LET US REASON TOGETHER. HOLLOWAY'S PILLS. WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Infirm, of all climates, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines and offers them to free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.
These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.
Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorder of the liver, dyspepsia, and stomach complaints generally. These soon give a healthy tone to those organs, however deranged, and when all other means have failed.

GENERAL DEBILITY—ILL HEALTH
Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.
No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without them.

HOLLOWAY'S PILLS are the best remedy known in the world for the following Diseases:—
Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowel Complaints, Colics, Constipation of the Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, King's Evil, Liver Complaints, Lumbago, Rheumatism, Retention of Urine, Scrofula, Sore-throats, Stone and Gravel, Secondary symptoms, Tic-douloureux, Tumours Ulcers, Venereal Affections, Worms of all kinds, Weakness from whatever cause, &c. &c.
Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar), London, and 80, Maiden Lane, New York; also by all respectable Druggists and Dealers in Medicines throughout the civilized world; at the following prices:—1s. 3d.—3s. 3d.—and 5s. each Box.

There is a considerable saving by taking the larger sizes.
N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

AMARVELOUS REMEDY FOR A MARVELOUS AGE. HOLLOWAY'S OINTMENT. The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part.—Disease of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas and Rheumatism, Scrofulic Humours.
No remedy has ever done so much for the cure of disease of the Skin, whatever form they may assume, as this Ointment. Scourvy, Sore Heads, Scrofula, Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health. **Sore Legs, Sore Breasts, Wounds and Ulcers**
Some of the most scientific surgeons newly rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

Piles and Fistulas.
These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.
Both the Ointment and Pills should be used in the following cases:—
Bad Legs, Bad Breasts, Burns, Bunions, Bites of Moschetoes and Sand Flies, Cecobay, Cheigo-foot, Chilblains, Chapped hands, Corns, (soft) Cancers, Contrasted and Stiff Joints, Elephantiasis, Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Scalds, Sore Nipples, Sore Throat, Skin-diseases, Scourvy, Sore-heads, Tumours, Ulcers, Wounds, Yaw.

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar) London, and 80, Maiden Lane, New York; also, by all respectable Druggists and Dealers in Medicines throughout the Civilized World at the following prices:—1s., 3s., 3s. 3d., and 5s. sterling, each Pot.

THE CONCEPTION-BAY MAN.

ANNUAL MEETING OF THE NEW-FOUNDLAND CHURCH SOCIETY.

On Tuesday evening the Annual Meeting of the Church Society of this Diocese was held in the upper room of the Central School. Notwithstanding the unfavourable state of the weather, there was a large assemblage of the friends of the Society, who all evinced a deep interest in the intelligence communicated.

The Chair was taken by the LORD BISHOP who (after prayers had been said by the Venerable Archdeacon LOWER) called upon the Rev. JOHN PEARSON, the Secretary, to read the Report. This document, setting forth at length the operations of the Society during the past year with the cash account read by F. C. K. HEPBURN Esq., the Treasurer, enabled all who heard it to estimate the importance and the success of the Church's work in this Diocese. A slight increase in the Society's income was announced; at the same time that the Committee felt it their duty to appeal to all the members of the Church not to relax their efforts in this cause until a much larger sum were annually placed at their disposal, and the Church in this Colony made much more nearly self-supporting than at present, it professes to be. Her well being was shewn to depend much on the recognition of their duty in this respect by the members of the Church in the next few years.—A profound impression was produced by the reading of that portion of the Report in which allusion was made to the loss sustained by the Society and the Church at large by the death of the Rev. J. G. MOUNTAIN, whose example and labours had been so much blessed by ALMIGHTY GOD, so long as he was permitted to remain with us. The arrival of other clergy to fill the vacancies lately caused by death in this Diocese was alluded to in terms of warm thankfulness.

One new and most important feature in the Society's work demanded the attention of the meeting,—the commencement of a fund for the assistance of the families of Clergymen deceased or disabled in the Church's cause. It is proposed (so soon as members of the Society at a distance shall have been communicated with on this subject) to invest the sum of £500, (part of the balance in the Treasurer's hands) for this object. To this will be added the sum £75, due to the widow of the lamented Mr. MOUNTAIN, which she had declined to accept, desiring that it might be appropriated in the manner above indicated.

