ADJOURNMENT A GOOD MOVE

Hopes of Agreement on the Trade
Question are Rather Small.

Ottawa Despatch to Mr. Tarte's Pa-
per Intimates That the Commis-
sion May Never Meet Again—The
Meetings Are Said to Have Been
Somewhat Dangerous After Lord
Herschell Was Laid Aside — Re-
lief on Both Sides at the Sus-
pension — Various Opinions From
the British Press.

New York, Feb. 21.—(Special to The
World.)—A special despatch from London to The Evening Post says: Enquiries in of-
ficial circles this morning justify the fol-
lowing statement of the view taken of the
adjournment until Aug. 2 of the Anglo-
American Joint High Commission:

There is, of course, disappointment that
the hopes raised in the preliminary discus-
sions with the United States and Canadian
Ministers have not yet been realized, and
there is a tendency to ascribe this failure
in part to the personnel of the commission.

But seeing the impossibility of substantial
agreement at this stage, there is a general
opinion that the commission have taken
the wisest course in adjourning, so as to
enable Ministerial and public opinion here,
in Canada, and in the United States, to
make its influence felt upon the specific
questions still in dispute. There seems to
be no doubt that the commission might at
once have reported substantial agreement
on practically all outstanding matters, ex-
cept two. These two are the Alaskan
boundary and trade reciprocity.

WILL Arbitration Take Place?
As regards the Alaskan boundary, the
official belief is that before the commis-
sion resumes work the respective Govern-
ments will have agreed to a commission
of arbitration. On the trade question hope
is put it to-day, "We shall be none the
less friendly for that. We simply agree to
differ on that point, and, after all, if the
United States does not want Canadian
trade, we in England do."

NEVER TO MEET AGAIN.
That is hinted in Mr. Tarte's Pa-
per—The Conferences Were Not
All So Harmonious.

Montreal, Feb. 21.—(Special)—Everybody
here says that the commissioners will
never meet again. An Ottawa special to La
Presse, in speaking of the suspension of
negotiations, said, "Perhaps they will never
meet again."

The Star's special from Washington says:
"It has been a relief to both sides to have
the negotiations interrupted. If they are
not wholly broken off, for, despite all de-
nials to the contrary, the meetings have
not been called off with the go-ahead
and second time, with the public
have been assiduously kept busy. The
relations of the past month especially, have
been wonderfully strained, and it needed
but one impulsive speech, and his
enforced absence from the meetings to
bring about an open rupture."

An American commissioner, quoted by
the Canadian, said that the commissioners
had been assiduously working for
agreement concerning the Alaskan bound-
ary dispute, which brought the negotiations
to a standstill. A Canadian reporter
had the same misguided idea of carrying
on the work. What is needed is such
work, not negotiations, not orators."

Whether the commissioners will assemble
again in Quebec on Aug. 2, as announced,

is for the future to develop. It is pretty
well known, however, that the commissioners
will not re-assemble under the same circumstances.

A meeting of the two governments

has been reached by the two governments

to-day, which brought the negotiations to
a standstill. A Canadian reporter

had the same misguided idea of carrying

HAMILTON NEWS

THE POLICY HOLDERS MET

It is Proposed to Keep Down the One-Man Power in the Canada Life.

MR. RAMSAY SETTLES ONE POINT

An Organization Elected for Wentworth County—General News of the City.

Hamilton, Feb. 21.—(Special)—A well-attended meeting of Canada Life policy-holders was held this evening in Association Hall. Samuel Barker occupied the chair, and in opening the meeting explained again that the policy-holders were not concerned about the headquarters of the company, or the annual meeting being held in Hamilton. They sought protection by depositing any one-man power on the board, by the re-enactment of the clause limiting the voting power of one member of stock to two votes. It was for this policy-holders to hunt for the man who was responsible for the repeal of the 40 shares clause, but to know what the present direction proposed to do. Mr. Barker said which had been done after the resolution passed on Monday by the directors regarding policy-holders' representation, but he did not vote for the resolution, as there was no second in spite of Mr. Cox and his supporters.

Rumors Contradicted.

Mr. Barker added that he wrote to President Ramsay to ask whether the true or false it was that a friend of one of the directors had received \$100,000 and that a director was indebted to the company for \$600,000.

Mr. Ramsay's reply was that no director of the company was or had been indebted for \$600,000.

Constitution Adopted.

The meeting adopted the constitution for the Policy Holders' Association for Wentworth County, and elected the following officers:

Minor Matters.

Reports from the fruit district are to the effect that the severe frost did not hurt the peach trees.

It is reported that the Grand Trunk will lease the Canada Life offices when the company move to Toronto.

Death Comes to Many.

Residents and Former Residents of the City Dead.

Mr. F. McGuire, who for upwards of 20 years conducted the restaurant in the old Great Western station, died yesterday at his residence, 255 West Wellington street, from heart failure. He had been failing for some time, and for two years of age, leaves a wife and three daughters—Lena, who lives at home; Mrs. Arthur McEachern, of Elora, N.Y., and Mrs. R. Durkin of Montreal. His son, John, died last Friday night.

The attraction at the Grand Opera House on Thursday evening will be Oliver de St. John, who is said to be a clever organization.

