OTTAWA LETTER.

The Debate on Prohibition and

The Order Paper of the House as a Campaign Sheet.

Mr. Taylor Checkmates the Liberals With

(Staff Correspondence of the Sun.)

Ottawa, Jume 18.—The prohibition debate last night was entirely free from excitement and fer once free from recrimination and partisan speeches. The long arguments for and against prohibition which were the fashion some years ago do not take place now. It has become wearisome both to speaker and hearer to go over the same ground year after year. All that now seems necessary to be done is to call attention to new developments and incidents connected with the question. The recent events discussed in the short debate of last evening were the appointment and report of the Royal Commission, the popular vote in the various provinces.

J. Perrault, expenses and wash-(Staff Correspondence of the Sun.) report of the Royal Commission, the popular vote in the various provinces and the reference to the courts of the question of jurisdiction to pass prohibitory legislation. Somewhat unexpectedly to the public and probably to the house itself it was the last mentioned feature of the case which dispersed of the question for this receipt. osed of the question for this session

hibitory laws. Sir John Thompson was apparently of the opinion that the provinces had this power. Sir Oliver Mowat has always claimed all the jurisdiction that the constitution allows, and though he is not anxious to have a new responsibility thrust upon him, he has declared himself willing to accept it. The judicial committee of the privy council has been asked to adjudicate on the question, and the parliament of Canada has decided to take no action until the decision is given. and the parliament of Canada has decided to take no action until the decision is given. Mr. Mills, who is regarded as the constitutional authority on the opposition side, expressed the opinion that it would be an unseemly thing for parliament at the present time to legislate or even to affirm that parliament ought to legislate. The proper thing to do was to wait until the court located the responsibility. The house by a small majority adopted this view, which was supported by all the ministers except Mr. Foster and Mr. Dickey, and by opposition chiefs except Laurier.

It is a notable circumstance that the second am relement was corried. The second amendment was like the first except that it reaffirmed the principle of prohibition. Mr. Mills, Mr. Laurier and most of their friends opposed this amendment while supporting the motion, which did not say a word in favor of prohibition. The position taken by Mr. Foster and Mr. Dickey was plain and clear. They opposed both amendments and would have voted for the original prohibition motion. But the amendment, which was carried mantically shut, out the walk But the amendment, which was ed, practically shut out the main

The order paper of the house of ommons has become a valuable camaign sheet. It is an innocent looking n, and is supposed to cons. But the part which is devoted to questions put by members lends itself admirably to the purposes of the campaigner. A short time ago the government was asked a question, the text of which contained a long extract from a speech said to have been delivered by Mr. Ouimet in some Quebec constituency, wherein the minister of public works was reported to have been delivered of the bare been delivered by Mr. Ouimet in some delive to have boasted of the influence of the French and Catholic members of the government. Again a question containing a letter from Sir Macken-zie Bowell to Mr. McNeill explaining that certain vacant senatorships had been promised, was placed on the order paper. Clerk Bourinot's afternoon edition became still more vio-lently perverted to party ends when Mr. Choquette handed in a question beginning: "Whether the government had the accounts current of George R. Cockburn, esquire, M. P., examrect, and have they been paid in full, that is to say, \$4,425?" Then follow five pages of details containing the for hotel bills, Hquors, boot-

But this is a game that two can play at. Mr. Taylor, the government whip, concluded that it was time for him to take a hand in. There was when Mr. Mackenzie was premier of Canada. One Joseph Perrault was appointed secretary-treasurer to the Canadian commission. Mr. Letellier, the minister of agriculture, was one of the commissioners to the exhibition. Remembering this, Mr. Taylor Dut on the exhibition. put on the order paper a question which included ten pages of the Phila-delphia account. Mr. Perrault's bills for below for his own wages and expenses amounted to 29,886, or more than amounted to \$9,886, or more than double the amount paid to Mr. Cookburn. Here are a few sample pages taken from Mr. Taylor's contribution

9,886 88 of an interesting periodical. The clerk might make money by having it soid on the street. Sometimes the government side takes the initiative in "loadment side takes the initi ing up" the order paper, as occurred the other day, when without apparent provocation some member gave notice that he would move for an order which would include full information as to the Pacaud-Mercier-Tarte notes retired out of the proceeds of the Bale des Chaleurs steal. The text of the notes, and some of the testimony showing that the money was used in the last dominion election for the benefit of Mr. Laurier's friends, are set forth in detail on the paper. This

notice occupies two pages. : SHORT LOBSTERS.

John C. Cox of Boston Acquitted of the Charge Against Him.

Boston, June 19.-In the superior criminal court this afternoon, before Judge Sheldon, John C. Cox was acquitted of the charge of having nearly five hundred short lobsters in his possession. The defendant's counsel, C. F. and R. W. Light, raised the point that their client ought to be equitted as to all but five of the lobsters, because they were in original S. to New York. Judge Sheldon to the jury on the five remaining lobsters. The jury returned a verdict of not guilty, they finding that the lobsters were of legal length.

On Monday, 17th inst., fines and costs amounting to over \$500 were imposed by Justices Piers and McLauchact. Patrick Doherty of Sussex was fined \$100 and \$40 costs; John Doherty, \$100 and \$27 costs for a second offence; Mary Doherty, \$50 and \$20 costs. Thos. Quirk of Smith's Creek, Studholm, was fined \$50 and \$27 costs. W. T. Scrib-ner of Hampton was fined \$100 and \$15 costs, but on Mr. S. giving satisfactory assurances that he had closed his bar, further proceedings against

ST. JOSEPH'S COLLEGE.

Closing Exercises at Memramcook Thursday Afternoon."

The Valedictory of Fred Richard and Names of Those Receiving Degrees.

Addresses Delivered by Rev. Fathers Roy and Richard and H. A. Powell, M. P. P.

(From Our Own Correspondent.) St. Joseph's College, June 20.-With today's commencement exercises St. Joseph's has completed the thirty-first day she is animated with a feeling of onorable pride on beholding such a throng of her foster children gathered round her portals, from which they went forth to fill posts of honor and mould the opinions of men.

St. Joseph's, from humble beginnings, has grown to be an institution well capable of fitting its children for the humbler and more exalted spheres of life. Excelsior has indeed been the motto of its founder.

During the present year there have been one hundred and eighty students on the register, with an average attendance of one hundred and sixtyfive, and a faculty of thirty. All parts of Canada and the United States are well represented, and the coming year has every prospect of eclipsing for-mer ones in the number of the attendants. The best wishes of the numer ous parents and friends assembled are that St. Joseph's will only resemble its progress of the past.

The programme of the afternoon exercises was:

March—Glamator Sousa

Banl.

Discours D'Adieu. .. L. E. A. Beauchesne
Violin Solo—Berceuse. .. Wm. P. McNamsra
Valedictory Fred Richard
Quickstep—Montrose ... Coyswell
Orchestra.

Premiums March—Salut a la France. The following degrees, diplomas and

prizes were awarded: Commercial diplomas Camille Gautreau, Canaan, N. B.; Parker Hickey, Bathurst, N. B.; Arthur T. LeBlanc, College Bridge, N. B.; Alphonse Le-tourneau, Victoriaville, P. Q.; Roy Mc-play an honorable part in the great Grath, Dorchester, N. B.; Arthur O'-Keeffe, Campbellton, N. B.; William Ouellette, Ste-Marie, N. B.; Floyd Sonier. Port Elgin, N. B.; Basile St. shall lie within our reach. Yet a few Flavie, P. Q. The following degrees were confer-

liveau, S. J., Quebec.; Rev. John O'-Flaherty, St. Andrews, N. B.; Rev. Henry A. Meahan, Moneton, N. B.; Fidele Gaudet, M. D., Meteghan, N.S.; Rev. Frederic Tessier, C. S. S., St. Joseph, N. B.

Minims honour premiums-Awarded to Pierre A. Landry, Dorchester, N. B. The following is the valedictory of Fred Richard of Richibucto:

Rev. Superior, esteemed Faculty, Fellow-students and Classmates—A retrospective glance at the college days gone by cause myriad recollecto pass promiscuously before my These recollections, gliding mind. hurriedly by, appear adorned in vari-ous colors. The greater number of brilliant hues are the events of college life, the others are its slight, infrequent troubles. Often have we heard that in all conditions in this worldly life, sorrow and happiness go hand life, sorrow and happiness go hand in hand. Does this saying hold good for the students? If we may say that the foam dashed about by the stormy billows has weight when compared to the elements themselves, it does; otherwise the application fails. Not until this reluctant duty of bidding farewell to our Alma Mater had fallen on me did the bases of the color and the ocean-wave sang the refrain. well to our Alma Mater had fallen on me did the hopes of youth so forcibly impress me as delusive. Where is that excess of joy and ecstacy which was to top the climax of all college closings? Where is the bliss of that longlooked-for freedom, temporally snatched from us by the restrictions of college discipline? Vain hopes. Now that we are about to take our allotted places in the vast arena of life, the insignificance of youthful aspirations is brought out in bold relief. A much But a marvellous sight filled his soul more important end, however, shines in the background, and that end, with the weapons placed in our hands by our Alma Mater, we will earnestly

strive to attain.

Rev. Superior, the day which saw you cross the threshold of this insti-tution as its president was a propi-tious one. The wave of affliction which disturbed the calm surface of his bar, further proceedings against him were not pressed. Inspector Weyman was the prosecutor and F. A. McCully appeared for him. None of the cases were defended.

H. H. Hatch has been promoted to the position of cashier at the I. C. R. Treight shed. E. V. Corbett gets his freight shed. E. V. Corbett gets his must have been a source of consolar with the case of the property of t

tion to you, however, to see the expression of hope revive on the sorrowful faces of his orphaned children, now having become your care. We also by the loss of our common father had our griefs to bear and our bereavement to overcome. He who dispelled the mistry clouds, which for so long.

Gliding swift o'er the foam—and they entered his home, and the student nor swooned nor could pray.

Said one monarch—Behold' I'm the conqueror Gold, "At my shrine all mankind bend the knee." And the world you may sway with the wages the misty clouds which for so long a time obscured the destinies of Acadian youth; he who with solicitous and paternal care watched over our spiritual and temporal welfare was indeed loved by his students. Father Lefebvre is no longer with us, but Providence in appointing you as his successor has fully compensated for our lamentable loss. May that Provi-

stitution his benignant smiles and keep you as the light of this house for years and years to come.

Esteemed Faculty, at last the hour for which you have so often warned us to prepare has come, the battle of life is about to begin, and we must take our places on its field. We have selected our weapons; it remains now us. If we fail, ours shall be the blame. If we succeed, the glory shall redound on you. With feelings of in-termingled gratitude and reluctance we bid you farewell. We ask you to orget the troubles and anxieties may at times have caused you, and we dare to hope that in our future conduct you shall see in us pupils abiding by your wise and prudent

dence yet shed upon us and this in-

Fellow-students, while in these walls we have passed many days to-gether. Our sorrows and joy, our work and play, like the waters of one majestic stream, have flowed on in unison. But alas for the class of '95 this regular and enviable life is a thing of the past. Our college days are over, and so we leave you. Intimacy has woven around us ties of affection which at this moment are difficult to sever. Faced by sad necessity, however, and with sorrow un feigned arising in our breasts, we say farewell.

Classmates, the goal of our college ambition is at last attained. The way apparently so difficult to tread is now overcome. True, the smiling vision of vacation and home makes a welcome on on our mind; still a ting of sadness at the thought of depart ure has found its way into our hearts. We are leaving our Alma Mater; leav ing her who has instilled into minds and hearts the principles that alone can ennoble life, and fit us to world drama upon which for us the curtain is soon to rise. Let us live up to hours and we of the be numbered among those of the past Artium Baccalaureus—L. E. Arthur Beauchesne, Paspebiac, P. Q.; Henri Cormier, McGinley's Corner, N. B.; Joseph Hayes, Fredericton, N. B.; Thomas McManimon, Lewell, Mass.; Michael Murphy, St. John, N. B.; Fred Richard, Richibucto, N. B. Artium Magister—Rev. Phillippe Belliveau, S. J., Quebec.: Rev. away, And pour her sweet, enchanting strain,

That friends beloved, some future day Shall meet again.' The programme of literary and musical exercises tonight was March-Tempest

With such exhibits as these, the ommons order paper is growing to be interesting periodical. The clerk 

CONFERRING OF DEGREES. The following is the poem, Youth's Ideal, by Rev. A. B. O'Neill, C. S. C., read by Roy McGrath this evening There's a legend that's old of a student old,
Who afar from the world loved to roam;
How he found a bleak cave, near the wocan wave,
How he lived there and made it his home and he sang to the breeze that come of the seas,
Of the master whose love he would win;
For he spent all his days in thanksgive and praise,
And he dreaded no evil but sin.

the wave./ And the student with dread as onward she That her course led direct to his cave.

I'll pay, If you'll pledge your alliance to me.'

"Queen of pleasure am I," was the maid

"Queen of pleasure am I." was the maid's joyous cry,
Let your heart and your homage be mine,
And the waves of life's stream will all sparkle and gleam.
With the lustre of bright ruby wine."
As she ceased, a fair youth on whose countenance Truth
Stamped a joy of ineffable grace,
In their midst did appear,
Wrote these words on the wall's rugged face:
Would you win constant joy and fruits that n'ere cloy,
Serve not pleasure nor wealth nor renown,
Let your soul eyer laud the perfection of God,
And your union with him be life's Crown."
In the student's bright eye could the monarchs descry
Their defeat, so they fied as they came,
And ne're more to that cave o'er that wild ocean wave,
Sped the bark with the pennants of fire.

All this happened of old, but fame, pleasure

All this happened of old, but fame, pleasur and gold.

Still entice to their ranks ardent youth;
And the glitter and glare on the robes that
they wear,
Oft eclipse the chaste ralmant of truth,
But the spirit of light on each heart doth

write,
As the youth of the legend on stone,
"To secure constant bliss in the next wor
and this.
Love your saviour and serve him alone." REV. A. B. O'NEIL, C. S. C., M.A.

Never did such a crowd assemble in the college hall as that which was present to witness the closing exercises this evening. In the absence of Senator Poirier, the alumni oration was delivered by Judge Landry. At the close the assembly was addressed by Rev. Fathers Roy and

Richard and H. A. Powell, M. P. P.

A meeting of the Alumni association and the Lefebvre memorial hall com-mittee will be held tomorrow morn-Parker Hickey of this year's business class has been successful in ob

taining the gold medal awarded for the highest standing in a competition open to all business class students in the different colleges of the Holy Cross Order of Canada. The students leave for their respective homes tomorrow. Studies will be resumed on September 4th.

Rev. F. Tessier, C. S. C., leaves next week for Washington, D. C., where

he has been engaged as professor in

the new university to be conducted by the fathers of the Holy Cross. LAKE SUPERIOR RAILWAY.

The List for the Issue of Bonds-Canadian Gazette on the Matter.

London, June 19.—The list for the issue of bonds of the Atlantic and Lake Superior railway closed last

night.
Hon. Mr. Haggart's reported denial
of the alleged Canadian government guarantee, leads the Westminster Gazette and other papers to demand a definite statment from the company, and the Canadian Gazette stakes its bonds will never see a farthing of the principal back. It deeply regrets, for the government is associated with the issue, though it admits seeing that any one can purchase an annuity, that the government had little choice. It further says that the rules should be revised to prevent the use of the government's name in the promotion of are used for the small drains and any one can purchase an annuity, that individual schemes. The result of the subscription is not yet made public. Montreal, June 19.-In connection with the above, Hon. Senator Thibaudeau had received no news from London up to a late hour this evening.

THE DRUGGISTS.

Annual Gathering of the New Brunswick Pharmaceutical Society at Moneton.

Moncton, N. B., June 19 .- The New Brunswick Pharmaceutical society met here today. At the morning session, President Coupe of St. John gave very interesting address.

At the afternoon session the following officers were elected: M. V. Paddock, president; John M. Wiley, vice president; W. H. Mowatt, secretary; H. J. Dick, treasurer; R. W. McCarty, registrar; council, the officers and C. registrar; council, the officers and H. Fairweather, C. T. Nevins, R. Robertson, Geo. A. Moore, C. W. Parker, your left farm houses, and further ertson, Geo. A. Moore, C. W. Parker, R. E. Coupe, N. B. Smith.

The visitors, who numbered about thirty-five, were entertained at supper thirty-five, were entertained at supper at the Brunswick hotel tonight, at which the usual toasts and speech bird's-eye view of Sackville, the whole making were indulged in.

NEWFOUNDLAND.

The Loan Bill all Right-Warship Distributes Provisions.

St. Johns, Nfld., June 19.-The trou ble in connection with the loan bill has proved to be a false alarm. 'A misunderstanding occurred through want of knowledge of the English practice in connection with such loans. The English practice provides for a special act governing the raising of loans there. Agents must be appointed there who are alone responsible to abscribers for the loan. These agents issue and register the stock in the coupons, and the holders receive the interest from them. This is understood to be in effect the information received by the council from London, but no

official statement is made. The warship Cleopatra is back from her relief cruise around the islands. She distributed all the provisions and salt she carried. The French warship

Epizootic, in a very mild form but general, is epidemic among horses in

AT NAPPAN.

NO. 26.

A Visit to the Dominion Experimental

Farm.

interesting Experiments in the Matter of Marsh Draining-What Col. Blair Has

(Special Correspondence of the Sun.) A fine day, a fast horse, good company and a good road made the thirteen mile drive to Nappan a very pleasant one. The colonel, as usual gave his visitors a warm welcome, and after showing them his "den," as he called it, and introducing them to Mrs. Blair, who if possible fills her position there better than the colonel, proceeded to show what there was of

For some reason, perhaps something he saw in us, we were taken to the hog-pen first. Here we saw the long-snouted Tamworth, with his sandy jacket; the ugly-headed, flute-mouthed Yorkshire, and the sleek-sided, comfortable-looking Berkshire, all enjoying themselves as well no doubt as government pigs could who were not sure of a pension when their term of

service expired. From the piggery we went barn. The horses are looking well. The government stallion is a fine aniand two three-year-old raised on the farm are just fair specimens. The work horses looked on their cut hay and meal. The neat stock are all in good condition but not fat. Ayrshires and shorthorns make the best showing. There are There are some grade Holsteins and I think one or two pure, and quite a number of grades of other breeds. The dairy has been run all winter. The skim milk is brought back from the factory and fed to calves of which The roots were about used up and

The ensilage had been very satisfactory: The corn did not seem to be in silage. The hay for the horses is cut on the upper floor and spouted down into a room in the stable. The grain is mashed on the same floor and put down in the same way. Hay is so plen-tiful this year that long hay is being fed to the cattle and used for bedding as well, it being cheaper than straw for that purpose but not so good. Seeding had been going on for about four weeks and was nearly finished. About 80 varieties of potacoes had been planted and a great many in fact, everything that is grown or the farm has ben planted or sown in

duplicate a great many times.

Potato planting was going on the day we were there, and ground was being prepared for turnips. About 30 loads of barnyard manure and 300 lbs. of bone meal or some kind of phosphate is used per acre for turnips. Sugar beets are grown for feeding the pigs and are stated to be most excellent, fo the purpose. The colonel is and the Canadian Gazette stakes its just now very much interested in unreputation that the subscribers to the der-draining the marsh. He made a commencement last week and was so the sake of Canada's reputation, that pleased with the results that he has gone into it in earnest the spring, and expresses himself sorry he did not

begin the work earlier wooden sluices for the large oughly done, and marsh owners in the course of a few years will probably know whether under-draining can be made a success on the marsh. One merchant farmer, or farmer merchant, after taking a look at the experiment, ordered a car load of tiles. A number of farmers, however, have no faith in the success of the work. One says it may do in the Nappan marsh, but it will not do in the Aulac. Another says the fine sediment in the marsh will fill up the tiles in a few years and render them useless. And so on.
If it can be made a success it will be much the cheapest way in the long run to dry the marsh.

After coming from the marsh we

drove along a road on the farm which winds around the base of a hill and leads out and up to a kind of plateau, from which you get a fine view. The orchard at your feet and the northwest side of the farm with the dairy manager's house are in front; to your away still Lower Maccan, while in full view in front is the Cumberland forming a picture well worth the drive, and one to be remembered with

It is time now to be moving for home, but we have not seen the but-ter factory. Mr. Hopkins, the efficient manager of that establishment, is just going to his tea, and offers us a cup, as did also the colonel, but arrangements are otherwise, and Mr. Hopkins cheerfully shows us through the facmilk, and we are away for a spin over the thirteen miles of good road again. A short call at Amherst, and home is reached in time to save any bad results from late hours.

May, 1895.

(Montreal Star, Monday.)

The Street Railway company again broke their Sunday record yesterday. The earnings were \$3,920.56, an increase of \$1,236.47 over the corresponding Sunday last year and an increase of a few dollars over a week ago yesterday. Saturday the receipts were \$4,837.48, an increase of \$1,308.88 over the same date last year. The Mount Royal Park Incline railway carried twelve thousand people yesterday to the mountain top, while the Richelieu and Ontario company took 6,110 to \$t. Helen's Island.

Jilson says the greatest sticklers for form must sometimes bow to the in-evitable without having had an introduction.-Buffalo Courier.

#### PROVINCIAL.

- A PRESIDE A. H. McLane's Store at Hopewell Hill Burglarized.

Death of Mrs John Antworth, an Old Inhabitant of Centreville

Opening of the New Episcopal Church at Dawsonville.

ALBERT CO.

Hopewell Hill, June 14.-The store of A. H. McLane at this village was broken into last night and about \$70 worth of goods stolen. The burglars effected an entrance by the front window, which had no shutters, by removing one of the large panes The articles stolen included four silver watches, valued at \$55; revolver, pair of pants, a quantity of tobacco and some canned goods. The robbers were evidently after the cash, the money drawer, which was fitted with a combination spring lock, being found open, but fortunately the bookkeeper, Mr. Colpitts, when closing the store in the evening, had taken the cash on hand to his residence for safe keeping. The burned stumps of several matches were found, where a light had been made. No clue has been obtained yet, as to the guilty

The president of the Albert County Teachers' Institute has handed The Sun the following programme of the 18th annual session, which will be held at Dawson settlement:

Thursday—First session, 9 a. m. Enrollment, etc. Secretary treasurer's report, appointments of committees, address by the president; lesson on botany, grade III, by Miss Eva Welling; discussion opened by A. D. Jonah. nd session, 2 p. m: Reading of minutes, roll call; natural history excursion, botanical division conducted by N. W. Brown; zoological division by A. C. M. Lawson; mineralogical division by T. E. Colpitts. Third session, 7.30 p. m.: Six five-minute papers on general topics, (a) Home Tasks, by Miss Martha Bray, discussion opened by W. M. Burns; (b) Rewards and Punishments, by Harry Burns, discussion opened by Miss Lillian Irving; (c) Tardiness, by Miss Lizzie Parkin, discussion opened by Miss M. F. Sixth session, 7.30 p. m.: Public meet-ing, addresses by Inspector Steeves and the chief superintendent of edu-cation; reading by Miss Sophie M.

KINGS CO.

Lower Millstream, June 14.—A very enjoyable time was spent at the resi-dence of Richard Cosman, the 12th inst., when about 40 invited guests were present to witness the marriage of Miss Maud White to Fred. Hayes. The bride was the recipient of many fine presents. The marriage ceremony was performed by Rev. A. H. McLeod.
A pie social was held in the Gibbon house on the 14th inst., pro

ceeds to help procure some maps, etc.

M. Bolter is sawing the logs of John McAuley at Lower Millstream. Sussex, June 18.—Unquestionably many of our farmers about Sussex are indebted to John E. Slipp,

don Mills, Murray Huestis and Walter J. Mills, who compose the Sussex Dairy Co., for their push in the manufacture of cheese, of which unusually large quantities are being made here this season. Yesterday morning the factory took in twelve thousand three hundre pounds of milk and was to take in six hundred pounds that was ready for de livery. There are three vats used in this building and a number of men and boys under the care of A. M. Eveleigh the foreman, are kept busy enough early and late. This spring they fitted up a large room in which to cure their cheese, and at present well nigh on to twenty tons are stowed away, which is certainly a cheering sight to see so much valuable food being pre-

pared for market and which receives a

principally in St John.

Grand Master Kelly arrived in Sussex by C. P. R. yesterday afternoon and accompanied by Past Grand Master Geo. W. Fowler drove out to Keirstead Mountain to attend a supper and entertainment given by the Orang lodge in that place. E. C. Keirstead presided. The first speaker was G. M. Kelly, who gave an interesting account of his recent trip to Ireland. The address of the evening was made by Geo. W. Fowler, who for more than an bour spoke on the duties of Orangemen in relation to the political questions of the day. Short speeches were also made by John Boyd, Thos Keyes the chairman. After a vote of thanks to Messrs. Kelly and Fowler. the meeting closed by singing God, Save

the Queen. James M. McIntyre, barrister, left by the Halifax express this morning for Bristol in Westmorland Co., where he will act as best man in an important event, in which Dr. S W. Burgess formerly of Sussex, is one of the prin cipals and Miss Josephine Avard, one of Bristol's most popular young ladies, the other. Your Sussex correspondent wishes the happy couple the warmes

congratulations. The name of William H. Wallace has been added to the list of licensed auctioneers for King's Co.

A Mr. Kent of Amherst, N. S., who bored for water on the premises of S. H. White on Church avenue with such | said.

wonderful results, and who is now boring for water for the new residence being built for the Bank of Nova Scotia, and has contracted to bore for Geo. Slipp and others, brought in a new and powerful portable engine here yesterday, one engine proving insuf-ficient for him to fill his orders. The new engine was built by Robb & Co. of Amherst and is said by good judges to be a fine one

QUEENS CO. Jemseg, June 14.-Mrs. Mary Camp, widow of the late George Camp, form-erly of this place, but for the last twenty years living with her daughter Mrs. Duncan McLean of Cumberland Bay, died on the 11th inst. Her re were brought to Jemseg and interred in the Baptist burying ground. Mrs. Camp was in the ninety-fifth year of her age, and has been an invalid from rheumatics for sixteen years. She died leaving eight children, three sons and five daughters, thirty-eight grandchildren and fifty-nine great

grandchildren. The services were attended by the Rev. Isaiah Wallace. Petersville, June 14.-Wednesday was the warmest day of the season, the thermometer registered 110 in the

shade.

The residence of James McKinney of Summer Hill was the scene of an interesting event on the evening of the 12th, the occasion being the marriage of his daughter Maggie to Harry Anderson of Armstrong's Corner. ceremony was performed by Rev. Wm. Wass in the presence of the relatives and immediate friends of the happy couple. The young couple are well and favorably known, and were the recipients of many presents, marks of esteem and good feeling, from a large number of friends. The bride was beautifully attired and looked charming. The many friends of Mr. and Mrs Anderson join in wishing them long life, happy days and many of them in their new home

CARLETON CO.

Centreville, June 13.—One of the oldest inhabitants of this county passed from earth to Paradise on Tuesday night, June 11 (St. Barnabas' day), namely Jane, relict of John Antworth sr., aged 92 years, 5 months, nee Miss Ritchie. She has lived for several years with her daughter, Mrs. Brown, at Summerfield. About two weeks ago she was driven out to her son David's to spend a few days. On Thursday last she was stricken with paralysis and remained speechless and apparently unconscious to the last. Seventeen years ago she buried her husband and fifteen years ago her son John. She mourned for them deeply all these years. Now they are doubtless once more together. The old lady leaves five sons and two daughters and a large circle of friends to mourn her departure. She was laid to rest in the Church of England burying ground at Greenfield this forenoon, her clergy-man preaching from the words in 2nd Kings, x. 32: "And in those days the Lord began to cut Israel short." "Re-

Woodstock, June 15.-The funeral of Frank Good took place this afternoon from his home in Jacksontown and was largely attended. The deceased was a prominent farmer and was generally esteemed. His death was sudden at the last, though for two years past he had been in poor health. On Thursday afternoon he had been across the road to see his brother. He came home and asked his wife to get him some medicine. She did so, and went out of the When she came back he was room.

The showers of the past two days have been most welcome. It is feared, however, they came a little late to prevent the hap crop from being light. Centreville, June 17.-Thos. Margison died on the 14th inst., aged 85 years, and was buried in the F. Baptist cemetery at Tracey's Mills. Early in the forties when this part of the county was in its primeval state, Mr. Margi son made a home in the parish of Wicklow, where he raised a family of seven sons and three daughters. three of whom preceded him to the spirit land. By hard work, strict economy, and honesty he became one of the re spected and prosperous farmers of this county. His family are comfortably settled and have followed the couns and example of a kind father, and sincere Christian. He professed religion in early life, joined the F. B. church and adorned his profession by a well ordered life and godly conversation. He leaves an aged widow to mourn his loss, who, with the family, have the sincere sympathy of a large circle of relatives and sympathizing friends. Of the early settlers of this part of the county, but one is now living, namely the widow of the late John Gregg. She is now well nigh a centenarian.

It is scarcely in the recollection of the oldest person to remember so little rain and so much dry weather. Since the spring opened the farmers had no hindrance in planting and sowing, as the weather was cool and the sun bright. The grass in the start bid fair to be a good crop, but the long drought hindered its growth, and while the late showers may assist its growth, it has the appearance of being very short and cannot be more than two-thirds of the ordinary yield. The potatoes either from drouth or other cause, look very weak and poor color, and if they escape the ravages of the bug, which are coming to the front early and in increased numbers, they will fall short of an ordinary crop. not promise an abundant har-Viewing the prospect as it apvest. pears to us, we cannot, to say the least, have as good a yield as in former years, and unless timely rains put in an appearance, a great failure

will be the result. Frank Jones, who has been playing soldier for the last three years, has returned home, bringing a wife with him, and is now engaged in farming. The superior school taught by Chas Edgett, after the present term was half expired, became vacant by the teacher handing in his resignation. This put the trustees and district to some inconvenience, but very fortunately the services of Hugh Peppers, a student of McGill university, was secured for the balance of the term. The trustees have engaged him for the coming school year. He has proved himself a teacher of the first water. primary teacher is Mrs. Wilmot Harald, of whom the same may be

Miss May White, who has been visgan, arrived home last week.

Mrs. Daniel Mott of Queens Co., is

visiting her sister, Mrs. Henry Lewis, who for some time has been in a poor state of health. Through the skilful treatment of Dr. Brown, hopes are entertained of her complete recovery.

Mr. Olmstead of Woodstock has his sign out as merchant tailor. Competition is the life of trade.

Hartland, June 17.—Ed. Stewart, aged 50, of Pole Hill, four miles from ere, died very suddenly last week from drinking too much cold water while he was warm. He drank from a cold spring and was immediately seized with violent cramps and died in great agony after half an hour.

Miller & Johnson's shingle mill runs night and day to supply the demand

made upon it. Real estate is still on the rise. Five ioliars a foot has been refused for a buiding lot.

The Foresters turned out in a body vesterday and marched from their all to the F. C. B. church and listened to their annual thanksgiving sermor preached by Rev. Gideon Irwin, chap-

ain of the court. There was a large

congregation besides the Foresters. The village is billed for the Forest ers' annual pionic, which is to be held on July 10th. Preparations are being made that will make this celebration the one of the season, and to super ede by far any previous attempt. The principal feature will be the grand concert given in the big tent at 5 . m., under the direction of E. Alexander and Mrs. W. F. Kerr. Special arrangements are being made to accommodate those coming by railway.

Woodstock, June 19.-The county ouncil was in semi-annual session all vesterday, the warden, L. R. Harding, presiding. Two important matters were dealt with. It will be remempered that an insane person, Michael argefield seriously injured his wife by stabbing her with a knife some nonths ago. This occurred near Windsor. There were two heavy doctor's bills which the council had to deal with. It was a question whether the parish of Brighton should pay the bills, or they should be charged to the Largefields, who have a little property but are in poor circumstances. At yesterday's meeting it was decided that the expense should be put on the parish. Dr. Ross is to get \$100 and Dr. Estey \$50.

Hanford Belyea was driving over bridge in Brighton parish some time ago. The bridge was in a bad condition, and an accident occurred by which Mr. Belyea lost a horse and smashed his wagon. He asked the council to remunerate him, and his counsel, Major Vince, was on hand yesterday to support his claim. The council referred the matter to a committee to seek legal advice on the question.

Andrew Douglas v. J. E. & R. San-son-Black, Bliss & Nealis file record. The only criminal indictment pre-ferred against Fred Jones for burglary into Sheriff Sterling's warehouse in which the grand jury found a true bill. This afternoon before being discharged, the grand jury also present ed his honor with a complimentary address upon his first official visit to York county, to which Judge Landry

made a fitting reply.

The Natural History society has chartered the Aberdeen for an excursion to Currey's mountain on Satur-

day Fredericton, N. B., June 19.- The case of McDonald v. the executors of the Richard Bellamy estate, was finished at the nisi prius court this after noon and resulted in a verdict for the plaintiff of \$500. The claim was for boarding and lodging of the deceased for some years prior to his death, which the executors refused to pay.

The Southampton packet, which plies between here and Woodstock in the summer months, sunk at Sprinkhill this morning, with a full cargo The packet is owned by Randolph Grant of Southampton, and was mixed up with some logs this morning when the tug Fanchon came along and gave the commander of the packet a line. The rate of the steamer was too much for the loaded packet and ran her under water before Grant could cut the rope.

WESTMORLAND CO. Dorchester, June 18.—This afternoon Trinity church was the scene of a brilliant event, when Dr. E. B. Chandler of Moncton led to the altar Miss H. H. Forsayeth of Toronto. The church was prettily decorated for the occasion with cut flowers and presented a tasty and artistic appearance. At precisely four o'clock the bride entered the church, leaning on the arm of her brother, Bremner Forsay. eth of Toronto. Both bride and groom were unattended. The bride was at tired in a cream silk dress with a tulle vell, and carried an exquisite bouquet of cream roses and maiden hair ferns.

Rev. J. Roy Campbell tied the nup tial knot. After the ceremony the bridal party and guests repaired to he residence of Mrs. Joshua Chandler, the aunt of the bride, where a A sumptuous repast was partaken of.
After justice had been done to the good things, all drove to the station, where the newly wedded couple boarded the I. C. R. fast express for Halifax amid showers of rice, the bang of torpedos and the best wishes of hosts of friends. The happy couple will spend the honeymoon in Cape Breton and P. E. Island. The bride was the recipient of a very large number of handsome presents, among which may be mentioned the groom's present to the bride of am opal diamond ring; Mrs. Joshua Chandler, sixty dollars in gold, and Lady Smith, forty dollars in gold. This was undoubtedly the most brilliant social event that has taken place here for

The funeral of the late Mrs. Charles E. Knapp took place from her late residence this afternoon at 2 o'clock. Service was held at the house, which was conducted by the Rev. S. W. Keirstead, Baptist. From the house remains were conveyed to thier resting place in the Rural ceme-A large number of people foltery.

owed the remains to the grave Moncton, June 19.—Benj. Charters' tore at the end of the Painsec road, about three miles from Moncton, was ourglarized on Monday night, it is supposed by tramps, who are again ecoming quite numerous in the country districts.

Job McFarlane, a well-to-do farmer and one of the best known scowmen on the river, is suing for divorce from his wife Mary, from whom he has been living apart for some time. Mrs. McFarlane attepted to commit suicide two or three years ago by cutting her throat, but only inflicted a severe It is said the co-respondent will be a young man now driving a hack in Moncton, who was taken into the McFarlane family when a boy. Twenty--three head of fat cattle

RESTIGOUCHE CO. Campbellton, June 18.—Charley Glov er died this afternoon after terrible suffering. It was a happy relief for the poor little fellow. It will be rebered the boy was taken from here by the tramp MacDermott and was brutally treated. He was admitted to the hospital in Toronto and got well enough to be brought home, but since

sold last week by W. Wallace, an Up-

per Coverdale former, for \$1,275.

coming home he had been gradually growing weaker until death ended his sufferings The bark Highflyer, loaded by David Richards,( left port on Saturday morning in charge of Pilot Anderson, who evidently got out of the channel, as the bark was run aground near Point Legard. Tugs were sent to her assistance, but failed to get her off. Scows were sent down to lighten her, but she

s still on the flats. Campbellton, June 18 .- Sunday, June 16th, will mark an epoch in the history of the thriving little settlement of Dawsonville, for on that day the new church, which testifies to the great zeal and activity of the clergyman and his flock alike, was duly opened for service. When the interior is plastered and the seats and furniture supplied, it will vie with other churches recently erected in this county. The service was of the usual kind, and was heartily followed by the congre gation, who joined in the singing with much zeal. Fully one-third of the congregation were members of other denominations, who could not fail to be moved by the well-timed and thoughtful address which rivetted the attention of all present, and will not soon be forgotten. The collection taken up in aid of the building fund, was very encouraging. The building is being pushed forward with as much speed as is consistent with the funds at our

would be almost as impossible as it is undesirable to express in set terms all those to whom our thanks are due for aid; but it would be ungrateful not to mention the names of Mr. and Mrs. Jno. Dawson (Dawsonville), who amid all discouragement, have nobly persevered. Our grateful thanks are also due to Mr. and Mrs. Holbrook Messrs. Mott, Fairchild, Robinson and others of Yonkers, New York, who have so willingly assisted us in building our little church. They "have not given grudgingly or of necessity." God loveth a cheerful giver, and may the love of God prove their exceeding great reward. Mr. Holbrook very generously gave stained glass for all the windows; and Mrs. Holbrook has supplied hymn and prayer books for the use of the congregation. There are a lot of other things yet to be provided before the church is ready for consecration, the enumeration of which would perhaps tire your patience, and fearing that I have already trespassed upon your valuable space; I shall conclude by saying that I sincerely trust that our people are as zealously striving to adorn the doctrine of God, their Saviour, by beautifying the Temple not made with hands, as they are to beautify His visible Temple and all

things pertaining thereto. The Rev. P. G. Snow, Campbellton will be thankful to receive any small amount from any who may read this and be disposed to help.

VICTORIA CO. Andover, June 13 .- Mrs. Chas. Watson is dangerously ill and small hopes are had for her recovery. A terrific thunder shower passed over

here today, and the country, which has had no rain for nearly a month, is now flooded. Hail stones nearly as large &s hazel nuts fell.

Strawberries were found here as early as the sixth of June and are getting quite plentiful now. They will be a large crop this year.

The thermometer registered ninetytwo in the shade here on the twelfth. Most of the seeding has been done for some time, but on account of the dry weather some of it has been left till late. Oats are selling for forty-five and

fifty cents, buckwheat at forty cents and hay at seven and seven and a half dollars per ton. Wm. Curry, whose house was burned

last winter, has commenced to rebuild on the old site. Mr. Sadler of the firm of Baird & Sadler of Perth has his Andover residence nearly completed.

THE RUSSELL SAGE CASE.

Verdict Returned for the Plaintiff for Forty Thousand Dollars.

New York, June 18 .- The fourth tria of the suit of Wm. R. Laidlaw against Russell Sage for \$50,000, ended today, when the jury brought in a verdic in the plaintiff's' favor for \$40,000. The suit was for damages alleged to have been sustained by Laidlaw on account of Sage using him as a shield against dynamiter Norcross' bomb. When the court opened today, Col. E. C. James summed up for the defence telling the jury that they should decide the case on the evidence.

Then Jos. H. Choate began for the

plaintiff. He had a Bible in his hand and he began his address by reading from it the parable of Dives and Lazarus: "There was a certain rich man," said Mr. Choate, "who was clothed in purple and fine linen and fared sumptuously every day; and full of sores and desiring to be fed with the crumbs which fell from the rich man's table. Moreover, the dogs came and licked his sores. And it came to pass that the beggar died and was carried by the angels into Abra ham's bosom; the rich man also died and was buried."

Continuing, Mr. Choate said Dives, in the Bible, suffered in hell for the sores of Lazarus, though he had nothing to do with them or their origin "Why, gentlemen," said Mr. Choate 'Since these trials have begun I have frequently received anonymous letters threatening me to give up the case but I never will retire from it until l

see justice is done.' During Mr. Choate's address Dis trict Attorney Fellows came into court. The former said: "I wish Col. Fellows had this case. He knows how to deal with such men as Sage.' "What does this man care for a

jury ?" sarcastically said Mr. Choate. "Who was it Sage called scruff when he was on the stand. Why, gentlemen it was one if the jury. What respect has he for the decision of a jury, when he said on the stand that he would carry the case to the supreme court Laidlaw, for the last four years, has been carrying on a fight against this financial monster, Sage. The case was given to the jury at

3.07, and at 4.12 they returned with a verdict of \$40,000 for the plaintiff.

KING'S COLLEGE.

The Closing Exercises of the Church School for Girls-St. John Young Ladies Prize Winners.

Windsor, N. S., June 18.-The closing exercises at the Church school for girls was largely attended. The pro gramme consisted of instrumental and vocal music and recitations. It was nost creditably rendered by the pupils Their acquittal of their various parts certainly spoke volumes for the of their training and efficiency of their teachers.

Miss Madeline Barker of St. John rendered a piano solo excellently and also appeared in a duet and severa songs. The Bishop of Nova Scotia presided

and at the close of the programme pre-sented the school prizes, two of which were taken by New Brunswick girls. The silver medal in the second senior class was won by Miss Madeline Bark er, and the silver star of the third senior class won by Miss Beatrice

Parker of St. Andrews. Rev. Archdeacon Brigstocke gave a short address and presented some of the prizes given by the synod of Freddisposal, and we hope (D. V.) to soon ericton, and the Very Rev. Dean Parthave it ready for consecration. It ridge presented the prizes given by

their friends return home.

The Windw of Josef Marti and Her Son Apply for a Passport in Order to Go to New York.

Havana, June 18 .- A Heutenant of the volunteer force at Matanzas has captured two boats containing four men from Hvane who are supposed to have been on their way to join the insurgents. The prisoners have been placed at the disposal of the military governor. The insurgents have atcacked Cristo, not far from Santiago de Cuba, and the more important town of Des Camines, only a little further away from Santiago de Cuba. No details of fighting have reached here up to this. In the districts of Vega Alta and Vueltas, province of Santa Clara, several bands of insurgents have appeared. A detchment of 300 troops, under General Luque, started in pur-suit of the insurgents. The latter atthere was a certain beggar named tacked Vega Alta, but upon the attacked Vega Alta, but upon the arin the direction of Navon coast. It is rumored that they have gone to protect the landing of an expediion which is awaiting there.

It is estimated that the insurgents in he province of Santa Clara num-ber 1,000. The widow of Josef Marti and her son have made a request for a passport in order to enable them to

A FREE FIGHT.

Disgraceful Scene in the Italian Chamber of Deputies Last Week.

