DARING TRIP IN A SMALL YAWL

Yachtsmen Well Known in Nova Scotia Set Sail From Baddeck for Cowes, England.

There set sail from Baddeck Saturday midnight for Cowes, England, the forty five foot auxiliary yawl Typhoon, manned by Frederick W. Baldwin, better known as "Casey Baldwin", of Baddeck; William Wallace Nutting, yachtsman and editor of the Motor Boat Magazine, New York and James Dorset, mechanician, Baddeck which was built by Dr. Alexander Graham Bell's staff at his wonderful home of science "Beinn Breagh," is about the size of the late Captain Josh Slocum's famous yacht in which he crossed the Atlantic some years ago. The Typhoon is forty five feet long, twelve beam, displaces about twevle tons, and has a seven and a half horsepower Diesel crude oil engine She will make six to seven knots per hour in fair wind and weather.

The thee daring navigators expect to reach England in twenty two days. 1 They sailed from Baddeck for St. Pierre, Miquelon. It was then their plan to sail from the French islands 1 direct to the Irish coast, a distance of nineteen hundred and fifty miles. The 2 yacht carries two fresh water distillers, the latest invention of Dr. Graham Bell, who publicly presented them to the Typhoon at a 24 farewell reception given her crew

Baddeck on Saturday On arrival at Cowes, the yachting centre, the 29 Typhoon will be changed to sloop rig and will enter the races there. She sails under the British flag and in the races will fly the Burgee of the Brass D'or Yacht Club, of which Mr.

Both Messrs Baldwin and Nutting are very well known to Halifax yachtsmen. Mr. Baldwin, who is Dr. Bell's right hand man at Baddeck, has always been known as a yachting Opened in Bridgetown Monday With expert. His little R class boat "Scrapper II" successfully competed for the Coronation Cup the blue ribbon trophy of the Maritimes until The Inspectorial Training Institute Vivian R. ACCIDENT NEAR

Health Caravan Suffers Serious Loss Thru Fire

YARMOUTH, July 23-The Nova Scotia Red Cross health caravan. charge of Dr. Douglas, arrived in Yarmouth shortly after noon today, and after a brief stop proceeded to Tusket. When about half way bethat village and Yarmouth the Ford tiorry took fire and was practically destroyed. The Delco lighting system used for the moving pictures and illustrated lecture was on this lorry and was totally ruined, as was also four reels of films. ortunately, however, the outfit has hese reels in duplicate, and consequently that loss is not so serious. is supposed the fire started from a short circuit in the mechanism of somewhat singed, but beyond that no one was injured.

FAREWELL SERVICE

other Star on Service Flag. The Missionary service flag of

Springfield, Mass., had another large white star sewed on to the red background during an impressive farewell service in recognition of Miss Lena A. Keans, a former school teacher in that city, who will leave for South India in October to take up educational work under the Woman's Baptist Foreign Missionary Board. Miss Keans was introduced to the

several hundred persons who filled the auditorium by Rev. C. H. Leggett, superintendent of Springfield Rescue who preached a farewell service during the exercises. The Strawberry Syrups, Welsh's missionary described briefly her reasons for going to the foreign field and her preparation in this country in Gordon Bible College in Boston. After telling of the urgent need for educational workers in the institutions that are being maintained take up on her arrival in India,

throughout the East and of the different phases of work she intends Miss Keans said that she was fulfilling her desire that had been felt for number of years and that she believed would be impossible for her to llow discomfort and sacrifice

iterfere with what she consider neant to be her life work. STEPS NECESSARY

Comparing missionary work to that a jeweler's and the Christanizaton of the world to the cutting and Sugar will probably advance, polishing of stones after they have een secured from a mine, Rev Mr. Leggett in a sermon on "Jewels" said Redpath XXX Granulated that there were three steps in the work of a missionary and ministers at home that were necessary before

Men and women, he said, must first These three candidates have had be found in much the same way that precious stones are picked up after careful investigation. They must Infant's Delight, 3 cakes 32c CANDIDATE FOR TEACHERS' PASS then be cleaned so that they can be more easily prepared for a setting and then Kellog's Toasted Cornflakes, 2 cut and polished. The work of a missionary, he said, consisted in

PRESENTED PURSE

At the close of the sermon Miss Keans received a purse from members a of the church and an embossed book, brief remarks beside each signature telling of their appreciation of her work and the purpose that prompted A. her to go into the field.

A musical program included several solos and a special number by Phope 26-II Evelyn and Elinor Barris, two girls who have been active in the Sunday school of the church and who have known Miss Keans for some time. Another special number was sung by Mrs. Elwood Stewart during the adding of a white star to the service

The service closed with a benedict by the Sub Juniors of this town. Score There are now two stars on th

On Thursday, July 22nd, the merchants were defeated by the Hazel E. Barney, another one of flag. In December of last year, Miss winning first and George Foster one of the compounds. A young man second prize. Harold Hearn was a from the church entered Colgate On Friday night, July 23rd the Theological Seminary to train for members are now in training for Christain work in the Moody Bible

Miss Keans is the daughter of Capt Bridgetown at Bridgetown; and Mrs. Edward Keans, of Port Wade tville vs Berwick at Berwick.

