STRAWBERRIES 35c. THE new real Panama Hats at Swift's MILLINERY at cost and under to the end of the month at Miss Minielly's.

94 in the shade on Thursday of last week, 10 degrees higher than same day last year.

THERE is at least one crop that promes, or threatens, to surpass all record year-taxes.

It looks as if Harding of Onio will be the next president of the United States. He will be known as the Printer President.

THE BEST PLACE to re-tire your car is right here. Let us show you.-R. MORN-INGSTAR. tt

THE rate per horsepower for hydro in Watford has been increased \$25, com-mencing June 1st. The town clerk re-ceived notice to this effect on Saturday last. The rate is now \$85 per horsepower.

IN the list of those who passed the recent examinations of the second year in the Faculty of Arts, University of Teronto, published on Wednesday, appears the name of Miss E. Winnifred Swift, of Watford.

In the Congregational Church, Wat-ford, the pastor, the Rev. T. DeCourcy Rayner will preach at the morning ser-vice, while the evening service will be conducted by the Young People of the church. You are invited to both services.

CANADIAN-MADE LINENS at Swift's. Ask to see them. Special towelling, 3 yards for \$1.20.

PRINCIPAL, WM. KELLV, of Petrolea public school and Principal Shraphell of Watford are presiding at the Lower School examinations being held in the high school this week. Miss Mitchell is in charge of Mr. Shraphell's room at the public school.

THE East Lambton annual convention of the Women's Institute will be held in the Methodist schoolroom on Thursday, June 24th, at 2.30 o'clock. Executive June 24th, at 2.30 o'clock. Executive will meet at one. Lunch will be served at the close for 25c. Please remember the date.-SEC.

U. F. O. MEMBERS of the Ontario Legislature are asking that the sessions of Parliament be called in October and November and the business be transacted during winter sessions so that they may be able to return to their farm duties in time for important spring work.

BREAD is 4 cents higher in Canada BREAD is 4 cents higher in Canada than in London, England; sugar is 10c a pound higher; jam and marmalade 10 to 18 cents higher. But in England, bacon, eggs, lard, milk, sausages, rice, oranges and dried fruits are all higher in price. Vegetables are cheaper, and coal is \$1.25 per ton cheaper.

Buy from the store with the stock-lots of goods .- Swift's JUPITER PLUVIUS came to our help with several refreshing showers this week which were badly needed for the strawberry and other crops.

THE annual meetings of the Congre-

The annual meetings of the Congre-gational Union of Canada were held in Guelph last week, when the Misses Jean and Ruby McCormick, and the pastor were the delegates from Watford. The Rev. T. D. Rayner was elected Convener of the Press Committee, and was also re-elected a wember of the Eventive of elected a member of the Executive of the Department of Sunday Schools and Young People's Societies, and Editor of the Young People's Dept. of The Canadian Congregationalist.

"THE FORD IS THE BEST VET" is the common expression. Better get your order in now for future delivery.-R. MORNINGSTAR. ff MORNINGSTAR.

MORNINGSTAR. ff A BRANCH of the Y.M.C.A. for Lamb-ton County was organized at Petrolea on Monday night. The points to be em-braced in the work at its beginning are Petrolea, Forest, Wattord, Alvinston and Camlachie. Delegates were present from each of the municipalities. Mr. Poole and Mr. Knapp, from provincial head-quarters, were present to direct the organization. It is expected that a secre-tary will be placed in charge of the county work about September 1st.

SPECIAL SALE of ladies' and children's hose in black, tan and white in three pair lots .- SwIFT's.

ONE of the most important steps in Public Library development was taken by the Ontario Legislature last session, when it passed a bill which provides that the public library of a community shall be supported at the rate of 50 cents per head of the population. In other words, in a city of 100,000 people, the city council will levy \$50,000 as a rate necessary to support adequately the in-stitution known as the public library. This means that Watford will have to raise this year nearly \$600 for library purposes, instead of \$270 as formerly. SEE our hew Billie Burke dresses. ONE of the most important steps in SEE our new Billie Burke dresses,

smart styles for young ladies, the price-\$6,00, \$6.50 and \$7.50.-Swift's.

Be convinced that Delco-Lights at that lawn social will repay you many times. We make a specialty of this work. Try us once and see for yourself. Phone or write.-R. O. SPALDING. 18-2

PUBLIC NOTICE TO HYDRO USERS IN THE NORTH HALF OF TOWN

Owing to the transformer "burning out" at the corner of Simcoe and Main streets, we have connected temporarily into the transformer at the corner of Ontario and Main streets, so we will ask the domestic users to conserve the power

WARWICK.

Mrs. I. J. Kadey is visiting friends at London, St. Thomas and Springfield this week.

THE BEST PLACE to re-tire your car is right here. Let us show you.-R. MORN-INGSTAR. tf Mr. and Mrs.' John Howard, London, attended the funeral of the late Miss

Bessie Moore. Gerald Newcii, Springfield, is spending his holidays at his grandparents, Mr. and Mrs. I. J. Kadey.

Mr. and Mrs. Geo. Scott accompanied by Mrs. Mac Luckham left on Monday for a motor trip to Buffalo.

Mr. and Mrs. Gordon Newell and family, Springfield, motored to I, J. Kadey's, 4th line, the first of the week. Dr. Fenner, Detroit, who had his leg broken some weeks ago, is getting along nicely and is now able to take the air m a car.

Miss Sadie McNaughton returned home Saturday after spending the past several weeks with Mr. and Mrs. Williams, London.

Mr. and Mrs George Scott and two daughters of Brown Clty, Mich., spent the week end with Mrs. Scott's aunt, Mrs. Isabella Hagle.

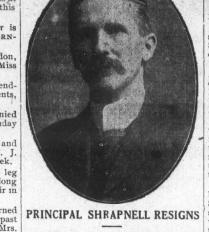

Farmers on the second line report small grasshoppers numerous and will likely become destructive unless drownlikely ed out with a heavy rain.

[']Mr. Freeman Birchard, fourth line, and Mr. Oliver Birchard, Dunkirk, Sask., motored to Oil City, Penn., this week to visit their sister, Mrs. George Forman. Evening service will be held in Zion Cong'l church on Sunday at 7.30 p.m., when the pastor, Rev. T. DeCourcy Ray-ner will preach, his topic being "The Rainbow-Circled Throne." You are cordially invited to attend,

Marion, the little three-year-old daughter of Mr. and Mrs. John Harper, of the sixth sideline, died of diphtheria on Saturday, May 29th. The funeral was held to Bethel cemetery. The death occurred at Kingsville where Mrs. Harper and her three children were visiting, hav-ing gone there to nurse her sister, Mrs. Watterworth of that place. Much sym-pathy is expressed for the family in their sudden loss of the bright little child.

There passed away on Monday, after an almost entire life of pain and suffer-ing, Mr. William Campbell, son of the late James Campbell, aged 36 years, 2 months and 20 days, Deceased was born in Warwick and had been afflicted with acute rheumatism for over twenty years. He died at the home of his sister, Mrs. William McRorie where he had been staying for the last two months. The funeral was held on Wednesday from the home of his brother John, fourth line north, to Bethel cemetery.

One of the most enjoyable events of

Mr. W. H. Shrapnell, principal of the Watford public school for nearly 25 years,

has placed his resignation with the Board of Education, to take effect on the closing of the present term, it being his in-tention to retire from teaching and take a well-earned rest. All citizens, includa well-earned rest. All citizens, includ-ing his pupils, regret to lose the services of so painstaking and efficient a principal and teacher. His work has always been of exceptional thoroughness, as is proved by the high percentage of entrance pupils passed each year. During the nearly quarter of a century that Mr. Shrapnell has occupied the position the affairs of the school have been conducted with an unusual smoothness, due no doubt to the unusual smoothness, due no doubt to the fact that added to his faithful and efficifact that added to his faithful and effici-enf professional services he has always been held in the highest respect by the teaching staff, the pupils and the public. Mr. Shrapnell came to Watford in Janu-ary, 1896, from Napier and has followed his profession in the district for over 40 years. Besides being a most successful teacher he is a valued and useful citizen, at all times willing to give his time, and experience to any scheme for the better-ment of humanity and the welfare of the ment of humanity and the welfare of the town and its institutions. It is earnestly hoped by all that a rest and relief from

the exacting cares of the position will bring him revived strength and refreshed vigo

CELEBRATED DIAMOND WEDDING

Mr. and Mrs. Robert Wilkinson of Mr. and Mrs. Kobert Wilkinson of Main road, Warwick, on Saturday cele-brated the diamond anniversary of their wedding. They were married on June 12, 1960, in London, and had their wedd-ing dinner at the old City Hotel, which stood in Market Lane. Mrs. Wilkinson was Miss Eliza Lambert, daughter of a Lobo Township pioneer. Elder Eure, a Bantist unister conducted the accompany

THE BEST PLACE to re-tire your car is right here. Let us show you.-R. MORN-INGSTAR. tf The annual "Go to Church Sunday." service will be held in Christ Church, Sutorville, on Sunday afternoon at 3 o'clock. All welcome.

The marriage took place in St. Andrew's Presbyterian church, London, on Wednesday, June 9th, of Miss Mabel Irene Logan, daughter of Mr. and Mrs. W. G. Logan, to Mr. Leander Gordon Foster of Brooke.

The rain on Tuesday night was very and raih on Thesday night was very welcome, but the wind storm accompany-ing it did considerable damage through this section. In the Sutorville and Wal-nut district many silos, windmills and trees were blown down and damage done to fences, small buildings, etc.

"Are you looking for the Bride" will be the subject on the Brooke circuit next Sunday, June 20th. This is a subject of special interest to young men and young women. The public are cordially invited to attend the services. Salem 11 a.m., Walnut 3 p.m., and Bethesda 7.30 in the evening. evening.

