'Acht' a manag ye, takin' notes,
'An' faith he'll print it.

For photos of fine fish, or views that cannot be beaten, leave your orders with George Stewart, the Hansard photographer.

A GOOD PRESENT.—The most useful gift you can make is to give a Writ Pen. Apply to J. D. McMillan, Goderich.

GIRL'S BABY.—Did you catch on to Girl's Baby in Rhynas the druggist's show window. It is fine line of goods brought up on a bottle; but the goods Rhynas sells are always to be relied on.

THE WOMEN'S CHRISTIAN TEMPERANCE UNION

will meet regularly for the transaction of business every Tuesday afternoon at 2:30 o'clock in Knox Church, Goderich. Every woman interested in the work is cordially invited to attend.

THE BROTHERS WINDOW.

The necktie window at F. & A. Pridham is attracting great attention these days, and the demand continues unabated. The firm will not be undersold in ties, collars, cuffs or gentlemen's wear.

HARBOR TOLLS.

The subject of whether Goderich is injured or benefited by the harbor tolls is now the important topic of the hour. The Protestants are not being argued. It is a question upon which the public are entitled to some extent. But whether the tolls are put on or knocked off, there will be no additional tax put on persons wanting first-class photos at E. R. Sawyer's.

It is still early in the season and those who want wall papers, borders, &c., should come at once to J. Sawyer & Son, and choose for themselves. We have undoubtedly the best selections in this town and the cheapest. All so ready mixed paints, all colors in lake, lime, brushes, carpet tacks, curtain poles and an endless variety of fancy goods for decorating the house. Come one, come all and inspect our goods.

BRIEFLETS.

Mr and Mrs Reid, of London, are in town.

Mr J. Addison is recovering from his recent illness.

The schooner Todman sailed north, light, on Tuesday.

Mr A. A. Smith, of Chicago, Ill., was in town this week.

Mrs George Love left for her home, Ridgeway, on Monday.

The High School Literary Society will hold its regular meeting this evening.

The schooner Mary S. Gordon, with lumber for Kincardine, sailed on Monday morning.

Dr McDonald will be in Goderich for consultation on the first Saturday of every month.

Miss Ellis has been visiting her brother, Mr J. Ellis, of Hensall, during the past week.

The Y. W. C. T. U. will hold an entertainment in the Temperance Hall, on Tuesday, May 28th.

Mr A. Sproat, of Tuckersmith, was taken from Goderich goal to London asylum, last Friday.

Rev Dr Urs will lecture in Knox Church on Thursday, May 23rd, on "A Visit to the Mother Land." A silver collection will be taken.

Dr M. Nicholson, the West-end dentist, makes the presentation of the natural teeth a specialty. Gas administered from 9 a. m. for the painless extraction of teeth.

A POPULAR INSTRUMENT.—A new scale Upright Pianoforte recently completed by Messrs Newcombs & Co., Toronto, is affording great satisfaction. It fills the requirements for a reliable instrument by a first class maker at a figure within the reach of all. Write them for particulars.

Mrs Robt. Donogh is visiting in town. F. E. Vatter left for Stratford on Wednesday last, after a three weeks' visit in town.

The W. C. T. U. and R. T. of T. are preparing for an entertainment on the evening of 24th May.

Miss Alice Spence has returned from her visit to Brussels, accompanied by her cousin, Mrs. Frank Kelly.

The schooner J. G. Kollage, with a cargo of lumber from Stokes Bay, arrived in port last Wednesday.

Alvo Miller, who has been on THE SIGNAL staff for the past three years, left last Wednesday for Buffalo.

Mrs Edward Shannon left on Wednesday for a lengthy visit to her sons and daughters in Memphis, Tenn.

The Battley line steamer Campana called here last Saturday, and after a short stay left for Duluth. The Campana carried passengers and an assorted cargo.

The Canadian Bank of Commerce has opened an agency of their bank at Sault Ste. Marie, which will be a convenience for parties herabouts doing business in that prosperous and booming town.

Mrs McLeod, of Kincardine, accompanied by her son, Hugh, spent a few days at the residence of her daughter, Mrs. Jno McLean, last week, and after paying a visit to her son in Sarnia left with her husband by the steamer Ontario on Wednesday for Dakota.

Winnipeg Times.—Mr J. W. Vanatter foreman in the Goderich Signal office for some eight years, with his wife were visiting at Mr Peter and Thomas Deans'—his brothers-in-law—residence this week. Mr Vanatter is a wide-awake member of the typographical craft, taking an active interest in public matters, and, of course, loyally supports the hub.

EASTER SERVICES.

Owing to press of work, we were unable to go into minute detail of the Easter services last week, but we understand that St George's was prettily decorated with flowers, and that the early and noonday services show the largest number of communicants that the parish has ever recorded. The choir displayed unusual efforts, which were crowned with success. Miss Ball's alto in the quartette, "Rock of Ages," was specially admired as much for its pathos as for its artistic merit. Miss Radcliffe sang soprano and Mrs. Foots sang Dowling tenor and bass.

HE IS STILL A PROVINCIAL RIGHTS MAN.

We observe that our former townsmen, Mr M. G. Cameron, has "bobbed up serenely" as one of the star debaters in the Toronto Young Liberal Club. We copy the following report of the discussion at a recent meeting of the club from the Toronto World:—The Young Liberals last night resumed the debate on the resolution "That this club endorses the action of the Reform members who voted with Col O'Brien on the Jesuit Estates Bill." J. S. Willison, president, occupied the chair. Lengthy speeches were made by Messrs Harriman, M. G. Cameron and A. T. Hernon in opposition to the resolution. Some nice points were made by Messrs Cameron and Hernon, the former endeavoring to show that the Jesuits had a strong moral claim to the consideration of the Government, while the latter appealed to the toleration of the Protestants in the Dominion. Mr Watts moved the adjournment of the debate till next meeting, which was carried.

ST GEORGE'S "AT HOME."

It will be a matter of regret to the general public that the "At Home" given at St George's school house upon last Friday evening will close the series for this season.

