SECOND growth raspberries are plentiful this fall.

WEATHERWAX BROS. to-night (Thursday).

PIPES, pouches, tobaccos and all smokers' goods at Howden's.
MITCHELL & AULD shipped a car of choice apples to Killarney, Man., this week.

WHY is Austria-Hungary? Because she has not yet had her helping of Turkey.—Globe.

ALL ACCOUNTS due Thos. Dodds must be paid by Oct. 26th, as our books will be closed on that date.

OVERSTOCKED in our carpet department. Special discount on rugs and carpets.—SWIFT'S.

THE coal situation is not quite as acute as formerly. One car was distributed among about twenty people this week.

MR. C. G. HARPER, London, Inspector for the Merchants Bank, was here this week going over the books in the local branch.

SEVERAL apple blossoms were brought to this office on Friday. The perfume from them was delicious at this time of the year.

NEW PERFECTION oil heaters, \$3.75 to \$5.00. Rayo lamps \$1.85 to \$6.00, at Howden's. The best lamp made for reading.

20 PICES Brussels carpets, regular \$1.00 goods for 79 cents.—SWIFT'S.
An injunction has been issued restraining the Grand Lodge A.O.U.W. from putting into effect the new increased rates passed by that body last session.

COME but not forgotten are the days when we paid ten cents for a pound of steak, ten cents for a dozen of eggs, and got three nice lake herring for a dime.

THE CANADIAN COUNTRYMAN, a new agricultural weekly, with head office in Toronto, made its appearance last week. The subscription is \$1 per year.

GOOD, heavy, warm, stylish coats for High School girls, \$6.25, \$7.50, \$8.50.—SWIFT'S.

WALTER THROWER shipped a car of cattle to Toronto; Jas. McManus shipped two cars to Detroit; and W. Edwards sent a double deck of hogs to Toronto this week.

It has been estimated that the purchasing value of a dollar has decreased from 100 to 70 cents in the United States and from 100 to 78 cents in Britain from 1897 to 1911.

It is recommended to keep a cup of granulated sugar on the sink shelf, and while the hands are covered with soap-suds, rub a pinch of it well over them, in order to whiten and soften.

LAMPS, silverware and fancy china at prices suitable for wedding gifts. See our "Sheraton" and "Old Colony" patterns in silverware.—THE N. B. HOWDEN EST.

EXTRA large apples are plentiful this season. Mr. C. Mansfield brought to this office Monday six luscious apples, each of them measuring about 13 inches in circumference and the six weighed 45 lbs. The staff pronounced them fine eating.

ALMOST everyone likes a quartette and you have the opportunity of hearing the best in America at the Presbyterian Concert Series in the Lyceum to-night (Thursday). These concerts are worth while. Don't miss them.

FOR Thanksgiving Day, the Grand Trunk Railway will sell single fare tickets for the round trip, between all stations in Canada, good going October 26th, 28th, 27th and 28th, valid to return Wednesday, Oct. 30th.

OVERSTOCKED in men's suits at \$8.00, \$10.00 and \$12.50. You save \$2.00 a suit.—SWIFT'S.

A CONSIDERABLE NUMBER of counterfeit five dollar notes of the Dominion Bank, serial B 251,083, are in circulation. The work is so skilfully done that the spurious bill is extremely difficult to detect, but the printing is of a slightly lighter color than that of the genuine.

IT HAS OCCURRED to us that our readers at a distance could do us and others a kindness by sending us marked copies of newspapers containing references to boys or girls, young or otherwise, who formerly resided in this district. Two things should be observed in doing so, however, namely, to mark the article plainly with pen or pencil and to write the name of sender somewhere on the head or margin of the paper.

THE rural mail delivery, which is proving a great boon to farmers throughout the country, has eliminated some postoffices and greatly increased the duties of postmasters in other central offices without bringing an additional remuneration in salaries. The extra work is becoming so great that the postmasters cannot afford to do it without remuneration and it will soon be up to the Department to come up liberally.

PAY your bill. We need the money by 1st November.—E. D. SWIFT.

ADJOURNED MEETING of Council next Saturday evening.

P. DODDS & SON shipped six cars of apples to the Northwest this week.

OVERSTOCKED sale of dress goods, 38c. and 69c. See these two bargains.—SWIFT'S.

JOSHUA SAUNDERS has purchased the northeast corner lot of Main and Erie streets from Mr. D. Ross. Consideration \$900.

THE season for black and grey squirrels opens on Nov. 15th and closes Dec. 1st. The penalty is \$5 for each squirrel, with costs.

TOWN CLERK FULLER is limping around with a cane, the result of striking his foot with an axe while splitting kindling wood.

HORSE BLANKETS, halters, lanterns, whips, combs and brushes, stable pails, stable brooms, etc., at right prices.—THE N. B. HOWDEN EST.

WHY is coal the most extraordinary article known to commerce? Because, when purchased, instead of going to the buyer it goes to the cellar.

TO-NIGHT, (Thursday) the first of the Presbyterian Concert. The Weatherwax Bros., a singing and instrumental quartette. In the Lyceum, 50 and 35 cts.

WATFORD High School boys took second prize in the relay race at the Stratroy school sports on Monday. K. J. McEachern took 1st money in the half-mile.

THE members of Havelock Lodge, 238, A.F. & A.M., are requested to attend regular communication to be held on Tuesday evening Oct. 22nd, at 8 o'clock. Degree work.—H. K. LAIRD, W.M.

PAPER-BAG COOKING is interesting to ladies now. It will soon be possible to cook onions and other high smelling comestibles without notifying the neighbors what is on your bill-of-fare.

MCLAREN'S JELLY POWDERS and extracts have the strength, so that people ask for them again. Both 10c., three for a quarter, at Howden's. Our raisins, currants and peels are fresh and the best grades.

CHILDREN'S DAY will be observed on Sunday in all the Anglican churches in Canada. A special service will be held in Trinity church at 2.30 in the afternoon. It will be an open session of the school. Different addresses will be given.

THE post office department will issue shortly one cent stamp books convenient for the vest pocket, and similar to the two cent books now in use. Stamp selling machines will also be placed on passenger trains and at important stations.

DR. AND MRS. NEWELL were in Springfield this week, attending the funeral of the doctor's brother, Rev. John R. Newell, late rector of St. Stephen's church, Sandwich, who died at the home of his brother, Mr. Andrew Newell, Springfield, on Sunday, interment taking place at Port Dover on Wednesday. Deceased leaves a widow, one daughter and two sons to mourn his loss.

CLAUDE and Boker razors, guaranteed, at \$1.50 up. Claus straps 50 cents to \$1.50. Lather brushes, shaving soap, Howden's. A large assortment of Boker's pocket knives just received.

A MEETING of representatives of the municipal councils of Lambton will be held in the council chamber, Petrolia, on Wednesday, Nov. 6th, to discuss the question of improvement of highways in the county, and to form an organization to obtain information and advice in the working out of some plan for the systematic improvement of our highways that will be mutually advantageous to the various municipalities and the whole county.

IN a certain town in Ohio the grocers have devised a scheme to protect themselves from financial loss entailed by placing ancient eggs with good ones, when customers complain. These dealers have adopted the system of assigning a number to each wholesaler or farmer from whom they purchase. Each egg, when it enters the store, is numbered, corresponding to the name of the seller. If the housewife finds an egg that offends she calls the grocer, gives the number, the egg is retraced and the original seller is required to make good to the grocer.

LOCAL coal dealers say some people may find themselves without a supply of black diamonds this winter, on account of the difficulty experienced by some of the dealers in getting their car load orders filled at the mines. The dealers themselves are complaining about the long delays, and when winter sets in some people who have waited till the last minute may find themselves in an unpleasant position. An occasional car is being received here and given out in small quantities so as to give all those who have placed orders early a little to commence the winter with.

THE London Free Press on Monday last had a picture showing the Grand Trunk yards here crowded with teams waiting to unload onto the cars. On account of the need of a loading siding at this station it is sometimes necessary for wagons to wait a long time before they can be unloaded. Complaint has been made to the Company on several occasions about the lack of siding and the necessity of a switch for loading purposes, and it is to be hoped that the Company will take some means of relieving the situation without further delay, as it is a serious matter for Watford.

ART CLOTHES are good clothes.—SWIFT'S.

DECAYED potatoes are being sold on the London markets to owners of hens and hogs for 20 cents a bag.

THE hundredth anniversary of the death of General Sir Isaac Brock was celebrated at Queenston Heights on Saturday last. A feature of the proceedings was the presence of three descendants of General Brock's aide-de-camp, Lieut.-Col. Macdonnell, who fell at the same time as his leader.