Affred Hewitt's Funeral.

Many furniture travelers from different parts of the country were present at the funeral of Mr. Alfred Hewitt, manager of the F. E. Walker Furniture Company this afternoon. Sandy Ballantine, Stratford, representing the Furniture Dealers' Association, was a pall-bearer. The other bearers were W. H. Robinson, James Dixon, Fred Mills, W. Baker and John Thomas (Woodburn). Rev. Mr. James officiated.

A Broker's Tumblr.

Lorne Carpenter, stock broker, was thrown from his rig at the corner of King and James-streets this evening. His horse ran away.

Board of Works.

At the Board of Works meeting to-night,

GASPEIA STILL FAST.

The Canadian Liner Remains in the same Position.

Quebec, Feb. 21.—(3 p.m.)—From Etang du Nord, Magdalen Islands: "Steamer Gaspeia still fast in ice; same position as yesterday."

A Little Lone Traveler.

Chicago, Feb. 21.—Charlie Lyle Beebe, 8 years old, attracted attention at the Union Station here to-day. He is traveling alone from Manchester, England, to relatives at Mason City, Iowa. A big tag and a ticket passed him on.

Want No Uniform Ritual.

Berlin, Feb. 21.—The Roman Catholic bishop of Prussia has lodged with the Emperor a formal protest against the Government's bill legalizing and providing for uniformity in the observance of Good Friday.

Held Up by Toughs.

Two blackmailers were foiled in their attempt to hold up a gentleman and lady from Detroit on the Yonge-street Bridge Monday night. The two claimed to be officers of the law and demanded \$2 for the couple's release.

Gold Crown and Bridge.

'Tis a picture to see her bend over the urn—
Her slender white wrist with its delicate turn,
The violet depths of her eyes, and the glint
Of the gold in her hair that is matched by no mint;
And then her rare smile! Oh, what rapture dreams throng
When Sylvia pours the Monsoon Indo-Ceylon!

MONSOON

INDO-CEYLON TEA.

VANDERPOEL AND HIS WIFE
LORD CECIL WAS FACETIOUS

Are Having an Interesting Time Just
Now in the New York
Courts.

THE MAN IS AFTER A DIVORCE

And the Woman Wants Big Alimony
From the Millionaire Who
Married Her.

New York, Feb. 21.—(Special)—Mrs. Elizabeth B. Vanderpoel has applied through her counsel to Judge Glidderidge in the Supreme Court for an allowance of \$250 a week, and a counsel fee of \$5000 pending the trial of a suit for separation, which she has brought against her husband, John A. Vanderpoel, millionaire, for abandonment and misconduct.

This action was commenced some time ago, and Mr. Vanderpoel agreed to allow his wife \$200 a year, and to give her \$875 come fees. She has been deserted by her husband with infidelity, and he asks that he be granted an absolute divorce from her. She is accused of her friendship for Edward Apfelton, who was one of the guests at the wedding, and who has since been connected with one of the departments in Washington. Mr. Apfelton, Vanderpoel alleges, made it his endeavor to destroy his home, and is the cause of all the trouble between him and his wife.

The Other Side.
Mrs. Vanderpoel said that her husband has been going around Canada with F. L. Skinner, Mrs. Skinner and their daughter, Fanny, and has announced his intention of marrying the latter as soon as he has secured a divorce. She has agreed to give up her husband's home, and the amendment was negatived without division.

NEW USE FOR GLASS.
In Lyons, France, It is Hardened
by a New Process and Laid in
Blocks as Pavement.

Washington, Feb. 21.—Consul Corlett, at Lyons, France, writing to the State Department under date of Jan. 28, and desiring a new use for glass, says:

"Early in October last, a paving company of this city began laying on the Rue de la Republique a piece of pavement of ceramico-crystal, ceramic stone, or described as 'stone' in English, which cost \$100 in car fares alone, besides nearly \$100 in teephoning. He said he would present affidavits showing that Vanderpoel had his money changed to a sum that was occupied by Miss Skinner in a hotel in Montreal; that he stayed with the Skinner family for several months there; that he went with them to Toronto and thence to Quebec.

JONES STARTS A TOWN.
He Will Call It Taku and Will Have
a Railway to Carry You to
the Atlin District.

Tacoma, Wash., Feb. 21.—John T. Jones, an engineer, has returned to Juneau from a surveying trip over the Taku trail to the Atlin district. He stayed at Juneau for a new town, which will be called Taku. It is to be situated on Taku Bay, four miles above the mouth of the Taku River, about 25 miles from Juneau, and is expected to be a great commercial center of a railroad in which eastern capitalists are interested. This road is to traverse the Atlin mining district and will extend to Teslin, on the route to the Klondike country.

FOOTPADS AT ST. KITTS.
Two Unknown Men Attempt to
Hold Up Ald. McClelland, Who
Had a Revolver.

St. Catharines, Feb. 21.—While Ald. McClelland was going home after the Council meeting last evening, he was met by two men on William-street, between Church and the Street. The street is very dark along here and as Mr. McClelland was walking along, these men, who were strangers to him, commanded him in real knight-of-the-road style to throw up his hands. At first the alderman took the matter as a joke, but finding that these men were not bluffing, he took out his revolver, at the sight of which the would-be robbers took to their heels. They were tall, dressed in black with black feather hats and heavy overcoats of dark material, but kept their faces turned to avoid future recognition.

