PLANS FOR RADIAL LINE TO WEST NOW BEING REVIVED BY COMMISSION

Conference Being Held With Municipal Councils Between Port Credit and Niagara Frontier to Mature Arrangements as Set Forth in By-laws Passed Three Years Ago

WORK WILL MEAN MUCH TO THIS CITY

That a five operations, looking toward the early commencement of construction work on the Hydro Radial railway between Port Credit and construction work on the Hydro Battery, will begin soon seems fairly certain. Representatives of the Hydro Power Commission have within the last few days been visiting several of the municipalities which voted in favor of the project in order to get their views as to whether the building of the line should begin soon. As far as they have gone the municipal councils have expressed themselves in the affirmative.

ONLY ONE REMAINS OUT

It will be recalled that a by-law authorizing the Power Commission to undertake this scheme was submitted about three years ago to all the municipalities concerned between Port Credit and St. Catharines and Bridgeburg, etc. With only two or three exceptions they carried it. Hamilton city and the township of Saltfleet, near Hamilton registered against it. Recently the by-law was again put before the electors of Hamilton and after a hard fight those in favor of the Hydro Radial came out victoriously. There remains, therefore, only about one municipality with a negative vote.

When the by-law was submitted it was stated that one of the objects of taking a vote, at that time was to get everything ready so that construction operations could begin after the war closed. That time has now come and while under the terms of the by-law as passed the Commission could go ahead and carry out its plans, nevertheless, it is felt to be good policy to consult with the municipal councils and acquaint them with what is intended. It is probable that a conference may soon be held with the Council of St. Catharines.

AFFECTING THIS CITY

Before the work begins on actual construction there are surveys to be completed. For instance in this city many features are involved as to the point of entrance and exit the proposed freight lines, station, sheds, etc. According to the terms of the by-law the line arrived at a point near the western end of the bridge. It is probable that this would not be the best arrangement. There would be other developments of a character that will interest the local public. It is not impossible that the vacant lands owned by the city just west of Ontario street and on the right of the roadway may become a part of the terminal arrangements for St. Catharines. It was expected that the Niagara St. Catharines and Toronto Railway would prosecute its negotiations for a proposed passenger station at this point and hence it is probable that it may be embodied in the Hydro scheme.

A LONG FELT NEED

While little of a definite nature can be disclosed, yet it can be said that the first steps toward carrying through the Hydro radial line which will give St. Catharines a long desired suburban service with the west have already been taken and the public may soon begin to feel that the municipality's future with respect to transportation facilities will be improved. One of the most urgently needed services to make St. Catharines a more attractive industrial centre is a new road to the west, not so much for through traffic, which is handled by the Grand Trunk but for local and interurban passenger and freight requirements.

GAGE REORGANIZATION

Harry Love Succeeds to Office Held by Late W. P. Gundy
Reorganization made necessary by the untimely death of W. P. Gundy, president of the company, has just been completed in the W. J. Gage Co. of Toronto. Harry Love becomes president and H. P. E. Kent, vice-president. Sir William Gage continues as chairman of the Board of directors. As yet the necessary reorganization in the Kinleith Paper Co. of which Mr. Gundy was also president has not been effected.

FRUIT AND VEGETABLES ARE CHEAPER

Hamilton dealers figure that owing to the tariff changes the price of imported strawberries will drop at least five cents a box, and that there will be a reduction in the prices of imported fruits and vegetables of from twenty-five to forty per cent. The same effect will likely be found in St. Catharines.

GETTING AN EARLY START

Although the first half of the year has not passed yet there is already much talk of the New Year election. A Journal representative was informed Saturday night, that at least three of the present Aldermen will be in the running for the office of Chief Magistrate next year. They are three of the older members of the Council.

POGROMS IN POLAND MAKE RACES SHUDDER

Jews of Lincoln and Welland Counties Assembled at Niagara Falls Emphasize Protest Against Atrocities Committed in Europe

STRONG ADDRESSES DELIVERED

In answer to a moan of suffering and anguish that is being heard throughout the civilized world from the persecuted Jews of Poland, Galicia and elsewhere, a mass meeting of members of that race was held in the City Hall at Niagara Falls, Ont. yesterday afternoon. It crystallized its opinions in a resolution moved by Mr. Birgerman, of Welland and seconded by Mr. R. J. Hoffman, of St. Catharines, a resolution which strongly protests against the brutal atrocities committed and appeals to the Allied Government to prevent further inhumanity. The gathering was largely attended by those of the Jewish faith in Lincoln and Welland Counties and during the afternoon several strong addresses were given by those who had been invited to speak.

Animated by Jealousy
Rev. J. Holzman of Niagara Falls, N. Y., presided and briefly explained the purport of the assembly. He was personally acquainted with conditions in Poland and felt certain that the pogroms held were inspired by jealousy toward the Jewish people. The crimes committed by the Slavic race against the Jews were revolting and he was glad to join with his Canadian friends in sending up a protest against the butchery that had been going on. That so many prominent Gentiles should come to the meeting was particularly gratifying. It showed their sympathy.

Mayor Stevens of Niagara Falls, extended a civic welcome to all present and said that Anglo Saxons fought and died for the liberty and freedom of the weaker peoples and would do so again if necessary. Jew and Gentile could well unite together to protest against the atrocities of Northern Europe.

During the address of Rev. Mr. Barber he mentioned the names of many Jews who had distinguished themselves in statescraft, finance, commerce and philanthropy. They were a people who respected and obeyed law and authority and one of the blackest pages in history was that recording the atrocities against the Jews of Poland.

A Basic Principle

Mayor Elson said the basic principle of democracy on the North American continent was the right of a people to freedom. The persecution of any race was contrary to our national creed. If the voice of a hundred and ten million of people on this side of the Atlantic was raised against the pogroms in Europe he believed the Allied Governments would heed the protest.

Mr. McCarron briefly expressed his sympathy with the demands of a race to live as it desired to live without being oppressed.

Mr. Burgoyne said the Canadian public highly respected the Jew as a law-abiding and progressive citizen. The

RETURNING TO THE FIELD

Ever since the last general election Hon. Geo. P. Graham, who was at one time looked upon as a logical successor to the late Hon. Sir Wilfrid Laurier, has been remaining rather quiet politically. He is, however, coming back into the field again with his old vigor and "punch." At a largely attended meeting in Port William last night he emphasized the get-together movement that was going on among the Liberals and strongly criticized the Dominion Government for waiting till such a late date to take action toward reducing the high cost of living to which he attributed much of the unrest and labor trouble.

CALL NATION-WIDE STRIKE

Western Union Telegraphers Confer With Officials of Company.

WASHINGTON, June 9.—Threatening a nation-wide strike of Western Union telegraphers, S. J. Konenham, president of the Commercial Telegraphers' Union of America, started for Chicago early Saturday for a conference with officials of the organization.

Following this conference, he said he would issue a call for the strike in order for postal operators to leave their keys, he said, would probably come later.

CITIZENS AT STATION TO MEET WARRIORS

A number of citizens were at the station last night at 8 o'clock to welcome the members of the 54th Battalion, who were returning to the Garden City after service overseas in defense of King and Country. Among those who returned were Ples Nelles, Fix, Hooper, Backus, Forbes and Gunn. The boys all looked hale and hearty as they stepped from the train and every one seemed glad to be back home again.

MUNICH IN DISORDER

Machine Gun Firing Heard Intermittently.

BERLIN, June 6.—Disorder reigned in Munich all last night according to advices received from the Bavarian capital today. Machine gun firing was heard intermittenly. The reason for it was not known at the time the advices were dispatched. The newspapers were not able to appear. The metal workers' strike in Munich has extended to Nuremberg and Fuenrich.

LITTLE GIRL CUT

Thelma, the little daughter of Mr. and Mrs. Martin McDonald, of California, who are guests at the home of Mr. and Mrs. James McDonald, Merritt street, received a very painful wound in her leg on Saturday last while they were enjoying an outing at Niagara Falls. While romping in the park she fell upon a piece of sheet tin which was covered by grass, cutting a deep gash below the knee, which necessitated four stitches being taken by a Niagara Falls physician.

atrocities in Poland were appalling and the Allies should stop them.

Text of Resolution

In addition to those who spoke, Alderman Smith, Dakers, Riffer, Rose and Hill were also present. A large number of Jews from St. Catharines went down. The following is the resolution unanimously passed: "The resolution was in effect that, whereas the treatment of the Jews in Poland and some other eastern countries was worse today than even in barbaric Russia, and whereas the Jews had willingly given their blood in fighting for democracy, they call upon Canada, through Sir Robert Borden, to use its influence to stop the massacres and secure absolute freedom for the Jews all over the world."

ANNUAL CONVENTION OF THE W.C.T.U.

The annual convention of the W. C. T. U. for the County of Lincoln was held Friday in the Welland Avenue Methodist Church. In the morning the election of officers for the year was held, resulting as follows: Mrs. Culp, hon. president; Mrs. Wilson Taylor, president; Mrs. Nettleship, vice-president; Miss Lowrey of Queenston, recording secretary; Mrs. Charles Taylor, corresponding secretary; Mrs. W. A. Gardner, treasurer. In the afternoon, Mrs. (Col.) Laing of Toronto, gave an address on Women's franchise. Mrs. Lang is an able speaker and her address proved very interesting and instructive. A white ribbon tea was served at six o'clock, greetings were received from ministers of all denominations and from Mr. A. E. Coombs and Mr. Hetherington. In the evening there was a silver medal contest the contestants were: Miss Ruby Smith, winner, Miss Vera Rittenhouse, Miss Irene Gault, Miss Eva Thornton, Miss Gladys North, Miss Lillian Gill, Miss Nina Bennett. The judges for the contest were Mr. Fred Parnell, M. L. A., Mr. G. A. Carefoot and Mr. A. E. Coombs. The contest was interspersed with readings and musical numbers.

FIRE DESTROYS PART OF PLANT OF COLD STORAGE

Blaze of Unknown Origin Started Among Baskets Outside Warehouse Near Geneva St. Station of the Grand Trunk.

The firemen had a call to Geneva Street on Saturday night to put out a blaze which had gained good headway at the St. Catharines Cold Storage plant located at the Geneva Trunk station of the Welland Division. Although considerable damage was done before the firemen arrived they managed to save part of the contents, also the railway station. The building contained about \$25,000 worth of goods containing empty baskets, phosphate fertilizer and a large amount of sulphur. Insurance to the amount of \$9,000 was carried on the contents and \$3,000 on the building.

Started Outside

The fire started on the outside of the building where a number of baskets were piled, but the direct cause is unknown. The firemen did excellent work all night, every member of the brigade both off and on duty responding.

