

European Powers Face Greatest Crisis In Many Years

WORLD MARKETS DEMORALIZED HEAVY RUN ON EUROPEAN BANKS STOCKS TUMBLE, WHEAT SOARS

Declaration of War by Austria Sent Financial Tremors to Corners of the Earth—Wild Trading in Wheat Pit—Panic is Almost Unprecedented.

Expectation of war between Austria-Hungary and Serbia, and its subsequent declaration yesterday, demoralized the markets of the world. War was not declared until after the bourses of Europe had closed, but in London, Berlin and Paris, panicky conditions and severe declines in securities anticipated the announcement. At all three capitals bonds of the governments of Europe, which have been steadily dropping, registered further losses.

Run on Austrian Bank

In Vienna the bourse had been closed since Saturday, but there was a heavy run on the Austrian savings bank, the most important in the dual monarchy.

In Paris the commercial exchange suspended all dealings in grains, sugar and other commodities and exchange on London and discount rates for the first time in years were not quoted.

In Berlin runs on savings banks begun Monday grew heavier. In London, after the close of the stock market, stocks tumbled on the curb.

Avalanche of Selling

News of the declaration reached this country while markets were in session. With it came an avalanche of selling of the New York Stock Exchange. Leading stocks slumped from 5 to 20 points and conditions paralleled in their intensity the domestic panic of 1907.

The stock exchanges of Toronto and Montreal suspended their sessions.

Tremendous Rise in Wheat

On the Chicago Board of Trade there was a tremendous rise in wheat and the wildest trading in many years. This was predicted on the expectation that war in Europe would create a huge market for United States grain. Other foodstuffs also advanced. These conditions were reflected in all the produce markets in the country.

On the other hand, smart declines were recorded in cotton futures at New York and New Orleans. Coffee also slumped, due, it was reported, to fears that contemplated financing in Europe of the Brazilian crop would fail.

Foreign exchange was demoralized and millions in gold were engaged at New York for shipment to London and Paris.

JURY'S VERDICT INCITES RIOTING CROPS ARE INJURED BY DRY WEATHER

Saskatchewan Official Report Declares Rain and Cool Wave Needed.

REGINA, July 28.—The official crop report of the Saskatchewan department of agriculture, based on conditions on July 25, as reported from all parts of the province by telegraph, states that crops that were good at the date of the last report are now not so good, while those that previously were poor are now worse. Very hot and dry weather is the universal report, and rain and cooler weather are needed.

A few districts report conditions as still being very good, while most state that crops are maturing too fast and in consequence are not filling well. Flax, on the whole, is standing the weather conditions best and in some dryer districts will be almost the only crop.

Harvesting will commence in some districts by Aug. 5, and will be general by Aug. 10 to 15. Heavy damage has been comparatively light, storms being reported from Vank, Canora, Dubuc, Manor and Sheho. There is practically no damage from any causes other than drought and hail.

Reports from the southeastern crop district indicate an average yield of 15 bushels of wheat per acre, the east central district reports 17 bushels, the central district 15 bushels and the northern district 20 bushels. These districts include most of the best crops.

PHONE IN HIS MAUSOLEUM.

Martin Sheets of Terre Haute, Ind., has ordered a telephone in his new \$6000 mausoleum in Highland Lawn Cemetery. He will pay rent far enough in advance always to cover a few months beyond his death.

"Who can tell? I might wake up in there some time and would want to call the boys and tell them about it," he said. He has also placed a \$500 electric chandelier in the mausoleum.

Some years ago, when Sheets had a monument erected at the grave of his father, he had a statement that he paid for the monument and the amount it cost him out in granite.

Servian Troops Ready for Action

Antiquated Equipment of the Servians

The equipment of the Servians is not modern or up-to-date, there is no braver soldier, as has been demonstrated in the Balkan war. The photo shows a group of artillery officers placing an old-time field piece in position, as a protection in one of the border towns against invasion.

NEARLY THREE HUNDRED MILLIONS LOSS ON FAVORITES THIS YEAR

Taking only six of the favorite stocks dealt in on the Toronto and Montreal Stock Exchanges, the margin between the high point reached by these stocks this year and yesterday's low level showed a loss of approximately three hundred million dollars. In C. P. R. alone, which sold at 219 on the Toronto exchange in the first months of the year, and touched a low level of years yesterday on the New York market at 157, there was a loss of \$208,000,000.

BODY OF MISSING TAMWORTH WOMAN

(Continued From Page 1.)

The last seen of Miss Blanche Yorke was on Wednesday night, July 7, when, accompanied by Miss Agnes Welch, she went to procure a bottle of medicine from Dr. C. K. Robinson. Miss Welch states that at that time she appeared to be in a perfectly normal state of mind. Bright and happy and conversational, she behaved in no way out of the ordinary, and remarked on leaving her at the door of the doctor's office, that she would go home and get to bed early.

It appears that during the hours of 8.15 to 10.10 p.m. seven patients entered and consulted Dr. Robinson in his outer office. These patients say that Miss Yorke's coat and hat were hanging on the hat-rack in the doctor's hallway during that time. Dr. Robinson explained their presence by saying that the owner of them was undergoing treatment in an inner room, this necessitating his receiving his other patients in his outer office.

Robinson's explanation. Robinson is a new doctor in Tamworth, having only been in the town for two months. Previous to going to consult Robinson Miss Yorke had been treated by Dr. Walker, an old resident in Tamworth, and she gave no reason for making a change. Robinson stated that after the unfortunate girl left he discovered a bottle containing 50 bi-chloride of mercury tablets had disappeared, and supposed that she had taken it, the why she wanted the drug he could not say. The young woman appeared to be suffering from some time with a severe stomach trouble and had been unable to eat anything, having had no appetite.

Frank Yorke, a butcher, and no relation of the missing girl, made a statement to the police in which he said that on the night of her disappearance he was walking up the Erinville road at 10.30 o'clock, in company with Dr. Robinson, who was on the way to his house and office, when he saw a young woman who he is sure was Miss Yorke, walking up the opposite side of the road. She was a few yards ahead of them, and when he turned to go to his own home in the rear of Robinson's house he could still hear her footsteps on the pavement. Suddenly these footsteps stopped, but Yorke did not stop to enquire why, not being interested at that time in the young woman's movements. It must have been directly opposite the doctor's house that her footsteps were last heard.

Doctor Disappeared. On the 16th Dr. Robinson left town for the purpose, he said, of visiting his wife, who was ill in the Hotel Dieu in Kingston. When he boarded the train he stated that he would return the same night. His continued absence led to enquiries being made in Kingston, with the result that he is not known to have been there at all. Nothing was seen of him at the hotel, but he was seen at the house of a young man who is living in Kingston with Veterinary Dr. Bell. It was ascertained also that his wife had left the hospital several days previous to the disappearance of Miss Yorke.

Since then nothing has been seen of him, and it has been established that he did not go to Kingston at all. Robinson is a young man of about 28 years of age, and has just started in private practice, having graduated from Queen's University two years ago. For a time he was house surgeon in St. Luke's Hospital in Ottawa, and left there to take a position in a North Ontario lumber camp, going to Kingston two months ago to open an office there.

AVIATORS TOOK EXCITING DROP

ST. CATHARINES, Ont., July 28.—Aviator R. B. Russell, in a hydroplane, after sailing 38 minutes from Toronto this afternoon and encountering a shifting wind as a result of which he was only about six miles from the south shore of Lake Ontario, discovered when 1200 feet in the air that his gasoline had run out. Roberts, who was accompanied by a colored student named Cole, made the quickest descent in his experience. After being 22 minutes in the water the pair were sighted by Purser Hynes of the steamer Garden City, which left Port Dalhousie at 2 o'clock. Capt. Maddox altered the course of the steamer half a mile, lowered a boat and picked up the men. He took them to the Toronto office of the steamboat company. St. Catharines was notified by wireless and the tug Bartlett was sent out and towed the hydroplane to Port Dalhousie.

