NO MORE PIGS' EARS IN YOUR CANNED CHICKEN

Washington Hands Out Some Rules for Guidance of Public When They Buy Packers' Products.

Washington, Sept. 20.—Further rulings in connection with the enforcement of the meat inspection law, after October 14 next, were made public today by Secretary of Agriculture, and give an idea of what consumers are to expect hereafter when purchasing meat products, particularly canned goods. Anything saving of a false or deceptive name will not be tolerated, and no picture, design or device which gives any false indication of origin or quality will be permitted upon any label, as for example, the picture of a pig appearing on a label placed upon beef products or the picture of a chicken upon the label of a veal or pork product. Geographical names are allowed to be used only with the words "cut," "type," "brand" or "style" as the case may be, except upon foods produced or manufactured in the place, state, territory or country named. For instance, "Virginia ham" must be marked "Virginia style ham," "English brawn," "English style brawn," "Westphalia ham" must be "Westphalia style ham." The word "ham" without a prefix indicating the species of animal, is considered by the department to be a pork ham, but trimmings removed from the ham and used in the preparation of potted meats or sausages, or when used alone, may be known as "potted ham" or "ham sausage."

Frankfurter sausage no longer can be known as such, but must be called "Frankfurter style sausage." The rules clearly define what constitutes pure lard but prescribe that a substance composed of lard, stearin or other animal fat and vegetable oil may be labeled "lard compound." Among the restrictions are the following: "Picnic ham" cannot be called "ham," but may be called "picnic," or "picnic shoulder." "Little pig sausage" may be called "little pork sausage" or "pigmy sausage." Extract of beef must be actually made from beef, and veal loaf cannot be called such unless the meat used is veal only. The same rules apply to other canned products and manufacturers are warned that the rulings do not exempt them from the enforcement of state laws.

STILL PROBING THE FORESTERS

Dr. Oroniyatekha Makes Some Interesting Admissions About Its Conditions

BIG BONUSES PAID

Order Paid Out About \$40,000 a Year to Workers—Orphans' Home Borrowed \$200,000 --- Explains About Acquiring Union Trust Co. and Hiring Geo. E. Foster.

(Special to The Telegraph.)

Toronto, Sept. 20.—Dr. Oroniyatekha today related to the insurance commission the genesis of the formation of the Union Trust Company, established for the purpose of investing the surplus funds of the I. O. F. The supreme executive in December, 1898, declined an invitation to take a larger interest in the Provincial Trust Company. Subsequently representations were made to him by prominent members of the order of the advisability of making better provision for investing the surplus funds of the order and in January, 1900, a resolution was passed by the executive authorizing the purchase from time to time of stock in the Provincial Trust Company until a controlling interest was acquired. Wm. Laidlaw, K. C., to whom the task of securing the stock was entrusted, advised that a new company be formed and the Union Trust Company was the result. The increase in rates in 1899 over the old schedule of 1891 was shown by a statement filed by Dr. Oroniyatekha to have been from 26 to 110 per cent, the greater percentage being on advanced ages. From another statement filed it appeared that Dr. Montague received a special allowance of £200 in addition to his salary and expenses while in Australia representing the Foresters. Big Bonuses Paid. It also transpired that although expenditure under heading of "organizing work" was materially reduced in 1903 and 1904 the reduction was offset by a new item for "bonuses and commissions" which amounted to \$36,000 and \$40,000 respectively for the years named. The expenditures of publication of the official organ, for legal expenses and loss sustained by the operation of the case in the Temple building were also dealt with. A further loan from the sick and funeral benefit funds of \$150,000 to the orphans home, which also borrowed an additional \$50,000 from the Traders' Bank, was also disclosed by the evidence. "How did Mr. Foster's name come to be mentioned as a prospective manager of the company?" asked Mr. Shepley. "The executive were discussing the subject and I had one or two applications from gentlemen for the position. Events ally somebody—I think it was Laidlaw—suggested to me that we might be able to secure Mr. Foster. I put myself immediately in communication with Mr. Foster and eventually obtained his assent to accept the position if it were offered to him."

