## HAVE OLD ENGLISH IDEAS

John Cartier likes Victoria,  
But It Is Not As Smart  
As Chatham

Interesting Letter Written  
To Aid Austin By Former  
Clerk

Ald. Chas. Austin has received quite an interesting letter from John Cartier, formerly manager of the carpet department at the Austin Store, now holding a similar position in a large store in Victoria, B. C. His many friends in this city will be pleased to learn that John is doing well out at the coast, and he likes Victoria. During the course of his letter he says:

"This is a decidedly English city, and the people are very set in their tastes. You can easily imagine yourself as being transplanted to the Old Sod. All carriages turn to the left; they drive tally-ho, wear knickers and canes, and there is not a boulevard in the city. All houses have hedges and fences in front, and the idea of lawns being extended to the sidewalks is only now being adopted out here.

"The streets are either paved with wood block—like William street—or with Macadam, and they have not by any means the clean and well-kept appearance of Chatham streets. I have had quite a number of visits from Chatham people, amongst whom were, Mrs. Wm. Harper, Ed. Smith, Mrs. Ed. Northwood and Mrs. F. Lyle. Russell Parrott is working the gents' furnishing dept., and he is doing very well.

"I shall close now, wishing the 'Bargain Centre' continued prosperity.

"Yours sincerely,  
"JOHN CARTIER."

"Loving is a painful thrill. Not to love more painful still. But ah! it is the worst of pain. To love and not be loved again." (When you feel that way, better take Hollister's Rocky Mountain Tea.)

## MANY ARE MAIMED; ONE MAN MAY DIE

Wm Scott, Samuel Sutor, John Houston And Albert Forham Seriously Hurt At Raleigh Barn Raising  
—Series of Accidents

A very serious and disastrous accident occurred yesterday afternoon at the barn raising of Nelson Clark, on the 8th concession of Raleigh.

The barn was nearly completed before the accident happened, only one purline plate remaining to be placed. The frame was an excellent one, and accidents happened all afternoon. The first man to get hurt was John Houston, Jr. A beam flew out of place and in sweeping him from his position dislocated his thumb and severely bruised his arm. Albert Forham was the next to sustain a painful injury. A plate fell from the building, striking him on the knee, inflicting a serious wound. Everything went smoothly until the frame was being erected on top of a nine foot wall, which is a very inconvenient and difficult place to work on. Wm. Scott and Samuel Sutor were on the top of the building and had successfully placed their plate. The other plate opposite them was being placed, and in so doing the building was jarred sufficient to displace the former one. Both men fell a distance of 27 feet, and the plate fell between them. Scott received very serious injuries and his present condition is very critical. In falling his head struck a piece of board, cutting a deep gash in his forehead, and thus rendering him unconscious. His shoulder was dislocated and a series of internal injuries were inflicted. Sutor is also badly hurt. He received a couple of broken ribs and internal injuries. His stomach was badly bruised and hurt, and both patients are in very bad shape. Dr. Young, of Fletcher, Dr. Oliver, of Merlin, and Dr. J. W. Rutherford, of Chatham, were summoned and dressed the wounds. The reports received this morning were that both patients were doing nicely.

### NARROW ESCAPE

The little daughter of Andrew Brown, of the tenth concession, Dover, had a narrow escape from serious injury on the C. W. & L. E. tracks yesterday. The little girl was walking along the tracks out near her home when she noticed the car coming behind her. In her hurry to leave the track she dropped the basket she was carrying. In trying to regain possession of the basket, she was nearly struck by the oncoming car. Conductor George Wright, who was in charge of the car stopped it as quickly as possible. The steps of the car just grazed the little girl's dress as she left the tracks.

### SUCCESSFUL SOCIAL

A very successful lawn social was held Thursday night at Northwood under the auspices of the Presbyterian church.

The weather was all that could be desired, and a very pleasant evening was the result. A fine supper was provided, after which a good program of song and selection was given. The program was supplied by the following popular entertainers: Solo, Miss Stonehouse; readings, Miss Verlyn Lamont; solo, Miss Pickard; solo, Arthur Martin; address, B. L. Brackin; solos, Gladys Stevenson; address, Rev. Mr. McKelvey; solo, Miss McArthur; solo, Park Pickard; solos, J. D. McAlpine. An address by the pastor was given, in which he moved a vote of thanks to the singers and those taking part in the program, and also to Mr. A. E. McGee, M. P. P., for his kindness in acting as chairman.

The proceeds of the evening were \$54.

## DISCUSS THE CIVIC PLANT

Council And Water Board Hold Joint Meeting Last Night

Chairman Sheldon Outlines His Views On Question

A committee meeting of the City Council and the Water Board was held last evening in the City Clerk's office for the purpose of discussing the electric light and waterworks question. Those present were Chairman Potter of the Property committee, Chairman Sheldon of the Water Board, Aldermen Austin, Stephens, Westman, Kerr, Massey, Meynell and Bullis, Superintendent Jones, Fire Chief Fritchard and Secretary Weir. Ald. Potter, who opened the meeting, said that the Property committee were anxious that some harmonious arrangement should be arrived at between the Water Board and the Council, whereby conditions at the joint municipal plant could be improved, and he said he would like to hear what the Commissioners proposed to do.

