LIQUIDATION FOR PROFITS AND FOR
HIGH MONEY RATE — RECESSIONS
ARE PROBABLE — ROYAL ELEC-
TRIC AND MONTREAL-LONDON 1 UP

Montreal, Sept. 13.

With money rates high as they are now, and as they are likely to continue for a month or longer, holders of high priced stock who had bought it when it was low, must be expected to liquidate. Selling on a market which though of late weaker than it has been, is still strong at high values, they will secure large profit and will loan out their money at the advanced interest rate. Much of the local selling of railway stock can probably be traced to this source alone. Not to go back further than a month or more, some stocks were then bought low which now sell high. It is contrary to the general rule to sell on a decline, yet the general rule is more honored in the breach than in the performance, with prices so good and money rates so high. There may be greater surprises than that the break should be prolonged. The period of high values has continued for a long time, long enough to cause a reaction to be expected, and high rates for money also strengthen the bear position. High prices and high rates being contemporaneous now, have brought about a very unusual coalition of bears and sellers, a coalition which will last just until declines have been brought down to a point when little or no profit is secured by selling. That the selling movement is now in operation was instanced this forenoon when 13,827 shares changed hands. Recessions were not general, so that selling on the break was only partial. It need not be wondered at, however, if today's declines of $\frac{1}{2}$ in Montreal St. Ry. and in Union Bank, of $\frac{1}{2}$ in

Twin City and of 2 in War Eagle, should become owing to liquidation for profit and for high interest, a common enough feature of the market in the near future. As yet liquidation being on a limited scale, did not today affect the level of prices in Payne, Montreal Gas and Bank of Montreal which sold the same as yesterday, or in Canadian Pacific, Toronto Ry., Republic, Quebec Bank Montreal-London, and Royal Electric, the first four of which were $\frac{1}{2}$ higher and the last two 1 higher than they reached in their last sale. The forenoon's market was broad and its feeling buoyant.

STRAWS.

International Paper directors have declared regular 1 $\frac{1}{2}$ p.c. on preferred stock. No action taken on common.

According to a decision of Judge Thomas in the Circuit Court Saturday, Federal Steel may pay dividends on its preferred stock.

Pending settlement of difficulties in the Transvaal, it is proposed to transfer the business of the Johannesburg Stock Exchange to Cape Town.

The People's Gas Co. of Chicago, having failed to secure the Ogden Gas property, a rival, will, it is said, take such steps as cannot but provoke a gas war in that city.

Banks in the States are said to be more vitally concerned with stocks than ever they were before and are more anxious than any one else that stocks should go up, for they have most to lose by their going down.

At Seattle, Wash., the steamer Cleveland arrived lately from St. Michaels with \$1,000,000 gold for the U. S. assay office. Of this \$600,000 were consigned by the Canadian Bank of Commerce and \$400,000 by the Bank of British North America.

Speculators are thinking of investing in Kaffir stock, on its bedrock value being reached on the declaration of war, because cessation of hostilities will mean a very large advance and consequent big profits.

The shareholders of the J. O. 41 Co. are to be congratulated upon having secured the services of Messrs W. W. Mulkin, president, E. H. Keating, H. J. Mathews, Trenton, and W. Lamport, as directors of the reorganized company.

Rutland Railroad having, it is said, purchased the United Counties Road, will in this way open an independent route to Montreal. It is also building from Burlington, Vt., to meet the Ogdensburg and Lake Champlain near Lacolle.

A new movement of much interest and importance has commenced with the introduction of 25,000,000 Mexican government bonds into the New York market by J. P. Morgan & Co. These new securities will take precedence of Cuba and Porto Rico,

MONTREAL MINING EXCHANGE.

MORE DEMAND — MORRISON STRONG
— WAR EAGLE DECLINES — RAMBLER CARIBOO ADVANCES.

Montreal, Sept. 13.

There were several signs of strength underlying the transactions in this morning's market, although the demand in some instances was a trifle off. War Eagle in this particular was weaker, although there was no sale recorded, it was offered as low as 47 with buyers only bidding 44. Payne and Republic were practically unchanged, no sales being made in either issue.

The quiet absorption of stock continues, many holders increasing their holdings, offerings from the West are not so plentiful at present as they have been and should there arise any greater demand for stocks, the result would be a material advance in prices.