They have been a most enjoyable form of entertainment to many, and a satisfactory source of revenue to the Church Women's Guild, as together with their receipts and other extraneous efforts they have been enabled to reduce the debt upon their church to a very considerable extent. The school-room having undergone recent extensive renovations, presented an entirely different aspect to hitherto, in its tinted walls, graceful hangings, flowering plants, pictures, comfortable chairs and divans. The ladies who made it a success by their geniality and tempting menu were Mesdames Young, Nafel, Lewis, Parsons, Reynolds, Forbes, Burritt and Porter, and Miss Cattle. An innovation upon the other At Home was in the selection of waiters. One could pass the doubtful compliment that Messrs Porter, Ross, J. R. Davis, Elwood, Malcolmson and Harry Ball filled the role with the agility of professionals, but we would rather comment upon their ease in adapting themselves to the requirements of the occasion. To Miss Wynne's hands was intrusted "the feast of reason and flow of soul." She introduced two fresh views to the audience present in Misses M. Acheson and N. Orsb, who acquitted themselves extremely well for such youthful debutantes. Mrs Tomes in a reading from "Josiah Allen's Wife," and Mrs Whitley, the Misses Graham, Burritt, Strachan, Widder, and Messrs Reynolds and Richardson ably sustained the program. The latter, who is a pianist as well as a vocalist, has a strong, rich voice and was heartily cheered. The work table, over which Mrs Crawford and Miss Hamilton presided, was in keeping with the room's novelty in decoration, and showed a bright array of pretty glass, china, and bric a brac, in contradistinction to the usual useful and artistic needlework. The sum realized was about sixty dollars, and this amount will go far towards completing the brave record of \$1,000 as raised by the ladies in the past two years.

If you are in want of a good first-class toy buggy call on Alex. Morton's stock—it is large and all first-class work. Prices right.

Boys! LOOK HERE.—New bicycles at the price of second hand ones: Comet Safety, \$85.00; Comet No. 2, \$65.00. Boy's bicycle up to 48 inches, \$30.00, at Geo. W. Thomson's music depot, Square, Goderich.

A lecture will be delivered in Victoria street church on Thursday, May 9, by Rev. Joseph Edge, Clinton, subject: "Take back what you borrow." Suitable selections will be given by the choir. Silver collection at door. Doors open at 7:30; to commence at 8. THE SIGNAL hopes there will be a good attendance, and that the man who borrowed the standard weight (250 lbs.) of the case was tried last Friday, before Mayor Butler and Peter Adamson, J. P. The defendant pleaded guilty and was sentenced to pay a fine of \$10 without costs, or 10 days in jail.

THE GAME OF THE SEASON.

This (Friday) afternoon at 3:30, a game of baseball will be played in the Agricultural Park, between the following teams: The first composed of members of the legal and financial professions, the second representing the merchants of the town. Following are the respective teams:

BANKERS AND LAWYERS. MERCHANTS.

F. Malcolmson, D. Campbell, E. C. Parkes, catcher, S. Malcolmson, Jr., L. Elwood, short stop, C. W. Andrews, F. Froudlon, 1st base, A. Pridham, 2nd base, C. A. Naira, A. Malcolmson, 3rd base, G. M. Brown, F. W. Johnston, L. F. Geo. Hyman, S. F. Malcolmson, C. F., D. C. Strachan, A. C. Adams, pitcher.

THE CONCERT TONIGHT.

The benefit concert this (Friday) evening, tendered to Mr James Hoyal, one of the sufferers by the recent railroad disaster at St George, promises to be a most successful entertainment. We understand a goodly number of tickets have been placed in the hands of the agent, and the hall packed, and the object of the concert is a most praiseworthy one. Mr Hoyal, who has always been a steady, hardworking man, was seriously injured, and has been incapacitated from working, owing to the injuries received, and his efforts to give tangible acknowledgment of their sympathy to him is a step in the right direction. Let there be a good turnout.

FIRE.

About 3:15 a. m. on Saturday the fire alarm sounded, and it was discovered that the large barn of Sheriff Gibbons, on the Britannia Road, was in flames. Despite the most strenuous efforts the barn was completely destroyed. There were three horses in the stable and Mr Thos Gasdry, the sheriff's bailiff, succeeded in getting one of them out; the others were burned. A cow stable adjoining was also almost completely destroyed, with its contents of hay, straw and feed. The buildings were insured for \$500, and the contents for a similar amount. The cause of the fire is unknown, but it is believed to have been originated by some careless tramps who had taken up quarters in the barn for the night or by an incendiary.

A HAGERSVILLE MUSICIAN DROWNED.

On Sunday afternoon Mr Edward Morrison noticed a body floating in Toronto Bay, near the foot of York street wharf. The body was fished out, and it was in an advanced state of decomposition. In one pocket was found a silver mouthpiece for a cornet, and the constitution and bylaws of the Independent Order of Odd-fellows, also a certificate for membership in Equity Lodge, 223, J. O. O. F., Hagersville, made out to Alexander S. Morrow. The body was identified as that of Morrow. He was last seen in Toronto about a month ago. He was a cornet player, and led the Hagersville band for some time. Deceased was a son of our former townsmen, the late John Morrow. The funeral took place Tuesday afternoon from the residence of Mrs Morrow, St. Patrick's street.

OBITUARY.

One of the old residents of the section passed away last week in the person of James Cox, formerly of Goderich township, in his eightieth year. He was born in the county Fermanagh, Ireland, and came to America in 1832, first residing in Montreal and Toronto. In 1833 he came to the Huron tract, and took up land in Goderich township, where he resided until about fifteen months ago, when, being attacked by a painful ailment, he removed to town so that he could be near constant medical treatment. Recently he was attacked with acute rheumatism, and after a long period of suffering passed away on Wednesday of last week. The funeral on Friday of last week was largely attended, as deceased was well and favorably known. Mr Cox had been a warder of St Stephen's Episcopalian church for a number of years, and was a consistent member of that denomination. The funeral rites were performed by Rev Messrs Young, of St George's, and Reedy, of St Stephen's. He leaves a wife, three daughters (two sons, and a number of other relatives to mourn his loss.

HYMNAL.

On Thursday evening, April 25th, at seven o'clock, the Methodist church, Toronto, Mr J. H. Cooper, traveller for Messrs A Harris and Son, Brantford, was married to Miss Orinda Hicks, daughter of Harvey Hicks, Esq., of Goderich. Rev Dr Hunter, pastor of the church, performed the ceremony, which was witnessed by a large number of friends. The bride looked very pretty in a dress of white moire silk, trimmed with pearls and also wore a veil and wreath of natural flowers, and carried a bouquet. The bridesmaids were Miss Jane and Miss Maria Hicks, sisters of the bride. They were attired in dresses of cream and pale blue satin, and also carried bouquets. The groomsmen were Mr A Cooper, of Kansas City, brother of the groom, and Mr R. S. Booth, Toronto. A very enjoyable wedding supper was partaken of at the residence of her sister, 425 1/2 Yonge street, after which the happy couple, with their train, left for New York and Boston on their wedding trip. The presents were numerous and costly.