SPECIAL bargains in rugs 3 by 6 at \$2.25.—SWIFT'S.

THE annual field day of the Watford High School was held in the Driving Park on Wednesday afternoon. There was a good turnout of spectators and the several events were keenly contested. The weather was all that could be desired. The secretary has not handed in the list of prize-winners but will, no doubt, do so in time for next issue of the paper. Gate receipts amounted to \$17.30. Donations, \$20.50.

REFERENCE to the minutes of the Council meeting, held on Saturday evening, will show that the Livingstone lot, corner of Main and Erie streets, has been purchased for \$1,100, as the site for the proposed Carnegie Library. There are all kinds of opinions expressed by the ratepayers as to where the new building should be erected, and whether or not it is wise to accept the Carnegie proposition and place the town in a position that compels the expenditure of \$600 a year for all time to come on the upkeep of the institution. The members of the Council also were divided on the question, as the vote shows.

OUR Priestley's dress goods in navy and black, soap shrunken, 75c., \$1.00, \$1.25.—SWIFT'S.

THE Ontario Education Department encourages the trustees to pay adequate salaries to the teachers by allowing a grant of 40 per cent, on all salaries over \$300 paid up to the maximum of \$600. Grants who also receive increased salaries when teachers have the high grades of certificates are engaged. The department also provides that where the section assessment in the township averages \$30,000 or more, the township must levy and collect the sum of \$300 for each child in respect of principal, and \$200 for every assistant teacher. Where the average section assessment is no less than \$30,000 in respect of principals and assistants the township grants are \$150 and \$100 respectively.

THE regular meeting of the Women's Institute was held at the home of Mrs. J. D. Brown on Wednesday evening, Oct. 9th. Meeting commenced by singing the Maple Leaf Forever and repeating the Lord's Prayer. Roll call answered by a verse on Thanksgiving. Received word from the District President announcing the half yearly District meeting to be held at Alvinston on Oct. 23rd. Representatives from each branch are expected to be present. The program was as follows:—Mrs. T. Dodds gave a reading on the uses of paper; Mrs. Harvey Cook on a Thanksgiving dinner. Both were excellent papers. A duet by Mrs. J. Bryson and Miss Nina Eckhoff. Meeting closed by singing God Save the King. Next meeting will be held at Mrs. H. Cook's.

ORDER your suit for Thanksgiving. Our cutter, Mr. Thompson, is turning out nifty garments.—SWIFT'S.

PERSONAL.

Mr. and Mrs. John McFadden, London, are guests at the Rectory.

Mrs. John McClure, Oil Springs, is visiting friends in Watford.

Mr. and Mrs. C. S. Kerton spent Sunday in Sarnia with relatives.

Mrs. D. S. Childs, Flint, Mich., spent the week end with Mrs. Swift.

Mrs. Shirley Wollughby left for Regina this week to join her husband.

Mr. and Mrs. Sam Cooke left Monday for Regina where they will spend the winter.

Mr. Sid Brown left on Wednesday for a trip to Charlton and other points in New Ontario.

Mr. I. J. H. King attended the funeral of the late Rev. J. R. Newell at Springfield, on Tuesday.

Mr. H. Benjafield, Wanstead, is visiting his niece, Mrs. S. White, and other relatives here this week.

Mrs. Lutz and two grand children, Detroit, are visiting at Mrs. Thexton's. Mrs. Lutz is Mrs. Thexton's niece.

Mr. S. Rivers left for a trip to Moose Jaw and other points west on Monday in the interests of the Watford Wagon Co.

Mr. Hugh McConnell, who has been sending the summer with relatives in Watford and Brooke, returned to his home in Wynhard, Sask., on Monday.

Dr. V. L. Newell, West Branch, Mich., was here Wednesday on his way home after attending the funeral of his uncle, the Rev. J. R. Newell, of Springfield.

Herman Weise, had his hand badly cut while operating a shaper at the Stratroy furniture factory Thursday. The thumb was nearly severed, and, although hanging only by a shred, the doctor hopes to save the member.

The longest lived of the British trees is the yew which has been known to attain the age of 2,880 years; the second longest is the oak with a record of 1,600 years.

WEDDING CAKE BOXES, latest designs, at the Guide-Advocate office.

WARWICK.

Fred L. Kingston left for Winnipeg Monday.

Potatoes grown on heavy land are badly rotted, while those in sandy soil have escaped.

All accounts due Thos. Dodds must be paid by Oct. 26th as our books will be closed on that date.

The wet weather has been productive of rheumatism among turkeys and farmers report losing many choice birds.

Mr. and Mrs. James Jones wish to express their gratitude to all their friends and neighbors for the great kindness they have received from so many since losing their home by fire.

A Harvest Home Supper and service of praise will be held at St. Paul's Church, Wisbeach, on Wednesday, Oct. 23rd. Supper will be served in the new closed-in shed from 6 to 8 p.m. At 8 p.m. a Thanksgiving service and sacred concert will be held with solos, etc., by Miss McAdams, Mr. W. McLeish, Miss Fox, of London, and others. Also addresses will be given by Revs. A. W. Hare, Arkona; H. R. Diehl, Adelaide; and S. P. Irwin, Watford. Tickets 25c., children 15c.

The Warwick Branch of the Women's Institute held their usual monthly meeting at the home of Mrs. James Thomson, where they were most cordially and hospitably entertained. The members and visitors were first introduced to two very pretty quilts, the work of the daughters of the home, and as the meeting took the form of an old-fashioned quilting bee, they were nearly completed during the afternoon. Many reminiscences were indulged in by those who could well remember when bees of all descriptions were in vogue, and many a hearty laugh was heard as one would say: "Do you remember?" and another answer "yes, and do you recollect?" something else that happened in those happy days that are, unfortunately for those of a later generation, fast passing away. Mrs. Thomson in her excellent paper, touched on these topics and made a strong plea that we do not allow such gatherings to pass away, but open our doors more than we do to the youth of the vicinity in which we live and keep them from the allurements of the towns.

The roll call was answered by some very excellent recipes for salads after which the guests gathered around the beautifully spread table, and did full justice to the many delicious viands, which proved that in the hostess, the Scriptural injunction was well exemplified. "She looked well to the ways of her household." After a cordial vote of thanks had been tendered Mrs. Thomson, the guests dispersed feeling they had spent a profitable and enjoyable afternoon.

BROOKE.

Mr. and Mrs. Arch. McMurphy, Oil Springs, spent Thursday with Brooke friends.

Roy Acton left on Tuesday for Uxbridge where he has obtained a position with the Sterling Bank.

Miss Margaret Mustard, Wyoming, spent last week with her cousins, the Misses McIntyre, 9th con.

Mrs. John Corestine had a paralytic stroke on Tuesday morning and is now in a very critical condition.

There will be afternoon and evening services in Christ Church, Sutorville, on Sunday. The evening service will begin at 7.30.

Children's Day will be observed in St. James' Church, Brooke, on Sunday morning at 10.30. The rector will preach a special sermon to the young people of the parish.

Mr. Ivan Annett, M.D., son of Mr. Walter Annett, Brooke, left Wednesday for New Ontario where he has accepted a position as travelling physician on a railway line.

The Guide-Advocate would like to get some person to act as correspondent for the north part of Brooke township. If you would like to act call at this office and get supplies.

Buy At Home.

The remonstrances that are occasionally heard against the practice, by some people, of deserting the usual avenues of trade in the hope of better bargains are, The Guide-Advocate believes, amply justified. Certainly, so far as our Watford merchants are concerned, there is no possible excuse for such a course. They are enterprising, up-to-date merchants who draw upon the markets everywhere for the best that is to be had—and that means that through them are to be secured not only the best bargains, but the most exclusive products, if such are desired. They are doing their utmost to meet every demand; they are searching the whole field of production to this end; they are displaying their wares in attractive rooms where there is every convenience for shopping; they are making the town a trade centre for an ever increasing patronage and are thus adding to the value of every dollar of investment in Watford by others. There is an element of ingratitude in going elsewhere to buy or in patronizing those who do none of these things in the building of a town. When to this is added the other consideration that there is often a direct financial loss in following some whim, instead of buying by the principle of helping

those who help us and encourage those who strive honestly to serve us, there is no excuse, much less a reason, left for those who forsake the usual avenues of trade.

