NOTICE IS HEREBY GIVEN THAT a court will be held pursuant to the Voters' Lists Act, by His Honor the Judge of the County Court of the County of Middleaex,

water-logged. MR. BLAKE'S STRATHROY SPEECH

London, Nov. 30.-Much doubt is shown in Irish circles upon the interpretation put upon Mr. Blake's Strathroy speech, that he intended retiring from Irish politics. Timothy Healy's Dublin Journal throws its cap in the air over the supposed desertion.

John Dillon says that the "rats are leaving the sinking ship." Mr. Dillon's journals make no comment, but it is understood in Irish circles here that Mr. Blake merely referred to his longcherished hopes to again ultimately live in Canada. It is not thought he can intend to retire immediately, leaving the Irish ranks in the middle of the battle, and on the eve of important Irish legislation before Parliament. His retirement would be a heavy

blow to Mr. Dillon. WILL AVOID A CONFLICT. London, Nov. 30 .- The Daily Graphic makes prominent an announcement, which, it claims, represents the views of the government as to the Anglo-French complications in the Nikki vicinity of the disputed Niger country. Negotiations for a New Treaty It says: "Great Britain will carefully avoid imitating the French policy of effective occupation in the disputed territory of the Lagos hinterland. Although a small French force has occopied Kishi, a disputed town, no attempt will be made to dislodge them, pending the discussion as to the boundaries now in progress in Paris. The British force is being collected in the north of Lagos only to be ready for the occupation and organization of the Borgu district, which, it is expected. will be included in the British sphere as a result of the Paris conference."

OCEAN RECORD BREAKING. London, Nov. 30.-The North German Lloyd steamer Kaiser Wilhelm der 23, passing the Sandy Hook lightship at about 4:30 p.m., arrived at Southampton yesterday afternoon, passing the Needles at 2:10. The steamer was delayed 25 minutes in standing by a burning ship, but in spite of this she broke the record for the highest average speed across the ocean, her speed per hour averaging 22.35 knots. total distance covered was 3,065 knots, terrible news concerning the Cuban ex-iles on the Island of Fernando Po, the minutes, or 5 days, 17 hours, 8 minutes, from which, of course, should be deducted the 25 minutes lost in standing by the burning ship, which would make her actual passage 5 days, 16 hours, 43 have received. GERMANY'S DEMANDS ON CHINA. London, Nov. 30.-Inquiries made in Chinese official circles at Pekin confirm the statements contained in dispatches from Shanghai giving the substance of king, German minister to China. Germany, as already stated, asked for the discovery and execution of the murderers of the missionaries, Nies and Hennle, the punishment of the implicated officials, the reconstruction of the missionary buildings, the payment of an indemnity of 600,000 taels to the relatives of the victims, the payment of a heavy indemnity to cover the expenses of the German naval expedition, and the maintenance of the German force at Kiao Chau Bay, the railroad monopoly of the Shan Tung Province, and the occupation of Kiao Chau Bay as a German coaling station. China will resist the demands of Germany, but will express willingness der of the missionaries and for the damage done to the mission property. Russia, it is understood, is not yet helping China, but the latter country has decided not to provoke hostilities. and to trust to diplomacy for a settlement of the difficulty which has arisen in connection with the mission out

where the Progressives have dominated at the polls. Mr. J. R. Diggle, the leader of the

most influential member of the school board, has been defeated in the Marylebone district.

The issues were somewhat involved, and the Moderates, who are, generally speaking, the church party, were divided into two camps, under leaders whose personal ambitions and special controversies resulted in incessant bickerings for some months before the elections. The Tory press, which has supported the condidates of the Moderates, repeatedly warned them that the results of the quarrelings of their leaders would be to confuse the minds of the voters, and to incline many either to vote the Progressive ticket or to stay away from the polls.

who have predicted favorable results from proper methods of transportation. Mr. Crandall's inspection of the shipment makes it very clear that cargoes arriving by the system of cold storage will meet with marked preference in the British market. Some varieties of Canadian apples are not arriving in good condition. Especially is this so of Northern Spys, which show signs of spot scab, resulting in early decay. For this reason there is a slump in prices. In the Castalia's shipment, cases of apples averaging 40 pounds in weight, sold for 5s to 8s 6d, and the barrels at 19s to 20s. Pears brought from 10s 6d to 23s per case, according to quality. Mr. Crandall has visited many places and inquired as to the possibility of developing trade with Canada. Everywhere he has found a hearty willingness on the part of the British people to do all in their power to assist in in-

With Germany.