FARMERS REPORT ANOTHER SCOURGE

WOODSTOCK, Ont., July 28.—The army worm scourge is on the wane through the country, another pest has made its appearance within its borders. Several farmers in the vicinity of Brookdale, fifteen miles northwest, report to G. D. Freen, district agricultural representative, that the dreaded aphid, a small bug, is ravaging their pea crops. The damage is already done is serious. Thousands of the bugs have been found on the leaves of the plants and the farmers are in a quandary as to how to combat the scourge.

A DELICATE INSTRUMENT.

Seismometers, or seismographs, as they are more generally termed, are instruments for detecting or measuring the earthquake shock or wave. Some of the modern ones are extremely delicate and sensitive—so sensitive, in fact, according to Milne, that if the solid column of masonry communicating with the rocky floor be pressed with the hand, the seismograph which rests on the masonry will be affected, and if the horizontal boom or pendulum be put on high bearings opposite each other on one of London's traffic streets when crowded with heavy drays they will show that the tops of the buildings bend over slightly toward each other.

War is Declared by Austria Formal Note Sent to Servia

VIENNA, July 28.—Official notification of the declaration of war was sent to Servia today by the Austro-Hungarian Government.

The declaration of war was gazetted here late this afternoon. The text is as follows:

"The Royal Government of Servia not having replied in a satisfactory manner to the note remitted to it by the Austro-Hungarian minister in Belgrade on July 23, 1914, the imperial and royal government finds itself compelled to proceed itself to safeguard its rights and interests, and to have recourse for this purpose to force of arms.

"Austria-Hungary considers itself therefore from this moment in a state of war with Servia."

(Signed) COUNT BERTHOLD, Minister of Foreign Affairs for Austria-Hungary."

EUROPE ON BIG WAR'S VERGE IS OPINION OF BRITISH PRESS

Other Nations, Sick With Anxiety, Watch Conflict They Cannot Prevent—Triple Alliance Lined Up Against Triple Entente.

LONDON, July 28.—A rumor was current in Paris last night that the German minister in Belgrade had been assassinated. Enquiry, however, disclosed the fact that the minister had merely left Belgrade for Nish.

The London morning newspapers fully realize the gravity of the menace threatening Europe. Editorially they admit that Austria is justified in chastising Servia, but they argue that any attempt to destroy Servia's sovereignty would plunge the whole of Europe into war.

The Daily Mail thinks that unless the war is localized Europe is faced with the greatest catastrophe in its history. The Daily Telegraph considers that the German Emperor holds the fate of Europe in the hollow of his hand.

"We have before us," says the Daily Telegraph, "the appalling spectacle of a first-class power rushing to arms and Europe convulsed and sick with anxiety, as it watches helplessly the conflict she will be unable to control."

What is Real Object. The Morning Post in a pessimistic vein asks: "If Austria does not want to annex Servian territory what is the political purpose of her war? There must be some other motive than mere revenge. It seems that Austria is deliberately challenging Russia with the approval of Germany. It is a struggle between the Triple Alliance and the Triple Entente, and it seems difficult to decide which would be the greater misfortune—Europe's acceptance of the challenge, which would be followed by a great war, or non-acceptance and the consequent domination of the Triple Alliance."

FREE WHEAT ASKED BY GRAIN GROWERS

Farmers' Representatives to Petition Laurier and Borden in West.

WINNIPEG, July 28.—In connection with the visit of Sir Robert Borden and Sir Wilfrid Laurier to the west in the course of the next few weeks, arrangements have been completed by the organized farmers of Alberta, Saskatchewan and Manitoba, of which representative delegations will meet both the premier and the ex-premier and present to them the needs of the west, as seen by the grain growers, at every point where they hold a public meeting. This decision was arrived at at a meeting of the Canadian Council of Agriculture, representing the Grain Growers' Associations of all these provinces, held in Winnipeg.

It is said that Hon. W. T. White, minister of finance, will make an independent tour of the west at the same time as Premier Borden's tour, and if this is correct, arrangements will be made to wait upon both men, as the tariff is considered by the grain growers the biggest question in the west.

WILL CONDEMN TARIFF

Will Seek to Limit Rate of Interest on Bank Loans.

According to the council the questions to be discussed will include the following: "alleged serious conditions of the agricultural industry in the prairie provinces.

1. The protective tariff will be condemned and both political leaders will be urged to support legislation that will secure everything possible for the natural products of the west, and particularly the farmers will ask that the American offer of free interchange of wheat and wheat products be accepted immediately. The farmers will also urge that an effort be made to encourage closer trade relations with Great Britain, to the mutual advantage of British countries, by reducing the tariff on British imports to 50 per cent of the tariff imposed on like products from other countries.

2. The transportation question will be dealt with briefly and the farmers will ask for lower freight rates on the railways and on the great lakes, as well as an amendment to the coastwise shipping regulations on the lakes. Premier Borden will be commended for undertaking the Hudson Bay Railway as a government-owned utility and will be urged to have it completed as rapidly as possible, and to have a line of steamships ready to connect it with the European markets within another two years.

3. To Limit Interest Rate. The banking question will be dealt with and both leaders will be urged to support amendments to the Bank Act providing that no bank doing business in Western Canada may charge on loans a rate of interest more than four per cent in excess of the interest allowed deposits. If this amendment is made to the Bank Act, the farmers believe it will force the banks to raise the rate of interest they pay for deposits in Western Canada, because they would be allowed to charge ten to twelve per cent, on loans to farmers, as the majority of them are said to do at the present time. The alleged concentration of the money

exceptional influence in the councils of Europe. The government is confronting the situation with perfect calmness. There is no sign of unusual events at the prime minister's office, except that the prime minister, Mr. Asquith, who seldom visits that office, called there this evening and conferred with Sir Arthur Nicolson, permanent under-secretary, and the Austrian ambassador, came to make formal announcement of the declaration of war.

Fleet Takes on Supplies. The ships of the British fleet are taking on supplies. Soon after it became definitely known that Austria and Servia were at war all the officers ashore at Portland and Weymouth were summoned back to their ships. One of the darkest features of the situation presents is the probable paralysis of financial enterprises. One example that may be quoted is the do with a Chinese railway contract. The British firm of Pauling on Saturday obtained a long-southern contract for the construction of a big road and proposed to float a big loan for that purpose. It now finds the time an impossible one for an operation of that character.

AUSTRIA-HUNGARY MOBILIZES IMMENSE ARMY FOR SERVICE

Huge Force Ready for Instant Operations in Field—Germany's Refusal to Join in Peace Conference Turned Balance and Made War Certain.

Canadian Press Despatch.

LONDON, July 28.—The local cause of Austria-Hungary's decision to enter into hostile conflict with Serbia was the reply sent by the Balkan state to the note from Vienna demanding that Serbia take steps to put a stop to the pan-Serbian propaganda on Austrian territory and also punish those Serbians indirectly concerned in the assassination in Bosnia on June 28 of Archduke Francis Ferdinand, heir to the Austro-Hungarian throne.

The response of Serbia was considered by the foreign office in Vienna "unsatisfactory," and in a semi-official communication the Austro-Hungarian Government said that the reply was "filled with the spirit of dishonesty."

Move for Peace. In the meantime Sir Edward Grey took the initiative of requesting the European powers to permit their ambassadors in London to confer with a view to a peaceful solution of the controversy.

Italy and France at once consented to join their efforts to those of Great Britain, but Germany and Austria refused. Germany supporting her ally in the contention that it would be undignified for a great power like Austria to appear before a tribunal of the European powers on the same status as the little Balkan nation.

Austria Mobilizes Army. Austria-Hungary in the interval had proceeded rapidly with the mobilization of her great army. The entire railroad system was utilized for the movement of troop trains. The telegraph system was virtually monopolized for government business and a strict censorship was imposed.