Chalmer's Presbyterian Church, Brooke, will hold their annual gardem Chalmer's Brooke, will hold their abutual gardem party on the church grounds on June 22nd. Joe Williams, entertainer of Toronto, the Hawaiian Glee Club, of London, and D. Livingston, of Petrolia, soloist will put on the program. Lunch served from 6 to 8. Admission, adults 50c children 25c.

COMPLETED TWENTIETH YEAR

Tecumseh Chapter I.O.D.E. Celebrated the Twentieth Anniversary

of Its Formation, 15000

MOTTO: "We will face the World and brag, That we were born in Canada,, beneath the British flag."

On Monday, June 14, of 1900, Tecumseh I. O. D. F. was formed and on Tues-day of this week between 55 and 60' guests and members met to celebrate its guests and mer 20th birthday.

A literary program largely reminiscent was given at the home of Mrs N. B. Rowden. The salutation of the flag and "God Save Our King" opened the program

Praver of the order, Miss Emily Adams, Roll call, answered by appropriate and many original quotations, Secretary, Mrs. R. E. Prentis.

MIS, K. E. Prentis. Then followed short histories of the Chapter. From 1900--1905 given by MIS. A. G. Brown, at whose home the first meeting was held. From 1905-1910, written by MIS. Brown, read by Miss. McCow McCaw.

N.

THE NEW LUXURY TAX will apply only on our most expensive goods. SWIFT. SONS & CO.

THE selfish and vulgar parade of wealth is one of the chief causes of discontent, as the Presbyterian General Assembly says, but an even greater evil is the accumulation of wealth by unjust unjust and lawless methods. The lawless rich are more dangerous to good govern-ment than the lawless poor,

THE GUIDE-ADVOCATE again invites secretaries of sporting clubs, lodges, etc., to hand in to this office any information of public interest concerning their organizations. There is no charge for insert-ing information about matters of this kind, only for advertising specific coming events.

MRS. I. P. TAYLOR, of London, mother of the late Lieut. Gerald I. Taylor, who gave his life for the betterment of the world on October 16th, 1918, in France, has received from the King the Oak Leaves decoration awarded to those mentioned in dispatches for gallant and dis-tinguished services at the front during the war. The decoration consists of two oak leaves in bronze and is much prized by Lieut. Taylor's family.

OUR TOWNSMAN, Mr. Fred Restorick, was served this week with a summons issued at Oshawa charging him with violations of the Motor Vehicles Act in Oshawa on Wednesday, June 9th. As Fred has never yet been in Oshawa and on the day mentioned was umpiring a baseball game in Watford he is not worrying that he will have to pay \$5 and costs or serve thirty days.

R. MCNAUGHTON lost four valuable with cover by lightning in the storm of Tuesday, June 8th. The animals were in a shed on the second line, together with 23 other head of cattle. The elecpost as the cows were found in a heap at its base. No damage was done to the its base. No damage was done to the other cattle or the building. The ani-mals were partly insured in the Lambton Farmers' Mutual.

MRS. M. E. LOWE, of Toronto, will give an address in Trinity Church schoo room on Tuesday afternoon, June 22nd, at 3 o'clock, in the interest of the Women's Institute. Mrs. Lowe is deeply interested in Institute work and has rendered very acceptable service in home nursing and first aid. Some of her sub-jects are :-- "Housekeeping and Health," "First Aid" and "The Food Problem and its Relation to Health." All ladies will be welcomed,-SEC. 1000

all they can on Saturday nights while the stores' are open, until we can make a replacement.-R. O. SPALDING, Mgr.

PERSONAL

Mrs. H. Morningstar and family mov-ed to Strathrov on Wednesday where the family will make their home in future.

Miss Mary Fowler, who has been attended Sarnia Business College has been granted a diploma by the Business Educators' Association of Canada.

Mr. and Mrs. Andrew Thom, Mrs. William Thom, Toronto, and Mr. Regin-ald Smith, Calgary, called on Watford friends Saturday and Sunday last.

Mr. John Wilkinson, secretary of the Children's Aid Society of the County of Lambton, was in town on Tuesday on his way to visit children placed by the Society.

Themesville Herald-Mr. L. Cook and Misses L. Cameron, A. McGregor and Mrytle George motored from Wat-ford and spent the week end at the latterk home here latter's home here.

grove picnic grounds, on Monday, June 14th, from 6 to 10 p.m., when the Mc-Kenzie, Auld and Moore families gathered for a reunion picnic celebration. Apparently every one had come in pic-nic spirit as jokes, games, stump speech-es and mirth in general was endless. The honorary guests present were Mr. and Mrs. Geo. McKenzie, B.C.; Mrs. H. F. McKenzie, High River, Alta; Mr. and Mrs. C. A. Moore, and Mrs. J. A. Hunter, Sarnia.

After a few days illness there passed way at the home of her nurse in Arkona. Miss Bessie Moore, a life-long and much respected resident of the township. Miss oore was born in Ireland and came to a few weeks old and since her parents when only a few weeks old and since her parent's death lived with her brother on the homestead, lot west half 23, con. 1. Her brother, Richard Moore, predeceased her in May 1917. The funeral was held on in May 1917. The funeral was held on Saturday afternoon at 2.30 from the home of Mr. Wm. Gorman, lot 29. Service was held in Wisbeach church of which Miss Moore was a member, and interment made in Wisbeach cemetery. The funeral was conducted by Rev. W. M. Shore, rector, and was well attended, Miss Moore being highly extremed by Miss Moore being highly esteemed by her neighbors.

The 3rd Annual Meeting of Section 2, Sarnia Presbyterial W. M. S., held in Knox Church, Main Road, June 8th, was inspiring and enjoyable. One hundred and ten ladies from the different Auxil-iaries and Mission Bands attended, and iaries and Mission Bands attended, and 'Mrs. Forster, the president, conducted the meeting in her capable, pleasant way. At the lunch tables, Mrs. David Anld, president of Knox Aux., welcomed the visitors, and Mrs. McVicar of Inwood replied. The devotional service was an important part of the meeting. Miss Patterson of Alvinston and Mrs. Mc-Kellar of Strathroy, gave papers on the work. The need of more prayer and greater consecration was impressed that better service may be given. Mrs. Cunn-ingham, Watford, sang very accept-ably "For a Little Bit of Love". Miss Thompson, Toronto, former Field Sec'y,

ably "For a Little Bit of Love". Miss Thompson, Toronto, former Field Sec'y, made an appeal for the work at home and far away, and asked the young people to invest their lives in service for the Master. Miss Marion Jardine, Cam-lachie, reported on the Summer School at Grimsby, which she attended last year. It was, as the President said, a good ad-vertisement for the School Mrs. Stawart

certisement for the School. Mrs. Stewart of Nairn, brought a splendid report of the Provincial W. M. S., held in Stratford in March. The next place of meeting was not yet decided.

Baptist minister, conducted the ceremony Mr. Wilkinson was born in the village of Markham, Nottingham, England, and at 12 years of age, left his native land to accompany his parents to Canada in 1851. They arrived at Strathroy on Sepsember 21, 1851, having crossed the ocean in a sailing vessel, the passage occupying one day over six weeks. Their journey con-tinued by meters are the full of tinued by water up the Hudson River from New York to Albany, and from there by rail to Buffalo. They travelled by boat from Buffalo to Port Stanley,

by Joan drawe in a lumber wagon from there to Strathroy through the woods. With his parents Joseph and Mary Wilkinson, the boy of 12 began his Can-adian career on a farm in Adelaide Town-blie. ship. Three and a half years later his mother died. Two years after the mother's death the father died, and Mr. Wilkinson worked around the neighbor hood for various settlers for three year more, until he married

Mr. and Mrs. Wilkinson moved to a ush farm in Adelaide Township with only two acress of clearing. In five years Mr. Wilkinson had the entire farm clear-ed, a large barn erected, and plenty of stock, implements and horses. Sub-sequently this farm was sold, and another fifty acres purchased. This, too, was sold, and with their young family they remov-ed to Warwick, where together with his son, Mr. Wilkinson now owns 300 acres

of fine farm land. Of four children two are deceased. Mrs

Charles Hawkin (Delilah May), mother of Rev. Edwin Marshall-Hawkins of London, and George Marshall Wilkinson

who died over thirty years ago. William Henry Wilkinson is a farmer in Plympton Township, and John Charles Wilkinson resides on the homestead in Warwick Township. Mr. and Mrs. Wilkinson have sixteen

grandchildren and nine great-grand-children, who joined them in the festiv-ities of the diamond wedding celebration. Mr. Wilkinson will be 82 and Mrs. Wilk-

Mr. Wilkinson will be 82 and Mrs. Wilk-inson 81 in October. Mr. Wilkinson's oldest brother, Reu-ben Wilkinson, died at Strathroy, in his 85th year, four years ago, A sister, Mrs. Annie Jerritt of Ubly, Mich., will be 86 in December. Three brothers living, Joseph of Kerrwood; George and Charles of Chicago, are in their 84th, 79th, and 77th year, respectively. 77th year, respectively.

Every year, or every two years. Mr. Every year, or every two years. Mr. Wilkinson visits his b thers in Chicago, and he has marked the growth of that great metropolis from a city of very modest size. He has twice revisited his native home in England, in 1880 and again in 1906. again in 1906.

