BOY IN FEARFUL CONDITION ON A FARM IN WEST Sensation Aroused Over Trial of Farmer and Wife on Manslaughter Charge. Calgary, Feb. 11.—Edward A. Raney, a farmer eight miles north of Red Deer, and his wife, have been on trial for the last few days, at Red Deer on a charge of manslaughter, following the discovery of a lad named John Woolley, who had been their chore boy, in a terribly bruised condition. The boy was brought to a hospital the other day and died. Both feet were frozen, the fingers were rotting and he was almost skin and bones from malnutrition. The case has aroused a tremendous sensation in the neighborhood. The case will be concluded today. The parents of the boy went to Peace River last summer to hunt land.

BOSTON TAILORS STRIKE AGAINST THE OPEN SHOP Boston, Feb. 11.—Custom tailors belonging to the International Journeymen Tailors Union struck yesterday after the Merchant Tailors' Exchange had declared for the open shop. For several weeks conference have been in progress over wages, the journeymen contending for piece-work system. This makes the third group of workers in the clothing industry here to resist the open shop. The Amalgamated Clothing Workers of America, composed of workers on men's ready-made garments was the first to oppose it and the women's garment workers went out on strike yesterday.

STEVE IS 66 BUT IS SOME SPORT New York, Feb. 11.—Stephen O'Brien, sixty-six years old, an amateur skating champion of more than forty years ago, wore another medal on his chest today as a result of a skating feat performed last night. He negotiated thirteen miles on a twenty lap to the mile track in fifty-eight minutes, two minutes less than the record sought. He sprang the last two laps, gave an exhibition of fancy skating and then engaged in a strenuous game of hockey, substituting for one of his sons.

WAS POLICEMAN SHE HIRED TO END HUSBAND'S LIFE Now They Have Philadelphia Woman Under Arrest on Conspiracy Charge. Philadelphia, Feb. 11.—Accused by the police of having paid Wm. Belsham, head of the police "murder squad" \$75 to shoot and kill her husband, Mrs. Edna Murphy, herself not arrested charged with conspiring to commit a felony. According to the police, Mrs. Murphy first planned to kill her husband, George Murphy, herself but not able to summon sufficient courage. So she offered Belsham, whom she supposed to be a gunman, \$75 to do the deed. The police accepted the money and waited for the preparation of the deed. Mrs. Murphy was arrested after the shooting when the woman entered a certain drugstore. Then he made the arrest. The police say the motive of the crime was to collect Murphy's insurance.

STRIKES ON TURTLE REEF. New York, Feb. 11.—The U. S. Shipping Board steamer Westford, bound from Bremen for New Orleans, struck Turtle Reef, Florida, at 8:30 p. m. yesterday. The coast guard cutter Tallapoosa had gone to her assistance. Ballast being discharged to lighten the disabled vessel.

ALLEGED CHIEF OF BOY GANGSTERS GIVES HIMSELF UP New York Detectives Question Him About Big Theft of Liberty Bonds. New York, Feb. 11.—Tony Vanilla, alleged "chief" of a gang of juvenile gangsters, who has been sought since last November in connection with the theft of \$446,000 worth of Liberty bonds from two messengers of a Brooklyn bond firm, surrendered late last night to District Attorney Lewis in Brooklyn. He was held on charges of robbery, assault and grand larceny, and was taken before detectives for questioning regarding the bond theft. Lewis announced recently that \$238,000 worth of the bonds had been recovered, having been returned here from Memphis, Tenn., bank where they had been taken as collateral on a loan. The persons who obtained the loan failed to return the bonds were sold to banks here. Investigation led to the discovery that they were the bonds stolen from the Brooklyn firm.

STOCKS STRONG AT MONTREAL OPENING TODAY Montreal, Feb. 11.—The local stock exchange was exceptionally strong during the early trading this morning. Laidlaw rose a quarter point from its closing figure last night to 51, while Atlantic Sugar strengthened 3/4 to 82 3/4. Brazilian closed yesterday at 81-1/2 and sold this morning at 81-1/2. Brompton was unchanged at 82 3/4. Lauriat was fractionally stronger at 89 1/4. National Breweries was steady but unchanged at 53 1/4.

GENERAL BEYERS, one of the prominent Nationalists of South Africa, who contested the elections against the party of General Smuts. The balance of Dutch opinion swung back decidedly towards him. In the Transvaal and the Dutch speaking districts of Natal the Nationalists only about held their own, but in the Orange Free State the spirit of Heratog still seems to be irresistible. The victory, however, by no means ends Premier Smuts' difficulties, the Times adds. Wisdom, no less than generosity, makes the reconstruction of his ministry desirable in order to give the Unionist section of his party proper representation. The Daily Telegraph says the result is the noblest triumph that Smuts has won in his whole brilliant career. He was absolutely right, the Telegraph says, in declaring that the victory of Heratog would have meant another civil war. A special cable to the Telegraph says it is anticipated that Gen. Smuts will have seventy-five or seventy-eight supporters in the new parliament, the total membership of which is 184. The Daily Mail says the Smuts administration has under consideration the question of maintaining a resident South African minister in London. Wall Street Journal.

MATTER OF FORD FACTORY HERE The mayor and city commissioners yesterday visited the vicinity of Albion street in connection with the proposed side track along that street to the projected Ford factory. While it is not definitely known that the Ford people will locate in that vicinity, the proposition looked over yesterday was a side track running from the C. N. R. Court-may, Day line where it crosses Albion street to the lot owned by J. A. Grant & Co., on which the construction of several schooners was carried out within the last few years. One of the city commissioners said this morning that the Ford company was figuring on a lot at least three hundred long. Another site in the south end of the city, which already has rail connections is also spoken as a probable location for the Ford plant, should the Albion street site not be decided upon.

Philadelphia, Feb. 11.—The weather bureau here today issued the following change in storm warnings from Boston to Delaware Breakwater: Storm centered off the New Jersey coast will move east-northeastwardly attended by strong northwest winds and gales.

STORM WARNING New York, Feb. 11.—The weather bureau here today issued the following change in storm warnings from Boston to Delaware Breakwater: Storm centered off the New Jersey coast will move east-northeastwardly attended by strong northwest winds and gales.

REJECT PLAN TO CURTAIL THE JAP NAVY ARMAMENT Tokyo, Feb. 11.—The house of representatives yesterday rejected by a vote of 380 to 286 a resolution offered by Yukio Kato, minister of the interior, for or opposition, partly, proposing a curtailment of naval armaments. General Tani, on behalf of the government delivered a speech on the conditions in China and Siberia, which he declared were unsatisfactory, and said that therefore Japan was unable to reduce her proposed army and naval developments.

THIRTY DEAD IN WIND STORM Tornado Sweeps Over Part of Georgia—Whole Families Wiped Out. Ocoee, Ga., Feb. 11.—The death toll in a tornado that swept through the Gardner settlement near here yesterday is about thirty. The list of fatalities included two whites and more than a score of negroes but some of the injured, chiefly negroes, were expected to die. The business district of Ocoee and nearby towns and the injured and homeless were being cared for by the Red Cross and civic organizations. Identification of the bodies continued slow but it was ascertained that in some cases entire families had been wiped out.

MR. REEK WARNS OF TUBERCULOSIS IN OUR CATTLE Speaks Particularly of Ontario—Sees Argentine Contamination Threatening. Petrolia, Ont., Feb. 11.—The alarming increase of tuberculosis in cattle throughout Canada, particularly Ontario, was asserted to be one of the most important questions in the live stock industry, by W. R. Reek, assistant live stock commissioner, dispatching from department of agriculture, who addressed 200 farmers here last night. Mr. Reek said that 202 per cent of the hogs shipped to Toronto abattoirs last year from Kent county alone were diseased with tuberculosis and that Lambton county showed very closely with a large percentage. He attributed this increase of tuberculosis in hogs to the diseased stocks of cows and applied to farmers to do everything in their power to combat the disease. In urging the farmers to produce higher grade stock, Mr. Reek asserted that unless they do so the Argentine reputation, which is Canada's close competitor in exporting live stock, will step in and secure the bulk of Canada's present trade.