Serbia also had mobilized her forces and had withdrawn the garrison of Belgrade, the capital, to the interior, as the chief city of Serbia occupied a position too vulnerable to be held.

Every war of modern date in Europe was occupied in preparing for eventualities; even the smaller countries, such as Holland, Belgium and Switzerland, taking precautionary measures.

Formal Declaration of War. Then today came the formal declaration of war by Austria-Hungary, one of the members of the Triple Alliance, the other two countries in which are Germany and Italy.

The notification of the fact was sent this afternoon to the Serbian Government, which has its temporary headquarters at Kragevetsa.

It was anticipated here that a declaration of the beginning of hostilities would follow quickly Germany's decision to hold aloof from any scheme of mediation. The German foreign office had said that a conference of ambassadors would, in its opinion, serve a useful purpose, while "conversations" between Vienna and St. Petersburg were still in progress. The atti-

ude of Russia was watched carefully today in official circles here and the firm belief was expressed that Russia would enter the lists in support of the little Slavie kingdom as soon as fighting started in earnest.

Try to Localize Conflict. Announcement of the declaration of war by Austria-Hungary on Serbia participating almost immediately after Germany and Austria had notified Sir Edward Grey, the British foreign minister, of their refusal to join in a mediation conference of great powers.

It is asserted here that the efforts of the European nations will now be directed towards localizing the area of hostilities.

Preparations on All Sides. Preparations for war proceeded on all sides. Even England's battle squadrons have been mobilized in readiness for eventualities, and the publication of official news as to the movements of British warships has ceased.

The first and second battle squadrons have taken on their full war stores and are ready to slip their anchors at a moment's notice, while the destroyer fleet around the coast has also been prepared.

Germany's Decision Significant. Germany's definite decision against participating in the ambassadorial conference proposed by Sir Edward Grey, the British foreign secretary, in an effort to maintain peace, is regarded here as tantamount to a declaration of Germany's determination that Austria-Hungary shall have an entirely free hand in chastising Serbia unless the Balkan kingdom accedes in full to demands of the dual monarchy.

According to advices received here Germany's refusal was couched in terms of sympathy with Sir Edward Grey's object, but contended that the suggested conference would place Austria-Hungary in the invidious position of appearing like the Balkan state before a European tribunal to explain her actions, and was therefore likely to increase rather than decrease the difficulty of the situation.

Apparently authentic reports current here assert that Russia has been given positive assurances that Austria-Hungary has no intention of annexing Serbian territory. If true, this might, it is thought, help the efforts to localize the war should it break out.

Thus far there has been no official confirmation of the reports of hostilities between Austria and Serbia, but a number of rumors have been published, including one of the seizure of Italian ships carrying contraband by an Austrian patrol on the Danube.

The demonstration on the Paris and Berlin stock exchanges was reflected by erratic movements on the market here.

At the Austro-Hungarian consulate it was said that about 15,000 men of all the nationalities that go to make up the Austro-Hungarian empire had signified their intention of returning to aid in the defence of their country should they be needed.

AUSTRIA BEGAN EARLY TO MOVE ARMY TO SERBIAN FRONTIER

Corps in Bohemia Transported First—No Traffic on Railways Except Troop Trains—Germany Declares It Beneath Dignity of Great Power to Be Called Before Tribunal.

BERLIN, July 28.—Reports from the Austrian border today state that the transport of the eighth and ninth Austrian army corps from Bohemia toward the Serbian frontier began yesterday, and that there was no other traffic on the Bohemian railroads except troop trains. The two army corps in Bohemia consist of thirty-two battalions of infantry, with a large number of quick-firing machine guns six regiments of cavalry, two regiments of field artillery and two regiments of the army service corps.

Telegraphic communication with Carlsbad and Marienhead was still open today, but only by one direct line from the Saxon frontier. The telegraphic service between Berlin and Vienna was demoralized and on some lines was completely interrupted.

A Text of Reply to Grey. The German Government, in its unfavorable reply to the British proposal for a conference of the ambassadors in London of the European powers in an endeavor to bring about a settlement of the Austro-Serbian difficulty, declared that it views the suggestion of Sir Edward Grey, the British foreign secretary, as well meant and good in principle, but not feasible in practice and impossible to carry out.

It says that it cannot be expected that a great power having a dispute with a smaller neighbor will submit matter to the decision of an European tribunal. It is less certain, however, that two great powers will submit to be summoned in the role of accused before such a tribunal.

Suggests Cabinets Negotiate. Germany makes the counter suggestion of negotiations for peace conducted between the cabinets instead of by a conference of ambassadors.

Germany, however, is prepared to welcome any further suggestions to localize the conflict as far as they are consistent with her duty to her ally.

Public Nervous. The public of the German capital was very nervous today, and alarmist rumors, having gone up with such force on the savings banks in which the poorer classes deposit their money, was resumed this morning. At 5 o'clock in the morning there were long lines of depositors outside the municipal savings banks, and the people insisted on having their money regardless of the reassuring statements by the officials.

Only such vessels of American registry as ply between this and foreign ports would be free from acts of seizure. Such, at least, is the attitude of the marine insurance companies, which have placed war risks on all but American bottoms.

At the later meeting of the committee, it was decided to close the exchange tomorrow morning. This action was deemed wise owing to the uncertain conditions of affairs, and was generally welcomed by members of the exchange as it would at least give a little time to acquire a saner view of the situation.

The oldest members of the exchange today could not recall a similar panic, and never before when the exchange was closed under similar conditions. The panic which took place in Wall street shortly after noon, could have been reflected by a similar panic in the local market if the stock exchange committee had not decided to close the exchange which they did in closing the exchange for the time being.

Only such vessels of American registry as ply between this and foreign ports would be free from acts of seizure. Such, at least, is the attitude of the marine insurance companies, which have placed war risks on all but American bottoms.

At the later meeting of the committee, it was decided to close the exchange tomorrow morning. This action was deemed wise owing to the uncertain conditions of affairs, and was generally welcomed by members of the exchange as it would at least give a little time to acquire a saner view of the situation.

The oldest members of the exchange today could not recall a similar panic, and never before when the exchange was closed under similar conditions. The panic which took place in Wall street shortly after noon, could have been reflected by a similar panic in the local market if the stock exchange committee had not decided to close the exchange which they did in closing the exchange for the time being.

MME. CALLAUX IS ACQUITTED MANY COME TO BLOWS IN COURT

Scene of Great Excitement Follows Verdict in Most Sensational Trial Ever Before Parisian Court—Barristers and Guards Join in Melee—Prisoner Embraced by Counsel.

Canadian Press Despatch.
PARIS, July 28.—Mme. Henriette Callaux was tonight acquitted by the jury in the court of assize of the willful murder, on March 16 last, of Gaston Calmette, editor of The Figaro. The jury brought in its verdict after 40 minutes' deliberation, and the announcement was followed by the wildest tumult.

Mme. Callaux tottered and fell upon the neck of her counsel, Fernand Labori, and embraced him. He had wept and fell over her shoulders, her hat dropped to the floor. The spectators stood upon desks and chairs, "Callaux, Labori" and cries of "Callaux, assassin," merged into one.

Men Came to Blows.
The din was deafening. Several groups of barristers came to blows and the Republican Guards, in an endeavor to separate them, joined in the melee. The spectacle of Labori and Oheux, the latter counsel for the Calmette family, embracing each other, calmed the tumult for a moment, but it was redoubled when they left with Mme. Callaux.

Falling to make himself heard, the presiding judge, followed by the other judges, marched out of the room. The advocates took complete possession of the court, some of them mounted the judge's desks and harangued the crowd. The guards then cleared a portion of the court, and comparative quiet being re-established, Judge Alhanel returned and read the judgment, ordering the release of Mme. Callaux.

