MR. McLEOD APPEARS. "There is no question of political parties in this contest," said Hon. H. F. McLeod at Milford last evening. For Mr. McLeod has also been summoned to assist Mr. Hazen, Mr. Fleming, Mr. Grimmer, Mr. Maxwell, Mr. Morrissey, Mr. Hatheway, Dr. McInerney, Mr. Wilson, Mr. Spruce, Mr. Murray, Mr. Agar, Mr. Lawlor, Mr. Mullin, Mr. Powell, Mr. Baxter, Dr. MacFae and other non-partisan patriots who are in the county to save the Liberals from the sad consequences of supporting a Liberal candidate.

Mr. J. W. V. Lawlor is in training for a Conservative candidate in some of the constituencies, and endeavored to ingratiate himself with the electors of Milford last evening. It was perhaps in no sense typical of his personal feeling with regard to Mr. Lawlor's aspirations, but it may be noted that Mr. Agar was at Red Head last evening.

At Brookville last evening Hon. F. J. Sweeney, Mr. Tweeddale and Mr. McAlpine exposed the falsity of the claim that the Hazen government had redeemed its pledges or was worthy of support. Reports of their speeches will be found in this issue of the Times.

SUSPENSION BRIDGE REPAIRS. The government was pledged before taking office to do all public works by contract after publicly inviting tenders. Within a month after they had attained power they entered into an arrangement with a political supporter to repair the suspension bridge by days work. They said the engineer had reported the necessity for the repairs as urgent and that there was no time to ask for tenders. This was untrue in every particular, but most notably regarding the engineer who was not asked to examine the bridge until the work was well advanced, and then only after the attention of the house had been called to the fact that the repairs were in progress. Then the engineer made a visit to the bridge and a report. His report showed that there was no such urgency as was claimed by the government, but that the planking in the centre of the bridge was in good condition and that only that on the ends was badly worn. The repairs cost about \$4,000 and the bills, instead of being certified by the engineer, were certified by Hon. Robert Maxwell, who handed over the job to one of his political friends. These bills include tools and lunches in addition to labor. There was no record of what became of the tools after the work was done, although Mr. Morrissey insinuated in a speech dealing with the purchase of tools for public works carried on by the old government that they were generally stolen. He ignored the purchase of these articles altogether in connection with the suspension bridge repairs.

Mr. Mosher said at Milford last night that Mr. Bentley was a "goody-goody man." This means that in Mr. Mosher's opinion Mr. Bentley is a weakly pious, amply-pampered sort of person. Mr. Bentley is an honorable gentleman, a good citizen, and a capable business man, with large interests in St. John county. His eye has never been fixed on a stewardship or anything of that sort. He is the kind of man the people can trust to guard their interests in the legislature. The Conservatives have charged Mr. Lowell with a willingness to injure the county for the good of the party, and now their candidate calls Mr. Bentley is at least good for a safe majority on Tuesday next.

what I have learned in the States. On this I do not agree with them, the Equimaux is more civilized than the white man. They live like brother and sister, and each one is always ready and willing to help the other, which is not so in the States. The inhabitants of Greenland are the most happy people in the world! One of Halifax's leading merchants believes that Leon Ling, the New York girl murderer, was in that city when he saw him or his double. J. R. Cowans, mine manager, Springfield, says that the employees at the mines in that town lost 11,283 days in January, February and March, chiefly after pay days, involving a loss of \$30,000 to the men, and \$20,000 to the company in three months. The loss referred to above by Manager Cowans arose largely from continued strikes by the men for pay days. The Eastern Chronicle, New Glasgow, says: "After careful consideration we have come to the conclusion that as mayor of city like Glace Bay, John C. Douglas is a 'medi' and further that in the present crisis he is making a complete ass of himself. Ninety-nine per cent of the people north, east, south and west of Glace Bay will agree with us."

