MIDNIGHT DOINGS

"Just make a note in your paper," said an enraged citizen to The Planet this morning, "that if the small boys on Victoria avenue do not cease their midnight adventures, there is going to be trouble. Small boys, ranging in ages from four years up, are in the habit of congregating around the electric light on the corner of Grant street and Victoria avenue, and keeping up a disturbance from early evening till 11 or 12 o'clock at night. They make a trip around to all of the houses in that vicinity, throwing mud at doors and working the handles on windows. The other night they nearly set one old lady into hysterics with their unreasoning noise. It would be well if the parents would see to it that their little children are in the house at that time of night instead of allowing them to parade the streets."

AGREEMENT WITH MINERS

OPERATORS AND WORKERS TO SETTLE THEIR DIFFERENCES.

Basin of an Understanding Which May be Reached Without Reference to the Commission.

Scranto, Pa., Nov. 22.—The mine workers, through their representatives, have agreed with the mine operators to attempt to adjust the differences existing between them, outside of the anthracite coal strike commission. The proposition was made on a compromise basis, and negotiations, it is expected, will be at once entered upon with a reasonable hope of settlement with the aid of the arbitrators. The rough proposition, which is to form the basis of the negotiations, is a 10 per cent. increase in wages, a nine-hour day and trade agreements between the miners and the respective companies by whom they are employed. The only one of the four demands not touched upon is that of the weighing of coal by the legal ton. While both sides have expressed a willingness to settle their differences among themselves, it is not to be construed that it carries with it the acceptance of the terms proposed. They are mentioned only as a basis, it is understood, from which a final agreement may be reached. It is possible that the foundation already laid may be wrecked by either party holding out too strongly against some question, and thus leave the whole matter in the hands of the commissioners, who in the meantime will act as a sort of board of arbitration. Few persons were aware that an attempt would be made at an outside settlement until it was practically initiated by Judge Gray, Chairman of the commission, who read a carefully prepared announcement. The move, one of the most important in the whole history of the coal strike, created a mild sensation when it became known. The miners, who are the greater, it is remembered that numerous persons, from the President of the United States down, and many organizations, from the National Civic Federation to the boards of trade of the mining towns, failed to bring the two parties together. It is said it was all brought about by both sides seeing that the proceedings before the commission would be interminable, and that in the interim the miners of both sides the outside agreement proposition was broached and taken up.

FIVE THOUSAND VICTIMS.

TERRIBLE LOSS OF LIFE IN GUATEMALA.

Coffee Plantations Forty Miles From Santa Maria Destroyed by the Eruptions.

San Francisco, Nov. 22.—W. J. Campbell, who has just arrived from Guatemala, brings additional details of the damage caused by the recent volcanic disturbance. He said:—

"There is no clear idea yet of the loss of life resulting from the eruption of Santa Maria, but I believe that 5,000 natives have been killed. There was some talk at San Jose, too, of some refugees having been waylaid by robbers, but I saw no instance of this. I took the first means of getting back to this country, having been impoverished. At San Jose it was said President Cabrera was trying to suppress the news, but evidence of ruin was apparent to everybody.

"Some of the coffee fines that have been nearly ruined were worth more than \$1,000,000. The plantation of Albert James, which was wiped out, had machinery upon it worth \$300,000, all of which is destroyed. Some months ago James refused an offer of \$1,500,000. Adolfo Meyer's fine, worth \$75,000 in gold, was ruined. Both of these places lay from twenty to forty miles west of the volcano.

A SPLENDID SCHOOL.

Miss Lottie Thomson, of Chatham, spent a few days with her friend, Miss E. Lafferty. Miss Thomson taught in the Public school here a few weeks last winter. She is now on the teaching staff of the Central school, Chatham, a school that is foremost in the eyes of the people of the Province to-day. Chatham is noted for its schools and the good work they are accomplishing. Politics are not uppermost when the teachers are being engaged there.—Comber Herald.

RALEIGH FARMERS DISCUSS PAST AND PRESENT EVENTS

Chat With The Planet Concerning the Big Oil Excitement in Their Locality—History of the Lands and the Arduous Work of Cultivation.

Special Planet Correspondence.

Scene of Operations, Raleigh, Nov. 22.—James Russell, Raleigh Township, is one of the old settlers of Raleigh. He owns 50 acres of Canada Co. land at the corner of the Jenner side road and the 13th concession line, next to George Apthorpe's farm and almost across the concession road from the oil well. Mr. Russell is 63 years of age and was born and has lived all his life in this section. His home is on the 13th concession, nearer the townline and not on the Canada Co. land. He, however, owns the 50 acres previously mentioned which is in the disputed territory.

"Yes," said Mr. Russell, when accosted by a Planet representative, who found the hardy old resident husking corn on his old land, "yes, I have known this part of the country all my life. Know it, well I guess I do. Why, when I purchased this place it was all bush and swamp. People laughed at me when I paid \$7 an acre cash for this land. They didn't see then what a fine farm it would become.

"In those days this land was all woods. Between here and the townline you could see nothing but bush. The Middle road was all settled at this time from the townline through to Stewart, so that the Canada Co. never got hold of the land along the Middle road. I was born on the 13th concession. There were lots of turkeys, deer, wolves and bear around here then. I never had much schooling and I don't know a great deal about law and I am too old to spend money finding out about my deed. We had a school but we had neither shoes nor clothes to wear to school. The early settlers who came into the swamp here to make a living had a hard life. We never knew that there was anything in the deeds about oil and minerals until we got the documents.

"If the province of the Canada Co. holds good then they can send men on our farms, make roads wherever necessary and spoil our crops. I don't say anything against the oil men but they are no gentlemen. They haven't come near me yet but they may come and everything will be all right.

"Peter Haggart, Tom Macalman, James Rutherford and John Chalmers were here and got Ben. Harvey and a few more of us to sign to lease to them if they can break the clause in the deed. They are going down to Ottawa to fight the matter out. If they lose it won't cost us a cent, if they win, we will have to lease to them."

Peter Jenner, of the Middle road, is another of the old residents on whom The Planet representative called. Mr. Jenner is 68 years old. His father was a shoemaker by trade. He came to this country and settled on relatives on the Middle road. Mr. Jenner, Sr., used to work at his trade of shoemaker in Chatham and at Morpeth. It was while he was working at Morpeth that he took to farming, and has one of the finest and best kept farms on the Middle road. Mr. Jenner also owns 50 acres of the Canada Co. land in the best.

"I bought the 50 acres of Canada Co. land that I own about 30 years ago," said Mr. Jenner. "My deed mentions minerals and oil, but doesn't say anything about white pine. I don't remember that the representative said anything about the oil reservation in the deeds they gave. After I had signed for the deed and it was sent to me, of course I saw that there was a proviso in the covenant."

"This must have been a different place when you were a boy," remarked The Planet man as he gazed around the well-appointed and neat farm.

"Yes," was the response of the pioneer of Raleigh Township. "It was all woods around here in those days. Before the gravel road was cut through the settlers along the Middle road used to have a difficult time going to Chatham. The Indian trail to the town led from here and followed along the high lands. The great trouble was in crossing the creeks. Silas West, who lives a couple of farms over, lost a whole grist in Indian creek when coming home with it one day. My father and Mr. English another settler, were three days going to Chatham for a barrel of salt, and the distance is only about eight miles. They brought the salt on a sleigh and it was in the summer time.

the water and the men didn't like to go into the water. The bridge couldn't be built till the other side was reached. While the men hesitated, Mr. White, the oldest member of the party, laughed at the others for hesitating and jumped into the water. The younger men, among whom were my father, were ashamed to be beaten by a much older man and all leaped into the icy water. Mr. White was grandfather of Sidney White, who lives on the Middle road near Charing Cross.

"When I was a boy wolves were plentiful around here. They killed sheep and young cattle and unless your sheep were well built the wolves would get in and kill the sheep. Our house stood over on that hill, back of the barn, near where those old apple trees are. My brother and I were standing in the door one day when two big wolves came along. They weren't ten rods from the house. My brother and I called another to see the big dogs. We didn't know what they were."

Mr. Jenner also stated that he had bored for water several times. He put down a number of holes, but with little success. Quite a bit of gas was struck in most of the holes and in one well a fair supply of water was obtained, but the gas seemed to choke it off and the well never furnished water satisfactorily. Mr. Jenner then put down another well with more success.

OIL WELL GOSSIP.

The oil territory at Bothwell is only a mile square, yet people are leasing land for miles around the Seamen property. Speculators are even visiting Merlin.

