BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some of our samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

Manufacturers of STORE FRONT, STORE, CHURCH, VITRINES, PUTTY, SHELLS, RED and YELLOW, METAL, HOES, SPRINGS, PAPER, and COFFERS, SHIRT LEAD, and ZINC, PLAIN, ENAMEL, GLASS, MIRRORS, LOCKS, KNOBS, GENERAL RUBBER, HARDWARE.

FAST HOCKEY AT CHATHAM

Campbellton Goes Down to Defeat in Great Fight.

By the fastest game ever played by our town on Chatham ice, our team was defeated last night by a score of 2-3. The play was fast and furious from start to finish. The first goal was scored by Payne, who made an end to end rush. Spratt evaded up for Chatham at the end of the first period when ended 1-1.

The second period opened up faster than the first when Spratt scored for Chatham. On a pass from Payne on centre ice, Spratt, by some nice stick handling, evaded the score for Campbellton, the period ending 2-2.

In the third period Spratt scored the winning goal for Chatham, game ending 3-2, in favor of Chatham.

Starrak and Matthews made rush after rush down the ice which was stopped by the nice work of the Chatham goal tender. Thomas and McLean also played one of their best games and MacKenzie made some wonderful stops in the net. Laylovet and Duncan showed up well as guards for the short while they were in the ice.

The line-up was as follows:

Chatham	Goal	Campbellton
Carroll	Payne	MacKenzie
Walling	McLean	Walling
Duncan	Starrak	Starrak
Martin	Matthews	Matthews
Spratt	Thomas	Thomas

Chatham Spares—Gilbert, Mills and Currie.

Campbellton Spares—Laylovet, Duncan, Wilkins and Sharp.

Frank Brown refereed the game in a satisfactory manner.

BOARD OF TRADE HOLDS MEETING

Memorial Committee Have Bridge Matter in Hand—Other Business.

A meeting of the Board of Trade was held in the Firemen's hall last Friday, President Champoux in the chair.

There was a goodly number present and much enthusiasm was shown in the several subjects brought up. Mr. Champoux stated that the object of the meeting was principally to take some action on the proposed bridge over the Restigouche river. He stated that a meeting of the Canadian Lumbermen's Association was to be held at Ottawa on Jan. 12th and 13th and suggested that we send a strong delegation to again press the matter before the ministers. Such men as W. H. Miller, P. W. Napier, W. S. Richards of Campbellton and M. McLean of Bathurst; Mr. Priest of Dalhousie, as well as others from Bonaventure and Gaspé counties would be present at Ottawa and he felt sure would gladly act upon such a delegation. He himself would also be present.

This suggestion was enthusiastically received and President Champoux was empowered to name such delegation and act with them.

The Memorial Committee was instructed to prepare a memorial stating forth additional facts covered by previous delegation and have it duly signed and ready for the delegation. It was suggested that Mr. T. R. Buxton be asked to accompany the delegation.

W. H. Wallace moved that the Secretary be authorized to write the Imperial Oil Co. and inform them that the Campbellton Board of Trade was in sympathy of their plan for the extension of their plant here and would encourage it in every way.

This motion was discussed and every gentleman who spoke favored the proposition.

Mr. T. R. Buxton spoke enthusiastically for the bridge. He read a resolution passed by the Municipality of Manville, Alberta, some time ago as follows:

In the minutes of the Municipal Council of the Corporation of Manville held at Oxbow, Alberta, 9th April, 1918, it was resolved that a ferryman shall be appointed and that the following ferry at Oxbow, Alberta, this township shall be the regulations on the said of Manville to Campbellton in the Province of New Brunswick.

First: The ferryman shall have and keep on the said ferry one team of horses to be propelled by the said team also one row boat, each to be kept clean and in good shape and repair, with conveniences for landing for the conveyance of passengers, horses, vehicles, etc., every half hour from the hours of five a. m. and eight p. m. and after the first day of October, according to the ordinary working hours. The ferryman shall remain on the Canadian side of the river during the night with either team or the row boat so that passengers may cross the river during the night.

The following shall be the ferrage during the day, viz:

For each person, 6 pence.
For 1 horse and rider, 2 shillings.
For 1 horse and vehicle with driver but no passenger, 2 shillings and 6 pence.

Returning Sunday, 2 shillings.
Each Ox, 1 shilling; 8 pence.
Each Cow, 1 shilling.
Each calf, sheep or heifer, 6 pence.
Each Pig or Sheep, 6 pence.
Each barrel of Pork, etc., 6 pence.
Each bag of grain or other produce, 3 pence.
Each quarter of Beef, 3 pence.
Double the above fares during the night.

