Excursion Steamer Collides With Another Boat During Easter Holiday Trip to the Great Damat Cairo, and Great Loss of Life Is Reported.

[Canadian Press.]

Cairo, Egypt, April 9.-A large number of passengers were drowned last evening by the sinking of a Nile excursion steamer after a collision with another steamer in the vicinity of the great dam on the river, about 15 miles to the northwest of Cairo, and a few miles from Kalyub.

The steamer had three hundred passengers on board, who had taken advantage of the Easter holiday to make a trip to the river dam. On the return journey upstream, and not far from the dam, the excursion boat col. lided with another steamer, and sank almost immediately. were thrown into the river, but many lives were saved by the vessel with which the excursion boat had collided.

Another passenger steamer and a number of boats from shore hastened to the rescue, and picked up many of those struggling in the water.

A Plan for the Improvement of the Courthouse Square

A SUGGESTION FROM MR. R. K. COWAN, MASTER IN CHANCERY.

Mr R. K. Cowan, master in chancery, has reduced his ideas of joint municipal buildings on the court house to a plan, and it has been most favorably received by all who have seen it. In his scheme, Mr. Cowan etains the court house and jail on the left.

On the extreme right is located the new city hall, and county municipal buildings, while in the centre are the All on board two registry offices. There is plenty of room in front for beautifying the place, and making it a veritable park. "I think my proposition is a feasible one, and will commend itself to those who know the situation," said Mr. Cowan. "On the south end of the square I would place the city hall and municipal buildings. In the north I would leave the present jail and court house, which has been modernized, and in the centre the two registry offices. This will make a symmetrical group of buildings, I think. If the city desires to construct a police station it could be placed between the registry offices, which could be moved each way, without destroying the symmetry to any extent

London Liberals Will Visit Woodstock

The London Liberal Club will pay a return visit to the Woodstock Liberal Club on Wednesday evening. A few weeks ago about thirty members of the Woodstock Liberal Club were entertained at Hyman Hall at a euchre party, and the affair proved most enjoyable to hosts and visitors alike.

An invitation was extended to spend an evening in Woodstock, and tomorrow at 6:57 p.m., quite a large representation of the London Liberal Club will leave on the flyer, returning the same night. A general invitation is extended to London Liberals to join the party, and it is hoped that as many as can go will avail themselves of the opportunity to enjoy this fraternal visit.

A Striking Tribute to the Member for East Middlesex Whose Election Has Been Protested By Mr. George W. Neely, Whom He Defeated In Last Election.

The sympathy of the Conservatives of the Township of North Dorchester, the home of Mr. Robert Sutherland, M.P.P., towards him in respect to the protest filed against his election by Mr. Geo. W. Neely, ex-M.P.P., was shown in a practical manner today when the sum of \$1,000, subscribed by them, was paid over 'to Mr. J. M. McEvoy, solicitor for Mr. Sutherland, to assist in defraying the expenses of the trial. This action is unprecedented in the political history of the riding, and it is doubtful whether or not it has been duplicated elsewhere.

The subscription list reads as follows:

Dorchester, April 8, 1912. "We, as Conservatives of the Township of North Dorchester, in the east riding of Middlesex, take great pleasure in forwarding the sum of \$1,000 to Mr. J. M. McEvoy, solicitor for Mr. Robert Sutherland, M.P.P., to show our sincerest sympathy towards him in his unjust treatment on account of the protest entered against him by Mr. Geo. W. Neely, ex_M.P.P.

"Signed-David Gilmour, Levi Atwell, Geo. Hunt, Jas. Smith, Wm. Wallace, W. Hartle, Morley Lane, Thos. Lane." OPPOSED TO A PROTEST.

"There are a hundred or more Conservatives in Dorchester ready to sign a similar subscription list," a prominent Conservative informed The Advertiser. "The party in that section of the riding are utterly opposed to a protest, and will assist Mr. Sutherland in fighting the petition."

Nothing has been heard of late with reference to the protest, no date having been set for the trial.

