lines

Enemy Fell Back to Central Railway and Received Reinforcements—Gen. Smuts Has Enough Men to Deal With Foe.

LONDON, May 11.—The German forces in German East Africa, after retreating from the Kondoa Irangi district, received reinforcements, and are again advancing towards the British lines, according to an official announcement made tonight. The statement says: "Telegraphing late on May 9, Lieut. General Smuts reports that the enemy in the Kondoa Irangi area, after our occupation of that central railway at Dodoma and Kilimatinde. There they received reinforcements and again approached the Kondoa Irangi district, where our forces are quite sufficient to deal with them.

"An aeroplane, despatched to reconnoitre the line of the Usambara railway, failed to return.

"The rains are abating. "The Belgian advance into Ruanda, both north and south of Lake Kivu, has progressed satisfactorily, despite the natural difficulties of the country, increased by the recent rainfall."

HUN PROMISES MAY BE BROKEN

Cynical Speech on U. S. Relations Made by Imperial Chancellor.

NECESSARY EXPEDIENT

If Conditions Change, Pledge Will Be Treated as Scrap of Paper.

LONDON, May 11.—What purports to be a summary of the speech of Dr. Bethmann-Hollweg, the German imperial chancellor, at a secret sitting of the general committee of the Reichstag, on May 5, concerning Germany's reply to America, is published by the wireless press tonight, under a Berlin date. The wireless press states that the following remarks by the chancellor in front of the Reichstag, conducted with bayonets and hand grenades, ended in the repulse of the Germans.

In the evening some gusts of artillery fire broke out. French officers ridiculed the statement that 800,000 French soldiers were engaged at Verdun as the German official communiqué asserted. Such a statement was published, they asserted, to make the Germans believe that the French prince is confronted by tremendous numbers of soldiers, and so cannot take Verdun. It is believed that such a statement is designed by the Germans to prepare the public mind for an abandonment of the Verdun offensive altogether.

General Joffre has denied the legend that when the battle of Verdun began he instructed the French army to abandon the left bank of the Meuse and has published his orders to the French commanders. The orders were to hang on at all costs.

John Dillon Bitterly Denounces Government for Executions—Premier Asquith Answers Him and Sets Out for Ireland as Mediator.

LONDON, May 11, 10.50 p.m.—The most dangerous factor in Ireland's situation which has been recognized since the brief rising flashed in the pan was the punishment of the rebels would cause a reaction of sympathy among the warm-hearted and emotional people. This threatened danger appears to be fast materializing.

John Dillon, who is one of the most respected of the Nationalists, but often one of the bitterest antagonists of British rule, attacked the government today in the house of commons in a speech which, for bitter denunciation, has not been surpassed at Westminster since Parnell's days.

Premier Asquith has personally stepped into the breach and is taking the unprecedented course of journeying to Dublin to investigate the situation on the spot and, doubtless, to give government administrators, Lord Wimborne, Augustine Birrell and Sir Matthew Nathan have retired from office. The premier left here tonight by the Irish mail on his way to that city.

Mr. Asquith once before took the reins in his own hands in a crisis by assuming the secretaryship of office when the threatened Ulster revolt in 1912 caused the resignation of Col. Seely.

Premier to Conciliate. The prime minister's finest powers have been displayed in playing the part of a conciliator and he now has a "which is likely to demand their utmost energies. He announced that he was going to consult with the authorities in order to arrive at some arrangement satisfactory to Irishmen of all parties, and that he would be glad to receive the harder achievements of the present situation could not continue.

Many of the newspapers, particularly the Liberal organs, call upon the Irish factions to seize the present opportunity for settling their long-standing differences.

The Marquis of Lansdowne intimated to the house of lords that the disarmament of Ireland will be undertaken. This would mean the disarmament of the Ulster and Nationalist Volunteers, and what that can be done depends upon Sir Edward Carson and John Redmond more than on any other Irishman.

The house of commons negatively, without division, Mr. Dillon's motion demanding that the government should immediately declare its intentions. The house of lords adopted, without discussion, Lord Lansdowne's motion regarding the management of Ireland.

Courts-Martial in Public. Premier Asquith urged the Irish to maintain a sense of proportion and not let sympathy for the misled insurgents cause them to forget the deaths of soldiers and civilians, and promised that in the future courts-martial on murder charges should be held in public.

