POLAND STORM CENTRE OF WORLD, SAYS COL. HOUSE

Future Peace of World Depends on Peace Treaty Between Russia and Poles.

SOVIET RUSSIA IS CONSCIOUS OF POWER

Believes Reds Have Reached Summit of Power and Will Soon Begin to Go Back.

(Copyright, 1920, by Public Ledger Company.)

London, July 28.—Colonel Edward M. House today made the following statement for the Public Ledger Foreign Service: "The future peace of the world, as well as the nature of the immediate reconstruction of Europe, depend upon the kind of peace treaty negotiated between the Russians and Poles. The future color of the governments of Poland, Czechoslovakia, Austria, Hungary, Rumania and possibly the Baltic states, will be largely determined at the approaching conference in the north. Whether the future of central Europe is to be red or white, whether Poland and the allied governments can maintain the League of Nations on the continent in the face of a Bolshevik offensive against it, are vital issues involved in the Russo-Polish peace conference.

"Poland at this moment is the storm centre of the world. The last week has been one of anxiety among the governments of Europe. At first, the Polish-Russian difficulty is more pressing than Europe. It is of consequence to the entire world. Without being conscious of it, citizens of the United States, and indeed of every other country, are vitally concerned in what is happening today in central and eastern Europe. The outcome may mean an orderly world, as we in America would have it, or a disorderly one.

Russia's Conscience of Power. "The Soviet government of Russia evidently feels itself strong enough to defy the Entente powers. The text of Chicherin's answer to the allied ultimatum, which has been published, is full of contemptuous irony. Russia declines to permit the Allies to interfere with her plans for making peace with Poland, Latvia or Finland, and purposes doing so directly herself.

"Word has come that Russia agrees to an armistice with Poland and for the moment the tension is partially relieved. However, if the terms are severe and unreasonable and if Poland rejects them, occupation of Poland will probably occur. The next act in the drama, or shall we not say tragedy, will involve Germany. The heart of Germany is not Bolshevik, but the sting of defeat lies heavily upon her and she may feel that there is more hope for her in the East than in the West. In that event the first unpleasant assumption will be the fall of the present German Government and the rise of a more radical party. Then perhaps will come incipient revolution and later an invitation to Russia to help sustain the socialist government. Already Russia gains are heard along the borders of east Prussia and the hate which Germans of all classes feel for the French, will make the sound a welcome one.

"If on the contrary, the Soviet Government lives up to its professions and a benign peace is given Poland, a different chapter in history may be written. The best opinion is that this will be done for the following reasons: "The motive back of the Soviet oration is not conquest of territory, but to impose upon other nations its theory of government. Unless the Bolsheviks become drunk with victory and are led into the madness which it usually brings, it is probable that they will try to win the Poles by a generous attitude. This policy, they would be led to hope, would have its influence upon Germany as well. It is reasonably certain that they will not attempt to get into Germany by force of arms, but only if Germany bids them come. They know the folly of outside interference for they realize that had it not been for the intervention of the Allies in Russia affairs the Soviet Government would have fallen long ago.

his reference to the League of Nations. The attitude of the Soviet Government toward the league has long been antagonistic. There has been much speculation as to the real cause of the Bolshevik opposition. Strange enough, the arguments used against the league by the Bolshevik government are in all essentials the same as those used by the opponents of the league in the United States. This attitude is directly opposed to that of organized labor throughout the world. This is a hopeful sign.

"Labor and liberal opinion in every land, save Bolshevik Russia, are for the league. Bolshevik Russia is for the rule of the proletariat in all countries working as a unit as opposed to the idea of the league which is an association of governments for the purpose of maintaining peace among nations and bringing about a better understanding between citizens of every class and creed.

A motorist while touring got stalled in a tenebrous muddle. While making a vain attempt to escape, a pair appeared with a team of horses.

"Hail you out, mister?" "How much do you want?" "Three dollars."

"After a long and fruitless argument the motorist was pulled to dry land. After handing over the money the motorist said:

"Do you haul many cars out in a day?" "I have pulled out twelve today."

"Do you work nights, too?" "Yes, at night I haul water for the mudholes."

**Mrs. G. S. Cook Tells How
Master Medicine Overcame
Her Five Years of Misery
from Stomach Trouble.**

"Before I had finished my first bottle of Tanlac I knew I had found the medicine I needed," said Mrs. G. S. Cook, of 18 Hurd Street, Halifax, Nova Scotia, a short while ago.