Rome, June 19.—The Italian deputies had an excited debate today over a socialist motion to extend general amnesty to those persons condemned by court martial. Premier Crispi, amid interruptions,

said that the right of pardon was a royar prerogative, and the chamber could not grant amnesty, but could only recommend clemency to the king. An uproar followed. Premier Crispi, turning towards the extreme left and the socialist benches

said: "When the time comes to recommend prisoners to the king's clemency, the government will think not only of leaders, in whom alone you are interested, but will think of all those who really suffer." A quarrel then broke out in the chamber. The socialists, deputies,

Pilli, Lorenzini and Casale got more violent and finally led in a fisticuff and a general tumult, amid which the sitting was suspended. When it was resumed the president, with approval, ordered an inquiry into the incident with a view to inflicting

punishment. A duel is being arranged

between deputies Deandreis and Ca-

sale.

Judge-"Who is the prisoner?" Officer-"A son of Erin, your honor."

SWEET MAIDEN OF, QUODDY. Shall we seek for communion of souls where the deep Mississippi meanders, Or the distant Saskatchewan rolls?

Ah, no! in New Branswick we'll find it—

Meduxnakiki waters are black;
Nephalquit's pools are more black;
More green is the bright Oromocto,
And browner the Petitodiac;
But colors more radiant, in autumn,
I see when I'm casting my hook
In the waves of the Skoodoowabskoo
Or perhaps in the Skoodoowabskoo

Let others sing loudly of Saco,
Of Passadumkeag or Miscouche,
Of Kennebeccasis or Quaco,
Of Miramichi or Buctouche:
Or boast of the Tobique or Mispec,
The Musquash or dark Memramcook;
There's none like the Skoodoowabskook

Think not, though the Ma-ga-gua-da-vic, Or Bocabec, pleases the eye; Though Chi-put-nec-ti-cook is levely, That to either of these we'll fly. No! when in leve's union we're plighted We'll build our log-house by a brook Whitch flows to the Skoodoowabekooksis, Where it joins with the Skoodoowabekooksis,

Then never of Waweig or Chame Then never of Waweig or Chamcook
I'll think, having you in my arms;
We'll reck not of Digdeguash beauties,
We'll care not for Popelogan's charms;
But as emblems of union forever,
Upon two fair rivers we'll look;
While you'll be the Skoodoowabskooksis
I'll be the Skoodoowabskook.

—James De Mille.

#### THE TAR'S RETURN

I had been sailing along on a topgallant breeze. My last three voyages had brought "sugar" to my locker, and I was looking forward to settling down quietly as a sort of amphibious animal at Lancing. The £200 I had saved would help me to buy a fishing boat and leave a little to furnish a snug place I know of foreElsie

Elsie Beal was as taut a craft as you would find in any port. I had known her when she was not much higher than my sea chest. She had seen me off on my first voyage, and when I returned she was one of the first to greet me. Of course we became sweethearts, and though they say that a sailor has a sweetheart in every port there was only one I knew of in which my heart was anchored.
"Elsie, my lass," I had said to her, just before going on my last voyage,

"it's about time we settled down. So, if you've no objection, we'll get spliced My lass put her little hand in my big rough one, and—she kissed me. What plainer signal could a tar have

And here I was returning-the last voyage over-with nothing but fair weather sailing before me. How I longed to finish that bright picture of domestic happiness which I had been filling in all the way from the

Indies! I didn't expect to find her when I reached Southampton, but I must say that I was disappointed when I didn't find her waiting for me at the rail-roal station, for I had sent her a telegram saying exactly when I'd reach Lancing. I hurried to her home, but she wasn't there. Her mother said she had gone to Worthing, but she was expecting her in every minute. Presently my lass came in. But I couldn't made her out of Her greeting was cold. She wasn't the happy Elsie I had left. I was so full of the future—of the hame and the boat I was going to set up—that I didn't trouble

nuch about it at the time. Next morning I paid a visit to old Timbs' boathouse along the coast. He had always taken an intertst in me and my voyages, and I wanted to talk over with him the boat I intended buliding. When I entered, old Timbs was gossiping to a swell of a fellow about ships, sailing and navigation generally. As I reckoned I knew something of navigation, I put in my

"Who is our nautical friend?" said the gent in a tone of voice that didn't like

"Paul Allison," said old Timbs, jeest back from the Injies and jinun tar of the first water:" "Oh!" said the gent, looking at me through an eyeglass. After that in-

spection he went out. 'And who is that swell, Timbs?" I "A swell he is. His name is Mr

Wlilerby Seaton, and he's a staying at Worthing, but he comes down here Well, after I had had my chat with

old Timbs I went to see Elsie. As I reached the cottage I chanced to glance down the lane running at the Could it be? Yes, I had no doubt of

it. There was Elsie taking leave of a stranger, and that stranger was the man I had seen in the boathouse— Mr. Willougby Seaton. I waited at the door till she came When she saw me, she turned

white as a new trimmed sailing sheet

"Elsie," said I, "that's strange craft I saw you with just now." Why, Paul, you're not going to be jealous? He's only a visitor in these parts, who's been vtry kind to Granny Mills—the old lady's down with rheu-matism, you know. I met him when I was visiting there, and I couldn't do more than say 'Good day' to him,

I looked very sheepish after that and quickly steered off in another direction: I talked to her about our coming marriage, about the little nest I was preparing and the boat I inilding to be called after her -the Elsie.

It must have been three days after that when, on coming down to my breakfast, I found a note awaiting "Dear Paul-Don't think anything

ore of me. I am unworthy of you. By the time you read this I shall have married another. Forget and forgive. "ELSIE."

It was a long time before I moved after reading this heartless note. was like one smitten with paralysis. When I did move, it was to curse the man, Mr. Willoughby Seaton, as I guessed, who had done me this great

I built that boat .but it wasn't called the Elsie. I christened it the Maria, after the woman who, a year later, became my wife. People round about were talking of me, you see, as the jilted man, and as I didn't care for that sort of pity, I married.

I never regretted it, for if ever a woman was born to comfort a disap-pointed man, it was Maria Esterbrook. A son came to us, and as the boat was christened after the wife it was only fit and proper that the boy should be christened after his father

-Paul Allison. Things went along pretty prosper-ously with me. Sometimes the old wound would reopen a bit; then, when I looked at little Paul, it would close again. After all I was happy. Could she, that false one, say the same?

Paul had reached his tenth year. I have cause to recollect that night. The March wind had been sweeping in big gusts over the sands, sending them like needles into the flesh. The waves had risen into fury, writhing eaping and curling in the churn of old Father Neptune.

There was no light of stars or moon, and then the hail descended in a hurricane. I had difficulty in reaching nome, though I knew every inch of the road, so dark was it. "An awful night, Paul," said my

wife, taking from me my wet oil-"Yes, lass-awful it is. There'll be many wrecks tonight."

"God grant there'll be none in these parts! Little Paul had just brought me my slippers, and the words were scarcely out of my mouth when there came the

ming of a gun. Boom, boom, boom. Maria looked at me. Her face was ghastly. She knew as well as I did what that sound meant.

"It's a ship on the sands," she faltered. They'll want you, Paul. Shall you go? "Shall lass? There's no question of shall. Must is the word. Hark!"

Footsteps were staggering up the road. The handle of the door was urned and Peter Ericson entered. "There's a ship adrift on the sands. Paul. You're wanted for the lifeboat." "Right, Peter; I'll be with her in two minutes. Hand down the oilskins

again, lass." The sea was running so high that we were thrice beaten back before the lifeboat was launched. Launch it at ast we did, and there was a wild cheer from the folk who had gathered on the beach as we put off.

Heaven knows we needed cheering of some sort, for the howling of the

wind around us and the swirl of the waves as they dashed against us made the sturdiest veteran in the boat feel bit uncanny-like. But we pulled with a will and at last came in sight of the sinking ves-

sel. The jibboom, with the masts, had gone overboard, and she was fast settling down. When we reached her side there were only four solitary beings clinging to the taffrail.
"Jump for it!" shouted our captain,

Hal Moxon. Even as he spoke a big wave cam and swept away two of the four. The other two sprang over the side and were dragged safely into the lifeboat. "Anybody else on board?" asked Hal

"There's a sick man in the cabin, with a little girl who won't leave him,' said one of the half drowned "My God, you don't say so! We can't desert them. Will anybody volunteer

to board?"

"I will!"
"You, Paul Allison? There's no time to lose then. God be with you!" he cried. The boat was again swung round to the sinking vessel, and I leaped up and caught its side. I had clambered to the deck in the twink-ling of a handspike. Then I staggered down the companion way to the cabin.
While life is in this old hulk of mine I shan't forget the spectacle I saw. There was a dim light still burning. By it I saw a man lying in one of the berths. Kneeling by his side, her

girl. She looked up quickly as I en-"Save papa!" she crieft, running to

head bowed in prayer, was a little

"That's just what I'm here for, my little lass, and, heaven willing, to sav you as well. Come!" I said to the man, lifting him up.

"Save Elsie!" moaned the man "Never mind me."
Elsie! Even in that moment of peril the name cut at my heartstrings as with a knife. I looked at the sick man a bit closer. It was the scoundrel who had robbed me of my great est treasure—Willoughby Seato

I did not stop ot parley with him. I put a lifebelt around the girl and made it firm with a connecting cord to my own. Then I wrapped a blanket round the man and carried him to the deck. Little Elsie clutched firmly to my jacket.

The foam dashed up into my face.

I could not see the lifeboat, but above the roar of the storm I heard the voice of Hal Moxon:

I leaned forward blindly. The waves struck me with terrific force as I fell. I heard the cry of a man, the shriller cry of a child. I seemed to be tossed up to the clouds and then to sink, sink, sink, until I could sink no farther. The mighty sea rolled over me and I knew no more.

When I came out of that awufl pit it was to find myself in bed in my own snug home. A pair of loving eyes were looking anxiously into mine "Do you feel better now, Paul? asked my wife tenderly.

"I don't exactly know how I feel, my lass, but how did I get here, and -ah, now I recollect! That man I tried to save last night"-"Last night! It's three weeks ago!"

"Three weeks? Surely not? But vas he saved? "Alas no! He was washed away when you jumped from the sinking ressel. Here's one who was saved,

however.

A pretty golden haired girl entered. It was Elsie. She came to my bed-side, her face radiant with a smile when she saw that I was consci "You-you saved my life!" she said. Then she leaned forward and kissed this rough, weather beaten face of

mine. In that kiss the treachery of

the mother was forgotten. I soon learned her story. Her mo ther—she little guessed that I knew her—had died in Bombay. Her father had lost all his money in a sugar plantation over there and was returning to England in the Rumnuggar to commence life afresh when he

was stricken down with fever. Then the storm came which wrecked the

got to love that girl, though in a dif-ferent way from the love I had for her mother. When it came to a ques-tion of parting with her, Maria and me put on our considering caps and

talked the matter over.

Well, we didn't send her away. I was to her a father, Maria was to her a mother, and she—heaven bless her was to us the best of daughters. But she's left us now.

"Why?" you ask. Can't you see how it all was? She's now Paul's wife.-London Answers.

METHODISTIC.

The Monoton District Meeting at Shediac.

Shediac, June 12 .- The first annual meeting of the Moncton district was organized in the beautiful Methodist church of this town today. About 9 a. m. the ministerial session opened, with the presiding officer of the district, Rev. W. W. Brewer, in the chair. The members comprising this meeting are: Revs. S. T. Teed, Jos. Pascoe, John Prince (supers), John Read, R. S. Crisp, B. H. Balderston, J. B. Young, W. C. Matthews, A. Lucas, Thos, Pierce (fin. sec.), D. H. Lodge, A. E. Chapman and W. E. Johnson.

The meeting opened in due form with singing, reading of Scripture by the W. C. Matthews and B. Balderston vere appointed assistant secretaries. By far the most important business of this session is the examination of ministerial character. This was carefully conducted, and all the ministers were declared blameless in life and doctrine

Rev. William Maggs, a brother be loved, passed hence to his eternal reward during the past year. Bro. Maggs was esteemed as one of our most faithful and successful preachers. D. H. Lodge, just completing his first year on the Hillsboro circuit, was re commended to conference as a supernumerary. Bro. Lodge's enfeebled health renders this step imperative. His devoted labors on the above field will not easily be forgotten by a loving and grateful people.

After a lengthy review of the state of the work of God on the various circuits and missions a very profitable

meeting closed. Shediac, June 12.—At 2 p. m. the regular full meeting of the district for general business was duly organized. Rev. W. W. Brewer, chairman of the district, presided. A hymn was sung, and S. T. Teed and John Fielding offer ed prayer. There were present in addition to the ministers: Adam Tait, H. W. Folkins, G. R. Sangster, John Fielding, A. E. Chapman and Chas. Smith. A. Lucas and A. E. Chapman were appointed to audit the schedules.

As presented and passed, the accounts for the year disclosed a fairly prosperous state of affairs on the circuits of the district.

Petitcodiac asks for a second preacher. N. B. S. S. association request was favorably received. This indicates that A. Lucas will be another year in S. S. work. John Read was elected to represent

the district on the stationing commit tee; John Fielding, missionary commit-tee; A. E. Chapman and layman, S. S. committee; W. C. Matthews and G. R. Sangster, nominating committee; R. S. Crisp and layman, Epworth league committee: W. E. Johnson and layman. sustentation committee. The next annual district meeting is

to be held at Sussex. An interesting discussion on methods of work and the increase of spiritual life among our people brought to a close a very harmonious district meet-

B. H. Balderston from the pulpit is to convey the hearty thanks of the district to our friends of Shediac for their kind hospitality. After a delightful stay of one or two days in this lovely town the brethren packed ap and hurried home to prepare for confer-

Noes.—A grand public meeting was held on Wednesday evening at which A. Lucas, A. E. Chapman and W. C. Matthews delighted their hearers with good substantial speeches. Our vener able brother Prince of Moncton was detained at home through illness. The laymen were conspicuous for absence. Our chairman was quite ill throughout the meeting.

W. E. JOHNSON, Sec.

DRY BREAD AS A DISINFECTANT

Everyone knows the cleansing power of rubbing a dirty surface with bread crumbs. This is the germ of the Berlin method. Permission was given me to see how the operation was car ried out in two rooms where a child had died of the diphtheria. Four men were engaged. After everything that ould be subjected to steam without could be subjected to steam without detriment had been removed to the dising to supplement the act of 1890 to infecting station, all the things were removed from the walls, and the men began rubbing these with bread, Ordinary German loaves are used, 48 hours old. The loaves are cut to sub- been decided that the Catholics had square, the back of each piece consisting of the crust, thus allowing of a od purchase. The walls are syste matically attacked with strokes from He would not disparage the Protest question as to the efficacy in cleaning government's reply was an emphatic them, nor does the operation take as long as one would imagine. The crumbs are swept up and burned. After this the walls are thoroughly sprinkled with a five percent carbolic acid solution. The floor is washed with two percent carbolic acid solution, and all the polished woodwork and ornaments as well.-Medical Magazine.

#### SIR F. DE WINTON

Zanzibar, June 17.—Advices have been received from Uganda stating that Sir Francis De Winton, the British agent at Uganda, recently had a narroy escape from death by poisoning at the hands of a native, who resented the official posting of a number of desertions from his caravan. Sir Francis was very ill for several

days, but his recovery is thought probable.

Mr. O'Malley, leader of the opposition, spoke at length at the evening

#### THE CANADIAN WEST.

Greenway Extends an Invitation to the People of Canada.

The Manitoba Government Refuse to Obey the Remedial Order.

A Proposal to Adopt the Ontario System by the Leader of the Opposition.

Winnipeg, Man., June 18.-Under the heading of "Carrying Coals to Newcastle," an evening paper shows that American flour is imported to Winnipeg and sold at lower prices than the local flour manufacturers are obtaining for it. It shows that, adding the duty of 371-2 cents a sack, and also the freight charges of 21 cents a hundred between here and Minneapolis, it is still possible to undersell the local manufacturer. Local manufacturers are charging \$2.45 per sack for strong bakers' flour, and the same grade imported from Minneapolis can be sold at a lower price.

The debate on the government's reply to the remedial order in the school estion was continued in the Manitoba legislature this afternoon. A. F. Martin, French and Catholic mem-Crisp. On the second ballot W. E. Johnson was elected secretary. Revs. W. C. Matthews and P. D. D. What he termed the harshard and Catholic members, spoke all afternoon and Catholic members, spoke all afternoon and Catholic members. What he termed the harshard and Catholic members, spoke all afternoon and Catholic members. torney General, Sifton, and charged him with endeavoring to stir up religious feelings for political purposes. He strongly objected to the statement that the Roman Catholic schools were inefficient, and spoke for an hour in contending that they were fully up to the required standard. It is altogether likely that the vote on the reply will be reached tomorrow evening. The opposition will move an amendment favoring purely secular schools Hugh Armstrong, member for Woodlands, speaking on behalf of the op-position, called attention to the fact that in a certain school Catholic religious exercises were held after school hours, and were attended by the pu-pils of the school. He charged the government with being aware of the fact that the public school system was not being carried out, and of winking at this breach of the law.

Attorney General Sifton in his reply ouched upon this point. He said that ne was not aware that it would injure the school building in any way to walls. He was of the opinion that religious exercises were good things, and it was a small matter whether the school, after school hours, was used as a Methodist Sunday school meeting or for Catholic exercises. He thought those school trustees who threw open the doors of the school house after school hours to any religious denomination were acting wisely and in the spirit of moderation, which it was the aim of the government to

Winnipeg, Man., June 19.—Premier Greenway said today: "I would like to extend an invitation to the people of Canada, especially those who are not fully settled and are looking for new homes for themselves and friends, to visit Manitoba during the present season and see the magnificent crops now growing, undoubtedly giving the greatest promise of any season in the country's history. I would suggest interested to be in Winnipeg during the time of the industrial fair, to be held from the 15th to the 19th of July and have an opportunity of seeing the exhibits of the products of the province, and afterwards take a run over the province, and from personal observation satisfy themselves as to the clearly showing what Manitoba is as

an agricultural country." A very severe wind storm yesterday demolished several houses, stables and barns in the district of Elkhorn Farmers Thomas and William Dixon. Geo. Allison, John Marshall and James Laurie were among those who suffer-

ed the heaviest losses. Governor Shultz continues to take a warm interest in the success of the Winnipeg Industrial exhibition. Apart from his usual gold medal for the best ples of wheat, oats and barley, he has offered a number of prizes fo essays in their own language by the various foreign immigrants, the petition for which is likely to bear

mportant fruit. Hayter Reed Henderson, a wellknown young man of Regina, has been sentenced to six months for appro priating to his own uses money paid

to him as an insurance agent. The debate on the government's reply to the remedial order in the schoo question was continued today, the discussion being largely confined to the amendment moved by Mr. Prendergast, French and Catholic mem ber for St. Bomiface. This amendmen expressing the deep obligation that restore the lost rights and privileges

of the minority. The member for St. Bonifac supporting his resolution, said it had stantial chunks about six inches rights prior to 1890, and these had been affected by the two acts of 1890 There was evidence that the Catholic schools were not so bad as stated. above downward, and there can be no ant schools. The true nature of the refusal to comply with the remedial order, and he did not consider this a safe course.

In another speech James Fisher, independent member, again strongly recommended the Ontario system as satisfactory solution of the diffi-

Mr. Myers, government member for Minedosa, reviewed the whole ques-tion, very fully defining the reply. He was followed by Mr. Forsyth, th only patron member of the legislawho announced he would support Greenway in his reply.

Hon. J. D. Cameron, as a lawyer reviewed the remedial order, declaring that the judicial committee had not dealt with the questions of fact, and that Manitoba's reply was an invitation to them to acquaint themselves with all the facts.

sion. He declared that, boiled down in a few words, the of the ogvernment was: "Down with the Pope; God save the Queen." He moved an amendment to Mr. Prendergast's amendment favoring the adop-

tion of the Ontario school system.

The vots on the Manitoba government's reply to the remedial order was reached at 10.30 tonight. All amendments were voted down and Manitoba's answer refusing to re-establish separate schools adopted.

WOMEN ON MANCHURIA.

Unlike Their Chinese Sisters and Rule the Home with a Rod of Iron.

The Chinese woman is round, plump, full faced, flat nosed and small headed. The Manchurian woman is tall, broad shouldered, deep chested, with an oval face, a large head, high cheek bones and a general expression of physical and mental activity. They are the mothers of the fierce warriors who conquered China and still own it. Their life in their native land has many odd features. Unlike the Chinese women, they do not bind their feet, and they take an active part in the household management. They are modest in dress, but, like all the daughters of Eve, cannot resist a pretty jewel or a beautiful gem. They rule the home

with a rod of iron.

The law may make them the slave of a husband, but woe betide the luckless paterfamilias who dares to carry the law into the domestic economy. Their bed in winter time is extraordinary. Instead of being on a bedstead it is on top of a "kang," or cooking stove. This is a long brick bench., 6 to 10 feet long and 5 feet wide and about 3 feet high One or more flues run the entire length near the upper surface. The cooking during the day heats all the bricks, and during the night the heat is re-enforced by a small fire at one end of the bench, whose flame, smoke and heated gases are compelled to traverse the length of the flue in order to escape through the chimney. The Manchurian housewife spreads

a mat over the top, and on this lies with her husband and children, covered in turn by a large coverlet stuffed with cotton, lined with sheepskin, or made of amcient furs. In the biterest weather, something like that which prevails in Minnesota, many of the Manchurians use sleeping bags. These are bags of the same size as the 'kang," made of sheep or goatskin, with the woolly side in. Into them at nightfall the wife slides in the children, then glides in herself, and is in turn followed by the head of the household. Hospitable Manchus have been known to extend the courtesy of the sleeping bag to American visltors, and one or two young Americans are on record as having accepted the privilege.

What always struck me as being characteristic of the people in my study of them were the ornaments or instruments with which they defied evil spirits. In China the talisman, with a scrawl over it, is placed in the doorway and joss sticks are kept burning both within and without the house. In Manchuria a knife is driven into a roof beam or a spear; a sword or a dagger may be fastened to a girder, suspended from the roof or hung upon the wall near the front door. The spirits are said to reach the threshold. see the weapons, then turn and flee much the same in the invisible world as they would have done in actual life below.-Margherita Arlina Hamm in New York Mail and Express.

#### STUDHOLM PARISH S. S. CONVEN-TION.

The second quarterly meeting of the Studholm parish Sunday school convention was held in the church at Mount Hebron, Kings Co., on the 14th inst. Among those present were Field Secretary Rev. A. Lucas, Rev. A. M. Hubly, Rev. Mr. Ambrose, the president, A. J. McPherson; a good number of superintendents and teachers and a large gathering of those interested

The first session was opened at 10 a m. with devotional exercises, led by Field Secretary Lucas, after which the president. A. J. McPherson, took the chair. W. N. Biggar reported that the map of the parish which the convention had engaged him to make was not yet completed, but would be ready for next meeting. Miss Nettie Parles taught a primary lesson from the 21st chapter of John, followed by some splendid suggestions on primary teaching by Rev. Mr. Lucas with blackboard

illustrations. The second session was opened at 2 p. m. with devotional exercises led by Rev. A. M. Hubly, who also taught a senior Bible lesson in a very interesting manner. Question slips were next distributed, and being collected were ably answered by Rev. Mr. Lucas bringing out many golden ideas and essons in Christian work.

Rev. Mr. Hubly next taught a splen did normal lesson on the life of Christ step by step from His birth to the ascension, making it by the use of the chart, very plain and wonderfully interesting. On motion it was resolved that the

next meeting he held at Newtown. The third session was opened at p. m. with devotional exercises led by Rev. Mr. Ambrose, after which Rev Mr. Lucas gave a stirring address or the duties of Sunday school superintendents, first to the church and sec ond to the Sunday school.

Rev. Mr. Ambrose also gave an able address on Sunday school work generally, followed by addresses from John A. Leiper, President McPherson and Rev. A. Lucas. The interest manifested in these conventions is large in deed, and the work done is of such an excellent Christian character that the interest in Sunday school work is rapidly increasing. Much credit is due Field Secretary Lucas for his untiring efforts to further Sunday school work.

Jimmy-"Timmy Grogan is talkin' of gittin' him a bysickle." Mickey— "Him? He ain't got de price fer de

DEATH AT ST. CLOUD

Of Sarah Elizabeth, Wife of Jas. Jenks of Cumberland Co., N. S.

(St. Cloud, Minnesota, Press.)

Mrs. Sarah Elizabeth Jenks (nee Noyes) was born at Beddington, Washington county, Me., Sept. 27, 1834, being the youngest member of a large family, only one of whom survives her, that one being Mrs. S. Jenkins

of Farmington. Bereft of her mother in her tender childhood, she went to live with her maternal uncle, Deacon John Kelly of Machias, Me., who for half a century was one of the staunchest pillars of the Congregational church of

Under careful training, she was quietly and reverently led to such views of the Bible as are commanding the best scholarship of the world. At the age of seventeen, thoroughly indoctrinated in those views, she commenced teaching in the public schools, under the influence of that great Teacher, the lowly Nazarene. Dec ber 31st, 1854, she was married to Jas. Jenks of Cumberland county, Nova Scotia, and resided at Machias until the autumn of 1857, when they immigrated to St. Anthony, Minnesota territory, and during that winter she united with the Congregational church of that then frontier village. The following year they took up dence at Fair Haven, and later at Maine Prairie, where they lived during the Indian troubles of 1862, then at Clear Water, where they lived for nearly a quarter of a century, finally removing to St. Cloud in 1888.

Of four children, Eddie, the first born, was killed at Clear Water in 1866, when he was but eleven years of age, by a pistol in the hands of a playmate, Mrs. J. Elizzie Ranney, the only daughter, lives with her family at the home in St. Cloud. W. R. L. Jenks is editor, of the Los Gatos News, Los Gatos, California, and the youngest, James E., is about to enter in his senior year at Carleton College, North-field, having just closed a very successful school year as principal of Lake Crystal school.

Mrs. Jenks has been a great sufferer from a cancer on the left breast since 1892. She submitted to a surgical operation at that time for its removal which was far from successful, as it reappeared in 1894 in a more malig nant form, affecting the whole of the left side, which culminated in the inevitable on the 15th of May, 1895. She is at rest in the beautiful "God's Acre" at Clear Water. She was a woman of marked executive ability and attended to her husband's business in his long absences as few women could. She was noted for her clear perceptions and reasoning mind, for her hospitality and charity, as well as for her extreme conscientiousness and fairness. During the forty years of her married life no less than ten of her neices and grand-neices found a home and welcome under her roof and four of them were married at her house. She has been a true, faithful. loving wife and mother, her allegiance to her family and friends never wavered, but like the true Christian woman that she was, stood more steadfast, if possible, in storm than in sunshine. She has gone from us, but how well equipped for the journey! Her life, full of good works, guaranteed her a right royal entrance into the 'Beautiful Cate."

The family are not alone in their darkness and bereavement, for heaven born sympathy goes out to them in abundance. Every heart has its own memories, its own bitterress, and though we all sit in the she dows, it is becoming that we wait patiently for the dawn, fondly cherishing the blessed hope that the dark present will in God's own good time become the radiant future. Clear Water, Minn., June 10, 1895.

OF COURSE HE DIDN'T. Joakley-Do you believe the good die Joakley—No.
Joakley—How old are you?
Soakley—Sixty-five.
Joakley—Ah! I see, I needn't have asked you the question.—Philadelphia Inquirer.

Every Man Who Would Know the Grand Truths; the Plain Facts; the New Discov-eries of Medical Science as Applied to Married Life; Who Would Atone for Past Errors and Avoia Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD and How to Attain It."

Secure the Wonderful Little Book Caned 
"COMPLETE MANHOOD and How to 
Attain It."

"Here at last is information from a high 
medical source that must work wonders with 
this generation of men."

The book fully describes a method by 
which to attain vigor and manly power.

A method by which end all unnatural 
drains on the system.

To cure nervousness, lack of self-control, 
detpondency, etc.

To exchange a laded and worn nature for 
one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and 
tone to every portion and organ of the body. 
Age no barrier. Fallure impossible. 2,000 
references.

The book is purely medical and scientific, 
useless to curiosity seekers, invaluable to 
men only who need it.

A despairing man, who had applied to us 
soon after wrote:

"Well, I tell you that first day is one I'll 
never forget. I just bubbled with joy. I 
wanted to king every body and tell them my 
old self had died yesterday and my new self 
was gon it offers. Why didn't you tell me 
when I first wrote that I would find it this 
was?"

And another thus:

wind wot goes in de tires."

#### THE WEEKLY SUN

ST. JOHN, N. B., JUNE 26, 1895.

THE BALTIC CANAL.

Last Thursday the German emperor welcomed at Kiel, on the occasion of the formal opening of the Baltic canal, an international fleet, the most imposing in regard to iron strength and destructive force that ever rode the sea. The magnitude and character of the work amply justify the impos ing ceremonial that has been arranged for the opening of this great artificial waterway between the Baltic sea and the German ocean. For many centuries there has been an earmest desire to connect he North sea and the Baltic by means of a canal, but various reasons prevented the plans being carried into execution, and it was not until January, 1886, that the Reichstag passed a bill for the construction of the present canal, at an estimated cost of \$38,235,000. This estimate, it may be remarked, was not exceeded. The foundation stone was laid by Kalser Wilhelm the First on June 3, 1887, and as a little over a year was occupied in preliminary labors, it may be said that about seven presson that the system should pay equalwas occupied in preliminary labors, to reason that the system should pay equalit may be said that about seven years ly well in the freight and passenger departments. So it does, but what is gained partments. The and its locks. The main object of the canal is strategical, its secondary object commercial. The German government felt that it would be an enormous advantage to the empire to have the means of effecting a juncture betweet the fleets of the Baltic and the German ocean in the event of a menaced war or the actual declaration of hostilities, and this object has been kept clearly in view in the dimensions of the canal and its locks. The 2dvantages to commerce are classed under two heads, a saving of life, and

It is calculated that from Hamburg. for example, says the London Telegraph, a saving of 425 sea miles, or 45 hours in time, will be effected for steamers by taking the canal route to the Baltic, instead of that round the Skaw; from Rotterdam there will be a saving of 237 sea miles and 22 hours: and from London, and all ports south and west of it, a saving of at least 237 sea miles and 22 hours. The saving in time and distance from the Baltic ports and for other foreign ports is proportionately large. As regards the saving of life, statistics show that from 1877-81, owing to the dangers attending the passage round the Skaw in the Skager Rack and Cattegat, nimety-two German vessels of in all 20,000 registered tons, representing a value of about £301.500, were lost, and 708 persons perished, this being an average of 177 lives and about £75,400 lost per annum on this short passage alone to the German merchant service. According to calculations up to the year 1866 about 200 ships were lost per annum along this course, and. as only about 8 per cent. of ships round the Skaw are German, the loss to foreign commerce may be considered as relatively considerably higher than to German merchants. It is further calculated taht the canal dues will represent a considerably less sum than the average losses by the other route, plus the cost of insurance and

a saving of money and time.

pilots. waters of the Baltic is little different from that of the lower Elbe, it was possible to construct it without any locks at all except at the two ends.

through lakes it is considerably broader, according to the size of the lakes, and at the six sidings, which are 437.452 yards long, it is 109.363 yards broad, while at several of its reaches it is 72.179 yards and no more. The breadth at the bottom is 24.06986 yards, and the depth of the canal is 8,84267 yards. From this it will be seen that two merchant vessels of the type that frequent the Baltic can easily pass one another at any part of the canal, for none of these vessels have more than A GREAT WATER POWER PRO-6.55 yards draught, whilst most of them are considerably less in size, and their beams are never over 13 yards. At a depth of six metres the navigable bottom of the canal is as much as 39.37 yards, so that there would be a distance of about 13 yards between two of the largest Baltic vessels pass ing abreast. The centre of the canal will always be kept clear when menof-war are passing, and signals will give warning of their approach sufficiently long enough in advance to enable other vessels to take up their position and make themselves fast in the sidings, which are meant to be used for this purpose. The largest German men-of-war do not exceed 122.48 yards in length, and their beam is not over 21.325 yards. They will always pass singly and from the figures just given it will be seen that they will always have plenty of water un-

THE GRAND TRUNK PRESIDENT.

der their keel. A section of the canal

shows that from the centre bottom of

24.069 yards the sides slope at various

gradients. A glance at a map which

gives the line of route of the canal

will show that the aim of the engineers

was to avoid curves and to render

those that do exist as gradual as pos-

sible. This was done mainly in the

interest of the large men-of-war.

It is believed that Sir Charles Rivers Wilson, the new president of the Grand Trunk railway, who is now on his way to Canada, will make many radical changes in the general policy of the road and particularly in the matter of its American through freight connections to the west, which, it is alleged, have seriously handicap ped its legitimate Canadian business The Toronto World says: -

While the shareholders of the Grand Trunk have been suffering several large subsidiary corporations have been paying large dividends yearly by reason of the fat contracts they hold from the railway. The Pullman partments. So it does, but what is gained in Ontario is squandered in the states. The new directorate will, we imagine, be opposed to the principle of maintaining a big system for the benefit of express, telegraph, cartage and sleeping oar companies. The system for the benefit of express, telegraph, cartage and sleeping car companies. The barnacle will be knocked off. It would be a good thing for Canada if the business that is done by the Grand Trunk in the dominion could be separated from that done outside the country. The Canadian business is all right, and if the returns from it could be presented by themselves, instead of exerting a constant depressing influence upon Canadian securities, they would have the contarry effect.

Sir Charles Rivers-Wilson is an English financier of more than ordinary eminence. He was born in 1831, commenced his public career as a clerk in the English treasury office, acted as private secretary to Disraeli when chancellor of the exchequer in 1867-8. He did valuable service in Egypt in examining and placing the finances of that country on a sounder basis, and has since 1879 been one of the British government's administrators of the Suez canal. Last year Sir Charles de voted four months to the inspection of the Central Pacific railway, on the affairs of which company he issued an elaborate report.

#### LIGHTS AT SEA.

The United States pilot chart of the North Atlantic for June gives an interesting summary of the new researches on the visibility of lights at sea. According to the latest data, a white light of one candle power is visible 1.40 miles on a dark, clear night and but one mile on a rainy night. To attain a visibility of two, three, four the system. and five miles, lights of 4, 7, 13 and 19 candle power. The American experiments conducted at Long Beach light stations gave the following results in very clear weather, "A light of one candle power was plainly visible at one nautical mile, and one of three candle power at two miles. A 10 candle power light was visible with a binocular glass at four miles, one of 29 candles faintly at five miles, and one of 33 candle power visible without difficulty at the same distance. According to the Dutch government experiments conducted at Amsterdam, a The canal is almost sixty-one miles | light of one candle power was visible long and as the mean height of the at one nautical mile, 3.5 at two miles and 16 candle power at five miles.

In respect to colored lights the report says: The candle power required for a green light to be visible at one, The breadth of the surface of the two, three and four nautical miles is

water of the canal is nowhere less 2, 15, 51 and 106 respectively. The exthan 65,6,178 yards, when passing periments at Long Beach gave for green light 3.2 candle power-fairly visible at one mile, and 28.5 clearly at two miles, these results, however, being from a limited number of experiments. The report shows that it is of the utmost importance to select for the glass a shade of color which will least interfere with the intensity of the light. A clear blue-green is recommended, but yellow-green and grassgreen should not be used. For the red a coppery-red is probably best.

#### JECT.

The latest scheme to utilize the waters of the upper lakes for the development of power for manufacturing purposes is that of the Hamilton and Lake Erie Power Co., now seeking incorporation by the dominion parliament. The idea of the company is to dredge the Welland river, which empties into the Niagara river a short distance above Niagara falls ten or fifteen miles from its mouth to a point near the town of Welland. When? this is done, a portion of the waters of the Niagara river, instead of going over the falls, will pass along the channel of the Welland river to a point where a canal will be cut directly north to Jordan, where the water will be dropped over the mountain and then into Lake Ontario. Atr the point on the mountain where the fall is there is a splendid natural basin, and two splendid drops of sufficient capacity to generate almost any amount of power. The power station will be less than 30 miles from Hamilton, and it is expected that there will be no trouble in transmitting the energy by wire, not only to Hamilton, but also to Toronto. The act of in corporation has already passed the private bills committee of the commons.

#### THE U. S. TARIFF.

The tariff question will doubtless be to the fore again in the next United States congress. It is stated that the actual deficit in revenue during the first nine months of the Wilson tariff, ending June 1st. was \$56,713,950, and that the most favorable official estimates count on a total deficit of \$88,-000,000 by the end of November. This must be provided for. Whether it shall be done by issuing more bonds or by a readjustment of the tariff, is the question now being considered. The next congress will be republican, but and radical changes in the tariff would probably be vetoed by the democratic president. One suggestion is that the tariff on luxuries, such as diamonds velvets, wines, cigars, etc., which the democrats reduced to the extent of some \$40,000,000, be increased again, and that the tax on beer be also increased Action of some sort must be taken but it is not probable that any radical changes will be proposed.

From the weekly report of the Re gistrar General of June 5th, it appears hat the health of London is now bet ter than it has ever been since it be came a great city. The rate of mortality was only 15.5 per cent, which are considerably below the London average even at this season of the year. Just now, says the London Telegraph, the metropolis, taking it as a whole, is much healthier than most of the large provincial towns and than many seaside places. If this state of things continue the metropolis may yet become a great sum mer resort for those who wish to live long, and the railway companies, instead of attracting Londoners with announcements about "A Day at the Seaside," will find themselves constrained to run excursions for the be nefit of jaded seasiders who wish to breathe the pure and healthy air o London for twelve hours or so.

Leslie's Weekly has an article on the jury system, sharply criticising what it describes as "the fetich of the unanimous dozen." It appears that the recent trial of Police Inspector Mc-Laughlin of New York resulted in a disagreement, ten men favoring con viction and two opposing it: The trial cost, according to Leslie's Weekly, over \$34,000. It says that while the trial occupied only two days, it took twenty two days to get a jury, and it argues that some \$30,000 is rather too much to pay for the "dreary absurdities" of

#### BUCHANAN'S CASE.

The Death Watch Placed Over the Doctor at Sing Sing Wednesday Night.

Sing Sing, N. Y., June 20 .- Warden dage is preparing to carry out the third sentence of death of Dr. Buchanan, the convicted wife murderer, wh is to be executed during the week be ginning July 1st. The death watch was placed over the condemned man last night.

chanan during the past two day has shown signs of nervousness and breaking down as his doom approac There seems but little chance nov for Buchanan to escape the death chair, as his lawyers have virtually abandoned his case.

THE CANAL OPENED.

为1940年的1960年7月1日日本

A Great Demonstration Witnessed by edt . an Immense Crowd.

France and Germany Exchange Greeting and Show That a Most Friendly Feeling Prevails.

Holtenau, June 20 .- The formal open-

ing of the Kiel canal was one of the most stupendous demonstrations witnessed for a long time. At four o'clock the imperial yacht Hohenzollern severed the thread stretched across the canal and the procession of the fleet of the great war vessels of the greatest nations began. On the whole the passage of the canal by the imperial procession was a success, although there were two slight mishaps. The North German Lloyd steamship Kaiser Wilhelm III. grounded for a short time in the canal, but she sustained no damage. The Russian gunboat Grossjasehtschijc passed Rendsburg at 4.30 p. m. in tow of a tug and apparently having sustained some damage either to her machinery or by grounding. Each side of the canal was guarded throughout by infantry and cavalry, and behind the troops were gathered the crowds of people, who loudly cheered the vessels as they The different points along the route of the canal and about the Kiel harbor were decorated in the most elaborate manner, bunting of all colors flying in streams to the breeze and giving everything a bright holiday appearance.

The warships of the United States, the New York, Columbia, San Francisco and Marblehead, which latter vessels took part in the procession formed striking features of the naval display, standing out finely among the other warships, which, as a rule, have dark colored hulls. The white sides of the Yankee cruisers undoubtedly gave them an extremely smart appearance, and caused all United States vessels to be greatly admired.

There was one of the features of the procession which should calm the excitement among the members of league of patriots of Paris, who raised such a hubbub when it became known that the French government intended to send a squadron to participate in

the Kiel fete.

As the French gunboat Surcouf passed the several points along the canal route she was greeted with hearty cheers, and the different bands played the Marseillaise as she went by, proudly flounting the tri-color of France before the drawn up troops of Ger-

many. the cheers from the Surcouf by touching their caps and bowing, and when flags were dipped in honor of passing ship, the ensign of the French boat was promptly dipped in acknowledge-

ment of the courtest. Admiral Menard, the commander of the French squadron, entertained the officers of the German battleship Bayern on board the Hoche, the French flagship, today, in return for a similar courtesy, extended to the officers of the Hoche on board of the Bayern, coupled with the toast of Emperor William and President Faure, with a very apropos reference to the international feeling of camaraderie existing among the naval men all the world Admiral Menard at today's dinner on board the Hoche responded with a similar toast and re-echoed the utterances of the German commander regarding the camaraderic among the naval men, a sentiment which was vigorously applauded.

There was a wonderful scene today along the shore at the mouth of the canal at this place. The immmense crimson covered stands erected for the dation of sightseers filled at the earliest hours by interested spectators in holiday garb, piled tier upon tier, the officers in their best uniforms and the ladies in bright summer costumes, the whole forming brilliant mass of color delightful to There was great excitem here when the people caught sight of the imperial yacht Hohenzollern coming through the canal with the emperor on board. Its white hull stood high out of the water, as the vessel gracefully entered the basin of the

last lock of the new waterway. Some time elapsed while the water poured out of the sluices, the state essel sinking slowly, but gradually to the level of the water in the harbor. Then the gates of the lock were opened and the Hohenzollern floated out majestically into open water,

Suddenly three shots were fired in rapid succession from the German flagship, the Freidrich Wilhelm giving the signal for the saluting to be-A deafening road of artillery commenced almost before the flash of the last gun from the flagship had disappeared, the noise of so many guns from so many warships drowning the tremendous outbursts of cheer ing which arose from the tens of thousands of throats as his majesty. Emperor William II. was seen standing on the bridge of the Hohenzollern in the full dress uniform of an admiral of the fleet. His breast was brilliant with orders, and conspicuous across it was the broad orange ribbon

of the order of the Black Eagle.
This being the fifty-eighth anniversary of the accession of Queen Victoria to the throne of Great Britain, by special command of Emperor William, a royal salute was fired at noon at the same time hoisted the British flag to the strains of the national anthem of Great Britain.

#### SUNBURY CO. S. S. CONVENTION.

the church at Pine Grove on Tuesday, June 18th

Rev. N. McLaughlin, pastor, led the opening devotions, in which several shared. The president, Col. T. S. Alexander, made a brief opening address, alluding to the condition of S. S. work in the county and some efforts put forth during the year. In the absence of the county secretary, Miss Maud Sharpe was elected temporary secretary. Rev. N. McLaughlin expressed a hearty welcome to delegates and visitors. The reports of parish officers came next. Not all these were present, but the various parishes and their conditions seemed to be well known by officers.

