Evidence Clearing up Terrorist Plots of Summer

U. S. Federal Authorities Have Been Making a Searching Inquiry—Pamphlets Advocate Wrestling Control From Military

Chicago, Oct. 14.—Federal authorities at Gary, Ind., where military control was established by Major-General Leonard Wood after the situation growing out of the strike of steel workers became too threatening for state authorities to handle, have arrested the alleged maker of a bomb exploded on the night of June 8 last in the doorway of the home of A. Mitchell Palmer, United States attorney-general at Washington, and have obtained evidence clearing up the terrorist organization responsible for the attempts against the lives of law enforcement officials throughout the country who had been active in the arrest and prosecution of radicals.

ENEMY BOMBARDING TOWN

Letts Said to Have Regained Initiative—Reported Suggestion of Allies to Germany Causes Confusion in Berlin

Copenhagen, Oct. 14.—Allied cruisers are aiding in the defence of Riga against German attacks, which for five days have been incessant and stubborn, according to a communication from the Lettish foreign office on Sunday. Riga is being bombarded by the enemy.

BRITISH SHIPS TAKING PART

Copenhagen, Oct. 14.—Rallied by their officers after the panic that seized them when armored cars broke through their lines west of Riga, Lettish forces, reinforced by Estonians, have regained the initiative, and have moved across the Duna river across where they fled last week, according to advices received here from Wenden.

Puts Germany in Quandary

Berlin, Oct. 14.—(A. P.)—Suggestions from the Entente that Germany join in the blockade of Soviet Russia have not as yet been officially considered by the German cabinet, but have inspired a statement indicating that the government's answer will neither be an unconditional refusal nor an indication of assent. It is said that Germany will suggest the installation of an international commission to deliberate on the proposition, which unquestionably foundered long unprepared and places her in a quandary.

Success Against Reds

Archangel, Oct. 14.—In continuing their offensive operations on the northern front, Russian troops have captured Bolshevik positions over a quarter of a mile front near the village of Plestanzkaia, on the Entza river, a branch of the Dvina, 185 miles south of this city. Reports from the front declare that after furious fighting there had been shot, the 42nd Bolshevik Regiment was sent to the front lines, other reserves not being available.

General von Der Goltz

Omsk, Oct. 14.—(Sunday Russian Telegram Agency)—A Bolshevik Wireless dispatch picked up by the intelligence office of the Siberian army declares that the situation in Bolshevik Russia never has been so grave as it is at present, that never before has the front been so near Moscow.

U. S. GRAIN CROPS

1897-1918 The government's monthly grain crop estimates did not greatly change the expectations of a month ago. The Department reduces its forecast for the spring wheat harvest by some 6,000,000 bushels, making a loss of 140,000,000 in the indicated yield since the June report was published. Like the winter wheat, between May and harvest, this marks a sharp decline.

For the country's total wheat crop the indication now is 918,000,000 bushels; in June it was 1,282,000,000. The harvest now indicated would still be the second largest on record, judging by home consumption and seed requirements of previous years, would leave 800 to 850 million bushels for export, or nearly as much as we have shipping capacity to carry. But the real loss resulting from the lowered estimates is the loss to farmers' earnings. Since \$2.25 was guaranteed for every bushel sold, the gross receipts from a crop such as the June forecast indicated would have been \$2,074,000,000. Even so, it would vastly exceed the 1,000,000,000 bushels of the previous year's crop, which would have yielded \$2,250,000,000.

Among the soldiers who returned home from overseas yesterday aboard the S. S. Belgie was R. M. Desnoy, 127 Leinster street.

The Kind of Furniture We Like to Sell

We like to sell the kind of furniture that your children will like to inherit. Good looking, sensible, moderately priced furniture.

It is almost inconceivable to us that the "price" or "speculative" furniture that goes into some homes will be welcomed or even tolerated by the children who will inherit it.

But, consider yourselves as well as your children, their friends, your friends and visitors—consider the satisfaction of owning, and showing and using really good furniture, that you bought right. That's the kind of furniture you get at

WIFE DISSIPATED \$75,000, HE SAYS

Frank P. Freeman of Boston is Given Decree of Divorce

Easton, Oct. 11.—Frank P. Freeman has obtained a divorce from Bertha B. Freeman. They were married in 1903 at Newport. At the time he was an engineering student in the Stevens Institute. He had received \$100,000 from his father and he told the court his wife had dissipated \$75,000 of it. He said she fired a shot at him once and on another occasion cut him behind the ear with a knife.

BAPTISTS BID FAREWELL TO FOUR MISSIONARIES

There was an unusual gathering in Main street church last evening when the edifice was packed with representatives of the Baptist congregations of the city to bid farewell to four missionaries who are about to leave to take up their work in India. The missionaries were: V. A. Helen Blackadar, Winnifred Eaton, Grace Machum and Rev. Gordon P. Barris, all of whom addressed the gathering. Rev. Messrs. D. J. MacPherson, S. S. Poole, A. S. Bishop and Dr. D. Hutchinson took part in the service and Mrs. Blake Perzig drew attention to the fact that the meeting was one of many being held from Halifax to Vancouver to speed eighteen missionaries who are being sent from Canada to India.

GUM DECAY CAUSES TOOTH DECAY

Healthy teeth need healthy gums to hug them. Else they will loosen in Pyorrhoea. Tiny openings will come in the gums to act as the gateways of disease germs, which infect the joints or tonsils, or cause other ailments.

FORHAN'S FOR THE GUMS

Forhan's prevents Pyorrhoea, if used in time and used consistently. No mere toothpaste does. Are your gums tender, gums? Are they bleeding gums? If so, you are certain to have Pyorrhoea (Riggs' Disease). Pour out of five people who are over forty have it. To you we earnestly recommend Forhan's. It preserves your gums which hold the teeth secure. Forhan's cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 30c and 60c tubes. All Druggists. FORHAN'S, LTD. Montreal.