A RUNAWAY CONVICT CLEVERLY CAPTURED.

Monday morning about 11 o'clock while Frank Murray, a prisoner at the jail, was engaged in doing some work outside the prison walls under the direction of Jailer Dickson, he suddenly made a break for liberty, and ran along the bank and down to the river, which he crossed by fording and swimming. Alex. Dickson, the jailer's son, a young man, who was on duty at the time, saw the prisoner and immediately plunged in and swam the convict, and soon came up with the man, who at once surrendered. Murray was completely used up by his efforts to escape and offered no resistance when his captor seized him. He was at once brought back to his old quarters. Murray is under sentence for a year and is awaiting transportation to that institution.

The Board of Trade.

A well attended meeting of the Board of Trade was held last Friday evening, the Vice-President, Mr. Joseph Kidd, in the chair.

A number of matters connected with the town's interests were discussed, the first of which was the proposed assistance to the two organ factory schemes now before the Town Council. The general, if not the unanimous, opinion was that the most judicious course for the town was to bonus but one factory, as the amount proposed to the second scheme could be more advantageously expended in assisting an industry of a different character, such as a resolution was passed, moved by G. Crab, seconded by J. M. Shepherd, recommending the Town Council to submit a by-law in favor of the joint stock company only.

The next subject was the establishment of market days, and otherwise improving the present market arrangements of the town. The following motion, offered by D. McMillan and R. Radcliffe, was adopted:

That this Board instruct the secretary to correspond with the various towns along the line to find if co-operation can be had in regard to holding regular markets on the same days, and to the Town Council be asked to get the advice of the town solicitor in regard to the statute affecting a market place, and to define the powers of the Council with reference to regulating town markets.

The advisability of celebrating Dominion Day this year by a formal opening of the water works system, combined with other attractions, was then taken up, and on motion of Messrs Radcliffe and James Mitchell, it was decided to ask the Mayor to call a public meeting for the purpose of deciding on some plan of celebrating the day.

The Board then adjourned.

DUNGANNON.

From our own correspondent.

Farmers in this vicinity are nearly through putting in spring crops.

It seems from the state of the weather that winter and spring are having a struggle to gain the ascendancy.

We regret to have to state that Mrs. McKay, wife of Dr. McKay, of this village, who has been very ill for upwards of a year, is still continuing in a poor state of health.

On Tuesday, the 30th ult., Mr John Martin, hotel-keeper, with family removed to Wingham. Mr Martin will be much missed in this village and vicinity. He was a good citizen, kept a very respectable hotel, and was greatly esteemed by the community. We wish him and his family every success in their new home.

A FARM OF NATURE.

Mr. John Smith, of West Wawanosh, near Dungeness, has a ewe which gave birth to a lamb on the 14th ult., and on the 25th gave birth to two lambs—eleven days between the births. They are all living and doing well.

Quite a number of the farmers here are turning their attention to raising fruit, as they are planting extensively. A large number of orders from Mount Hope Nursery have been delivered, here

and also from Maple Grove. The orders are excellent, and those who gave orders seem to be well satisfied.

It is pleasing to state that Mrs Thos Dorning, of this village, who has recently and for some time been very ill, is becoming convalescent.

Our much esteemed citizen, Mr Jos. Mallough, is successor to Mr John Martin. He hopes that by strict attention to business he will be enabled to continue the large patronage the house has hitherto enjoyed.

From Goderich to Winnipeg.

DEAR SIR,—Although this trip has been written up many times before, there may be some of your many readers who would be interested by a few additional sketches of the journey. The tide of immigration flowing west this spring is something enormous. People who read the reports in the papers can form but a faint idea of the exodus. The young men of Ontario seem to be acting on the advice of Horace Greeley, "Go West, young man, and grow up with the country." Many of them thought they were going to the Garden of Eden, but have found out since that far away fields are green, and that this is anything but a promised land.

We left Toronto about 11:30, and woke up next morning in the wilds of Muskoka, and a rocky, mountainous country it is; in fact, all the land from Gravenhurst to within 50 miles of Winnipeg is very poorly adapted to farming; but who knows what untold millions of mineral wealth may be lying beneath the rocky surface. The scenery along the north of Lake Superior is grand. The mountains of solid rock, unclad and brown, show their bold outlines against the grey sky. On the other side are little lakes studded with little islets, and hedged in on all sides, with all kinds of shrubs and trees. This must present a picture of almost Alpine grandeur, when the balmy zephyrs of spring have caused these trees to bud and leaf. The track in some places along here is rough, and reminds one forcibly of the old corduroy roads of Ashfield. Again, you look out of one side of the coach and the rocks rise perpendicularly for about 200 feet straight up, presenting a surface rough and jagged in some places and in others as smooth as marble; while on the other side an awful chasm, hundreds of feet deep, awaits you, should the train jump the track. The winding of the curves is so sharp in some places that you would think the coach was being run by a mad man, and in others as if it were a runaway. The winding of the curves is so sharp in some places that you would think the coach was being run by a mad man, and in others as if it were a runaway. The winding of the curves is so sharp in some places that you would think the coach was being run by a mad man, and in others as if it were a runaway.

For the past several weeks our jovial townsmen, Edward Foley, has been putting in the crop on the new farm recently purchased by his father, Mr. Foley, in the neighborhood of Kingsbridge. Edward is alone, and a number of fair friends are anxiously awaiting his return to hear him give his first experience of a bachelor keeping house in learning the deep mysteries of the cookery department.

THE TRUMPER LILLY.

This famous dapper sorrel pony, which tradition says was one that the far famed Indian chiefs had as a saddle steed in the war of 1812, has been purchased by Henry Green from Chris Dulmeage for a good figure. We understand he will keep it as a driver. Already Harry has kindly lent it to some of his fair friends of Popular Row, who pronounced it the gentlest and nicest pony they have seen trot along the Popular Row. Wallace, see span of foals, Bruce and Halla, see many admirers and in the course of a few years he will have the best team that ever drew under the collar on Butternut Row.

PORT ALBERT.

From our own correspondent.

Mr Jos Wilson shipped on the schooner Jane McLeod last week.