Allusion was made to the continued success of the Church of England Branch of the St. John's Academy, under the able management of the Rev. G. P. HARRIS, and of the school for young ladies kept by the Misses LEGALLAIS, as also to the satisfactory condition of that admirable institution, the Asylum for destitute Widows and Orphans.

The members of the Society were also congratulated on the prospect of an additional Church on the South side of the Harbour—the appeal of the Lord Bishop having been readily and liberally responded to by the parishioners, and a Clergyman being appointed and already resident in that locality.

The following resolutions were then unanimously adopted by the Meeting, commended as they were, not only by their own merits but also, in many instances, by the very able and eloquent addresses of their proposers or supporters. Amongst these if it be not invidious to make special mention of any one in particular, we could not but acknowledge the propriety and good feeling of the very touching tribute rendered by BRYAN ROBINSON Esq., to the memory of the late Incumbent of the Cathedral J. G. MOUNTAIN.

Moved by Thomas Bennett, Esq., J. P., seconded by Rev. W. F. Meek:—
Resolved 1.—That the Report be received, adopted and printed, with the Treasurer's account.

Moved by H. W. Hoyles, Esq., M. H. A., seconded by Rev. J. P. Phelps:—
Resolved, 2.—That this meeting desires to testify its gratitude to Almighty God, for that measure of success which He has continued to vouchsafe to the operations of the Society.

Moved by B. Robinson, Esq., Q. C., seconded by Charles Crowdy, Esq., M. D.:—
Resolved, 3.—That this meeting desires to express its deep sense of the loss which the Society, and the Church generally has sustained by the death of the late Rev. J. G. Mountain.

Moved by F. B. Carter, Esq., M. H. A., seconded by Rev. T. M. Wood:—
Resolved, 4.—That this meeting desires to record its thankfulness for the appointment of other Clergymen to fill the late vacancies in this Diocese.

Moved by Capt. Carter, R.N., seconded by Rev. T. M. Johnson:—
Resolved, 5.—That this Meeting, recognizing the education of the children of the poorer members of our communion as one of the most important objects of the Society, would be most thankful for any means put at the disposal of the Society for the maintenance of schools.

Moved by the Ven. the Archdeacon, seconded by James Bayly, Esq.:—
Resolved, 6.—That this Society, anxious to cement the union of the various branches of the Church of Christ, looks with great interest upon the labours of the Diocesan Church Societies in the adjoining Provinces.

Moved by the Rev. G. P. Harris, seconded by W. V. Whiteway, Esq.:—
Resolved, 7.—That the thanks of the N.C.S. be given to the Right Rev. the President, for his counsel and assistance, and to the Treasurer and Committee for the services during the past year; and that F. C. K. Hepburn, Esq., be requested to accept the office of Treasurer for the ensuing year.

Moved by W. H. Mare, Esq., seconded by P. G. Tessier, Esq.:—
Resolved, 8.—That the thanks of the Meeting be offered to the Lord Bishop of this Diocese for his kindness in presiding on the present occasion.

The Lord Bishop, in acknowledging the thanks of the Meeting for his kindness in assisting the Committee at all times with his counsel, and for presiding on this occasion, expressed his desire to multiply the number of missions in the distant parts of his Diocese, the present size of some of them being so very great, and their population so scattered, as to render it impossible for one Clergyman adequately to minister to them. Were more funds placed in his hands in this way they would be appropriated immediately. He looked back with thankfulness on the late prosperity and peace of the Church, and acknowledged his obligation to the members of that communion for the consideration that he had met with from them during the late trying season, when he was left almost single-handed to discharge the duties, not only of his higher office of Bishop of the Diocese, but also of the Rector of the Parish. His Lordship announced his approaching departure on his long and, in many ways, perilous visitation, and asked for the prayers of those whom he left behind him.

The Doxology was then sung, and, with the Bishop's benediction, the Meeting separated, thankful for the increased interest shown on this occasion in the operations and progress of the Church Society.—Ledger.

(From the Morning Post.)

WE HAVE been informed that Messrs. O'BRIEN and LITTLE, in conjunction with Messrs. JOHN SHEA and C. H. DARLING, were to have had an interview with the Secretary of state for the Colonies, for the purpose of urging upon the Imperial Government the duty and the expediency of a grant for the encouragement of direct Steam Communication between this and the Mother Country. We have no doubt the appeal will be successful, and when it is, we should not be surprised to find that Mr. CUNARD will put in a proposal to supply the desideratum on terms advantageous to the Government,—to this Colony,—and to himself, and which will, doubtless, be accepted.

