MANY WOMEN VIEWED MILLINERY EXPOSITION AT M. R. A. LTD. TODAY

New and favored hat styles for the autumn and winter seasons made their initial appearance in the M. R. A., Ltd., millinery salon today.

There's a soft lustre in the tones of velvets, bengalines and hatters' plush used as foundations and such shades as a shutter green, Lady Diana blue, Penny brown, Wall Flower and Pantry tints are new and vastly becoming.

Other hats were equally interesting, and you are cordially invited to view them tomorrow—the second day of the exposition. Varieties are so comprehensive now and hats so fascinating, you'll find it a very opportune time to select the ones you'll be needing for fall and winter during the exposition days.

Hon. P. J. Veniot, Premier of New Brunswick, was one of the distinguished visitors at the exhibition yesterday. The Premier was greatly impressed by the fair and said last night he considered it was far better even than last year.

ST. JOHN, N. B., SEPTEMBER 4, 1924

NEXT WEEK'S CONVENTION.
The meeting of the Association of Canadian Clubs in St. John next week will be an event of national interest and importance. Delegates will be here from all the provinces, and even far off Vancouver and Victoria will be represented.

Since there are no less than seventy-six clubs affiliated with the Association, and quite a number which are not, it is clear that the Canadian Club movement has established itself very firmly in the Dominion. The two clubs in St. John have been very successful from the date of their organization, and have provided a forum for the discussion of provincial, national and international subjects of great interest. Indeed the Canadian Club inaugurated the custom of get-together luncheons in this city, that is now through the activity of other clubs an accepted feature of city life.

The convention next week will discuss many questions of national importance, and it will give citizens of different parts of the Dominion an opportunity to compare notes and get each other's point of view. A very cordial welcome will be extended to all the visitors, and the hundreds of members of the two local clubs will no doubt feel it incumbent upon them to see that the most favorable impression is made upon the minds of men and women from other parts of Canada.

The city's reputation for hospitality is high, and should be enhanced on this occasion.

It would have been a notable feature if the visitors could have seen the exhibition so successfully conducted this week, but it will be possible to show them much that will be of deep interest to them as fellow Canadians.

The desire for unity of spirit in Canada is strong in Canadian cities, and members in one section of the country should take pains to familiarize themselves with any bars to unity which may exist in any other. Moderately, but firmly and clearly, the western visitors should be made acquainted with the situation in regard to the Maritime Provinces, since there is a barrier to the development here of the national spirit so greatly desired.

The first thought of our people, however, will be that of hospitality, and every effort must be made to ensure the comfort and pleasure of our guests.

THE AMERICAN FLIERS.
The official assignment of the American fliers was "to bring to the United States, the birthplace of the airplane, the signal honor of being the first nation successfully to circumnavigate the globe by air."

The task is nearly finished. What remains offers no obstacle not easily overcome. The progress of these intrepid men has been followed with a very keen personal interest in Canada, and in the world at large. They braved great dangers, endured hardships and came through without serious mishap. They deserve the very warm welcome they have everywhere received, and the wonderful reception their own country will tender them.

Commenting on their achievement the New York Herald-Tribune says:—"The purposes of the flight were not essentially spectacular. The intention was to demonstrate the feasibility of air communication and transportation between continents; of long flights far removed from ordinary trade routes; to stimulate the adaptation of aircraft to the needs of commerce; to prove that the present type of aircraft can operate under all climatic conditions. From the commercial viewpoint the expedition undoubtedly has provided valuable experience from which trade may eventually profit. But the journey was also a glorious adventure and for the moment its practical results are outweighed by the fact of its accomplishment. The navy, an indisputable factor in the Atlantic crossing, shares with the army the credit for the auxiliary service that made the trip possible. The aviators themselves have given an example of skill, courage and perseverance of which the country may well be proud."

THE EXHIBITION.
After today there will be but two more days of the exhibition. No previous fair had a more auspicious first day, but the weather made conditions rather unfavorable for a large attendance on Tuesday and part of yesterday. The citizens will have the more reason to make the most of the remaining time, and not only make a careful survey of the varied exhibits but by their presence support the Association in its effort to conduct a valuable community enterprise.