The opening of the fall shopping season and the approach of the holidays finds our Watford stores filled with the best of the markets anywhere afford, whether the stocks be judged by the standard of utility or by that of style and exclusiveness. Here, then, is the place to buy, where every dollar spent not only buys a dollar's worth of material but contributes indirectly to the welfare of the town in which we are vitally concerned. From whatever standpoint it be regarded, there is no better slogan than this: Buy at home.

CHOP STUFF.

Sarnia will build a new \$40,000 school. O. Baker, a former Petrolia oil operator, died in New Ontario lately. Abraham Wismer, a prominent stock raiser and lumberman, of Rodney, is dead.

Wm. Hyland, of Colchester North, sold to Geo. Smith three sucking colts for \$700.

Jos. Crow, near Essex, raised 775 bushels of tomatoes on 168 square rods of ground.

A Provincial officer seized seven gallons of whiskey in a Bridgen depot barn last week.

So far this year more than 500 hogs affected with cholera have been killed in Essex county.

Glencoe has a booster club with M. C. McCugan president and A. E. Sutherland secretary.

Mrs. John S. Walker, an esteemed resident of Glencoe, died last week after a lingering illness.

60 female and one male teacher attended the Essex convention. Some men have nerve.

John Holden, of Sandwich South, has some sweet potatoes grown by himself, with 18 potatoes on one vine.

A steer belonging to Burley Bros., Bonanque, was choked to death by getting its head fast between fence rails.

The A. Y. P. A., of Trinity Church, St. Thomas, wiped out a mortgage of \$4,800 on the church and had a surplus of \$100.

Work on the new public school at Kerwood is being rapidly pushed forward and it is expected the building will be ready for occupancy after the Christmas holidays.

Miss Caroline Lucinda Craig, of Mosca Township, has entered an action for damages against Charles P. Tigner, of Adelaide Township, for breach of promise of marriage.

The Hastings village council proposes to spend \$200 for the purpose of placing that village before the public as an ideal manufacturing centre, and a committee will be appointed to spend the money.

Some enormous potato yields are recorded. Four hundred and seventy bushels to the acre were found by an inspector on a plot belonging to one member of the Canadian Seed Growers' Association.

While on his way home from school the five-year-old son of Mr. and Mrs. David Clarke, Dover Township, was instantly killed as he was endeavoring to climb on a separator, drawn by a traction engine. The back wheel of the separator ran over the child's head.

Wilson O'Neil, a farmer living near Parkhill, lost a large barn by fire originating from a spark from a threshing engine on Monday. About 1000 bushels of grain, all his hay and straw, implements and some live stock were also consumed.

Glencoe is without electric lights as the result of a serious brake at the powerhouse. It is quite probable that equipment will have to be obtained from England, and in that case there will be no lights for nearly a month.

Waitresses at the Hotel Harrington, Port Huron, went on strike on Friday because a Canadian young lady had been hired as head-waitress. The strikers won the day, as the Canadian lady did not deem it well to intrude where she was not welcome, and declined the appointment.

Prospects for a bumper apple crop in Lambton county are looming large and advice received by the Department of Agriculture estimated the pick at 60,000 barrels. Prices at the different fruit associations vary according to the grade, from \$2.00 to \$2.50 for first and seconds, to \$2.25 to \$2.65. One firm has sold its entire crop for \$3.00 per barrel, and some straight car lots of Kings and Spies have brought \$3.75 per barrel for the best No. 1 grade.

One hundred and fifty additional photographs repose on the desk of High Constable Peters, of Chatham, bearing mute testimony to the wide scope of activities of the gang of bogus photographers who have swindled people of the western peninsula out of hundreds of dollars. Of the three hundred seized by the police a short time ago, less than a dozen remained unclaimed. Persons in all walks of life have fallen victims to the plot of the swindlers, and readily paid over amounts varying from \$1.50 to \$7, only to hear nothing further from the strangers after the photos had been taken away. They have not yet been reported in Lambton county.

Mother has picture taken never than father even she hasn't two years and will never to Aunt Jane's her hair so becomingly anyways its there was picture for the election.

CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age. How It May Be Passed in Safety.

So, Wellington, B.C.—"For a year during the Change of Life I was all run down. I was really too weak to walk and was very despondent and thought I was going to die, but after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier my health and strength returned. I am very thankful to you and praise your medicine. I have advised several women who suffered as I did to try your remedies. You may publish this if you wish."—Mrs. DAVID R. MORRIS, South Wellington, Vancouver Island, B.C.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills such as inflammation, ulceration, tumors, irregularities, periodic pains and nervous prostration, and we believe it is unequalled for women during the period of change of life.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Watford, October 18, 1912.

Hens Lay Most the First Year.

Up to what age should hens be kept for egg-production? To answer this question, sixty white leghorn pullets that had made a high record the first year were selected by the Maryland experimental station from a flock of two hundred and forty, and complete returns are given for three years, the most important data being as follows:

Eggs laid.....	10,280	8,943	6,907
Average per hen.....	171	149	115
Total profits.....	\$124.16	\$86.31	\$53.89
Profit per hen.....	2.07	1.61	.90

Of the eighty fowls, 83.3 per cent. laid the maximum number of eggs the first year and only 16.7 per cent. gave the greatest production the second year, it did not compare favorably with that of the other two years and was too small to justify the labor and expense of maintaining them. It is recommended that farmers adopt some method of marking their fowls so as to dispose of them after the second year, thereby securing the highest egg production and greatest profits from a given number of fowls.

Mr. Andrew C. Park, 2nd line, Plympton, died last week, aged 66 years, after a three years' illness of asthma.

The Ladies.

Housewives who are forever and eternally chasing dirt are justified in their mission by modern science, which immediately turns around and accuses them of using abominable methods of keeping their houses clean if they still work with brooms.

Better leave dust undisturbed than stir it up and put it afloat.

An exchange is authority for the statement that in a carpeted tenement room, where an observation was made recently, the ordinary atmosphere yielded seventy-five microscopic germs in five minutes before sweeping, and after sweeping the catch was twenty-seven hundred.

Enough said! Throw away the brooms, ladies, and get modern cleaners and reinforce them with dustless mops for the sake of your own good health and the health of your families.

Shareholders Must Pay Double Liability.

Toronto, Oct. 10.—Farmers Bank shareholders will be required under the Bank Act to pay the double liability which they have been dreading. An order has been issued by George Kappel, official referee, calling upon all shareholders of the wrecked bank to pay "the amount unpaid upon their shares, the amount of all dividends wrongfully paid to them by the Farmers Bank and 100 per cent. of the amount due them by the shareholders under the provision of section 125 of the Bank Act."

The order will be stubbornly contested by many of the shareholders, several of whom are men of but moderate means and who will be ruined if compelled to pay double the amount of the face value of the stock for which they subscribed. The general defense is that the organizers of the concern never complied with the Bank Act and the certificate was not legally issued.

DAD'S DOPE.

The aviator and the good seldom live to an extreme old age.

Ireland has no monopoly of grievances. Every well-equipped home has one or more.

The Maritime provinces advocate a close season for oysters. As for clams, they are close all the year round.

A leading divine declares that there are no female angels in heaven. At that it is hard to imagine an angel with side-whiskers.

The Seattle man who invested \$10,000 in a gold brick and carried his secret to the grave is worthy of being known as a "dead game sport."

The flies are so bad in some parts of South Africa that the oxen wear pants. Hobbie skirts were found to interfere with their work, but high yokes protect the neck.

Scientists are investigating the heat of the sun's rays, which are said to be decreasing. Nobody noticed it last July, but, as a substitute for coal at this season of the year they are far from satisfactory.

There is nothing startling in the ruling of a Los Angeles judge who decided that the wife was the head of the house. In all well regulated families this has been recognized for years, and the records contain no successful appeals.

The defendant in a New York breach of promise case pleaded that he was too busy to spare time to get married. The court proceedings will cost more time and money than a marriage ceremony and a side trip to Reno.

Richard Dunlop, the new registrar for West Middlesex, has moved from Glencoe to Napier with his family. Previous to leaving the people of Napier and vicinity gave a reception in the hall in his honor and in the course of the evening presented him and Mrs. Dunlop with two handsome leather chairs. Mr. Dunlop replied on behalf of himself and Mrs. Dunlop and thanked the people for their exceedingly great kindness to him and his wife during his some 30 odd years' residence in their midst. Several of the prominent men gave short addresses, and all referred to the great loss which Napier would sustain in the removal of Mr. Dunlop and his family.—Transcript.

Will you become one of the 108 farmers who will receive our Prize Contest checks?