Notice is hereby given, that Governor Sir Alexander Bannerman has received a Commission, under the Great Seal of the High Court of Admiralty, bearing date the Twentieth day of February last, appointing him to be Vice Admiral of Newfoundland, and its Dependencies.

Secretary's Office, 16th June, 1857.

THE PARLIAMENTARY OATHS BILL.—The following is the form of oath taken henceforth (in all cases) in lieu of the oaths of allegiance, supremacy, and abjuration, viz:—"I, A. B., do swear that I will be faithful and bear true allegiance, to Her Majesty Queen Victoria, and will defend her to the utmost of my power against all conspiracies and attempts whatever which shall be made against her person, crown or dignity, and I will do my utmost endeavour to disclose and make known to her Majesty, Her heirs and successors, all treasons and traitorous conspiracies which may be formed against her or them; and I do faithfully promise to maintain, support, and defend, to the utmost of my power, the succession of the crown, which succession, by an act entitled 'An Act for the further Limitation of the crown, and better securing the rights and liberties of the subject,' is and stands limited to the Princess Sophia, Electress of Hanover, and the heirs of her body, being Protestants, hereby utterly renouncing and abjuring any obedience or allegiance unto any other person claiming or pretending a right to the crown of this realm; and I do hereby declare that no foreign prince, person, prelate, state, or potentate hath or ought to have any jurisdiction, power, superiority, pre-eminence, or authority, ecclesiastical or spiritual, directly or indirectly, within this realm. So help me God." The act, however, will not effect the form of oath prescribed for Roman Catholics by the Roman Catholic Relief Act (10th of Geo. IV., cap 7.)

From Willmer & Smith, May 30.

THE HUNGARIAN AMNESTY.

The terms offered to the Hungarian refugees under the recent amnesty have been misunderstood. It was at first thought that the permission was available on a simple application but the rescript of the Emperor of Austria is as follows:—"I reserve to myself the right to decide upon these demands, and to examine how far their claims may be granted." In other words—The refugees have permission to ask for pardon but they must still wait the Emperors pleasure in each case.

The arrangements for shipping the transatlantic cable have at length commenced, according to the plan entered into between the British and the American Governments, and yesterday morning, in accordance with official intimation, the Agamemnon left her moorings at Greenhithe, and proceeded to the spot prepared for her at Greenwich to receive on board a certain portion of the wire. The United States steam frigate Niagara is to receive the Liverpool portion, but the paying out of the cable will not terminate, it is believed, before the month of August next.

Some little sensation has been caused by a French war schooner firing upon an English brig from Bordeaux to Liverpool, which had anchored in the roadstead at Belle Isle from stress of weather. The cause of offence was that the brig did not hoist her colours to show her nationality; but the captain of the vessel, one of whose crew was killed by a ball, assigns a satisfactory reason for this—he could not, as his signal halyards had been carried away in the tempest. Causes quite as trivial have led, ere now, to a war between the countries which the vessels respectively represent; but the alliance at present is so intimate and sound, that no fear need be entertained of such a calamity.

THE CONCEPTION-BAY MAN

HARBOR GRACE, WEDNESDAY, JUNE 24, 1857

It is much to be regretted that the steamer Ellen Gistorn does not ply this calm weather; we understand that she is being repaired and provided with a new boiler when she will doubtless afford that public accommodation which perhaps requires to be missed to be properly appreciated; the season has arrived when the St. John's fashionables usually pay visits this side of the Bay, and we trust for their sake, for the sake of the public, and no less for that of the Conception-Bay Man, that all parties will shortly be gratified; we wait for the mail to glean something in the shape of news for our columns, and hope it may arrive in time to enable us to avail ourselves of the Budget.

The shore fishery has commenced well in this vicinity: Small craft have been loading daily and in many cases twice a day during the past fortnight, the stage illuminations which we have lately witnessed were more gratifying than any which city demonstrations, call forth, we look anxiously for a continuance of the same.

Original.
A NATIVE APPEAL, BY G. W.