Men's Underwear Week

Oak Hall is devoting this entire week to the special display of men's underwear for fall and winter. It is a well known fact that the wool scarcity is still very acute, and that underwear manufacturers are finding it almost impossible to meet the demands made upon them. Oak Hall buyers realized this fact long ago and have, for months, been putting forth every possible effort to get together a quantity of reliable underwear sufficient to meet the demands of their customers. This stock has now arrived so Oak Hall is making this special underwear week to acquaint their customers with the fact and to impress upon them the necessity of procuring their requirements now, while all lines are complete. After a line is sold out it will be impossible to replace it this season and if you wait too long you are liable to find yourself in the unenviable position of not being able to procure your favorite make in the correct size. Oak Hall are showing such well known makes as Stanfield's, Penman's, Wolsey, Watson, Turnbull, Frank, Tiger Brand and others, so you will have no difficulty in finding what you want at Oak Hall, this week.

"Most Fastidious"

Our buyers have been described by the American cutters as the most fastidious of all those who go over to Europe to buy Diamonds. They carefully inspect each and every stone in the purchase, and accept none but the perfect gem.

Consequently, you have every assurance that a Birks' Diamond, whether it costs you \$25.00 or \$250.00 or \$2,500.00 is actually the best that can be obtained. Indeed, we are always glad to have you make comparison, because it strengthens our reputation of unsurpassed quality.

Always glad to have you write us. On receipt of satisfactory references we will send a selection on approval.

WHY THE ISLAND SERVICE HAS BEEN CUT DOWN

L. S. Brown, general superintendent of the C. N. R. in a reply to Dr. A. P. Barnhill, who is a director of the road and who inquired for the reasons for reducing the train service connecting with P. E. Island, says that one double trip by the island steamer has been eliminated for the winter. Connection for the remaining trip may be had from St. John by leaving here at 7:10 a. m., arriving in Charlottetown at 6:35 p. m. Leaving Charlottetown at 6:25 a. m., a passenger will arrive in St. John at 5:30 p. m. This he says, is the same service which has been found adequate in other winters.

Stunning Cloth Coats For Women and Misses

Quite often are we told by enthusiastic customers that ours is the best coat stock they have seen. Our moderate priced garments are especially worthy of mention.

Every favored type of coat is included. Smart styles for street wear or the more elaborate kinds for dress-up occasions.

Fabrics are beautiful of texture and coloring. Silvertones, Velours, Pom-poms and other soft comfy materials are developed in rich shades of brown, grey, heather mixtures, etc. These are often seen with fur or fur fabric collar and cuffs of harmonizing shade.

Full, loose hanging models are among the season's favorites, while belted effects in several variations are popular as ever.

You can find your size here, whether you wear a misses' model or extra large coat, and in a shape that will be becoming.

UNIQUE PACKED TO CAPACITY YESTERDAY TO SEE "DADDY LONG LEGS"

"Daddy Long Legs," the motion picture production of the great story by Jean Webster, in which "Mary Pickford," the world's greatest little actress, is appearing, is the big attraction at the Unique the first half of this week. The feature has universal appeal for it is filled with children and their doings. Moreover, the children are not those we see every day with father and mother to care for, and protect them, but little children who are the charges of an asylum which is sadly mismanaged. Miss Pickford has the role of Judy Abbott, a twelve-year-old girl full of life and fun, who does the cruel punishment of the superintendent of John Greer's Orphanage to run off and help the little ones who are falling ill on the miserable diet and poor care they receive.

As well as being a picture which will tug at the heart strings of every parent, "Daddy Long Legs" will make the children and the childless elders laugh, for there are dozens of sweet and funny little children in it, who play the parts of orphans in the great home where the early part of the action is laid. This splendid feature is booked as a return engagement and will be shown tonight and tomorrow only.

FOUND ROADS GOOD.

W. A. Simonds and family arrived home last night from Harvey, Albert county, where they spent Thanksgiving. The roads he found stood up well under the recent rains. Leaving Harvey at two o'clock yesterday afternoon, and stopping twice on the way down, including the first half of this week, the party reached home at nine o'clock.

Rev. J. H. Barnes, rector of Christ church, Campbellton, N. B., was the speaker at the services in St. Luke's church on Sunday. Special thanksgiving music was given by the choir.

ORIGIN OF GERMAN PRETEXT FOR WAR

Paris, Oct. 14.—The origin of the German story that French airmen flew over the city of Nuremberg and dropped bombs on August 2, 1914, which was made one of the pretexts for declaring war on France, has been brought out at a hearing by a court-martial in an army airplane case. The man who settled the historical point was M. Ume, former

FOR UNION WITH WEST INDIES

Harry J. Crowe Sees Much Good as Result

Newfoundland Included in Federation as Only Way to Make Independence from United States - Sees Only Two Ways for Future

"I am glad Lord Rothermere came out with his suggestion to sell part of the West Indies to the United States," is a statement made by Harry J. Crowe who has recently returned to Montreal after paying a visit to the West Indies and to England, where he discussed the question of a Canadian-West Indian union with the colonial office, as well as with the people of Jamaica. "It would be a good thing if a few more prominent statesmen advocated this," he added, "it would make people discuss the causes of the present state of affairs in the West Indies and awaken them to a full realization of the value of a Canadian-West Indian-Bermuda-Newfoundland federation, the one and only way of making these countries independent of the United States."

Mr. Crowe, whose business office is in Toronto and who is interested in some large development undertakings in Canada and Newfoundland, is an ardent advocate of a British-American dominion, which he says would be second to no other nation for variety of climate and resources, lying as it would midway between two of the world's greatest markets, Europe and the Far East, and only by a row of maple trees. Canada's future would then confirm a prophecy made 230 years ago: "Westward the course of empire takes its way;" and that the day would surely come when this dominion would have a population to correspond with her size and resources, and would be the brightest gem

in the commonwealth of British nations. Referring to the West Indies, Mr. Crowe declared that the choice now lies between absorption by the United States or confederation with Canada. "United States interests," he said, "are making tremendous efforts to subjugate the West Indies in an economic way. Already the chief export of Jamaica has been completely captured by an American trust. Attempts to create competition in the banana business are ruthlessly crushed by this gigantic monopoly which has reduced the producer to economic slavery and has made this valuable article of food, which should be on every poor man's table, a luxury to the consumer."

"If the West Indies were federated with Canada, free interchange of commerce that would follow would lower the cost of living in both countries, and with Canada's bargaining power with other nations to back up the West Indies in the markets of the world, the present stagnation of these strategically situated, rich, tropical British possessions would be changed to a state of abundant prosperity."

As showing what the "peaceful penetration" of the United States meant, Mr. Crowe said that the latter already has a larger trade with all the West Indies than with South America or even China with her 400,000,000 consumers.