Mr. Lucas followed with an address on the Duties and Opportunities of

Parish Officers.

Rev. S. J. Perry of Oromocto led the opening exercises of the afternoon session. The Rev. N. McLaughlin being called away to other duties, his subject The Teacher's Study of the Bible, was given to Mr. Lucas and was followed by remarks from Rev. A. D. McCully and some of the superintendents

The following were elected officers for the ensuing year: President, T. L. Alexander, Fredericton Junction; sec retary, Miss Maude Sharpe, Burton The following were elected as vice-pre sidents, each for their own parish: Lin coln, Taylor Mersereau; Burton, John L. Cambridge: Gladstone, Ernest A Tracey; Blissville, W. D. Smith; Sheffield. Miss Georgie Randall; Mauger

ville, Jas. Raymond; Northfield, -An earnest presentation was made of International Evangel and copies distributed. The county statistical re port was not complete, as the convention is at an earlier date than that at which statistical forms are expected to be in. In absence of the county secre tary, Mr. Lucas read and showed tha as far as reports to hand there is both an increase of schools and an improvement in methods and number of month

The president and others joined with deep interest in this discussion.

A normal Bible lesson was then given. The speaker said that a for ward look is often important in S. S work, and as teachers present will shortly resume studies in the book of Exodus, this was chosen as the sub ject. Liberal use was made of the blackboard and teachers asked to copy and memorize the outline. President Alexander advocated the financial interest of the work.

The evening session was opened by Rev. A. D. McCully. The minutes be ing read by Miss Sharpe, the nominating committee supplemented them by additional members of the executive and also five persons to represent this

county in the provincial conv-Chatham next October. A normal les on on the superintendent's duties was given with the use of the blackboard. This was discussed by Rev. A. D. Mc Cully, Messrs. Ward, Kenney others and made profitable. An address by Mr. Lucas gave to young people points in the historical development of this work, and especially emphasized the home department, international daily Bible reading and other points of vital interest to home, school and church life.

The convention for next year was in vited by Chas, L. Ward to Oromocto. Votes of thanks were passed. reference was made to the field secretary and his faithful work. The mowas adopted by a rising vote. In reply Mr. Lucas spoke a few earnest words to the young people about a true purpose in life and how to make them selves helpful to others.

#### RESIGNATIONS AND APPOINT-MENTS.

The following notices appear in the Royal Gazette:

resignation of James Hickey, The of liquor at Chatham, and of Hugh Montgomery, justice of peace for Carleton county, have been accepted.

The reappointment of all the sheriffs is gazetted. Also the following in St. John: C. F. Harrison, to be a justice of the peace; Geo. Bingay of Yarmouth, commissioner for Nova Scotia; Thos Dunning, notary public. Northumberland-Richard B. Ben

nett, judge of probate pro hac vice in reference to the estate of Charles Lloyd, late of Chatham, deceased; Charles S. Bremner, justice of the peace; Clifford Hickey, druggist, and Herbert Pallen, druggist, vendors of lipuors for Chatham.

Albert-Lorenzo Chapman, M.D., liensed vendor at Hopewell in place of Silas Purdy, M. D., deceased; and Gordon D. Steeves, licensed vendor at Hillsboro in place of John A. Beatty,

deceased. Victoria-Moses F. Parks, justice of the peace; Alexander Straton referee in equity.

Gloucester-Geo. Gilbert and Narisse Landry, referees in equity. Restigouche-John S. Bassett, missioner of the parish of Colburn civil court, instead of John McMillan, deceased. Kings-David M. Hamm, justice

the peace.

AN ISLAND CHEESE FACTORY. A correspondent of the Charlottetown

Guardian says: "Monday was the best day in the history of the Vernon river cheese factory. Notwithstanding the fact that the Kinross, Orwell, Pownal and Mount Mellick routes were cut off the quantity of milk aggregated 20,200 lbs., over 2,000 lbs. more than the largest amount received on any day last summer. The factory opened on May 14th. There was manufactured up to June 21st 24 cheese, but on Monday your correspondent counted 240 cheese on the shelves of the curing room Owing to the fact that this factory cannot accommodate the large quantity of milk received, the Union Dairving as sociation contemplate building an addition to their already commodious factory.

#### A TENNESSEE METHODIST.

It was a Tennessee Methodist cla leader who had before him a six months' probationer whom he questioning for admission to all the privileges of the church. bo." said the class leader, "I hope you are prepared to live a Christian life in accordance with your profession. Have you stolen any chickens during the last six months?" "No, sah! I done stole no chickens." "Have you This convention opened at 10.15 in stolen any turkeys or pigs?" looked grieved. "No, sah!" very glad to hear this good report, continued the class leader, "and l trust you will continue to live an ho est Christian life." After church Sambo hurried home with his wife who had overheard the catechising When they were fairly out of every body's hearing he drew a long breath of relief and turned a self-approving glance to his better half. "Golly," h said in a half cautious whisper. "ef gah, suah."

FUTURE STARS AT A BENEFIT.

Dramatic Pupils Make Their First Appearance in Jersey City.

(New York World, June 14) A benefit to Alfred L. Usher was given by pupils of the Lawrence School of Acting at the Jersey City Opera ouse last night. The trial scene from The Merchant of Venice, a scene from Won at Last, the second act of The Danicheffs, and a one act play, Fennel,

were selected for the occasion. With few exceptions the pupils acquitted themselves admirably, the best work being done by August H. Miller, Lawrence Henderson, A. L. Usher, James A. Swallow, Frederick B. Hall, Josephine Watts, Marie B. Dixey and Marie Neilson.

Between scenes little Flo Perry recited, sang and danced to the great delight of the audience, which filled the theatre.

Miss Bennett's declamation of Portia's Mercy speech was particularly effective. Miss Watts made a charming Giannina in Fennel.

The many friends of Miss Watts in this city will be glad to hear of her success in her chosen career. Miss Watts is a sister of Conductor Watts of the I. C. R. northern division.

#### AN EGYPTIAN MUMMY

Presented to the Peter Rednath Museum by Dr. Roddick.

The Peter Redpath museum at Mc-Gill university has recently been the recipient of a most valuable and interesting gift at the hands of Dr. Roddick of this city, consisting of an Egyptian mummy, 2.500 years old, excavated Favoum, Egypt. The mummy, which is that of a lady of rank, is in a remarkable state of preservation, the body being carefully wrapped from nead to feet in mummy cloth, showing little, if any, trace of the decay incidental to the lapse of centuries. the face and breast is a shield; composed of gold and plaster, upon which Egyptian characters, setting forth the rank of the deceased, the place of death and the name of the reigning dynasty in Egypt are engraved. Not the least interesting portion of this donation is the coffin which has enclosed the remains for so many centuries, and which was brought to this city with the body. Built of cedar, and square in shape, it enables archaeologists and the present generation to understand more fully the degree of perfection to which carpentry had attained even in that early period of the world's history. The donation has been placed in the Egyptian corridor of the museum, where it may be viewed at any time

#### ESTATE SALE.

W. A. Lockhart had a large quantity of real estate to sell at Chubb's corner on the 19th. The first property offered was the freehold lot with Paddock street, and owned by the late Mayor Peters, Mrs. T. W. Peters became the purchaser at \$1,200. The fol-lowing properties were offered belongng to the DeVeber estate:

The lot with five story brick building on Prince William and Water streets now occupied by Dearborn & Co.—the old DeVeber stand; assessed value \$16-000; annual rental \$1,000, insured for \$14,500. Dearborn & Co. became the

purchasers for \$9,000. The large brick building situate on the corner of North wharf and Nelson street, with lot subject to annual rental of \$53 to city of St. John. This is known as the Thurgar property; assessed value \$8,900, rent \$200, insured for \$6,000. The first bid was \$1,000, and James Manchester became the owner at \$2,100.

The two-and-a-half story dwelling, with stable and lot situate on Leinster street, corporation lease, \$8. per annum; assessed value, \$2,000; annual rental, \$200; insured, \$2,000. Dr. Sheffield became the purchaser at \$1 525. Two freehold lots, with cottage, on

Sheffield street; assessed value, \$1,000; rental, \$1.50 per month. Mrs. Mary Gilbert became the purchaser at \$525. The mortgage on the John McBrine property, situate on Leinster street, amounting to a little over \$6,000; annual rent of property, \$760. Fred Ma-

gee became the purchaser at \$5,570. The mortgage on the Geo. H. Martin freehold property, situate on Union street, amounting to \$1,544, was sold to W. W. Turnbull for \$1 over the claim. Twenty-two shares of Bank of New

Brunswick stock with interest were offered-13 shares at 160 per cent. premium to Robert Thomson; 3 shares to James Revnolds at 157 per cent, premium; 3 shares to A. H. Hanington at same, and 3 to Francis Smith at same. Mr. Reynolds purchased a \$500 Provincial 6 per cent. bond, the October 2. 1906, at 181-4 per cent, premium.

DOMINION PARLIAMENT.

The last of shoots where the The Curran Bridge Affair up in the House.

Davies Brings Matter up and Makes a Lot of Misstatements.

Laurier Takes a Hand in the Debate and the Minister of Railways Replies Effectively.

and a half, introducing a resolution as an amendment to the motion for suprailways is responsible for all these occurrences and is deserving of the severest censure of this house for negligence, inefficiency and gross mismanagement in connection with these works and for the loss the country has

Mr. Davies claimed that the two bridges should have cost little or more Manitoba, and to suggest a remedy lieved the perpetuation of such deeds than the estimate; that the department should have let the work by tender: that when this was not done it was not right to give a private contract for furnishing labor; that the minister showed negligence in not taking imnediate action when the first reports of wrong-doing were circulated. went over the evidence step by step, and was repeatedly called to account as he proceeded for misrepresentation and misquotation of evidence. Mr. Davies contended that the over expenditure on the bridges was two hundred

thousand dollars. Mr Bennett, who replied to Mr. Davies, showed some of Mr. Davies' blunders or misstatements. He agreed that there were swindles in connection with the works, estimating the over charges at something under one hundred thousand dollars. The government had entered a civil suit for this amount, and Mr. Bennett hoped the government would succeed, though he contended that one motive of the opposition in bringing forward the present motion was to prevent the recovery of

the money by the country. Mr. Bennett was sorry that the crim inal prosecution had failed, though he had noticed that the opposition leaders were delighted with this result. This same party by exciting political sympathy with Mr. Mercier and his friends had succeeded in causing the failure of the prosecutions against the criminals in Quebec.

The discussion was continued by Messrs. Gibson and Masson. The latter was speaking at recess Down to half-past ten the Curran

bridge debate dragged on. Mr. Masson's speech on the govern-ment side was followed by a reply from Mr. McMullen, and the latter by Mr. McLennan. The latter carried the war into Africa by giving a history of the number of contracts carried through by the Mackenzie government. en Mr. Laurier took the floor. He began by quoting a pledge of Sir John bers flocked into the chamber when Thompson that all frauds against the government would be punished, and asserted that the late premier showed Tupper began by declaring that in two by subsequent conduct that he never intended to keep that pledge. He had brought forward any fact or argu-spoke of section B and other charges ment which was not before the house against the government, and proceed-ing to the Curran bridge affair de-and pronounced upon last year. A primarily and entirely cause he did not at the beginning 'et mitting that a fraud had been perpethe work by tender and contract. The opposition leader took no stock in the argument that special circumstances made it impossible to give the contract for the whole undertaking. Nor was it necessary to give a contract for labor. It was as reasonable to provide against snow storms in July as against workmen's strikes in Montreal in winter. After reciting the circumstances of the case as he looked at it, Mr. Laurier declared that the only way the government could have shown its good faith was to prosecute strenuously the of-He asserted that criminal proceedings against the contractor, who was one of their own friends, had been charitable to his party. The minister of justice had committed the prosecution to the junior council only, who could not be expected to cope with

eminent counsel for the defence. All opposition speakers, including Mr. Laurier, taunted Hon. Mr. Haggart for keeping silence, and pointed out that other ministers dared not come to Mr. Haggart's assistance.

But the minister of railways had evidently made up his mind to draw fire from the front benches before making his defence. He took the floor after Mr. Laurier and began by a retort to Mr. Laurier's statement that it was a crime to let public works excep by tender. He pointed out that although he (Haggart) had broken no rule, Mr. Laurier himself had been a member of a government which against the law had constructed scores of public works without tender and contract. Mr. Haggart further stated that the Curran bridge was the only public work done during his management in which the cost exceeded the estimate. Hon. Mr. Haggart then began at the beginning of the Curran bridge operations and explained his conduct from first to last in the same manner as last year, giving reasons for not call-ing for tenders for the whole work, and showing that in giving the contract for the labor he had, contrary to his own opinion, accepted the advice of his engineers and other technical officers. He declared that he never authorized the payment of a dellar after he had information that something was wrong. He sent Mr. Douglas to inquire into the matter when suspi-cion was first aroused. He had refused to pay for lumber which could not be found. He had done his best to bring all evidence before the parliamentary committee, and when it was found that fraud had been committed he sent the papers over to the department of justice, with instructions to prosecute every one of the offenders. The minister got Mr. Davies in a bad box by showing that he had entirely falsified the evidence in respect to the alleged Grand Trunk

offer to construct the bridge.

Mr. Martin moved an adjournment of the debate, which, by agreement of Messrs. Foster and Laurier, will be the order of the day tomorrow. NOTES.

J. Chipman and Engineer Maxwell of St. Stephen are here on business connected with the proposed St. Stephen and Milltown railway. A sub-sidy for this short line is already voted, and it is expected that the comtract will be signed and other ar-rangements completed tomorrow. There is a strong under current of

feeling among the French members that the Manitoba school question must not be shelved for the present session. A number of small caucuses of the Quebec representatives have been held this week. Tonight a larger was the theme of today's discussion.
An attack on the ministry was opened by Mr. Davies, who spoke for an hour and a half, introducing a reaching to be senate speaker. The sense of this meeting was that the sense of this meeting was that the sense of this meeting was that the sense of the senate speaker. bringing the remedial legislation be-fore parliament. On the other hand, ply. The resolution, after a long pre-amble setting forth the number of al-legations, declared that the minister of legations, declared that the minister of be practically impossible to provide be practically impossible to provide ans of enforcing federal school means of enforcing federal school legislation in Manitoba. The Protestant opinion appears to favor the appointment by the dominion and the province of a joint committee to in- in Canada which mark the spots where vestigate and report on the facts re-lating to the Catholic grievances in

> by provincial legislation. (From a Member of the Sun Staff.) Ottawa, June 19.-In answer to Mr. Hazen, Hon. Mr. Ouimet stated plans and specifications for the new dredge now under construction by Carrier Laine & Co. of Levis, were prepared by the chief engineer of the department assisted by the superintendent of dredging and the mechanical engineer. Two tenders were received. that of Carrier for \$40,000 and Beatty

of Welland for \$52,764. Replying to Mr. Hazen, Hon, Mr. Oulmet stated that tenders for the breakwater at Gardner's Creek, St. John county, were received as follows Thomas Carson St Martins \$7,400: Burns, Ottawa, \$8,487; Heney & Smith Ottawa, \$8,900; Simmons & Burpee, Fredericton, \$8,950; Wilson, Ottawa, \$10,764. The lowest tenderer was com-municated with last week to ascertain whether he was prepared to enter into a contract, but no answer had been

Mr. Haggart informed Mr. Mulock that the bonus voted to the Tobique railway was \$182,400, of which \$134,016 had been paid. A few trains had been run by the Canadian Pacific railway on the line, but the road is not for-mally opened, because certain conditions required of the Tobique company by the Canadian Pacific have not been fulfilled. Of the the \$140,000 first preference and the same sum second preference bonds authorized, half of each have been issued, realizing \$42,-000 for the former and \$21,000 for the

The afternoon and evening com menced today with the Curran bridge

Mr. Martin, who spoke first, was followed by Solicitor General Curran. who resumed after recess, and was followed by Messrs, Tarte, Davin, Casey and Mulock, who continued the discussion till midnight to a very empty

Shortly before 12 o'clock the memit was known that the minister of justice had taken the floor. Sir C. H days' argument no opposition member clared that Hon. Mr. Haggart was year ago the minister of railways trated, and explaining what steps he proposed to take. No one had suggested that Hon. Mr. Haggart had failed in any particular to carry out his pledges. The proceeding proved, however, to have made a bad blunder when he said that the prosecution of St. Louis had been entrusted to only junior counsel. Dealing with the contention that the mere fact of the admitted fraud having taken place was proof of ministerial culpability, Sir C. H. Tupper said that he had himself ery bounty frauds took place when he and may be taken in a day by most administered the fishery department. Was it, therefore, proposed to incriminate him. If, said Sir C. H. Tupper, the minister of railways is to be convicted because of the fraud in his department, I ought to go into the dock

> his, I should have long ago been im-In a powerful speech of an hour and a half, Mr. Tupper recited the history of the case and contended that Mr. Haggart had before and after the discovery of the frauds performed all that could be required of any min-

with him, and as my case precedes

ister in his position Mr. McCarthy followed. Mr. McCarthy spoke for an hour strongly supporting the want of confidence motion, and at ten minutes after two was followed by Hon. Mr. Foster. After a brief reply to Mr. Foster by Sir Richard Cartwright the members were called in at a quarter past three and a vote taken, with the following result: For Davies' amendment sixtyfive, against it one hundred and two. The house adjourned at three fortyfive this (Thursday) morning.

THE SENATE. In the senate today Senator Poirier asked if an agreement was ever entered into for the transfer of the ordinance lands in the possession of the imperial authorities in Nova Scotia and Cape Breton to Canada, and whether the dominion government is not entitled to the possession of the site and old fortifications at Louisburg. Mr. Poirier could not see how it was that the old historic fortress which cost France twenty million francs to build heating, and an atmosphere that is too and the English government as much damp or too dry also injures them. again to destroy should have been allowed to pass into the possession of pri-vate individuals. He wanted to know how the American Society of Colonial Wars obtained permission to erect a wars obtained permission of the was to be used where valuable books are unwilling to believe that the imperial kept. Candles are hard on the eyes, unwilling to believe that the imperial government had allowed the old fort to pass into the hands of squatters. He ed; oil or electricity are better than noticed that at the unveiling of the gas, which acts as readily on bindings monument the imperial government had as it does on silver. In lieu of tarnish been represented by several warships ing, however, it affects their elasticity of the British navy, and that the governor general of Canada had not only Times.

UNITED STATES AND SPAIN.

by a Commission.

Precedents Quoted for the Bringing About of Settlement Between the Two Countries.

Washington, June 20 .- It is not improbable that an international comnission between the United States and Spain will result from the urging of the Mora claim against Spain. This latter claim has brought up several others, and the situation is the same as that in the time the United States and Great Britain settled their conflicting claims by the Alabama com mision, and France and this country came to an accord by the commission of 1881.

At present the United States is urging the Mora claim, while Spain has as an offset the claims of the invasion of Florida when it was a Spanish colony, and for damages to Spanish ships during the civil war. In addition this there is the prospect that the Cuban rebellion will result in further

It is said that the British commis sion gives a precedent on the subject. The treaty for that commission provides that all classes of claims should come before it. The Alabama case was only one of these and the award was made in Geneva. Then the same commission sat at Washington and Newport, and considered Great Britain's claims against the United States for damages to British ships during the civil war. This resulted in an allowance to England of \$1,929,849. Subequently the commission considered thet San Juan boundry, and eventually all pending questions between the United States and Great Britain were

settled The French commission sat in Washington for two years, and finally awarded France \$625,566 for damages to French shipping during the civil part in those memorable commissions say that the claims between the United States and Spain can be settled in the same way and that such an arrangement is not unlikely as a solution of the present controversy over the Mora claim. It is believed that Spain would regard this as a more equitable means of adjusting than a settlement of the Mora claim on spur of the moment. It cannot be learned that negotiations for a commission have as yet been opened, although they are regarded as likely to be the natural outcome of the present

The Clytie an Easy Winner.

The first meeting of the St. John Yacht club was held on the 19th instant on the Kennebeccasis. The day was fine, and the wind, which was from the southward, was a good sailing breeze. It suited the Clytle all to pieces, and with her big time allowvace she was an easy winner. The Gracie M. went over the course, which was upwards of twelve miles, in two hours and four minutes. It took the Clytie two minutes longer, and the Wapiti was 2 hours 9 minutes and 25 econds covering the distance. The urse was an irregular one. It was from a sloop anchored off Millidgeville

and up around the head of the island back to the starting point. The boats went over the course twice, and Patsy Egan, who handled the little fin boat, declares it must have been fourteen miles.

The Clytie, with Egan at the tiller,

was the first to cross the line. She did it at 2h. 45m. 30s. Then came the

Gracie M., with her owner, C. E. Elwell, at the helm, at 2h, 46m. Wapiti, with Howard Holder in command, followed at 2h. 47m. 15s. The boats had a beam wind throughout the race. The Clytic carried mainsail and jib only. The Gracie M. and Wapiti spread mainsails, staysails and jibs, the Wapiti having her mainsail reefed down. The Gracie M. over hauled the little boat before the first buoy was reached, and had secured a good lead when she made the buoy at McColgan's. She rounded thi buoy eight minutes ahead of the Cly tie and eleven minutes ahead of the other boat. Then the Clytie crawled up on her, and when the Gracie M. turned the sloop at Millidgeville she was only three minutes ahead of the little fin boat. The Wapiti too had improved her position considerably. On the second run over the course Clytic cut down the Gracie M.'s lead even more, the wind moderating a great deal. It was a very pretty race throughout, the Clytic giving Gracie M. a hard race, finishing only minute and a half after her. Wapiti was not in it with them, but

The times of the start and finish

Clytie. were as follows: The time allowance was of course what gave the Clytie the race.

Gracie M. had to give the Wapiti about a minute and the Clytie about Edgar Fairweather was the referee and T. T. Lantalum the timer. Mr. Gilbert, the owner of the Clytie,

was not present when the boats finished, and the pennant was handed to Mr. Egan, who promptly hoisted it. The race was witnessed by a large number of people.

THE SEASON AT LUBEC.

The season at the North Lubec (Me.), mmer resorts begins July 1st. North Lubeo is eighteen hours by steamer from Boston and four hours from St. John, N. B. Ira D. Sankey, the evangelist singer, says: "North Lubec is one of the most delightfully restful places I ever visited; and I would recommend it to all tired Christian workers who are seeking a quiet and restful place for their vacation."

An unusually attractive array of talent has been secured. Prof. Killam of the International Y. M. C. A. training school has been secured to take charge of the bowling and boating, and B. T. Loring of Boston university and physical director of the Lynn Y, M. C. A. will have charge of the gymnasium. Classes will be formed for men and women. Religious services will be held each Sunday. Revs. James M. Gray and W. T. Perrin of Boston; Dillon Bronson of Newton, Tillman B. Johnson of Lynn, W. T. Waterbury of the commission, and were forced to Clinton and Francis Perry of Hyde secretly flee to place before your ex-Johnson of Lynn, W. T. Waterbury of Park are among the speakers. Mr. Perry will conduct the meeting the first Sunday in July. Miss Marion Rice, the contralto singer, will sing at wise we and all the Sassoun remnant the hotel and at the tabernacle. Special Bible readings will be given by Evangelists Anderson and Avery during the season.

NEW ORANGE LODGE. Tuesday; 18th inst, Grand Master Jas. Kelly, accompanied by Past Grand Master Armstrong, County Master Rogers and County Treasurer J. A. S. Rogers and County Treasurer J. A. S. Mott, proceeded to Fairfield, St. John county and were there met by Past Master James Rourke and Rev. W. J. Thompson. A new lodge was organized, to be known as Fairfield Loyal Orange lodge, No. 30. The chair was occupied by G. M. Kelly, with Major Armstrong acting as director of ceremonies, Jas. Rourke as lecturer, William Rogers as deputy master, Rev. Mr. Thompson as chaplain and J. A. S. Mott as recording secretary. The following were elected and installed for the current year, John D. Smith, W. Mr. William Patterson, rec. sec.; Geo. Smith, fin. sec.; Isaac Howard, chaplain; James V. Brown, treas; John G. W. Brown, D. of C.; William G. Verner, lecturer, Nathan Benjamin, F. of C.; John Bain, inside tyler. After the members had been instructed in the work of the lodge addresses were made by County Secretary Rogers, Rev. W. J. Thompson, A. J. Armstrong, James Rourke, J. A. S. Mott, the officers of the new lodge and Grand Master Kelly. Many members of St. Martins lodge, No. 16, including the worshipful master were well as the organization of the new lodge. The meetings are to be held on the second and fourth Tuesdays in each month. The visiting members were sumptiously entertained with refreshments before leaving.

This is the latest and best linkstand or the market, It makes writing a pleasure, as the tisk cannot dry up, nor sediment from the link get upon the pen. The pen is not overloaded with link, and if the bottle, which is simple in construction yet of beautiful design, is upset, the ink is not spilled. It is always in perfect order, even after standing umused for months, Alfred Morrisey, bookseller, nead of King street, will be-pleased to show the "Tidal" to all ceilers.

HER REMBDY FOR RHEUMATISM.

"Their strings for the bett significantly, and the tay of the sand of the orange of the lange of the contraction o Mott, proceeded to Fairfield, St. John county and were there met by Past Master James Rourke and Rev. W. J.

(From the Washington Post.)

I met a woman in the market Thursday who used to have rheumatism dreadfully. I asked her about it, and she said she hadn't felt a twinge for a long time. She had an infallible remedy for the disease. I begged to know it, and she took me into a corner. Then she tapped her belt significantly. "It's in this," she said; whereupon she unhooked it and handed it to me. It was an ordinary black affair with a great silver-buckle. The virtue of it lay in the lining, and what do you think it was? Nothing in the world but the cast off skin of a snake, and she declares it is infallible.

THE SASSOUN SUFFERENS.

Copy of a Petition Sent to the British, French and Russian Consuls.

Some Horrible Tales Told of Suffering at the Hands of the Authorities.

Boston, June 20.—The following sent to this city is a copy of a petition from the Sassoun sufferers, Ezeroum, Eastern Turkey, which has been addressed to the British, French and Russian councils in that city:

"We, Sassounlis, in our homeless condition, are forced to flee and come to Erzeroum to appear before you, not to relate what occurred in that terrible massacre which took place in our beloved home district, but to narrate our bitter woes to you resulting from the present severity of the government. They have been inflicting a terrible treatment upon the luckless remnant, of the Sassoun people. Not only does the government use very severe ures to prevent the people of Sassoun from appearing before the commiss to relate the true story, but it also imprisons them if they are bold enough to attempt to appear or even plan to do

In this manner the specially appointed police have imprisoned, tortured, persecuted and afflicted nameless evils upon hundreds of our people. They even brought women and girls and imprisoned them , haked and barefooted, under the surveillance of a wild and errafic people trying to force, as they did other people (prisoners) to give testimony contrary to the truth before the commission, to the effect that the massacre occurred in a quarrel between Kurds and Armenians, and that the Turkish soldiers did no evil, but on the contrary defended them against the Kurds. And because these poor people were unable to be witness to such a hare-faced falsehood they were tortured ,abused and subjected to the misery of imprisonment for many days. Still at this present time there are in Moorish prisons more than twenty Sassounlis, of whom the principal ones are Hazar and Michael Arakelias, Guneaeerko, Hebo Masean, all of Shenik, A'vak Merkian of Semal, who has fortytwo bayonet wounds; Anna Boghasian who came here and on returning was imprisoned; Vartan, Stepan, etc.

These are at the present suffering bitterly in prison, while other Sasounians are being persecuted and abused in the Moosh and Khanos villages by the local governors. I myself, Hagob D Aarkelian, went to appear at Moosh before the commission to relate my sorrows and to entreat for the liberty of my two imprisoned brothers. The police besides preventing me from appearing before the commission, took me directly to prison, where I remained for five or six days, and only escaped by representing that I came from another district.

Pitying sirs, we in our bitter and unbearable condition have lost wives, children, sisters, brothers, relatives, friends, home and possessions, and in short, everything, and the present new persecution and unrighteous imprison-ment are heavier for us to bear than the bitter cup of death.

Because of this, our fearful condition, we are unable to appear before cellencies this condition and entreat your immediate pity and assistance for ourselves and those in prison. Otherwill be lost. To your conscience and sense of pity be the judge. In hope we remain your humble ser-

The Styrians Are Addicted to the Use of the Deadly Drug.

It is estimated that seven out of ten narriages are brought about by the Dalton McCarthy. M. P., Less Useful Than Ornamental.

Takes no Interest in the Werk of the House, But Reserves Himself For Spectacular Occasions.

(Staff Correspondence of the Sun.) Ottawa, June 17.-The third party in the house of commons is not making much display of its powers this year. The fact is that as a member of par-liament Mr. McCarthy is less useful than ornamental. During the last three weeks he has been in the house about three times, and then only for part of the day. He has never seen in the committees where most of the drudgery of parliament is done. It is not apparent that he takes even the smallest interest in the ordinary work of the house of commons. The third party reserves itself for spectac occasions, when the great public can hear its voice. At all other times it is employed in the law courts mak fine money for itself. Mr. McCarthy is growing rich, but he does not feel it to be his duty to give up any part of his law practice in order to per form his duties to the public. The he aspires to be a leader, he gives less ntion to public business than the most humble member on the back ies. This is the fifth ses the present parliament and Mr. Mc-Carthy has not given as much time in them all to the work of legislation as many of his fellow members did in the first session. He has kept himself before the country by appearing on interesting occasions, but he has not kept at all in touch with his fellow bers of the house of con The result of this is that while four years ago Mr. McCarthy had as large a personal following as any member of parliament, official or private, he has now only one comrade, and even Col-onel O'Brien is disposed to be mutinous. The conservative members who voted with Mr. McCarthy on the Jesuits estates question were largely guided by his view of the constitutional position. It is not certain that a single member of the house would accept him today as a constitutional authority. They have seen him as strong a provincial writer on the Manitoba schools question as he was an opponent of provincial autonomy in matter of the Jesuit estates, and have come to believe that he holds his stitutional views subject to incidental variations. They have seen how carelessly he can cite authorias was shown when Dr. Weldon exposed his reference to Bagehot. Mr. McCarthy had deliber ately quoted Bagehot as laving down a doctrine which Bagehot had merely mentioned as a fallacy to be refuted. The incident showed that Mr. Mc-Carthy was as careless in prepring his parliamentary arguments as he was in attending to his public duties.

When Sir John Macdonald died in 1891 a large number of Ontario mem bers were anxious that Sir John Thompson and Mr. McCarthy should both hold high positions in the new ministry. An effort was made to bring the two prominent members together, and it is fair to the late pre-mier to say that he would have wel-comed Mr. McCarthy as a fellow member of the Abbott ministry. But the equal rights leader soon gave his intimate friends to understand that though he had no objection to an official position he did not consider it due to himself to accept anything less than the first place in the cabi net. Even such men as Dr. Montague Colonel Denison, Colonel Tyrwhitt, or that most devoted and chivalrous of Mr. McCarthy's admirers, Mr. McNeill of Bruce, could hardly support the claim that their friend should be pro- men, Anderson went the rounds of Steam tugs are stationed at each main moted from the ranks over the heads of all the cabinet ministers. The immediate result was that Mr. McCarthy did not become a minister.

The session of 1891 will be rem bered as a critical period in Canadian history. The old and tried leader of the government was gone. The new men who had come into authority were grappling with a grave political situation. Parliament was investigating serious charges involving the conduct and threatening the official life of ministers. It was a time when strong men of the liberal conservative party were needed to promote its best and highest interest. It was a time when men of light and leading in parliament should have been ready to vindicate the honor of that legislative body. It was a time when all members of parliament who desired good government might be expected to take part in the investigation of the charges then under inquiry. Those members of parliament who had most respect and admiration for Mr. McCarthy as street and Broadway. Again they a man of ability and honor, hoped that he would give the best assistance, if not to his party, at least to his country at that critical time.

But when the investigation of Mr. Tarte's charges began, it was discovered that Mr. McCarthy was on the sea. He had left parliament and gone over to England on professional business. All that long hot summer other members who could less afford to lose the time than he, worked over that long and complicated case. All that long hot summer Mr. McCarthy had a good time abroad. At the very end of it he came home. He rushed through the evidence, got an imperfect grip of a few facts, and informed the ma jority of the committee that he thought their finding, which was about to be presented, required some modification on one or two points. The changes were not considered important and were accepted. Yet when the report came before the house, Mr. McCarthy opposed it, and produced one of his own, which virtually accused the committee of a want of care and industry in taking evidence.

It was considered a rather "cheeky" thing for this good man, who had enjoyed himself abroad all summer to ome home and accuse his tired colleagues at the end of the most laborious session Ottawa has ever seen, of neglecting their duty. But the electors to whom the Hansard report of Mr. McCarthy's speech was, of course, to all citizens. It is Assemblyman advantages accruing lie in the fact sent, did not need to know that he Malby's' bill.

had been away making money while others were at work.

It was not long after this that Mr. McCarthy, speaking in Western On-tario, explained that he had left the liberal conservative party because he was no longer consulted about changes of government and other important matters. Since then he has shown in various ways that he is more interested in himself than he is in the welfare of the country. It is equally apparent that the members who formerly admired him most, no longer consider him an important factor in Canadian politics. Mr.McCarthy has apparently lost his grip. It is impossible for an entirely selfish man to attain great influence in this country.

CRISIS IN AUSTRIA.

S. D. S.

Owing to Internal Dissensions the Members of the Cabinet Have Decided to Resign

(By cable to the N. Y. Herald.) Vienna, June 17.-The Austrian cabinet has decided to resign in consequence of internal dissensions.

Electoral reform is the rock upon which the coalition government now holding office in Austria is splitting just as it was the rock upon Count Taaffe's government split in 1893. Count Taaffe, it will be remembered, brought in a scheme of reform which would have placed the repre sentation on a frankly dem writion basis, and, in fact, have practically conceded universal suffrage.

It would at the same time have com pletely upset the whole of the conven tions which govern the relations of existing parties or groups, without offer ing to any of them sufficiently definite prospects of supremacy. But Count Taaffe's proposal that all parties should take a leap in the dark failed to find acceptance. The German liberals, the Poles and the conservatives turned against him, and it was by the concerted action of these parties that Prince Windischgraetz was enabled to form a coalition cabinet, which is now

going to pieces. Prince Windischgraetz had no sooner formed his government than he placed prominently in his programme the promise of "an extensive electoral reform." It is his attempt to fulfil this promise that is wrecking his government. The reform bill which the government has accepted and announced its intention to treat as its own is a scheme primarily constructed not to satisfy the public demand for extended suffrage, but merely to dole out such extensions as shall leave the balance of parties unaffected. Obviously it can be neither thoroughgoing nor logical; thus it has come to pass that fierce denunciation of the measure has come from every part of the country and from every

The Polish official organ, the Czas has been unsparing in its criticisms of the bill, and, as the Poles hold the balance of power, this circumstance is eloquent of the difficulties besetting the Austrian premier. The German lib erals are just as little satisfied, and not many days ago it was announced that they intended to withdraw from the coalition to the support of which Prince Windischgraetz's cabinet owes its existence.

COLORED MEN EAT AT DELMO-NICO'S.

A Practical Test, Right Off, of the New Civil Rights Law.

New York, June 17.-Charles W. Anderson, the colored orator, who is sec-retary to State Treasurer Colvin, was at Brunsbuttel and Holtenan. busy yesterday trying to make a case to test the new Civil Rights law signed by Gov. Morton on Saturday. With two other well-dressed young colored route, the buoys are lighted by gas. several well-known resorts in the Tenderloin precinct to ascertain if any of them would refuse to serve either him or his companions.

The final place visited was Delmo The French waiters stood aghast when the three colored men in vaded the precincts thereto fore sacred from intrusion by those of African blood. Delmonico's men had evidently been warned not to refuse to serve colored men, though, for, much as it seemed to go against their inclination, they attended to the wants of their colored patrons. The light luncheon that Mr. Anderson and his friends wanted was served, and they went away without making a case against Delmonico's. Those of the patrons of the place who saw Anderson and his friends being served asked the reason for this departure from Delmonico's custom, and were informed by the waiters that they had to serve the

colored men or go to jail. From Del's the colored trig went to the Hotel Bartholdi, at Twenty-third were treated very courteously and got all they asked for. Walking down Broadway, they went into the Continental hotel at Twentieth street, and asked for refreshment. The hotel folks were onto the scheme, and no opposition to serving the colored guests was

made. It was after this visit to the Continental that Mr. Anderson met a Sun reporter and told of his experiences. "I've had all I want to eat for one day," said he, laughingly, "and I guess I'll let somebody else try to make a test.case under the law. I think our failure was due to the fact that I am

so well known all over this district." The law not only makes it a misde meanor to discriminate against persons in the matter of service at hotels, restaurants, theatres, and Turkish baths, but permits the complainant to recover from \$100 to \$500 from the offender. Not only the hotel waiter is liable, but the proprietor if he directs the waiter to make the discrimination.

The bill provides that all persons within the jurisdiction of this state shall be entitled to the full and equal accommodations, advantages, facilities, and privileges of inns, restaurants, hotels, eating houses, bath houses, barber shops, theatres, music halls, 236 to 250 miles, and from Emden. Bre public conveyances on land and water, and all other places of public accommodation or amusement, subject only to the conditions and limitations es- is for the Baltic ports of Prussia, tablished by law and applicable alike Mecklenburg and Russia. The military

THE KIEL CANAL.

**Fourteen Nations Represented by Big** and Powerful Warships.

The Canal to be Illuminated by Electricity and the Route Will be Plainly Seen at Night.

Kiel, June 19.-There was a heavy downfall of rain this morning, and for a time it seemed likely to jeopardize the success of the fetes. Happily, the clouds cleared away, and brilliant sunshine, accompanied by a pleasant breeze, followed. As a result, the streets were soon alive with people and everywhere the greatest animation prevailed.

Many of the streets are decorated with triumphal arches and with greetings to the emperor suspended across the thoroughfares. The whole city presents a strikingly effective appear-

The flags of all nations were hoisted along the Alster at noon and the entries at the doors of the principal hotels denoted the presence there of the imperial guests.

Naturally, the chief centre of attrac-

tion was the seaport, where the display of warships attracts many thousands of spectators. Those of Great Britain, United States, Italy and Austria were especially admired. Profusion of flowers have been erectted at the entrance of the canal. At 8 a. m. the war vessels of the nations represented here hoisted their flags to the strains of

tries. The official introduction of the foreign admirals and commanders to the port captain and military commandant of Kiel occurred on board the Mars and concluded with the official interchange of visits. The Mars hoisted the flag of Admiral Knorr, and the latter subsequently, accompanied by the commanders of the foreign squadrons and many officers of various nations, started for Hamburg in order

the anthems of their respective coun-

to meet the emperor. After the labors of eight years and an expenditure of about 156,000,000 marks (\$38,000,000) the great canal which joins the Baltic sea to the German ocean is ready for use. It intersects the peninsula Schlesweig-Holstein from Brunsbuttel, near the mouth of the Elbe river, to Holtenan, on the Kiel bay and opposite that city, a distance of about 59 miles.

The entrances at both termini have been provided with dock gates for the passage of vessels. Each of the gates is 271-3 yards wide and the space enclosed by its walls is 164 yards in length. The lowest possible depth of water at Brunsbuttel end is almos five fathoms and at Holtenan a trifle more. The dock gates or sluices are operated by hydraulic power.

The whole canal is lighted by electricity, said to be the longest distance the world illuminated continuously in that way, Some 5,000 tall poles taken from Bismarck's oaks in the Sachsenwald, have been erected for the purpose, and each light is of 25 candle power, the distance between every pole being 266 yards.

light furnished is powerful enough to enable navigators to plainly discern the route by night. The two sluices at the terminal points of the canal are lighted both by are and incandescent lamps of divers power, and the entrance points to the harbor and sluices are marked by lamps of different colors. The power for this line is furnished by the two main stations

At all those points where the canal runs through small lakes and ponds. of which quite a number lie along the gate to the canal, to assist the passage of vessels, and inside the gates are harbors for the accommodation of vessels which have to wait for passage. At the lowest possible water the

canal has a depth of 41-2 fathoms; but 43-4 fathoms is the desired depth throughout. The breadth at the bottom of the canal is 24 1-10 yards. In traversing the canal vessels must be accompanied by special pilots.

and must not exceed a speed of 51-10 knots. The time thus required for the passage of the whole canal, including delay at the two locks, will average 13 hours. Sailing vessels must be towed through the canal. Both sides of the new waterway are

faced with stone up to the surface of the water and at intervals of about 20 yards stone steps are let into the walls. At convenient points near these steps stand posts for warping line, etc. Provision is also made for vessels to get out of the way of large ships of

war, which may be passing through the canal seven widened passages occurring at distances of about six miles apart for such vessels to lie. Each of these widened passages is 273 yards long and 27 yards wider than the canal

At several points the canal is crossed by movable bridges, which, when opened, leave a free space of 541-4 yards. There are also a number of ferries Two finely constructed permanent railway bridges, at Levensau and Grunenthal, carry the West Holstein and the

Kiel Flensburg lines across the canal. The piers of these two bridges have case-mated buttresses attached, each capable of holding 400 soldiers portholes for guns wrought into the masonry, which in times of war would be used to prevent the enemy's passage. Each of these two bridges has an altitude above high water level of 138 feet, admitting passage of the tallest masts.

The purpose of the Baltic canal is two-fold, commercial and naval. As for the commercial advantages they result plainly enough, since the shortening of a voyage, hitherto made around the Skager Rack, is considerable.

From Newcastle, Hull, London, the saving in nautical miles is 107.181.239 respectively; from Dunkirk and other points along the French, Belgian and Dutch coasts the saving varies from men and Hamburg the saving is 283.

323 and 425 miles respectively. A similar saving of distance and time

German navy cannot be rent or kept apart and the provisioning of either the Baltic or the North Sea cannot be interrupted or rendered impossible.

To this feature of the result following the opening of the canal, the emperor attaches the highest importance. The reichstag granted 2,700,000 marks (\$420,000) to defray the expenses incidental to the dedication celebration of the Baltic canal.