Chairman Sheldon said that the Water Commissioners were just as anxious that everything should be harmonious. They had often stated their side of the case, he said, and it was quite well known now that the waterworks plant was greatly cramped for room, and needs new machinery in order to be up to the proper standard. He thought, however, that the amount necessary to make the improvements should come out of the general fund, as the machinery added, and the pipes laid would be an asset to the whole city. It would be unfair to ask the water patrons to bear the burden of the expense alone. The Commissioners would not be willing to raise the rates for water in order to make the changes. Commissioner Sheldon says that the plant needs a new chimney, another pump, and two new filters, and he stated that he thought about five or six thousand dollars would be sufficient to fix the waterworks up so that it would last for the next ten years. The Commissioners are anxious that the electric light plant should be removed from the building to some other location, and they suggest that the city should leave them the boiler at present used by the electric light department.

Nothing definite was arrived at, but the meeting will probably result in the Council and the Water Board getting together and coming to some understanding in the matter.

Just before the close of the meeting a number of gas engine experts were heard in reference to the merits of the various engines built by their respective companies.

### A FINE FLOWER

John McCorvie is in receipt of some tea seeds from the Red Rose Tea Company. They are about as large as a small nut-meg and quite similar in appearance. The tea plant is very interesting and Mr. McCorvie hopes to grow a successful plant.

Both black and green teas are made from the leaves of the bushes that grow from this seed, the difference in the teas being altogether in the way they are manufactured, and the quality of the tea depends on where it is grown, the cultivation of the bushes, and the method and skill in manufacturing. The soil must be very rich and kept moist. The seed should only be planted about an inch deep in the soil, and each seed should be at least six inches apart. When the plant is one foot high, it should be pruned frequently and supported by a rod. The plant requires a great deal of water, especially during flowering period. With successful cultivation the plant will bloom in about twelve months, commencing in July and lasting until October. The flowers are white and grow in clusters, are about one inch in diameter, and are very beautiful and fragrant.

### A PLEASANT VISIT

Mr. and Mrs. Hugh D. Ferguson, son, and Miss May Ferguson, Chicago, are the guests of Mr. and Mrs. Arch. Park, Dufferin avenue. Mr. Ferguson is a son of Wm. Ferguson, formerly of this city, having resided on Murray street, and at that time he was in the employ of the old firm of Hyslop and Ronald. He removed to Chicago thirty-eight years ago and is president of the Ferguson and Laugh Foundry Company, employing over one hundred and fifty hands. This is Mr. Hugh Ferguson's first visit to Canada, and he is becoming acquainted with many of his father's old friends. Mr. Wm. Ferguson married Miss Mary Cleg-horn, of this city.

The sad news has been received in this city of the death of Mrs. Wm. Chinnick, formerly of Chatham, at Grand Rapids. Very few particulars are known, outside of the fact that her death was very sudden and unexpected.

 Business Office 43- Editorial Room 102.  
 FRIDAY, JUNE 21, 1907.  
 THE WATER QUESTION.

The letter from Jas. C. Weir, Secretary of the Waterworks Department, which appeared in last evening's Planet, contained no new arguments to show that the action of Commissioners in requiring meter for all lawn services was wise necessary. The Planet's argument is very easily explained. Some of the water users are abusing flat rate privilege. If the meter by-law is enforced, it will mean that many residents, who are not abusing these privileges, will have to tear up beautiful lawns and incur much expense installing meters. After these meters are installed the Commissioners would no doubt find public opinion so strong that they would reduce the rate for lawns to the lowest possible figure. As a result, the consumption of water by majority of water-users would be as great as it is now. Only a few would be effected by the rate. These would be the ones now abusing their privilege with the flat rate. Thus, in the end, the Commissioners would punish the innocent with the guilty. The Commissioners say they know who are the guilty party. Instead of saddling expense on the innocent, why not enforce the waterworks by-law and let the present guilty ones pay for the law. In this way all could be stopped. The Commissioners would then be just as head as they would be if they let the meters on everyone. Weir unintentionally pays a compliment to this Great Home by saying that as a result of Planet's articles recently published, he will be strictly enforced. If ere done long ago there would talk of meters now. Unfortunately that the Banner find out where it stands on question. A couple of nights ago came out with an editorial attacking the arguments of The Planet. They gave an excuse for anything, that they had been to get into the discussion. The day they evidently regretted

having said anything—possibly some one complimented them for being found for once on the right side of the argument. At any rate they displayed their customary weakness last evening and actually made sport of themselves by poking fun at those who are advocating exactly what the Banner had supported the evening before. The Banner's "remarkable lapse of memory" is getting it into some ridiculously funny positions.