THERE will be twelve cash prizes in each of the nine provinces (108 in all) in the 1912 Prize Contest for Canadian Farmers. The 1911 Contest was so successful in awakening interest in the use of Concrete on the farm, that a second contest, in which three times as many prizes are offered, was decided upon for this year.

The Contest this year is divided into three classes, "A," "B," and "C," and there will be four prizes in each class. (First prize, \$50; Second prize, \$25; Third prize, \$15; Fourth prize, \$10.) Thus there are three \$50 Prizes, three \$25 Prizes, three \$15 prizes, and three \$10 Prizes, for each province.

DESCRIPTION OF CLASSES

In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the best concrete work done with "Canada" Cement on their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send in the best description, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$50 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only suggest many improvements that you can use in entering the Contest, but will tell you all about the use of concrete on the farm.

Just write your name and address on the attached coupon, or use a postal card, and we will send full particulars of the Prize Contest and a copy of "What the Farmer Can Do With Concrete" to you absolutely free.

MAGIC WATER TOYS.

Wonderful Play Toys That Amuse the Children of the Orient.

Europe and America turn out for the edification of their children many ingenious toys, but the occidental youngsters have nothing to compare with the strange expanding water toys with which the children of the far east have for centuries amused themselves.

These are placed in small wooden boxes similar to the little paint boxes so often seen in our own country. They have the appearance of soiled shavings, broken matches and dilapidated tooth-picks, but when thrown into the water the ingenious toys at once exhibit properties that show them to be considerably more than mere bits of stick.

The wood of these toys has been kiln dried, and immediately it touches the water it begins to absorb the water and to expand almost indefinitely. As it increases in size it separates and suddenly opens, becoming a very pretty toy. One stick will change into a flowerpot containing, it may be, a rose-bush in full bloom. Another becomes an obese mandarin carrying an umbrella. Still another will take the form of a sea serpent, very ferocious in its tiny dimensions.

Then, too, there are toys which show as whales, tigers, crocodiles, etc. The figures are colored and present a bewildering variety in design and treatment. Their manufacture is a trade secret, kept inviolate by the guild that turns them out by the thousands.

For older children there are provided larger and even more artistic figures, consisting of historical characters—rulers, poets and soldiers—and dwarfed trees and tiny houses, whose doors and windows are full of inmates, are also among this class. The more ordinary kind cost a mere song, but the finer toys are quite expensive.—New York Press.

VARNISHING DAY.

It Brings Many Surprises at the English Royal Academy.

When the hanging committee of the English Royal Academy has completed the work of "hanging," the artists whose pictures are exhibited on the academy walls are forwarded a piece of pasteboard known as a "varnishing card." This card is the first intimation the artist receives that his picture has passed triumphantly through the processes of judging and "hanging," and it allows him to visit the academy on a particular day—"varnishing day"—just before the galleries are thrown open to the public. Hundreds of knights of the brush are to be found in the galleries of Burlington House on "varnishing day," and here and there are flights of steps and improvised platforms covered with artists putting the last loving touches to their canvases. Here, perched on the top rung of a pair of steps, is a young lady with smiling face scraping her picture with a palette knife and putting in fresh spots of paint occasionally, while on the floor at her feet is a young man whose features are the picture of misery, his eyes roaming toward the ceiling. His canvas is hopelessly soiled, and he is silently abusing the members of the hanging committee for their lack of judgment.

"Varnishing day" brings many surprises to the exhibitors. One man will find his canvas wrongly named, and another, an impressionist, may be startled to discover that his glorious sunset, over which he has taken so much pains, is upside down. And for the first time he realizes that an impressionist's pictures can be turned about any way without greatly endangering the effect.

Turner had one of his paintings hung upside down, and old academicians well remember that a little canvas, "A Sleeping Naid," was once, owing to lack of space, placed on the wall in an upright position and renamed "The Waking Naid."—National Magazine.

FAR DISTANT URANUS.

Oddities a Visit to This Gigantic Planet Would Disclose.

If Uranus, which is a star of about the sixth magnitude, were a planet like those little ones called asteroids, which are being discovered by the dozen every year, it could not have much claim upon popular attention, but Uranus is really a gigantic world, more than sixty times as large as our earth. Its vast distance, about 1,700,000,000 miles from the earth, is what causes it to look so small.

Uranus has four moons, which revolve backward in their orbits—that is to say, they revolve from east to west around Uranus, while Uranus goes east around the sun. It is believed that Uranus rotates backward on its axis also. Moreover, the axis of that great, strange globe lies in such a direction that in the course of its year, which is equal to eighty-four of our years, the sun shines almost perpendicularly first upon one pole and then upon the other.

Measured by our time standard, there are forty years of constant daylight, followed by forty years of unbroken night, around the poles of Uranus, and the sun rises in the west and sets in the east there, but the sun looks very small when viewed from Uranus—only one four-hundredth as large as it appears to us. Still it sheds upon that planet 1,500 times as much light as the full moon sends to the earth, so that daylight upon Uranus, while faint compared with the blaze of a terrestrial noonday, is nevertheless a very respectable kind of illumination.

The Game of Life.

The game we are all playing is a losing game at best. Yet we must play. We cannot get up and leave the table knowing the dice are cogged and the cards marked against us. We must play on, losing our principal stake little by little or in splendid roulette, as chance or our disposition may urge, but knowing well that in the end, soon or late, whatever remains of it will be swept from the board. Lucky the man who is tempted to play but the one stake. Happy the man who in death loses only his life.—F. P. Dunne in American Magazine.

Bluejacket's Black Neckerchief.

It is not generally known that the bluejacket's black neckerchief, a survival of the service mourning for Nelson, is the best British silk obtainable and that the admiralty is a very fastidious customer. Two to each man are issued annually, and many thousands of these discarded scraps have been subsequently worn by Jack's femininity. A pair of them make an excellent blouse.—Pall Mall Gazette.

Spoiled Her Enthusiasm.

"Harry proposed last night! I was so"—
"I knew he would. I played a joke on him."
"What?"
"I told him you would inherit a fortune when you came of age."—Houston Post.

Cause of Eczema Explained

After years of debate medical authorities are now agreed that Eczema and other skin diseases are not seated in the blood, but are caused by myriads of microscopic animals gnawing the flesh just below the epidermis. The patient is perfectly healthy, it is only the skin that is diseased.

Hence, scientists are now agreed that you must cure the skin through the skin. The medicine must be in liquid form in order to penetrate properly. And we can say with confidence that we have the true remedy for Eczema in our store—the D.D.D. Prescription.

The instant you wash with this soothing liquid you will find the itch relieved. We positively assure you of this. Will you try a bottle on our recommendation? Besides the regular Dollar Bottle we can now offer you, through an arrangement with the D.D.D. Laboratories, a special large trial bottle at only 25c. We are not sure how long this offer will be open—but it is open to-day, and by taking it up you can get instant relief from that awful itch and an early cure.

HARRIS & CO. PROPRIETORS.

WATFORD, OCTOBER 18, 1912.

PETROLITIS.

Coughed Out by Our Gasoline Motor.

A witness in the St. Clair investigation talked about "burning down a cesspool." 'Twill require considerable fuel.

Some business men load their wives and daughters down with fine jewelry and buy them costly dresses to bluff up their own credit.

Some people who can't afford jewels love to have and exhibit them while at the same time their property is mortgaged or they are daily worrying over overdue drafts or bills.

A prominent American banker declares that credit is the life of trade. Sure. Ask most any Watford business man. Often it's the death, too!

Marriage may be a lottery, but the assembling of the wedding guests is not a chance meeting, and a bet that they get a good feed is a sure thing.

They are dancing last year's dances in the Balkans—"The Turkey Trot" is still popular. "The Bear Hug" will likely be introduced into the game later on.

There is no hypocrite to surpass the small town man who won't enter the hotel bar in his home town, but who drapes himself over a city bar as soon as he lands there.

A man may be classed as wealthy who after returning from his summer vacation has enough money on hand to purchase his winter fuel and buy Christmas presents.

It is said that some of the stylish dresses are made out of four handkerchiefs and five yards of baby ribbon. If the fashions continue to run to skimpiness the handkerchiefs can soon be dispensed with.

The poor are always being crushed and squeezed. The price of automobile gasoline has gone up 20 per cent. since the Standard Oil trust was dissolved. No wonder the motors cough louder than heretofore.

Detective Burns says all liars, thieves and swindlers are egotists. That may be true, but if all egotists were thieves and swindlers the jails would have to be enlarged so as to take in nine-tenths of the population.