There have been several fires lately but this is the only one in which much damage has been done. The firemen got the call at night and they worked hard till 5 o'clock Sunday morning in order to save as much of the property as possible.

There were about eight car loads of baskets, twenty tons of sulphur and a large quantity of fertilizer.

PAPER MANUFACTURERS TO VISIT THOROLD

THOROLD, June 9.—On Saturday next a luncheon will be tendered by the manufacturers of this district to two hundred or more delegates comprising part of the Technical Association of Pulp and Paper Industries of the United States. The trip to view the paper mills of the Niagara district will be made by the delegates at the close of their convention, which is being held in Erie, Pa. and Buffalo on the 12th and 13th inst. The visitors will doubtless be impressed with the district as a paper-manufacturing centre, for within a radius of five miles there are eleven paper and pulp mills. Thorold and district may rightly be called the Kalamazoo of Canada.

The rumor that one of the largest paper mills at Thorold was to double its capacity was confirmed on Friday. Thorold and district is becoming every day better known as the paper-manufacturing centre of Canada. The Board of Trade reports having received many inquiries from United States firms as to Thorold and district.

GERMAN POWERS HOLD CONFERENCE ON TERMS

BERNE, June 9.—The German National Assembly met yesterday with the members of the Government and members of the German Peace mission for a joint conference over the status of the Versailles peace negotiations.

SHORTER HOURS AND MORE PAY IS THE SLOGAN OF THE DAY

A THOUGHTFUL KINDNESS

Chief Early with his fire brigade feel very much indebted to the Woldorf Restaurant for their thoughtfulness and kindness on Saturday night in supplying delicious sandwiches and coffee to the firemen who were kept busy up until Sunday morning fighting the fire at the cold storage on Geneva street. In conversation with the Chief this morning a Journal representative was informed that too many thanks could not be given the Woldorf for their gracious act.

FUNERAL OF ARTHUR KINNEAR

PORT COLBORNE, June 9.—The body of Arthur Kinnear, Hydro-electric engineer, who was drowned in the Niagara River on May 12th, was recovered at noon last Wednesday a mile below the place of the accident, and was brought to his home in Port Colborne. The funeral which was private, was held yesterday from the residence of his parents, Mr. and Mrs. Louis Kinnear, to Oakwood Cemetery.

Winnipeg is Now Getting Back to Normal Condition

Fourth Sunday of the Strike Finds Things in Fairly Quiet Shape—Many Strikers are Returning to Work—Road Depots Working Well.

WINNIPEG, June 7.—With the exception of the rusted street car rails in Winnipeg as all the appearance of a normal city, although a strike involving 30,000 workers has been going on for more than three weeks. In fact, this was the fourth strike Sunday and the end is not in sight. A number of strikers are going back to work. A good many clerks, warehouse workers, caretakers and elevator operators have gone back to their jobs, but the great mass of the strikers are standing solidly. All admit that they are anxious to be back at work, but fear that the collapse of the strike will be regarded as a blow for trade unionism keeps them in line.

City Suffers Very Little

The bakers and bread and milk drivers are still out, but despite this the city has not suffered for lack of either bread or milk. The city's food depots are operating without trouble and have overcome a difficult situation. In fact the amazing thing about the whole strike is the way the public utilities and all the essential businesses have been carried on, despite the absence of the ordinary workers. The telephone service is much below standard, but all other utilities are working along normal lines.

Expected to Answer Basis

The strikers from the railway-running trades who have been working for a basis of settlement between the metal workers and the employers expect to have a definite announcement one way or the other tomorrow. They are awaiting a reply from the employers to a proposal which the Strike Committee has passed upon as satisfactory. The three daily papers and The Veteran, the organ of the G. W. V. A. are opposing the sympathetic strike. The action of the Strike Committee in allowing the bakers and milk drivers to quit their jobs is referred to in "The Telegram as 'herodism.'" The Free Press refers to the Strike Committee as "baby-killers."

Wouldn't Call Off Strike

Despite pressure from union men representing the faction demanding settlement of the Winnipeg general strike the Central Strike Committee this afternoon declined to call off the sympathetic walkout. It also was intimated that such action by the committee probably would have led to adjustment of the general labor controversy.

LOCAL STRIKE SITUATION REMAINS UNCHANGED

There is no change in the strike situation among the machinists, moulders and pattern makers. Both went out from local factories. Both employers and employees seem a little disposed to make concessions but the mechanics have expressed a willingness to meet representatives of the manufacturers in conference to see if their differences cannot be adjusted. The Mayor is making an effort as requested, to bring the two interests together for arbitration but as yet has not been able to make a definite arrangement.

While Starting to Clean Barrel Fire Arm Discharges and Sends Bullet into Head of Francis

Cartmell of Thorold—Second Recent Death in Family
An accident which proved fatal occurred in Thorold on Saturday night (Francis and John Cartmell, 14 and 16 years of age, sons of Mr. and Mrs. William Cartmell, were enjoying a few minutes fun in the back yard and after entering the house, the eldest of the two started to clean the barrel of his 22 calibre, not knowing that a bullet was still in the gun. The weapon, however, went off striking the youngest brother in the forehead. Dr. Campbell was summoned and removed the patient to the G. and M. Hospital in St. Catharines, but he passed away a few minutes later. This is the second death in the Cartmell family in the past eight months, Timothy, their eldest son, having been killed in France in September last.

Laborers on N. S. & T. Work on James St. Take up the Refrain and by the Same Token lay Down Their Tools

The strike fever seems to be in the air. "Shorter hours and more pay" has become the slogan. This forenoon a group of twelve or fourteen men who were engaged by the N. S. and T. Railway for the work of relaying the pavement and tracks of the company on James street, put in a demand for more money. They were told they could not be given more and said they would quit work if they did not have their demands granted. They were told they might quit if they wanted to, and quit they did, at 9 o'clock.

They were being paid thirty-five cents an hour by the company, and they thought it wasn't enough. Anyway, the weather was warm, and the cool shades of the maple trees looked alluring.

The men who laid down their tools were not regular employees of the company, but were among those who went out on strike on the Welland canal. They were given work here two or three days ago, and now they are idle again. The company is not concerned over the matter but will prosecute the work just the same.

Winnipeg is Now Getting Back to Normal Condition

Fourth Sunday of the Strike Finds Things in Fairly Quiet Shape—Many Strikers are Returning to Work—Road Depots Working Well.

WINNIPEG, June 7.—With the exception of the rusted street car rails in Winnipeg as all the appearance of a normal city, although a strike involving 30,000 workers has been going on for more than three weeks. In fact, this was the fourth strike Sunday and the end is not in sight. A number of strikers are going back to work. SHOULD BE PROSECUTED

Attention has frequently been called in the past to the excessive speed at which many automobiles travel through the residential streets of the city, but they go on week after week without any fear or hesitation. The marvel is that more children are not injured or killed. Parents find it next to impossible to always keep their little ones from wandering out onto the highways, and the number of accidents that are narrowly avoided is, we imagine, quite large. It is, of course, not an easy thing to catch motor car offenders, but there is a way of doing it, and unless hits are taken it may be well to make an example of a few. Because a man drives a car gives him no license to disregard all the rules and laws of the community governing roadways and the rights of pedestrians.

SPREADS REVOLUTION AND RUIN

Only by observing the results of widespread human movements in other countries, where they have been almost unlimited in their operations, can we form a fairly accurate opinion as to their success or failure. Ever since Lenin and Trotsky gained ascendancy and power in Russia their doctrines and policy have had full fling. Bolshevism as a national creed has run its course till it has become a national curse. It has disorganized the whole social, commercial and financial fabric of that great country till today half of the population is lawless, distressed and starving.

The suppression of industry under Bolshevism is supported by so much evidence that additional proof is hardly required, but in the Economic Supplement of the Review of the Foreign Press, issued by the General Staff of the British War Office, there is an extract from the "Izvestiya," one of the two daily papers whose publication has been permitted in Moscow, and which is edited by leading Bolsheviks. The statement, which deals with conditions last December, reads:

"With a very few exceptions the great mass of our employees are inert, apathetic and unperked, incapable of any initiative and creative labor. Socialization and the requisition of the factories have led to chaos in the timber and paper manufacturing industries."

How bad the workers' situation is, is shown by a resolution carried in Ivanov, which reads in part as follows:

"Since the middle of June no bread has been issued in the Government. The workers have not the strength to go on starving. We protest against this policy of the central power which has brought the working classes in this government to the verge of death by starvation."

It is this kind of social anarchy that agents of these two clever scoundrels are said to be trying to spread in Canada and the United States. The Dominion Parliament took a wise step in passing legislation to apprehend and deport every villain who seeks to sow the seeds of discord and revolution on this continent. There should be no room here either for Lenin or his adherents.

WORKMEN'S COMPENSATION REPORT

The report for the fourth year's operation of The Workmen's Compensation Act, which is now printed, contains much interesting information concerning industry, workmen, and accidents in the Province.

 Agents for Vinol, Nuxated Iron, Bitro Phosphate, Tyrell's Cascades.

During the year \$3,514,648.47 was awarded for compensation or \$11,600 a day and \$369,346.37 for medical aid or \$12.19 a day, the number of cheques issued per day being 248 for compensations and 139 for medical aid.

Payment was made for 40,930 accidents, 382 of these being death cases, 2,549 causing some degree of permanent disability, 25,446 causing only temporary disability and 12,553 involving only medical aid.

It is estimated that over 500,000 workmen are covered by the provisions of the Act.

As the disability in serious accidents often continues into and sometimes beyond the following year, complete statistics can only be given for the prior year.

These show that about 75 per cent of the injured workmen were British subjects and 25 per cent foreign, 61.2 per cent being Austrians, 6 per cent, Italians, 51.2 per cent, Russians and 21.2 per cent, citizens of the United States.

The average weekly wage of injured workmen was \$19.06 and the average age 34.07 years.

The total time loss from accidents during the year was 565,526 days; the average length of temporary disability was 21 days.

Machinery caused about 32 per cent of all the accidents; the handling or moving of objects, 28 per cent; and falls of the workmen 10 per cent. The most prolific individual causes were saws which caused 892 accidents; lathes 891; presses 813; hoisting apparatus 785; abrasive wheels 781; belts, pulleys, chains and sprockets 390; of which 7 were fatal; planers, jointers and edgers 260; shapers, moulders and headers 121; shafting, couplings and set screws 75, of which 6 were fatal; Falls from vehicles caused 290 collapse of support 278. Hot and inflammable substances caused 1,018 accidents; falling objects caused 1256 and runaway animals 98.

In the present industrial conditions the existence of a law which is just and satisfactory to labor and not unduly burdensome to industry is of the highest importance and the success of the present Ontario Act must be a great satisfaction to those responsible for its enactment, among whom the representatives of labor took a leading part.