"The Board of Railway Commissioners have been asked by the wholesale grocery interests concerned with this trade in the eastern districts, to disallow this proposed

new tariff. It was stated that the rates on canned goods, in common with other railway rates, had been advanced 45 per cent. to 20 per cent. during the war, and the trade felt that the railways were not entitled to any further advance in rates on this particular product, which is in such general use, especially during the winter, as the last advance granted jumped the rates 25 per cent. at one time, on top of previous advances."

"Should such an advance in rates be allowed by the Board of Railway Commissioners," said a leading wholesale grocer yesterday, "it will inevitably be followed by a proportionate increase in the already high prices of canned goods. We, however, hope that when our appeal is presented, the Railway Board will disallow the proposed new tariff."

Jackson came tripping merrily into his tiny hall one day and almost spilt his many beauties by tripping over some one's shoes left lying about.

"Those ferrisboats are those in the hall," he asked later when he entered the drawing room.

"Ferrisboats?" said his mother-in-law angrily. "Why, those are my shoes."

"My dear, good lady," said Jackson hurriedly, "who said ferrisboats, you know-ferry boats!"

And then he wiped the sweat from his brow.

One year's supply of coal for New York landed in fifty-four cars, and a train reaching from that city to Salt Lake City.

Increasing demand, and our manufacturers and farmers will have lost a growingly important market of 2,000,000 consumers for their products, and of these, we have secured a position of high strategic value.

Mr. Crowe said the opening of the Panama Canal had a direct bearing upon the problem of consolidating our imperial resources in this important part of our empire, towards which our statesmen in the mother country, Canada and the West Indies should turn their attention.

Others were of the opinion that the West Indies would be lost to the British Empire. It is only necessary to glance at a map showing the new trade routes that have been opened up by the Isthmian highway to see where this opportunity lies.

Mr. Crowe laid emphasis upon the desire of Canada to continue to have the most friendly relations with our southern neighbor, and he believed that this could be best maintained by presenting a solid but friendly front, and adhering to the British policy of what we have held.

Rather than part with any of these outposts of the empire, Mr. Crowe concluded, "we should by sounder tariff organization, upon a scientific plan, have them respectively in empire interchange. Then the fear entertained by Lord Rothermere of discharging our imperial duties, would be met without parting with any of our rich heritage. The ties of blood and sentiment proved strong enough to hold together the scattering possessions of the British crown throughout a period of terrible crisis, and I believe were never stronger than they are today; and we must consolidate and develop the resources of our vast empire."

Higher Canned Goods Result if New Railway Rates Are Allowed

(Montreal Gazette)

Announcement has been made by the various railway companies of a change in rates applying to canned goods from Ontario points, which are the centre of the Canadian canning business, the proposed rates providing for an increase running from 15 to 30 per cent.

It was stated yesterday that tariffs had been issued by the railways proposing to cancel the commodity rates on canned goods in carload lots from Ontario to Montreal and eastern territory, substituting therefore the regular class rates. This, it was stated, would mean an advance of from 4 to 7 cents per 100 pounds in rates to Montreal and corresponding increases would come from 15 per cent. to 35 per cent. or even more, on rates from the canning centre of Ontario to the eastern consuming and distributing points.

The Board of Railway Commissioners have been asked by the wholesale grocery interests concerned with this trade in the eastern districts, to disallow this proposed

new tariff. It was stated that the rates on canned goods, in common with other railway rates, had been advanced 45 per cent. to 20 per cent. during the war, and the trade felt that the railways were not entitled to any further advance in rates on this particular product, which is in such general use, especially during the winter, as the last advance granted jumped the rates 25 per cent. at one time, on top of previous advances."

Should such an advance in rates be allowed by the Board of Railway Commissioners," said a leading wholesale grocer yesterday, "it will inevitably be followed by a proportionate increase in the already high prices of canned goods. We, however, hope that when our appeal is presented, the Railway Board will disallow the proposed new tariff."

Jackson came tripping merrily into his tiny hall one day and almost spilt his many beauties by tripping over some one's shoes left lying about.

"Those ferrisboats are those in the hall," he asked later when he entered the drawing room.

"Ferrisboats?" said his mother-in-law angrily. "Why, those are my shoes."

And then he wiped the sweat from his brow.

 before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

and by the latest and most highly approved methods. The equipment will consist of two 4,500 horse power generators and provision will be made for the addition of another as the need arises for it. The water wheel, generators and all the other equipment of the plant will be the latest and most highly efficient possible to procure, and the plant when completed will be absolutely the last word in power plant construction. Dr. L. A. Hurst of McGill University is the designer of the electrical equipment and that is enough to recommend the quality of it. Messrs. Morrow and Beatty of Peterboro, Ont. are the contractors in charge of all construction, and we understand they are ready to make a start on the contract as soon as they can get their equipment on the ground.

The main object of Mr. McLean in pushing forward a proposition of such magnitude—it means an expenditure of \$1,000,000 at least—is of course to secure sufficient and dependable power for the industries under his management and to provide for other industries which he expects to establish. To provide power for the pulp mill and the saw mill of the company, the current will be brought down from the falls on copper wires erected on steel poles of the latest design.

It will be something new to see a saw mill operated by electric power but this innovation will result in the saving of a tremendous amount of wood which it is intended to turn into pulp and paper. Yes, paper, for part of Mr. McLean's plan is the early erection of a paper mill in close proximity to the pulp mill. In addition to supplying all these industries, there will be hundreds of horse power to spare for other enterprises, and thus will open up possibilities of industrial development in Bathurst that could not be thought of without first the availability of dependable sufficient and cheap power.

With the development of the falls now its place as the most favorably situated town in the maritime provinces, and the proud position it will so soon occupy is all due to the organizing genius, enterprising spirit and unbounding faith in the future of the county and its resources possessed by Angus McLean. Bathurst is indeed fortunate in numbering among its citizens

POWER FROM FALL OF THE NEPISIGUIT

Early Start to be Made on Great Plant

MEETING HELD IN ST. JOHN

Premier Foster and Hon. Mr. Veniot Commended For Course Taken in Matter—Expenditure of at Least a Million—Saw Mills, Pulp and Paper Power For Other Industries

(Gloucester Northern Light.)
 With the satisfactory agreement on Wednesday of the local government, and the officials of the Canadian Iron Corporation, who also represented the N. S. B. & S. with Angus McLean of the Bathurst Lumber Company in reference to the immediate laying of the rails of the railway, the last step of the long drawn out preparation for the early building of a dam at Great Falls on the Nepisiguit was taken. Next comes the start of the actual work of construction.