PROBATE COURT Sentence on granting letters of guardianship was passed in the matter of the estate of Agnes Jack, infant, only child of James Jack, deceased. The probate value was \$2,000. L. P. D. Tilley was appointed guardian with power to sell certain portions of the estate. In the matter of the estate of Thomas G. Dwyer letters testamentary were granted to his widow, personality \$1,800. W. M. Ryan was named as executor. The will of James Keenan was probated appointing his widow and Richard P. Hatchford executors, personality \$4,600. W. M. Ryan was executor.

STUDENT PAPER DEFENDS SHORT SKIRT AND DANCE Pittsburg, Pa., Feb. 11.—The short skirt, as decreed by present day fashions, is approved, and dances of the day are defended in an editorial in this week's issue of The Tartan, official student paper of the Carnegie Institute of Technology. It says the short skirt gives to women and girls "plenty of freedom to move as nature intended she should," and it terms the fashion "sensible." On the subject of dancing, The Tartan declares that "we have attended several dances during the last week, and no shocking décolletés were noticed, except possibly on matrons who should have known better. The 'shimmy' is spoken of quite heatedly, but we have never seen it carried to the extremes which others have about, and we have attended a few parties."

TWO WOMEN; ONE MAN CAUGHT Chicago Police Think it Whiskey Ring Plot—Seize Liquor Worth \$80,000. Chicago, Feb. 11.—Chicago police yesterday sought from Detroit authorities information which might aid them in clearing up what was thought to be an international whiskey ring plot following the arrest of three persons and the seizure of liquor valued at \$80,000 at a Hyde Park residence. The prisoners, who said they were from Detroit, gave names as Mrs. Zoe Miller Haury, Mrs. Mary Kolowsky and J. E. McGrath. Two men escaped. The police believe the liquor was sent from Quebec.

MORE INCOME RETURNS MADE Number Returned During the Prescribed Period More in Proportion Than Last Year—Making Up Assessment. Although all the income tax returns which should be the board of assessors' office at city hall have not yet been received, the proposition of those returned this year during the prescribed time was greater by far than last year, so E. Murray Olive, the chairman of the board, said this morning. The board has not yet had the opportunity of checking all those received yet, as those mailed yesterday were delivered only this morning. While no time extension has been granted for the return of the forms, and those who did not have their returns in last night are subject to double assessment, exception has been made in cases where a justifiable cause for delay is shown. Consequently several forms were returned personally this morning. As soon as all the returns are in, the assessors will start work to make up the assessment for 1921.

BACK UP SENTRY WHO SHOT U. S. NAVAL OFFICER

Tokio, Feb. 11.—Formation of an association to support the cause of Toshiro Ogasawara, a Japanese sentry who shot and killed Naval Lieut. Luncheon of the U. S. cruiser Albany at Vladivostok late in December, has been decided upon by a group of army reservists here. Members of the association are descendants of the "Edokko," the original natives of ancient Tokio, who were renowned for their chivalry. It is urged that a petition be sent to the court martial which tried Ogasawara, asking for his release and declaring that his punishment would destroy military discipline.

At a meeting of the different church teams at Bond's last evening optimistic reports were received, and already \$20,000 have been subscribed, with several more to be heard from. R. T. Hayes, M. L. A., presided, and addresses were delivered by Howard P. Robinson and Rev. Harry B. Clark.

PLEASANTLY SURPRISED.

On Monday evening Mr. and Mrs. J. H. McLeod were pleasantly surprised when about forty of their friends invaded their home at 344 Lancaster avenue, West St. John, and after congratulating them on the anniversary of their wedding, presented to them a magnificent electric parlor lamp. Needless to say, they were delighted. Those present participated in games, dancing and music after which luncheon was served and the gathering broke up about two o'clock after a very enjoyable evening, and with all good wishes for their host and hostess.

MR. MEIGHEN'S PROBLEM

One result of the West Peterboro election has been that rumors of immediate reorganization of the cabinet are afloat. The Standard's Ottawa correspondent says: "The decision to re-organise the cabinet meets with almost unanimous approval in the government ranks. There is no doubt the re-organization will be rapid and thorough, and the result in West Peterboro may not have been such a disaster if this is accomplished. It certainly has strengthened the prime minister's hands, and he can now set to work to reconstruct an administration at any time, but more so during a session, yet the situation is acute and action cannot be delayed. There is one cabinet vacancy now, the department of state; three of the present ministers will retire and a new department of soldiers' welfare be created. To the administration will be added seven ministers and a solicitor-general. Of the new ministers, five will have portfolios and two will enter the government without portfolio. Three of the new ministers will be from the west, two from Quebec and two and one from Ontario. The maritime provinces representation will remain unchanged."

ROADS AND MOTOR TRUCKS.

In an article on the importance and value of good roads, published in Canadian Finance, Mr. James W. Davidson of Calgary gives some striking facts regarding the use of motor trucks made possible by well-constructed roads. Mr. Davidson pleads for a national highway across Canada from the Atlantic to the Pacific, and in the course of his article refers to what has been accomplished in the United States. We quote: "To explain the possibilities, it is interesting to note an Akron, Ohio, firm maintains a regular freight service between Akron and Boston, a round trip of 1,480 miles. The 740 mile run is made one way in four days against ten to fourteen days by rail. So important is this now considered that a cross country highway from Detroit to New York is kept free of snow all winter. A truck from Akron made the 633 mile run to New York in January in 49 hours actual running time, crossing the Allegheny Mountains in a snowstorm, and with a temperature of thirteen degrees below zero. This year, plans have been concluded to keep a number of other road-trucks free of snow. So you realize that the short haul freight business is destined to be handled everywhere by motor trucks, and is today so handled in many sections in the United States. In southern California, for instance, nearly all the short haul light freight is handled by trucks. In the Imperial Valley, the truck transport companies advertise delivery at all points in the valley in 24 hours after receipt of goods at the warehouse door in San Diego—a hundred miles or more distant. On the great system of paved roads there, one frequently sees an ordinary truck with one driver hauling three trailers. This makes very cheap transportation. Trucks handling wholesale shipments take delivery at a Los Angeles warehouse and deliver at the door of the retailer. It is also illuminating and impressive to note the extensive use of trucks in farming communities apparent from the statistics of the city of Indianapolis, Indiana. There are large packing houses in this city and stock yards from which shipment is made to Chicago packing houses. The daily average of hog receipts for the month of December, 1919, reached 6,800, and of these 4,800 approximately were brought in by truck against some 2,000 by steam railway. Hog receipts by truck for the entire year averaged 2,600 daily as against 400 daily by truck in 1918. In addition to hogs there were brought in by truck 45,000 cattle, 1919 to Indianapolis, 45,000, and 63,000 calves and 69,000 sheep. Between 1918 and 1919 there was an increase of 37.5 per cent. in the stock hauled by truck. With the increase in rates on the railroads the question of using truck highways for the transfer of freight is of increasing interest, and the question of good roads is invested with far greater importance for the people. The time is not far distant when the motor truck will play a much larger part in the business of these provinces, and to that end a constant policy of road improvement is essential. It will benefit all classes in the community."

WHY NOT CHANGE IT?

The Standard wants the Meighen government retained in power, and yet, speaking of the proposed cabinet re-organization, it says: "As usual the maritime provinces get the small end of the deal; their representation in the government remains unchanged. They have one representative each. Some people talk about maritime union; maritime separation would seem to be more in order in view of the very cavalier treatment that these provinces of ours always get from the Ottawa authorities."

THE NEWFOUNDLAND SOCIETY IN THIS CITY

The Newfoundland Society in this city makes its contribution to civic welfare by bringing together the men and women from the Ancient Colony who have made this city their home, and, while keeping alive the associations and traditions of the home-land, instilling into all minds the principles of good citizenship in St. John, and the loyalty to the Empire which is so marked a characteristic of Newfoundland people.

TRIPLETS NOT HER OWN

Atlanta, Ga., Feb. 11.—Mrs. F. E. A. South, who last month started Atlanta with the announcement that at the age of 32 she had given birth to triplets, has acknowledged in a statement that the three children, together with six others in the South home were obtained from founding institutions.

ONE WAY TRAFFIC.

There is only one road to the town of "Success." The name of the road is "Work." It has room for only one kind of guest. Traffic is blocked to those that shirk. The road is open all hours of today, it heeds neither time nor date, and now is the time to start on your way, for tomorrow will be too late. Nearly all of the way is an uphill road; it will be a hard climb, but once you get going you will find it all right. You will pass through many towns each day. Such as Failure, Gloom and Despair; At each of these stations just keep on your way, for "Work" does not tarry there. After you have entered the town of "Success," you will find it all right. Once you get going you will find both comfort and rest. Just be thankful you started for there. —Dale Newell Carty, in Forbes Magazine (N. Y.)