"During the past five years I have endured all the miseries that go with a bad case of indigestion. I had no appetite to speak of, and there were many days when I scarcely ate a thing. In fact, I always dreaded to eat at all, for I knew so well what it would cost me. Even the lightest foods would ferment, causing gas, cramping pains and severe palpitation of the heart. My nerves were so completely shattered the least noise would upset me. I had headaches that were so severe sometimes I just had to take my bed and lie there for hours. At night I often had a pressure on my chest like I was smothering, and this, together with my extreme nervousness,

often kept me awake for hours, and always in the morning I felt almost too weak and listless to move. I just had a weak, draggy feeling all the time, and the least exertion would tire me out so completely I would have to lie down and rest.

"I kept hearing and reading about Tanlac and finally I concluded that a medicine that had helped so many others might help me, so I got a bottle. Well, it helped me from the first, and now that I have finished my fourth bottle I feel better than I have felt for years. My appetite is just splendid, and I can eat just anything I want and am never troubled the least bit with indigestion. I am free from those terrible headaches, my nerves are calm and steady and I sleep at night just like I used to when a child. It is a real pleasure for me now to attend to my household affairs, for I feel good all the time. My experience has convinced me that Tanlac deserves all the praise it is getting, and I am only too glad to tell about it."

Tanlac is sold in St. John by Ross Drug Co., and F. W. Munro under the personal direction of a special Tanlac representative.—Adv't.

PROVINCIAL NEWS FROM OUR CORRESPONDENTS

The N. B. Telephone Co. LIMITED

Long Distance Telephone Rates

The new schedule of Long Distance Rates as ordered by the Board of Commissioners of Public Utilities of New Brunswick, will go into effect on August 1st, and in order that the public may understand and take advantage of the different classes of service available, the following is given:

This is the simplest form of toll call and carries the lowest rate. There will be no charge for it unless connection is established with the TELEPHONE of the subscriber wanted. In most cases, this form of toll call will be found satisfactory and will save about 25 per cent., as compared with the person-to-person rate.

The station-to-station rate is computed on the basis of 5 cents for each six miles, up to 24 miles, and 5 cents for each eight miles beyond that distance, with a minimum charge of 10c. from 0 to 12 miles.

Person-to-Person Calls.—Where it is absolutely necessary that you speak to some particular person, tell the Toll Operator so.

The operator will endeavor to establish direct communication with the person wanted. If the call is completed, it will be charged at the person-to-person rate. If the particular person called for cannot be reached, the Operator will so report to the person calling; and if no further particulars can be supplied which will enable the Operator to locate the called person, and the order is then cancelled, there will be a report charge for the service rendered, approximately, one-fourth the station-to-station rate.

Person-to-Person calls require greater effort and, therefore, are charged for at a rate about 25 per cent. higher than the station-to-station rate. The minimum charge for such a call is 15 cents.

Collect Calls, that is calls on which the charges are to be reversed or paid for by the called party, are charged for at the person-to-person rate. The charges on a station-to-station toll call cannot be reversed.

There are also two special classes of person-to-person calls, Appointment Calls and Messenger Calls.

(1) Appointment Calls are person-to-person calls which provide that communication is to be arranged for establishment at a specified future time. The rates for appointment calls are approximately 50 per cent. higher than the rate for station-to-station messages between the same points or approximately 25 per cent. higher than the corresponding person-to-person rate to provide for the greater operating effort required to complete them. The report charge is applicable on this class of call.

(2) Messenger Calls are person-to-person calls on which the called person is not available at a telephone and on which the telephone company undertakes to notify him, by messenger or other means, that communication is desired with him by long distance telephone. Messenger service is furnished at cost on guarantee of payment by the calling person and the charges for such service are, in every case, in addition to the regular rates for messenger long distance calls which are the same as those for appointment calls, as explained in paragraph (1) above. The report charge applies to this class of call.

Reduced Rates for Night Long Distance Calls. Reduced rates for night service apply when the calls are on a station-to-station, person-to-person, appointment or messenger basis and are effective between 8.30 p.m. and 7 a.m. (Atlantic Standard Time). The night rates are approximately one-half of the day rates. The minimum night rate is 25 cents. Day rates apply on calls made at night when the charge is less than the minimum night rate.

EXAMPLES

Table with columns: Station to Station Rate, Person to Person Rate, Appointment and Messenger Rate, Report Charge. Rows include St. John to Fredericton, St. John to Moncton, St. John to Newcastle, St. John to St. Stephen, St. John to Sussex, St. John to Hampton, St. John to Rothesay, St. John to Westfield.

These rates are for an initial period of three minutes; overtime per minute is approximately one-third of the initial rate.