The Made-in-St. John exhibit has attracted universal attention and is a revelation to most citizens as well as to visitors. It ought to be a lasting inspiration to our people because of the evidence displayed that St. John as an industrial centre is by no means losing

it will have added another to its already notable achievements. French block, but a way may be found to establish confidence and take another step in the direction of permanent peace.

A vast population in China is both ignorant and indifferent to the rival ambitions of leaders in two provinces, who now seek to wipe each other off the map. The situation is nevertheless fraught with great danger, and is a menace to commercial relations with other countries.

♦ ♦ ♦ ♦ ♦

Hon. Mr. Meighen agrees that the Maritime Provinces have grievances. The difficulty is that what is apparent to the man seeking power becomes obscured when he gets into office. At least that has been too much the experience of these provinces.

The Ottawa conference on unemployment now in session ought to be able to devise plans for relieving the situation which invariably arises in Canada in the winter season. Recognition of the national character of the problem is a hopeful sign.

UNEMPLOYMENT RELIEF.
(Observer in The Observer, London.)
Mr. Snowden's suggestion that the unemployment problem might be solved "if we could get the millions of Chinamen to wear their shirts two inches longer" has a sound economic basis, and all that is wanted is a persuasive enough sartorial missionary. Experiment has been made on our own basis, and during the war we were conscious of a painful curtailment of the intimate garment, no doubt sniped by the scissors of a younger sister of Dora in the interest of national economy.

Or the missionary might achieve his object in another way. Bishop Wellwood tells in his "Recollections" how a cotton magnate once told him that the trade would be safe for many a year "if the Chinese would only take to blowing their noses in a civilized fashion."

WEDDINGS

Miller-Fox

The Fairville Methodist parsonage was the scene of a pretty wedding yesterday afternoon, when Rev. James M. Rice, pastor, solemnized the marriage of Miss Florence Isabel Fox, daughter of Mr. and Mrs. Andrew Fox, of Collins street, Fairville, to Blair Adams Miller, son of James Miller, of Boston, formerly of St. John, in the presence of relatives and friends. The

bride was becomingly attired in navy blue polart twill with grey velvet hat trimmed with grey ostrich feathers, and tricotie blouse to match. She carried Ophelia roses. She was attended by Miss Lilla Jennings, who wore a smart suit of blue polart twill and grey hat with bouquet of sweet peas. The groom was attended by Percy Fox, brother of the bride. The groom's gift to the bride was of gold and to the bridesmaid, a sapphire ring. The best man received a pearl stick pin. After the ceremony the bridal party were given a buffet supper at the home of the bride's parents. The house was

A. L. Peirford, 187 Waterloo street. The bride, who was given in marriage by her cousin, Sergt. G. H. Baxter, 168 St. James street, was becomingly gowned in navy blue satin and wore a beautiful pearl necklace and a white hat trimmed with moss roses. She was attended by Mrs. G. R. Baxter and the groom was supported by George Kearney. The bride has been practising her profession as nurse in Boston for several years. Human Fly Is Killed In Fall

Chambersburg, Pa., Sept. 4.—George Oakley, "human fly," of Pasadena, Cal., died here of injuries received in a fall from the fourth story of a bank building, standing himself by clinging with a cane to an automobile inner tube which his wife held down to him from the windows above. The tube broke and Oakley plunged to the sidewalk.

Autumn Modes With Myriad New Style Notes

Cool weather will be with us any day now. It's time to be considering what the new wardrobe will be for the autumn season and still colder months to come. Visitors in town as well as others will find this an excellent time to select fall garments from a varied collection of beautiful and distinctive new modes. Let us show them to you on Friday.

New Fall Coats and Wraps Are Exceptionally Lovely

Materials are especially charming, among the newest being the beautiful wool de laines, flamingo cloths, ribbed velours, suedettes—and other smooth surfaced or velvety fabrics destined to be in demand for fall and winter wearing.

Furs are used extensively as trimmings and are seen on collars of ample size, bands to finish barrel sleeves, borders for skirts and in other attractive ways. Among the new shades you'll note particularly, meadow lark, burnt russet, shutter green and various shades of brown. The silhouette most in favor is loose above the waist line tapering in ever so slightly at the hips and descending with decided slimmness to the hemline. Coats with the new vestees are also among fashion's favorites.

Many of the new fall coats are very moderate in price.