There are numerous records of a man's life being saved by a bible or prayer book carried in the pocket, but King Teddy is the first man saved from death by a political speech. Considering the quantity of explosive matter in Teddy's speeches the occurrence is marvellous.

Occasionally you will come across a man who is continually pawing like a horse and looking for some place to put his foot on. This is a sure sign that he is accustomed to daily in front on the polished mahogany and misses the brass foot rail.

Some women laugh at their husbands because the tailor puts a little padding in the shoulders of their coats. An investigation of the ladies make-up would show that they wear several ounces of false hair and ornaments that fit tighter than an automobile tire. Where does the laugh come in?

Some young men were overheard the other night referring to a lady acquaintance as a "peach" and a "bird," and a man under discussion was designated as a "bear" and a "sucker." If this "fruit-bird" should marry the "animal-fish," what would their descendants be?

Lady Duff Gordon, the European authority on styles says:—"Rats, puffs, curls &c. have been thrown away so as to make the hair on the top of the head as thin as possible." My! how plain the dear ladies will look. And how will they fill in the time they now spend on their hair?

REGULAR advertising rates are charged for insertions in the Guide-Advocate of Cards of Thanks, In Memoriam notices and obituary poetry. Notices of births, marriages and deaths are, of course, inserted free as news.

NOTE AND COMMENT.

A woman's influence is very great for good or evil. A kind word from a wife or mother may stay a man from untold evil, and one sharp, bitter, thoughtless word may drive him to desperation.

Several owners of land near Paris have asked a legal injunction to forbid the flying of aeroplanes over their property. They allege that horses and cattle are frightened by the machines, that game birds are driven from woods and that cultivated fields are damaged when the aviators land and ascend again.

With the development of Rural mail and the rapid growth of the Rural telephone the farming community is in clover in the way of modern conveniences and comforts. In the next few years many autos will be found in possession of the tillers of the soil and distances from town will be obliterated as far as travel is concerned. There is no doubt about the world moving.

The Philadelphia Post says that foreign nations entering into treaties with the U. S. should remember the "unwritten law" governing treaties made with that country, viz.: "That in the matter of interpretation, the party of the second part binds itself to accept the ruling of the U. S. Senate, else it can go to blazes." Rather a hot outlook ahead of Canada, eh!

No man can expect to succeed who is not prompt in meeting every emergency. If you make a promise be prompt to fulfil it. Don't make a promise unless you can be prompt. If you agree to meet a person at a certain time be prompt on hand. Don't run away from a debt. Be prompt to meet your creditor if but to explain your reason for being unable to meet your obligation. Promptness is the keynote to establishing confidence. Be prompt in all things. That established, a man has a fair start toward final success.

The land speculation that is raging over the country is nothing less than a national lottery. The evil has taken a particularly strong hold in the cities, where the young men, by thousands and thousands, are coming to look on their employment as a sort of sideshow, and have their thoughts and desires centred in their land speculation or lots that they are trying to sell. The desire to gamble or hope of an unearned gain is antagonistic to and destructive of the determination to labor. The quicker the prices of land settle down or the government takes to itself the increment as the British government has begun to do, the better it will be for the character of the people.—Montreal Witness.

Instead of inscribing "John (X) Smith, his mark," and in place of well-nigh indecipherable hieroglyphics, doing service as an autograph, saving depositors of two Detroit banks may soon be afforded the opportunity of signing their checks by merely affixing the imprint of the three first fingers of one hand. The system is now being tried out and investigated in the People's State and Peninsular State banks, Detroit. It was introduced by P. A. Flak, who gave a demonstration of the plan to the American Bankers' Association last week and has a copyright on the method in use. In connection with the system the banks have been provided with a fine powdered material, which, when sifted over a sheet of paper or other substance on which fingers have rested develops the finger marks, bringing into view their distinctive lines.

Are we getting the right class of settlers in Canada or is it that conditions have so changed that we no longer recognize ability when we see it? Upwards of fifty years ago when Western Ontario was bush-land and the districts were being settled by English, Irish and Scotch, if required a stout heart on the part of both man and woman, to view the towering forest and figure out how they could make a living for themselves and family. However, the highly cultivated state of Western Ontario soil to-day tells that it was done and reflects honor and credit upon those hearts of oak that remained undaunted by what they

Death of Margaret Kingston.

Margaret Kingston, relict of the late William Kingston, passed peacefully away at the home of her son, Thomas Kingston, Forest, on Saturday, the 5th inst., in her 86th year.

Deceased was born near the town of Dunmanway, county of Cork, Ireland, in 1826, being a daughter of the late Paul Kingston. She came to Canada with her parents in 1845, and located in Toronto, where she was married on June 13th, 1850, in St. Paul's church, by the Rev. J. G. D. McKenzie. Five years later her husband died in 1864. In the fall of 1884 she moved with her family to Warwick township, and 20 years later she went to Plympton township to reside with her son Thomas, with whom she became a resident of Forest six years ago. Deceased is survived by two sons, Paul W., and Thomas, of Forest, and four daughters, Mrs. D. McLachlan, of Adelaide; Mrs. J. E. Bailey, of Wyoming; Mrs. Thos. Hawkins and Miss Wilhelmina, of Forest. Also one brother, Johnathan Kingston, of Toronto.

Mrs. Kingston was a woman who was highly respected by her acquaintances. She was a member of the Anglican Church all her life. The funeral took place from the resi-

EDITOR GUIDE-ADVOCATE:—The Library Board met on Tuesday evening and decided to get out plans and specifications for the proposed new Public Library building without delay so that the construction of same may be commenced soon. We are to be congratulated on getting this useful and valuable asset of \$7,000 for our town at the small cost of hardly 40c. each year for 10 years on each \$1,000 assessment which amount will hardly be noticed by the taxpayers. The building, when erected, will be situated centrally on a corner lot on Main street and will be a credit and an advertisement for us. The lot can also be fitted up for a down town resort and small park on which our band stand may be placed allowing open air concerts to be held there. The auditorium of the building can also be used for various purposes such as evening classes, lectures and meetings.

Colonel Roosevelt Shot.

Colonel Theodore Roosevelt was shot and slightly wounded at Milwaukee on Monday night as he was leaving the Gilpatrick Hotel for the auditorium to make a speech. The wound was superficial, and the Colonel went on to the hall and began his speech after he had seen the assailant arrested and taken to the police station. The man was seized and held until policemen came up. A mob surged around the prisoner who apparently is mentally upset on the subject of Roosevelt's running for another term as president.

Corner Stone Laid at Arkona.

About two hundred people gathered where the new building of the Arkona Baptist Church is being erected, Tuesday afternoon, October 8th. The occasion was the laying of the corner stone, which service was performed by Miss A. C. Murray, a member of the church at present home on furlough from India where she has served two terms. Rev. J. A. Baldwin, a former pastor of the church, presented Miss Murray with a silver trowel, on behalf of the congregation. Addresses were delivered by Rev. A. W. Hare, of Arkona; Rev. T. M. Mead, of Watford, and others, solos by Mr. R. McFarlane, of Forest; Mrs. E. L. George and Miss B. McAdam, of Arkona, were much appreciated. The chairman was Rev. H. W. Wright, pastor of the church. The offering received amounted to \$117.67.

Tea was served on the grounds by the ladies of the church, and the fact that over \$50.00 was taken in shows that their part of the service was much appreciated. Notwithstanding the many delays the Arkona Baptists still hope to have their building enclosed before the snow flies.

GUARD BABY FROM COLDS

The mother can guard her little ones from colds during the damp, cold fall days by the use of Baby's Own Tablets. The Tablets act as a gentle laxative, keeping the bowels working freely and the stomach sweet—that is the secret of preventing colds. The Tablets will not only prevent or banish colds, but will cure constipation, indigestion, expel worms and make teething easy. They are sold under the guarantee of a government analyst to contain no harmful drugs and may safely be given to the newborn babe. Sole by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HAD BAD SORE FOUR YEARS

ZAM-BUK HAS HEALED IT!

Mrs. Wilson, 110 Wickson Ave., Toronto, says:—"About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter, and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely and was most painful. I had it cauterized, tried poultices, and all kinds of salves, but it was no good, and I continued to suffer from it for four years!"

"A sample of Zam-Buk was one day given to me, and I used it. Although the quantity was so small, it seemed to do me some good, so I purchased a further supply."

"Each box did me more and more good, and to my delight, before I had been using Zam-Buk three weeks, I saw that it was going to heal the sore. In less than a month it was healed!"