The chief cause of the attack on the government in the house of commons today was the revelation that another execution had occurred—that of a Fenian named Kent—which was the first military execution outside of Dublin. It was charged by one of the members that many of the 1700 persons deported to England had no connection with the uprising in Ireland.

The summary shooting of the Irish editor, F. Sheehy Skeffington, has aroused increased protest, as the details have become known.

WANT TO SELL LIQUOR AFTER EIGHT O'CLOCK

Movement Started by Toronto Club Wins Support of York Institution.

A movement inaugurated by the Toronto Club is on foot to obtain the rescinding of the order by which clubs must cease the sale of intoxicants at 8 o'clock. The plea was made to the license board on the ground of the forthcoming prohibitory measure. The York Club, thru one of its leading members, signified its concurrence with the application.

Robert Cassels, secretary of the Toronto Club, who asked last night if any reply had been received from the board, and if so, what was the tenor of it, replied that he had nothing to say on the matter, which he thought was private, as the club was private. He was sorry; but that was as far as he could go.

The secretary of the York Club said that no reply had been received by him. He explained that he had nothing to say on the matter, which he thought was private, as the club was private. He was sorry; but that was as far as he could go.

The secretary of the National Club said that he had received no communication on the matter from the license board.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

THE most notable feature yesterday on the British front was the continuance of mining activity by both sides. Camouflets were blown up near Beaumont, Hamer and Fricourt, in the advantage remained with the British, says Sir Douglas Haig, in his despatch. Both British and German artillery were conspicuous by their heavy bombardment about Angres and southeast of Ypres. A common bombardment developed at the Hohenzollern redoubt, the loss of which "impregnable" fortification is still a sore point with the Germans. The British troops stationed in trenches near Orville repulsed a German attempt to raid their position.

It was the Germans who first started the extensive employment of mines on both the eastern and western fronts upon the setting in of winter, and it is taken as a further sign of the growing disposition of the enemy to make machinery take the place of men. The allies, of course, did not let the Germans have it all their own way in these German mining operations, and they speedily returned them with usurious rates of interest. But the notable point about this increase in the German use of machinery, seen also in other respects, was that it testified to the dwindling of the enemy's available man power for filling gaps in his ranks. Evidence of his shortage of men crops up on every hand. Among the most recent to observe it is Frank Simonds of The New York Tribune, who notes that the Germans have betrayed their predicament by their publication of their estimate of French losses amounting to 2,400,000 men. This calculation was plainly based on their own ratio of wastage, and it implies inferentially that the Germans have lost about 4,000,000 men in the war.

The heavy losses sustained by the Germans, therefore, will make it necessary for them to shorten their lines, and to do so, unless they suppose that a success somewhere, they will have to retreat. Mr. Simonds says that this retreat will have to come in about two months. As to fixing a definite date for the coming of that retreat, that is hazardous, for the enemy may be able to postpone it by holding his lines with fewer men than he has been using up to the present. The time of the allies for striking would be when the German lines have become greatly attenuated. The German general staff will probably

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued from Page 1). strive to conceal the actual state of affairs as long as possible by gradually weakening each division.

The exact number of men required to hold a given mile of front under modern conditions of warfare has not been determined. The British army held the Pass of the first battle of Ypres with only 1500 men per mile in a three-mile stretch of their front.

Leut.-Gen. Jan Christian Smuts, commander of the British East African expeditionary force, reports that the Germans, having retired out of touch with the British lines in the Kondea Irangi district. He says that his forces are quite sufficient to deal with them.

In the struggle about Verdun, the only region where infantry fought yesterday was north of Vaux Pond, east of the Meuse. In this sector, the French repulsed a German attack by means of their bayonets and hand-grenades early in the morning.

The report cabled from London that many Germans are now deserting to the British army in Flanders has been corroborated in several instances. The heavy desertions began at the beginning of the winter and they have tended to increase.

The statement cabled from Switzerland that the Germans have 2,000,000 men ready to take the field is surely a fable. The utmost that any power can put in the field at any time is one-seventeenth of the population, and Germany has been barely able to do that, even at the height of her power.

raised to a high plane any debate in which he participated. Mr. Marcell, in his statement, charged that every child in Ontario ought to receive a thorough English education, but criticized regulation 17 as unduly limiting the teaching of French in any school in which French was not taught prior to June, 1912.

Propress Commission. Great Britain, Mr. Marcell said, had given the French-Canadians a measure of justice, full heaped and running over. He did not think that Ontario would do less if all the facts were fairly presented to the house.