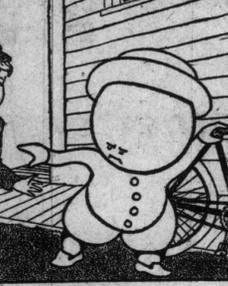

Mme. Callaux Departs.
Much shaken with emotion, Mme. Callaux left by the witness' door, the guards making a lane thru the crowd. She covered her face with her hands, as if to shield herself from the furious cries of "murderess." By way of a number of narrow corridors and back staircases she reached a small side door in the Palace of Justice, where an automobile was awaiting, and drove off unobserved.

M. Callaux left by the main entrance on the arm of his devoted friend, Deputy Paschal Cocard, amid mingled cheers and hoots.
Thus ended the most sensational trial that a Parisian court has had to deal with in years. Each day provided its dramatic thrill, and, altho the verdict has been pronounced, the outcome cannot be foretold.

Accused Collapsed.
The session of the court today was devoted to speeches by counsel. Mme. Callaux had come into the prisoner's dock pale and worn, and she collapsed during the course of the address of Maitre Chenu, who scored her bitterly. The speech of the procurator-general, Jules Herbaux, was unusually mild in tone. To the jurors he said: "Your duty as the defenders of the interests of society, requires you to find a verdict of guilty, but no one expects you to be pitiless."
Maitre Labori, who came last, gave

A masterpiece of eloquence! He concluded amid a tempest of applause: "My wish is that Mme. Callaux shall leave her acquitted, and that the press shall be purified. Let us keep our anger for our enemies abroad. Let us leave this court resolute and ready to face the perils which threaten us."

MOVING TO TORONTO.
Gibson Bros. have just arranged a lease of a large suite of offices in the Dominion Bank Building to the Imperial Oil Co., Limited, as the result of which this company will remove their executive offices from Toronto to Montreal. The offices will be occupied by the president, vice-president and directors of the company with their staffs, and possession of the offices will be taken in August.
Several leases comprising large amounts of space have lately been made in this building, which is filling very rapidly.

THE NEW HOUSEKEEPING

BY MRS. CHRISTINE FREDERICK
A Cook's Tour for the Graduate

THE other day I talked with a group of mothers, two of whom had daughters home from college. We had been discussing the inevitable servant problem and Mrs. S. said: "Oh, I think it would be simply lovely if Janet would take hold in the house with me and let us do the house work together. I can do a great deal myself and I would just love to show her some things, and then, it seems to me, she could give me this new viewpoint in home making which she studied about, and together we might solve this servant problem and have the best kind of a vacation."

But would Janet do it? Perhaps not that particular Janet, but I see no reason why a trip to the kitchen would not be the best kind of a tour for the girl who has been using only her mental energies for the past season. I know by experience that after a long session with books, "exams" and theses, a chance to get out and "make things" in the kitchen is the best kind of relaxation a student can have. I need to go frankly with the lack of opportunity at college to use my hands, and in spite of what many may say to the contrary, I believe that the ability to occupy oneself with manual work of some kind is the surest means of correcting nerve strain and of creating a light kind of employment to remove nervous fatigue.

Larkspurs—Perennials and Annuals.

Many young garden amateurs have met yet learned that there are two classes of flowering plants called larkspurs.

The true English larkspur (or delphinium) is an herbaceous perennial exceedingly common in all English herbaceous beds or borders. Indeed, the larkspurs are almost as typical of an English garden, in summer, as are the primroses and daffodils of these same gardens in early spring. Hardy, brilliant in coloring, stately in habit, the great towering spikes of thick clustering blossoms are only surpassed in floral beauty, stateliness and popularity by the old-time hollyhock.

Here, in Ontario, the English larkspurs, as a general rule, have not flourished as well as in their own home country, altho some gardeners who bend all their energies to the perfecting of their specimens have managed to reap a very appreciable success.

Like many other plants, the delphiniums suffer from the intense drought of our July, August and September months. It is a well-known fact that gardeners first coming to this country from other lands, will not believe that these three very hot months are the ordinary garden ground, in the matter of watering the soil. Consequently, until they themselves have tried to fill up with moisture the deep and wide cracks running in every direction from a prolonged drought, they do not, nor cannot (principally because they will not) realize how much water our thirsty land needs to drink thru the summer. This explains, partly, the failure of the part of many to have success with their English larkspurs. Larkspur roots will not do well when they are practically dried up for eight or ten weeks of the year.

As an example of this, thro drying up beneath the soil, take the present week. Last week Toronto had a day or two of splendid rain—every one thought, well, it was a splendid rain. But how far down do you think the two days' rain penetrated? Barely—just barely to the roots of the plants. Below that sod the earth is baked. Baked as hard as flint. Don't you believe it? Just dig, then, and find out. How can herbaceous perennials live so? They cannot.

Then, again, there is a blight, or mold, that is prone to attack these delphiniums in this country. The only remedy is Bordeaux mixture, applied early, as a preventative.

These perennials may be raised from seed sown in the spring and the transplanting reset in early autumn or late summer, in well-prepared, rich soil. The second year should give splendid tall plants, flowering from June until well into late July. Then a close clipping of the withering flower spikes will sometimes coax a second crop of tall spikes for late autumn.

The feathery-leaved little annual called larkspur, is not coming into thick bloom, which bloom usually continues until long after the November frosts have set in. Many gardeners who delight in late autumn blossoms saw a second crop of these brilliant plants as late as the first week of July. These plants, given an abundance of water thru the height of summer, will make a splendid showing all thru late September and October. The only point to watch carefully—after the point of plenty of water—is that the flower spikes should be constantly picked, to coax a succession of bloom.

MR. AND MRS. PETHICK LAWRENCE.
Votes for Women, the suffragist organ, states in response to enquiries that the plans of Mr. and Mrs. Pethick Lawrence are as follows: Votes for Women newspaper will be handed over to the Ontario Suffragist in the middle of August, so that the first number under the new auspices will be that of August 21.
Mr. and Mrs. Lawrence will sail in the ss. Albatross, via the Albatross Line, on Friday, October 9, reaching Montreal about October 16. After spending a few days in Canada, visiting Ottawa and Toronto, they will cross into the States, and hope to hold meetings in Boston, New York, Philadelphia, Washington, and Chicago. From there, about the beginning of November, they will journey west to Vancouver, Victoria, B.C., Seattle, Portland, and San Francisco.
After leaving America, it is their intention to visit New Zealand (December), Australia (January and February), China (March), and Japan (April), returning to England, via the Transatlantic Railway, at the beginning of May.

EXCURSIONS DOUBTFUL.
According to local passenger officials it is questionable whether any harvest excursions to Western Canada will be held this year or not. Previous years considerable advertising had already been circulated, but none at all for this year. Word may, however, it is said, be received in regard to them at any time.

CITY OFFICIALS PROBE BOY'S DEATH

Occurrence at Mimico Industrial School to Be Investigated.

CHARGES OF CRUELTY

Father of Edward Tueber Declares He Was Not Told of Son's Illness.

Robert Tueber, who died at the Victoria Industrial School at Mimico, is said to have been marked out for ill treatment by the officials, and his death on December 28, 1913, is followed by charges of ill-treatment of boys, against the superintendent and others. Controller Simpson and Commissioner Harris will make a preliminary investigation into the charges and report to the board of control before a full investigation is taken up.

This father, Edward Tueber, thru his attorney Mr. G. Ritchie, submitted to the board of control yesterday a declaration to the effect that he was not notified of his son's illness until after his death. He made enquiries some days after, and another scholar named Albert Smith, who had worked with the now dead lad, states that Tueber was frequently given from 20 to 50 lashes for offences that he had never committed. The teachers were always ready to punish the boy whether he was guilty or not.

One day he complained of pains, and as he was working in the bakery he would lie down on the flour sacks, but nobody took any notice of him. When the boys were sick the assistants would give them a dose of salts or cough mixture and this treatment often prevented the boys from reporting their condition to the superintendent. Shortly before his death, Tueber got into trouble with one of the assistants, who struck him in the face and called him a "dirty German." On the day before his death a nurse attended to him, but, as his condition was critical, Dr. Godfrey was also called in. Smith does not know of any violence suffered by Tueber before his death.