Ever since the acquisition by the Bathurst Lumber Company of the property of the Nepisiguit Lumber Company and the rights of the Nepisiguit Fishing Association in the waters of the river the active and progressive mind of Mr. McLean has been looking forward to the project of harnessing the tremendous power at the falls for industrial purposes. Soon after the company took

over the property an eminent engineer was sent up to examine and report on the practicability of the scheme, and ever since, the war prevented much practical progress, plans have been going forward for the earliest possible development of the big idea.

The end of the war cleared the way for definite plans, and all during the last summer the preliminary engineering work at the falls has been going on. The short time ago the completed plans of the project were laid before the government, and upon being approved by the Canada Iron Corporation, the only concern whose interests were likely to be affected, the government stood ready to give its permission for the carrying out of the work. That much accomplished, it only remained for the government to fulfill its obligation of relaying the rails of the Mines Railway, and the active work of construction could be commenced.

The meeting on Wednesday at St. John was attended by Mr. McLean, manager of the Bathurst Lumber Company; Major Hughes, president of the Canadian Iron Corporation; W. F. C. Parsons, engineer of the latter corporation; Premier Foster, Hon. P. J. Veniot and other members of the government.

Mr. McLean says that the conference was most satisfactory, and that all the parties present were whole-hearted in their efforts to make an early start on the work possible. Premier Foster and Hon. Mr. Veniot particularly, he says, are to be commended for their readiness in smoothing away all chance of discord and interruption in the negotiations, and for their quick grasp of the possibilities of the proposed development for the North Shore section of the river.

Next comes the putting the railroad start to be made in putting the construction of the dam and for the equipment to be placed there can be immediately let and actual construction be on the way before the end of the present year.

The dam to be built is to be of what is known as the sluice type. It is to be thirty feet high and will be erected at

what is known as the second pitch of the falls, which will give a working head of water of 100 feet. Mr. Parsons, the Canada Iron Corporation's engineer, states that the plans for the structure are the most perfect he ever saw, and provide for absolute control of the water at all times. This is just another tribute to the ability of William Kennedy, Jr., a highly reputed engineer who prepared the plans and under whose direction all the hydraulic and engineering work will be carried out. All the structural work in connection with the project will be done in concrete and steel

ties is always ready and willing to take his share of the responsibilities of citizenship.

Mrs. Alice Scott, who claims St. John as her place of residence, and who weighs 225 pounds, made a sensational escape from the Bangor jail through an opening 9 by 18 inches which had been cut in the bars of the window by William Titus, with whom she was arrested a short time ago, charged with evading the immigration head tax.

Know the Tire You Buy

You can't tell the value of a tire by its looks. The unused tire is a riddle. Its sleek and unscarred surface tells no story. Its real value is hidden.

Nor can you tell the value of a tire by its price. The price may be too low. It may not allow of building a good tire. The price may be too high. It may be far above the value you will get.

But there is one reasonably safe indication of a tire's value available to everyone.

That is the service that tire is rendering in general use. On this basis, we believe you will come to Goodyear Tires. More Goodyear Tires are used than any other brand. They have received, and are receiving, the most severe test a tire can be given.

If you will talk to men who drive cars, you will find a strong majority for Goodyear Tires. A majority based on this very test of actual experience.

It will probably surprise you how many hard-headed men of your acquaintance are buying Goodyear Tires for the value which is in them. Ask the Goodyear Service Station Dealer to tell you the experience of the men to whom he sells tires.

EXHAUSTED HER TO CLIMB ONE FLIGHT

Mrs. McClellan Was so Run-down She Could Hardly Walk Around the House—Restored by Tanlac.

"I have taken many different kinds of medicine during the past nineteen years trying to find something that would relieve me of my suffering, but Tanlac is the only thing I have yet found that has done me any good at all," said Mrs. Mary McClellan, who lives at 23 Bauer street, Halifax, while talking to a Tanlac representative the other day.

"My entire nervous system has been in bad condition for a long time," continued Mrs. McClellan, "and it just seemed impossible for me to find anything that would give me any relief. My appetite was poor, and I just had to force what little I ate, and my stomach was in such bad condition that I would suffer terribly every time I ate anything. I never knew what it was to sleep well, and many times I would go through the whole night without even closing my eyes for sleep. Why, the least noise would upset my nerves something awful, and I would tremble like a leaf. I fell off a lot in weight, and finally got so weak and run-down I was hardly able to walk around in the house. I couldn't do my housework at all, and it would completely exhaust me to climb a flight of steps."

"When I commenced taking Tanlac, I had reached the point where I had actually given up hope of ever getting rid of those troubles. Well, Tanlac was just the medicine I needed, for I commenced to improve soon after I began taking it, and I have been getting better ever since. I have taken three bottles so far, and it is simply wonderful the way I have picked up in every way. Why, all that nervousness has left me altogether, and I sleep like a child every night. I have a splendid appetite, and my stomach is in such fine condition that I can eat just anything I want without suffering the least bit afterwards. I have gained a lot in weight and strength and am still gaining. Tanlac is a wonderful medicine, and as long as I live I will praise it for the good it has done me."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.—(Advt.)

HAIR SOON TOO SHORT TO DO UP

A little "Dandrin" stops your hair coming out and doubles its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Dandrin" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stands coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

HOLY NAME.

Yesterday was Holy Name Sunday at the Cathedral and St. John the Baptist church. The attendance of men was large.

BUILDING OPERATIONS.

The contractors who are to build the new dwellings in West St. John for the city housing commission have made a start on the work of excavating and are showing great energy in getting the work under way.

JUVENILE COURT.

In the juvenile court this afternoon two lads who were arrested on suspicion of breaking and entering the store of Robert Carol, Rodney Wharf, and stealing money and articles were remanded until tomorrow morning at 10:30.

PROPERTY PURCHASE.

An interesting real estate purchase was announced today when it became known that G. E. Barbour Co. Ltd. had purchased the property of the Ready Breweries in Perth street. The transfer was made through W. E. Anderson, who acted for the purchasers.

NEW FERRY ENTRANCE.