Dresses are Slim and Very Straight.

Some of the newest ones are entirely beltless. You're bound to like the fall models in silk crepes and satins. Many of them are decidedly plain, however you'll find some very smart frocks with trimming touches of contrasting embroidery, rows of tiny buttons, pleated overskirts and colorful pipings on neck and sleeves. The new fall shades are interesting and becoming. Among them the new "Lady Diana" blue.

Fall Suits Have Longer Coats

Some very wearable and good-looking suits in navy blue have coats of almost seven-eighth length. These are plain and semi-tailored with finishings of strappings to match, rows of stitery or buttons cleverly arranged.

(Costume Dep't.—2nd Floor.)

Gloves and Handkerfs, Also New Purks,

Such important accessories must not be overlooked. You may choose them here and know your selection will be in accordance with the prevailing mode. Fall Gloves are showing in Chamoisette, Heavy Silk, Jaeger wool, and the celebrated "Reynier" and "Pezzer" kids in two dome and cuff styles. Handkerchiefs in pure Irish linen with corners embroidered in new bright shades are new and very attractive. Hand Bags may be selected in the novel flat underarm shape now so popular or in the jaunty pouch style that seems always fashionable.

(Ground Floor.)

New Fur Coats Luxuriously Beautiful

Never have we shown a more tempting or luxurious variety. You'll be interested in the new models of Zealand Beaver—a fine imitation of genuine beaver but very moderately priced. Newest Coats of Hudson Seal, Electric Seal, Persian Lamb, Muskrat, and Blended Opossum are in self trimmed varieties or trimmed with collars and cuffs of contrasting fur. The new side fastening is proving a favorite with women who like to dress well and you'll find it well represented here. Quality, pelt, lining and all the details of fine finish that go to make fur coats of quality are noticeable in the new Fall array.

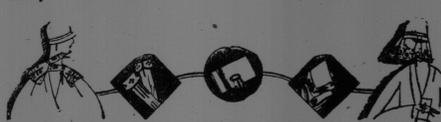

Fall Hats Lend Charm

Our Autumn Millinery Opening is now in progress and reveals new style ideas you'll want to know about. Square crowns slightly higher than for the previous season are among the newest innovations, while high trimmings, combinations of two materials for hat foundations, feather ornaments of softening varieties, chous of self material and other features stamp the collection as fashion's own. There are many new and very becoming shapes and colors. Small hats are still in high favor, but there are larger ones for dressy occasions too.

Hosiery Styles Vary

It's considered quite the fashionable thing to wear sheer silk hosiery of some light shade, such as grey, nude, apricot or camel. You'll find these shades in our stock along with others of more practical variety. Prices range from \$1.50 to \$5 pr. Artificial Silk Hosiery in black, white and colors—the fashionable 5-2 rib, \$2.10 pr. Besides these we have Jaeger pure wool hosiery in heather mixtures, \$3 to \$4.75 pr.; Silk and Wool Hosiery in many qualities, 85c. to \$2.50 pr.; Boys' and Girls' Golf Hose in browns, greys and heathers, 65c. to \$1.00 pr.

THE SCHOOLS

The city school attendance for the opening day was well up to the usual standard this year. The parents this year applied in larger numbers for the necessary school permit before the opening day, thus only 71 appeared yesterday at the school trustees' office, compared to more than 100 last year, in spite of the fact that the total applications exceeded those of 1923.

Enameled Woodwork as Beautiful as China and as Easily Cleaned

There is no improvement one can make in a house that adds so much to its value, desirability and charm as pure white Luxeberry enameled woodwork.

If you have an apartment that is difficult to rent or a house that is hard to sell, Luxeberry Enamel will go far toward solving your problem and increasing the financial return.

To get more comfort and satisfaction out of your home, to make it a more delightful place to live, you should call in a Luxeberry Master Painter and have him work veritable miracles with Luxeberry Enamel.

Don't be fooled into thinking that white enamel is "white" enamel and that there is no difference between brands except the cans and labels.

Luxeberry White Enamel is the only pure white enamel manufactured. Properly applied it never discolors, cracks, peels or chips. One coat is far superior to two coats of most other enamels. These points make it well worth demanding. Be sure and specify it. You'll like it. Good paint and hardware dealers everywhere sell it.