"I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam-Buk was tried in the case. The other day when I saw her, she told me that it had healed the sore completely."

"My daughter, who lives in Lethbridge, Alta., has also used Zam-Buk with the same satisfactory result. I think it is, beyond all doubt, the finest healing balm known!"

Such is the opinion of all persons who have really tried Zam-Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ringworm, cuts, burns, scalds, bruises, and all skin injuries and diseases. 50c. box, all drug stores and Toronto, for price. In case of skin disease use also Zam-Buk Soap, 25c. tablet.

Fire Saturday destroyed the barn of Wallace Williams, a farmer living just outside Watford. The barn contained the season's crop. The loss is about \$2,000, with insurance of \$1,200 in the Lambton Mutual. The origin of the fire is unknown.

"PILLS LIKE A FYLE"

So Harsh and Drastic are Many Pills as to Seriously Injure Health.

In a letter written from his home in Valencia, Mr. Marsh Selwyn does service to thousands by drawing attention to the injuries inflicted upon delicate people by drastic purgative pills. "For a long time I suffered from constipation. This condition compelled the use of pills. Like many another, I made the unwise choice of using pills that were like lightning in their activity. I began to be filled with intestinal disturbances, constant rumblings, gas in the bowels and diarrhoea. I grew pale and emaciated. Then the doctor told me drastic irritating pills had caused catarrh of the bowels, an almost incurable disease. Explaining my situation to a friend, he advised a trial of Dr. Hamilton's Pills. I speedily experienced the healing and curative effect they exert on the stomach, liver and bowels. The intestines, freed from irritating drugs, rapidly regained natural tone, the bowels acted as if nature and not Dr. Hamilton's Pills were at work. I know it will be of value to thousands to know that a pill as mild and curative as Dr. Hamilton's is available to the ailing.

For bowel disorders, sick headache, constipation, liver and stomach derangement, there is no pill so invariably sure to cure as Dr. Hamilton's Pills. Refuse a substitute. Sold in 25c boxes, all dealers, or The Catarrh-ozone Co., Kingston, Ont.

Timothy Barton's Almanac

A Story of a Man's
Obstinacy
By **CLARISSA MACKIE**

Lucy Barton glanced timidly at her husband. Timothy was scanning the well thumbed pages of an almanac. "Tuesday will be your birthday, Lucy," said Timothy, looking over his spectacles at his meek little wife. "Oh, do you think so, Timothy?" murmured Lucy doubtfully.

Timothy's quick temper was aflame at once. "Think so? I know it's so, Lucy! You was born on the 10th of January, and here it says 'Tuesday' as plain as can be!" He leaned across the table and placed a forefinger on the date in question.

Lucy looked at the date, and her eyes traveled to the figures at the head of the page—"1911" it said as plain as could be, while this year was "1912." Everybody knew that.

"It came on Tuesday last year, Timothy," she ventured, "but it's one day later this year, you know."

"What does it say here?" roared Timothy, slapping the open page of the

DESTROYED ALL ALMANACS THAT BORE THE FIGURES 1912

almanac with his hand. "Woman, what does it say here, huh?"

"It says 'Tuesday, Jan. 10,'" admitted Lucy.

"Of course it does! Then what's the matter with you, huh?"

"You've got the wrong almanac, Timothy," Lucy declared in a frightened whisper.

Timothy stared at his wife, then glared at the almanac in his hand and saw that it was true. He held last year's almanac. But Timothy was a Barton. He would not give in that he had made a mistake—oh, no—now that Lucy had called his attention to the fact. If she had said nothing, but quietly permitted him to celebrate her natal anniversary on any date he chose out of the calendar and he had found out the mistake afterward, all would have been well.

But Lucy had spoken.

"The fat was in the fire," to quote Little River folks.

Timothy Barton obstinately contended in the face of the almanac makers of the world that he was right. He swore up and down that the 1911 calendar was the proper one for this year.

"Ain't you going to church, Timothy?" asked Lucy on the following Sunday morning, for after breakfast he had taken down his overcoat and cap and wound his everyday muffler around his neck.

Timothy stared aggressively at her. "I didn't know there was church on Saturday," he grunted as he pulled on his mittens. "Seen anything of my bush scythe? I left it in the entry last night."

Lucy stared at him with frightened eyes. "Timothy Barton, what are you going to do?" she demanded.

"Going to clear out the underbrush in the south woods," he said defiantly.

"On Sunday?"

"Tain't Sunday," retorted Timothy obstinately.

"You know better than that, Timothy," she wailed. "When are you going to church if you don't go today?"

"I'm going tomorrow—on Sunday!" he retorted, pointing to the last year's calendar hanging on the wall.

"There won't be any church tomorrow, and you know it."

"It's not my fault. I'll go, and if it ain't open it's the fault of them whose business it is to look after such things!" Timothy rattled the doorknob impatiently. "Seen that bush scythe, Lucy?"

he repeated.

Lucy arose and looked her husband in the eyes. "Yes, Timothy Barton, I saw your bush scythe. I saw you clean it off and hang it up in the tool shed last night, the same way you do every Saturday night!"

Timothy winced and colored, but his lips set firmly.

"Are you going to church this morning?" demanded Lucy sternly.

"I don't go to church on Saturday," said Timothy, quite contemptuously, and so left the house.

He was actually going to cut brush wood on the Sabbath!

Two red spots flickered in Lucy's cheeks as she disposed of the Sunday

morning tasks. Her hands trembled as she put on her hat and slipped into the fur coat which had been her husband's wedding gift four years ago. For Lucy had always been a submissive wife and had never before had occasion to cross the famous Barton temper.

She went to church alone. She was glad that her husband had the forbearance to do his Sabbath breaking in the solitude of the woods and not in the face of all Little River.

How was she to explain his absence from church? He might contradict whatever excuse she might make up. She was in a quandary what to do.

At least she could go and come so hastily that none might intercept her.

And she did. But the people spoke of it afterward—how Lucy Barton had been late at church and had run away from it before anybody had a chance to say how do you do. They wondered where Timothy was, but they ceased to wonder when some one reported that Timothy had been observed cutting brush while the church bells were ringing.

On Monday Timothy dressed himself in his Sabbath clothes and walked boldly to church, creating no little excitement as he passed along the village street.

"Somebody must be dead—there's Timothy Barton all dressed in his best black!" cried one.

"Tain't Lucy, for I saw her hanging out her wash," observed another.

"He's gone into the churchyard, and I declare to man if he ain't going into church or trying to!" Curious faces peered over clotheslines and from window corners as Timothy Barton creaked up the steps of the church, tried the door and then turned away and went back home.

"I shan't rest a mite till I find out!" declared Mrs. Clarence Sayles, twisting the last clothesline into its place on the line and wrapping her red hands in her gingham apron. "I told Clarence that something was up when Timothy didn't go to church yesterday."

"I'll bet the Barton temper is at the bottom of it!" said her sister-in-law, Bessie Sayles.

But somehow they never really arrived at the true solution of the trouble, although Timothy's actions were eccentric for another seven days.

Meantime Lucy had had a consultation with her pastor and came away with renewed courage. The Rev. Mr. Pudderson employed up to the minute methods in settling the difficulties of his parish. He did not offer to pray with Timothy. He knew that that would only add fuel to the man's obstinacy.

"It's the only way you can break through it, Mrs. Barton," he said as he shook hands with her at the door.

Lucy was very busy in her room that evening. At breakfast the next morning Timothy, eating his pancakes in sullen silence, did not notice that his wife's hair was dressed with unusual care, and he could not guess that under the clean print wrapper she wore was hidden her best dress.

Timothy was cutting cordwood nowadays, and when he had finally disappeared in the woods his wife had finished her last household task, slipped off the wrapper and made ready to go out. She did not wear her fur cloak—the one Timothy had given her as a wedding present—but she did wear a warm cloak that had been hers before they were married.

She had a note all written, and she left it on the kitchen table where he could read it when he returned at dinner time. By the time she was ready the station stage had backed up to the door, and Lucy entered it, carrying a small traveling bag. Mrs. Clarence Sayles and her sister-in-law, Bessie, had another topic to wonder over.

At noon Timothy tramped up to the kitchen door, propped his ax against the house and went in. At sight of the clean, dinnerless kitchen a look of wonder came into his face. A vague fear clutched at his heart. Something must have happened to Lucy! She was sick. He had defied God and man and the almanac, and punishment would be his!

A quick tour of the little house failed to divulge the whereabouts of his wife. When he returned to the kitchen he found the note. He grew very pale and leaned against the wall while he read it. The handwriting was very trembly, as if Lucy had been agitated when she wrote the note.