Dr. Oroniyatekha said the capital stock of the Union Trust Company was taken by the I. O. F. at \$10 per share and the subsequent increase of \$500,000 capital stock had been issued at the same rate.

Mr. Shepley next called attention to the fact that nowhere in the minutes of the I. O. F. was to be found direct authority for taking up stock in the Union Trust Company. Dr. Oroniyatekha said that might be so, but the principle of taking stock in the company was, he thought, confirmed at the Los Angeles meeting of the supreme court, and the action of the executive had since been ratified.

Whether the men they have met in Havana represent the sentiment of the entire island is a question that is troubling the American mediators. There is some fear at this point the entanglement is straightened out here the opposing forces in Santa Clara and Pinar Del Rio provinces, and even in Santiago, will not be satisfied. Mr. Davis realizes that unless the national spirit is aroused the commercial interests will have no confidence in any settlement that may be reached. On this point the mediators are confronted with their chief difficulty, for no way has been devised to obtain the sentiment of those in the field without treating with armed forces, which might be regarded as a recognition of the insurgents. Senator Alfredo Zayas is generally regarded as the official representative of the revolution, but he cannot claim that his instructions will direct the several revolutionary and terminate free intercourse with President Roosevelt's representatives.

FIRST CARGO SYDNEY RAILS FOR THE G. T. P. ARRIVES AT QUEBEC

Good Progress Being Made on New Transcontinental, and it is Expected to Be Finished in Four Years.

(Special to The Telegraph.)

Quebec, Sept. 20.—The first cargo comprising 1,500 tons of eighty pound steel rails for the transcontinental railway has arrived from Sydney (N. S.), by the steamer and Po and are being landed on the Quebec and Lake St. John Railway dock. It is said that 20,000 tons of rails destined for the construction of the eastern section of the new transcontinental railway from the Quebec bridge site at Cape Rouge to La Tuque will arrive at the port from Sydney before the close of navigation. In the meantime satisfactory progress is being made by the contractors on the construction, especially on the section in charge of M. P. Davis, who has all the labor he needs and expects to complete his contract of fifty miles and have trains running in two years' time. The Transcontinental Railway Commission is using every effort to have the whole line under their control from Winnipeg to Montreal unduly as soon as possible in order that the whole of the eastern section will be completed within the prescribed time and all the sections that are being interested in will be completed and trains running four years hence.

Calais, Me., Sept. 20.—J. M. Johnson, Republican, today gained six votes in a recount of ballots for representative from Calais, cast in the election Sept. 10. His majority over Brene Kalish, Democrat, who asked for re-count, is 33.

SECRETARY TAFT WARNS CUBANS TO STOP FIGHTING AND MAKE PEACE OR THEY WILL LOSE THEIR INDEPENDENCE FOREVER

REVIEW OF BATTERY A. MACHINE GUN CORPS AT CONJOLACION DEL SUR

Havana, Sept. 20.—A second day of conferences with the leaders of the factions in the Cuban conflict has not enabled Secretary of War Taft and Assistant Secretary of State Bacon to announce any plan of compromise. So strenuous are the appeals of both the Liberal and moderate party leaders that the situation becomes increasingly complicated as the negotiations proceed. However, Secretary Taft said tonight that he believed when they are brought face to face with the danger of losing independence forever, all patriotic Cubans will be willing to make concessions. Mr. Taft added that the United States peace emissaries are occupying a most delicate position and have undertaken to hear all complaints and "until they have made themselves thoroughly conversant with the political turmoil of Cuba they cannot express themselves freely in the conferences, fearing that possible misunderstandings may have a deterrent effect on the proceedings. The only counsel to the political leaders given by Mr. Taft was on the subject of not engaging in further agitation that might make intervention by the United States necessary. This advice he offers to all, regardless of party. Mr. Taft has made it clear that the United States is not seeking to exercise control over the island or any of its affairs, but he has quoted President Roosevelt's letter to Minister Quesada to the effect that it cannot shirk to those whom he has met in conference Mr. Taft said that now is the time to decide whether they would have Cuba live as a nation. He has weighed every word carefully and has neither softened nor criticized the principles of either faction. Cannot Treat With Rebels. Whether the men they have met in Havana represent the sentiment of the entire island is a question that is troubling the American mediators. There is some fear at this point the entanglement is straightened out here the opposing forces in Santa Clara and Pinar Del Rio provinces, and even in Santiago, will not be satisfied. Mr. Davis realizes that unless the national spirit is aroused the commercial interests will have no confidence in any settlement that may be reached. On this point the mediators are confronted with their chief difficulty, for no way has been devised to obtain the sentiment of those in the field without treating with armed forces, which might be regarded as a recognition of the insurgents. Senator Alfredo Zayas is generally regarded as the official representative of the revolution, but he cannot claim that his instructions will direct the several revolutionary and terminate free intercourse with President Roosevelt's representatives. One sentence from Senator Zayas's address as president of the Liberal party is attracting much attention as showing the relations between that party and the insurgents. Senator Zayas said: "The Liberal party is not revolution, but the programme of revolution must become the programme of the Liberal party."

