More About Banking

The bank merger business is making people think; so is the striking of parliament to deal with the overdue renewal of the bank charters.

The World proposes to continue the discussion, and to discuss it from the public standpoint. Nearly everything said so far has been from the bankers' standpoint.

The high priests of banking have helped to bring about this state of affairs by nursing the idea that banking is as much a mystery as some theology.

There are three ways they can get more: (1) By increasing their capital; (2) inducing the public to give them more deposits; (3) increasing their own (or the state's) note issue.

Increase of capital: We discussed this in Saturday's paper. Existing shareholders in banks that have accumulated a reserve (out of profits and out of premiums on stocks) refuse to let in any fresh shareholders except on a high premium, and as a matter of fact prefer to take up any new stock themselves.

The double liability has something to do with discouraging money from going into bank shares. The double liability must be measured; its usefulness against its blocking qualities, and treated accordingly.

The problem is to get more bank capital, and to get it from the public. We must cut out some of the restrictions. Here there is a point worthy of full discussion.

Increase of deposits: Perhaps the banks would increase their deposits if the banks showed up their profits a little larger. The banks are charging more than they have in Canada.

Note issue: The banks issue their own notes as currency. They proposed in Sunday's paper to withdraw this privilege and to substitute therefor national notes for a large amount.

Our banks have to grow in dollars as well as in methods, and the country, in the people, as a matter of fact, has more of the money that is borrowed from the banks.

DR. NESBITT IS BACK WILL APPEAR TO-DAY

Reached Toronto Early Sunday Morning in Charge of Provincial Detective, and After Calling at Supt. Rogers' House Was Rushed to Jail--He Will Be Arraigned in Police Court This Morning.

Dr. W. Beattie Nesbitt returned to Toronto yesterday morning after an absence of a year and four months. He left over the ice of the Muskoka Lakes, riding to the border upon a freight train, and went unattended.

The doctor's going was quiet and he attracted no more attention than was absolutely necessary. When he came again he slipped, or was slipped, into the city with the utmost secrecy.

Rushed At Once to Jail. Provincial Detective Greer, who was waiting at the station, came on with the train and the newspapermen to the Union and went with them to the Court-street Police Station, where it was expected that Dr. Nesbitt would be held until his arraignment this morning.

Doctor Would See No One. An effort was made to see the doctor, but also the permission of Crown Attorney Corley, Sheriff Mowat and Governor Chambers was had.

His whole trip from Chicago was conducted with the utmost secrecy. Supt. Rogers said that not until the doctor was out of Illinois and into Indiana did his department feel wholly comfortable.

All Moves Made Under Cover. The order from the American authorities for the extradition of Dr. Nesbitt arrived in Toronto Friday, and that afternoon Detective Boyd set out.

Wanted to Be Quiet as Possible. The evasion of any observers who might be on hand to witness the doctor's arrival, was made at his own request, and was readily executed.

Beard May Be Removed. Despite the fact that the doctor declared his intention while in Chicago of calling in the assistance of a barber to restore as far as might be his former appearance, he is still wearing the small beard of a Kentucky colonel.

An important function during the viceregal visit to Toronto this week will be the official opening by the Duke of Connaught of the Made-in-Canada train, at North Toronto station on Saturday, at 10:30 a.m.

The Made-in-Canada special will be open for public inspection all that day, and will leave for the western provinces at 10 o'clock in the evening.

Churchill Shifts Naval Stations Protecting Coast Most Exposed To Invasion By Germany's Forces

Two Large Flotillas Composed of Newest and Most Powerful Warships Are to Have Base at Rosyth, Directly Facing Germany--Effective Strength of Advance Guard on Eastern Seaboard Doubled.

LONDON, May 12.--(Can. Press.)--Under a new scheme of defence initiated by Winston Spencer Churchill, the first lord of the admiralty, the destroyers of the British fleet commenced on May 1 a continuous patrol of the coasts of the United Kingdom.

Heretofore, the two battle squadrons have had attached to them a destroyer flotilla with reserve flotillas at the naval bases at Devonport, Portsmouth and the North. The new scheme provides that no steamers are to be permanently attached to the battle fleets.

Shielded From Invasion. No fewer than 165 destroyers are included in the new organization, besides eight fast cruisers, eight scouts and eight depot and repair ships.

Directly Facing Germany. With the four active flotillas, the first and second, composed of 28 of the newest and most powerful vessels, will have their base at the new naval headquarters at Rosyth, on the east coast of Scotland, and facing directly across to Germany.

MIDNIGHT FIRE AT IROQUOIS HOTEL

Damage Was Slight, But the Guests Were Frightened and Ran Downstairs in Scanty Clothing--Some Threw Grips and Clothing From Windows to the Street.

Thirty guests of the Iroquois Hotel, King and York-streets, were smoked out of their rooms on the fourth floor shortly before midnight when a blaze broke out in a lavatory.

Discovered the Fire. T. Horio, a Japanese traveler, discovered the fire while taking a bath in a room adjoining the lavatory.

Carried Thru Smoke. In room 88 was R. Wilson of Toronto, who had been lying ill for a number of days.

Struck a Fireman. All the lower sections of the fire department were soon at the hotel. Two ladders were placed against the building on York and one on King-street.

Not Much Water. "We only played about two barrels of water on the blaze," said Deputy Chief Noble.

Eastern Ontario Wants Cheap Power

CORNWALL, May 12.--(Special.)--Cornwall and all eastern Ontario are evincing unusual activity in connection with the hydro-electric power and Mayor Chisholm, the board of trade and the town council have extended invitations to Hon. Adam Beck to visit Cornwall and deliver an address.

Ladder Was Shaky. Next to a lane in the rear of the hotel the firemen leaned a ladder against the wall and its man ran to the top to save any people who might have been held there.