A conference between ehe city council and the county council, with reference to joint municipal buildings, is being held this afternoon, and it is hoped that an agreeement will be arrived at. There is no certainty about this, however, there being a danger that a majority of the county men will vote against it.

A session of the county council was held ata 11 o'clock, when the matter was discussed. It was behind closed doors, the press and all outsiders being

A resolution introduced by Reeve Henry Hardy, of Caradoc, refusing to enter into an agreement covering joint buildings, was the cause of the debate. It was decided to await the coming of the city council, when their proposition could be heard and judged.

Warden's Explanations. In opening the session of the council, Warden Buttrey explained why the meeting had been called. Some time ago he was called up by Mayor Graham, of London, who asked for a conference on joint buildings. He met his worship and certain members of the city council, and they discussed the

It was then suggested that a special meeting of the council be called, but the warden decided to meet the special building committee, and if they came to the conclusion that he was warranted in calling a special session, he would do so. This was decided and the meet. ing was called in consequence.

"The city's proposition in brief is as follows," explained the warden. "The present buildings to be removed, jail and all, and the city and county to LaMotte afterward stated, however, that the blow dealt him by the prisoner frustrated the plan, as it had to buy a lot for the jailer's residence, land assume all the liabilities for the needle, with which he had been sup-plied to mend his own clothing, and repairs at present being undertaken on

At this juncture, Reeve Henry Hardy moved, seconded by Mr. John McGu-gan, that considering conditions at a result the men were unable to get present existing, this council do not deem it in the best interests of the county to enter into an agreement with the city for joint municipal buildings.

> Press Excluded. "I do not think it wise to allow reporters or other outsiders in while we are discussing this question," Reeve Thomas Munro, of Parkhill, We want the frankest discussion of he whole question, and I think yould not be in the best interests of

the county if it were made known exactly what we want.' The press representatives were then excluded and the county councillors discussed the matter at length.

Hoping for the Best.

However, it is possible that some of the cutside representatives will witch into line. There will be a strong effort made to secure better terms than 65 and 35 per cent. If the city would pay 75 per cent of the cost there would oe a much stronger vote for it than appears on the surface.

However, Mayor Graham and the council are hopeful that something will be done, and that a satisfactory

arrangement will be made. "I hope to see us come together," said Warden Buttrey. "I think we can do so, but it will be rather a hard. task."

"I am opposed to it altogether," said parachute jumper who recently made Reeve Hardy. "Conditions are such that it would be unwise to enter into an agreement."

"I think the proposition an excellent feat late yesterday, in jumping from one," said Reeve Hawkshawe, of the top of the 39-story Bankers' Trust Lucan. "The men from the townships are opposed to it, and I fear that un-Building at Wall and Nassau streets. less very favorable terms are secured

DEAD AT INGERSOLL

The Minister of Agriculture to The Ontario Library Association Resided There Continuously for the Past Seventy-Three Years.

> [Special to The Advertiser.] Ingersoll, April 9 .- One of Ingersoll's ldest and most respected residents, in the person of Mrs. Morrey, wife of Mr. J. F. Morrey, died yesterday. She came to Ingersoll 73 years ago, and had resided here continuously ever since. She was aged 77 years, and besides her husband, is survived by two sons, Messrs. W. H. and E. B. Morrey, both of Ingersoll. Mrs. Morrey possessed many estimable qualities, and while her death was not unexpected, as she had been an invalid for ome time, it has occasioned deep regret mong many friends. The funeral, which will be private, will take place to the Ingersoll Rural Cemetery on Thursday.

The town hall was the scene of much gayety last evening, when a highly sucessful assembly was held under the auspices of the Balmoral Club. There was large attendance, all of whom tripped the light fantastic toe to the sweet music discoursed by the Tony Cortese Orchestra of London.

Suffered Greatly With Her Heart.

Became So Weak At Times Could Hardly Walk.