In a memorial the government called attention to the international importance of the canal, and asked that the festivities be on a corresponding scale, even exceeding those at the time of the opening of the Suez canal

Invitations to attend the ceremonie were issued to all the sea faring nations of Europe and to the United States, and representatives of all these nations participate at the dedication, as guests of the emperor. Germany has about fifty large and small vessels of the imperial navy at the opening exercises, while the other nations are represented about as follows: Great Britain, by ten vessels, with

a total displacement of 78,660 tons, 171 officers and 4,390 men; Italy, by nine vessels, with a total displacement of 38,317 tons, 180 officers and 3,309 men; the United States, by four vessels, with a total displacement of 21,747 tons, 75 officers and 1,497 men; France by three vessels, with 18,899 tons dis acement, 60 officers and 1,360 men Russia, by three vessels, with 20,872 tons, 70'officers and 1,305 tons; Austria Hungary, by four vessels, with total displacement of 13,894 tons, 52 officers and 1,212 men; Scandinavia, with 55 officers, 675 men and 8,594 tons; Spain, by three, with 56 officers, 1,232 men and 17,866 tons; Denmark, by six, with 32 officers, 1.370 men and 2.960 tons; Holland, by 2, with 25 officers, 1,434 men and 4.575 tons: Roumania, 2, with 23 officers, 400 men and 650 tons; Turkey. by one cruiser corvette, with 15 officers, 300 men and 1,960 tons. In all, about 52 foreign vessels, with 814 officers and 17.463 men.

The most brilliant feature of the series of festivities will be the laying on Friday of the last stone in the building of the canal and the international banquet, which is to follow it, this making virtually the close of the official programme of festivities. The ceremony of laying the last stone will take place in the open air at Holtenau, in view of thousands of guests and of many thousands of sight-seers, and not in the light house adjoining the sluice, as at first intended.

The newspapers of the world are of course represented, but of the 350 who expressed desire to participate by some representative, but 150 could be accommodated, the steamer assigned by the government to the newspaper men being unable to convey more tha that number. Of the 150, nearly onehalf represent newspapers of other countries than Germany. At the imperial banquet, but fifteen representatives of the foreign press will be admitted.

Hamburg, June 19.—The train bearing the Emperor William and the imperial family, who will attend the great celebration at Kiel, arrived at 4.20 p. m. in the depot, and as the emperor and his four sons appeared on the platform there was a great outburst of applause from the assembled crowd The guard of honor, the 76th regiment of infantry, drawn up in front of the depot, was inspected by the emperor Then the latter, accompanied by Burgomaster Moruckeberg, rode to the Rathaus escorted by a detachment of the 100th Hussars. The emperor was received by a guard of honor amid loud and enthusiastic cheering from the crowds in the vicinity.

Shortly before 7 o'clock the banquet in the great hall of Rathhaus began. This hall, although not quite finished, had been especially decorated and unholstered for the occasion, and it presented a most brilliant aspect. It was splendidly lighted by electricity, and the halls were almost hidden by historical paintings, draperies and flags of all nations.

Over the chief entrance was a crimson canopy faced with the arms of the city of Hamburg. On the right side of this canopy was a trophy of British flags, and on the left side was a trophy of French colors with "Republique Francaise" conspicuous in large letters. Over the canopy was a scroll upon which was the motto of the ancient city of Hamburg "Da Pasen Domine in Diebus Nostrum.' The tables were decorated with flags and sparkled with gold and silver The emperor, wearing the same plate. Garde du Corps uniform and Order of the Black Eagle as he wore upon alighting from the train at the railroad station, entered the hall accompanied by Burgomaster Leihen with

his picturesque robes of office. There was a loud fanfare of trumpets as his majesty walked to the head of the imperial table, bowing right and left on his way to his seat. His majesty sat with the regent of Bavaria, Prince Luitpold; the King of Wurtemburg, the Grand Duke Hesse, the Grand Duke of Lldenburg and other German princes on his right and Burgomaster Leihman, the King of Saxony, the Grand Duke of Saxe-Weimar-Eisenach, the Grand Duke of Mecklemberg-Schwerin and the Duke of Saxe-Coburg and Gotha, on his left. The Duke of York, the Grand Duke

Alexis of Russia, the Duke of Genoa, Prince Ludwig of Bavaria, the Grand Duke Charles Stephania of Austria, Sir Edward Malet, the British ambassador at Berlin, and M. Herbette, the French ambassador at Berlin, were seated opposite the emperor. number of guests at his majesty's table were sixty-four, and the total number of guests, including the officers of the diplomatic corps who dined in a separate room, was six hundred, the varied uniforms of the guests, the contrasting colors, the profusion of military and other decorations and the general aspect of stately magnificence and power presented a splendid spectacle.

HOPE DEFERRED-HEARTS GLAD.

Columbus, Ind., June 14.—Lewis Bright and Harriett Matheas were married yesterday. Both are gray with age. They were lovers when young, but quarreled and each married another. Death left both alone soon and the fires of love again rekindled, but for the second time they quarreled and each married another. Death again left them alone and they became lovers, but again they quarreled and each again was married. For the third time death left them alone, and this time, there being no quarrel, they will journey through the few rerel, they will journey through the few maining years of life together.

A BLOW AT ROSEBERY.

Gladstone Withdraws from His Agree ment With Hon. Charles Villiers.

London, June 19.-The Times this morning announces that Mr. Gladstone has withdrawn from his agreement with Right Hon. Charles Villieres, member of parliament because he wishes to be regarded as having an open mind on the Welsh disestablish ment bill. In an editorial commenting on the above, the Time says:

"Blow upon blow has fallen on the government recently, but none is comparable to this, which means the withdrawal of Mr. Gladstone's moral support from Lord Rosebery's administration. Its effect will be widespread. The immediate prestige of his name enabled the government to weather some dangerous storms, and it is the very foundation of the political fabric of the present government. It is hardly possible to escape the conclusion that he extends a more drastic dealing with the Armenian question. In any case his act will complete the disintegration of the government, and is a portent of dissolution that cannot

THE JUBILEE OF THE DIOCESE OF FREDERICTON.

Special services were held on Sunday, June 16, throughout the parishes of Cambridge and Waterborough, Queens county, in commemoration of the jubilee of the inthronization of the Right Reverend John Medley, D. D., first Bishop of Fredericton. The services were bright and hearty and well attended. The rector, Rev. A. Gollmer, preached from St. Matthew xx., 26, 27, showing how the life of the late esteemed Bishop Medley was influenced by the words of the text, exhorting all present to follow his holy example and thereby obtain true greatness. The rectory at Lower Jemseg is being pushed on as rapidly as possible. 'The rector hopes take up his residence in the fall. It is a pleasing sight to see the energy and the great sacrifice the people around are making in giving up some of their time at this most busy season so that the work of building shall not be hindered. When finished the edifice will be the pride of the place, and those who have helped to its erection will look with great admiration at the comfortable residence for rector. On Sunday, June 30, the rector intends holding services at Coal Creek and visiting Chipman, after which he will proceed to Moncton to attend the annual synod of the dic

IT IS STILL FLYING

A Retired Sea Captain Refuses Haul Down a British Flag.

Boston, June 17.—Capt. Charles Calkins, a well known citizen of Linden and a retired sea captain, had a British flag flying yesterday in his There were no comments and no one interfered with his right to fly the flag until about 2 o'clock in the afternoon, when three Irishmen came along. They ordered the captain to haul down the flag, telling him he a fine historic present: had no right to fly a British flag in In 1216 and for fifty-six years the United States.

They told him they would give him just one hour in which to pull down the flag, and he replied that if they undertook to interfere with him he would break their heads. The men remained in the vicinity and the captain, thinking they might carry out their threats, sent two of his boys to the station for a police officer to protect his flag. The boys saw Chief of Police Burleigh, and upon telling him all possible enthusiasm and zeal. what the officer was wanted for, the chief told them he would not send an He said he did not know but what the men had a right to pull down the flag, and that a man who would fly a British flag must run his own

risks. Capt. Calkins was asked last evening his object in flying the British flag, and he replied that he loved it The principal ornament of the because he was a British American, and he believed he had a right to fly it wherever he saw fit. He said he frightened by Irishmen, and did not want any foreigner to order him to and afterwards the Bank of Montreal. take down the British flag.
"I always go well armed," said he,

"and if those men had undertaken to haul down that flag they would have got into trouble."

SUMMERSIDE DISTRICT.

The ministerial session of this district of the Methodist church, P. E. I., met at West Cape on Tuesday afternoon, June 10th, chairman, Rev. E. Slackford: fin. sec., Rev. J. W. Fisher. The usual routine work was gone through. There being no case of discipline, or probationers in the ministry, or candidates for the ministry, the business was quickly despatched. The reports showed a good degree of spiritual prosperity.

The annual session of the district convened on Wednesday morning at half past ten o'clock. Rev. W. J. Kirby was chosen secretary, which he nominated Leonard Morris. Summerside, as assistant, which nomination was ratified by the district. The following laymen were in at-

tendance: T. S. Weeks, Alberton; J. Moyse, Upper Bedeque; R. H. Cameron, Tryon; L. Morris, Summerside; H. Bouller, West Cape. Reports from various funds showed an increase upon the whole over last year, the sum total received for all purposes being \$11.718.18.

There was a good deal of animation in connection with the elections, which, after much competition, finally resulted as follows: Stationing committee Rev. W. J. Kirby; S. school committee, Rev. J. F. Esty and C. W. Strong; Epworth league committee, Rev. R. Opie and Thomas Moyse: missionary committee, David Rogers; sustentation fund committee. Rev. Thomas Hicks and Samuel E. Reid; contingent fund mmittee, Rev. R. W. Weddall, B. A., and George Mallet; children's fund mittee, Rev. C. W. Fisher and E.

H. Moore, M. D. The laymen met in separate session and elected the following delegates to the annual conference: S. E. Reid, mas Moyse, C. W. Strong, Dr.

Moore, George Mallet, John Wilkinson, David Rogers and Samuel Ledstone. The public services were largely at tended and very profitable.

HOUSEHOLD HINTS.

Nowadays when we make pies, puddings, custards and desserts under every name from the orange, says a writer in Womankind. "orange peel," which stimulates is wonderful, and it seems a pity to let it waste. Some soak and prepare it in a form called "candied" peel, and use it like citron in pies or cakes, but it is easier to grate off the yellow part and put this in a glass can or bottle, and cover with alcohol. Let stand a couple of weeks and then strain. A fine extract is secured in this way. A word as to proportions: For the skin of ten orange, carefully grated, a quart of alcohol will be needed. Be very careful that only the yellow part of the rind is grated off, as the inner skin is worse than useless.

The white of an egg is one of the most efficient remedies for a burn or a scald, excluding the air at once and affording relief. It is also used as an antidote for several poisons, taken internally, especially those of a corrosive nature.

Buy of your drugsist an earthenware mor-

It is also used as an antidote for several polsons, taken internally, especially those of a corrosive nature.

Buy of your druggist an earthenware mortar and peetle. After each meal tip out the salt into the mortar and mash it well, and then put it back and smooth over with the back of a knife, and while your salt in the celiar will look adamant, it will be what salt should be and what it very seldom is.

Tidles made of antique lace can be washed satisfactorily if soaked in borax water; then let them lie in warm suds, squeezing them with your hands; rinee, but do not blue them. Instead of ironing them, pull them in shape, and pin them to a clean cloth on your ironing board; pick out each little point and pin it down. Let them get perfectly dry before removing them.

Bananas are excellent fried as doughnuts, and fried in a deep vessel of bolling fat. These may be eaten simply, or with a little glaze of sugar and lemon. Another way to serve them is to take them in their jackets and eat them with sugar and cream. The fruit should be well ripened and the oven fairly hot. Ten or twelve minutes will usually suffice to cook them.

A novel work-box can be made by lining the bottom of a tambourine with quilted satin of any desirable shade, while between the

A novel work-box can be made by lining the bottom of a tambourine with quilted satin of any desirable shade, while between the metal clappers are spools, thimbles, wax, etc. If desired, a second tambourine a size larger may be converted into a cover by lining it with satin ribbon across it in such a way as to form compartments for scissors, papers or needles and other necessaries of a sewing outfit.

In moving from one house to another the woman of experience sceures one deep-shelved closet, has it cleaned, sees to it that it can be locked securely; and then makes a business of taking and depositing therein her most perishable treasures before the moving day. By this means the fragile articles are out of harm's way at both ends of the journey, and will not be disturbed till they are wanted.

As patent leather shoes of the best quality

wanted.

As patent leather shoes of the best quality are likely to crack, it is well to know how to protect them a little. In the first place, keep them wrapped in cotton batting and the inside filled with soft cotton or paper. If necessary to wear them on a very cold night, put them on in the dressing, room after arriving, if possible. To keep the leather soft, rub it occasionally with a little sweet oil, rubbing the oil in as much as possible, and then wipe the shoes carefully with chamois.

QUEEN'S EXAMPLE TO HER SUB-JECTS.

(From the Pall Mall Gazette.) In these days of record overthrowing in every sort of sport and pas-time one is apt to forget the example which our Queen is giving to her loyal subjects. Today she enters upon her seventy-seventh year, a feat hitherto only accomplished by two other British monarchs—to wit, her kinsfolk, George II., who never saw his seventyeighth birthday, and George III., who lived to nearly eighty-two.

But her most gracious majesty comes even nearer to holding the best on record for long reigning. She has distanced her ancestor, Henry III., who, as the rhyme used to say with

King Henry III. as a pears— and also Edward III., and is coming within a short distance of George III .. who holds this record as well as the other. Next June 20, Victoria will have reigned over us, happy and glorious, for a full fifty-eight years, and her grandfather did no more than fifty-nine years and a bit. Let us then sing long live the Queen, with

AN OLD BANK NOTE

A gentleman brought into the Globe office today a five shilling bill of the old "City Bank," signed by the John V. Thurgar, president, and Thos. Jones (afterwards sheriff of Charlotte) as cashier. Its date was July, 1836. was the arms of the city. The bank itself had its quarters on Princess street, in the building afterwards was not going to be intimidated or known as Barnhill's building, in which at one time the post office was kept The City Bank's affairs were wound up, and the Bank of New Brunswick became responsible for and liquidated its paper. It would, therefore, have to redeem this note, now nearly 49 years old. The note, well executed in every way, is as good as new. It was a present, given by a citizen to his daughter, a little child, on her birth-day. She died soon after receiving it and it was laid away among her trea. sures by her mother.-Globe

WHEN CASEY SLUGGED THE BALL

ution and recorded its ac- the constitution of the nonest nessent

Oh, you all have heard of Mudville, Heard of mighty Casey, too; Of the groans amid the bleachers As the ball thrice past him flew; But you haven't heard the story, The best story of them all, Of the day in happy Mudville, When great Casey slugged the ball.

'Twas the day they played "the giants," And the score stood ten to eight; Two men were on the bases, And great Casey at the plate.

Mid a hush of expectation

Now the ball flies past his head;
Great Casey grins a sickly grin;

"Strike one;" the umpire said.

Again the pitcher raised his arm,

Again the horse-hide flew;

Great Casey spat upon the ground,

And the umpire said, "Strike two."

The next one came like lightening, And the umpire held his breath, For well he knew if. Casey missed, "Twould surely mean his death; But Casey swung to meet it, Backed by his nerve and gail; Oh, if you had but heard the yell, As Casey smashed the ball!

He 'caught the pigskin on the nose, It cleared the big town lot, It sailed above the high church tower, In vain the fielders sought; And Casey didn't even run, He stopped awhile to talk, And then amid the deafening cheers He came round in a walk.

And now he keeps a fine saloon, He is mayor of the town, The people flock to see him, From all the country round; And you need not look for Mudville On the map upon the fall, Because the town's called Caseyville Since Casey slugged the ball.

#### THE LOST PURSE.

Mrs. Daurel stopped in front of the post office. Her right hand held up her skirts. She released them with a sudden movement and thrust her hand into her muff, which she held in her left hand. At the same moment she uttered a cry of surprise. The little purse that she always carried in her must was no longer there. A few feet away from her stood a man of about 50 years of age, clean shaven, stout, well dressed. He was looking at her attentively. Then he suddenly came toward her, and with a polite bow and

an evil smile he said: de la Michodiere. No. 60. M. Chouinot: man of business. If you desire to have news regarding the purse you have been so unfortunate as to lose I can

M. Chouinot was a fine specimen of a rascal. It must be confessed life was difficult for him. He had endeavored to make a success of several enterprises, but every time just as the longed for end was in view an obstacle

The obstacle was justice. The clients whom he had attempted to dupe had made complaints to the police, and the police had started investigations which had finally brought superintendent of police, the judge on the bench, and then the prison of Mazas. Happily he had so far been able to avoid long terms of imprisonment, which was something, but he had been obliged in every case to disgorge his gains and restore to their rightful owners the sums of money that had ben confided by them to his care. In short, he had so far been successful in putting to one side his

That day he was walking behind Mme. Daurel. Was he looking at her? It is probable that he was, for Mme. Daurel deserved it. Rarely has a more

charming woman been seen.

That she had the appearance of the mart woman, a supple and graceful figure, beautifully proportioned, could be seen from her back. In front it was seen that she had a lovely face, dark ardent eyes, an adorably chiseled nose, a fine mouth, and besides thes an infinite and subtle charm that was indefinable. She was a woman no man could help looking at.

So, as has been said already, M. Chouinot was walking behind Mme. Daurel. Sudenly he saw that she had dropped something on the pavement. He was about to call her attention to the fact when an idea presented itself

"Never trust a first impulse," thought No one happened to be passing at the moment. Why should he not take possession of the article provided it was

worth the trouble? M. Chouinot opened the purse, for it was a purse that Mme. Durel had let fall, a mignon little purse with her contained a 50 franc bank note, several scraps of paper and a letter in an

envelope ready to be posted.

M. Chouinot rapidly looked over the pieces of paper. They were letters that showed signs of having been read and re-read many times. They were almost in pieces, and all bore the same signature, Henri. The letter in the envelope was addressed M. Henri de Pretailles. So the owner of the purse was answering love letters!

"Ha, he!" exclaimed M. Chouinot to himself. Then he found some cards bearing the name, "Mme. Andre Dua-rel," and M. Chouinot commenced to think deeply. "Mme. Daurel to a male friend. Henri re Prejailles. Ex-

cellent affair!.. Without a tremor he opened the envelope, and taking out the letter began to read. "It remains to be seen now whether Mme. Andre Daurel is rich,' said M. Chouinot to himself. "In any case it will be sufficient if her friend Henri de Prejailles sounds well. I will find this out as quickly as pos-

Talking thus to himself. M. Chouinot : kept following Mme. Daurel. When he ther and farther away. saw her stop in front of the postoffice. Henri de Prejoilles took a pistol out he stopped also. It was the decisive

"She wants to post her letter now and discovers that her pocketbook is lost," continued M. Chouinot in monologue. "I will approach her very politely and beg her to come to my office for news for the lost article. There I shall tell her my conditions!"

M. Chouinot's deductions were perfectly accurate. Is it necessary to say

that when Mme. Daurel heard M. and M. Chouinot got in. Henri de Pre-Chouinot address her she turned in surprise, which apidly changed to cona word to reply?

As soon as she recovered her selfpossession M. Chouinot, who had turned upon his heel as soon as his little speech was concluded, was already disappearing from the street.

Thus she found herself at the mercy of this man. Doubtless he had opened the pocketbook, had read her letters and now would only restore them to her in eturn for a large reward. Mme.

"There is no hesitating," she thought. "I must go to this man." And she went.

M. Chouloot was waiting for her, and as soon as he had made known

her name she was introduced into the private office of the man of business M. Chouinot rose to meet her and

he said to her, holding out the article carriage and held him back.

He pavement.

He was about to walk away when the rejailles stepped out of the carriage and held him back.

"You see." he said "It."

but honesty compels me to state that waiting."

there. An indiscretion is so easily "Now, M. Chouinot," he said, "I committeed. Therefore I will take care will tell you that M. Daurel never felt

Mme. Daurel understood. The man own valet. Twenty francs did the had laid a trap for her, and she had trick. You see, the 20,000 francs you tumbled into it.
"Monsieur," she stammered, "the

pocketbook you have picked up is my property. You have no right to keep it, whatever it may contain."
"You think so, madam?"

"I can go to the police, and they ure." will force you to give me back those letters."

"And I can go to the police and tell them that I picked up nothing; that I know nothing of any pocketbook, and that I. M. Chouinot, a business man, am above suspicion of such things." Mme. Daurel did not insist on this

point. "But," she said, "why do you keep those letters? They have no interest for you. I assure you"-

"Ta, ta, ta! Letters of that sort, madame, I assure you, are very nice to keep. M. Henri de Prejailles writes of Frank C. Callahan, at No. 117 John most interestingly, and your own style,

her dearly. "You forget, madame," continued M. and the burglar flew through a win

jailles is worth a good price." "Oh, monsieur"-"A very high price, I repeat, ma-

dame. For 20,000 francs I will return you your letters. Otherwise I will give them to your husband." Mme. Daurel became furious. "But it is a swindle!" she shrieked. "That is a nasty word for such an

exquisite mouth." cards in the face of M. Chouinot. The ways been too well bred to devour a man of business remained calm and Callahain, his host being of that ilk. said:

"A second card is useless. I have already taken one. Twenty thousand francs, I repeat. Mr. Daurel is a builder and is rich. Twenty thousand francs is nothing to him!" This was said quietly and with calm

After her anger a reaction had followed, and Mme. Daurel grew quiet. She was frightened now, panting and overwhelmed. She sank down on a chair, with her eyes on the ground, listening to this man as if she was being sentenced to death.

Then there was a silence, and Mme. Daurel rose and walked toward the door. M. Chouinot did not move or say a word. The unhappy woman went out, pale and trembling, with sobs in her throat that suffocated her.

What was she going to do? That was what M. Chouinot wanted to know Several hours later she would return. Probably she would try to bar-

gain with him for 15,000 or 10,000 francs. But he, M. Chouinot, would remain unalterable-20,000 francs. And then Mme. Daurel would spread out on the table, not without regrets, twenty bank notes of 1,000 francs each. At the thought of this M. Chouinot

rubbed his hands. "Oh, beautiful scheme! Twenty thousand francs for merely picking up

a pocketbook !" But the hours passed, and Mme Daurel did not return. Probably she needed more time to get the money. Meanwhile M. Chouinot sang to himself while he waited. Presently an employe of the office came in. "Morsieur, there is someone asking

for you outside." "The woman, no doubt?" "No, sir; it is a gentleman!"

"A gentleman? Show him in." The visitor came into the office. 'Monsieur," he said, looking M. Chouinot in the eye, "I am M. Henri de Pre failles!"

The man of business took a step backward. "Oh, do not be afraid. I have no intention of administering to you the

thrashing you so richly deserve. It gives me pleasure, however, to say that you are an infamous villain. Having said this, I ask you now to follow "Monsieur!" M. Chouinot moved far-

of his pocket and put the end of it under M. Chouinot's nose. "Will you follow me?".
"I will follow you, monsieur, but re-

member one thing-that your letters are in a safe place,' and that you cannot force me to give them up, and-" "Exactly. Meanwhile walk in front

of me, and not a word, or I will shoot you like a dog!" Below a carriage was in attendance

failles took the seat next him.

"Coachman, drive to Rue Rembrand! No. 34, the house of M. Andre Daurel!" M. Chouinot trembled, but said not ing. There M. de Prejailles said to his companion as he opened the door: "Monsieur, you may get out. The

moment to execute your threat has arrived. Take my letters to M. Andre M. Chouinot sprang out. He could hardly believe his ears. What was go-Inverness, Scotland, June 15 .- The At the door stood a servant, dress black, with a white tie. M. Choui

not went toward him. "M. Andre Daurel?" he asked. "What, monsieur." said the serv ant, "you have not heard?"

"What?" "M. Andre Daurel died this after-

PUT TO FLIGHT BY A PET LION Bridgeport, Conn., June 14.-A bur est kind of treatment in this town, and if would not be surprising if he sulked and refused to play any more. The whole state may be boycotted by fairer treatment than a member of their profession received at the street, last night, while in the peace madame, is delightful."

Mme. Daurel flushed. She had loosened for a brief second her grasp ises, and while the burglar was sneakon the pocketbook, and that little mo- ing around looking for the silverware ment of negligence was going to cost the lion awoke. The household heard a roar, then an unearthly scrimmage,

"Agreed. But there are rewards and break into the only house in Bridge-rewards. I think the correspondence port in which a tame lion is kept. He of Mme. Daurel and Henri de Pregot in by the kitchen window, and walked confidently into the parlor in which Claude (the lion) was probably dreaming of something nice to eat.

The Callahans had brought him up as a vegetarian, a course of diet he was beginning to resent. Several times he had tried to get a tenderloin or a chop, but was always prevented. If he formed a hone it was taken away

from him and a turnip substituted. That was the situation when the And Mme. Daurel threw one of her burglar walked in. Claude had al-

What occurred can only be guessed from the symptoms. The family heard Claude roar and snarl, and there was a yell or terror from a human throat. Following this, two animate objects did cartwheels, accompanied by the noise, but on a larger scale than supervenes when two carts that have been debating suddenly come into collision. The burglar next made his fly ing leap through the window, and when he landed in the rosebush a part of the window frame was sticking to

Mrs. Callahan came downstairs and found the lion spitting and snarling. She thought at first that he had had a nightmare and patted him. It was not till Mr. Callahan came down that the traces of the burglar were found. He examined the floor, on which there were pieces of trousers, and he found

"It is as I feared," he sighed, "that lion is no longer a vegetarian, and we'll all have to look out." No clue has been found to the bur glar except the fragment of trousers.

A MILLIONAIRE ISLANDER.

The gold mine said to have the largest output of any in the world is the "Little Johnny," of Leadville, Col., owned by John F. Campion. He went to Leadville and took up the "Little Johnny" after four other miners had abandoned it, because they could not find a trace of carbonates. He was married in Denver to a young lady a few days ago, and ordered the construction of a residence there to cost \$100,000.—Boston Pilot.

(The Mr. Campion above referred to is a native of Souris, P. E. I. He was a member of the legislative council in this province for some time and was one of the principal witnesses at the fishery commission held in Halifax about twenty years ago, by which the United States awarded the dominion the sum of \$5,000,000. He left here about fifteen years ago and has been a resident of Leadville ever since.-

INVERNESS UNIONIST.

The Liberals Lose a Seat Through Br. McGregor's Resignation.

Lord Rosebery Hints at His Coming Retire ment-Poor Prospects for Liberal Success at the Coming Elections.

for a member of parliament to represent Invernessshire, in succession to satisfaction with the government's course respecting the crofter bill, was made known today. Mr. Baillie of Dochefour, the unionist candidate has been declared elected, defeating Dr. McRae of Balallan, the organizing sec retary of the Highland land league, who was the crofter candidate. is a gain of another seat for the conthe result of this election was due to the remoteness of some of the polls. London, June 15.-The result of the Inverness-shire election which was made necessary by the resignation of Dr. MacGregor, is a severe blow to the government. Even if the liberal candidate, Dr. McRae, had been elected, the government would have been uncertain of his vote. He is a crofter advocate, and a pure Celt. He was sent to London on a land deputation to see Sir William Vernon Harcourt

Tam your government and tam your Sir William was dumbfounded for moment, but, recovering from his amazement, laughed heartily at the outbreak of the Highland delegate.

the chancellor of the exchequer, who

thinks the crofter question a nuisance

Sir William used rough language to

the deputation, whereupon Dr. McRae

said: "You should not swear at the

Highlanders. Moreover, there are

others who can swear as well as you.

Many have been the assertions and lenials that Prime Minister Rosebery was anxious to lay down the cares of office, but the first authoritative state ment was made yesterday, when Lord Rosebery himself confessed in a speech in the Clerkenwell district both his desire to retire from the premiership and that the time was near when the government would be overthrown. He aid that among the many castles in the air in which he indulged was one for the day when he should he released from his post. This day, he added was not remote, though its nearness ance coincides with what a cabinet minister remarked about his persona arrangements. He said: "I am making preparations for a long rest from official work after parliament rises. I intend to take a long absence from England, and shall have time to re-

turn to my old studies.'
The same feeling of conviction of the collapse of the party in the coming elections pervades the liberals. Unless some thought, such as the political resurrection of Mr. Gladstore, should reanimate the party they will enter the campaign so dispirited that disaster. The present position of the party is so critical that every byeelection has become monotone

New York, June 16 .- A special cable to the Sun from London says: The gov-ernment has introduced into the house of lords the promised bill dealing with inebriates, and the provisions of this measure are sufficiently drastic to make sinners tremble. Power is given not only to the high court of justice, but to the county courts, to commit a person to an inebriate asylum for a term of six months to two years, upon the application of a relative or friend, supported by evidence, and the exion "habitual drunkard" is extended to include any person who is rendered dangerous to himself or others, or incapable of managing himself or his affairs, through habitual use of opium or any other drug. Even these powers are not sufficient for exthat the backslider should be dealt with earlier in his downward course. They propose, therefore, to extend the definition of "habitual drunkard" so as to include any man convicted of drunkenness thrice within two years. As this would hit hard a good many otherwise reputable people, it will be strenuously opposed, but the government bill itself appears to receive general approval, and will almost certain-

ly become a law at this session should time permit. The government defeat in the house of commons last night, on a trumpery amendment in the supply bill, moved by one of its own supporters, is described as without political importance, but it is full of significance as to the state of disorganization, dis couragement and lack of discipline into which the great liberal party ha drifted on the supply bill when their followers have confidence in them, and their confidence is reciprocated by the leaders. The indications are that the downfall of the present ministry will result from a similar defeat in committee on the liquor bill, and the fear of that explains the reluctance of the government to hurry on with that

measure. Last night witnessed an event the political importance of which cannot be denied, and which gives formal and public confirmation to the predictions made in this correspondence. The Duke of Devonshire and Joseph Cham-berlain, leaders of the liberal-unionist party, were entertained at a ban quet by the chief tory wire-pullers and it was announced that they would take office in the next tory govern ment. As far as the duke is concerned, this is natural and inevitable and long foreseen, but Mr. Chamber lain has struggled and fought to re tain his personal independence, and the separatic existence of his party. His decision now demonstrates his belief that in the coming general election the liberal-unionist party will cease to exist, except in Birmingham and a few midland towns, where his personal influence is still paramount. He has been nine years without the sweets of office, and had he not decided to chain himself to the tory car he would find himself permanently ex-cluded from power. Lord Salisbury and Mr. Balfour and the irresistible course just as good, but get the old established. Mr. Balfour and the irresistible course ed BAIRD'S BALSAM. At all dealers. of events have been too much for Mr.

Chamberlain, as Mr. Gladstone long

ago predicted they would.

The bankruptcy court has made receiving order against William O'-Brien, whose martyrdom is therefore complete. He has ceased to be a member of parliament, and in due course of law his seat for Cork will he declared vacant. The prospect is far from pleasing to the gove because a hot election fight in Cork means the absence of a few of their nationalist allies from Westminster with consequent loss of votes, because result of the polling on Thursday last the tories refuse to pair with them. It is presumed, therefore, that the issue of the writ will be delayed as long as possible, thus postponing the most Dr. Donald McGregor, liberal, who interesting electoral struggle in Ire-resigned his seat on account of diskenny and had lime thrown in his Kilkenny in this respect. Its honest citizens are spoiling for a fight, and it seems a pity to defer their happiness in deference to paltry consider tions of political expediency.

> CUT FROM GROIN TO NECK. Schlect Doesn't Mind the Removal Parts of Lung, Diaphragm and

Pericardial Sac. New York, June 17 .- Andrew Schlecht, a middle aged engineer, who lives at No. 32 Nassau street, Newark, N. J., is rapidly recovering at his surgical operations, the last of which was performed in the Alexian hospital, in Elizabeth, about six weeks ago. The operating surgeon was Dr Augustus F. Wendel of No 248 Littleton avenue. Newark, who is chief of the hospital staff, and who had the assistance of the entire staff. The operations were highly successful and will be made the subject of a technical paper for the benefit of the surgical and medical world. Schlecht is minus a portion of his breast bone, to greater portion of five of his ribs, a part of his left lung, a part of the pericardial sac and a section of the diaphragm, but he doesn't seem to miss any of

his home in Newark. He walks about, eats and sleeps well, and is in no way inconvenienced the great indentations and scars left in his body from his groin to his col-

them. He left the hospital in Eliza-

beth on Tuesday, June 4, and went to

lar bone by Surgeon Wendel's knife.
TO REMOVE A TUMOR. Schlecht's trouble was caused by what is technically known as a sarcomatous tumor, it grew-internally from the ribs, and when removed was found to be of large growth and to weigh several pounds. Because of the manner of its growth it became necessary for the surgeon to remove almost the entire chest wall on the left side of the patient's body. The nicety of the operation, however, and that part which is of a phenomenal nature, was in the successful removal of a portion cardial sac, or heart covering, and a part of the diaphragm. The later is the muscle which separates the two great cavities of the body, the chest and the abdomen, and it is said that the successful removal of this muscle

recorded in surgery. To remove the diaphragm throw the contents of the two great cavities together, and unless they are kept apart a fatal form of hernia is certain to result. Here, perhaps, the greatest skill was developed in this remarkable case, for the deficiency caused by the removal of part of the diaphragm was supplied by Surgeon Wendel from its remaining part and what was left of the pericardial sac well as before.

SEWED INSIDE AND OUTSIDE. Dozens of stitches were put into Schlecht's body on the inside to accomplish this, and the incisions in the outer flesh of the body were closed with dozens more, but the patient suffers no inconvenience. Two operations were performed in his home, and the third and most recent in the Elizabeth hospital, the latter being on the lower portion of the body and of a mere plastic nature, having really no bearing upon the wonderful work done in the chest cavity.

"I sat up in bed and got out of bed before I really began to heal up, I guess," said Schlecht to me yesterday, "and Dr. Wendel and the others got angry at me. I couldn't help it, though, because I am not used to lying in bed so long. I don't suppose it was just right, and they told me it would spoil Would remind his friends and patrons in the operation and myself, too, but I didn't do either, it seems. My strong constitution probably helped through. I can't tell exactly what they did to me with the knife, but I gues they carved me up pretty well inside

BELONGED TO FREDERICTON.

The Mystery Surrounding the Death of Miss Gaynor Cleared up.

Boston, June 19 .- The mystery surrounding the death of Miss Lizzie Gaynor, whose body was found on the kitchen floor of the house No 411 Columbus avenue, this city, on the night of June 17th, was cleared up today by Medical Examiner Draper. In his opinion, death resulted from alcoholism. Miss Gaynor was a friend of Mrs. Whitmore, who occupied the house and Dr. Draper's verdict was house and Dr. Draper's verdict was a surprise to her. Miss Gaynor fell through a skylight a few weeks ago, and had been in the hospital. Her home is in Fredericton, N. B., which city she left about a year ago. Mrs Whitemore left tonight for New Bruns wick with the body.

CHINA'S WAR INDEMNITY.

Washington, June 19. — Minister Denby at Pekin, in a despatch to the secretary of state, says by the fourth article of the Shimonoseki treaty the war indemnity to be paid by China to Japan is two hundred millions impe rial treasury taels, equivalent to 288, 800,000 silver Mexican dollars.,

On account of a benefit to John L. Sullivan in New York on 27th June the exhibition to be given by him in St. John has been postponed until July 1st 2nd and 3rd.

DATRYING.

A Tour Through Northumberland Co. by Instructor Alward.

The New Brunswick Travelling Dairy operated by A. Alward, dairy, instructor, for the provincial government, has been making a tour through Northumberland county. Dairy meetings were held at Bay du Vin, Little Branch, Black River, Lower Napan, Douglasstown, Red Bank, and Littleton, on the Little South West Miramichi, which were well attended by the farmers and their families. At some of these places the people are talking quite seriously of organizing co-operative dairy companies, and at others they are wishing for experienced cheese makers to come and start factories. The present small demand and low prices for home-made butter of ordinary quality, as compared with to convince the farmers of the necessity of adopting the improved methods in connection with their pri-vate dairies, and where practicable to organize under the factory system, so as to be better able to compete with the more advanced sections of the province.

There are many new, and compara tively small settlements in the county, yet to visit, where cheese and butter factories cannot be expected to succeed for some little time yet, or until they become more thickly settled, and the people better educated in the methods of farming and dairy work. In velling dairy and the giving of practical lessons in dairy and mixed farming appears to be very beneficial, and much appreciated by the people, es pecially when visited by a practical farmer of their own province. The hay and other crops in the places visappear to be well advanced for the season, but now are suffering on

DR. TALMAGE DISCUSSES A QUESTION OF UNIVERSAL INTEREST.

He Favors Womun Suffrage, but Says His Chief Anxiety Is Not For This, but That Woman Shall Appreciate the Glorious Rights She Already Possesses.

St. Louis, June 16.-In his sermon for to-day Rev. Dr. Talmage, who has reached this city on his western tour, discusses a subject of universal inter-est—viz: "Woman's Opportunity"—his being, "She shall be called wo-Genesis ii, 23. God, who can make no mistake, made

man and woman for a specific work and move in particular spheres-man to be regnant in his realm; woman to be dominant in hers. The boundary line between Italy and Switzerland, between England and Scotland, is not more thoroughly marked than this distinction be tween the empire masculine and the emare the fields to which God called them that you can no more compare than you can oxygen and hydrogen water and grass, trees and stars. this talk about the superiority of one sex to the other sex is an everlasting waste of ink and speech. A jeweler may have a scale so delicate that he can weigh the dust of diamonds, but where are the scales so delicate that you can weigh in them affection against , sentiment against sentiment, thought against thought, soul agains soul, a man's world against a wo-man's world? You can come out with your stereotyped remark that man is superior to woman in intellect, and the I open on my desk the swarthy, iron thunderbolted writings of Har riet Martineau and Elizabeth Browning and George Eliot. You come on with your steorotyped remark about n's superiority to man in the item of affection, but I asked you where was there more capacity to love than in John, the disciple, and Matthew Simpson, the bishop, and Henry Martyn, the The heart of those men was so large

that after you had rolled into it two hemispheres there was room still eft to marshal the hosts of heaven and set up the throne of the eternal Jehovah I deny to man the throne intellectual I deny to woman the throne affectional No human phraseology will ever define the spheres, while there is an intuition which we know when a man is in his realm, and when a woman is in her realm, and when either of them is out of it. No bungling legislature ought to attempt to make a definition or to say, "This is the line and that is the My theory is that if a woman wants to vote she ought to vote, and that if a man wants to embroider and keep house, he ought to be allowed to embroider and keep house. There are masculine women and there are effem inate men. My theory is that you have no right to interfere with any one's doing anything that is righteous. Albany and Washington might as well decre by legislation how high a brown thrash er should fly or how deep a trout should plunge as to try to seek out the height and depth of woman's duty. The ques-tion of capacity will settle finally the whole question, the whole subject. woman is prepared to preach she will preach, and neither conference presbytery can hinder her. When woman is prepared to move in highest commercial spheres, she will have great influence on the exchange and no boards of trade can hinder her. I want woman to understand that heart and brain can overfly any barrier tha politicians may set up, and that nothing can keep her back or keep her down but the question of capacity.

I was in New Zealand last year just after the opportunity of suffrage had been conferred upon women. The plan worked well. There had never been such good order at the polls, and righteousness triumphed. Men have not made ch a' wonderful moral success of the ballot box that they need fear women will corrupt it. In all our cities man has so nearly made the ballot box a failure, suppose we let woman try. But there are some women, I know, of most undesirable nature, who wander up and down the country-having no homes of own or forsaking their own homes -talking about their rights, and we very well that they themselves are fit neither to vote nor to keep house Their mission seems merely to humiliate the two sexes at the thought of what any one of us might become. No one would want to live under the laws that such women would enact or to have cast upon society the children that such women would raise. But I shall show you that the best rights that woman can own she already has in her possession; that her position in this country at this time is not one of commiseration, but one of congratulation; that the grandeur and power of her realm have never yet been appreciated; that she sits to-day on a throne so high that all the thrones of earth piled on top of each other would not make for her a foot-Here is the platform on which Away down below it are the ballot box, and the congres mblage and the legislative hall. Woman always has voted and always Our great grandfathers thought they were by their votes put-Washington into the Presidential chair. No. His mother, by the principles she taught him and by the habits she inculcated, made him President. It was a Christian mother's hand dropping the ballot when Lord Bacon wrote, and Newton philosophized, and Alfred the Great governed, and Jonathan Edwards thundered of judgment to come.

high political station who would have insufficient to stand the test to which their moral principle was put encouraged them to do right and a wife's prayer that sounded louder tha the clamor of partisanship? The right of suffrage, as we men exercise it, seems to be a feeble thing. You, a Christan come up to the ballot box, and you drop your vote. Right after you comes a libertine or a sot—the off-scouring of the street—and he drops his his vote counteracts yours. But if in the quiet home life a daughter by her Christian demeanor, a wife by her industry, a mother by her faithfula vote in the right direction then nothing can resist it, and the influence of that vote will throb through

the eternities. My chief anxiety, then, is not that woman have other rights accorded her, but that she, by the grace of God, risup to the appreciation of the glorious rights she already possesses. First, she

THE WEEKLY SUN, \$1.00 a year.

has the right to make home happy. That realm no one has ever disputed with her. Men may come home at noon or at night and then tarry comparatively a little while, but she all day long governs it, beautifies it, sanc-tifies it. It is within her power to make it the most attractive place on earth. It is the only calm harbor in this world. You know as well as I do that this outside world and the business world are a long scene of jostle and contention. The man who has a dollar strug gles to keep it. The man who has it not struggles to get it. Prices up. Prices down. Losses. Gains. Misrepresenta-tions. Underselling. Buyers depreciating Salesmen exaggerating. Tenants seeking less rent; landlords demanding more. Struggles about office. Men who are in trying to keep in; men out trying to get in Slips. Tumbles. Refalca-tions. Panics. Catastrophes. Oh, woman, thank God you have a home, and that you may be queen in it! Better be there than carry the purse of a prin-, but you can, by your faith in God and your cheerfulness of demeanor, gild it with splendors such as an upholsterer's hand

ever yet kindled There are abodes in every city-humble, two stories, four plain, unpapered rooms, undesirable neighborhood, and yet there is a man who would die on the threshold rather than surrender. Why? It is home. Whenever he thinks of it, he sees the angels of God hovering around it. The ladders of heaven are let down to that house. Over the child's rough crib there are the chantings of angels as those that broke over Bethlehem. It is home. These children may come up after awhile, and they may win high position, and they may have an affluent residence, but they will not until their dying day forget that humble roof under which their father rested and their mother sang and their sisters played. Oh, if you would gather up all tender memories, all the lights and shades of the heart, all banquetings and reunions, all filial fraternal, paternal and conjugal affections, and you had only just four letters with which to spell out that height and depth and length and breath and magnitude and eternity of meaning you would, with streaming eyes and trembling voice, and agitated hand, write it in those four living capitals,

H-O-M-E! What right does woman want that is grander than to be queen in such a realm? Why, the eagles of heaven cannot fly across that dominion. Horses, panting and with lathered flanks, are not swift enough to run to the posts of that realm. They say that the sun never sets upon the English empire, but I have to tell you that on this realm of woman's influence eternity never marks any bound. Isabella fled from the Spanish throne, pursued by the nation's anathema, but she who is queen in a home will never lose be throne, and death itself will only be the annexation of heavenly principalities.

