

Nearly new four-wheel cart for sale or single heavy rubber tires, perfect condition, 6 to 8 years, can be used on dirt or gravel, double or tandem, 10 or 12 inch wheels, for an Imperial Officer, leaving this station.

TICKETS 5c to \$2.70 To be obtained from H. L. SALMON

Sexual Diseases of the Genitals. It is annually except in cases of gonorrhoea, which is a chronic disease, that the disease is cured in a few days. The treatment is simple and does not require the use of any medicine. The patient is advised to keep to his bed for a few days and to abstain from sexual intercourse until he is completely cured.

Everything comfortable when you retire. St. John, N.B.

Doubts as to Contract

Not Thought Probable That Le Roi Directors Have Signed Agreement.

Inquiry Into Zinc Properties in Kootenay Commences at Nelson.

Mayor Houston Has Not Yet Returned From Visit to the Coast.

From Our Own Correspondent.

NELSON, Sept. 9.—The report that the Le Roi mine has concluded a contract with a syndicate of London with the Trail smelter for the whole of its output for the next three years is not generally credited here, it being thought to be too important a matter to settle in the board of directors before they meet the shareholders of the mine at the annual meeting this month.

The further report, emanating from the same source, that the Hall Mines smelter will be purchased by the Trail reduction works and the Heberlein roasting process installed, is thought possible at this time.

It is thought possible that the Heberlein process will be installed by the management of the Hall Mines smelter.

The Zinc Enquiry. The inquiry into the conditions of zinc properties in the Kootenay region is today by the government commission.

This consists of Dr. Hannek, who installed the government assay office for the Klondike gold at Vancouver and Victoria; W. R. Izagala, the famous zinc expert; F. Arzani, a well known mining engineer of Denver and A. C. Garde, formerly manager of the Hall Mines and president of the association of the Silver Lead mine owners.

These four men will collect data on the value of zinc which they can gather through the Kootenay and formulate a report to the government.

The subject of the inquiry is the possibility of the later market being closed to Kootenay zinc and the possibility of the later market being closed to Kootenay zinc.

To Meet Tariff Commission. A meeting of the council of the board of trade was held here today to decide upon what subjects should be taken up before the visit of the tariff commission.

The subjects to be discussed are the possibility of the later market being closed to Kootenay zinc and the possibility of the later market being closed to Kootenay zinc.

People Are Disappointed. The people of Nelson are much disappointed in the action taken by the Great Northern railway in taking off the passenger train between this place and Spokane and reverting to the old system of night trains.

Development of the Aurora mine at Morley is being advanced by the development of the Aurora mine at Morley.

Chicago Elevator Fire Affords Spectacular Sight. Chicago, Sept. 9.—The Santa Fe elevator, containing 345,000 bushels of grain, was destroyed by fire here today.

Office Boys Signed Notes For Millions. Interesting Disclosures Made Before Insurance Investigating Committee.

Frenzied Finance as Practiced by the New York Life Company.

NEW YORK, Sept. 8.—Today's session of the legislative life insurance investigating committee was devoted exclusively to the affairs of the New York Life insurance company.

AT ROSSLAND CAMP. Important Finds of Ore During the Week—Report of Shipments.

Rossland, Sept. 9.—The most important news in mining circles during the week is the finding of the famous Black Bear ore chert on the 800-foot level of the Le Roi.

Another find of importance is the full face of ore on the 1,550-foot level of the Le Roi.

Arrangements are under way for the handling of the ore at the Le Roi at Trail.

DINE WITH PRESIDENT.

Peace Envoy's Meet Around Festive Board at Oyster Bay.

New York, Sept. 9.—Baron Komura and M. Takahira, the Japanese peace envoys, left the Waldorf-Astoria today to take luncheon with President Roosevelt at Oyster Bay.

Baron Rosen today gave out an emphatic and unequivocal denial of a story cabled from London to the effect that a secret treaty had been arranged between the emperor of Japan and the emperor of Russia.

Baron Rosen declared the story had not the slightest foundation and was absurd on its face.

Visits Rogues' Gallery. M. White visited the New York rogues' gallery with Police Commissioner McAdoo and examined the weapons with which notorious murderers have been committing actions.

Later, while summing up his impressions of the American metropolis, M. White said that the conditions here were more than the subway or any other of the New York sights.

Everywhere, he said, "there is advertising, advertising, advertising."

The Day At Ottawa

Taking Over Halifax Garrison Puzzles Department of Militia.

Professor Prince Starts for the Coast to Pres'd at Fisheries Investigation.

Sir Wilfrid Will Turn the First Sod of the Grand Trunk Pacific.

From Our Own Correspondent.