Are Affected.

Washington, Nov. 30.—Commercial to the state department, has given a great deal of general information concerning the recent notice of England to terminate the commercial treaty that negotiations have been entered into at the instigation of Great Britain for a new treaty. The commerce be-Grosse, which left New York on Nov. tween England and Germany comprises nearly 25 per cent of the latter's trade. Germany's exports to Great Britain proper in 1896 were valued at \$169,932,000, and to the British colonies. \$26,418,000. The great amount of trade, he says, is due to the treaty of most favored nations, existing between Germany and England and her colonies. The treaty about to be terminated conceded to German trade the enjoyment of any concession or privilege granted to the colonies of Great Britain or to

the mother country by the colonies. Germany does not have the same advantages with the Dutch, French or Spanish colonies. The relations of the three latter mother countries to their colonies is much closer in the matter of trade than England has with hers. Referring to the fact that Canada has recently made concessions in her tariff to English goods, and after expressing the opinion that there is no doubt that other English colonies will soon follow the demands made by Baron Von Hey- Canada, Mr. Stern says: "Great Britain Northwest Suffering From a Contin-

will then be obliged to make concessions in her turn and alter her customs law in such a way that certain products of her colonies may be imported into able conditions than the corresponding products of other countries. This would be carrying into effect the plan to amalgamate all parts of the British Empire into one customs union."

SLOANE'S SUCCESS. London, Nov. 30 .- The close of the flat racing season sees Mornington Cannon at the head of the winning jockeys, with 145 successes; Loates second and Wood third. The papers comment at length upon the remarkable success of Tod Sloane, the American jockey, during the present month in England. Sloane's victories for November numbered 20 in 58 mounts. The Daily Mail says that Sloane intends to return to England, and, therefore, left a good impression at Manchester. It says: "In the teeth of much hostile criticism, Sloane has conquered the English owners. Where formerly he found critics he now finds people anxious to engage him. He has ridden for the Prince of Wales, for that magnificent judge of horsemanship, Capt. Bewicke, and for the Foxhall stables."

Last year we had to pay London \$50 guarantee, or \$40 in case of rain; Hamilton, \$40 guarantee, or \$27 rain expenses, whilst the privilege at the gate was only 40 per cent, with no sharing on holidays. Next year the guarantee will be only \$30, with \$20 in case of rain, and the privilege has been raised to 45 per cent of the receipts on ordinary days, and 50 per cent on holidays. A lower guarantee and a higher percentage privilege mean a big help to a small town. If the big cities draw well, the small cities get a share of it; if the small places have poor attendance, they have only a small guarantee to pay out. Then again, the international character Then again, the international character of the league makes it easy to swell the holiday receipts. There being three Canadian and three American clubs, every public holiday can be utilized, the Canadian clubs playing in the Michigan cities on American holidays, and the American clubs coming to us on our holidays. Had to Stop and Rest Because of Heart Trouble.

Mrs. Eliza Cook, 109 Palmerston Ave. Toronto, says: "Seven years ago I had the grip, followed by inflammation of the lungs. I have been afflicted ever since with heart trouble. To walk anyway

fast would make me gasp for breath, and many a time I have had to stop on the street to rest and regain my breath. I had bad smothering spells at night, and my nerves were much unstrung. Anything annoying or worrying me produced extreme weakness, and would set my heart beating so fast that I thought I was dying. Sometimes I would become so nervous as to tremble like a leaf. I began taking Milburn's Heart and Nerve Pills early last February, and have been getting better ever since. My nerves ch stronger. I can walk difficulty, and the palpitation, fluttering of the heart, shortness of breath and nervousness trouble me no more. I gladly recommend these pills as the best medicine I know of for heart and nerve troubles on account of the great good they have done in my case."

Nearly 400.000 Persons in Cuba True Bill Against Allison in the Died of Starvation.