IN LIGHTER VEIN.

She was a pretty and ambitious girl and had studied the matrimonial problem to a nicety. "Yes, I suppose I shall wed eventually," she said, "but the only kind of masculine nuisance that will suit me must be tall and dark, with classical features. He must be brave yet gentle. Wealth he must be strong—a lion among men, but a knight among ladies." That evening a bowlegged, lath-framed youth, wearing check trousers and smoking a cigar, came rattling on the back door and the girl knocked four times and a cut-glass fruit dish of the sideboard was brought to get to him. A woman went to her doctor, complaining to him of her husband breaking out into violent tears and asked if he could recommend a cure. "I have an excellent water which I give to most of my patients who suffer from weeping," he said. "Should your husband become violent again, you need only take half a cupful of the water in your mouth and spit away. Repeat the dose in very severe cases." The water was ordinary well water. The result was domestic happiness. "No, sir," stormed the pure-blood parent. "I will never, never consent to your marrying my daughter."

GOULD CASE SETTLED.

Counsel Did Not Appear in Supreme Court. New York, Feb. 11.—When the case of Esté Epi Lefkovich Blum against Kingdon Gould, son of George J. Gould, for \$50,000 for an alleged breach of promise to marry, was called for trial on the calendar in the Supreme Court before Justice Hotchkiss, counsel for neither litigant responded. Failure by either side to answer the call of the calendar was interpreted to mean that later in the day the formal order for a discontinuance of the case would be presented to Justice Ford in the ex parte branch of the court so that the case would be officially closed. Although neither side would disclose the amount of the settlement, rumor had it that it was more than \$50,000. Counsel for the plaintiff stated in chambers before Justice Finch that Mr. Gould's attorneys had offered \$10,000 to have the case dismissed, while expressing the conviction that the young woman did not have the slightest legal grounds for pressing her suit. The plaintiff obtained her divorce from Dr. R. Blum on June 6, 1917. She asserted that it was young Mr. Gould who advised her to get the divorce and that he promised to marry her. Instead of marrying her, however, he married Miss Luce, an artist. Mrs. Blum's counsel consented to a settlement of the case out of court was the aversion jurists have to granting damages to any woman who promises to marry someone before she is divorced.

GROUNDHOG DAY

The Day of Groundhogs closer grows—let nothing you deject! The groundhog then will break his doze, the climate to correct, and all the banks in town will close, in token of respect. Throughout the months of snow and rime, the lusty groundhog snores, but soon, with motives most sublime, he'll quit such drowsy chores; in every state, in every clime, the banks will close their doors. The groundhog, from sleep's shackles loose, comes from his hole, kerflop, and if no shadow he'll produce, he'll bid the winter stop; and, having such a good excuse, the banks will shut the shop. Will simply have to freeze till winter fades away; and, noting all such facts as these, the banks will close all day. The groundhog is a wise old beast, he does not rank with bores; he gazes west, he gazes east, and then resumes his snooze; and bankers say, "By Judah's priests! We'll have to close our doors." The hold-over bank and fast and workdays are but few; 'twas different in the gaudy past, before my nose was blue; then bankers didn't close, dog-dag, whenever a cow cried "moo!"

"TRAGEDY" ENDS IN MERE FARCE

Detroit Man Stages "Suicide" and Ends Up in Chicago Jail—Wife Will Prosecute. Detroit, Feb. 11.—Clark W. Himes, "suicide," has gone on the boards. He staged what he thought at the time was a first-class mystery, "slaying" himself as the victim, and leaving his automobile beside the bank of the Detroit River and some of his clothes nearby sprinkled with rabbit's blood as indicating the "tragedy." He also left his wife and three small children. Himes was captured this week in Chicago, and will be brought back here to stand trial on charges of destruction and for attempting to defraud an insurance company out of a \$5,000 policy. Himes "murdered" himself last September. A card and some letters left beside the blood-stained clothing furnished a clue to his identity. His wife declared he had left home the day previous. She stoutly refused to give the slightest credence to the murder theory, and the day after Himes left she swore out a warrant for his arrest on charge of desertion. "I want him brought here so I can prosecute him," said the wife. "I never thought for one minute he had been killed. That rabbit-blood thing is a stunt just typical of him. He is a silly man I know who would think up such a silly thing to do."

CONCERNING THE SCHOOLS.

To the Editor of the Times. Sir:—While I fully concur with "Experience" and "Parent" in their opinions regarding the question of corporal punishment (at least) for children either in school or at home, and especially in the matter of failure to learn the "three R's," I am usually given for home study. Why hold the scholar responsible for the results of an antiquated school system? It appears that we lack progress in our methods of instruction to an almost equal extent as in our preparation of the children for school. While new schools of a progressive type are springing up in other countries, especially in that of our nearest neighbors, we seem to be satisfied to "sit tight" and ponder over such deep and momentous questions as the one asked, which in any one of the new type are absolutely unnecessary and never occur. All forms of progressive education today have as their chief object the freedom of the school child, freedom of thought as well as movement—freedom, not license. Our present system seems rather to inhibit than to develop our children's initiative in thinking and in acting; inhibits imagination and proper self-expression, creates diffidence and general backwardness, with the natural result of lack of interest and even distaste for lessons and school. Then why think or hope to punish a love for study into the child? It would seem almost human reasoning to spare the question of punishment in the dark past and progress to the point of asking how best to create a desire to learn and advance in the young forming minds, which are so susceptible to proper well meant suggestion from both teacher and parent. Much the nervousness of our school-children at the present day is attributable to the unrelenting almost brutal custom of long, unbroken hours in school—sometimes without regard to even physical necessities; "set" lessons, and fear of some sort of punishment, which is so susceptible to intellectual adaptability; the "yearly" grading instead of essential intellectual grading; long hours of home study plus the lack of proper time for physical exercise and mental recreation. Many of the children in our public schools are unable and unfit to learn these set home lessons because of being "graded," pulled over into the next grade as it were, along with other scholars who have found it no difficulty to make high marks on all subjects all through the year. The stupidity of being "punched" child is judged in the light of the high standing graded child. The almost ceaseless ambition and endeavor of the first child "to grade," also, soon brings results detrimental to the physical and mental health. A "PELLER'S FRIEND." Note.—This correspondent is in error in assuming that pupils in school-rooms are pushed ahead in the grades. The percentage of those not graded because of failure to make the marks is quite large enough.—Editor, Times.

Admiral Grayson Surprised at Wilson's Improvement. Washington, Feb. 11.—Admiral Grayson, President Wilson's physician, who has himself been ill for three weeks, was surprised to find how his distinguished patient had improved when he saw him the other day for the first time in more than a fortnight. While Dr. Grayson was ill President Wilson went to the theatre for the first time since he was stricken a year ago, ventured out riding for the first time unaccompanied, and undertook to supervise some of the work on his new home. "I found the president so much im-

SAYS WIFE PAINTED HER EYES BLACK

This Was to Give Impression That Husband Had Been Beating Her.

New York, February 11—Charging that his wife entertained a man who leaped through a window when he returned home unexpectedly, that he discovered her making love to another man in the hallway of a public school, and that she painted her eyes black so that neighbors would get the impression she was being beaten by him, August Abreo, an engineer of the Central Railway of New Jersey, is suing in the court of chancery, Jersey city, for absolute divorce.

On the other hand, Mrs. Hannah Abreo, his wife, has filed a counter-suit for divorce, in which she charges desertion. In her petition she makes several charges against her husband, in one of which she names a woman. She also enters a categorical denial to his charges. Mrs. Abreo lives at 84 Jones street, Jer-

sey City, and her husband lives at 281 avenue C, Bayonne.

All the charges in the petition of Mr. Abreo are based on statutory grounds. He declares in one of them that he returned one afternoon and surprised two men in his home. One of them leaped head first through a window to the yard, he says, and adds that when he asked his wife who he was she told him it was the janitor. He declares his wife refused to reply to suggestions to the effect that it was contrary to custom for janitors to leave apartments by way of windows.