There's a throb in each bosom which tells
Of the glow of affection for home,
A pulse in each heart which indignantly swells
When tyranny marks her its own;
The land may be desert and drear,
Its children unletter'd and rude;
Yet early attachment entwines itself there,
Nor can be by sorrow subdued:—
The spring-tide of joy may decay,
Youths brightest delusion be o'er,
Relations depart, Friendship dwindle away,
And happiness blossom no more;
But yet, for the uncultured clime,
By woe rendered doubly our own;
Of hope a fair relic we love to enshrine,
Tho' joyless, we feel tis our home.
Newfoundlanders awake! it is time,
For the stranger has seized on your right,
And the day star of Liberty never can shine
Thro' the mist of venality's night:
Oh be not deceived by the few,
"A disgrace to their Country" who share
In the wages of infamy, steeped in dew
Of their Country's—their Kindred's despair:
No, rather let all be confest,
Which strangers in justice can urge
Then sternly disowning, and spurning the rest,
From falsehood overwhelming emerge.
If back thro' the vista of years,
We glance, where the despot held sway,
The undisguised cause of obstruction appears,
In the absolute rule of the day;
And later when freedom began,
All faintly to gleam on the shore;
The prejudiced mind of the dark partisan
Would not suffer that gleam to be more—
Then say, shall that principle still
Be permitted to tannmel the land,
Whilst spirits ungenial with withering skill,
By friction, heat slavery's brand,
How long thus divided and weak,
Will you sacrifice right to a name,
Whilst aliens unite, and thus artfully break
That spirit no despot could tame;
Give, give, but one thought on the past,
And the work of reform is begun;
For the hands which in childhood were wont to
be clasped;

In manhood would still be as one:
United your cause must prevail
Over falsehood and tyranny's sway,
With Motto MAN, BANNER MAN, truth cannot
fail
To bear opposition away.
Then soon for your own native clime,
Where distrust and oppression still reign,
Will Patriotism and Honour combine,
The blessing of Freedom to gain,

THE CONCEPTION-BAY MAN.

SELECT POETRY.

(From the Anglo Saxon.)

A RHYME FOR THE ATLANTIC TELEGRAPH.

BY MARTIN F. JUPPER.

World! what wonder is this,
Grandly and simply sublime—
All the Atlantic abyss
Leapt in a nothing of time!
Even the steeds of the sun
Half a day panting behind,
In the fleet race that is run—
Won by a flash of the mind.

Lo! on this sensitive link—
It is one link, not a chain—
Man to his brother can think,
Spurning the breadth of the main;
Man to his brother can speak,
Swift as the bolt from the cloud,
And where its thunders were weak,
There his least whisper is loud.

Yea: Far as Providence wills,
Now doth intelligent man
Conquer material ills,
Wrestling them down as they can;
And, by one little coil
Under the width of the waves,
Distance and time are his spoil,
Fettered as Caliban slaves!

Ariel!—right through the sea
We can fly swift as in air;
Puck!—forty minutes shall be
Sloth to the bow that we bear.
Here is earth's girdle indeed,
Just a thought, circlet of fire—
Delicate Ariel feed
Sings, as she flies on, a wire!

Courage, O servants of light!
For ye are safe to succeed;
Lo! ye are helping the right,
And shall be blest in your deed.
Lo, ye shall bind in one band,
Joining the nations as one,
Brethren of every land—
Blessing them under the sun!

This is Earth's pulse of high health,
Thrilling with vigour and heat;
Brotherhood, wisdom, and wealth,
Throbbing in every beat.
But ye must watch, in good sooth,
Lest to false fever it swerve—
Touch it with tenderest truth
As the world's exquisite nerve.

Let the first message across—
High hearted Commerce, give heed
Not to be of profit or loss,
But one electric indeed—
Praise to the Giver be given
For that He giveth man skill;
Praise to the Great God of Heaven,
Peace upon Earth and good will!

ONLY A DAY.

BY RICHARD HOWITT.

This day—a thing of common hours,
Of darkness faded into light;
And time glides on to closing flowers,
To dews, to silence and to night.

We mark the day beam's genial source,
A cloud comes o'er its disc anon—
We toil, we travel, we discourse,
The evening glooms, and day is gone.

Of small account in human time,
That lightly comes to disappear,
Yet in its import how sublime,
This homely unit of the year!

