Judge Davis commenced this morning to take up Conservative objectlons to names on the list. The Liberals objected to nobody, preferring rather to exercise that privelege at the pools than give people the trouble and inconvenience of attending court. The Conservatives during the session succeeded in striking off a few dead men, and several who had gene to the States or removed elsewhere. They wre as follows: Walker R. Fessenden, in States; James Hobbins, jun., gone to States; J. Crowther, deceased; Lewis Allan, deceased; M. Donohue, deceased; Wm. Davis, not a continuous resident; Alex. Wilson, deceased; John Ranahan, 57 Dundas street; John Rutteer, leit city; J. C. They either dropped or were unable to prove their objections against the following: John B. Jennings, Alfred Russell, Arthur E. Garden, John Lang, Horaer Hodgson, Patrick Ryan, James McKenna, Wm. Strathdee, James Bruce, George Adams, John W. Smith, Gideon Elliott, Thomas Parnell, W. G. Johnson, John Friend, John Donnelly, Nicholas Ranahan. The Conservatives added seven names in one fell swoop by getting a citizen to swear to the qualifications of that many of his boarders. It was found that a boarding-house keeper who gave similar evidence the day previous had sworn on one Thomas Bawden, who did. Warch of 5,000 Members-Mrs. Balling-ton Booth's Baby Dedicated to the Work.

March of 5,600 Mcmbers-Mrs. Ballington Booth's Baby Dedicated to the Work.

New York, Nov. 22.—At to-day's session of the Salvation Army Congress there was made a transfer of officers in different parts of the country. Major Robert Perry, of New York, in charge of the statistical department, submitted a report on the condition of the army financially and otherwise. This morning there was a banquet at the Lenox Lyceum, and afterwards a march of 5,000 members of the army to Carnegie's music hall for religious exercises.

Among the new arrivals here is Lieut. Cuyagasa from England, who, before entering upon his present work, two years ago, was a well-known judge at dog shows, and was a sporting writer for a sporting paper. Leland Sewell, a showman, who was formerly with Barnum's circus, is also one of the prominent army men present.

This afternoon the field staff and local officers of the Salvation Army discussed its relation to the salcons. It was decided that each post in America should end its Saturday night meetings at 9:15, and after that hour its members shall make personal appeals on the streets to patrons of salcons.

This evening 2,500 Salvationists paraded from Lenox Lyceum to Carnegie Music Hall, where the evening teameeting was held, 6,000 people being present. Commander Booth made an address, and then taking his baby in his arms said: "Myrtle Theolora, in the name of God, the Holy Father, in the presence of this wast congregation, and in behalf of myself and my dear wife, I dedicate you to the service of Jesus Christ; and in the name of our dear general, and on behalf of myself and my dear wife, I dedicate you to the service of Jesus Christ; and in the name of our dear general, and on behalf of myself and my dear wife, I dedicate you to the service of Jesus Christ; and in the name of our dear general, and on behalf of myself and my dear wife, I dedicate you to the service of Jesus Christ; and in the name of our dear general, and on behalf of myself and my dear wife, I dedicate you do the service of J

To the Editor of the ADVERTISER:

The tollowing is the gist of the trade restrictionist reply when cornered on the N. P., "Well, if you don't like our government, you can get out of the country." No sir, not by a handsome majority, Mr. Lip Loyalty. On the contrary, quitea number of us propose to stay right where we are, and what's more, we intend that the boodling Carons, the seat-stealing Carlings, the annexation manifesto-signing Abbotts, the gerrymandering Thompsons and the rest of the brood shall take a back seat after next election, and honest men take their places—men who will not be in slavish submission to a ring of manufacturers, men who will men who will not be in slavish submission to a ring of manufacturers, men who will not prostitute their power for their party's gain, and men who will govern in the interests of the whole people and not of the few Redpaths and Gaulds, and Masseys that combine to oppress them. What Say the Girls to This?

To the Editor of the ADVERTISEN:
Feeling it my duty to help the young and married men of to-day in protecting their rights, I send you these lines. I know a number of married men who cannot possibly get work, some of whom have families to support. How is it that a large number of our young men have to leave us yearly? Because they cannot get employment. Now, sir, I believe that a large number of the girls employed in various occupations in sir, I believe that a large number of the girls employed in various occupations in this city are not compelled to leave their homes, and would be respected far more if they did not. They should receive instruc-tions in housekeeping, preparing them for homes of their own.

homes of their own.