"Dear Timothy," it read, "according to my marriage certificate we were married on Feb. 29, 1908. If, as you say, your almanac is correct, there wasn't any Feb. 29 in 1908, and so we weren't ever married at all. Such being the case, I am going away to stay with my cousin, Lydia Beems, in Centerville. Goodbye. Your friend, Lucy Beems."

"P. S.—Of course if your calendar was last year's, everything would be all right—same as before."

All that long afternoon Timothy Barton sat and stared at the calendars on the kitchen wall. They all bore the figures "1911," and yet this was the year 1912.

It was over small matters like these that the Bartons had worn themselves out—had broken hearts and warped lives.

Timothy struggled bravely with his inherent obstinacy.

At sunset he tore the out of date calendars and almanacs from the wall and stuffed them in the fire. He went out and harnessed Bronie to the top buggy, and he put in plenty of fur robes for warmth, for it was a long ride to Centerville.

He was going to bring his wife home. He was going to give in.

The Barton obstinacy had succumbed to love for a woman.

It was the year 1912.

FUNNY FRILLED LIZARD.

Carries an Umbrella, Has a Whip Tail and Walks Like a Bird.

The frilled lizard is found in Australian woods, being tolerably abundant in north Queensland and the Kimberley district of Western Australia. It lives on beetles such as are found on the tree barks. It is about three feet long, measured from head to tail point. What makes it remarkable consists of two things—its hurried walk and its fighting anger.

It carries a sort of natural umbrella top about its neck, which it elevates suddenly with an alarming effect even to ordinary lizard killing dogs, scaring them as an umbrella opened in the face of a charging bull; hence it is called the frilled lizard. Its teeth are not of much use as a defense against a vigorous animal, but when it fights it uses its long, lithe tail in a way to bring long bruises on one's hands—in fact, could it be properly trained, it might serve as an automatic switch, which, like the magic rub-a-dub-dub stick, would at the word administer a thrashing to the disobedient child.

From the scientific point of view the creature's peculiar method of ambulation is most interesting, because it presents an absurdly grotesque appearance at such times, more especially from the rear. It walks bipedally on two feet, like a bird, and so much does it resemble a bird in its walk that it seems to be the connecting link between the ancestors of birds and the lizards of today.

A Real Disciplinarian.

The other night we heard a father speak thusly: "William, your mother tells me that you must have a dose of castor oil before retiring tonight. It is your bedtime now. Take your medicine and go to bed at once."

"But, papa, I don't wanta take no castor oil."

"You must take it, and immediately."

"Aw, papa, idowanter!"

"William, if you don't take that medicine I'll put you right to bed this minute without giving you a drop of it."

William was so scared that he took it. That's the way to enforce discipline.—Cleveland Plain Dealer.

Eye Photographs.

An image impressed upon the retina of the eye remains there an appreciable time. This is the reason why a torch swung rapidly seems to be a circular flame. The sensibility of the retina is different at different times of the day. Every one has noticed how on waking in the morning and looking at the bright window, then closing the eyes, he will observe an impression or phantom of the window for an appreciable time after his eyes are closed.

Domestic Bookkeeping.

"And what's your reason for increasing the servants' wages, pray?" her friend asked.

"Because my husband complained that my dress and millinery bills equaled the household expenses, and I want to show him they do not."—London Tit-Bits.

"Mummy, darling, where does the fire go when it goes out?"

"Goodness knows, my dear! You might just as well ask me where Godly goes!"—London Answers.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

LESSONS FROM FRENCHMEN.

Some Methods by Which They Grow Double Our Wheat Yield.

In France wheat farming is always combined with some other branches of agriculture, such as sheep raising or the growing of beets, and often the three go together successfully. In America we are accustomed to think that in order to raise wheat successfully one must plant hundreds of acres and devote his entire time to this crop. The statement that it doesn't pay to raise wheat on the small farms in the east is often heard, but is without foundation. The average wheat crop in the west, on the farms devoted exclusively to that cereal, is about fifteen bushels an acre; in France, where wheat is grown in rotation with other crops, the average is about thirty-five bushels.

The wheat farm that the writer visited comprises a thousand acres and is situated on a level plateau, from which on clear days the spires of Paris may be seen. On the afternoon of the writer's visit the men were all busy planting wheat and gathering beets. The first signs of life to be seen as the visitor approached were two flocks of sheep—about 1,200 in all—feeding on beet tops under the care of two shepherds with their dogs. Beyond the sheep and a bit nearer the buildings were the men loading beets into enormous two wheeled carts, each being drawn by three Percheron stallions driven tandem.

Beyond the harvesters were three sets of two furrow plows working, each drawn by six white oxen.

The plows, which were of the two furrow reversible type, were built with a pair of wheels in front to lighten the draft and with four plows keyed in pairs to two parallel steel beams, which were fastened to the axle of the wheels by a ball and socket joint. Each pair of plows was placed one over the other so that when one was in the furrow the mate was upside down in the air directly over it. At the end of the furrow the plowman by means of a lever turned each beam half round, throwing the plow with moldboard on the right hand side into the air and bringing the left hand moldboard into the furrow. The plowmen were followed by three teams of oxen that harrowed the field, and these were followed by two grain drills. To a stranger it was a novelty to see all these operations taking place at the same time.—Country Gentleman.

Thirty bushels of wheat to the acre on fifty acres will result in as much wheat produced at a much less expenditure of labor and seed as will fifteen bushels per acre on 100 acres. This is the whole argument for intensive methods in farming.

DON'T TRY FOR TOO MUCH.

Give Your Vegetables Room is a Good Gardener's Motto.

Do not be afraid to thin out your plants. They must not be crowded. Probably more garden stuff has been ruined for want of being thinned at the proper time than by any other cause.

However that may be, one of the most puzzling things for the beginner is to find out whether any particular vegetable should be thinned or transplanted, and how far apart the plants should stand afterward.

He will get some help from the catalogues as to the distances, but whether he should transplant or thin is the kind of thing that is not in the book. It requires a good deal of nerve to pull up and destroy the unnecessary seedling—more nerve than the amateur possesses. They say that a person never becomes a good gardener until he steals his nerve to this ruthless sacrifice.

A vegetable must have plenty of room to develop its best size and flavor, and one can take no pride in small or commonplace vegetables. True it is that "the worst weed in corn is corn."—Farm Progress.

"TIS WELL TO KNOW A GOOD THING," said Mrs. Surface to Mrs. Know-well, when they met in the street. "Why, where have you been for a week back?" "Oh, just down to the store for a bot of 'Dr. Thomas' Electric Oil' and Mrs. Surface, who hates puns, walked on. But she remembered, and when she contracted a weak back there was another customer for Electric Oil."

Albert Cudick, of Sombra, has been in the Sarnia hospital for some time and has been operated on four times. He still keeps bright and hopeful but he soon will be well.

Mushroom gatherers near Tilbury are making barrels of money this fall by shipping the toothsome fungi to the large cities. The farmers are getting wise to the profits made in the business.

The superiority of Mother Graves' Worm Exterminator is shown by its good effects on the children. Purchase a bottle and give it a trial.

Irrigating With Tomato Cans.

The following is an easy and effective way to start plants in dry weather:

Sink an ordinary tomato can, with a one-eighth inch hole half an inch from the bottom, in the ground so that the hole will be near the roots of the plant. Tamp the dirt around both plant and can and fill the latter with water. Keep the can filled until the plant is out of danger.—Popular Mechanics.

IRRIGATING WITH TOMATO CANS. Keep the can filled until the plant is out of danger.—Popular Mechanics.

Drying Up Wet Places.

Farmers often have a wet, springy place, containing several square feet, in a field which is difficult and often very expensive to drain. The problem was finally solved by a farm hand who dug deep holes in the center of such places and in each one sank two brine barrels, one on top of the other. The top barrel was covered. The water collected almost at once in these barrels, and the wet places dried up.—Farm Journal.

Two things for the farmer to do this fall—vote right and save the seed corn right, but save the seed corn first.

Mark Twain's Profanity.

William Dean Howells read the "Tom Sawyer" manuscript and thought it the best story he had ever read. Clemens consulted him regarding the use of a certain vigorous expletive. Howells advised that it be cut out. Clemens wrote back:

Mrs. Clemens received the mail this morning, and the next minute she lit into the study with danger in her eyes and this demand on her tongue: "Where is the profanity Mr. Howells speaks of?" Then I had to miserably confess that I had left it out when reading the MS. to her. Nothing but almost inspired lying got me out of this scrape with my scalp. Does your wife give you rats like that when you go a little one-sided?—Harper's.