McCaw. From 1910-1915, written by Mrs. T. G. Mitchell, read by Mrs. Fitzgerald, From 1915-1920, written by Mrs. Mitch-

From 1915—1920, written by Mrs. Mitch-ell, read by Miss McLeay. Incidents both amusing and sad were brought back to the memories of the older members. The Chapter has from the first been making grants to hospitals, doing charitable work in the town. Giv-ing prizes in our schools, etc. War was declared the first week in Avertication of the state of the

August and it was organized and ready. During the first two months of the war by collections and selling flags the sum of \$400 was raised. Not a bad start. pecial mention was made of the firm nd untiring support of the citizens of he town. Many ladies knitted and sewed, and not one appeal to the public went unheeded, not one shower which vas not a deluge and not one snower which ut was well patronized. This was not said in a spirit of boast-

ing, but as a tribute to the unfailing support received from the people of

Mrs. Cunningham sang "When You

and I were young, Maggie'' and the Chapter joined in the chorus, Mrs. Jas. Newell spoke a few appropri-ate words on ''Our members who have left us, never to return,'' referring to Mrs. (Rev.) Kelly, Mrs. Asa Rogers, Mrs. (Rev.) Kelly, Mrs. Asa Rogers, Mrs. W. B. Race, Mrs. (Canon) Downie, Miss Jean Cameron, Mrs. T. Harris and Mrs. M. A. Lawrence. Mrs. Warren Bate sang "Crossing the Prest"

Bar.

The Chapter is indebted to Mrs. Bate and Mrs. Cunningham for their appropriate songs.

Letters were read from Nursing Sister Letters were read from Nursing Sister Rose Reed, Mrs. (Dr.) Wickett, Miss Gurnett, Mrs. J Eccles, Mrs. E, Lamont, Mrs. S. Mitchell, Miss Marian Kelly, Miss L, Abbott, Mrs. R, Williams, Mrs. Thouson, Mrs. O'Neill of Beamsville, who came for the occasion spoke a few appropriate words. Mrs. I. P. Taylor, of London, took the place of her sister, Mrs. Lamont. Mrs. Lamont.

Mrs. Lamont. Mrs. Lamont. The meeting closed by all singing "O God Our Help in Ages Past." Then the guests registered their names in the min-ute book of the Chapter and looked at a number of photos of members sent for the occasion and adjourned to the home of Mrs. T. G. Mitchell where tea was served. Tables were decorated with pink and white peonies and tea was all that could be desired. All sang in closing, "We'll tak' a cup o' kindness yet, For Auld Lang Syne." A number of letters and photo of asbent members which came too late for the anniversary will be brought to the next meeting of Tecumseh Chapter.

"BEATING THE NEW TAXES"

(Ottawa Journal)

Those who talk, as some are now talking, about "beating the new taxes" display a curious kink in their moral conception of citizenship. To pay taxes is one of the primary duties which one owes to one's country. To seek to evade this duty at any time is to play the quitter in respect of one of the most important of responsibilities to the state. But in these times, when heavier taxation is in reality the "mopping up" process of the war, the tax evader plays a game not far removed from that of the man who funked in the course of the fight.

Let there be no mistake about thet. The taxes imposed are to wind up the part we took in the late war. To help pay them, therefore, is as much a duty upon Canadian citizens as was the obligation to contribute one's best between 1914 and 1918. And the man who, either through meanness, or a "smart Alec" idea of things, or a wrong conception of public duty, tries to evade them, is in a degree as much of a slacker as the man who could not be found when the call was togo "over there."

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

BOSANQUET COUNCIL

Council met May 31st. All the mem bers present. Minutes of previous meet-ing read and confirmed. Humble Civilians. Sir Douglas Haig Tells of Many In-

GUIDE-ADVOCATE, WATFORD, JUNE 18, 1920

stances That Came to His Notice During the Great War-Men That Failed.

An interview with Sir Douglas Haig, printed in the Manchester Guardian. contains some shocking instances of the romance and fortunes of war. "Promotion," said the field marshal, "has been entirely by merit, and the highest appointments were open to the sumblest, provided he had the neces

sary qualifications of character, skill and knowledge. "Many instances could be quoted of

men who, from civil or comparatively humble occupations, have risen to important commands. "A schoolmaster, a lawyer, a taxicab

driver and an ex-sergeant major have commanded brigades. "One editor has commanded a di-vision and another held successfully

the position of senior staff officer to a regular division.

"The undercook of a Cambridge college, a clerk to the Metropolitan water board, an insurance clerk, an architect's assistant and a police inspector became efficient general staff officers.

"A mess sergeant, a railway signalman, a coal miner, a market gardener, an assistant secretary of a haberdashery company, a quartermaster sergeant and many private soldiers have risen to command battalions.

"A schoolmaster, a collier, the son of a blacksmith, an iron molder, an instructor in tailoring, an assistant gas engineer, a grocer's assistant, as well as policemen, clerks and privates, have commanded companies and acted

They show possession of military in-stinct which only required the chance

could be abundantly shown that some men, although given high rank, fell down lamentably when opportunity for work offered.

While technical education is essential, soldiers are born, not made.

It would be interesting to collate from our own records some of the many instances of American soldiers who rose from the ranks to commissions after a brief apprenticeship to the profession of arms.

Ground Glass Not Harmful.

Experiments recently carried out by the army medical corps have entirely disproven the popular belief that ground glass is harmful to the digestive tract.

Boilers Heated by Electricity. The curious anomaly of steam boilers heated by electricity is attracting serious attention in certain localities. Such boilers have been set up of capacities up to 1,500 kilowatts, or 2,000 horse-power, taking electric current of voltages up to 10,000, and offer advantages where coal is high and waterpower cheap, as in certain woodpulp and paper factories of northern Europe. Steam is generated by passage of the electric current through wa-ter. Narrow vertical tubes of insulating material contain water, and

are connected at top and bottom with the interior of the boiler. Alternating current is sent through the water columns, the tubes with three-phase currents being connected in groups of three. Moving the electrodes in the tubes regulates the current strength. An efficiency of 95 per cent is claimed and one watt of electric energy is stated to produce nearly four pounds of steam.

Agent

for

For Asthma and Catarrh.-It is one of the chief recommendations of Dr. The as' Eclectric Oil that it can be used as relatively with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immedi-ate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

While dismantling the barn on M. Sadler's farm to be moved to Jas. Ran-kin's, 8th con., Pfympton, a heavy beam fell on Clifford Ra'sin, and gave him a bad shaking up. Fortunately he did not receive the full force of the weight of the beam or he would have been instantly beam or he would have been instantly killed.

Small but Potent.—Parmelee's Vege-table Pills are small, but they are effec-tive in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in contant de-mand everywhere by these who know what a sate and simple remedy they are. They need no introduction to those ac-quainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach. m

Hows This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years' and has become known as the most reliable remedy for Catarrh. Hall's Cat-arrh Medicine acts through the Blood of the Mucous surfaces, expelling the Poison arom the Blood and healing the diseased mortions.

portions. Afte, you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general heaith. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send tor testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all D'uggists, 75c.

an expenditure of \$246,490, the house being gutted and its walls so far destroyed that the greater part of them had to be replaced above the first story with new brick and fresh cut

Inevitably there will be a third rebuilding some day. Plans and a model of the White House as it ought to be with wings added, have already been made. The wings are embraced by exterior colonnades. In the east wing is to be a great reception room; in the west wing the state dining room. On the second floor of each wing are to be five bedrooms. Thus the presi-dent will have about twenty bedrooms at his disposal, and will be enabled to offer a much freer hospitality. Conservatories in the rear will complete a magnificent quadrangle, and the whole effect will be very beautiful.

The cost of rebuilding the White House in this style will be in the neighborhood of \$2,000,000.

Diversions That Benefit

In an address at the Royal College of Medicine to students about to start out in practice for themselves, Dr. George Steele-Perkins of Edinburgh gave this advice:

"Also learn to play lawn tennis, golf, bridge, billiards, or whatever games most appeal to you, and among other things do not neglect the noble art of self-defense."

This advice is as sound for the young man starting out as a lawyer or a broker or a business man. For every man needs some amusement to which he can turn in order to forget the worries of his working hours. No man is ever too busy to play; an hour's relaxation makes him work better. That is why Gladstone chopped down trees and studied Homer, why Wilson plays golf, why Charles Schwab plays bridge, why Cleveland went fishing, why Roosevelt rode, boxed, played handball; why the late J. P. Morgan was never too busy to

devote an hour to talking art with some one who really knew. Such diversions keep a man from joing stale.-Exchange.

Glass was ground and sifted to se cure varying degrees of fineness and considerable quantities of the material were incorporated in fresh meat, the same being fed to hungry dogs. This was repeated in some instances on a number of days after which the dogs were killed and the digestive tract examined both with the naked eye and by the aid of the microscope and no injury whatever was perceptible. Before being killed the dogs apparently suffered no inconvenience and appeared normal in every way. These findings should eliminate for all time the idea of glass being the cause of death in animals maliciously peisoned .-- W. H. Feldman, Colorado Agricultural College, Fort Collins,

Its Face Was Its Fortune.

Two years ago my husband and I vere coming into Chicago from an Indiana town in a roadster that certainly showed the hard use we had given it. About midnight we started own a little grade on a lonely stretch of road and found at the bottom that the road was blocked by two large machines with licenses from a Western state

We stopped, of course, and expected one machine to pull aside. Instead two men walked back to our car and oked us over. Then one called : "All ight," and the road was cleared.

They thought our old model mahine was probably not worth stealing, but they neglected to search our pockets, which contained several hundred dollars .- Chicago Tribune.

Women and Asthma.-Women are numbered among the sufferers from asth-ma by the countless thousands. In every climate they will be found, helpless in the grip of this releatless disease unless they have availed themselves of the pro-per remedy. Dr. J. D. Kelloggs's Asth-ma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for astima. far removed from the class of doubtful and experimental preparations. Your dealer can supply it. m

Wedding Stationery of the finest quality at The Guide-Advocate.

1920 Advantages

Has deep, wide, luxurious seats, with plenty of room.

Unsurpassed in anything near its price in riding qualities.