Expected life has been described,
The life that linger'd is no more—
One bark is launch'd upon the tide,
And one is stranded on the shore.

We lightly name the passing hour—
'Tis morn, 'tis noon, 'tis shadowy eve—
Nor feel, with its o'erwhelming power,
The mighty mass who joy or grieve.

Yet from this day, so still that moves,
So unimportant that appears,
What myriads date their pains, their loves,
Their fount of annual smiles or tears.

In such a space, which few would heed,
Day, dull that seem'd to mortal eyes,
Good unto millions was decreed,
Beneath like sullen overarching skies.

The sun went calmly on his way,
Even his march and hush'd his close,
When on our weary mortal day,
Heavens Life and Liberty arose.

Dark superstition waver'd thin,
The Evil Nature felt rebuke,
All powers to death and hell akin,
Thrones, despots, to their centre shook.

Thus, in one days unobscured birth,
Good, great in it, imbues them all;
And chains of universal earth
From universal man shall fall!

*These verses, singular as it may seem, and quite a contradiction in terms, were written on Christmas-day, and at Midsummer, both seasons occurring at the same time. This is at once clear when it is said they were written in Australia.

NEVER STOP FOR STORMS.

A young preacher in a distant district made an appointment for a five o'clock lecture with a congregation to whom he occasionally preached on the Sabbath. Accompanied by a deacon of the church, he had accomplished about half the distance to the place of meeting, when a severe thunder storm arose, and obliged them to take shelter in a barn by the roadside. After the rain had abated the young minister said to his companion, "Come deacon, the storm is over, and we had better go on."

The deacon's reply was, "I think not. The storm will prevent attendance, and you will find the school-house nearly or quite empty."

"But an appointment was made, and must be kept."

"I think it will be useless."

"Well, deacon, you will do as you think best, I must fulfil the engagement."

The deacon returned home. The preacher proceeded on his way, and found a full congregation assembled to hear his lecture. Seeing so many gathered around him, and feeling that he might have lost an opportunity of benefiting some soul that was groping in darkness had he yielded to the plausible conclusion of his friend, the young man then formed the resolution never, under any circumstance, to be deterred by a storm from performing his duty.

Another test of principle yet awaited the same minister. An appointment had been made on a week-day evening, six miles distant from his place of residence. The day came, but snow fell in clouds until the afternoon. Walking was in consequence very difficult, and he had no means for riding. Still his purpose failed not. "I must go," he said. Two hours of severe toil brought him to the place of meeting. Only five or six individuals had assembled. But they were immortal beings, each having a soul worth a myriad of worlds. "Repent, for the kingdom of heaven is at hand," formed the subject of discourse. Worn, and almost regretting that he came, he left the house and returned to his home.

Several months after this, a young lady presented herself to the church, asking admission to membership.

"When were you awakened to a sense of your state?"

"On that stormy night, when you, sir, preached at—, from the text—'Repent, for the kingdom of heaven is at hand.'"

FOG BELL ON CAPE SPEAR.—We have heard that it is in contemplation to establish a Fog Bell on Cape Spear, a step which we are sure will generally be approved of. This will be a great aid to vessels in making St. John's, for in calm or foggy weather when a light is valueless, the Bell will do its work. When the *Khersonese* was detained off here on her last trip, we learn that she passed so close by Cape Spear that the sound of the propeller and of voices on deck were distinctly heard by the keeper of Cape Spear light House, and had there been a Bell on the Cape, she might have got into port without delay. We are therefore glad that this valuable provision is now about to be made.—*Nfldr.*

EUROPEAN NEWS.

THE ROMAN CATHOLICS AND THE PARLIAMENTARY OATHS BILL.

On Friday last there was a meeting at the Stafford Club, called by the English Roman Catholics, who invited the Irish Roman Catholic members to attend. The Duke of Norfolk was called to the chair. The object of the meeting was to consider the Oaths Bill now in course of being passed through the house. Resolutions were proposed, strongly worded, as to the insulting character of the oath still required to be taken by Roman Catholics, and calling on Lord Palmerston to alter the oath now taken by that denomination. This resolution was modified eventually. Many noblemen and gentlemen addressed the meeting, and some were for opposing the bill altogether; but in the end it was determined to wait on Lord Palmerston, and to endeavour to obtain from him a pledge to alter the oath now taken by Catholics, and to have but one oath for all by the new bill.

