Also, Ladies Collars and Cuffs, which are manufactured in the neatest possible manner, from the best material, imported from London and Germany, New styles just being completed. 38-19		

We hope this is correct. This charge is troublesome and does not yield much. The duty on packages is as had, and ought to be swept away at the same time.

J. J. BARBER, of Watford, Ont., a small dealer, has assigned to George Stevenson, of Sarnia. R. Baker & Cd., of Brantford, fancy good dealers, who formerly did business in Strathroy, recently assigned to Thos. Botham & Co., of the same place. John Brown, bookseller, Quebec, has failed, and made an assignment to Wm. Walker. Thos. Maley, shoemaker, Kemptville cleared off to the States, leaving several friends and creditors the worse of his acquaintance.

IT WILL be satisfactory to merchants, manufacturers, and others having or contemplating business connections with Manitoba, that the Government have decided to place the postal service of that Province on the same basis as the other Provinces of the Dominion at an early date. At present letters despatched thither have to pay the same rates as to the United States ; and the high rates charged , on newspapers operates greatly against the people there subscribing for Canadian papers, which they all must necessarily do. The complete exemption of our newspapers from postage is a change which ought to be made in the interests of the people, and that without delay.

F. IT IS STATED to be a practice of too frequent

country parts, in sending forward their notes for purchases from the wholesale houses, to send them unstamped. Of course it saves a little time and a trifle in the way of money. It is to be presumed that in most cases the makers of these unstamped notes are not aware that they are worthless paper, and that it is contrary to law to stamp notes at a subsequent date to their signature. No doubt the Act in question is an obnoxious piece of legislation, which it is to be hoped will be substituted by something better ; but so long as it is in force, it should be observed in its entirety. Those who have been in the habit of sending unstamped, and therefore illegal, notes in settlement of their indebtedness, should take the hint, and desist from so dangerous a practice, as the consequences involved are serious. This is fully shown in an editorial in our present issue.

WHY SO MANY FAIL IN BUSINESS.

Failures in business are, by the unfortunate, attributed generally to every cause but the true one. We all prove ourselves the sons and daughters of Adam and Eve, by endeavoring to attribute, as the cause of our misfortunes, some indiscretion or some incautious friend or wily honest men, to the true cause of their failure ! Their very goodness of heart, and anxiety to please others, are often the causes of embarrass-ment in trade, and the final unfortunate cause of the winding up of a career auspicious at its opening.

But extravagence in dress and equipage, and keeping up princely establishments, is the cause of a majority of American failures. Americans are seldom miserly. Nearly all of that class occurrence among our mercantile men in the among us have been importations. The ancient motto. - Chicago Journal of Commerce.

Astors and Girards were not natives of the United States. Americans love money as well as the natives of other countries, and their efforts to accumulate wealth are as great; but their anxiety to enjoy it, and to make as large a display as pos-sible, forbid that they should ever become misers. They worship wealth, not for its intrinsic value, but because it furnishes all the requisite materials to gratify "the lusts of the flesh, the lusts of the eye, and the pride of life." And when thus self is to be gratified, the devotee has launched upon a stormy ocean.

It is the nature of all selfishness to blunt the moral perceptions and to make the devotee more reckless in his efforts to increase the means of gratifying his desires. Hence the sea becomes more boisterous, and the attraction of the lee shore greater, and the breakers more terrific, as his commercial career terminates in mercantile rnin.

But young and inexperienced merchants are not willing to admit that their style of living, dress and equipage is extravagant. They argue that their position, the nature of their business and surroundings, demand that they should keep up the appearance of wealth, and the display of pecuniary independence. They say, we are compecuniary independence. They say, we are com-pelled to mingle with merchants engaged in the same line of business with ourselves. We meet with them not only on 'Change, but in the social, literary, and business circles'; and our families are on terms of intimacy, and it is absolutely necessary for us to live in as good a house, and to keep up as fine an establishment, as those with whom we associate. We would be ostracised and lose caste in the community, were we to fall below their standard of mercantile gentility, dress, equipage. Our establishments and style of living must be characteristic of our circle; -- and thus the young and inexperienced merchant tries to live and move and exist among commercial men of large experience who have passed through many crises, and have learned what it is to weather storms and tempests.

Young and ambitious men enter a mercantile career with all the extravagence of a long-estab-lished house, in the vain hope that by show and display they shall command a business that not one in a thousand ever realizes but by sleepless viglance, untiring industry, great energy, strict economy, and a good capital.

Every young man entering the great commercial circle on his own account, should have before him in letters of light, the fact that in our great East-ern cities more than ninety per cent. of all who engage in trade fail. Some learn wisdom by what they suffer and lose, and try, try again, and finally succeed. The fact that so few succeed should be a lesson to the most sanguine to move cautiously. It should influence them not only so be industrious, but to start with the determination to spend nothing unnecessarily.

Business always before pleasure, should be their

TORONTO, CAN., FRIDAY, MARCH 3, 1871.

BANK RETURNS FOR JANUARY.

There seems every likelihood that the year we have now fairly entered upon will be a most important era in the political and commercial history of the Dominion. The large appropriation by the Provincial Legislature towards the extension of railways into the newer settlements, is a gratifying and significant fact. Of the enterprising spirit at work in these new districts the following incident is an illustration : A deputation, who came down from Muskoka to see the Government on this question, in order to get the necessary local guarantee, returned to Muskoka, travelling through the night, called a meeting, in a few moments, secured the essential support, having made the journeys, resting only at the meeting. We are informed that there are a number of settlers coming out shortly - young farmers with capitals of from \$2,000 to \$5,000, and that the emigrants this year are, on the whole, more likely to be of service to the country than has been the case for some time past, the war excitement having given employment to the East London artisans and laborers.

The returns issued of last year's imports and exports show an increase of both. The chief features are the excess of imports over the previous year from Great Britain of \$3,000,-000, and the continued falling off of those from the States, while the exports to the States continue to increase. Since the abrogation of the Reciprocity Treaty, the balance

of trade with the United States has been reversed ; while that existed, the States were larger exporters to the British North American Provinces, than we to them, but since, Canada has exported to that country considerably more.

The following statement shows the relative amounts for the last two years of imports from and exports to the United States : *869-70.

1868-69. \$24,628,166 Imports ... \$25,477,975 32,984,652 27.846,461 Exports ... The value of goods which passed last year through the States to direct consignees here was \$11,600,000, and goods purchased in bond over \$3,000,000, making a total of nearly \$15,000,000 imported into Canada through ports of the United States. This item has an important bearing upon the question now under discussion as to the enlargement of our canals ; and we have reason to believe that the Commission, in its report; will advise such an improvement of the present canals as would place Canada in more direct communication with the ports of Europe, and render her waters the channel for carrying off the vast grain harvests of the West. There is a movement being initiated to put on steamers from this port to Liverpool, a responsible English firm having offered to find the boats if the merchants here will guarantee cargoes, and the freights required would be a considerable percentage below the present rates. We are assured by a praccal authority of very wide experience, that boats could be put on, good for ocean voyages, of 180 ft. in length, 500 tons cargo, which would pay 20 per cent. and allow a reduction on current freights of one-fifth. Toronto is, however, the furthest point west to which such boats could run and pay.

The following is the official return for the Banks of Ontario and Quebec to 31st Jan., 1871 :---

Authorized Capital. Paid-up Capital		466,666. 469,431.
LIABI	LITIES.	-
	Jan. 31, 1871. \$17,776,456 1,897,385 17,482,849 32,904,050	Dec. 31, 1870 \$17,829,41 1,780,43 18,412,93 31,798,26
Total Liabilities	\$70,060,740	\$69,821,04
ASS	ETS.	Station Mar
	Jan. 31, 1871. 315, 222, 768 1, 687, 223 4, 442, 502 2, 535, 471 9, 728, 306 72, 459, 403 2, 035, 358	Dec. 31, 1870 \$13,629,59 1,668,83 5,162,74 2,409,77 9,774,91 72,430,69 2,043,07
	0 111 000	\$107 190 53

\$108,111,033 \$107,120,539

There is little to excite remark in these figures, comparing the last two menths, but if they are placed by the side of the returns for same date last year, the contrast is very the interest on the Government debentures,

striking. Discounts in January 1870 were only \$56,800,000 ; an increase near upon \$16,000,000 in one year, or more than 25 per cent, suggests the enquiry whether this is wholly based upon legitimate trade? That a very large proportion is we are convinced. At the same time, that a strong disposition to trade beyond capital is being developed in some quarters, and that too great facilities are given for speculative buying by the long credits allowed and renewals thereon, there is too much reason to fear. The large imports of last senson now weighing heavily upon many merchants, both in stocks and uncollectable accounts, will surely prevent an over sanguine estimate being made in the purchases for the coming year. We cannot too often, or too urgently enforce upon merchants the necessity, for their benefit and that of the retailers they supply, of making purchases not to the extent of what they can half pay for, but only to the extent that they can sell to advantage and promptly collect returns for.