DIVIDED "OLD HOME" SURPLUS

Fredericton Gave the \$275 to Victoria Hospital and the Firemen

WEDDING THURSDAY NIGHT

Blanchard Fowler of St. John Married to Miss Myra McLeod—Funeral of Dr. Thomas Harrison Largely Attended—Other News of the Capital.

(Special to The Telegraph.)

Fredericton, Sept. 20.—The citizens' committee on the Old Home celebration, held here in July, met in the mayor's office this evening and decided to divide the surplus of \$275 on hand between the Victoria hospital and the fire department, the former to have \$175 and the latter \$100. Mayor McNally, who presided, congratulated the several committees on the great success which had attended the celebration and expressed the hope that a similar one would be held in 1908, when Fredericton would complete sixty years as a city. The suggestion seemed to meet with the hearty approval of the meeting.

John N. Murray, of Dumfries, shot a large moose at Lily Lake, near his home, on Monday. He sighted the animal on the opposite shore of the lake at a range of 500 yards and succeeded in wounding it. The animal, mistaking the direction from which the shot had come, plunged into the water and swam directly towards Murray. He had no difficulty in dispatching it with another bullet. A very happy and interesting wedding was celebrated this evening at 8:30 o'clock at the residence of Rev. Dr. Joseph and Mrs. McLeod, when their youngest daughter, Miss Myra Rice McLeod, was united in marriage to Blanchard Fowler, son of Josiah Fowler, of St. John. The affair was most quiet, owing to the recent death of the groom's sister, which occurred very suddenly a few days ago. The bride was given in marriage by her eldest brother, Harry F. McLeod, and was attended by her niece, Miss Ada Dorothy Boyer, who acted as flower girl. The ceremony was performed by Rev. Dr. McLeod, father of the bride, assisted by Rev. J. H. McDonald, pastor of the Brunswick street United Baptist church. The bride, who is one of this city's most charming young ladies, wore a most becoming dress of Brussels lace over chiffon and silk with veil and orange blossoms and carried a bouquet of white chrysanthemums. The flower girl wore white organdie and carried a basket of pink sweet peas. At the conclusion of the ceremony a wedding supper was served at the house and the happy couple left this evening for St. John en route to Prince Edward Island for their honeymoon. On their return to St. John they will reside on Wright street. The bride was the recipient of many handsome presents from her friends in this city and elsewhere. Among the most highly prized gifts was a beautiful cut glass water pitcher with one dozen cut glass tumblers from the groom's employer, the Josiah Fowler Manufacturing Company, St. John, of which the groom is the managing director, and a handsome cut glass water bottle from the Golden Rule Circle of King's Daughters, of which the bride was one of the most enthusiastic members. There were a number of people here from outside places for the wedding, including Josiah Fowler, Miss Aline Fowler, Mr. and Mrs. N. P. McLeod and Mr. and Mrs. Allen D. Barbour, of St. John; Ronald Fowler, of Dorchester (Mass.); and Mr. and Mrs. J. Fred Boyer, of Victoria, Carleton county. The bride's going away costume was a tailor made navy blue suit trimmed with black soutache braid with navy blue hat with wings. The funeral of the late Dr. Thomas Harrison took place this afternoon from the University building, and had a large and representative attendance. The body was taken to the cathedral, where an impressive service was conducted by Rev. Sub-Dean Street, assisted by Rev. Mr. Oveis. The hymns sung by the choir included, "Oh God our help in ages past," "Peace, perfect peace," and "Abide with me." At the conclusion of the service the long funeral cortege reform and proceeded to Fort Hill cemetery, where the interment was made. The chief mourners included Dr. Darley Harrison, Arthur G. Harrison, Hon. Archibald Harrison, Frank Harrison, and Harry E. Harrison. The University senate was represented by Judge McLeod, J. D. Hazen, Judge Barry, Hon. Geo. F. Hill, and Principal Bridges. Hon. L. P. Farris represented the local government. The city schools were closed out of respect to the memory of the deceased, and the male teachers walked in the procession. Dr. C. C. Jones, the new chancellor, attended with the members of the faculty and students. Mrs. James Crangle is critically ill here from paralysis. Invitations are out for the marriage at Clair Station on October third of Augustine O'Brien to Nora Clair, daughter of Thomas Clair, M. P. P. Byron Adams, of McAdam Junction, and Miss Dora Shaw were married at George street Baptist church here yesterday by Rev. A. A. Rideout. Several local trotters including Kramont, Bourbon T, and Wilkes boy were shipped to Halifax this morning for the exhibition races. Four boys, charged with throwing stale eggs at a girl on Maryland Hill, were allowed to go by Col. Marsh this morning under suspended sentence.