The president of the Dutton Oil Co. was here from St. Thomas. He said that the people of Chatham didn't seem to realize the great find in Raleigh. If the well held out there wouldn't be enough hotel accommodations in Chatham and Blenheim to provide the oil speculators with stopping places.

County Commissioner Thos. Robinson has an eighth of an interest in an American Company, which has secured leases in the vicinity of the oil well. He was offered \$1,000 cash for his interest but refused it. The royalty of the Canada Land Co. is an eighth of the oil. The owner of the farm isn't in the deal at all and he has to provide means of egress and ingress. The Canada Land Co. thus controls 3,000 acres in the vicinity of the well.

EXPERT'S COMMENT.

Christopher McKenzie and son James, of Petrolia, were among the first to reach Raleigh after Gurd's discovery. In an interview with The Planet this morning Mr. McKenzie said, "I have been for nearly three weeks driving up and down every concession and side road in Raleigh. From what I can learn and from indications I think that the oil territory in Raleigh runs southwest by north-east. Of course you can only theorize on this, but the indications are that way. Our first endeavor was to find where soapstone had been discovered in the sinking of wells in Raleigh. Then we looked where shale had been discovered, where gas and where dry holes had been put down. The dry holes were the best sign. We found that the possibilities were that the oil fields nearly as wide as it was long and covered an area of some 30 square miles. We have leased land on all sides of the oil well but have no Canada Co. land. There has to be a trade over that land and I didn't want it.

"The man isn't born yet who can tell where the oil is or isn't. The only way to discover this is to put down test wells. We have let the contract for six wells to be started immediately and we expect that the first well will be sunk next week. We will put our first well down on Peter Jenner's farm on the Middle road. He has bored several times for water but has had little success getting more gas than water. We will also bore as soon as possible on the farms of Geo. Jenner, Middle road, Thos. Early, 11th concession, Mr. Thorpe, 12th concession, Geo. Bennett, 12th concession and Mr. Purdie, lot 14, 12th concession. We will put a test well down on each of these farms.

"The Petrolia field is from two to four miles wide and 28 miles long. This field is wider but is not so long. From what I can gather from the residents, there are springs all over this part of Raleigh from which gas comes. These spots are mostly outside the oil territory. The best indication, as I said before, is the scarcity of water. Then you generally get oil where there is an abundance of seeps. In from a week to ten days there will be from one to fifteen drilling rigs in operation.

"Gurd's Gusher may play out, but I think it will last a long time. Even if it does play out the well will get a large quantity of oil before it plays out. Leases have been secured on a great difference of terms. Some speculators have been offering as much as every fifth barrel, but most leases are for every eighth barrel. In Petrolia and Bothwell when the oil excitement was on thirty years ago, Continued on Page Five.

ARBITRATION

The arbitrators appointed to consider the dissolution of Union School Section No. 15, Chatham and Dover Townships, met this morning. J. N. McCoy represented Chatham Township and John Walsh Dover Township. Inspector Robert Park was the third arbitrator.

Mr. McCoy was elected chairman and Mr. Park secretary. After considering the petitions, the Board adjourned to meet in Wallaceton on Tuesday, December 9th, and the Inspector was instructed to notify the parties interested as required by law. The arbitrators are asked to dissolve Union School Section No. 15, Chatham and Dover, and attach the Dover part to the nearest section, which is No. 6, Dover.

BANQUET TO DELEGATES.

BRITISHER DECLARES HIMSELF FOR A PREFERENCE.

Mr. Faithful Begg's Strong Speech in Toronto—Mr. Tarte's For Higher Protection.

Toronto, Nov. 22.—A banquet was given in this city last night in honor of the delegates from the London Chamber of Commerce by the Canadian Manufacturers' Association. Although the speaking commenced at a late hour, an unusually large number of interesting and important addresses were given. Mr. Faithful Begg strongly favored the granting by Great Britain of a preference to the colonies, and said that if he were again running for the Imperial Parliament he would not hesitate to make a colonial preference the foremost plank in his platform. Sir Albert Rollet emphasized Canada's resources, and made the suggestion that the British warships should be employed in transporting emigrants from England to her colonies. He also promised the assistance of the Chamber of Commerce in obtaining relief from insurance discrimination against the St. Lawrence route. Hon. Geo. W. Ross, in a speech of unusual eloquence, suggested as a means of improving the trade relations of Great Britain and Canada that British manufacturers should establish branches in Canada in the same manner as the American harvester makers and other establishments have done. Mr. Tarte, who rose long after midnight, repeated his arguments in favor of increased transportation facilities for Canada and a higher protection tariff, declaring that he believed more than ever in the motto, "Business is business."

WILL PROSECUTE MORDEN.

A FORGERY CHARGE IN THE SUTTON WILL CASE.

Toronto Officials Conducting the Investigation—Estate of Susan Bray—London News.

London, Nov. 22.—It is understood here that Edgar Morden is to be prosecuted on a charge of forgery in connection with the famous "Butter paper" will that figured in the Sutton murder trial. Crown officers are now collecting evidence against Morden. Action is being taken at Toronto, as Crown Attorney Magee did not wish to prosecute. The Crown officers here were of necessity more or less mixed up with Morden in the prosecution of Sutton, and for this reason do not now feel like instituting proceedings against him.

Gerald Sutton and his wife are the guests of an aunt in Buffalo. They intend to remain a short time only, and will then return here.

DOMINION COAL CO.

Will Deliver No More Coal to the Boston Co.

Montreal, Nov. 21.—Mr. Cornelius Shields, Manager of the Dominion Coal Company, said to-day that all shipments of coal from the Dominion Coal Company to the New England Gas & Coke Company of Boston, in virtue of the contract entered into some years ago, were stopped to-day and the contract broken. The main reason why the coal company decided to break the contract is that it was entered into at a time when labor was much cheaper than it is at the present time, and the conditions of the coal company such that the contract might prove a good one for a certain length of time. At the present time, however, a much greater price could be obtained for run of mine coal and, besides, if the coke company were to increase the number of their ovens very rapidly, there would not be sufficient run of mine coal, and in order to carry out the contract coal would have to be supplied at the same figure. The result of to-day's action of the directors of the coal company in breaking the contract by stopping all shipments of coal will be, it is generally understood, that the Gas & Coke Company will bring an action for the damages sustained by the coal company adopting such a course. The general opinion among the shareholders of the coal company is that their directors have decided on the proper course, because, no matter what damages the coke company could prove it had sustained by the contract being broken, they would not come to anything like the amount the coal company would lose if it carried out the contract.

MASTERLY REVIEW.

CHAMBERLAIN'S HANDLING OF BOER CASE.

NINTH LANCERS' CASE SUBJECT OF DISCUSSION.

LORD HAMILTON'S ABLE DEFENCE OF THE VICEROY.

London, Nov. 22.—Mr. Chamberlain had an easy case in taking up the ill-judged appeal of the Boer generals to the civilized world, and he naturally presented the British side with lucidity and force. His correspondence in detail in a Parliamentary paper issued yesterday, presents evidence of the humane treatment of the Boer families in the concentration camps and magnanimity in dealing with the vanquished enemy. He naturally resented the misleading statements made by the Boer generals in the anti-British appeal to foreigners.

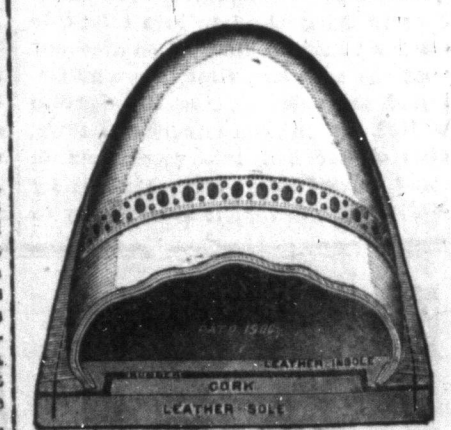

Gen. Botha's replies were conciliatory rather than apologetic, and did not break the force of Mr. Chamberlain's powerful, if temperate, presentation of the case. The correspondence shows that the Boer generals welcomed the announcement of Mr. Chamberlain's mission to South Africa, and offered to co-operate with him in effecting the reconciliation of the races.

The correspondence is read here with satisfaction. The British people have felt that they have never had sufficient credit for conducting the war with a degree of humanity unparalleled in history, and in making the most generous peace ever known. The Boer Generals, or, rather, Dr. Leyds, who misled them, have enabled Mr. Chamberlain to emphasize these facts.