The inconvenience arising from the currency of Nova Scotia, having a different basis to the rest of the continent, and the trouble and expense incurred in handling the notes issued by the New Brunswick banks is becoming of serious import to our merchants and bankers, and will doubtless lead . to some legislative action. We propose to deal with these questions in a subsequent article and offer some suggestions calculated to remove some objectionable features in the present condition of the Dominion Currency.

RAILWAY FINANCE.

When the first railway charters were granted in Canada, there seems to have been a notion that the Companies would be likely to make too much profit, and that their earnings, over and above a fixed dividend, formed a fair subject of taxation. More than one charter provided that a moiety of the net earnings, over a dividend of ten per cent., which should have been paid ever since the work of construction commenced, should go into the public exchequer. In other cases the taniff was to be regulated by the amount of yearly dividend. It is not necessary to say that these clauses never became operative. The following embrace the various phases of railway finance which have been resorted to in Canada :-

1. Authority given to Government to issue debentures by way of loan to railway companies. This authority was given long before any company was in a position to avail itself of the offer.

2. Authority to grant a like loan with a provision that if the company did not pay

the property of the cities and townships benefitted should be assessed for the same.

3. Government guarantee of the interest on railway companies' bonds.

4. Government guarantee of railway company's bonds, as well as the interest thereon,

5. Direct issue of Government bonds, to railway companies, with a first mortgage on the property of the companies as security.

6. Government guarantee of share capital (asked but not granted.)

7. Municipal loans to railway companies.

8. Municipal subscription to railway stock.

9. Municipal bonuses to railway companies.

10. Government bonuses to railway companies.

11. Raising capital by lottery ; authorized but not carried out.

12. Imperial Government guarantee of capital with which to construct the Intercolonial Railway.

13. Share capital, locally contributed, and issue of bonds.

14. Share capital, chiefly English, combined with Government aid, in some of the forms above mentioned, and issue of various degrees of bonds, under different names.

15. Aid in the shape of lands through which the road would run ; projected, but never carried into effect.

16. Practical release of Gevernment guarantee, by placing it hopelessly behind other claims, after railway companies became embarrassed.

17. Compositiou of government claim accepted, when railway companies became emharrassed.

18. Assumption of liabilities incurred by municipalities in aid of railroads, by the Government, the Government becoming the creditor of the municipalities.

19. Direct construction of railways by Government.

It required much unpleasant and even dis. astrous experience to prove which of these various modes of raising money were safe or advisable, and which were the reverse. A very large proportion of the share capital of the different railway companies has been un_ productive-the Great Western is about the only exception-much of it may be set down as valueless, for there is no prospect that any_ thing will ever be realized from it. The municipal loans are all, or nearly all, lost-lost in the sense which a loan implied, and which contemplated repayment. Still it does no follow that value for the outlay has not been obtained in the facilities of railway service. The greater part of the Government loans have shared the same fate. In their case, also, the return received by the country, though ample, has been indirect. The Le-

would be repaid, long after all prospect of such a result had vanished. Experience has taught this lesson : that if Government grants aid to a railway company, it may make up its mind that it will from that day have a bad debt in its books. The Ontario Government has profited by this experience, and resolved to put its aid to railways in the shape of a bonus. When we take this course we know what we are doing-no false expectations are raised, and no gap is made in the public finances by a disappointment in repayment. The accumulation of a large surplus enables the Government to assist these undertakings with ease. This saving of three millions and a half in four years is one of the most extraordinary achievements in the history of Government finance, considering the small annual revenue out of which it is saved, and it presents the greatest contrast to the condition of things when Upper Canada closed the first period of her Provincial existence, in 1841. She was then paying the interest on the public debt, which was nearly equal to six-sevenths of the entire revenue, out of borrowed money, and accumulating a deficiency of \$200,000 a year. Now we save the thick end of a million every twelve months.

THE STAMP ACT DIFFICULTY.

A correspondent calls attention in our last number to certain practical difficulties in complying with the provisions of the acts " Imposing duties on promissory notes and bills of exchange."

There is no Act on the Satute Book so vexatious in itself, or which imposes penalties so severe and disproportionate to the offence of an infraction of its letter, none which entails so much labor to attain such triffing results, none which affects so many persons in important transactions, none with which it is more difficult to comply, and none more dangerous to neglect or mistake.

The principal difficulty and source of risk arises from the stringent clauses in the fourth section, which make it imperative that the stamp shall bear either, 1st, "the signature or part of the signature of the maker or drawer," or, 2nd, "in case of a draft or bill made or drawn out of Canada, of the acceptor or first endorser in Canada, or his initials, or some integral or material part of the instrument ;" or that, 3rd, the person affixing such adhesive stamp shall, at the time of affixing the same, stamp or write thereon the date at which it is affixed, and such stamp shall be held prima facie to have been affixed at the date stamped or written thereon." A further clause provides that if none of the above provisions are complied

of the instrument, such adhesive stamp shall be of no avail; and any person wilfully writing or stamping a false date on any adhesive stamp, shall incur a penalty of \$100 for each offence."

Sections 11 and 12 repeat the above with perplexing variations. They declare the same penalties of fine and invalidity of instrument "if any person in Canada makes, draws, accepts, endorses, signs, or becomes a party to any promissory note, &c., before the duty has been paid," exempting, however, those who, as soon as they become aware of The defective stamps, affix "double the sum by which the stamps affixed fall short of the proper duty, and by writing his signature, or part thereof, or his initials, or the proper date on such stamp or stamps."

It is quite clear that an unstamped bill or note is of no value, that it is illegal to affix stamps to such a document, that there is no provision in the Act for legalizing it by double stamps, and that to place stamps on such a bill or note at any date after its being made subjects the stamper to a penalty of \$100. And yet, as we are informed, this is done in our counting houses daily. Wholesale merchants have complained in our hearing, time and again, that their country customers very commonly send in their paper unstamped. It is only when a bill or note bears "apparently" the requisite number of stamps that any error can be rectified, and the Act, in section 11, in such cases overrules itself by requiring that such additional stamps may have a false date-that is, the date when they ought to have been attached, when the bill or note was made.

Such refinements, niceties, self-contradictions and nullifications may delight the legal mind, but to business men they are simply a nuisance. The whole mischief lies in the usage of stamps instead of stamped paper. If a short act were passed, requiring bills and notes to be drawn on stamped paper (which of course should be provided for public use) there would be an end at once to the trouble arising from defective and irregular cancellation or illegal affixing of stamps after bills or notes are made, &c.

This would end, also, a constant and most irritating annoyance to bankers and merchants-that is, the falling off of stamps. At present it is impossible to handle a number of bills for sorting, copying, &c., without detaching more or less stamps, and it is a common occurrence for bills to have removed from them the stamps on which their whole validity depends. The reckless improvidence referred to in the o'd proverb; "For want of a shoe the horse was lost," is as nothing to legislation which compels merchants to run daily a risk of losing large amounts for the gislature acted on the assumption that they with, " or if the date do not agree with that lack of stamps of relatively no value. When

we consider the vast number of bills and notes made here by traders who have a very imperfect acquaintance with the law, how dangerous and how easy it is to break it, how troublesome are its provisions and laborious the inspecting and correcting duties of bankers, how great is the risk of a bill or note becoming of no value from the accidental displacement of a stamp, and how easily all this could be obviated and simplified by requiring the use of stamped paper, as in the old country, we are surprised that the Legislature suffers the present Stamp Act to deface the Statute Book ; and on behalf of the mercantile community, we urge its early repeal or amendment.

THE DOMINION ACCOUNTS.

THE Public Accounts of the Dominion have been laid before Parliament this year much earlier than usual. This change has been made in deference to the complaints of the Public Accounts Committee last year, who insisted that thereafter, instead of the Accounts coming down near the close of the session, they should be printed and ready at the beginning.

It is gratifying to know that for the year ending the 30th June, 1870, there has been a surplus between the ordinary revenue and the expenditure. The total revenue was \$15,512,225 and the expenditure \$14,345,509, showing a 'nominal surplus of \$1,166,716. The *real* surplus, however, must be considerably less; for we observe that the Auditor-General continues to charge to capital sundry expenses which ought properly to be set down as ordinary expenditure.

