## § 1. Brief History of the Collegiate School.

The Academy at Windsor, now known by the name of "THE COLLEGIATE SCHOOL," was opened on the 1st November, 1788, under the charge of Mr. Archibald Payne Inglis.

This official act was the outcome of a series of Resolutions passed by the House of Assembly of Nova Scotia on the 28th of November, 1787. (1) The ceremony was performed by the Right Rev. Charles Inglis, D. D., who had arrived in Nova Scotia on the 16th Oct., 1787. Seventeen pupils were in attendance, among whom was John Inglis, (2) subsequently the Right Rev. John Inglis, D. D., third Bishop of Nova Scotia. In February, 1789, the Academy was publicly-visited, there being then 25 pupils, including ten boarders.

### The Establishment of King's College.

In the year 1789, the Lieutenant-Governor, Council and Assembly of Nova Scotia enacted that a COLLEGE should be established at Windsor, and that it should bear the name of "King's College," and the Governing Body should be styled "THE GOVERNORS OF KING'S COLLEGE, OF NOVA SCOTIA."

The Act further provided "that the Governors might employ a person and persons to act as 'temporary President' and 'temporary Professors,' until a sufficient building should be erected, and a Charter obtained from our Most Gracious Sovereign to authorize the opening of the College in due form."

The Charter was granted on the 12th May, 1802, and "King's College of Nova Scotia" became "THE UNIVERSITY OF KING'S COLLEGE, AT WINDSOR."

(1) Murdoch, in his "History of Nova Scotia," says, "In Council, 17 July, 1770. The Governor proposed the appropriation of the reserved lands at Cumberland, for the endowment of a public Seminary of Learning, hereafter to be established at Windsor, to which the Council agreed, and resolved that Mr. Winslow and Mr. Huston be requested to take care of those lands until further direction."—Page 494, Vol. II.

(2) In the Preface to the "Memoranda respecting King's College, at Windsor," dated Halifax, Feb. 26, 1836, and signed "JOHN NOVA SCOTIA," the following passage occurs:—"My name stood first upon the List of Students, at the Opening of the Academy, at Windsor, in Nov. 1788; and I have been intimately connected with the Institution ever since. This is mentioned only to show that I must be well acquainted with all its history, and to justify the anxiety I feel for its preservation from injury and wrong."

(3) "In pursuance of the wish of the Legislature of Nova Scotia, the Bishop was earnest in his endeavours to procure a fit Clergyman to take charge of the Academy at Windsor, and wrote to the Archbishop of Canterbury, requesting His Grace to enquire for, and forward such a person, well knowing that the Institution would derive great benefit from having at its head a person selected and approved by His Grace. The Archbishop endeavoured to meet this wish, but was disappointed; and a nephew of the Bishop, at the Bishop's particular desire, though averse to such employment, consented to take the charge for one year, that the injury of a long delay might be avoided. The Academy was opened, with prayers, on the 1st of November, 1788, by the Bishop, who delivered a Latin Oration upon the occasion, and received and answered a very kind Address from the Magistrates and principal Gentlemen of the County of Hauts."—[Memoranda respecting King's College at Windsor, in Nova Scotia. During the hundred and five years which now compass the life of the Collegiate School, it has been under the successive management of seventeen clergymen of the Church of England, and six laymen, as Principals or Head-Masters. The number of pupils who have received training within its walls approaches 2,500. Many of these have passed from the School to King's College, and are numbered among the 800 members of that Institution. The Collegiate School, at the close of its first century, has succeeded in stamping its record upon the history of three Provinces of the Dominion, the Crown Colony of Newfoundland, and some of the West India Islands—a record probably without parallel in any of the dependencies of the British Crown.

### § 3. The Collegiate School Buildings.

The Academy commenced its life in Susanna Francklin's house, close to the present College grounds. A tract of twelve acres, with the house, was leased to the Governors of the Academy on May 18th, 1790, for five years. After the lapse of the lease the Academy was moved to part of the newly erected College Buildings, where it remained until 1822.

In 1822 a handsome stone structure was completed for the Academy, by the Governors of King's College, within the limits of the College property, and certain lands attached as recreation grounds. The building cost \$27,756, of which amount \$12,000 was derived from the so-called "Arms" Fund. In 1871 this building was burned.

In 1877 the Governors of King's College, aided by very liberal voluntary subscriptions, erected the present handsome school building. A gymnasium was subsequently added, through the exertions of Rev. Dr. Willets, then Head-Master of the School.

A neat and comfortable cottage was also erected in the Gardens, for use as an Infirmary.

During last year the Gymnasium was moved, and a large and commodious new building added to it, containing music-rooms, work-shop and play-room, a description of which will be found below.