The energies of the House of Commons were yesterday devoted to the consideration of the case of the 9th Lancers, an affair which has been for days past the sole topic in the military clubs. It will be remembered that a native cook was found near the lines of the Lancers at Sialkot, in India, dying from injuries inflicted by unknown assailants, whom the victim declared to be men of the regiment. Inquiries failed to detect the parties. Lord Curzon became interested in the case, with the result that the regiment, which is one of the crack corps of the British army, was publicly branded for having concealed the criminals, while all the leave of officers and men was stopped.

Lord George Hamilton had a difficult task in justifying the action of the Indian Viceroy, but he rose most adequately to the demands of the occasion, and when he sat down the sympathy of the House was almost entirely with the Government. Lord Curzon, he pointed out, had from the time he took up office in India, exercised the whole of his great power and influence in impressing upon his countrymen, that it was their duty to investigate outrages of this kind with the utmost promptitude and with as just and sincere a desire to bring home to justice the culprits as if a white man had been assaulted.

Sutherland-Innes & Co., of Chatham, propose to move their stove and hoop mill to St. Thomas. The city is asked to give five acres of land free of rent and exemption from taxation except school taxes, the company to employ 35 hands from three to five years or as long as the timber holds out. The firm should read clause 28 of the Municipal Amendment Act of 1902, before carrying negotiations too far. According to that clause aid cannot be granted to an industry already established elsewhere in the Province.—Comber Herald.

SATURDAY, NOVEMBER 22.

A REMARKABLE RECORD.

British railroads had a clear sheet last year as far as fatal accidents were concerned. Not a passenger, employee, or anyone else was killed on any line in the United Kingdom. The record is a wonderful one, especially when we remember that the speed of trains on British roads is as great as on those in Canada and the United States. Care in construction, caution in running, and the absence of level crossings are primary causes of the immunity from accidents on British railways.

Compared with that of American railways, where eight thousand persons were killed in 1901, the record of the British roads is most remarkable, and the means by which this pleasing result has been attained might well be investigated by railway managers on this continent.

MR. BORDEN A MAN OF HIS WORD

That Mr. R. L. Borden, the leader of the Conservative party, means just what he says is established by this statement of his made in a recent speech, in which he explained his attitude on the Chinese question. "That, practically speaking, is the stand I took in British Columbia and it is the stand I am prepared to take anywhere; and I recall at the moment that the Minister of Justice, the other day, was good enough to say that in advancing such a statement I was saying what I did not believe. I would thank my friend the Minister of Justice not to apply Liberal methods to Conservatives. There seems to be a great doubt amongst the Liberals as to what their own leaders do mean. I mean exactly what I said to the people of British Columbia, and I made the statement to the people there after considering the subject fairly and carefully, and I said to the people of British Columbia that so far as the Conservative policy was concerned I was not going to tell them I would test the voice of the Conservatives of British Columbia, but that it was a subject upon which the rest of Canada should consult the wishes of British Columbia, and when the wishes of the people there were once definitely stated the Conservative Government would be prepared to carry that out by every means in their power—carry out the wishes, not of the Conservatives of British Columbia or of the Liberals, but the wishes of the whole people."

REFERENDUM STATISTICS.

From several correspondents requests have been received for information regarding the referendum upon which the electors will shortly be called upon to pronounce. The question is, What is the vote necessary to bring the law into effect? In answer to this it may be pointed out that the act calls, first, for a majority of the votes cast in the election of 1898. In one constituency, Ottawa, each elector had two votes, and in other ridings there were elections by acclamation, so that it is necessary to

Every Exertion a Task

There is failure of the strength to do and the power to endure; a feeling of weakness all over the body.

The vital functions are impaired, food does not nourish, and the whole system is run down.

A medicine that strengthens the stomach, perfects digestion, invigorates and tones is needed.

What Hood's Sarsaparilla did for John Y. Paterson, Whitby, Ont., it will do for you. He took it as a tonic and general builder of the system, and writes: "I have found no other remedy to compare with it as a restorer of vitality. It drives away that tired feeling, quiets the nerves, and brings sweet refreshing sleep."

Hood's Sarsaparilla
Promises to cure and keeps the promise. The earlier treatment is begun the better—begin it today.

make allowance for these complications in ascertaining the actual vote cast. After doing this we find that the total vote was 425,445, a majority of which will be 212,723. Besides securing this vote the prohibitionists must, to succeed, have a majority of the votes actually cast on the referendum. Those who may vote are the electors who were on the voters' lists used in the last election, provided they have resided in the province from the date of the election. As to the previous votes on prohibition, there are many enquiries. In the provincial plebiscite of 1894 there were 192,489 ballots marked for prohibition and 110,720 against. These figures include 12,402 women who voted for prohibition and 2,225 against. Ontario voted again on the Dominion plebiscite in 1898. On that occasion there were 154,489 votes cast for prohibition in Ontario and 115,284 against. Throughout the whole Dominion, the vote was 278,380 for and 264,693 against. Manitoba has declared itself three times on the question. In 1892 there were 19,637 votes for prohibition in that province and 7,115 against. The Dominion plebiscite elicited 12,419 favorable votes in Manitoba and only 2,978 that were unfavorable. Practically the vote went by default. When the question was submitted in the shape of a referendum 32,515 votes for prohibition were necessary to win. The result was that 15,607 votes were cast for prohibition and 22,404 against. This was a great surprise and appears to have alienated the agitation. The Ontario measure prohibits the sale of intoxicants within the province, but does not affect the importation. If adopted it will go into effect on the first of May 1904. Whatever may be the outcome, both sides agree to hope that it will be decisive.—Mail and Empire.

DAINTY ACCESSORIES.

Neck Ruffles—Odd Belts, Collars and Stocks.

The duffy neck ruffle or bow has come to stay, and these are now being made to match each gown. Perhaps the most popular are made of tawny Russian lace to match and harmonize with the eeri and brown gowns now so much in vogue. The ends are made quite long and slender in contrast to the capelike fullness over the shoulders.

Many of the new stocks follow the example of this summer's neckwear.

BOLEDO COSTUME.

are and are in deep points in the front. In others this same effect is gained by the addition of deep points and tabs.

One of the newest collars is made of plain black silk and fastens in a double pointed effect with a medallion buckle a little to the left of the front. Another odd stock has an effect of two narrow silk ties, one fastened above the other. A belt and collar of folded silk both have the same long pointed effect in front and are finished off by a medallion of heavy lace in the back.

The bolero costume illustrated is of pale gray broadcloth. The little collar is enlarged by means of a frill of lace. The wide sleeves and the bottom of the bolero are trimmed with tiny black silk tassels. The skirt is perfectly plain with the exception of a fitted yoke.

JUDIC CHOLET.

WHAT WOMEN ARE WEARING

Novelties in Lingerie—A Long Fur Coat.

A pretty idea for the trimming of a silk nightgown is a collar finished with a deep hem of a contrasting shade of silk. Pinks, blues, mauves and yellows are all good colors to wash, but you must choose a good shade if you

SMART FUR COAT.

wish a fast dye. Imitation Valenciennes lace is, after all, the best and cheapest trimming for silk or linen underwear, and it is almost impossible nowadays to tell the imitation from the real.

Nothing is better than twilled silk for nightgowns when something handsomer and warmer than linen is required. It is wise to invest in really good twilled silk, which will outwear three ordinary makes.

In the winter an extra slip of fine flannel, nuns' veiling or cashmere is made to wear under the thin nightgown. This gives a better effect than the unwieldy flannel nightgown, which, by the way, never launders well.

The three-quarter fur coat in the illustration is particularly smart. It can be made of either mink or sable, lined with white satin. The fullness of the back is belted in with a fur strap fastened down with steel buttons.

JUDIC CHOLET.

A TRYING TIME

IS THE PERIOD WHEN YOUNG GIRLS ARE MERGING INTO WOMANHOOD.

Marked by Pale Faces, Heart Palpitation, Loss of Appetite and General Lassitude—How to Overcome This Condition.

After babyhood, the most perilous time in a young girl's life is when she is just entering womanhood. It is then that she is subject to head-aches, dizziness, heart palpitation, feeble appetite, and bloodless cheeks and lips. This condition may easily develop into consumption, and to prevent this—to keep the young girl in good health and strength, mothers should insist upon their taking a blood-making tonic, such as Dr. Williams' Pink Pills.

Mrs. Henry Williams, Port Dalhousie, Ont., gives sound advice to other mothers in case of this kind. She says: "About three years ago the health of my daughter, Bertha, began to fail. She grew weak and seemed unable to stand the least exertion. She suffered from distressing headaches, and fainting fits; her appetite left her and she lost flesh. I spent much money on medicines, but they did not help her. Then I took her to a doctor, and although his treatment was persisted in for a long time, she seemed to be growing worse, and I began to fear she was going into consumption. When I took her to a specialist, but his treatment was likewise unsuccessful. Finally upon the advice of a lady friend, a doctor practising in Chicago, Bertha began using Dr. Williams' Pink Pills, and before long there was a decided improvement in her condition, and by the time she had taken nine boxes she was once more enjoying the best of health and had gained fifteen pounds in weight. I would strongly advise all similar sufferers to give Dr. Williams' Pink Pills a fair trial, as her case seemed as hopeless as could be."