## THE SOVEREIGN BANK.

The new management of the Sovereign Bank deserve great credit for the manner in which they have taken hold of the business of this institution. They have discounted the future of possible financial trouble by one surgical operation, and we now have in Ontario and Quebec a large and valuable business, making a fresh start in life with a cash paid-up capital of \$3,000,000, upon a carefully certified and investigated valuation, with deposits amounting to over \$12,000,000. The success of any business depends largely upon the courage of its management, and the courage to meet the exigencies at the outset will place the Bank on the roll of a known quantity and ensure confidence that otherwise would have been lacking. At the annual meeting held in Toronto it was decided to meet the losses from weak investments by wiping out the \$1,255,950 reserve fund, and by reducing the capital stock by \$1,000,000. This represents the outside limit of possible loss, and makes the prospect reasonable for a substantial portion of the contingent funds being ultimately transferred to a new reserve, or rest, account. To this bank belongs the credit for revolutionizing the banking business of Canada, and that is due to them through enterprise, and advertising, and placing the benefits which accrue to the depositor plainly before the people. Through their savings accounts they have secured many thousand depositors who otherwise would never have had an account, and we must give this bank credit for starting this movement in the way it is being carried on by all other banks. As a result of this action other banks have opened up thousands of accounts. The Sovereign Bank was the first to break away from the

old line of banking and have made it easier for the man desiring capital, who through his integrity has been able to get credit. This valuable asset has been put to good account, as has been shown by the substantial gains made by our financial institutions. The new president, Mr. Jarvis, is a well known financier, and has the entire confidence of every bank president in Canada, and he has associated with him Mr. Jemmett, a gentleman of wide experience, who has been closely identified with the success of the Canadian Bank of Commerce. Mr. B. E. Walker, president of the Canadian Bank of Commerce, has the following to say of the new Sovereign Bank management: "We have perfect confidence in the new administration of the Sovereign Bank, and believe that they have made a most careful valuation of the assets of the institution. Their valuation shows abundant capital, and would have been regarded as enough in fact for three ordinary banks doing business fifteen years ago. There is no reason why, with their present capital and conservative administration, the Sovereign Bank should not make a good record hereafter."

Regarding the first it is beside the mark to quote what I said or did not say about the college funds, the plain fact is, Dr. McLaren had to call attention to the inaccuracy, and the Montreal papers corrected the false impression given. Will The Planet say the Montreal papers are right when they themselves admit that they are wrong? With reference to the second, the fact that the editor of the Globe is a commissioner to the General Assembly does not guarantee a correct report in the Globe. He is not the reporter. And when you say that the Mail and Empire gave the real idea of the address of Mr. McDonnell, of Kingston, on moral and social reform, I can but leave it to those read the address to decide. Is saying there is a graft at Ottawa the same as saying we are not an honest people? The address touched on the deep and grave problem of dishonesty and graft in this age of commercial

ish, as seen in the social, commercial and political life of our land. The headlines of the Mail and Empire makes it more a question of party politics than a discussion of the greater and grave question raised. The latter part of your editorial and your clipping from the Sentinel-Review has no bearing on the point at issue, for again I would remind you, I am not "attacking the reliability of the press." It is unfortunate that you try to make me appear in such a role. And it is not my opinion or criticism of other institutions. I merely made the statement that certain headlines and articles were misleading, and so they were. If you have space, you owe it to me to publish this letter.

about the press. The Planet accepts the present explanation, believing that it is tendered in good faith. It is too bad that Mr. MacGillivray did not volunteer this explanation earlier in the week. It might have saved considerable discussion and newspaper space. — Ed. Planet.

### THE NEW REMEDY

Take It Now That Vacation Days Are Fast Approaching:  
 Thousands of men and women are anxiously looking forward to the vacation days that come in June, July and August—not so much for the pleasure or enjoyment as for the chance of getting rid of their ill health. To thoroughly drive away troubles of the stomach most people think they have to make a business of it with dieting, exercise, and perhaps a vacation. But Mio-na stomach tablets taken with regularity, in a very few days will drive away indigestion, dizzy spells, distress after eating, headaches, sleeplessness, and the many other symptoms of bad digestion and sluggishness of the digestive organs that keep people from enjoying themselves. Day after day, at work behind desks or in the factory with poor sunlight and air, soon results in sluggishness of the entire physical and mental apparatus. The first slight symptoms of indigestion can be easily cured, but when they are allowed to increase without any help, then the stomach complaints become hard to shake off. Strengthen the whole digestive system with Mio-na and you will soon find that both stomach and bowels do their work as they should. O. H. Gunn & Co. sell Mio-na in 50 cent boxes and guarantee to refund the money if the remedy does not give complete satisfaction. Charity is generally kept in the family.

# A Safe Investment

What Marshall Field Once Said

Real Estate in a good locality and in a growing village, town or city is the best investment a poor man or woman can make. It cannot run away, bust up or cheat. My advice to a young man or woman who can spare \$5 or \$10 per month from his or her earnings is to put it into a small piece of mother earth, even if it is only a small vacant lot. My first start in life was doing just what I now advise others to-day.