Letters from Superintendent Ferrier, who sent an explanation of the boy's death to the Provincial Secretary, Mr. W. J. Hanna, were also submitted to the board, and when the communications were read, Controller Simpson declared that the matter should be investigated, as something was wrong. The board of control decided to ask Controller Simpson and the property commissioner to make a preliminary report before a thorough investigation was taken up.

WOMEN STORMED BANKS IN GERMANY

Lines of Hundreds of People Clamor for Deposits in Berlin and Other Cities.

Berlin, July 27.—Hundreds of servants and women of the laboring classes stormed the municipal savings banks in Berlin. At one of these institutions in the centre of the city there was a line of 1500 people at 11 o'clock. The officials refrained from enforcing the usual time limit for larger amounts and this gave some reassurance to the public.

Similar runs on savings banks were reported today from Danzig and other eastern cities, as well as at Saarbrücken and Cologne.

An enthusiastic demonstration was made by large crowds who gathered at the Potsdam station when the emperor arrived there this afternoon. His majesty was greeted with hearty cheers as he alighted from the train.

MONCKTON MAN INVENTS SMOKE CONSUMER THAT ELIMINATES ALL WASTE.

(Special Correspondence.)
MONCKTON, N.B., July 28.—George O'Neill for many years in the employ of the International Railway, and a resident of Monckton, has after years of constant experimenting invented a smoke consumer which practically eliminates smoke waste, as far as it is humanly possible, when the device is attached to an ordinary boiler. The inventor has been working for a long time on his patent, it was not until quite recently that he completed it. Some three years ago the smoke-consuming and fuel-saving device was given a most satisfactory test on the international and since that time many large manufacturing industries installed the patent in its then uncompleted state. Some months ago, however, the inventor added to his invention a new feature that spelled perfection. From experiments the following report is made: Four hours' run without the device attached to boiler, 800 pounds of coal evaporating 480 gallons of water. Four hours' run with the device attached to boiler, 700 pounds of coal evaporating 640 gallons of water.

Well, I'm Glad There's a "Safford" at Home to Keep the Folks Warm

The man whose wife and children are protected by a Safford Hot Water Heating System has his mind at rest when he's away from home in bad weather.

He knows that, by means of the choke damper at top of the Safford boiler (an exclusive Safford feature), his wife or son can control the Safford and have a warm house no matter how hard the wind may blow or how low the temperature drop.

He knows, too, that the Safford boiler is built to hold the fire, without coaling up, much longer than an ordinary boiler. The Safford will retain the fire for 24 hours. No danger of it going out if the folks oversleep.

Women find it easy to attend to the Safford, too. It is easy to shake, because you stand erect. It is easy to put coal in the roomy door. The ashes are readily removed.

The Safford System is built by specialists with 30 years' experience in steam and hot water heating. It costs no more than others. Send us your name and address on a post card and we'll mail you promptly our "Home Heating" booklet. A mighty interesting booklet to those interested in learning about the most advanced ideas in home heating.

It will prevent delay if letters containing "subscriptions," "orders for papers," "complaints," etc., are addressed to the Circulation Department.

The World will deliver a paper 7 o'clock a.m. delivery in any part of the city or suburbs. World subscribers are invited to advise the circulation department in case of late or irregular delivery.

WEDNESDAY MORNING, JULY 29.

USE AND ABUSE OF NAMES.

The Telegram is rapidly sinking editorially to the level of the journals which are not regarded as worthy of attention, an account of their utter lack of principle or consistency. We do not complain of this, but merely recognize the operation of the general law by which noxious elements tend to minimize their own effects.

The charges made against Mayor Hocken and Mr. Maclean originally were that the annexation of Todmorden was being forced in order to benefit a real estate company with which these gentlemen were associated, and a prospectus with their names stated to have appeared in an English country newspaper, and that Mr. Maclean repudiated any responsibility for the use of their names, and it was shown that he had nothing to do with the company.

The solicitude of The Telegram to get something out of the prospectus in the English newspaper has led it to extraordinary lengths. It demands that Mr. Maclean go to England and seek damages from a jury. From whom? We might ask. And for what? These questions The Telegram, which is accustomed to unsuccessful lawsuits, regards as trivial. And it also thinks that reluctance to enter useless legal proceedings indicates moral turpitude.

The Telegram is aware, for it published Mr. Maclean's letter on the 24th, that Mr. Maclean wrote to the company in question at once, and insisted that his name should be removed from the prospectus and an explanation given of its unauthorized use. So far as The World knows, the company will comply with this demand, and we do not see, nor will anyone but The Telegram ask, why legal steps should be taken also. But this demand for legal proceedings is merely for the purpose of covering up the failure of the first charge, and of drawing attention from our enquiry why The Telegram, which is so bitter against improvements in the east end of Toronto, is quite complacent about similar improvements in the west end. All these things are ignored from day to day in The Telegram, as it continues to urge that the work of the public prosecutor should be taken up by private individuals, and that legal proceedings are necessary every time a man's name is used without his consent.

If Mr. Maclean was as keen about legal proceedings as The Telegram seems to wish, we do not see why he should not look up the legal aspects of The Telegram's repeated assertions and insinuations after his explicit denial that he had anything to do with the appearance of his name on the advertisement in England. Mayor Hocken may also wish to adopt The Telegram's suggestion about going into court. The Telegram may think it very clever to keep on throwing mud in the hope that some of it will stick, but there is nothing to be gained from the practice in the long run.

We have no explanation from England yet, where the members of the real estate firm are at present. The editor of The Telegram is also there, and as he is intimate with the firm in question he may have earlier news than The World of how and why these two particular names got into the prospectus, and not the names of the proprietor or editor of The Telegram and, let us suggest, Controller Church. Would these names not have made a stronger appeal to the British public? Or is The Telegram more concerned on account of the great influence of Mayor Hocken and Mr. Maclean in England and the consequent attraction of capital to Toronto? But why then should there be any objection to bringing English capital to be invested in Toronto east end real

ANY DYSPEPTIC CAN GET WELL

By Taking "Fruit-a-tives," Says Capt. Swan.

Life is very miserable to those who suffer with Indigestion, Dyspepsia, Sour Stomach and Biliousness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, or trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

from a military standpoint. Many disquieting admissions were made recently in the French Senate by the minister of war, with the result that the army committee was instructed to report on the whole question of war material when parliament reassembles in October. M. Messimy, the war minister, admitted that Germany had a distinct advantage in heavy calibre guns, and also that in engineering material Germany was far ahead. Serious charges were also made during the debate regarding the army organization and administration, structural defects in fortifications and inadequate wireless installation.

PAR VALUES ARE GOOD.

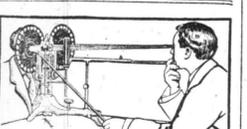

In letting the contracts for the erection of the new registry office the board of control acted with good common sense. There is a definite need of work at present in the city, and the more of necessary work that can be set going the better for the whole community. Quite enough unemployed men are in the city now to take care of all the work that may offer this winter. We trust, therefore, that no one will be tempted to come to the city by the hope of getting employment here. Toronto is in a position, as we believe Canada is in a position, to come well out of the hard times which good judges, with financial stringency on one hand and European war on the other, are inclined to be prepared for.

In the west it has been asked that no help be sent from the east this year. The prairie provinces think they can look after what they have got. So can Toronto, but we cannot undertake to do more than this. The new union station, the registry office and other works going on or in prospect will afford a fair amount of employment for the present, and if those who have work will remember the length of the winter ahead, we believe the coming of spring will see Toronto in excellent shape.

WILL THE WAR BE LOCALIZED?