BERRY BROTHERS WALKERVILLE, ONT. ENAMEL SPREADS CONTENTMENT. Dade and replied to by Miss Florence Leonard. Following the dinner the hostesses and guests enjoyed a hearty social evening. The entertainment was thoroughly enjoyed by everyone and was one of the most delightful events in the history of the Training School.

Your guests are never embarrassed

It really is embarrassing when the salt hardens in the shakers and your guests are unable to coax enough salt from them to make the food palatable. But with Sifto Salt this never happens! Sifto Salt never lumps or hardens no matter how damp the weather. It is a constant delight after embarrassing experiences with ordinary dry-weather salts. Sifto Salt is the ideal table salt—pure, sparkling-white, always free-running.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

GENE TIPPETS' FATHER LIVED FOR MANY YEARS OVER IN FAIRVILLE

Star Ballplayer in One Sense is a Local Boy—The Real Story of How Tippetts Stuck by the Vets—Expects to Return Next Year.

Of all the professional ball players who have been appearing in St. John for the last few years, there are few indeed the fans will concede as good as Gene Tippetts and when he left for his home in Boston Monday night, he carried with him the best wishes of the baseball fraternity hereabouts and hope of a return next spring. Gene expects to be a proud daddy very shortly and this explains the rather worried look he has been carrying the last few months. Despite that worry, he has turned in the best baseball he has ever shown the fans here and has more than proved his ability on many occasions in the box and at bat. In addition, he has proved a valuable utility man, playing practically every position on the War Vets' team outside of catcher.

It comes as a rather pleasant shock to most local fans here to know that Gene in one sense is a local boy. His father, Frank Tippetts, lived for many years in Fairville and was a brother of Oscar and George Tippetts, still living. This gives Gene several close relatives in St. John. His father left here when young and moved to Boston, where Gene went to school and developed a love for America's national pastime. He has played with Rochester.

Tippetts has played ball with Rochester in the International League and in the Three-I League, but liked it light and barnstorming ball better. After making a fine reputation in Boston, Gene came here in 1922 as manager of the Auburns and played many close contests with local and outside teams. He returned next year and played with the War Vets in the two-I League, being the mainstay of the team. He pitched good ball and batted hard but he never showed as much stuff as this year in playing with the War Vets. On one occasion, Gene turned in 34 consecutive scoreless innings and unofficial averages give him about 12 wins and about half as many losses for the season. When it is considered that Tippetts was opposing some of the strongest touring teams in the United States, including the Detroit Clowns, the Detroit Tigers, the Philadelphia and Cleveland Giants, not to mention the vastly strengthened Fredericton and Moncton outfits, some idea of his real worth can be appreciated. His teammates also were not setting the grass on fire with their hitting and that makes his performance all the more impressive.

How He Stuck to the Vets. The story of how Gene stuck to the locals when they were in a hole here has never been told before, but here are the facts as they unfolded in the Vets' management. It is no secret that the Vets are considerably in the hole financially and when things looked black a few months ago, they decided to cut Gene's salary \$20 a week. Just at that juncture, Tippetts had a fine offer from an outside point and was on the point of accepting when Caruthers, a southpaw, jumped to Yarmouth. This left the Vets without a helper for Tippetts. When Gene heard of it, he immediately informed the local management he would accept the cut and stick to St. John in the championship series. At that time, remember, Gene's wife was in the hospital and he was under a heavy expense. Tippetts and the Vets knew that if he left, professional baseball would go on the rocks here. So, he stayed though at a financial loss. When he accepted the final offer from Moncton, the season was over here and he could not afford to remain here at a financial loss in justice to himself and his family. This is the inside story on how Gene Tippetts, dubbed by many of the fans as a crabber and a "poor loser," stood by the Vets at a big sacrifice to himself. It should make the fans ready to welcome him with open arms next season if he can be persuaded to come down.