Thus, step by step, the appliances of the School have been developed and increased; and thus, in its 106th year, the Collegiate School can claim to rank with the best equipped and most progressive schools in the Dominion.

During the last two years many extensive and important additions and improvements have been completed, an account of which will be found below.

#### § 4. *The Re-organization of the Collegiate School.*

Having in view the progress which has been made during late years in the Education and Training of Boys, and in response to a Memorial of the SYNOD OF THE DIOCESE OF NOVA SCOTIA, assembled in Halifax during the first week of July, 1892, the Governors of the University of King's College, who are the responsible Trustees of the Collegiate School, decided at once to remodel the Institution and place it upon a footing commensurate with modern requirements in Education, Discipline and Domestic Comfort.

The preliminary steps were taken without delay; Mr. H. M. Bradford being appointed Head-Master in succession to the Rev. Arnoldus Miller, with instructions to secure a full and efficient teaching staff. At the same time a Committee of Management was formed, consisting of the five Governors resident in Windsor, and the Head-Master.

##### **Work of the Collegiate School Committee.**

The first care of the Committee was to put the interior of the School buildings into a good sanitary condition, and to make every possible provision for domestic comfort. The walls, floors and ceilings were thoroughly gone over, and in many places renewed; a new lavatory was fitted up, and the sanitary arrangements greatly improved. The dormitories were almost completely refurnished, the old wooden bedsteads being replaced by strong iron "Hospital" beds, with spring mattresses, while each boy has a bureau and washstand to himself.

The work of levelling and draining the Cricket Field was commenced in the Autumn of 1892, and continued as long as the weather allowed. A large dyke was erected at the side of the Gymnasium, with sluice gates to dam the brook during the winter, thus providing an excellent open air

skating rink, which was used for several weeks in the early part of the winter.

In the Spring of 1893 out-door work was resumed on all sides; the cricket field completed, the old barn and sheds torn down so as to give free access of air and light to the school-rooms, the Gymnasium moved back one hundred feet, and extended towards the drive by the addition of a large and convenient new building, designed for play-rooms, music-rooms and workshop. A more detailed account of this new building will be found in another part of the Calendar.

In the summer holidays the Committee again turned their attention to the sanitary arrangements, removing all traces of the old system, both around and underneath the buildings, and replacing it by the best available appliances.

The building was heated throughout with hot water, on the overhead system, and new baths introduced, with a separate heater. The Infirmary, too, underwent thorough repairs, and was connected by telephone with the School.

The whole summer was taken up in completing these works. About \$10,000 in all has been spent on improvements and new furniture; and now the School has every reason to be satisfied with its equipment, and can claim to rank with the best in the Dominion.

#### **Growth of the School Under the New Regime.**

The initial changes briefly sketched in the above paragraphs took place in the middle of a School year, when a large number of new pupils could hardly be expected under any circumstances. The new management however, received every possible mark of public confidence. In the Michaelmas term of 1892, the School roll showed only 14 boarders and 2 day boys. When the new Head-Master and staff opened School on January 19th, 1893, there was a muster of 25 boarders and 5 day boys; and before the end of the Easter term the number in actual attendance was 30 boarders, 5 day boys and 2 elective students. Thus, within five months, the number of pupils was more than doubled, and it has been steadily increasing ever since, in the Easter term of 1894 being 40 boarders and 9 day boys. This has been a period not only of rapid increase in numbers, but of rapid development in other respects; the library, and the cricket, chess and other clubs are now established on a sound working basis, and have been greatly helped by donations of all kinds from various friends of the School, all of which are acknowledged in the proper place in this Calendar.

† A reduction of twenty per cent. of this fee will be made in the case of sons of Professors in King's College.

§ 7.

**Regulations.**

1. Pupils of the Collegiate School must observe strictly all such rules as are at any time issued by the Head-Master, and must at all times and in all places conduct themselves as gentlemen. These are the first conditions of continuance at the School.
2. Boarders are required to come into residence on the day before the commencement of term.
3. Boarders may remain in residence during the Easter and Christmas vacations, but not during the Summer. In the case of boys who live in the West Indies, or other distant places, and whose parents do not desire them to return home for the long vacation, the Head-Master will, if notified in good time, make suitable arrangements for their disposal during the summer months.
4. All mail correspondence to and from pupils will pass through the hands of the Head-Master, who may, at his discretion, stop any such as is not authorized by parents. This discretion is not exercised unless there is good cause for considering it necessary.
5. Boys receive their weekly allowance of pocket-money every Saturday morning, and parents should notify the Head-Master in advance how much they desire their sons to have, so that the amount may be charged in the terminal account.
6. General Reports of Progress and Conduct are sent to parents in October, February and May; and Detailed Reports at Christmas and Midsummer.
7. All requests should be addressed to the Head-Master, and not made through the pupils. The same applies to telegrams.
8. Pupils will not at any time be allowed to see visitors except through the medium of the Head-Master.
9. Parents intending to send their boys to the Collegiate School should first obtain an application form, to be filled in and returned to the Head-Master. This form, so filled in, will state the extra subjects which each boy is to take, and no such subject can afterwards be discontinued without a written request from the parent. The same applies to subjects commenced at any subsequent time.