As George W. Bowers, an employee of the I. C. R., was completing his work at Richmond, yesterday afternoon, he dropped dead. Mr. Bowers was for some years caretaker of the exhibition building. Miss Walker, the unhappy Equimaux boy, who was taken to the United States fourteen years ago, by Commander Peary, arrived in Halifax on Monday, on the Red Cross liner Rosalind from New York, bound for Greenland, where among his own people he will at least be permitted to live again the only life that seems to him worth living. Miss is the only survivor of six Equimaux who were taken to New York by Peary. The others, including Miss's father, died of pneumonia, but the 7-year-old boy withstood the enervating climate and was carefully brought up by officers of the American Museum of Natural History, where the bones of the others are on exhibition. He says: "Some of the people in New York say I should remain up north and teach the inhabitants

ROY JOHNSON DIES AS THE RESULT OF BROKEN SKULL

He Had Typhoid Fever Too—Was Struck in Head With Stone While Playing With Boys—Coroner Berryman Has Case in Hand.

Roy Walter Johnston, of 52 Brussels street, lies dead in the General Public Hospital as the result of a fractured skull caused by a blow with a stone thrown, it is believed, by some of his comrades while playing on Sunday, July 4.

The boy, who was seventeen years of age, was conveyed to the hospital in the ambulance on Friday evening, his head being taken suddenly ill at his home. It was thought by those of his household that his illness might have been the result of an injury referred to, but an examination made showed not the slightest indication of a fracture.

He did, however, show symptoms of typhoid fever, which were positively confirmed by the usual processes. There were no indications of anything the till Monday last when the lad showed partial paralysis. With the story of the injury to his head in mind a minute examination was made and as a result a depressed fracture of the skull was found a little to the front of the top of the ear.

Coroner Berryman has been notified and will likely hold an inquest, as it is yet to be determined whether the blow which caused the fracture was an accident or otherwise.

STRANDED TROUPE HOME TO NEW YORK ON A BANANA BOAT

New York, July 13.—Seventeen members of a stranded New York variety troupe who arrived here on a banana boat, declared that "Venice" is certainly a poor field for vaudeville. Although they offered Castro's countrymen the latest hits of the New York vaudeville, they could not come to terms with the yellow fever, the "bubonic plague" and the chronic excitement in that country.

Dr. Edward Murphy has returned to Rockbury (Maine) on Monday, after spending a few days with his parents, Mr. and Mrs. George Murphy, Rockland road. Mr. and Mrs. E. A. Smith will leave in a few days for a trip to England and the continent. Finally, all but three decided to come home even if they had to sail with bananas and a sprinkling of tarantulas. They arrived here practically destitute.

CHATHAM MAN SAID TO HAVE LEFT TOWN

Chatham, N. B., July 14.—(Special)—The creditors C. A. Cote, who conducted a clothes pressing and dying business here for some months, are anxious about his disappearance from town a few days ago, and it is thought he is away to the States. Lately he has gone into the Starr steam laundry business with S. A. Gould, and has left the books in a bad state, collecting a lot of debts and failing to pay the employees of the laundry. Cote was in town Saturday and is known to have collected considerable money. A telephone message from his wife, who lives in Newcastle, stated he was sick in bed there. If Cote has absconded, much sympathy will be felt for Mr. Gould, who has worked hard to build up a laundry business and has been defrauded by partners on three separate occasions.

FOR OUTDOOR GYMNASTICS

Every Day Club Will Have Teacher and Equipment—A Drill Instructor Wanted.

Through the kindness of one of its members, the Every Day Club will be in a position to give outdoor gymnastic training to boys on its grounds on certain afternoons in the week during the holiday season. Some of this can be done without any equipment, and Anthony Graves, who has had experience with similar work in the Y. M. C. A. in Baltimore, would like to have any number of boys from 10 to 15 years of age on the grounds next Monday afternoon at 3 o'clock, to begin the training. The club will at once construct trapeze, parallel bars and other equipment for more general gymnasium work under Mr. Graves' supervision.