The above was the advice given by Marshall Field in an address given to young men and women on **How to Succeed in Life.**

## The Elms Sub-Division

head of King Street opposite St. Joseph's Hospital, presents to you the opportunity of your life. Lots in first block east of our sub-division sells at from \$18 \$20 per foot. Ours at only \$11 per foot and some at \$7 and \$9 per foot, other lots at \$160 and upwards.

## Pay as You Like

You can own a lot in the Elms Sub. by paying \$10 down, \$5 per month, only 5% interest, or you can pay whole, or any part just as you like. Per right, no mortgages or notes asked from purchasers, you get a land contract which you can bring into the Merchants Bank, Chatham and get credit thereon whatever you want to pay or whenever you want to pay a little or more.

## CUT THIS OUT

When you have an hour to spare, take a walk up the Elms Sub-Division of No. 1, you can select your own lot. As every lot has a white stake in the center of lot and 22 feet back from the front lot line, which is known as the building line. On this stake you will find a white card, giving the No. of the lot, size and All sold lots have a red card marked sold.

Drop me a card to Garner House and I will call on you with full particulars or you will find my city salesman on the grounds every evening from 6.30 to 9. Don't miss this opportunity.

### What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alternative or blood-purifier, and tonic or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder—curing every percent of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchial tubes, stomach, bowels, bladder, or uterus (as catarrhal dyspepsia), or the chronic or ulcerative stages of these diseases. It is often successful in affecting cures.

The "Favorite Prescription" is advised for the curative treatment of diseases—those of the blood, the kidneys, the bladder, and the prostate gland, and is especially adapted to the treatment of the "break-down," "Favorite Prescription" will be found most effective in building up the strength, regulating the woman's functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulae of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into Dr. Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-poisonous, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Peppermint, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

Work and see how cheerful you will be.

## SEVENTY WERE KILLED

Mutiny of Sappers at Kiev Was a Serious Affair.

Fierce Fighting Between Mutineers and Loyal Troops—Captain Fell Dead at First Volley—Outbreak Was Premature—Men Too Hot-Headed to Await Concerted Uprising—Planned by Terrorist.

St. Petersburg, June 20.—Details of the mutiny of Sappers at Kiev show that it was only suppressed after a bloody engagement at midnight, June 17, between the mutineers and loyal troops. About 70 men were killed or wounded.

The decision of the revolutionary staff here to refrain from demonstrations was disobeyed by the hot-headed sappers. At midnight, June 17, 500 men at a given signal left their beds, disarmed the sentries, hurriedly dressed, obtained possession of their rifles and broke into an armory, secured a number of loaded cartridges and then marched to the camp square and fired a volley in the air.

The officer on duty, Capt. Akuleff, ran out and addressed the mutineers, persuading them to disperse. He then called out another battalion, drew the men up and led a charge on the mutineers, ordering them to surrender. Upon their refusal to do so, Capt. Akuleff ordered the troops to fire and fell dead himself at the first volley.

The mutiny at Kiev was arranged by Shefchenko, a revolutionary of good family, who entered the army as a volunteer for the purpose of undermining discipline, and won over many of his comrades, but when he essayed the standard of revolution, they were frightened and the little band of ringleaders was overpowered. Three bombs were found on Shefchenko yesterday. All the mutineers will be tried by court-martial.

The workmen employed in a big factory at Kiev struck after the mutiny, but they have not yet been joined by the employees of other factories. Military troubles have also broken out among the troops of the third infantry division, stationed at Kaluga.

The workmen of Moscow are also becoming restless, and the commandant of that city has brought 22 companies of infantry into the place to overawe the men. Several big meetings of workmen in the Moscow suburbs have been broken up. Wholesale arrests continue in St. Petersburg.

### PROVING HIS STORY.

Witnesses Called to Substantiate Orchard's Evidence.

Boise, Idaho, June 20.—The state yesterday made dramatic production of, and proof as to the Goddard bomb, offered further addition to the testimony of Harry Orchard against William D. Haywood, and obtained a ruling under which a number of the denunciatory articles published in The Miners Magazine, the official organ of the Western Federation of Miners, will be admitted in evidence.

To Justice Luther Goddard of Colorado himself fell the task of telling the story of the discovery and preservation of the bomb with which Orchard tried to kill him.

Mrs. Seward, at whose house, in San Francisco, Orchard stayed part of the time, he was conducting his operations against Fred Bradley, gave testimony strongly corroborative of Orchard's account of his acts and experience in San Francisco.

She said her lodger had a very heavy suit case, and she thought that he was an inventor.

John L. Stearns, agent at Denver for the Mutual Life Insurance Co., confirmed Orchard's account of his having obtained employment as a solicitor for the company before he went to Canon City to kill ex-Governor Peabody.

Two fires in Dalhousie. Mill and Factory Destroyed and Many Out of Employment.

Dalhousie, N. B., June 20.—The town of Dalhousie was plunged into despair Tuesday night when the Reigate Woodworking Factory was destroyed by fire, and the families whose livelihood depended on the factory, began to move elsewhere.

Last night the mill owned by the Dalhousie Lumber Co., one of the largest in Canada, caught fire and in an hour was completely destroyed. The loss is heavy and over a hundred men will be thrown out of employment.