When you want to get your grandest

idea of a queen, you do not think of Catherine of Russia, or Anne of England, or Marie Theresa of Germany, but when you want to get your grandest idea of a queen you think of the plain woman who sat opposite your father at the table or walked with him arm in arm down life's pathway; sometimes to the Thanksgiving banquet, some-times to the grave, but always together -soothing your petty griefs, correct your childish waywardness, joining your childish waywardness, joining in your infantile sports, listening to your evening prayers, tolling for you with needle or at the spinning wheel and on cold nights wrapping you up snug. and warm. And then at last on that day when she lay in the back room dying, and you saw her take those thin hands with which she had toiled for you so long, and put them together in a dying prayer, that commended you to the God whom she had taught you to trust—oh, she was the queen! The charlots of God came down to fetch her, and as she went in all heaven rose up. You cannot think of her now without a rush of tenderness that stirs the deep oundations of your soul, and as much a child again as when cried on her lap, and if you could bring her back again to speak just once more your name as tenderly as she used to speak it, you would be willing to throw yourself on the ground and kiss the sod that covers her, crying: "Mother ! Mother !" Ah, she was the queen She was the queen! Now, can you tell me how many thousand miles a woman like that would have to travel down before she got to the ballot box ? Compared with this work of training kings and queens for God and eternity, h insignificant seems all this work of voting for aldermen and common cour Mayors and Presidents? To make one such grand woman as I have described, how many thousands would you want of those people who go in the round of fashion and dissipation, going as far toward disgraceful apparel as they dare go, so as not to be arrested by the police—their behavior a sorrow good and a caricature of the vicious, and an insult to that God who mad them women and not gorgons, and tramping on down through a frivolou and dissipated life to temporal and eter-

O woman, with the lightning of your soul, strike dead at your feet all these allurements to dissipation and to fashion! Your immortal so l cannot be fed upon such garbage. God calls you up to empire and dominion. Will you have it? Oh, give to God your heart; give to God all your best energies; give God all your culture; give to God all your refinement; give yourself to him for this world and the next. Soon all these bright eyes will be quenched, and these voices will be hushed. For the last time you will look upon this fair earth. Father's hand, mother's hand, sister's hand, child's hand, will no more be in yours. It will be night, and there ne up a cold wind from the Jorwill co dan, and you must start. Will it be a lone woman on a trackless moor ? Ah, no! Jesus will come up in that hour and offer his hand, and he will say 'You stood by me when you were well: now I will not desert you when you are sick." One wave of his hand, and the storm will drop, and another wave or his hand, and midnight shall break into midnoon, and another wave of his hand, and the chamberlains of God will come down from the treasure houses of neaven with robes lustrous, blood wash ed and heaven glinted, in which you will array yourself for the marriage supper of the Lamb. And then with Miriam who struck the timbrel of the Re and with Deborah, who led the Lord's who gave her Samuel to the Lord, and Mary, who rocked Jesus to sleep while there were angels singing in the

nal damnation?

Subscribe for THE WEEKLY SUN.

air, and with sisters of charity, who bound up the battle wounds of the Crimea, you will, from the chalice of God, drink to the soul's eternal rescue. Your dominion is home, O woman! What a brave fight for home the women of Ohio made some 10 or 15 years ago when they banded together and in many of the towns and cities of that state marched in procession and by prayer and Christian songs shut up more places of dissipation than wer counted. Were they opened again? Oh yes. But is it not a good thing to shut the gates of hell for two or three months? It seemed that men engaged in the business of destroying others did not know how to cope with this kind of warfare. They knew how to figh the Maine liquor law, and they know how to fight the National Temperance society, and they knew how to fight the Sons of Temperance and Good Samaritans, but when Deborah appeared upon the scene Sisera took to his feet and got to the mountains. It seems that they did not know how to contend against "Coronation" and "Old Hundred" and "Brattle Street" and "Beth any"—they were so very intangible. These men found that they could not accomplish much against that kind o warfare and in one of the cities a regiment was brought out all armed to disperse the women. They came down in battle array, but oh, what poor success For that regiment was made up of gen tlemen, and gentlemen do not like to shoot women with hymn books in their hands. Oh, they found that gunning for female prayer meetings was a very poor business! No real damage was done, although there was threat of violence after threat of violence all over the land. I really think if the women of the east has as much faith in God as their sisters of the west had, and the same recklessness of human criticism. I really believe that in one month three-fourths of the grogshops of our cities would be closed, and there would be running through the gutters of the streets burgundy and cognac and heid sick and old port and sciedam schnapps and lager beer, and you would save your fathers, and your husbands, and your sons, first, from a drunkard's grave, and second, from a drunkard's hell! To this battle for home let all

One twilight after I-had been playing with the children for some time, I lay down on the lounge to rest. The children said play more. Children always want to play more. And, half asleep and half awake, I seemed to dream this dream: It seemed to me that I was in a far distant land—not Persia, although more than oriental luxuriance crowned the cities; nor the tropics, alth more than tropical fruitfulness filled gardens; nor Italy, although more than Italian softness filled the air-and wandered around, looking for thorns and nettles, but I found none of them there, and I walked forth ar waw the sun rise, and I said, "When will it set again?" and the sun sank not. And I saw all the people in holiday apparel, and I said, "When do they put on workingman's garb again and delve in the mine and swelter at the forge?" but neither the garments nor the robes did they put off. And I wan dered in the suburbs, and I said, "Where do they bury the dead of this great city?" and I looked along by the hills where it would be most beautiful for the dead to sleep, and I saw castles and towns and battlements, but not a slab could I see. And I went into the great chapel of the town, and I said: Where are the benches on which they sit?" and a voice answered, "We have no poor in this great city." And I wandered out, seeking to find the place where were the hovels of the destitute, and I found mansions of amber and ivory and gold, but no tear did I see or sigh hear. I was bewildered, and I sat under the shadow of a great tree, and I said. "What am I, and whence And at that moment there came up-

women rouse themselves. Thank God for our early home. Thank God for our

ing home in heaven

resent home. Thank God for the com-

flowery paths and across the sparkling waters, a very bright and sparkling group, and when I saw their step I it, and when I heard their voi I thought I knew them, but their ap parel was so different from anything I had ever seen I bowed, a stranger to the strangers. But after awhile, when clapped their hands and shouted 'Welcome! Welcome!" the myster was solved, and I saw that time had passed, and that eternity had come. and that God had gathered us up into a higher home, and I said, "Are we all here?" And the voices of innumerable generations answered, "All here!" And while tears of gladness were raining down our cheeks, and the branches of Lebanon cedars were clapping their hands, and the towers of the great city were chiming their welcome, we began to laugh and sing and leap and shout 'Home, home, home!"

Then I felt a child's hand on my face. and it woke me. The children wanted to play more.

When the Earth Was Young. The average householder this winter does not pause to consider the fact that he is keeping his dwelling warm by the heat of the sun's rays which fell upon

the earth millions of years ago. Says Dr. Homer Greene: "The solar orb of that vanished epoch, bigger than it is to-day and hotter, brought forth even in this latitude a tropical vegitation of kinds-mosses as big as forest trees and ferns 30 feet in height-grew up richly from the clayey soil and formed dense jungles in the vast marshes covered large areas of the sur face of this planet. Ferns, mosses, and the leaves, branches and trunks of trees fell and decayed where they grew, only to make the soil more fertile and the next growth more luxuriant. Year after year, century after century, this process of growth and decay went on, until the beds of vegetable matter thus deposited

had reached great thickness.

"But the earth's body" was still shrinking, and in consequence her crust at times contracted and fell in. When it did so the land sank throughout wast areas. These beds of vegetable matter went down, and over the great marshes the water swept again. Over the deposits the sand and mud and gravel were laid down anew, and the clayey soil from which the next rich growth would spring was spread out on the surface. This process was repeated again and again—as often, indeed, as seams of coal in any coal-bed. Thus the conditions for the formation of coul were made complet, atmospheria airabaing entirely excluded, w ie the v got bli beds und rwent the process of decom po-

THE GENERAL ASSEMBLY

The Manitoba School' Question Discussed. N E 30 NE S NE

A Delegation Réceived from the Synod of the Diocese of Huron.

The Case of Rev. G. S. Mullen of Stanley, York County, Referred Back.

London, Ont., June 17.-The ass bly met at 9.30 o'clock. The first item of business was the report on the apolication of ministers for leave Those of Revs. A. Grant, J. D. McGillvray and J. Murray of the synod of the maritime provinces were

ranted. Overtures were presented asking that the assembly appoint a standing committee to deal with Young People's societies .The prayer of the petition

was granted. Dr. Torrence presented the report on statistics; \$2,126,997 had been received from all sources; 12,922 communicants were added to the roll, being a net inorease of 4,677 for the year; the total number on the roll was 179,579.

At the afternoon sederunt the fire item of business was the selection of the place of meeting for the next gen eral assembly. Winnipeg and Toronto were among the places proposed who had invited the assembly to meet

After a vote had been taken, it was decided to meet in Toronto, and in the Central church there, on the second Wednesday in June, at 7.30 in the evening.

Delegates were elected to represent the assembly at the Reformed Alliance meetings in Glasgow, Scotland.

Dr. Gregg presented the report on the hymnal committee, stating that negotiations had been carried on by the churches in Scotland and several hymns suggested by the Canadian committee had been put in the draft book praise, a copy of which was submitted. Several changes were proposed and suggested by the presbytery and had been agreed to, and the publication of our hymnal will be deferred till the action of the united committees is decided.

The committee on reception of ministers reported, and leave was given to the Halifax presbytery to Rev. Mr. Black, called to St. Andrew's, and F. S. Murray, as ministers of our church.

The evening sederunt was occupied at first with the hearing of the augmentation report. The eastern section reported that hey aided fifty-one congregations of the maritime synod. ogress had been made on every hand, and during the year thirteen congregations had been assisted in becoming self-sustaining. Rev. S. Mc-Donnell presented the western report, Increased liberality had marked the About \$3,000 had been received last year. All the congregations on the fund had received their full

The next business was the matte of French evangelization. Dr. McVicar poke eloquently on the matter, and pressed home the necessity for the work. Several others from Quebec and Montreal supported the continuance of the work and the prospect of success. It was necessary, if the whole nation is to be a united nation, powerful in the land.

London, Ont., June 18.-The general assembly met this morning and was duly constituted, with the moderator in the chair. The committee on remits reported that presbyteries had reported in favor of amalgamating the committee on the state of religion, Sabbath observance, temperance and systematic beneficience.

The matter was postponed till tomorrow, but amalgamation seems certain. It was also decided that as recomended all ministers on ordination should be enjoined to join the aged and infirm ministers' fund or forfeit all claim for support.

In the afternoon several cases of appeal were heard and referred to the judicial committee.

Dr. Reid's resignation as clerk of the embly was accepted, to take effect at the end of March next, his salary be continued in full.

Permission was granted to several presbyters to receive certain students. The St. John presbytery was authorized to admit Mr. McDonald and A. Craise as probationers of the church. A discussion of the Manitoba school question took place, but no deliverance was given, the subject being postponed till tomorrow morning In the evening Dr. R. H. Warden of

Montreal was elected successor to Dr. Reid by a large majority over Rev. Wi Burns if Toronto, the only other

A finance committee was appointed to overlook the financial affairs of the Afterwards the report on the state

of religion was presented, and showed, in spite of imperfect reports, that pro-Great aid had been received in church work from the various Women's

and Young People's societies in the congregations. Great encouragement had been felt in the work on the whole. The ligious aspect of the church life had been growing and strengthened.

Rev. T. F. Fotheringham presented the report on Sabbath schools. There are nearly 2,000 schools, with an attendance of scholars of 153,000. schools had raised about \$82,000. The same advance had been made in the department of the higher religious in-

Rev. D. Styles Fraser presented the report of the temperance committee. Progress had been made and contributions had increased. The outlook seems to be hopeful, for progress had been made all along the line, but much remained still to be done in the education of the people in advancing the temperance sentiment, so that prohibition may soon be a lively issue in the near future.

A pleasant announcement was made to the general assembly before adjournment of the gife of Sir Donald Smith of \$5,000 to pay off the last instalment of the debt upon the Manitoba college. Now in Winnipeg there are buildings worth nearly \$100,000

without a particle of encumbrance. The assembly extended congratulations institution and recorded its acknowledgments to its generous friend in Montreal.

London, Ont., June 19.-Wednesday evening, the general assembly of the Presbyterian church met this morning at 9.30 o'clock. Dr. Warden asked time to consider whether he should accept the position of the agent for the western section of the church. This was agreed to.

The presbyteries of London and To-ronto asked for a rearrangement of the subjects taught by professors in Knox college and for delay in the appointment of a professor in room of the late Prof. Thompson. The rearrangement was referred to the senate and board of management of Knox college for consideration, but the assembly resolved to appoint a professor to the vacant chair.

At this meeting delegates were appointed to represent the church at the next meeting of the reformed alliance. Among them were Judge Forbes of St. John and Prof. Gordon of Halifax. In the afternoon the discussion wa resumed upon the Manitoba school question. It was urged that now was the time for the assembly to make known its sentiments in connection with the matter. It was stated that of the ninety separate schools only thirtyseven had refused to conform to the

system, which showed that the min-

ority had not been tyrannized over. At 3 o'clock the order of the day in terrupted the debate, a delegation from the diocesan synod of the bishopric of Huron. The members of this delegation were received and welcomed by the moderator and addressed the assembly. Then the assembly resumed the consideration of the school question. Dr. Bryce stated that on account of the varied character of Manitoba's population separate schools could not be established for all who wished them without doing injury to the whole educational system of the province.

ceived, and several wished an immedi ate vote. Dr. Sedegewick, however, persisted in being heard in support of an amendment made by Dr. Grant.

The speech was enthusiastically re-

The clerk, Dr. Campbell, held the sul ject was not one which should have been discussed in the assembly. Principal King of Manitoba college

in a calm and powerful speech objected to Principal Caven's resolution as weak, general and ambiguous in its assertion. He urged that nothing be done to secularize education, as both secular and separate schools were alike undesirable. He held that th duty of the assembly was to safeguard the rights of religious education but not the political rights of any particular province. At this stage of the debate a motion

was made that all the resolutions be sent to a court to consider all amendments pending, in order, if possible, to arrive at one motion to be laid before

The evening sederunt was occupied with a report of the judicial commit-Among the cases tried were two from

the maritime synod. In the case of Mr. Graham of Newfoundland against the diocesan synod's committee asking him to resign, the assembly sustained Mr. Graham's appeal, expresses sympathy with the congregation in its financial difficulties, refers the question of the supercision of St. Andrew's church, St. oJhns, Nfld. to the assembly, the parties being called the commission of the synod of

quiesce in the decision of the judicial court and claimed to be heard by the assembly after discussion. All parties accepted the finding, and a court was appointed to take the oversight of St. Andrew's church, St. Johns,

the maritime provinces, declined to ac-

Nfld. The other case, Rev. G. S. Mullen, appealed against a decision of the presbytery of St. John. The committee reported that as Mr. Mullen had not appeared for his interests the appeal should be held as fallen from. It was stated, however, by the clerk that a letter has not reached the committee sent by Mr. Mullen. Thereupon it was resolved that the case be sent back again to the committee for decision. It

will be heard tomorrow.

The union of the Halifax and Lunenburg presbyteries was referred to the synod to issue the matter.

London, Ont., June 20 .- The general ssembly met in usual session at 9.30. A committee was appointed to consider the Manitoba school question so as to frame a deliverance without it being necessary to take a division and returned with the following compromise read by Principal Caven, and appeared to satisfy all concerned:

The general assembly having had its attention called to the difficulties which have arisen in the province of Manitoba in connection with the matter of public education resolves: 1. That it belongs to the state to see

that the people received such a measure of education as shall qualify them for the ordinary duties of citizenship. 2. That while the duty of giving definite and detailed religious teaching must rest above all, on the parent and the church, yet the system of public instruction should be based upon and pervaded by the principles of Chris-

tianity, and should give a distinct place to the reading of the Scriptures and prayers. 3. The general assembly does not regard with favor the system of separate schools, and is strongly opposed to the extension of this system in Canada The assembly would therefore deplore any attempt to interfere with the free dom of Manitoba in determining and regulating its own educational affairs. Such a course, in the judgment of the

ince and the dominion or between different classes of people and the province itself. 4. The general assembly hopes that this view will prevail with the au-thorities of the diminion, and would rejoice should a conference between the province and the dominion lead to a proper and harmonious adjustment in accordance with the views above

is not, we believe, demanded by any

supposed compact between the prov

express Hon. Mr. McMichael, representing the Church of Scotland, was received and addressing the asembly, conveying the greetings and congratulations of A. H. HANINGTON,
Plaintiffs' Solicitor.

Overtures from several presbyteries were read concerning alterations in the constitution of the geneal ass bly. The presbytery of St. John had one urging that the representation be reduced to one-half by basing calculations on one-eighth instead of one-

Mr. Sutherland supported the same, and on motion it was agreed to refer it to a committee to prepare a rebe submitted to presbyteries under the terms of the barrier act.

Dr. Caven presented the report on behalf of union with other churches. In the afternoon the judicial committee reported on the case of Rev. J. S. Mullen against the St. John presbytery. They recommended that the appeal be dismissed because: "Inasmuch as it was competent for the presbytery to decide as follows, that it is the judgment of this court, in view of all the circumstances brought out by the report of the committee, that the pastoral tie existing between Mr. Mullen and his congregation should be dissolved, which is the decision appealed against." The assembly, in view of the

own judgment. This became the unanimous finding of the assembly. The remit committee presented their report, and it was decided to make the basis of representation onesixth stead of one-eight as suggested by the

circumstances of the case, dismisses

the appeal and directs the presbytery

of St. John to proceed according to the

laws of the church to carry out their

St. John presbytery. The Chinese situation was afterwards discussed, and it was urged that the government should act in this matter on the recommendation of the royal commission appointed by them some vears ago.

The routine business occupied the remainder of the session.

Mr. Murray referred to the successful work done in Corea by Rev. W. J. Mc-Kennie, and it was resolved to remit to the foreign mission committee to consider whether it might not be advisable to engage in mission work in Corea.

About ten p. m. the docket was exnausted, and after the passing of the usual vote of thanks the assembly adjourned to meet next year in Toronto

#### NOVA SCOTIA METHODISTS.

Halifax, N. S., June 20.-Rev. John Stothard of Annapolis was today elected president of the Nova Scotia Methodist conference. D. W. Johnson of Dartmouth is made secretary. The membership of the denomination has increased 404 during the year.

#### TELEGRAPHIC.

QUEBEC.

Montreal, June 19.—There is a big racket in French literary circles over the refusal of Rev. Abbe Leclerc of St. Joseph parish to allow the National Alliance use of his hall after the rev. gentleman had learned that the lecturer of the evening was to be Dr. Louis Frechette, the French Can-adian poet, who has had several bouts of late with the clergy in educational

The following is Judge Desnoyre letter of protest to the minister of justice in connection with the latter's remarks on the St. Louis case:

If the reports of the public press are true, you have recently qualified my decision in the St. Louis matter as a "miscarriage of justice." Such a term involves in itself a slur on the administration of justice in Montreal, and also upon myself, which I cannot help resenting. Whilst I am always ready to submit to any honest criticism of my achelp resenting. Whilst I am always ready to submit to any honest criticism of my actions as a public functionary, I feel it is my right to protest against any humiliating insinuation which such terms, or any similar terms may involve, whether it comes from the minister of justice, the natural protector of tribunals and judges of the country, or from any other individual. I have no other way of defending myself against such unfair attacks but this protest, and I take the liberty of using it. I may add that such remarks on the part of the minister of justice, who has probably not read the evidence, and certainly not seen the witnesses, connot but have the most demoralizing effect upon the administration of justice.

I am, sir, yours respectfully.

M. C. DESNOTERS, J. S. P.

Montreal, June 20.—The court of appeal today confirmed the judgment

peal today confirmed the judgment given some time ago in favor of P. M. avalle, editor of La Patrie, whom Tardivel of La Verite designated as a Methodist. The defendant was condemned to pay \$200 and costs.

A serious stabbing affray took place this evening at the Champlain school, where a theatrical performance was going on. Instead of using wooden a real dagger was used by a man named Desjardines, who killed a companion named Laurin.

Quebec, June 20.-The Marquis de Levis and Count Nicuay have each. subscribed \$1,000 for the Champlain monument to be erected in this city. Montreal, June 23.—Despatches from British Columbia say that the recent clean-up at Caribou Mine, in which eastern capitalists were interested, show that 172 hours of washing produced gold at the rate of 90 per hour, nd as soon as the company have apcontinuous head of water, the produc-tion will be from \$1,000 to \$2,000 per day. Sir Wm. VanHorne and several other Canadian Pacific magnates are interested in the company, as well as others in Cariboo district.

La Semaine Religieuse, the arch bishop's organ, states that Miss Paquette, the school teacher, of St. Monique, was recently cured of what the doctors pronounced an incurable disease, during the pilgrimage to St.

WINNIPEG. Winnipeg, Man., June 20 .- The reply of the Manitoba government refusing compliance with the remedial order in the school question, adopted by the legislature last night, will be mailed to Ottawa tomorow. There was no discussion on the matter in the legisla-

ninate in a few days.

The Tribune, recognized as the mouthpiece of the Greenway govern-ment tonight attacks the conservative opposition for advocating separate chools as they exist in Ontario, and declares that this stand will result in the defeat of every member of the opposition at the next election.

Dr. A. Higginson, one of Winnipeg's

charged with attempting to cremate not be surpri his wife and family as they slept, in order to marry a young woman to whom he had engaged himself, reached Winnipeg today with his captors. Farr escaped from the police station here two months ago, and was aboard a steamer bound for Australia when His trial begins tomorrow. Public interest is greatly stirred up over the sensational case.

The Winnipeg bank clearings for the week ended today were \$329,341; balances, \$151,414; for the corresponding week last year the clearances were over one hundred thousand less

Now that the Manitoba legislature has disposed of the reply to the remedial order it will grapple with the bill to sanction Sunday street cars in Winnipeg. A big deputation of clergymen will wait on the legislature to uppose the opposition.

Percherancier, a prominent French farmer of Rathwell district who accidentally shot himself yesterday, is dead.

There was a brilliant reception a government house today ,all the members of the government and nearly all the members of the legislature calling to pay respects and offer congratula-tions to Sir John and Lady Schultz. Winnipeg, Man., June 24.-Winnipeg clergymen will tomorrow in a body wait on the legislature in an effort to prevent the passage of the act sanctioning Sunday street cars.

Today marked the thirtieth anni versary of the consecration of nop of Rupert's Land, now primate of Canada. His clergy, who are here to attend the synod which opens tomorrow, waited on him this morning to offer congratulations.

The directors of the Winnipeg exhibition recently had a big fight over granting a privilege to sell beer or the fair grounds. The beer advocates carried the day, but now the prohibition party has received a promise from the provincial license depart ment to refuse a license.

OTTAWA. Ottawa, June 23.—The official reply of the Manitoba government concern ing the school question has not yet been received here, but the questio of remedial legislation has become the one burning question of convers tion. It is an undoubted fact that the feeling among the Ontario member in opposition to any sweeping measur of remedial legislation has gained in tensity largely, through the effect of the publication of Bishop Gravel's exordinary report to Rome. The gov ernment has not yet taken up the ques tion and will not do so till the reply

is received from Manitoba. The ministers make no disclosures of their personal intentions, but it is

well understood that no measure will be introduced by the government until it is submitted to the liberal co tive members in caucus. It is almost certain that if a strong measure were brought down it would be opposed by sufficient conservative members to de-feat the bill, unless it has the opposition support. While ministers decline to speak, it is safe to say that they are not disposed to make war on the Manitoba majority, even in support of well defined rights, until every oth-er remedy is exhausted. If your cor-respondent were to venture a conjecure it would be that a comm nquiry would be appointed in accorance with the request of Premie Greenway and that the matter would be left in abeyance pending a report If, however, remedial legislation is in troduced and carried it will probably not go further than freeing the Ro man Catholics from taxation for the

support of public schools,

The members of the civil service here are much concerned over the proposed addition to the superannuation tax to be levied on them. They have had several meetings and a cimmittee has drafted a memorial which will be pre-sented to the Hon. Mr. Foster tomorrow. The change is rather serious, a t increases the abatement for a thousand dollar salary from twenty to thirty-five dollars.

IF THE MACHINE GOES WRONG.

Now bring your mind to bear on this idea. Suppose you were to find yourself gaining in weight at the rate of about 100 pounds a month what would you

You would be scared out of your wits

wouldn't you? In six months from now

you would weigh about 750 pounds, including, of course, your present weight You would be a phenomenon, a mon ster, a curiosity. People would pay shillings to look at you; but not for long, you would soon be smothered and die Well, there is one thing certain: If what you put into your body every the shape of food and drink staved there you would grow heavier at the rate I tell you, and more too A man actually takes in three or four pounds a day, and yet grows in weigh slowly, or not at all. What becomes of this stuff? Most of it is turned out again at once as useless, and the rest changed into the substance of the body, and then worn out. So the balance is maintained, "Wonderful?" You may well say so. It is nature's constant miracle; it is digestion ,a mere word

o most people.

Sometimes things run the other way, and food goes out of the body, unas similated, as fast as it is taken in. This happens in diabetes, commonly ending in death by consumption. Inside of these processes there are scores of mysteries. If you knew half of them you would be astonished at how you live from one day to another. It be-

reverent. From the heap of letters on our table we take one this morning, just to give the main points in it. They are ld as the hills and yet new as every sunrise over those same hills.

This is Mrs. Slade's letter. She lives

at 20, Westfield Road, Caversham, Reading. The date is November 17th, 1892. It should have been noticed ear-lier, but others have got in the way

She says that when a girl, she suffered a good deal from flatulence and some disorder of the liver. Early in 1878 she fairly broke down and "fit for nothing." She felt tired and heavy, no spring, elasticity, nor am-bition in her. She was obliged to eat, of course; yet was punished for eating most prominent physicians, died today of diphtheria. He was a graduate of McGill, Montreal. Wm. Farr, the C. P. R. engineer still more painful and sore. We shall lungs affected and feared the arch consumption, threatened We hardly need say that she took drugs and medicines in great plenty and variety. Any one would But they did no good. They seldom do, because they are almost always the wrong things. Taking medicines without knowing exactly what for, is travelling a dangerous road in

Well, it is enough to say that Mrs. Slade suffered in this fashion for years. In 1884 she attended at the Reading Infirmary as an out-door patient, and was treated three months without benefit. Then she ceased gowithout benefit. Then she ceased going there—reasonably, we shall agree. About that time she got hold of a book—a sort of pamphlet—which explained her complaint and suggested a remedy for it. Impressed with the completeness and accuracy with which ner symptoms were set forth in the book, she sent for the medicine and began to use it. What followed is est put in her own words:

She says: "After taking this medicine one week I was relieved, and when I had taken four botles I was in better health than I had been in for many years. Since then I have kept this preparation-Mother Seigel's Curative Syrup—in the house, and if at any time I feel at all out of sorts a dose or two soon sets me right. As I am desirous to let other sufferers know about what has done so much or me. I am willing you should publish this letter if you think fit. (Signed) (Mrs.) M. Slade."

Now hark back a minute over this statement and you will perceive that Mrs. Slade's illness covered fourteen years, to say nothing of what she endured as a girl. What a fearful waste of time, strength and happiness this was. "Not uncommon?" Oh, no, God pity us! Common, too common; like all kinds of misery and misfortune. But what caused it? That's the ques tion-what caused it? Here's the ans wer, a bad defect in that wonderful digestive machinery we talked of-indigestion and dyspepsia, which could have been cured long, long ago if she had only come across the true remedy.

## CARDINAL GIBBONS.

Rome, June 24.-Cardinal Gibbon will leave here on July 1, but he will stay some time at a health resort in England before sailing for the United States. It is understood upon good authority that as a result of the visit of the cardinal to Rome, the holy see has taken a more unfavorable view of the attitude of Archbishop Ireland of St. Paul, Minn., towards the school

ROSEBERY'S DEFEAT.

British Government Goes D on a Reduction of Salary Motion.

Salisbury Summoned by the Queen to Form a New Government.

Duke of Cambridge's Resignation Will Take Effect on October First.

London, June 21.-The government was defeated today on the motion of the Hon. William St. John F. Broderick, conservative member for the Guilford division of Surrey, to reduce the salary of the secretary of war by £100 on account of an alleged deficiency in the army stores and munitions of war, chiefly cordite. The mote ed by a vote of 132 to 125.-Progress was all reported.

The announcement caused great mazement in the house.

The rule of the division was so un-

expected that when the paper was handed to the opposition, which Mr. Akers Douglas read, he returned it to the government whip, Edward T. Ellis, who had about read it when he saw it was a defeat and returned it to Mr Douglas, who, as the opposition had won, was entitled to announce the figures. Mr. Douglas read them amid prolonged and vociferous opposition cheers.

The conservative leader, Mr. Balfour then asked what course the governmen proposed to take, and the chancellor of the exchequer, Sir Wiliam Vernon Harcourt, announced that the government would proceed with a non-conten tious bill, and the house proceeded to discuss the naval works bill.

The unionists are jubilant at such an unexpected victory. The opposition whips only issued an ordinary "whip," but there was an immense amount of private canvassing done to bring up their supporters. The division occurred

The general belief expressed this evening is that the defeat of the gov-

rnment means a crisis.

The cabinet is now sitting, and it is believed that the ministers will decide upon the dissolution at the earliest possible moment. The business of the session can be wound up in short order. Of course the announcement of the aproaching retirement of the Duke of Cambridge has greatly pleased the radicals, who have long demanded his esignation. The duke has been roundly abused in the radical press as the ossil who was hindering reform, and who was incapable of bringing the army up to the requisite modern standard. The Star heads the announcement with "At Last." Commenting on the ambuncement, the Star says: "Even George the Ranger has to go down before the force of public opinion which found expression lately in the Times

and in Punch." Right Hon. John Morley, secretary for Ireland, and Mr. Shaw-Lefevre, president of the local board, were both absent and unpaired from tonight's division. Sir Charles Dilke, radical member for Gloucestershire, voted against the government. Mr. Campbell-Bannerman was engaged in conversation with liberal members in the lobby at the time of the division. He feels the defeat os a personal affront, and resents its instigation by the front of the original bench, to whom he had promised to give the information ought, if expressly challenged to do so, although he thought such publicity not advisable. They avoided responsi bility of making the demand, yet voted against him.

It is stated that several conserva tives regret the outcome of the vote, Mr. Campbell-Bannerman being very popular on both sides of the house. Lord Rosebery same to town tonight and the cabinet meeting began in Sir Wm. Vernon Harcourt's room in the house of commons, and was continued at Lord Rosebery's residence until midnight, the liberal whips being present. It is expected that the cabinet discussed the posibility of reversing today's vote in the representative stage of the bill. Although it is doubtful whether Mr. Campbell-Bannerman could be persuaded to remain in the cabinet that body meets again tomorrow for decision.

Mr. Campbell-Bannerman, secretary of war, is believed to have resigned. London, June 21.-The announce ment of the secretary of state of war Mr. Campbell-Bannerman, that the Duke of Cambridge, comander in chief of the British forces, would resign Oct. 1st, precipitated a discussion in the house of commons today. After stating that the post would not be abandoned, but simply modified, Mr. Campgell-Bannerman added that future comanders in chief would subject to the ordinary rules affecting other staff appointments and the office would be tenagle for the usual terms of years, capable of extension. Continuing, he said that the commander in chief will be the principal military adviser of the secretary of state for war, and with adjutant, the quartermaster general, the director of artil lery and the inspector of forts, each being personally responsible to the secretary of state for war, would form a deliberate consul to advise the sec retary.

The house of commons adjourned at 10.30 o'clock without any further incident. It is reported that Mr. Camp bell-Bannerman, secretary of war, said to a friend in the lobby that this is his last night as minister in the present cabinet. The ministry only consulted toether, as Lord Rosebery, the premier, was at Epsom. A formal cabinet council will be held tomorrow The fight among the liberals abated gefore the house arose and the opinion was expressed that the govern ment should ask a vote of confidence which would be certain to be given by the normal majority. Thus the crisis would be averted. London, June 23.-It has just been

the government, before yielding the seals, shall pass a vote of an amount necessary for the expenditures for two months, to enable a general election to be held. The conservative will thus be in a position of attack

Throughout the day the situation was the absorbing topic at the chief political clubs. Several members of the cabinet called in Downing street in the afternoon with the expectation of seeing Lord Rosebery, who returned from Windsor at six and drove to Downing street, where an informal cabinet meeting, lasting twenty-five

It is understood that the Marquis of Salisbury only agrees to form a cabinet on condition that parliament is dissolved. Nothing is known regarding the personnel of the new ninistry, but complete harmony ex-

The Irish members are extremely uneasy and dissatisfied. They state that after acting for three years as the strongest arm of the government without passing any of the principa Irish measures, not only has home rule not progressed, but the measure concerning the Christian brothers, the county council bill, which reached a second reading, the grand jury bill, and the proposal to extend the power of guardians regarding laborers' cot-

tages were all lost. The only Irish measure now likely to be passed is Mr. Healy's municipal franchise bill, which has gone to the house of lords.

also sore, their expectations having been disappointed. James G. Werr, member for Ross and Cromarty, com-municated with Lord Rosebery this the house.

Great excitement prevails in the lobbles in the house of commons this evening, and members are eagerly discussing the expected dissolution.

The Daily Telegraph (liberal) says that with the resignation of Lord Rosebery this by whom it was accepted."

The Daily Telegraph (liberal) says that with the resignation of Lord Rosebery a weak and dangerous administration passes away. The division passes away. The division passes away. The division passes away the division passes away.

passed.
rd Rosebery rose early today and Tord Rosebery rose early today and att nded St. George's' 'chapel before bre krast. He then strolled through the grounds until 10 o''clock, when he the grounds where the Queen was breakfasting with Princess Beat-rice and Princess Christian. He then attended service at Frogmore Mausoleum with the Queen and family,, af-

with the Queen.

Lord Rosebery returned to the cas tle for lunch and came back to town in the afternoon. He held a consulta-tion with Mr. Asquith, the home secretary; Lord Tweedmouth, lord of the privy seal, and Arnold Morley, postmaster general, in Downing street on his return. Lord Rosebery also conferred with Sir William laser in the afternoon, and a five line whip was issued calling upon the liberals to be in attendance at the house when it is expected that Sir William Harcourt will make the official an-

Lord Rosebery did not receive his cabinet, and had been prominently summons until too late to go to Windconsidered for ten years past, as the whips and officials than upon the cabinet ministers. Lord Rosebery, on his the only objection urged against his sprightly, and Lord Tweedmouth, Mr. La in a jocular mood.

The Daily News (liberal says in an the house of lords, editorial: "Lord Rosebery and his coleagues show a high and prompt sense act to desert Mr. Campbell-Bannerman. Moreover, the government is at the performed an amount of legislative work which exacted a reluctant eulogy from Mr. Chamberlain.

Washington, June 23.-Great interest was manifested among public men in Washington who received through the Associated Press bulletin the information that Lord Rosebery's retirement had been consummated and that the Queen had sent for Lord Salisbury to form a conservative ministry. It was not an entire surprise as the Associated Press cables made it clear that Lord Rosebery's resignation was assured. Naturally the first consternation among the public men here was as to the influence the change wou exert upon the numerous important pending questions between the United States and Great Britain. Most of these questions had their inception during the former Salisbury ministry and have proceeded in one form or another under the Rosebery regime.

Senator Morgan of Alabama, chairman of th senate committee on foreign relations, and a recognized authority on all questions of international im-portance, was asked as to the effect of the change upon some of the dislomatic matters now under consideraion. "Of course it will have no direct nor immediate effect in this country. said he, "but in an indirect way it would influence all of those subjects in which this country and Great Britain have been involved. Lord Salisbury is the only statesman, but a great statesman, and he will bring to the consideration of all foreign ques tions complete information and a reliable and prudent policy. For that reason his formation of the ministry will doubtless have an influential ef fect upon the Behring sea question He understands that subject thor oughly and it was through him that the present arrangement was effected. He devised the plan for protecting the seals on broad and liberal lines, as it was to the interest of people in England, almost as much as in this country, that those valuable animals were not exterminated. To that end his first arrangements with Mr. Bay- team, Major Markham. After Captain

ard were thoroughly sadisfactory, but Canada stepped in the way and it was impossible to execute that policy which had been devised. Under the delligrations of the cabinet in consequence of the adverse vote in the house of commons on Friday is that Lord Rosebery, the prime minister, has tempered his resignation to the Queen. Her majesty has, therefore, summoned Lord Salisbury, the leader of the conservative party, to Windsor in connection with the formation of a conservative ministry.

The leading conservatives declare that the Marquis of Salisbury will not formaily take office until parilament is dissolved. He will insist that the government, before yielding the not be so much of a factor and the subject will be handled on broader and more equitable grounds. Mr. Morgan was asked what influence the accession of Lord Salisbury would have on the calling of an international

monetary conference as provided for by the last American congress. "England will grant us no conces sions on that line," said the senator, "if it is not in her interest to do it. She established the gold standard in 1818 and has been making money out of us ever since, so that whatveer her individual public men may think of metallism, the English people as a whole will not assent to a change against their money making interests. There may be some semblance of concession in going before the people, but when it comes to granting to this country and the rest of the world a genuine concession on financial questions, neither Salisbury nor Rosebery nor any other public man in England can bring that

The senator was asked as to Lord Salisbury's general foreign policy or such questions as Venezuela, Nicaragua, Hawaii, etc. He replied: "Although nominally a conservative he is really very liberal in his general foreign policy. He believes that Great Britain has already that vast territory and that her best interest lies in looking well after what she has in hand instead of reaching out for more. It has been noticeable through Rosebery's administra tion that he has reached out constantly and sought further acquisition." London, June 23 .- The court circular

tonight contains the following: "Earl Rosebery, first lord of the treasury and lord president of the council arrived at the castle and tendered his resignation to her majesty,

festation of the failure of the government to retain any governing power What happened to them may again and again if ministers could face the hazard of being again and again publicly declared untrustworthy, as Mr. Campbell-Bannerman was on Friday. The Graphic says: It is an old trick

on the part of a discredited ministry to resign office instead of dissolvin parliament, so as to leave the opposition the task of winding up the business of the moribund chamber. But it is the duty of the opposition to force Lord Salisbury's government to dissolve. There is no requirement, either of personal honor or public convenience, ob-liging Lord Salisbury to attempt to govern with the present house of comcons. fice of prime minister by the Queer on March 3, 1894, Mr. Gladstone having offered his resignation on accoun

of his failing eyesight. Lord Rosebery had occupied the position of sor tonight. He will go early in the probable successor of Mr. Gladstone morning. The effect of the cabinet's in the leadership of the liberal party. in the leadership of the liberal party decision is more marked upon the when the time for the retirement of return to town, looked decidedly appointment as premier was that the Toronto, ader of the party should be a men Morley and Sir William Harcourt were ber of the house of commons, and that talion of Rifles. the party could not be managed from

premiership took the place of of what their honor and duty requires. lord of the treasury in the cabinet, It would have been a mean and base and called the Earl of Kimberley to succeed him as foreign secretary. The leadership in the house of commons mercy of accident and unexpected cat-astrophy, and cannot conduct public Harcourt, who retained his place in business with credit to themselves or the cabinet as chancellor of the exadvantage to the country. With an or-iginal majority of 40 reduced by the stone was considered a severe strain desertation of the Parnellites and by upon the government and many perlosses by election ,the government has sons looked for the defeat of the lib erals and the resignation of the cabi-

net at that time. On March 12, 1894, Prime Minister Rosebery defined his policy to a great meeting of the liberal leaders, held in London. "The policy of home rule, he said, "will not be less definitely

In regard to the house of lords, he said "The conviction has long been forcing itself upon me that with the democratic suffrage which we now enjoy, a second chamber, constituted like the house of lords is an anomoly. This declaration aroused hopes on he part of the radicals that the Rosebery government would offer mea-sures for the abolition of the house of lords. Its failure to do so awakened much dissatisfaction in certain quarters. The course of the government on the subject of home rule was by no means satisfactory to the Irish members of parliament, and their support of the government on many mea sures ever since has been grudgingly given. The Scotch members, also were, many of them, dissatisfied with the attitude of the government towards the Scotch measures, and especially towards the Crofters' bill. The failure of the government has been considered inevitable for over a year, and it has only been a question whether it should come in a dissolution of parliament and an appeal to the country, or in the resignati has proved to be the case.

THE BISLEY TEAM

Inspected at Montreal on Friday by the Commandant, Major Markham.

(Saturday's Montreal Gazette.) Yesterday the complete personnel of the Bisley team, with the exception of Private Hayhurst, at present in England, assembled in the city preparatory to their sailing on the Parisian in the evening.

At half-past two in the afternoon they paraded in the drill hall for the mish it., 20: "The God of Heaven He inspection of the commandant of the will prosper us, therefore we His sep

ST. JOHN'S DAY.

The Masonic Fraternity Attend Divine Service at St. Paul's (Valley) Church.

Monday was St. John's day, and the occasion was observed by the Masonic fraternity Sunday afternoon by attend ing divine service at St Paul's church. The grand master called out the grand lodge for the service so that others besides the St. John brethern turned out. The St. John Masons at the Masonic temple at 3 o'clock, where they they were joined by the west side members. Headed by the band of the 62nd Fusiliers, the brethren started for the church in the following order:

New Brunswick Lodge. Union Lodge of Portland. Carleton Union Ledge. Hibernia Lodge. Albion Lodge, St. John Lodge, Master Walker and Grand Lodge Officers.

The route of march was along Gernain street to Carleton, along Careton to Dorchester, down Dorchester to Pond, along Pond to the bridge and over to the church. The large edifice was completely

filled, and the service was a teresting one. It opened with Old Hundred, all joining in the singing, accompanied by the Fusiliers' band. The lessons were Nehemiah iv. and Luke vi. The singing was excellent, Morley's Magnificat and Nunc Dimittis being sung.