York County and Suburbs

N. TORONTO DOES NOT WANT DEAL TO GO THRU

A Big Meeting of Ratepayers Favors Joint Action With the City, and Passes Strong Resolution—County and Suburban News.

NORTH TORONTO, May 11.—(Special.)—Whereas it is proposed that an agreement be entered into between the Town of North Toronto and the Metropolitan Railway respecting the double-tracking of Yonge-street; therefore, be it resolved that this meeting of the North Toronto Ratepayers' Association does most emphatically protest against the said proposed agreement being entered into at the present time, and further, in lieu thereof, recommends that the town council seek to arrive at an understanding with the council of the City of Toronto with a view to an early extension of the city's civic railway system into the Town of North Toronto.

The above resolution introduced by Messrs. T. W. Banton and W. G. Ellis was carried by an overwhelming majority at a special meeting of the Ratepayers' Association in Burlington town hall last night, presided over by the president, Mr. W. Banton. The meeting was called to discuss the action of the council in drawing up the agreement with the Metropolitan Railway, providing for the double-tracking of Yonge-street, and while the pros and cons of the agreement, as it is at present understood, were discussed at length, there was a marked reluctance on the part of the councillors present to define the exact terms of the proposed contract.

Would Give It Away.

"We would be practically giving Yonge-street to the railway company," said W. G. Ellis. "The double track will occupy at the very least twenty feet of road space, and we cannot afford to give the rights of way over an area like this to a corporation such as the Metropolitan Company. Nearly all the traffic which takes place along the side streets must eventually travel up Yonge, and as the town increases the traffic on this thoroughfare will become enormous."

"Again, the agreement," said Mr. Ellis, "states that the freight traffic is to be handled during the hours of midnight. Who wants the heavy freight cars and other sources of noise passing up and down Yonge-street in the middle of the night? And who is to keep the railroad company to their agreement? True, we have stipulations, but we possess the same stipulations in our present contract, and we have never got the railway to do anything they did not want to do. There is only one boundary which will contain them—the boundary of competition."

"I have been a strong anti-annexationist but I believe had the council invited the City of Toronto to cooperate with them before beginning these secret negotiations with the Metropolitan Railway Company, they would not have been persuaded into entering into any such one-sided agreement."

Mr. Ellis also expressed his disappointment that Mayor Brown should speak as he did of H. L. Drayton, K.C., when one councillor suggested that he be consulted before proceeding further. "He also regretted the haste, the 'feverish' haste, in which the town council were to get the agreement put thru."

Solicitor Said Nothing.

In order that the ratepayers might be better understood the causes of the agreement, Solicitor T. A. Gibson was asked to enlighten them.

"At this stage of the proceeding," replied the solicitor, "I think it is very improper to ask me to make any public statement of the terms expressed in the proposed agreement. It is not yet complete and the most important clauses are ones which we have not yet settled. The agreement in circumstances it would be most unfair for me to accede to your request."

Councillor Hows Spoke Warmly in Defense of Council's Action.

Councillor Hows spoke warmly in defense of council's action. "After all," he said, "it is in your hands. We have been trying to do our best for the town, but if you do not wish it, throw it down when it comes to a vote."

D. D. Reid, chairman of the parks and playgrounds committee, drew a rosy picture of the wonderful advance in the value of property in the town which the new system would bring. He estimated that if Yonge-street were double-tracked, property in the town would be enhanced three and one-half millions above its present value. "It is not a good bargain, but it is the best we can get, and it will fill the bill," he said.

Councillor Ball made a strong statement of the proposed terms, and said that the present situation was the workings of the town and the City of Toronto.

Stands Out Against Deal.

"When this was first mooted in the council," said Mr. Ball, "there was a request made that we go down to see

DALE CHURCH NEEDS FRIENDS

Rev. J. D. Morrow Held Special Service to Explain Work—Labor Men His Only Friends.

Despite the rainy weather, the main floor and vestry of the Massey Hall were filled on Sunday evening at Rev. J. D. Morrow's meeting to help raise funds for the reconstruction of the Dale Presbyterian Church. Rev. Mr. Morrow declared that unless \$5,000 funds to start work on the building of the roof were raised, what had at that time been built would have to be taken down and rebuilt, as the walls were crumbling away. If someone were to donate \$500, he could, with the money now being raised, commence the reconstruction of the roof of the building and thus save from destruction all that had previously been done.

He said that the business men of the city were not supporting him in his work and would not let him explain to them what he was doing.

\$100,000 Fire at Pittsburgh.

PITTSBURGH, May 12.—The plant of the Woods-Lloyd Co., manufacturers, was partly destroyed by fire today, causing a loss of \$100,000. The blaze was so peculiar and resulted when lightning struck an electric cable leading into the plant.

CITY COUNCIL

No question of outstanding interest is before the city council meeting today, tho' the amount of business to be dealt with is large. Perhaps the most important issue is the question as to whether the city should acquire, the slopes in the Rosedale ravine for parks purposes. Deputations have appeared time and again in the city hall urging that steps be taken to preserve the lands in order to prevent them falling into the hands of builders. To-day the matter comes before the council with the parks committee's request for leave to introduce a by-law to acquire the lands in question.

Rosedale Bus Line.

The establishment of a bus line in Rosedale will also be dealt with today. City Engineer Trust has recommended that the city purchase three double-deck motor buses at a cost of \$10,000. He has also recommended a route, starting at the corner of King and Yonge-streets, and connecting with Rosedale by a 20-minute service. If the council sanction the scheme to-day it will be the city's first venture along these lines.

Apartment Houses.