This Terrible Total Does Not Include Those Killed in Battle or From Exposure.

New York, Nov. 30.-A dispatch to the World from Havana says: The World's first figures of Cuba's starvation were timidly moderate. They showed the deaths of only 200,000. But every painful fact unearthed tends to ship expressed satisfaction at there prove them nearly double that number being so few criminal cases to be tried ber. When the grim returns are all in, it is now almost certain that this Cuban massacre of the innocents will reach 400,000. And this awful number does not include those killed in battle, or the thousands and thousands of women and children who have died of exposure, disease and massacre in the maniguas and swamps. It now seems certain that more than half a million people, for the most part loyal subjects of Spain, have been killed by the Spanish war in Cuba. A week's trip through the provinces of Havana. Matanzas and Santa Clara has tended to make moderate this tremendously extreme figure. The figures of Spanish official reports show but a part of the mortality. They only give the number buried in consecrated ground. They do not give that fully. And yet these official ultra-Spanish reports of burial permits issued admit that in the province of Santa Clara there have died and been buried since Gen. Weyler's flat 71,847 persons. The number of people for whose existence Gen. Weyler is directly responsible is 155,132 in Santa Clara Province. And of these he has killed 86,216, or over one-half of them. Santa Clara has so far been the least destitute of the provinces. It has for an item appearing in the Beacon, many cattle and not a very thick population. Between its 53 per cent dead, to Pinar del Rio's admitted 80 per cent, Havana, with a 60 and 70 per cent mortality respectively. These percentages are established now by the actual fig-

WANTED IN MOOSEJAW. Arrest of a Sheep Rancher on a Charge of False Pretenses

[Special to The Advertiser.] Windsor, Nov. 30 .- Donald McLean, a sheep rancher from Moosejaw. N. W. T., who has made Windsor his home for the past year, was arrested here yesterday afternoon by an officer of the Mounted Police, on a charge of obtaining money on false pretenses. The officer and prisoner left for Moosejaw last night. McLean, who is said to be worth at least \$15,000, says that he is wanted as witness in a criminal case at Moosejaw, and the charge has been laid against him to get him back there.

HAD A RIGHT TO THE M. D. The following blunder occurred recently on a Canadian river steamer: A lady passenger was taken ill in the night; the doctor's assistance was required, but the steamer did not carry a member of the profession. The list of passengers was read through in order to discover whether there was a medical man among them, and sure enough there was the name of James Thompson, M.D. The steward quickly ran to the berth and aroused the occupant by several vigorous blows at the

The Guldensuppe and Luetgert Murder Trials.

Berlin, Ont., Nov. 30.—The fall assizes opened here yesterday, Chief Justice Meredith presiding. His lordbeing so few criminal cases to be tried by the court. Speaking of Allison, he said there was no direct evidence that the boy struck the blow that killed Mrs. Orr. On the morning of the murder Mr. Orr and his young son left the farm at an early hour, leaving Allison, Mrs. Orr and two small children at home. The prisoner was given a duty to perform, necessitating his going to a neighbor's, a short distance away, during Mr. Orr's absence. When Mr. Orr returned he was informed of his wife's disappearance. A few days later the body of the woman was found buried. It is the purpose of the crown to try and show that the boy was at the house when Mrs. Orr was killed. The crown will also endeavor to show a motive on the part of the carefully weigh the evidence. The grand jury then retired and brought in a true bill against the prisoner, James Allison.

The first case was that of Dunn and Herbach against O'Beirne. Plaintiff in this case lives in Neustadt, and brings action against W. M. O'Beirne, proprietor of the Stratford Beacon, claiming \$2,000 damages and costs of action which plaintiff claims as a libel. The case was not finished when court ad-

They drugged him, and after clubbing him threw his body into the river.

THE GULDENSUPPE TRAGEDY. New York, Nov. 30.-The statement is accused of killing Wm. Guldensuppe, concluded the evidence for the defense In the course of his cross-examination Thorn said he did not wish Mrs. Nack to die; he wanted to see her free. "You are willing to die yourself and save that woman?" asked Mr. Weller. "Yes," said the prisoner. "I loved her and was willing to die for her." The prosecution seemed to be taken by surprise by Thorn's frank statement. In a letter, which never reached Mrs. Nack, as it was captured by the officers, Thorn said: "If there is no other way out of it, I will see to it that I shall only suffer and you will go free." Mr. Howe brought out this sentence with strong

emphasis. Thorn's examination was concluded at 4:30, and the defense rested.