OTTAWA, Sept. 7.—It is likely the board of railway commissioners, when they appoint a successor to Mr. Davaul...

Quinquennial Census.

Mr. Abbu, census commissioner, has gone west for the purpose of making preparatory arrangements for the quinquennial census of Manitoba, Alberta, and Saskatchewan to be taken next year.

Gamblers Busy in Chinatown.

A "Wide Open" Policy Pursued by Shop Keepers in That Section of City.

White Patrons Said to Be Contributing Largely to Support Games.

(From Friday's Daily).

Although it is generally taken for granted that gambling among the Chinese is carried on more or less all the time, it was not until the last few days that the fact became known that there is more going on in Chinatown, into which white men may obtain admittance than has been the case for many years.

Elaborate Fittings.

Several of the places are elaborately fitted up, while the remainder are very small rooms with a ceiling which would make a tall man stoop.

A person has only to pass through a passage about six feet long and he is in the selling office. Tickets are sold here over an ordinary wooden stand with an oil-cloth top, and the proprietor is also willing to accommodate a visitor with "black-luck" only.

Next on the list is a place in the rear of 159 Government street, corner of Fisgard street, where not only deal in merchandise but also in the amount which may be won at lottery.

On Fisgard street there are to be found games No. 46 and No. 40. Both of these places provide any sort of a game for those who desire to "make a change."

No. 115 and 117 Fisgard street are gambling joints where only Chinamen are allowed to play; but nothing is done to stop a white man from going in.

Going into Cornwal street, there are lottery tickets and games of chance, and one "black-luck" only. This firm has provided a neat card with the firm's name, and also a card showing the amount which may be won at lottery.

ariferous mispick, showing more or less free gold. The formation is generally of the "black-luck" type, and is generally mineralized to "constitute good ore, these mineralizations constituting the veins and ore shoots. It is the present time the greater part of the ore is mined by open cut and mill hole.

The reduction equipment comprises a complete stamp mill and cyanide plant, though all of the ore is being smelted on the mill.

The mill is equipped with 40 stamps, 10 vanners and the usual rock-breaking machinery, though it is announced that the plant is to be increased to 100 stamps.

Three-Mile Flume. All power for the mine is generated by water, supplied by Twenty-Mile creek. A flume 1,200 feet long was built to carry 1,000 inches of water. A head of 400 feet is obtained at the lower end of the flume.

The mill is built on benches graded into the side of a hill. It covers a floor space of 42,500 square feet. All four 2,500-horsepower engines are crushed each twenty-four hours. The mill will be installed in the mill building, and the batteries and on the outside.

ST. PETERSBURG, Sept. 7.—The desperate condition of affairs at Baku is shown by a telegram from the governor of Baku, who has sent an urgent despatch to the minister of the interior, asking that his troops be immediately sent to Baku to suppress the anarchy.

tion the following official statement was given out: "In view of representations made as to the inconvenience caused by the presence of the tariff commission at the present time, the dates for that province will be fixed immediately and announced. It is the intention of the commission to return to Manitoba and the Northwest Territories, at which time they are assured it will be convenient for the ministers here to attend to the duties of their respective offices and all others who wish to present their views should in the meantime prepare for the meeting of which more exact notice will be given at a later date."

The minister had contemplated holding meetings at quite a number of points in Manitoba, Saskatchewan and Alberta, and would be able to do so at once if this were convenient to the people. When they return in November it is probable they will be more pressed for time, and it will be necessary for them to hold meetings at many places. It is likely that two principal points in Manitoba will be visited, and it is hoped that all parties concerned will find it convenient to meet at such points when they are definitely fixed and the dates announced.

The last meeting of the commission, for the present, will be held tomorrow at the board of trade chambers at 10 o'clock. All business men wishing to present their views will be given a full opportunity to do so.

ANGLO-JAPANESE TREATY.

Martial Law

Disorders Have Been Resumed and Authorities Take Stringent Action.

American Party Caught in Mob of Rioters and Are Stoned.

Baron Komura States the Agitation is Aimed at the Government.

From Our Own Correspondent.

TOKIO, Sept. 6.—9 p.m. (delayed in transmission).—An important ordinance establishes martial law in Tokio. Disorder was resumed tonight. The Harrison party had an exciting experience last night while attending a dinner given by Baron Komura, minister of foreign affairs. Dr. W. G. McLeod and C. C. Lynch were in a crowd on their way to the dinner and were stoned by a mob of rioters with a missile and slightly hurt. After the dinner was over a detachment of soldiers entered the party to the legion. A crowd stopped R. P. Scherwin, vice-president of the American party, but did not touch Mr. Scherwin. The Canadian police killed the space in front of the American legion, and hoisted and stoned the soldiers escorting the Harrison party who fixed bayonets, charged the legion through the night. The dinner planned by the bank for today in honor of the American party will not take place owing to the disturbed conditions in the city.