One of the prayers offered by the rector, Rev. A. G. H. Dicker, who is the V. W. grand chaplain, was the following Masonic prayer:

"O, God, in whose hand our breath is, we bow in thy presence with a sense of the frailty and uncertainty of this mortal life. It is appointed unto men once to die. But we thank Thee, that in Thy great mercy Thou hast made known to us the life beyoud the grave so that we may look opefully forward beyond the shadows that now surround us. Help us to perform the duties assigned to us here, that when we depart this life, we may die in hope of a blissful immortality, and Thy name shall have

the praise forever." The sermon, which was preached by the grand chaplain, was from Nehe-miah ii., 20: "The God of Heaven He vants will arise and build,"

Sussex, June 21.-Rev. T. W. Camp bell of Toronto, the bishop of the Re-formed Episcopal, made his annual visit to the R. E. church in Sussex this week and on Wednesday evening preached to a well filled church a very powerful sermon. He very warmly complimented Rev. Mr. Hubley, the pastor, for having accomplished a very successful work during his ten years' ministry. The church books bear record of his having during that time baptized 147 infants and 47 adults and 122 persons confirmed. Bishop Campbell administered the right of

confirmation. He is to attend a young people's meeting on Friday evening. The Yeomans and Taylor Cardwell assault case was concluded this afternoon. The conusel, Mr. Byrne and Hon. Mr. Morton, addressed the court. It being so uncomfortably hot the magistrate adjourned until Monday next, when his decision will likely be reach-

Mr. Kent succeeded yesterday in reaching a fine flow of excellent water at the bank building on Church avenue. He had, however, to go to a depth of 200 feet. The people are now agitating the propriety of having an artesian well sunk at some important

points for the use of the town. The excessively hot weather is causing the farmers to feel not a little gloomy. It is said there cannot be the slightest doubt but that the wild strawberry will be a failure this year, and many having ceased to cultivate the home strawberry owing to their large product last year, it is quite possible the strawberry luxury may be unusually dear this season.

WESTMORLAND TO Moncton, June 21.-James Harris of the I. C. R. freight department, Moncton, was married on Wednesday a Buctouche to Miss Sophia, younges daughter of Charles McManus of tha place. The ceremony was performed by Rev. Father Michaud. The happy couple will spend some time in Nova Scotia and Cape Breton before return ing to Moncton.

Mrs. Bowser was yesterday fined \$5 and costs for violation of the Scott act. The work of erecting a cheese factory has been commenced at Lutes' mountain, and is expected to be in operation in about three weeks. A dairying association was organized at the grange with Samuel Steeves president, Allan Steeves treasurer and Franklin

Steeves secretary.

A fire at Petitoodiac on Thursday destroyed the residence of Councillor T. Godard. The fire was discovered just in time to save Mr. Godard's family, who were asleep. The crops in this section are suffering greatly for rain. The grass, which promised so well, is turning yellow, and late grain has not sprouted. Unless rain comes soon farmers will suffer much loss.

Moncton, June 23 .- The city council has decided to appoint an extra police-man, whose special duty it shall be to enforce the Scott act. This action has been taken as a result of the recent meeting of citizens, called for the purpose of instructing the council, backed up by a deputation of clergymen and laymen, who waited on the council at its last meeting. There was apparently some hesitation on the part of the uncil in following the instructions of the citizens' meeting, but when the matter came to a vote here was not

an adverse vote. The expected happened last night, when a young man who was speeding on his bicycle on Main street collided with a citizen. Result, dislocated shoulder for bicyclist and bruised body and cut head for citizen. The council promise to pass a bye-law regulating the speed of wheelmen and mpelling them to carry lights and

A. E. Taylor, a Moncton boy, sor of Ezemiel Taylor, has been transferred from the bank's branch at Mone ton to New York. A. F. Gulpin, who long ago wrote his mother that he has been in the branch here for some time, has been transferred to Halifax. The young lads, Budd and Mollins, arrested by the I. C. R. police for taking a trolly out of a shed and placing it on the track, were on Sat urday committed for trial. dog. All dogs found without this tag

THE JANS ESTATE

Over fifty persons, all heirs to the famous Jens estate in New York, asembled in Orange hall, north end, Friday night, for the purpose of forming an association in connection with the Jens' Central Association of Cleveland, Ohio. The object is to establish their claims to the Annek Jens estate, now said to be held by the Trinity shurch corporation of New York. The following officers were elected: Richard Stackhouse, shipbuilder, president; Ira B. Kierstead, vice-president; Clarence Kierstead, secretary; Edward C. Stackhouse, treasurer. A large number of those present joined the association. Several had not their pedigrees down fine enough, but they expected to have their genealogy traced out by the time of the next meeting, which will be held in the Orange hall July 12. The heirs in this part of New Brunswick seem to have come through the Kiersteads, some of whose progenitors were married to the Jens. Richard house and a few others have the genealogy line down fine. A committee of nine was appointed to carry out the different details regarding the looking up of pedigrees, etc. There are a numthe river near Dewan's mill. He in ber of heirs scattered over the western country, and the object of the Jens John Chambers were together and while the latter was swimming the association is to get them all combined Good taste is the modesty of the

THE MARKETS.

COUNTRY MARKET. The last week was another quiet one in the country market. There is no change to note in prices of meats, poultry, eggs and butter, except that the best butter in the market will not bring over 20c. by the single pound. Unless one really wanted to buy, it would not be safe to offer 10c. for some tub butter that is in sight. All kinds of new vegetables, such ac car-rots, beets, turnips, radishes, spinach, cucumbers, lettuce, celery and rhu-barb, are now in market, and as the quantity increases the price declines. The supply in all lines of produce is fully equal to the demand.

FISH. Dry cod are marked down this week. Other quotations are unchanged. The harbor salmon catch has not been large enough during the last week to supply the demand, and North Shore fish are therefore in some demand. The catch up there has not been as large this year as last, either. Shad are about out of the market and very few gaspereaux are now taken. It is estimated that the quantity of gaspereax salted down this season is about 14,000 bbls., including the catch up river, which was small this year. Last year about 21,000 bbls. were pickled. There is no inquiry as yet from abroad for these fish. Smoked herrings are, if possible, duller than before. There is practically no movement of pickled fish of any kind.

A GRATEFUL MOTHER.

Relates How Her Daughter's Life Was Saved.

Anaemia and Geneal Debility Had Brought Her to the Verge of the Grave-Physicians Held Out No Hope of Recovery-Dr. William's Pink Pills Again Prove a Life Saver.

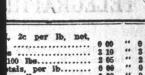

(From the Ottawa Free Press.) A personal paragraph in the Free Press some time ago simply stating that Miss Sophie Belanger, 428 Cooper street, Ottawa, had recovered from a serious illness caused by anaemia and general debility, has aparently awakened more than usual interst and pleasure among her relatives and acquaintances. So much so, indeed, that a reporter of the paper found it extremely interesting to visit the family and enjoy a chat with Mrs. Belanger on the recovery of her daughter after she had for two years been considered irrecoverably a viotim of this terribly enervating and dangerous disease. Mrs. Belanger is a very intelligent French-Canadian, wife of Mr. Joseph Belanger, whose wall paper and paint and glass establishment is at 146 Bank street. Miss Sophie Belanger ,the whilom invalid, vascillating between death and life, is a promising young lady of seventeen years. She is a student under

She lay on a couch like one dying. the nuns in St. Jean Baptiste school on Primrose Hill. Over two years ago she fell sick and rapidly wasted away The nature of her disease appeared to be a profound mystery to the physicians as they were called in one after the other. Despair seized the family as they looked upon the once beautiful spirited girl, lying day in and day out, weeks and months on her couch, simply slowly vanishing and they powerless even to raise a smile to her wan lips. Each succeeding medical man gravely told the parents to prepare for the worst. However, Mrs. Belanger is not one of those women who give up in despair while there is still hope, as her own words will denote.

"It was a terrible time," she said.
"We had been told again and again to say that but for Dr. Williams' Pink instead of attending school every day like this: the poor girl was coming to fairly at it in a very serious light. almost every French doctor in the city called in, but with no result. Sophie got worse and worse. Her face was small and yellow while her lips were as white as your collar. She was listless and apathetic, and so weak she could not raise her hand to her head. A leading doctor forced her to take a certain kind of powders, which seemed to be taking the flesh from her bones. Her skin became hot and parched, her eyes sank into her head and she lay on that couch as one dead, taking no interest whatever in things going on around her. Then it was we confirmed to the popular belief that she was going to die. It was agonizing to look at her, but we became partially resigned to the fate that appeared to be overtaking us. She was watched day and night, but we could detect no change unless for the worse. All hope had gone. I had read of the cures by the use of Dr. Williams' Pink Pills, and about this time I noticed a description published in the Free Press somewhat similar to Sophie's case. Something seemed to urge me to give them a trial, and now I thank God that I did. I sent for some and began giving them to her one at a time. Before long we saw an improvement, and gradually increased the dose from one to two and then to three at regular intervals. It was incredible to note change. Her color came back, a different look in her eyes, her general health and appearance gave us all new interest in her. Before the fourth box was gone Sophie was able to be up and around agin, and a further use of them fully restored her health, or rather snatched her from the brink of the grave. To Dr. Wiliams' Pink Pills is due all the credit, for we had stopped doctor's medicine and simply gave her these, following the directions around the box. My daughter's life was saved by Pink Pills and no one knows better than her mother. I wish to tell everyone of the cure, as it is almost imsible to believe that the poor thing that lay there, and the happy rosy. cheeked girl who goes regularly to her classes are one and the same person in such a marvellously short space of time, and you may be sure I am ad-

vising ailing neighbors to use this wonderful medicine." Just as the reporter was leaving Miss Belanger returned from school. She was the picture of grace, health and beauty, her lithe physique denoting health in every movement, while her face showed the warm, ruddy glow of health. She corroborated all her mother had said besides adding some new estimony. Happiness now abideth in that home where misery held sway too long, and Mrs. Belanger rests her faith in Dr. Williams' Pink Pills, which will do for other weak and ailing girls what they did for her daughter.

NOVA SCOTIA.

Sudden Death of Rev. Wm. Wetmore, at Mabou.

The Ratepayers of the Town of Amherst Favor Compulsory Education.

ANNAPOLIS.

Annapolis, June 21.-The supreme court finished last evening. Both Dr. Miller and Parker are free men, the petit jury acquitting Parker last evening. No bill was found on Wednesday

against Dr. Miller. It appears that the anti-Scott act people are anxious for more prosecu-This morning Inspector Gates found at the corner of his house a large box filled with waste well soaked with fuse and the fololwing notice:

"The first Scott act paper you serve in town it will cost you more than your salary. Remember your property: We are your friends. Don't make us your enemies. It is altogether likely that prosecutions will at once begin, though nothing has been done for sev-

AMHERST.

Amherst, June 18.-Vincent F. Paton of the firm of Wade & Paton, Bridgetown, and Miss Tilley Rant of Baie Verte were this afternoon married at her parent's home, Baie Verte, by Rev. V. E. Harris of Christ church here. The couple drove to Amherst and left tonight for St. John.

The supreme court opened here this afternoon, Chief Lastice McDonald presiding. Several criminal cases are on the docket including the Springhill shooting affair by Italians and the assault on the fishery officer by Smith

Amherst, June 20.-At the superior court here today the two Italians, Santo Gaultier and Rapphail Gaultieri, were acquitted by the jury of a charge of shooting with intent to murder Edward Crawford at Springhill in October last. The only criminal case to be tried is against Godpert Cuoad, the German count, for obtaining at Parrsboro goods under

No bills were found against Smith O'Brien of Wallace; Chesley Gilroy of Springhill for obtaining money under false pretences, and Fred Black of Oxford for having dynamite in his pos-

A meeting of the ratepayers of the town have declared themselves in fafor of compulsory education.

Forest fires have raged for the last three days between Salem and Hastings. Large quantities of deals are menaced and much valuable timber land. Men are fighting the flames day and night. All available teams are engaged in removing logs.

PARRSBORO. Parrstoro, June 19 .- The Parrsboro rink has been turned into a gymnasium by the young men of the town. There was a gymnasium in Parrsboro a few years ago which was short-lived. An exhibition was held a few nights ago in the rink, which was very sucessful, considering that the performers had not had two weeks' There is excellent material for good gymnasts among the young men of Parrsboro, who are already widely known for their ability in skating and The exhibition netted about thirty dollars, which will be used to-wards the purchase of new apparatus. R. T. Coates is making a new depar-

ture for Nappan. He is going to load a schooner there for New York with there will probably be the usual num-

ber killed in this vicinity for the Halifax fur market. The ladies of the Methodist Sewing society will hold a bazaar on the drill

HALIFAX.

Halifax, June 18.—David McKeen, M. P., has purchased Maplewood, the old sidence of M. B. Almon on the Arm,

A sad event occurred at Mabou on Saturday. Rev. Wm. Wetmore of Margaree and Rev. J. A Marple, Baptist ministers, were there holding special union services. On Saturday evening, shortly after tea, at the house of Thomas Smith, Mr. Wetmore went out for a walk and was shortly afterwards found dead on the roadside. It is supposed that death was instantaneous and caused by heart disease. This sad event has cast a great gloom over the community. He was very happy and cheerful all the afternoon and expected to preach in the Presbyterian church on Sunday. He was about fifty-five years of age and supposed to be in robust health. Deceased was a native of New Brunswick, but came to Cape Breton several years ago. He was first settled at Port Morien, but removed to Margaree two years ago. He was highly esteemed not only by his own people, but by all denominations, and there is deep sympathy for his

Halifax, N. S., June 19.—The convocation of the Halifax Ladies' colge took place today. The graduating class numbered twelve. The valedictory address was delivered by Miss Avis Louise Ferguson of Bathurst, the only New Brunswick graduate. Her production was very creditable liter-

ary work. The total number of pupils enrolled the past year were 385. President Laing reported the past year most satisfactory. Addresses at convoca-tion were made by half a dozen gentlemen. The conservatory session will open after vacation, September 4th, a week earlier than usual.

Some months ago Donald G. Mc-Donald, a leading business man of Sydney, and agent of the government savings bank at that place, was arested on a charge of embezzlement and forgery. The supreme court opened there yesterday and great interest centered in the case. There were several cases of embezzlement and one forgery of a savings bank check of \$575, by raising it from \$25, and two cases of forgery of receipts, \$575 and \$525 each. The grand jury were two days hearing the evidence. Cahan of Halifax and Cameron of Sydney appeared for the crown, and Harrington, Q. C., of Halifax, Crowe, Hearn and McDonald of Sydney for the defendant, McDonald. This evening the grand jury reported "no bill" in each

Judge Henry then addresses the jury, telling them that in his opinion they had proved false to every obligation resting upon them, and he must express his entire disapprobation of their conduct. Instead of conserv ing the interests of justice, they had given direct encouragement to crime. It was a conspicuous triumph of illegality over law, and of dishonesty over honesty. There was no doubt that it was their duty to place the defendant upon his trial. They had proved, in his opinion, an obstruction o the administration of justice. A few more such instances and the public would demand the abolition of the grand jury system, or else the country would not be a comfortable place for honest men to live in. He felt it to be his duty and in the interests of public justice, to enter a vehement and unqualified protest against their conduct, and the only matter for congratulation was that he could dismiss them without having to refer any other business to be dealt with by

MR. WESLEY'S CHAIR.

A unique privilege was enjoyed by Rev. Mr. Clarke, president of the N. B. and P. E. I. conference, while discharging his official duties as chairman of the Sackville district which met in the Methodist church, Baie Verte, June 12. It was nothing less than the rare opportunity of occupying during the various sessions of the district, the veritold fashioned chair frequently used by Mr. Wesley during his visit to a certain part of Yorkshire, England. It has been carefully preserved by the family whose ancestors were privileged to share in the visits and ministrations of the man whose name, memory and monument are now as wide as the world. Perhaps it was the presence of this prized relic with its more than one hundred years of history and the associations and recollections which it inspires which explains the becoming gravity which distinguished some of the deliberations of said district.

RECEPTION TO A PASTOR.

A reception is to be given Rev. W. T. Stackhouse and his wife this evening ing in the First Baptist church at 8 o'clock. Mr. Stackhouse arrived last week from New Glasgow, N. S., where Lakelands during the last week; and he has been pastor of the Baptist has accepted a call to the pastorate of the First Baptist church in this city, which has been vacant since the Rev W. C. Weir left in October last. It 's expected that nearly every Baptist Scott Act Inspector Casey of Amherst has made the statement that no as several of the ministers of the other minister in British Columbia as well city churches will be present tonight to welcome the new pastor to the city and province, and the choir will render selections of music appropriate to the occasion.—Vancouver World, June 13.

SUMMER TOURS. One of the prettiest and most attractive and useful guide books of the season is that of the I. C. R. It is entitled, A Ramble and a Rest, and pesides a well written running description of all points of interest to tourists in the provinces that may be reached by the I. C. R. and its rail and water connections there are over a dozen full page engravings of places and points of interest. There is also a tabulated list of through tours from Quebec, Moncton, St. John and Halifax as starting points, the fare for the round trip in each case being stated. For example, if a citizen of St John would like to make a round trip taking in several places reached by the I. C. R. and some of its connec tions, a glance at this guide book gives him at once the cost of the journey so far as the ticket is concerned; and the like is true of the other cities named as starting points. The book, which contains nearly fifty pages, is well printed on toned paper, and is accompanied by an excellent railway map of the provinces.

FAIRVILLE NEWS.

Western Star district lodge paid visit to Victoria lodge at Jerusalem on Tuesday last. The usual routing of business was carried on, Victory lodge choosing delegates and alternates for grand lodge, which meets in Victory lodge took district degree. Revs. J. W. Corey and Dickerson accompanied the lodge. A public meeting was held in the evening and a fine programme carried out. Recitations and songs by members of both lodges and speeches by Revs. McDonald, Corey and Dickerson and Bro. Burgess of No Surrender. The meeting was brought to a close by singing God Save the Queen and a prayer by Rev. Mr. MacDonald. An invitation from No Surrender lodge for a return visit was accepted by Victory lodge and will take place in August.

Dr. M. Macarlane lost a valuable horse on Monday night. The animal tion, which took place immediately dropped dead on the Mahogany road. after the ceremony was held at the

One of the most brilliant weddings that has occurred in this city for some time took place in St. John's (stone) church at 8 p. m. on the 19th inst. The principals were H. B. Peck of the railway postal service and Miss E. A. Anderson, daughter of Geo. M. Anderson and neice of Mrs. Chas. Hazen of this city.

The church was filled with a fashionable congregation. The invited wedding guests numbered about one hundred and sixty. Rev. J. deSoyres, rector of St. Johns' church, was the

officiating clergyman. The charming bride, who entered the church leaning on her father's arm, was attired in ivory satin, with silk lace trimmings, and wore veil and orange blossoms, and a gold chain with pendant set with pearls, the gift of the groom. She carried a bouquet of white roses smilax and ferns.

Miss Emma Anderson, the first bridesmaid, wore cream crepon with pink silk trimmings, and cream chip with cream ribbon and pink tips, and carried a bouquet of pink roses tied with pink ribbon. , Miss Celia Peck, the second brides

maid, wore cream crepon with blue silk trimmings, with hat to match, and carried a bouquet of blue forget-menots and cream roses, tied with blue

Miss Ella Anderson, the third bridesmaid, appeared in a cream crepon dress with yellow silk trimmings and hat to match, and carried a bouquet of yellow roses tied with yellow rib-

Each of the bridesmaids wore a pin set with pearls and rubies, the gift of The groom was supported by Dr.

D. Walker, and the ushers were Arthur Anderson, Chas. St. C. Skinner and D. Russell Jack. After the marriage a brilliant reception was held at the residence of Mrs. Chas. Hazen, Germain street. The bridal gifts were numerous and After the reception the newly

wedded pair were driven to the Dufferin hotel. They leave this morning on a honeymoon trip to P. E. Island. The Sun joins their hosts of friends in wishing Mr. and Mrs. Peck a long and happy life. Charles M. Frost of Lower Norton and Miss Currie, daughter of the late Geo. W. Currie of St. John, but for several years residing with her sister.

Mrs. Geo. E. Frost of Hampton, were united in marriage at the residence of Geo. E. Frost, Hampton station, on Tuesday, 18th inst. The ceremony was performed by the Rev. Samuel Howard. Only the immediate relatives of contracting parties were present. The boys of the town indulged in an

A Bristol, Westmorland Co., corres

pondent writes: A very pretty wed-ding took place in the Methodist church at Bristol, Westmorland Co., on Wednesday morning, the 19th inst., in which the principals were Dr. S. W. Burgess, formerly of Sussex and Miss Josephine O. Avard, daughter of Charles F. Avard, merchant, of that place. The bridesmaids were Miss Lide Thompson of Oxford, N. S., and Miss Louise Hewson of the same place. J. M. McIntyre of Sussex supported the groom. The ceremony was performed by Rev. C. W. Hamilton of Bayfield. Howard J. and Angus M. Avard acted as ushers. The church was prettily decorated with ferns and flowers, provided by the choir, of which the bride is organist. The bride, who was given away by her father, was dressed in white silk embroidered crepon, trimmed with Maltese lace and satin ribbon, with tulle veil and orange blossoms. Miss Thompson wore pale pink crepon, trimmed with satin and point lace. Miss Hewson was attired in a gown of cream cashmere clergyman. Mr. and Mrs. Ewing will and lace. Both bride and bride maids carried handsome bouquets of maiden hair tern, roses, and carnations, selected by H. E. Goold, florist, of Sussex, and presented by the groom. After the ceremony the party was driven to the residence of the bride's father, from where, after breakfast was served, the bride and groom, accompanied by a number of their friends, drove to Shediac, taking the C. P. R. for St. John and points west. The wedding presents were very num-erous, and evidenced the popularity of the happy couple. Among them may be mentioned a gold watch from the groom; silver tea service from the bride's parents; silver ice pitcher from the members of the Methodist choir. marble clock from the groomsman embroidered silk handkerchief from Miss Thompson; oil painting from Miss Hewson; silver salver, J. F. Avard; silver fruit dish and spoon, Mr. and Mrs. H. M. Parlee; one dozen sterling silver spoons, W. T. Burgess; hanging lamp, Mr. and Mrs. T. R. Burgess toilet mat, Miss F. K. Burgess; silver fruit spoon, Miss Ethel Burgess; silver fruit dish and spoon, Mr. and Mrs. B. J. Burgess; silver ice pitcher and gob

let, G. P. Burgess; \$10 gold piece, M. Rufus F. Black; \$5 gold piece, H. E. Black; \$5 gold piece, Hazen Copp and Miss Copp; doz. silver forks, A. S. Black; embroidered table centre, Mrs. Henry Cochrane; oak clock, A. B. Mc-Leod; silver sugar spoon, Miss E. M. Black; antique oak rocker, Geo. Hewson; fire screen, Harvey Hewson; chair, from members Court Shemogue, I. O. F. Dr. and Mrs. Burgess have the best wishes of the people of Bristol and vicinity for their future. They will reside here on

their return.

Stanley, June 17.—The most brilliant and fashionable wedding ever seen in was solemnized in Stanley Thomas' Episcopal church on Wednesday, the 12th inst., at 3.30 o'clock, by the rector, Rev. A. Bloomleld Murray St. John in July. Twelve members of The contracting parties were Charles T. Munroe of Milford, Maine, and Miss Etta B. Turnbull, daughter of Harry B. Turnbull of Stanley. The bride was attended by Miss Violet Beveridge of Andover, while Levi McDiarmid of Stanley supported the groom. The bride was beautifully attired in a dress of cream cashmere, with trimmings of cream silk and lace, and carried a bouquet of cream roses and smilax. The bridesmaid wore a dress of pink crepon, with satin ribbon trimmings, and carried a bouquet of pink roses. As the bridal party entered the church, the choir sang "The voice that breathed o'er Eden. The recep-

The bride was a member of the choir of St. Thomas' church. The large edifice was packed to the doors, show ing the high esteem in which she was held by the people of Stanley. The following is a list of the presents: Silver tea service, silver ice pitcher and goblet, silver bread plate, plush parlor suite, easy chair, 1-2 doz. silver knives, silver caster, silver butter dish, knife and sugar shell, berry dish, water sett, silver pickle dish, coffee pot, tea pot, pit stand, prayer book and hymnal, 1-4 doz. tumblers, 1-4 doz. handkerchiefs, glass water set, fancy table, potted palm, platform rocker, easy chair, sofa, book of poems, silver tray, silver vegetable dish, silver scallo dih, silver cake basket, silver card stand, silver tray, silver and oak biscuit jar, 1-2 doz. silver fruit knives, silver sugar shell (gold lined), silver butter knife and sugar shell, breakfast castor, carving set, 1 doz. glass berry dishes, linen table centre (hand embroidered), linen towels, bottle perfume, chocolate pot, Japanese water pot, handsome picture, sideboard cover, 1-2 doz. silver coffee spoons, 1-2 doz. silver tea spoons, strawberry set, silver candlestick, sofa hymnal in case, wool tack, table, runners and d'oylies, silver pin, tray, silver pepper and salt, glass celery dish parlor lamp, linen table centre (hand embroidered), pillow shams, ribbon tidy, silver spoon holder, silver spoon holder and pickle dish, 1-2 doz. silver spoon, carving set, five o'clock silver sugar and cream, two silver napkin rings, silver pepper and salt, lace pillow shams, pillow cases, bedroom lamp, A very pretty but quiet wedding took

place Wednesday , when the nuptials of H. H. McDougall, accountant of the agency of the Merchants' Bank of Halifax, at Sydney, and Miss Effic Putnam, daughter of Alfred Putnam, M. P. for Hants, were celebrated at residence of the bride's father Maitland in the presence of immediate friends. The wedding was very quiet on account of the continued illness of the bride's brother-Frank Putnam. The ceremony was performed by the Rev. T. C. Jack of Maitland. The bride looked exceedingly handsome, and was elaborately gowned in white corded silk and carried a magnificent bouquet of roses and carnations .She was attended by Miss Bessie Sadler of St. John , who was charmingly attired, and also carried a beautiful bouquet of similar flowers. Harry McDougall of the post office department, Truro, acted as groomsman. The happy couple will spend a few weeks visiting in different parts of the province and will then take up their residence at Sydney .-

Halifax Mail. There was quite a gathering of the friends of the contracting parties at the residence of Capt. OF INTEREST TO ACTIVE MILITIA-MEN.

Members of the active militia may be pleased to know that under act of as-sembly, passed last session, 58th Victoria, cap. 36., p. 97, they will in future (if they so desire) be excused from serving as jurors. A member of the active militia desiring to be so excused must file with the sheriff of the county where he resides, first, a notice stating that the undersigned is a member of the active militia and claims exemption from serving on juries for twelve months; second, he must file with the sheriff a certificate from his commanding officer stating that he is a member of the corps. Such notice and certificate must be served upon the sheriff at least seven days before the opening of the court.

LATEST ON HAY.

Latest cable advices from London, Eng., says the Trade Bulletin, report an improvement in the hay trade, No. 2 Canadian having advanced 2s. per ton, sales being reported there at 65s. c.i.f. From private and public advices just received, the hay crop in many of the most important sections of the Western States will be a great failure, the damage being of a most serious character. In a number of sections in Ontario reports say there will not be more than half a crop. Should the shortage in the Western and New England states and Ontario be as much as predicted, the outlook for the large and fine crop in Quebec province will be very good.

DRESS REFORM.

(Christian at Work.) (Christian at Work.)

It is suggested that a good plan by which to gradually and effectually overcome the prejudice against short skirts would be to pass a law making it necessary for every lady to reduce the length of her dress one inch each year.

We would propose as an amendment: Section 2.—That any lady who had faithfully complied with the law for thirty years should be exempt from any further requirements under this statute.

Short sentences drawn from long experience.—Cervantes.

ST. JOHN, N. B., JUNE 26, 1895.

THE LATE SENATOR BURNS

It has been known for some time that the health of the late Senator Burns was in a somewhat precarious state, but the news of his death nevertheless comes with the force of a shock. He was but 58 years of age, and a man of his apparently strong constitution might reasonably have been expected to enjoy many more years of life. His death will be regarded as a public loss, for he was a man engaged in active business life, and as a public man his ability and large legislative experience made his services valuable. He has been in the thick of many political battles, and no doubt made strong political enemies, but the most bitter of these will pay tribute to the sincerity of the man, and acknowledge that he has rendered good service to his country. He has been for the greater part of the last twenty years in active political life, and exhibited a lively and intelligent interest in the public affairs of the country. But his death will be most deeply mourned in the town and county where he was for years the head of an extensive industry, and by the public whom, as a representative in parliament, he served ably and well. The county of Gloucester has received many benefits at his hands. Senator Burns began life in an humble way, and had achieved a large measure of personal success. It is a matter of sincere and universal regret that ne should thus be cut off while yet in his

SENATOR BAIRD.

Hon, Geo. T. Baird, whose appointment to the senate was announced last week, is still under fifty years of age, having been born in 1847. He is a native of Andover, Victoria county, and has been identified with the pub-No affairs of that county and the province for over a dozen years. Mr. Baird is of Scottish descent. He began his life as a teacher, but abandoned that profession to enter mercantile life. He has carried on for a good many years an extensive business at Perth Centre, being interested in the lumber industry as well as the business of a general merchant. Mr. Baird was elected to provincial assembly in 1884, having been unsuccessful in the election two years before He sat in the house till 1890, when h was defeated in the election of that year, but in 1891 was appointed to the legislative council. After that lody had ceased to exist he was elected to represent his county in the embly, and now resigns that seat to enter the wider field of dominion affairs. Senator Baird is not a man who will weary the senate or the country with long speeches. He is a clear headed business man of excellent personal reputation.

#### A GREAT PRODUCER.

According to the South American Journal the value of live cattle and sheep exported from Argentina last year amounted to £1,000,000, and this year it is expected to be 50 per cent. more As the country possesses about 30,000,000 cattle and 90,000,000 sheep, with only five million inhabitants, its export resources are enormous. It is said that bullocks giving 700 pounds per carcass can be delivered in London to sell at £12 a head with profit. Great areas of alfalfa are being laid out to fatten cattle, and the best breeds are being produced. It is therefore suggestad that great as the sensation caused by the expansion of Argentine wheat growing has been, that of meat production will probably be greater. Over against this, however , must be placed the statement recently cabled from England that South American cattle do not give complete satisfaction in that market. There seems no good reason though why any present difficulties should not be overcome. As a producer of wheat, corn, cattle and sheep the great republic of the south seems destined to play an important part in the supply of the world's markets.

#### THE TOBACCO HABIT.

The revenue derived by the United States from tobacco alone in 1894 was \$28,617,898.62. This amount is \$3,271,-813.12 less than the figures for the previous year. The Boston Standard says the burned-up, chewed-up and snuffedup amount of tobacco last year was 244,000,000 pounds, or nearly five pounds for every man, woman and child in the country. The production of snuff during 1894 amounted to 11,627,092 pounds. The actual revenue received from the various varieties of tobacco was as follows: Chewing and smoking, \$14,127,- ly's prompt treatment. It is in view 108.31; snuff, \$697,625.52; cigars and cheroots, \$12,200,752.30; cigarettes, \$1,-502,412.49. The actual number of cigars, etc., is as follows: Cigars and cheroots, 4,066,917,433; cigarettes, 3,157,101,581-a total of 7,254,619,014. If, says the Standard, we estimate the smoking population at 10,000,000 the foregoing quantit- ages, a cynical United States paper obies allew 725 cigars and cigarettes per capita for the year, leaving out of out \$40,000 to Laidlaw he will almost count the amount of tobacco consumed regret that the latter shielded him in pipes and cigarettes rolled by indi- from the dynamite bomb."

vidual smokers. Only 2,247,055 cigars OUR BOSTON LETTER. were exported, while 35,358,690 were imported. Of cigarettes 401,605,300 were exported and only 3,318,451 imported.

BRITISH POLITICS

The Rosebery government will be chiefly distinguished in history for what it failed to accomplish. The ambitious programme of Irish home rule and the abolition or reconstruction of the house of lords has not been carried out. It is to the credit of Lord Rosebery that he did not depart materially from the firm foreign policy of his predecessor. His tenure of office could hardly have been a source of satisfaction to himself. Beset by wrangling factions in his own party, as well as by a vigorous and wary opposition, and, if rumor is correct, a good deal concerned about his own health, he will probably relinquish the seals of office without any grea measure of regret. It has been a hard, uphill fight for a long time past, The return of Lord Salisbury to the leadership of the government is a guarantee that Britain's interest abroad will continue to be well guarded, while there is no reason to sup pose that his home policy, when an nounced, will not be sufficiently lib eral to win the unquestioned support of the country at large

INTERNATIONAL AFFAIRS

If a banquet speech may be taken seriously the remarks of the Emperor of Germany at Kiel this week are significant of peace. He is reported to have said: "The iron armored might which is assembled in Kiel harbor should at the same time serve as a symbol of peace, and of the co-opera tion of all European civilized peoples to the advancement and maintenance of Europe's mission of civilization. We have cast a glance upon the eternal sea. Let us now direct our looks to the sea of the people's hearts. All nations uplift themselves to us here today with a questioning look. They need and desire peace. In peace alone can the world's commerce expand. In peace alone can it thrive, and peace we shall and will uphold."

Despite the emperor's remarks, however, and the courtesies exchanged by German and French officers, the great occasion has not been without some suggestive reminders of the bitterness with which the French people regard any success that may be achieved by

NEW YORTOG SHIP CANAL.

Of the Harlem ship canal fust opened, which joins the East and Hudson rivers by deepening and widening the natural water courses along its route, and which will be of great commercial value to New York, a journal of that city says: "This canal is four hundred feet wide and fifteen feet deep, so that are being ruined for want of rain, and it will be available as a short-cut for all vessels of moderate draught, such as navigate the Sound. The distance raversed by the canal diagonally across the island is about five miles, past few days. so that it gives the city ten miles additional wharfage and water front. but the continued dry weather is keep-It is crossed by a fine drawbridge of steel, replacing the old historic King's railroad bridges, all of which have had to be constructed at special elevations. A cut eighty-five feet deep through the marble rock is another feature complicating the engineering problems of this monumental work, which cost the ofty upwards of twenty millions. It has been in actual construction for nearly a decade past."

#### HORSES AND HORSE MEAT.

A correspondent of the Country Gentleman expresses the opinion that horses will bring higher prices a few years hence than they do now. There are two reasons given. One is that horse breeders are doing less business and there is not one colt raised now to five a few years ago. The second reason is worth quoting in full. It is as follows: "Our market for horses in the west is receiving an impetus by reason of large numbers now being killed, canned and shipped for food-one establishment alone consuming 100 horses a day. In other places this is also done. The authorities of one Michigan city recently discovered that from two to six horses were being slaughtered every night, the meat salted and dried, then shipped to Chicago as cow beef."

Washington is mildly excited over the appearance of Dr. O'Reilly as President Cleveland's travelling companion on every journey away from the capital. It is known that last November Mr. Cleveland had a rheumatic attack which threatened his heart and might have ended fatally but for Dr. O'Reilof the danger of a recurrence of the attack that the president keeps his trusted physician constantly by his side.

Alluding to the verdict against Russell Sage in the recent suit for damserves: "If Russell Sage has to shell

Preparations for the Great Christian Endeavor Convention

Two Lower Province Men Held for Murder-The Crop Outlook

Travel Will Boom-Better Prices for Spruc Lumber-Fish Trade More Active.

(Special correspondence of the Sun.) Boston, June 22.—Boston is very busy just now getting ready for the big Endeavor convention, which assembles here July 9. It is not very often that Boston is called upon to entertain 60,000 visitors, and their arrival necessitates considerable preparation. The Christian Endeavor officials expect at least 150 delegates from the maritime provinces. As before stated, the delegates from the Maritime union will be assigned to headquarters at the Phillips Congregational church, South Boston. All delegates from the union E. badges. All parts of the world will be represented at the convention the entire city will be decorated for the occasion. Among other things which the hub of the universe will provide will be plenty of scorching

At the present time there are two men behind prison bars awaiting trial for murder committed in this city, who came from the lower provinces. Angus D. Gilbert, whose relatives reside at Musquodoboit, Halifax county, will be placed on trial in the superior criminal court here on a charge of murdering little Alice Sterling, a seven-year-old Dorchester girl, whose body was four buried in a manure pit two months ago. The evidence is very strong against Gilbert, and expert testimo will be introduced in regard to his The trial begins on Monday. sanity. William V. Ricker, a man about forty years old, is the second provincialist waiting trial on a charge of murder. He is a native of Dawson Settlement Albert county, and is a son of the late William Ricker of that place. He left home a number of years ago and has resided here for some time. He is charged with killing his father-in-law. John Cuniff, sixty years old, at their home in the Roxbury district of Bos ton, four weeks ago. There is much sympathy for Ricker, as his father-inlaw was of a quarrelsome disposition, and had aggravated his son-in-law beyond endurance before the latter is alleged to have committed the fatal deed. Ricker will put in the plea of self-defense, as there is evidence that Cuniff assaulted him first. Cuniff's death was caused by a stab in the neck from a jack-knife, which it is alleged Ricker held in his hand during a Ricker was the under man when the stabbing was done. The latter's little children were within a few feet of the men and were covered with The house was also badly wrecked in the melee and Ricker's

Rickers. The farmers of the New England states are complaining that their crops that the present outlook is very unfavorable for a heavy hay crop. The central and southern portions are effected most, the northern section hav- quarter oils, \$3; three-quarter mustbadly, and it is feared the yield will be small. The grass started in well, ing it stunted and backward.

The Canadian Pacific railroad office Bridge. There are also two or three in this city has received very encour-Canadian Northwest. It is stated that Manitoba will have the biggest wheat crop eve known in the prairie province. The best of all, however, is the general opinion that prices will be nearly double those of last year. Crop reports from the western states are generally encouraging, although in some sections they are not up to the average. This is especially true of the states within

The new tariff which was agreed upon by the transportation companie doing business between Boston and the provinces seems to be working well, nad as yet there have only been a few minor complaints. Next week travel will increase perceptibly, and for the next two or three months the different lines expect to have as much traffic as they can handle without inconvenience ing passengers. The international con vention of the Independent Order of Good Templars, which opens here next week, will be the first of many big conventions to be held here during the hot weather, and from these alon the companies expect a big traffic, which, of course, means increased dividends

St. John, Fredericton, Digby, Annapo lis and other provincial hotels have put into effect an admirable idea of advertising in this city. One of the Boston dailies is carrying a large num ber of "ads" from provincial hotel proprietors, and the experiment should not prove as seed sown on barren The Maine hotels have advertised for years in the Boston and New York papers, and possibly that is on reason why many of them grow rich in a short time, although tourists who have stopped off in Maine know ho often they have been outrageously One of the greatest sur-'soaked." orises that a tourist meets in his travels eastward is the difference in Maine and New Brunswick hotel

rates William A. Murray of St. John an Miss Margaret A. Flaherty of Portland were married Wednesday evening the latter city. The knot was tied by Rev. Fr. Jas. Malone of St. Dominic'

It may be interesting to Sun reader to know that Captain Charles E. Calkins, the retired sea captain of Malden who refused to haul down the Uni-Jack last Sunday when ordered to do so by two naturalized Americans, is a I thought you had a permane native of the lower provinces. pathing near Orient Heights, East Bos-

The general trade in the lumber mar-The general trade in the tank of spruce is steady, with all kinds of spruce moving well. Building operations continue to improve and the dealers are better satisfied. The only complaint of the found wholesalers at present is note from wholesalers at present is the report that retail dealers show too much inclination to cut prices to mar-gins so small that they hurt themselves and everybody else. Spruce cargoes are bringing better prices ,owing to the strong condition of the New York market. Immense quantities of lumber have been received from St. John and other ports in the maritime provinces this month. Shingles and laths are in quiet demand, while clapboards are stronger. Pine is quiet and hemlock still moving steadily. Prices follow:

Cargo lumber-Spruce plank, 2x8 inches and up, \$13 to 13.75; random cargoes ,\$12.50 to 13.25; spruce boards, seven inches and upwards, \$12.50 to 13.25; flor boards, clears, \$17 to 18; second clears, \$15 to 16; coarse floor boards, \$10.50 to 11; rough hemlock boards, \$9.50 to 10: do planed, \$10.50 to 11; spruce

laths, \$1.90 to 2; shingles, \$1.50 Car lumber-Spruce frames, ten inches and under, ordered by car, \$15; random, ordered ,\$14; yard orders cut to lengths, \$15; 12-inch frames, \$16; inch frames, \$18; matched boards, 6, 7 and 9 inches, clipped, \$14; spruce boards, eight inches and up, width, \$14.50, 1 1-2 inch laths, \$2.25 per 1,000; 1 5-8 inch, \$2.40; 4 foot extra spruce clapboards, \$32; clear, \$30; secnd clear, \$25.

Pine-Eastern pine, coarse No 2, \$16 to 17: refuse, \$12 to 13: outs, \$8.50 to 9.50: ough edge stock, box boards, etc, \$9 to 12.50; extra pine sap clapboards, \$45 o 48; clear sap, \$35 to 40.

Hemlock, etc-Eastern planed and butted hemlock boards ,\$12 to 12.50; random do, \$11.50; extra standard cedar shingles, \$2.90 to 3; clears, \$2.50; second clear, \$1.90 to 2; No 1, \$1.50; extra No 1. \$1.75.

The fish trade has been rather more active of late, the position of mackerel being much stronger. Prices have advanced \$1 and \$2 out of vessel. supply is still limited, although arrivals of fresh fish have been somewhat freer. Only 1102 barrels of salt mackerel from New England waters have been put on the market this year. Much of the supply has been shipped from the provinces and some from Ireland. The position of codfish is quiet. Fresh fish are higher in price, owing to small arrivals. Fresh live lobsters are in small supply and canned fish are firm.

Fresh fish-Market cod, \$3.50 to 4 per 100 lbs; large cod, \$4.50 to 4.75; steak cod, \$7 to \$7.50; haddock, \$2 to 4; large hake, \$1.50 to 2; small, \$1 to 1.50; pollock. \$1.50 to 1.75; steak pollock, \$2.50 to 2.75; eastern salmon, 10 to 12c; Oregon salmon, 10c; white halibut, 10c: gray, 9c; chicken do, 8 to 9c; fresh ckerel, large, 11 to 12c; medium, 8 to 9c; small, 7c; roe shad, 17 to 19c; buck, 8 to ^- bluefish, 6 to 8c, as to quality; butterfish, 5c; live lobsters, 10c; Salt fish-Provincial macket

16; No 2, \$14.50 to \$15; tras, \$18; No 3, \$12; large George's cod, \$4.75 per wife was badly used up. All concerner qtl; medium, \$3.50; large dry bank cod, ed were well-to-do. The quarrel re- \$4.50; medium, \$3.50; medium pickled sulted over an overdue board bill bank, \$2.75; large do, \$3.25; hake, hadwhich it was said Cuniff owed the dock and pollock, \$1.50; medium scaled box herring, 8c: No 1, 7c: lengthwise, bbl; large Scateree, \$7; Labrador her-ring, \$5.50; Bay Shore, \$3; round shore, \$2.75; Newfoundland salmon, No 1, \$20 to 22; No 2, \$18 to 19.