Ontario's Generosity. What was there in this charge that Ontario was trying to blot out the French language? The fact was, Dr. Edwards observed, quite the contrary. The Ontario Government maintained four bilingual normal schools, and the teachers who attended them had all their expenditures paid out of the public treasury.

Dr. Edwards said it required some nerve for Quebec to lecture Ontario on the subject of education. According to the census of 1911 only six per cent of the children of school age in Ontario were unable to read and write.

Mr. Macdonell read a telegram from Hon. Charles Ferguson, stating positively that the resolution would not be the use of French to those schools in which French was taught prior to June, 1912.

Cold Storage for Your Furs

It's Necessary for Their Health and Good Looks
THE LIFE OF YOUR FURS depends on the care they get during the hot weather. For though you may keep them safely from moths in your cedar chests or moth bags, a very real danger lies in the fact that the warmth of the summer months may dry the skins. And when the natural oil is lost the pelts begin to decay and the fur loses its lustre and falls out. This, of course, can be avoided by placing your coat, muff, stole and various fur pieces in cold storage. In our Cold Dry Air Vaults, which are kept at a uniform Arctic temperature all the summer, they may be kept in their natural climate. Here they are properly cared for, each garment being thoroughly beaten and combed before being hung on its own little hanger, free from dust and moths, safe from fire and burglary. The charge is very moderate, being only 2 per cent. of a fair valuation.

their shares. He never heard of Allison in connection with the fuse contract. The explosion between counsel occurred at the morning session when Hon. Wallace Nesbitt insinuated that Mr. Cadwell knew something about the disappearance of message documents.

Mr. Justice Duff: I must say that Mr. Nesbitt's remark should not have been made. If there is any repetition of these scenes, I will refuse to sit on the commission any longer.

During the afternoon questioning Mr. Cadwell made the startling statement that every time a fuse which they had so far succeeded in delivering to the British War Office had probably cost the American Ammunition Company \$50,000.

shell committee. Yoakum argued the point at some length, by an arrangement was agreed upon before they left Ottawa.

"Personally," Mr. Cadwell said, "I told them they could fight it out between themselves and that I would take 25 per cent. of the commission and let it go. They could divide the balance to suit themselves."

TRACTION TREAD MOTORCYCLE TIRES

Merits Aplenty

Dunlop Traction Tread has everything in it to produce a tire of the right standard. We could omit some of the features and lower the price, but we believe every motorcyclist needs just the features now found in Dunlop Traction Tread and will pay for them.

(Continued From Page 1).

No other Motorcycle Tire combines all these merits—Never Drip, Rim-Cut, Largest Air Capacity, Greatest Skid-Resisting Surface, Minimum Dust Disturbance, Perpetual Comfort, Greatest Resiliency, Maximum Mileage.

START BIG CAMPAIGN TO ELECT ROOSEVELT TO ELECT ROOSEVELT

Supporters of Former U. S. President Spend Large Sum Advancing Claims.

That there is to be a determined effort by a certain section of the people of the United States to elect Theodore Roosevelt as president, is evident by the formation of the Roosevelt Non-Partisan League, which is announced in a four-page advertising insert in the Saturday Evening Post of May 15.

The organizers of the league, under caption of "Why Roosevelt Would Be Our Best Guarantee of Peace," assert that Roosevelt's record for peace has been a sore disappointment to his enemies, and that, during his seven and a half years in the White House, an American rifle was fired in war.

MAYOR IS WRONG TAXES ARE LEGAL

Hon. I. B. Lucas Upholds Action of Provincial Government.

IS MUCH SURPRISED

Declares Mayor Heartily Approved Provincial War Tax at First.

Mayor Church evidently intends to in for a third term. This was Hon. I. B. Lucas' comment on an evening newspaper article with regard to the quality of the provincial war tax.

The attorney-general thought that it would be quite easy to "square" the tax with the provisions of the B.N.A. Act, which provides that direct taxes shall be for provincial purposes.

He was referring to an interview which he gave earlier in the day when he had said that if this tax was bad then the legislature had no power to authorize the raising of any money for patriotic purposes by municipalities.

Surprised at Mayor. The mayor had heard rumors for weeks that such an attack as that made by Mayor Church was to be made, the great surprise was that it should have come from Mayor Church, who had taken such an active part in patriotic banquets, concerts and other places, where he had "eloquently and gracefully" urged the raising of patriotic collections.