Has very high grade heavy upholstering.

Has roller bearings in front hubs.

- Has double bulb headlight system, which is more efficient than dimmer type.
- Has a magneto to furnish ignition independent of storage battery.
- Repair parts can be had almost anywhere at very little
- Has real service behind it which has never been attempted to equal.

Can always resell a used Ford to better advantage.

Orders are still coming in faster but just now I am getting a good bunch every week. Will be able to give fairly prompt delivery. Once you are in the 1920 Ford the decision is made.

SEASON OF 1920

GUIDE-ADVOCATE, WATFORD, JUNE 18, 1920

LAY ALL UNDER CONTRIBUTION Persian Derviches Demand Alms as a Right, and Simple People Readily Give Up.

A feature of Persian life which illusrates the simple and superstitious nature of the people of the mideast is their tolerance of the dervishes. These weird, gypsylike beggars infest the cities and annoy the village folk in passing from one place to another, according to their vows of itinerancy. These are not the whirling dervishes of circus fame. Whirling would be too energetic a form of worship for the members of this most ancient leisure class. Their greatest exertion consists of walking slowly and blowing a horn to announce their presence.

The dervish of Persia is known by his begging bowl, conical cap, animal skin cape and club. The weapon, which is usually a stick driven through with nails, is carried conspicuously. It fact, it seems unpleasantly ready for use when its owner calmly demands tribute. It is true that there is small danger of its use, even if alms are refused, but a refusal however polite and apologetical, is sure to arouse the wrath of the dervish. His vocabulary may be unintelligible, but the meaning of his threats and prophecies is usually understood. Fellow citizens of the dervish tribe prefer to make a gift at any cost in order to avoid having the wrath of heaven called down upon them in the masterly language of an experienced heaven in

The dervish makes himself useful to the community honored by his presence by telling fortunes and stories, reciting prayers, selling charms and even curing the slck by blowing his sacred breath on them-all in return for which he turns over to his chief after deducting a living wage.

GIVEN NAMES OF PRESIDENTS

Historical Appellations Bestowed on Summits of Mountain Range in Old Vermont.

Heretofore when one spoke of the presidential range everyone - every New Englander, at least-knew, with out further particularizing, that Mount Washington and its attendant summits was the subject. writes Allen Chamberlain in the Boston Evening Tran-

Henceforth one must needs be more specific, since during the last year a rival presidential range has appeared on the map in Vermont. That region, hitherto generally spoken of as the Bread Loaf Mountain section, lying between Middlebury gap and the Lincoln-Warren pass, was but little known, except in its southerly portion, until the Green Mountain club men ran their Skyline trail through. They found there a maze of unnamed summits grouped as in council, and seemingly worthy of being recognized as

Dairy Hints. Dairy Hints. Cooling milk and cream is very important during this month and next month. Have plenty of cold water so that the milk and cream may be rapidly cooled to 50 de-grees F., at which temperature there is very little danger of sour milk. Fly-time is here. Protect the milk cows by using a home or commercial mixture, as a fly-repellent. Try one-half gallon fish oil, one-half pint kerosene and about four tablespoon-fuls of carbolic acid, or cresol, etc. Be careful not to get this on the teats, or hands before milking as it will taint the milk.

In grading up a laying flock pure-bred eggs should be purchased. From the chicks good female breeding stock may be secured. The male may be secured in very many cases in On-tario, from eggs secured by children taking part in school fairs. Watch

Watch for Noxious Grass. In looking for quack grass it would be well to watch also for other nox-ious weeds, making sure that none go to seed and that the root stalks of perennials are prevented from spreading as much as possible.

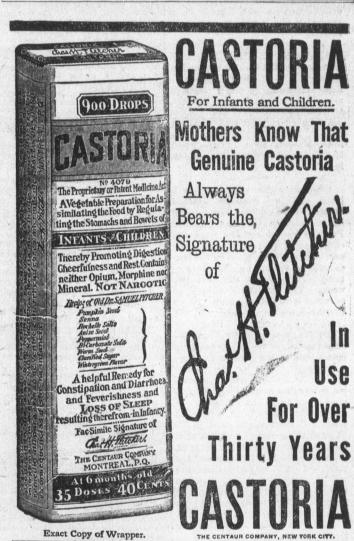

Wrested Fortune From World. Sir Marcus Samuel, who has purchased from the earl of Berkeley for the sum of \$25,000,000 a parcel of the fashionable residential section of Lon-don, known as Berkeley square, started in business life keeping a little shop in one of the poorest quarters of the British metropolis, where he made and sold for a shilling or two, ornamental boxes made of shells from the seashore. Later he invested his savings in oil, made money and started a company called the "Shell," thus identifying his big new venture with his original struggling business.

Those Investigations!

Congressman (conducting an investigation of the cost of living)-Come in here and sit down! I want to ask you some questions. Now don't try to evade, 'cause you can't get away. Is it true that you have been profiteer-ing in food products?

Ing in food products? Profiteer—Yes, it's true. What're you goln' to do about it? Congressman—Well, well, now. don't get excited. I just wanted to know if

it was true And thus another stirring investigation is recorded .- Kansas City Stur.

Grading Up a Flock

the school fair winners this year.

The Highly-Bred Stallion Peter V. Dillon (63080 - 1895)

579

2-year-old record 2.281 3-year-old trial 2.15 Foaled in 1912, bred by Vimont Bros., Millersburg, Ky.

Sired by Peter the Great. by Pilot Medium, Dam, Little Wonder, by Baron Dillon.

ENROLMENT NO. 4324. # Form II.

Will stand at his own stable, lot 21, con. 10, Plympton, one mile east of Aberarder, except Saturday afternoon when he will be at C. Anderson's Sales Stables, Forest.

TERMS-\$15.00 payable February 1st, 1921. Accident to mares at owner's risk, but the best of care will be taken of mares sent to us.

Peter the Great's fame as a sire is of Peter the Great's fame as a sire is of such an international character that nothing need be said of it. His sale for \$50,000 at the age of 21 years forms the strongest possible argument that could be made. Peter the Great's services are in such demand that his books were full and overflowing three months ago for 1920 at \$1,000 service fee. Every man wants the blood of Peter the Great and as it is impossible to secure it from the as it is impossible to secure it from the fountain head, breeders must look to one of his sons to procure it. There are no foals of Peter the Great in existence that foals of Peter the Great in existence that are not up to the highest standing as regards maternal ancestry. This means everything in the race for success by his sons as sires for today only horses of the strongest breeding can win. Peter the Great has nearly four hundred perform-ers with records from 2.02 to 2.30, of which seventy-five per cent. are trotters. The Greatest Sire of all time. GEORGE KILMER, Owner, R.R. 2, Camlachie, Phone 83842 Forest. 28-4

Phone 83R42 Forest.

A good rule in pig feeding is to give just what the pigs will eat, and no more, of whatever food is given. Its neglect is a source of endless trouble.

Breeders of all classes of stock look for size and capacity in the ma-ture stock. To get size in the mature animal the calf and yearling must be well fed.

well fed. In order that a farmer may use commercial fertilizers intelligently and economically to produce profit-able crops, he should know what his soil lacks.

Two Centuries as a Meadow.

In England there is a park at the famous Rothamsted Experiment Sta-tion which has been used as a meadow for more than two and one-half centuries. It was used as a hay field at the time of the conquest of Can-

ada, and was in sod even when the Constitutional Act was passed. This park has been top-dressed with fertilizers annually for the last with fertilizers annually for the fast sixty years. At the beginning of this-period it was producing about 1¼ tons of hay per acre. Where ferti-lizers have been used the average yield per acre for 50 years has been, in one case, 2.7 tons, in another 3.3

tons, and in a third case 4.1 tons— depending upon the amount of top-dressing applied. This is really a wonderful result, and should make farmers who are harvesting their meadows year after year and paying readimention to the unkeen of nlanf no attention to the upkeep of plant food in the soil—"mining" instead of farming—feel that possibly they are not using to the fullest the oppor-

tunities given them. It is possible, by top-dressing alone, to bring back the rundown meadows and pasture in this coun-try, and this without one dollar of cost for labor, excepting for spread-ing the fertilizer. The results obtain-ed at the Rothamsted Station can duplicated in this country wherever

more runts. A fittle extra feed and care will bring these along profi-ably. If left to take pot luck with their bigger brothers and sisters they fare badly, and prove an unprofit-able proposition. 28-4

individuals of distinction Just north of these heights is the

rugged mass whose summits have been known for more than half a century as Mounts Abraham and Lincoln. Quite naturally the idea of a new presiden-tial range arose and, with great partisan restraint, four of the neighboring mountains were therefore named Mount Grant, Mount Grover Cleve-land, Mount Roosevelt and Mount Woodrow Wilson.

Poisoned by Ink.

Behind the scenes at the Globe the-ater, where, to the delight of all playgoers, Miss Violet Vanbrugh has scol ed another wonderful success in "Trimmed in Scarlet," the famous ac-tress told me this amusing story of her early days.

"We were playing 'Romeo and Juliet' on tour," she said, "and one night in the poison scene, Juliet found herself without a phial. The audience was waiting, and in despair she snatched an ink-bottle from the stage carpenter, and gasping 'Is it empty?' rushed on.

"But when the hapless lady raised the bottle to her lips and tipped it downwards, a stream of ink descended over her chin and down her white dress. The house yelled at the comical sight."-London Tit-Bits.

No More Shiny Domes.

After the wonders which we have seen worked for the soldiers who suffered disfigurement during the war, it is not surprising that plastic surgeons are turning their attention to improving civilians also. Ugly noses, projecting ears, harelips and all sorts of other obstacles to good looks will probably be easily corrected in the not-far-away future. The most interesting thing along this line which has been recently discovered is that no one need suffer from baldness any more. By grafting a piece of skin from some part of the head where hair is still growing onto the bald natch, a new covering is raid to be insured.