TUNNEL UNDER DETROIT RIVER

Railway Commission Has Approved of Plans Which Will Be Double Tubes

COST TEN MILLIONS

Ottawa Mayor Announces That Somebody Has Tampered With a Contract for the Library Just Finished—Japan Sends Thanks to Canada for Generous Donation.

(Special to The Telegraph.)

Ottawa, Sept. 20.—Sir Claude MacDonald, British ambassador at Tokio, has forwarded a letter of thanks which he received from the heads of some sixteen villages in the north eastern district of Japan, where the famine was prevalent, to the trade and commerce department thanking the Canadian government for the large amount of flour which had been sent to relieve the sufferers from Canada. A two and a half year old daughter of Michael Goldfield ran in front of a St. Patrick street car tonight and had her right leg cut off. At a meeting of the city council tonight Mayor EHS said that the copy of the contract for the construction of the library, which was in the possession of the city authorities, had been tampered with and the name of the contractor erased although the name could be seen with a magnifying glass. As the building is completed it is difficult to see why any one should interfere with the contract. It is not yet paid for and there are some claims for extras. The railway commission has approved of the plans for tunnelling the Detroit river. The work will cost from \$7,000,000 to \$10,000,000. There will be two tubes laid on cement sixty-five feet below the bed of the river. It will be operated by electricity.

Johnston, foreman, had his left arm blown completely from his body.

(Special to The Telegraph.)

Amherst, N. S., Sept. 20.—Amherst has been somewhat elated of late, considering herself quite an important shipping port, several vessels have discharged at the new pier, Fort Lawrence. Ward comes from there today of a serious row last night between the captain and mate of the schoer Ann L. Lockwood, in which the captain drew a revolver, shooting the mate in the breast about two inches from the heart. Although not a serious wound the mate had an unusually close call. No arrests were made, the matter having settled among themselves. The city schools were closed out of respect to the memory of the deceased, and the male teachers walked in the procession. Dr. C. C. Jones, the new chancellor, attended with the members of the faculty and students. Mrs. James Crangle is critically ill here from paralysis. Invitations are out for the marriage at Clair Station on October third of Augustine O'Brien to Nora Clair, daughter of Thomas Clair, M. P. P. Byron Adams, of McAdam Junction, and Miss Dora Shaw were married at George street Baptist church here yesterday by Rev. A. A. Rideout. Several local trotters including Kramont, Bourbon T, and Wilkes boy were shipped to Halifax this morning for the exhibition races. Four boys, charged with throwing stale eggs at a girl on Maryland Hill, were allowed to go by Col. Marsh this morning under suspended sentence.