While the amendments at the last Session have put the Ontario law in the first place in regard to benefits to workmen, the rates of assessment are low compared with those of other places. The explanation is in the fact that Ontario has a collective liability state system in which the comparatively small cost of administration is mostly borne by the Province and in the fact that the provisions and the methods of administration of the Act are very simple, speedy and inexpensive.

Statistics show that from 40 to 60 per cent of what is paid by employers for private insurance elsewhere is consumed in expenses and profits and less than 25 per cent of what the employer paid under the old employers' liability system actually reached the workman or his dependants, the rest being absorbed in legal and other expenses.

WHAT EXCHANGES SAY

WHAT ABOUT COPYRIGHT BILL?
 From the Kingston Whig.

A committee has been appointed by Parliament to wrestle with the high cost of living. Let us hope that they show more speed than the committee appointed to attend to the Canadian Copyright Bill.

OUR AWFUL FIRE TOLL
 From the London Free Press.

What is the use in crying out against railroad mismanagement while there are four times as many people burned to death in Canada every year as are killed by steam or electric railways?

Louis H. Hesbon, of Windsor, aged forty, died after agonizing suffering from being burned, through his clothing, unknown to him, becoming sprayed with gasoline.

CLEAR THE NOSTRILS IN FIVE MINUTES
 Routes Out Catarrh, Stops Sniffles, Prevents Sneezing

CATARRHOZONE IS A MARVEL

It just takes about five minutes for the penetrating vapor of Catarrhozone to clear out clogged nostrils. Hard crusts and accumulations are quickly removed. The soothing balsams of Catarrhozone draw out every vestige of inflammation, nose colds stop as if by magic, Catarrh is prevented, better health is assured.

To cure colds without taking drugs may seem almost too much to believe, but Catarrhozone does it quickly and effectively. Endorsed by physicians, and in common use by the people of many nations. All dealers sell Catarrhozone, complete outfit \$1.00; small size 50c; sample size 25c direct from the Catarrhozone Co., Kingston, Canada.

WHY DO WOMEN SUFFER

When There is Such a Remedy for Their Ills as Lydia E. Pinkham's Vegetable Compound?

Mishawaka, Ind.—"I had such a severe female weakness that I could not do my work and I could not get anything to relieve me. A physician treated me, but it did no good. I had been in this condition for three months when I began taking Lydia E. Pinkham's Vegetable Compound (tablet form) and it cured me. I keep house and am able to do my work now. I certainly praise your medicine."—Mrs. SUDA OLDPATRICK, 548 West Second Street, Mishawaka, Ind.

Women who suffer from such ailments should not continue to drag around and do their work under such conditions, but profit by the experience of Mrs. Oldpatrick and thousands of others who have tried this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and found relief from such suffering. If complications exist write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in advising women on this subject is at your service.

A MENACE TO NATIONAL UNITY

(Toronto Star.)

In a review of some books on Quebec the Saturday Review seeks to account for the dislike in which it beholds French Canadians are held by their fellow citizens:

No race, or nation can persist in practising particularism within the territory of a dominant nation without incurring dislike. It is not only that the French Canadians, 28 per cent of the population, are Roman Catholics, while the majority of British Canadians are Protestants and Wesleyans. It is not only that they speak French; but that their social habits and manners are different from the majority, with whom they refuse to be assimilated. It was their sullen particularism that made the Jews so unpopular, and with the relaxation of that particularism their unpopularity has diminished.

This difference in social habits and manners, with a sullen resistance to assimilation, is a serious business. Unhappily, it is not confined to Quebec. Differences in social customs are to be observed in Toronto. Some people live in Rosedale, others in less fashionable neighborhoods, and both sullenly refuse to be assimilated. Some play golf, others are baseball fans. Some live in six roomed houses, others in mansions, and the ladies of one class rarely exchange visits with the ladies of the other. Some sons and daughters of the rich are isolated in private schools, thus emphasizing and perpetuating class divisions. Those who are always worrying about the failure to assimilate the French Canadians ought to be equally anxious about these differences in social habits and manners, and advocate uniformity in clothes, pastimes and social customs. A determined war ought to be waged on all exclusive clubs. How can we hope for a united Canada while these social cleavages exist?

STRAW FOR IDLE HORSES

Straw is a feed very high in fibre and the horse's digestive system is not suited to the liberal use of this roughage. It is not a suitable feed for horses at hard work, but during the winter months may be used to advantage where hay is scarce, and particularly if a little grain is fed along with it. It is just a question whether it is more economical to feed good hay or to feed a ration of bright straw and a ration of crushed oats. At least one or two light feeds of oats per day.—Prof. Wade Toole, Ontario Agricultural College, Guelph.

LACROSSE OPENS

The lacrosse season opened on Saturday with a double header at the Lacrosse Grounds. The Woodlands succeeded in defeating the Westams by a 12 to 1 score and the West St. Catharines were victorious against the Young Athletics 6 to 4.

Women Know

that they cannot afford to be ill. They must keep themselves in the best of health at all times. Most of all, the digestive system must be kept in good working order. Knowing the importance of this, many women have derived help from

Beecham's Pills

These safe, sure, vegetable pills quickly right the conditions that cause headache, languor, constipation and biliousness. They are free from habit-forming drugs. They do not irritate or weaken the bowels.

Women find that relieving the small ills promptly, prevents the development of big ones. They depend on Beecham's Pills to tone, strengthen and

TO SAVE SEED CORN

Straw May be Used Much More Freely for Idle Horses

Vegetable and Root Crops Grown This Summer Must Be Carefully Stored to Prevent Loss—Proper Temperature Checks Decay—Sand Will Ensure Firm Vegetables.
 (Contributed by Ontario Department of Agriculture, Toronto.)

THE year 1917 provided, both in the United States and in Ontario, conditions very unfavorable for the production of good seed corn. Excess of moisture in the crop was followed by freezing and these conditions resulted in one of the worst seed crops years in a generation. As a result of this much of the seed corn sown in Ontario in 1918 was, to say the least, varieties that were late in maturing. A very high percentage of this corn which will be used for seed next year, now contains a large amount of moisture. To make this corn of the greatest value for seed purposes, it should be harvested, if possible, before frost sets in. One of the essentials in producing good seed corn, but no less important is the thorough drying of the seed.

It is not even necessary for corn to be frozen to lose some of its vitality. It will deteriorate at ordinary temperatures if not well dried. When freezing occurs, the loss in vitality is experienced. Corn which is harvested with an excess of moisture should be dried as rapidly as possible. The danger of loss in vitality is experienced. Corn which is harvested with an excess of moisture should be dried as rapidly as possible. The danger of loss in vitality is experienced. Corn which is harvested with an excess of moisture should be dried as rapidly as possible. The danger of loss in vitality is experienced.

CITY OF ST. CATHARINES

Taxes Year 1919

Under the authority of By-law No. 3200 passed on the 25th day of March, 1919, notice is hereby given that all taxes for the year 1919 are now due and payable but may be paid in three instalments as follows, subject to the following exceptions and conditions:

Taxes which are not payable by instalment:

Taxes in Income Assessment, Arrears of Taxes and charges collectable as taxes for any work done or services rendered by the Corporation are due and payable in full on or before the 25th day of June, 1919 (and not by instalments.)

1st. Instalment—due and payable on or before the 25th June 1919. One-half of the taxes will be the amount of the 1st Instalment.

2nd. Instalment—due and payable on or before the 25th September 1919. One-quarter of the taxes will be the amount of the 2nd Instalment.

3rd. Instalment—due and payable on or before the 25th November, 1919. One-quarter of the taxes will be the amount of the 3rd Instalment.

Taxes not paid when due.

If default is made in the payment of any instalment on the above dates, the privilege of payment by instalment becomes cancelled and the whole of the taxes or the balance unpaid, as the case may be, at once becomes due and payable together with percentages in addition, as follows:

Upon default in payment of taxes on the dates appointed,

Penalty 1% On amounts paid within ten days of time of such default, a percentage charge of one per cent, will be collected.

Penalty 2% On amounts paid within twenty days of time of such default, a percentage charge of two per cent, will be collected.

Penalty 3% On amounts paid within thirty days of time of such default, a percentage charge of three per cent, will be collected.

Penalty 5% On amounts remaining unpaid after thirty days of time of such default, a percentage charge of five per cent, will be collected.

Failure to pay the above instalments of taxes as they become due not only forfeits the right of settlement by instalment but brings the parties under the penalty of the Assessment Law, which enacts, that in case any party shall REFUSE OR NEGLECT to pay the tax imposed upon him for the space of fourteen days after demand, the Collector shall levy the same, with costs, by distress and sale of the goods and chattels of the party who ought to pay the same.

1. Ratepayers who do not receive their tax bills by the 1st day of June should notify Tax Collector's Department of the fact.

2. Cheques tendered in payment of taxes must be "marked" by bank and made payable at par to the City of St. Catharines.

3. Taxpayers sending amounts by mail for payment of taxes should also enclose the tax bill and a self-addressed and stamped envelope for the return of receipted Tax-bill.

4. Taxes are payable at the office of City Tax Collector.

STUART K. WATT,
 City Treasurer.
 CITY TREASURER'S OFFICE, ST. CATHARINES, 17th May, 1919.
 m19.31.15/14/18/21

Hints on Harvesting Root Crops

Root crops should be taken up before the weather becomes too wet and disagreeable in the fall if in any quantity. It is slow work at any time and becomes much more so under such conditions. Lift the roots with a digging fork and twist off the tops, putting them in piles and covering with the tops. If a large area is to be lifted and one is expert with a sharp hoe he can very quickly remove the tops, but they will not keep quite so well. The roots should be ploughed out, throwing them as much as possible on the top. Bins with slatted sides and bottom should be used for storage where possible, as this gives the roots a chance to sweat. If the storage room temperature is above 40 degrees F., cover them with sand. Carrots should not be deeper than two feet in a bin, others may be four feet. Where cellar storage is not available use pits. These should be three feet wide, two or three feet high and of any length. Run the pits north and south where possible, and have them on well drained ground. Put a layer of straw on the ground and cover first with straw six inches deep, then six inches earth, and as frost sets harder cover with fresh straw manure. Have ventilations every 15 or 20 feet as all roots sweat in storage. These may be filled with straw during cold periods.

All roots should be as free from dirt as possible when put in storage. It is often advisable to leave a few days in small piles so that the second lifting any adhering will be removed.—A. H. MacLennan, B.S.A., Ontario Vegetable Specialist.

find means of joining our railways
in Europe. Ships only do this.