Many people may be unaware of having anything wrong with their heart till some excitement, overwork, or confinement in an overheated or overcrowded room, or public building makes them feel faint and dizzy.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, you should not wait until you case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. D. McGilvery, Bathurst, N.B., writes:-" Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my heart and became so weak at times I could hardly walk. Distrust Precocity.

"Parents should specially distrust recocity in their children." says Rheta Childe Dorr in an article on "The Child That Is Different" in the April Cenury, "and they should, instead of encouraging phenomenal musical talent or mathematical ability, find means to check the child's tendencies. Precocity s no sign of superior mentality. It i an indication of disease."

Schaff Encyclopaedia.

In the preface to Volume XII, of the new Schaff-Herzog Encyclopaedia of Religious Knowledge, which has just made its appearance from the presses of the Funk & Wagnalls Company, the editor-in-chief, Dr. Samuel Macauley Jackson, tells us that eight and a half years have elapsed since this work vas begun.

Some idea of the magnitude of the indertaking may be inferred from the fact that over 800 of the foremost cholars here and abroad have been engaged upon it; that 8,791 main topics and 12,229 subsidiary topics have been created: that 6.342 pages of text are contained in the twelve volumes; that the financial expenditure has been ver \$300,000.

LONDON, TUESDAY, APRIL 9.

A THRUST DESERVED.

London Truth has not lost with the death of Labouchere its habit of cynical frankness. When the other day a Imperialism before the Royal Canadian Institute, London, Truth slyly remarked that it was time Canada suited the action to the word. It suggested that before British Columbians went to England to beat the Imperial drum, they ought to insist on the maintenance by Canada of a naval base on the Pacific, ready for the immediate use of

There are few Canadians who do not feel the justice of the reproach, and those who ought to feel it most are the politicians of British Columbia who helped to destroy the Canadian navy project. With Premier McBride at ed if the barroom remains. Every man their head, they went up and down the Province in September deriding the naval law, because it had not provid ed for a complete fleet unit. Dreadnought and all, and for the establishment of naval shipyards, on the Pacific coast, knowing all the time that Mr. Borden had joined hands with the Nationalists and repudiated the Canadian navy idea. Not a British Columbia member of the House of Commons has raised his voice against the negativing katchewan Provincial elections. This is of the Laurier policy or for any sub-

The Borden Government cannot establish a squadron on the Pacific coast without indorsing Laurier and stultifying itself. But so long as its British Columbian supporters are as servile as they have hitherto been, the Government may safely leave the question on the shelf. Only if there is any lingering remnant of shame among them they will not go to the mother country, and prate of their imperial

ANOTHER KIPLING ATROCITY.

Another bad ode from Kipling! He is a self-appointed laureate of the Unionist party, ready to bark for any move it may make. He rushed into print in 1909 with his "City of Brass," a hydrophobic onslaught on the Lloyd for Canada; and its quondam enemies George budget and democracy in general. Here is a sample of it:

'We ascribe all dominion to man in his PARTISANSHIP IN THE SCHOOLS. And have given to numbers the Name of the Wisdom unerring.

They ran panting in haste to lay waste and embitter forever wellsprings of Wisdom and Strength, which are Faith and Endeavor.

"God granted them all things for which they had striven, And the heart of a beast in the place of a man's heart was given.

These are pretty bouquets for "the common people." Because they dared to ask for old age pensions and preferred a fair system of taxation to a bread tax, democracy must be reviled in this Said he: "I asked her if I could see her mad-dog fashion. "Numbers," of home. course, have less wisdom than belongs to backwoodsmen; they have less faith: they have received from God "the heart of a beast"! Here was a sad degeneration from "Lest We Forget." Who is the faithless beast?