The steamer is not badly damaged, it is not taking water. Scows are being taken out to lighten her cargo and it is expected she will be floated with high water tonight.

London, Sept. 21.—Twelve persons are known to be dead and seventeen were injured in the wreck of the Scotch express on the Great Northern Railway at Grant-ham early Thursday morning, but it was stated last night that there are other bodies under the wreck, which has not yet been cleared. EAST BOSTON MAN LIKELY A SUICIDE

Boston, Sept. 20.—A coat containing letters addressed to "Henry R. Leroy," and a bottle marked "poison" found on the Chelsea drawbridge tonight lead the police to believe that a man of that name, who formerly lived at 95 Maverick street, East Boston, but who has been missing the past month, committed suicide. Two letters were found, one sent to the man in care of the U. S. S. Iowa, Norfolk (Va.), and the other to Charles J. Jones, of New York. MONCTON, Sept. 18.—A great deal of complaint is heard on the part of the travelling public, especially passengers from St. John, on the morning train, with regard to the tardiness of I. C. R. express.

For the last two weeks the Maritime express from Moncton has been running from half an hour to two and three hours behind time upon arriving at Moncton. This means that passengers on the morning train from St. John, en route to points east of Moncton, are compelled to remain here until the arrival of the tardy train, unless she is over two hours late.

Passengers are only forced to their destination east of Moncton in the event of the Maritime being more than two hours late. Commercial men especially are becoming tired of this kind of a service and unless better connections are made at Moncton in the morning for points east an agitation will be started to have Nos. 1 and 2 trains run through to St. John and Halifax as formerly.

At present the travelling public is greatly inconvenienced. Hon. F. J. Sweeney has left for Vancouver to attend the Dominion Forestry Convention to represent the New Brunswick government.

Some of the ministers of the city differ as to the manner in which the Scott Act is to be enforced. Rev. George E. Whitehouse, pastor of the First Baptist church, in the course of his sermon Sunday night, criticized the utterances of Rev. H. E. Thomas, pastor of Westmoore Memorial church, in his discourse of the previous Sunday.

Mr. Whitehouse does not think there is much to be gained for the cause of temperance by the severe criticism of the city council and members of the police force, and says it would be much better to lead an encouraging hand. He is not disposed to discourage the apparently being made by Chief Chappell to close the saloons, but wants to know how many temperance people have commended the chief's action in giving instructions to his officers to close the bars.

Mr. Whitehouse also had something to say about the saloon keepers. He did not regard the taking of a drink as a crime, although it was a thorough temperance man himself, and would do what he could to blot out the evil. He does not consider the saloon trade as so heinous a crime as is charged, but he takes the view that many good-hearted young men frequent the saloons because they have no other place to go.

His idea is that the more effective way of putting temperance among the young men is to provide them with attractive social places elsewhere. Mr. Whitehouse's sermon is being much talked about in the Wesley Memorial hall where something to say in reply in the near future.

MONCTON, Sept. 19.—(Special)—Benjamin Whitaker, a former clerk in the Peter McSweney Co. establishment, pleaded guilty this morning to stealing money from his former employer, and was sentenced to four months in jail.

FREDERICTON. Fredericton, N. B., Sept. 18.—Hartley Leaman, of Moncton, and Miss May Quarterman, daughter of Frederick Quarterman, were married at the bride's home here this evening.

The body of Joseph Gabriel, the Indian who was drowned in the river on Saturday night, has not yet been recovered. The Water Superintendent Burchell is confined to his home by illness.

The rafting at the Douglas boom for the present season will be completed this week and within about two weeks Manager Bliss expects to have the boom limits cleaned up and these logs will be rafted at the Mitchell boom. Working but five days last week, 739 joints were rafted at the Douglas boom, while 913 joints were rafted at the Mitchell boom.

It is not likely that there will be any more logs rafted at the Mitchell boom this season as the water is so low that a very heavy rise of water would be necessary to float the twenty odd million feet of stranded logs.