He said that the term "provincial purposes" was a very wide vicinal purpose, and that he declined to take up the legal aspect of the case at present.

SIR WILFRID WRONG IN HIS SUPPOSITION

"Regulation Seventeen Does Not Interfere With Twelve," Says Hon. G. H. Ferguson.

The attitude adopted yesterday by Hon. G. Howard Ferguson toward the bilingual debate in the Dominion house, was after the manner of the psalmist, who asked plaintively, "Why do the heathen rage and the people imagine a vain thing?"

The Ontario Government would go on keeping school according to regulation 17 without paying much attention to the political speech-making of Sir Wilfrid in Ottawa, he said.

DIN WAS UNBEARABLE SO OAKLEY COMPLAINED

Before Non-Jury Assize Court He Gave a Variety of Descriptions of the Noises.

A variety of descriptions was given by witnesses in the non-jury assize court, after getting permission to machinery in George Webb's stonecutting establishment on Summerhill avenue.

The plaintiff in the case is William Oakley, 444 Summerhill avenue, who seeks an injunction. He claimed the noise was continuous, and not only an annoyance but dangerous to the health and comfort of his family.

Webb contended that the noise which Oakley hears is that of railroad trains and from dogs in a nearby kennel. He said he paid \$11,000 for the property and invested a total of \$28,000 in the business after getting permission to erect the building from proper municipal authority.

TRUSTEES ARE SILENT OVER ESTIMATE WAR

Council's Decision Was Unlooked for by Many—Legal Action Probable.

Board of education trustees declined to say a great deal yesterday regarding the action of the city council in refusing to place \$71,000 in the estimates to provide for medical inspection this year in the schools.

The council's decision was unlooked for by many of those interviewed. They had thought that the controllers' recommendation would be voted down by the council. Apparently it is the intention of the trustees to take immediate legal action in the matter.

To The Man Who Is Married

The best thing you have done for your wife is to insure your life.

Do not place too much reliance on your real estate investments or "the business." Such things have been known to become more of an encumbrance than a help.

Assets earning income are vital to your family. Life insurance is a cash asset, but often it is as small that the whole amount is only equal to a year's salary. Invested safely, it may yield only a few hundred dollars yearly income. That is not enough.

What is needed is more life insurance or else a guaranteed income for your wife or daughter.

The Canada Life—a strong, reliable company—has a plan which at moderate cost will provide a monthly income for the whole lifetime of a beneficiary. Every family should be protected by this most stable contract.

B. Ormsby presided, through the days of the convention and the luncheon introduced the speakers, the first of whom was Mrs. Secord, president of the Ontario branch of the organization.

The human body is composed of millions of tiny cells of various kinds. With the single exception of the brain and nerve cells, there is a system of dividing up of cells to form new ones. In this way the blood cells, the tissue cells, the cells of the stomach, liver, kidneys and other vital organs may be increased so as to make up for loss or injury. But not so with the cells of the nervous system. You have a certain number at birth, but never any more. A feeble, poisoned nerve cell may be restored, but a dead cell can never be replaced.

A DEAD NERVE CELL CAN NEVER BE REPLACED

The human body is composed of millions of tiny cells of various kinds. With the single exception of the brain and nerve cells, there is a system of dividing up of cells to form new ones. In this way the blood cells, the tissue cells, the cells of the stomach, liver, kidneys and other vital organs may be increased so as to make up for loss or injury. But not so with the cells of the nervous system. You have a certain number at birth, but never any more. A feeble, poisoned nerve cell may be restored, but a dead cell can never be replaced.

For this reason complete paralysis can never be cured, but the person who is partially paralyzed may be greatly benefited by restorative treatment such as Dr. Chase's Nerve Food, which nourishes the feeble, wasted nerve cells back to health and vigor.

This, undoubtedly, is the strongest reason why everybody should be familiar with the symptoms which tell of exhaustion of the nerve cells and know the best means of restoring the vitality of the nerves before they become dead to all treatment.

Sleeplessness, restlessness, irritability, nervous headaches, nervous indigestion, loss of energy and ambition, feelings of discouragement and inability to concentrate the mind are among the most common warnings. Later developments are known as nervous prostration, locomotor ataxia, and paralysis.