It is Tippetts a poor loser? Candidly, we do not think so. No one ever accused Gene Tippetts successfully of being a loafer. He is in the game every minute and it would surprise the fans to know how deeply Tippetts and the rest of the boys took a defeat. Nor did anyone ever hear Gene Tippetts crabbing continually over the umpire's decisions. He was fair

SPRINGHILL IN BASEBALL FINALS

Liverpool, N. S., Sept. 3.—Springhill defeated Liverpool, 7 to 4, here this afternoon in a game played in the semi-finals of the Nova Scotia amateur baseball championships. The locals did all their scoring in the first inning, while the visitors did not get a start until the second when they made two runs. Rourke of Springhill and Thorburn of Liverpool each scored a home run. Springhill now plays Westville for the championship of the province, the title to be decided on the best three out of five games. The first two games will be at Westville on Sept. 10 and 11, and the next two at Springhill the following week.

PREDICTS FIRPO WILL DEFEAT WILLS

Gives Senor Luis Edge Due to Strength and Aggressiveness. If Harry Wills assumes a horizontal position in the bout with Senor Luis Angel Firpo at the Royal's Thirty Acres next month, it will mean a long, hard winter in the Harlem-cool and coked belt. Also, it will mean that travelers will have to tender more than the conventional two bits to the Putman porters following such a calamity. The tip has been circulated from San Juan Hill to 138th street that Harry Wills will win by a knockout, and nearly all of the funds of the colored cuties are being invested in Senegambian Stevedore Preferred, says W. O. McGehee in the Boston Post.

This season he has topped the National League hitters virtually from the start of the campaign.

Willard Crocker, Canadian Davis Cup stay, defended his shirt in the exhibition matches at Rothsay yesterday afternoon, but followers of the game who were present are unanimous that the local boy was way off color and did not put up the brand of game that has made him the outstanding player in the eastern province. Crocker won, 6-2, 6-2. "Phil" Hallisey put up a great light against Jack Wright, the other Davis Cup player, but lost out also, 6-2, 6-3. In the doubles match between Jack Thomson and Jack Frith and Jack Wright and Louis Robert, the visiting players again won handily, 6-2, 6-2.

EPINARD SLUGGISH, SAYS HIS TRAINER

Hopes the Next Race Will Show French Colt at Best. "Epinard was in good condition and ran a good race, but he was sluggish and did not have the speed that he has shown before," said Trainer Eugene Leigh after the race at Belmont Park Monday. "He did not start fast, and being caught in a pocket at the turn home he was handicapped. When Haynes let him out he responded, but he did not have the vital spark of energy that has characterized him before. I believe this was due to his not having raced for some time. I said before the race that I would feel better satisfied if Epinard had a race under his belt. Of course, this couldn't be. His time trials had indicated the speed that I know he is capable of."

DERMUTATION (The Mennen Beard Softening Process) A Remarkable Scientific Achievement. AFTER years of research and experiment the Mennen Laboratories have discovered a process of ACTUAL BEARD SOFTENING. Scientists call it DERMUTATION—the changing of the character of the hairs of the face from wiryness to a soft pliability. Just dip your brush in any water—cold or hot—hard or soft. Squeeze out a half-inch of Mennen Shaving Cream and you have an instant, cozy lather, that at once begins to soften the beard, so that the razor slides through without pull or irritation. Buy a tube and test this DERMUTATION—this remarkable Mennen process.

ST. JOHN WINNERS AT THE EXHIBITION

Awards in Arts and Prizes at the Flower Show.

Awards were completed yesterday in the Art Club show in connection with the St. John Exhibition and many visitors thronged this popular section of the fair during the afternoon and evening. Several new pieces of art are on show this year and considerable interest was manifested in the display of model yachts and other vessels, which was a new feature this year. A model of the steamer Olympic, 60 inches long and complete to the last exterior detail, was awarded a special first prize. It is the work of E. H. Carter, acting United States consul here, who did the work in his leisure hours during the last ten months with nothing but a small pen-knife! The model is made of one-eighth inch pine planks laid on a frame of 24 pieces, the fastening being done with 2,000 half-inch common pins. Another model awarded a special first prize was that of a sailing ship exhibited by Mrs. R. Richard, Hexton. The judging of the model yachts was carried out by Captain A. J. Mulcahy and Fred S. Evans. The awards were as follows: First, Calvin E. G. Hampton, F. W. Silliphant and John O'Neil; second, C. L. Moford, Master; third, H. Silliphant, F. W. Logan and one without a name.

CIGARETTES WIN.

Berlin, Sept. 4.—The cigarette has become exceedingly popular throughout Germany, and more cigars and pipe tobacco are being consumed since the war than in any other period. Recent statistics show that the imports of raw tobacco have increased considerably as compared with those prior to the war, and this despite the decrease of the German population.