Again, there are girls who are compelled to go out to work. These, I believe, ought to work at a woman's work as much as possible. Thanking you, Mr. Editor, for your valuable space. Yours,

To the Editor of the ADVERTISER.

I see by an editorial in your issue of Saturday that an attempt is made by some correspondent to show that because Brantford did not give a majority in favor of owning their own electric light plant that therefore we must conclude that the city did not think it a paying investment. I will endeavor to give you the facts as gathered by me from their city clerk on a recent visit to that city.

In the first place, atter a careful investigation by a committee appointed for the purpose, the chairman of which being Mr. Waterous, the well-known manufacture, it was shown that by the city owning and operating their own plant the capacity of the plant being S0 are lights of 2,000 candle power, with 60 enstalled, the plant to be run entirely by steam, that the city would at the end of ten years own the plant and be able to add to the revenue of the city about \$800 a year. In the meantime, by an almost unanimous vote, the council decided in favor of the scheme, and decided to submit a bylaw for the purpose of raising the nece-sary funds to purchase a plant, but as Mr. Withrow, their city clerk, put it, was defeated by the organized efforts on the part of the company who had the contract, as against the unorganized efforts of the city, the election coming on in August last, when everybody was busy and could not spare the time to attend to it. As a proof that they are determined to own their own they have only given a contract to find out the facts and give you endeaver to find out the facts and give you endeaver to find out the facts and give you

In regard to Toronto Junction, I shall endeavor to find out the facts and give you them also. In conclusion I would say that municipal control is not an experiment. We have in Canada several places that operate their own and find it a decided advantage, while on the other side of the line vantage, while on the other side of the line municipal control is considered the order of the day. I remain yours truly, London, Nov. 22. ALD. PARNELL.

The Dectors and the Preachers. I am at a loss to perceive where in your report of the proceedings of the Ministerial Association Dr. Gardiner finds the members of that body "hiding their own responsability behind a false cloak of assumed authority by the medical health efficer."

The simple fact is that the communication of the medical health officer led the association to believe that he held a mistaken idea of what was required of him, and the action taken thereon was to appoint a member to confer with him, and to state that he was expected only to decide if sanitary reasons demanded that any particular funeral must be held on Sunday. In such cases, Dr. Gardiner's ministerial friends are quite willing to officiate—but not otherwise. Yours, etc., W. J. CLARK, Secretary Ministerial Association.

youngest in my father's house. I tended my father's sheep.

2. My hands found a musical instrument and my fingers tuned a psaltry; and who shall tell my Lord?

3. The Lord himself, he hears.

4. He sent forth his angel and took ms from my father's sheep, and he anointed me with the oil of his anointing.

5. My brethren were handsome and tall, but the Lord did not delight in them.

LAMBTON.

Hugh Cameron, brakeman, has died at Sarnia from the effects of injuries received in the Grand Trunk reliway yards at the tunnel.

Wm Cutchbertson was found dead in bad at the Swiss Hotel, Port Huron, Sunday morning. On Friday he was taken with a severe caill, but was supposed to be getting better on Saturday. The doctors claim that heart failure was the cause of his death. Cutchbertson was formerly a well-dode farmer of Lambton, but of late has spent much of his time around saloone. Among his effects were found securifies to the amount of nearly \$3,000. The deceased had two brothers in Sarnia. The remains were taken to that place for burial, Cutchbertson was 65 years of age.

The Sarnia Presbytery will meet at Napier to induct the Rev. Archibald Medokern on Tuesday next, at 11 a.m. Rev. Mr. Jordan is to preach, Rev. Mr. Cuthbertson to address the minister, and Rev. Mr. Fortner, who was killed at the barn raising at Putnam on Friday last, was buried on Saturday. A large number of peeple were present.