MICHIGAN LUMBERMEN SORRY.
Failure to Make a Treaty Will
Severely Tie Them Down.

Detroit, Feb. 21.—Washington special to The Evening News says: A very serious condition confronts all Lake Huron towns from Saginaw to Cheboygan. The administration of the state of Michigan is now out settling the lumber question makes it impossible for these towns to count on manufacturing much longer for at least two years. The lumbermen from the eastern side of the state are here and indignant that no steps have been taken to protect them in the possession of their forests, and the lumbermen from the western side of the state of Michigan are equally indignant that the woods have been cut down and the logs shipped to the east. They were talk about the timber being cut down and the logs shipped to the west, but that they have been guilty of any wrongdoing.

A VERDICT OF MURDER.
Brought in Against Dickson at
Quebec-Dean Norman Did
Come to Toronto.

Quebec, Feb. 21.—The Rev. Dean Norman, whose resignation has just been accepted by the Bishop of Quebec, has admitted having given the boys Dickson and Q'Brien, who are implicated in the Pepin tragedy, a sum of \$500 each, but denies that he has been guilty of any wrongdoing.

The jury in the case of Pepin brought in a verdict of murder in the first degree against Dickson.

THE CLOSURE APPLIED.
In the Spanish Cortes yesterday there was further rancorous discussion. Count D'Almenas again attacked the generals and admirals who surrendered in Cuba. General Martinez Campos, former Captain-General of Cuba, defended General Linares of Santiago, and intimated that D'Almenas does not make his charges outside the Cortes. At this point Premier Sagasta shut off the discussion, and the sitting was adjourned.

THE BEEF INQUIRY.
The commission to investigate whether the beef which caused the dismissal of General Egan was or was not bad is underway at Washington. The bulk of the evidence yesterday was to the effect that the meat was unwholesome, that some packages of it turned the soldiers sick and caused stomach troubles.

RED-BEARDED MAN ARRESTED.
Important Capture Said to Have
Been Made in Poisoning Case.

New York, Feb. 21.—The first man to arrive at the Westminster Hotel, St. Paul, Madison Square Garden was Cherry Ripe, a trim little cocky spaniel, all the way from Canada. On his arrival, the dog was not leashed or overcome by the vastness of the amphitheatre, and frisked about as though in an ordinary Canadian back-yard. Very soon, however, throughout the remainder of the afternoon and evening there was a constant arrival of prize dogs, each singly boxed up and journeying by express.

Cherry Ripe at New York.
New York, Feb. 21.—The first man to arrive at the Westminster Hotel, St. Paul, Madison Square Garden was Cherry Ripe, a trim little cocky spaniel, all the way from Canada. On his arrival, the dog was not leashed or overcome by the vastness of the amphitheatre, and frisked about as though in an ordinary Canadian back-yard. Very soon, however, throughout the remainder of the afternoon and evening there was a constant arrival of prize dogs, each singly boxed up and journeying by express.

Who Shook Up Mr. Hardy?
There is no doubt about the sincere earnestness of the people of Niagara Falls, Stamford, Chippewa, Niagara Falls South and other places interested in the Canadian Niagara Falls Power Company's Juggling with the Government, and several schemes are proposed to demonstrate this to Mr. Hardy that all the municipalities in the county want the company to abide by its agreement or forfeit its monopoly. It is proposed to have representative contingents from the various municipalities come to Toronto on the day of the trial, and wear their own distinctive banners, and all wearing a common badge, and to bombard the Government. Mr. German's attitude in the matter is highly endorsed.

RED-BEARDED MAN ARRESTED.
Important Capture Said to Have
Been Made in Poisoning Case.

New York, Feb. 21.—A man with a red beard, said to answer the description of the man whose "red beard" has at various times been so prominently mentioned in the Adams poisoning case, is under arrest at the West 30th-street station. A second arrest is expected to be made before morning.

The prison gave his name as John Long, and said that he was a clerk at Police Headquarters. It was admitted that the arrest was an important one. More than this the police would not say.

A 20-Round Draw.
Stamford, Conn., Feb. 21.—Party McCue and Joe Hopkins, both of New York, fought a 20-round draw here to-night. McCue had the best of the bout all the way through.

Who Shook Up Mr. Hardy?
Dan Thompson, better known as "Six-eyes" Thompson, went to the Emergency Hospital early this morning with a bad gash on his right eye. Thompson says he received the wounds in a free fight on East Adelaide-street. He accuses a baseball player of inflicting the injuries with a penknife.

THE TREACHERY OF GEN. OTIS VENGEANCE ON AMERICANS

That is the Way the Filipino Junta at

Hong Kong Designates His Conduct.

THE FIRST SHIPMENT OF ARMS

Were Made to Aguinaldo on United States Orders—Then the Front Was Changed.