The master-in-ordinary has returned from Boston, where he has been taking evidence in connection with the winding up of the Massachusetts Ben-efit Association. It states that the Canadian policy-holders will realize between 80 and 100 per cent on their claims.

A Disgrace That Must Be Wiped

The Dominion election in Center Toronto is being held on a voters' list four years old. Hundreds of voters who were entitled to vote in the constituenof in 1893 are in their graves. Hunnow live outside of the constituency,

But we would like to hear from party in so good stead in past years. The Prof. Saunders again before we ask passage of the measure, therefore, had to be postponed, and the scandalous condition of affairs in Center Toronto today is the result.

Let us hope that this antiquated, unfair, enormously expensive system will never again have to be enforced in Canada, and that as speedily as possible a system based on that now prevalent in Ontario elections may take its place. With our constantly changing population, no franchise act can be fair which does not provide for a thorough revision of the lists up to the eve of a contest, as we have for all cities and county towns in the Ontario law.

A hint to the Legislature: Gentlemen, you've got to talk, of course. Every Legislature does. But don't forget that the less talking you do, the more popular you will be. If you have doubts on that subject, ask Mr. Marter

Take It Back.

If we may believe one of the Epworth Leaguers who have set out to purify London-the-Less, that burg is in a rather bad condition. This man, Fred. Simpson, says there are half a dozen rowdies in the council, and an equal number on the board of education. That is bad. It reflects on London's good judgment. But the way of stating the fact is neither reasonable nor just to those who are not rowdies. Those who would have aldermen be good ought not to make such loose charges. Specify the obnoxious half-dozen; don't cast suspicion on the rest.-Owen

As a matter of fact, the statement made by Mr. Simpson has no foundation in fact. Anyone who has attended, as members of The Advertiser staff have attended the meetings of either body, at least for the last three years, could but reach one conclusion, and that is that our municipal bodies, though not perfect, are equal in respectability and in behavior to those of any representative body in the country. It is too bad that on the unsupported statement of one man, the outside world should be given the impression that the type of our municipal managers is so low that one-third of the members of our representative bodies must be classed as rowdies. Such a characterization of the aldermen and school trustees of London is a libel on these boards, and on the people of London who selected them, and the statement ought to have been promptly withdrawn and apologized for. We are sure that the greater body of the mem. bers of the Epworth League of London do not indorse it, because they know that it is not true.

Mr. Dillon, formerly of Toronto and London, is now engaged on editorial work on the Chatham Banner. The Banner has hitherto been one of the best edited Liberal papers in the Province, and Mr. Ford, the energetic proprietor, is apparently determined to keep up the record.

Set-Back to Federation.

Queensland, the division of Australia which has rejected the Federation Enabling Bill, is a division of the island continent which does not as yet have a very large population, but it is deridedly consequential in its demands. it had been hoped that the concessions made by the Federation Conference, held in September last, would win over the recalcitrants in Queensland, but there is still a small majority against confederation on the basis now laid down. Another general election may have to be held in this colony before the necessary preliminaries to a union of the colonies are arranged, but it is certain to come. Federation is in the air, and the great colonies of Australia having agreed to it, the smaller ones, after a little kicking, will go in. A word with our Australian brethren: Do not federate until you arrange all the demands for "better terms"; if you do unite, leaving knotty questions unsettled, you will greatly add to the difficulties attending the management of

your new Commonwealth.

Sugar From Beets. Good crops of sugar beets have been grown in England-better crops than in Germany-and there is a prospect of sugar being made in Britain at an early date from the experimental plantings. In view of this fact, our city contem-

porary, the Free Press, asks: "Will Canada submit to have her refineries closed by German importations, when she can grow the sugar beet in necessary abundance?"