J. Braden's China Hall, Woodstock, was badly damaged by fire Monday morning. The origin of the fire is not at present definitely known, but is supposed to have started near the furnace. Mr. Braden had a stock of china and fine earthenware which was invoiced at from \$4,000 to \$5,000. A portion of the stock was only partially damaged by smoke and water, but the more expensive goods were totally destroyed. Mr. Braden had an insurance on the stock and fixtures in the Guardian Company of \$1,500 and in the Liverpool and London and Globe Company of \$1,500. The building will not exceed \$1,000, and is covered by insurance in the North British and Mercantile, \$2,000; Commercial Union, \$2,000, and Norwich Union, \$1,000.

On Sunday liberal collingions were taken

up in the churches of Stratford in aid of the General Hospital of that city.

A well-attended meeting was held in the town hall, Listowel, Monday evening, to hear the question of "Continental Union" discussed by Mr. Elgin Myers, of Toronto, and D. McGillicuddy, of Goderich. There was a fair representation of ladies in the audience. The chair was occupied by Mr. W. G. Hay, and the best of order obtained throughout the meeting. The presentation of the case by the speakers of the evening was favorably received by the audience, and at the close Rev. James Livingstone, although not approving of the policy adopted, paid a tribute to the manner in which the subject had been placed by the speakers. A vote of thanks was moved by Mr. Thos. Male, seconded by Mr. Bradley, and both gentfemen, in speaking of the motion, stated that they had received a number of new ideas which made them more favorably disposed towards continued in the motion was carried.

LONDON'S SPLENDID POSITION. "What has induced you to select thi district?" was the question asked Mr. Webbe, representing the big English company who have chosen a site at the Gore of London, just outside the eastern city limits, for the erection of a pork-packing house, which will be conducted on an extensive scale. The ready reply to the reporter of the Free Press was, "Because we recognize the fact that London is a splendid center of a great agricultural district." There can be no doubt about that. This fact has been made evident in the re turns of the Ontario Bureau of Statistics; it has been emphasized by the civic authorities and by the Board of Trade, and the daily press has on no occasion failed to keep it before the public, both at home and abroad. With so much in our favor, the wonder

is not that this apparently sound com-mercial enterprise has decided to locate here, but that many more industries do not find it convenient to select London or its suburbs. It is true that the trade restricsuburbs. It is true that the trade restriction policy has injured us in common with every other part of the country outside the two cities in which the millionaire combine men have concentrated their wealth and their energies. But apart from that genera drawback London occupies a position as a commercial and industrial center, in the heart of the best farming land in the Province, that should commend the city to every one looking for the best results from judicious investment. The opportunities to import and to ship goods by railway are excelled by no city in Canada. London is indeed a veritable artery of railways, connecting with the seaboard on both sides, with the great lakes, and with every railway of importance on the continent. The three through lines, the G. T. R., C. P. R. and M. C. R. do business T. R., C. P. R. and M. C. R. do business here, and by their competition for traffic afford the speediest of service, both for freight and passengers, and there are branch lines leading to every city, town or willage of any importance in the country.
This is a condition of affairs brought about in great measure by the enterprise and co-operation of the citizens, and if it results in a steady influx into the city not only of manufacturers, but of capitalists, active or retired, who can appreciate healthful surroundings and many other advantages, such as the purest of water, that are not to be found in larger centers of population, we will be pardoned by rivals if we unitedly rejoice at our legitimately secured progress.

The new industry had a little trouble at

The new industry had a little trouble at the start because the London township health bylaws now in force do not give its projectors a guarantee that when completed the work of killing and curing will be tolerated within its bounds. This regulation has for its object the restraint of any enterprise that may cause a nuisance enterprise that may cause a nuisance within the township. But as the capitalists now in the city have given a guarantee that their work will be carried on in the most cleanly manner possible, and at the same time be most serviceable to the community at large, the Board of Health of the township manufacture. Health of the township unanimously recommend that the council shall co-oper-ate with it in assisting the new industry to the extent of amending the health bylaw so as to meet the case. No time is to be lost, as the reeve has called a meeting of the council for next Saturday to settle the matter, and there are good reasons for believing that an amicable arrangement wil

Wan-amaker should repent and do justice to the sprightly weekly; if he does not we are confident that his successor will not be resolve that their international disagreeso foolish as to follow in his footsteps.