At another time, acting on the tip of a friend, he said he surprised his wife in the arms of a man in the hallway of a Jersey City school. Shortly after this, when the Abreos lived at 48 Grand avenue, Jersey City, he alleges that his wife appeared in the apartment of Mrs. Bertha Schramm, who also lived there and displayed two black eyes. The petition adds that Mrs. Schramm was not convinced and that she angrily rubbed a finger over one of them, leaving a white streak where black paint was rubbed off. In the petition of the wife, a denial is made to all the charges. Mrs. Abreo declares that her husband and all his witnesses are lying.

At one time, Mrs. Abreo alleges, she surprised her husband drinking beer in

**WORKING TOWARD
BETTER TIMES**

**Business Forces Building
Sound Business Structure
for 1921, Says Financier.**

America does not need a boom period to be prosperous, and the substantial factors of our national wealth will eventually bring about adequate revival of industry and commerce. It was declared last night (Friday, February 4, 1921) by James S. Alexander, president of the National Bank of Commerce in New York, speaking at a dinner of the Association of Stock Exchange Firms at the Hotel Astor, New York.

"There are at present a number of great business forces clearly at work building a sound business structure for 1921," said Mr. Alexander. "Supply and prices are becoming broadly co-ordinated to demand. The improvement in the liquidity of credit, which is now in progress, must develop further, but there are signs that improvement there will continue. As those movements are fulfilled, as wages and labor are realigned to new conditions and as business finally absorbs the losses incident to deflation stabilization on the new level will become an accomplished fact."
"The beginning of the year 1921 has auspicious aspects in the rapid, yet orderly, way in which these great corrections are progressing. The year must be judged then, not so much by the volume of business that will be accomplished in it, but rather by the sounder conditions which will prevail, marking the definite return to a new era of business fundamentals."
"Normal activity must come from within business rather than from without. Business cannot idly wait for the public to resume active buying."

must stimulate buying by establishing a wide prevalence of substantially reduced prices for goods which must be based on increased efficiency in production and distribution, and the acceptance of reasonable margin of profits.
Labor Gaining Efficiency.
"In this connection the growing tendency of labor to become more efficient and its willingness to accept some liquidation of inflated wages is a most encouraging circumstance. From more than one point of view the readjustment now going on in respect to labor supply and demand is beneficial to the individual worker. The excess of jobs over workers, inflated wages, and lax supervision from employers which characterized the boom period were all influences upon labor contrary to its best interests."
"Radicalism, encouraged by labor scarcity, invaded and depreciated the quality of labor as a component in our national economic life. High wages brought extravagance that soon reacted in rising prices, reducing the buying power of those very wages so that labor's gain was more apparent than real. There also developed a demoralization of individual efficiency because men were not kept on their mettle by competition for work and advancement."
"With the return of more rigorous conditions it is becoming clear that the best interests of conscientious labor are served by a more normally balanced relation between labor supply and demand. Competition for work means the stimulation of efficiency and staunch Anglo-Saxon individualism as opposed to radicalism. An abundance of labor permits employers to choose workmen intelligently and to coordinate wages to their proper part in production costs, facilitating the establishment of price levels best of all."
"But employers must play fair and not attempt to lower wages unduly or to enforce greater curtailment than circumstances warrant. They must recognize that, in any country worth living in, the standard of living tends ever upward. Wage earners in the United States are entitled to the opportunity to receive more than merely the means for a bare and joyless existence in return for real work well done. Any other attitude on the part of the employers would be a menace not only to the orderly readjustment of existing conditions, but also to sound business progress in the long run."
"I believe we are justified in confidence that these elements of progressive readjustments which are working toward better times are now greatly in the majority. The true need of business is, not stimulation of the forced-draught order, but rather a conservative response to better conditions as they develop. Such conservative, yet confidently progressive course, is the only basis for business success this year, as distinguished from the feverish way in which business was conducted during the war and post-war period."
"Intrinsic values, which have not suffered the violent fluctuations of prices, must again be visualized in their true proportions, Mr. Alexander pointed out."

MANY MILLIONS FOR GOOD ROADS
In an appeal for larger expenditure on the roads of the western provinces James W. Davidson of Calgary writes to Canadian Finance as follows:
"Let us see what is being done immediately to the south. We frequently hear the argument used that the United States are big in population and wealth."

Let us find some fair basis of comparison. Montana immediately to the south of us is about the same in population as Alberta, but has not the same wealth. One of its best roads, that from Grand Falls to Butte via Helena, runs for most of its distance of 188 miles through a barren, uninhabited district. It had appropriations available in 1920 of \$6,988,000 against Alberta's \$1,500,000. In fact, it is spending considerably more than the amount expended by our three prairie provinces.
Other states with a single year's appropriation are Arizona, population 272,000, \$8,500,000; Idaho, population 461,000, \$7,878,000; Oregon, population 888,000, \$122,016,000.

"Oregon is putting down cement paving along its portion of the Coastwise Pacific highway. California, with its 6,000 or more miles of paved highways, has voted \$40,000,000; and Minnesota \$100,000,000, and the latter state has appropriated \$100,000 merely to let the tourist know that Minnesota's beauties will soon be accessible. New Mexico, one of the poorest states in the union, with none of the great resources of this province and only 487,000 population, will expend during the three years, ending with 1922, \$12,000,000 on roads, \$4,500,000 of which they are drawing from federal government. How can the poorer states obtain these funds? It is done almost entirely by the sale of bonds."

COAL IN ALBERTA.
Alberta coal production in 1920 reached a record figure. Shipments for the twelve months will total about 6,050,000 tons, as compared with 5,622,412 for the preceding year. During the eleven months to November 30, last, Manitoba took 516,198 tons of domestic and steam coal, with an additional 1,101 tons of anthracite, as against a total of 314,290 tons in 1919. British Columbia took 108,430 tons of domestic and steam coal, a gain of nearly 20,000 tons over the preceding year. Shipments of 10,688 tons were made to Toronto and other Ontario points, as compared with 1208 tons for the year previous.

Milton Kinneer, a former resident of Cookville, is now located in that part of the country. Mr. Tingley is on his way home.

BOYS' INDUSTRIAL HOME
Mayor Schofield was at his desk in city hall again this morning after being in Fredericton yesterday in connection with matters pertaining to the Boys' Industrial Home. As it had been decided to move the home from here to Fredericton, his worship said that he could say nothing until he had made his report to the board of governors of the home.

MILITARY RUMOR
There was a rumor prevalent in the city this morning that the next feature of the administration of the Department of Soldiers Civil Re-establishment for the maritime provinces would be centered at Halifax. The report had it that the patients in the hospital at Fredericton would be removed to the Lancaster hospital here and as they were discharged, the hospital here would be closed and the administrative office moved to the Nova Scotia capital. The reports, however, lack confirmation.

MRS. JANE MCKAY.
The death of Mrs. Jane McKay, widow of Absalom McKay, occurred February 8 at her home in Shanauin, N. B., after a very short illness. She was seventy-nine years of age and leaves to mourn one sister, Mrs. Joseph Campbell of Tynewood Creek; three sons, James of Bath, Me., and George and Robert of this city, and three daughters, Mrs. Charles Patterson, Mrs. George Capson of this city and Miss Jennie M. at home. The funeral was held on February 10, services were conducted by Rev. Mr. Wetmore of St. Martin's and interment was in West Quaco cemetery.

McAVITY DANCE.
The second informal dance of the season was held at the Studio last evening when about 100 members and friends of the McAvity Athletic Association thoroughly enjoyed a programme of sixteen dances and extra's. The chaperons were Mr. and Mrs. J. B. Ham and Mr. and Mrs. W. G. Stratton. Refreshments were served by a committee composed of Misses Edna Carriek, Emma Rice and Irene O'Brien, and Messrs. W. R. Daye, C. Bewick and W. McBride. The dance was pronounced a great success, and is only the beginning of many good times promised by this energetic association.