A severe hail storm passed over this village last Wednesday. With the exception of breaking all the windows in the house of Ed McConnel, we have heard of no further damage being done by it.

Mr Wm Smalo has returned from his winter's sojourn in Alpena.

Mrs Wm Smalo has just completed a log cabin which just contains 4,280 pieces.

Mr Nathaniel Cunningham, who has had a severe attack of inflammation of the lungs and pleurisy, is rapidly recovering.

Mr Jas Dunbar, whose life was despaired of a week ago, is now out of danger.

This village wants a blacksmith—splendid opening here for the right party.

PS'S COCOA.

BREAKFAST.

A thorough knowledge of the natural which governs the curative uses of cocoa, and by a careful application of its properties of well-digestible cocoa, Mr. Peppercorn's breakfast cocoa, which is provided our breakfast tables with a rich flavored beverage which may have a heavy doctor's bill. It is by means of such articles of food as cocoa, that the system is gradually brought back to its normal state, and the floating around in every day to get over there is a weak point. We have a cocoa which is made of pure cocoa and is a rich, nourishing food. "Clear Service" is simple with boiling water or milk. It is in packets by dozens, labeled "Luce's" and "P.P.S. & Co., Homoeopathic Chemist, London, England." 2188.

HENRIETTA
DRESS GOODS
IN THE NEW SHADES.

Jno. Acheson,
Spring Greeting!

The Spring, the Merry Spring has come,
We're busy bees and make things hum;
New Goods upon our Shelves are laid,
And here's the place for you to Trade.

Who's store? Why, **ACHESON & CO'S.** That's the place for you to get
Bargains. If you don't believe it, go and see for yourself. If you are in need of
Dress Goods, they can suit you exactly, and won't charge you very much, either;
and you won't have to run around town to get trimmings to match, for they have
them all. Or, if you want a Suit of Clothes, they can deck you out in a suit fit to
go and see the Governor General in, for very little money, and they guarantee a
fit or no sale. If you have any Farm Produce, bring it along; they can buy all
you have, and will pay the highest price at

THE HOME CIRCLE.

If you drop out on the carpet, cover thickly with salt, and it may be swept up without blacking the carpet. Content—For a stove that has a crack in it, buy silicate of alkali...

It may be safely asserted, says a writer in the Epoch, that seven in eight of every ten young ladies would be improved in face and figure by the addition of ten or fifteen pounds to their weight...

Don't speculate. Run no risk in buying medicine, but try the great Kidney and Liver regulator, made by Dr. Chase, author of Chase's recipes...

TEMPERANCE WORK.

Items from All Over Concerning the Cause. Drunkenness is nothing but voluntary madness.—Seneca. "A sensual and intemperate youth hands over a worn-out body to old age."—Cicero.

The Port Hope Weekly Guide publishes a list of all the men in Port Hope who signed the Scott Act repeal petition. It is a significant circumstance that many of those who signed did so by making their marks.

The Ontario Globe says: "We have always regarded and treated the liquor traffic as a dangerous and degrading one, to be put an end to as soon as possible."

O. Hazlewood, in a letter to the Ottawa Indicator, quotes the following fact: "The cost of administration of justice in this county from May 21st to December 31st, 1888, under the Scott Act, was \$2,217, and from May 21st to December 31st, 1885, under the Crooks Act was \$4,025.34."

Whiskey-men swear that they do not know of any liquor being sold or drunk, and then they turn around and say there is a man selling and drinking more than there was under license. They remind me of an old condumr.—"Why is a man who is unsteady on his feet like a lawyer?" Answer—"Because he lies first on one side and then on the other."

There is no sin which doth more deface God's image than drunkenness. It disgraces a person, and doth unman him. Drunkenness makes him have the throat of a fish, the belly of a swine, and the head of an ass. Drunkenness is the shame of nature, the extinguisher of reason, the shipwreck of charity, and the murder of conscience.

Quick Time—48 Hours. "I always use Haysard's Pectoral Balsam for colds and it cannot be beaten. It has always cured me within 48 hours, which no other medicine will do, and I always keep a bottle by me." These words from Chester Miller, Leary, Ont., prove the efficacy of a popular preparation.

A Good Place for Both. A minister in the country had some clothing repaired by a local tailor, and in conversing with him said, incautiously: "When I want a good coat I go to Boston. That's the place. By the way," he added, "do you ever go to church?" "Yes, sir."

And where do you attend? "Well, sir, when I want to hear a good sermon I go to Boston. That's the place."—Boston Beacon.

Give Them A Chance. That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and chest troubles, all are bad. All ought to be got rid of. There is just one sure way to get rid of them, that is take Roschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. Sincerely yours,

Commercial surprise. "Any chance for a situation in your street railway company, Mr. Jerkies? I am a good accountant." "Where did you work last?" "I was bookkeeper in a bank."

"How long?" "Ten years, sir." "Bookkeeper in a bank for ten years? Great Scott, man, you ought to be able to buy me out by this time!"—Chicago News.

Have You Thought About It? Why suffer a single moment when you can get immediate relief from all internal or external pains by the use of Polson's Nervine, the great pain cure. Nervine has never been known to fail in a single case; it cannot fail, for it is a combination of the most powerful pain subduing remedies known. Try a 10 cent sample bottle of Nervine. You will find Nervine a sure cure for neuralgia, toothache, headache. Buy and try. Large bottles 25 cents, by all druggists.

LEMONS.

Keep lemons in the house when possible, as they are sure to be in demand for various purposes. Lemons are very healthful. It is claimed where a large quantity of lemons are purchased, and there is a fear of their not keeping till wanted for use, that if they are placed in a jar, covered with clear water, and the water changed each day, they will keep as long as desired, and are as fresh when removed from the jar as when first purchased.

There are few things so efficacious for breaking up a cold as hot lemonade, taken just before bedtime. It is best, to render this more effective, to bathe the feet of the patient in hot water and mustard just before retiring, then give hot lemonade to drink; put the patient to bed immediately thereafter, there to remain well covered until morning, when, unless there is something more serious than a cold, the latter will have almost wholly disappeared.

To make good lemonade: take a goblet of hot water, and into it squeeze the juice of one medium-sized lemon and sweeten to taste. This makes a very strong lemonade, and may not be fancied by some, but it is one of this kind that will do the most good when used as medicine.

For a cough, roasted or baked lemon is good. Put a good-sized lemon in the oven, and let remain until baked, which will be when the whole is very soft; then take out and add a quantity of sugar to make it a thick syrup. Take a teaspoonful of this frequently, keeping it warm, and, unless in a very obstinate case, it will effect a cure in a short time.