NO HOTELS NECESSARY

(Digby Courier)

A party of Americans have arrived here who are entirely independent of hotels and hotels restrictions. They have brought a complete camping outfit with them and are occupying a field on St. Mary's street. SUMMER APPLE SPRAYING

By Geo E. Sanders

In most seasons one can with a fair degree of safety lay up the pump in the early part and be fairly sure that bo more apple scab will develop. Apple scab we know is a fungus that develops best in cool damp weather and that warm weather retards and hot weather checks its

growth. We have had a great deal of weather during the past two weeks that was favorable to the development of apple scab or blackspot, the weather being cool as well as damp. News comes now of an unusually large amount of ice coming through

PHOSPHONOL FOR MEN

Healthy Mothers

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

PROFIT FROM **POTATOES**

> Annapolis Royal, N. S. By G. E. Sanders

minion Entomological Laboratory

In view of recent investigation into the conditions of potato districts competing with the Maritime Province it would appear that spraying potatoes will this year be more profitable than usual. Those who have potatoes planted are fortunate and now that they have spent from \$100 to \$150 per acre that will without spraying turn 150 bushels of potatoes, they should consider investing another \$20 in labor and material to spray five times and thus insure from 100 to 200 more bushels of potatoes and also make certain that the whole crop will be

The spray calendar for potatoes First spray, when plants are six inches high' 4-4-40 Bordeaux and

 $1\frac{1}{2}$ lbs. arsenate of lime to 40 Second spray, 12 to 14 days later, 6-6-40 Bordeaux and 11 lbs. arson-

ate of lime to 40 gallons. Third, fourth and fifth sprays two weeks apart and of the same material as the second spray. If bugs are not present the poison may be

Apply at least 60 gallons per acre and better make it 100 gallons per

omitted.

Thorough spraying costs only \$20, for five applications and will give a greater increase in yield then a half ton of high grade fertilizer. No oue would think of planting potatoes without fertilizer or manure, yet the spray only costs one half as much and will give a greater increase, yet it is often neglected.

The indications are that spraying will be particularly profitable in 1920, so every grower is urged to spray thoroughly.

CANADA'S STANDARD APPLE BARREL

Prior to 1918 the Federal law with respect to the size of apple acity of 96 quarts. This sized barrel was used in Nova Scotia, but in Ontario a slightly larger barrel was used. At a Conference of Fruit Growers, held in Ottawa in March, 1918, at which representatives from all fruit growing provinces in Canada were present, it was unanimously recommended that legislation be enacted standardizing the apple barrel. Legislation in accordance with this resolution was assented to on May 24th, 1918, prescribing a Standard Apple Barrel of a capacity of 7,056 cubid inches, 17 1 8th inches in the head, 26 inches between heads, inside measure, 64 inches circumference at the bilge, outside measurement. This became effective June 1st, 1919. In order that those uaving old slze apple barrels left over should suffer no loss, permission was given to use such old barrels (manufactured previous to June 1st,

1919) during the past season. There is no doubt as to the benefits which must come from the adoption of the Standard Barrel and as Growers and Shippers have been given every opportunity to dispose of the old barrels, the Act will be rigidly enforced during the present season. Growers and Shippers should, therefore, see that t'e barrels furnished them are in accordance with the requirements of the Act, as anyone using barrels of any other size than prescribed, is liable to a penalty for violation of the Law. G. H. VROOM, the Law.

Chief Fruit Inspector. UNIQUE WAR SOUVENIR

An electric lamp, made almost entirely of souvenirs of the World War has been made by J. R. Robertson, of New Glasgow, N. S.

For three years Mr. Robertson has been working on the lamp. A piece of twisted steel plate from the ill fated Mt. Blanc, which was blown to pieces in Halifax Harbor in Dec., 1917, is in the base, as well as one of the first shrapnel shells made in Nova Scotia. A sword handle is also used in the make up of the lamp, as well as the iron helmet worn by Private McIsaac of Sydney N. S. This helmet is fringed with rifle cartridges The cartridges were used in military funerals in Halifax. On the helmet and about the lamp are numerous metal insignia.

The lamp pull is a button from the uniform of an Indian sniper from Nova Scotia, who had over 70 Germans to his credit at the close of the war.

A TRIAL ORDER SOLICITED. ELIAS RAMEY Proprietor

over great stretches of territory presenting widely different problems.

Their traffic obligations fluctuate rapidly with the seasons.

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war-were Canadian railways.

Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their load, she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself!

This is the first of a series of advertisements published under the authority of The Railway Association of Canada formerly the CANADIAN RAILWAY WAR BOARD