MEN OF THE S. S. METAGAMA SHOW APPRECIATION

That the strangers who come within our gates appreciate the efforts of the people of St. John to make their visit a pleasant one is evidenced by a letter received by F. W. Hewitson from the Service and Athletic Club of the C. P. O. S. steamer Metagama which sailed from here on Wednesday. The rewards along with other members of her complement were entertained on Monday evening by the Y. P. A. of St. Paul's church, and themselves contributed no mean part of the programme. The letter is as follows:

S. S. Metagama S. & A. Club, St. John N. B., Feb. 9, 1921.
Dear Mr. Hewitson:—
Before we sail let us once again endeavor to express our deepest gratitude for the manner in which we were received on Monday evening last. One could not help but admire the social feeling which existed, a point which speaks highly for St. Paul's Y. P. A. I am sure that each and every one of our boys enjoyed himself thoroughly and I only hope that the people of St. Paul's enjoyed themselves as much. Long may the ties of friendship which have now been made remain unbroken. Will you please convey to the Archdeacon our sincere thanks for his hearty co-operation, also to the ladies who so willingly and industriously helped us during the evening, not forgetting of course, the committee of the Y. P. A. whose untiring efforts intermingled with our small attempt produced a very pleasant and enjoyable evening. Once more thanking you one and all on behalf of our club and wishing your Y. P. A. every success, I beg to remain
Yours very sincerely,
(Signed) R. BEATS,
Chairman.

A COMING ST. JOHN MALE CHORUS

Last evening the Apollo Male Chorus held its weekly meeting in the choir room of the Central Baptist church, under the direction of A. M. Brander. The chorus, although in its infancy, has already made splendid progress. The object of the chorus is to take up the best male chorus work, and special study in breathing and breath control, etc., which is already proving a great benefit to each individual singer and also a great help to church choirs and the community at large. This work is very valuable to men who love singing. It was unanimously agreed to meet every week for the purpose of having a few minutes' exercise in breath control and instruction on the voice in general before the usual practice. After a good rehearsal, the members were in for a good treat in the shape of refreshments, which were provided by the ladies of the Central Baptist choir. After a hearty vote of thanks had been tendered the ladies for their kindness to the chorus, the meeting was brought to a close with the singing of Dudley Buck's Lead, Kindly Light.

POLICE COURT

The attention of the police court this morning was taken up with a case against James Coveny, charged with discharging a revolver in Mill street and also with obtaining a meal at the Asia Cafe and refusing to pay for it. A plea of guilty was entered and he was remanded for sentence.

Allen Albert of West St. John was charged with using abusive and threatening language to John Paris, also of the West Side. He pleaded not guilty. The complainant and Louis Baird gave evidence, and the accused denied the charge. The case was postponed until Monday afternoon. The accused was allowed to go on bail furnished by two barristers who were in court. J. A. Barry was his counsel.

NEWFOUNDLAND CITIZENS HERE HAVE BANQUET

Love for Homeland, Loyalty to Empire Prominent in Speeches—A Good Programme.

That the Newfoundland Society of St. John is a flourishing organization was proved by a banquet in the Orange Hall last evening, when the members of the society and the Ladies' Auxiliary crowded the large hall, at tables set for the occasion. It was an inspiring sight to see these men and women from the Ancient Colony, some accompanied by children, thus brought together around the festive board. An interesting programme was carried out, and next to love of the homeland loyalty to the empire and the desire to be useful citizens of St. John were marked features of the utterances of members of the society.

After the toast to the King, the list included the City of St. John, proposed by Hugh Milley and responded to by Frank L. Patten; Newfoundland, by G. Oldford and Steve Matthews; the Newfoundland Society, by N. J. Curtis, Isaac Mercer, past president, and Isaac Mercer, present president; the Ladies' Auxiliary, by James Clark, county master, L. O. L. and Joseph A. Murdoch of Clan Mackenzie; the Press, by Isaac Mercer and A. M. Belding; and the Ladies, by A. J. Green.

There was also a musical programme, including: Song, Edward Britain; banjo quartette, the Misses Lane; piano solo, Miss Kierstead; song, Steve Matthews; cornet solo, Adjt. Laurie; Scotch songs, Joseph A. Murdoch.

Special reference was made to the South End Boys' Club by Mr. Mercer and Mr. Green, following Mr. Belding's remarks on child-welfare work in the city. Both speakers declared the opening of the club was a great boon to the south end of the city, and urged all members of the society living there to give it their hearty support.

A prominent place was given in the addresses of several speakers to the magnificent record made by Newfoundland in the war, and to the undying loyalty of all Newfoundlanders to an individual empire. The very successful function, which was also notable for the large attendance of young men, closed with O Canada and the national anthem.

MORE CONTRACTS FOR HYDRO WORK ARE AWARDED

Two Long Stave Pipe Lines and Construction of Storage Dams.
Contracts for further work in connection with the hydro development were approved yesterday at the meeting of the provincial government at Fredericton, so Premier Foster announced this afternoon. The contract for the construction of the wood stave pipes leading from the dams on both the east and west branches of the Musquash River were granted to the Pacific Coast Pipe Company, of British Columbia. This contract calls for the construction of 3,028 feet of ten foot pipe from the dam on the east branch and 4,440 feet of eight foot pipe from the dam on the east branch, both leading to the power house.

COST OF BUILDING

To the Editor of The Times:
Sir.—Builder's letter in your last issue is misleading, and the figures he gives for last year, if he refers to the corresponding date, must have been from memory, and evidently none too good.

The man who is considering building will find prices much more encouraging this spring than last. Our records show retail prices as follows:
Feb. 14, 1920. 1921.
Lath \$ 16.00 per M. \$ 8.00
Merchantable spruce boards 49.00 per M. 44.00
Fir flooring 100.00 per M. 85.00
Spruce scantling 50.00 per M. 42.00
Hemlock boards 50.00 per M. 42.00
Birch flooring set at \$150, not \$80 as stated. It went to \$200, and is now \$185.
The brick situation is not good. St. John, which at one time produced all its brick, is now importing, and freight rates have put the prices higher than last year.

A RUG OF BEAUTY IS A JOY FOREVER!

The enjoyment, the pride, the genuine satisfaction associated with the ownership of a well selected rug vastly outweighs its cost. As a matter of fact a good rug enhances in value with age. As a family heirloom it eventually becomes priceless in the memories it holds.

The introduction of rugs into the furnishings of the home imparts an elegance, a luxury, a charm of environment which no other type of floor covering seems to convey. A good rug is more than a floor covering. It is a picture, eloquent in meaningful symbols, fascinating because of the mysteries that are conjured up in its history.
Just now this store shows very comprehensive displays of rugs—in the large room sizes as well as the small rugs—each rug carefully, intelligently, personally selected for its own individual beauty.

We will welcome the opportunity to show you this very interesting display of rugs and other floor covering and are sure the values represented by the prices asked will be favorably impressive.

Find Out if London Conference Will Consider It

If Not Then Germans Will Stay Away—Rumor of Suggestion That United States Be Asked to Arbitrate.

Berlin, Feb. 11.—The ministry of finance has reached the conclusion that the utmost sum Germany can pay in reparations is 100,000,000 marks, this including all she has so far paid in cash and goods, according to information which the Deutsche Zeitung says it has received from a "special" source.

This 100,000,000 marks would be paid off in thirty years under the plan outlined by the newspaper's informant who also is quoted as declaring that the proposal to pay it would be submitted to the authorities at Paris for the purpose of learning whether the London conference on reparations will permit of its consideration along with the Allied proposals adopted at the recent Paris conference.

Refusal to allow consideration of the German counter proposal would result in Germany's absenting herself from the London conference, set for March 1, so the newspaper declares it has learned. It adds that Germany would then suggest that the United States be called in as an arbitrator for the purpose of preventing the Entente from adopting measures such as an invasion of the Ruhr district, which it deems would be followed up by Germany as an act of war which would possibly destroy the treaty of Versailles.

The suggestion that the United States be invited to mediate falls to arouse enthusiasm in the conservative industrial circles of the United States which are more likely to incline toward the sum the Entente is demanding.

"American mediation would only be welcome," says this newspaper, "if it advances the American attitude to the point where we do not want to repeat the mistakes of 1919."

To Reply to Lloyd George. London, Feb. 11.—A despatch to the London Times from Berlin says Dr. Walter Rathenau, German foreign minister, left for Stuttgart last night and on Saturday will deliver special lectures in reply to the pronouncements of the British premier in Birmingham. Afterwards he will tour south and west Germany and confer with local officials there concerning reparations.

The despatch adds that a committee of experts has drafted a memorandum on Saturday which would serve as a basis for Germany's ability to pay the reparations demanded by the Allies. The documents contain an estimated average trade balance of 800,000,000 marks in 1920. They declare that Germany would have to have double her exports before she could eliminate her adverse balance.