Hong Kong, Feb. 21.—The following statement has been issued by the Filipino Junta: "Information which has leaked through the Pinkertons sent by President McKinley to investigate the shipment of arms to the Philippines shows that the first shipments to Aguinaldo were made by order of the American Consul Wildman; hence the shipment was made while the American Government was subsequently telegraphing to the State Department regarding the change of policy in dealing with the charge of piracy to annexation. Mr. Wildman and Gen. Admiral Dewey promised to pay, but have not yet paid for the shipment of arms to the Abbey, authorized by Gen. Admiral Dewey who afterwards seized the steamer, and she is still held. Papers respecting this are now in the possession of the Secretary of the Navy. The protestations of Gen. Admiral Dewey and other Americans that they made no promises are ridiculous. In view of the facts, let the American people know how many and what words of honor was pledged to the Filipinos and confined in them, and violated by the recent treachery of General Otis."

"You will go dispose that at 8 o'clock at night the individuals of the territorial militia at your orders will be assembled in all of the streets of San Pedro, armed with their bibles and revolvers, or guns and ammunition, if necessary."

"Filipino families only will be respected. They should not be molested, but all other individuals of whatever race they may be will be exterminated without any consideration of the circumstances of occupation."

"The defenders of the Philippines in command will attack the guard at Aguinaldo and liberate the prisoners and 'protect' them to the extent that they can be accomplished, then we will arm the Americans and exterminate them, that we may take advantage for the famiy and reach the ends they have committed."

"After which a General Onslaught Against All Foreigners Was to Be Made."

Washington, Feb. 21.—The following dispatch was received this afternoon from General Otis:

"Following issued by an important officer of Insurgent Government at Malabon, Feb. 15, 1899, for execution during the evening and night in this city:

"You will go dispose that at 8 o'clock at night the individuals of the territorial militia at your orders will be assembled in all of the streets of San Pedro, armed with their bibles and revolvers, or guns and ammunition, if necessary."

Woman's World...

Devoted Specially
to the Interests
of our Women
Readers.
Conducted by
Katherine Leslie.

One of the greatest feasts wants among the women of Toronto who wish to meet together in art, music, literary or sociable clubs, to pursue some particular line of study, or for the purpose of discussing the business or other affairs of their numerous charities and societies, is a building which would be exclusively theirs. The need for a building that would be always available for immediate use is very strong; one whose definite locality would soon become known to women outside the city, as it would be the generally recognized rendezvous of all our women who meet together to promote some purpose or idea for their own or the city's good. There are several large women's societies in our midst, which, though they have a name, have no local habitation, and these are obliged to move about to larger or smaller quarters as occasions demands accommodate.

Much time and energy are wasted in pursuit of committee rooms, music halls, or auditoriums for lectures, whenever there is a movement on foot to help some charity, to hold an exhibition, or to do any of the hundred and one things of feminine interest, which the energetic and capable women of a large city like ours have always on hand. Not only have the women to hunt up suitable buildings, they have to beg from or bargain with inexorable landlords and agents—for these are Spanish words. They cannot be called French, for the French are made to combine in different shades to be made up with some contrasting material or color. But these blues all seem to be so very blue that they are disagreeable to each other and will have nothing in common with any other shade or grade of blue, and spurn everything that dares to touch them that is not blue. An authority therefore calls them Spanish blue. Lavender is one of these blues and will be much in evidence as the season advances.

These blues are among the favorite colors of the coming season. These blues are Spanish words. They cannot be called French, for the French are made to combine in different shades to be made up with some contrasting material or color. But these blues all seem to be so very blue that they are disagreeable to each other and will have nothing in common with any other shade or grade of blue, and spurn everything that dares to touch them that is not blue. An authority therefore calls them Spanish blue. Lavender is one of these blues and will be much in evidence as the season advances.

An authority therefore calls them Spanish blue. Lavender is one of these blues and will be much in evidence as the season advances.

These blues are among the favorite colors of the coming season. These blues are Spanish words. They cannot be called French, for the French are made to combine in different shades to be made up with some contrasting material or color. But these blues all seem to be so very blue that they are disagreeable to each other and will have nothing in common with any other shade or grade of blue, and spurn everything that dares to touch them that is not blue. An authority therefore calls them Spanish blue. Lavender is one of these blues and will be much in evidence as the season advances.

T. EATON CO. LIMITED CANADA'S GREATEST STORE

Columbia Bicycles.

features are too well known to require any comment from us. The Pope Manufacturing Company. We are showing their latest models, and invite the freest inspection. No one can afford to buy without first seeing the Columbia.