This new "poem," voicing the madness of an Ulster faction, may be a very clever dramatic realization of the longer than most any man in the fanaticism, stupidity and hate animat- country. ing that faction, but it evidently identifies Kipling's mind with theirs. Mr. Law opens his campaign at Belfast, and Kipling heralds it with this wild howl. Why should he abandon the traditions of his earlier work, to make himself a second-class bard to a second-elass chief? It is a great pity that the true poet of the "Seven Seas" and even of the "Five Nations" should have so vilely petered out in his prime. "Sicked" on by the manipulators he cuts a sorry figure in comparison with poets like Masefield and Noyes, who sing in beauty and serenity and true enthusiasm the themes of peace and humanity.

MORINE STEPS OUT.

Hon, A. B. Morine has relinquished the post of lord high executioner of the Ottawa Government. It is not the first time he has performed an act of resignation. On the prior occasion he laid down the cares of office in the Newfoundland ministry at the grim invitation of the governor of the colony. He had been acting in the dual capacity of a public trustee in the cabinet, and as the paid solicitor of a great corporation asking and securing concessions from the same cabinet. This was connearly \$10,000 a year for six years from parent and the child, the former may the grateful syndicate which he served not wisely but too well. So many women are anxious to lose some of their superfluous flesh and will not take exercise to accomplish their desire that I am going to offer a diet that has been tried and proved to be a success. Any woman who really wants to lose flesh and still feel well and look

TO REDUCE THE FIGURE

lovely may try this treatment or diet. The whole secret of reducing the figure is in the observance of rules and persistence of purpose. Whether women want to improve their appearance or their education, the principle is the same, and intelligence

Some women spend time in writing letters and thinking out what they want to do. Then, when they are told anything to do to improve themselves, which takes a little thought or time, they pass it by as too much trouble.

The dist I am offering my readers today has been tried by beautiful women of my acquaintance, and has been most suc-cessful. The diet is so simple that many women will repudiate it for that reason, but it is sure in its effect, nevertheless. A glass of milk with about one-third vichy water, to be

taken three or four times a day. The milk may be either skimmed or not—that makes little difference—but nothing else must be taken as nourishment for a week, no food at all. There is great nourishment in milk, and it may be taken without the vichy if preferred. The first day you may feel hungry, but after that is past you will not feel hungry or want anything more to rourish

If you faithfully adhere to this milk diet, you can lose several pounds a week without the slightest doubt or difficulty. Your skin will improve so wonderfully that you will be repaid for the self-

denial in that way alone. Your stomach muscles will be treated to a rest from hard work, a new coating will form in the stomach, and you will be in better condition in every way physically.

No exercise is necessary, and much rest should be taken. Plenty of fresh air is necessary in all cases. This milk diet can be continued for three weeks if necessary. Then, if

you are careful not to overeat, or to eat too many potatoes or too much pastry, you can keep off the fat you have lost.

There are many ways to reduce, but this treatment has great virtue. It teaches one abstinence, patience, and determination, and nothing can be accomplished without all three of these attributes.

Women will say, "O, I must have my meat," or "I must have my coffee."
Well, then have it, but also have fat and ugliness. Nothing comes to anyone for the wishing. Governmenting has its number of the same of

"Sailing, sailing, over the rolling leep." Breathlessly we watch the gallant crew as they launch the lifesaving boat into the angry sea. Huge waves, one after another, sweep upon the little craft, and amid showers of cold, salt, marrow-penetrating spray they slide on out of sight, now up now down to the rescue of the disable ship. Unconsciously one creeps close to one's companion. What if they never come back, those brave fellows and their gruff white-haired old cap Over yonder in the cottage lie his sick wife. The angel of death hovering near and duty and love had sharp struggle before the captain eft her to command the lige-saving crew. Some place, out in the world. heir boy. Where, they know not, and it is that that is sapping away the life of the woman in the cottage. "Sailing, sailing," sigh the violin and piano again, and the peculiar lilt and throb Down by the water the folks strain anxious eyes to sight the return the vessel. They are wives, sweet rew. And as we, too, gaze out over the waters, with our less accustomed vision, the cry comes from below, "Thank God, they're safe!" And presently, on they come, and with the weird music still throbbing around us, we see the poor, half-drowned fellows reach the sands once more. The music ends with a sharp chord-yes, did you guess it? This all happened at one of the moving picture theatres last week. And happily, for I know you want the rest of the story, one of the derelicts proved to be the captain's lost son, whose rescue and return came just in time to save the sick mother's life. How glad we felt to see them restored to one another again.