Altho the Austro-Serbian war raises issues that, in certain circumstances, would certainly involve the great powers of continental Europe, it is doubtful whether existing conditions may not delay the reckoning. No nation will enter upon a conflict so momentous unless it is either compelled by internal necessities or believes that the odds are in its favor. Austria has apparently selected what President Wilson would call a psychological moment, when the powers that might possibly thwart her purpose are in no readiness to intervene. Russia has, in a measure, recovered from the effects of the Japanese war, but the reorganization of her army and the construction and extension of her strategic system of railroads are not yet completed. Even at the last the Serbian war might easily be finished before the Russian armies could exert any material influence.

HAMILTON MEN GET TWO YEARS

Cost of Widening James St. Will Be Considerably Over Half Million.

HAMILTON, July 28.—Ald. Roy submitted to the controllers yesterday, a statement drawn up by the special committee appointed to consider the estimated cost of the widening of James street.

The report stated that on the assessed value alone it would cost over \$500,000, but this would not begin to cover the ultimate cost, for the owners would probably have to be heavily compensated for loss caused by business disturbance. The controllers decided to forward the report to the council for information.

Guy and Ernest Boughner and Michael Garee were yesterday sentenced by Judge Monk to two years less one day for breaking into the residence of William Yates on May 18 last. Ernest Boughner and Michael Garee pleaded guilty, but Guy Boughner pleaded "not guilty."

In the case of Garee a further charge of stealing a bicycle, the property of James Clark, prisoner was sentenced to a further term of eighteen months, the terms to run concurrently.

CANADA TO PATROL NORTH ATLANTIC

Dominion to Bear Share in Reporting Icebergs to Liners.

By a Staff Reporter.
 OTTAWA, July 28.—Canada is perfecting the plans for its part in the ice patrol of the North Atlantic, which was proposed after the Titanic disaster. The plan is to secure greater safety to ocean travel. When the government's wireless station at Cape Race, it will be able to communicate with vessels 500 miles away, and to reach even the steamers crossing to New York by the southern route. From vessels patrolling the ice-frequented area, as well as from the liners, the Cape Race station will get word of all icebergs and field ice liable to endanger navigation. A constant register will be kept of the location and also the direction and rate of travel of the ice, and this information will be sent out to all liners as they come within call of the powerful station. This will be a great means of safety, especially in foggy weather. Extra men will be required at the station for such work. Although the plans have not been officially announced as yet, it is understood that the above is the arrangement that will be carried out.

FORCED TO WAR SAYS EMPEROR
 Servian Intrigues Must Be Punished, is Declaration in Manifesto.
 Canadian Press Despatch.
 VIENNA, July 28.—A manifesto issued by the emperor, after stating that it had been his fervent wish dedicated his declining years to preserving the empire from the burdens and sacrifices of war, says: "Providence has decreed otherwise. The intrigues of a malevolent opponent compel me in defence of the honor of my monarchy and for the protection of its dignity and the security of its frontiers, to grasp the sword after long years of peace."
 The manifesto refers to the ingratitude of Servia for the support the emperor's ancestors afforded to Servian independence, how Servia for years has pursued a path of open hostility to Austria-Hungary, and that an annexation of Herzegovina, which injured no Servian rights, called for Servian outbreaks of the bitterest kind.
 "My intention," continues the emperor, "then employed the privileges of the stronger, and with extreme consideration and leniency only required Servia to reduce her army to peace footing and promise to tread the paths of peace and friendship."

CAMPAIGN TO LOWER HIGH COST OF MILK
 Chatham Dealers Fined for Selling Product Below Standard.
 Special to The Toronto World.
 CHATHAM, Ont., July 28.—W. A. McGeachy and Robert Glover, two milk dealers of this city were both fined a dollar and costs for selling milk which was below the standard set by the local milk by-law. The tests were a small percentage below the standard, and it was shown that there was no deliberate attempt on the part of the milk men to break the law. The fine was made nominal.
 At the trial the medical officer of health, Dr. W. R. Hall, stated that the milkmen were getting the best milk supply of any city in the province. The prosecution was the outcome of a campaign on the part of Ald. Brisco, an annexation of milk licenses, the milk licenses of the two dealers. He will now make an effort to see that the local by-law is so rigid in its requirements that it is practically impossible for them to comply with it in every particular.

MIDNIGHT THIEVES BUSY ONCE MORE
 What is thought by some to be still another of the series of thieves operating on bicycles, was reported last night. Someone entered the premises of H. Stainton, hardware merchant, Vaughan road, on Monday night and the sum of \$8 in silver was taken from the cash register. In order to get the money the thief registered a cash sale, although it was possible to open the drawer otherwise.

Gains New Complexion By Peeling Her Skin
 "Keep still, sad heart, and cease repining; behind the clouds is the sun still shining." I was forcibly reminded of these lines when, after months of treatment, my ugly complexion, I found how easy it was to remove the cloudy, muddy skin and bring forth a bright, new complexion. I got an ounce of ordinary mercurized wax at my druggist's and used this like cold cream every night for two weeks, which, in the morning, I washed off. That old skin had all peeled off. The healthy young skin underneath gave me a complexion as bright and soft as a young girl's. Several friends have been similarly benefited. I'm sure anyone whose skin is soiled, tanned, withered, blotchy, pimply or freckled, can acquire the loveliest complexion imaginable by using this remarkable treatment.
 Another treatment that has done more for me than any other I have tried is a face bath made by dissolving 1 oz. of powdered sazonite in 1/2 pt. witch hazel, soon erased every line. It's wonderful.—Julia Orff in The Queen.

SENT UP FOR TRIAL FOR ASSAULTING GIRL
 Grand Valley Resident Arraigned, Stoutly Maintains Innocence of Charge.
 Special to The Toronto World.
 ORANGEVILLE, Ont., July 28.—Constable John Brown of Grand Valley, arrived in town in charge of Isaac Scott, V.S., 50, of that village, who was committed for trial by Stewart Tate, J.P., on a charge of assault. The alleged offence is said to have taken place on Monday afternoon at the home of the prisoner on Mary Hill, 9, Mrs. Scott, who is a school teacher in Grand Valley, and her husband, went to the home of the child's mother and asked to have her come over and do some chores for him. The little girl on her return complained of the assault and Scott's arrest followed.
 The preliminary hearing was held before Magistrate Tate, when the evidence of the alleged victim and her mother were taken. The prisoner, who has retained A. A. Hughson to defend him, was brought before Judge Fisher, who granted bail of \$2000, in full, and two securities of \$500 each. Scott, who is well spoken of, and strongly protests his innocence, was remanded to jail pending the arrival of his bondsmen.

LAND DAMAGES ARE AWARDED TO C.P.R.
 Railway Commission So Orders Concerning York Street Railway.
 By a Staff Reporter.
 OTTAWA, July 28.—The railway commission has decided that the C. P. R. should get land damages in connection with the construction of the York street subway, the amount to be settled later. The actual amount of damages must first be fixed, and then is to be the division of the two-thirds of such damages between the G. T. R. and C. P. R., the other one-third being payable by the city. The original valuer order provided for no damages in case of lands of the city or of the railway companies that were used. But neither was provided for any York street subway. This was done by a later amendment, and the railway board finds that this was a "most serious and important change in the original scheme was adopted," and would be a very serious damage to the C. P. R. coach yards.
 The railway commission has also given judgment against the application of the Fonthill Gravel Co. for reduction of the freight rate on mould-sand from Fonthill to Toronto, from 1¢ per ton to the former rate of 90 cents. The distance is 18 miles, and the Niagara, St. Catharines and Toronto Railway and the G. T. R.

SUSPECTED OF MURDER OF MONTREAL POLICEMAN
 Two Men Are Now Held at Sarnia for Passing Worthless Cheques.
 Canadian Press Despatch.
 SARNIA, Ont., July 28.—It is suspected that the two men, Warren and Allen, who were brought back here from Niagara Falls last night for passing worthless cheques, are members of the notorious gang which killed a policeman in Montreal some months ago when the police gave chase to them, following a daring robbery. When arrested at the falls both men had revolvers and masks in their possession. Montreal and other cities are being communicated with.