Canned fish-American sardines (new) Cherries have blasted \$1.85 to 1.95; lower grades, \$1.50 to 1.60; Columbia river salmon, \$1.75; Alaska, \$1.20 to 1.25.

GRAND MANAN.

A Boy's Skull Fractured-The Latest Fishing News-Personal Notes.

Grand Manan, June 22 .- On the 15th inst Freddie, a little son of Leonard Foster of Grand Harbor, while in the pasture where Rev. W. S. Covert's norse was feeding received a kick from the horse which crushed in a part of the skull over the left eye, so that Drs. Jack and Lawson, when called in, extracted several pieces of broken bone in the skull to the brain about the size of a man's thumb nail. The right side of the face was badly bruised, but not crushed as n the left side, and there is fracture of the skull there. The little fellow is doing as well as can be

expected Isaac Newton has a gang of men at work on the outlet at Dark Harbor pond removing the large quantity of beach rocks that the gales of last winter carried into it. They have been at work two weeks now and will be at work two weeks more; and will have removed many hundreds of tons of stones from the outlet in that time. Lobster fishing is about done here The fishermen are now taking up their traps and most of them are engaged in repairing old weirs and building new

SENATOR BURNS DEAD. VETERINARY

One of New Brunswick's Best Known Men Passes Away.

Death Was Caused by Inflammation of the Lining of the Heart.

The Career of an Able North Shore Man Suddenly Brought to a Clese.

Bathurst, June 23.—Senator Burns died somewhat suddenly this afternoon at five o'clock. He returned from a trip to England a few weeks ago feeling unwell; but his illness was not Last spring Senator Burns had an

attack of influenza. Four weeks ago he was taken with inflammation of the lining of the heart.

(Kennedy F. Burns was born on January 8th, 1842, at Thomastown, in the county of Tipperery, Ireland. His mother was a native of Ireland, but his father, was born at St. John ,the future senator's grandfather being at that time in the British service here. The education of Kennedy F. Burns was begun in Irelnad, and on his being ought to this country was continued at St. Mary's college, Halifax, and at the Roman Catholic schools in this city. The young man began his busine career as a clerk in St. John and afterwards with John Burke in Chat ham. In 1861 he removed to Bathurst to open up a branch of the establishment of Mr. Burke in that place. Two years later he bought it out. In 1864 he married Harriet, daughter of John Mo Kenna of Bathurst.

In 1878 he and his brother, P. J. Burns, and his brother-in-law, Samuel Adams, formed the company of Burns, Adams & Co., which was dissolved in 1880. The business was continued under the name of K. F. Burns & Co. until the St. Lawrence Lumber Co. was organized with Mr. Burns as managing director. This company, as the public will remember, became embarrassed and on liquidation Mr. Burns was appointed to wind up its affairs. eased gentleman entered public life in 1874, when he was returned to represent Gloucester in the provincial legislature as an opponent of the free school system. He sat in the house four ears, and won the reputation of a diligent and intelligent member. In 1882 was elected a member of the dominion commons and was re-elected in 1887 and 1891, being later appointed to the senate. Sénator Burns was a man of great business capacity and energy. and has done much to advance the in terests of the county he so long and ably represented. The great lumbering industry of which he was at the head gave employment to a large community. He was the steadfast promot er of the Caraquet railway, and in parament looked closely after the interests of his constituents.

To a representative of this paper last year Senator Burns said that he had spent \$65,000 on the Caraquet railway in operating expenses, over and above it had paid expenses the previous year nobody but himself and the hondholders. It had built up an important traffic and had done much to aid in

developing the country along its route. The New Brunswick property of the St. Lawrence Lumber Co., of which Mr. Burns was manager, comprised 300 square miles of timber lands, with mills at Bathurst and Burnsville, cutting about 12,000,000 feet of logs each season. The company had extensive stores at Bathurst ,and its operations were o vast importance to the people of that section. As is well known the same company had very extensive and valuable lumber property on the St. Lawrence, with headquarters at Bersimus where the mill is located.

Senator Burns did much as a repre sentative to bring about the improve ment of the coast service of Gloucester in the matter of lights and notably the breakwater at Shippegan, which has been of very great value to the large fleet of fishing vessels along that shore. The death of Senator Burns will be deeply regretted by the people among whom he has lived and been so long a leading figure. He was a man of strong views and never hesitated to express them.

Senator Burns had a handsome residence in Bathurst, where he and his family dispersed a genial hospitality. for the senator was a man of generous and kindly instincts. For the bereaved family the most profound sympathy will be feit.

#### KINGS CO.

Millstream, June 21.-The residence of Abraham Northrup presented a cheerful aspect on the evening of the 21st, it being the anniversary of their mariage. About seventy-five were resent and enjoyed themselves with dancing, games, etc. There being not enough room in the house, the barn was cleared out and the dancing was carried on there. They received many useful presents.

The Patrons of Industry met at Berwick last night and initiated Mrs. D. Sharp. An interesting programm was carried out by Bros. E. Fenwick and James Smith and Sisters Good and Sewell. They discussed the advisability of maintaining British connection. Bro. Smith giving an intersting speech on the subject.

On Tuesday last the roads wer invely with horses going out to be exmined for the coming drill. A great namy volunteers half from this sec Mrs. B. A. Keith, the wife of our genial postmaster, on Tuesday last presented her husband with bouncing boy.

DEPARTMENT. Conducted By J. W. Manchester,

The Weekly Sun takes pleasure in notifying its readers that it has ner fected arrangements with J. W. Manchester, V. S., whereby all questions with respect to diseases of the lower animals will be answered by him, and treatment prescribed in those cases where it is asked for through the columns of The Sun.

V. S. St. John, N. B.

All enquiries must be addressed: VETERINARY DEPARTMENT, Weekly Sun, St. John, N. B.

J. K .- A draft mare eight years old that has looked well and worked steady, all spring took suddenly lame in left hind leg. Was well on Saturday night and Monday morning leg was very much swelled and very painful to the touch. She is swelled from the foot to the body. Has she strained herself, and if so, what is the proper treatment? Ans.—The trouble with your horse is known to veterinarians as lymphang itis, or inflammation of the lymphatic vessels, practically due to too much feed and too little work. Bathe leg well daily with warm water and hand rub well. Give as a purgative the following: Aloes barb, pulv, one ounce; soda, bi-carb, four drams; mix with pint of oil and give as a drench; also give daily for several days half ounce of potash nitrate. Give plenty of exercise and follow with general tonic medicine.

P. C .- Your question as to veterinary liniment is scarcely permissive in this department. Must refer you to advertising columns of The Su

John P.-I have a horse eight years old. He got caught in a wire fence and tore his hind legs badly, one cut across the gamble joint being very

deep, Kindly advise me.

Ans.—Cleanse the wounds daily with warm water and castile soap, then dress with lotion ,carbolic acid one part; water, forty parts; also use daily a lotion of boracic acid and water. Use a saturated solution, that is, as much boracic as the water will dissolve. It will be slow in healing owing to motion of joint, and will probably leave a scar

R. M.-Will von please answer folowing questions: 1st, Does the horn fly cause much loss to the farmer? 2nd. Is Boutler's Horn-fly remedy a good thing? 3rd, Is ground linseed meal good for calves?

Ans -1st, The loss caused her the horn-fly is simply enormous; 2nd, one of the best I know of; 3rd, a very useful food if scalded and given in small quantities.

P. E. ISLAND

Little York, June 17.-A sad event took place here last night, when Henry Smith, a respected Methodist local preacher and a resident of Charlottetown, died in his carriage. ad left home, and had preached at Pleasant Grove in the morning, and at Stanhope in the afternoon, and was on his way home when the end came. He was accompanied by Miss Racknam, also of Charlottetown, and while driving on the York road complained of not feeling well, and said that he wished he was home. Miss Rackham went into the house of Mrs. Cooke. and said that Mr. Smith was il. but before anyone could reach the carriage, he was dead. The remains were taken into Mrs. Cooke's house and Dr. Jenkins was sent for and nounced the cause of the death to be heart failure. Mr. Smith had been unwell for some time, but had said yesterday that he never felt better in his life. The deceased leaves a sorrowing widow, but no children. He was a son of the late Isaac Smith of New Brunswick, who was also an honored local preacher.

Montague, June 16.-Mr. Daley and Messrs. Hughes, two brothers, frowned while ovster picking in Orwell river two days ago. brothers were found in each other's embrace. Mr. Daley was specially well known, having taught school at Georgetown some years ago. He leaves a sorrowing wife and six children. The other young men were unmarried.

Henry Moore of Sturgeon died yes-terday. He had been ailing for several months. He bore an excellent character. His aged parents and wife (he does not leave any family) have the fullest sympathy of the whole community.

Rev. W. Lawson had a reception and baptism again last Sunday at Montague and Sturgeon. Rev. D. W. Scott had a very nar-

row escape from death by a smash-up and run away last Tuesday. His gig went to pieces, but he came out of the shake-up with a few scratches. A week ago a cow belonging to G. Whiteman was found in a yard near

by his residence with its back cloven by an axe. The back was also cut at the tail by the same instrument. The whole community trusts that the demon or demons will be found out. demon or demons will be round out.

Pownal, June 21.—The new cheese factory in this vicinity is doing good work under the efficient management of T. Wallace of Ontario. Last Monday it received more than

Ontario. Last Monday it received more than ten thousand pounds of milk.

The cellar and foundation of the new Baptist church at Alexandria was completed last Tuesday, and the frame will all be up this week. It is to be a modern church, with spire, furnace and basement vestry. Brehent and Judson are the contractors.

Wednesday, June 19th, James Sentinel and Miss Hannah McGregor, his housekeeper, were united in marriage by Rev. Mr. Turner. The marriage took place at the home of Alfred Brehant at Villagegreen. Thursday, evening, the 20th inst., Pownal was again thrown into a happy excitement by the tinkling of marriage belis. This time the happy thrown into a happy excitement by the tink ling of marriage bells. This time the happy pair were Aron Ings and Mrs. James McRas. The wedding took place at the home of Mrs. McRas at Pownal wharf. The room of Mrs. McRae at Pownal wharf. The room where the ceremony was performed was handsomely decorated with ferns and flowers. The bride was dressed in garnet trimmed with cream silk, and Miss Minnie Noye, the bridesmald, wore a heliotrope dress. The groom was supported by Fred McRae. About seventy persons were present, and a very pleasant evening was enjoyed. The presents were many and valuable. Rev. Mr. Turner tied the nubtial knot and left immediately after for Marysville, N. B., to attend the Methodist conference. Mr. Turner is very nopular at Pownal. popular at Pownal

Fred Blair, organist of the Presby-terian church, has been granted a year's leave of absence, to take effect about the first of August. Mr. Blair intends pursuing his studies in music for one year in London, and will sail for England about the first of September.-Moncton Times.

Rockport was the scene of a big conflagration Tuesday morning, says the Moncton Leader. Barnes' mill , which has been sawing at Frank Maxwell's brow, was burned, together with about 150,000 feet of deals and boards. Barnes' loss will be about \$2,000; Mr. Maxwell's in the vicinity of \$1,500.

Despite the complaints being made by farmers throughout this province about the dry weather and the dis-couraging outlook for crops, a report received Saturday from the Annapolis valley stated that the gain, hay, root and apple crops were looking well; no one had been heard complaining.

J. & P. McDonald of the Country market have purchased a large number of fat cattle from Sackville par ties of late. They got twenty head from Joseph L. Black, which have been received. Edward King sold ten head to them. Sixty-four animals were purchased by them from Charles Fawcett, forty-two of which arrived

The schooner Clara P. Sewall of Houcester arrived at Boston Wednesday with her flag flying at half-mast. When 15 miles southeast of Cape Sable last Friday, a thick fog came up, and two of the crew, Burton Stoddard of Wood's Harbor, N. S., and Vincent Doyle of Roxbury were sent out in a dory to look for their trawls. The dory disappeared in the fog and has not since been seen.

Thos. Wolfe, aged 18 years, a son of William Wolfe of Gooseberry Cove, a few miles below. Musquash, was drowned not far from his home on Wednesday. Young Wolfe was en-gaged lobster fising and late in the day his boat was found, but no trace could be discovered of the young man. The body had not been recovered last evening. He was a promising young fellow.

The Havelock Mineral Springs company will begin the erection of a new factory today. It will be remembered that this company was put out of business by fire some time ago. They will not build large at present, There is some talk of the owner of the E.P. & H. railroad, an Englishman, purchasing the springs. In case he does, the waters will be boomed for all they

Court Petitoodiac, No. 94. I. O. F. celebrated their anniversary on Sun-day, the 16th inst. They marched in procession to the Baptist church, Petitcodiac, where a most eloquent and impressive sermon was preached by the pastor, Rev. A. F. Brown, who is high court chaplain. The court was fully represented, and many people were unable to gain admittance to

Of the Cocagne cheese factory a correspondent says: "It may be stated that the factory, which has been in operation since the 4th of June, re-ceives at present 4,000 lbs. of milk per day and is steadily increasing. may remark that there were many new patrons this morning, and we feel safe in saying that before the end of the present month the quantity of milk will reach 5,000 lbs. per

Jose Celo Rodrigeur, a native of Coruna, and belonging to the steamer Saturnina, was drowned in the harbor yesterday afternoon. He was standing on a scow at the stern of the steamer, painting, when he was struck by a deal and knocked into the water. A boat was immediately put out, but the Spaniard never came to the surface after touching the water. No blame could be attached to any one for the accident.

The four young chaps who were wanted at Moncton on the charge of breaking and entering have been captured. Budd, Goldrup and Watson were arrested at Moncton and on

The Reformed Baptists of New Brunswick will hold a convention on the Beulah grounds, Long Reach, beinning June 30. The meeting will continue ten days. Arrangements are being made to take care of a large number of visitors. The terms are very moderate. The services will be made as interesting as possible. The boats will run special trips to the grounds and tickets will greatly reduced rates.

There was a very pretty yacht in the Market slip last week. which was built at Harborville She was built by Capt, Morris, who is also owner, is sloop rigged and has quite a large cockpit. Her model follows on the lines of a big vessel; in fact, she is a miniature ship so far as the hull is concerned. She is not a yet fully rigged. The sloop sails remarkably well, and can be used either as a trader or for pleasure.

Mrs. W. W. Blackmer and family, Victoria street left Wednesday morning for Fredericton, N. B., where they will make their future home. Mrs. Blackmer has sons now in business in the celestial city. A daughter, Miss Minine, who has been for a year the industrious and obliging bookkeeper in W. H. Snook & Co.'s, has resigned her position and also left with the family. The News wishes all a pleasant home in the most delightful city in New Brunswick.-Truro News.

The Algonquin, St. Andrews, is finished and is to be opened July 1st. Fifty guests' rooms have been added also a large dining room 44 x 84, which will seat three hundred people. The hotel has now accommodation for over 300 guests besides rooms for their help. Mr. Millar, the manager, takes charge on Tuesday. James Hunter of Princess street has finished the electric work, having run ten thousand feet of wire and placed a sixty room accomodation in the office.

Aroostook Junction letter the Woodstock Dispatch "The farmers are through eeding except a few who have not yet finished their buckwheat. The acreage of potatoes planted was hardly as large as last year, Mr.Gianthan being to the front with nine acres. Ed. Houghton of Fort Fairfield has 100 acres planted all in one field This is claimed to be the largest field of potatoes in New England, if not in whole world. Hay will, perhaps be half a crop here; grain is coming

A few days since Constable William McLeod of Sussex arrested at Waterford, a man who said his name was loseph Howard, but who went unde the name of Joseph White at Waterford on suspicion of having entered the house of 'Squire Keator at Nauwigewauk and stolen therefrom \$24 The prisoner was taken before 'Squire Darling, but it could not be proven that he was the guilty party. Still it is thought that evidence can be adduced to fix the guilt on him. In the meantime he has been let loose again on his own recognizance.

Campbell v. Cotter was be-fore a jury in the circuit court on Thursday. The suit is to recover damages for the destruction of plaintiff's dog, which was caught in a trap set by defendant and shot by him. The defendant denies liability and also justifies under the act for the protection of sheep and cattle from dogs. He claims that his sheep had

been worried by dogs and that he set traps to protect his property.

The case was finished and resulted in a verdict for defendant. R. LeB. Tweedle for plaintiff; Mont Macdo

A very interesting lecture was delivered on the evening of the 18th instant at Musquash by Rev. W. H. Barnes of St. Jude's church, Carleton. Joshua Knight very kindly gave the use of his hall for the entertainment. The views included those of the King and Queen of Honolulu, the volcamo of Kilauea, the natives of the islands, and many pretty bits of natural scen ery for which the islands are well known. The entertainment was in aid of St. Jude's church fund. It was very well attended and a snug sum

The steam yacht Nydia arrived here on the 19th from Digby. There were on board Eugene Tompkins and wife of Boston and E. G. Gilmour and wife of New York. Mr. Tompkins is owner of the Boston theatre. To a Sun reporter last evening he said the party had highly enjoyed the few days they spent in and around Annapolis and Digby. It was their first visit to Nova Scotia. Mr. Tompkins said he had not been in St. John since the fire of The party will remain here a day or two and will then proceed to Eastport. They are stopping at the

The rolling mill business of J. Harris & Co. and the tack and nail works of S.R. Foster & Son have been amalgamated, and hereafter will be operated under the name of The Portland Rolling Mills Co., Ltd. The business were arrested at Moncton and on Thursday, Charles Mullins was collared at Eastman's on the Elgin and ertson is the president of the new comwith him at the time, and had just fitted him out with a new suit of clothes. It was by watching the mother that the son was discovered. assured that consolidation, combined effort and improved methods will give to them a continuance of the cor dence enjoyed for so many years by the two firms.

> Miss Horncastle and Miss Forbes of Indiantown and Miss deWolfe of St. Stephen were thrown from a carriage on Charlotte street near the Dufferin hotel on Wednesday, 19th inst. The young ladies were driving down Coburg street when the away. The carriage was overturned a short distance below the Dufferin and the occupants found themselves upon the street. The horse was caught on Main street, near Douglas avenue by Mr. Baxter, an employe of A. M Rowan. The young ladies escape with very slight injuries. The carriage was badly smashed.

The congregation of St. Phillip's church held a largely attended meet-ing last night. The meeting opened with singing and a prayer by the Rev. Mr. Henderson, On motion Dr. A. B. Walker was elected chairman and William Joshua secretary. The order of business was then proc with. Reports were presented which showed that the affairs of the church were conducted in a business like manner. A vote of thanks was tendered to the trustees for their labors, and they thanked the congregation for the vote. P. Bushfan and John Jackson were elected additional trustees, after which the meeting was ad-

Dr. March and Dr. Frink returned Wednesday night after a tour of inspection of men and horses for Camp Sussex. They left here Monday, and visited Hampton, Norton, Collina, Sus-sex and Jeffries in Knigs Co., and Mc-Dougall Settlement and Sackville in Westmorland. Troops of men and forses were inspected alt each place and a selection made. As a result a fine looking body of men and horse will go under canvas on the 25th. Dr. March says the Sackville troop are a particularly fine looking lot of men this year, being very close together in height and weight, and all young. The surgeon thinks they should give a good account of themselves.

Says the P. E. Islander of Charlotteown: Murray McNeill of St. John and John F. Woolner of Chicago, students of Dalhousie college, who are spending their vacation at Cavendish , had a narrow escape from drowning the other day. They were fishing on McNeill's pond in a small boat , which was leaking badly, and by some means or other capsized. The men pluckily held on to the bottom of the boat until their cries were heard by F. Pierce McNeill and W. McCoubry, who were quickly on the spot, and with great presence of mind constructed a raft of fence poles and soon rescued the unfortunate sportsmen from their perilous situation -not any the worse for their ducking, except the loss of their fishing tackle and an unusual fine catch of trout they

TEACHERS WANTED.—To begin work next term. Address, Maritime Teachers' Agency, Shedtac, N. B. 594

The contract for the construction of the St. Stephen and Milltown railroad is not likely to be made so long as land owners make such extortionate de-mands for land damages. An adjustment appears no nearer than at last report, and the prospect is that the community will not profit from the enterprise this year.—Calais Times.

Under the new postal arrangements just completed by the inspector, the Canadian Pacific trains between Ednundston and Grand Falls will for the first time be employed for the conveyance of the mails. Gorrespondence orwarded by the "Flying Yankee" leaving St. John at 6.45 a. m. will reach Edmundston the same day at 6.45 p. m., in good time for evening delivery; and the mail leaving Edmundston at 10.00 a. m. will arrive in St. John at 10.00 p. m.

Jas. Sullivan died at his home, 117 Leinster street, Monday ev'g. He was 87 years old. Very many persons in this city will learn of his demise with profound regret. He was for many years a well known contractor and builder. Some years ago he was appointed inspector of government works for this city, in which capacity he served with much satisfaction to all concerned. He was a first class me chanic and his appointment to office was a wise one. Deceased leaves a son and two daughters, Mrs.Thompson of Brooklyn, N. Y., and Mrs.Lockhart of Great Falls. Mon.

A despatch from Sackville received at 2 o'clock Tuesdaymorning says: E. Cogswell of this place left home this morning to go out and look at some marsh land in the vicinity of Cole's Island, about two miles from Sackville. Not having returned, a search ing party was organized, but no trace could be found of the missing man. Another party will go out at daylight His absence has caused much uneasiness, and it is feared that he has

Private post cards may be posted in Canada for delivery in Canada under the following regulations: The material to be used to be ordinary card-board, not thicker than that used for the cards issued by the post office department; the size not to exceed that of the official post card, nor to be less than 3 1-4 inches wide. The words "Post Card" to be written or printed on the address side near the top, and a one-cent stamp affixed to the upper right hand corner of the card. Nothing whatever may be attached to a post card, nor may it be cut or altered in any way.

Mrs. James F. Robertson, who has been in delicate health for over a year, died somewhat suddenly at her summer residence, Rothesay, Friday morning. Although a sufferer for so long a time, she had borne her illness uncomplainingly, cheerfully and hopefully. At last death came unexpectedly, but as a great release. Mrs. Robertson was the third child of the late Wm. Thomson, and sister of Rebert and John Thomson. She was married to Mr. Robertson about thirty years ago and has been well known her Christian activities her devotion to her family. She leaves a family of four daughters, one of whom is the wife of Dr. Currie of Halifax, and three are at home. For the afflicted husband and children there will be much sympathy. The funeral is announced for Sunday.

As already announced ,the summer time table of the I. C. R. went into effect on Monday. The trains will as follows: Halifax express, 7 a. m. hediac accommodation, 10.10 a. m.; fast express for Halifax, 1.10 p. freight, with passenger car attached s far as Hampton, 1.25 p. m.; express, 4.35 p. m.; freight and accommodation, 5.30 p. m.; Montreal, Quebec and Halifax express, 10.10 p. m Trains will arrive: Halifax night express, 5 a. m.; Montreal and Quebec express, 8.05 a. m.; Sussex express, 8.30 a. m.; Shediac accommodation, 12.55 m.: freight and accommodatton .05 p. m.; fast express from Halifax 3.50 p. m.; day express from Halifax 6.35 p. m. Passengers for P. E. Island will take the fast express at 1.10 p. m There will be no connection with the

sland with the morning express. THE EQUITY COURT.

In White v. Sharp et al. on motion of Solicitor General White, the bill was taken pro confesso and sale ordered for \$191.34.

In Jeffries v. Bell, on similar motion ale was ordered for \$344.50. In re the children of Charles Bull of Woodstock, the report of the referee was confirmed and the appointment of Rev. Scovil Neales as guardian recommended. His honor ordered the appointment and directed the payments to be made from time to time

for the support of the children. In the equity court, in the matter of the application in re the Bull infants for appointment of guardian, Judge Barker on Thursday morning ordered confirmation of the report and appointed Rev. Scovil Neales, guardian, upon sureties being filed and also made an order as to payment of income for support of the children. J. A. Belyea, solicitor.

In the application under the Insurance act in the Muirhead estate, the judge appointed Wm. Wilson of Chatham, trustee, and also as guardian in substitution for the guardian by will who is dead. R. B. Bennett, solicitor In the case of the Kerr infants, E. G. Kaye applied for the appointment of F. W. Daniel as guardian for the purpose of conveying property. The matter stands pending the filing of consent to the appointment by per-

In the matter of the children of Henry A. Muirhead, deceased, R. B. Bennett applied for the appointment of a trustee to receive the insurance moneys upon the life of deceased. His honor took time to consider the apcointment of Wm. Wilson of Chatham

as trustee and guardian. Robertson v. Howe was taken up and continued all day. The suit is for foreclosure of a mortgage of \$200 on property in Sunbury county, which defendants say has been paid. W. B. Wallace appears for the plaintiff; J. A. Belyea and Arthur W. Ebbett for

COUNTY.

King Street, Corner Germain.

This northern county, with a strip of Bonaventure, makes the following

arrangements for a series of meetings to be held by the field secretary: Parish conventions on June 25th,

Durham, at Charlo; June 28th, Colborne, at Charlo; June 28th, Dalhousie, at Eel River station.

The following district conventions are to be held in Bonaventure conuty: June 29th, New Carlisle; July 2nd,

New Richmond; July 4th, Point La Garde; July 5th, Kempt road; July 7th, Sunday, will probably be spent in Campbellton. Each of these will have both afternoon and evening ses sions. Some few other places will have one evening meeting each. This series will close with a county convention at Dalhousie on July 9th and

JUNE WEDDINGS.

Harvey Station, June 22.-The restdence of Mrs. W. W. E. Smith of Harvey Station, York Co., was the scene of a very interesting and happy event on the 20th inst., when her daughter. M. Allice, was united in marmage to Rev. Franklin W. Barker of Somerville, Me. The ceremony was performed by Rev. J. A. McLean, B. A'., assisted by Rev. Joseph Barker, father of the groom, at 8.30 p. m., in the presence of a large number of invited guests. The bride, who was harmingly attired, was attended by her sister, Miss Emma Smith, while E. C. Leary, formerly station agent here, but now of Halifax, acted as best man. That Miss Smith was a general favorite was clearly proven by the large number of beautiful, elegant and costly presents she received At the conclusion of the ceremony a pretty lunch of ice-cream and bananas was served, and the time passed quickly and pleasantly with games, which were heartily indulged in. The happy couple took the westbound midnight train at a few minutes past twelve, followed by the best es of hists of friends. They will reside in Scmerville, where Mr. Barker is stationed.

A correspondent from Johnville writes as follows On Tuesday morning, 18th inst., a most interesting ceremony took place in St. John's church Johnville. The occasion was the unit ing in the holy bonds of matrimons of Dr. H. D. McManus and Kate Cum mins, daughter of the late Simon Cummins. The mass and marriage eremony were performed by Rev. D. J. Gallagher, nephew of the bride, assisted by Rev. J. Murray. After mag a pleasant breakfast party met around the table of the bride's mother, when the congratulations were unlimited. To give a list of the many beautiful and costly presents would take a large space, as the articles will fill up many aportant portions of the new The happy couple left for Washburn their new home, on the 3.15 train. W unite with their large circle of friends in wishing them an unclouded future

QUEENS CO.

Salmon Creek, June 20 .- The crops are looking fairly well. The straw berries are getting quite ripe, so tha between picking potato bugs and berries, everybody will be kept busy. The Rev. Mr. Gordon of Nova Scoti has been assisting Rev. D. McD.Clark holding revival services in this place

The meetings are well attended. Rev. Mr. Ross is to be with us the 30th inst. The electric lights add much to the beauty of the village of Chipman. Mr. King's mill will soon be again in running order. There has been coniderable repairs put on it and to all appearance it will be a fine mill.

Mr. and Mrs. G. B. Jones of Apo-

haqui are spending their vacation in this place. The lumbermen are busiy engaged finishing up their winter's operations. Geo. Fowler of Montana who has been so sick, has reached this place in safety. The people of Hardwood Ridge are holding a tea meeting; proceeds to go towards haning to pay for the new Baptist church

The residence of John Petty ,senr South Clowes, was totally destroyed by fire May 14th. Mr. Petty lost nearly all the contents of the house. The fire was supposed to have originated by a defect in the stove pipe. No insura Mr. Petty wishes to thank the neighbors for their kindness in his loss. Mr. and Mrs. Petty have moved to Hampton for the present.

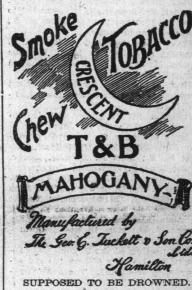

In the probate court yesterday letters testamentary of the will of the late Miss Susan Merritt were granted to the executors. The estate is entered at \$7,000, all personal. Miss Catherine Ingersoll, a sister, receives \$5,000 for life and upon her death it is to be divided between Florence and Minnie Ingersoll, neices of deceased. Major W. J. Merritt is managing legatee. E. S. sell. New York; Jared Bradley, Great

sudden gloom was cast over Springfield on the 11th when the news arrived that Lee Spragg, son of Azor B. Spragg of Keirsteadtown, is supposed to have been drowned. He left his home early Monday evening to cross the river in a canoe to where some safely, and left them about 12 o'clock at night to return home, a distance of about two miles. He has not been seen or heard of since. On the 11th his canoe, a very frail affair, was found upside down on the opposite shore, and it was then supposed he hald been drowned, as the young men whom he left say there was a heavy wind squall shortly after he left them and the canoe being so very light was not able to stand the wind, and it is supposed capsized. The young man good swimmer. Searching parties have een out dragging the river, but up to last advices the body hald not been found. Much sympathy is felt for the bereaved family in their sudden affliction, as he was a young man of great promise and one who was thought a great deal of by all who knew him He was about 20 years of age and of grind halhits

BOSTON Y. P. S. C. E. CONVENTION.

To the Editor of The Sun:

To the Editor of The Sun:

Sir—Will you kindly allow me to make known through your columns the following particulars regarding the international convention of the Christian Endeavor society to be held in Boston July 10-15:

The return railway rate from St. John will be \$8.50 and from Fredericton \$9.20, tickets good from July 6th to 11th going, and to return not later than July 31st. No certificates will be required, as the railway and steamboat companies grant return rates.

Up to the present time I have received the names of 120 delegates from the maritime union. Many of those from N. S. and P. E. I. intend going to Boston by the train leaving Halifax on Monday morning and St. John on Monday evening, and it would be very advantageous if all who select that route would arrange to travel on the same day. advantageous if all who select that route would arrange to travel on the same day. This train will be met about 20 miles this side of Boston by members of the reception committee, who will give the delegates all the information and help in their power. I have a number of maps of Boston prepared under official sanction, copies of which I will send to any delegate inquiring for them, or they can be obtained on the train on Monday, July 8th. Delegates would do well to obtain a copy of the hymn book to be used at the convention. These can be secured from Roland Meilish, 115 Granville street. Halifax, or they can be purchased on the train. If there are any delegates from the maritime union whose names have not yet been sent in to me I shall be glad to receive them for transmission to Boston at the earliest possible date.

An abundance of accommodation has been secured in Boston for all delegates who purpose attending.

I am, sir, yours truly,
W. HAMILTON, Excursion Manager.

The Programme and the Names of Those Who Received Prizes.

McInerney, M. P., on Thursday Evening.

Memramcook, June 21.-The closing exercises in connection with the Convent of the Sacred Heart took place this afternoon. The following was the

Wedding March...... Instrumental Trio Misses S O'Keeffe, B. Cassidy and N. Miss M. Gastonguay. Vocal Solo

The characters in the operetta were:

Mab. Stanley, May Queen... Theosane Sonier Florence Stanley, stolen by Gipsies..... Dorilda Gastonguay 

The following were the prize win-

Silver medal, donated by Mrs. P. A. Landry, Dorchester, N. B., awarded to Miss N. Holland, Melrose, N. B., as

Silver medal, donted -- -- A. Roy, C. S. C., president of St. Joseph's college for religious instruction, awardto Miss Thessane Sonier, College Bridge.

ium for Christian doctrine, donated by Rev. A. B. O'Neill, C. S. C., M. A., of St. Joseph's college, awarded to Miss Selina O'Keeffe, St. John, N. B. Gold medal, donated by Rev. F. X. Cormier, St. Joseph, N. B., awarded to Miss M. Montgomery, Halifax, N. S., for excellence in ranks.

Silver medal, donated by Rev. F. X. awarded to Miss Emerise Gaudet, Memramcook, N. B., for French First premium for typewriting,

awarded to Miss M. Gastonquay, Halifax, N. S.

mium for painting, awarded to Miss Selina O'Keeffe, St. John. Crows of honor for exemplary conduct awarded to Miss N. Holland, Melrose, N. B.; Miss N. Dernier, Dover, N. B.; Miss D. Melanson, Dorchester, N. B.; Miss S. O'Keeffe, St., John, N. B.; Miss R. Brady, St. John, N. B.; Miss Marie Gaudet, Memramcook, N. B.; Miss Herminie Leger, Memramcook, N. B.; Miss Alexina Gaudet, McGinley Corner, N. B.; Miss Leonie Lyer, Mc-Ginley Corner, N. B.

At a meeting of the Alumni association of St. Joseph's college the old officers were re-elected. The next meetnig will be held on October 10th. Rev. A. B. O'Neill will spend his vacation in Paris. He will leave next

week on the Halifax City. The following was the alumni oration delivered by Geo. V. McInernay, M. P., at the college exericses on ;

Gentlemen-In my fitful perepartion to discharge the very important duty which you have done me the unmerited honor to assign me, in the prope celebration of this day, I have been tempted to speak more of the dead than of the living, and to sink all thought of the future in the solemn but glorious contemplation of the past. For the past is our own, our captive, at ours, as the cherished memmory of the beloved dead is ours-to be taken from us no more forever. The cloudy, uncertain future; dim, incomprehensible—arching o'er us like a rainbow of opulent tints, or hanging threateningly above us like a dark and treacherous thunder cloud-who should dare speak of the future, whose lips have not been touched with the living fire of prophecy?

So from the past I gather one mem-ory that will be forever cherished

The warrior, the hero, the statesman may be forgotten; the name of the founder of a seat of learning is written on imperishable tablets-the very souls of men. "Semper-semper honos, nomenque tuum laudesque manebunt.

Money may endow a college, but it is not the greatest contribution to the cause of education. The really great schools have been founded on the characters of men, and carry with them, through ages, that ever fresh and fragrant fame belonging pre-em inently to the memory of the just. The grandest scholarship that can excite to glorious emulation, in any hall of learning, is the shining, spotless character of its founder; the richest bequest any such man can bestow on the youth of a country is the gift of a bright, pure, enduring example. That is "the immediate jewel of the soul" which shines with undimmed lustre-forever. I have read that when Washington stood before the surrendering army of Cornwallis, some of the victorious troops, as Cornwallis gave up his sword, began to cheer. The great Virginian turned on them and said: "Let posterity cheer for us." Supreme realization of fame already acquired and safe in hearts yet unborn. And I often think that a character, sufficiently grand to found school, must somehow glory, by anticipation, in the light which shall be reflected through it on future live -that light that never shone on land

What magnificent energy such a task implies the energy that cleanses the soul-for the ever restless ocean pure simply because it is never

What a grand ideal such a man must set up in the temple of his heart, and what devotion he must lovingly offer at its shrine, even in the sacred, silent watches of the night.

must be the hallowed entertainment of a hope that some day—through re-vealing centuries—untold numbers will draw comfort, consolation and intelli-

gence from a life-work which, in truth, is the very coinage of the heart. What sublime faith must dwell-an everlighted tabernacle in the midst of Judah-with the man who builds on the simple resources of his own intelligence, energy and love a sanctuary wherein the spirit of true educa

tion may dwell forever more. education—what a polemical battle field these words suggest. In speaking of education I shrink from a discussion of systems. I offer no new fangled notions concerning the age at which it should begin, the methods which it should prescribe, the subjects which it should embrace. The education I would name may never commence too early and scarcely ever to late. It is no distant peak with eternal sunshine settled on its head. There is no royal road to it. It is not classical

lore. It is not scientific learning. "Though a linguist (says Milton) should pride himself to have all the which Babel cleft the world into, yet if he have not studied the solid things in them, as well as the words and lexicons, he were nothing so much to be esteemed a learned man, as any yeoman or tradesman competently wise in his mother dialect

But the solid things Milton referred to do not alone constitute true education; nor would I seem to contemn the They are the golden keys of those labrynthin vaults wherein the ages have stored the priceless riches of wit, eloquence and poetry. Powerful aids to education, these things do not signify it. Education is the training of powers, not the acquisition of knowledge. "No man," says Whipple, "can be called educated until he has organized his knowledge into faculty, and can wield

it as a weapon. Education is the training of man's moral and intellectual nature, the forming of the heart, the moulding of the mind, the establishing of principles, the cultivation of true ideals. It brightens the intelligence, disciplines the judgment, controls and directs the passions, purging them of lusts and covetousness, pride, anger, jealousy, envy, idleness and hate, and harnessing them for the pursuit of the good, the beautiful and the true. It instructs, informs and enlightens the conscience-gives it for guides the lexicons of human reason and the heavenly lights of divine revelation, suppressing blind self will, stimulating to eternal vigilance which is the price of that liberty which alone makes free, and bidding a man cherish, revere and worship the sweet tenderness, lofty example and divine philosophy of Him

attributes of the beatitudes. When the faculties are trained, har monized, fused into united action, the judgment fed by intelligence, the intelligence stimulated by the passions and all directed, guided and controlled by conscience pure and enlightened, then only, though the hand may guide the pen or the plough, the eye patient ly follow the celestial worlds on their endless journeys or trustfully watch the golden sunshine locking itself in ripening fields of grain; whether the voice awes and controls senates, or lulls cradled innocence to sleep; then only I respectfully submit can education be termed satisfactory or complete. Such education will command purity of life and loftiness of purpose, win confidence and compel re-

in whom were concentrated the sublime

There is no sadder sight on earth than great intellect coming short of quently arises, especially after a legal making a great man. How the world loves to lean for support on high endowments blended with nobility character; and how blind a guide is the towering mind, crippled and tainted and poisoned by the vices that admit of but petty aims and form after all only a clever schemer or a degrad-

There is one picture, above all others. on which my mind loves to dwell. It is that of a bright young scholar, just passing into manhood. The delightful charm of ingenuous youth hangs round him like a mantle. High and noble aspirations gleam like a crown upon his brow. His eye lit by the flash of genius, is lifted to the serene and luminous summits of success. Sensitive, manly, tender, brave, with "the pride and learning of the intellectual Greek, of the conquering Roman." His heart pure as the salted sea. His silvery eloquence, honest, sincere, direct somehow, and I know not how-thrills and moves and controls me beyond the power of all other human speech. Pronise, promise, promise written on his eye and brow. How my generous and captive fancy builds the structure of his life. He is strong, he can struggle; he is genuine, he can wait; and some day he holds a proud position in the public thought. He stands for independence, for courage, for convictions, for unbending honesty, and his name is honored by millions of his fellow-men.

It was to provide such an education as I have briefly sketched, and to en- ique variation of a drum major's usual deavor to furnish to the country such performance when on review occurs youths as I have pictured, that, thirty in one of the French regiments of the years ago, Camille Lefebvre, led by line, or, rather, did occur, for the colthe light of a noble and charitable onel of that regiment has now pu missions, began his life-work here. Seven down his foot and issued a positive years ago, in this very place, and on flat that his subordinate shall hence an occasion like this, I said that his forth confine himself to orthodox works were his best trumpeters and tricks. that they would "daily praise him in The musical leader in question had the gates;" that in consecrating his at one period of his life ben a mounte-years to the service of the unprivil-bank, andevidently a good one, for eged; in lifting the downtrodden and of the most blessed life. To give to orable and manly ambition; but to intellectual privilege is grander, more worthy and borders on the Divine. their studies, may boldly declare that Christianity is in ruins, and that the the half of the baton which he of our philosophy; but while we have such examples of generous sacrifice, without hope of earthly fee, laying the foundations of learning and raising the pillars of order in the land, we will cherish the fond delusion that

among us." What courage, what energy, what faith, and hope he put into his work! river, the other day.

God still reigns and that Christ is

still "the Word made flesh dwelling

One who never turned his back, bu marched breast forward; Never doubted clouds would break, Never dreamed, though right were worsted, wrong would triumph Held we fall to rise, are baffled to

fight, better sleep to wake. After encountering and overcomin at the very threshold of his task, the greatest difficulties that ever beset him, he, ever after, when new troubles arose, could exclaim with Cicero,"Contempsi Catalinae gladios, man tuos pertimescam."

From the very start he shaped his work on heroic lines. He understood as well as Goethe did that, "if you plant an oak in a flower-vase the oak must wither or the vase crack."

He was just, and taught justice; for he knew, with Alexander Hamilton. that, "Justice is the end of govern ment, and the end of civil society;" and with Jeremy Taylor, that "a pros perous integrity is the most unprofitable condition in the world." He was charitable, generous, magnanimous. Michael Angelo once entered a palace which Raphael was ornamenting, and saw that all the figures were too small for the room. He simply sketched an immense head on the wall and when asked why he did so, said: "I criticize by creating, not by finding fault." By such means our founder sought to raise our eyes above petty aims, showed us by his own noble deeds how

He was a patriot, he loved his country, and his eloquent words spoke of trust in its mighty future. His eloquence was born on the limpid current of hope, and like his work, was for regeneration.

There is the eloquence of a perishing people, such as shone like a light and radiant sunset in the majestic speech of Demosthenes, and lit, with everlasting light, the thunder that was hurled against Cataline; such as in grandeur and in gloom, welled like the prophetic dirge of the last of Judah's prophets, through the sweet, mournful sentences of Kossuth. And there is another eloquence-clear and jubilant as the blast of a trumpet, distinct as the notes of an alpine hornawaking a young nation to consciousness of strength and calling untried energies into the arena where glorious victries and dazzling prizes gleam like nconquered worlds.

Gor make us all worthier of him whose dust we laid among these scenes he loved! Here he girded himself for battle, and fuller success than his heart ever dreamed, God granted him. He sleeps in the blessings of the poor, with "a tomb of orphans' tears wept on him," and many men believe more firmly in virtue now that he has lived. I, but lately, walked down to his grave, and many of his best loved ones were there. His great presence still seemed near, and, through the trees, seemed to come again his rich, pleasant, eloquent voice inviting to generous companionship. And, in the twinkling of an eye, all was changed; the groves, the hills and all around was one great monument, bearing his name—sacred to his memory. And yet I know the sense of loss and the sense of dissolution will pass away, and we will, in days to come, gather here, to commemorate his sacrificial labors, his deeds of kindness and love, his saintly life and death, his last resting place, and, as the eye sweeps the horizon, the same glance shall embrace the cradle of a regenerated people and the tomb of Lefebvre.

HO WIT FEELS TO BE HANGED.