Resolved that the license money to be paid by the ferryman for a year shall be two pounds, and fifteen shillings. This was signed by James Sillar, Thomas Wilson, John Campbell and one hundred and forty other signatures.

There was established the first ferry. He over twenty five years ago advocated a bridge and he felt that if we all hurried, selfish feeling we would get the bridge, but not until we did. He also spoke of the great need of a wooden mill, stating that farmers throughout the district were unable to have their wood sawed here. He would be pleased to invest in such a company if started here, and he knew other farmers could be interested.

It was decided to hold another meeting shortly after which the meeting adjourned.

E. F. WILLISTON, WELL KNOWN RESIDENT OF NEWCASTLE, N. B., Jan. 6.—Death early yesterday morning removed one of the best known citizens of this county in the person of E. F. Williston, secretary treasurer of the county and barrister at law. He was a son of the late Judge Edward Williston, and resided here all his life.

He was ill about a year of bright disease. The late Mr. Williston leaves one brother, Richard of Newcastle, one son, John and one daughter, Mrs. Tracy Gould of Newcastle. The funeral will be held on Tuesday, at three o'clock in the St. Michael's cemetery.

CUSTOMS REPORT APRIL-DECEMBER

Total Collections in Ten Months Exceed \$30,000—Fine Showing.

The Graphic is in receipt of the following statement from Collector of Customs Mouton of the Customs Collections at the Port of Campbellton, N. B. for the period, April 1st 1920 to December 31st 1920, both dates inclusive, along with the Collections from the Outport of Dalhousie, N. B. Outpost of Jacques River, N. B., collector of Import Duties, not being a Collecting Station, but the Local Sales, and Luxury Taxes paid at each Jacques River, N. B. and Outport of Dalhousie, N. B. are all included along and in with the collections for these taxes at the Chief Port of Campbellton, N. B.

Outport of Dalhousie, N. B.
Sale Tax \$104.58
Import Duties and
Sale Taxes 3403.10

Local Luxury Taxes \$128.43
Local Sales Taxes 10014.09
Total Collections for Port
and Outports \$30786.41

A detailed Statement of the Local Taxes collected will be furnished later, and will show what Collections the Outports made of the Luxury and Sale Taxes.

RESTIGOUCHE HAS NO REPRESENTATIVES

Returns Sent to Provincial Secretary Returned to Sheriff for Additions.

So far as Restigouche is concerned this county has no representatives to represent her in the next session of the local legislature.

It will be remembered that the judge in the recent proceedings found such a lack that he refused to issue a certificate stating who were the successful candidates as disclosed by his report.

The Sheriff was then prevailed upon to send in a return declaring Messrs. Stewart and D'Amie duly elected.

As the matter had been taken out of the Sheriff's hands by the recent proceedings, and the law clearly states that the judge shall make the return, the Provincial Secretary returned the return to the Sheriff requesting him to procure the prescribed certificate from the judge holding the records.

As it was impossible to procure this legal return of the election for Restigouche has been received by the government.

The matter will very probably be taken up by the Legislature when it meets and a new election ordered.

What sort of a woman would elect to remain by herself on a lonely island rather than return to the world under a cloud of suspicion? See "The Island of Regeneration."

Can one live the life of a semi-savage from childhood, seeing no human fact in twenty-one years, and then become a man of intellect and refinement? See "The Island of Regeneration."

LITTLE SNIR IN CIVIC AFFAIRS

No Announcement Yet As to Who Will Offer For Council.

Matters in reference to civic affairs are arising along with no move yet to find aspirants to fill positions as mayor or councillors for the various wards.

His Worship Mayor Murray after two years service has definitely announced that he will under no consideration again offer.

As far as the Councillors are concerned all except Council, Bellefleur and Shannon have stated that they were out of it.

If the right men are to be put in some should be taken at once as nomination day is Tuesday, Jan. 18th.

Another fire

An alarm of fire was sent this morning for a fire in the house of Frank McGregor over the hill on one of the streets leading off Andrew. The fire department responded promptly for a considerable damage was done before the fire was brought under control.

Mr. Mac Duncan entertained a number of friends on Monday evening at the home of Mrs. H. G. V. Farrar.

Miss Jean McDonald and Miss Roberta Titus have returned to Mount Allison, Sackville, after spending the vacation at their homes here.