The mill was valued at \$50,000.

Chamberlain's Illness.

New York, June 20.—A special cable to The World from London says: A report was current in the House of Commons Tuesday night that Joseph Chamberlain is dying.

Mr. Chamberlain was brought to his London house Tuesday from Highbury, his place near Birmingham. Since his return from abroad he has shown increasing loss of nervous and mental power, and it was desired to have him within reach of the best medical advice that London affords.

Austen Chamberlain, his son, was with him all day, but enquirers at Mr. Chamberlain's residence got only the stereotyped reply that he bore the journey well.

Mr. Chamberlain is 74 years old.

Will Travel Incognito.

Ottawa, June 20.—The Duke of Abruzzi, the Italian explorer, it is now stated, will make his tour of Canada incognito. The distinguished foreigner has little regard for public functions and so there will be no festivals.

His program will include visits to Montreal, Ottawa, Sudbury, Cobalt, Toronto and Niagara Falls. He arrives at Quebec on the 27th.

## MANY PEOPLE HAVE CATARRH OF KIDNEYS AND DON'T KNOW IT.

Backache, a Warning Symptom of Kidney Trouble.

Per-na Is Invaluable in Such Cases.

Prominent Persons Who Have Been Cured.

Mr. J. Byler, 1505 Ohio street, Des Moines, Ia., writes:  
"I wish to state my appreciation of your excellent remedy."  
"I have always enjoyed excellent health, except frequent and painful attacks of bladder trouble, which doctors failed to relieve or cure."  
"Upon recommendation I used Per-na to my utter satisfaction, not having had an attack now for four or five years."—J. Byler.

### Dangerous Kidney Diseases Cured.

WHEN the kidneys become affected by catarrh, either from colds, overwork, or an extension of catarrh from some other organ, they fail to perform their normal functions.

It is the work of the kidneys to excrete from the blood many of the poisons which accumulate in the body.

If the kidneys fail in their work, the poisons accumulate to such an extent as to cause convulsions, which often prove fatal.

Per-na, by relieving the kidneys of their congested and catarrhal conditions, leaves them free to act in a normal manner.

It also strengthens the action of the heart, equalizing the circulation of the blood in all parts of the system.

**TORPEDO BOAT EXPLODES.**  
Was Engaged in Trials—All the Crew Escaped.  
Torquay, Eng., June 20.—Four torpedo boat destroyers were engaged in steam trials off Torquay yesterday afternoon, when an explosion was heard on board one of the vessels, and soon her crew, numbering twenty men, were struggling in the water. The torpedo gunboat Dryad picked up all the men who were in the water and took them to Plymouth. The destroyer sank 20 minutes after the explosion occurred.

#### HEALTH DEPENDS ON GOOD BLOOD.

Anyone who uses Ferrozone has good color and great vitality. Reason for this is Ferrozone's power to create nourishing blood. "I was broken down, had no strength, and couldn't eat," writes Mrs. Chas. Benney, of Cloyne, Ont. "My nerves were irritable. I was thin-blooded and continually unhappy. I tried Ferrozone. It gave me the new energy, force, vim. It brought me strength—made me well." Greatest tonic and rest-builder ever known is Ferrozone. Sold everywhere in 50c. boxes.

#### Ambassador Will Not Resign.

Berlin, June 20.—The Foreign Office yesterday denied the published statement that Baron Speck von Sternburg, the German Ambassador to the United States, will soon resign owing to ill-health.

#### Livingston Is Acquitted.

Windsor, Ont., June 20.—Norman Livingston, who was arrested four months ago charged with highway robbery, near the Michigan Central Station, was yesterday acquitted.

#### SHE WAS WILD WITH PAIN.

From Willow Creek, Ont., Miss E. Diegel writes: "A few years ago I was drenched with rain and got lambo. It was like a steel rod piercing my back. I had earache and was just wild with pain. I applied bathing soaked with Nerville to my ear and rubbed on Nerville for the lumbago. That rubbing relieved and in a few hours I was well. No other liniment could do this. It's the penetrating power of Nerville that makes it superior to all other liniments. Nothing beats it; 25c. at all dealers.

#### Inland Revenue Receipts.

Ottawa, June 20.—The Inland Revenue statement for the month of May was issued yesterday. It shows gross revenue of \$1,432,422, as compared with \$1,236,364 in May, 1906. Of this, the excise revenue is responsible for no less than \$1,412,947, spirits accounts for \$645,270, tobacco \$497,832, malt \$12,136, and cigars, \$111,876.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

## SUSPICIOUS OF DEAL

Politician—  
to Rome to Secure Pope's Approval.

Grand Master Sproule on Trip to Vatican—Is Fielding to Selected Laurier—Deprecates Bigotry But Protests Against Sharratt's Interference—Rejoices in Reverses Recently Suffered.

Vancouver, June 20.—Dr. Sproule, grand master of the Grand Orange Lodge, of British America, which is in session here, presented his report yesterday afternoon.