The juice of a lemon taken in the morning while fasting is often a preventive of those attacks to which bilious people are so frequently subjected. Lemon juice rubbed over the hands and face, would do well to use a few drops of lemon juice when any acid is desired, as vinegar has a bad effect on the skin.

A piece of lemon bound on the corn, changing for a fresh piece each day for three days, is said to so loosen the corn that it may be easily removed. Don't throw away bits of lemon from which the juice has been extracted, for they are good to keep for cleansing purposes. When the juice is not convenient, they are nice to rub on the hands to remove any ink stain and other discolorations. A piece of lemon dipped in salt, and rubbed briskly over a copper kettle, will give it a good polish. Never eat, or allow to be eaten, bits of lemon left standing for any length of time, more especially where they have so remained in a sickroom.

"I Was Suffering." Says S. S. Shawford, of Kingsley, Man., "From weakness and loss of appetite, with a severe headache, and could scarcely walk. My first bottle of Burdock Blood Bitters enabled me to walk about the house, and when I had taken the second bottle I found myself entirely cured."

Don't throw away lemon peel, but dry it in the oven, and keep for flavoring. A bit of this dried peel cooked in apple sauce or put in apple pie gives a delicious flavor that nothing else imparts.

Be on Your Guard. Don't allow a cold in the head to slowly and surely run into catarrh, when you can be cured for 25c. by using Dr. Chase's Catarrh Cure. A few applications cure mucous catarrh; 1 to 2 boxes ordinary catarrh; 2 to 5 boxes is guaranteed to cure chronic catarrh. Try it. Only 25c and sure cure. Sold by all druggists.

Should the Queen's wish respecting the jubilee gift be worthily carried out, the English poor of all future generations will have reason to look back to this famous year with gratitude. With a good deal of effort a Woman's Jubilee Offering of \$250,000 was got up, and presented to her Majesty; but, had its ultimate destination been foreseen, there is good reason for thinking that it would have been more easily collected, and have reached a far larger total. The Queen has decided that it shall be appropriated to a scheme now being worked out for improving the condition of the nurses for the sick poor. A committee for this purpose has been formed, and the Duke of Westminster is at its head.

More Remarkable Still. Found at last, what the true public has been looking for these many years and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters which in conjunction with Johnson's Tonic Liver Pills has performed some wonderful cures in impure or impoverished blood soon becomes purified and enriched. Biliousness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. For Sale by Good, druggist, Albion block, Goderich, sole agent. [d]

Last Wednesday afternoon Gordon Mooney met with a very unfortunate accident in Vanstone Bros' sawmill, Brussels, whereby the saw caught his left hand, lacerating it very badly. Two physicians were speedily in attendance. The most of the second finger was amputated and an effort was made to save the rest of the hand. The injured member is very painful and will lay Mr. Mooney up for a good while.

A Wonderful Flesh Producer. This is the title given to Scott's Emulsion of Cod Liver Oil by many thousands who have taken it. It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food, so that it, and try, is palatable. Sold by all druggists, at 50c. and \$1.

THE RIGHT KIND OF HOME.

Home to a good many men is the place wherein to rest and sleep and loaf and snarl and order children about, and put into practice generally their small views of the rights of a husband and father. And then, something higher than these, stand a more intelligent and genial class who have a warm social side, and are void of tyranny, and cherish every noble hope of their children, and yet do not quite see that home and its influences should be a main thing in the thoughts and plans of every father, instead of being held greatly subordinate to business and politics and out-door pleasures. To provide abundantly and keep the house warm in cold times, and send the young ones to school punctually and have family prayers once or twice a day are not at all the things that need doing, but home should be made a really bright and happy place in every way. It should meet the wants of the

WHOLE NATURE OF THE YOUNG. Games should be devised and a wise man or a careful mother is doing a good thing in spending time to invest and diversify these, with a view to keep the household in good nature and cheer. Festivals should be emphasized and made memorable. Little expeditions of the household to this place and that should be planned. The right kind of books should be sought and read and talked over together.

Indeed, scarcely anything helps a home so much as general and cheerful conversation. Music should be brought in. The taste of the children should be cultivated. Decorations are excellent in a merely moral view. Flowers and greenery should be made to assist in the general culture. And if time is consumed and money spent on these things, these is no folly in it, but wisdom. For boys and girls are blessedly guarded when they find all their faculties well met and

EXERCISED AT HOME. They do not care to roam, so they are detained from a thousand outside dangers. Their passions are kept quiet. They lie open to celestial influences. This, comparatively, for such to be Christians. Indeed, we expect them to be. Solomon's "Train up a Child," etc., is likely to be fulfilled in their case. Tippling houses do not draw their pay from youth who have been made to love their homes heartily. Wayward girls are bred in unhappy homes. The mixed Christians (neither saints nor sinners) by whom the Church is lumbered and made inefficient, that is, the Christians who have such obstinate kinks in their constitutions that the grace of God is able to straighten them only by slow degrees and a weary drill, they are generally victims of untamed early influences in poorly managed homes.

More Trouble May be Expected. If you do not heed the warnings of nature and at once pay attention to the maintenance of your health. How often we see a person put off from day to day the purchase of a medicine which if procured at the outset of a disease would have remedied it almost immediately. Now if Johnson's Tonic Bitters had been taken when the first uneasiness made its appearance the illness would have been "nipped in the bud." Johnson's Tonic Bitters and Liver Pills are decidedly the best medicine on the market for general tonic and invigorating purposes. Pills 25c. per bottle. Bitters 50c. and \$1. per bottle, sold by Good's the druggist, Albion block, sole agent.

It is a mistake to put spoons in a holder handles down. Ery fever is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membranes of the nostrils, tear-ducts and throat, affecting the lungs. HOUSEHOLD RECEIPTS

Cranberry Jelly.—Pare, quarter and core twelve large tart apples, (green or any juicy apples preferred) put in a porcelain kettle with two quarts of cranberries, stew until soft, then strain through a jelly bag, put the juice on the stove in same kettle (after it is washed) with two pounds of coffee A sugar, boil the same as for any jelly or until it jells from the skimmer when you dip it in and falls off in two or three places. Skim off the froth if any rises while boiling. Pour in jelly moulds or tumblers. The apples give it a nice flavor.