The questions of prohibiting apartment houses and garages in residential districts has been discussed before, but

the council will endeavor to deal definitely with the matter to-day. By-laws will be introduced to authorize the issue of over one million dollars' worth of debentures for local improvements. The appointment of G. G. Powell as acting city engineer is also before the council.

Buffalo Cattle With Wheat.

BUFFALO, May 12.—To avert a grain blockade at this port, elevators are being worked day and night and will continue to handle their capacity for the next week. Approximately 5,000 bushels of grain have been elevated during the last week, and to-day 15,000 bushels are lying inside the elevator awaiting the turn of day to be shipped.

It is estimated that there are 7,000,000 bushels of wheat in the elevators operating with the elevators to provide a blockade, clearing on an average of 1500 cars a day for export.

Fight Wolgast Wins From Ritchie

Note and Comment

Some who saw Gold Bid do her trial on Saturday were not unduly impressed. The track had been specially prepared and she carried barely her allotment of 100 lbs.

The Leafs are to-day fighting against Baltimore for a place in the first division with the chances against the enemy, Kelly's boys are going these days like the advance notices, even without Cap. Bradley in the line-up.

If Toronto does not land the pennant this year, you cannot blame the president who has just landed a new catcher and outfielder—Higgins of Brooklyn and Johnson of New York National, the former recently from the Southern League, and the latter drafted by the Giants from Texas. Johnson is a left-hand batsman.

Ralph Rose, the giant shot-putter of the Pacific Coast, has practically earned a place on the Olympic team by his work in practice in Kentucky. He put the 16-pound shot 52 feet 1 inch breaking his own record by a full foot.

It is rumored that the Governor of New Mexico will veto the bill legalizing the proposed Johnson-Plynn "fight" at Las Vegas. The reformers in that state are waging a bitter warfare against the alleged battle. Jack Curley, the promoter, has been arrested in Chicago last summer. He is Flynn's manager and still insists that the white man will win. This contention alone is sufficient reason for the general suspicion that pervades the sporting world.

Maxwell Holds Orioles Safe Throughout—Fair Crowd Watch Play in the Rain.

In weather far from ideal for baseball, the Leafs took the second game from the Orioles Saturday afternoon by 3 to 2.

Maxwell's brilliant work at second base along the third-base line, a perfect play at first base, and a triple for three times at bat.

At Cincinnati—Chalmers hammered Rucker hard and won from Brooklyn by a score of 2 to 1 on Sunday.

At St. Louis (National)—A base on balls, scored by Miller and Campbell and Edgar, double in the eighth inning enabled St. Louis to win Sunday's game, 4 to 2.

An Evening in the Tropics

Come with me to Havana this evening. Pull up alongside and struggle down deep in your comfort chair, now sink your teeth into this all-tempting "New Ten" light up, tilt back your head and let the true-blue smoke creep up around you. That's how!

Delicacy of Aroma. will make you captive, then, when you draw in the last fragrant mouthful and reluctantly drop the very small remaining portion, you'll admit that your smoke-loneliness is justified—and gratified.

Real long, well-aged Havana leaves—that's why.

An Evening in the Tropics

Come with me to Havana this evening. Pull up alongside and struggle down deep in your comfort chair, now sink your teeth into this all-tempting "New Ten" light up, tilt back your head and let the true-blue smoke creep up around you. That's how!

Delicacy of Aroma. will make you captive, then, when you draw in the last fragrant mouthful and reluctantly drop the very small remaining portion, you'll admit that your smoke-loneliness is justified—and gratified.

Real long, well-aged Havana leaves—that's why.

Wine Game for Cleveland Team Washington—Big League Scores on Sunday.

At Cleveland (American)—Ryan's home run with the bases filled in the sixth inning Sunday's game for Cleveland.

NEWARK, N.J., May 12.—Joe McGinnis' Indians and the Rochester Bronchos jumped from Rochester to Newark today to keep a Sunday date, and the bronchos won the game.

NEW YORK, May 12.—In one of the wildest games ever played in the American League, Detroit defeated the Senators on Saturday by a score of 10 to 0.

At Washington—Walter Johnson's pitching enabled Washington to blank Cleveland 4 to 0. Cleveland's bats were checked and no one got so far as second base on the two games made off his delivery.

National League Saturday. At Chicago—New York played a ball game on Saturday behind Marquis. The pitching and Chicago was defeated 9 to 2. Ritchie and Cole were hit hard, the latter allowing five hits in the fourth.

Holly in the Hospital. Holly, the Leafs' shortstop, was suddenly taken ill Saturday night and will have to stay in bed three or four days.

MONDAY MORNING, MAY 13 1912

PROMPT ACTION REQUIRED.

Mayor Geary in suggesting the annexation of North Toronto is adopting the one successful solution of the street railway problem of the northern town. The proposition submitted by the Metropolitan Railway sews up North Toronto perpetually to a double fare. Even if the town agreed to this suicidal deal there would still remain a mile of Metropolitan Railway in the city limits which would have to be dealt with before an effective service could be given to North Toronto. Annexation would place four miles of Yonge-street in the hands of the city north of the present city car line, and it must be obvious that Toronto would be in a much better position to effect arrangements for double-tracking than if the matter is subdivided and one one municipality used as a lever against the other.

A double track on Yonge-street has become a matter of absolute necessity to the Metropolitan Railway. A single fare to the northern limits of North Toronto is a small price to pay for the valuable privilege of double-tracking, and the city can work the problem out. Then again Yonge-street must be held inviolate in so far as steam railway freight is concerned. The future of North Toronto is a brilliant one and the city council must see the enormous mistake made in not accepting the town's overtures of last year. It is not yet too late to remedy this mistake, but the remedy is in quick action by the city council. At to-day's meeting the council should pass a motion of expediency as advised by Mayor Geary and thereby show the city's good intentions to the town. North Toronto citizens will not be so reckless of their own and their rights as to enter the proposed deal, especially when they see the straight and sure path of street railway emancipation by annexation to Toronto.