During the previous year, 1868-9, there appeared to be a moderate surplus. But in the items of ordinary revenue are the sum of \$510, 403, received from the Great Western Railway Company, and \$608,510 on account of premiums received on exchange. These sums were clearly not ordinary revenue, and when deducted, together with some smaller items of public works expenditure, improperly charged to capital, showed a deficit, in round numbers, of \$862,000. This year we have fortunately a certain surplus; but if sundry expenses in connection with the management of the Welland and Cornwall Canals, and for surveys, excise, Lieut.-Governor's and other expenses on account of the Northwest were deducted, as they ought properly to be, the actual surplus would probably bewithin \$1,000,000.

This is a gratifying result, showing, as it does, the present prosperity of the Dominion, and that our revenue possesses to some extent that elasticity for which the revenue of Great Britain has always been so remarkable. There was an increase in the amount derived

from custors, as compared with the previous year, of \$1,061,333, and from excise duties of no less than \$909,594. The increase in the latter is very marked; but it must not be overlooked that there was a falling off in the revenue from this source in 1868-9, as compared with 1867-8. The whole receipts of the Dominion during the past year, go to show that the business of the Dominion is in a very healthy condition.

As compared with the previous year, the expenditure of 1869-70 was greater by \$307,-425,—the expenditure being \$14,345,509 in the latter, as against \$14,038,084 in the former year. From this increased expense ought to be deducted \$280,000, the amount expended in defending our frontier against the Fenians last summer; but we observe, however, that there was, on the other hand, some \$300,000 less invested in Sinking Funds, so it may safely be asserted that the ordinary expenses of the Government increased fully \$300,000 during the twelve months.

For the increased revenue which was obtained last year, the Government are partly indebted to the active condition of our trade, and partly to the taxation imposed last session by Sir Francis Hincks. The Minister estimated that his new imposts would yield \$1,100,000; but it will be remembered that the changes in the tariff did not take effect till the beginning of April, and that the inincreased duties were only obtained from them to the 30th June, the date of the present Accounts. Under these circumstances, we are not surprised that His Excellency's speech at the opening of Parliament, foreshadowed a slight reduction of taxation ; indeed, had Sir Francis Hincks known that our revenue would have manifested the elasticity which it actually has done, he might have spared the country the additional and somewhat vexatious taxes imposed during last session.

Common reports are not always to be relied upon, but we may mention, that it is rumoured in Ottawa, that the reductions to be made in the Tariff will be 5 per cent. on the amount of the duties, as imposed by the Act of last Session. Many were in hopes that the Government would also abolish the odious grain and coal duties this session, and some have not given up hopes that this will prove to be the case when the Finance Minister brings down his propositions. But the general opinion at the capital is, that the only important change in the tariff will be as above stated.

IN ANSWER to many enquiries we wish to state for the information of our correspondents that it has been, up to the present, impossible to give any indication of the operations of the Insurance Companies doing business in Canada for 1870. The returns required by law have not yet been laid before Parliament. We believe also that more than half a dozen of the companies have not yet sent their returns in to the Government. We hope these tardy companies will hurry up.

THE INSURANCE AND SAVINGS BANKS MEASURES.

It is understood that the Government at Ottawa, intend to bring in measures relating to Insurance Companies and Savings' Banks. These measures were referred to, in the speech from the throne, and will no doubt soon be laid before the House. We have made inquiries at Ottawa, in regard to the character of the proposed Bills, but the secret has been well kept, and little can as yet be ascertained.

As regards the Savings' Banks, it is understood that the Minister of Finance proposes to absorb the whole or a part of the investments in them, in the same way, we suppose, or at least on the same grounds, that part of the circulation of the banks has been taken possession of. The latter measure did not pass without opposition, and it need occasion no surprise, that those interested in these private Savings Banks do not look upon the proposed legislation with much favour.

As soon as the Bills come before Parliament, we shall endeavour to lay their leading features before our readers.

TORONTO STOCK MARKET.

Reported by Blaikie & Alexander, Brokers.

Токолто, March 1, 1871.

We have to report a very active week, with large transactions in the leading Stocks at rates that show a very firm market. The demand continues strong and the tendency of prices is upward. Banks.—Commerce is again very active with large sales at 118 to 1184, closing firm. A very strong demand is made for "Toronto with few sedlers; sales were made during the week from 1754 up to 1814. Royal changed hands freely at 894 to 90, closing firm at the latter rate. Ontario continues firm at 111 to 1114, with sales at these figures. British is wanted at 110, without any sellers. A further advance under the strong demand is made in Bank of Montreal, to 241 and 2414 with large sales. Merchants' remains steady and without change at 1164 to 117. Sales of City are reported at 924 and 923.

and without change at 1164 to 117. Sales of City are reported at 924 and 923. Bonds. -Governments Sixes, sterling, were placed at 1053, and Fives at 985. Dominion Stock is procurable at 1114, with buyers at 1104. Buyers of City Bonds are giving 934, and sellers asking 94. County and Township Debentures are in good demand and very scarce. 103 would be paid for first-class Counties, and 944 to 964 for Townships.

Townships. Sundrics.—Buyers of Freehold Building Society are offering 129, without finding sellers under 1291. No change is made in quotations of Canada Permenent, steady at 145 to 146. Western continues to be enquired for at 1291, with little on the market. Union is wanted at 115,

without recent transactions. Large sales of Landed Credit were made at 101, which is now readily offered for round lots. Buyers of Western Sundrics.-No recent transactions in Quebec Assurance have advanced to 110, without finding

Assurance nave a first America are reported at sellers. Sales of British America are reported at 72 to 72). Building and Loan changed hands at 107 and 107). — City Gas is in good demand at 120, but without sellers.

MONTREAL STOCK AND MONEY MARKET

Reported by Macdougall & Davidson, Brokers.

MONTREAL, Feb. 28, 1871.

The market has been active for all favorite secu-rities, and a large amount of business has been done during the week.

Banks.-Montreal has advanced in price since our last from 237 to 2414, at which there have been sales of round amounts, holders now asking 242. No British offering; is worth 110. City has advanced from 921 to 95, with sales. No sales of People's, ex-dividend, yet to report; 105 would be paid. Ontario has been active at 1104 would be paid. Ontatio has been active at 1104 to 111; transactions are to-day reported at the former rate, holders generally demanding the latter. Molsons'' is in demand at 1114; holders ask 114. Merchants' has been largely dealt in at 1164; none to-day offering under 117." Sales of Terrate at 1771; no shares now in market of Toronto at 1774; no shares now in market. Jacques Cartier is in demand and scarce at 1184. The last sales of Quebec were at 118. 110 is offered for Nationale; no shares in market. Noth-ing doing in Eastern Townships; would command 112. Last sales of Union were at 1084, holders now asking 1094. Nothing doing in Mechanics'; quotations nominal at 88 to 92. Commerce has been sold in round-lots at 118 and 1181, closing Very-little doing in Royal Canadian ; last firm. sales were reported at 901.

Debentures.-Nothing doing in Governments, there being no Bonds in market. Dominion Stock is worth 111. and scaree. Montreal Cor-poration Bonds are inactive and nominal at 1003 to 1011: Nothing doing in Corporation Seven per cents ; for Six per cents. 104 is offered and refused ; holders ask 105. No Montreal Harbor Bouds of any issue in market ; no late transactions.

Railway Stocks and Bonds. - Nothing doing in Stock. Montreal and Champlain "Eights" have been sold at 1011 and 102.

Sundrics-Montreal Telegraph has been sold at 1774, at which it is still in demand, holders ask-ing 180. But little doing in Richelieu Naviga-tion; shares are worth 190 to 193. Canadian Navigation is nominal at 98 to 1005 City Pas-senger Railway has advanced, 178 being to-day City Pasoffered ; none to be had under 185. Last sales of City Gas were at 190, which would still be paid; holders ask 205. Nothing doing whatever in Mining Stock; there are sellers of Montreal Min-ing Consols at \$2.90, and buyers at \$2.70.

Exchange-Has slightly declined, and Bank Sterling Bills may be to day quoted at 91 to 92 premium.

QUEBEC STOCK MARKET.

Reported by R. H. Wurtele, Broker.

The business done in Stocks and Bonds during the week has been very limited ; Securities gen-erally remain at last week's quotations.