Fredericton on Sept. 18 night over to average laborers pay of recently but one of the men while excavating near the R. station. The men used gas in connection with their typesetting machines.

Gordon Todd has accepted a position as junior clerk in the Bank of New Brunswick. He will enter upon his duties on Sept. 25. He was formerly in the employ of the C. N. station yesterday afternoon and today.

Word was received by Supt. A. M. Saunders today from the chief commissioner of the road department renewing the covering of the steel bridge at Robb's village, to put in new abutments to the bridge near the village of Robb's. ST. JOHN, N. B., SEPTEMBER 22, 1906

CHANCELLOR HARRISON

Dr. Thomas Harrison, late Chancellor of the University of New Brunswick, dies leaving a generation of University men in his debt. For a great number of graduates, widely scattered, in many fields of endeavor, news of the able and kindly Chancellor's passing will bring a train of recollection recreating vanished days and throwing the size, and the purpose and the influence of the man into a new relief. They will realize now in a new sense what he did for them while they were within the circle of his activity.

SAFE BUILDINGS, AND OTHERS

Once upon a time the St. John aldermen caused an inspection of schools, public halls, churches, theatres, hotels and other places of public resort, and a drastic programme of reform for safety's sake was announced. Considerable good was accomplished, some owners responding readily to the suggestions made and some others awaiting action by the grand jury.

NEW QUESTIONS

New questions, in a sense old ones in new guise, are suggested by our Ottawa despatches of this morning. One bears upon enlarged powers for Canada in the matter of conducting international negotiations.

and should see that something is done, and done without delay. Before the Legislature meets the St. John aldermen should prepare the bill which was to have been framed a year ago, giving the building inspector power to compel such alterations in public buildings as the safety of the public demands.

THE PROVINCES

The approaching conference of provincial premiers leads the Toronto News to review the conference of 1902 at Quebec and to examine the outlook in the light of the case then presented to the federal government. The News concludes that the Dominion, by granting the increased subsidies sought, would add some three millions annually to the present federal expenditure—not an alarming sum in these days of buoyant revenue and good prospects.

A GRAVE SITUATION

Winnipeg cannot afford to have extensive labor troubles this year of all years, for building operations on a tremendous scale are under way and new structures are being put up. The value of more than ten millions has been begun since January 1 last. But 5,000 men employed in the building trades have gone out, and at the moment the prospect is that there will be a stubborn struggle for mastery between the employers and the strikers.

UNCERTAINTY

The aldermen are disposed to think the city should buy a dredge; but they are not sure about it. They talk of buying a dredge that is now for sale in Boston; but there is no definite knowledge here as to the condition, value, and capacity of this dredge or whether it is of the sort required for work in St. John harbor.

IVAN THE PEASANT

One who travelled much in Russia recently writes of Ivan the Peasant: He burrs, crops which he needs to satisfy his hunger; devastates the land which he wishes to possess; and drinks the vodka which yields the tax which he has sworn not to pay.

MR. BRODER THINKS NEW TARIFF WILL NOT BE HIGHER

Toronto, Sept. 19.—"If the Canadian manufacturers expect any considerable increase in the tariff at the coming session of parliament they are going to be disappointed," said A. Broder, M. P., at the Queen Hotel this morning. He was referring to a remark of President Ballantyne of the Canadian Manufacturers' Association, that the coming revision of tariff would give us the "best and strongest" tariff in the history of the country.

heard officially from the Colonial Secretary it had voted money to defray the expenses of the commission in question. Thus Lord Elgin, in asking what action Canada would advise, was asking some months later Canada had prepared, so far as she could make preparation, for the acceptance of the proposal made by the United States.

NOTE AND COMMENT

The railroad practice of placing the mail car next the locomotive is sharply assailed by the Winnipeg Tribune. It asks the government to order a change in the interest of the safety of employees. But is the government to order a passenger car in place of the mail car and so endanger many more lives?