Miss Etta Wyers who has been spending the holidays in town returned yesterday to Moncton Business College.

DIED SUDDENLY AT ST. LOUIS HOTEL

J. E. Michaud, Popular Lumberman of St. Quentin Passes Away

The community was shocked Friday morning to learn of the very sudden death of J. E. Michaud of St. Quentin, which occurred at the St. Louis Hotel at 6:30 that morning.

The deceased, who was a very popular young lumberman, arrived here on Monday, Dec. 27th, and registered at the St. Louis Hotel. He was engaged on business until Thursday morning when he started for home, but became suddenly ill on the train and returned to Campbellton Thursday evening for medical attention, but despite all that medical science could do he expired as above stated.

The body was sent to St. Quentin Friday for interment.

A REMINDER.

IN 21 YEARS SEES NO HUMAN BEING

Isolated Crusoe Found on South Sea Island by Young Girl

On a lonely island in the South Pacific a lonely Crusoe lived for twenty-one years. When Katherine Brenton, escaping from the consequences of an experiment in radicalism which had taken her to sea aboard of young Langford's yacht, reached the island in a motor boat, John Charnock had forgotten all human speech, with the exception of a few lines of a simple prayer taught him by his mother.

The strange story is told in "The Island of Regeneration," by the Rev. Cyrus Townsend Brady, visualized by Vitagraph. It will be shown at the Opera House next Monday and Tuesday.

When John Charnock, Sr., decided on a long sea voyage for his wife's health, John, Jr., was five years old. Six months later in the South Sea, Charnock's vessel caught fire at sea and had to be abandoned. Charnock, with his wife and child and the little boy's dog, in one of the boats, became separated from the others. The man was washed overboard. The woman did not long survive the shock and exposure, and later the dog, leaving the child utterly alone except for monkeys and parrots which he made his companions.

Katherine Brenton, reaching the island more than twenty years later, finds the seeming savage and discovers that the undeveloped mind has reached marvellous qualities. She sets herself to teach him, and in this she accomplishes her own regeneration.

The role of John Charnock, the castaway, gives Antonio Moreno remarkable opportunities for impressive acting, and Edith Storey is a charming Katherine.

MUST PAY MORE FOR PAUPER PATIENTS

Notice Sent to the Municipalities in Regard to Change.

Notices have been sent by the provincial government to the various county secretaries that legislation will be brought out for the purpose of having the cost of the maintenance of the pauper patients towards pauper patients in the provincial hospitals for Nervous Diseases in the year just ended it cost \$200,000 to maintain and operate the institutions in Lunenburg, or twice as much as in pre-war days. This in the face of the high salaries exacted by the superintendent, Dr. Abelin. High cost of fuel, food, drugs, help, etc., is the reason for the increase. There are two patients in the lunatic and the cost per patient per day is \$5.00. Under present legislation, each parish contributes a dollar a day for a pauper patient from his own funds, and there is a limit of six on the number for whom payment may be exacted. Many parishes are paying for fewer patients than they want.

A charge of \$2.50 a day for each pauper patient is suggested to be borne by the municipalities. It is pointed out that a poor parish might send six or more patients to the provincial hospital, while there might be none from a rich parish, hence the suggestion that the municipalities pay rather than the parish. This system is in vogue in regard to other public institutions.

ELECT OFFICERS.

At a regular meeting of Crowell Royal Black Preceptory 556 the following officers were duly elected for the ensuing year:

W. P. Sir Kt. J. A. H. Duncan.
D. P. Sir Kt. S. Turner.
Registrar—Sir Kt. W. J. MacMillan.
Treasurer—Kt. Wm. A. Rogers.
First Lect.—Sir Kt. A. Simonson.
Second Lect.—Sir Kt. W. J. McKay.
First Censor—Sir Kt. E. B. Allan.
Second Censor—Sir Kt. R. Ellisworth.

Standard Bearer—Sir Kt. W. W. Law and Sir Kt. Geo. Dobson.
Chap.—Sir Kt. C. E. Mosher.
Press—Sir Kt. Thos. McLean.
Committee—Sir Kt. John McCallum, Sir Kt. W. H. Kane, Sir Kt. D. McMillan, Sir Kt. Wm. Harvey, Sir Kt. R. Goodwin, Sir Kt. R. G. Duff.