There is really no prospect of German importations closing our refiner- nized over by the Dominion Governies. That is a figure of speech. Springbank No "Ishbel" writes:

November days are almost gone. William Cullen Bryant calls them, "The melancholy days-, the saddest of the year,

Of wailing winds and naked woods and meadows brown and sere," and there are but few who will not corroborate his statement.

In March, we speak of the "disagreeable blustering winds," but while we dislike them, we brace ourselves to meet them, and in the very effort feel a renewal of life within us such as will shortly take

place in all inanimate nature. In autumn, we are looking forward to the long, cold, dreary winter. The skies are grey and cheerless, the trees are bare and grim, and the wind which tosses their gaunt branches, and whirls the brown, withered leaves, seems to have lost its musical note and to be wailing a continual dirge for the dead flowers, the silent voice of animal, bird and insect, and the

year which is rapidly ebbing away.

But anon there comes a day when all things are changed. The skies are a tender blue, the sun shines with almost a summer heat and the voice of the wind is softened to the faintest whisper. Such an one was last Saturday, when, at the close of day, I stood by the gate at the eastern entrance to Springbank Park. In the light of the setting sun a golden haze seemed shed abroad over the whole landscape, softening and brightening the somber hue of the woods and bathing in radiance the meadows and distant hills. Far below me, at the foot of the slope, still green from recent rains, gleamed the river through a parting of the trees, and further on I could trace its course, as it wound its way like a silver thread through the valley. Above me, the heavens were a blaze of splendor. Far in the western horizon the sun hung like a great golden ball, and the surrounding clouds, as if by Midas touch, had partaken of its bright hue. Further up in the sky the tint had deepened into a warm roseate color, marvelously mottled with rich olive green. Beyond the zenith, the tranquil azure of the sky was undisturbed by the tiniest

In the unbroken silence I stood alone, awed before the majesty and sublime beauty of nature. Almost unconsciously my heart was raised in adoration to the great Creator of all. Slowly the shadows began to fall, the gorgeous colors of the clouds faded away, the sun disappeared, and "a glory eemed to have passed away from

the earth." As the first dim stars peeped forth, I mounted my wheel and rode homeward, feeling that through communion with Nature I had been lifted above the petty cares of life and drawn nearer to Nature's God.

I am supposed to be on duty at 7 o'clock in the morning, but I always reach the office earlier in order to get through assorting my mail, in order to be on the street with it at 8 o'clock. It is the same way in the afternoon-we are busy every minute in the office arranging our papers and letters for delivery. If anyone would drop in at the postoffice during the time in which the Free Press says we are idle, he would find the busiest lot of men in London. Prosperous Condition and Bright Prospects of the Province.

Several Government Measures Foreshadowed.

[G. N. W. Special to Advertiser.] Toronto, Nov. 30.—The last session of the eighth Legislative Assembly of Ontario was opened at 3 o'clock this afternoon by his Honor Sir Oliver Mowat, the lieutenant-governor. There was a full attendance of members, crowded galleries, and on the floor of the chamber a brilliant assemblage of ladies and gentlemen, the distinguished company including the governorgeneral and the Countess of Aberdeen. Seated on the throne, the new lieutenant-governor delivered the Speech

Mr. Speaker, and Gentlemen of the Legislative Assembly: It gives me much pleasure to meet again the members of the Legislative fore you are: Assembly of this province with whom | A bill relating to timber and timber I was so long associated in a different capacity. I sincerely trust that this departure from the usage which has hitherto gen-erally prevailed may not only be found to be of public advantage but may prove as agreeable to their excellencies as it is gratifying to her Majesty's loyal subjects.

Through divine goodness, the blessings of a bounteous harvest have been vouchsafed to the husbandmen in nearly every portion of the province, and it is an additional cause for gratitude that prices for nearly all the products of the farm have been greatly increased since your last meeting. The signs of returning prosperity, not in agriculture alone, but in nearly