The club would also like to secure the voluntary aid of some men familiar with marching movements and military drill, as it is believed a great many boys could be interested in this kind of physical exercise.

Subscriptions to the playground fund are coming in so slowly as to indicate a lack of interest, which it is hoped is not the case.

"INDIANS" TO TAKE TO WOODS SATURDAY

War Whoops Are Expected to Resound Over Boar's Head When These Tribes Get Together.

The "business boys" of the Y. M. C. A. will enjoy a very pleasant outing to Boar's Head next Saturday and Sunday if the weather is suitable.

Some of the other preparations were made for the formation of a number of the boys into Indian tribes but on account of the rain expected to take place on Saturday having to go out of town for their holiday action was deferred until a sufficient number could be assembled to take a working interest in the matter. The only boys available and who are able to participate in the outings planned on, are those who attend school but who belong to the "laboring class" and are consequently in town most of their time.

When the activities were first outlined it was expected that enough boys could be got together to form five tribes of twenty-five each, with their big chief, medicine men, runners, messengers, messengers, messengers, messengers, messengers and other tribal dignitaries. But owing to the reasons stated only three tribes are expected to take their tomahawks in hand and rampage on the war-path.

So far only two officers have been elected, viz: E. Bayard Trueman, big chief, and Herman Lordly, medicine man, and it is for the purpose of organizing and electing the other officers essential to the welfare of an Indian tribe that the boys will meet on Saturday evening.

Accompanied by C. C. Robinson, physical director, the young fellows will leave about eight o'clock Saturday evening for the woods near Boar's Head and Sunday in a spacious log cabin situated in a picturesque spot in the wilderness surrounding the "Boar's Head" and will there conduct their meeting, arrange their plans for the summer outings and frame a constitution.

Preparations are well under way for the annual boys' camp to be held at Robinson's Point, August 4th to 19th and although a good number have signified their intention of taking part in the outing which is expected to excel in every way that of any other year, more extensive arrangements have been made for it than heretofore.

A PERRY'S POINT CASE OF HAZEN'S ECONOMY

Perry's Point, Kings Co., July 12th.

To the Editor of the Times—

If you will allow me space in your valuable paper I would like to draw the electors' attention to a little piece of "Hazen's economy" which is being practiced in this district. At one time at this point there was a bridge, but kind Providence, who watched so carefully over the old government, somehow forgot his friend Hazen last winter and allowed the ice to destroy this structure. This spring they established a free ferry. At first a small boat was sufficient to handle the traffic, but some of Hazen's pets having some awdust to rub through, he has had the boat replaced by a "Big Boat" of this district to have a scow ferry started, which was done. Now this scow is just an ordinary sail scow, which any boy could handle, but in this case it takes two men, namely "Capt. Saunders, with Quartermaster Thompson second in command, one receiving \$2.00 and the other \$1.50 per day. Now that the water is getting low, it is almost impossible to land on the east side on account of the flats, and on the west side it is blocked with logs, so if a team wants to ferry and save time they simply do, as they always do at Perry's Point and ferry with Capt. Pitt. This government ferry is for the accommodation of the "Big Boat" and the accommodation of the "Big Boat" is for the farmers. It does not start until 8 a. m. and by the time a team gets on and ferried it would be after dinner before it could get into St. John. The traffic is very light and these two men do nothing over half their time but smoke, and the old scow bumps merrily against the public wharf. They never bother their heads about fixing an approach, but just wait for their pay and orders from the "Big Boat" in this district. As long as you stand for consolidated schools you are a friend of the "Big Boat" and he and his lieutenant can get you anything you want in the line of government snags. There are quite a few things in this line around this district that I could refer to and comment upon, but space will not allow me, but if the electors of St. John county have no evidence of Hazen's weakness, just let them come to Kings county and we will show them all kinds of job juggling and political graft. Thanking you, Mr. Editor, for your kindness, I remain,

AN OBSERVER.