He expressed satisfaction that the best classes of citizens were joining the order in large numbers, and that Rome was suffering serious reverses in Italy, Spain, and France, where she was supreme for centuries. "In Canada the fight still continues. There is no cessation of hostilities. Mgr. Sharratt, who accomplished so much for the cause of Romanism in the adoption of the autonomy bill, is to return to Canada. This direct representative of the Vatican is to reside in Ottawa, and keep his finger upon the political pulse of the Dominion of Canada. The presence of the papal delegate is a constant menace to the constitution of the country. It is bad enough in all conscience when Canadian prelates interfere in our political contests, but we resent the interference of one who is an alien and who represents, not the citizenship of Canada, but the policy of the Roman pontiff.

"It is neither our policy nor in accordance with our principles that we should display bigotry or attempt to restrain our Roman Catholic fellow-citizens in the exercise of their civil and religious liberties. We feel it our duty to defend their interests in these respects as vigorously as we would defend our own.

"We are informed from French Canadian sources, through the columns of Le Nationaliste, that Sir Wilfrid Laurier and Hon. W. S. Fielding have recently visited Rome for the purpose of securing the sanction of the Vatican authorities to Mr. Fielding's succeeding Sir Wilfrid Laurier as Premier of Canada.

"These constant pilgrimages to Rome before every general election, and secret conferences with His Holiness, leads credence to the suspicion that a deal is being made each time whereby the interests of the state are being bartered away for the support of the church in the forthcoming election, and that in due time the debt must be repaid by another encroachment upon the rights of the people."

#### FEAR INDIAN UPRISING.

Girl Exercising Great Influence to Detriment of Missionaries.

Fort Berthold, N. D., June 20.—Under the leadership of Annie Enemyheart, a new religion, or rather a recrudescence of the old heathen practices, has sprung up among the Indians of the Fort Berthold reservation, and is causing considerable excitement.

Recently a horse belonging to the father of the woman died, and she has succeeded in making the Indians believe that the spirit of God has entered into the dead body of the horse. She caused the head of the horse to be cut off, and this she dressed with bright pieces of calico. Offerings are brought daily to the horse's head, and these are offered as burnt sacrifices during all of the ceremonies.

Many of the Indians have become convinced that the woman is a prophet of the Great Spirit, and they obey her every whim. She advises her followers to turn their backs upon the white man, and to live for the Indians alone.

Missionaries express fear that the influence of the woman may cause trouble.

#### CRISFIELD NOT BLAMED.

Naval Board Gives Decision In Minnesota Launch Wreck.

Washington, June 20.—Admiral Emory, commanding the fourth division, Atlantic fleet, arrived here yesterday with the report of the naval board of investigation of the loss of the launch of the battleship Minnesota on the night of June 10.

The board found that the launch had fouled a hawser with which the tug Crisfield was towing a barge carrying a number of loaded freight cars from Cape Charles to Norfolk. No criminality is attached to the officials of the Crisfield, who were in ignorance of the disaster.

#### Use Chinese Stokers.

Victoria, June 20.—The desertion of 12 stokers from H. M. S. Shearwater while in Central American waters has led the British admiralty to adopt a peculiar method of manning the ship.

The ship made the trip from Central America to Esquimaux with eight stokers instead of 20, and as a result the admiralty has ordered the employment of Chinese stokers for the vessel. This is the first time that such a course has been adopted.

#### Could Not Instruct Counsel.

Fort William, June 20.—The trial of Manson Patterson, the Port Elgin boy charged with the murder of Bernard Armstrong, has been adjourned. On the prisoner being asked to plead, he claimed that he was not sane enough to instruct counsel, and adjournment was taken till doctors examine the prisoner.

#### Sixty-Six Chinamen Enter Canada.

Ottawa, June 20.—Last month 66 Chinese entered Canada by way of Vancouver, paying \$500 each, or a total of \$33,000.

In addition to these, 45 Chinese, who are exempt from the charge, being merchants or returning Chinese, entered, making the total number of arrivals 111.

#### WANTED BODY FOUND.

Ties Handkerchief to Stake Where He Committed Suicide.

Rochester, June 20.—John Comfort, a farmer, 50 years old, who lived in Transit Village, committed suicide Tuesday by drowning. He left a note which said:

"If my body is not home, look in the river."

A search of the river was made and a stake was found driven into the bed with a handkerchief tied to the top of the stake. To the stake a rope was attached, and at the other end of the rope Comfort's body was found. He had drowned himself in shallow water. Nearby was found a vial containing two ounces of strychnine.

#### Kills Wife and Suicides.

Buffalo, June 20.—In a drunken frenzy early yesterday Frank Tallchief, an Indian living on Camaragus Reservation, shot and killed his wife Emily while she was riding to her home with a neighbor, and afterwards ended his own life by hanging himself in an orchard.

I'll stop your pain free. Sold by all dealers.

#### Eight Men Injured.

Spokane, Wash., June 20.—Eight men were injured, one probably fatally, in a wreck of a freight train on the Spokane & International Railroad near Spokane Bridge yesterday. Most of the injured were Austrian railroad hands.