Banks.—Montreal declined to 235, but has again advanced to 2364 to 237, at which rate transactions have taken place. Nothing doing in British; buyers offer 1094. Sales of Merchants' reported at 1164 to 1164. Quebec sold at 117; none now in market. There are buyers of Nation-ale but no sellers. Union sold at 1084. City parminal at 92 to 921. Sales of Toronto at 1774. nominal at 92 to 921. Sales of Toronto at 1774. Ontario is offering at 1114; buyers at 1103. Sales of Eastern Townships at 1114. Molson's nomi-

Fire Ins. Co. ; last sales were at £21. People's Telegraph at 1011, buyers at par. Sellers of Richelieu Navigation at 195, buyers offering 1857; no transactions. Montreal Telegraph sold at 1774. There are buyers of Quebec Street Railway, but no sellers. Montreal City Gas is quoted at 180; no transactions. There are buyers of Qaebec and Gulf Ports S. S. Co., but no sellers. Nothing whatever doing in St. Lawrence Tow-Boat.

Bonds.—Short-dated Quebec 7 per cents. asked for, but none in market. Montreal Corporation sixes asked for at par ; sellers at 101 to 1014.

AN UNIFORM CURRENCY.

The following are the resolutions of the Minister

1st. That it is expedient to establish one uniform currency for all Canada, and for that pur-pose to provide that on and after the 1st day of July, 1871, the currency of the Province of Nova Scotia shall be the same as that of the Province of Quebec, Ontario and New Brunswick, in all of

which one currency of uniform value is used. 2. That it is expedient to provide that on and after the said day, the currency of Canada shall be such that the British Soverign of lawful weight shall be equal to and shall pass current for \$4.863 of the currency of Canada, and that all public ac-counts throughout Canada shall be kept in such currency, and that in any statement as to money or money value in any indictment or legal pro-ceeding, the same shall be stated in such currency, and in all private accounts and agreements, ren dered or entered into, on or after the said day. All sums mentioned shall be understood to be in such currency, unless some other is clearly expressed, or must from the circumstances of the case have been intended by the parties.

3. That it is expedient to provide that all sums of money, payable on and after the said day to Her Majesty, or to any party under any Act or law in force in Nova Scotia, passed before the said day or under any bill, note, contract or agreement made before the said day in Nova Scotia, or with refer-ence thereto, and which were intended to be, and if such alteration of the currency had not been made would have been payable in the present currency of Nova Scotia shall, on and after the said day, be payable respectively by equivalent sums in the currency of Canada, that is to say ; for every 75 cents of N. S. currency, by 73 cents of Canada currency, and so in proportion for any greater or less sum, and if in any such sum there be a fraction of a cent, in the equivalent in Canada currency the nearest whole cent shall be taken.

4. That it is expedient to provide that, on and after the said day, no Dominion note or bank note, payable in any other currency than the cur-rency of Canada, shall be issued or re-issued by the Government of Canada, or by any bank, and that all such notes issued before the said day shall, as soon as practicable, be called in or redeemed; or notes payable in the currency of Canada, shall be substitued or exchanged for them.

5, That it is expedient that any gold coins which Her Majesty may cause to be struck for circulation in Canada, of the standard of fineness prescribed by law for the gold coins of the United Kingdom, and bearing the same proportion in weight to that of the British sovereign, which five dollars bear to \$4.86%, shall pass current and be legal tender in Canada for five dollars; and any multiples or divisions of such coin, which Her Majesty may cause to be struck for like pur-poses, shall pass current and be a legal tender in Canada, at rates proportionate to their intrinsic value respectively, and that any such coin shall pass by such name as Her Majesty may assign to

hem in her proclamation [declaring them a legal tender in Canada, at rates proportionate to their intrinsic value respectively, and that any such coins shall pass by such name as Her Majesty may assign to them in her proclamation declaring them a legal tender, and shall be subject to the like allowance for service as British commissions.

That it is expedient to provide that the coins 6. which Her Majesty has caused to be struck for circulation in the Province of Quebec, Ontario and New Branswick under the acts now in force in said Provinces respectively, shall on and after the said day, be current in the Province of Nova Scotia at the rates in the said currency of Canada now assigned to them respectively by the said Acts, under such conditions and provisions as are mentioned therein, and that such other silver, copper or bronze coins as Her Majesty may cause to be struck for circulation in Canada being of the proper weight and fineness shall pass cur-rent in Canada at the rates to be assigned to them respectively, by Her Majesty's royal proclamation. All such silver coins, as aforesaid, being a legal tender to the amount of ten dollars, and such copper or bronze coins to the amount of 25 cents in any one payment ; but no other silver or copper coins than those which Her Majesty shall have caused to be struck for circulation in Canada or in some Province thereof, shall be a legal tender, or pass current in Canada, and that Her Majesty may, by proclamation, from time to time, fix rates at which any foreign gold coins of the description, date, weight and fineness mentioned in such proclamation shall pass current in Canada.

7. That it is expedient that all Acts or laws in-consistent with the foregoing resolutions be repealed and that an Act for giving effect to the same, and applying to all Canada, be passed.

CAUGHNAWAGA SHIP CANAL .- The adjourned meeting of the Caughnawaga Ship Canal Company was held in Montreal on the 23rd for the election of officers, which resulted as follows ;--Lawrence Barnes, Burlington ; Silas Wetherbee, New York ; Darnes, Burington; Shas wetherbee, New Fork; D. N. Skillings, Boston; Franklin Fairbank, St. Johnsbury; Hon. John Young, Montreal; Hon. James Skead, Ottawa; Mr. Walter Shanly, M.P., Montreal; Mr. Samuel W. Foster, Knowlton; Mr. John Pratt, Montreal. The Directors will meet at Montreal on the 28th inst., to appoint a President and other officers.

Ausurance.

INSURANCE MATTERS IN MONTREAL.

(From our own Correspondent.)

MONTREAL, Feb. 28th, 1871. Feb. 21.—After dispatch of last advices an alarm was given that another fire had broken out at Messrs. Bartley & Co., Engine Works, on Mill street, which turned out table the ignition of a barrel of dangerous oil used in the lamps in the foundry. This oil on account of its known the foundry. This oil on account of its known combustible character was not allowed to be kept in any of the buildings, and was therefore placed on the other side of the street, on the river bank. A watchman went to draw off some of the oil, and as he fancied his vessel did not fill fast enough, he held a lighted candle near the tap to discover the cause ; the vapour from the oil in-stantly took fire, the cask burst, and its blazing contents ran under a heap of charred timber and other debris removed from the machine shop which was destroyed on the 2nd instant. By the timely arrival of the brigade the fire was suppressed be fore it extended further.

Feb. 23 A fire was very opportunely discovered this morning, which forcibly illustrates the great danger of erecting steam boilers in proximity to wood work. In a magnificent range of new build-ings on St. James street, a little to the east of the offices of the Life Association, of Scotland, the upper floors are occupied by the Victoria Straw Works, for the manufacture of Straw Goods, and for offices, one of the shops and basements as the Printing and Publishing offices of the *Star* news-paper, and other by Messrs. E. H. Lionais & Co., Architects and Lithographic, Draughtsmen and Printers. The *Star* establishment is worked by its own engine, fixed in the basement ; but the engine and bailer which furnish power to the straw works, and to Messrs. Lionais's presses are fixed in the shop of the latter on the ground floor. A bed for the boiler had been formed by first cover-ing the boards of the floor with thick sheet iron, on which two courses of brick work were laid, and over these another sheet of iron, which served also as the ash-pit. It appears that this entire mass became so thoroughly heated as to have set fire to the flooring and beams beneath. Being fortunately discovered in time, the men from the Central Station were called in, and the fire was

arrested before any great damage was done. Feb. 25.—Two adarms, following each other in quick succession, were sounded from different boxes, a little before noon to-day ; one proved to be only a foul chimney on Sangiunet street ; the other to be on account of a slight fire in the cellar of the Carriage factory of Messrs. Beaudoin & Mercier, 219 Craig street, which was extinguished without doing much damage.

CANADA INSURANCE UNION.