All weak and ailing girls and women, sufferers from backache, headaches, indigestion to work or exercise, who show by their pale and sallow cheeks that they are in ill health, will find prompt relief, bright eyes, rosy cheeks and active health in a fair use of Dr. Williams' Pink Pills.

You can obtain these pills from any medicine dealer or by mail, postpaid, at 50c. a box or six boxes for \$2.50, by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont. Never accept anything else which a dealer may say is "just as good."

SACHEL -OF THE- SATELLITE

Have the oil fields of Raleigh made

the farmer rich?

Light work-boring for oil for il-

luminating purposes.

George Gordon Martin suggests that

the city sell those chestnut rails for

work.

St. Thomas is a rocky town, that's

why the Italian Marine Band went on

the rocks there.

The mayoralty contest seems to

have been lost sight of in the quest

for oil in Raleigh.

What's the matter with the Lake

Erie having bond excursions at Eriau

while this weather lasts?

Those Tibbary youths who went

hunting and shot a cow, must have

been half shot themselves.

People pay money for oil to burn,

but there'll be money who will burn

money seeking oil in Raleigh.

Is the reason why so many lambs

are fleeced to be found in the delight

that lambs take in gambling?

I think that promoter of the city

fuel yard rather imagines now that it

was a fuel of a thing for him to do.

That Italian Marine Band must

surely have "blew" itself or it would

not have got stranded in St. Thomas.

If a place for the City's petitive

factory cannot be purchased for \$500, I

am afraid that concern will be out

of site.

It is a marine band, that's why

the organization got stranded in

St. Thomas.

I think that City Engineer Jones,

in seeking to have a fuel yard built

here, is paving the way for

a new industry.

Raleigh township has got a money

maker that has had Toronto en-

counterfeit beat. It is Gurd's Gusher,

the great oil well.

Out at the oil well along the road

side ditch, a bunch of boys are

working. This well must surely be the

summer of 1902 that got lost.

There are many beautiful and at-

tractive bits of scenery in Kent

County, but the most attractive and

precious sight just now is an oil site.

"Where there is a lot of smoke there

must be some fire," is the saying of

those who bought the chestnut rails,

even though they cannot detect the

heat.

Everybody between here and Dur-

ham knows the Chatham football team

won Saturday. The Chatham football

team is like the rooster. It crows

when it wins.

The Canada Co. has a cinch on the

oil fields of Raleigh. They can

travel all over a farmer's farm, dig

holes, spoil his crops and then laugh

at the poor farmer.

It looks as if the Canada Co. had

pulled the wool over the farmers'

eyes. If the farmers get hold of the

Canada Land Co. they will pull their

wool, just to get even.

Men who look

a cheerful dig in the ribs.

Once upon a time I visited Cleve-

land with a friend of mine. He was

a Frenchman and there were some

words in the English language he

didn't understand. After we had view-

ed the sky scrapers and seen the parks

we got hungry and hid ourselves in

a restaurant. I ordered steak and

the girl asked if we would have a

well done steak. I said sure, and

my friend duplicated my order. We

soon got our steak just nicely warm-

ed on both sides. Being hungry, I

fell to work. Suddenly I noticed

that my French friend was not

looking up at the waiter, but was

signalling the waiter. Presently

the waiter girl came over.

"Why didn't you cook this steak,"

she asked. "You asked for it rare,"

replied the waiter. "Yes, but I did

not ask for it raw," replied the gal-

lant Frenchman, calmly and con-

fidently. The girl looked at the sick

man and then laughed.

TO-NIGHT.

The Macaulay Club will meet in the Hall over Gordon's Store at 8.

THE LOCAL BUDGET

Dr. Hicks, dentist, is confined to his home today through illness. Ingram and George Taylor got seven wild duck up the river yesterday.

The Furruff that was lost in this city on Saturday, 8th inst., has not been returned. A reward will be given for its return to this office.

Father James will give a lecture on Sunday morning next to the St. Vincent de Paul Society. The collection taken will be in aid of the poor.

Miss Helle Rodwell will sing "Praise of God," by Gounod, as the offertory solo in St. Andrew's church to-morrow evening.

The Ladies' Assisting Society will meet on Monday afternoon at 3.30 at the residence of Mrs. Harry Taylor, Lorne avenue, when a full attendance of the ladies is requested.

Workmen commenced today tarring the new Sixth street pavement. Tar makes a good solid filling and the pavement promises to be a substantial one.

A member of the Barhood Club announced today that that club would have at least two representatives in the city council for 1903. The ex-president of the club has announced his intention to run.

A parlor social will be given by Mrs. J. M. Pike, Mrs. R. J. Gardiner, and Mrs. R. V. Bray, on behalf of the Ladies' Guild of Christ church, at the residence of Mrs. R. J. Gardiner, on Wellington street, on Tuesday evening, December 2nd. Good program, silver collection.

W&S
Last Sunday afternoon Miss Edith Idle, formerly of the Park Street Methodist choir, sang at a largely attended Y. M. C. A. mass meeting in the Wellington street church. Speaking of the meeting, the Wellington "Evening News" says—"A feature of this was a solo by Miss Edith Idle, the soprano singer of Grace M. E. Church choir. Miss Idle sang 'The Ninety and Nine,' and to those who heard her for the first time her singing was a revelation. Among those seated upon the stage were Gen. Chas. Bird, Rev. W. L. S. Murray, D. D., pastor of St. Paul's M. E. church; Rev. R. A. Elwood, pastor of Olivet Presbyterian church; Rev. Maurice Penfield Fikes and E. O. Sellers.

FOR SALE

Two story frame house and lot in good location, double parlors, dining room, kitchen, pantry, three bedrooms, three closets, store rooms, summer kitchen, city water in house.

We have for sale cheap a good second-hand "Art Garland" base-burner coal stove.

DUNN & MERRITT,
Phone 255. Fifth St.
Box 52.

Family Medicines

Do not save pennies to lose dollars—do not be too economical when your health is at stake. We sell Drugs and Medicines at reasonably low prices, but we do not pretend to be cut-rate druggists. We do not keep cheap drugs.

Anything your physician prescribes for you or your order for yourself you'll get—no substitutes at our store.

We have a few Samples of Euthymol Tooth Paste which we shall distribute Free to those asking for them.

NEW STORE—COR. KING AND FIFTH STS.

GENTILE GETS TEN YEARS

SENTENCED BY POLICE MAGISTRATE ON TWO CHARGES.

Convicted of Making American and Canadian Silver Currency—His Own Statement the Only Defence Offered.

Toronto, Nov. 22.—Joseph Gentile, alias Salvatore Clementi, appeared in the Police Court yesterday on the charges of counterfeiting laid against him. Contrary to the Crown's expectations, Mr. Robinette, K.C., announced his intention of proceeding with the trial, and the charge of making United States coin was investigated. Detective Davis was the first witness called. He told of Gentile's arrest, when, in company with United States Officers Murphy and Flynn, they walked in on the prisoner, surprising him in the very act of making counterfeit coin. The detectives said that they had watched the count at 353 Spadina avenue from 10 o'clock that morning

GENTILE, THE COUNTERFEITER.

until 4 in the afternoon. They had seen another man, for whom they had no warrant, entering the store. In the afternoon they saw this man leave the store, and Detective Murphy was sent in to make a small purchase, and to discover if the man they wanted was there. He was found, as expected, and the signal was given to the two waiting officers. They hurried in and found him at work. The detective identified all the tools, the half-finished coins, and the metal which was being used. He found a crucible on the fire, containing molten metal, and a number of coins, the heat of which showed their recent manufacture, in moulds on the table.

This finished the evidence for the prosecution and Mr. Robinette announced that he did not intend to present any evidence for the defence, but that Gentile wished to make a statement. The services of Michael Basso, the Italian interpreter, were sought to give a translation of Gentile's utterances. The prisoner said—"Last week somebody came to my store. He asked me to let him stay in my house. I granted his request. The day after that he came back bringing some things with him. He asked me to say nothing for a little while and he would let me know what he would do. On the same day he began to make money. I told him to leave my house. He said he would go away on Thursday. On the same night the detective came. I had told him to go away and he went through the back door. It was not the man they saw in the store. One of the revolvers is mine. It was not in the trunk, but in a bureau drawer. That is all I have to say."