It is said to do not take into account the twelve per cent tax on exports and other heavy payments demanded, the delivery of coal and other goods, and the cost of the occupational army. The documents concluded by pointing out the dangers which would arise from the seizure of control of German customs and compelling Germany to flood the market with her goods.

IRISH REPORTS

(Canadian Press Despatch.) Dublin, Feb. 10.—A big meeting held today under the auspices of the Dominion League, but including representatives of every section of Irish moderates placed itself on record with only three dissenting votes, as refusing to lend support to the home rule set in southern Ireland.

Resolutions were adopted defining the home rule demand as full national self-government and financial independence, conditions by agreement for safeguarding the strategic unity of the British Isles and calling upon the government to take the first step, by making an offer of such terms, accompanied by a pledge that when peace is restored will be granted with reparation of the losses inflicted during the conflict either by the government or the insurgents.

Fraice, Ireland, Feb. 10.—Constable Molahy was wounded in the village of Abbeydorney, County Kerry, Wednesday night. Crown forces arrived at 1 o'clock in the morning and ordered the villagers to leave their houses and then, according to the report, indiscriminately burned eleven houses, the occupants of which, in their night attire, fled for refuge to the outside of the village.

GOOD THINGS COMING TO THEATRES OF ST. JOHN.

A BIG FEATURE MUSICAL COMEDY AT OPERA HOUSE

"Reckless Eve," a Tabloid in Two Scenes, Will be Presented Tonight—Feature Musical Numbers and Good Comedy.

At the Opera House tonight "Reckless Eve," a musical comedy, will be presented. It is a tabloid in two scenes and has a plot with a well defined story. The plot, however, is secondary to its comedy situations, clever music and tasty costumes. It was written by Will H. Hough, who is responsible for many musical comedies. It is beautifully staged, and is teeming with special musical numbers, which have been making a great hit on the circuit throughout the United States.

The cast is composed principally of women and the chorus is well trained and strong. In addition to the production there will be the regular episode of "Hidden Dangers," and a Pathe Weekly.

TONIGHT AT THE STAR THEATRE

The week-end picture bill at the Star will consist of the following subjects. Chapter fourteen of "Trilled by Three," only one more week for this serial story, a variety comedy "Burglars Bold," a two reel western drama, the regular issue of the Pathe News and another comedy play, "The House of the Seven Gables."

DOUBLE MURDER BY STUDENT IN MILAN

Milan, Feb. 11—A young engineering student named Botica, who squandered at the gambling tables the last \$10,000 of a bequest left to him by his father, went to his sister's lodgings with the intention of extorting funds, and, finding she was not at home, he sought a pretext to engage in conversation a rich widow with whom she resided.

Just as he finished washing and tidying himself in the bathroom he heard the front door bell ringing, and, opening it, stood face to face with his sister. She noticed nothing amiss, and, being told that the mistress of the house was entertaining visitors, she accompanied her brother to a vacant parlor, where he attempted to kill her also with a revolver which luckily failed to go off.

Stepping into the corridor he encountered the lady's maid hurrying to the scene. He seized her by the hair and dragged her to the kitchen, where he murdered her in like manner.

THE BRITISH IN INDIA.

The Outlook of New York, has a very interesting article last week on India and British rule there, written by David Downie, of Connon, South India, for over thirty-five years a mission-ary that counts and with exceptional opportunity of knowing the people and the government. His verdict touch- ing the wisdom and justice of British rule in India is summed up in the following sen- tences: "Considering the vast numbers of such diverse races, creeds, and religions that go to make up the population of India, I do not believe there is a nation on earth that could give India a bet- ter government than she now has. I do not say it is perfect, or as good as I hope and expect it will be, but I do be- lieve that it is the very best possible under present conditions. To do what a small coterie of Indians are clamoring for, in my opinion, would be fatal to the prosperity of this great country." Mr. Downie does not hesitate to say that Brit- ish propaganda is still very largely back of the effort that is being continually made to discredit British rule in India. Germany may have given us the Berlin- Bagdad route, but she still has her eyes upon India, he insists.

43 CATTLE POISONED

Vanovers, February 11.—After his herd of 43 head of cattle had mysteriously died, Mike Carlin of Kamloops, sus- pected there might be something wrong with the particular salt they had been lick- ing. An analysis revealed that the feed was made of potassium, used for spraying trees, which had been sold to Mr. Carlin by mistake by a country storekeeper, and was not familiar with the communities in which he dealt. The question of responsibility remains to be argued.

MAY ABOLISH DEPARTMENT.

Ottawa, Feb. 10.—Abolition of the com- mission of conservation is understood to be under the consideration of the government. The reasons for such a step are said to be that the work of the conservation commission, which involves considerable amount of an outlay, is being largely done by the natural resources and health branches of the government.

ACTIVITY IN REAL ESTATE

Registry Office Records Have Passed the 100,000 Mark—Recent Transfers by East St. John Building Company

There is the usual spring activity in real estate just now and, notwithstanding the alleged hard times, probably just as many properties are changing hands as at this time last year. The records of sales are rather deceiving in this respect in St. John county, as compared with other counties; at least half of St. John real estate is under lease and, as a sale of leasehold is not made by a deed but by an assignment of lease, the transfer does not appear in the lists published in the newspapers. As a matter of fact the business at the registry office is steadily increasing and since 1912, has been considerably larger than in previous years. All papers recorded since the founding of the city have been numbered consecutively, and the document numbered 100,000 was recently recorded, being placed on record by J. J. Stothart. It is interesting to note that over one-third of these papers are recorded during the regime of the present registrar, J. V. McLellan, and even a larger proportion during the time he has been connected in some capacity with the registry office in St. John.

Recent Transfers.

The East St. John Building Company, which is carrying on a commission busi- ness in addition to their building oper- ations at East St. John, report the fol- lowing recent sales: Estate of J. W. Morrison to E. C. Wood, property in Loch Lomond road. Estate of C. N. Skinner to M. Loughery, property in Crown street. Capt. A. J. Brown to J. W. Brown, property in Adelaide street.

Greenland property in Lancaster avenue. Estate of J. I. David to Louis Albert, property in Queen street. J. W. Foley to Albert Chittick, prop- erty in Rockland road. J. H. Duncan to Thomas Sefton, prop- erty in Summer street. Estate of J. W. Morrison to E. C. Wood, property in Harding street. J. Nixon to Frank Leslie, property in Sheffield street. E. M. Sipprell to Robert Ellis, prop- erty in Queen street. W. V. Beatty to D. E. Smith, property at East St. John. W. J. Warnock to C. H. Appleby, property in Duke street. E. N. Stockford to Elizabeth Gorrell, property in Middle street. Charles Fisher to R. C. McAfee, prop- erty in Cornmarket street. Andrew Watson to F. J. Power, prop- erty in Duke street.

Real estate Woodford to James New- lands, property in Peters street. W. A. Evans to Helen M. Bishop, property in Leinster street. J. H. Hartwood to W. J. Harrington, property in Main street. F. E. Hopkins to Elizabeth Forrester, property at East St. John. R. G. Magee to O. B. Delano, prop- erty at East St. John. Sterline Realty to George Reid, prop- erty in Britain street. R. G. Magee to C. Mofford, prop- erty at East St. John. Sterling Realty to Audrey Smith, prop- erty in Queen street. Jennie McLaughlin to H. Toppen, property in Rockland road. W. O. Watters to James Ray, prop- erty at Little River.

The company has also sold its prop- erty in Lansdowne avenue to Frank Hill. The Pritchard Property. The Pritchard property, the transfer of which was referred to yesterday, located at 174 and 176 Waterloo street, and not in Union street, as mentioned.

HELD UP LADY MINTO ON WAY TO THIS CITY

Montreal, Feb. 10.—Inspection of trains between Ottawa points and the province of Quebec has its little anomalies and one of these occurred today when the vice-regal car bearing a distinguished party from Ottawa to St. John was visited by a vaccination official. At first the porter who guards the vice-regal party refused to admit him, but the passengers being notified it ap- peared that the Dowager Countess of Minto, Miss Joan Cobbold and Lord Richard Nevill had the necessary docu- ments and were duly certified as legally entitled to travel.

The party are on their way to board the Empress of Britain which is sailing from St. John to England.