At the close of the election Sir Kt. Duncan was presented with a Past Preceptory Jewel and address. Sir Kt. Duncan, although taken by surprise, replied in a very fitting manner dealing with the growth of the order since its inception some ten years ago. After which the newly elected officers were duly installed by Provincial Grand Registrar Sir Kt. D. C. Graham. The report of the auditors was then received and showed the Preceptory finances in a flourishing condition.

W. F. MacMILLAN, Registrar.

NOT BUSHED.

We hope the Council has not forgot to order the road bushed from Cross Point to Prince William Street in order that the Trade of the East may be treated fairly. That is where the road has been located and bushed for the last 100 years, then why discontinue it?

J. E. MICHAUD JOINS CABINET

Is Member Without Portfolio—Prominent Edmundston Citizen.

Frederick, N. B., Jan. 5.—Joseph E. Michaud, M. P. P. for Madawaska has joined the provincial government as a member of Premier Foster's cabinet without portfolio.

Announcement was made this morning that Mr. Michaud was sworn in last night, and he has since been attending the meetings of the cabinet and the executive council now in progress here. His elevation to the cabinet without portfolio was foreseen after the retirement of his former colleague, Hon. A. L. Dugal, several months ago.

Hon. Mr. Michaud is one of the youngest men ever to enter a government in New Brunswick. He is now only thirty-two years old, having been born at St. Antoine, Quebec, on Sept. 28, 1888, and is a son of Joseph Michaud and Eugénie Bernier, both French Canadians. He was educated at the Quebec Seminary and St. Dunstan's College, Chatham, N. B., and later took the degree of B. A. at Laval University and LL.B. at Dalhousie University.

He has been practicing his profession at Edmundston, where he has been in the town council since 1915, having served as mayor as well as alderman. It was first a candidate for political honors at the general election in 1917, and was then elected to the Legislature from Madawaska, being re-elected by a landslide with his new colleagues at the last general election in October.

Hon. Mr. Michaud is married, his wife having been formerly Miss Nellie Ringette, and he has several children. His large number of personal and political friends are much pleased at his elevation to the cabinet.

STRICTLY ENFORCE RULES IN N. B. H. L.

Warning Sent Out That All Rough Play Will be Penalized.

Referees handling games in the New Brunswick Hockey League this season are being instructed that everything possible must be done to eliminate rough playing, tripping and other illegal tactics.

President J. D. Black of the N. B. H. L. has sent out a warning to all clubs that National Hockey League rules provide specific penalties for offences—making no allowance for warning offenders—and that referees have been instructed to enforce the rules strictly. Clubs have also been instructed that, in order to prevent disputes as to whether or not goals have actually been scored, Section 35 of the rules, which provides that a dark, distinguishing line shall be drawn from post to post, either in or on the ice at the goals, will be enforced this season.

A Novel
by Clemenceau

On this continent where politics
are so seldom changed in li-
terary or artistic pursuits, we
do not often think of poli-
tics as possessing the finer types
of mentality. Even in England, there
is a tendency to distrust a man in
politics if he endures to do a little
subtle thinking. Over in France, it is
different. A man may be called a
"fixer" in politics, and yet in his
private moments he may write a play
or a novel without damaging his
political reputation. Over there,
they apparently do not think that a
honesty fighter must be a rough neck.
They realize that a man can be at
once intellectual and pugnacious.

The hearty-burly of politics did not
keep Clemenceau from trying his
hand at many forms of writing. Of
course, he was a journalist by pro-
fession, but he did not confine him-
self to scribbling about politics. Early
in his career he wrote a drama, and
from time to time he turned out a
short story. It was while Clemenceau
was fighting side by side with
Ferdinand Foch in the Dreyfus affair
that he wrote his first novel, "Les
Fleurs du Mal," which has recently
been translated into English under the
title "The Struggle." It might be
mentioned that Clemenceau is not
writing it for the time being, and
quite recently he turned out a scenario
for a moving picture—what a Canadian
politician, from Hon. Arthur
McBride to the Hon. E. G. Drury,
could or would do that?

"The Struggle" had been read, discussed and talked
about before it fell into the hands
of the English translator. The author
had justified his stand in the Dreyfus
affair and had taken a noble part
in winning the Great War. He had
been for one brief hour the ideal of
the French people, and had expe-
rienced the raptures that made it im-
possible for him to be elected Presi-
dent of the republic that he had
served as Premier. So naturally he
was not a man whose interests were
so intensely topical when he was
writing it. But only now that the
novel is so timely now that it
might have been written since Clemenceau
retired from active participation
in French politics. What is
more, some of his own experiences
might have produced the conclusions
to which he seems to come in the
story.