THE RED FIGURES OF FRANCE. pedient of arbitration, which every honor-Some men look upon war as a "glorious" nterprise, and as something to be entered into with a light heart. We have a class among us who are not contented that Canadians should endeavor to live at peace with all men, and that a spirit of amity should be cultivated in the youth of the land. They would not only elevate the prowess of the warrior far above the achievements of the scientist, of the social reformer, but they would have this country committed to a policy of warfare whensoever a blundering British War Minister might decree, with all that such a conflict m plies.

Do the fathers and mothers of Canada understand what all this means? Let them not favor the settlement of international quarreis by means of bloodshed till they read of the terrible results that flowed to France from such a policy. The information is given in graphic language by Dr. Lagneau, president of the Society of Anthropology, in a lecture before the Academy of Moral Sciences. The address dealt with the losses of France in the wars of the first Republic and of the two Empires. According to the statistics compiled by this savant, the number of killed and younded in the battles fought by France is far less than the number of deaths from naladies contracted during the campaigns. The relative mortality stands as 1 to 7 or 1 to 8. In the war of the Crimea, for example, out of 309,268 men of the land rmy that took part in the campaign 95,-15 perished, and yet only 10,240 French oldiers tell in engagements. A third of the expeditionary corps was wiped out, less than one-ninth of the corps being destroyed by the Russians. The other eight-ninths were carried away by sickness incident to exposure and privation,

From 1791 to 1800, when warfare was almost continuous, 2,080,000 Frenchmen were successively called under arms. In 1800 only 677,598 remained. In ten years nearly 1,400,000 soldiers had disappeared. And this was only the Republic's share. That of the Consulate and the Empire far surpassed it. Napoleon's consumption of men is estimated at 2,000,000 by the most moderate statisticians, and at 3,000,000 by M. Richet in his very careful estimate. Broca and Thiers admit the loss of 1,000,000 Frenchmen, the rest belonging, according to them, to the allies incorporated in the French armies. But the total remains the same. "It stands as a great red blot in history." In the language of Gen. Foy, "A man entered the military service at that time never to get out of it alive."

Terrible though this carnage was, however, it was not the worst feature of these needless conflicts. To the mortality among the soldiers must be added the deaths of many women and children, deprived of their natural support, who perished from privation, suffering and want. "Count-less are the homes," says Dr. Lagneau in his lecture, "that have been shattered by the fatel consequences of war! What terrible blows have been struck at the eproduction and the vitality of the French

From 1815 to 1851 France enjoyed a rela tively pacific period. But from 1852 the nation entered upon a new militant period, and the Empire that was founded in the famous protestation of "peace" made war in the Crimea, in Italy, in Mexico, and ended the game in the catastrophes of 1870. The Italian campaign, far shorter than that of the Crimea, and carried on in the summerseason in the midst of a fertile country was infinitely less murderous, notwith standing the great battles of Magenta and Solferino. Out of an effective force of 300,000 men in the French armies there were only 10,500 killed; and about an equal number died in the hospitals, making a total loss of only 20,000.

Passing over the wars in China, we come to the Mexican adventure. That lasted five years, and the French troops must have suffered serious losses, not only by the stubborn resistance of the natives but by the yellow fever and other diseases. But the real figures were carefully concealed by the Empire. All that can be said on the subject is that the average number of the troops during the five years' occupation of Mexico was from 30,000 to 35,000, and Napoleon's inactivity the day after Sadowa betrays the gaps made in the effective forces of the Empire through that out rageous folly. A careful search shows that during the eighteen years of the Empire, from 1852 to 1870, 356,000 men have disap from 1832 to 1870, 350,000 men have drappared, "a sombre preface to the heat-tombs that were to follow." At Wissembourg one-quarter of the effective French force was moved down; at Woerth more that one-fifth. At Motz the losses were Before the capitulation, they ooted up to 25 generals, 2,099 officers and over 40,000 soldiers. In that entire camover 40,000 soldiers. paign, according to the French statisticians, 1,300,000 is the number of men, women and children that perished, and if we add to this the 356,000 destroyed in the preceding wars of the second Empire, we find that the reign of Napoleon III. cost France nearly

000,000 lives. No one can say that this terrible sacrifice of life, or at least a very considerabl portion, could not have been averted. More than one of these wars was decreed to satisfy the ambition of men who cared nothing for the appalling loss of human life and incidental suffering that resulted from a gratification of their whims. Before now even British Ministers have bungled into great wars unnecessarily, and have had to fight to the Enish, at a great expenditure of life and treasure, because to draw humiliation. They are decidedly generous, so much so that several of the aldermen hesitate lest the bargain should cost them their seats when they go back for re-election. Our western suburb should hurry up and embrace he full civic privileges tendered them.