June Weddings

KIMMIT-STEELE NUPTIALS

A quiet but pretty early June wedding took place this morning at 7.30 in St. Mary's R. C. Church when Rev. Father Smythe united in holy bonds of matrimony, Hattie Margaret only daughter of the late Charles Steele and Mrs. Steele, St. Joseph St. and Wilfrid Laurier (Todd) Kimmitt. The bride was becomingly gowned in a suit of taupe satin and wore a black hat with ostrich trimmings. Miss Mabel Dixon of Port Dalhousie, in a suit of navy blue and black hat, made a charming bridesmaid, while the duties of groomsmen were ably performed by Mr. George Steele, brother of the bride.

The happy couple were the recipient of numerous costly presents which testify to the high esteem in which they are held by a wide circle of friends and acquaintances. Although the wedding was extremely quiet, the church was filled with many friends to witness the ceremony. Mr. and Mrs. Kimmitt left at 8.45 for a wedding trip to Buffalo and points east and upon their return will reside in the city where they will receive best wishes for a happy and prosperous wedded life.

ECCLESTONE-SCOTT

A pretty wedding took place on Thursday at the Methodist Manse, Morrison street, Niagara Falls, when Rev. Mr. Todd united in marriage Zella Geoa Scott, daughter of Mrs. Cadney of St. David's, and Walter Ecclestone, son of Mr. and Mrs. G.F. Ecclestone of St. Catharines. The bride looked very attractive in a pretty navy blue suit, with leghorn and

DON'T LET WIFE DIE OF LOCKJAW

Warn her against cutting corns because they can be lifted out.

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug called freezone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the tender, aching corn. The soreness is relieved at once and soon the entire corn, root and all, lifts out without pain.

This is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Cut this out and pin on your wife's dresser.

Blue crepe hat, and a corsage bouquet of white roses. After a short honeymoon, Mr. and Mrs. Ecclestone will make their temporary home on Ferry Street, Niagara Falls.

There is every indication says the Canadian Trade Commission that cost of manufacturing in Canada for a long time will not be greater than in Europe. Canada, in the meanwhile could get a footing in the foreign markets.

AIR LINE TO WINDSOR TO START NEXT WEEK

WINDSOR, June 7.—Through the efforts of a few local men, Windsor has been selected by an American company as the terminal for a Toronto-Windsor-Detroit airplane passenger service. The service will be inaugurated next week, when Lieut. J. Kirkham, son of the promoter will make a flight from Toronto.

Negotiations are proceeding with the Windsor Jockey Club for the use of the racetrack as a landing place for the planes. Windsor was chosen after the promoters unsuccessfully attempted to interest Detroit in the plan it was said.

TELEGRAPHERS TO STRIKE

Members of Pacific Coast, Unions Make Demand.

SAN FRANCISCO, June 9.—A strike of commercial telegraphers who are members of the union throughout the Pacific Coast States, is to be called June 11 unless demands made upon employers are complied with according to a message received by Patrick O'Connor, president of the local organization of the Commercial Telegraphers' Union of America.

EGYPT AGITATORS BUSY

Masses, However, are Nonresponsive to Disturbers.

Cairo, Egypt, June 9.—Nationalist extremists are agitating for a renewal of the disturbances, but the masses of the people are unresponsive. The police raided several cafes in Cairo, seized seditious literature and made several arrests.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research in the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise splitting headache, stuffy from a cold foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous, stagnant matter.

Everyone, whether sitting, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus clearing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are lathered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexion are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make any one a pronounced crank on the sub-

THE SONG MY PADDLE SINGS

West wind blow from your prairie nest
Blow from the mountains, blow from the west.
The sail is idle, the sailor, too;
O wind of the west we wait for you.
Blow, blow.
I have wooed you so,
But never a favor you bestow.
You rock your cradle your hills between.
But scorn to notice my white lateen.

I stow the sails, unship the mast;
I wooed you long, but my wooing's past;
My paddle will lull you into rest,
O drowsy wind of the drowsy west,
Sleep, sleep,
By your mountain steep,
Or down where the prairie grasses sweep.
Now fold in slumber your laggard wings,
For soft is the song my paddle sings.

August is laughing across the sky,
Laughing while paddle, canoe and I
Drift, drift,
Where the hills uplift
On either side of the current swift.

The river rolls in its rocky bed;
My paddle is plying its way ahead;
Dip, dip,
While the waters flip
In foam as o'er their breast we slip.

And, oh, the river runs swiftly now;
The eddies circle about my bow.
Swirl, swirl!
How the ripples curl
In many a dangerous pool awhirl.

And forward for the rapids roar,
Pretting their margin for evermore.
Dash, dash,
With a mighty crash,
They seethe, and boll, and bound,
and splash.

Be strong, O paddle, be brave, canoe,
The reckless waves you must plunge
Into,
Reel, reel,
On your trembling keel,
But never a fear my craft will feel.

We've raced the rapid, we're far ahead;
The river slips through its quiet bed.
Sway, sway,
As the bubbles spray,
And fall in tinkling tunes away.

And up on the hills against the sky,
A fire-tree rocking its lullaby,
Swings, swings,
Its emerald wings,
Swell the song that my paddle sings.

The Ortoix Family, Sensational Wire Walkers, With Sparks Circus

The first circus to visit St. Catharines since the war diverted one's attentions to more serious matters is in the city today and a big crowd was in attendance this afternoon at the big main exhibition tent near the Grand Trunk depot.

The Sparks circus crossed the line at Suspension Bridge Saturday night from North Tonawanda and arrived in St. Catharines early yesterday morning. All day yesterday the show grounds was thronged with people bent on seeing the animals and watching the circus people put up the many tents of the outfit.

Early visitors were treated to the novelty of seeing all the stakes driven by a gasoline propelled stake driver and the elephants harnessed and at work pulling up the long heavy poles. The Sparks circus has to all appearances one of the cleanest outfits ever seen here. It pretty well covered the big show lot with its tents and its horses and all the paraphernalia looked in first class condition. There was the big main exhibition tent, a menagerie, side show, four tables, a dining room and cook tent, harness repair and blacksmith shop and numerous smaller tents for the side exhibitions. All of the work was accomplished before church time, Sunday and the men had a chance to spend the remaining hours as they saw fit.

Most of the performers spent the day at the Falls and quite a few rested at the local hotels. Early this morning preparations were under way for the big parade and it hove in sight promptly at the advertised hour. The Sparks circus makes no pretensions of being the biggest on earth but it claims to have a show of exceptional merit both as regards parade and performance. There are two rings and a stage and the parade this morning did very much to establish the show as one that would in every way live up to its billing. Everything about the street display denoted lavish expenditure and good taste, there was a liberal display of wild animals in gold and gilded dens, three bands and a calliope that played popular airs, mounted ladies and gentlemen, tastefully uniformed wild west cowboys and cowgirls, clowns that tickled the kids, six elephants and several camels and the best horses ever seen here with any circus. The harness and trappings was bright and in perfect repair and there was an air of neatness about the whole parade that bespoke careful attention to every detail.

Major Smith, the press agent, who has seen service on many of the big western dailies states that the Sparks circus is now in its 32nd season and has toured every portion of the States. It is in size the third largest in that country and has been enlarged in the past ten years from a ten car show to its present mammoth proportions. It is a show that can be seen in its entirety from all parts of the big tent and the features are all exhibited singly. These include Captain Tietor's trained seals, the famous statue horses, Col. Greer's high jumping stallions, Ray Westley's dancing and cake walking Arabians, the Sauter troupe of japs, the Guito trio on the horizontal bars, the Earle's and Yorks, aerialists, the famous Ortoix family of wire walkers, Kyo Namba who walks on his head and a bunch of funny clowns.

In all probability there will be a big attendance at the evening performance as the show has made a very favorable impression since its arrival here.

The first Roumanian order for several million dollars, placed through the Canadian Trade Commission, has been satisfactorily completed. Mr. Henry B. Thomson, of the Canadian Trade Commission, now in London, says there is practically an unlimited market for Canadian farm produce in Great Britain alone.

FARM LOANS for SOLDIERS

How Returned Men Can Become Farmers

EVERY returned man who wants to become a farmer and is qualified for that vocation can get real, practical help through the Soldier Settlement Board.

The Government's programme includes—
(1) The securing of land.
(2) The loaning of capital needed to purchase equipment and live stock, and erect buildings.
(3) Agricultural training and farm supervision.

The Loans Granted
Loans may be approved by the Loan Advisory Committee, according to the needs of the settler, on the following basis—
(1) Up to \$4,500 on the purchase of land.
(2) Up to \$2,000 on the purchase of live stock, implements and other equipment.
(3) Up to \$1,000 on the erection of buildings and other permanent improvements.

The first and third are repayable in twenty-five equal annual instalments; the second in four equal annual instalments, beginning the third year, no interest being charged for the first two years.
On all these loans the low interest rate of five per cent. will be charged. A cash payment of ten per cent. of the purchase price will be required on the land—but this may be waived by the Board in special cases.
Qualified settlers on Dominion lands may secure loans up to a

maximum of \$3,000 on a plan similar to the above for farm equipment, live stock, and erection of buildings, provided security offered justifies the loan.

To Whom Granted
To be entitled to these privileges a man must have served with an honourable record in the Canadian, Imperial, or British Colonial forces in an actual theatre of war or outside of the country in which he enlisted (service in U.S. or Bermuda not included). Others eligible are—
A British subject who lived in Canada before the War and who was on active service with the Allied Forces in an actual theatre of war.
A member of the Canadian Expeditionary Force who served in Canada only, but is in receipt of a pension for disability occasioned by such service.

These benefits are also granted to widows of such men.

A Broad Policy
All soldiers whose best interests will be served by taking up farms will be assisted. Only suitable land will be approved. That is (a) land that is near to existing railways or organized communities; (b) land that will make money for the soldier; (c) land that will provide a first class home.

You Have No Right To Suffer

Suffering is unnecessary and with CHIROPRACTIC at hand, ready and willing to help you, you are acting very foolishly if you do not consult your Chiropractor at once. Upon the condition of your spine depends the state of your health and your suffering is without doubt due to a subluxated vertebra which is pressing upon the nerves causing the stop of mental impulses from the brain to the various organs. Your Chiropractor will give you a Spinal Analysis, will locate the place where the subluxation occurs and will proceed to adjust it. Mental impulses will then flow freely and unimpeded and your sufferings will be over.
Consultation and Spinal Analysis Free.

Natural Gas Is Not Unlimited

PROBS: Mostly fair and moderately warm.

Many people foolishly imagine that natural gas is like air or water—limitless and self-renewable—simply because it is "natural"

In reality, the supply of natural gas is quite limited, and it will take millions of years to renew it when it is used up.