In France "The Struggle" has
planned the struggle between material-
ism and idealism in the life of the
growing generation in France. He
shows two forces fighting to dominate
the life of his central character. On
one side is self-interest, success,
wealth and power, and on the other
truth, idealism and love. In the end
it is the nobler forces that are bound
to win. Perhaps it is little wonder that
the novel ends in that pessimistic
fashion, for according to Clemenceau,
even the French, who have been on
the side of materialism.

Clemenceau evidently felt that he
had ended his story on a cynical note.
He accordingly adds an epilogue in
which Pyramus thinks of Claudia
and her mother, with the conviction
that in the long run the soul of the
author will win the fight. The epilogue
reads as follows: "In the shadow
of the ancient house, Henri de
Pyramus, inveterate as he thought,
they are thoughts of defeat and
of victory. Some pride of love gives this
frustrated soul the brave hope that
there can be no victory against love.
The heat of the battle against the
master of Claudia, who became the
cain peace of the soul. Now that
Claudia is far away, Claudia has re-
turned. Claire, who by her own
strength will bring Claudia back in
time. Life, through suffering, will
bring Claudia back to love.

"Weakened by the struggle, he
gained strength to meet contrary
forces. Claudia is already on the
way to forgiveness, on route for the
great return to him. And the way
is long and hard, and perhaps he will
be dead before the day. But he will
die with open arms. And even if
Claudia is not to return, may she be
forgotten. Love does not measure its
strength against the weakness of the
strongest.

"Spring has come. The earth is re-
vigorated, flourishing. Everything
feels the thrill of life and bears bloom-
som and bud and flower and fruit in
an ecstasy of life. The earth sings
loudly in the songs of its birds. It is
paradise regained."

The story is a heavy one, and a
more outline of the central theme
only gives a partial idea of what it
contains. But to a Canadian reader,
the most interesting thing about
"The Struggle" is the insight it
throws upon the character and the
mind of Clemenceau. Evidently the
strong man of France does not get
a high value on more strength with-
out soul.

Just the Same.
A boatman who was in charge of
a ferry across a river was accused
by a poor stranger who wanted to
cross, but who had not the money
with which to pay his fare. The
boatman scratched his head, and said:
"Have you no money at all? It will
only cost you threepence to get
across." But I haven't got three-
pence," said the stranger, dejectedly.
After a little more musing, the boat-
man said: "Well, look here, it seems
to me that a man who hasn't got
threepence is just as well off on this
side of the river as on the other."

For the Talk
What—Why does Claire Dubé
go to the talk? That day given to the
silver.

Charles—Why don't you give him the
talk?

KILLED 1275
MOOSE THIS YEAR

Fredericton, N. B., Dec. 30.—Chief
Game Warden L. A. Gagnon, today
announced that the number of moose
killed in New Brunswick during the
big game season of 1920 was 1275,
and the number of deer 2450. These
totals, although approximate, are ac-
cepted by the department as accurate.
The number of moose is some 150 less
than the total of 1919, and the total of
deer about the same for that reason.
The number of non-resident hunters
of big game who were licensed in
New Brunswick in 1920 was greater
than during the preceding year, al-
though a presidential election was be-
ing held in the United States. The
total number of resident hunters is
not yet known as some returns still
are to be made.
The total revenue for game licenses
in 1920 will be slightly greater than
that for 1919. Taken as a whole the
season was very successful from all
view points.

A close season on carbon erica
and this game animal is practically
non-existent in New Brunswick at the
present time.

She Might Believe It.
The sportsman strode into a poultry-
er's shop, and with the air of a man
who meant business, said:
"Can you sell me a nice plump
pheasant?"

"I'm sorry. I have not a pheasant
left, sir," replied the shopman. "But
there are some fine ones here that I can
highly recommend. I'm sure your
wife will be delighted with them."
"Where are they?" asked the sports-
man. "How can I tell my wife
I shot pheasants?"

LESS DISTILLING
IN N. B. NEXT YEAR

Provincial and Dominion Offi-
cials to Put Stop to Making
"Moonshine."