Gentile announced, through Mr. Basso, that he was to have married a Toronto girl shortly, and wished her brought to court to give evidence for him. This also was not allowed, and Mr. Curry remarked that he already had a wife in the States, which the prisoner denied. His Worship sentenced the prisoner to Kingston Penitentiary for three years on the first charge, that of making bogus United States coin, and to the same place for ten years on the charge of making counterfeit Canadian coin, the two terms to run concurrently.

Catarrh, an excessive secretion from an inflamed mucous membrane is radically and permanently cured by Hood's Sarsaparilla.

FELL IN RIVER.

Windsor, Ont., Nov. 21.—Through the crowding of the people in their haste to get off the ferry Victoria on its arrival at the Windsor dock at 11 p.m., Mrs. Eliza Pilkey was forced into the water, and was only rescued by the heroism of William Hoppa, one of the deckhands, who got down between the steamer and the dock and pulled her out. She was the worse for the wetting.

Mrs. Pilkey is the mother of A. E. Pilkey of the customs office department here.

AN OLD GUN.

Joseph Smith, eighth concession, of Chatham township, attended the auction sale held on H. Knight's farm, Chatham township, yesterday afternoon and purchased an old military muzzle-loading shot rifle, which was knocked down to him for 75 cents. The gun was made by a United States company in 1818. It is considerably rusted, and "shows its age." The lock is too badly rusted to distinguish the name of the firm who made it. The gun is not of much use, but Mr. Smith is having it overhauled and intends to shoot black squirrels with it. Since he has purchased it he has been offered good prices for it by relic hunters, but he refused them all.

Does it not seem more effective to breathe in a remedy, to cure disease of the breathing organs, than to take the remedy into the stomach?

Vapo-Resolene
Established 1879.
Cures Whooping Cough, Croup, Catarrh, Colds, Grippe and Hay Fever.

It cures because the vaporized strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children. Is a boon to asthmatics.

Extra supplies of Vapo-Resolene 25 cents and 50 cents. Write for descriptive booklet containing highest testimony as to its value. VAPOR-RESOLENE IS SOLD BY DRUGGISTS EVERYWHERE. Vapo-Resolene Co., 216 Fulton Street, New York. St. Notre Dame Street, Montreal.

WORLD OF SPORT

FOOTBALL

The Galt Association Football Club has been established twenty-two years, and although it occupied from the beginning a very prominent place among provincial kickers, it is conceded by the old heads that the team to-day, is the strongest in the history of the club. It has held for the past four seasons the championship of the Western Football Association. It embraces at the present time no less than 25 clubs. During the present season, two efforts were made to gather a team sufficiently strong to down the champions. The first of these was picked from the Toronto league, including the best players from all such well-known teams as the Gore, Vales, Riversides, Scotis, Yorks and Broadviews. The match resulted in a decided victory for Galt, score 3 to 1. In a second attempt the team was picked from Provincial colleges, the following being represented: Toronto University, Victoria University, School of Practical Science, and the Provincial School of Medicine. Although two picked teams were perhaps the strongest that could be secured in Ontario, Galt was able to hold them down to a tie; score 1 to 1. The Galt club in 1884 sent a team which held its own through Scotland and played a more successful series of games, twenty-seven in all, than any other team that crossed the water. Some of the Galt players were retained to play professional ball in the United States. The Galt team has visited St. Louis, Chicago twice, Newark, N. J., Fall River, Detroit, and on Friday next will make its initial appearance in the Maple City.

The Galt club is the holder of more championship trophies than any other athletic club in Ontario, being the holders of senior, intermediate and junior cups in the western, and in the Ontario Association football league, the latter denoting Provincial championships. Besides these, the club has a large array of cups won in exhibition competition. The team which is to play here will be the one, to a man, that has won the highest honors during the past two seasons, and a number of those in the line-up have been regular playing members for a number of years. The Galt team, while not heavy, is capable of very strong and aggressive play.

RIDGETOWN G. I. WINS.
The Ridgetown High school football team defeated the local High school team by a score of one to nil. The grounds were in a slippery condition and the wind strong. The visitors had the advantage in weight. Marshall scored the goal, but had his arm jammed in the second half and had to lay off. The injury was not very serious. A full report of the game will appear in Monday's Planet.

Secretary Percy Piggott, of the local club, received a telegram this afternoon stating that the Galt football club would positively be here on Friday next.

TENDERS
Bulk or separate tenders will be received at the office of the undersigned until Wednesday, Nov. 26th, for the various trades required in the erection and completion of a brick church on the Baldern Road, about 1-2 miles from Chatham.

Lowest or any tender not necessarily accepted. JAMES W. CARSWELL, Architect.

Coffee...

We spent Thursday roasting coffee and among them there was some of those fine coffees that we use in our 40c blend, that has such a reputation for superiority. All our coffees are bought green. We roast and grind them ourselves. We know what we are getting when we buy the green berry. We roast and grind just as we want it, so that you are always sure of good coffee from us.

The very finest (private grown) 40c. lb.

A good Java and Mocha, 30c. lb.

A good Java and Maricao, 25c. lb.

Choice Rio and Maricao, 20c. lb.

Do you use coffee, if so, try us.

Up-To-Date Dress-Making | C. AUSTIN & CO. | Chatham's Greatest Store

Modish Jackets for Women

All the fashionable ideas as embodied in the latest modes, got up with cleverness and taste, are shown in our stock.

Only by seeing them can you obtain a tangible and realizing idea of their merit and variety. You will observe one striking contrast—the high grade qualities and moderate prices.

At \$10.00—Monte Carlo's fawn or black, perfectly tailored, lined with fine satins. Bell sleeve with cuff, lined throughout.

At \$8.50—Three-quarter length jackets of Oxford grey frieze, fitted back, velvet collar, turn-over cuff, lined throughout.

Children's Eiderdown coats with small cape trimmed with fur, lined with satin, \$2.75 and \$2.90.

At \$10.00—Black fawn or grey three-quarter length jackets, fitted or semi-fitted back, Bell sleeve with cuff, velvet or self collar.

Ladies' full length jackets, black, navy, castor and grey, plain fitted or with flounce, unlined, body lined or lined through; prices range from \$10.00 to \$25.00.

Misses' jackets, fawn, navy and cardinal, trimmed with stitching, lined, all sizes, ranging from \$2.50 to \$4.50.

DON'T DELAY

If you are going to make gifts of Furniture this coming Christmas, we suggest your coming here and making early selections. Have the goods set aside until you wish them delivered, and thus save disappointment. You know when the holiday rush sets in there is never the same satisfaction or pleasure in buying, neither will the selection be so full.

Our stock of Furniture for Parlor, Library, Dining-room or for any other room in your house is complete, and the prices—well, we buy for cash—nuff ced. Come and see for yourselves.

Furniture Dept. 2nd Floor.

Big Event in Blankets, Comforters and Spreads...

Let the weather prophets quarrel. The coming winter may be mild or cold—whatever it be, you'll need Blankets, Comforters and Quilts just the same. The prices quoted for these Blanket offerings really should guide your judgment. Best Blankets, Comforters and Spreads bought wisely and liberally, priced closely, and described honestly, are here in plenty.

White Wool Blankets.

The Bayford—Fine all-wool blankets, soft make, thoroughly washed, fancy wide, pink borders.
7-lb weight, 64x84 in. per pair \$3.50
8-lb weight, 66x86 in. per pair \$4.00
9-lb weight, 70x90 in. per pair \$4.50
10-lb weight, 70x90 in. per pair \$5.00

White Spreads.

10-4 fancy white Marseilles spreads extra good quality, assorted patterns, terms, regular \$1.75 value, for each \$1.25
11-4, choice quality Marseilles spreads, full size, extra values, pretty designs, at each, \$2.50, \$1.75

Comforters.

White batting filled, fancy silkoline comforters, lined with colored cheese cloth, 70x74 inches, at each \$1.25
70x74 inches, regular \$2.75 for \$2.00 each; regular \$3.25 for \$2.50 each.

FURS! FURS!

Women are always interested in news of good Furs. Here's a hint of several sorts of seasonable Furs that besides being stylish have the important merit of being low-priced.

Ladies' Columbia Sable ruff, 27 in. long, trimmed with six tails, price \$5.00.
Ladies' Columbia Sable ruff, 35 in. long, trimmed with eight tails, a beauty for the price, only \$6.50.
Ladies' Stone Martin ruff, 27 in. long, good size, six tails, price \$6.00.
Ladies' Astrachan caperino, large cape, storm collar, extra good quality, price \$6.50.
Ladies' Astrachan gauntlets, good curl, well lined, price \$6.00.