It is easy to neglect treatment in the early stages, but that is the time when a few boxes of Dr. Chase's Nerve Food will do wonders for you. Preventive treatment, which is so good in all ailments, is practically the only method to be applied to diseases of the nerves, because of the fact that a dead nerve cell can never be replaced, whereas a feeble, wasted nerve cell can be restored by such nourishing medication as is afforded by Dr. Chase's Nerve Food.

Should you desire further particulars about this great food cure, kindly write for booklet. 50 cents a box, 6 for \$2.50, all dealers, or Edmundson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.

LOSSES FOUR MILLION German Estimate of French Casualties Betrays Own Condition.

In the course of an article on German losses, Frank Simonds, in The New York Tribune, has the following to say: The assertion made in Berlin that more than a million men, two-thirds of them French, are fighting for Verdun, is too palpably absurd to require discussion.

But the most interesting portion of the German statement is found in the declaration that the French have now only 1,000,000 men left, against the 2,000,000 of the French army.

Let us take the German figures for France as they stand. The German situation, France mobilized some 5,000,000 men, but not less than 2,000,000 were sent to the front.

As to this last point there may be some slight discrepancy. The French have had considerable periods of tranquility while the Germans were engaged in the battle of the Somme.

Now, it is certain that the Germans have still 2,000,000 in the field and in immediate reserve, because it requires not less than this figure to man effectively a front of 1,000 miles.

PASSENGER DEPOT ON YONGE STREET

North End Business Men Ask C. P. R. to Move It From York Street.

HELP MANY TOWNS

Plan to Inaugurate Suburban Service is Strongly Supported.

Great enthusiasm was manifested at yesterday's meeting of the North Toronto Business Men's Association at a meeting hurriedly convened to deal with the matter of improved railway transportation on upper Yonge street.

A resolution was passed unanimously asking the C. P. R. to make the new northern station a terminal for all local passenger service instead of the present antiquated and unsuitable building at the foot of York street.

The resolution was clear-cut and to the point, and dealt briefly with the situation as it appears to the large business interests north of Bloor street.

The local C. P. R. management on Wednesday, in answer to a representative of the association, stated that no details of the proposed schedule of trains to be run out of the new station could be made known at present, but that they would afford every assistance to the traveling public.

The meeting supported the idea of a suburban service eastward, and in this there will be strong support from outside points, as indicated by reports from Ottawa.

Support Suburban Service. To the Mayor yesterday Gordon D. Conant, mayor of Ottawa, manifested great enthusiasm over the plan to institute a suburban service between Toronto and Ottawa.

"You can imagine my hearty support and that of the Town of Ottawa in a movement of that kind," said the mayor.

The Toronto & Eastern Railway, he said, would never have received this franchise had it not been for the assistance of the association, and the financial condition of the enterprise gave little hope of a completion of the line under its present management unless it were taken over by the hydro electric, and of this there was no immediate prospect.

It would mean a great deal to Ottawa and the other parts along the road, Ottawa had not a good train service, and besides the rates were too high. He thought that the association was paying attention to the installation of a suburban service between North Toronto and Ottawa.

"I will gladly go to Toronto at any time to confer on the matter."

Very indifferent progress is being made by the farmers throughout Ontario in their seeding operations and in scores of cases, notwithstanding the fine weather of the last few days, the land is covered with water and great delay is occasioned. This is the condition of affairs in all the central counties of Ontario and one effect will be to induce a largely increased acreage of buckwheat and potatoes, both of which can be sown at a much later period than spring grains. Fall wheat generally is not showing very well, while clover is a good average catch.

THIRTEEN EXECUTIONS, SAYS PREMIER-KENT PUNISHED FOR MURDER.

DILLON MAKES PLEA Resolution Calling for Statement on Martial Law Voted Down.

(Continued From Page 1).

The text of the resolution presented in the house of commons by John Dillon, is as follows:

"That in the interests of peace and of the government in Ireland, it is vital and important that the government should make, immediately, a full statement of their intentions as to continuance of executions in that country, and as a result of secret military trials, and as to continuance of martial law, military rule and the searches and wholesale arrests now going on in various districts of the country."

Mr. Dillon's motion was voted down without a division.

In speaking on his resolution in the house of commons, Mr. Dillon referred to the execution of Thomas Kent in County Cork, saying it looked as though there was a roving commission to carry out "these horrible executions."