SYNDICALISM AND INDUSTRIAL CONTROL.

At a recent discussion in London, England, organized by the Sociological Society, Mr. Graham Wallis, a well-known lecturer on social and economic questions, and a member of the senate of London University, read a paper on "Syndicalism." He found an analogy for this latest phase of the industrial question, in the form of government practiced in the walled cities of medieval Europe, where the direction of affairs was largely undertaken by the guilds and crafts. Syndicalism, he traced to the growing dissatisfaction with the representative system of government on to a working class reaction against the Socialist political scheme. Great modern industries, said Mr. Wallis, had three claimants to their control and direction—the capitalist owners, the state and those who worked on the means of production. The early nineteenth century individualists aimed unrestricted control for the owners, while the Socialists of the last quarter of that century claimed unrestricted control for the state. There has now come the claim for unrestricted control by the workers.

Mr. A. J. Balfour, the late leader of the Unionist party, who took part in the discussion, acutely criticized the new doctrine, largely from the individualistic point of view. He pointed out that under this theory a minority, a conscious minority, of the electoral forces claimed rights over an inferior or unorganized majority. In any case, it involved some form of representation and could not, therefore, avoid the difficulties already felt on the present system of representation in the sphere of politics. Mr. Ramsay MacDonald, the leader of the Labor party, also condemned syndicalism as an impossible doctrine. Mr. Wallis, however, expressed the opinion that any solution of modern industrial problems which had a prospect of permanence, would probably have to allow for control by at least two of the three claimants he had mentioned. In the United States to-day there are men such as Judge Gary, the chairman of the Steel Trust, openly favoring state control, and in the movement for profit-sharing between employers and workmen, now active in Britain, another alternative solution is offered. About one point all are agreed, that the present industrial conditions cannot continue.

MR. CHRYSLER'S DEFENCE.

Mr. Chrysler, K.C., who spoke for the C.P.R. in defence of western freight rates at the recent meeting of the railway commission, seems to have put his foot in it. He told the commission in substance that the western freight rates were all right, being adopted years ago by the C.P.R. to conform with the rates prevailing on the American railways in the west, but that the eastern freight rates were low because the C.P.R. had simply adopted at that time a tariff of tolls similar to those in effect upon the Grand Trunk and other lines in the east.

Now The Winnipeg Free Press is able to show indisputably that western freight rates in the United States have been greatly reduced in the last quarter of the century, while C.P.R. rates have remained stationary. Indeed, the disparity between freight rates in the western states and our western provinces is so marked that The Free Press urges the railway commission to begin an investigation into the reasons for its existence. It looks as if the Mr. Chrysler had unwittingly opened a door which he will be inclined to slam shut in a hurry. Western freight rates when compared with the rates in the east, or with the rates to the south, are so high as to be unique. Indeed, no one except Mr. Chrysler and The Toronto Globe has attempted either to explain or defend them.

THE GLOBE AND WESTERN LIBERALS.

The Liberals in the prairie provinces, with provincial elections and important by-elections at hand, have a great deal to contend with, but the greatest threat to their flesh at present is The Toronto Globe. The Globe's deliverance is purely one of pleasure and recuperation. He does not believe that the coming of western freight rates will injure the Canadian railroads. On the contrary, he thinks that they will be greatly benefited thereby. He says that the railway men will be running on the Canadian Northern in 1914.

FEDERAL JUDGE ACCUSED.

The charges preferred against Judge Archibald of the U. S. Commerce Court are of the most serious character. They indicate that he acquired business interests which he did and were promoted by his judicial decisions. If the charges are well founded, Judge Archibald should be removed without delay. There is only one way in which he can be removed under the constitution of the United States and that is by impeachment. The house of representatives by a majority vote must frame charges for presentation to the United States Senate, which under the constitution sits as a court of impeachment. A two-thirds majority in the senate is required for conviction. The penalty is removal from office and disqualification to hold any office hereafter.

Experience has shown that impeachment proceedings are expensive and tedious. The senate, busy with its legislative duties, cannot devote much time to its judicial functions and trials before it are therefore prolonged unduly. The advocates of the "Recall of Judges" by popular vote are making much of the Archibald case and of the slow-going remedy of impeachment. Judge Archibald might solve the difficulty by resigning, but the president would not be likely to accept his resignation.

The opponents of the recall point out that it would be absurd to call a national plebiscite for a case like this, but they do not adequately defend the obvious defects of removal only by impeachment. In Canada a case like this would be dealt with by an address from the two houses of parliament, and there seems no good reason why the president of the United States should not be authorized to remove a federal judge upon the request of congress, but here again the rigid constitution prevents any progress.

TAFT—ROOSEVELT SQUABBLE SHOCKS BRITAIN.

LONDON, May 12.—(Special Cable) Despatch to The Evening Post.—The only view which people here are taking of the struggle between Taft and Roosevelt is that it is the worst possible introduction to a serious political campaign. That a party with as great a history as your Republican organization should experience to deep a cleavage over a dispute which centres so largely on the indication of health in the body politic. To us, it seems to indicate that grave problems of the day which ought to be grappled with seriously by American statesmen, are being thrust aside for the sake of pleasing the public curiosity as to how two eminent politicians can go in abuse of each other.

DARROW ON TRIAL WEDNESDAY.

LOS ANGELES, May 12.—Rivalling in interest the famous case of the McNamee brothers will be the trial on Wednesday on a charge of bribery of Clarence Darrow, famous the world over as a lawyer and labor agitator. Not the least interesting phases of the case that promise to be as dramatic as it is unique are the facts that Darrow will assist in his own defence, and that the last money expected to enter him was obtained by means of a dictograph.