THE NORTHERN WHALE AND SEAL FISHERY.—The Davis's Straits and Greenland whale and seal fishery, which some fifty years ago was the source of much wealth, and employed a great number of hardy seamen belonging to the Tyne, Hull, Peterhead, and Orkney and Shetland Islands, has a prospect of being revived by means of iron screw steamers. A powerful full-rigged screw steamer, belonging to the Arctic Steam Fishing Company, of London and Peterhead, has left the Tyne for Davis's Straits whale fishing. She is of immense strength, and

her hold is divided into compartments, so that the blubber of the whale can be taken on board in bulk, by which the stowage and cost of a great number of casks and tubs will be avoided. She will, of course, be enabled to drive through the ice, and penetrate into inlets and small bays much frequented by whales, hitherto unapproachable by sailing vessels. In addition to her whaling voyage, it is anticipated that she will make several voyages to the seal fishing during the season. Iron screw vessels are already employed in the Greenland seal fishing, and the *Diana*, with 13,000 seals and 1540 tons of oil, and the active, with 15,000 seals and 195 tons, have arrived in Scotland from Greenland. They also report that the *Kate* has caught 6500, the *Intrepid* 7000, and the traveller 4000 seals.

PRINCE ALFRED IN BRUSSELS.—The second son of the Queen of England and Prince Albert, His Royal Highness Alfred Ernest Albert, arrived on Tuesday, the 19th, at Brussels, from Cologne. Their Royal Highnesses the Duke of Brabant and the Count of Flanders, in private dress, together with the officers of their suite, were waiting at the station, with the court carriages, to receive their august cousin. A battalion of chasseurs carabiniers, with their band, in uniform; Gen. Rerten, commandant at Brussels, and his adjutants; and some superior officers of the general staff were assembled on the platform at the moment of the Prince's arrival. His Royal Highness was received by the Duke of Brabant and the Count of Flanders; also by T. W. Waller, Bart., secretary of the British Legation, Charred affairs *ad interim*, in the absence of his Excellency Lord Howard de Walden, the Envoy Extraordinary and Minister Plenipotentiary. When the train stopped, the princes embraced each other affectionately, and the military music played "God save the Queen."

THE ELECTION RIOTS AT WASHINGTON.

(Correspondence of the New York Times.)

WASHINGTON, June 1.
Our city to-day has been the scene of the most intense excitement, riot and bloodshed. A gang of organized rowdies, some 50 in number, called the "Plug Uglies," arrived here this morning from Baltimore, for the purpose of defeating the polls. They divided their forces, and part of them made a demonstration at the first precinct of the 4th ward, and another at the 2d ward polls. At the latter place their interference soon caused a row and some fifteen or twenty shots were fired.

At this time a desperate row had commenced at the 1st precinct of the 4th ward, the "Plugs" being reinforced by the "Rip-Raps" and "Chunckers" of this city.

A terrible attack was made on the anti-know nothing voters with pistols, bowie knives and stones, and they were driven from the polls.

An order was then given to "charge," and the Marines took the cannon, amid a volley of pistol shots from the Plug-Uglies.

The cannon was captured, and the Marines then marched to the City Hall.

Twenty or thirty of the Plug-Uglies escaped on the 3 P. M. train for Baltimore, and quiet was restored.

GREAT BRITAIN

The London Gazette contains an order in Council announcing the contract of marriage between the Princess Royal and Prince Frederick William of Prussia.

On Monday evening the Navy estimates amounting to £9,000,000, were carried in Parliament.

The Chancellor of the Exchequer produced a sensation in the House of Commons, by proposing that the Princess Royal should have a marriage portion of £40,000, and an allowance of £8000 a year. The precedents of the reign of George II. and III. were adduced as to the practice in such cases, but Mr. Roebuck regarded such precedents as absurd, and moved an amendment. Members, however, seemed impatient to vote, and, after Lord John Russell had spoke against him, declined going to division, and the motion was agreed to.

The London 'Globe' has been given to understand that Mr. Thomas Baring will be the new Lord of Admiralty.

FRANCE

PARIS, May 21.—Baron Gros, the Ambassador Extraordinary to China, and the attaches of his mission, left Paris this evening for port of embarkation.