LAMBTON COUNTY COUNCIL

The Lambton County Council filled in a by-law to grant additional sum for the good roads system with the sum of \$20,000, and the bylaw to provide for expenditure under the Highway Act was adopted, the blank being filled in with the sum of \$80,000. Bylaws were adopted also for the proving for \$60,000 for cur-rent expenses, of which the half of the cost of the building of the Grand Bend Br-1₂e will amount to \$9,000. The Coun-tic announced that no action had been taken on the request for \$10,000 to build a home for the Lambton Corn Growers' Association held annually in Petrolea. The Council refused the request from the tora of Wallaceburg asking for a grant for a Memorial Hospital there.

Will Suspend Publication

After a perilous voyage lasting twenty-six years the Wyoming Enterprise will cease publication at the end of June. The cease publication at the end of june. The annonncement is made in this week's issue. This will be the seventh paper to drop out of the Lam'ton field within the past few years, 'the others being Oil Springs, Sombre, Thedford, Petrolia and two in Sarnia. The Enterprise was estab-lished in 1894 by a Mr Mott, who later sold it to Mr. E. V. Donnelly, now cashier in the Provincial Treasurer's Dept., in Toronto. Mr. Donnolly carried on for about five years when he disposed of the Toronto. Mr. Donnolly carried on for about five years when he disposed of the plant to Mr., now Judge U. T. Harvey, of the California Supreme Court. Mr. Harvey was an ex-school teacher who got into the right church but the wrong pew and after fifteen months strenuous news-paper life accepted the offer of the pres-ent nublisher of the Advertise-Tonic and

ent publisher of the Advertiser-Topic and drifted out to California where he studied law in his uncle's office. Doubtless he now looks back on his newspaper experinow looks back on his newspaper expen-ence as one of the most interesting periods of his life. Again after three years and a half the paper was disposed of to Mr. F. W. Willson who also owned the Petrolia Advertiser. After experi-menting with many managers Mr. Will-son sold the plant to Mr. E. C. Rice, the present proprietor, about five years ago. As already started the Enterprise is the seventh paper to drop out of the Lambton seventh paper to drop out of the Lambton field, and from the present outlook it will not be the last.

CHOP STUFF

A New Hampshire farmer sold three carloads of potatoes for \$12,000. Henry Sykes a resident of Petrolea for 40 years died last week in his 80th year. On account of the refusal of the whole-sale dealers to take butter from Essex retail dealers, the market price of butter this week dropped to 35c. a pound. On account of the poor fishing season twenty fishermen of Port Stanley have left for Lake Winnipeg, where they will be engaged by a fishing company.

THE TAX ON MEDICINES

The finance minister has received pro-The hnance minister has received pro-tests from all parts of the country against luxury taxation calculated to hit the poor man's pocket. One of these regu-lations is especially hard on people of small means—that is the tax on propriet-ary medicines. To the homes of limited income its application will bring a dis-tinct hardship. There are scores of stantinct hardship. There are scores of stan-dard remedies that have become necessities to tens of thousands of householders, more especially to such as are situated some distance from doctor or drug store. Under the new tax it will be necessary to pay from one and one-half to double the price that is now paid for standard reme-dies. For minor complaints and acci-dents the patent medicine is the poor physician, and should not be heavily taxed.

ASK GRANT OF \$10,000

Members of Lambton County Council Wednesday afternoon visited Petrolia to fully acquaint themselves with the plans for a winter fair building. This followed application by a representative body of the various agricultural interests to the Council, asking for a grant of \$10,000 to be used towards the purchase of a building to be turned into a permanent home for the Lambton Winter Fair and Corn Show. W. P. Macdonald, representative of the department of agriculture for this

of the department of agriculture for this county, pleaded the case, and the mem-bers of the Council were inclined to favor the encouragement of the annual east Lambton event. The matter was referred to the finance committee. W. S. Steadman, president of the Live Stock Association, also spoke on the matter and stated that the corn show had gradually improved until last year it had been the beat in the biotry.

improved until last year it was best in its history. The County Council dined at the Fletcher House. Short addresses were made by Mayor Preston, Neil McDougall Topic. and others .- Topic.

idow and four sons

Miss Margaret Pollock of Blyth, Ont., was found guilty by the county judge of witchcraft. She was let off on suspended sentence on the understanding that she would cease practice.

Bert Collins, a Strathroy baseball player, is in Victoria Hospital in a serious condition as the result of being struck on the head by a pitched ball during a base-ball game between Strathroy and West Lorne on Friday night at Strathroy.

An average dairy cow normally will consume 75 to 100 pounds of water a day. Average producing cows even drink as much as 150 pounds of water daily, while exceptionally heavy yielding animals drink as high as 200 to 250 pounds of water every twenty-four hours. One official record is on the docket of a high producing cow which drank 300 pounds of water a day without ill effects. As of water a day without in checks. As milk is more than 85 per cent, water, it is not surprising that cows which yield 55 to 60 and more pounds of milk daily utilize large amounts of water.

The very sad death occurred at the family residence, Forest, on Saturday morning, June 5th, when Colin Walters, only son of Dr. and Mrs. F. A. Walters, passed away after a short illness. The cause of death is somewhat obscure but cause of death is somewhat obscure but his illness began after a dip in the creek below the R. R. bridge on Wednesday. It is reported that several of the boys were ill after their swim. On Thursday he was apparently better but on Friday evening when the doctor was called again the heart was found to be failing. He slowly sank during the night and passed

away without pain at 3 a.m. Saturday morning.

away without pain at o stain. Saturday morning. George, the six year old son of Mr. and Mrs. John W. Piggott, 2nd line of Enniskillen, was instantly killed by lightning while asleep in bed early on Monday morning. The little fellow had gone to visit a playmate. Goldie Gray, son of James Gray, of Moore township, and the two boys were asleep in the same bed when the storm broke. One bolt entered the room, killing the Piggott boy, who was sleeping on the side of the bed nearest the wall. The Gray boy was uninjured by the lightning but his hands and legs were burned by the flames when the bed caught fire. Mr. and Mrs. Gray, who occupied the same room succeeded in extinguishing the flames, and sent to Brigden for a doctor, who, however, when he arrived, could do nothing.

dition somewhat similar to tympanitis or bloating, but differing in the urgency of its symptoms and method of treatment. It depends upon the introduction into the organ of solid matters to such an amount as to partially or wholly paralyze the muscles by over-distension.

> quantities if opportunity presents itself. Sudden changes of food, especially if the change be to a food particularly palatable to the animal; over feeding on grain without allowing the animal to take exercise; indigestible food, as over-ripe hay; food of poor quality, even if consumed in only moderate quantities, may cause only moderate quantities, may cause the trouble. The animal continuing to eat, but not runinating sufficient-ly, the amount of ingesta gradually increases in the runen. We frequent-ly notice a case without appreciable

Symptoms.—The animal becomes dull and suffers pain, often expressed by stamping the feet, striking at the abdomen with the hind feet, switch-ing the tail, etc. Respirations usually accelerated, appetite lost and rumin-ation suspended. Bowels usually cos-tive, abdomen enlarged, especially on left side, but this does not occur as quickly as in tympanitis, neither is it of the same nature. When tapped between the point of the left hip and the last rib, a dull sound is produced; and when pressed it has a doughy feel, and the imprints of the fingers do not disappear quickly—it "pits do not disappear quickly—it "pits on pressure." There is often a grunt during expiration, especially when the animal is lying. In the later stages tympanitis may appear as a complication. In mild cases the patient appears to have periods of ease and express

In mild cases the patient appears to have periods of ease and expresses a desire for food. If food be allowed he will eat a variable quantity with apparent relish, but the symptoms of illness soon become more marked than before

Treatment must be directed to the removal of some of the impacted mass of food and the restoration to activity to the over-distended wall of the organ. When the distension is not excessive, the administration of a brisk purgative, as 2 lbs. Epsom salts, ½ oz. gamboge and 2 oz. gin-ger in about 1½ quarts of warm water given as a drench will usually give good results. This is a fair dose for an ordinary sized cow, the dose for smaller or larger animals should be more or less, according to the size of the animal. Follow this up with 2 drams of nux vomica every six or seven hours, allow no solids e organ. When the distension is with 2 drams of nux vomica every six or seven hours, allow no solids to eat until free purgation is estab-lished. If purgation has not com-menced in twenty-four to thirty-six hours give 1½ pints raw linseed oil, and this alternated every twelve hours with 1 lb. Epsom salts and 1 oz. ginger, until free purgation is established. If a desire for food be expressed a little bran mash may be allowed. Allow all the water the pa-tient will drink. In the meantime keep up the administration of nux vomica until pugation commences. If the disease is not yielding to If the disease is not yielding to treatment after the second day, some-thing must be given to sustain strength. For this purpose give boil-ed flax seed in quart doses five or six times daily (as a drench). In cases where the early symptoms are extreme an operation by a must are extreme, an operation by a vet-erinarian is necessary. What is commonly called "grain sick" is simply impaction of the rumen with grain sick" is simply impaction of the rumen with grain. When an animal has had the op-portunity of eating excessive quan-tities of grain, the usual custom of shutting in the stable, allowing noth-ing to eat or drink, and awaiting developments, is absurd. The owner or attendant should anticipate trou-ble by at once administering a brisk purgative, as for ordinary impaction. Allow nothing to eat, but allow all the water he will drink, in small quantities and often, in hope that purgation will commence before dispurgation will commence before distress appears. Of course, in cases of "grain sick" where the early symptoms are severe, an operation called "rumenotomy," which consists in cutting into the rumen and removing some of its con-tents by hand, should be performed by a veterinarian .- J. H. Reed, V.S., O. A. College, Guelph.