Orange Custard.—Bake, in open shell, one cupful of powdered sugar, one tablespoonful of butter, one tablespoonful of smooth corn starch, one teaspoonful of boiling water, yolks of three eggs, juice and grated rind of one large orange all mixed together. When "set," cover with meringue of whites and brown.

Hot sardines on Toast.—Take a half dozen sardines, dip them in boiling water to free them from oil. Put them on a plate in the oven till very hot. Have ready some thick toast well buttered, and spread with anchovy paste. Lay the sardines on this and serve very hot. This dish can be varied by using instead of sardines the famous Norwegian lax, a preparation of smoked salmon that is exported in tin like sardines.

Prince Albert Sandwiches.—Take three eggs, a piece of butter the size of a walnut, a little grated Parmesan cheese, a dash of salt and of cayenne pepper. Put all into a saucpan and stir over the fire till it thickens. Cut some round pieces of bread, fry them in butter till of a nice brown. Spread the paste over them. Have some ham, or tongue, grated or chopped fine, to be strewn over before serving.

Fish Chowder.—Four pounds of fish, half a dozen slices of salt pork, put into the pot. When done very brown, take pork out, put in a layer of fish cut lengthwise, then a layer of crackers, small onions and potatoes sliced thin, mixed with bits of fried pork; then a layer of fish, and so on. Sprinkle a little salt and pepper over each layer; over the whole pour a bowl of flour and water, enough to come even with the surface. Add a sliced lemon and a cupful of tomato catsup. A few claims are an addition. Cover so that no steam escapes.

Roly Poly Padding.—Make a crust with two heaping teaspoonfuls of sifted flour, two teaspoonfuls of baking powder, (mixed well) a pinch of salt, two tablespoonfuls of butter rubbed through the flour, and sweet milk enough to mix soft like biscuit dough. Then roll out flat and add cranberry jam; wet the edges with dough, roll up and fasten securely, wet a piece of cheese cloth and wrap around the whole and put in a hot steamer over a kettle of boiling water. Allow about ten minutes for it to heat through, then steam one hour. Cut in slices and serve with sauce.

An Unwelcome Guest.—Disease in any of its myriad forms is never welcome, and the end of its visit is always rejoiced at. Burdock Blood Bitters cures all diseases of the stomach, liver, bowels and blood, giving life and hope with every dose.

Nail up the Hole.—The following extract, taken from a letter that recently appeared in the New York Fair, has a good deal in it. We comment it to the attention of temperance workers who are not thoroughly convinced of the rightness of prohibition: "I took my little boy on my knee and told him the story of the lost lamb. How it found a hole in the hedge and crawled through, how glad it was to get away, how it played and skipped in the sunshine, until it had wandered so far it could not find its way back. And then I told him how the wolf chased it, and how finally the Good Shepherd rescued it and carried it back to the fold. The little fellow did not say a word until I got to that part of the story where the sheep had carried the lamb wounded and bleeding, back to the fold, when he exclaimed, "Say, papa, did he nail up the hole where it got out?"

Now those of us who have been engaged in the temperance work for years have been trying to save the lost one, but we have found that, while we were saving one that had gone astray, a hundred others were going astray. Now we propose to nail up the hole by wiping the saloon out of existence.

Before God and man, before the Church and the world, I impeach intemperance. I charge it with the murder of innumerable souls. In this country, blessed with freedom and plenty, the Word of God and the liberties of true religion, I charge it as the cause, what ever be their source elsewhere, of almost all the poverty, and almost all the crime, and almost all the misery, and almost all the ignorance, and almost all the irreligion that disgrace and afflict the land. I am not mad, most noble Festus. I speak the words of truth and sobriety. I do, in my conscience, believe these intoxicating stimulants have sunk into perdition more men and women than found a grave in that deluge which swept over the highest hills, engulfing a world of which eight were saved.

Chronic Coughs and colds. And all diseases of the throat and lungs can be cured by the use of Scott's Emulsion, as it contains the healing virtues of Cod Liver Oil and Hypophosphites in their fullest form. See what W. S. Muer, M. D., L. R. C. P., etc., Toronto, N. S. says: "After three years' experience I consider Scott's Emulsion one of the very best in the market. Very excellent in throat affections." Sold by all druggists, 50c. and \$1.00.

The big propeller Myles, which was to have left Hamilton on Thursday for Toledo to load corn for Kingston, had her boiler burnt out Wednesday afternoon through the carelessness of the firemen in neglecting to feed water into it. The most serious loss is caused by her being obliged to cancel her contract for the cargo, which will be a dead loss of nearly \$1000.

Receipts for the intellect.

Boiled starch makes an excellent paste. When flat irons become rusty blacken them with stove polish and rub well with a dry brush. Use charcoal to broil with. The flames close the pores quickly and make the meat very tender.

Silver can be kept bright for months by being placed in a six-ounce case with a good sized piece of camphor gum. For ink spots on floor rub with sand wet with water and oil of vitrol, and afterward rinse with pearline water.

Orange peel, when thoroughly dried or baked, is a capital thing for lighting the fires. It burns fiercely and gives out an intense heat.

Windows can be cleaned in water and the frost entirely removed by using a gill of alcohol to a pint of hot water. Clean quickly and wipe dry with a warm chamois skin.

Large quantities of vegetables should not be stored in a cellar under the house. They will vitiate the air of the whole house and cause sickness. Better have a root cellar or store them in a pit.

A Maine historian says that in olden times the fine ladies of Eastport, then a gay, flourishing town, used to acquire beautiful complexions by sleeping with their heads out of the windows in foggy weather.

Cut off the top of an old leg boot or top boot, cut out a piece of the right size, line it with woolen and you will have the best kind of a holder for flat-iron and stove ware—better and safer than old cloth holders.

A story is told of a young lady who kissed a baby held in its father's arms; then, in a moment of temporary insanity or abstraction, she stood on tiptoe and kissed the papa. Realizing instantly what a dreadful thing she had done, she wheeled around and kissed the baby's mamma, who was standing near, and retired in good order.

Her satirical sister squelched the poor young woman as they left the house by asking her if she didn't want to go back and finish by kissing the hired girl.