CUTTING BARLEY IN SOUTH MANITOBA
 WINNIPEG, July 28.—Barley cutting started at a number of points in Southern Manitoba during the latter end of last week, and while there had not been much rain through Western Canada, only a few scattered showers, the cooler nights have been very beneficial to the grain. It is safe to say, however, Western Canada will this year have a wheat crop which will not come within 25,000,000 bushels of last year's, and unless favorable weather continues these figures will grow largely.

MORE DOCUMENTS DECLARED STOLEN
 Montreal Civic Prosecutions Hampered by Thefts — Police Investigate.
 Canadian Press Despatch.
 MONTREAL, July 28.—The discovery of the stealing of the official documents connected with the Notre Dame de Grace sewer scandal, at the city hall, was followed this morning by the announcement that other documents, which relate to the Demonville street land deal, have disappeared. In connection with both the Notre Dame de Grace and the Demonville street affairs serious charges are now being investigated by the courts.
 As a result of the latest developments, the charges against former Engineer Etienne Pelland, who was arrested some time ago and is now under on bail in connection with the Demonville street deal is affected. Mayor Martin issued a proclamation today warning heads of departments of the need of keeping a strict eye on the documents placed in their charge.
 The police are working on both cases.

GRAIN SHIPMENTS REFUSED.
 DALLAS, Tex., July 28.—Officials of the Rock Island here today state they have received orders not to accept any more grain shipments to Galveston, Tex., until Aug. 1.
 It was said that railroads claimed the port was overstocked.

ONE FIRM HAS FAILED IN LONDON

LONDON, July 28.—With the Paris bourse demoralized, and the war scare growing, no one in the stock market here wants to absorb the offerings, which are persistent from Berlin and Paris.

The opening was weaker and the temporary rally which occurred at mid-day was soon followed by fresh declines. The market closed flat and depressed, with prices practically at the lowest.

Toronto and Montreal Exchanges Closed. May Open Again Today

TORONTO EXCHANGE MAY NOT REMAIN CLOSED VERY LONG

Only Suspended Business After Montreal Market Had Stopped—Will Open Today if Cables Are Higher—Gives Clients a Chance to Protect Interests.

For the first time within the recollection of a number of its members the Toronto Stock Exchange closed its doors yesterday shortly after two o'clock. European exchanges had closed previously. The word came from Montreal that the exchanges there had decided to suspend operations. This left the Toronto exchange the only market on which selling could be done.

About eight minutes after the Montreal exchange had closed the local one followed suit. Enquiries brought out the information that it was formerly not the intention of the board to close down. In fact it was not until the advice from Montreal had come that the decision was arrived at.

No Real Necessity. As far as can be learned from reliable sources, there was no real necessity for this action on the part of the local market. Telephone communication with the exchanges there had decided to suspend operations. This left the Toronto exchange the only market on which selling could be done. There was considerable assurance manifested among financial men towards the late afternoon. Enquiries had been coming in from speculators earlier when investors with the ready money expressed their intention of securing stocks to sell again on any rise.

MONTREAL 'CHANGE DECIDES TO CLOSE

Real Panic Develops—Stocks Thrown Overboard for What They Would Bring.

MONTREAL, July 28.—After displaying a moderate degree of steadiness at the opening in the face of various news of a warlike nature from abroad, a wide open break occurred in the Montreal stock market in the late trading this morning. Leading issues broke in some cases a point and more between levels until losses ranging as high as 4 1/2 points had been marked up from the closing level of Monday, and of about six points, that had been made up from the end of last week.

The drastic decline of the previous two days developed into a real panic and stocks were thrown overboard for what they would bring. Broke Fifteen Points. The demoralization of the market was completed when C.P.R. broke some fifteen points to 157 during the luncheon recess here, and the exchange members, by a unanimous vote, decided to meet the threatened crisis by taking the unusual step of closing the exchange for the afternoon, while the committee was empowered to take such steps as they deemed advisable with regard to a re-opening. This was followed later in the afternoon by the announcement that the exchange would remain closed tomorrow morning.

C.P.R. Fell Away. C.P.R. fell 2 1/2 from its previous low of 122 at noon, with a loss of 4 1/2 from Monday's close. But the later slump in New York carried the price down to 117, 1/2, 1/2 points below the previous low and 1 1/2 points below the noon close. From the noon close there was a rally of about six points, but part of that was lost later.

On the two hours' business in the morning, losses of imposing proportions were recorded. Shawinigan led all the local stocks on the decline, falling 1 1/2 to 222, and finishing at the low. Montreal Power fell 1 1/2 to 211, and also closed at the low. Brazilian dropped 5 1/2 to 59 1/2, and recovered only 2 1/2 from the low. Laurier fell 2 1/2 to 137, 1/2. Scotia 2 1/2 to 46. Steamships preferred 1 1/2 to 59 1/2. With a rally of only 1/2 from the low, Detroit dropped 2 to 62, but closed at 62. Ottawa Power fell 6 to 124, and finished there.

WORST IN NEW YORK SINCE AUTUMN SEVEN YEARS AGO

Extreme Decline Began With C.P.R.—London, Paris and Berlin Poured Stocks on Market—Million Shares Changed Hands—U.S. Steel Statement Shows Deficit.

NEW YORK, July 28.—To find a parallel for the present conditions which swept over today's stock market, it is necessary to go back to the autumn of 1907, when securities values crumbled away because of disastrous domestic conditions. The impelling factor today was the crisis in Europe, which reached its climax in Austria's declaration of war against Serbia.

It was not until midday, when Austria's attitude became known, that the market here was seriously affected. The extreme decline began with the Pacific, which had been offered in round amounts during the first two hours. All the other foreign markets were closed, pouring of stocks for London, Paris and Berlin became more urgent, until they reached the maximum proportion of 900, 000 shares in the final hour, and over a million for the day.

The shrinkage of values was materially assisted by short selling and impaired margins. Canadian Pacific continued to fall until it yielded a total of 18 1/2 points, with four to six point losses in all parts of the international list. Apprehension was increased by further heavy gold exports to Paris and London, which had their inception in the alarming news from abroad. Foreign exchanges rates were utterly demoralized. Many brokers declined to make quotations at all.

Gathered Impetus. The selling gathered greater impetus in the final dealings, being coincident with rumors that Russia had agreed to support Serbia. At the same time, word came from Montreal and Toronto of the premature closing of the exchanges in those cities. There were final rallies of a point or two from the low, but these were offset by continued offerings, with an exceedingly weak market. U. S. Steel's quarterly statement was not issued until after the session here had terminated. It showed a deficit of \$1,153,237, after payment of the regular dividends, against a deficit of \$6,289,844 in the previous quarter. Earnings were about \$2,000,000 better than in the first quarter, with a moderate increase in net income.

The bond market followed the course of stocks, with some sharp recessions. Total sales, par value, \$3,300,000. COLLECTING CALL LOANS. Also it is not the custom of loaning companies to have a great amount of loaned out on stock securities, and of the largest loan companies in the city said that at least a half million dollars in short loans was called in Toronto yesterday. Loan, trust and insurance companies generally made strong efforts to collect on all the call loans possible.

Decide to Close

At a special meeting of the directors, it was decided to close the Toronto Stock Exchange until further notice, in communicating this advice to the World last night, Edward Freedland, president of the exchange, said that these bankers interviewed indignantly expressed their thro approval of the action taken, not only averring a crisis in the stock market, but also as a protection to the general investing public.

TORONTO RAILS HEAVY

Lost Four Points From Opening Figure—C.P.R. at New Low.