C. Austin & Co.

The Bargain Centre

Fruit Time Is Here

The very best time too. The late fruit, especially raisins, is apt to be both poorer and dearer. Why not do some of your fruit buying now? You are sure of getting the very best goods, and then it will be so much work over for the busy season. You will have more leisure to do your other Christmas shopping.

Seeded Raisins

And just here let us explain a little. Owing to the short crop of raisins in Spain, we have to charge 10c a pound, straight, for the best goods. We are selling the finest California Seeded Raisins 2 pounds for 25c. This is equal to 24 pounds of ordinary raisins, and then you get them all ready to use. You see the point.

Currants

Are without doubt the best in years. There are lots of them, the quality is fine, and the price low. We are selling an extra fine flavored Currant, thoroughly cleaned, 3 lbs. for 25c. Our finest Currants—the best that come to this country—are 10c a pound.

Finest Mixed Peel,

20c a pound.

Shelled Almonds,

40c a pound.

Table Figs,

15c a pound.

Fine New Dates,

7c a pound.

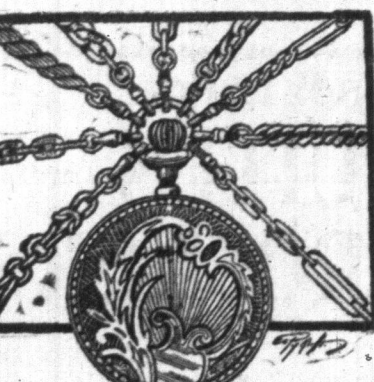

Best Extracts,

2 bottles for 25c.

Pure Ground Spices.

Use our pure Cream of Tartar Baking Powder and your cake will be light and nice.

H. Malcolmson

Secure Your Watch

with a chain that is strong and has some pretensions to beauty. Chains, like other things, change in style and what was correct last year may not be just right this. Link by Link the designers and makers have added something new and beautiful to the rich and artistic effects of previous seasons and the line of

MEN'S WATCH CHAINS

now shown here may be considered as truly representative of all that is good in such things.

LETTER BOX

PAVING CHATHAM STREETS.

Editor Planet:

We believe that our citizens are

waking up to the fact that what

Chatham wants is good substantial

pavements on as many of our streets

as possible, and especially on the main

thoroughfares leading to the city.

We have as fine a city, for its size,

and as good a business centre as

there is to be found in Canada.

However, our streets are a disgrace

to our fine name, especially this

year. When we examine the condi-

tion of Park street, Wellington

street, St. Clair street, Thames street,

King street, both east and west, Vic-

toria avenue, and many others, and

consider the vast amount of time and

money that has been expended from

year to year, and no improvement to

show for it, we find that the roads

are getting worse instead of better.

The residents of Sixth street and

William street have set a good ex-

ample worthy of imitation by resi-

dents of other streets. Our City

Council might do worse than to take

this matter in hand and take steps

to have permanent pavements start-

ed in the spring on all the leading

roads to the city and thereby stop

the policy of being "penny wise and

pound foolish" that has been pur-

sued in the past. Good pavements

cost money, but will be economy in

the end. Having given the subject

some consideration, I beg to sug-

gest a scheme which I think would

meet with general approval and en-

able us to secure the much needed

pavements. The plan I had in view

would be as follows: The city to

make a special tax or license of \$2

a year on bicycles and \$5 a year on

every horse owned or kept within the

city limits. There are about 500

bicycles and about 1,000 horses in

"Saved My Life."

"Lydia E. Pinkham's Vegetable Compound cured me when all else had failed. I suffered a long time with female troubles."

"Mrs. Pinkham's advice and medicine saved me from a surgical operation. Doctors said an operation was necessary."

Thousands upon thousands of women throughout this country are not only expressing such sentiments as the above to their friends, but are writing letters of gratitude containing just such expressions to Mrs. Pinkham until she has more than a million from women in all classes of society who have been restored to health by her advice and medicine after all other means had failed.

Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is performing such remarkable cures, assisted by Mrs. Pinkham's advice.

If you are asked by a druggist to take something else, demand the medicine which you know is best—the medicine which has made the greatest number of cures—the medicine whose record is unequalled by any other medicine, exclusively for women, in the world.

Lydia E. Pinkham's Vegetable Compound.

HULL CANADA.

Every man is bound to hear the truth occasionally, even if he doesn't recognize it.

A puny child is always an anxiety to the parents. There seems generally no reason why the little one should be weak when it is so well fed. But the fact is that it does not matter how much food the child takes if the stomach cannot extract the nourishment from it. No benefit can be derived from just eating. This is the condition of many a sickly child. The stomach and organs of digestion and nutrition are not doing their work, and the body is really starving. It is little use to give fish foods, like cod liver oil or emulsions, in such a case, because these also have to be digested; they may lighten the stomach's labor, but they don't strengthen it. Strength is what the stomach needs. Dr. Pierce's Golden Medical Discovery strengthens the stomach, nourishes the nerves and increases the action of the blood making glands. It is superior to every other preparation for children's use on account of its body building qualities, and also because it is pleasant to the taste and contains no alcohol, whisky or other intoxicant. Dr. Pierce's Pleasant Pellets are a valuable aid when the bowels are irregular. They are small. Children take them readily.

Too many of us forget that there may be many things besides our own affairs.

She's as White as a Ghost

As pale as a lily. A matter of pride! Certainly not. Strength! Color! Endurance! That's what every woman wants. Good digestion, perfect assimilation. Buoyancy and vim the right of every woman. She need not lack these if she will only use Ferrozene. It makes blood, gives appetite, gives strength to the nerves, color to the cheeks, and brightness to the eyes. A box of Ferrozene Tablets is at once transmissible into health, beauty and strength. There is power in Ferrozene. Try it and see if it is not so. Sold only by McCall & Co.

It is seldom a dry book that a gentle reader moistens with her tears.

District Dashes

About a dozen families are unable to find dwelling houses for rent at Dresden, and they are thinking of camping out in tents for the winter. —*Old Springs Chronicle.*

Edward Seguin, the Belle River hotel man who was charged with having had his bar open on Sunday, pleaded guilty at the police court and was fined \$20 and costs.

Narcisse Trotter, lot north half 19, concession 3, Tilbury North, has been the victim of an unfortunate horse sickness. Since last July he has lost no less than six valuable animals, worth about \$500.

Con. Forney, employed on the L. E. & D. R. R., was seriously injured at Blenheim Tuesday evening. A pole used in moving cars on the siding broke, one end of it striking Forney, breaking several ribs and injuring him inwardly.

Dr. and Mrs. McRitchie and Gladys spent the past week at their summer residence, Killarney Castle, Roncesvalles Park. The dash will breathe life into the Dr. has returned home. —*McKay's Corners.* Correspondent to the Ridgetown Dominion.

Wm. Stoyer, of Chatham Township, met with a serious accident Tuesday morning while working at a corn shredder on the farm of Wm. Slater. His right hand was caught between the cog-wheels and badly mangled. A doctor dressed the wound and sent him to the hospital.

A. Gosnell, of Highgate, has an apple tree in full bloom, but if Mr. Hick's prediction comes true and we get cold weather about the 26th inst., we fear it will go hard with the blossoms. Do not bank on present flattering indications. We do not believe they will ever mature into rich, luscious fruit.

C. W. Watson has completed the purchase of the O'neville electric light plant, paying \$14,000. The plant is a good one, with thirty street and 1,400 incandescent lights. Mr. Watson and family will move to O'neville about the first of next month, greatly to the regret of their many friends. —*Ridgetown Dominion.*

There was a sudden death at O'neville, near Essex, Tuesday night. Mrs. David Madot ended her life by taking a dose of Paris green. Deceased has been ill for some years past and the relatives have been watching her closely, but while the men were hauling corn-fodder she took the opportunity to end her life. She leaves a husband and one daughter.

After an absence of seven years spent in the gold fields of British Columbia and the Yukon, Jas. Thomson has returned to his home at O'neville. He is the guest of his sister, Mrs. John Crawford, 8th concession, Howard. Mr. Thomson, who is looking well, is able to show some fine nuggets of gold. He will spend the winter here. —*Ridgetown Dominion.*

Henry Leatherville had a narrow escape from serious injury at Buller's lumber yard, Blenheim, on Thursday. Mr. Leatherville was helping to unload lumber from a wagon when about 450 feet of lumber fell on him. A quick side-jump saved him from receiving its entire weight, but it struck his left leg at the knee, numbing it to the toes so that he laid off work until Monday.