Have you any idea how many miles a dancing girl gets over in a single evening? I don't mean a more or less waltzer, or one who sits out her dances—alone or otherwise—but a real lover of waltzing, who dances everything from a beginning to an end, and looks almost as fresh at the end of the evening as she did at the beginning. Some men have been attending several dances with a pedometer in his pocket, and he finds that the average distance traversed during an evening of twenty-two dances is 134 miles! If any girl of one's acquaintances was asked to go an equally long walk, she would just say it was impossible, at least I know I should, but somehow when one has a pleasant partner, good music and a good floor in a well-lighted room, one scarcely stops to consider how much ground one has got over. The average length of one waltz is half a mile, whilst polka is three quarters, and even the lancers are a quarter of a mile long. I am going to try and remember these figures—though I am a fearful hand at anything of that sort—so as to entertain my future partners, when I find they are talking about the weather men, with only the music, the floor and the dresses for variety.

RENEWED AND RENEWING.—The stock of stationery, including note, letter and account papers, envelopes, and in fact, all classes of printing papers has just been replenished at The Signal. Another large lot to arrive in a day or two and more to follow. If you want something neat and business like in office stationery, call. If you want a card or circular printed in the latest style, call at THE SIGNAL steam printing house, North St.

There is a Woman's Silk Culture Association, and from its reports it would seem that American women are destined to become extensive silk growers.

Women and Marriage. Whatever may be said in the way of exceptions, it becomes clearer to women that marriage, as it stands, brings to them heavier burdens, drearier lives, more of suffering, more of sorrow, more of care, than they are able to bear. As a way to secure a home and make a living regard less of the love that alone makes it sacred, anything were better. No state of servitude could be more galling or more destructive to the joys of freedom.

In the old days, when an "old maid" was under the ban, when a woman who was not married was looked upon as one who, through lack of beauty or want of attractiveness or good qualities, had failed to please a man, women entered upon loveless marriages through fear of the world's dread laugh, or the stigma of the name, or the fear of poverty. But now such high-bred frights women into bonds now-a-days. They have tasted of the delights of freedom, the joys of independence. The woman now who has means of her own to be comfortable looks with pity on the sisters who struggle along in marriage and are worn out by its cooking and burdens. "Would I not be a blooming idiot," said a bright young woman, with her salary of \$1,500 a year, and more in prospect—"to resign my place and get married to struggle along in housekeeping for nothing a week, to tie myself down to a nursery, to wrestle with the servant question, to wear myself out in a steaming kitchen, and all for what?—for a man? Bah! Don't mention it. I have my hours of work, which I enjoy; I have my own money to spend as I please; I have my vacations, my trips of pleasure with congenial friends; I come, and go, or stay, with no man nagging at me, or bossing me; I have my own little home where no Queen of Sheba could be happier. Wouldn't I be a sublime fool to get married? Surrender, will I, when the right man comes along? At all events, if I do, the man I marry will have to be up to the top notch of a man, I mark you."

That's the way the girls are beginning to talk of marriage. And no wonder, with the awful examples of the failures in marriages all around. And no wonder, with the awful examples of the failures in marriage all around. With their talent for home making and housekeeping, and their ability to interest them-

selves in the every day duties of life, women who remain single for whatever cause are never so forlorn, or lonely, or at loss as old bachelors who are in the serene and yellow hair—especially those who have burned the candle at both ends in their youth.

For Five Years. For over five years we have used Hagyard's Yellow Oil in our family for coughs and colds, burns and sore throat, and our experience is so satisfactory that we would recommend the medicine to any person. Mrs. F. Sanderson, Buxworth, Ont.

Another New Use for Bracelets. The modern society girl no longer carries her pocketbook in her hand to tempt every repentant sneak thief to return to his bettnging crime. She has taken to the newest thing in cash-holders, which is a soft ooze leather bracelet, rather decorative than otherwise, which has a receptacle for change just where the watch reads a mouth or two ago on the back of the wrist. The bracelet is worn on the left arm. It has a simple clasp, easily manipulated, and when car fare or bonbon money is wanted there it is close by, perfectly safe, and leaving the hands free for other small burdens.

Mrs. Joseph Chamberlain is said to have received her introduction to her husband from her stepson, Austin, who visited Washington, and met Miss Endicott before his father.

The American Educational Aid Association helps women to secure scholarships and special favors in institutions of learning who have no one on whom to depend to get a self supporting education.

Miss Charlotte Robinson, the art decorator to the Queen, has a studio in Maida Vale and a shop in Brook street, London, and is, altogether, doing a thriving business. She travelled in America with Miss Emily Faithful a few years ago.

Scott's Emulsion of Cod Liver Oil and Hypophosphites. Is sold all over the world. It is far superior to plain Cod Liver Oil, palatable and easily digested. Dr. Martin Miles Stanton, Bury Bucks, London, England, says: "I have prescribed Scott's Emulsion, and taken it myself. It is palatable, efficient, and can be tolerated by almost anyone, especially where cod liver oil itself cannot be borne. Sold by all druggists, 50c. and \$1."

At the request of the clergy, the Bishop of Huron has appointed Rev. C. R. Matthews, M. A., formerly of Clinton, to be Rural Dean of Essex.

Getting Rich by Small Inventions. The New Jersey man who hit upon the idea of attaching a rubber erasing tip to the end of lead pencils is worth \$200,000.

The miner who invented a metal rivet or eyelet at each end of the mouth of coat and trousers pockets, to resist the strain caused by the carriage of pieces of ore and heavy tools, and made more money from his letters patent than he would have had he had struck a good vein of gold-bearing quartz.

Every one has seen the metal plates that are used to protect the heels and soles of rough shoes, but every one doesn't know that within ten years the man who hit upon the idea has made \$250,000.

As large a sum as was ever obtained for any invention was enjoyed by the Yankee who invented the inverted glass bell to hang over gas jets to protect ceilings from being blackened by smoke.

The inventor of the roller skate has made \$1,000,000, notwithstanding the fact that his patent had nearly expired before the value of it was ascertained in the craze for roller skating that spread over the country a few years ago.

The gilet-pointed screw has produced more wealth than most silver mines, and the Connecticut man who first thought of putting tips on the toes of children's shoes is as well off as if he had inherited \$1,000,000, for that's the amount his idea has realized for him in cold, clammy coin.

The common needle threader, which every one has seen for sale, and which every woman owns, was a boon to needle users. The man who invented it has an income of \$10,000 a year from his invention.

The man who invented the return ball, an ordinary wooden ball, with a rubber string attached to pull it back, made \$1,000,000 from it.

The person who invented the most recent popular toy, "Pigs in Clover," will be rich before the leaves turn this autumn. He was poor last November.

A miner in England made \$50,000 by inventing an oil that caused by winding it with a string.