The annual meeting of the Canada Insurance Union was held in Montreal last week, at the offiee of the Montreal Assurance Company, at which there were present : Mr. Wm. Murray, represent-ing the Montreal Insurance Company ; Mr. M.H. ing the Montreal Insurance Company; Mr. M.H. Gault, representing the British America Assur-ance Co.; Mr. Alex. Murray, representing the Western Assurance Co.; and Mr. John McLen-nan, representing the Private Underwriters; also, Messrs. Gilbert Scott, Dr. G. W. Campbell, T.W. Ritchie, John Rankin, Alex. McGibbon, George Stephen, Alex. Mitchell, and Henry Lyman, variant underwriters private underwriters

The Attorney, Mr. John Rhynas, read the an-nual report of the Board, and laid before the meet-ing the balance sheet for the year, showing the season's business, which was considered very satisfactory. Arrangements have been made by the Union to pay losses in Great Britain through the Bank of Montreal. Agents have been appointed in Liverpool under the supervision of a highly respectable Board. Canadian merchants can now

instruct their shippers in Great Britain to insure through the Union's agents, Messrs. Beckwith & Gaskell, Liverpool. A vote of thanks was given to the Montreal Board for their very judicious and prudent management for the past year, and Mr. John McLennan was unanimously re-elected to represent the private underwriters at the Board for the ensuing year.

FIRE RECORD. --Ottawa, Feb. 23. --The new brick dwelling of John Garland, on Bank street road, a short distance outside the city limits was entirely destroyed by fire - furniture partly saved -loss considerable, but mostly covered by insurance.

Toronto, Feb. 24 .- A shed in the rear of a small house occupied by Mrs. O'Brien, on Beverly street, caught fire. The flames spread to the ad-joining house of Mrs. Connor, and damaged it hadly. Mrs. O'Brien's house escaped with less

Millbrook, Feb. 14.—A barn and stable, belong-ing to James Sanderson, about ten miles from Millbrook, were burned. At the time there were in the barn fourteen sheep, three hundred bushels of wheat, with a lot of oats, hay, fanning mill, threshing machine, reaper, harness, ploughs, and harrows, all of which were lost. Mr. Sanderson's loss is heavy, and it is stated there was no insurance.

Teeswater, Feb. 22 .- Thomas Weir's large carriage factory was burned to the ground to day. The workmen's tools and a large amount of stock are lost : no insurance.

Pakenham, Ont., Feb. 17.—The sheds and stables attached to Chatterton's hotel were des-troyed by fire, together with six horses and a quantity of hay and harness.

Township of Caistor, Out., Feb. 23.—The steam sawmill belonging to Jeremiah Johnston was com-pletely destroyed by fire, together with a large quantity of sawn lumber. The fire was accident-Loss about \$4,000.

Manchester, Feb. 27.—The house of Peter Scott, farmer, in this vicinity, was burned. Furniture mostly saved, but the stock of provisions was des-

troyed. No insurance. Peterboro, Feb. 27.—The outbuildings of Robt. Johnston, on the Lakefield Road, together with 700 bushels of wheat, 4,000 bushels of oats, ten tons of hay, and farm implements, were totally consumed by fire. Insurance, \$2,500. The fire is supposed to have been caused by his little boy,

six years old, with matches. Kingston, Feb. 22. - A fire last night destroyed the slaughter and packing-house of Mr. McGuire, butcher. The building contained the packed meat of forty-five head of cattle. Ship Harbor, N. S., Feb. 5.—The Catholic chapel together with the glebe house adjoining,

chapel together with the glebe house adjoining, occupied by Rev. Mr. Mace, parish priest, were totally destroyed by fire. Little River, N. S., Feb. —.—The school house was burned down. The building was worth about \$700, and with the furniture and books, which were nearly all consumed, the loss cannot be less than \$800. No insurance.

-We notice that the Directors of the Toronto, Grey and Bruce Railway have accepted the tender of Mr. Crossen, of Cobourg, to construct fifty platform cars at \$175 each, the Company furnishthe wheels, axles, and springs. There were only two other tenders, both of which were from firms in Toronto. One was for \$200, and the other above that sum.

MINING¹IN 1870.

(CONCLUDED.) Coal.

The returns from Nova Scotia for the past year have not yet come to hand. In 1869 the total quantity of coal raised, round and slack, in Nova Scotia (including Cape Breton) amounted to 511,-794 tons. Of this quantity fully one half was shipped to the United States. It is understood that the total production of the collieries has been increased. The increase upon the Interthat the total production of the collieries has been increased. The increase upon the Inter-colonial of Montreal has been 12,000 tons, the export the past year having reached over 72,000 tons. The developments and equipments of the Mine are quite equal to an export of quadruple this quantity if a market could be had for the coal. coal

The slopes of the Acadia have been carried to a

The slopes of the Acadia have been carried to a greater depth, and additional working places pro-vided. The facilities for raising large quantities of coal have been thus increased. The Albion, which is the great mine of the Province, has been singularly unfortunate during the past two years. The fire in the Ford Pit was overcome, but caused a delay of four months. The great fire which broke out last year, on the rise of the main seam, still burns. The workings have been abandoned, but no active efforts have been made to extinguish the fire. The other pits afford facilities enough for faising all the coal reafford facilities enough for faising all the coal re-

quired to supply present demands. No work of importance has been done upon any of the other coal areas, with the exception of fol-lowing the Bain eight-feet seam into the Haliburton property adjoining. The demand for the old Sydeny coal of Caj

The demand for the old Sydeny coal of Cape Breton still places the mine of that name at the head of the list. The Block House follows it, as a large quantity is used in New York for gas pur-poses. The Caledonia, Gowrie, Glace Bay, and Lingan run from 30,000 to 60,000 tons each. The Cape Breton collieries supplied three-fifths of the total production of the provinces. Sprinchill is likely to prove the most valuable

Springhill is likely to prove the most valuable coal-field of any yet opened. One seam of 13 ft. 3 in. has been opened upon, while the outcrop of the 11 ft. 3 in. seam has been traced for more the 11 ft. 5 in. seam has been traced for more than three miles. The coal of this latter seam is of a remarkable quality, being almost free from sulphur, and containing only four per cent. of ash. The Intercolonial Railway will bring this into con.munication with the iron-ore beds of the Cobequid Mountains, and with Amherst, a con-remisent abirning used the bard of the Provenient shipping port at the head of the Bay of Fundy.

Lead.

The Galway Lead Mine, behind Peterboro' from some unknown cause, has not been worked during the year. The last workings, over 100 feet in depth, showed the vein to improve greatly in going down. The company are said to have several thousand dollars worth of 'galena on hand. Operations were suspended at the Frontenac Mine in July, owing to some disagreement among the proprietors. The main shaft had reached a depth of between 90 and 100 feet, with a greatly increased proportion of galena towards the bot-om, the vein maintaining its general character, and a width of over ten feet. The westward con-tinuation of the lode has been opened in a new place, about a mile from the main shaft, where it was found to be still rich in galena, and to have a thickness of 10¹/₂ feet. The Galway Lead Mine, behind Peterboro' from thickness of 101 feet.

Pyrites.

About 460 tons of this mineral were mined at the large deposit in the township of Elizabethtown, about three miles West of Brockville, for the use

of the Brockville Chemical Works. In October last, 50 tons of pyrites were taken from a deposit on Lot 20, in the 3rd concession of from a deposit on Lot 20, in the 3rd concession of the township of Dalhousie and shipped by way of Perth. The Lynn magnetic pyrites mine, belong-ing to Mr. James Bell, of Perth, has not been worked during the year.

Mineral Phosphate.

570

Messrs. Cowan and Robinson have mined 400 tons of apatite in the Township of Burgess during the summer, and have sent it to their chemical works in Brockville, where 360 tons converted into superphosphate of lime. This manure is worth \$40 a ton at the works. The greater part of it was sent to the United States, where it commands a ready sale. A small quantity only was sold in Ontario and Quebec, where its value is not yet sufficiently appreciated, and about 40 tons were sent to England.

were sent to England. Two beds of apatite were opened by Mr. Samuel Poole in the south-west corner of the Township of South Crosby last Autumn, and 100 tons of the mineral taken out,

Several gentlemen from England have visited the deposits of mineral phosphate in Elmsley, and other places in the neighborhood of Perth, and are said to have made arrangements for mining them extensively during the present year.

Gypsum.

This mineral continues to be worked at various points along the Grand River, all the way from Paris to Dunville, but we have not the data for estimating the whole amount produced during the year. Mr. Alexander Taylor raised about 3,300 tons at York, and Mr. John Brown of Thorold, about 1,700 at the Grand River Plaster Beds, near Dunnville. This mineral, being obtained conveniently at many places in the Western States and in the Maritime Provinces, is sent across Lakes Erie and Ontario into Upper Canada and brought up the St. Lawrence to supply the Province of Quebec. In Montreal, 1,500 tons of Nova Scotia plaster were ground last year by Mr. John A. Converse, and about 1,000 tons by Messrs. Lymans, Clare & Co. There is also a plaster mill at Quebec, supplied with the raw material from the Lower Provinces.