MASKED MEN IN A MONCTON HOLD-UP

(Canadian Press Despatch.) Moncton, Feb. 10.—Ernest Scullion and Harry Stanley Ross, two returned men, were arrested by the Moncton police to- day on charges of holding up a citi- zen at the point of a gun last night. The man held up was Millidge Leblanc, who handed the receipts at the Sunny Brae rink, and was therefore supposed to have some money on him. After be- ing taken into custody Scullion and Ross admitted the charge, the police say. The guns and masks with which the prisoners were equipped when the hold- up occurred were secured by the police. The holdup occurred at a lonely place on the road between Moncton and Sunny Brae. The prisoners are also charged with breaking into a store in the city on the night of Feb. 8.

Keep a Record Of Your Securities

For the convenience of those desiring to keep a record of their securities we have prepared a concise and convenient SECURITY RECORD form for entering the name of the securities, date of purchase, amount, purchase price, annual income, time of interest or dividend payment, maturity, etc. Such a record is almost indispensable to security holders.

The beginning of the new year is a good time to see that your hold- ings are all properly entered, or your list brought up to date. Go over your securities carefully. There may be some maturing at an early date which could, with considerable profit, be exchanged for long term securities. In this connection we shall be glad to make suggestions.

Copy of the SECURITY RECORD form will be gladly sent on request.

ANNUAL MEETING OF THE CHURCH OF ENGLAND INSTITUTE

The forty-fifth annual meeting of the Church of England Institute was held last evening, with the president, Canon R. A. Armstrong, in the chair. The treasurer's statement, submitted by J. F. H. Teed, showed a deficit, and ways and means of wiping this out were discussed. R. S. Couple read the secretary's report, in which reference was made to the passing of James F. Robertson. The sympathy of the Institute was extended to Mrs. Robertson and Mrs. T. E. G. Armstrong.

The election of officers resulted as fol- lows: President, Rev. R. A. Armstrong; vice-presidents, Dr. J. Roy Campbell, Dr. Thomas Walker, Mrs. Alfred Mor- risey, Mrs. George F. Smith, Mrs. W. D. Forster; members of council, R. E. Coupe, R. Fribb, Colonel W. H. Har- rison, J. N. Rogers, H. Usher Miller, Rev. L. E. Thompson, J. A. Coster, Mrs. H. McAvity, Mrs. Thomas Walker, Mrs. John Hay, Mrs. W. S. Neale, Mr. I. E. G. Armstrong, Mrs. John K. Schofield and Mrs. Orchard.

Citizens' Committee on Vocational Training Strong For Continuance — Will Arrange For Delegation.

At a meeting of the citizens' committee on vocational training, held last evening in the board of trade rooms, it was unanimously decided that the vocational board be requested to send a convincing delegation of students who received training under the vocational system either last winter or during the present season, to city hall, to testify as to the benefits they received or are receiving from the vocational evening classes. After the objects of vocational training had been explained to such members as were not versed in the work as carried on here, and when all had been made aware of the nature of the objections which have been raised by those not in favor of vocational training, the meeting expressed itself as unanimously in favor of continuing the night classes during this year—at all possible—and the consensus of opinion was that St. John would be taking a backward step if vocational training were dropped. W. K. Ganong, chairman of the committee, presided, and other members present were A. H. Wetmore, A. M. Belding, R. E. Armstrong, Mrs. Frank Rouse, Mrs. E. M. Vincent and G. J. Hennessey. Other members of the committee were unable to be present but the chairman announced that, from his knowledge of their attitude towards the question, the only member of the committee opposed to the continuance of the work was Mrs. J. W. V. Lawlor. The chairman outlined the manner in which the committee was formed, saying that, at a mass meeting of citizens, it was decided to appoint a committee for the object of furthering the interests of vocational training in St. John and the committee was appointed by R. T. Hayes, then mayor of the city, with power to add to their numbers. They were the only body officially appointed to deal with the question. He referred to the sums available from both the Dominion and provincial governments, conditional on a grant from the city. A. H. Wetmore said he had worked on a committee for ten years trying to bring about vocational training and he could not understand why some people were now endeavoring to kill it. He saw nothing to justify the action taken by the city council as he was not able to understand why the opinions of those whose experience with vocational training was of mushroom growth should be accepted while those of people who had given years of study to the question were overlooked. He would be glad to co-operate in any plan to keep the vocational schools going. A. M. Belding asked if the committee still was in favor of vocational training as introduced in this city and said that

if it were in favor then it should take some action. The chairman said that he had looked into the two main criticisms leveled against vocational training and found them easily explained. One was that the estimates contained 25,000 for director's salary. This amount was to include the salary of a supervisor for the ladies' work and the director was to get less than half the amount in the estimates. There was also the criticism of the night school, but the night school would have to be carried on until things were sufficiently advanced to provide a day school. He believed that vocational training was not going to die in St. John and suggested that a public meeting be called by the committee when Fletcher Peacock, director for the province, might be called upon to explain to the people of the city the objects and requirements. Mrs. Frank Rouse and Mrs. T. M. Vincent also spoke, and both expressed their approval of vocational training. Mr. Hennessey and R. E. Armstrong addressed the meeting, the former giving some details of the work as carried on here and explaining the great good that was being accomplished, while Mr. Armstrong said that if there was still an opportunity to get a grant from the city every effort should be made to obtain it. The following resolution was then moved by Mr. Belding, seconded by Mr. Armstrong, and unanimously adopted: "That the committee request the vocational board to get a convincing delegation of last winter's and this winter's students to go to city hall and testify to the benefits they had received or were receiving from vocational evening classes and that this should be done at the earliest possible time." It was also decided that the chairman should convey this to the vocational board and call another meeting of the committee when the board was ready to act in the matter.

FORMER KILTIE BEING TRIED ON MURDER CHARGE

Boston, Feb. 10.—Colonel Percy A. Guthrie of this city and formerly of Fredericton (N.B.) has gone to Manchester (N.H.) to defend Andrew Rheasme, a Canadian soldier, who is on trial in the superior court there charged with murdering Arthur E. Proulx, another Canadian returned man. Rheasme has been indicted by the grand jury at the February session of court. When arraigned Rheasme pleaded not guilty to first degree murder. Colonel Guthrie was commander of the Kiltie battalion, to which Rheasme belonged.

WOMAN'S DRESS Breaks Prison for Brief Term of Freedom—Found Re-entering Penitentiary

Frankfort, Ky., Feb. 11.—Joseph Wendling, central figure ten years ago in a Louisville murder, added another to his remarkable exploits, so state reformatory officials announced. He broke prison, they said, apparently paraded the streets of Frankfort in woman's dress, and when he tired of his brief freedom was caught by the reformatory guards ascending a rope ladder in an attempt to scale the reformatory walls and re-enter his prison home. The fact that he carried a dress led prison officials to believe Wendling may be responsible for the appearance of the "woman in black" whose appearance in the streets has been reported several times to the Frankfort police. Wendling secreted himself in the prison chapel after a picture show and in some unexplained manner made his way outside the reformatory walls.

FOUND FROG IN PICKREL

Boston, Feb. 11.—A frog which had taken up residence in a pickrel's stomach was dispossessed by Harry Fairbanks, of this city, who hooked the fish through the ice at Mill Pond, N. H. A few minutes after evulsion the frog shook off winter torpor and hopped languidly to new quarters behind a stove. The pickrel was 15 inches long.

Easy For Wilson.
Kenosha, Wis., Feb. 11.—John Wilson, defending his middleweight title for the first time since he won the championship nearly a year ago, last night knocked out Navy Rostan in the second round of a scheduled ten-round fight. Rostan never had a chance against the heavy blows delivered by the champion, Wilson sailing in at the start with the evident intention of finishing the fight as quickly as possible.

Montreal Bout.
Montreal, Feb. 11.—Young Lewis, local heavyweight, outpointed Willie Murray of New York in a ten round bout here last night. Lewis had the edge in every round. Eddie Summers of New York scored a technical knockout over Kid Hubert, a local featherweight, when the referee stopped the ten round bout in the fourth round.

Gibbons Knocks Out Melchoir.
Toledo, Feb. 10.—Tommy Gibbons, of St. Paul, knocked out Tony Melchoir, of Newcastle (Pa.), in the first round of a scheduled twelve-round bout here tonight. The round had gone forty-six seconds. But three blows were struck. A straight left to the jaw knocked Melchoir down for the count of five, again for the count of three and then out. The men are light heavyweights.