Men's Furnishings No section of the store has so many friends among men as our Furnishings. No matter who comes, the stock seems to satisfy the demand, and at a cost that pleases every buyer. For instance, we are selling:

Men's Silk and Satin Ties, four-in-hand, knot and bow shapes, light or dark shades, neat, fancy patterns, 12² satin lined, at 12²

Men's Fine Elastic Web Suspenders, mo-hair ends, drawer supporters attached, light and dark shades, fancy polka dots, at 25

Boys' White Unlaundered Shirts, open back, linen bosom and cuffs, reinforced front, continuous facings, made of heavy cotton, sizes 12 to 13 1/2, 25

Men's Flannelette Night Robes, collar attached, full size, 14, 14 1/2, 15 and 15 1/2, sizes 14 to 19-inch, at 33

Men's Colored Cambric Shirts, needle bosom, collars and cuffs attached, interest patterns in fancy broken checks, sizes 14, 14 1/2, 15 and 15 1/2, 33

Men's Link Cuffs, 4-ply Linen, English make, square and round ends, 12² reversible, at 12²

Boys' Ulsters The weather at \$1.69 each man promises us some cold weather for Thursday, and yet we are willing to let these Ulsters go for less than half our regular prices. But straggling winter lines must go—and quickly, too:

24 only Boys' Heavy All-Wool Frieze Ulsters, double-breasted, high collars, slash pockets, check tweed linings, colors light blue, grey, black, 20², 22² and 20, regular price \$3.50, \$3.75 and \$4, Thursday to clear at 16⁹

Table Napkins These are the kinds we have been selling at 1.35 a dozen, and good value they were for that money. Through one way and another 150 dozen came to hand below their regular market price, and so we mark them.

NINETY-EIGHT CENTS A DOZEN which is the price we make for Thursday morning:

Fine Damask Table Napkins, bleached and unbleached, in fine, medium, and heavy makes, the Irish, Scotch manufacture, all pure linen, with a superior linen finish; the patterns come in floral, scroll and conventional designs; the napkins are 20 inches square; ready on Thursday morning at 98 cents a dozen.

Fancy Ribbons Just when Fancy Ribbons receive prominent thought, we make it possible for buyers to get the most desirable qualities at about half their actual value. We mention two lines of particular merit:

Fancy Ribbons, including 5 1/4-inch medallions, 4 3/4-inch rich taffetas, 5 3/8-inch plials, 4 3/4-inch silk and gold, green and other new effects, all choice colorings, worth 50c a 25-yard special at 25

Fancy Bayadere Stripe, pure silk, rich quality, in red and orange, blue and red, white and red, green and white, blue and white, five inches wide, regular 75c quality, for 39

Dressmaking Helps Think for Thursday

the spring sewing that you have to do. Run over your list of needs and see how much of it can be selected from these things for Thursday. You'll surely appreciate the saving:

AN EPIDEMIC OF HANGING. One Dorchester Convict Succeeded Another by a Surgeon.

Dorchester, N.B., Feb. 21.—A convict named McDonald of Halifax, who was incarcerated in the Martock Penitentiary some six months ago for a term of three years, made a determined but unsuccessful attempt to escape. In his cell he cut through the iron bars of the door and escaped into the corridor. McDonald was recaptured after a short time and sent back to the penitentiary.

Lieutenant-Colonel Jackson, who has been appointed Governor of Nova Scotia, has been appointed Governor of the South African Colony. He succeeds Sir Archibald Hunter, who has been appointed Governor of the Cape Colony.

Lieutenant-Colonel Jackson, who has been appointed Governor of the South African Colony, has been appointed Governor of the Cape Colony.

When we come to consider the policy which the Liberal Government in Canada and the people of Great Britain have adopted towards the United States we are not so much surprised after all at the turn of events taken. Great Britain has sought the friendship of the United States by truckling to its demands on every occasion.

The Liberal Government in Canada has dinned it into the ears of American statesmen for the past ten years that Canada's only hope of an independent existence lay in the cultivation of closer commercial relations with the United States. Whenever the Yankees have slapped Great Britain on the one cheek, the latter, simpleton that it is, has extended the other. In Canada Sir Wilfrid Laurier has been trying to keep the United States in good humor by offering them all kinds of peace offerings. He has allowed them free access to our forests and mines and markets, imagining that they in turn would extend similar concessions to us.

What has been the result of all this friendliness and generosity on the part of Canada and the Mother Country? What reward does Great Britain receive for her chivalrous treatment of the United States when the latter was threatened by combined Europe? What compensation does Canada receive in return for the freedom with which the Liberal Government in Canada has been based on the principles of the Monroe doctrine?

However, Canada and Great Britain have only themselves to blame for the humiliating position they occupy in the eyes of the world to-day. They have played the part of the ostrich with its head buried in the sand. They have refused to recognize the fact that the United States is a hostile country, inimical to Great Britain not less than to Canada. The studied policy of the United States has all along been based on the ultimate absorption of Canada into the American Union. Their tariff has been especially designed to subdue us into submission.

Those who have not made up their minds as to what will never be satisfied until Great Britain is dislodged from the American continent. The only reason why the dislodgement has not already taken place is because the Americans have not felt themselves physically capable of the task. If Canada had been the dependency of a moribund country like Spain, she would have been raided and forced into the union years ago.

What the United States is unable to accomplish by force she is seeking to effect by the employment of despotic tactics. She is playing upon Great Britain's friendship to advance her own sordid and mercenary ends. Her dislocation to settle the questions before the international conference, and especially her attitude on the boundary question, has been planned for the express purpose of worrying Great Britain and making it appear that her hanging on to Canada is the one thing that prevents amicable relations between the two great branches of the Anglo-Saxon race. The studied policy of the United States is to starve Canada into annexation to the United States.