State.

The Rockland Quarry, seven miles south-east of Melbourne village, has been worked during the whole year with an average of about 30 men. The depth of the quarry is now over 80 feet, and the quality of the slate continues to improve, and is considered equal to any in the world. The slates are dressed by small machines, which are found to be a great improvement on the old method of handdressing.

At the Melbourne Quarry, which is three or four miles south of the village of the same name, the steam dressing machines have fallen into disnse, and the slates are again dressed by hand. About 25 men are employed. The Company have been preparing the quarry for the more extended and systematic working, so that the production of the year has not been equal to that of 1869. The united production of these two quarries will not exceed 5,000 squares for the year. Some of the old proprietors of the Granby Red

Some of the old proprietors of the Granby Red Slate Quarry have paid off its liabilities, and are about to resume operations. The slate of this quarry has been found very suitable for the manufacturer of jambs and mantles, and a considerable number were marbleized and sold in the Province a year or two are

Province a year or two ago. The Danville School Slate Quarry has changed hands, and only a limited amount of work has being done. The slates from this quarry have been introduced into the market by Mr. Robert mild an up the ing in the and this of school purposes. The data of the second state of the the secon

Peat.

The largest business has been done by the Canada Peat Fuel Company. During the summer months they have employed, at their three bogs, at Lapigeoniere, St. Hurbert, and St. Brigide, about 600 hands, and produced 16,000 tons of peat, worth \$3 a ton on the ground. The peat is used by the Grand Trunk Railway, and is coming into favor for domestic use in Montreal. The Champlain Bog, worked by Mr. R. Graham, of Montreal, has supplied a largely increased quantity of fuel to the Montreal Market. The Valleyfield Peat Coal Company, besides

The Valleyfield Peat Coal Company, besides making extensive preparation for the manufacture of solid peat in the coming summer, produced and sold a quantity of fuel last season.

Peat is worked to a small extent near Vaudreuil, St. Ours, Fern's Point and Riviere Ouelle. Almost inexhaustible supplies of this fuel exist in various parts of Quebec and the Maritime Provinces, and they will in future be turned to valuable account, when our forests shall have been exhausted. There is a peat bog in Anticosti which is believed to have a greater area than the largest bog in Ireland.

-The contract of the Toronto Post Office is awarded to Mr. John Elliott, of Brantford. The cost of the building will be between \$60,000 and \$70,000.

-The lake underwriters held a meeting at Cleveland on the 13th ult., for the purpose of forming a board which should confine itself to classifying risks, without interfering with rating. A committee was appointed to obtain the signature of the lake underwriters, after which the meeting adjourned to be called together again by the Chairman when the signatures are obtained. The next meeting will be held in Toledo.

Commercial.

OIL MATTERS AT PETROLIA.

(From our Own Correspondent)

PETROLIA, Feb. 27, 1871. Crude is rather flat, with a decided downward tendency; refined is also very flat. The Parsons well is still doing first-rate. Messrs. Jones & Russell have a splendid well on the McMillan property, said to be fully 100 barrels per day. The Walker well, on the Shoemaker lot, is about the same. The Hesse and Drader wells are also still doing first-rate. The production for the past week is fully equal to 1,000 barrels per day, and the shipments about the same. For the week ending the 16th, we we sent off 6,089 barrels crude, 384 barrels refined, and 840 barrels distillate. In the meantime, Mr. H. Prince, Mr. McMillan and Mr. John C. Hyde are putting down' wells

near the large one. The export firms are doing a steady business, and the other refiners are getting ready for spring operations.

Messrs. Kimball & Langhead's rig was burnt down on Thursday night, caused by gas.

MONTREAL MARKET.

MONTREAL, Feb. 28, 1871.

The weather for the past week has been very mild and the thaws have been very rapid cutting up the roads in many places, and rendering walking in the city anything but pleasant ; last night and this morning were cold with the thermometer at 10° .

Trade in most departments has been satisfactory. Dry goods are arriving freely and stocks are well assorted. The flour market has been rather unsteady all week owing to advices from foreign markets, closing dull. Provisions are fairly active, ashes steady, stocks are not very active but prices are firm, sterling exchange firm at 9§.

Asnes.-Pots-The principal business done during the week was at \$6.00, but there has been

sales at \$5.85 and \$5.95, market closing at the later price. Seconds in fair request at \$5.10 to \$5.15; thirds \$4.55. *Pearls*—Are steady and unchanged in price, \$6.65 having been obtained for all offering, the receipts of this ash have been very small. The stocks at present in store are pots, 639 bls., pearls, 532 bls.

BOOTS AND SHOES.—The prices of all kinds are unchanged, but as the leather market has a strong upward tendency, an advance is looked for at an early date, manufacturers are busy filling spring orders.

COALS.—The very mild weather which has prevented all work has caused a considerable dullness in this branch of business, but there has been no change to note in prices, stocks are not large but sufficient for all wants till the opening of navigation.

CATTLE.—The market has been overstocked, and the demand nothing like equal to the supply, and the drovers have been compelled to ship a good many fine cattle to the United States. The current prices for the week for 1st quality dressed \$6.50 to \$7.00; 2nd and 3rd quality \$5.75 to \$6.25; Milk cows \$35 to \$50, nothing doing in sheep or Lambs traders being well supplied with frozen carcases held over since the beginning of winter.

DRESSED HOGS.—The demand has been fair, but owing to the mild weather hardly so brisk as usual, and the supply has somewhat fallen off. Offerings are light, and the prices have given way a little since last week \$8.25 to \$8.75, the outside price being only obtained for desirable weights.

DRUGS AND CHRMICALS.—There has been a fair healthy business done in most articles. Bleaching Powder in round lots sold at 3c. to 34c; Saltpetre continues nominal at \$12. Some sales of Epsom salts were reported at \$2.00; Alum 2c.; very little doing in Caustic soda which is nominal at 4c. to 44c.; Bi Carb. is unchanged in price \$3.174 to \$3.30, but is held firm at these rates ; Soda ash scarce, 24c. to 24c. at which prices it is now held; Sal soda is steady at \$1.424 to \$1.50, according to the size of the lot; Cream Tartar crystals 22c. to 23c.; ditto ground 25c. to 27c.; Copperas \$1.00 to \$1.10.

FISH.—As usual at this season the market has been active, and prices are well maintained. Salmon is scarce, and very little green Cod in the market, the following are to-day's quotations which are firm, really choice parcels would probably command rather higher figures. Salmon in trcs \$23.50; Labrador Herrings \$6.25 to \$6.50; Dry Cod \$5.75 to \$6.00; Green Cod in brls. \$5.50 to \$6.00; Canso Herrings \$6.00 to \$6.25.

FURS.—A good trade has been doing in raw furs, but prices, although firm, are unchanged. We continue to quote Canada martins \$1.50 to \$1.75; muskrat, fall, 8c. to 12c.; do. winter, 14c.; lynx, \$1 to \$1.25; red fox, \$1.50; mink, No. 1, dark, \$4; fisher skins, \$5 to \$6; bear, \$4 to \$12; beaver, \$1.50; raccoon, 20c. to 60c.

FLOUR. — Receipts for the past week, 9,547 brls.; total receipts from Jan. 1 to date, 48,812 brls., against 50,466 brls. in corresponding period of 1870, being a decrease of 1,654 brls. In the early part of the week the downward tendency of the Liverpool market had a depressing effect here, but later advices have stiffened the market, although buyers are not disposed to meet sellers' views. which restricts business to local wants. The following are to-day's quotations : superior extra, \$7.20 to \$7.30; extra, \$6.90 to \$7; fancy, \$6.70 to \$6.80; fresh supers, Canada wheat, \$6.30 to \$6.35; Western States supers, free, \$6.25 to \$6.30; medium strong supers, \$6.40 to \$6.50; strong bakers', \$6.50 to \$6.60; Welland Canal flour in bond, \$6.10 to \$6.20; Canada super, No. 2, \$5.90 to \$6; fine, \$5. 50; middlings, \$5 to \$5.25; Pollard's, \$4 to \$4.25 ; Upper Canada bags, \$3 to \$3,10; oatmeal, \$5.90 to \$6.