Lord Montagu Coming to Canada With Busy Financial Plans—Sir Donald Denies Rumor.

LONDON, May 12.—(Special Cable to The N. Y. Sun.)—The passengers who sailed for New York to-day on the Canadian Mauretania included Lord Montagu of Beaulieu, who goes on a two months trip to the United States and Canada to investigate the progress of motoring and aviation, and also to study the good roads movement. His principal business will be to look into the proposed electric railway from Mississippi, in which financial London is very much interested. He will also look over the life insurance field with a view to combining British companies whereby they will obtain the advantages of united financial strength. Geoffrey Marks accompanied him.

IN CAMP AND BARRACKS.

The Officers' Mess, both in camp and barracks, with the scores of scarlet mess uniforms, presents an interesting spectacle, even to initiated eyes. Everything is spotlessly clean, the food well cooked and the number of delectable dishes served is an evidence of profound liking for the good life. Here, as elsewhere, Radnor Wat is the prime favorite, for it is unquestionably a far better mixer than any other mineral water.

ROOSEVELT IN NEW JERSEY.

Pastor Russell's Sermon

WASHINGTON, D.C., May 12.—"Simon, son of Jonas, lovest thou Me more than these?" John xxi, 15-17.

The context shows that these words were addressed by the Redeemer to St. Peter on the occasion of His third manifestation to His disciples after His resurrection. This was presumed to have occurred four weeks after the Master's resurrection from the dead. His manifestations to the women on the morning of His resurrection and His later manifestation to the two as they went to Emmaus are evidently not counted, but the manifestation the same evening to the apostles and the two disciples except Thomas and Judas were present, is counted the first. And the manifestation a week later, Thomas being present, is counted the second. The delay in giving this third manifestation was evidently for the purpose of testifying to the faith of the apostles and of leading them to reach a conclusion respecting their future course, which Jesus wished to correct. So far as the understanding of the record, at least two Sundays passed without any further manifestation of Jesus to His disciples, and then giving up hope, they decided to return to the fishing business and did so. The journey to Galilee and the resumption of business presumably brought about another week.

The marriage of Miss Gladys Clarke Rogers, niece of Mrs. Graham Chambers, and Dr. Kenneth Buckley of New York, son of Dr. and Mrs. Thurman Buckley, also of New York, was quietly solemnized at the home of the bride's uncle, Dr. Graham Chambers, Gerrard-street, at 3 o'clock on Saturday. The ceremony was performed in the bay window of the drawing room, which was banked with palms and marigolds, baskets of the same flowers being suspended at the sides. The Ven. Archdeacon Cody of St. Paul's Church performed the ceremony, and Miss Parks, an aunt of the bride, played the wedding march. The bride, who was given away by her uncle, looked very pretty in her gown of white satin charmeuse, simply made in surplice style and trimmed with lovely Honiton and Brussels lace. The court train hung from the shoulders. Her tulle veil was arranged in cap effect, with wreath of orange blossoms and she carried a shower bouquet of white roses and lily of the valley. Miss Irene Doolittle was bridesmaid and wore a gown of pale blue crepe de chine trimmed with shadow lace and touches of pink. Her hat was of white straw with pink ribbons, and she carried a shower of Killarney roses. Mr. Dunlop Buckley of New York, brother of the groom, was best man. After the ceremony Mrs. Chambers held a reception and looked very handsome in butterfly satin with overdress of crystal and bouquet of Richmond roses. Mrs. James Rogers, the bride's grandmother,

Flounced Taffeta.

This quaint design was shown by one of the shops on Fifth-avenue. It is made of bright rose pink taffeta, except for the Irish lace bretelles, the satin girdle, and the collar of white net. The waist has an oddly shaped yoke which extends down the shoulders and forms part of the sleeves.

The skirt is made with flounces gathered as little as possible and bound with bias stripes of the silk. The tiny folds which this binding takes when placed around the scallops, and the slight suggestion of fulness at the top of each flounce, makes the whole effect of this dress charming.

The regular monthly meeting of the Q.C.E.C. will be given at the Conservatory Music Hall this evening.

The Q.C.E.C. has arranged a program of social events to take place at the clubrooms during the coming yachting season, and once more the commodious balconies will be thrown open to the many patrons. The interior of the club house is undergoing a complete renovation, and will be gaily decorated for the grand opening, which takes place on May 17 (carriages at 2 a.m.). Other announcements comprise the monthly dances and several motor boat nights followed by a short dance, also a motor picnic to the island, returning to the clubrooms for an entertainment.

The officers and board of directors of the Toronto Humane Society desire to thank most gratefully all those who have contributed, by their generous donations and patronage, to the success of the sea-room at the horse show, and beg to announce that the society has benefited thereby to the extent of five hundred and forty dollars.

MASTER BARBERS MEET

Eight O'Clock Closing Rule Will Not Be Checked.

The Master Barbers met yesterday in the Labor Temple and a sub-committee was appointed to interview all master barbers to secure them as members of the union. The statement published in a morning paper on Friday was discussed and the barbers hold that it was not correct. It was not the intention of the Master Barbers to check the 8 o'clock closing rule, but to further advance the trade in general. The next meeting will be held on Sunday, May 26, at 3 o'clock.

Alice Neilson's Mother Dead.

NEW YORK, May 11.—Mrs. Sarah Neilson, mother of Alice Neilson, the actress, died today at her home in Brooklyn. She was 75 years old.