PARIS THEATERS

Sleeves That Flare. The Paristan theaters are beginning to be an expression of the late fashions

both from the standpoint of the artist appearing on the stage and the audience which gathers nightly to witness the new plays, writes a Paris fashion correspondent. A premier, or first night, in Paris always brings a fashionable crowd. When Ventura made her debut in a new role in "La

Dress Worn at the French Theater

Local Agent-J. W. McLaren. and white moravian pattern em-broideries, plus the fine hand-run stitches in brilliant crimson. So tremendous has been the success of this Czecho-Slovak embroidery that Lanvin, who launched it last summer, was practically forced to continue its use for spring.

Russian Dress in Redingote Style. Thanks to Lanvin's system of organized effect this house always launches exclusive new materials as well as new embroideries. It is said that her orders are often placed three years in advance of her needs and are of sufficient size on certain specialties to make it worth while for the French menufacturer to give it to no other house during the lifetime of the vogue. The oriental touch is not lacking in Lanvin's new spring line, for she has just brought out two wonderful models with cuff trousers. This may sound very funny, but it is just what they are. There is a straight, slightly draped skirt and below this are attached two rather stiff cuff bands three or four inches deep and suffi-ciently large for the feet to pass through. These are sewn inside the hem of the skirt. The feet pass through and the skirt thus becomes a panta-loon. That these cuff-pantaloons'should not escape the attention of observers, they are embroidered elaborately in high colors exactly to match the embroidery on the dress. A further strik-ing note is added when the wearer. has slippers embroidered in exactly

the same pattern. Sleeves That Flare; Pantaloon Cuffs. Two charming robes of this character, one for afternoon and one for evening wear, have been big successes; both are developed in black satin and the embroideries are in ruby-red beads and silver threads. The afternoon dress is in the chemise type and passes over the head. Like many other Lanvin models, it is arranged to button high about the throat with a straight collar band, or to be worn open in a deep V point. The sleeves and the pantaloon cuffs are the strikingly new features. The former are in bell shape with massed embroidery covering almost their entire length. The bell flare is about eight inches wide at the bottom, the sl self heing s good three-quarters length. The dress girdles in blouse effect at a normal waistline, the belt being also richly embroidered, and there are two slender skirt, also embroidered. To the hem are attached the pantaloon cuffs, which are brilliantly embroidered. The evening dress, also in black satin, is embroidered in exactly the same colors, red and silver of very elaborate and extensive pattern. Almost the whole front of the skirt has an apron pattern of the embroidery. The pantaloon cuffs are embroidered. The bodice is in semi-decolletage style, slightly square neck at the back and very deep surplice V point at the front. It shows elaborate embroideries at the front outlining the crossing decolletage. The very short sleeves, perhaps five inches long, are entirely covered with embroidery and there is an embroidered sash.

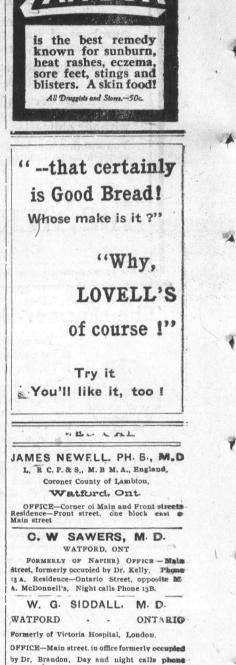

Bands of Sable. thick. On these handles graceful Egyptian figures are cut, the silhou-

etted figures being in ivory with a background of celestial blue. A handsome one has a handle of brown wood carved to imitate the joints of The tips, ferrule and ornabamboo. ments on the handle are carved coral. the silk cover is brown to match the wood.

Fili Fashions.

Mr. R. W. Dalton, in his report of the trade of the Fiji islands, says: Shirts are gradually gaining in popularity among the Fijians. All kinds of soft tennis shirts with collar and pocket or collar and two pockets sell freely. These shirts are usually worn for dressy occasions, when the na-tives are generally clothed in white or cream. There is an increasing demand for khaki shorts and trousers.

Tulle Pink Over Cloth-of-Gold Foundation.

Voile Dechire" she wore a charming dress made by Jenny, one which has also been chosen by small Parisiennes in private life.

The dress of beige brown chiffon, with a hooping tunic which extends across the sides and front only, leaving the back very flat, according to a certain phase of the newest fashions. The tunic owes its buoyancy to the bands of sable which pass in seven rows around it. The bodice is in simple, slightly bloused form, with kimono sleeves which turn back in deep cuffs just below the elbow, but, remaining transparent, reveal the grace-ful lines of the arms. A band of sable passes around the half-low neck at the back and outlines a sort of vest at the front. A slight touch of color is given through the girdle of copper rose and the addition of tassels of this same burnished color down the front. Tulle of Pink Over Gold Cloth.

Another theater dress, from Lanvin, which is proving very interesting to private customers as well. is of pink tulle over a cloth-of-gold foundation. There is a hoop frame made of artificial flowers which passes around the hips, holding the tulle out with the fashionable bouffancy. This effect is further exaggerated by rose ruchings of tulle, which girdle the skirt twice between the hips and the knees. Underneath, the gleaming gold foundation skirt clings tightly to the figure of the wearer. Thus the pink tulle skirt forms only a hooplike transparency and leaves the figure of the wearer svelte and graceful.

Lanvin is emphasizing black and white for spring and summer. This was evidenced in her mid-season modéls, prepared for the Riviera season, and is again apparent in spring opening models.

She is making much use of white Kascha, Rodier's cashmere serge, in combination with black satin for simple street dresses of the tailored type, many of which show the black

.....

Umbrella Is an Adornment.

Dressmakers are showing great interest in umbrellas as accessories to their costumes. This is the first time that umbrellas have been considered adornments. The newest of them, like the French shoes, are clumsy and stubby in appearance. Brown is the fashionable color. The novelty in umbrellas is the clublike stick, most elaborately ornamented through wood, ivery and tortoise shell carvings and other forms of decoration.

These umbrellas have made their first appearances through exclusive shops, as well as the Paris dress-makers. Therefore, many of the designs are exclusive to the individual house selling them. Among the most notable are the carved ivory handles which are at least three inches wide and from one and a half to two inches

WEAK AND NERVOUS

Tillsonburg, Ont.—"I found Dr. Pierce's Favorite Prescription an excellent medicine for the ailments of women. I had become very weak and nervous. I was just miser-able when I began taking the 'Favorite Prescription' and it proved most beneficial. It so completely restored me to health that I have never hed any return of this ailment I have never had any return of this alment. I do advise the use of 'Favorite Prescription', by women who suffer with womanly troub-le."—MRS. GEO. WALKER, P. O. Box

Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were injurious and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

POINTERS ABOUT MILK Information Relating to Cheese

Factory and Town Supply. The Percentage Composition of Milk

-Handling Milk for the City Trade - Hot Weather Poultry Counsel.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE term percentage means so much in 100-that is, in one hundred pounds, gallons, etc. The composition of milk is usually stated as so much of each part in one hundred parts or pounds. This varies considerably according to breed of cattle; lactation period. or length of time milking; whether first or last of the milking, and upon many other conditions. Usually, however, in Ontario, the milk will have about the following composition:

Water 87.5
 Fat
 3.5

 Casein and albumen....
 3.2

 Sugar
 5.0
 Ash 0.8

Total 100 The buttermaker takes one part only from the milk, the fat. The cheesemaker takes out chiefly two parts or constituents, casein and fat. The condensery and powder milk manufacturers make use of all the solids in milk for human food, hence are able to pay higher prices for milk than can manufacturers of butter and cheese. Because milk contains on the average only about three-and-one-half pounds of fat, which when made into butter has which when made into butter has mixed with it from 16 to 20 per cent. of water and salt, thus making only about four pounds of butter out of 100 pounds of milk, we see why but-ter must of necessity be a high price per pound. The cheesemaker is able to make 8½ to 10 pounds cheese per 100 pounds milk, consequently is able to sell his product at about one-half the price per pound which buthalf the price per pound which but-ter sells for, and yet pay as high, or higher prices per 100 pounds milk than can the butter manufacturer. The condensed and powder milk manufacturers are able to sell their products at a still lower price per pound, because they are able to recover from twelve to twelve-and-on half pounds of solid food material from 100 pounds milk.

From the foregoing we see that the commercial value of milk has a very close relation to its composition, and the use that is made of the various parts of the milk solids .--- H. H. Dean, O. A. College, Guelph.

Milk For the City Trade.

"Safety First" is a good slogan in the milk business. To make milk safe it must be drawn from healthy cows -preferably those which have pass-ed the tuberculin test; the stable, pasture and all surroundings must be clean; the utensils which come in contact with the milk must be clean; the persons handling the milk should be a living advertisement of exemplified cleanliness; the delivery wag-ons, cans, measures, etc., should be clean. In order that assurance of safety may be doubly sure, it is ad-visable to pasteurize the milk—that is, heat it to 140 degrees to 150 degrees F., hold at this temperature for twenty to thirty minutes, then cool to 50 degrees F. or below and hold at this temperature until delivered to the consumer. Pasteurized milk is the safest kind of milk for humans to drink. The person buying milk has cer-Among these may be mentioned, plac-Among these may be mentioned, plac-ing the milk at once on delivery in a refrigerator or cool cellar protected from dust and odors, and by keeping it in a tightly closed vessel—prefer-ably in the milk bottle covered with an inverted glass tumbler, or spe-cial cover; the top of the milk-cap should be wiped to remove dust be-fore taking it from the milk bottle; no more milk should be taken from the supply bottle than is required for a meal; any "left-over" milk, should, not be put into the supply vessel after the meal, as this will likely spoil the whole of the milk on hand; milk taken to a sick room should not be used for any other pur-pose, except it be boiled, and then only for cooking; milk bottle should pose, except it be boiled, and then only for cooking; milk bottle should be washed as soon as empty, and be promptly returned to the milkman. In no case should milk bottles be used for any other purpose in the house than for holding milk. Milk is a perfect food for children, and also for "grown-ups," along with other substantial material. It is cheap food at ten to twelve cents a quart compared with the price of other foods. Insist on good, clean milk and foods. Insist on good, clean milk and be willing to pay a reasonable price for such milk. Milk producers and milk consumers should co-operate.— Prof. H. H. Dean, O. A. College, Guelph.