GRAIN .- Wheat-Total receipts from Jan. 1 to date have been only 2,100 bush., being a de-crease of 15,050 bush. The fall in the Liverpool market has brought business here to a stand-still. Early in the week a sale of No. 1 Milwaukee was reported at \$1.50, but now prices are entirely nom-inal in absence of transactions. Corn.-Not much doing, but prices are well maintained at 85c. to 90c., duty paid. Oats—have met a steady de-imand at 45c. to 46c. Barley—Is firm at 65c. to 674c. Peas—Quiet but firm at 924c. to 95c, Timothy Seed is still in moderate request, good samples bringing \$4.10 to \$4.20.

GROCERIES. — Tea — A considerable amount of business has been doing during the week in un-coloured Japans of which upward of 1500 pkgs. have been placed, and young Hysons to the exten-of 1000 pkgs, in other kinds very little has been done, and last week's quotations are unchanged. Sugar—Very little has been done in this branch, a considerable sale early in the week of raw sugar was reported on private terms. The closing have been placed, and young Hysons to the extent was reported on private terms. The closing prices are \$ac. to 9ac. Scotch refined is offered prices are 8§c. to 9%c. Scotch refined is offered at 9c. to 94c, very little in market. Refinery prices are for dry crushed, 134c.; ground, 134; crushed A 124c.; yellow refined, 94c. to 10%c; standard syrup, 44c.; golden, 50c.; amber syrup, 80c. Molasses—There has been a better enquiry during the week but buyers and sellers are apart in their views. Centrifugal is nominal at 194c. to 204c.; clayed, 224c.; muscovada, 24c. to 32c.; Barbadoes. 36c. to 39c.: Porto Rico, 37%c. to 40c. Coffice—Sales during the week have been princi-Coffee-Sales during the week have been principally to jobbers, Java, 19c. to 24c.; Laguayra, 16c. to 174c. Fruit-Layer raisins are ratherscarce and are offered at \$1.70 to \$1.80; Valencias, 7c. to 74c.; currants, are scarce and are held for 64c. to 7c.; almonds, steady, 13c.; other kinds of fruit unchanged in price. Spices - Carrice -- 324c. to 35c.; nutmegs, 50c. to 65c.; Jamaica ginger, 17c. to 20c.; black pepper, 13c. to 15c.

HARDWARE .- The English market has been in a very unsettled state, and Tin plates have risen 2s. per box, our market here has not sympathized with this rise, and we continue to quote them as follows : charcoal IC, \$8.25 to \$8.50; do. IX, \$10,25 to \$10.50 ; ditto DC, \$7.25 to \$7.50 ; ditto DX, \$9.25 to \$9.50 ; Coke IC, \$7.25 to \$7.50. Prices of other articles are steady and unchanged.

LEATHER .- There has been a good demand, with large sales. Sole is very firm. Oak Sole has advanced in price, and is now quoted 42c. to 44c.; Buffale Sole No. 1 is scarce and wanted at 21c. to 214c.; Harness 32c. to 34c.; Rough Leather 27c. to 29c.; Pebble grain 16c. to 17c.; Pink Linings \$4.70 to \$5.00; Red Roans \$6.50 to \$8:00; French calf light \$1.25 to \$1.40.

LIQUORS .- Brandy-Henessy's is scarce and is held at \$2.50, and as there is no quotable change, in other brands it is understood that a little le than late quotations would be taken for round than late quotations would be taken for round lots. Gin—Is dull; Dekuyper's in wood, \$1.36 to \$I.40; Houtman's \$1.30 to \$1.32 \pm , in wood. Rum—Small sales of Cuba, at \$1.62 \pm to \$1.65; Jamacia, \$2.00 to. \$2.10; high wines, \$1.50 to \$1.52 for both Montreal and Upper Canada brands.

ŕ

0

Ons.-Cod oil is very dull, 55c. being the nominal price. Pale Scal is also nominal at 60 to Linseed is steady at 721 for raw and 774c. for boiled ; Olive is still quoted at \$1.12 to \$1.25; Crude Whale has been placed to some extent at 55c.

PETROLEUM .- The business in this article has been quite of a retail character, lower grades bringing from 241c. to 26c., and choice grades of refined, 271c. to 30c. for car loads.

PROVISIONS-Butter-receipts 1,749 kegs; ship-ments 4,502 kegs. There has been a good deal of activity in the market this week, and best qualities are very firm, the closing prices are for com-mon to medium 17c to 20c; fair to good 21c to 224 ; good to choice 23c to 24c. Cheese-Receipts 60 boxes ; shipments 100 boxes. There has only been a retail demand this week and prices con-tinue steady at 12c to 134c for medium to strictly choice. Lard-Steady at 121c to 131c. Tallow, in moderate demand at 6c for unrendered.

-There have been no receipts or ship-PORK ments this week. Business has been quiet, but prices are well sustained. Mess Pork \$23; Thin Mess \$21; Extra Prime Pork \$17 to \$17.50.

RICE--This market has been firm at \$4 to 4.25. The stock at present on hand is small and that is now held for our outside figure.

SALT .- A moderate business has been done and Fine is firm at 75c. Coarse is moving slowly at 50c to 574. Factory filled is quoted \$1.35 to \$1.54.

Woot-Business has been fair and sales were made at about last weeks quotations, viz., Fleece wool 29c to 32c; pulled wool super. 28c to 30c; ditto No. 1 23c to 25c; ditto black 23c to 25c.

TORONTO MARKET.

In most of the leading branches of trade, business though as good as usual at this season is still slack, but in groceries there has been a good deal of activity all through the month of February, and trade is still tolerably brisk. The weather has continued very mild, and the sleighing in this vicinity has entirely disappeared. The roads are vicinity has entirely disappeared. The roads are consequently in a bad state for travelling and deliveries of produce by farmers have been a good deal checked thereby.

DRUGS .- Trade has been very good during the ast week, and a large number of orders have been past week, and a large number of orders have been filled. A few changes are to be noted in quota-, tions. *Cape Alocs*—Are easier, now selling at 12c. to 10c. *Madder*—Is firm at 16c. to 18c. *Opium*—Has declined 50c., now quoted at \$8 to \$8.50.

DRY GOODS. — Business is quiet and only trivial orders are being filled. New goods are being rapidly received ond opened, and merchants will very shortly be in a position to receive their customers. The assortment this spring is expected to be unusually large and complete, every facility will be offered to the trade for the ready selection of their stocks.

FREIGHTS.-The following are the winter rates on the Grand Trunk, now in operation : Flour to on the Grand Trunk, now in operation : Flour to Kingston, 35c., grain 18c. ; flour to Prescott, 43c. grain 22c. ; flour to Montreal, 50c., grain 25c. ; flour to Point Levis, 80c., grain 40c. ; flour to St. John, N. B. \$1.02, grain 51c. ; flour to Hali-fax, \$1.10, grain 55c. ; flour to New York and Boston, 90c., grain 45c., gold. The steamers Chase and Carlotta leave Portland for Halifax on Wednedow and Sciumbar. Wednesdays and Saturdays.

GROCERIES. -- Trade has been good during the past week, both with importers and jobbers, sales footing up to an amount unusually large for this season of the year. Coffee-There has been rather more doing, chiefly in Rio, which is firm and higher in sympathy with the advance in New. York. Sales here are reported of a lot of 200 bags at 16c., now held at 16c to 18c., according to quantity and quality. A lot of inferior coffee sold at 15c. Fish-Has been selling freely, and stocks are now very much reduced, but prices though firm at quotations are without alteration. Fruit-Has been in demand at previous prices for \$5 for superfine, but this figure could not I Layer and Valentia Raisins. There has been tained except for strong for bakers' use.

more enquiry for *Currants*, and new crop are in small supply and held firmly at 74c. to 74c.; old sell at 64 to 64. *Rice*—Is firm at quotations with fair enquiry. *Spices*—Meet a fair demand, and prices are steady and unchanged. *Sugars*—Raws have sold to a fair extent, the stock in first hands being now very considerably reduced. There is no change to note in prices which are firm, though not now expected to rule higher during the rest of the season. Latest advices from Havana by letter and circular report very small stocks there as compared to last year, and planters are very firm in their askings on the assumption of a very material deficiency in the present crop, some placing this deficiency as high as 40 per cent. of the average. Notwithstanding this, buyers in Cuba had been holding back, unwilling to meet the views of holders, and very little dusi-ness was done. According to the best informa-tion available, the crop will not be short more than 15 to 20 per cent. and on the supposition no further advance can be looked for, and in the course of another month even a slight giving way of the market is not impossible. Refined sugars in the market have been dull, high prices check-ing business, and the better grades of Raw being relatively cheaper. Teas—There has been a steady demand for both greens and blacks from the country and city trade, and a good many lines of a very material deficiency in the present crop, steady demand for both greens and blacks from the country and city trade, and a good many lines have changed hands. Of the former, Young Hysons have been chiefly dealt in at prices rang-ing principally from 40c. to 60c.; although there has also been some demand for the finer grades. *Tobacco*—Has been quiet, and prices cannot be considered very firm, holders being willing in order to secure sales to accept a modification of outed prices. quoted prices.