Remember this when you are tempted to be extravagant in your use of natural gas.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT, THE SUPPLY IS NOT EVERLASTING.

THE UNITED GAS COMPANIES, Limited.

NIGHT RATES

The hours during which reduced long-distance telephone rates are in effect are as follows:

From 8.30 p. m. to 11.30 p. m., 60 per cent. of day rate.

From 11.30 p. m. to 6 a. m., 40 per cent. of day rate.

Night rates for Long Distance Service are based on Standard Time.

The power-house employees of the Dominion Power and Transmission Company have been given an eight-hour day, and an increase of wages from \$25 to \$40 a month. The Lincoln Electric Company of this city is a subsidiary of the D.P. and T. Co.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft, just and appearance of abundance which is so attractive.

Malpas pond was yellow with young boys all day Sunday enjoying a swim in this popular and shady place.

A meeting will be held this week at the G.W.V.A. Club House to make arrangements for the big celebration on July 1st. The event promises to be a big affair and will include a lacrosse match with a team from Chicago.

The small children in the neighborhood of Welland Avenue and Geneva St. had a great time yesterday playing in the water which soaked the grounds around the fire.

All roads led to the Circus Grounds yesterday afternoon and evening. The small boy had a great time watching the horses and elephants and many a table had a vacant chair at meal time, while the lads remained all day at the circus grounds. It is several years since a circus visited this city and judging from the crowds around all day Sunday it is arousing keen interest in both young and old.

The directors of the Canadian Cocker-Wheeler Company have declared a dividend of one and three-quarters per cent. on the preferred stock of the company for the three months ending June 30, 1919, also a similar dividend on the common stock.

The many friends of Mrs. J. Herrington, Henry Street, will regret to hear she is quite ill at the General and Marine Hospital, having had a severe operation performed the latter part of last week. Mr. Herrington who has been here attending his wife's bedside will leave this week for Washington, D. C.

Mr. Edward White of Toronto, is spending a pleasant visit with his brother, Mr. Fred White, 5 cross street.

The firemen received a call to Lake Street this morning to extinguish a blaze at the residence of Mrs. Weaver. The direct cause for the fire was an overheated chimney, which set fire to a bird's nest in the roof. The fire was soon extinguished after the arrival of the brigade.

On Sunday night a lad reported verbally at the fire hall that a fire had started in the rear of the Labor Bureau office, St. Paul Street. Upon the arrival of the firemen they found the fire had started from a heap of rubbish which had accumulated in the back yard, possibly caused from a lighted cigarette being thrown from a back window. The blaze was soon extinguished.

A signal honor has been conferred on Western University London, in the appointment of Prof. Barker, to the Fellowship Board for advancement of fundamental research in physics and chemistry to be encouraged by the U. S. National Research Council.

A rate of thirty mills has been fixed by Ingersoll Council. This includes one half mill for new Central Park, one and one half mills increase for the Board of Education, one mill for pavements and one mill rental on property acquired for industrial purpose.

Mr. S. A. Solmson, who has been filling the capacity of assistant superintendent at the Riordon Paper Mill in Merriton for the past three years, is now leaving town, having been transferred by the same company to Temiskaming, Quebec, where they are opening a new plant. Mr. Victor Solmson, recently with the Riordon Company at Hawkesbury, Ontario has been transferred to the Merriton plant to fill the position made vacant by his brother. Both Mr. and Mrs. Solmson have made many warm friends in Merriton, who have heard of their departure with regret.

The beautiful home owned and occupied by M. A. V. Mansell, situated on a quiet street in Welland was completely gutted on Sunday morning when fire broke out in the attic caused by defective wiring.

All the furnishings, which are very expensive, were completely destroyed by water in an endeavor by the fire brigade to overcome the flaming roof, the brigade were delayed in getting to the fire by reason of the swing bridge which happened to be swung for a boat going down the canal.

The palatial C. P. R. train the "Trans-Canada Limited", started on its transcontinental trip very recently. The equipment of this de luxe train has an estimated value of \$6,000,000 requiring 59 sleeping cars, 15 diners, 12 observation, 24 locomotives, etc.

City Clerk Kent of Hamilton is telling the citizens of that place that coal is likely to be scarce next winter and advises them that orders be placed early.

A large class of candidates made their first Communion in St. Catharines R. C. Church today. The service of confirmation will be held tonight.

HEART FLUTTERING EASILY CORRECTED

GOOD ADVICE TO FOLKS BOTH-ERED WITH PALPITATION, WEAKNESS, ETC.

If your heart flutters, be careful. An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it.

If blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm.

If you want a good honest remedy try Ferrozone. We recommend Ferrozone because we know it's just right for heart trouble. It cured A. F. Beattie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these:

Some Symptoms of Weak Heart. Nervousness, Palpitation, Dizziness, Sinking Feeling, Heart Faint, Short Breath, Weakness.

Mr. Beattie says: "I was weak and miserable. I was subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations. "Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

By strengthening the muscles of the heart, giving proper circulation and causing a general rebuilding of the whole system, Ferrozone is bound to do grand work in heart trouble; try it, 50c per box, or six for \$2.50 at all dealers, or direct by mail from The Catarrhozone Co., Kingston, Ont.

For the June Bride, let us suggest an "Eureka" Vacuum Cleaner, or one of our One Minute Washing Machines. We have them at different prices, either Electric hand, water or power driven. The Martin Electric Co., 9 St. Paul St. J. 9 m. t. & f. t. f.

Mrs. Robert Turner of Merriton sang a pleasing solo at the evening service at Haynes Avenue Presbyterian Church on Sunday.

Mayor Church of Toronto is endeavoring to devise ways and means of resisting the invasion of the streets of that city by the Toronto and Niagara Power Company which succeeded in securing this privilege through the action of the Senate last week.

The Grand Trunk has got permission from the Railway Board to buy three acres of land at Port Colborne for additional storage tracks.

Enormous quantities of white fish and trout are being brought from Lake Nipigon by the Government. The sales through municipalities are reported to have increased enormously.

The Toronto Hunt Club is reviving the game of polo.

At the meeting of the Presbyterian General Assembly in Hamilton the five year term for elders was proposed and aroused lively discussion.

THE WEATHER

Toronto, Ont., June 9th, 1919—The low pressure has moved from the westward of the Great Lakes to northern Ontario; while the barometer has become very high over the Gulf of St. Lawrence and Maritime Provinces. The weather continues fine and dry in the western provinces, while many thunderstorms have occurred in Ontario.

MARRIAGES

KIMMITT-STEELE—At St. Mary's R. C. Church, St. Catharines, on Monday, June 9th, 1919, by Rev. Father Smith, Hattie Margaret, only daughter of the late Charles Steele and Mrs. Steele, to Wilfrid Laurier Kimmitt, both of this city.

According to an announcement made by Major Heron, President of the C. A. A. O., the Canadian Henley will be held at St. Catharines this season. There is a scarcity of eight-oared crews.

Hot weather is bringing egg prices down.

A BIG, FAT, OPPORTUNITY IS KNOCKING AT YOUR DOOR.

WITHIN SIGHT OF HOME SOLDIER DROPS DEAD

Wife and Family of Pte George Coull Wait in Vain at Station to Welcome Father who was Expected Back From Overseas.

The Pirate's Hoard

The sad word reached the city at 10.30 last night that Pte. George Coull of 52 Albert St. this city, had dropped dead in Toronto. Pte. Coull left the city with the 176th Battalion, but was transferred to the 75th Battalion with which unit he has seen much active service in France. No particulars are at hand just yet but it is thought death was due to heart failure. He was 46 years of age and is survived by a wife and family, who were at the station on Saturday night, patiently waiting to welcome home, husband and father. One son, who also enlisted with the 176th, died a short time ago. The remains will be brought to the city for burial.

MAY STOP HERE

The Mayor has received a telegram from G. J. Desbarats, Ottawa, in answer to one sent to Mr. J. D. Chaplin, M.P., saying that the German submarine vessel which is coming through the Welland canal is in charge of the United States navy and that the captain of the sub has agreed to stop at several of the larger centres. It is hoped arrangements to this effect may be completed with him.

As a nation we can only consume to the value of what we produce and if production falls away there will be less to go around and each will have to pay more for the things he obtains.—The Chairman of Barclay's Bank, quoted by the Canadian Trade Commission.

"We must go back to peace trade on a wartime scale," says the Canadian Trade Commission, "if the huge war debt is to be paid."

Farms Wanted for Soldier Settlers

Powers are proposed to be granted at the approaching session of Parliament to the Soldier Settlement Board of Canada to purchase lands to be resold to qualified returned soldiers settling on land. In the case of undeveloped lands the Board will be granted powers of forced purchase at prices judicially determined.

To enable soldiers to locate in any district in Ontario that they wish, the Advisory Board for the Province of Ontario desire to have filed with them a full description and lowest cash prices on a small number of select farms in each district of the Province, available for purchase.

The public are hereby informed that this land is for returned soldiers, and no tenders to sell are requested except for land of good quality and location, and reasonable value, making possible the success of the soldier as a farmer. The purchase price in all cases will be fixed by the Board after the land has been inspected and valued.

The information received will be treated as confidential. No commission will be charged or paid. No offer to sell will be binding on the person offering unless a sale is effected, and no obligation will be on the Board to accept any offer.

If application from a returned soldier be received for a farm listed with the Board, a valuation for such farm may be at once made by the Board and, if approved, negotiations may be entered into for the purchase and sale thereof. An approved list is desired for each district of Ontario.

Address all Communications to W. M. Jones Provincial Supervisor.

The Soldier Settlement Board 32 Adelaide Street East Toronto, Ontario

BARBERY CAUSES RUST GO-OPERATIVE EXPERIMENTS

Provincial Campaign Advocated to Destroy This Shrub.

Current and Gooseberry Worms Causes Great Losses — How to Identify It—Simple Measures of Control—Spraying With Arsenate of Lead Solution Most Effective. (Contributed by Ontario Department of Agriculture, Toronto.)

THE Barberly should not be tolerated by the farmers of Ontario. It is a thief in their midst, which every year takes money from their pockets, by increasing the amount of rust upon their grain, and thus reducing their crops.

The Barberly Increases the Amount and Severity of Rust. It is not necessary to go into the complicated life-history of the fungus which causes stem rust of grain. Scientists have known for many years that one phase of its life-cycle is passed on the Barberly, and all who have made a study of this matter agree that the amount and severity of stem rust is very much increased by the presence of the Barberly in the neighborhood of grain fields.

While scientists do not expect to see rust entirely disappear if the Barberly is destroyed, the general consensus of opinion is that if it were completely exterminated the chances of severe epidemics of stem rust occurring would be greatly reduced.