SEIZURE WAS MADE BY CUSTOMS MEN

Allege Liquor Taken on the Red Head Road was Smuggled.

The seizure of 70 cases of liquor on the Red Head road between 6 and 7 o'clock on Tuesday evening was made by the Canadian Customs officials, as the liquor was alleged to be smuggled goods. Excise Officer George McSherry located the cases of liquor piled on a large automobile truck, and he took charge of the alleged contraband. The owner of the truck, who also was the driver, was taken before Collector C. B. Lockhart, and, said, declared that he did not own the liquor, but refused to divulge the real owner's identity. The customs officials are working for the case and are said to have a clue to the owner's identity. The local customs officials have been suspicious of smuggled liquor was being stored some place along the Red Head road, and they have been watching for some time. They secured this driver's number, it was said, on a former occasion when he was supposed to have a load of liquor, but they did not succeed, at that time, in capturing him with "the goods."

The case is being considered at present by Collector Lockhart under the laws governing smuggled goods. Later a charge may arise under the local prohibition act for the truck driver having liquor in his possession in other than his private dwelling. A decision is expected from Collector Lockhart within the next day or two.

WOULD SEE MORE TRADE WITH INDIES

T. G. Grant, Commissioner, in St. John Today, Meets Business Men.

T. Geddes Grant, Dominion Trade Commissioner to the West Indies with headquarters at Trinidad, arrived in the city yesterday on his annual trip to Canada to confer with exporters and importers in this country who are interested in trade with the West Indies. Mr. Grant will be here today and tomorrow and during that time he will be glad to meet any person interested in increased trade between Canada and the West Indian Islands. An appointment can be made to meet him by calling the Royal Hotel or the Schofield Paper Company's office.

Speaking to Times-Star reporter this morning Mr. Grant said there was a keen desire on the part of those resident in the West Indies for closer trade relations with Canada but unfortunately for the last three years the market price of their staples had been hindered trade. The prospects were brighter now and he looked for increased business during the coming year. Dependence depending chiefly on its gold and diamonds for prosperity but the extreme drought had made it almost impossible for boats to ply between the coast and the interior, thus cutting off trade. On the coast there had been heavy rains and communication had been opened up again.

Trinidad, Grenada and St. Lucia depended largely on cocoa and had suffered because of the low price of this article. In the last six weeks there had been an increase of about 22 per cent and this was most satisfactory to the producers. He said Trinidad was gradually becoming the headquarters of the British West Indies. Canada was represented there by the Presbyterian Mission, which had established schools and colleges, and by many business houses. The Canadian banks represented there were the Royal Bank, Canadian Bank of Commerce, Bank of Nova Scotia and the Bank of Montreal is interested in the Colonial Bank.

Under the existing treaty between Canada and the West Indies, he said, there should have been established an improved steamship service between the two countries more than two years ago but owing to conditions created by the war this had not yet been done. The Canadian Government however had the matter under serious consideration and realized the necessity of bettering the service in the interest of trade and commerce.

Since coming to Canada Mr. Grant has visited Toronto, Ottawa and Montreal. While in the former city he attended the National Exhibition and was highly gratified at the extent of the fair. From here he will go to Halifax.

THIRD TAKEN IN BAD MONEY CASE

Hugh Langille Joins Veinottes—Allege He Bought Bills in States.

Hugh Langille, aged 19, was taken into custody last night at Gardner's Creek by Sergeant Detective Power and Detective Biddlecombe on a charge of receiving money under false pretenses by passing a worthless Mexican bank note on John England of Haymarket Square. He was in the police court this morning and remanded until tomorrow. He makes the third young man arrested in the Mexican bills case. Veinotte brothers being arrested Tuesday night.

It was alleged today, the police say, that young Langille purchased a number of Mexican bank notes from a party in the United States for thirty-five cents and with the exception of one sold the rest to the Veinotte brothers. The one he retained was somewhat similar to an ordinary \$10 bill and he is alleged to have passed it on Mr. England after making a five cent purchase.

GUEST AT SHOWER. Miss Nellie Riley was a guest of honor at a novelty show held last evening at the home of Mrs. George Miller, 254 Brittain street. She was the recipient of many beautiful presents. During the evening bridge and music were enjoyed and refreshments served.