Exasperating Experience of the Lick Astronomers During Recent Eclipse.

Reported Loss of Government Steamer in Storm on the Great Lakes.

British Columbia Canning Industry Causes Increased Demand for Tin.

From Our Own Correspondent.

OTTAWA, Sept. 8.—Dr. King says the Lick Observatory people just missed seeing the total eclipse in Labrador. Only ten minutes before the total occurred a dark cloud obscured the sun. He states that the people saw the beginning and end of the eclipse, but their observations are of no scientific value.

It is now stated that the Canada Atlantic system will be transferred to the Grand Trunk system on Monday. She was at the Soo on Tuesday.

The name of the steamer "Queen of Pacific," of Vancouver, will be changed to "Claxton."

An order-in-council has been passed reducing the fee for a free miner's certificate in the Yukon from \$7.50 to \$5. The length of the claims have been increased from 250 to 500 feet.

Canada's revenue for the first nine months ending August was \$11,835,351, an increase of three-quarters of a million over the same time last year.

There was a slight increase in expenditure, both ordinary and capital. A deficit in London mentioned in the fact that an increased demand for tin plate for fruit and salmon packing in British Columbia has been reported.

South Wales, and manufacturers of steel are looking forward to considerable Canadian business on account of the abolition of bounty. Two Canadian contracts for 8,000 and 15,000 tons of steel have been placed, the latter in Vancouver.

NOBEL PRIZE FOR ROOSEVELT. Can't Qualify This Year, but Certain Winner in 1906.

Christiania, Sept. 8.—All the Norwegian papers this morning express regret that it will be impossible to award to President Roosevelt the Nobel prize this year, owing to the requirement that the candidates for the prize be nominated before the 1st of July. It is expected, however, that Mr. Roosevelt will be chosen for the prize in 1906.

Judgment in the Collins Case

Verbal Report of Important Portions of Decision by Mr. Justice Duff.

Able Review of Law Points Bearing on the Extradition Treaty.

(From Friday's Daily.)

In view of the great amount of interest taken in the Collins case a fuller report than at first appeared of the interesting judgment of Mr. Justice Duff is here given:

Judgment re Geo. D. Collins, as delivered by the Honorable Justice Duff, the 30th day of August, 1905.

As to the objections raised by the appellant to the warrant of commitment, I find that the warrant is valid and that the objection is without merit.

In my opinion, these objections are both disposed of by reference to the Extradition Act, which is Cap. 142 of the Revised Statutes of Canada, Sec. 20, of that Statute reads: "The act, or form, or return, or certificate, or any other document, which is used in the matters to which such forms refer, and when used shall be deemed to be in conformity with the provisions of the act."

The form of the warrant of commitment under consideration is in conformity with the form prescribed by the Statute, and the objection is without merit.

My view is supported by the decision of the Queen's Bench Division, in Re Belton, 1892, 2 Q.B. 122, and the Revised Statutes of Canada, Sec. 20, of that Statute reads: "The act, or form, or return, or certificate, or any other document, which is used in the matters to which such forms refer, and when used shall be deemed to be in conformity with the provisions of the act."

In two cases decided recently by the Supreme Court of the United States, one in 1892, and the other in 1905, a similar opinion was given.

Thin Blood Makes A Weak Body

But You Can Enrich the Blood and Send New Vigor Through the System by Using Dr. Chase's Nerve Food.

Every nerve and every muscle of the body depends on the blood for nourishment. Thin, watery blood makes weak nerves and flabby muscles. The heart fails in its work of forcing blood through the body, the lungs, the stomach, the liver, kidneys and bowels all do their work in an imperfect way, and you are a weak, tired and miserable.

The use of Dr. Chase's Nerve Food makes a radical change in every human system that is starved and impoverished for want of rich, pure and life-sustaining blood.

Gradually, certainly and naturally it builds new vigor into every weak and worn-out system, restores health and vitality, and puts a new joy into life.

Write your name in weight with using Dr. Chase's Nerve Food; 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

370 PERSONS PERISH BY AN EARTHQUAKE IN ITALY

Calabria and Sicily Violently Shaken and Many Villages Entirely Ruined With Great Loss of Life--Value of Property Destroyed Unknown.

Southern Population Is Terror Stricken

Women Rush From Dwellings Carrying Babies and Dragging Terrified Children--Prisoners Grow Mutinous Through Fear But Are Restrained.

ROME, Sept. 8.—All Italy is suffering from terrible depression because of the news from the south of Calabria and Sicily.