The Alameda County, Calif., Superior Court has made an order directing that the deposition of Lord Clarendon and Dr. McHale of London, England, before the U.S. Senate, be adjourned until April 1st. The court held that the deposition of Lord Clarendon and Dr. McHale of London, England, before the U.S. Senate, be adjourned until April 1st.

Slatin Pasha is about to leave the Egyptian army in order that he may spend the remainder of his days among his friends during the advance on Omdurman. When the latter was captured by Gordon Pasha, he was made prisoner by the British, and was released by Gordon Pasha.

Mr. Joseph Chamberlain is considered to be a man of great ability, and is consequently unable to attend either the Colonial Office or the House of Commons. He has also been sent to India to meet the recent attack of the gout. His physician insists that he shall remain in bed and undergo the greatest care.

There's a prince away somewhere in the world. London and German papers contain advertisements offering a reward for information concerning the whereabouts of Prince and Princess of Wales.

Two months ago, when the Duke of Portland's party attended the Duke of Portland's party at Welbeck Abbey, and had not been seen since.

William Archer, the dramatic critic, is coming to the United States to write a series of articles for The Pall Mall Magazine on the subject of the American theatre.

The study of the history of the American theatre is to be undertaken by the author of the article.

Disappointing as have been the efforts of Great Britain and Canada to make a friendly treaty with the United States, the failure at Washington may yet accrue to the great advantage of both the Dominion and the Mother Country. It certainly will do if we know how to profit by the lesson.

Hereafter our policy towards the United States must be fashioned on new lines. Instead of extending a second check when we have been smitten we must return blow for blow. We must treat our neighbors as they treat us. Instead of being submissive we must be aggressive. We must put an end to the Laurier policy of whine and impudence and adopt a policy of self-reliance and independence. We must begin with the tariff, making it more in the interests of Great Britain and Canada and less in the interests of the United States. We must refuse the Americans access to our forests and mines. We must maintain our rights in the Beiring Sea and on the Atlantic with firmness and consistency. And no better start can be made in this new policy than by giving fair warning to the American concern that has obtained a monopoly of Niagara Falls power that it will be ousted from possession thereof unless the agreement made with them is complied with to the letter. Let Mr. Hardy fire the first shot to-day.

How the Land of the Mahdi is Being Redistricted and Governed in English Fashion.

THE SITUATION.

The position taken by the United States on the Alaskan boundary question is tantamount to a declaration that they will not refer the dispute to arbitration at all. The body to whom the Americans are willing to refer the matter is not a court of arbitration in any sense of the term. A court without a judge is an exact parallel of the tribunal before which the United States would have this question decided. Three lawyers on one side and three lawyers on the other, with no presiding officer, and no umpire to decide the merits of the case, is absurd to designate such a body a court of arbitration.

In refusing to have the boundaries of its political districts rearranged, and its governors appointed.

PRESBYTERIANS IN THE LEAD.

First Church in Dawson City Which
is Self-Supporting.Vancouver, Feb. 21.—A letter addressed to the postmaster has been handed to Mr. Arthur Steffler, 70 East-street, Kingston, Jamaica, West Indies, Jan. 3, 1899, and signed "J. W. Brennan." The letter reads:

About twelve years ago I had a brother, Hugh A. Brennan, living in your city. He was not married, from which till these years, although I have written several times, and, as I do not know the whereabouts of any of my family, I think there may be a chance of your knowing whether he has been removed. I had also two brothers at St. Catharine's, Francis and Luke—and another brother, John, who died before his time. He was living at Buffalo, United States. Any information of any of these would be most thankfully received by me. I myself was born in Kingston, Canada, but I have been in Jamaica for the last 45 years. I presume my family must think I am dead, or I would have heard from them. Mrs. Steffler has a brother-in-law by the name mentioned above, but they are not relatives.

PRESBYTERIANS IN THE LEAD.

New York, Feb. 21.—Advised to Dawson City: At the first annual meeting of the Presbytery of the First Presbyterian Church, Dawson City, under auspices of a resolution to become self-supporting from Jan. 1, 1899. This is one of many nominations to the Nominating Committee to support the same. They are prepared to call a minister, and steps will be taken to secure a residence. They expect to agree to some Presbyteries to recognize. At a larger and more interesting congregational meeting their present Rev. Mr. Grant with an address expressive of the appearance of the world will make arrangements for Mrs. Grant with the inscription, "Token of love to Mrs. Grant on the occasion of our first annual meeting." First Presbyterian Church, Dawson. Over 40 communions were added at the first service.

Scandinavia in Dying.

New York, Feb. 21.—Mrs. Scott, left a wealthy widow, was found strangled at the morgue of Feb. 7 at her home in Fordingham, by shooting herself in the breast, died this morning in the Fordingham Hospital.

JOHN CATTO & SON,

King Street—Opposite the Postoffice.

TO LAY RAILS TO JAMES' BAY

A Strong Delegation Waits on the Ontario Government to Ask for Aid.

IT WOULD BUILD UP ONTARIO.

Much Interest is Being Taken in the Construction of the Proposed New Railroad.