Since the verdict in the recent action—Collins vs. the city of St. John—under which compensation to the extent of \$1,000 with heavy costs, was awarded to John E. HEARST-MURPHY COMBINE ON TOP

Result of New York Primaries Helps Former's Chances for Governorship

Much Speculation Whether Tammany Leader Will Stick to His Bargain in View of Past Abuse He Has Received in "Yellow" Editor's Newspapers—Democratic Leader in State Throws a Bombshell Into Independence League Camp by Declaring He Can't Support It.

(From Our Own Correspondent) New York, Sept. 19.—The primary fights against Boss Odell of the Republican party and Boss Murphy of Tammany Hall resulted in the complete overthrow of one and the more firm entrenchment of the other.

that Murphy may now consign Hearst to perdition, argue that the Tammany leader must have some human feeling, even if he is a politician. Hearst has heaped the foulest abuse on him in his newspapers. He has pictured Murphy in convict garb, and has called him all the names in the calendar.

WILLIAM RANDOLPH HEARST

Hearst with a considerably better chance to get the regular Democratic nomination for governor.

who was "the living image of his father." McCarron bobbed up serenely with twenty-one out of twenty-three districts and will have nine pocket full of sixty-nine delegates to hand over to somebody at the state convention.

If Murphy keeps his bargain and the Tammany delegation does not do the unprecedented thing of bolting its caucus, Hearst will get the solid block of 105 votes in the convention. He needs 226 to be nominated, as there are 450 delegates.

A Bombshell from Buffalo. A bombshell came out of Buffalo today for the Hearst crowd. Norman E. Mack, Democratic national committeeman who has been considered a Hearst kingpin, formally disavowed him.

But there is another side to the picture of Hearst's easy nomination at the Buffalo convention, which by the way is next Tuesday. There are captious and cynical persons who say that now Charles Murphy has got what he wanted from Hearst, he will not bother himself to fulfill his part of the bargain.

Mr. Hearst at its head, and a platform of principles was adopted, making it appear from the Atlantic to the Pacific in the press that Mr. Hearst is the candidate of another party, no matter what individuals may say to the contrary.

Such a thing has never happened, but it might, of course. Those who suggest enforcing the unit rule, and while not saying directly that he would deliver the 105 delegates to Hearst, he said he thought Hearst was the strongest candidate in sight at present.

summing up it may be said that on the face of it things look very favorable for Hearst's nomination by the Democrats and then for his election. Looking deeper, however, there are grave doubts about it.

It will be easy enough, however, for Murphy to avoid pushing things for Hearst if he wants to.

Mr. Staver, who was called for the crown, explained the difference between current loans and overdue debts, and Mr. Thorne, manager of the Union Bank, who was called by the defense, said that a bank president hardly, if ever, knew whether the monthly statement which goes to the government is right or wrong.

Meanwhile, Hearst is jubilant, and his followers seem to think he is already elected governor. If he gets the Tammany delegation of 105, a singular situation will be presented.

It was Roosevelt's influence very largely that caused the downfall of Odell, and his part was purely a passive one until the Democrats have shown their hand. Gov. Higgins is in a much stronger position than he was before but it is generally understood that the nomination will go to some prominent man not yet named, selected by President Roosevelt.

Murphy's Victory Decisive. Murphy's victory in the primaries is more decisive than was understood at first. He will have the control of twenty-two districts out of thirty-five, and the Sullivans, who control seven, will stand by him as a matter of policy, if losing also.

Dr. Oronhyateka, After Above Admissions, Declared the Expenditure Was Wise—Says Overseas Work Has Been Dropped, and Expenses Curtailed.

Toronto, Sept. 19.—Incidents connected with Hon. Dr. Montague's Australian tour and the celebrated bribery case were the chief features of Dr. Oronhyateka's evidence before the insurance commission today. The finding of the royal commission of Victoria that the Foresters were guilty of bribery through their agent was absolutely without a tittle of evidence to support it was stoutly maintained by the supreme chief ranger.

London, Sept. 20.—The crowded Scotch express train on the Great Northern Railway, leaving London last night, was wrecked outside of Grantham at midnight. The train should have stopped at Grantham, but failed to do so.