The mining industry is making steady progress, and throughout the present year lively interest in the mineral resources of the province has been exhibited. The area of crown lands sold and leased under the pro-visions of the Mines Act has been largely in excess of that of any recent year, and the revenue derived from sales and rentals has been correspondingly greater. It is gratifying to note that the limits of the several gold fields are being constantly extended by exploration, and that their value is being satisfactorily proven by sub-stantial mining and milling work at a number of central points. In the northwestern part of the province, where our territorial rights were strenuously disputed for a long time by the Federal Government, there is evidence to show that rich gold-bearing veins exist over a region several thousand square miles in extent, and there is good ground for hope that this part of the province will become the field of successful enterprise, and give profitable, as well as stable employment to capital and labor. I am confident that the recent dis-

coveries of gold in various parts of the province will attract increased attention abroad, especially in the mother

The perpetuation of the sources of our pine timber on crown lands not suited for agriculture has for some time engaged the attention of the government. A royal commission was appointed last summer to investigate the condition of the young forests, which now cover extensive tracts of these waste lands, and to report as to the best and most practicable methods of preserving and managing them and otherwise concerning reforestry. I am glad to be able to announce that substantial progress has been made in the work of the commission, and that much information on this important question has been optained.

Among other measures to be laid be-A bill affecting the election laws.

A bill to prevent gambling at agricultural and other fairs. A bill affecting the business of druggists. A bill to prevent the spread of disease amongst fruit trees.

A bill relating to extra-provincial insurance companies. A bill respecting jails and jailers. And a bill relating to forestry. I am happy to inform you that the work of revising and printing the in my power to issue the necessary proclamation for bringing into force at the close of the year the newly-revised statutes, embodying once more, in two convenient volumes, the entire provincial public statute law. Thrilling Experience of the Almost Famished Survivors.

New York, Nov. 30 .- The Bristol City Line steamer Exeter City, which ar rived this morning from Bristol and Swansea on Nov. 24, fell in with the British schooner Elite, dismasted, and in a sinking condition, and rescued the crew of five men and brought them safely to port. Captain Watkins reports that last Wednesday he sighted a sup-posed wreck. The vessel proved to be a small schooner, with signals of distress flying. A lifeboat was launched, a heavy sea was running the lifeboat was quickly alongside, and within the short space of ten minutes had rescued the crew of five men and returned to ance, asking the Legislature to give the steamer. Why City Doctors Are Invited to Meet Dr. Worcester.

Mayor Little has accepted, in cordial terms, the invitation to meet her excellency on Wednesday next, and promises to do his utmost to make her visit and the occasion it honors a thorough success.

Presidents and officers of societies affiliated with the Local Council of Women, conveners of committees, and all officially connected with the hospital fair should be fully prepared to receive the Countess of Aberdeen on her arrival at the hall, and every stall should be in perfect order by 10:30 at the latest. All desiring presentations should have their names clearly written upon a card for the use of the A. D. C. in waiting.

NELSON'S OLD FLAGSHIP GONE. Similar disasters occurred at Holyhead, where a number of valuable yachts were sunk at their moorings. Scarcely a vestige remains in sight of the wreck of Lord Nelson's old flagship, the Foudroyant, long fast in the sands off Blackpool. Lord Nelson's flagship, the Foudroyant, "the most perfect ship that ever swam in salt water," as Lord Vincent called her, was sold a few years ago to a Hamburg firm of shipbuilders. She was, however, rescued at a cost of \$30,000, and further expenditure restored her to the condition of 1799, when she carried Nelson's flag in the Mediterranean. She was launched in 1798, and was a twodecker, carrying about 80 guns. The Foudroyant was the last survivor of the class of vessels which gave rise to the phrase "the wooden walls of Eng-Nelson was especially fond of her, and though he was not on board of her at the battle of the Nile, she took part in many a famous fight, and helped to destroy the Guillaume Tell.

DAMAGE AT WOOLWICH. Immense damage has been done to the government property at the Sheerness dock and the Woolwich arsenal. Seven thousand troops were hurriedly pounds worth of ammunition and stores from the wharves and sheds to rise and invaded almost all the workshops, quenched the engine fires and stopped the electric lights. The workmen were obliged to go home, wading knee-deep. Despite all the precautions, damage to the amount of many thousands of pounds has been done. At Sheerness and Queensborough, two miles away, hundreds of acres have been submerged, scorse of cellars flooded and 200 yards of the Sheerness pier have been swept away. Rochester and Stroud, on the Medway, about 30 miles southeast of London, have suffered severely. At Roch-

ester the gas works are flooded and the town is in darkness. The gale is now traveling southward, and traversing various parts of the continent. Very rough weather is reported along the north coast of France.