The prohibitory law enforcement of-
ficials have received word that there
is every intention that the moon-
shine distillers who have been operating
in the northern section of this province
during the present year will produce
little if any during the coming year,
as, following extensive raids in that
section during the past year, an ex-
haustive clean up has been made by
provincial and Dominion officials. In-
sured against the possibility of a re-
newal of the illicit distilling trade,
the officials of the inland revenue
department, was sent to the county of
Beauséjour, N. B., where, in 1920,
he succeeded in placing under arrest
Albert Pitt, John L. Duggan and
Albert D. R. Duggan, who he charged
with operating stills in violation of
the federal laws. The arrests were
made near Jacques River, and when
the prisoners were taken before Mag-
istrate McAllister, they pleaded guilty
and were fined \$200 and costs each.
The same inland revenue officer, in
another raid, arrested John Newall,
who also was fined \$200 and costs.
During the present year several
seizures have been made in East-
gouche county. Forests and hillsides
were searched by provincial officers
and considerable apparatus was seized,
but with the co-operation of the men
in the revenue department it is be-
lieved that there will be little distilling
in the county within the next few
months.

AMERICA AND PRESENT
LEAGUE OF NATIONS.
Great Britain Appears to be More
Interested in Seeing What She Will
Do With It Than Suggestions for a
Possible Economic League.

London, Dec. 31.—Great Britain
is more interested in seeing what
America will do with the present
League of Nations than suggestions for a
possible economic league, officials of
the British Board of Trade said today.
The comment was evoked by the
section of Leland Summers, former
Chairman of the foreign mission of
the war industries board, that such a
trade league is desirable, in an inter-
view with the United Press. Officials
of the British board of trade declared
they are committed to the League of
Nations and its supreme council. An-
other international organization would
undoubtedly commit acts of sabotage
against the league, they said, since the
work of the two could not be coordi-
nated. The supreme council of the
League of Nations is qualified to
supervise world business relations, they
said, and the creation of a second ma-
chine would be useless if not harmful.
Since Britain is committed to the league,
they declared the only course is to
take no notice of suggestions. In
view of American aloofness from the
league they indicated a desire to dis-
credit suggestions emanating from
the United States. "We would rather
learn definitely what America in-
tends doing with the present league,
before talking about a mythical and
non-existent league" one board mem-
ber said.

Deep Was Right
Two mining engineers were discuss-
ing deep mine shafts, and one had told
in glowing terms about mines in
which he had worked.
"Jump into my car and I'll show you
a regular mine," said the other.
Arriving at the mine, they saw the
boiling engine revolving at a terrify-
ing rate. The engineer was self-
reliant, rushing to the sleeping man, they
cried:
"Wake up, man! You'll pull the
car through the roof!"
"What day is this?" the engineer
asked, sleepily.
"It's Tuesday, but stop the engine
quick!"
"Ah, given," he replied, disgustedly
getting himself back in his chair.
"She won't be up till Friday."

MASTER MASON PLUG SMOKING TOBACCO

MASTER MASON plug smoking tobacco, scientifically blended and pressed into a solid plug handy, easy to carry and which keeps the distinctive flavor for any length of time.

Smoke Master Mason
It's good tobacco

MASTER MASON—ready rubbed—for those who like it that way is the same good plug tobacco cut and rubbed ready for the pipe—it is put up in the old foil package.

Puts the gain on ALL the hog

AM-round development is what the hog feeder wants, insuring higher grade pork as well as higher finish.

Purina Pig Chow is a scientific balance of concentrates for making bone, flesh, blood and fat. It develops and fattens pigs simultaneously, and brings kigs up to a maximum weight in record time. One feeder last year cancelled a car of Purina Pig Chow, because this feed finished out his herd a month earlier than he expected.

Purina Pig Chow contains Hominy Meal, Oatmeal, Tankage, Blackstrap Molasses, Ground Barley, Corn Gluten Meal, Cracked Corn, Linseed Oil Meal, and Alfalfa Flour, with a trace of charcoal and salt.

Compared with corn, barley, shorts, hominy or similar ingredients by weight, Purina Pig Chow will produce 100 lbs. of live hog with one-third to one-half less feed. Fed individually or in combination with other feeds, Purina Pig Chow will produce 25 to 50% more weight.

THE LOUNSBURY CO., Ltd.
CAMPBELLTON, N. B.

Now Mr. Editor, you say in your report, "that a petition from the Ratepayers of Ward One, protesting against the proposed plan of the Imperial Oil Co. to build a tank farm in the town of Campbellton, N. B., was received by the Council on January 4th."

This statement of yours is incorrect. The petition was not presented to the Council on January 4th, but on January 5th, at the meeting of the Council held at the Town Hall.

At that meeting, the Council, after a long discussion, decided to refer the matter to a committee consisting of Messrs. Currie, Shannon, and Currie, to report at the next meeting.