The growing grain crops in France are magnificent and wheat and flour were declining in nearly all the French markets.

SPAIN

Advices from Madrid had been received in Paris, announcing the settlement of the dispute between Spain and Mexico on the 10th inst. After the ratification of the treaty, M. Lafragua will remain as minister of Mexico.

Another despatch says there is every probability of a pacific adjustment of differences between Spain and Mexico. M. Lafragua arrived at Madrid.

AUSTRIA

The crops in Hungary, Moravia and Bohemia are looking remarkably well, but they are less flourishing in Upper Austria.

RUSSIA AND PERSIA.

In the treaty concluded between Russia and Persia, the former renounces all claims to the money which Persia owes, and, in return, obtains two pieces of land, one on the Caspian, and the other in the eastern part of Persia. Both of them, for strategical reasons, are of the highest importance to Russia.

The Emperor was highly satisfied with the General who made the treaty. This cession of land, and other intrigues connected with it, may account for the proceedings against Persia.

Russian circles in Paris maintain that the Shah has not and will not ratify the treaty of peace with England, as sent to him.

THE LATE ATTACK ON A BRITISH SCHOONER AT BELLE ISLE BY A FRENCH MAN-OF-WAR.

The following despatch was posted on Friday at the Underwriters' Rooms in this town: "Cardiff, May 27. The schooner John and Edward, from Bordeaux to Liverpool, put into Belle Isle, windbound, on the 24th May. In the roads the French war schooner was at anchor, and the John and Edward, came to anchor a cables length under the stern, without giving a signal. Though one of the crew held a flag in his hand, the Maratch fired at the schooner three times, and James Williams, one of the crew of the latter, was shot dead."

The case is under investigation by the authorities.

Extract from a letter received from the wife of the captain of the British schooner, John and Edward from Bordeaux to Liverpool, dated Belle Isle, May 24th, 1857:—

"We started from Bordeaux last Monday; the wind being contrary to us, with a heavy swell, we went for shelter under a place called Luiberon Bay. The wind varied on Sunday morning to south-west. We started from there at seven o'clock. At ten o'clock the wind was north west, with a heavy swell. Went to Police Road where there was at anchor a man-of-war schooner. We sailed under her stern; the lieutenant hailed us, but we did not understand him. John, (the captain) said Liverpool—anchored within a cable's length of her—mainsail down—a shot came whistling on the deck—I gave them the flag. James Hughes was sent up to reef the belliards. John Evans stood with the flag in his hand, showing what nation we were. As the boy was coming down, the second shot came. John Evans and Little William were holding our boom, when the third shot came between the three men—that were stowing the mainsail, when poor James Williams fell down close by their feet. The inquest is not held on him till to-morrow. He fell down, he did not sigh or groan. Put the boat out in an instant and went alongside of them, and told them they had killed one of our men, they sent their doctor on board, but the poor fellow was shot dead on the spot."

FRANCE AND ENGLAND.—"La Presse" contains a remarkable article on the English alliance. Its appearance was known beforehand, and that it would be, if not written, at all events, inspired by a personage of exalted rank, whose dislike of all that is Russian is very strong. The papers began to be sold at the very moment the Grand Duke was passing. The article glorifies the political privileges of the English people. It says, we find, among the liberties we have lost the press and the tribune, humbled almost everywhere else, remain there undiminished. England is an asylum for ideas as well as for men who are proscribed by political vicissitudes. Democratic France is the ally of free England. We hail this alliance as the pledge and the security of the future. Altogether the article is remarkable, considering the present state of the press in France.

HOLLOWAY'S OINTMENT AND PILLS.—Lacerations of the flesh, bruises and fractures, occasion comparatively little pain or inconvenience when regularly lubricated or dressed with Holloway's Ointment. In the nursery it is invaluable as a cooling application for the rashes, excoriations and scabious sores to which children are liable, and mothers will find it the best preparation for alleviating the torture of a "broken breast." As a remedy for cutaneous diseases generally, as well as for ulcers, sores, boils, tumours and all scrofulous eruptions, it is incomparably superior to every other external remedy. The Pills, all through Toronto, Quebec, Montreal, and our other chief towns, have a reputation, for the cure of dyspepsia, liver complaints, and disorders of the bowels; it is in truth, co-extensive with the range of civilization.