The new entrance to the East side ferry building is nearly completed and soon will be in use. It is on the eastern side of the building opening from Water street, and will replace the present entrance which is on the corner. The change is being made because the new location is regarded as more convenient and also because it will be less draughty and will make it possible to keep the waiting rooms more comfortable during the winter. The old entrance will be closed.

RAILS ARE HERE.

The curved rails for the street car tracks at the corner of Union and Brussels streets are being put in place today. When the tracks are completed the city will be able to proceed with the paving work at that corner. A little further delay will be occasioned while the concrete foundation is hardening but when that is ready the surface will be applied in short order and the street will be ready for use. A delay of several weeks has been occasioned by the difficulty experienced in securing the special rails required for the corner.

LABRADOR LAND OF RESOURCES

Dr. Grenfell Says Canada Lacks Vision—U. S. Eyes on the Country

(Montreal Star.)

"The oft made statement that the present population should be removed from the coast of Labrador—that such a bleak land is not fit for the habitation of man—is ridiculous." So said Dr. Wilfred Grenfell of Labrador Mission fame to the Star this morning.

"If any country has suffered from lack of vision it is Canada. It is a pity that theorists should imagine that Labrador can be discounted as a land possessing no future possibilities."

Dr. Grenfell is here in the interests of the great medical mission that serves the fishermen of the coast of Labrador and Newfoundland. He loves the rocky coasts where his work has lain for many years, and he is an enthusiast on the possibilities of development in that coast country.

He pointed out what the United States had made of Alaska, how American enterprise had started the reindeer industry there and how the export of hides and meat was rapidly assuming enormous proportions. He instanced the establishment of the bureau of Alaskan education. American enterprise was even viewing today the prospects that lay in Labrador, said Dr. Grenfell, and he stated that an American corporation had had a survey made of the southern part of the country by aeroplane and sea-plane. The aviators from the United States had found a natural landing field close by the sea. The survey was made with a view to establishing pulp and paper mills.

The enormous value of the fisheries was enough alone to make the Labrador and northern Newfoundland coasts a tremendous asset to British North America. The fish were worth this year, said Dr. Grenfell, about three times as much as before the war, which was, however, somewhat of a falling off from last year's prices.

"Then the water power in the high Labrador tableland is immense," added Dr. Grenfell. "We have no lack of resources. There is feeding ground there for great herds of reindeer and we already have the beginning of a herd in those that I brought from Europe."

Dr. Grenfell believes, like Stefansson, that the production of reindeer meat may become a great Canadian industry.

"One difficulty in the way of development is that the boundary between Canada and Newfoundland has never been settled. You can't develop a country until you know to whom the country belongs. But there is no doubt that it is a land that it will pay to develop," he said.

Discussing the work of the medical mission, Dr. Grenfell pointed out that the world was realizing now as never before that every man has a right to health. The problem of providing medical aid for the tiny fishing communities of the coast was the occasion of the founding of Dr. Grenfell's mission. The Newfoundland government has given assistance in the establishment of hospitals and life-saving stations. The general scheme is to have little hospitals every two or three hundred miles along the coast with smaller "life-saving stations." At each of these stations a trained nurse is in charge. She has a ward of two or three beds, a reviving room equipped with baths, and usually a certain amount of dental equipment. The fishermen of the district contribute to the maintenance of the life-saving stations, standing the full expense in a number of cases. Two more stations are shortly to be established on the Newfoundland coast. They will be operated at a yearly cost of \$2,500. In the case of one of them the fishermen have guaranteed \$1,500 annually towards the maintenance.

"Why, Norah," said her mistress, "how nice you look in your new dress and hat. I hope you will meet all your friends this afternoon so that they may see you in your fine clothes."

"Me friends, mum?" returned Norah. "What'll I be wanting to see them for? Sure, I don't care to make me friends jealous. It's me enemies I want to meet when I'm dressed up."

Five Minutes To Eleven has not yet come for those who stayed at home

The gallant Canadian army kept right on fighting until five minutes before the Armistice was signed.

The last lap of the war for those men was indeed a smashing, glorious finish!

While the fighting ended at five minutes to eleven on the morning of the eleventh of November last year, the war has not yet ended for those of us who stayed at home.

Our "Five Minutes to Eleven" has not yet come. There is a great deal more for us to do, before our war job is finished.

There are still heavy demobilization expenses to clean up. In a few short months we have brought home the troops that were transported overseas during four years of war—four years' transportation expenses crowded into a few months.

Many millions are still required to complete payment of demobilization and for other purely military expenditures.

The Victory Loan 1919 which is necessary to meet these war obligations is the great objective in the last lap for those who stayed at home.

The Canadian Corps, during the war, never lost a gun—never once retreated and never failed to take an objective.

Keeping that glorious record in our minds, and carrying that "no surrender" fighting spirit into the new Victory Loan campaign, there can be only one result—Success, overwhelming and triumphant.

When the figures for the Victory Loan 1919 are totalled up, the result will show the world that those of us who stayed at home have taken another glorious objective on the road to our "Five Minutes to Eleven."

SUES FOR \$50,000 FOR BREACH OF PROMISE

New York, Oct. 14—Papers have been filed in the supreme court in a \$50,000 breach of promise suit brought by Miss Phoebe Albert, an artist's model, against Walter K. Doyle, wealthy club man and insurance broker, who lives at 131 Remsen street, Brooklyn. That Miss Albert intended to bring such an action became known early in September.

Miss Albert declares that she made Doyle's acquaintance in April, 1917, and that a few weeks later he proposed to her. His love, according to the papers, was reciprocated and she became engaged to him. Every time a date for their wedding was fixed, Miss Albert alleges, Doyle found an excuse for postponing it.

In September, 1917, she says, they again pledged their troth and the girl declares that to prove her love she agreed, at his request, to change her religious faith.

The following month he renewed this promise in the presence of his mother, the date for the wedding being set for the latter part of the month, she asserts. At this time it was agreed, Miss Albert alleges, that as Doyle was expecting to be called to military duty overseas, a dispensation should be obtained from his church so they might be married without the formal publication of the banns.

Miss Albert declares that soon afterward the dispensation was procured, but "the defendant again broke his engagement and again postponed the date of the marriage and kept postponing it from time to time."

Miss Albert declares Doyle married another woman.