From the Jewish Point of View. Ask the Jewish housewife, the Jewish mother, whether marriage is a failure! She will not understand you. She will stand bewildered in the face of your question, and if you explain to her what you mean she will tell you that a Jewish mother sees in marriage the acme of happiness, because of womanly duty; that all these new-fangled notions are simply the outcome of the brain of some man or woman who mistook the true mark of life, and whose life is a failure. She will point to her children, as Cornelia of old did. She will extol her husband as the ideal of her life. She may not have read as much as the girl of the period, may not be as accomplished, nor figure as a speaker in assemblies for the advancement of woman's enfranchisement, but she will exemplify to you how a true woman lives, how a true mother, a devoted wife, arranges her life, and you will find that true happiness is found in such a family, and that marriage is the most sacred union in existence, which is the question is to lay a sacrificial hand upon the rock upon which society rests.—Hebrew Standard.

Avoid excesses of all kinds, whether of work, pleasure, eating, drinking or any other wise proper employment of mind or body.

From Ocean to Ocean.

Fishermen and miners in Nova Scotia, mechanics and farmers in Ontario and Quebec, hunters and trappers in the Territories, and gold miners in British Columbia, use and praise Hagyard's Yellow Oil, the great internal and external remedy for all pain. It cures rheumatism, neuralgia, sore throat and croup, and is the reliance of thousands.

Underwear. Cotton is injurious when worn next the skin. The fibre of which it is composed does not absorb the perspiration of the body, which is forced back again in a chilly state upon it. To wear linen or cotton is like bathing in cold water and putting one's clothes on without drying. It is certain to produce colds, and very frequently, if persisted in, induces a person so disposed to consumption. Wool alone is the material out of which, summer and winter, our undergarments (by which I mean those worn next to the skin) should be made. Wool is not impervious like cotton; it absorbs the moisture of the body, and keeps the skin at a comfortable, even temperature. It permits ventilation also, an excellent thing for the healthy skin. In the form of vests, combinations, and stockings, wool fabric should therefore be worn in all ways. But you will possibly object: How uncomfortable it would be in summer to wear hot vests, and above all hot stockings! So it would, I admit. But it must be remembered that there are various degrees of thickness in woolen fabrics, and that it is therefore possible to adapt one's woolen clothing to the state of the weather. For example, there is thick lambs-wool for winter wear, and all-wool merino for summer of such summer lightness that you would not fancy it to be wool at all. One great point to be observed, by your clothing, is that it should be made of pure, unadulterated wool. You will have to pay more for it, certainly, than for a mixture of cotton and wool, but, with the great demand there has been of late for pure wool goods, the supply has come forth, and all wool clothing does not cost half what it used to do.—Housewife.

Duff's church congregation, McKillop, has extended a call to Rev. D. Forrest, of Bayfield. The Presbytery of Maitland met at the Synod, in session last week at Brantford, to take the usual steps toward arranging the preliminaries for filling the charge. Should Mr. Forrest be transferred, the people of Goderich township and Bayfield will lose an exceptionally good man.

"He Never Smiled Again." No "hardly ever" about it. He had an attack of what people call "biliousness," and to smile was impossible. Yet a man may "smile and smile, and be a villain still, still he was no villain, but a plain, blunt, honest man, that needed a remedy such as Dr. Pierce's "Pleasant Purgative Pellets," which never fail to cure biliousness and diseased or torpid liver, dyspepsia and chronic constipation. The many friends of Mr Bernard Thomson, of Hensall, will be sorry to learn that he received a severe cut close to the knee cap from his axle while preparing the frame of Mr W. Welch's new planing mill a week or so ago, but we are pleased to state that the cut, though a severe one, is healing up fast, and we hope to see Mr Thomson able to resume his work.

Mr David Elcoat, formerly of Clinton, (son of the late A. Elcoat, of Tuckersmith,) who has been living at Ontario, Cal., for several years, returned on a short visit last Friday, bringing his wife and family with him, Mrs Elcoat not having been in the best of health. When they left the West grain was out in head, and the prospects of a good crop were favorable. This boom that had a short time ago been worked up in Southern California had collapsed and everything was down to its natural level. Mr Elcoat likes California and has done well there, but he says a person can easily find worse places than Canada.

The bylaw to grant \$2,000 for the erection of a steam mill at Bayfield was defeated by a majority of 19.

Mr George Mackenzie, Wingham, has successfully passed his second year medical examination at the Toronto School of Medicine.

There was a very large docket at the Fourth Division Court, Brussels, on Thursday, probably larger than at any previous Court. Judge Doyle presided.

J. H. Swann is now in a position to not only annex L. D. S. to his name but also D. D. S., which signifies Doctor Dental Surgery. He is the youngest son of Rev M. Swann, of Brussels.

If the sufferers from Consumption, Scrofula and General Debility will try Scott's Emulsion of Cod Liver Oil, with Hypophosphites, they will find immediate relief and a permanent benefit. Dr H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Pthisias, Scrofula and Wasting Diseases. It is very palatable." Sold by druggists at 50c and \$1.

Mr Thos. Fortune, of Taraberry, who was in his usual health on Saturday morning, was laid low by inflammation, and, we are sorry to state, succumbed last Tuesday. The deceased gentleman was sixty-four years of age and of robust constitution, therefore his death was quite unexpected and his loss lard to our sincerest sympathy.

NOT DEAD YET

But alive, and is getting better at selling good groceries and teas, at the Cheap Cash Store.

I am not blowing or trying to delude you when I tell you that I am selling what is cheap and good.

Farmers, Take My Advice, for once and do not be deluded by those Tea Pedlars, that go through the country pressing you to buy their trashy stuff. They are here today and away tomorrow, but buy from us that will stand by you and will do what is right and honest, and will take your produce in exchange. We import our teas from head quarters and are not under heavy expenses keeping agents carting tea through the country, for this reason.

I CAN GIVE YOU A good 40c. Japan Tea at 25 cts. A good 40c. Young Hyson at 25 cts. A good 40c. Black Tea at 25 cts. A good 40c. Japan Tea at 50 cts. A good 40c. Young Hyson at 50 cts. A good 40c. Black Tea at 50 cts.

I have also just received a fine lot of Canned Fruits of all kinds, also Canned Meats that are very fine and will be sold cheap. My Tobaccos and Cigars are of the very best Brand; don't forget my Pure Dandelion Coffee, my Stices and Flavours are pure and good. My customers can always rely on getting good Butter, and goods delivered punctually.