St. Francis R. C. church, Tilbury, was the scene of a very pretty wedding last Tuesday morning, when Oliver Matchard, a prosperous young Tilbury North farmer, was married to Miss Lena, eldest daughter of Mr. and Mrs. L. LaPlante of Tilbury Corners. Miss Spillings acted as bridesmaid and Miss Beaugrand as groomsmen. The happy couple left for the west on a two weeks' wedding trip.

Tilbury East council met on Monday as a Court of Revision on three drainage by-laws and for general business. Owing to the large amount of business on hand the board adjourned at 10 p. m. This probably beats the record at Valletta town hall, but receive Fletcher and council are determined to clear up the business of 1902 at all costs, and all the members are working together harmoniously with that end in view.

The sugar famine is running full time now and turning out a grade of sugar second to none in the country. Samples of this sugar have been sent broadcast and a great season's business is in store for the Dresden factory. There was some little difficulty in getting the machinery in proper working order last week but it has all been overcome and now at all times everything is running quite smoothly. —*Dresden Standard.*

Mr. and Mrs. O. K. Watson spent last Thursday and Friday with Mr. and Mrs. J. H. Smith, of Dawn. Mr. Smith has built a new house and is making many improvements on his fine farm. He was recently appointed treasurer of the township, and has also been engaged by the Ontario Government to address a series of Farmers' Institute meetings. Mr. Watson says the Dawn farmers are a thrifty people. The farms are in good shape, the buildings in thorough repair, and nearly every farmer has a silo. —*Ridgetown Dominion.*

The annual meeting of the East Kent Liberal Conservative Association will be held at Dresden on Thursday, Nov. 27th. The gathering will take place in Hick's Hall sharp at one o'clock. This convention has generally been held in Ridgetown or Thessville, but the change is made with the intention of recognizing the splendid efforts of the Conservatives

in the vicinity of the best sugar town. Dresden certainly possesses a splendid lot of faithful workers and has become the banner Conservative town in East Kent.

Wm. Stacey died at the home of his son, Alex. Stacey, Middle road, Tilbury West, on Sunday. Deceased was well advanced in years, being at the time of his death 85 years and eight months.

On Monday night the School Board met in special session to consider the application of Miss March for an increase of \$30 in her salary. After consideration the Board granted her an increase of \$25. The Board voluntarily increased the salary of Miss Easter, Miss Jettis and Miss Waterworth \$25 each. —*Dresden Times.*

W. H. McDougall, who has been living on Willis Ransom's farm, Communication Road South, for the past year, has decided to remove from Harwich. Mr. McDougall purchased a farm in Romney Township, near the Renwick station, last spring, and will remove his family there about the first of April.

A LITTLE TYRANT.

The Trouble not Due to Original Sin.

There is no tyrant like a teething baby. His temper isn't due to original sin, however; the tyrant suffers more than the rest of the family. He don't know what is the matter. They do. The trouble is they do not always know what to do for his lordship. An Ontario mother writes to tell what is best to do. "When my baby was teething," she says, "he was so cross and restless that I hardly knew what to do with him. He had a poor appetite and ate but little and was growing thin. I got a box of Baby's Own Tablets and they made a great change. He now rests well, has a splendid appetite, and gives me no trouble at all." This is the experience not only of Mrs. D. K. Schroeder, of Hanover, Ont., but also of thousands of mothers all over the Dominion. A baby teething is cross because his blood is heated and his little bowels constipated or unhealthily relaxed, and his system heated by the effort of getting the teeth through the gums. Baby's Own Tablets act like magic not only in this, but in all ailments of little ones. Sold by druggists or sent post paid at 25 cents a box by writing direct to the Dr. Williams Medicine Co., Brockville, Ont., or Schenectady, N. Y.

DANCE ENDS IN FIGHT.
A dance at a Cathcart street residence broke up in a big row last night. Some of the "guests" arrived late, and the dancing was off the floor by the early arrivals—owing to there only being a dozen women to about four times the number of men—they all adjourned to the street to fight. The fight was a serious one, and some time after midnight, to the great annoyance of the neighbors. —*Tilbury Times.*

\$100 REWARD, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its states, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is a new internal remedy, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient health and strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address, F. J. CLENEY & Co., Toledo, O.
Sold by druggists, 75c.
Hall's Family Pills are the best.

It is not as cold in Newfoundland as in New Brunswick or Quebec.

Unnecessary to Suffer from Asthma.
This distressing complaint can be perfectly cured by inhaling Catarrh-ozone a vegetable antiseptic that destroys the germs which cause the disease. Catarrh-ozone is inhaled at the mouth from a convenient pocket inhaler, and after permeating the minutest air cells, is exhaled slowly through the nostrils. It stops the cough, makes breathing regular, and eradicates the Asthma so thoroughly from the system that it never returns. Don't suffer from Asthma; use Catarrh-ozone; it will speedily cure you. Large outfit, \$1.00. Small outfit, 50c. Druggists or by mail from Polson & Co., Kingston, Ont.

A judicious and reasonable estimation of one's own character has nothing to do with pride.

Pain in the Joints.
The joints are hard to get at, and it requires a powerful penetrating remedy to reach the affected parts. Polson's Nerviline exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Nerviline equals in strength five drops of other remedies. You won't often call the doctor if Nerviline is in the house. Price 25 cents.

A baseball umpire is sure to be beaten, whichever club wins.

Messrs. C. C. Richards & Co. Gentlemen,—Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering by the judicious use of MINARD'S LINIMENT.

The above fact can be verified by or any of his neighbors.

PROHIBITION

Manifesto from Business Men of Chatham.

We, the undersigned, actively engaged in business in the City of Chatham, after careful consideration of the Liquor Act, concerning which a vote by way of Referendum is to be taken upon the 4th of December next, are of the opinion that, because this Act is not a general prohibitory measure, but is applicable solely to this Province, and besides allowing the manufacture in Ontario, permits the free importation from other Provinces, of liquors in any quantities, merely transferring the drinking from licensed hotels to private houses and unlicensed resorts, it is a measure that will be detrimental to the moral principles so closely identified with the prosperity of Ontario, and will prejudicially affect the best interests of the Province.

Speaking for Kent alone.—We are making great commercial progress from which the farmers and all classes of the community will be benefited. Factories are springing up in every section. Capital is pouring in upon us and our population is being rapidly enhanced from the United States and elsewhere, and we must be chary about doing anything to disturb trade without any corresponding benefit.

Many of those who are coming among us and investing largely of their means in Beet Sugar and other Factories, are from the United States, where prohibition has been tried—in many of the States—only to be repealed after a short time.

We express no opinion as to the general question of universal Prohibition if such a law could be enforced. We are very well assured that the passage of this Act for this Province alone would not be productive of any good and we feel most strongly it would be a very great injury to the County of Kent. A good License Law at this period of the history of the trade, properly regarded and enforced, is a thousand times preferable to a law which, in a clumsy and arbitrary manner, attempts to coerce the public into abstaining from drink.

Great progress has been made in the cause of Temperance in this County in the past twenty-five years, as everyone will realize who will recall the past, and the good work is slowly but surely going forward. It is wise to let Well alone.

Chatham, Ont., 31st October, 1902.

GARNER BLOCK

NEPICON FISHERIES.

NEW COMPANY FORMED TO CONTROL THE LAKE.

THEY WILL BUILD 40 MILES OF RAILWAY.

WILL PAY A LIBERAL PRICE FOR ONTARIO.

Toronto, Nov. 22.—An unusual and important concession was granted by the Ontario Government yesterday, involving a large fishing enterprise, which will yield a handsome revenue to the Province. The concessionaires are the Canada Fish Company, whose incorporation with \$1,000,000 capital, and head office in Toronto, was announced only a few days ago. The waters affected are those of Lake Nepigon, that fine body lying to the north of Lake Superior, a little east of Port Arthur. Full details of the agreement were not made public yesterday, but some of the main features were announced. The company secure an exclusive privilege for net fishing for a term of twenty years, but they are forbidden to take bass or speckled trout, two game varieties for which the region is famous, and the rights of everyone to angle are not to be interfered with in the least.

In return for this privilege the company will pay a bonus on a graduated scale, ranging from \$2,000 to \$20,000 a year, in addition to the usual license fee, based on the amount of apparatus or plant in use, and they undertake to build a railway connecting the Canadian Pacific, which crosses Nepigon close to Lake Superior, northward to the shores of Lake Superior, a distance of about forty miles. It is provided that no nets shall be set on spawning grounds nor within a mile of the mouth of any river or stream, nor within a mile of the outlet of the lake into the Nevegon River. The catch of fish is limited to 500 tons a year for the first three years, and 1,000 tons a year for each subsequent year of the term. The company acquire no territorial rights, and the location of any fishing station is to be subject to the permission of the Commissioner of Crown Lands, and they are to be liable for all damages from fire resulting from their operations.