HIDES AND SKINS .- Receipts of slaughtered hides have been light and entirely inadequate to hides have been light and entirely inadequate to the demand, and the importation of western has been rendered necessary to supply dealers. Prices which during the week ruled 1c. higher than previously have again fallen to former quotations, 7c. to 8c. for green No. 2 to No. 1. Shcepskins-Are in moderate supply and find ready sale for all coming in, with improving prices as the ser advances.

LEATHER. —Trade during the past week is re-ported as very dull, though with an improving en-quiry from Montreal, which is expected to lead to considerable business, especially for *Harness* and *Upper*. Kips are very slow of sale. Calf, both French and Canadian, is unchanged in quotations.

PAINTS AND OILS .- There is some slight improvement to notice in business, but there is little activity as yet. Prices are generally unchanged. Spirits Turpentine, however, are 24c, to 5c. higher; now held firmly at 65c. to 70c., according to quantity.

PRODUCE .- In breadstuffs business has been moderately active, closing dull, but coarse grain have generally been in demand, and the marke⁸ for them closes higher and very firm. The folt owing were the stock's in store on the first inst. :

Flour.—In the early part of the week, especially after the advance in the English markets, attrib-uted to the signing of the preliminaries of peace between France and Prussia, thera was consider-able firmness in the flour market, and several lots changed hands at fully previous rates. Later the demand fell off, and the market closed dull and prices barely maintained. Holders are asking \$3 for superfine, but this figure could not be ob-The

Provisions.—The market has been quiet, with buyers inclined to hold off, and receipts light. Butter.—Choice dairy is scarce and wanted, and would be taken at 19c. to 194c.; medium quali-tics selling at 18c. to 194c.; Store-packed is almost unsaleable, but nominally unchanged. Chees.— Taken only for city consumption at previous rates. Eggs.—None coming in. Pork.—Some holders looking for \$22, but no buyers at this figure. A car-load offered recently at \$21 without leading to any result. Demand at present very light. Par-con and Hang.—Unchanged. Lard.—In modany result. Demand at present very light. Ba-con and Hams.-Unchanged. Lard.-In mod-erate request at former quotations. Dressed Hoys. --Receipts are light, but there is little competi-tion among buyers, and prices have not recovered the recent decline. CHRONICLE.

-

THE MONETARY AND COMMERCIAL TIMES-INSURANCE

THE ATLANTIC

Mutual Life Insurance Company,

OF ALBANY, N. Y.,

Is the only Company in Canada authorized to issue Registered Policies

SECURED BY STATE GUARANTEE.

The Superintendent certifies that every

REGISTERED POLICY

IS SECURED BY SPECIAL DEPOSIT.

"The deposits of Stocks in this Department are for the purpose of securing the payment of the Policies, and such Deposits are adequate for the purpose."-HON. WM. BARNES, Sup"t. Insurance Dept't, N.Y.

SUPERINTENDENT MILLER, in his last Report, says that a Registered Policy offers the following advantages :

1st. That the legal reserve according to the Department computation, is faithfully set aside to meet the company's liabilities.

2nd. That such reserve fund consist of securities of the highest class, and which have passed not only the examin-ation of the officers and counsel of the Company, but also the scrutiny of the Department.

3rd. The obligation of the State that the deposits shall be faithfully kept and applied.

4th. The impossibility of any loss, or great incon-venience even, from the loss of any policy, a duplicate always being on the fyle in the Department, and a copy obtainable on application.

Perfect assurance that a company has, securely invested and in entirely safe keeping, the amount which, by the about the highest security which can reasonably be ex-peried. This assurance would seem to be fairly the result of the registered policy system. It certainly removes all question as to the amount of a company's removes all approximate up of fictilious items, or assets which look arge on paper, but fail to meet expectations when wanted to pay losses. There are but few of our non-registering manage up the required reserve, which would be entirely inavailable as a deposit under the registered policy sys-tem. There are many who believe that this system should be made compulsory ; that the public interests demand that the Legislature should provide this protection to however, in this, as in other particulars, is inclined to mared unrestricted by law to the widest possible degree compatible with ultimate security. If investigation dis-fores that companies are not honeally and faithfully reserv-ated that the Legislature competing the adoption of this worker with ultimate security. If investigation dis-fores that companies are not honeally and faithfully reserv-tion to the Legislature competing the adoption of this worker. Hon, Geo. W. MILLER, Supt. Ins. Dept., New York.

All Policies are Non-forfeitable.

Annual Dividends to Policyholders on the Contribution

Losses paid on proof, and not, as usual, in ninety days.

Insurance.

ANNUAL STATEMENT

The Annual Statement, as given above, shows that this Company has accumulated, during the twenty-nine months of its existence, the sum of \$765,597.23, which, with the Capital Stock of \$1,000,000, makes a total amount of available and Valuable Assets of ONE MILLION, SEVEN HUNDRED AND SIXTY-Five THOUSAND, Five HUNDRED AND NINETY-SEVEN 23.100 DOLLARS, the whole of which is held safely and profitably invested for the security of its Policy-Holders. A valuation of the Policies in force on the first day of January, 1871, made by the most rigid method, and upon the same standard as to Interest and Mortality as that upon which its Premiums are based, shows that the full present value, or amount required to safely re-insure its

upon which its Premiums are based, shows that the full present value, or amount required to safely re-insure its risks on that date, was \$807,380. A careful examination of the above figures, and of the character of the Assets, gives conclusive evidence that the NATIONAL LIFE INSURANCE Co. of the U.S. of AMERICA affords to policy-holders that which is the most desirable in any Life Insurance Co., namely, abundant security. ecurity.

The ratio of Assets to Liabilities is over 200 per cent; that is, the Company has more than \$200 for each \$100 of

that is, the Company has more than \$200 for each \$100 of iability. The National Life Insurance Co. of the U. S. of América is the only American Life Company that has made a de-posit in Canada for the exclusive benefit of "Canadian Policy-holders."

THE MONETARY AND COMMERCIAL TIMES-INSURANCE CHRONICLE. 580 Insurance. Insurance. Insurance. BRITON MEDICAL CANADA WESTERN Assurance Company, And General Life Association. Life Assurance Company. with which is united the ESTABLISHED 1847. INCORPORATED 1851. CAPITAL, \$400,000. BRITANNIA LIFE ASSURANCE COMPANY. THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assu-rers in the Capital and Invested Funds......£750,000 Sterling. ANNUAL INCOME, £220,000 STG. : Hon NO. McMURRICH, President, CHARLES MAGRATH, Vice-President. Yearly increasing at the rate of £25,000 Sterling. CANADA LIFE Tearly increasing at the rate of 223,000 Sterning.
 THE important and peculiar feature originally ntro-duced by this Company, in applying the periodical Bonuses, so as to make Policies payable during life, without any higher rate of premiums being charged, has caused the success of the BRITON MEDICAL AND GENERAL to be almost unparalleled in the history of Life Assurance. Life Policies on the Profit Scale become payable during the lifetime the Assured, thus readering a Policy of Assurance a means of subsistence in old age, as well as a protection for a family, and a more valuable security to creditors in the event of early death; and effectually meeting the often urged objection, that persons do not themselves reap the benefit of their own prudence and forethought.
 Mo extra charge made to members of Volunteer Corps or services within the British Provinces. JAMES MICHIE, Esq. JOHN FISKEN, Esq. A. M. SMITH, Esq. B. HALDAN, Secretary. J. MAUGHAN, JR., Assistant Secretary. WM. BLIGHT, Fire Inspector. CAPT J. T. DOUGLAS, Marine Inspector. JAMES PRINGLE, General Agent. to know that in it every means are adopted to secure accurecy and faithfulness in its accounts and statements, as well as for the SECURITY AND SAFE CUSTODY of its funds and property. This may be seen by the following document 1st. The report by a COMPETENT AND SKILFUL AUDITOR, showing that the books, accounts and securi-ties are accurately and safely kept. insurances effected at the lowest current rates on Buildings, Merchandize, and other property, against loss r damage by fire. On Hull, Cargo and Freight against the perils of Inland or dam 2nd.