Morrison sold today for the first time this month, no sales have been made previously since the last of August. The demand was good and "talk" was of a bullish nature, it might easily sell at 25, it sold thus morning at 18½ and 17½, 6000 shares changing hands.

Montreal Gold Fields did act up to the expectations of those interested, it sold for 2500, at 15. Recent development work on the Gertrude proves to be most satisfactory. The Gertrude is owned by the Montreal Gold Fields Co., and consists of 17 acres of mineral land situated on the Red Mountain near Rossland, B.C.

Rambler Cariboo continues to advance; it sold at 48½, but was freely offered at 49. California also keeps firm at an unchanged figure, 12½ being paid for a sale of 500 shares.

Slocan Sovereign and Deer Trail were amongst the most active, but little change took place. The latter being traded in to the amount of 10,000 shares.

The continued increase and continually increasing shipments of ore to the different smelters, should be a sufficient guarantee to any timid holder of stocks, it speaks for itself, new machinery continually being put in place. So as to meet the increasing demands and to accommodate the heavy output is a very healthy sign and should engender confidence.

MORNING SALES.

Morrison—5000, 16½. 1000, 17½.
Montreal G. Fields—2500, 15.
Monte Christo—1000, 7.
California—500, 12½.
Deer Trail No. 2—3000, 23½. 7000, 24.

NEW YORK EXCHANGE.

LESS LIQUIDATION THAN YESTERDAY
— T. I. C.'S ERRATIC COURSE ATTRIBUTED TO ITS MARKET STOCK BEING SMALL — FOREIGN BANKERS WERE LENDERS AT 7 AND UPWARDS.

New York, Sept. 13.

There is a marked improvement in sentiment abroad. Consols are up 1-16 to 1. Advances in Americans range from 3 to 1 p.c. The reason for this somewhat more cheerful feeling is that the outlook for peace in the Transvaal is said to be brighter.

Great interest is, of course, being taken in the action of the St. Paul directors who meet to-morrow.

A week ago it was confidently believed that an extra dividend would be declared, but during the last two days this confidence has been somewhat shaken by the utterances of some semi-insiders. Considering that the company earned something over 11 p.c. in their last fiscal year; it would seem that the stockholders are entitled to an increase in the returns.

After the close yesterday the Street was less inclined to be bearish than for some time. A good many weak accounts have been shaken out and stocks were thought to be in stronger hands.

Money is not likely to work much easier, and higher rates than those which existed yesterday are not expected. For some few days the rates will probably vary from 6 to 9 p.c..

The failure of Flower Brokers to support B. R. T. yesterday was thought to indicate that the story that the Flower party had sold considerable of their holdings was true. A good deal of yesterday's buying was undoubtedly the covering of shorts.

Insiders still talk of 150 for T. C. I.

There was some bull talk on A.M.T. Considering the higher prices from London and the fact that a good many weak accounts have been eliminated, it seems probable that at the opening at least, we shall have a higher range of prices.

New York (noon), Sept. 13.

The opening of the market was firm, being favorably influenced by the foreign market, London being a moderate buyer of International stocks. There was a marked falling off in the liquidation which caused yesterday's decline, but on the whole there seemed to be less desire to buy, consequently the market suffered in the way of activity.

T. C. I. continued to fluctuate in the most extraordinary manner, but its tendency was towards higher prices. The explanation of these violent fluctuations is said to be that a large amount of stock has been taken out of the Street and locked up and that what is left is comparatively insignificant.

One of the few weak features was B.R.T. the support to which was meagre, and liquidation in which seemed to be fairly heavy.

Below 96, however, there were indications of Flower buying, and this was not unnaturally following by some short covering.

Manhattan was again active and strong. The Room is full of bull tips on it and the story of Mr. Whitney having bought the control is again in circulation.

There seemed to be somewhat less anxiety over the money situation. Foreign bankers were lenders this morning at rates varying from 7 to 7½ p.c., and some loans were made on dividend paying railroad stocks at 6 p.c.

MINING NEWS.

News from the Klondike, Slocan and the Kootenays.

Seattle, Wash., Sept. 11.—A consignment of one million dollars' worth of Klondike gold for the United States assay office here arrived last night on the steamer Cleveland from St. Michael. The consignees were the Canadian Bank of Commerce, \$600,000, and the Bank of British North America, \$400,000. The Cleveland had one hundred passengers from Dawson and Cape Nome.