Enforce the Law Regarding the Barberly. In Ontario legislation has been passed regarding the destruction of this shrub. Let all concerned realize that the Barberly does increase the amount and severity of stem rust and a sentiment will be created for the enforcement of the present act.

This act should be enforced. The Barberly in Ontario should be destroyed. There is strong evidence to show that Barberly bushes are centres of infection which in wet seasons may give rise to severe epidemics of rust.

The Common Barberly and Its Purple-leaved Variety the Culprit. The Common Barberly and its purple-leaved variety harbor grain rust. The average man does not know this shrub when he sees it. It is a spiny shrub from six to nine feet high, with yellow wood, arching branches and gray twigs. The leaves are bright green, smooth, somewhat oval, from one to three inches long, the margins with bristly teeth. The flowers are small, yellow and borne in long, drooping clusters. The berries are bluish-red and sour. The purple-leaved variety is similar except for the color of the leaves, which are purple. Unfortunately, the Barberly has been much planted in some sections of Ontario for ornamental purposes and has become wild in many localities.

The Japanese Barberly Harms. If Barberlies are required for ornamental shrubs the low growing, small leaved Japanese Barberly (Berberis thunbergii, D.C.) may be planted, as this species does not harbor the rust. —Prof. J. K. Howitt, O. A. College, Guelph.

Current and Gooseberry Worm. The most common insect enemy of current and gooseberry is the Current and Gooseberry Worm. The larva is a greenish caterpillar, about three-quarters of an inch long when full grown, with a black head and numerous black spots over the body. The larvae attack the foliage of gooseberries and of red and white currants but seldom injure the black currants. At first they work chiefly in the central part of the bush, stripping the leaves nearly all off there, and doing much damage before they are observed. Later they may devour the foliage any place. It is common to see nearly all the leaves eaten off numerous bushes.

The life history of the insect is as follows:—The adults, which are known as Sawflies—are small four-winged flies, about a quarter of an inch in length. The female has the abdomen yellowish and the rest of the body blackish in color. The male is for the most part blackish in black. The flies appear in spring very soon after the leaves have expanded. Eggs are laid on the under surface of the leaves in chains along the main veins. The young larvae on hatching feed upon the foliage and become full grown in two or three weeks. Then they drop to the ground and form little cases in which they pupate. A new brood of flies emerge at the time when the currants are ripe. When these larvae are full grown they enter the soil, form little cases or cocoons, and remain there all the next year, when they pupate and emerge as adults.

Method of Control.—These are easy insects to kill. All current bushes and gooseberries should be sprayed with from two to three pounds arsenate of lead paste or half that amount of the powder form in forty gallons of water as soon as the leaves have become well expanded. Particular care should be taken to spray thoroughly the inner parts of the bush. This will kill all the first brood. If a second brood appears, hellebore should be used instead of arsenate of lead, in the proportion of one ounce to one gallon of water. Arsenate of lead would be dangerous on the ripe fruit. The insect occurs everywhere in the province, and everyone should prevent his plants being weakened and seriously injured by it, especially as it is so easy to control.

Note.—Hellebore loses its insecticidal properties unless kept in airtight packages. —Prof. H. H. Dean, Ontario Agricultural College, Guelph.

According to an announcement made of the Leafs is the leading pitcher in the International League. Cobb and Cravath are blazing the way for the atters in the majors.

There is no more certain way of spoiling a good voice than by singing loudly.

DEATH OF MRS. BOLES AFTER BRIEF ILLNESS

Highly Respected Resident of St. Catharines Dies After Brief Illness.

It was with a great deal of regret that the news was learned this morning of the death of the General and Marine Hospital of Harriet Jane, beloved wife of George H. Boles, 146 1-2 Geneva Street. The deceased, who was 60 years of age was born in the Old Country and came to Canada when about ten years of age. She had been a resident of Grantham Township from early girlhood until about five years ago when with her husband and family she moved to the city. She was a staunch member of St. Paul's Methodist Church, since coming to the city.

Although not in the best of health for some time, the late Mrs. Boles, only took seriously ill about a week ago and her death came as a decided shock. Besides her sorrowing husband she is survived by five sons, Oliver W. Chas. A. and James E., of this city, Geo. H. and William of Detroit, and one daughter, Alice Hicks, having passed away in January. The funeral will be held on Wednesday from the family residence 146 1-2 Geneva Street, to Victoria Lawn Cemetery.

BOYS BREAK INTO HOUSE

Three lads were before the magistrate this morning on a charge of breaking into a private dwelling owned by Henry Flour on the Louth Street road near Vineland station on Sunday morning between seven and nine o'clock. After hearing the evidence from Wilson, Wiley and Mr. Shepherd who watched the proceedings of the boys entering the house by breaking glass and door locks, the magistrate ordered them to jail to be tried later by the County Judge.

One returned soldier was fined \$15.00 and costs for being intoxicated.

Miss M. Woods, a former resident of this city, passed away at Toronto recently. The remains will arrive on the 10:20 a.m. G.T.R. train tomorrow and will be interred in Victoria Lawn Cemetery.

St. Adam Beck, chairman of the Hydro Electric Power Commission announces that the Commission is ready to proceed with the construction of the Hydro radial lines from Welland to Port Colborne and from the latter place to Ridgeway, Fort Erie and Bridgeburg.

Highway of the Great Divide

Between Banff, the popular summer resort in the Canadian Pacific Rockies and Lake Windermere, the head waters of the great Columbia River, lies an Alpine ridge of spectacular beauty, forming part of the Great Divide. This ridge is penetrated by two comparatively easy passes, the Simpson, and the Vermilion which lead into the Valley of the Kootenay River, a region abundant in game on account of its being well south of the main line of the Canadian Pacific Railway. Between the Kootenay River and the Columbia River is a small range of mountains through which the Sinclair Pass and Canyon provide an easy road. When the first surveys were made for an automobile road between Banff and Windermere it was planned to use the Simpson Pass, named after Sir George Simpson, Governor of the Hudson's Bay Company, who made this crossing in 1841. But the route over the Vermilion was found to be easier and at the same time more beautiful, and construction of the Highway of the Great Divide was commenced from opposite Castle Mountain in this direction. At the same time the road from Windermere through the Sinclair Canyon was also commenced and at the time of the outbreak of war a gap of only thirty miles separated the two roads. War put an end to construction, and a great unbroken wilderness of several miles of the western end, so that the project seemed to have been abandoned. Now, however, the Dominion Government has made an arrangement with the British Columbia Government by which the route of the road comes under the jurisdiction of the Dominion Parks, and a substantial appropriation has been allotted to finish the work. In this way there is every prospect of the early completion of what will be the most wonderful automobile road

(1) Sinclair Pass, Highway of the Great Divide.
(2) Sinclair Canyon, Highway of the Great Divide.

ELECTRIC RAILWAYS FOR TOURISTS

Should there be among Canadian holiday seekers any that might develop a desire to spend their vacation travelling about the country via electric railways, they would find no lack of accommodation.

A LONG-DISTANCE TRAVEL

Any Canadian who essayed the novel experience of spending his summer holidays by continuous travelling on the railways of the country would have to spend a pretty long vacation if his ambition was to cover their total mileage.

LIVELY CRICKET GAME AT RIDLEY COLLEGE

Old Boys Return for Annual Event Which was Much Enjoyed by Spectators.

The Old Boys' game at Ridley College, the first since the outbreak of the war, was revived Saturday.

The game started in the morning with the Old Boys batting first. One hundred and thirty five runs were piled up before the tenth wicket.

For the Old Boys Mr. M. Harcourt 14; M. McCulloch 52, including 6 fours; L. McCulloch 15, and E. Lefroy 11, were the high scorers.

Fiddling on the part of both teams was good, but although Lefroy and Greening, the bowlers for the Old Boys' team had not twirled the sphere for many years, they had little difficulty in taking the students' wickets.

The National Lacrosse Union opened its season Saturday, when Nationals beat Ottawa and Shamrocks won from Corvill.

The Ontario Amateur Lacrosse Association season opened Saturday at Millio, when the home team beat Woodbridge, 5 to 2.

Four world's spring records were lowered by University of Pennsylvania Athletics in the Meadowbrook games at Philadelphia on Saturday.

R. B. Rice, rink of the Queen City Bowling Club lifted the Bowman Trophy in a match at Guelph. Three challenges are already in the hands of the trustees.

LACROSSE PLAYERS MUST STAY OUT

The Ontario branch of the Ontario Amateur Lacrosse Association has refused the application for reinstatement of the lacrosse players from St. Catharines and Toronto, who played in the professional lacrosse league last summer under the rule which requires a suspended athlete to remain out a specified time before his application can be considered.

A meeting of the officers and representatives of senior clubs of the O. A. L. A. will be called for Monday or Tuesday night to discuss the situation.

CANADA'S BIG FISH PONDS

Canada has the greatest fish ponds in the world. The deep sea description have a coast line of five thousand miles on the Pacific, and seven thousand miles on the Atlantic, while the fresh water lakes have an area of not less than two hundred and twenty thousand square miles.

"Ponds," not taking into account the catch of the sporting fishermen, over fifty million dollars worth is annually obtained and marketed.

RETURNED MEN ON CANAL

Contractors on Big Work at Welland Employ Many Soldiers.

Hon. J. D. Reid, Minister of Railways, stating that of 63 men employed on the Welland canal in staff positions, 57 are returned men.

"Of 681 skilled workmen employed by the contractors 219 are returned men," said the Minister, "while out of 1,199 unskilled men 228 are returned men."

Corn Tassel won the historic Suburban Handicap at Belmont Park. Commander J. K. L. Ross' Boniface was third. The winner ran the mile and a quarter in 2:02.25.

Baltimore two defeats at the hands of Jersey City yesterday resulted in the Birds and Lea, tying for the leadership. Toronto broke even with Rochester here on Saturday. Yesterday's game at Rochester was prevented by rain.

TRIED TO KIDNAP OFFICER

KINGSTON, June 7.—Four pupils of the Collegiate Institute have been suspended for attempting to kidnap the Commanding Officer of the Cadet Corps, prior to the recent inspection of the corps. The officer was rescued from the would-be kidnapers.

BRINGING GEN. STEELE'S BODY

MONTREAL, June 9.—The body of the late Maj.-Gen. Samuel B. Steele, who died some time ago while on active service with the forces in England, is being brought back to Canada on the Melina, and will be taken to Winnipeg for interment.

THE DOMINION

The North Waterloo Independent Reform Association was organized Saturday at Waterloo.

Because of an old trust deed requiring the Guelph Congregational Church to always be a Congregational Church, the union of that body with the Disciples, with whom they have been meeting for seven weeks, cannot be consummated as planned.