Value of the Films. The moving picture "show" has be-

ome an important force in the life of city dwellers, both old and young. No invention of the twentieth century nas approached the "movies" for presenting scenes and stories from life. Their value along educational lines cannot be estimated, and their power to entertain and please is evidenced by the crowds that are constantly seeking admittance. Yet how few who pay their dime for a seat in the thea tre realize, as they watch the shift ing, life-like figures on the screen what it costs to produce the picture films, and what manipulation is necessary to cast them before an audience

Behind the Scenes.

Through the courtesy of Mr. W. L. Stewart of the Princess Theatre, "The Gossip" had the privilege of seeing how a moving picture machine is oper ated. Mr. Stewart is making every effort to equip his theatre with on of the most up-to-date apparatu in the country. The picture lamp, with its powerful light, the films and the machinery is all contained in butter, sugar to taste, and one table- fireproof room away from the audi spoonful of juice of water; put the ence, and thus complete protection is cups into the boiling water and put insured. The films themselves are in insured. The films themselves are inon the cover to keep the steam in; teresting to the outsider. They are thus: Sift together three-quarters of feet long, and are wound on flat reels, about two feet in circumference. Th tablespoonful of butter; rub very story in itself. Manager Stewart ex plained that to photograph even th simplest movement sixteen picture ad to appear on the film, thus it requires hundreds of them to produc a complete story on the screen. All pictures shown in the Ontario theatre must be approved by the Ontario Board of Censors, and every effort is made by Manager Stewart to secure wholesome, up-to-date scenes. The possibilities of the moving pie

ture show have hardly been sounded as yet. When we realize that in the twinkling of an eye, as it were, people from across the world, industries at ome and abroad, stories alive with uman interest thrills can be present ed before us, we feel that such an edu.

RECORD OF A **GREAT MEDICINE**

Doctors Could Not Help Mrs. Templeton-Regained Health through Lydia E. Pinkham's Compound.

Hooper, Nebraska. - "I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."-Mrs. Susie Tem-PLETON, Hooper, Nebraska.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman-ills

that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you (

GREAT OVATION FOR SIR WILFRID

Quebec. April 8.—Never before, not even in the zenith of his Premiership, was Sir Wilfrid Laurier given so spontaneous and so loyal a reception as that accorded to him at the Chateau Frontenac here tonight, when he was one of the guests of honor at the annual banquet on the occasion of the tenth anniversary of the founding of the Association of Commercial Travellers of the close. Mr. Pelletier, who replied first to the toast to Canada, limited his remarks to an appeal to put aside politics when working in the interests of Quebec, and he predicted a bright and prosperous future for the port and city of Quebec. Sir Wilfrid Laurier was accorded anther ovation when he rose to speak. He was in excellent form, and his ready wit and eloquent remarks were continually nterrupted with cheers and applause. He had been much pleased, he said, when ne had received the invitation of the ommercial Travellers two weeks ago to be present at their banquet, and he was happy that the event was held after Easter, because he was free to attend, not being obliged to keep guard over the Government. All Governments needed surveillance, but now, he said, this need was more accentuated than ever. was happy-to be among commercial travellers, as it was impossible to meet better and more hospitable companions. would follow Mr. Pelletier in urging all to work together in the good cause, but, as Mr. Pelletier said that he would not refer to politics, he (Sir Wilfrid) would not say what the good cause was. There was not in any country, he said, a more useful class of men than commercial travellers, and to them was due in great part the prosperity of a country. Wilfrid then expressed the hope that Quebec would see before long the contruction of a Transcontinental station in Quebec. He had asked Mr. Pelletier about the station in the House some time ago, and received the reply that the Government would attend to it after the session. He therefore expected that at the next

BIG EXCURSION FROM DETROIT TO LONDON ON OPENING DAY

Frank Bowerman's Friends Are Planning To Run a Special Train To Give Him Reception When Canadian League Season Opens in London on May 14.