HAS GAINED SIX OUNCES. The founding that was sheltered by the Children's Aid Society on Sunday is doing well. Matron Leth reported this morning that the tiny girl, who weighed only six pounds on arrival there, has gained between six and seven ounces and is now bright and lively.

EXPECT TO PROM HERE. A letter received at the office of the Board of Trade this morning from the president of the Maritime Board of Trade stated that from present indications there would be a large number of delegates in attendance at the meeting in Kentville on September 16 and 17. It was hoped that at least ten would go from St. John.

INFORMATION SOUGHT. Rupert Taylor, postmaster at East St. John, this morning received a letter from Downing, Wisconsin, asking for information about Jerry or Robert Howe, said to have lived in Park avenue in 1920. Mr. Taylor does not remember the man, and if any person can give any information about him they may communicate with Mr. Taylor.

BROACHING CARGO ALLEGED. John Balfour and Harry McKennie were taken into custody yesterday on a charge of broaching cargo on the S.S. MUST NOT TAG. Commissioner Harding said this morning that his attention had been called by complaints that certain young ladies were accosting citizens, pinning badges on them and then demanding payment for the same. He said they were taken into custody yesterday on a charge of broaching cargo on the S.S. Arakaka and of using abusive and threatening language to Captain L. J. Clark. They were brought before Magistrate Henderson in the police court this morning and were remanded on a request from the prosecution, it is expected that the case will be taken up tomorrow or on Saturday.

KEPEPEC BRIDGE. A prominent citizen who travels over the Westfield road every day, this morning spoke of the new bridge at Kepepec and asked when it was going to be completed. He said that not only was the surface of the road left in bad condition, no gravel having been placed on it, but that the approach on the Westfield end of the bridge had been left so that some night some motorist would go plunging into the gulley at the side. He suggested that a fence be placed across the old road at this point at once.

LIKELY OFF TILL SPRING. Commissioner Prink this morning said that he did not think the case of St. James street would be proceeded with this fall. He had just been notified by the New Brunswick Power Company that it would be impossible for them to get steel here before the end of September and this would mean that it would be in October before the work could be commenced, and this was late for a job of this size in this climate. The sidewalk work had been begun and they would be carried forward, but the street surface would probably have to be left until the spring.

COMES TO OLD HOME AFTER 48 YEARS

Cornelius McCarthy Glad to See St. John is Springing Ahead.

His first visit to St. John in 48 years has convinced Cornelius McCarthy that a vast and noticeable change for the better has taken place here, with promise of a bright future. Mr. McCarthy, old-timer will recall, worked on the Marston boat, on leaving for Boston, went to North Attleboro, Mass., where today he holds the responsible position of foreman of the sawmills. He visited the dry dock yesterday at East St. John and pronounced it a wonder, and said he was mighty glad St. John was now forging ahead.

Mr. McCarthy left today for Peterborough, where he will look over the old McCarthy homestead before returning to North Attleboro. While in St. John he stayed with Mr. and Mrs. John Bain, 11 Sewell street. He was accompanied here by his daughter, Mrs. James Cleary, her husband and son, and his other daughter, Miss Mina McCarthy. The party plans to return to New England tomorrow.

ARTHUR HERE ON HER LAST TRIP THIS SEASON

With 126 passengers and a fair-sized general cargo, the Eastern Steamship liner Prince Arthur arrived in port this morning a little before 10 o'clock direct from Boston. She was two hours late, the delay, being occasioned by the wireless apparatus. She will leave here tomorrow night on her last trip of the season and will take away a capacity passenger list.

Among the passengers who arrived this morning was Rev. C. A. McKenzie, C. M., of Philadelphia, who is a member of the Vincentian Fathers, who is en route to Cape Breton to preach a series of missions. While in the city he will be a guest of Mr. and Mrs. James B. McGrath, Clarendon street. Miss Chapman, who is a nurse in training in the Boston General Hospital, arrived, en route to her home in America, where she will spend a vacation.

MAY EXTEND FIRE DISTRICT

Simonds Fire Board Has a Meeting—Painting Tender is Awarded.