The Nursery

The Value of Play. One of our biggest mistakes to-day is that we aim to educate the intellect instead of, or at least long before, the emotions. If we look to nature, we find that blossoms come before fruit; in history, art, flourished before science; and in children the motions develop sooner than reason. You who have studied little children know that all the reasoning in the world will not bring a child to do a thing he dislikes, or make friends with a person he does not care for. His reason does not develop until he is about four years old; his emotions may be active very early. His emotional nature receives impressions long before his intellectual nature knows what to do with them. He does not understand, he only loves.

In play, a child is perfectly natural, and only thru the play instinct can little children be guided. The supervised playgrounds in our city to-day were foreseen and recommended by Plato. It has taken a long time for the world to realize the value of his advice: "The plays of children have the mightiest influence on the maintenance of non-maintenance of lawes." The earliest childhood the child should be made cheerful and kind, by keeping away from him sorrow and fear and pain, by soothing him with sound of the pipe and of rhythmic movement." The kindergarten studies the office of play, and understands the value of each plaything and toy given to develop the child. It is well for children that there are kindergartens, for the busy mother is tempted to attend to the material things and neglect the emotional nature which gives life to color and beauty. His poetry and sympathy. The education of the heart is just as important as the training of the head; and both must advance together if a well-balanced character is to result.

A Man's Mother.

But your mother's life has not been easy. Your father was a poor man, and from the day she married him she stood by his side fighting the wolf from the door with her naked hands, as a woman must fight.

She worked not the eight or ten-hour day of the union, but the 24-hour day of the poor wife and mother.

She cooked and cleaned and scrubbed and patched and nursed from dawn until bedtime, and in the night was up and down getting drinks for thirsty lips, covering restless sleepers, listening for croupy coughs.

She had time to listen to your stories of boyish fun and frolic and triumph. She had time to say the things that spurred your ambition on.

She never forgot to cook the little dishes you liked.

She worked without the dress she needed that you might not be ashamed of your clothes before your fellows.

Remember this now while there is yet time, while she is living, to reach to her in love and tenderness some of the debt you owe her. You can never pay it all; but pay down something on account this very night.

ROOSEVELT NOT AN ANNEXATIONIST

His Expression, "Political Reasons," Was Sadly Misunderstood, It Seems.

LONDON, May 12.—(C. A. P.)—The Mail this morning published a cablegram received from Roosevelt's secretary in reply to one addressed to the president, in which he stated that Roosevelt believed the press in both Great Britain and in Canada interpreted the words "Political Reasons" to mean that the annexation of Canada to the United States would speedily follow the consummation of reciprocity negotiations.

"Such an interpretation is not warranted by the facts. When Roosevelt used the words 'political reasons' he had not the slightest thought of the annexation of Canada or of her subordination to the States. Roosevelt has always done everything in his power to enable the two great nations of the North American continent to live together in peace and harmony, each according to the other the fullest measure of respect and esteem.

"Specifically Roosevelt always, on every occasion has spoken of treating Canada as a friendly nation on whose independence he would no more dream of encouraging aggression by any other nation at the expense of the peace," says the message.

Home Helps

Often a machine needle which has a turned or blunted point may be made as good as new by rubbing it back and forth a few times on a whetstone.

A mixture of olive oil and lard in equal parts is excellent for removing the rusty appearance from suede shoes or slippers.

If a cane or willow chair or table has dried out and become lightened, wet it with salt water and dry it in the sun.

If a little fringe is wanted for trimming a gown, it may often be found in the upholstery department. Indeed, any ordinary shade fringe is most adaptable for trimming. The resourceful woman dyes it whatever color she wishes and so has dress trimming at slight expense.

Keep small squares of coarse sandpaper near the kitchen sink. There is nothing better for removing scotch or rood stuffs from pots and pans.

If two iron holders are fastened to a tape long enough to slip about the neck and hang to convenient length at either side, there will be no excuse for using the mixer vegetable masher or the potato or fish salad in a mound on each plate. Sometimes two kinds of vegetable salad are made, especially if there is but little of any one kind of cold vegetable on hand; the ends of the plate will then present a contrast of color.

Four mayors, rolled up plain oil dressing into the bowl. Each person can help himself to what he likes, and also the amount of dressing he wishes.

Following the fashion of individual service, many housekeepers have all salads prepared separately in the kitchen on small plates; but if served on a large dish, a larger or smaller portion can be taken, which at the family table is worth considering.

Still another, and time-honored, way is to mix the dressing and salad at the table, to many an added zest is given by this method. Salad is economical, appetizing, the easiest sort of dish to prepare, and gives opportunity for the maker to show invention and taste.

Winchester and Kent Successful in Elimination Contests

—Dovercourt and Kimberley Win Double Trios

Winchester and Kent Schools were successful in the preliminary choir contests held Saturday afternoon to choose two Toronto public schools to compete at the Empire Day competition held annually in Massey Hall. Seven schools were represented in the elimination contest. The selection song was "Shandon's Bell."

In the double trio competition seven schools were entered. Dovercourt and Kimberley Schools were the two chosen as best. A. T. Griggs was judge.

Dovercourt School was first in the double trios and was represented by the following children: Elsie Collins, Gladys Collins, Janet Graham, Bertha Gottenhub, Frank Edward and John Forbes. The principal is J. Brennan and the director Mr. R. W. Nicholson.

The directors of Winchester School was Miss Lemon, and of Kent School Miss Johnston.

The choir from Kimberley School was composed of Jean Thompson, Edith Wingate, Edith Paynter, Reggie McMullen, Lois Stacey and Mary Thalmers. The director is Miss Schindler.

Ethel Anderson of Earl Grey School was chosen to sing with Mary Thalmers at Massey Hall. When Earl Grey was opening the school he heard the little girl singing as he was leaving, and asked who she was. When told that it was a pupil, he was much surprised and remarked that it was wonderful. A few days later he sent his car to the child's home and had her taken to Sir William Mackenzie's residence, where the party was stopping, and had the young girl sing to the company.

