GREETING. . . .

The Young Men's
Christian Association,

OF ACADIA. . . .

Extends a hearty greeting to Acadia men new and old. In this, the first issue of the handbook, we have tried to set forth in substantial form such information regarding the University and its societies, as shall be of service in the present year. It is sent out in the hopes that every Student will take a personal and hearty interest in the working of the Association and Christian Work of the University; and that the present year may be marked, as one of great spiritual prosperity.

Young Men's Christian Association.

During the last fifty years the need has been felt throughout the christian church for definite work for young men. This need is being filled by the Young Men's Christian Association. The first association of the world was organized at London in 1841; in America, at Montreal in 1850, and eight years later the first College Association was formed in the University of Michigan. The work has so spread that now, in America, every city and town of importance, and every college has its Y. M. C. A. as a centre for organized christian work for young men, by young men. And it has spread beyond us until this year there are reported 4,968 associations among thirty-five nations, speaking fifteen languages, and having property amounting to more than \$14,000,000. While on our own continent 468 associations in colleges, ninety-six associations for work among railroad men, twelve German, thirty-nine Colored, twenty-four Indian, one French and one Japanese attest the practical value and the great magnitude of the work. How great things the Lord hath wrought and is now working.

Volunteer Band.

S. R. MCCURDY	President
H. A. STUART	Secretary

Band meetings are held Sunday evening, after other public meetings, in the study of the president.

The Band, during the past year, has been pursuing a course of study in Baptist Missions. A similar course will be taken up this year.

Intercollegiate and Missionary Work.

During the year, our association has endeavored in all ways to keep itself a part of the greater work carried forward through the International Committee, as also the intercollegiate work in our own maritime provinces.

We were fortunate, the past year, in having the Maritime College Y. M. C. A. Convention meet with us. Delegates were present from Dalhousie, Sackville, University of N. B. and Prince of Wales College.

The International Committee were represented by W. H. Sallmon of Yale University. The convention was one of great spiritual power. This year we meet at Fredrickton with the University of N. B., and anticipate very helpful sessions.

The association was represented at the Student Volunteer Convention at Detroit.

Last year we contributed twenty-five dollars to the International Committee of the Y. M. C. A., while the Missionary Society contributed one hundred dollars to the foreign missionary work.

During the year the Missionary Society has disbanded, and the work formerly done by that organization has been put in the hands of the Missionary Committee of the Y. M. C. A.

We bespeak for this committee the hearty co-operation of every student, so that this year may see a large contribution to this very important phase of our work.

During the past year the missionary work at our out stations has been carried forward. The committee for this year will continue to hold regular services at Roger's Mountain, Morian Mountain, and the Poor Farm.

These meetings are held Sabbath afternoons throughout the year, and are led by delegated students.

Our University Buildings.

The buildings "on the hill" always have, and always will hold a very dear place in the hearts of Acadia Students. We enumerate rather than endeavor to describe the different buildings.

COLLEGE BUILDING is the center of all as regards location, interest, and influence. This is the large white building in the center of the college area and facing Main Street. Here are the class-rooms of the College and Academy, the Chapel, Assembly Hall, Museum, Library and President's office.

CHIPMAN HALL is the three-story wooden building on University Avenue. It is the students' home; here are the students' rooms and boarding place.

ATHENÆUM BUILDING is the structure on the left of the walk leading from the College Building to Chipman Hall. In this are located the Sanctum of the editors of the "Athenæum," the reading room of the University, and the assembly room of the Athenæum Society.

THE GYMNASIUM is situated on University Avenue just above Chipman Hall. The Gymn is well furnished with improved apparatus and everything necessary for complete physical developement.

THE ACADEMY BOARDING HOUSE is the three-story wooden building, on the north side of Main Street, west of the campus. The faculty and students of Horton Academy live here.

THE J. W. YOUNG MANUAL TRAINING BUILDING occupies the south-west corner of the campus. The building is fully equipped with forges, anvils, etc. for work in iron; lathes and tools for all kinds of work in wood, and a draughting room.

ACADIA SEMINARY is the large and spacious building on the left as you enter the College area from Professor Street. Here are the studies, class rooms, Principal's office, Museum, Library, Music room, etc. of the Ladies' Seminary.

Work is about commencing on the new *building for the Horticultural School*, which during the year has held classes in the college building.