Kingston, N. Y., Nov. 30 .- Hon. John

J. Linson, as referee, has decided what has been known as the celebrated Kipp case, thus bringing to a close romantic story covering a period of 6) years. By his decision the California claimants, Nettie E. V. Peabody and George F. L. Kipp, are recogand George F. L. Kipp. are recog-nized as heirs of the estate of Andrew Throat. In Sep-Hearings were had from time to time until a few weeks ago, when the matter was closed and submitted, the California claimants being present at several hearings.

The reason for James Brown Kipp's running away from home was given as follows: His father sent and his brother William to get a jug of liquor. While carrying the jug by means of a stick thrust through the handle, William dropped his end, breaking the jug, and then ran home, telling his father that James Brown did it. The result was that James Brown received a severe whipping, and then ran away to Poughkeepsie. There he shipped on a whaling vessel, visited the Sandwich Islands, went to Arizona among the Indians, and finally settled in Los Angeles, where he married the mother of the two claimants. Later he was murdered by a drunken man while protecting the wife if his murderer.

During the many hearings the fact that the male members of the Kipp family have a very prominent nose became an important factor in establishing the identity of James Brown Kipp.

It was claimed that George F. Kipp, the California claimant, had the characteristic to such an extent that his resemblance to his uncle William was marked, and could easily be re-

cognized. A photograph of the mother of William and Andrew, taken from an old Sick Headache, daguerreotype at Saugerties, whence James Brown ran away, and which A steamer not yet identified was with was also considered as evidence of James Brown's identity by the referee. Cooper's Leather Stocking Tales, we read stories of the wonderful agility, physical endurance and the unerring accuracy of the eye of the American Indian when he reigned sunent. Before he was debauched by modern civilization, he was a magnificent specimen of physical manhood. He lived entirely in

the open air, and knew no medicine, save the simple herbs gathered by his squaws. Civilized man leads an unnatural and an unhealthy life. Unlike the Indian if he would maintain his physical and mental health, he must take reasonable precautions to combat disease. Nearly all diseases have their inception in disorders of the digestion, torpidity of the liver and impurity of the blood. Dr. Pierce's Golden Medical Discovery is made of simple herbs. It restores the lost appetite, makes digestion and assimilation perfect, invigorates the liver, purifies the blood and promotes the natural processes of excretion and se-cretion. It sends the rich, red, life-giving blood bounding through the arteries and corrects all circulatory disturbances. dispels headaches, nervousness, drowsiness, lassitude, and drives out all impurities and disease germs. It cures 98 per cent. of all cases of consumption, bron-chitis, asthma and diseases of the air-passages. It gives sound and refreshing sleep, drives away all bodily and mental fatigue and imparts vigor and health to every organ of the body. Medicine dealers sell it,

and have nothing else, "just as good." "A few of my symptoms," writes Charles Book, of Climax, Kalamazoo Co., Mich., "were heart-burn, fullness after eating, pain in my bowels, bad taste in my mouth, and occasional fever and hot flushes. Dr. Pierce's Golden Medical Discovery cured all these and I am perfectly well."

"If you reporters would move away from the front of those doors, we asphalt pavement opposite St. Paul's might possibly get a quorum," was a repeated request to the press representatives as they sat last night in the easy chairs at the Y. M. C. A. waiting for the arrival of sufficient material with which to form a Christian Citizen League. For four times within two weeks arrangements have been made by which the organizers were to have a room to meet in, but no one showed up on any night, according to the janitor, but Mr. W. D. Buckle and Prof. James Bowman.