SUNDAY SCHOOLS HOLD RALLY DAYS

A rally of the Sunday school of Portland Methodist church was held on Sunday afternoon and proved most successful. A. C. Kirk, superintendent, presided, and the scriptural reading was given by A. C. Powers. Rev. N. McLaughlin preached a thoughtful sermon. To those entering from the primary to the junior class Bibles were presented by Rev. H. A. Goodwin. He also delivered an able discourse on "The Bible." There is a teachers training class in the school and to those who graduated

from it this year Mayor Hayes presented diplomas at the rally service, congratulating each on their work. Those to receive diplomas were the following: The Misses Muriel Panjoy, Margaret Morrison, Laura Panjoy, Rose Rowley, Mollie Lindley, Lillian Maxwell, Doris Corbett, Kathleen Blizard, Anna Alley, Edith Brown, Lillian Bromfield, Olive Scott, Mrs. Fred Smiler and Stanley Irvine.

Officers elected for the coming year are as follows: Superintendents: His Worship Mayor R. T. Hayes, S. A. Kirk, A. C. Powers. General secretary, Charles McConnell. Assistant secretary, Frank Merrill. Missionary secretary, Miss Etta M. Bell. Treasurer, A. W. McInnis. Secretary of periodicals, Thomas Pile. Home department: Mrs. J. W. Calhoun, Mrs. D. White, Miss Jessie Long. Superintendent cradle roll, Mrs. Ferguson. Assistant superintendents: Mrs. H. P. Breen, Mrs. A. J. Myles, Mrs. A. O. Powers. Secretary of social and moral reform, Fred Smiler. Musical director, W. H. Bromfield. Pianist, Miss Evelyn Huey. Assistant pianist, Miss Lillian Bromfield.

In Central Baptist church on Sunday afternoon the annual rally was well attended, with H. S. Wannamaker, superintendent, presiding, assisted by L. A. Polya, honorary superintendents and C. J. Stammers, associated superintendent. Honorary Deacon Alwood, aged ninety-two years, the oldest member of the Sunday school, offered prayer, while Mrs. R. D. Christie, superintendent of the Chinese departments spoke on the work being done in that sphere. In the programme of the scholars those taking part were Misses Eleanor Collins, Jean Smith, Ruth Stillwell, Lois Waters and boys of Mr. Henderson's school class.

Neither the soft fabric nor the dainty trimmings suffer if ordinary care is used in the laundry.

Nor does the garment lose shape—thanks to skillful tailoring and the high quality of materials used. That means that a Peerless garment will be comfortable—fit properly—feel right—until it is worn out.

THANKSGIVING DAY CELEBRATED

Day of Religious Observance and Home Re-unions, With Ideal Weather For Those Who Fared Aboard

The first Thanksgiving day since the end of the war was gratefully celebrated in St. John yesterday. It was essentially a home day, a day of family reunions, apart from the religious aspect of the holiday, to which due attention was paid at the services in the various churches. The weather was ideal and many took advantage of it afoot or in motor cars. The local theatres had special programmes and were patronized to their full capacity.

A largely attended united Presbyterian thanksgiving service was held yesterday morning in St. Andrew's church, with Rev. F. S. Dowling presiding. Rev. Geo. Farquhar read the lesson and offered the invocation prayer, while the thanksgiving prayer was offered by Rev. W. M. Townsend. Rev. H. L. Escobar preached an inspiring sermon upon the nature of the day, its significance at the present time, and the many reasons for general gratitude to God. An offering was taken in aid of the Protestant Orphan's Home.

The Methodists of the city united in a thanksgiving service yesterday morning in Queen square Methodist church. Rev. Geo. Morris presided. Rev. G. F. Dawson read the scripture, Rev. Jacob Heaney offered prayer, and the sermon was preached by Rev. H. Penna. The service was followed with appreciative interest by a large congregation as he referred to the beautiful gifts of God for which the world had every reason to be truly thankful upon this Thanksgiving Day. Rev. J. C. Berrie pronounced the benediction.

Memorial Tablet Unveiled

The harvest festival was held Sunday in the mission church St. John Baptist and the sermon was preached by Rev. Percy Coulthart, who took for his text the 37th verse of the fourth chapter of St. John: "One sower and another reaps." He alluded to the bountiful harvest, after which he spoke of those who had passed away and for whom a memorial tablet had been erected and was unveiled at the same service. The memorial is of polished brass and the inscription "Jesus Mercy" and underneath that "To the Glory of God and in honored memory of Bandmaster C. H. Williams, W. O. Street, Alex. W. Whitehead, Corp. D. William Ramsay, Pte. W. Foster Brown, Pte. Robert E. Gabriel, Pte. Frank L. Gantier, Pte. John R. Lezger, Pte. Howard Logan, Pte. Douglas T. Mowery, Pte. Frederick Wolfe, Canadian Expeditionary Force, members of the church, who laid down their lives in the great war, 1914-1919. Grant them, O Lord, eternal rest and may their light perpetual shine upon them."

A Thanksgiving service was held in St. Philip's church Sunday morning and evening and was conducted by Rev. H. W. Pinkett, who preached in the

LEAK WHICH CAUSED LOSS OF WATER SUPPLY DISCOVERED ON SUNDAY

The mysterious leak which caused the loss of water supply on all the higher levels in the city from early Saturday morning was not discovered until Sunday morning. The search had been maintained steadily, day and night, until the break was located in the fifteen inch main in Brussels street near Hamover. Repairs were completed and the service restored to normal by eight o'clock last evening. The water had been escaping from the broken pipe which was split almost its entire length and had been flowing away through the sewers. C. C. Kirby, district engineer of the C. P. R. rendered valuable assistance to the water department in the work of locating the leak.

FOOTBALL. East End vs. Refiners. East End will play the Sugar Refiners on next Saturday afternoon on the East End grounds.

East Enders Win. A team from the East End Playgrounds Association and one from the Great War Veterans' Association played a game of association football on the East End grounds yesterday afternoon and resulted in a win for the former team by a score of 2 to 1. The game was well contested and proved quite exciting.