The earthquake which occurred Tuesday, August 24, was the most extensive in Sicily, the worst news comes from Pizzo and Monteleone and from eighteen villages which were completely destroyed.

According to the latest news received, 370 persons have been killed and a great number injured. It is as yet impossible to even estimate the property losses.

The conditions of extortion, which have been discussed in the course of this report, and which are all, more or less, metal thefts, are a crime within the extradition treaty; that it should be a crime within the law of the extraditing country, and, fourthly, that the commission of such a crime is a crime within the law of Canada, partly the committee of the extradition treaty.

The material provisions of the Extradition Act, in so far as they relate to the extradition of a person, are contained in section 17, of that Act, which reads as follows: "The extradition of a person shall be made in conformity with the provisions of this Act, and the person so extradited shall be held to be a fugitive from justice within the law of Canada, subject to the provisions of this Act."

The material provisions of the Extradition Act, in so far as they relate to the extradition of a person, are contained in section 17, of that Act, which reads as follows: "The extradition of a person shall be made in conformity with the provisions of this Act, and the person so extradited shall be held to be a fugitive from justice within the law of Canada, subject to the provisions of this Act."

2000 RUSSIAN MUTINEERS.

Disaffected Crews of Black Sea Fleet Landed at Odessa.

Odessa, Sept. 8.—Seven warships of the Black Sea fleet, which arrived here today, brought 2,000 mutineers, sailors from the Vancouver Lumber Company, and the transporters Prok and Vecha and the engineer Blazhinsky, to Odessa.

The mutineers for the present will be distributed in small groups among the houses in the Odessa district, directed by the Siberian gendarmes. The Odessa military authorities are endeavoring to make the arrangements, fearing that the sailors will join the troops with the revolutionary spirit.

OLYMPIA, Sept. 7.—At last the efforts of those who have been working in southwestern Alberta for the past two years have been rewarded with the biggest oil strike ever made in the Dominion of Canada. The oil is being produced at a depth of 1,400 feet on the property owned by the Alberta Petroleum Development Company, which has been giving out the rate of 8,000 barrels daily, and now shows signs of increasing production. For several days the company managed to keep the discovery quiet, but it became known through the press, and the result that hundreds of oil claims have been filed in the district.

BY ROYAL WARRANT, MILLERS TO H.M. THE PRINCE OF WALES

What is meant by "Protein" in flour?

"Protein" in food is the food element that makes bone, muscle and brain.

Pure flour contains more protein, in most useful form, than any other food—but the flour must be pure.

Bran and shorts are waste—if your flour contains this waste, it is proportionately short in "protein."

Now, if you buy an inferior, poorly milled flour, you are paying for bran and shorts, not "protein," and to that extent you are wasting money.

ROYAL HOUSEHOLD FLOUR is milled to make it the purest in the world; therefore it contains most protein, is most nourishing, is most economical to use.

It pays the housewife to insist upon getting "Royal Household" guaranteed flour, instead of taking a poorer flour which the grocer may be interested in selling.

Ogilvie's Royal Household Flour.

C. P. R. President Coming.—Sir Thomas Stoughton, president of the C. P. R., left Montreal yesterday on his annual tour of the West.

Ministry Party's Trip.—A party of people interested in the Britannia mines left Vancouver yesterday for Prince of Wales Island.

Early Settlers.—In the earliest days of settlement in this province the Rocky Mountains were a barrier to the west.

A Nerve Beggar.—Numerous Victorians indulged in considerable speculation as to how it came about that the man who reached the summit of the Rocky Mountains first was not a Canadian.

Buy James Island.—In addition to the sale of Sidney Island, reported in the Colonist yesterday, the greater part of James Island, lying near the Saanich Peninsula, has been sold.

Ladysmith-Vancouver Ferry.—Vancouver is to have direct connection by steamer with another Vancouver Island port, Ladysmith.

Cowichan Lake Fishing.—The recent rains have raised the water in Cowichan Lake to such an extent that the schools of trout which followed the water into the lake waters.

The Mining Outlook.—Interviewed at Whinnipeg, C. P. Hill, a prominent mining man of Alberta, said: "An owner of silver and lead mines in British Columbia, I am glad to report that the St. Eugene, the Roco and many other silver and lead producers have paid dividends of from 3 to 10 per cent."

Improving Resorts.—Many improvements and additions to the hotels and chalets at the C. P. R. tourist resorts in the vicinity of Ketchikan are planned for this winter.

Anglo-Japanese Treaty Outlined. New Arrangement Will Be Given to the Public This Week. Open Door in the Orient Secured and Integrity of China is Assured.

London, Sept. 9.—The new Anglo-Japanese treaty, which is expected to be signed early in the week, is a landmark in the history of the Far East.