It was 8:45 before anyone concerned in the league organization turned up to inform the reporters that the meeting had been called for 9 o'clock. Prof. Bowman arrived first, then Mr. Fred Daly, and thirdly, Rev. Henry Rockford, of the Colored Baptist Church, following whom came Mr. Fred Simpson. These gentlemen had side talks until a few more arrived. After Mr. W. Jeffery had loomed up, there was another whispered consultation. Reeve Saunby and Councilor Hamilton, of London West; Mrs. Gordon Wright, Mrs. Thornley and W. G. Young came in almost together, and those in waiting gathered in the board room. In a few minutes Mr. W. Jeffery came over title of an interesting lecture by Dr. Mary Wood-Allen, delivered before a large audience of ladies only in the to the reporters and said:

"You know, gentlemen, that this is only a committee meeting, and-" "That means," said a reporter, "that we are barred." Mr. Jeffery smiled and said: "Well. we are only going to organize, and there will be a good deal of private business, and you know there might

There might be things said which we don't want repeated, and would not look very well in cold type. I'll tell you what we'll do; we'll send you a report." "If the report is an accurate one, all

right," said two reporters in unison. A reporter advanced to meet Rev. J. W. Pedley as he entered and asked: "What do you think of a Christian Citizenship League that is afraid of what its promoters say-that must be it? The press has been denied admission. "I say, let the press in," replied Mr.

Pedley. "I'm not afraid or ashamed of anything I am going to say." Rev. Robt. Happy Crowd at Dundas Street Methodist Sunday School.

The Anniversary Entertainment-The Large Number of Children Who Took Part in the Programme Were Excellently Trained.

Last evening the Sunday school room of the Dundas Street Center Methodist Church was crowded to the doors throughout a lengthy but excellent entertainment furnished by the scholars. It was the festive celebration of the factor in everything we do. With coal school's 27th anniversary, and everyalmost any feat is possible or easy. Without it we are thrown back into the laborious parents and friends, entertainers and parents and friends, entertainers and entertained, spent a happy evening.

The exercises in which the children of the primary classes took part were well calculated to be a pleasure to themselves as well as to the audience, and as a result the little ones were brightier and happier, were more natural, and showed their rich possibilities more than if the exercises had not been so well chosen. For this, and for the successful training of the juvenile performers, great credit is due Miss Belle Brown and Miss Nellie Keenleyside, who arranged and conducted the programme.

As a mark of appreciation of their services, the teachers and officers of the school, through Masters George Clark and George Willis and tiny Win-ifred Lanceley, presented Misses Brown and Keenleyside with beautiful bouquets.

After the opening hymn, and the invocation by the pastor, Rev. E. B. Lanceley, Mr. D. A. McDermid, the superintendent, delivered the opening address, expressing the general gratineation test at the progress Miss Nellie Burnip.

Miss Nellie Butler. "Greeting and Rally" Sunday. For the half year ending Oct. 30 the attendance of Miss Steer's class was the highest percentage, 81; Mrs. Beal's and Mr. C. W. Grogan's came second with 80 per cent. Mr. Wm. Heamen's class had all members present on the largest number (thirteen) of Sundays. during the half year. The financial statement for the year showed a balance on hand, Oct. 30, 1896, of \$253 12; Primary Building Society's collections, \$408 39; missionary collections, \$194 99; regular collections, \$297 52, and special, \$297 52; total raised, \$1,081 97. (By mistake the amount of the receipts was announced on Sunday to have been \$900.) The total disbursements were \$822 40, leaving a balance on hand, Oct. 30, 1897, of \$512 69, made up as follows: Primary building fund \$436 08; missionary fund, \$23 06, and regular fund, \$53 55.

The programme included several orchestral selections; a kindergarten chorus; a dialogue, "The Old Folks at School," in which the following little ones showed the old folks how to run a Sunday school: Misses Ethel and Lillie Ford, Stella Winnett, Annie Phipps, Florence and Marion Willis, Lenora Talbot, Anna Shuff, Florence Cole, Ethel Bradford, Irene Morrison,

A run down constitution is always open to receive disease. The greatest preventive and cure for disease known is Abbey's

Effervescent Salt: It purifies the blood and builds up the system so that it can withstand

disease.

In this connection the Canada Lancet says:

"This preparation deserves every good word which is being said of it. A sample is offered to each physician, and most favorably is it commented upon. There is no doubt but the daily use of Abbey's Effervescent Salt will be a great preventive and aid in warding off attacks of disease."

This standard English Preparation is for sale by all druggists. Price 2/6 or 60 cts. a bottle.