The rate for Two-Number No-Delay service from St. John to Rothesay and Westfield is 10 cents for three minutes and 5 cents for each additional two minutes.

If any further information is required as to Long Distance rates, call Exchange Manager.

Three Days' Meet Closed at Fredericton Yesterday — Bill Sharon Staged Wonderful Trotting Exhibition After Brage Loved Trotting Record.

Fredericton, N. B., July 29.—What was generally conceded to be the greatest meeting of the Maritime and Maine Circuit closed today with a record breaking racing.

Bill Sharon staged one of the most wonderful trotting exhibitions ever seen in the East in winning the free-ball trot after Brage, the Halifax trotter had reduced the trotting record of the track from 2:14 1/2 to 2:11 1/2 in winning the first heat. Bill Sharon came back with two successive miles in 2:11 1/2 and then won the final in 2:12 1/2.

Saskia the former Bay State Circuit performer was favorite in the 2:19 trot but failed to come up to expectations despite repeated warnings to her owner-driver Mr. Keyes. She wears coarse hoppers and when she broke was usually all off. Then "Red" Manville carried her so fast with Togo M., which looks like the fastest green trotter out down here this season, that he took a win record of 2:14 1/2.

The judge called Harry T. Hayes of Rochester N. H. to the stand before the last heat and warned him of the penalties for failure to win if he could do so. The battery for the action was taken as it was quite evident Valley Forbes was not ready.

An interesting junior game of ball was played last evening on the Government grounds when the Fort Howe Shamrocks trimmed the Red Sox by a score of 7 to 1. The battery for the winners was Cochran and Coyle and for the losers White and Halpin.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepin, bhmutth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic druggistic just try the effect of a little bisulphated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisulphated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that the provided you take a little bisulphated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow; and moreover, the conservative use of the bisulphated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

Interesting Rumor Going the Rounds That Return Match is About to be Fixed in Near Future Between Joe Beckett and Georges Carpentier.

Copyright, 1920, by Cross-Atlantic News Service. By EDGAR C. MIDDLETON, London, July 29.—An interesting rumor is at present going the rounds of the London boxing world to the effect that negotiations have been proceeding, and a return match is about to be fixed for the near future between Joe Beckett and the illustrious Georges Carpentier for the heavy-weight championship of Europe.

Boxing authorities here generally favor the Frenchman's chances of repeating his victory at the Holborn Stadium last winter. Though the stadium is expected to prove less dramatic, it is being openly stated that Carpentier should experience little or no difficulty in putting out his rugged but less gifted opponent inside of five rounds.

By McCormick, Britain's light heavyweight champion, has fought things up with Tom Gibbons. His sensational defeat at the hands of Carpentier taught the British champion more in the brief two minutes that the man was in the ring than in the whole of his boxing career before. It will be no doubt whether the young Frenchman can administer any further lessons in the noble art as whether Beckett's newly acquired ring-craft plus an inordinate capacity for taking punishment will go down again before such another hurricane attack.

There is a better irony in the fact that while boxing in England today is enjoying an altogether unprecedented boom, the only three runners of promising material from which to provide British champions of the future, the eight world's championships England holds only one, the fly-weight, Jimmy Wilde, the solitary brilliant exception who has just returned from a triumphant tour of the States to meet Pete Harman for the bantam-weight, already has announced his definite intention of retiring from the ring in the coming autumn.

The standard of boxing exhibited at the recent British and French Army and Navy boxing tournament at the Holborn Stadium fell far short of the accepted average. Eventually the British competitors won out by 5 to 3, but half-way through the proceedings it was tough and go whether the admittedly more skillful but less experienced Frenchman would not claim all the remaining events. Dagler Lake, who was considered as a hope for the bantam-weight world's championship was easily disposed of by Sergeant Dedieu of the French Air Service, while Guardsman Penwill, another hot favorite for forthcoming professional honors, only managed to win through on points.

Post-Series Games Will Be Played

City League is Finished and St. Peter's Are Winners—Season Very Short—At Meeting Held Last Evening It Was Decided to Hold Post-Season Series.

The concluding game in the City League was played last evening and the league has closed for the season. The results show that the St. Peter's team are the winners of the league championship by a good margin and hence winners of the cups donated for premier honors.

A meeting of the executive of the league will be held next Monday in the G. W. V. A. rooms for the purpose of drawing up a schedule. The suggestion was made at last night's meeting that the three teams in the league contribute in the offering of a cup to be donated to the winners of the post-series. This suggestion will very likely be acted on.