Vancouver, Sept. 10.—The mining outlook has been improved by a report which comes from the Slocan that at last the end of the labor troubles is in view. A caucus of the Slocan mine owners was held in Sandon on Saturday week and while no definite move was taken the question was virtually settled and it only awaits the combined action of the mine managers of this and Nelson districts to arrive at a settlement of the difficulty that has caused the inaction in mining circles for three months past. The decision arrived at by the caucus was to resume operations at once, with the wage scale at \$3.50 for miners and \$3 for muckers for the eight hour shift. This is the old scale, but the mine managers will refuse to recognize the union and non-union men will be given the preference.

The Slocan mines shipped 83½ tons of ore last week.

Three feet of solid ore is showing on the Rambler Cariboo.

The Dardanelles will be pumped out this week, and work will be resumed; twelve men will be employed. The company has eight hundred cords of wood on hand, and has just put in some new machinery. The shaft is down 507 feet.

Fred. Robbins, consulting engineer of the Mann syndicate, is at the North Star mine, East Kootenay, making an examination of the property. The diamond drill from the M. C. Bullock Mfg. Co., is now on its way to the mine. It is the intention of the company to materially increase its force, and to take out a large amount of ore for shipment as soon as the railway is completed. A new bunk house, boarding house, and other necessary buildings are being erected.

Messrs. A. W. McCane and W. L. Hoge, who, with McCuaig, Rykert and Company, of Montreal, have just purchased the Galena Farm property in the Slocan, have returned to Salt Lake City after a lengthy visit to their latest purchase.

The property was thoroughly examined, and preparations made to put a large amount of money into it. The new owners of the Galena Farm propose to develop and operate the mine on scientific mining principles, and considerable money will be expended in improved machinery.

The luck of Mr. J. P. Graves, the mining man, has often been commented upon, among gossips about mining men and affairs. He has succeeded in developing rich properties in the Boundary Country, until he and his wealthy associates became convinced that a smelter was wanted, and the Montreal investors swarmed after the smelter stock. Now the smelter is under way, and if the Grand Forks Chroniclers are telling the truth, fortune has dealt Mr. Graves what may prove another good land by opening coal beds near the smelter, and thus furnishing a much desired article, which, hitherto, has never been known to exist in the Boundary Country.

STRAWS.

Rennes—Reported Dreyfus is pardoned.

Sec. Gage informed an interviewer that Mr. Morgan only asked that the course be kept clear for the yacht race.

Gage also said that the New York banks can take care of their own stringency, and that there is no such stringency as would call for action by the department.

CHICAGO MARKET.

BULLS FOLLOW UP ADVANTAGES AFTER WEAK OPENINGS — LIVERPOOL QUOTATIONS IMPROVE ON THE FIRST. FOREIGN DEMAND SMALL.

Chicago, Sept. 13.

Quotations from European markets and primary receipts well over a million had an influence no way favorable to bullish aims, also the 1½ million increase in visible supply strengthened bearish efforts. A rally on shorts might have pressed up prices had not the tone of the market been heavy and speculation kept between too narrow limits. Supply of new wheat to all appearance is adequate for existing demand while there is from abroad report of sufficient crop and of markets from this cause grown somewhat weaker. Holdings on foreign account also are said to show large losses. Government report has not made much impression and foreign conditions of a political nature have almost dropped out of sight as an influence. Accordingly openings to-day were almost all lower, wheat ½, corn ½, oats ½. Provisions, too, though less subject to such influence, was some cents weaker. The higher Liverpool quotation at a later hour gave the initial impulse to a vigorous attack on the shorts and in September wheat as indeed in all classes of wheat, grain and protein. The strength was not spread equally, so that some spots might even have been called weak, but the general character was strong. In its transactions there was a speculative spirit prepared to press advantages to their utmost limit.

At Liverpool wheat was ½ lower, corn ½ lower, the former weak, the latter steady. A later quotation showed an advance in both. Of provisions received, of hogs, 26,000; cattle, 17,000; sheep, 21,000. In the Union Market, Kansas, 9,000 hogs; cattle, 12,000. Omaha, hogs, 6,000; cattle, 8,000.

Last week primary receipts, 968,373; shipments, 542,270; whereas last year receipts were 1,102,291, and shipments, 951,422.

Car lots received, wheat, 197; shipments, 49,950; corn, 598; shipments, 12,356; oats, 250; shipments, 23,694.