The fishery wealth of Lake Nepigon has long been considered important, but its commercial value has been practically nothing, owing to the lack of railway facilities. It is now that the company receives the concession will overcome this difficulty by building a railway. The provisional directors of the new company, who are all Toronto men, are as follows:—J. G. Strong, B. E. Ball, W. R. Williams, H. G. Osterhout, W. G. Francis.

SUICIDE FROM JEALOUSY.

G. A. DARLINGTON, SOUTH AFRICAN VETERAN, THE VICTIM.

First Shot His Sweetheart, Miss Bertha Sheldon—At Ann Arbor—His Home at Strathcona, Alberta.

Windsor, Nov. 22.—Frenzied with jealousy because his sweetheart, Miss Bertha Sheldon, permitted attentions from another man, George A. Darlington, a student in the music department of the University of Michigan, shot the young lady, and then turning the weapon upon himself put a bullet through his neck, dying almost instantly. Miss Sheldon received only a comparatively slight flesh wound. The affair took place at Ann Arbor shortly after noon. Darlington had been keeping company with Miss Sheldon up to a month ago. He claimed that he was engaged to marry her, but that it had been broken off. He was infatuated with the young lady, and last night when he saw another young man accompany her home his feelings of jealousy were aroused. Yesterday he awaited her as she was going to work and threatened her with violence unless she took a walk with him and explained why she was accompanied to her home by the young man mentioned. They had proceeded but a short distance when Darlington became suddenly enraged, and, drawing a revolver, fired one shot at his companion at close range. The bullet struck Miss Sheldon in the arm, inflicting only a slight flesh wound. The girl fled screaming down the street, and Darlington, thinking apparently that his shot had mortally wounded her, fired a bullet into his neck, dying within a few moments. That the suicide at least was premeditated was shown by the following note found in the suicide's room, dated to-day:—

"Notice—Please do not send my body home. Give it to the doctors of the University Hospital. My musical instruments are to go to G. F. Gordon. My books are to be given to the Young Men's Christian Association. My clothing and other belongings are to be taken by Edward Kleinschmidt. My gold locket and gold watch to go home. I am insane as ever a man was, and a really lost. To all friends and dear ones, goodbye. Love to my darling mother."

Darlington's home was in Strathcona, Alberta. He served through the South African war, going out with the first contingent.

THIRTY WERE DROWNED.

A Danube Steamer Crowded With Workmen Sunk.

Vienna, Nov. 21.—A Danube steamer crowded with workmen sank off Orsova, a frontier town of Servia, on an island in the Danube, yesterday evening. Thirty of those who were on board were drowned. Owing to the darkness, the boats from the shore were only able to rescue five persons.

AT FIRST GLANCE

It Would Appear That Local Remedies Would Be Best for Cure of Catarh.

It would seem at first glance that catarh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarh is a blood disease and any remedy on the blood, and when the blood is purified from catarh poison, the secretions from the mucous membrane will become natural and healthy.

In this climate nearly ever free from some form of catarh; it gets better at times but each winter becomes gradually deeper seated and after a time the sufferer resigns himself to it as a necessary evil. Catarh cures are almost as numerous as catarh sufferers, but are nearly all so inconvenient and ineffective as to render their use a catarh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to reach the seat of the disease.

There are a number of excellent internal remedies for catarh, but probably the best and certainly the safest is a new remedy composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarh specifics. This remedy is in tablet form, pleasant to the taste and sold by druggists under the name of Stuart's Catarh Tablets, and anyone suffering from catarh may use these tablets with absolute assurance that they contain no cocaine, opium, or any poisonous mineral whatever. A leading druggist in Albany speaking of catarh cures says, "I have sold various catarh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarh Tablets. They contain in a pleasant, concentrated form all the best and latest catarh remedies, and catarh sufferers, who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarh Tablets." All druggists sell full sized packages for fifty cents.

HENRY ROSE HANGED.

Died at Nelson, Still Protesting His Innocence.

Nelson, B.C., Nov. 22.—Henry Rose, who murdered John Cole near Nakusp, B.C., in June, was hanged here yesterday at 8 o'clock by official executioner Radcliffe. Rose, who was convicted on circumstantial evidence, strongly asserted his innocence of the crime, and made a statement to this effect shortly before suffering the death penalty. The document was read to the assembly by Father Alboff, of the Roman Catholic Church, who attended Rose to the scaffold. In it Rose bade goodbye to all his friends, and forgave all who had anything to do with placing him in his present position. He died at peace with the world, and in sure and certain hope of a glorious resurrection. His superb nerve never deserted him to the last, and the execution was conducted without a hitch.

Bade Farewell to the Czar.

St. Petersburg, Nov. 21.—U.S. Ambassador Tower, who has been transferred from St. Petersburg to Berlin, had his farewell audience of the Czar at Livadia on Wednesday and afterwards lunched with his Majesty and the Czarina.

TELEGRAPH BREVITIES.

Vandy won in the inter-university debate with McGill.

A number of election petitions will be dismissed to-day at Osgoode Hall.

Chief Justice Taschereau was sworn in at Ottawa.

James Learmonth, a palmer, committed suicide at Bowmanville.

Mr. S. H. Pelton, K.C., has been chosen the Liberal candidate in Yarmouth, N.S.

The Intercolonial Railway telegraphers are understood to be satisfied with the advance in wages proposed.

FINE TRIP

Bert Riddell Writes a Chatty Letter to The Planet Concerning his Trip.

Bert Riddell, who has just returned to the Western States after visiting his parents, Mr. and Mrs. Robert Riddell, this city, writes the following chatty letter to The Planet:—

North Yakima,

Washington, Nov. 14/12.

Dear Planet—I left Chatham on the 5th of November and was landed in Chicago at 4:30 p. m. I strolled around till 6:40 p. m., then took the Burlington Express. On the second morning we were passing through Iowa, and found it pretty chilly, after having such fine weather in Chatham. Passing through Nebraska, it began to get warmer until Saturday evening, when we reached Montana. Then it was cold in earnest. The ponds were all frozen over and the mountain tops appeared white with snow. The scenery on the Burlington route is not of much account until you come to the Black Hills in Wyoming, and South Dakota. These hills are very pretty at this time of the year. Sunday was spent in Montana. Crossing the Rocky Mountains was a grand sight, just enough snow to put the mountains at their best. By morning we had passed through a small part of Idaho and were getting near Washington State. It began to rain when we reached the last named state as it sometimes does in parts of the state. It continued to rain till Monday noon, when we reached Yakima Valley. This is a spot where, during seven months of the summer it never rains. It is quite safe to say that the apples from this valley, shown in the 2nd window are the ordinary size as raised in the valley of Yakima. All the land in the Yakima Valley is irrigated and, despite the seven months' dry season, the farmers raise good crops. Land covered with sage brush sells at \$250 per acre, and land well cultivated, with lots of fruit trees on it, sells for \$800 to \$1,000 per acre.

The farmers are mostly well off. Hay is grown for all parts of the Puget Sound and Alaska. Alfalfa is chiefly grown, and as many as four crops are harvested in one season.

North Yakima is a good-sized town. During this season there have been no large business blocks erected and nearly as many are promised for next year. Charlie and Frank Donovan, two old Chatham boys, are settled in this town. Charles has been here for 13 years, and Frank for three. The Waterhouse Bakery on Park street, used to be occupied by the Donovan family. The rest of the family are now living in Tacoma. Charles is a teller in the First National Bank, and owns considerable real estate here. Frank is a plumber and is doing well.

Yours truly,

Bert J. Riddell.

MONEY IN LEASES

Public School Inspector Park has just returned from a trip through Southern Kent. He says that the country, west from the Ryegate town line, through Romney, is all excitement over the oil find. T. F. Barringer, of Toledo, who has extensive leases in Romney, has made arrangements with Mr. Toll and will drill for oil on the latter's farm, which lies along the lake front, just south of Sandison station, and also south of the great oil well, Gurd's Gusher.

Arthur Le Marsh, of Wheatley, one of the men who own the natural gas plant that supplies Wheatley, leased some 500 acres near Gurd's Gusher as soon as he learned that the well had been struck. He had 150 acres about a mile from the Gusher and 400 acres 2 1/2 miles distant. He sold his rights to the Standard Oil Co. for \$3,100.

J. B. Stokes, who keeps the Erie Hotel at Wheatley, leased 50 acres some miles south of the find. He has sold his lease of 25 acres for \$650 cash and gets a half interest in all wells put down.