The Industrial League Game

Close Baseball Game on Nashwaak Park Last Evening—Nine Inning Game Finished With Stetson, Cutler Defeating Simms 4 to 3.

There was a good crowd of fans on the Nashwaak Park grounds last evening to witness the Stetson-Cutler Beavers win one on the T. S. Simms team in a nine inning game.

Table of Industrial League game results: Stetson Cutler Beavers vs T. S. Simms.

NOVA SCOTIA BASEBALL GAMES Halifax, N. S., July 29.—The Wanderers this evening defeated the Chase Lettdown baseball team by a score of 9 to 5. It was a good exhibition of baseball and the result was in doubt until the final inning.

A Chicago girl swimmer, Miss Sybil Bester, member of the Illinois A. C., holds the world's one-hundred-yard backstroke record.

Trapshooting Notes of Interest

St. John Association Will Send a Team to Yarmouth — Morris of Montreal Shoots Killam at Glen Falls This Afternoon.

Everything is shaping up well for the second annual tournament of the St. John Trapshooting Association to be held at the Glen Falls traps on August 9th and 10th.

Can Man o' War Overtake Domino? His Winnings, While Big, Are Still Far Behind Record for America.

Man o' War goes to Saratoga the winner of \$123,456, and horsemen are now speculating as to how much the great colt will yet pile up before his turf career ends. At the Springs he is expected to start in the Travers, which last year was worth a trifle less than \$100,000, and in the Saratoga Cup, the value of which was a little more than \$50,000 in 1919.

"The Right of Way" Packed The Imperial

Sir Gilbert Parker's Greatest Story Proves an Irresistible Attraction—Then Fatty Arbuckle Supplied the Laughs.

Imperial Theatre had a summer line-up of patrons along King Square last evening, so eager were people to see the filmed version of the great Canadian story, "The Right of Way," written by Sir Gilbert Parker—who by strange coincidence is in town today with the British Press party—and played by the Metro stars, headed by Bert Lytell. Nobody was in the least disappointed; it was a delightful presentation. After the seven-reel serious story, no less personages than Fatty Arbuckle and Buster Keaton started roars of hilarity with their funniest of two-reel farces entitled "The Garage." The same show at the Imperial for the remainder of the week.

E. & C. RANDOLPH'S MARKET REPORT

(Furnished by McDougall & Cowans.)
New York, July 29.—Stocks closed higher. Quite a little activity developed in the rails during the afternoon under the leadership of Reading and S. R. The former advanced nearly three points. There is said to be a strong pool operating in Southern Railway. This firmness in the rail market tended to stimulate activity in the industrial and higher prices were scored. While it is said that some good buying came into the market today there also was some heavy covering by shorts in face of a 7 per cent money rate and the optimistic utterances of Governor Harding of the Federal Reserve Board on business and credit conditions. Steel was firmer, as were Baldwin and some of the other market leaders. The Mexican oil stocks gained several points. It was announced that the Illinois coal strike will probably be ended within a few days. This would naturally benefit the Steel industry.

DUNLOP RUBBER CO. OUTING.

A unique feature of the Dunlop Rubber Company's outing this year was the meeting of Dunlop Canada and Dunlop America on the historic grounds of Niagara.

Dunlop America, Limited, is the big new rubber industry launched this year in the United States by the Dunlop Rubber interests of England. When the outing of the Dunlop Tire and Rubber Goods Co., Limited, was being planned in Toronto for July 24th to Niagara-on-the-Lake, the suggestion was made to have the employees of Dunlop America cross over into Canada and hold one big day with their brother rubber men on this side of the line.

The upshot of the suggestion was a series of games—and a medley of sports in general—in which the employees of both companies, and their families took part.

The unique setting of the affair, however, was in the form of a letter which Mr. J. Westren, general manager of the Dunlop Company in Canada, despatched through an emissary to Mr. P. D. Saylor, general manager of Dunlop America, Ltd., of Buffalo.

This letter touched on the significance of the gathering, wished them success in a business sense and hoped for many happy returns of this particular event. A miniature Canadian Ensign was enclosed.
Mr. Saylor's emissary brought a reply, containing a reference to the prosperity of the industry in general and speaking of the pleasure "Baby" Dunlop, of Buffalo had in meeting "Brother" Dunlop, of Canada. The epistle was accompanied by a miniature Stars and Stripes.

Farm Laborers For The West

Canadian National Railways Will Give Reduced Fares and Special Train Service on August 6th and 13th.