## § 10. Mechanical Arts and Applied Science.

Pupils at the Collegiate School possess exceptional advantages for the commencement of practical work in the following branches:—

I. *Practical Chemistry.* Senior boys may attend the Lectures and Demonstrations in King's College, with the use of the Chemical Laboratory, on payment of a fee of \$6 per term, under the direction of Professor G. T. Kennedy, M. A., D. Sc., F. G. S., etc.

II. *Practical Engineering.* Senior boys may attend the Field Lectures in this subject under Professor W. R. Butler, M. E., on payment of the fees prescribed for Elective Students.

III. *Mechanical Arts.* The new Workshop in connection with the School, lately completed, will be devoted to practical work in Carpentry and other branches as soon as it can be fitted for that purpose.

Attendance at the above courses will not in any case be allowed to interfere with other School work; but will be regarded rather in the light of a privilege that will be granted by the Head-Master to pupils whose good conduct and perseverance in their studies may be such as to entitle them to special consideration.

---

## § 11. Preparation for the British Army.

Candidates for the four Commissions offered annually to Canada can be prepared at the Collegiate School; and King's College, as a Chartered University, is empowered by the regulations of the War Office to grant—after a short period of residence or attendance—certificates exempting from the whole of the Literary Examination except in Geometrical Drawing. Papers in this subject are sent out, when required, by the Civil Service Commission. Full particulars as to the above course may be obtained from the Head-Master, who has had large experience in this connection.

portar

The partition wall between the music-room and gymnasium is constructed of heavy moveable panels, so that this room can be used either as a platform at concerts and closing exercises, or to supplement the gallery in accommodating spectators at gymnastic displays. The second floor of the new building (not shown in the cuts) affords spacious rooms for storing trucks, cricket materials, etc.

The following donations have already been made towards the cost of the new building :—

The Lord Bishop of Nova Scotia.....	\$50.00
W. C. Silver, Esq.....	50.00
J. Y. Payzant, Esq.....	50.00

## § 14.

**Cricket and Field Sports.**

In accordance with the traditions of the School, the game of cricket is encouraged in every possible way. During last year the cricket field was levelled and thoroughly drained, seeded and rolled, and the boundaries terraced and planted with rows of maples. It is now without doubt one of the finest in the Province.

The Collegiate School Committee have evinced their desire to stimulate the boys by offering prizes for the best batsman, bowler and fielder every season. All the masters take an active interest in this game, and the cricket captain, Mr. Gent, has the boys out for net practice every fine afternoon during the season.

The School cricket team for 1893 was composed as follows :—Mr. Gent, (Captain), Mr. Acklom, Mr. Bradford, McCallan, (vice-Captain), Barnhill ma, Leslie ma, Roué, McDowell, Spinney, Perrin and Hensley. Extra men—Mott and Weston.

The team for 1894 is as follows :—Mr. Gent (President, *Perrin* (Capt.), *Leslie ma*, (Sec'y), Mr. Bradford, Mr. Acklom, *deVebre*, *Roué*, *Macdowell*, *Leslie mi*, *Uniacke*, Poole, Hensley, Weatherbe. (Those whose names are in italics have won their colours).

**The Skating Rink**

Is situated in a field at the side of the Gymnasium, where a space measuring 120 feet by 100 feet is entrenched, which can at any time be flooded by damming a small rill. In the winter the skating rink so formed is an important addition to the means of out-door enjoyment and exercise.

## The Library.

## Committee for 1894.

Mr. Bradford,  
 Mr. Acklom,  
 Mr. Gent, (*Librarian*),  
 George Hensley, } (*Assistant Librarians*).  
 G. H. Archibald, }

As will be seen from the catalogue, the Library has grown considerably since the commencement of last year. It now contains over 500 volumes in good condition, besides a large number of excellent magazines and books, many of which will be bound as soon as funds permit. The success of the Library is largely due to the efforts of Mrs. Kaulbach, who collected contributions to the amount of \$58.20, out of which the sum of £10 was forwarded to the Society for the Promotion of Christian Knowledge, and supplemented—on the application of the Lord Bishop of Nova Scotia—by a further grant of £10 by that liberal Society. Many valuable presents of books and magazines have been sent in by various friends, whom the committee takes this opportunity of thanking in the name of the School.