THE president of the Toronto Young Con servatives confesses that in the Dominion elections the "dice are loaded." He has reference to the infamous provisions of the Franchise Act, which enable an unscrupulous official charged with the administration of the law to give the minority candidate the seat of the man elected by the honest votes of the majority. This infamous measure should be repealed. We cannot have good government while such laws and such outrages are tolerated by any section of the people.

REAL estate dealers in Toronto are trying to account for the depression following the boom. They are prepared to lay the blame on anything but the rightful cause. For example, they hint that the newspapers are responsible for it all, and they seem to imagine that if no publicity had been given to the state of affairs the process of collecting money from outside sources and laying out miles of new streets largely at the civic expense would yet be going on. Of course the contention will not bear dissec-tion. The fact of the matter is, more lots were surveyed, more streets were laid out, far more houses were put up, than were needed for the population of the city, and while this was going on, the boomers moved heaven and earth to give a fictitious value to property of all kinds in order to elevate the price of every square acre bought under the measure of the surveyor. The newspapers may have hastened the day when the true nature of this fool's paradise was exposed, but that was all. In so far as they succeeded they served the public, for they put a stop to the reign of a band of brothers who were living by pure speculation at the expense of their fellows. Such a boom injures the legitimate development of any city and diverts large sums of money into an unprofitable channel.

There were enough on the backs of this mob to start a paper mill. The occasion of this formidable gathering was a "Hard Times Smoker," under the auspices of the London Athletic Club. A hundred or more invitations had been sent out on rough brown strawboard, and they informed the recipients that no one would be admitted unless dressed in tramp costume, and that any "bloke dat wares linen kant get in." The result was that at 8:30 p.m., when the proceedings started, the commodious rooms of the club were filled with an aggregation of humanity frightful to behold. The most invectrate weather-beaten and 'aardened tramp would pale into insignificance beside some of those characterizations. A few, indeed, transgressed the rule and wore linen; but it was so utterly innocent of anything like soap and water that no objection was raised by the committee. Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. Harvard Bronchial Syrup, which emanated from the celebrated Harvard University, is the most celebrated and wonderful remedy of modern times for the cure of coughs, colds, croup, sore throat, and all bronchial affections. This marvelous cough medicue has met with unprecedented success in every country where it has been introduced. Its effects are instant; its working powers are complete, and once used it is always the favorite preparation of the home. Our best people gladity testify in its favor, and strongly recommend it to their friends. The medical profession of Canada recognize the value of Harvard Bronchial Syrup in severe and obstinate cases of sore throat, croup and affections of the bronchial tubes.

Since the election he has been fairly overrum with callers, and the volume of his correspondence has been something enormous. His appearance indicates to some extent the fatigue consequent upon his labors and confinement. "I have been amazed and exceedingly gratified," he said, "by the thousands of letters of congratulation which I have received since election from the American people from every station in life and every portion of the land. I appreciate the good-will and friendliness which these letters indicate, and shall not omit to acknowledge them in good time. A POLITICAL SURPRISE!

The N. W. Legislative Assembly Deprived of Its Formor Extracedinary Powers.

REGINA, Nov. 22.— Governor Royal has called the Northwest Legislative Assembly to meet on Wednesday, Dec. 7.

The Montreal Star says that in consequence of a recent equabble and its results, the Dominion Government have, by order-in-souncil, withdrawn from the Assembly the increased powers given to it during the last two years. All the money voted by Parliament for the expenses of the Government in the territories for schools, etc., has been transferred to the credit of the Ottawa authorities, and for the past five weeks all expenditures have been made by checks signed by Gov. Royal and his secretary Mr. Gordon. This piece of information has been hitherto kept in the dark in Cayley's interests, but in view of the complete failure of his Government, there is no longer any reason for this secrecy, and the facts are given to the public. It is reported, however, that the Dominion Government has disallowed the ordinance providing for an executive commission, as it went further than their legislation contemplated.