Harvesters are urgently needed in West to garner in the wheat yield of Canada. Estimates are that over 300,000,000 bushels of wheat stand ready for

reaping. This in addition to other grains.
The call of the West is for 30,000 farm laborers to harvest this immense grain crop. Canada's prosperity depends on the response.
The Canadian National Railways is prepared for the transport of harvesters from all parts of the system. From Maritime Province points special arrangements have been made. Reduced fares to Winnipeg are to be granted on August 6th and 13th, and special trains will run via Quebec Bridge, and from Quebec to Winnipeg via the Transcontinental Line as the best and quickest route from Maritime Province points. The trains

will carry the best type of new colonist cars, and special arrangements will be made for the supply of box lunches en route. Special provision will be made for women accompanying the party or desiring to take advantage of the excursion rate.
Via Valley Route.
The fare from St. John to Winnipeg is \$20.25, plus half a cent per mile to points west of Winnipeg. The return fare is half a cent per mile from all points west of Winnipeg to Winnipeg, and \$5.00 from Winnipeg to St. John via Valley Route.
Full information will be supplied by all Ticket Agents of the CANADIAN NATIONAL RAILWAYS.

The Great Impersonation

(Continued from yesterday.) In this instance," Dominiey protested, "it is not a matter of loyalty, Edward Dominiey cannot throw himself at the feet of the Princess Eiderstrom, well known to be one of the most passionate women in Europe, whilst her love affair with Leopold von Hagenstein is still remembered."

Seaman was silent for a moment. "There is reason in what you say," he admitted presently. "It is for a few months only. What is your position?" "That you see the Princess in my place at once," Dominiey suggested eagerly. "Point out to her that for the present, for political reasons, I am and must remain Edward Dominiey to her as to the rest of the world. Let her be content with such measure of friendship and admiration as Sir Edward Dominiey might reasonably offer to a beautiful woman whom he met only for the first time, and I am entirely and with all my heart at her service. But let her remember that even between us two, in the solitude of her room as in the drawing-rooms where we might meet, it can be Edward Dominiey only until my mission is ended. You think, perhaps, that I do not. I know the Princess and I know myself."

Seaman glanced at the clock. "At what hour was your appointment?" "It was not an appointment, it was a command," Dominiey replied. "I was to be at Belgrave Square at seven o'clock." "As you understand with the Princess," promised Seaman, as he took up his hat. "Dine with me downstairs at eight o'clock on my return." Dominiey, descending about an hour later, found his friend Seaman already established at a small, far-away table set in one of the recesses of the grill room. He was welcomed with a little wave of the hand, and cocktails were at once ordered. "I have done your errand," Seaman announced. "Since my visit I am bound to admit that I realize a little more fully your anxiety. I have seen you probably had not met the Princess before?" "I had not. I must confess that I found her a lady of somewhat overpowering temperament. I fancy, my young friend," Seaman continued, with a twitch at the corner of his lips, "that she was only waiting for you to find your haire full."

Automobile Runs Wild On King St.

Started on Own Accord, Crossed Street and Crashed Through Macaulay Brothers' Plate Glass Window - Small Boys Thought Responsible.

A bad break was made on King street about 9:30 o'clock last evening by a 1919 Buick Special, owned by A. K. Kierstead, the North End grocer, and bearing the N. B. license tag 1403, was the car that gained entrance to Macaulay Brothers' dry goods establishment by shattering one of their large plate glass windows.

The car was left by the curb in front of the Chocolate Shop on the opposite side of the street, by the driver, while she and a girl friend went inside. Shortly after she left the car it started to rattle across the street. It gained momentum and by the time it reached the opposite side it did not stop at the curb, but continued right on across the sidewalk and thrust its fender through Macaulay's plate glass window.

REGARDING THE COAL EXPORT. August first next will see a return to wartime conditions on the Atlantic Coast so far as coal is concerned, as that date no coal may be exported from the Atlantic St. Lawrence or Gulf Ports of Canada, except to the United States or Newfoundland, according to a decision received yesterday at the local custom house by Keith Harbour.

That the St. John and Quebec Railway Co. had not been declared either expressly or by implication, to be a railway for the general advantage of Canada, was the judgment delivered by Chief Justice Sir Douglas Hazen in the Chancery Division of the Supreme Court sitting in chambers yesterday.

By an act of '15 all the capital stock of the company was declared to be vested in the province, except that in favor of the Prudential Trust Co., and the officers and directors of the company were dissolved and other persons were named in their place.

By an act of '16 certain persons were appointed to act as directors, and by an order-in-council passed in May, '17 the defendants were appointed and two hundred and fifty shares of the company's stock distributed as of Fredericton, for the defendants.