Shortly after passing the station, the train left the rails and jumped a bridge. The engine and several coaches were dashed over the embankment, the engine turning turtle. Several coaches immediately took fire.

GERMAN THREAT DOESN'T ALARM AUSTRALIA

Will Still Grant a Preference to England and May Follow Canada's Example

British Authorities Well Satisfied With C. P. R. Overseas Mail Service, and It Will Likely Result in Long Contract.

Montreal, Sept. 19.—The Star's London correspondent cables: Germany seems determined to drive the British Empire into commercial unity, the British free trader notwithstanding. Her threat to treat Australia as she treated Canada, because of the proposed Australian preference of ten per cent upon British goods, is causing the Australian authorities here to investigate the results of Germany's similar threat to Canada.

Recent commonwealth returns show that the total of trade of Australia with Britain amounts to \$20,000,000 annually, while Australia's total trade with Germany is less than \$3,000,000.

Special satisfaction is expressed here at the success of the Canadian Pacific Railway overseas mail service. The renewal of the contract for British mails to the Far East via Canada now seems assured despite the reluctance of some members of the present ministry to the continued expenditure of British money in this way.

When Sir Thomas Sloughnessy was here Lord Elgin, as colonial secretary, announced that the contract would be renewed temporarily for two years to enable the Canadian Pacific to see whether they could not quicken rail and steam connections on the Atlantic and Pacific.

This has now been done so effectively that, almost a week, it is expected, will be saved by the Canadian Pacific route to many parts of the Far East as compared with the Suez Canal route. Moreover the British ministry is alive to the importance of this all-British route in view of the Anglo-Japanese alliance and in the event of the certain blockade of the Suez Canal during hostilities.

American Contingent Awoke to Find Their Clothes Ransacked and \$700 Gone—Election of Officers.

Toronto, Sept. 18.—The pickpocket degree was exemplified among the Patriotic Militant of Erie (Penn.), occupying the Women's building at Camp Wright exhibition grounds last night. Something of a surprise awaited many of the cheerleaders this morning when upon looking for their clothes they found them scattered here and there throughout the building, while three or four pieces of uniform had been carried out into the grounds.

A summing up of the burglaries placed the loss at about \$100, a considerable portion of which is money. A number of valuable watches and 1,000 F. Jewels are reported missing, including lodge jewels.

UNION PROJECT IS QUASHED

Waterloo Street Church Majority for Amalgamation Not Large Enough

REV. MR. PROSSER MAY RESIGN IN PROTEST

Discussion Started With Some Warmth, and Was Early Terminated—Brussels Street Church Asked to Withdraw—Vote Stood 46 in Favor, 37 Against.

Thursday night the members of Waterloo Street United Baptist church by a large vote decided against union with the Brussels street congregation. The full membership was not present but the vote stood up and said yea or nay. When the vote was counted the result was as stated.

The meeting was a private one. Rev. A. B. Coloe was present at the first but as some objections were raised to his presence he withdrew.

It is said by those who are in a position to know that the vote last night was decided on purely sentimental grounds and that the best financial people in the congregation were strongly in favor of the resolution.

It is also said on good authority that as a result of the meeting the pastor, Rev. A. J. Prosser, may hand in his resignation at an early date. Believing that since the union of the Baptist and Free Baptist bodies the union of these two congregations was the only possible course, he has thrown himself heart and soul into the movement. Before that event Waterloo street church drew its congregation from all parts of the city. Now, however, it is declared by some to be in the position of competing with Brussels street church on the one hand and the Tabernacle church on the other. Rev. Mr. Prosser is said to feel that that condition is an intolerable one.

The following is the resolution which was carried at last night's meeting by a majority but not sufficiently large enough to make the resolution effective: "Whereas, the recently consummated union of the Free Baptist and Baptist churches of New Brunswick so alters the relation of the Waterloo street and Brussels street churches that they now represent the united denomination in the same district of the city; and

Whereas, such work could apparently be better accomplished by a union of the two congregations;

Resolved that we, the members of the Waterloo street United Baptist church,

do hereby vote to withdraw from the union of the two churches, and to remain as a separate congregation.