#### A VALUABLE AGENT

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

ing away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

The best way to bow before the Almighty is to band to the needy.

## AUSTRALIAN RAILWAYS.

State Ownership Has Proved Great Success and Prosperity.

The prosperity of the Australian railways under state ownership is one of the important developments of the past decade. There are always certain branches of these railways that are not profitable. These branches are practically colonization roads, and until settlement overtakes the railway, such branches cannot pay. But as settlement advances, the railway is extended still further and so there are always remote lines which do not pay as "feeders" and indeed for the first years do not meet working expenses, yet these lines foster cultivation and assist in opening up the country and multiply the population, and as this process goes on, there is an increasing proportion of the railway mileage which begins to pay. Under state ownership these branch lines and colonization roads have been built and operated at a loss for some years, which no private-owned road would do without a subsidy. The customers and employees of the road have been and are treated better than they would have been under private control, because the Legislatures of Australia insist on generous treatment to both employers and customers.

Yet in spite of this generous treatment, and in spite of the remote branch lines, and feeders which have not yet begun to pay, the Australian railways, taken altogether, pay well. The earnings of the last twelve months available show an increase of about 300 million pounds sterling, although the operating expenses only advanced by about twelve per cent. of that amount. They paid the interest on the money invested in them and left a profit of over £300,000. The New South Wales lines earned £400,000 more than the year before, lowering operating expenses. The Sydney correspondent of The London Morning Post attributes this prosperity to the fact that the Australian railways are built and equipped sufficiently to earn much more than they now earn. "With more settlement and more people," he adds, "they would pay splendidly. This year the profits will be larger because we have again had an excellent season. But even in the bad seasons the railways saved our farmers and graziers hundreds of thousands of pounds by reduced freights for stock carried from the withered to the fruitful portions of our state. The private railways have never done that. The increasing settlement now proceeding is due to our railways and would not extend but for them."

Maxims For the Married.

A fellow's always in the wrong when he quarrels with a woman, and even if he wasn't at the start, he's sure to be before he gets through. And a man who's decided to marry can't be too quick learning to apologize for the things he didn't say, and to be forgiven for things he didn't do.

You'll make a heap of trouble if you make it a rule to refuse a request before breakfast and never to grant one after dinner.

After you've been married a little while, you're going to find out that there are two kinds of happiness you can have—home happiness and fashionable happiness. With the first kind you get a lot of children, and with the second a lot of dogs.

#### Education in India.

The Government of India has issued a circular letter to the local Governments with regard to the provision of free education in primary schools. In this document the subordinate authorities are asked for their views upon the policy of such a measure, the means of carrying it out, and the cost. The scheme in which the abolition of fees is contemplated are primary and middle vernacular schools for boys and for girls, whether managed by Government, by municipal and local bodies, or by private persons, with the aid of grants from public funds. It is not intended, however, to introduce the change in primary schools for Europeans, as it appears to the Government of India that the need for such a measure, whether for the relief of parents or for the spread of education, is not established. The Government considers it advisable that the principle should be applied simultaneously throughout all standards in the specified schools, and not by degrees. While it is proposed to make elementary education free, there is no suggestion at present as to making it compulsory.

#### Cast Dice For Bibles.

At Saint Ives, Huntingdonshire, the Whitechapel master prevails of assembling half a dozen boys and the same number of girls and letting them cast dice for Bibles. This curious custom was recently observed in the village, children selected from the English Church and Nonconformist Sunday schools competing for the sacred volumes in the presence of the Vicar of the parish, the Nonconformist clergyman, and many others.

The Bibles were purchased with the income of a fund established in 1675 by a very pious man, who bore the name of Dr. Robert Wilde.

Every year protest against the further observance of the custom runs all over the country, but the St. Ives people are not moved by it.

#### Breezy.

"Here," said the new copy reader, "is a story about a man being picked up by a Kansas cyclone and carried six miles. Except that he bit off the end of his tongue when he fell he suffered no injury."

"All right," replied the telegraph editor. "Boil it down to about four or five lines, and we will run it under the head of 'Breezy Bits.'"—Chicago Record-Herald.

NEW PASTOR  
IS ORDAINEDInteresting Service Held in  
The William St. Baptist  
ChurchRev. Mr. Matthews assumes  
Charge Of Church—A Promising Preacher

Rev. Mr. Matthews, the new pastor of the William street Baptist church, was ordained by the council of the church last evening. There was a very large congregation present to witness the ceremony, which was solemn and impressive in the extreme.

The William street congregation are proud of their new pastor, and well they may be. He is a young man, full of ability, ambition and earnestness, and has very bright future before him. He was born in London, Ont., and went to Public school there. He taught school in his home town, and afterwards went to Woodstock College. After completing his course in Woodstock, he attended McMaster University, taking arts and theology, and is now an honor graduate of that institution. He has had many honors bestowed upon him at university. In his fourth year of arts, he was president of the McMaster Literary Society, and in his final year in theology, which he completed this spring, he was president of the student body of the University. All the years he was at Woodstock College he took scholarships. This is an exceptional record, and the William street church is fortunate in securing the services of this talented young man.