Mr. Dillon said he drafted his resolution in order to confine the discussion to the narrow, but important, issue of military executions and the continuance of martial law. He complained that the military authorities as to what was going on. He did not hold Gen. Maxwell, the British commander, and the other officers of the British army, responsible for the execution of F. Sheehy Skeffington, but pointed out that Mr. Skeffington was shot on April 26, and the military authorities did not hear of it until May 6.

"How could anyone blame the people of Dublin for believing that dozens of others have been secretly in barracks?" he asked. "Horrible rumors are current in Dublin and they are embarrassing the population."

Mr. Dillon said the fact that nine out of ten people in Ireland were on the side of the government was due to the life work of the Nationalists, and now the present rule was "washing out that life work in a sea of blood."

Out of the whole of Ireland, Mr. Dillon continued, there were only four or five spots where there was insurrection, yet the government was under martial law and there was absolutely no trace of civil administration. The Irish people, he declared, would refuse to accept the rule of a man who had no right to rule.

Mr. Dillon said the fact that nine out of ten people in Ireland were on the side of the government was due to the life work of the Nationalists, and now the present rule was "washing out that life work in a sea of blood."

Out of the whole of Ireland, Mr. Dillon continued, there were only four or five spots where there was insurrection, yet the government was under martial law and there was absolutely no trace of civil administration. The Irish people, he declared, would refuse to accept the rule of a man who had no right to rule.

Mr. Dillon said the fact that nine out of ten people in Ireland were on the side of the government was due to the life work of the Nationalists, and now the present rule was "washing out that life work in a sea of blood."

Reliable Woolen Fabrics Must Be Searched For

Never before was the textile market so unreliable for the buyer of woolens. Real woolen fabrics are scarce and almost unprocurable, even by paying big prices.

Thus the wise man who is suit buying will seek a store which has built up a reputation by giving material that wear has proved to be exactly as represented. The Fashion-Craft name indicates such a store—a store where courteous, able clothiers will show you fabrics of proved good-wearing merit.

Fashion-Craft stores offer you a varied stock of materials—bought long before the market was upset. The quality of these clothes ensures substantial, durable service, service which makes the buying of a suit no longer a speculation but an interest-bringing investment.

LITTLE GREY CHECKS The season's favorite. Special show at Yonge Street stores. At special prices. In three shades. \$15

THE DIXON Unusually smart is the appearance given by the high-waisted effect of this model. "Different" touches that heighten its stylishness are given in the long-peaked lapel and rounded patch pockets of the coat which closes with one link button. \$20, \$25 & \$30

THE YORK The man who wishes for smartness and yet looks for it in the cut rather than in the details will be pleased with the Dixon model. The perfect neat roll of the notched lapels, the straight front of the shapely-cut coat, and the straight trousers give a dignified smartness that appeals to most good dressers. \$20, \$25 & \$30

SCIENTIFIC MINING Cobalt Only Prelude to Wonderful Resources of Northern Ontario.

Special to The Toronto World. COBALT, May 10.—A return to Cobalt as a new silver and a wage-earner after an absence of some years was bound to awaken many memories and...

The reopening of Gifford Cobalt, Rochester, on a sound mining basis, and the discovery of promising veins with a few weeks of their resumption of work.

SILVER PRODUCTION SHOWS A LARGE DECREASE

The zenith in silver production for a period of years seems to have been reached in 1911, when the world's production was 251,000,000 ounces.

The wonderful records of Beaver and Timiskaming with the production of 14,000,000 ounces of silver to their credit, and the renewed production of Timiskaming since coming under the management of the present directorate.

NEWS OF SPECIAL INTEREST TO WOMEN

BEAUTIFUL MILLINERY FOR MIDSUMMER WEAR

Many New Ideas Launched When Exclusive Shops Display Latest Models.

PASTEL TINTS PREVAIL

Brimms Wide and Narrow, But Crowns Always High and Often Trimmed.

Summer millinery is now being shown in all its airy beauty, and judging from the array of pretty new shades exploited, the season promises to be an extremely colorful one. Large models assuredly have the preference so far, and, if the profits are as reliable as ever, the devotees may safely choose an enormous brimmed chapeau as her dress hat for the approaching weather. Pastel tints, of course, enjoy an easy lead, and either separately used or daintily combined, the effect is equally pleasing. As regards the actual modelling of the hat, in most instances it is extremely simple, graceful, sweeping lines, ruling in place of more intricate designs. Trimmings are many and beautiful. Ostrich feathers, curled or straight, are much in favor, while wonderfully made flowers, ribbons, extravagantly brocaded or perfectly plain, fancifully formed ornaments and jeweled fruits are all given their place of favor on midday's best hat. Sometimes a model is large without being large of brim. Crowns run to an enormous height, whether of their own accord or with the help of lofty ornaments. One pretty leghorn model illustrated this feature successfully. Made with an artistically drooping narrow-edged brim, dipping back and front, the square-cut crown rose to an extreme height, and with the aid of widely pleated tulle appeared still taller. A wreath of tiny silk roses in pale pink, blue, lavender and yellow encircled the crown, top and bottom. Silver foliage and rhinestone centres added an unusual touch distinct and lovely.