War Stamp Magic YOU PUT IN FOUR DOLLARS AND TAKE OUT FIVE

SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for repairs to breakwaters at Port Colborne, Ont.' will be received at this office until 12 o'clock noon, Friday, June 20, 1919, for the construction of repairs at two points on the eastern and two on the western breakwaters at Port Colborne, Welland County, Ont.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineers, Equity Building, Toronto, Ont.; Shaughnessy Building, Montreal, Que.; and at the Post Office, Port Colborne, Ont.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained herein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender.

War Loan Bonds of the Dominion will also be accepted as security, or War Bonds and cheques if required to make up an odd amount.

Note—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$20, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, May 27, 1919.

A TIP TO MOTORISTS

No use worrying about the condition of your battery when it's our business to know. All batteries wear out sooner or later but yours will last longer if you use our free testing and filling service.

CANADA AS A BEAR LAND

(1) Grizzly bear at Banff. (2) Polar bear in Banff Zoo. (3) Black bear cub, Alaska.

CANADA grows bears as well as grains and fruits and other products of the soil. Bears are to be found in every province, but it is in the mountain region of British Columbia that he flourishes. There one will find grizzlies and silver tips, browns and blacks and grays, and all the sub-varieties in between, including Teddy and Johnny rabs, among the children. All of these specimens may be seen in the interesting Zoological gardens at Banff, where they are lined up like soldiers on parade, in front of their cages—especially as dinner time nears.

SICK--WEAK--MISERABLE THOUSANDS OF VICTIMS

Man feels bad all over, feels weak, feels nervous, irritable, gloomy—gets angry at little things that ordinarily would not be noticed. You feel tired mornings. Your sleep does not rest you. You feel nervous. You dream at night. Your memory is poor. You can't concentrate your mind. No appetite. You lose flesh—all run down. You can't understand why.

Men! Are You In Doubt

OF INTEREST TO THE AILING MAN

28 years' experience and learning, 28 years doing one thing and doing it well. Experimenting days long past. I know! My success is due to system and direct methods. I go after the cause. No delays—no waiting—no wondering. No weary months and years dragging along waiting for expected results. I make a lot for treating the patient, as long as treatment is necessary. If I make you a fee of \$100 or \$2500 it means that I will treat your case until you are dismissed. Consultation and examination free.

EXPECTED TO REACH THE CITY TONIGHT

Word has been received by Mr. W. R. Robertson that the following St. Catharines boys have arrived from overseas via S. S. "Mauretania" and are expected to arrive here tonight: D. Moore, O. J. Purdy, J. W. Robertson, J. H. Smith, W. J. Trahey, H. C. Petrie, C. Forbes, G. A. Dunn, R. Haynes, E. T. Noble, G. D. Mission, J. Dube, H. C. Hoskins, J. Brown, J. P. Blank, A. Burns, J. H. Findley, T. G. Fitzgerald, W. H. Hannah, W. J. Holden, W. R. Liscombe, E. J. Wailey.

PERSONAL

Mr. and Mrs. John Carroll of Buffalo, N. Y., spent the week-end in the city.

LENIN IS GROWING WEARY OF HIS LOSING STRUGGLE

GENEVA, June 9.—The correspondent of the Associated Press has been shown an authentic autograph letter from Nikolai Lenin, the Bolshevik Premier, to a Russian comrade here, in which Lenin says he is growing tired of the struggle against the superior forces and organization of the allies. The letter, which is dated Moscow, May 6, complains also of the growing weakness of Lenin's party when, it says, further strength is required. Lenin adds that the financial situation is becoming worse, and concludes with the remark: "We are in great trouble."

NOW FOR AUSTRIAN COUNTER PROPOSALS

Zurich, June 9.—The Austrian reply to the peace treaty will take the form of counter-proposals, a despatch from Innsbruck reported today. The main points are ready, the despatch said, but the full text of the reply will not be handed to the Allies before June 14, or 15th.

The Greeks are reaching out more and more into the merchant trade of the rich Levant and their own trade development in Greece will be huge. Canada has a glorious opportunity here for exporting the Canadian Trade Commission believes.

If Canada could supply Great Britain with only the eggs which were formerly obtained in Russia, the prosperity of small farmers would continue for years, according to the Canadian Trade Commission's information in London.

POTATO DROPPERS

Most Serious of Them Widely
Established in Old Ontario.

Varieties of Grains Which Give Heav-
iest Yields—O. A. C. No. 21, best
Barley of All Cereals. Every thing
in Readiness for Spring sowing
Now.

Officials of the Ontario De-
partment of Agriculture in-
spected 313 seed potato
fields in Northern Ontario
last year of 278 acres, and 119 fields
qualified for certified seed. It is es-
timated that there were 16,000 bushels
of certified seed secured from North-
ern Ontario. All of this is being
shipped to Old Ontario to be planted
this year.

The survey which was made last
year by inspectors of the Ontario De-
partment of Agriculture in-
spected 313 seed potato
fields in Northern Ontario
last year of 278 acres, and 119 fields
qualified for certified seed. It is es-
timated that there were 16,000 bushels
of certified seed secured from North-
ern Ontario. All of this is being
shipped to Old Ontario to be planted
this year.

Leading Varieties of Spring Grain.
The old six-rowed barley gave way
to the Mandacheurl, and that in turn
has given place to the O. A. C. No. 21,
which is the present standard in Ontario
to the exclusion of practically
all other varieties. The Egyptian and
the Black Tartarian varieties of oats
which were popular at one time have
been recently displaced by the Banner
and more recently by the O. A. C. No.
72 and the O. A. C. No. 3 varieties.
The O. A. C. No. 72 variety has a com-
paratively strong vigorous straw,
spreading head, and white grain of
good quality, the hull being quite
this. In experiments at the Ontario
Agricultural College it has surpassed
the Banner in yield per acre in each
of nine out of ten years. It has made
a phenomenal record in connection
with the Ontario Standard Field Crop
Competitions, taking more first prizes
than all other varieties of oats com-
bined. The O. A. C. No. 3 variety is
ten days earlier than the Banner or
the O. A. C. No. 72 and is an excellent
variety for mixing with barley when
it is desirable to grow the two in
combination. Of the spring wheat
the Red Fife, the Marquis and the
Wild Goose are the principal vari-
eties. At the present time, however,
when the demand for wheat is great
and the price is high, the Marquis
and the Red Fife, and especially the
former, should be grown as exten-
sively as possible in Ontario. Spring
rye does not yield equal to winter
rye but its cultivation will perhaps
be increased somewhat during the
present year. The O. A. C. No. 61
variety has given the best results,
surpassing all other kinds in yield of
grain per acre.—Dr. C. A. Zavitz,
O. A. College, Guelph.

Prepare for Spring Spraying.
Efficient and economic spraying is
hard to attain with the use of poor
machinery. The power sprayer is an
expensive piece of machinery, but it
is effective when properly handled.
Its usefulness can be greatly im-
paired by improper care. To secure the
highest degree of efficiency in spray-
ing the maintenance of high pressure
is necessary. Probably high pressure
is not needed in all cases; it is, how-
ever, true that by means of it more
thorough and, consequently, more ef-
fective work can be done in a much
shorter time and with much less
effort.

The agitation of the liquid in the
tank is an important matter. In the
case of most sprays, the individ-
ual particles that make up the in-
secticide are suspended in the water.
If the spray is not properly agitated,
the insecticide is not evenly distrib-
uted. The agitator is equipped with
a good agitator, these particles will
settle to the bottom, rendering the
mixture in the top of the tank weak-
er than it should be, and that in the
bottom stronger, and possibly in
some cases too strong for safe appli-
cation.

It is needless to say that the care
of spraying machinery should never
be neglected. Indeed, the spraying
equipment should never be put away ar-
ranged until the time is thor-
oughly cleaned out from all parts of
the pump, rod, dipping hose and
nozzles by running clear water through
them. The water should be drained
from the engine, and all parts clean-
ed and oiled.—Prof. Jas. Evans,
O. A. College, Guelph.

Officers of the Law today went to
Queenston to enquire into the death
of an employee on the Hydro canal
work.

INTESTINAL PARALYSIS

"Fruit-a-Lives" Quickly
Relieved This Chronic Trouble

669 CAMBESIDE STREET, MONTREAL.
In my opinion, no other medicine
is so curative for Constipation and
Indigestion as 'Fruit-a-Lives'.
I was a sufferer from these com-
plaints for five years, and my
sedentary occupation, music, brought
about a kind of Intestinal Paralysis;
with daily Headaches, bading gas,
Aerophagia after eating, and pain in
the back.
I was induced to try 'Fruit-a-Lives'
and now for six months I have been
entirely well. J. ROSENBERG.
500, St. Louis, 6 for \$5.50, trial size 25c.
At all dealers or sent postpaid by
Fruit-a-Lives Limited, Ottawa.

Touch Toes Fifty Times

Fine exercise! Keeps skin clear and complexion
rosy by forcing the delayed food, poisons and waste
from the stomach, liver and bowels. Splendid!

But most people take their exercise in an easy chair. They become
headachy, bilious, sallow, dyspeptic, constipated. Such folks must take
Cascarets occasionally. No other cathartic or laxative "works" like
harmless Cascarets. They act on the bile-clogged liver and constipated
bowels gently—no inconvenience! Cascarets cost only 10 cents a box.

GIVEN HEARTY WELCOME BACK TO THEIR HOMES

Among the lads reaching the city
yesterday was Flight Sergeant Chas.
Duff who arrived at 4:30 last night
and was given a decided surprise by
the hearty reception tendered him at
the station. He left the city in the
first year of the war as trumpeter with
the old Seventh Field Battery and saw
much active and dangerous service as
a despatch driver. After being severely
wounded and in the hospital for
some time he enlisted with the Royal
Air Force and obtained the rank of
Flight Sergeant. He is receiving a
hearty welcome home. Both boys of
this family, Willie and Charlie, en-
listed for service and now both have
returned home hale and hearty and
with the satisfaction of duty well
done.

FINANCIAL

A rich strike is reported on the

Glen Ridge

The Ideal Residence Area of St. Catharines

Glen Ridge is by far the most desirable residential sub-
section in St. Catharines now on the market, and
possesses the following enormous advantages:

1. It is close to the heart of the city, all lots being within one
mile radius of the Post Office and City Buildings.
 2. There are building restrictions ensuring the erection of only
the most desirable dwellings.
 3. Beautiful surroundings and park areas.
 4. Prices moderate and reasonable terms.
- We expect a big movement in this property in the
next two months. So act quickly and own a home in
the most beautiful subdivision in the Niagara Peninsula.