The proposal to build a railway from Mississauga on the C.P.R. to Long Pointe at the mouth of Moose River, as a means of communicating Ontario with Hudson Bay, and the reasons why Ontario should generally with the promoters of such railroads, were very fully set forth before Hon. James Ross, Dryden and Davis, took Private Bills Committee room at the Parliament Buildings yesterday afternoon. That much interest is being manifested in the attendance of members to hear the views of the influential delegation that had come to state their case.

The Government Memorial.

A memorial to the Government endorsing the proposed scheme contained the signatures of Messrs. Robert Kilgour, George A. Cox, Stapleton Caldecott, G. M. Milligan, A. E. Kemp, J. J. Cassidy, Elias Rogers, A. E. Ames, G. M. Grant, R. E. Hart, William Briggs, H. A. Fudger, Plummer, H. Jaffray, G. H. Parkin, James Scott, A. Allan, etc.

The Deputation.

The delegation, which had taken the initiative in securing the attention of the Government to the proposed railway, consisted of all the members of the delegation who had been invited to attend the meeting at the Parliament Buildings.

Mr. Kilgour's Statement.

Mr. Kilgour referred to the importance of the proposed railway, and the fact that it would be of great benefit to the people of Ontario.

Mr. Charlton Supports It.

Mr. Charlton, M.L.A., was composed of Messrs. S. Cox, Robert Kilgour, James Scott, J. J. Cassidy and C. T. Hart.

Mr. Hart's Statement.

Mr. Hart referred to the importance of the proposed railway, and the fact that it would be of great benefit to the people of Ontario.

Mr. Hart's Statement.

Mr. Hart referred to the importance of the proposed railway, and the fact that it would be of great benefit to the people of Ontario.

WAS MANAGER OF THE OLIVE

Capt. Dodge Talks to The World of the Mines of the Seine River Region.

A SLUMP IN DEER PARK STOCK

Caused by Disappointing Smelter Return-Mining Stock Quotations and Sales Yesterday.

Clarence King, the famous New York mining expert, has gone to England in the interests of Messrs. Gooderham and Blackstock, to look into and pass an opinion upon the Iron Mask and Centre Star controversy. As the World readers already know, the dispute between the two mining companies is over the Centre Stars claim to the right of possession of one of the Iron Mask bodies, on account of alleged extra-lateral rights.

Deer Park Smelt.

The feature in local mining market yesterday was the slump in Deer Park, which, after selling around 10 and 20c a few days ago, dropped to 8c.

At a meeting of the directors of the Deer Park Gold Mining Company, held yesterday, at which Mr. F. A. Mulholland, the superintendent, was present, the returns of the recent shipment to the smelters were presented. It appears that owing to lack of water the ore sent to the smelter was simply taken off the dump (assays of which had been satisfactory enough to make a test shipment) without sorting, and the returns are unsatisfactory. The directors, after having heard Mr. Mulholland, and getting his explanation as to the condition of the mine and of the terms of the shipment, came to the conclusion to continue working the mine, and to get a report from an eminent mining engineer, which report will be given to the shareholders as soon as it can be prepared. The directors would like to suggest to the shareholders the advisability of parting with their stock until the report above alluded to is obtained, and the result of the present working seen.

St. Elmo Consolidated.
An item in these columns yesterday, referring to the offer of an interest in the St. Elmo, at Rossland, should have read, "St. Elmo Consolidated." The two properties are distinct.

Sold 450,000 Shares.
Four hundred and fifty thousand shares of stock in a mining property near Rossland, B.C., have just been sold by a Toronto to a Montreal syndicate, and the money paid is to be spent development.

Golden Star Ore.
Mr. W. B. Taylor recently received a letter from Duluth stating that the superintendent of the Golden Star mine estimated that if the present rich ore continued they would clean up about \$25,000 per month.

ONTARIO'S MINES.

Ex-Manager of the Olive Talks of the Seine River Gold Region.
Captain A. E. Dodge, late manager of development work in the Olive mine, in the Seine River district of Ontario, and formerly assistant manager of the Lake of Woods, is in the city on his way to England, whence he may proceed to Central Africa, where he has offered a position of general manager of two London syndicates. Captain Dodge is impressed with the richness of the Northwestern Ontario gold fields, and is convinced that some such necessary capital can be secured for development work in the region as will be required for paying mines. To a World reporter yesterday he gave some interesting details regarding the principal properties in the Seine River district.

"The first mine opened in the district," said Capt. Dodge, "was the Little American, in the spring of 1882. A five-stamp mill was erected, but operations were suspended, but operations have for some reason been suspended. The main shaft is down 200 feet."

The first mine was opened in 1883. The main shaft is now down 425 feet, with 100 foot lifts. The vein shows an average width of three and a half feet, and the ore yields an average of \$14 per ton. Some of it runs as high as \$20 per ton. The mine comprises a 10-drill compressor, a 20-stamp mill and the usual equipment. The total bullion produced to date is valued at \$45,000. It is said that the property has been acquired by an English syndicate, which has a working capital of \$175,000.

The Decca mine, which is controlled by Montreal capitalists, is yet to be developed in the development stage. Two shafts have been sunk, one of which is down 65 feet, and the other 120 feet. The ore vein is seven feet in width. A new mill will be installed in the sinking, and a mill will be completed at a later period of the year.