PERCY HASWELL COMPANY HERE

Popular Actress Returns With a Splendid Dramatic Organization of Well-Known Players.

It will be pleasing news to many to know that Miss Percy Haswell is in town. This popular and talented actress, who has been away from New York Thursday evening, is putting it mildly to say that she was surprised and delighted with the reception given her as the star of the First man at the depot. A large number of friends and admirers were there to greet her, and she was warmly welcomed by the manager of the company, Mr. Haswell, who has long been her friend and has gained many of her friends during the coming season, which begins May 15, by her appearance before the New York Thursday evening company. Miss Haswell has brought with her an entirely new company, with the exception of Miss Angela Odgen, who is so well and favorably known here.

Earle Brown.

Mr. Brown is known as one of the most competent and clever leading men on the American stage. He has had a vast experience with such well known stars as Ada Rehan, Henry Miller, Eleanore Robson, Blanche Walsh and others. He also gained splendid experience in the County Courtroom. Mr. Brown is noted for the consistency with which he plays all parts assigned him.

Reginald Hughton.

Mr. Hughton, who will alternate the leading roles with Mr. Brown, is a young actor who has received a splendid training, and with such well known stars as Ada Rehan, Henry Miller, Eleanore Robson, Blanche Walsh and others. He also gained splendid experience in the County Courtroom. Mr. Hughton is noted for the consistency with which he plays all parts assigned him.

Karla Kenwyn.

Miss Kenwyn has played leading roles with Grace George, Maxine Elliott and William Faversham. Miss Kenwyn is noted for her excellent manner in that she plays characters and grand dame parts.

Summer Gard.

Mr. Gard is another reliable actor who will be no small factor in Miss Haswell's company. He started his career with the Eleanore Robson, with whom he remained for a number of seasons. Since then he has been in the Eleanore Robson, with such well known stars as Maurice Barrymore, Virginia Harrod, Arnold Daly and others. He created one of the leading roles in the musical production of "Brewster's Millions," when it had a run in New York. He was seen here this season in "The Landlady."

Terese Dale.

Miss Dale was last seen in Toronto with Mary Manning in "A Man's Part," when she acted as principal in the Alexandra Theatre. She was leading woman with James O'Neill in Monte Cristo, and for the past few seasons has played important parts in a number of Broadway productions.

Dorothy Ellis.

Miss Ellis is a comedienne of the dancing style and is bound to become as great a favorite as she was under Daniel Frohman's management, in New York, in the musical comedies Sarah Bernhardt very much when the diva was in her younger days.

Richard Clarke.

Mr. Clarke has had several seasons' experience in well known stock companies, and has also been with Henry Miller, Sir Beatrix Tree, Mrs. Fliske and Richard Mansfield. He was seen to good advantage with Miss Haswell last season in several of her noted productions, made at the Alexandra Theatre.

Margaret Boyd.

Miss Boyd, who is a native of Nova Scotia, who assumes the serious roles. During her stage career her principal engagements have been with John Haron and Louis Mann. Miss Boyd was alternate some of the character parts with Miss Kenwyn.

James T. Galloway.

Mr. Galloway is a sterling, reliable actor of the old school. One of those who began stage career when it was necessary to be able to play almost any part. He first appeared with John T. Ford at the Old Holiday-street Theatre at Baltimore, in 1899. He was also prominent in the support of such well-known favorites of the past as Joseph Jefferson, Maggie Mitchell and James A. Horne. He also has to his credit a number of important stock companies.

Charles Kennedy.

Mr. Kennedy has been prominent in support of Blanche Walsh, Bertha Galtland, Kathryn Kidder and was also an important member of Daniel Frohman's famous stock company, which occupied the Lyceum Theatre, New York, for many years.

F. Serll Peck.

Mr. Peck is the youngest of Miss Haswell's company. He is a deep student of the drama, and prefers playing stock engagements to going on the road, as he considers he can gain more experience with Miss Haswell than he could by playing one part the whole season round.

Angela Odgen.

It seems unnecessary to say anything about Miss Odgen, as she is already so well-known and so popular in Toronto. This is her third season with Miss Haswell, and it is a certainty that her return will be pleasing news to local theatregoers, who will meet with pleasure her many fine characterizations.

Edgar J. MacGregor.

Mr. MacGregor is the man behind the scenes of whom the public will see very little, but whose work will add much to the enjoyment of Miss Haswell's patrons. He is a stage director and comes with a splendid recommendation having filled similar positions with Cecilia Loftis, Margaret Illing-

Sir Charles Coming to Canada With Remains of Lady Tupper

Body Will Probably Be Brought Over on Empress of Britain, Leaving May 17, and Interment Will Take Place at Halifax—Sons Hasten to England.

LONDON, May 12.—(C.A.P.)—Lady Tupper, wife of Sir Charles Tupper, who died yesterday at Bexley Heath, Kent, had been an invalid for a number of years, suffering from heart trouble. Her condition became serious three weeks ago, death resulting from simple exhaustion.

The body will be sent to Halifax for burial, probably on the Empress of Britain, sailing Friday, May 17, and will be accompanied by Sir Charles Tupper, Stewart Tupper, who only arrived Saturday; and Sir Charles Herbert Tupper, who is expected by the Lusitania to-morrow. Sir Charles Tupper is wonderfully well under the circumstances.

Married Sixty-six Years.

Lady Tupper's maiden name was Frances Amelia Morse, and she was the daughter of Silas Hibbert Morse of Amherst, N.S. She married on Oct. 5, 1846, Sir Charles Tupper, who later became prime minister of Canada and filled two terms as high commissioner for Canada in London.