There is a question which quite freexecution has taken pla few living persons are in position to sations experienced during hanging?" Some few who have lived through the trying ordeal have given accounts of their feelings and sensations during such critical moments, and from what to die as some have imagined. Oil concur in saying that after one single instant of pain, the chief sensation is that of a mass of brilliant, ever-changing colors before the eyes. Capt. Montaganac, who was hanged in France during the religious wars, and who was resuscitated when life was all but extinct, said that he lost all sense of pain the moment the trap sprung. The next sensation was that of brilliant, many colored lights, and he is even said to have upraided his rescuers for taking him away from a sight the beauties of which defied all attempts at description.

All accounts which the writer has ever read warrant these conclusions: That the suffering is but momentary; that a pleasurable feeling immediately succeeds; that colors of various hues start up before the eyes, and that when these have been gazed upon for a limited period of time the rest is total oblivion.-St. Louis Republic.

SWALLOWED HIS BATON.

New York World: A decidedly un-

after practicing in secret a number the lowly, he had touched the altitude of times he astonished the regiment drawn up in review one day, by sudour equals or superiors is a high, hon- denly throwing his stick high in the air, catching it in his mouth in the lift our inferiors to spiritual light and descent, and swallowing fully half of it. Having accomplished this gastronomic diversion, he stood for a mo Philosophers, in the dull darkness of ment while the spectators gazed in awed amazement, and then disgorged sublime figure of Jesus has passed out, swallowed and continued his march down the line.

He repeated this trick a good many times and the regiment was very proud of him, but it brought him such an enviable reputation that the colone finally had to stop him. Now his per ance is thoroughly conventiona

## Purves' Mill Totally Destroyed by

Fire Last Week.

(From The Daily Sun of the 21st.) At about three-thirty o'clock Friday morning fire was discovered in Purvey steam saw mill (better known as Stetson's) Carleton, and an alarm was quickly given, and the firemen were soon on the spot, but the flames had complete possession of the building, and the brigade could do little beyond keeping the flames from spreading. A large amount of lumber about the mill caught fire several times, but the firemen succeeded in saving it.

The lumber in the vicinity was saved, but the store house is almost total wreck.

The mill was known as the old Steton mill, and was valued at between \$30,000 and \$40,000, There was an insurance of only \$8,000. The destruction of the mill will be a great loss to the people of Carle-

ton, as emplyoment was given to a large number of persons. The cause of the fire is unknown. At four o'clock Chief Kerr went over

to the scene, but as there was no wind there was little danger of the fire spreading. (From the Daily Sun of the 22nd.)

The fire yesterday morning at Purves' mill, Carleton, was discovered by Harry McLeod and Robert Hamilton, who were flishing. They rowed ashore and rang the King street bell, but it was some time before the alarm brought many people out, as the bell can not be heard any great distance. Had there been a strong southerly wind the whole of King street might have been destroyed before the firemen would have been alarmed. As it was, Mc-Leod had his hands cut by the defective condition of the bell chain. The watchman, Thos. Gaines, and Charles Ring say the fire broke out suddenly and was probably caused by the falling in of the crown of the furnace Gaines sounded the mill whistle and was nearly caught by the flames in doso. The apparatus was promptly on the scene and the men worked bravely. A schooner lay in the slip to the eastward of the mill, and her rigging was only prevented from catching by the most strenuous exertions. At one time it was thought Charles E. Colwell's house on the other side of the slip would be burned, but a crew of men kept water on the roof, and a slight change of wind prevented any

damage. Those who hurried to the fire saw a sheet of flame over a hundred feet high around the chimney, and showers of sparks were falling in all directions. Three streams were got on in very quick time, and by sheer pluck the firemen kept the flames from spreading to the dry house or timber. So well was the work done that only one small pile was destroyed. No one knew condition of the boilers, yet the men went in between the engine house the lumber nearest the schooner and and kept the fire from spreading in that direction. It was two hours before the fire was wholly under control. The loss is a heavy one, and the insurance small, only \$8,000 being carried, of which \$4,000 is in the Commercial Union, \$2,500 in the Royal and \$1,500 in the Manchester. The mill was worth between \$20,000 and \$30,000. The mais destroyed and also, probably, the boilers. The occurrence is most unfortunate, both because of the immense loss to Mr. Purves and also because of the throwing out of employment of seventy-five men. It was exnected that in a few days night work would have been begun, as Mr. Purves answer. It is this: "What are the sen- had over 10,000,000 feet of lumber to cut, having recently purchased the

Mr. Purves does not as yet know whether he will rebuild. Chief Kerr with a reel of hose drove they say it is not such a terrible way over to the fire and Ald. Wilson of the fire department committee also came over.

THE TRAMP AND THE LAWYER.

An American exchange relates an amus-ing anecdote of a the detical lawyer who met a beggar, who was also a philosopher: When a tramp stopped a lawyer on Gris-wold street and begged for a dime to get his dinner, the lawyer replied:

"Get you a piece of land and go farm-"My dear sir," said the tramp, "if I had the land, which I can't get, I'd know no more about farming than you do about saling a ship. You are a smart man—ten times as smart as I am—but can you tell me when to plant corn?"

"Why—ahem—why, in the spring, of course."

"But the month?"

"Well—ahem—I suppose it's along after he snow goes off."

"And about rotation of crops?"

"I—I never heard of any."

"And what is sub-solling?"

"Sub-solling? Why, it's something consected with farming."

"And how much wheat do you sow to the core."

acre?"
The lawyer couldn't remember whether it was 20 or 40 bushels, but dodged the case

was 20 or 40 bushels, but douged the by observing:

"The great trouble with this country is that we have too many consumers."

"Then how is it that breadstuffs, groceries and clothing are down, and so many factories shutting up? Haven't we really produced too much, queried the tramp.

"Say, that will do!" hotly exclaimed the lawyer, as he handed over a quarter and moved off. "As I remarked in my opening address, we are living beyond our means."

"Well, I dunno," replied the tramp, as he pocketed the money. "I propose to make this 'ere pay for three meals and a bed, this 'ere pay for three meals and a bed,

A SURE HELPER.

As the hot season wears on, the man who is confined to office work inds that work more and more of a task.

Soon he will feel that something must be done to keep his vitality up to the effective pitch of effective and satisfactory work. The debilitating influences of the season will wear him

He will find in a course of Hawker's nerve and stomach tonic the thing he needs. It will aid digestion, revitalize the blood, and strengthen and invigorate the whole nervous system. It is a wonderful tonic and is the sure helper of hosts of weary men and women who have been borne down by overwork or the ravages of disease. Hawker's nerve and stomach tonic is

## Second only to the entrancingly taw His trust was simple and magnificent. ANOTHER MILL GONE. IT WELL DESERVES ul contemplation of the beatific vision He was truly: ITS FAME."

So Says Mr. Clair H. Sisson, of Carnarvon, Ont., who was cured by Paine's Celery Compound.

#### THE MEDICINE THAT ALWAYS MAKES SICK PEOPLE WELL.

In literature, art, music, law and Ont., who was so satisfactorily cured statesmanship, the world has seen but ew giants of towering intellect. The same may be said about the profession of medicine, that noble science that aims at assuaging pain, banishing disease and saving precious human

Amongst the few noble medical men that have left grand records and imperishable names and memories. Professor Edward E. Phelps, M. D., LL. will always stand high, and rank with the mightiest benefactors that men have ever seen or heard of. Prof. Phelps' grand discovery, Paine's Celery Compound, has done more for the sick and afflicted than tany other

medicine that human skill and science ever devised. Countless thousands of men and women on this North American continent owe their lives and present good health to that wonderful curing medicine that Prof. Phelps gave to suffering humanity.

Today, thousands are lifting them-

selves from the pains and miseries of nervous diseases, rheumatism, dyspepsia, indigestion, liver and kidney troubles, headaches, sleeplessness, and imoure and poisoned blood, by the curing and recreating virtues and power of Paine's Celery Compound. Mr. Clair H. Sisson, of Carnarvon,

sold by all druggists and dealers at M. McIntyre presented the remaining 50 cents per bottle, or \$2.50 for six bottles, and is manufactured only by the Hawker Medicine Co. (Ltd.), St. John, N. B., and New York City.

KINGS CO. RIFLEMEN

The Annual Meeting Held on the Fairweather Range on Saturday.

The Scores Made in all the Matches-The Maiden Aggregate.

Sussex, June 22.-The annual matches of the Kings county Rifle association were held on the Fairweather grounds yesterday and were the best attended and most successful of any held for a number of years. The weather was very warm and the light extremely difficult to shoot in, quite a thick smoke hanging over the range, yet the score was unusually large. Among the prizes competed for was a handsome aneroid barometer presented by the Hon. A. S. White, solicitor general, and his colleagues in the representation of the county, G. G. Scovil and the Hon. Mr. Flewelling, the prize to be awarded to the competitor making the highest score in the three matches. The fortunate winner was last match, added to his former scores, defeated Capt. Wetmore,

the next highest man. The following were the results: ASSOCIATION MATCH.

es-200, 500 and 600 yards. R. H. Arnold, 8th Hussars. Capt. C. H. Fairweather, 74th batt.
Liet. G. S. Kinnear, 8th Hussars.
Capt. J. M. Kinnear, retired.
Lieut. W. Langstroth, retired.
Lieut. C. W. Wetmore, 74th batt.
Lieut. C. W. Weyman, 74th batt.
Seth Jones.
Capt. S. H. Langstroth, 74th batt.
Sergt. G. S. Gray, 74th batt.
Pte. L. Langstroth, 74th batt.
Pte. L. Langstroth, 74th batt.
Pte. H. Langstroth, 74th batt.
Lieut. Col. E. E. Beer, 74th batt.
Lieut. Col. E. E. Beer, 74th batt.
Lieut. W. H. Fairweather, 8th Hussars.
In addition to the foregoing a

In addition to the foregoing a special match for a prize kindly donated by the citizens of Sussex was intro duced for the first time. The range in this match was 500 yards. The following are the prize winners:

DOMVILLE MATCH. Ranges-500 and 600 yards; seven shots at

H. Fairweather Langstroth. Langstroth. B. Kinnear. H. Arnela ... The aggregate prizes are as follows:

D. H. Fairweather Elder cup, \$4. The maiden aggregate, being for a prize donated by Major Campbell, the president of the association, for men who have ever shot at any provincial or county match, was awarded be-tween Lieut. W. H. Fairweather and Dr. McNichol. The Jones cup, for special aggregate, was won by Capt. D. H. Fairweather, who is to be complimented on his remarkable scoring and in having captured three out of the four cups, including the Domville cup, leading the aggregate. This is but his second years shooting. The special prize was presented by Major R. Arnold by request of the Hon. solicitor general. Major Campbell and Lieut. James

the same disease attacked me with double force, so that I was unable to work. Previous to this, I was doctoring for catarrh and heart trouble, but received no benefit from the treatment I got.

by Paine's Celery Compound, after

failure with all ordinary means, de-

sires to contribute his quota of praise

to a medicine, which, he declares, well

"Some time ago I had a severe at-

tack of Grippe, and I did not recover

from the effects of the disease. Later

deserves its fame. Mr. Sisson says:

One day, in my mail, I received a book, "The Dominion Album," which was devoted to the interests of Paine's Celery Compound. After reading meny testimonials. I concluded it was the medicine for me, and I sent and purchased three bottles. After using one bottle, I was much relieved, and when I had finished the other two, I was more like my former self. Now, I have no symptoms of catarrh or heart trou-

"Your Paine's Celery Compound well deserves the fame that the many testimonials have given it. Yours is the most wonderful and best medicine of the age, and almost as palatable as milk. I shall consider it my duty to speak of its merits wherever I go.'

prizes, after which cheers were given for her majesty the Queen

The annual meeting of the association was held in the parlors of the Queen hotel on the night of the 20th inst., when Major Campbell was reelected president; Capt. J. M. Langstroth, vice-president; and Lieut. J. M. McIntyre, secretary-treasurer. It was resolved that hereafter the citizens be admitted to membership in the association. This will doubtless give an impetus to rifle shooting in our county. It was decided that the committee selecting the inter-provincial team for next year would do well to examine the average score made by the front men in the association match, and if some of that team were elected to defend the province next year the result might be different from that of the last two years.

THE NEW DISCOVERY.

Two eminent English scientists, Lord Rayleigh and Prof. Ramsay, continue their investigations and experiments with the constituent of the atmosphere which they discovered some time ago, and to which gave the name of argon. t is creating great interest among chemists, though none appear as yet to have arrived at a definite opinion as to exactly what it is. Some regard it as an allotroptic Capt. J. M. Kinnear, who with forty-seven out of a possible fifty in the ozone is to oxygen. The determina-tion of its properties has been pursued with great care and at great cost. Every attempt to induce it to unite wit hother substances has thus far failed. t will not unite with oxygen, chlorine, hydrogene or nitrogen the presence of acids or alkalis, dry or moist, under the electric spark. Phosphorus and sulphur at a bright red heat are indifferent to it. Platinum black does not absorb it. dizing and chlorinating agents have no power over it. Tellurium can be distilled with it unchanged, and potassium and sodium are untarnished

The gas has been liquefied and solidified, and is believed by some to be a mixture of two unknown gasses. It forms a colorless liquid like water ..

DIMININE THE

The Busines Outlook in the United States as Seen by Dun & Co.

Trade is Improving, But is Not Equal as Yet to 1892.

The Condition of Affairs in Ontario. Quebo New Brunswick and Nova.

New York, June 21 .- R. G. Dun & Co. in their weekly review of trade will say: He who sees a set back in business at this time must be gazing the best education in any branch of through a telescope pointed by mistake at some other country. From all parts of the United States the best advices chainable tell of a rising tide of trade and industry. The volume of all business is by no means equal to that of 1892, as yet, though in some important branches larger than in that or any other year. Daily payments through the clearing houses in June are 26.9 per cent. larger than last year, though 8.6 per cent. smaller than in 1892, the last year of a full business at this season. rise of more than a quarter, in a single year is the more significant because, in spite of recent advances, the prices of commodities as a whole average a fraction of one per cent. lower than a year ago. Two influences of tremendous power contribute to the rise, encouraging crop news and confident replenishment of stocks which have been for two years depleted to the utmost. When business payments have so long been 15,000 millions yearly less than before, it is not strange that the increase should beat the rate of 11,000 millions a year when the future inspires general replenishment of stocks. Except two heavy rains in Texas, the

crops reports this week ave been highly encouraging. The future injury to cotton cannot be predicted. As yet nothing indicates a yield below 7,500,000 bales, which would not be supposed to threaten a famine if the commercial and mill stocks were remembered, now exceeding 2,500,000

bales, a full consumption. The reports from spring wheat states and from the Pacific coast are so cheering that, although the loss of winter wheat was large, those whose estimates have not been accurate in recent years now vary in predictions from 430 to 470 million bushels. Atlantic exports for three weeks (flour included) have been only 3,758,718 bushels, against demand at cut prices. There has been sales than for three weeks past.

50 cents per ton, and structural beams are \$1.35. It is undeniable that the works in operation are crowded with orders, and others which have been

idle for years are preparing to resume. The sales of wool at the chief markets 3,113 hundred pounds of domestic and 3,844 hundred. The foreign are larger than in many previous years for same week, and in three weeks of June have been 19,516,065 pounds, of which 10,631,700 were foreign, against 16,933,600 in 1892, of which 7,764,800 were races toda The holding of stocks by foreign. growers for higher prices has caused an advance in the average of one hundred and four qualities of. domestic wool quoted by Coates Brothers from 13.09c. June 1 to 13.27c., but Australian is bought on a large scale at 36c. to 38c. for combining and 34 to 36c. for clothing, both scoured, and want of domestic supplies is evidently causing heavy purchases of foreign wool in ad-

vance of need. Failures for the week have been 238 in the United States, against 214 last year, and 31 in Canada, against 25 last

Bradstreets tomorrow will say: In the province of Ontario general trade is quite active ,and prospects are satisfactory. In the province of Quebec business is slightly smaller in volume. The actual improvement is declared to be, thus far, sentimental.

In New Brunswick and Nova Scotia the crop conditions are fair, notwithstanding the dry weather, but in Newfoundland affairs are still unsettled, and the outlook is not very encouraging. The trade report from Quebec city rather more favorable than that

from Montreal. The bank clearings at Winnipeg, Hamilton, Toronto, Montreal and Halifax amount to \$2,233,200 this week, a falling off of 1.5 per cent. from las week, but an increase of about 3 per cent. over the third week of June, 1894, and about 22 per cent. larger each than in like weks of e1893 and 1892.

There are thirty business failures re ported from Canada this week against the week one year ago, twenty two years ago and twenty-six three years

#### KING'S COLLEGE.

The St. John Law School Warmly Praised by Several Speakers.

J. King Kelly's Address on Behalf of the Law School Graduates.

Windsor, N. S., June 20.-Convoca tion hall at King's college was crowded this afternoon to witness the one hundred and fifth encoental of that institution. There were present on the platform, beside the president and faculty of the university, the Bishop of Nova Scotia, Very. Rev. Dean Partridge of Frederiction; Archdeacon Brigstocke, Rev. J. Roy Campbell, Mr. Justice Hanington and Hon. Judge Wilkinson of Chatham; Dr. Alward, Dr. Stockton and Dr. A. O. Earle, dean of the law faculty of King's college.

Among the degrees conferred were those of D. C. L. on Judge Hanington, inventing excuses that the men have."

Dean Partridge, Dr.Alward, Dr. Stockton and C. N. Skinner, in absentis.

J. Roy Campbell, Jas. King Kelley, Oliver B. Stockford, H. H. Pickett and Allen B. Wilmot, graduates of the St. John Law School, were invested with the degree of B. C. L.

R. G. Leckie, jr., took the degree of Dr. Alward was the first speaker. He narrated the difficulties which New Brunswick students had labored in the past in getting a legal training, and spoke highly of the ben efits of the law school as cond in St. John. For the establishment of this school thanks were due to King's college, Dean Partridge, Mr. Justice Hanington and others.

A law school was now an actual ne essity. The activities of the age and I the keenness of competition demanded work. For himself, he considered it an honor to be connected with King's college, whose age was mature, whose sons had adorned the legislatures and pulpits of this and other countries He considered the St. John Law Schoo had helped to bring the college in touch with the citizens of New Brunswick. They had brought with them today the first fruits of the school and he hoped to see many more stu-

dents coming on future occasions.

J. King Kelley of St. John then gave an excellent address on behalf of the law school graduates A. D. Walkerton of P. E. I. delivered the "alumni oration,"

E. P. Shatford was the valedictor

ian for the graduating class of 1895. He dealt with the internal improve ments of the college, the extension of the curriculum and other improvements that had been made since his class had matriculated, and thought that today "King's was better equipped than ever before." There was one matter that required the attention of every friend of the college, and that was the provision of adequate funds to enable the faculty to carry on and extend the efficient working of the institution. His farewell throughout was gracefully expressed and was forceful and to the point, and made an excellent impression.

The students presented an address to Prof. G. C. D. Roberts, accompanied by a handsome gold inkstand. Professor Roberts is retiring from the chair of literature to take up literary work exclusively. He thanked the students cordially for their expressions of esteem.

Justice Hanington felt highly honored at being called upon to speak before the convocation. The establishment of the St. John Law School was very largely due to the efforts of Dean Partridge. He and his friends had 6,006,232 last year, indicating no urgent two objects in this undertaking; 1st, to help the bar of New Brunswick; a fall of 6 cents in wheat, with heavier 2nd, to extend the influence of King's college. He hoped both objects would The rush for supplies in iron and steel be satisfactorily attained. He was resembles a "bear panic" in the stock glad to see the increased interest in market. Because prices are mounting the work of the college manifested by everybody hurries to buy, so that they the large attendance here today. He mount higher. Bessemer iron has referred to the establishment and sucreached \$12.65 at Pittsburg. The Bar cess of the girls' school at Edge Hill cess of the girls' school at Edge Hill association puts up the price on com-mon to \$1.15; the Wire Nail association dinate institutions were both helping mon to \$1.15; the Wire Nail association has advanced prices to \$1.50 per keg; to turn the attention of the people of the steel rail makers have raised their New Brunswick towards King's col-prices to \$24 eastern, and the southern lege. He thought that the presence prices to \$2 eastern, and the southern regularity furnaces have both raised prices again of the gentlemen on the platform here was good evidence of the interest taken

The Bishop of Nova Scotia spoke at length, making a strong appeal for funds for the college, and that more young men might be induced to study for the ministry.

#### THE TURF.

Halifax, June 21.—The Driving club by seventy-nine ministers in the active people and there was good racing. The greatest interest centred in the free-for-all, for a purse of \$250, best three out of five heats. The starters were: Atherton's St. John, br. m. Katrina; Learmont's, Truro, br. g., C. P. R.; McGreney's, Hallifax, ch Stranger; and Fank Hill's, Halifax, b. g., Young Clay.

The race was the greatest ever trotted in the provinces. There were reports of the great speed of Clay, with a record of 2.35, and these reports proved true, though Katrina won. had the pole in the first heat, but after five or six scores the starter got tired waiting for them to get off together, and Katrina had two lengths the bes of it. She showed wonderful speed for this time of year, but Clay was doing well and narrowed the Katrina was just in advance of Clay at the flag. As he chased her up the back stretch, slowly gaining and turning into the home stretch the bay looked like a winner, but he broke at the distance and Kttrina won the heal in 2.24 1-2, the best time ever made on a Halifax thack.

Katrina again led the second heat with Clay close up, but he broke on the stretch and Stranger and C. P. R. made a game fight with the mare, all three finishing together.

The excitement rose in the next heat The race was conceded to Katrina but she left her feet at the lower turn, going back to last place, while Clay showed a great burst of speed and opened a big gap. The mare gradually reduced the lead, and when they turned into the stretch she was at twenty-one last week, twenty-four in his heels. It was a terrific race to the wire, bringing the crowd totheir Clay had the lead in the fifth heat, but the mare got alongside of him and for the second time at the lower turn he broke and the mare went ahead closely followed by Stranger. But the mare had too much speed and captured the heat and race.

The following is a summary of this and the other events: FREE FOR ALL.

THE METHODISTS.

Twelfth Annual Session of the N. B. and P. E. I. Conference.

The Extension of the Term to Four Years Adopted in Some Cases.

The Figures of Reports Submitted-List of Lay Delegates to the Conference.

- 931/11/19/19/19

(From Our Own Correspondent.) Marysville, June 18.-The twelfth nnual session of the New Brunswick and Prince Edward Island conferen of the Methodist church met in Marys ville this morning. It would be hard to find a prettier place anywhere than this picturesque and bustling little town, or one in which there is so much to interest and to please. Th lavish gifts of Nature in hill and vale and river have been generously sup-plemented by the hand of the industrious and the taste-loving. The love of the beautiful has not been sacrificed for the almighty dollar, nor has business been neglected for the sake of appearances, but the beautiful and the utilitarian are happily blended With its comfortable homes for its work people, its costlier residences for its leading citizens, its lumber and flour mills, its mammoth cotton factory, and "The decent church that tops the

neighboring hill," together with the absence of shop, policeman and jail, Mr. Gibson may well claim for Marysville the title of The Model Town.

There is no reliable data at hand to enable your correspondent to say when Methodism was first introduced into this much talked of town. Rev. Abraham Bishop visited the Nashwaak region in 1792, it is more than likely that he preached there. It is certain, however, that the minis-ters on the Fredericton circuit did for many years pay some attention to its spiritual interests, but the first preacher appointed thereto by the conference was the Rev. A. D. Merton, who was sent there in 1868. At the end of two years he was succeeded by Rev. Joseph Sellar, and he in turn by Rev. Silas C. Fulton, each remaining one year, and all three being under the superintendence of the Fredericton ministers. In 1872 it was made a separate circuit, with Rev. Robert Wilson as superintendent, who had charge for four years. Since then the ministers located there have been the Revs. Robert Duncan, W. W. Brewer, Edwin Evans, John Read, H. Sprague, D. D., Douglas Chapman and the present incumbent, W. W. Lodge.

meets is not only "beautiful for situation," but is equally so in design and finish. It was completed during the first year of Mr. Wilson's pastor ate, and dedicated on Jan. 6th, 1873. There were thirty new names on the ninutes of last year, five of whom have come here from the conferences-Revs. Ralph Brecken, Joseph Parkins, F. W. Pickles. John J. Teasdale and R. H. Balderston, A. B., the other twenty-five being home produced. The president and secretary for that year were the Revs. Robert Wilson and Rev. C. H. Paisley, A. M., respectively located at Exmouth street in St. John and Hillsboro, county of Albert. The membership of the church in the two provinces of New Brunswick and Prince Edward Island was 10.773, who were cared for

The church in which the conference

five probati ceived an average salary of \$476. The missionary income was \$8,617, of which \$535 came from the newly organized Woman's Missionary society were within the boundaries of the conferences 204 Sababth schools, with 1, 506 officers and teachers, and 11,721 scholars, in which were raised for various purposes the sum of \$4,913. What increase has been realized sice 1887 will be seen when the returns for this

year have been tabulated. Marysville, June 19 .- At the conference today several young men were passed for ordination or continued on trial. Mr. Tennant is recommende to be credited with two years' standing. Mr. Ramsay is to be fully accredited. E. Gough is to be droppe

for monetary reasons. Marysville, June 20 .- Your correspondent regrets that the mail arrange ments here are not the best for keep ing our friends abroad posted in the proceedings of the conference. As we meet at 9 a. m. and the mails close at 12 noon there is very little done and very little time to put in shape what has been done. Then we do not receive the St. John mails until well along in the afternoon, and in the confusion it is possible there may be some confusion in the reports of the work of the respective days.

As I anticipated, the requests for a fourth year's appointment have been complied with, but nothing unusual has happened. No signs of the divine disapproval have appeared as might have been looked for from the tenacity with which the three years' term had been adhered to and to the sacredness seemingly atached to it, but there are no disasters likely to occur. It is rather singular that the first appointment under the new rule should be made here, when it is remembered that nineteen years ago a similar request went from the same official board and was only granted after a lengthy and disagreeable contention by a bare majority in the conference.

Business is moving on slowly. Much time was taken up yesterday in determining the standing of several of our young preachers owing to their failure to come up to the required tests. The conference was evidently in a generous mood, and made matters as easy as possible, but superintendents should be careful in giving advice to young men and young men should consult the discipline for themselves. It is clearly a hardship on a young man t be required to labor as a probatione a year or more than the usual period if the failure to meet certain requirements is not fairly chargeable to him

The missionary meeting last night was a decided success. The congregation was large and the interest wa sustained. Your correspondent was un

avoidably absent, attending an important committee, but from what he heard the whole passed off well. Rev.

Mr. Campbell has just come from sick bed and made no pretensions to speechmaking, but in a few well chosen and appropriate words presented the claims of the cause. Rev. Mr. Huestis address is described as one of his best and was well received. The only drawback in connection with Mr. Brecken's address was its not being well heard. The speech of the evening was mad by Rev. Mr. Teasdale of the Centenary church. He seems to have had a good time as a new man among us. He

was listened to with the closest atten-

tion, and the universal verdict is

"Teasdale did grandly." Edmund Ramsay and W. A. Thompson were added to the list of those to having been previously ordained for special purposes. H. D. Marr, Stanley Terry, J. A. Ives, Josiah Champion, L. J. Leard, W. B. Bryenton and Henry Pierce were put down as having standing of two years. R. J. Macdon ald, W. Buchanan and T. A. Colpitt of one year, and R. Campbell and Geo Ross were received as candidates.

Conference prayer meeting was par-ticipated in by the Brethren Pickles Weddall, Payson, Sprague, Thompson and Balderston. After an interesting address by the retiring president the elections with, and on the third ballot the following results were reached; Rev. Mr. Howie was elected by a vote

of forty-nine out of state-four votes Rev. Mr. Marshall received thirty votes. Several others received enough to indicate that in the near future they would be in demand for the honor. Rev. Jas. Crisp. who has well and faithfully discharged the duties of the secretary, desired to be relieved of the responsibility, and asked that his name be dropped on the third ballot. Rev. George Steel was chosen by a vote of fifty-four out of eighty-four votes cast. The conference proper, which met this morning, consists of all the ordained ministers of the Methodist church in New Brunswick and Prince Edward Island, together with the fol-

ed as representatives from the several district meetings: St. John-Thos. H. Bullock, R. W. McCarty, George Jenkins, H. A. Mc-Keown, E. Thompson, R. McConnell Robert Anderson, Jas. Trueman, Sheffield, M. D., R. H. White, John Hopkins, W. D. Baskin, W. H. Patterson, Jeremiah Stout, S. Johnson F. E. Cassidy, Joshua Stark. Fredericton-M. E. A. Burpee, W.

Biddeford-C. H. Manaton. Alberton-T. Hicks. Westcape-E. Slackford. Marysville, June 21.-After the elec tion of president and secretary, Rev. G. W. Fisher was re-appointed journal

secretary. Rev. M. B. nKight and J. W. Mc-Connell and Enoch Thompson were appointed sub-secretaries.

Several notices of motion were made one that the provincial government be memorialized to reduce the marriage license fee to \$2.50, as in Nova Scotia, and another that a committee of five be appointed to ascertain whether or not there is any grounds for the impression that prevails that warriages are solemnized by the clergy of the Roman Catholic church without either the publication of bans or clergy of other denominations

On motion of Rev. J. Shenton it was resolved that instead of the conferanniversaries of the various funds or societies being held as public meetings there shall be an open session of the conference, to which the public shall be invited, and to be for the hearing of addresses, discussions or questioning as may appear

The nominating committee reported and a good deal of other routine work was attendted to.

The general supernumerary commitee sent a communication to the conference recommending Rev. Mr. Paislev to be relieved from circuit work and set apart to travel the conference territory in the interests of the fund. This was laid aside for further consideration.

Rev. Mr. La'dds of Calais was introduced and briefly addressed the conference.

A very interesting memorial service for deceased ministers was held this afternoon. The names were read in this order: Rev. Messrs. A. C. Dennis, William Maggs and C. W. Dutcher Touching testimonies were made by a large number of ministers and by several of the laymen. Concerning the usefulness and worth of the decease letters of condolence were ordered to be written to the friends of the deceased.

Rev. E. Evans was elected a member of the missionary committee by the ministers and Dr. Inch by the laymen, In the evening session supernumer ary matters were attended to, and speeches made by Revs. Dr. Brecken, Read, Marshall, Paisley, W. E. John son and Berrie.

Marysville, June 22.—Business moves slowly, partly from the excessive heat, which has greatly unfitted men for close application to the work required, and partly to the inconvenience aris ing from the want of a sufficient number of rooms in which the several committees could meet. Two or three of these committees have about completed their work and in their case the ground is cleared for action.

The most important part of yester day's proceedings was the service held in memory of Brethren E. W. Dutcher William Maggs and A. E. Dennis, The service is always an impressive one as it brings each man face to face with proceedings which will be repeated some day with only the substitution of his own name for the one now before the conference.

A hymn was sung, prayer was offered and amid a profound hush the ques tion was put from the chair: "What ministers or probationers have died during the year? The districts were called and the minute of the district in each was read, giving a brief resume

of the life and labors of each, and which on approval was ordered to be inserted in the printed minutes. This was followed by a conversation, in which a large number of ministers and laymen took part. The service was a touching

and memorable one. Rev. John A. Clarke called attention to the desirability of securing uniformity in the form of deeds of church property. A communication was received from the general committee of the supernumery fund asking that Rev. G. H. Paisley, A. M., be released from circuit work and be employed as conference agent to visit the general conferences in the eastern provinces in the interests of th fund, that by the holding of public meetings and personal application to our wealthie fund might be in a position to meet in full the claims of those who are or

retired list. The evening session was given up to the further consideration of supernumery matters. Brief but telling speeches were delivered by Revs. Dr. Brecken, John Read, Thomas Marshall ,C. H. Paisley and others, from which it was learned that the capital stock of the fund amounts to about \$77 009; that thirty-six ministers and twenty-six widows of ministers are claimants upon its income, and that only about 80 per cent. of their claims can be paid for lack of means. Of the amount thus available for use one half is derived from investments, one-quarter from assessments paid by the ministers and the balance by public collections and donations. It was claimed the business was economically managed and the losses comparatively light.

A subscription list was started in the meeting and the sum of \$515 was paid or promised of which \$50 is to come from Rev. J. C. Berrie, \$50 from Rev. W. E. Johnson, \$50 from Rev. John Read, \$50 from Mr. Beer of Charlottetown. The other names I failed to get. The question of the setting apart of the Rev. Mr. Paisley, as above referred to, had not been reached when

the session closed. At this morning session the matter of setting apart Mr. Paisley, as above referred to, was taken up, and after a very exhaustive discussion, in which Rev. Messrs. Williams, Wilson, Sprague, Rice, Marshall and J. L. Black and S. R. Sangster participated the motion was adopted by a vote of 63 to 1.

The invitation of the Queen Square church to have the conference of 1896 held in that church was accepted with The sad intelligence has just been re-

ceived of the death of Rev. L. S. Johnson at Los Angelos, California. Marysville. June 23.—The ordination service this forenoon was largely attended. Five candidates.

Well Known Roman Catholic Priest of Hamilton-Rev. Father John J. Hinchey, Pastor of St. Joseph's Church, Hamil Bears Testimony to the Undisputed Worth of Dr. Agnew's Catarrhal Powder

In the person of the Rev. John T. Hinchey of St. Joseph's' church (R.C.), Hamilton, is found one who does the highest credit to the self-sacrificing work in which he/is engaged. His kindly heart constantly prompts to deeds of love and goodness, and in the city of Hamilton all who know him are ready to bear testimony to his high character and active generosity. A result of neglect, thinking more of others than himself, he has been sufferer from cold in the head and its almost certain associate, catarrh. Re cently he made use of Dr. Agnew's Cattarh Powder, and has found in it so great relief that he deems it a pleasure to tell others of the good it has

done him. One short puff of the breath through the blower supplied with each bottle of Dr. Agnew's Cattarh Powder diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves in ten min utes and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis, and Deafness. 60 cents. Sample bottle and blower sent on receipt of two 3-cent stamps. S. G. Ditchon, 44 Church street, Toronto.

I Was Cured of Rheumatism in Twenty-Four

I, George English, shipbuilder, have lived in Chatham, N. S., over forty years. Last spring I took severe pains in my knee, which, combined with swelling, laid me up for six weeks, during which time I endured great suffering. I saw South American Rheumatic Cure advertised in The Chatham World and procured a bottle. Within twenty-four hours I was absolutely free from rheumatism, and have not been troubled with it since.

For 18 Months Unable to Lie Down in Bed-A Toronto Junction Citizen's Awful Ex-perience With Heart Disease.

L. J. Law. Toronto Junction, Ont .: "I consider it my duty to give to the public my experience with Dr.Agnew's Cure for the Heart. I have been sore ly troubled with heart disease and unable to lie down in bed for eighteen months owing to smothering spells and palpitation. Each night I would have to be propped up by pillows in order to keep from smothering. After treating with several medical men withour benefit, I procured a bottle of the Heart Cure. After taking the first dose I retired and slept soundly morning. I used one bottle and have not taken any of the remedy for seven weeks, but the heart trouble has not eappeared. I consider it the grandest remedy in existence for heart disease.

"I AM A CURED MAN" Kidney Disease Vanquished by South American Kidney Cure—The Remedy Which

Relieves in Six Hours. Adam Soper, Burk's Falls, Ont.: "I suffered much pain for months from kidney and bladder disease. I received skilled medical treatment and tried all kinds of medicines to no purpose; in fact, I did not obtain any relief un til South American Kidney Cure was used. It seemed to fit my case exactly, giving me immediate relief. I have now used six bottles and can say positively that I am a cured man. I believe one bottle of the remedy will convince anyone of its great worth.

DOMINION PARLIAMENT.

Senate in Place of Mr. Odell.

The Estimates for Penitentiaries and Militia Considered Yesterday.

alton McCarthy Postpones His Trip to Eng land on Account of Manitoba Schools.

(From a member of the Sun staff.) Ottawa, June 21.—The house of com mons today passed a number of bills and resolutions through committee, and on motion for supply Sir Richard Cartwright asked for details concerning the government guarantee of the interest on the bonds of the Atlantic and Lake Superior railway. He pointed out that though the dominion would lost nothing directly by paying the interest on the deposit made by the company with the government, still the transaction enabled the company in England to claim some sort of partnership or connection with the government. The investors In port at Mayaguez, May 27, brig Ciyde. Strum, to sail June 12 for Fajardo to load for Boston.

Passed Prawle Point, June 19, bark Athlon, from London for Philadelphia.

In port at Rosario, May 10, bark W W Mc-Lauchlin, Wells, for Falmouth; Wm Wilcox. McGough, for Santos.

Passed Delaware Breakwater, une 19, bark Salina, Salter, from Ivigtut for Philadelphia. Sch Rewa, at Vineyard Haven, has been ordered to Stamford, Ct.

Passed Vineyard Haven, June 20, sch Fred B Belano, from St John for New o'Yrk.

Passed Lundy Island, June 21, bark Abyssinia, Hilton, from Newport for Montevideo. In port at Navassa, June 13, bark Haydi Brown, Campling, for Carteret, NJ, to sail 17th. might, therefore, be led to assume that the enterprise was reputable and sound and had obtained the favorable interest of the federal government.

Hon. Mr. Foster explained that the

government had done no more than agree to pay three per cent. interest on three hundred thousand pounds de-posited with the dominion by the company. The finance minister had taken care that the nature of the government of this interest was well under stood by financial circles in England. The investing public were thus thoroughly informed that the dominion government had neither part nor lot in the railway enterprise.

In answer to further questions, Hon. Mr. Foster said that this guarantee was not to be regarded as a precedent. So far as he was concerned he did not propose to accept money hereafter from railway companies on these terms unless the government had first satisfied itself that the particular railway enterprise basis.

The house was engaged this evening on the estimates for the penitentiaries and militia. Hon. Mr. Dickey moved to have the appropriation for the perma nent corps reduced in order to provide for an increased allowance for a drill of the city corps. He explained that the finance minister could not, in the first place, see his way to allow the money for city corps drill, and he (Dickey) had been obliged to reduce the permanent corps in order to set free the amount required for city militia. The house adjourned at 11.30 o'clock

NOTES. Harry McLellan, St. John, gives no tice of the plans of floating a breakwater which he proposes to construct at Keefe's Cove, Kennebeccasis.

Hon. George T. Baird of Perth Cen-

tre, Victoria county, has been called to the senate vice Odell, deceased. Dalton McCarthy, who had engaged assage to England by next week's steamer is said to have cancelled hi engagement today, as he believes that remedial legislation will be proposed before the end of the session. It is very certain that the French members are strenuously insisting on legislation on this subject before the house rises There is talk of a counter movemen by a concert among the Protestant members chiefly from Ontario. One member of statistical turn has computed that there are thirty-two conservative members who will not sup port remedial legislation, even though introduced by the government. In a burst of candor a minister told the Sun today that he knew as yet no more than a private member what action the government would take after the reply should be received from Manitoba.

Messrs. Gillies, McDougall (Cape Breton), McDonald (Victoria); and Cameron (Inverness), waited upon the minister of marine this evening and urged an extension of the lobster seaon until the 31st of July upon the Cape Breton coast, alleging as a reason for this extension the prevalence of storms upon the Cape Breton coas during the early part of the season The minister seemed to be favorably impressed with the views of the dele-

In the senate today Sir Mackenzie Bowell laid on the table a return of all correspondence with the imperial gov-ernment during the past year on the subject of international copyright. The return includes two letters from Lord Ripon to the governor general and a minute of council. The letters state that the late Sir John Thompson's

COMMON STRAW HATS, 8c EACH.

We have left nine only of those celebrated Hard Felt Hats which we sold at 15c. To clear the balance we will sell them now at 10c., or Three for 25c. Only light colors and small Gerge T. Baird Appointed to the sizes left. COME EARLY.

> CRAIG W. NICHOLS. Agent for Standard Patterns.

> death prevented him from discussing the question with the imperial authorities, and requests that a representative of the Canadian government be sent to England to discuss the matter with a representative of the British government. The minute in council recommends the appointment of E. L. Newcombe, deputy minister of justice, as with the British government.

The civil suit against St. Louis by the department of railways for the recovery of the money alleged to be overpaid on the Curran bridge transaction is now being heard here by, Judge Burbidge. The court has been hearing all day evidence of the work-men who are alleged to have worked for a less number of days than are charged in the timekeeper's books.

Ottawa, June 24.—Answering a question Hon. Mr. Foster stated that half a dozen tenders were received for the line of steamships between Canada, France and Belgium. They included two tenders from Mr. Furness, two from Colombia Belge, one from the Hamburg-American company and one tenderers did not comply with con-ditions. No tenders had been accepted and the government did not think it advisable to make public the amounts

of tenders.

The greater part of the afternoon in the house of commons was occupied with a discussion on a motion made by Mr. Flint for papers relating to the

Coast Line Railway company.

Mr. Flint, followed by Mr. Forbes, attacked the financial standing of the South Shore Line Company and argued against any action by the federal government calculated to restore the latter company to active operations. He urged that a competing line was a proper ance from the Nova Scotia govern ment and was controlled by wealthy capitalists.

Mr. Flint stated that Tom Robertson's company was about abandoning the narrow gauge plan and adopting the standard gauge.

Mr. White of Shelburne, replying on behalf of the South Shore company, explained that it was first in the field, and that notwithstanding the untrue statements as to bankruptcy it was today in a strong position, quite able to carry out its contract.

Mr. White read interesting correspondence showing that Tom Robertson's company no longer ago than last winter were sufficiently well satisfied with the financial condition of the out to that corporation .Among the interesting letters on this point was one in which the representatives of the narrow guage company proposed in case of negotiations succeeding "they would provide for Thomas Robertson to a small amount."

Other letters from President Tom Robertson were read, which were not calculated to support the glowing re-port made by Mr. Forbes of the financial condition of the coast company. There was also interesting correspond ence showing the relations between the Coast railway contract with the Fielding government and the last Nova Scotia election. The same subject was discussed in senate on motion of Senator McClenan to amend the Dominion Atlantic railway bill by taking from the company the power to acquire the South Shore company.

Senator Power , who had charge of the original bill, said he had no objection to the amendment, while Senator McKay thought it was a plan to knife

a tory enterprise.

Premier Bowell said the Nova Scotia government was opposed to the amalgamation, as it wished to keep the road it subsidized on paper for election purposes. Without some amalgamation was not probable that the people of Shelburne and the South Shore would get a railway for many years.

The greater part of the evening session was devoted to Mulock's bill to reduce the salary of the governor general from fifty thousand to twenty-five thousand dollars a year, and to require him to keep up his own establishment out of his income. Mr. Daly moved six months hoist.

Mr. McMullen spoke for the bill till eleven o'clock, when the house adjourneđ. NOTES.

Sir Mackenzie Bowell, Senators Scott and others made touching reference to