"Just south of the Decca, K23 is located, and has recently been acquired by Mr. Frank Peterson. Mr. Peterson had valuable experience in mining in various parts of the west. Mr. Peterson decided that this district offers better inducements for profitable mining than any other with which

Early Accidents Cause Lifelong Suffering. A Case that is Causing Talk.

When a lad about eight years of age fell into a cellar a distance of ten feet, striking on my head, and causing concussion of the brain. I was taken to a London Eng. Hospital, the first seven days not recovering. The next seven days were very low-spirited and down-hearted; but I was not the only one, and every person was going to meet him, and life only had a dark side for me. My appetite was poor most of the time, but I am now happy to say that, since taking Dr. Ward's Blood and Nerve Pills, I have only had one fainting spell, shortly after I began taking them, so I have no hesitation in saying that Dr. Ward's Pills are good. Before taking these pills I always looked for a fainting spell not more than two weeks apart; now, I would be greatly surprised if there were any recurrence of these spells. Life is now bright—the constant, morbid, down-hearted feeling is gone, being replaced by a contented, hopeful feeling. I feel like working. My appetite is good, and in every respect I have experienced the health and strength restoring properties of Dr. Ward's Blood and Nerve Pills. They certainly have proved a great blessing to me. Yours truly, (Signed) Thomas Stanton, Brighton, Ontario.

Dr. Ward's Blood and Nerve Pills are sold at 50c per box, 5 boxes for \$2.00 by the Doctor Ward Co., Limited, Toronto.

he is familiar, and he has decided to push development work with all possible speed, and has already given a contract for sinking, and it looks very promising.

"The Lucky Cooch, or water, little has been heard of late owing to difficulties among the owners, who will soon be in operational dissensions having been satisfactorily adjusted. Three shafts have been sunk on the property, 75 feet, 45 feet and 15 feet, respectively. There are three veins on the property, 9 feet, 15 feet and 20 feet in width. The mine is equipped with a five-stamp mill and all accessories.

"ADZ, adjoining the Lucky Cooch, on the western side, is another property partially interested in the Golden Star, and development work will be commenced and actively proceeded early in the spring.

"The White Star mine was opened up by Duluth capitalists in 1887, since which time it has become a bullion-producer and dividend-payer. The shaft is down 400 feet, and the width of the vein at the bottom is 6 feet. The ore vein is 100 feet long, and \$20 per ton. Levels have been opened out to 100 feet, 150 feet, 225 feet, 300 feet and 375 feet. From the top to bottom varies from 10 to 40 feet. Not having done more, a stock pile of 4000 tons of ore was raised from development work; a part of the ore was sold for \$40,000 in bullion produced. There is now a vein 100 feet long in the mine to pay the investors and owners about 700 per cent. on the capital invested.

"This mine is equipped with the most modern kind of a plant for milling, mining and transportation. The machinery consists of a 10-stamp mill, which crushes 3½ tons per hour, 22 hours. The mill has vanners, sizers, etc., working the concentrates, which amount to 4% or 5 per cent.; these also have high values. Two 60-horsepower steam engines, eight drill compressors and an Otto aerial compressor, also features of the equipment. The cable car transports the ore from the shaft to the surface, and the vein is 100 feet long. The price of milling is 50 cents per ton, and the cost of production is \$4 per ton, making the total cost of production \$4 per ton. A one-ton self-dumping skip has been installed, which reduces the cost of mining. The vein is cut and built up, and the veins are lighted throughout with electric lights. The vein of \$80,000 had been expended in developing and equipping the mine up to the 100-foot level.

"This mine is equipped with the most modern kind of a plant for milling, mining and transportation. The machinery consists of a 10-stamp mill, which crushes 3½ tons per hour, 22 hours. WHEAT IS NOT VERY ACTIVE

Little Movement in Chicago Futures Yesterday.

Liverpool Futures Opened Higher, But Declined Later—Maine Markets Little Changed—Local Grain, Produce and Live Stock Markets —Notes and Gossip of the Day.

Thursday Evening, Feb. 21.—The market was still, at an average over night, but a small fall and close, to 4d per cent lower than yesterday.

Paris wheat to-day advanced 5 cents, and fell closed 1d cent lower to 10

Chicago's speculative wheat market was not very active to-day, and despite the recent good-stomped, little evidence of a likely rally was noticeable. Argentina and other foreign markets were quiet. The May option this morning opened 2d per bushel below yesterday's close, advanced 3d during the session, and then receded 3d closing at 4d per cent lower as it did yesterday. There will be no session of the Chicago exchange to-morrow.

Liverpool maize futures to-day declined 1d per cent. Corn was about unchanged at Chicago.

Flour declined 3d at Liverpool to-day.

Lard declined 3d at Liverpool, and bacon declined 1d.

Liverpool wheat receipts in the past three days 208,000 centals, all American. Corn same time 160,000 centals.

Broadstreet's makes the past week's decrease in the world's visible supply 1,000,000 bushels.

Exports at New York to-day: Flour 13,500 sacks; wheat 54,888 bushels.

Imports at New York and Liverpool and Dublin to-day 579 cars, as against 570 cars the corresponding day of last year.