> [BY JINX.] The announcement that Frank Bowerman has been signed by the London club management to manage the Tecumsehs this season, has created quite a sensation around the Canadian League circuit. The general opinion is that the London club showed a great deal of enterprise in landing such a well-known and popular fellow as Bowerman, while at the same time they are to be congratulated in giving the Canadian League the best boost that it has yet received. Bowerman will be

the big attraction at the different ball parks on the circuit this summer, and as a result the gate receipts should swell to larger proportions than last year. The signing of Bowerman is one of the things that will convince a rather doubting public that the Canadian League is going to give the fans the very best that minor league ball can produce. Last season the different teams put up a good brand of the game, but it is not stretching it any to say that this year it will be good baseball all the way, and the kind that will make last year's article look like the corner-lot variety.

BOWERMAN'S SILVER CUP. There is on exhibtion in Detroit at present a silver cup valued at \$1,500. The cup is the property of Manager Frank Bowerman, and was given to him by the New York Journal as the most popular player in the big leagues. The Journal conducted a fans' contest about two years ago, and offered prizes to the fans who could pick out the most popular player in the big leagues. The popular player was to receive a handsome silver cup valued at \$1,500. The contest lasted for weeks, and when the final ballots were counted, it was found that Frank Bowerman, who was at that time playing for Boston, had the largest number of votes. The cup was then awarded to Frank, and it has been his most valued possession ever since. It will be sent on to London in a few day, and placed on exhibition here.

In Which I Begin Discovery. Stunned by this abrupt disclosure of the extremely dangerous predicament we were in, I found no immediate voice for reply, merely standing there as if petrified, staring at them both, cap in hand, grasping the edge of the door. Their faces swam before me in the gray light streaming through the stern ports; the maid already attempting a smile, as though her fears had subsided, the mistress viewing me in wondering perplexity. Even in that moment of embarrassment and perplexity, when I was scarcely less agltated than herself, this unexpected announcement of such a relationship came to me as a shock. Why it should, what difference it could possibly make, I did not in the least realize, yet I was instantly conscious of the disappointment of deep regret. The revelation, thus calmly, proudly made, was so unexpected, so destructive of all my previous conceptions, as to seem an impossibility. DOG'S HEAD WILL BE EXAMINED

Animal Attacked Several People on Dundas Street and Was Shot By Police.

MADE A VICIOUS FIGHT

Knocked Down by a Baton, It Was Later Destroyed by a Bullet From a Revolver.

"Bum," a nondescript homeless dog, possibly affected with rabies, attacked and bit a six-year-old lad named Charles Ernest Miller, residing in the Abbott block, Dundas street, on Monday afternoon, lacerating his ear and mouth badly. Later it bit W. Arm-strong, 326 Ridout street, 16 years of age, inflicting a gash on his arm. Dr. James D. Wilson cauterized the wounds. Then the animal was shot by Detective Thomas Nickle, after had attempted to bite P. C. W. T. Middaugh, who captured it. Dr. Hutchinson, M. H. O., will investigate, and will in all probability send the animal's head to Toronto for examination.

The dog, a half-bred coach dog, has been roaming the streets for some time. He was not of a particularly vicious nature, but amused himsel parking at horses and rigs. The animal had no home and begged his board wherever he could.

From Profits-or Losses?

WE all advertise.

A man advertises his character by his deeds, his wisdom by his words or by his silence. A merchant's store, stock, and windows speak either well or ill of his business.

So when a man says "No, I do not advertise," he knows not what he says. What he really means is that he does not publish printed advertisements.

Some proclaim this as though it were a virtue-yet spend much effort and invest much money in advertising their business through mediums other than the printed word.

They may make their wares fit for a king-yet hesitate to introduce them to Brown or Smith.