TORONTO IS SCOURED BY WOMEN WORKERS

Second Successful Day in Campaign in Aid of Women's Hospital.

Another day of endeavor was put in yesterday by the workers on the campaign in aid of the Women's Hospital. From early morning until well in the afternoon the campaigners scoured the city, going, in some instances, to its far-out extremities, where likely prospects were to be located, and the workers are still optimistic and hoping to reach the goal they have set themselves.

The biggest thing that came to them yesterday and made the smiles radiate from the faces of the entire group of campaigners, was the cheque from Lady Mackenzie for the nice sum of \$1000. Dr. Caroline Brown was the jubilant medium through which the gift came to the hospital. Another handsome contribution was that of \$200 from Mrs. Hendrie, sent with the good wishes of the donor, and brought to headquarters by the popular daughter of government house. The campaign continues today, which being the third day of the drive, is looked upon as the lucky one, and the workers are hoping the citizens of Toronto will correspond to the instincts of tradition and carry out the story of their hearts by contributing to the cause of poverty with courtesy, generosity and good will on such occasions, and when courtesy and generosity go hand in hand the happiness of the collectors runs correspondingly high.

DAUGHTERS OF EMPIRE, Q. O. R. CHAPTER MEETS

A most representative meeting of the members of the Queen's Own Rifles Chapter, I. O. D. E., was held in their rooms in the Excelsior Building Wednesday afternoon, Mrs. Leveson, president, presiding. Interesting reports from the different committees were read, showing that much useful work is being accomplished. Special mention was made of the Red Cross work, which will be continued as long as necessary.

MRS. JARVIS DEAD.

Mrs. Caroline Skynner Jarvis, widow of the late F. W. Jarvis, sheriff of the County of York, and whose death occurred on Wednesday, was past president of the haven, honorary president of the Nursing Home Mission, and one of the last surviving chartered members of the Protestant Orphan Home. She is survived by her daughter, Mrs. R. L. Brydges, wife of Rev. Capt. Brydges of the 13th Battalion, and two sons, Fred C. Jarvis, barrister, and E. M. Jarvis of the crown lands department, parliament buildings.

KNITTING CLUB ENTERTAIN.

The new home of Mr. and Mrs. Fred Foray was placed at the disposal of the Knitting Club of Our Lady of the Sacred Heart, when a delightful evening was spent in October. The club, prepared by Mrs. Foray, Mrs. Vandine, the president of the club, received with Mrs. Foray, the entertainment was given by the committee. Proceeds for the benefit of the club.

Thin Men and Women

Here's a Safe and Easy Way by Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently unloading the assimilative functions of the stomach and intestines to absorb the fat and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge; and the fat-making elements of which it is being deprived by the failure of the alimentary canal to take them from the food. Sargol, the famous flesh-building agent that has been so widely sold in America in recent years. Takes a little Sargol, tablet with every meal and see if your cheeks don't quickly fill out and roll of firm, healthy flesh over your body, covering each body angle and projecting point.

All good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces. It is guaranteed in each large package, it is inexpensive, easy to take and highly efficient. If you find a druggist who is unable to supply you send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antonio street, Montreal will be sent you post paid, in plain wrapper. NOTE—Sargol is recommended only in cases of nervous indigestion, etc. have been reported, care should be taken about using it unless a gain of weight is desired.

MADAME O'GORMAN IS VISITOR IN TORONTO

Touring America in Interests of French Hospitals—Tells of Work There.

An interesting visitor in the city is Madame O'Gorman, wife of an officer of the imperial army, who has been as near the front in Flanders as it is possible for any woman to get. Her position as a soldier's wife of 20 years' standing had made Madame fairly familiar with military hospitals, and former knowledge, together with that gained during the past year, is of a most extensive character.