At the next meeting, the committee reported that they had received from the Imperial Oil Co. a plan of the proposed tank farm, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

COUN. BELLE-ISLE EXPLAINS POSITION

Says He is Not Against Imperial Oil Co. E. L. Bishig, M. P. at Campbellton

Campbellton, N. B., Jan. 3rd, 1921.

Mr. Editor—

Here I am again trying to get the plain truth and facts in the hands of the Public.

In your report of last Tuesday's Council meeting, I note that you have omitted much that was said, and of course, with that omission, and a syllable added to the word "inferno," making it interference, you give this report to the Public in a much altered condition, and, being cut out of the lengthy discussion on the adoption of the minutes of the prior meeting.

Before these Minutes were adopted, as read, I asked his Worship, who was it that voted for the Motion to grant permission to the Imperial Oil Co., Ltd., to build a tank farm in the town of Campbellton, N. B., and he replied, "I voted for it."

As Councilor Shannon was named as voting "No," I thought that the minutes should also state that he voted "No," but his Worship the Mayor established clearly that the minutes were correct, and that Councilor Shannon voted "No."

Before I took this exception, his Worship clearly established that by inference, (not interference) Councilor Currie voted for the granting of said permit.

You say that Councilor Currie and myself had a hot argument, in which Councilor Currie emphasized his remarks by pounding the table in great shape. He did not smash it because it is made of hard wood. I dare say he must have had a sore hand the next day. As far as his remarks are concerned, the only thing we could make out of was that he was simply voicing what he felt like saying. I dare say that he thought I was a "big shot," and that for a time he was simply voicing what he felt like saying. I dare say that he thought I was a "big shot," and that for a time he was simply voicing what he felt like saying.

After a while, Councilor Currie found his bearings again, and at last he brought the storm over, and the hurricane of vociferations was at an end. I got up and said I thought that Councilor Currie was in a fighting mood tonight. Instead of striking an inanimate thing like the table, he could if he wished try it on me, after we were out of the Council chamber. After quite a long discussion, the minutes of the last meeting were adopted as read.

Now, Mr. Editor, you say in your report, "that a petition from the Ratepayers of Ward One, protesting against the proposed plan of the Imperial Oil Co. to build a tank farm in the town of Campbellton, N. B., was received by the Council on January 4th."

This statement of yours is incorrect. The petition was not presented to the Council on January 4th, but on January 5th, at the meeting of the Council held at the Town Hall.

At that meeting, the Council, after a long discussion, decided to refer the matter to a committee consisting of Messrs. Currie, Shannon, and Currie, to report at the next meeting.

At the next meeting, the committee reported that they had received from the Imperial Oil Co. a plan of the proposed tank farm, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

The committee then reported that they had also received from the Imperial Oil Co. a statement of the reasons for the proposed plan, and that they had also received from the same company a statement of the reasons for the proposed plan.

STOPPED HER HEADACHES

Years of Suffering Ended
By "Fruit-a-lives"

112 HAZEN ST., ST. JOHN, N. B.

"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine."

"Fruit-a-lives," made from pure fruit, was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors, but nothing seemed to help me until I tried "Fruit-a-lives."

After taking several boxes, I was completely relieved of these troubles, and have been unusually well ever since. Miss ANNIE WALD.

Box a box, 6 for \$2.50, trial size, 25c. At all druggists or sent postpaid by Fruit-a-lives Limited, Ottawa.

false. We are all anxious to welcome any new establishments here that will contribute to the income of the Town. In the case of the proposed plant, it is not a question of the proposed plant, but of the proposed plant.

There is any amount of space there, and the proposed plant is not a question of the proposed plant, but of the proposed plant.

When discussing the merits of the petition on Tuesday night's meeting, I said and emphasized that I was not against letting the Imperial Oil Co. enlarge their plant here. By all means, we wanted them to do so, as there is enough land available in Town outside of the location they have in view, we could arrange to locate them where the property and the lives of the ratepayers would not be endangered. The above statement will deal with Councilor Currie's canvass against me, in which he says, that I am opposed to the Imperial Oil Co., Ltd., being allowed in town at all. He says that I take this stand because I am in the same line of business, and a competitor. Now, Councilor Currie knows better than that. He knows that I have my clients here, and he has his. The sun shines for everybody. If the Imperial Oil Co. Ltd. did not establish in town, they would establish outside the town, and they would still be as keen competitors of the Gaspe Coast or the I. N. R. from Dalhousie, than from Campbellton. The Standard Oil Company, or the Imperial Oil Company are in the business for the money that is in it, and there is no danger of losing them. When you consider that the Standard Oil Company has just about two weeks ago bought up all the loose gasoline in the central states from the small producers about one hundred and twelve million gallons to control the market and keep the prices up, that they are far from being philanthropists, and they can well afford to buy two or three more lots below the present price, also pay for a little more in the hilly side, if necessary, to install their tanks. That would only benefit the town a little more in the line of labor.