ICE RACING.
Good Events at Gagetown.
A number of good events were held on the ice at Gagetown yesterday, and the results were as follows: Free-for-all, Native Woody, first; Queen Eddy, second; best time, 1:12. In the three-minute class Trampwell took two out of three heats; best time, 1:15 1/2.

QUATIC.
Canadian is Defeated.
Miami, Fla., Feb. 11.—A new world record for open displacement boats was established here today when Adieu, owned by Webb Jay of Chicago, snatched the Carl G. Fisher gold trophy from Rainbow, owned by P. B. Greening of Hamilton, Ont., and in a fifteen-minute class Trampwell took two out of three heats; best time, 1:15 1/2.

SKATING.
Children's Sports.
The boys and girls of the city will be interested to learn that the East End Improvement League will conduct a programme of ice sports on their rink on Saturday afternoon, beginning at 3 p. m. These sports are open to all boys and girls up to sixteen years, and suitable prizes will be given for each event. The East End rink has accepted the challenge of the South End team and will meet them during the sports.

KINNEL.
Fine Showing of Terriers.
At the evening bench show, held last night by the N. B. Kennel Club in their rooms in the market building, the best dog in the show was Barry Wilson's wired haired fox terrier, Chris Corporal.

A silver cup, donated by E. B. Lesley for the best local breed terrier, was won by the wire haired fox terrier Northerner Dark Boy, owned by LeBaron Wilson. The best Boston terrier was Betty, owned by O. M. Carr. The best smooth haired fox terrier was Jess, owned by Alexander Conway, while Pop, owned by Mrs. W. K. Gannon took the prize for the best Irish terrier. The best white haired West Highland terrier was Moccasin, owned by J. W. Cannon. The best Airedale was Creek Desire, owned by A. McCarthy. The best wire haired terrier was Chris Corporal, owned by Barry Wilson.

The show last evening was for terriers only. Last week the show was for sporting dogs and next week the club proposes holding a show for all dogs not appearing at the evening shows so far, such as big breeds and toys. There will be judging for the best dog appearing at all three shows at the show next week.

Amherst, Two) Moncton, One.
Amherst, N. S., Feb. 10.—Amherst defeated Moncton in an independent Hockey League game here tonight, 2 to 1. It was a close contest, fast and somewhat rough. The first period went scoreless. In the second period, after thirteen minutes of play, George Carroll, made Moncton's lone tally. At one time, during this period the Amherst players were men on the ice, the others of the spectators being in the penalty box. Nine minutes after the third minute, Jackson scored the Moncton net for Amherst's first score and four minutes later Stuart netted the winning goal.

Rothsay, Five; Sussex, Four.
Sussex, N.B., Feb. 10.—An exciting game of hockey was played here tonight between the Rothsay College boys and the Sussex High School team. Rothsay won by a score of 5 to 4, but this score does not altogether indicate the merit of play as the visitors were kept busy the most of the time in their own territory and had it not been for their star goal tender the count undoubtedly would have been reversed. Score by periods: First—Rothsay, 4; Sussex, 1. Second—Rothsay, 1; Sussex, 2. Third—Rothsay, 0; Sussex, 1.

Fredericton Wins.
In the New Brunswick hockey league fixture played in Fredericton last night the home team shut out Marysville by a score of 6 to 0. The result was a surprise, as the Fredericton team did not have their full line-up.

International Meet.
Boston, Feb. 11.—Competition similar to that conducted at the last Olympic games for the world's amateur ice hockey championship will be held here next winter. It was announced following a conference between Wm. S. Hadlock, president of the U. S. Amateur Hockey League, and George V. Brown, manager of the new Boston arena.

Big Crop of New Baseball Managers for Next Season

SEVEN OF THE 16 MAJOR CLUBS WILL HAVE NEW MANAGERS—MACK AND McGRATH STILL SURVIVE—THE NEW ONES.

(By Associated Press.)
New York, Feb. 11.—Seven of the sixteen clubs in the major leagues, three in the National and four in the American, will take the field for the 1921 campaign under the leadership of new managers. The opening of nearly every baseball season finds one or two new managers. It is a long time since there has been such a general shakeup among the field generals of the major league clubs. With all the changes of leaders that have been made from year to year there are two managers who stand out prominently in the history of baseball because of their long service with their respective clubs—Connie Mack of the Philadelphia Athletics and John J. McGraw of the New York Giants. Mack has led the Athletics since they entered the American League in 1901, and has won six pennants and three world's championships. McGraw became manager of the Giants in 1902, and, like Mack, has piloted his team to six pennants, but has won the world's championship only once.

Hughes Takes Staff.
One of the most notable changes the Philadelphia Athletics made for the coming season is the appointment of Ty Cobb to lead the team. Hughes as the success of Hughes Jennings. The latter quit the Tigers after fourteen years, during which he won three pennants, to become assistant manager of the Athletics. What Cobb will do as a major league manager will be closely watched by the fans throughout the country. As a player he has won about every honor the game affords with the exception of playing on a world's championship team, and has been proclaimed by all one of the greatest players in the history of baseball, and by some the greatest.

While Ty is not the Cobb of a few years ago he still is a great player and it remains to be seen what effect, if any, the duties of manager will have upon his playing. Like Tris Speaker, manager of the world's champion Cleveland team, Cobb will continue to play centre field, and he and Speaker will be the only playing managers in the major leagues. They also are said to be the highest paid active players in the game, each drawing salaries both as players and managers. In addition, Speaker is said to have received an interest in the Cleveland club for winning the first pennant and world's championship for the city.

Another change of managers that ended a long career of leadership on the diamond was that of the Washington club. Clark Griffith, who has become principal owner of the club, turned over the managerial duties to his able lieutenant, George McBride, for many years shortstop of the team. Griffith managed the Washington club for nine years, and previous to that had served as manager of the Chicago White Sox, the New York Yankees and the Cincinnati Club. Griffith now will devote all his time to the executive business of the club of which he is president. McBride began his major league career with Washington in 1908 and played shortstop until a year or two ago.

Some of the New Ones.
Hugh Duffy, famous as an outfielder and batter several years ago, will lead the Boston Red Sox as the successor of Edward G. Barrow. The latter, who managed the Red Sox three years, winning a pennant and a world's championship, is now business manager of the New York Yankees.

Changes of managers in the National League involve the Boston, Chicago and Philadelphia clubs. George Stallings gave up the management of the Boston Braves after eight years to become

STRIKING SPEECH BY FARMER PREMIER

Drury Opposed to Group or Class Government

High Ideals Presented—Pleads for Social Welfare and Better Understanding Between City and Country—The National Life.

Premier Drury of Ontario made a very striking address before the Ottawa Board of Trade this week.

In this time of chance and flux, Hon. Mr. Drury said, it was of most importance that citizens should think in terms of their country.

Nations which had worshipped the fetish of military glory and through that had bathed the world in blood and misery had learned a terrible lesson.

Acting in the interest of humanity the Ontario legislature during the past year had placed upon the statute books legislation which could find no place there twenty-five years ago.

Passing to the problems to be solved, if the country was to be stable, Hon. Mr. Drury expressed the opinion that the first and most important was to promote a better understanding between the man on the farm and his brother in the city.

The farm problem in this province was twofold. There should first be a decent standard of living for the man on the farm.

At present the farmer was under a disadvantage, for in his home he lacked many of the conveniences and services which the city man in equal circumstances had not difficulty in obtaining.

Attractions for Women. The farm should be made more attractive for the women and young people, for more serious than the undermanning of farms was the fact that they were undermanned, and in most cases, it was the women who eventually brought the man from the farm to the city.

PRIVATE HOUSING SCHEME. Two hundred new residences will be built in Regina during 1921 by the All-Building and Loaning Association.

WHEAT IN THE WEST. Less than 50,000,000 bushels of marketable wheat remain in the West, is the estimate of A. E. Wilson, Seed Grain Commissioner.

Auto License Fees. Saskatchewan auto license fees for 1921 are as follows: Automobile not exceeding 25 h.p., \$12; automobile exceeding 25 h.p., \$18; motorcycle, \$5; motor attachment to a pedal bicycle, \$2; livery license for car not exceeding 25 h.p., \$30; Note—The h.p. is the advertised h.p.