Rothsday and High School Tie. The St. John High School football team and that from Rothsday Collegiate School played a tie game on the Rothsday campus on Saturday afternoon. Two twenty-minute halves were played, but neither side was able to score. Some

of the contestants wanted to continue play until a score was made, but section fourteen of the rules governing the interscholastic league states that a tie game shall count one point for each team and is not to be played off unless a tie for the championship forces them to do so. Both teams played well, although both made the fatal mistake of individualism and it was a rare thing to see the ball passed out to the ends. A feature of the game was the kicking of the St. John High School fullback, who staved off what looked like impending defeat on more than one occasion. He is a steady cool player and gives promise of developing into a clever fullback. The work of the other boys was also good and all shared in the applause. As is customary at the beginning of the season a number of penalties were handed out for breaches of rules and this caused some prolonged protesting on the part of the High School boys, but the decisions made by Mr. Cooper were upheld by those familiar with the rules whose sympathies were with the local team. The local scrim were playing the three line formation and got the ball out well at times, but they need a lot more practice before they can perfect this style. At times it was a case of every man for himself and they formed a semi-circle around the Rothsday scrim, showing for all they were worth.

The Rothsday boys played one quarter behind the scrim and another in a position which might be termed the flying quarter. This proved quite effective in defensive play, but did not seem to be of much avail on the offensive.

The St. John quarters made frequent breaches by playing off side and the Rothsday quarter was guilty of picking the ball out of the scrim. However, on the whole the game was good and keenly contested.

RING. Bouts in Montreal. Montreal, Oct. 14.—Andy Russell of Cornwall stepped out of his class when he went against Jimmy Duffy of Leekport, in the feature bout at Monument National last night. Russell won several bouts in military tournaments. Russell shaped up well for the first round, but in the second Duffy smothered Russell's punches and landed rights and lefts to his head almost at will. To save Russell from punishment, referee Leffey stopped the bout, which gave Duffy a technical knockout.

In the semi-wind up, Sherman out-pointed Langiers. Langiers had the shade on Sherman, and held his own until Sherman struck a foul blow in the early stages of the fourth round. Langiers refused to take the decision on a foul, Sherman started in the fifth to finish the bout and out-fought his opponent from then on. In the eighth round Sherman floored Langiers and had him in a bad way in the ninth and tenth. Langiers showed great gameness and it was discovered after the bout that he had fought the three last rounds with an injured arm and hand. In the preliminary Pete Green defeated Brown.

MEN'S UNDERWEAR WEEK AT OAK HALL

All This Week Will be Devoted to a Special Showing of Fall and Winter Underwear for Men

All Weights All Sizes All Prices

THE TRANSITION PERIOD from summer to winter is too often accompanied by numerous colds and other forms of sickness, due, in many instances, to man's delay in protecting himself with the proper underwear.

WE ARE READY to help you protect yourself — and are particularly calling this fact to your attention, by a grand showing this week of all our various lines of fall and winter weight underwear.

WOOL UNDERWEAR IS SCARCE and although we have accumulated a sufficient quantity, the best efforts of our buyers would not bring us any more than enough to go around—so it is UP TO YOU to take full advantage of this special opportunity and procure your favorite brand NOW before it is sold out.

Here are catalogued only a few of our numerous lines—when these are sold they cannot be duplicated at the mills. So make sure of yours this week.

The Hot Drink is the Making of the Lunch

The cold lunch, it has been stated, often lays the foundation for indigestion. A drop of piping hot coffee, tea, cocoa, or soup goes a long way to make the lunch tasty and more easily digestible. And you can have that hot drink so easily by providing yourself with one of our

"UNIVERSAL" VACUUM BOTTLES
which keep liquids steaming hot for 24 hours, and keep drinks ice cold 72 hours. In "Universal" Vacuum Bottles you have all the best features of the more expensive bottles of the kind, and some improvements besides. Yet, "Universal" Vacuum Bottles are

NOT EXPENSIVE compared with others kinds. The same is true of "UNIVERSAL" LUNCH BOXES (Illustrated Above)

LOCAL NEWS

FURTHER REDUCTION
A further reduction of staff in the No. 7 district depot at the armories is to take place soon. Of the four officers and twenty-four other ranks now on the staff at the present time fifty per cent of them will be struck off strength.

GOOD ADVICE
To prevent delay in handling out, feed and flour for points in the maritime provinces it is suggested by the railways that such supplies should be brought in before December 1. In addition to heavy local and lumbering requirements this fall, it is expected that there will be a heavy tonnage of food stuffs and other supplies for export to European countries, hence the above advice.

FREDERICTON HOSPITAL
The board of medical consultants from militia headquarters at St. John, N. B., are in Fredericton today investigating the case of each patient in the New Brunswick military hospital with a view to closing the hospital if the summing up of the situation will warrant such a decision. The board is composed of specialists each in his own branch of the profession and all are prominent medical men from various parts of Canada.

FUNERALS
The funeral of Mrs. William J. Irwin took place this afternoon from her late residence, Millidgeville. After a short service at the house the body was taken to St. Clement's church where service was conducted by Rev. R. P. McKim. Interment was made in Fernhill.

The funeral of H. Edwin Dalton took place this afternoon from his late residence, 118 St. James street. Service was conducted by Rev. S. S. Poole, assisted by Rev. Neil J. McLaughlin and interment took place in the Church of England burying ground. Relatives acted as pallbearers. The floral tributes received were beautiful and numerous.

BOARD OF TRADE NOTES
The board of trade has received a copy of the judgment of the Board of Railway Commissioners, dismissing the complaint of the Canadian Manufacturers' Association against general order 162 and the matter of relieving telegraph companies from responsibility for failure to transmit messages. The purpose of the complaint was that the conditions imposed no penalties for failure to transmit messages and an amendment was made in the order providing penalties therefor.

In response to an enquiry respecting non-delivery of mail matter on Saturday afternoons, the post office department advises that it is proposed to continue the arrangement throughout the year with the exception of five or six weeks during the Christmas season. It is further stated that this is the practice at all city post offices throughout Canada.

A Canby firm, manufacturing ladies' coats, costumes, furs, is inquiring with respect to facilities offered British manufacturers here for the sale of their goods.

An enquiry has been received from a Maine party as to hay prices and chances for shipment into the province.

CIGARETTES DEARER
The price of brands of cigarettes which have been selling for ten cents has been raised to eighteen cents a package, or two packages for thirty-five cents. This change went into effect on Saturday, but the news was received here only this morning. This advance in price, according to distributors, is due to the cost of manufacturing cigarettes. There has been no additional government tax, which stands at seven and a half cents on each package.