PRESERVATION OF FOOD Essentials in Saving Vegetables

and Fruits. Sterilizing Preparatory to Canning

Described - Drying Methods and the Cold Pack Also Described.

(Contributed by Ontario Department of Agriculture, Toronto.) is a universally known fact that foods not properly preserved will spoil. They will ferment, de-

cay, putrefy or become moldy These changes are brought about by the development of bacteria, yeasts and molds on or in the food. If these micro-organisms can be prevented from growing on or in the food it will not spoil. Therefore, the question of food preservation resolves itself into the problem of preventing these bacteria, yeasts and molds from growing or multiplying on or in the foods. This is done in various ways according to the nature of the food

to be preserved. In the preservation of such vegetables as green peas, beans, asparagus and green corn, cooking and sealing are necessary. These are green and juicy, and if stored in the fresh con-Juicy, and if stored in the fresh con-dition they will either wilt or fer-ment and rot. This fermentation and rotting is due to the development of the bacteria which are present on the vegetables. There will be sufficient moisture present in the mass to enable the bacteria to multiply and feed on the material and thus induce the rot.

So in order to preserve such vegetables in the fresh condition the bac-teria present have to be all Lilled and all other bacteria prevented from getting on the material until it is to be used. In order to accomplish this the process of canning is resorted to. To get satisfactory results from can-ning wegetables it is necessary to have: 1st. Good sound healthy vegetables.

2nd. Good clean sealers with tight-fitting tops and good rubbers. 3rd. Wash the vegetables and fill

into the sealers. 4th. Cover with water salted to taste.

5th. Put on the tops and leave slightly loose. 6th. Place sealers in a steamer or

boiler half filled with cold water and heat to the boiling point for half an hour. 7th. Remove sealers from boiler or

steamer and tighten down the tops. 8th. After 24 hours loosen the tops and return to the boiler or steamer and give another half hour's boiling.

9th. Repeat this process after an-other 24 hours. Then tighten down the tops and place away. This treatment should destroy all

micro-organisms present, and if the top is hermetically sealed no others can get in until it is opened. Another method of sterilizing is to ive one boiling to the filled sealers

and kept boing for hair an noar. The sealers are then removed and the tops screwed down tightly at once. When cooled, store away.—Prof. D. H. Jones, O. A. College, Guelph.

Feed Plenty to Hens.

Feed plenty of the feeds you have on hand. Hens prefer rolled oats and barley to whole grain. A ration of one-third each of oats, barley and cracked corn gives first-class results. Supply plenty of tender green feed, shade and clean drink. Water should be given in abundance and must be given in abundance and must always be clean and fresh. Barnyard water is extremely bad. Sour skimmilk is excellent.

Hot Weather Poultry Counsel. The rooster, unless kept for next year's breeding, is too expensive a luxury to keep—and he'll help relieve the meat shortage.

The market for the cull stuff pre-mises to be good this month-and by marketing in June the distribution in more equalized.

By eating the poor layers the farm-er gains in two ways-he eliminates the profit-takers from his flock and he lowers the meat bill for his table. The sowers the next of nod layers The small farm flock of good layers is always' more profitable and satis-factory than the large flock of poor

The good layer of the yellow-legged breeds at this season loses the color from the feet and bill and these lat-ter becoming almost white. The sleek plumaged, fat yellow-legged hens are smally very noor layers. It will pay usually very poor layers. It will pay, to cull them out now.

If Miller's Worm Powders needed the If Miller's Worm Powders needed the support of testimonials they could be got by the thousands from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first doce m show improvement from the first dose. m

Swiss Crops

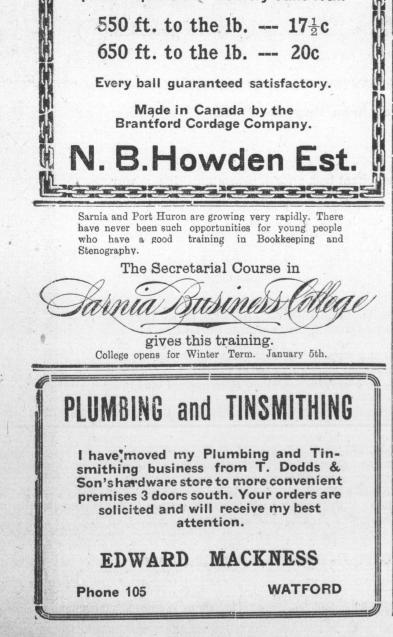

The crops in Switzerland in 1919, were considerably below those in 1918, with the exception of the fruit crop. This was due to unfavorable atmospheric conditions, a cold and wet spring, drought in early summer and again in late summer, followed by sudden falls in temperature and early frosts, and to the fact that the acreage planted in 1919 was smaller than in 1918. smaller than in 1918.

A Record In Prizes.

The secretary of the Brandon Winter Fair recently paid to James Turner, of Carrol, the sum of \$1,040 as his share of the prize money won at the big Manitoba show. This amount is claimed to be the largest ever paid to one exhibitor at any show in Canada.

The Friendly Water Trip.

It's a queer world. Sunday we spent in a friend's boat, making the trip to Wallaceburg, Ont. Along that stretch of blue water we passed every sort of people in every sort of boats, and in every instance we waved a hand in greeting to them and

1

Children Cry FOR FLETCHER'S CASTORIA

for three to four hours. This, however, cannot be depended on to give as satisfactory results as the above. Another method is to heat in steam under 15 lbs. pressure for thirty min-utes. This is the commercial way for which special strong steamers (auto-claves) that can withstand internal

Another method of preserving vegetables is by drying in special ovens. This drying process extracts sufficient moisture from the vege-tables to prevent the bacteria present from having the power to multiply from having the power to multiply unless the materials should get moist before being used. If sufficient mois-ture is not extracted, or should the dried materials get moist during storage, then decay or rot will rapidly develop, as the bacteria are not killed in the drying process and only require moisture to enable them to de-

velop. Such fruits as strawberries, raspberries, plums, peaches, currants, blueberries, etc., which are soft, can-not be kept any length of time with-out fermenting or molding unless they are canned.

The canning process is simply for the purpose of killing all mold spores and yeast cells that are on the fruit and preventing others getting on un-til the material is to be used. Canning fruits is not so difficult as canning vegetables because it is eas-

ier to kill yeasts and molds which affect fruits than it is to kill bacteria that affect vegetables. These fruits may be cooked in a

fruit settle, sugar added to taste, and filled hot direct from the kettle into sterllized sealers removed direct from scalding water. The covers, rings and rubbers should be put on at once di-rect from scalding water and screwed down tightly.

Another way to preserve such fruits is by the cold pack method. In this method the fruits are not cooked before putting into the sealer. Sound fruit not overripe should be used. This is picked over and filled directly into clean sealers. Stone fruit should be pitted.

A syrup of sugar and water sweet-ened to taste is then filled into sealers so as to completely cover the fruit. The tops, rubbers and rings are put on but not screwed down tightly. The sealers are then placed in a boiler containing cold water suf-licient to reach three-fourths up the sealers and this is brought to a boil

they waved to us. It was no trick at al! to get a warm and genial sign of friendship from passershy. The peo ple on land saluted us. It seemed as though we were continually being welcomed as we arrived in sight and wished good luck as we departed.

Yet on land we could have passed by the same people time after time and not one of them would have turned to look or wave a hand. Why can't people be as friendly to land travelers as they are to those who travel by water? It's a queer world .-- Cleveland Leader.

Priests Fought as Poilus.

Yesterday on the Rue St. Honore I met two priests, one wearing an empty sleeve, one wearing a mechanical leg and both wearing the Croix de Guerre. "Were you in the war as chaplains?" asked.

"No," replied the one-legged priest, "we were poilus. Most of the younger priests fought in the ranks."

"But I suppose very few were wounded?"

"On the contrary," replied the one-armed one, "the percentage was high. You see, we had no families, so it was only right that when there was some thing dangerous to do we should go first."-Lee Shippy in Kansas City Star.

Cotton Production Welcome.

Mesopotamia has always grown some cotton, which modern methods may improve. Of this material may have been the veil with which Rebekah covered herself at her first meeting with Isaac, as she journeyed under the guidance of Abraham's servant; from Mesopotamia to Canaan to become Isaac's wife. Cotton competi-tion between Mesopotamia and Egypt. would be particularly attractive. And cotton is one good thing of which war's tatterdemalion, the world of todsy cannot have too much .--- Boston Herald.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaran-teed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of con-stipation, indigrestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beausejour, Que, writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recom-mend every mother to keep a box in the house." The Tablets are sold by medi-cine dealers or by mail at 25 cents a box form The Dr. Williams' Medicine Co., Brockville, Ont.

SMITH-LAING

A very pretty but quiet wedding took place at the Methodist parsonage, Wat-ford, on June 9th. when Verna Mae. only daughter of Mrs. Adeline Laing, was united in marriage to Ray V. Smith, son of Mr. John Smith. Rev. A. C. Tiffin performed the ceremony. The bride wore an alice blue silk gown. The bride and groom were unattended. The happy couple left on the afternoon train for Hamilton. Toronto. Niagara Falls. for Hamilton, Toronto, Niagara Falls. The bride travelled in a navy blue suit and small blue hat. They will be at home to their friends after July 15th.