One of the highest tributes paid to the young pastor during the evening was given by Rev. Prof. Keirstead.

stead, D. D., of McMaster University, at the close of the evening. Mr. Keirstead said:

"I have now preached my fifteenth sermon at such events as this, and I must say that I never had a candidate as satisfactory as Mr. Matthews."

The service itself was most successfully carried through. The devotional exercises at the beginning of the evening were conducted by Rev. Mr. Gunten and Rev. Mr. Roberts. The ordination sermon was preached by Prof. Keirstead, and the ordination prayer, which was accompanied by the laying on of hands by the council, was led by Rev. Mr. Rae.

The sermon by Prof. Keirstead was one of the most able efforts heard in this city for some time. This gentleman is a speaker of great ability, and his words are plainly the result of careful and deep thought.

The charge to the candidate, which was given by Rev. J. J. Ross, a former pastor of the William street Baptist church, but now pastor of the Talbot street church, London, was especially good. Rev. Mr. Matthews is a former member of the Talbot street church, and was therefore well known to Mr. Ross. Mr. Ross' advice was particularly good and clear. He advised the candidate not to let his reputation as a Christian gentleman ever be doubted; not to play to eliques; not to antagonize or offend any one member of his church; not to be envious or jealous towards any other brother in the ministry; to make due preparation for his work; to keep in intimate touch with God; not to fret over accounts of evil doings; to pay no attention to anonymous letters; not to preach over the people's heads; to avoid preaching doubts; and to make a habit of personal visitation.

The fund of fellowship was then extended by Rev. Mr. Hughson, after which bouquets were presented to Mr. Matthews, and also to his mother, who was present to witness the ceremony. The bouquet to Mr. Matthews was presented very sweetly by Dorothy Arnold, the pretty little daughter of Mr. and Mrs. S. B. Arnold.

old, and the bouquet to the mother was presented by Earl Gilbert Merritt, the bright young son of Mr. and Mrs. W. G. Merritt.

The charge to the congregation was ably given by Rev. Mr. Pikey, after which the meeting adjourned, and the candidate was surrounded by friends who were all anxious to congratulate him.

The music during the evening was of a very high order. The choir, under the direction of Miss Helen Carter, did excellent work, which was greatly enjoyed and appreciated. The choir sang the Inflammatus from the Stabat Mater, a double quartet was rendered, and Miss Helen Carter sang The Lost Chord. Miss Carter was in excellent voice, and fairly charmed her hearers. Special mention should be made of the work of the organist, Mr. Frank Phelps. His playing throughout was excellent, the accompaniment given to Miss Carter's solo, being especially well executed.

June 19th, 1907, was a memorable day in the history of William street Baptist church, when Rev. W. E. Matthews, B. A., B. Ph., the pastor, was ordained to the ministry. Mr. Matthews is a young man of no ordinary ability, and has already established for himself no small reputation as a preacher, and a prosperous ministerial career is before him, and he is sure to sustain the pulpit record of the church. The congregation has every reason to congratulate itself on so happy and wise a choice.

Rev. Mr. Hughson, Windsor, was appointed moderator and very ably discharged the duties incident to such office. The following brethren composed the council, composed of delegates from the following churches:

Blenheim—Rev. Mr. Hay and Messrs. Morgan and Muckle.  
Bethwell—Rev. M. P. Campbell.  
Chatham—Messrs. Cornhill, Macaulay and J. H. Oldershaw.  
Harrow—Rev. J. Atkins.  
Euphemis—Mrs. Ward.  
Florence—Rev. Mr. Pikey, and Messrs. Thomas Sweet and Fred. McDonald.

Leamington—Rev. W. T. Roberts.  
Lombville—Rev. P. McFarlane, and Messrs. Murden and Blackburn.  
Ridgetown—Mr. Geo. Sack.  
Thamesville—Mr. Jones.  
Wallaceburg—Rev. Mr. Gunton and Mr. Zavitz.

Wheatley—Messrs. Rogers and Derbyshire.  
Windsor—Rev. Mr. Hughson and Mr. Andrews.  
London South—Rev. W. M. Walker.  
Talbot Street, London—Rev. J. J. Ross.

McMaster University—Dr. Keirstead.

Rev. W. E. Norton, Prof. Farm-r. Rev. J. G. Brown and Hon. John Dryden were also invited. The church was asked if the council was satisfactory, and this being so it proceeded to examine the candidate on his conversion call to the ministry. These were perfectly satisfactory. He then presented his views on Bible doctrine. In view of the present unrest along theological lines this part of the examination was watched very closely, but nothing unsound was advanced. The following were the salient points discussed:

Doctrine: Existence of a Supreme Being; Scripture; God. Attributes, etc.; Trinity; Christ, Person of; Holy Spirit, Personality of; Man; Sin; Salvation, Nature, Ground, Conditions, Development; Consummation; Church.

There is a sure reward for faithful silence.