There were great celebrations on the 50th anniversary of their wedding on Oct. 5, 1896, in Ottawa, when they were presented with many souvenirs, including a gold epergne from the Conservative members of the senate, a solid gold salver from the Conservative members of the house of commons and a handsome silver gilt epergne from the Conservatives of Halifax, N.S.

The Opening Play.

Miss Haswell's opening offer will be "Lady Frederick," a three-act comedy by W. Somerset Maugham, who is also responsible for "Jack Straw," "Mrs. Do!" and other popular plays. The first performance will be given Monday evening, May 20. During Miss Haswell's engagement, the mid-week matinee will be on Wednesday instead of Thursday.

Ralph Smith May Run in Kootenay.

NELSON, B.C., May 11.—The Conservative will hold a convention on Thursday, May 15, to nominate a candidate for the Kootenay by-election, on in the district of the Victoria-June 2, and R. F. Green of Victoria is the probable choice. No Liberal is yet in the field, but several names are mentioned, including that of Ralph Smith, a former member for Nanaimo.

Minister's Wife Dropped Dead.

ST. JOHN, May 12.—White her-band was away in another county preaching, Mrs. Thorne, wife of Rev. I. Newton Thorne, of Cady's, dropped dead on her way home from church this morning. Mr. Thorne is a prominent Baptist and has been engaged in mission work in the province. On Saturday he left Albert County to preach.

Horse Dragged Child to Death.

MONTREAL, May 12.—Eight-year-old Walter Maynes was dragged to death by a horse belonging to his father in a field at Ville Emard, when he died the rope which was about the horse's neck around his waist, and the horse becoming frightened, dashed away.

Employment Agencies

Trap Servant Girls

Local Council of Women Investigate Conditions and Urge City to Interfere.

Claiming that some employment agencies for servant girls exist for immoral purposes, the local council of women have written to Mayor Geary urging that the city should take steps to remedy this evil. A resolution was submitted which was passed by that body asking the city to supervise these agencies and suggesting that the city might do well to add an employment agency as a branch of the civic service.

The local council of women have made a thorough investigation of a number of employment agencies, and, as the latter expressed it, some of them were "veritable immoral traps for the unwary."

The High Cost of Living

Potatoes are being imported into Canada from Ireland! Meat, butter and eggs, are at top-notch prices. Many efforts are being made to ascertain the cause of these ascending prices.

Real Estate and Building--News and Opportunities

BIG PROFITS BEING MADE ON TERRAFLAY

Terraflay street property is decidedly on the ascent. Heavy advances are being recorded on what little is not closely held and is turning over.

A year ago W. Cecil Lee sold the south-east corner of Alton and Terraflay streets for \$25,000. It has a frontage of 25 feet on both streets and the buildings are fair. It runs back to a 20-foot lane and is used to store the ten-story factory.

James Bicknell, the barrister, was the purchaser at \$25,000, and a couple of days ago he was offered \$100,000. He refused to sell even at that price.

Another instance of the way Terraflay street property is going is in the purchase of 273 feet opposite the Bishop's School. It was bought in the morning one day last week for \$200 and sold by the buyer that afternoon for \$700. The deal was put through between banking hours and the one-day sale cost the purchaser nothing.

City's Suburb Houses May Be Built of Cement

Mayor Geary stated on Saturday morning that the Toronto Co-Partnership Garden Suburbs, Limited, were considering building concrete houses on the land which they have acquired for this purpose north of Withrow-avenue and west of Logan-avenue. One firm, he said, had already submitted an offer to erect these kind of houses for the association and the offer would be considered before building operations are begun.

His worship took exception to the statements that the property was not suited for building purposes.

"Our purchasing committee carefully examined the land," he said, "and people who ought to know tell us that it is well adapted to our needs. Our aim is to let the houses at a reasonable price and, of course, we could not buy expensive land. This property is admirably situated and is within a reasonable distance from the centre of the city."

McEachren's to Open Office in King Edward

J. N. McEachren & Sons will open on Monday a branch office in the King Edward Hotel rounds on the east side. Large Plot on College St. Sold

The long strip of vacant land on the north side of College-st., extending from Sheridan-ave. east to the east side, was sold Friday by the Bank of Montreal, to builders at \$110 a foot. R. C. Bustard bought 160 feet of the frontage and may erect buildings on it.

J. Ferguson bought 225 feet at the same price and will put up stores and apartments. The lot is 100 feet wide and 102 feet long. It is the largest piece of vacant property on College-st.

Whipping Up Tired Nerves

The driver reaches his destination weary by whipping up his tired horse, but no one supposes that the whip imparts strength to the horse. It merely causes the more rapid expenditure of strength.

And so it is with stimulants. When the system is run down the use of stimulating medicines merely calls forth the additional expenditure of the wanting vitality and in reality hastens the breakdown.

Dr. Chase's Nerve Food is not a stimulant. It does not give rise to false hope by whipping up the exhausted system. It is a true tonic and builds up gradually and naturally by adding new, firm flesh and tissue to the body. It is a true tonic and builds up the body from the first few doses, but to obtain the full benefits to the body is through and lasting.

It's Somewhat of a Problem to Find the Ideal Quality and Price in Genuine Oriental Rugs

You cannot fail to be interested in our recent importations of both large and small sizes in Persian, Turkish and Indian Rugs.

Among the collection are Rugs of silky lustre that combine unequalled wearing qualities and most charming and artistic color arrangements, mellow and refined harmonies that are in perfect accord with the advanced note in home furnishing.

Added to all their wonderful artistic merit and hard-wearing qualities are prices that are exceptionally low. We invite an inspection.