Odorless.

"Now, children," said the teacher, "who can tell me what the word 'odorless' means?"

Willie Jones was sure he knew. "Well, Willie, what does it mean?" "Odorless means without a scent," he piped.

"Right. Now who can give a sentence using the word correctly?" continued the teacher. "You may answer, Jimmie."

"Please, ma'am, when you are odorless you cannot ride in the trolley cars."—Youth's Companion.

Your Hair Needs Parisian Sage

Use it as a Dressing—Banish Dandruff—Stop Falling Hair and Scalp Itch.

PARISIAN Sage, the delightful and invigorating hair tonic, is a true hair nourisher. It penetrates into the scalp, gets to the roots of the hair, kills the dandruff germs, and supplies the hair with just the kind of nourishment it needs to make it grow abundantly. Since its introduction into Canada PARISIAN Sage has had an immense sale, and here are the reasons:

- It does not contain poisonous sugar of lead, nitrate of silver or sulphur or any injurious ingredient.
- It cures dandruff in two weeks, by killing the dandruff germ.
- It stops falling hair.
- It promptly stops itching of the scalp.
- It makes the hair soft, glossy and luxuriant.
- It gives life and beauty to the hair.
- It is not sticky or greasy.
- It is the daintiest perfumed hair tonic made.
- It is the best, the most pleasant and invigorating hair dressing made.
- Made only in Canada by The R. T. Booth Co., Ltd., Fort Erie, Ont. The price is only 50 cents at drug stores and counters where toilet goods are sold.

EYE AILMENTS

Seventy-five per cent. of the people have abnormal vision, and only about 25 per cent. wear glasses to correct the defects.

The other 50 per cent. suffer from various eye troubles. These have a reflex action on the bodily function, causing headaches, indigestion, dizziness and many other ailments.

Every person should make it a point to find out whether his or her eyes are normal or not. We can do this for you—do it accurately and scientifically by the dark room test.

FARMERS Poultry Wanted

We have now one of the finest Poultry Warehouses in Western Ontario. Owing to our up-to-date method of handling poultry, we have gained access to some of the best markets in Canada. For this reason we can pay the Best Prices for all kinds of Live and Dressed Poultry. Farmers, having good stock, can secure a premium for same from us.

Do not sell or promise your turkeys until you get our proposition. We will have our buyers call on you as quickly as possible. Our wagons will be on the roads during the entire season. We can supply you with crates for delivery. We will also buy all kinds of feathers. We do not handle produce as a side line, but make a special business of it.

Farmers desiring to see the latest methods of killing and dressing poultry can see a practical demonstration daily by our experts, commencing Oct. 7th.

Don't sell your poultry before getting our prices.

We take poultry in at the following points:—Watford, Wanstead, Wyoming, Sutorville, Oil Springs, Alvinston, Birnam and Glenrae. Farmers near any of the above points can make delivery to the one nearest them. WE PAY CASH ONLY. We are very particular about our weighing.

Acton vs. Parker.

The divisional court, Toronto, heard the following case: Acton vs. Parker, on Tuesday before Justices Falconbridge, Britton & Clute. An appeal by two plaintiffs from the judgment of the County Court of Lambton of the 12th of June, 1912. An action to recover \$500 damages alleged to have been caused by defendants fraudulently stating the age of a horse sold by them to plaintiffs to be only thirteen years, while knowing it to be much more, and declining to furnish pedigree of horse as they were alleged to have agreed to do. At the trial judgment was given for defendants, with costs. Appeal dismissed with costs. W. E. Fitzgerald for plaintiffs; J. Cowan K.C., for defendants.

ECZEMA IS CURABLE

In Every Case Where Our Remedy Fails It is Supplied Free of all Cost.

In making this statement we back it up with our promise that if our remedy does not substantiate our claim in every particular, we will without question or quibble return every cent you paid us for it. We take all the risk—you take none.

We strongly recommend Rexall Eczema Ointment, which possesses remarkable cleansing, antiseptic, germicidal soothing and healing qualities. It is a grayish-white emollient, with a pleasant odor, and very cleanly for use. The first application produces a refreshing sense of relief, and it quickly subsides and overcomes the inflammation, irritation and discharge when present.

It is intended to be applied with a piece of muslin or linen, or it may be applied and allowed to dry in. It affords very prompt relief for pimples, blotches, discolorations, ringworm, acne, tetter, barbers' itch, ulcers, insect bites, nettle rash, hives, sores and wounds.

Rexall Eczema Ointment relieves itching and irritation of the feet. It is ideal for the treatment of children who are tormented with itching, burning and disfiguring skin diseases. Try a box at our risk. Two sizes, 50c. and \$1.00. Remember, it is only sold at our store—The Rexall Store.

GIN PILLS Brought Relief

Larder Lake, Ont., March 26th.

"I had been suffering for some time with my Kidneys and Urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the pain was something awful, and no rest at night.

I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum 60 miles to get them and I am pleased to inform you that in less than six hours, I felt relief.

In two days, the pain had left me entirely. I took about half a box and today I feel as well as ever and my kidneys are acting quite natural again."

SID CASTLEMAN.

GIN PILLS soothe the irritated bladder—heat the sick, weak, painful kidneys—and strengthen both these vital organs. Money back if they fail.

Toronto, Oct. 15.—With plenty of cattle and a good eager demand business was much more active and trading freer at the local cattle markets to-day than last week. Prices were strong for all grades of cattle, but very little, if any, higher. Choice butcher heifers and steers sold from \$6 to \$6.20 and medium cattle ranged from \$5.25 to \$5.90. Cows were strong at \$5 to \$5.60 for the best offerings and bulls were steady. Hogs were not as plentiful as had been expected and the market took place. Receipts at the two markets totalled 2,904 cattle, 2,859 sheep and lambs, 610 hogs and 178 calves.

MOTHERS NEED CONSTANT STRENGTH

To Care for the Growing Family, and Her Household Cares.

When there is a growing family to care for and the mother falls ill, it is a serious matter. Many mothers who are on the go from morning to night whose work, apparently, is never done, heroically try to disguise their sufferings, and keep an appearance of cheerfulness before their family. Only themselves know how they are distressed by headaches and backaches, dragging down pains and nervous weakness; how their nights are often sleepless, and they arise to a new day's work tired, depressed and unrefreshed. Such mothers should know that these sufferings are usually due to a lack of good nourishing blood. They should know that the thing above all others they need to give them new health and strength is rich, red blood, and that among all medicines there is none can equal Dr. Williams' Pink Pills for their blood-making, health-restoring qualities. Every suffering woman, every woman with a home and family to care for should give these pills a fair trial, for they will keep her in health and strength, and make her work easy. Here is strong proof that these Pills do what is claimed for them. Mrs. Henry Thomas, Dryden, Ont., says: "When my second child was born I was so weak and run down that I could scarcely walk across a room. My baby was small and weak also, and cried and worried night and day until I discovered that the child was starving, as my nurse had turned almost to water. My husband got me a supply of Dr. Williams' Pink Pills, and I began taking them. The first beneficial effects were noticed in that my child began to thrive, as my nurse began to improve, and baby slept better and naturally. It was not long before I began to feel the improvement myself, and baby was growing very rosy and fat. I continued using the Pills while I was nursing him, and found myself with all the vigor of good health, and able to easily do my housework, which had been so great a drag on me before. I am now never without Dr. Williams' Pink Pills in the house, and take an occasional dose when I feel tired. I can strongly recommend these Pills to all nursing women, especially if weak or run down."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Don't Get Tied Up.

An American Land Company, doing business in this country, certainly have an easy method of tying up property for a year or more. They catch a man who sinks he would like to sell, and they agree to buy his place at a certain price which they realize to be well within the actual value of the farm. They pay \$1 down, the balance to be paid at the expiration of the time set for taking over of the place. In the meantime if the man who holds the option gets a chance to sell, the farmer gets his price, but if no sale is made all that is forfeited to the farmer is the dollar advanced to him. His place has been tied up for a year, and no matter what chances he has to sell in the interval he is tied up. Instance after instance of this sort are coming to light every day, and many a farmer has soundly drubbed himself for being taken in on such a transparent scheme.—Kingsville Reporter.

Its true. Mother has had her picture taken rather oftener than father has—but even she hasn't been in two years and that picture will never do to send to Aunt Jane. She wears her hair so much more becomingly now—and anyways its high time there was another picture for the family collection.