GAMMON-LOCKERY

A pretty wedding took place at the bride's uncle, Major W. Bryant, Thed-tord, on June 3rd, when Miss Mabel M. Lockery was united in marriage to Mr. G. Clifford Gammon, of Ayr, Ont., but for past year accountant on the staff of the Thedford branch of the Canadian Bank of Commerce. The ceremony was performed by the Rev. McInnes in the presence of the immediate relatives of the contracting parties. They were un-attended. The bride was given away by her uncle, W. Bryant. The bride was becomingly attired in a dress of blue satin and carried a boquet of lily of the walley. Cullen Bryant played the wed-ding march. After the ceremony they left by motor for London and other points on a short trip. Upon their return they will reside in Thedford.

UTTERLY HELPLESS FROM ST. VITUS DANCE

The Sufferer Restored to Health Through the Use of Dr. Williams' Pink Pills.

St. Vitus dance is a disease of the ner-ves brought on by a morbid condition of the blood. It is a common disease with the blood. It is a common usease with children, and attacks girls more frequent-ly than boys. Irritability is frequently one of the first signs noted. The child frets, it is quarrelsome, and does not sleep well. The jerky movements that characterize the disease come a little later. The patient becomes pale, lauguid later. The patient becomes pale, lauguid and often constipated. The limbs and sometimes the whole body jerks spas-modically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be heart onic discas a mutriliume dist rekept quict, given a qutritious diet, re-main out of doors as much as possible, and above all things given a course of Dr. Williams' Pink Pills to build up the blood and restore the shattered nerves. Without this treatment the trouble may become chronic and the patient a life-long sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is shown sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the following statement by Mr. Frank Scriven, Acton, Ont., who says: "In Jan-uary, 1917, when I resided at Milton, Ont., my daughter Gertrude, then aged fourteen, had a bad attack of rhemmatic fever, which left as its after effects a severe attack of St. Vitus dance. For weeks she was confined to her bed under the doctor's care. She was entirely help-less, being unable to even hold a spoon to feed herself. For a time she lost the power of speech almost entirely, and only with great difficulty made herself under-stood. The twitching of her muscles was no bad it was painful to see her. After a long time and taking a lot of medicine, she seemed to improve. But she did not seem to get along as she ought to. In November, 1917, we removed to Acton, and in January, 1918, she was again con-fined to her bed with St. Vitus dance. She was again in a terrible state and quite helpless. She was under a doctor's care and while there was an improvement she was still very nervons, did not look well and was always tired. In May, 1918, we decided to try Dr. Williams' Pink Pills, and see what they would do for for her. She took them regularly accord-ing to directions, and after taking several boxes there was a decided improvement. After a further use of the Pills she is now boxes there was a decided improvement. After a further use of the Pills she is now as healthy a girl as you would wish to see. She is fat, with a fine, healthy color and is strong and lively. The neighbors to whom she is well known remark on the wonderful change in her appearance since taking Dr. Williams' Pink Pills. Both her mother and myself are con-vinced that the pills have done her a world of good as she is far healthice than we at one time thought she ever would be." For all trouble due to poor blood and reak nerves there is no other medicine For all trouble due to peor blood and weak nerves there is no other medicine can equal Dr. Williams' Pink Pills. You can get, these pills from any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2,50 from The Dr. Williams' Medicine Co., Brock-

Mr. and Mrs. Paul Kingston were pleasantly surprised when about sixty of their friends and neighbors gathered at their home to spend a social evening with them before their departure for their new home in Watford. After enjoying an hour of social intercourse a short pro-gram of music and addresses was given. gram of music and addresses was given, Mr. L. MacLean acting as chairman. Before closing a beautiful oak chair was presented to the host and hostess, each making a kindly and fitting reply. Last but not least was the serving of lunch by the ladies. All returned to their homes wishing Mr. and Mrs. Kingston many years of enjoyment in retired life.

Address and Presentation

years of enjoyment in retired life. June 4th, 1920. Dear Mr, and Mrs. Kingston : Having learned ot your intention to retire from active life and business and to enter a new home, we, your friends and neighbors, have gathered in your home this evening with the desire and purpose of expressing to you our appre-ciation of the good neighborly kindness you have shown to us in the past. We wish to present to you this chair as a token of our appreciation and to wish you good luck and happiness in your future home. Signed on behalf of your friends and neighbors of school section No. 10. Mary Harrison Mrs. L. MacLean Alex, MacLean.

Alex, MacLean.

BORN

In Sarnia on Wednesday, June 2nd, 1920, to Mr. and Mrs. J. W. McLareu, of Watford, a daughter.

MARRIED

In London' on Wednesday, June 9th, 1920, by the Rev. D. A. McGregor, of St. Andrew's Presbyterian church, Mabel Irene, daughter of Mr. and Mrs. Wm. G. Logan, to Mr. Leander Gordon Foster, of Brooke.

ລາ

At the home of the bride's mother, Mrs, J. W. McLeod, on Wednesday, June 9, by Rev. Muxworthy, Miss Grace Mc-Leod to Mr. Ernest Rumford, of St. Louis, son of Mrs. S. Rumford, of Forest.

Rest. J. C. Forster, Mr. John S. Arm-strong, of Brooke, to Miss Bella A. McCauley, of Euphemia.

DIED

In Warwick, on Monday, June 14, 1920, William Campbell, aged 36 years, 2 months, 20 days.

In Arkona, on Friday, June 11th, 1920, Elizabeth (Bessie) Moore, of Warwick. In Brown City, Mich., on Friday, June 4th, Elizabeth Sparling, relict of the late Jos.Bell, formerly of Plympton, in her 80th year.

In Bosanquet, on Thursday, June 3rd, William A. Hillborn, aged 37 years, 1 month and 18 days.

In Strathroy, on Friday morning, June 4, Elizabeth Ashton, beloved wife of George Pullen, in her 74th year. In Metcalfe, on Saturday afternoon, June 5, 1920, Alexander Merrick, aged 71

years.

GINGHAMS FOR PALM BEACH

Half-Price Sale of MILLINERY

FRIDAY, JUNE 11th, we commence our Semi-Annual Half-Price Sale of all Millinery. Our policy of disposing of every dollar's worth of Millinery during the season for which it was bought is responsible for this sale at a fraction of cost price. Many have been waiting for this event and we would advise you to come early if you would save disappointment.

A. BROWN & CO.

"THE STORE THAT SATISFIES"

Suppose The Guide-Advocate ceased publication

UST suppose this community was left without a local newspaper! What would become of its local pride ? Watford would just be a name on a railway time-table or a post-office guide. Men and women might die, or marry, or go away, or suffer accidents, or entertain friends, and you would hear about it all only through gossip. Farm sales and other announcements of interest to this particular part of the wide, wide world would have no publicity. Our local merchants would have no cheap and quick way of telling you what they provide for you. Our churches and schools and other

Fabric Favored for Morning Wear Where Weather Does Not Demand Heavier Frocks

Ginghams prevail at Palm Beach for morning wear. One of the prettlest seen recently was of medium size blue and white check, buttoned up the back with pearl buttons and sashed with gingham, the ends tying in the back, apron fashion. The long sleeves had cuffs of sheer white lawn, hemstitched in blue thread, and the collar, of the same material, was round in the front and came to two points in the back on either side of the buttons.

Two small pockets in the front of the skirt were also trimmed with white. With this was worn an attrac-tive blue straw hat, with a wide brim, and on the large crown were several flowers in yellow and old rose, made from threads of wool yarn cut at the ends.

Friend Wife Laughed.

1 was motoring along one of our country roads in my trusty little bus with friend wife, who was carrying a most unwelcome bit of grouch, when I pulled alongside of a large, lazy sedan with a man trying to fix it. "Trouble?" I asked. "Some." was the laconic answer. "What power car is it?" "Forty-horse," came the answer.

"What seems to be the matter with it?"

"Well, from the way she acts, I should say that thirty-nine of the horses were dead."

This must have been the funniest of experiences, for my wife actually laughed-right out loud.-Exchange.

New Insurance Idea.

To stimulate marriage several insurance companies in Great Britain are now issuing what is called marriage insurance. It provides for pay-ment of \$2,500 at the expiration of 25 years or earlier, at death of the assured, and, in addition, \$500 in respect of each of five children born after the date of the policy who attain the age of twelve years, payable by five installments of \$100 each on the twelfth and four succeeding birthdays, institutions would have no medium of news or appeal. And this whole community would slip back and be the sport of joke-smiths.

Would city papers take the place of The Guide-Advocate ?

You know they would not.

The point of it all is this : You have read many times lately of the great scarcity and exorbitant high price of newsprint. It's a very serious time for newspaper publishers. Your home weekly is really hit harder than the big metropolitan dailies. Throughout the country scores of newspapers have given up the fight; dozens more will inevitably follow. In Lambton County alone, seven local weeklies have passed out just since the war. The only solution is-we must have more revenue to cover these ever-increasing expenses.

We are forced to raise The Guide-Advocate subscription to \$2.00 a year to assist us over this crisis in the newsprint situation. We are playing fairly and generously with all our subscribers, and we ask for your co-operation and support. We are giving all the opportunity of renewing for next year before July 1st at the old rate. Those who have not yet paid for this year may take advantage of the same offer before July 1st.

The Guide-Advocate enjoys the distinction of being one of the best town weeklies in Ontario. Scores of our brother publishers compliment us on our good service to Watford and vicinity. And we believe all our subscribers will back us up and help. us through the difficulty. \$2.00 is not a high price for a good home newspaper. In United States most town weeklies are \$3.00 and \$3.50.

BE LOYAL TO YOUR OWN TOWN NEWSPAPER