In spite of the fact that yesterday's session on the Toronto Exchange was forty-five minutes shorter than usual, the market was very active. This was chiefly the case in Brazilian. This stock made the most conspicuous break of the day. Sixty-two was the opening figure, but from London having been lower. From this figure it fell gradually at first, when 60 1/2 prevailed. Towards the close of the morning session 58 1/2 was registered. A slight rally occurred, but this figure obtained at the morning close.

A loss of 1 1/2 points was the first figure in the afternoon trading. Following that, the market was very active. This was chiefly the case in Brazilian. This stock made the most conspicuous break of the day. Sixty-two was the opening figure, but from London having been lower. From this figure it fell gradually at first, when 60 1/2 prevailed. Towards the close of the morning session 58 1/2 was registered. A slight rally occurred, but this figure obtained at the morning close.

Activity prevailed in a number of instances on the Standard Exchange yesterday. Prices were not as greatly affected as was the case with industrial markets. Nevertheless some conspicuous breaks occurred. Notable in this connection is Hollinger. A rally occurred towards the close of the day. 95 points was registered. Nipissing did not drop very far. Big Dome fell 80 points. Hollinger started at 181 1/2, and selling to 180 1/2 lost 30 points, selling at 175 1/2. This following three sales were made at 175 1/2, 175 1/2, and 175 1/2. A rally occurred towards the close, bringing the price back to 178 1/2. The actual close was less by ten points.

Big Dome started at 175 1/2, and the price held in the morning session. Later, however, it became weak and dropped to 160. A rise of ten was marked at the close. Dome Lake sold steady at 32. La Rose changed hands at 35. Peterson Lake was active at 32. This price was steady until quite late, when it dropped to a closing level of 31 1/2. Crown Reserve sold first at 114. It dropped to 110 closing at 110. Nipissing was steady at 55 for most of the day. At the close it was among the losers 55 to 54. The Crown Reserve was up two points. It opened at 55 and closed at 57.

C.P.R. Fell Away. C.P.R. fell 2 1/2 from its previous low of 122 at noon, with a loss of 4 1/2 from Monday's close. But the later slump in New York carried the price down to 117, 1/2, 1/2 points below the previous low and 1 1/2 points below the noon close. From the noon close there was a rally of about six points, but part of that was lost later.

Steamships preferred 1 1/2 to 59 1/2. With a rally of only 1/2 from the low, Detroit dropped 2 to 62, but closed at 62. Ottawa Power fell 6 to 124, and finished there.

Winnipeg Market in an Excited State—Cash Demand Good. WWINNIPEG, July 28.—The wheat market was again in a wild and excited condition, following the announcement that war had actually broken out between Austria and Serbia. Another factor, which added to the bullish feeling was the continued high temperatures over the Canadian west and northwest states. The weather map shows prevailing over the west, excepting Northern Alberta. At Winnipeg 92 was registered, and other points were also higher, reaching 101 at Brandon and Moose Jaw. The average was around 95 degrees. The continued high temperatures over the west, excepting Northern Alberta. At Winnipeg 92 was registered, and other points were also higher, reaching 101 at Brandon and Moose Jaw. The average was around 95 degrees.

The cash demand for contract grades of wheat was good, and all offerings were eagerly picked up. Lots of No. 3 and No. 2 feed grades were also in urgent demand. Flour was wanted, but few offerings. Cash grain closed at 1 1/2 higher; flax, 2c to 3c higher.

VEGETABLE PRICES TREND DOWNWARD

With Advance in Season, General Supplies Are More Plentiful.

FRUITS REMAIN STEADY

Cherry Quotations Reasonable; Raspberry Prices Firm, Gooseberries Poor Quality.

Tomatoes are again being shipped on the market in large quantities, consequently the price is weak at 45c to 50c per 11-quart basket, and quantities are poor even at those figures, the bulk going at 50c.

Cucumbers, too, have declined in price, and are now selling at 35c to 40c per 11-quart basket for the outdoor variety, and 40c to 45c for the indoor variety.

Gooseberries are of very poor quality. The fruit is larger than the bulk which has been coming on, but is very soft, and is selling at 40c to 50c per 11-quart basket.

Raspberries remained firm in price at 16c to 18c per box, each. Blueberries have advanced in value, and the choice ones bring as high as \$1.75 per 11-quart basket, the medium bringing \$1.50 to \$1.65.

The American early apples are likely to advance in value, as a large area has been destroyed by hail, but this will not materially affect us, as the Canadians are coming on in larger quantities, and the quality is far from being from good.

H. Peters had a shipment of about 35 11-quart baskets of the best Canadian pears yet sent on the market, from Chas. Lowrey & Son, Queenston.

White & Co. had a shipment of Canadian cantaloupes from Harrington of Leamington.

Wholesale Fruits. Apples—Canadian, 20c to 35c per basket; Maryland, \$1.40 to \$1.50 per hamper.

BIG TRANSACTIONS IN WHEAT MARKET

Close Was Feverish at Top Points Reached—War News Responsible.

TRADE DRIVEN WILD

Demand May Reach Huge Proportions—Corn and Oats Followed Wheat.

CHICAGO, July 28.—War excitement today resulted in wheat transactions far up in the millions and in a swift rise of values. The market closed feverish at the topmost point reached, 3/4c to 9c above last night's closing.

To get a clear idea of the difference which the war news made in regard to wheat, the fact need only be recalled that a change of more than two cents a bushel in twenty-four hours is ample as a rule to cause a widespread flurry.

Prices advanced with wheat, although a somewhat halting way, and this, with the fact that it was not overlooked that there were lively chances that this country might yet have to furnish wheat for the army.

MONTREAL WHEAT MARKET EXCITED

Exporters Withdrew From the Market—Butter Situation is Unchanged.

MONTREAL, July 28.—The wheat market here was very excited today on war being declared and exporters here withdrew from the market and made no offers on the cable. Last night's business in this respect was very quiet.

The strong feeling which developed in the market for wheat yesterday was more pronounced today, and prices scored a further advance of 1/4c to 1/2c per bushel with a good demand for the crop.

There was also a better demand from local and country buyers and business on the whole was more active. The trade in mill feed continues fairly active.

WHEAT—No. 1 northern, 92c; No. 2 northern, 90c; No. 3 northern, 88c; No. 4 northern, 86c; No. 5 northern, 84c; No. 6 northern, 82c; No. 7 northern, 80c; No. 8 northern, 78c; No. 9 northern, 76c; No. 10 northern, 74c.

MODERATE RECEIPTS OF CATTLE

Stock Yards With Few Choice Offerings.

Receipts at the Union Stock Yards on Tuesday were 57 carloads, comprising 530 cattle, 1175 hogs, 823 sheep and lambs and 245 calves.

The quality of cattle was not as good generally as on Monday, no extra finished loads of steers being on sale. Some loads of good to choice heifers sold at \$2.25, and a few lots of good to choice steers sold at from \$3.40 to \$3.60.

Prices for all classes of cattle were about steady with Monday's quotations, when quality is considered.

Stockers and feeders were none too plentiful and generally of common to medium quality, and prices ruled steady.

Milkers and springers were in good demand, and a few lots of good to choice steers sold at from \$4.50 to \$5.00.

The AUGUST FURNITURE SALE

Begins on Thursday, July 30th, at the Simpson Store. A combination of circumstances makes this the most important Furniture Sale we ever held.

☐ We have just closed the largest year by many thousand dollars our furniture department ever experienced.

☐ Our stock was therefore very clean and in good condition to take in large shipments of new furniture.

☐ Furniture manufacturers were more than ready—they were eager to meet our proposals for extra large quantities at very special cash prices.

☐ We were able to pick and choose among the best of the standard furniture producers and to exclude all makes about which there could be any question as to durability and workmanship, fit and finish.

☐ We can undoubtedly give you the best for the minimum reasonable cost.

☐ For stock-taking reasons, we are taking a flying start at the Furniture Sale this year, giving you two extra days of buying opportunities by putting this magnificent collection on sale Thursday.