This is inconsistency

The truth is, printed advertising is a vital force in every business, just as is the "silent" advertising of a product's quality or a merchant's service.

When you employ the Printed Word as your solicitor in the Court of Public Opinion, you build good will for your product or service-a good will that results in profi-

If unrepresented at this Court, your interests are as unprotected as though, when involved in a law suit, you failed to "enter an appearance" and the case is decided against you - by default.

So it is clear you pay for advertising - one way or the other. If you pay it wages, it will work for you.

If you refuse its offers of service, it will work against you, in just the measure of its employment by your Competitors.

So you are paying for advertising either out of your profits or by your losses.

Restorative Treatment for Nervous Men

Coming from a source of unquestioned authority on the ailments of men it is presumed to be infallible, while the profession generally indorse the ingredients and prescribe them in many different forms of various diseases. The following formula is highly efficient in quickly restoring in nervous exhaustion. by restoring in nervous exhaustion, melancholla, anxiety, timidity in venturing, dizziness, heart palpitation, trembling limbs, insomnia, thinness, cold extremities, tiredall-in feeling and general inability to do those natural and rational acts upon which depends a man's success and happiness, in social success and happiness in social and every-day life.

The instructions for mixing at home secretly so that no embarrassment may be felt, are as follows: First get three ounces of
syrup sarsaparilla, compound and
one ounce compound fluid balmwort; mix and let stand two hours.
Then add one ounce compound esgence cardiol and one ounce tincture cadomene compound (not carture cadomene compound (not car-damom), and mix all together. The directions are to take one tea-spoonful after each meal and one spoonful after each meal and one when retiring, until bounding health and full strength are restored. Even a few weeks will witwitness most wonderful results.

Astonishing nervous force and equilibrium follow the treatment, no matter how serious the case.

This contains no oplates whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefits.

'The woman, who was pronounced by physicians to be suffering from a mental strain, is confined in Bellevue Hospital for observation She shed little light upon her identity when questioned by the authoritie

Mrs. Mary Clinton, the housekeeper at the conservatory where Parma had his lodgings, was the only one in the building, apparently, who knew of the woman's existence. To Mrs. Clinton she was nameless, being known as "the woman of mystery:" The housekeeper told the police that she thought the woman was Parma's wife or daughter-she did not know whichand that during the eight years is which the couple had occupied the apartments, the aged musician showed the deepest affection for his com-

Coroner Nellenstein said Parma death was due to cerebral hemorrhage and acute nephritis, When the body was found, he said, the door had to be broken in and the room was in the greatest disorder. The aged musician was found dead sitting on the edge of the bed with his head in his hands. The centre of the floor was blood-stained and beside the dead man sat the woman, moaning and talking

The B. M. E. Church, which has just een remodelled, was crowded to the doors last evening, when a successful concert was given for the purposes of raising funds to assist in defraying the xpenditures incurred. Gibson ably discharged the duties of chairman, and introduced a very meriorious programme, which consisted of dialogues, recitations and vocal selections, all of which elicited rounds of enthusiastic applause. The event was a success from every standpoint.

BARTENDER GUILTY AND WAS FINED \$2

Judgment Given on a Nice Poi nt by P. M. Judd.

Police Magistrate Judd this mornng handed down a rather important ase of Harry Walsh, bartender at the Dominion House, who was charged with allowing two minors, Gordon Tozer and Roy Strong, to linger and loiter about the place in contravention of the liquor license act.

Walsh was found guilty and fined \$2 in the Tozer case, while no penalty was imposed in the other, the charge

being dismissed. Mr. Marshall Graydon, who defend. ed Walsh, contended that by wording of the section under which the prosecution was conducted, the owner of the hotel should be made to answer

the charge instead of the bartender. This, however, the court did not accept, and cited other clauses in the act sustaining the decision. As to the actual circumstances of the case, the magistrate in his decision stated that there could be no doubt that the two boys were under 21 years of age from their appearance, and that they "lingered and loitered" in the bar.