The greater part of these were acknowledged in the last Calendar, and the following list contains all that have been received since June, 1893 :—

§ 16. **Scholarships, Prizes, etc.**

I. The "Bishop's" Scholarships.

These are six in number, each of the value of \$60 per annum, and tenable for three years in the Collegiate School. They are awarded—at entrance or otherwise—by the Lord Bishop of Nova Scotia, to sons of clergymen in his Diocese.

II. The Senior "Alumni" Exhibition.

This is of the value of \$40, and is offered every year to the Senior Classical and Senior Modern Forms by the Alumni of King's College. In the examination the following branches shall carry equal marks :—

1. *English*—(Grammar and Analysis, History of England, and General Geography).
2. *Latin*—(Grammar, Prose Composition and Translation).
3. *French or German*—(Grammar, Composition, Translation and Conversation).
4. *Mathematics*—(Arithmetic, Algebra up to Quadratics, and Euclid, Books I and II.)
5. *Greek*—(Grammar and Translation) or Higher Mathematics (Algebra, up to Binomial Theorem, Logarithms, Plane Trigonometry and Euclid, Books III and IV.)

The Exhibition will be awarded to the candidate who obtains the highest aggregate of marks in this examination, provided that he is qualified to matriculate at King's College, though it is not necessary for him to do so.

III. The Junior "Alumni" Exhibition.

This is of the value of \$20, and is offered every year to the candidate—not being in either of the Senior Forms—who shall obtain the highest aggregate of marks in the midsummer examinations, in which the different subjects will be assigned the following values :—

1. Mathematics, viz., Arithmetic .....	100
Algebra .....	50
Euclid .....	50
2. English .....	150
3. Latin .....	150
4. French or German .....	100
5. Greek .....	100
6. Drawing .....	50
	750

NOTE.—The method of marking for all the Alumni exhibitions shall be as follows:—The marks of the top boy in each subject shall be reduced to the maximum allowed for that subject, and all the other marks reduced in the same ratio.

#### IV. Nominations for King's College.

Two Nominations are placed by the Board of Governors at the disposal of the Collegiate School Committee. They will be given—at the discretion of the Committee—to pupils of the Collegiate School who matriculate and enter at King's College, and they carry exemption from certain annual fees during the College course, and from the Bachelor's degree fee at the end of it. The conditions attached to such Nominations will be found in the College Calendar.

§ 19. **The Glee Club and Games Fund.**

The Glee Club was established early in the Michaelmas Term, and has been very active during the year. The club rents a piano, and has the use of the largest room in the new building. Funds have been raised by private subscription and from the proceeds of public entertainments. The dance given just before the Christmas vacation was one of the prettiest and most successful ever given in Windsor, and the expenses are more than covered by the surplus from the two performances in the Easter Term. At the first of these, on Saturday, April 14th, the following programme was presented:—

AT EIGHT P. M.—The Comedietta, by Theyre Smith,

**"A Happy Pair."**

Mr. Honeyton.....MR. GENT.  
Mrs. Honeyton.....MISS ASHWORTH.

AT NINE P. M.—The Farce, by Frank Marshall,

**"Mad as a Hatter."**

Mr. Crotchety Fuzzleton—(A gentleman with ideas on moral force over mental aberration).....MR. GENT.  
Charles Harebrain—(His Nephew, victim of the above ideas) G. S. HENSLEY.  
Dr. Amens—(The great expounder of "Amentia").....C. DEVEBRE.  
Dr. Wye Zed—(F. R. C. S., the author of "Congenital Imbecility,".....H. G. FULLER.  
Bob—(Author of "Nothing at all,".....J. BESSONETT.  
Fanny Fuzzleton.....E. M. ARNAUD.  
Maria Jane—(Her Maid).....T. A. DAVIES.

Again, in Eneacenia week, the club contributed its share to the amusement of the many visitors who came to Windsor for the closing of the two Schools and the College. The performance of April 14th was repeated by

request on Tuesday, June 19th, with the addition of the following short concert programme:—

Duet, Violin and Piano—"Rosamonde,"	<i>Schubert.</i>
M. BERNHARD WALTHER, MISS HARVEY.	
Piano Solo—"Barecarolle,"	<i>Rubenstein.</i>
MISS BERTHA HARVEY.	
Song—"Oh! Oh! Hear the Wild Winds Blow,"	<i>Mattei.</i>
MR. G. M. ACKLOM.	
Flute Solo—"Good-Night,"	<i>Keppler.</i>
SERGEANT CUNNINGHAM.	
Song—"An Old Love Dream,"	<i>Denza.</i>
MADAME WÄLTHER.	
Violin Solo—"Legende,"	<i>Wieniawski.</i>
M. BERNHARD WALTHER.	

The funds of the Glee Club are now amalgamated with the General Games Fund, and considerable expense has lately been incurred in laying a cinder running track round the cricket field, which is to be ready for use at the athletic sports in the Fall.