It is quite plain that they are intending to decrease the amount of gasoline in the town of Campbellton, to ship the gasoline and refined oil in tank cars to smaller distributing stations that they are establishing on the Gaspe Coast, and elsewhere. This will naturally do away with the filling and handling of a large number of barrels at this station, thus cutting out a lot of labor. When Councilor Currie says that it will increase the employment by at least six times as many hands as they are employing now, my doubts are very strong, as to the accuracy of his statement. In that respect, their plan is less handling, consequently less labor and employment.

I am sure, Mr. Editor, that with the above explanations the ratepayers of the whole Town will understand that we can have the Imperial Oil Company's plant in Town without imposing any useless nuisance and danger to a large number of ratepayers.

Thanking you for space, I beg to remain, Yours very truly,

A. C. BELLE-ISLE

How's This?

HAIR'S CATARRH MEDICINE will do what we claim for it—cure Catarrh of the Bladder by Catarrh. We do not claim to cure any other disease.

HAIR'S CATARRH MEDICINE is a safe, reliable, and effective remedy for Catarrh of the Bladder, and for all other diseases of the urinary system, thus restoring normal conditions.

This department is conducted by the Local Union, and is under the charge of an officer appointed by them. This officer assumes the responsibility for the statements and articles which appear in this column.

The following liquor cases were tried during the month of December: Prohibition Cases tried before Police Magistrate F. F. Matheson.

Harvey Dow, Campbellton, N. B., charged with selling liquor Dec. 2nd. Convicted and fined \$100.00 and costs.

Haid P. Sha'sa, Campbellton, N. B., for having liquor in a place other than his private dwelling, Dec. 24. Convicted and fined \$50.00 and costs.

Adolphe Martel, Dundas, N. B., for having liquor in a place other than his private dwelling, Dec. 28. Convicted and fined \$50.00 and costs.

Morris Kaplan, Newe Agent, for selling liquor Dec. 28th, convicted and fined \$100.00 and costs.

First Musical Instrument.

The pipe is the earliest musical instrument on record. It appears on sculptures dating from 4,000 B.C. The bagpipe itself is referred to by Chrysostom in 100 A.D. Its appearance in the British Isles seems to have been due to the Picts, but upon this point there are no definite historical records. The Irish people who fought in Gascony in 1266 included pipers, and by the end of the fifteenth century three town pipers accompanied the town drummer of Edinburgh on his round of the city morning and evening. The tunes then played have come down from father to son, and the Scottish battalions in the Great War marched into broken French villages to the same strains that their forefathers heard when they fought for the Lilies of France in 1412. Whether the Bruce submitted to pipers at Bannockburn or not, anyone who has seen a bagpiper in the Great War knows that the company pipers had their first chance of showing his quality.

Your Clothes

Should be the boy's most necessary and best.

Clothes do not make the man, but they make the impression, and he is often judged by his appearance.

You need more to command of your clothes if you wish them.

Call and see our line of Blue and Black Serges, all styles guaranteed.

A Real Old-Time Western Thriller!

JESSE LASKY PRESENTS
ROBERT WARWICK

in "TOLD IN THE HILLS"

A Paramount Picture

THE world famous novel of pioneer days enacted by an all-star cast in scenes of vivid realism.

Scouts, miners, Indians, sweethearts of the old West, romance of boundless plain and trackless mountain—all blended in this fascinating tale of a man who lost himself for hate and found a wondrous love.

Countless thousands have read the book. Now you can see the picture!

Cast Includes

Ann Little

and

Wanda Hawley

JACK DEMPSEY Serial Will Be Shown SURE!
CHAPTER 10—THE ONE YOU MISSED LAST WEEKAlone With a Wild Man
Who Could Not Speak!

She had risked her life to flee from one savage, and she, a castaway, had been sent to

"The Island of Regeneration"

to find what she had lost in the great metropolis and bring a youth to a new life.

A Feature that is Different With
ANTONIO MORENO

as the man of the island.