Madame O'Gorman is here in the interests of the French hospitals. The best hospital that France today has 6,000 hospital beds, and some of them having as many as 1000 beds. Credentials are from the French and British governments, and her particular work is to collect for many of the poorer hospitals in France.

Anyone with the name which Madame bears would be expected to know something about Ireland, and this is what she says: "Ireland has done splendidly. Out of her small population she has furnished 150,000 volunteers. As for the uprising, it is nothing."

Madame further states that while in St. Louis recently she learned on the part of the Irish-American community that the Irish-American war veterans were in St. Louis, and she was in town until next Wednesday, and is the guest of Mrs. L. A. Hamilton.

NEW HOSPITAL OPENED BY PRINCESS LOUISE

Daughters of Empire Institution for Canadian Officers Completed.

HAS TWENTY-FIVE BEDS Building Furnished by Col. and Mrs. Gooderham of Toronto.

LONDON, May 11.—Princess Louise today opened the Daughters of the Empire Hospital for Canadian Officers at Hyde Park, furnished by Colonel and Mrs. Gooderham, Toronto, among those present were: The Marchioness of Lansdowne, the Countess of Minto, Countess Grey, Lady Mountstephen, Lady Strathcona, Sir George and Lady Fox, General Carleton Jones, Colonel Peterkin, Colonel Armour, Sir William and Lady Osler, Lady Drummond, Colonel Hodgkiss, Major Badgerow, Mrs. Barwick and Mrs. and Miss Leggat. The hospital contains 25 beds and will receive patients on Monday.

Colonel Hodgkiss, in thanking Her Royal Highness for her attendance, said the furniture and equipment, at the desire of Colonel and Mrs. Gooderham, would at the conclusion of the war, be given to the British Red Cross for the Star and Garter Home at Richmond for the permanently disabled. He also expressed the belief that there was not a finer officer's hospital than this one which, the intended primarily for Canadians, would receive others.

Hon. Arthur Stanley, chairman of the British Red Cross, in thanking Colonel Gooderham for the prospective gift, said the British Red Cross had invariably received most splendid assistance from Canada, £200,000 or £400,000 of the £900,000 received on the special collecting day coming from the Dominion.

FRENCH TAX RECEIPTS.

PARIS, May 11.—The government tax receipts for April show a gain of 10 per cent, as compared with the corresponding month of last year, and a deficit of 13 per cent, compared with the normal figure.

GERMANS MAKE BLUFF OF RAISING BIG ARMY

BERNE, May 11.—It is stated that 2,000,000 fresh troops have been massed on the German western front. One-third of this number, it is said, have seen active service, while the others are young men trained in garrisons during the winter. There is reason to believe that the statement emanates from German sources and that the figure is grossly exaggerated.

GERMAN SOCIALISTS SHOT.

Their Offense Was Distribution of Pamphlets in Trenches. GENEVA, Switzerland.—(Via Paris, May 11.)—The Socialists report they have received information to the effect that three German officers and 32 soldiers, all Socialists, have been shot for distributing in the trenches a pamphlet concerning the second Socialist peace conference at Zimmerwald, near Berne. At this conference proposals were made by Socialists of many countries against methods of warfare which they regarded as barbarous and adopted by the Germans.

Why Your Pulse Varies According To Your Exertions

By DR. LEONARD KENNEDY HERRING

M.B., M.A., M.D. (Johns Hopkins University)

THE pulse is the barometer of health. It is the throbbing vibration of your blood-fed engine.

Exertions are standardized according to the number of pulsations. When your engine puffs and throbs according to the standard for the average man, your pulse "beats" from 70 to 75 times in the minute.

The interpretation of the pulse-rate in relation to health is once suggested by the bearing of the pulse in the daily routine of man.

Diary of a Well-Dressed Girl

By SYLVIA GERARD

How She Helped Edna Complete Her Costumes With Charming Accessories.

NO ONE ever accused Edna Yarnall of being stylish. She has always been so interested in things outside of society that she never would bother about clothes.

We spent three whole days buying her summer outfit, and it was almost like shopping for a bride.

I have always looked longingly at the lovely handbags, parasols, gloves and neckwear that are marked with figures that scare one.

But I was totally unprepared for the marvelous change which these dress fixings really brought about.

She wore a frock of black and white Georgette crepe and taffeta, and a violet Milan hat banked with flowers.

Then there is a large and infinite variety of sandwiches to be made from chopped peanuts or peanut butter.