WITH THE BIG GAME HUNTERS
A great many hunters were in the woods up river yesterday. Benjamin Carson, above Public Landing, got a moose on Saturday with a 38-inch spread of antlers, with ten prongs. While a farmer at the Landing was out with a party a week ago looking for big game in the woods, two deer came out and were seen in his own pasture. The party got nothing. A man who lives in from several miles back of the Landing very early on Saturday morning saw five deer in the old orchard of an unoccupied farm. Very early in the morning the party already referred to saw in the deep woods a path to a lake that had been made by moose going to and from the lake, but beyond the tracks they saw nothing.

ONTARIO ELECTIONS
There Are 287 Candidates in Field, Including Strong Representation of Farmers

Toronto, Oct. 14.—Two hundred and eighty-seven candidates are in the field for the Ontario legislature. Of these, 101 are Conservatives, seventy-two Liberals, sixty United Farmers, ten Labor and United Farmers, twenty-three Independents, and twenty-one Labor candidates. Even not counting the joint U. F. O.—Labor candidates in ten instances, the United Farmers' showing of candidates is very large and spells trouble for many of the old line politicians. Ten candidates are without government candidates.

There are six independent-Conservative, two independent-Liberal, two Socialist, three anti-prohibitionist, and William Proudfoot, Sir Adam Beck and Mrs. J. C. Sears, Ottawa West.

WOUNDED GERMAN SOCIALIST LEADER HAS BECOME WORSE

INVENTOR, NATIVE OF ST. JOHN, VISITS HIS OLD HOME TODAY

William E. Shaw Here on His Way to Boston After Visit to Nova Scotia

St. John was visited today by one of her sons who has achieved fame in the world of science—William E. Shaw, a noted inventor who has been one of the staff of the famous Edison. Mr. Shaw was born at Queen Square here. It is fifteen years since his last visit to the city. He has been on a visit to Nova Scotia, including Halifax. He came from the latter city this morning and will leave for Boston tonight. Wm. E. Shaw of this city is an uncle of Mr. Shaw.

Mr. Shaw, lately connected with the Thomas Alva Edison Laboratories at West Orange, New Jersey, has by concentration and study overcome the difficulties which surround those who cannot hear. He is an adept in the art of lip reading and is an inventor of some note. Although he received his education in Hartford, Conn., Mr. Shaw is a Canadian and was born in St. John. When he returns to Boston he will open laboratories of his own where he plans to work on several inventions requiring more minute detail.

Among Mr. Shaw's latest efforts which have reached the market, are devices which appear particularly to those who cannot hear and they include a talkless telephone, a ringless door bell and a pillow shake, the latter being of particular use to the deaf who have a tendency to oversleep. It renders sleep impossible by shaking the pillow until the sleeper is aroused. Mr. Shaw has fixed his eyes on aviation as the great endeavor of the century and has recently perfected an invention which he believes will be of great value in the air and which, while doing particularly deadly work, will minimize the danger to aviator and machine.

Mr. Shaw's latest invention consists of a device for discharging bombs or torpedoes, and which may be attached to any airplane in such a manner that the torpedo will drop on any desired target and then explode without the slightest danger to the operator. The device consists of a small bomb carrying airplane, propelled by springs wound up like a clock. The airplane can be launched out from a ship or a large airplane and is controlled by an operator and capable of carrying a torpedo to any distance. Perfect control is secured by means of a revolving spool of cord, one end of which is attached to the bomb carrying device and the other to the ship. On the cord spool is an indicator showing the distance the bomb carrying device has reached and when the desired position is attained, the operator stops the revolving spool with a quick motion, releasing at the same time the catch holding the bomb which then drops and explodes. The spool returns to its original position revolving backwards to the place of control. The device also carries a machine by which operators can change at will the course from vertical to horizontal.

PLACENTIA SUNDAY SCHOOL HAS CELEBRATION
On last Sunday the Placentia Sunday school observed its twenty-first anniversary and also held a rally and Thanksgiving service. C. B. Black, superintendent gave a history of the school, twenty-one years ago a little band of people started Sunday school in a small hall with an attendance of from twenty to twenty-five but six years later they were enabled to build a large hall and now have an attendance of from fifty to sixty.

At the service on Sunday there were ninety-six present. A very pleasing and important fact in connection with the school is the fact that Carey Black has been superintendent during the twenty-one years. A very interesting programme was carried out as follows:

Doxology; the Lord's Prayer, by the school; Hymn by school—"Jesus Saves"; Prayer by Assistant Superintendent Harry Arbo; responsive readings; selection by choir—"Does Jesus Care?"; speech by H. Arbo; duet by Misses Ella and Sylvia Hamm—"Oh, The Will Be Glory"; reading by Mrs. Knox; chorus—"Mrs. Knox, Mrs. Hamm, Mrs. Small and Mrs. E. Hamm—"Lord, I'm Coming Home"; treasurer's report—Miss Ella Hamm; selection by choir—"What Will You With Jesus?"; speech by George Deste; duet—Miss E. Hamm and Harry Straight; "Dwelling in Bethel Land"; Scripture were asked by the superintendent and answered by the scholars. A closing prayer was offered by Elias Kierstead and the school separated after singing "God Be With You Till We Meet Again."

SOLDIERS' VOTE IN THE MUNICIPAL ELECTIONS
Throughout the municipalities in the province there is speculation as to whether soldiers can vote in the municipal elections to be held in the near future. The act governing the municipal elections is different from that governing the provincial and federal elections. By the following special act passed this year in the Legislative Assembly in Fredericton, soldiers under the provisions of the act may vote: "Notwithstanding anything contained in any act of assembly every male person of the age of twenty-one years, being a British subject and not otherwise legally incapacitated shall be entitled to vote at any city town or municipal election, held during the present year or within one year after January 1, succeeding the date of the declaration of peace, if he shall have served in the Canadian Expeditionary Force, or in the British army, or on home service during the war and was, at the time of his enlistment, a bona fide resident and domiciled in the Province of New Brunswick, and is at the time of tendering his vote a bona fide resident and domiciled in the city, town or municipality in which his vote is tendered; provided that no person so voting shall be entitled to vote under and in virtue of this section and further provided that at the time of tendering his vote if called upon to do so, if discharged he shall produce his discharge papers. This act is taken from Chapter 57 of the Acts of Assembly, 1919.