OF INTEREST TO THE MUSIC TEACHER

A teacher should always be on the alert to increase his knowledge of attractive teaching material. One of the best ways to do this is to form the habit of attending recitals of well known teachers and conservatories. Mark down on the program the compositions which appeal to you, make a note of the approximate ages of the children that played them (this will help you to compare the ability of your own pupils of that age with the performer and observe how each number is received by the audience. Then order the selected list from your publisher and add them to your teaching repertoire. Type or write the titles and composers of all the pieces you have found satisfactory in a loose leafed notebook, divided into several sections for the different grades. This is very convenient, as new sheets can be added as your available list grows.

COUNTRY PRODUCE WHOLESALE

TORONTO, June 7.—The consensus of opinion amongst wholesale produce houses seems to be that these quotations may decline early in the week. Prices at Montreal have already dropped and Toronto's prices are likely to follow the same trend. Eggs and other quotations were unchanged at the week-end, but some of the dealers were quite sure that a decline in eggs would be brought about shortly.

Quotations:—
Eggs—
New-laid, cases returnable 40c to 00
Butter—
Creamery, solids 51 1/2 to 52c
do prints 52c to 52 1/2c
Live Poultry—Buying price delivered, Toronto—
Hens, 4 1/2 lbs. 32c to 00c 32c to 00c
Hens, 4 1/2 and over 3c to 00c 35c to 00c
Spring chick—
ens. 50c to 00c 55c to 00c
Roosters 25c to 00c 30c to 00c
Ducklings 35c to 00c 38c to 00c
Turkeys 30c to 00c 35c to 00c
Honey—Bulk, clover, 25c to 26c
do buckwheat, 20c to 21c.
Wholesale prices to the retail trade:—
Eggs, new-laid 51c to 52c
Select 54c to 55c
Butter—
Creamery prints 55c to 56c
Choice dairy prints 47c to 48c
Ordinary dairy prints 42c to 43c
Bakers 30c to 33c
Margarine (best) 35c to 37c
Cheese—New, large, 23c to 24c
Maple Syrup—Per gal. tin, \$2.40
do in one-gal. tin, \$2.50
Beans—Canadian, per bushel, \$3
do \$4.25; Burmas, \$3.50; Limas, per lb.

Tuberculosis in Cattle

One reason why farmers should have their cattle tested for tuberculosis is the financial loss which they suffer by having tubercular animals in their herds. As the disease is at first slow in development and does not induce sudden death, like anthrax, black or hog cholera, the farmer does not realize the loss that he endures by having tuberculosis in his herd until one or more animals develop the disease in an advanced stage and die or are slaughtered. When they are at once seen to be rotten with the disease, such animals will have had the disease a long time without it being suspected and will have been giving off in their milk, saliva and droppings, large numbers of tubercular bacilli. In this way the bacilli are spread around, the water and atmosphere in the stable get contaminated with them and other members of the herd contract the disease from these contaminated materials. Whether or not an animal is tubercular long before any clinical symptoms are visible, thus enabling one to deal with such an animal before it becomes a dangerous spreader of the disease.

USE A HYDRAULIC RAM

Now Recognized As the Cheapest Power for Pumping.

When and How it is Used—Complete Information Given—Tubercular Cows a Menace to Health—How Tubercular Test is Made—Why It Pays Farmer to Test Cattle and to Discard Reactors.

HERE conditions are suitable for an hydraulic ram. It is without question the cheapest and most satisfactory method of pumping water. It has one drawback—it wastes far more water than it pumps to the buildings, and hence can only be installed where the supply is from five to twenty times as great as required at the buildings. The efficiency of the ram is from 65 to 90 per cent., i.e., it uses 65 to 90 per cent. of the energy of the falling water. Suppose the spring is 10 gallons per minute and the fall from the spring to the ram is five feet. Multiply these together and then take 65 per cent. of the product, and we have the energy available for driving water to the buildings.

Energy in this case 65-100 x 10 = 650 foot-gallons—32.5 foot-gallons. Now divide this by the height of the buildings above the ram and we have the number of gallons the ram will deliver per minute at the buildings. If, for example, the height is 32.5 feet then:

Number of gallons per minute—32.5 divided by 32.5—1 gallon, which is 1-10 of the water applied by the supposed spring.
1.400 gallons per day—60 x 24 = 1,400 gallons (about 29 barrels). Consequently with five feet of head and 32.5 feet of lift the ram will deliver at the buildings 1-10 of the water in the spring. The quantity that will be delivered with other heads, lifts and spring-drops may be calculated in a similar way. Generally speaking it is found that for each 10 feet of lift there should be one foot of head, but there is a limit—it is seldom advisable to install rams where the head is less than 65 feet. The length of drive pipe should not be less than three-quarters of the vertical lift to the buildings, nor less than five times the fall from the spring to the ram. It may, however, be longer, but seldom exceeds 50 feet, and 75 feet might be taken as an extreme length for sizes of ram suitable for farm conditions. If too severe a drive pipe be used, the extra friction in it prevents the water from striking as heavily or as frequently as with a drive pipe just the right length.

The best of installing a ram is not great. For the smallest size of ram it will run in the neighborhood of \$25 to \$35 and about \$15 extra for each 10 feet of head between the spring and the ram. Thus if they were 100 feet apart the total cost would be from \$40 to \$50, but if 200 feet then from \$55 to \$65, and if 300 feet from \$70 to \$80. The largest size of standard ram can be installed at about \$100 if the ram and pump are 100 feet apart, and \$125 if 200 feet apart. R. H. Gray, B.S.A., O. A. College, Guelph.

NOT WHAT YOU WANT BUT WHAT YOU CAN

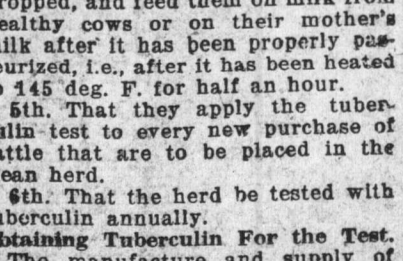

No one on earth ever accomplished fully and completely all his life ideals. An old proverb says: "The king himself gives only what he can, not what he wishes." Even the most successful men generally carry about with them in their inmost hearts a secret and lurking sense of failure. But that is no reason why one should become pessimistic or of his manner sarcastic and depressing. Many musicians and teachers especially those who have not always received that recognition from the public which they feel they deserve, are doing untold harm to the cause of musical art by their caustic and pessimistic speech, which tend to dishearten their younger colleagues and even their pupils.

The ability to sing a simple passage of music at sight, without any accompaniment is something that every choir member should strive to acquire.

There must be no adverse balance of trade if Canada's prosperity is to be upheld. The Canadian Trade Commission is trying to get class and mass to understand the purport of the message.

This story is told that once the Kaiser, now plain William Hohenzollern asked the great Joachim to teach two of his sons the violin. Joachim replied: "Your majesty, I fully appreciate the honor of teaching your sons but I am very sorry to say that all my time is so taken up with talented students that I find it impossible to accept your majesty's offer. Ever after that time Joachim was no longer a favorite with the Kaiser.

EMPRESS'S WAR RECORD

(1) Captain Geo. S. Webster, R.N.R., of the "Empress of Britain."
(2) Arthur E. Philp, Chief Engineer of the "Empress of Britain."
(3) Six inch gun crew standing by the gun on the "Empress of Britain," at right Chief Officer F. H. Moore, who gave the gunners the range.

THE "Empress of Britain," which sailed from New York on Sunday afternoon with 16000 of the British War Mission, V.M.C.A. and Knights of Columbus workers, has already covered 173,130 miles since the outbreak of hostilities, when she was taken over by the British Government and has transported 110,000 troops overseas. She took thousands of Australians and Britishers to Gallipoli, and was one of the transports assigned to take them away. The Suez Canal, being closed, she made a 16 months trip around the Cape of Good Hope with troops for German East Africa and also for Mesopotamia. She made eight trips with Canadian troops and for the first seven months of the war, patrolled the South Atlantic as an admiralty cruiser.

It was during one of the trips across the Atlantic with 6,000 troops aboard, that a German submarine launched two torpedoes, one of which, due to a lucky zig-zag, missed the ship by three feet, and the other passed a dozen feet astern. At least a dozen attacks were made upon the "Empress of Britain" during the war, by U-boats.

Captain George S. Webster, R.N.R., who is the present commander of the "Empress of Britain," has made 37 trips across the Atlantic since the outbreak of the war. When the "Empress of Britain" reached New York last Tuesday, she had aboard 2,450 H. S. troops, including 400 sick and wounded heroes, and she is returning to Liverpool for more. When this work of repatriating H. S. troops is finished, she will return to her home port, St. John, New Brunswick.

During the war, the C. F. O. S. ships have transported over a million troops and passengers on war business. Only eight soldiers were lost by enemy action. The "Empress of Britain," now in Liverpool, will take troops to Australia, and then return to her regular route across the Pacific from Vancouver to ports in the far east. The "Empress of Asia" will go back to Vancouver through the Panama Canal with Canadian troops enlisted in British Columbia.

Arthur Edward Philp, O.B.E., Chief Engineer of the "Empress of Britain" and Senior Chief Engineer of the Canadian Pacific Ocean Services, Ltd., has been on the "Empress" throughout the war and has never missed a day. He was personally decorated by King George for his services and is an Officer of the Order of the British Empire. His services on transport cover four wars, the Benin and Ashanti expeditions, the South African war, and the present war. His fellow officers call him "Pa."

TWO HUNDRED

Expected That Technical Pulp and Paper Manufacturers Will Motor Down Thorold.

MAYOR PROPOSES RE

Although it was not today for certain that the direct delegates comprising technical association of the Paper industries of the U.S. would come to St. Catharines being taken by the Mayor, if possible, civic arrangements have been entered when they arrive here on Friday afternoon. It is not that they will motor down, old and go through the Kinloch Mills but just what time get here is not certain.

Up to the present, time arrangements have been entirely in the hands of the Thorold Board which is planning quite a reception. The manufacturer town assisted by the Board have outlined a considerable of sight seeing and entertainment.

Details of Program

It is planned to meet at the New York Central Niagara Falls, N.Y., with motors to accommodate the and the first stop will be at the Electric Power Canal construction. Upon arrival the visitors will be opportunity to view the work on the New Welland after which the principal of the district will be visited sharp a luncheon served in Grenville Hall. The luncheon the tour of the far as the Kinloch Mills arrives will be completed, a gates will then be taken, Falls, N.Y., where they special cars for their return.

Even though their visit arises may be hurried it is Mayor Elson that the given a brief civic reception talk will be announced if possible, to carry out this St. Catharines has much to do of men such as is an automobile ride about streets and a welcome visit a place in the memoirs visitors who are associated large paper and pulp in the other side of the line.