A meeting of the Fire Board, Fire District No. 1 (Simonds), was held in the new fire station, near Edith avenue, last evening with Chas. C. Weldon, the chairman, presiding. Councillors Geo. H. Simpson and J. C. Dalziel, who had been invited to be present for the inspection of the new building, were in attendance, as was also Deputy County Secretary Ross. All expressed themselves as much satisfied with the design, material and general workmanship of the structure, and considered that the district was now in a fair way able to settle one of its own problems, the extinguishing of fire. An inspection of the hose truck and other equipment was made and also a survey for the installation of other hydrants, with the expectation of extending the fire district eastwards another 1,000 feet approximately, thus giving protection to almost every house in East St. John and giving the fire district a range of 2,000 feet.

The contract for the painting of the building was last night awarded to M. Giggiey of Loch Lomond road, whose tender of \$48 was accepted. Other tenders received were: John E. Courtney, \$148; Jos. H. McKennie, \$110; J. H. Tonge, \$65.

NEW S. A. LEADERS REACH ST. JOHN

Major and Mrs. Thomas Burton Were Welcomed This Morning.

Major and Mrs. Thomas Burton arrived this morning from Halifax to take charge of the St. John Division of the Salvation Army, in place of Brigadier Burrows, transferred to Toronto. They were met at the depot by the city officers of the corps and arrangements have been made for their public reception next Monday and Tuesday evenings, when Colonel Miller of Toronto will be here for the ceremonies. Major Burton has been actively connected with Salvation Army work for 27 years. He has been stationed during the last five years in the Maritime Provinces, three years in charge of the Nova Scotia Division at Halifax and two years in charge of the Cape Breton Division at Sydney. This is practically his first visit to this city, as the only other occasion he was in St. John was for one day two years ago. Before coming to the Maritime Provinces Major Burton was in Montreal for two years as young people's secretary. He was also stationed for two years at Hamilton, Bermuda, where he had charge of a corps and was also generally in charge of work on the island. Major Burton's home was in Barrie, Ont., while his wife's home was in Dundas, Ont. She was formerly Lieutenant F. M. Smith. Both Major and Mrs. Burton hope for great success during their sojourn in command of this division. Major Burton's public reception tendered him on his arrival this morning.

Brigadier and Mrs. W. H. Burrows and family left yesterday afternoon for Toronto, where they will take up their new post in Salvation Army work. Many friends of Brigadier Burrows and family assembled at the depot to wish them every success in their new field of endeavor. Staff Captain and Mrs. Ritchie and their children, Pearl and Riley, of the Salvation Army here, left yesterday for Sydney, N. S., where they will be attached to the corps' headquarters.

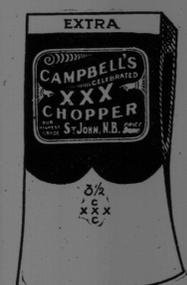

TRAVEL HEAVY. The Boston train was 35 minutes late arriving this afternoon owing to delayed connections on the Maine Central. In addition to the regular cars several additional Pullmans were brought back yesterday from Boston. The Montreal train followed the Boston and was about 15 minutes behind her schedule.

BANK CLEARINGS. The St. John bank clearings for the week this year amounted to \$4,210,640, for the same week of 1923 they were \$2,640,878, and for 1922, \$2,610,012. The clearings at Halifax for the week were \$2,628,735.49, and at Moncton \$803,350. It is said the big Fraser Company lumber tract deal, referred to the other day, helped swell the week's St. John clearings.

As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "a poor fellow with a wooden leg unstrapped it for ease and lay down on a park bench in New York. He fell asleep and somebody stole the leg."

"Well," said Hiram, "that ain't bad fer a case of meanness—but you don't hev to go to New York. Now there's Silie Jones out to 'The Settlement. He got one of them there Mexican bills that some smart feller worked off on him and he put it in the collection plate fer the widders' an' orphans. You don't hev to travel fer to run up agin some feller that 'ud rob his mother if he wanted the money. I come pooly near makin' a grab las' night myself, down to the exhibition. I went broke on them there rotary an' Trojan wheels an' a feller alongside of me hauled out a wad that 'ud choke an' I seen there he put it—'an' if I hadn't tanger the Catechism when I was a youngster, I'm feared I'd hev blowed in that feller's lob, too—By Heav'!"