It is made on the highest political without the result of Congress next spring for the alleged purpose of repealing or modifying the Mc-kinley Bill. In commercial circles the statement should produce a very satisfactory feeling, as trade will not be disturbed next summer by the change in value of goods already secundard, and the bullow. Wall street stocks favored a further improvement in the market to-day.

Large shipments of gold are imminent. Cotton has reached a point where Livernooi ts selling futures here and exports have fallen off. Liverpool toton is 2 prints down, which is better than expected. —The funeral ceremonies of the late Mother Emilie Kammerer, of the Academy of the Sacred Heart, took place yesterday morning, and were very impressive and touching. Requiem high mass was celebrated in the convent chapel for the repose of her soul. The celebrant was Rev. M. J. Tiernan, Fathers Walsh, of Toronto, and Kennedy, of St. Peter's Cathedral, London, acting as deacon and sub-deacon. The Bishop of London occupied the throne, assisted by Rev. N. Gahan. Madam Kammerer was born in Gmund, Wurtemberg, in 1833, and was one of those religieuse in Germany who were expelled from the country by the May Laws of 1873. She offered herself for the American mission, and was sent to the Convent of the Sacred Heart in this city, where for the past nineteen years she has been a teacher of music. She was a most amiable lady and will be sadly missed.

Out of nineteen of the Windsor officers about a dozen are on the provisional list, and it is necessary that they attend a school of military instruction and pass the required examination before being put on the permanent staff. The D. A. G. has notified the officers that they must conform to the rules in this respect or step down and out. Though the officers feel that the D. A. G. is within the mark in his action, yet there is quite an excitement over the information that the law is to be enforced. A Successful Entertainment.

The matter was laid over until next meeting. W. J. Wilson, V.S., asked that the water meter at Dufton's livery be repaired, as it had caused \$75 damage to his new house. The paper had become mildewed and the walls damaged to the amount named. Commissioner Powell inspected the meter and missioner rowell inspected the interest and pronounced it a regular cesspool. It will be repaired at once. A similar meter at the Ross House will also be attended to, as well as others throughout the city. The engineer was instructed to bring in an estimate of the cost of changing all hoist meters to the regular class of meters.

An Entire Family Burned to Death in Their Home at Pittsburg.

PITTSBURG, Pa., Nov. 23.—About 4:30 yesterday morning an alarm of fire was sounded at Sharpsburg, a town on the outskirts of this city, and the department was soon on its way to the blaze, which was discovered to be the house occupied by H. W. Dannehower. Little water could be obtained, though it is doubtful if the house could have been saved had there been a sufficient supply. The flames were beyond control and the only thought was the satety of the inmates of the house. A rush was made for the building, but the brave men were driven back by the flames. Three times attempts were made to rescue the family, but in vain. All this time no signs of life had come from the burning house, but the certainty that human lives were being lost caused the most heroic efforts to be made. At 6:30 the firemen succeeded in climbing over the burning timbers and reached what had been the sleeping, room of the family. The bed was entirely consumed, and lying on the floor were three objects, the charred and blackened remains of Mr. Dannehower, his wife and their l-year-old babe. All the bodies were horribly burned. The location of the remains would indicate that the unfortunate persons had been suffocated in bed before the fire reached them. Dannehower was about 38 years old.

Sequel to a Crime.

New Haver, Conn., Nov. 23.—Mrs.
Michael Demeo, widow of the man for whose murder Angelo Petrillo was hanged bere last week, was married Monday to Joseph Demeo, her brother-in-law. The marriage took place at the Italian church in Wooster street. It is stated that the marriage would have taken place long ago but for the refusal of the priest to celebrate the rite on the ground that the principals were related through Mrs Demeo's first marriage. The couple thereupon applied to Rome for a dispensation, sending along a detailed statement of the circumstances which made the woman a widow. A reply was received a few days ago, the Pope furnishing the desired dispensation.
