THREAT OF FIRE ADDS HORRORS-- BLIZZARD TODAY INCREASES SUFFERING

Dynamite Sent for to Blow Up Buildings in The Path of Flames in Dayton, Ohio--A Blizzard Adds to the Misery of Thousands Who are Homeless-- Relief Measures are Taken to Lessen Distress

(BY CANADIAN PRESS)

The menace of fire continues this morning in the flooded district of Ohio. Dayton is still burning, and appeals have been sent out for dynamite to blow up buildings in the path of the flames.

The Lewiston reservoir, north of Dayton, has not gone out. Men are being rushed in to protect and strengthen it. A blizzard is reported from the inundated area. Cold weather and snow hamper the work of rescue and relief.

Relief measures are being perfected in many cities. Car loads of provisions, clothing and other supplies are ready for transportation as fast as trains can be moved. Ohio National Guardsmen are also ready to move to Dayton as soon as they can enter the city.

At Zanesville the flood conditions are growing worse every hour. No fire has been reported from this city.

The Ohio River is rising. The danger stage at Cincinnati has been passed. Western Pennsylvania is facing a grave flood situation. Sharon and New Castle report fifteen feet of water.

Governor of Ohio Issues Appeal

(Canadian Press Despatch) NEW YORK, March 27.—Governor James M. Cox of Ohio, telegraphed during the night from Columbus as follows:

"The exact extent of the appalling flood in Ohio is still unknown. Every hour impresses us with the uncertainty of the situation. The waters have assumed such unknown heights in many parts of the state that it will be hardly less than a miracle if villages and towns are not wiped out of existence in the southern and southwestern parts of Ohio. The storm is moving south of east.

"Please give great publicity to an appeal for help. My judgment is that there has never been such a tragedy in the history of the people. Columbus was the centre of all activities in behalf of the stricken cities. Every hour has apparently been filled with an accumulation of drastic circumstances.

"Pitiful appeals have been made by men, who were surrounded by water and endangered by the approaching conflagration in the city of Dayton. Every human energy has been exerted to give relief, and yet the measure of assistance has been comparatively small. It is my belief, however, that by day light those imprisoned in the business section of Dayton can be relieved.

"The day began by a storm signal from the weather bureau, advising that there would be a dangerous rise in the waters of the Muskingum river.

er. All the towns along its source including Zanesville and Marietta were advised. Before noon the situation assumed a critical aspect at Zanesville and the historic 'Y' bridge was blown up with dynamite.

"The loss of life at Zanesville is uncertain because all telephone communication ceased at noon. Marietta cannot be reached, but it is safe to assume that the same devastating results at Zanesville was carried on to Marietta.

"In many respects the Dayton situation is absolutely without parallel. The city is unable to send to the outside world any accurate idea of the real loss. North Dayton reported a loss of ten lives. Later reports from South Park and East Dayton picture a loss of twenty lives. West Dayton was almost completely under water and houses in Edgemoor, a residential section, were so deep in the flood that great destruction to life and property certainly ensued there. On the highlands of South Park and East Dayton picture were developed and people were drowned in apparent elevations where it seemed naturally impossible. The workers at Fifth and Brown Sts., which is 25 or 30 feet above the elevations in the business section reported ten feet of water.

"At this time a river wild and turbulent, four miles wide, is sweeping through the business section of Dayton, to say nothing of overflow in the residential sections.

Columbus Westside Has 1000 Dead

(Canadian Press Despatch) COLUMBUS, O., March 27.—Between 600 and 1,000 persons lost their lives in the flooded west side of Columbus, according to reports of the Columbus Dispatch, who have just gotten into communication with the newspaper office from the previously isolated sections of the city. The same estimate is given by persons in charge of the relief stations on the hilltop west of the flooded section.

"Discoveries made this morning among the stricken people, they say, are appalling. According to those who invaded the stricken district, the churches, big state institutions and store rooms in the hilltop section are crowded with refugees, many of whom were rescued from the murky waters, and who tell stories of indescribable horrors.

Former Mayor George S. Marshall, who was in phone communication with Attorney Cecil Randall, his law partner, said today that Mr. Randall said the death toll would reach at least a thousand.

"Thousands of excited groups of people from the flood-stricken section of the city, who were crowded into the temporary rescue quarters, asserted that the estimate of Mr. Randall is not exaggerated. The true extent of the awful tragedies enacted during the sweeping away of homes, nor the exact death toll, will not be known for days until the mass of wrecked houses and uprooted trees which are strewn on the level lowlands south of the city are uncovered. This mass of debris is now under several feet of water, with swift currents running in many directions. Many of those rescued tell of escaping from their homes by the fractions of minutes just before the rushing waters swept their homes away and crushed them like eggshells against bridges. Scores of entire families, these people assert, were swept down with their houses in the swift current.

Every available inch of space in the Columbus State Hospital for the Insane and the Carmel Hospital on the hilltop is occupied by refugees, according to those who invaded the stricken district, the churches, big state institutions and store rooms in the hilltop section are crowded with refugees, many of whom were rescued from the murky waters, and who tell stories of indescribable horrors.

Thursday, March 27.—Back by de-man—J. M. Gaites again presents JOHN HYAMS, LEILA MCINTYRE and original company of seventy in the delightful musical play, 'THE GIRL OF MY DREAMS,' with the same superb cast of principals, big beauty chorus and pony ballet, special orchestra. Note.—This attraction having played here the best of the season, and as the company is exactly the same as seen here before, the management of the Grand guarantees 'The Girl of My Dreams' to be one of the very best musical shows which has played Brantford. Prices: 5 rows, \$2; 13 rows, \$1.50; 4 rows, \$1; balcony, 75c; balcony, \$1 and 75c; gallery, 3 rows reserved, 50c; balcony, 25c. Seats Tuesday.

Saturday, March 29.—First time at popular prices. Frank O. Miller offers the mirth-provoking German farce, 'THE GIRL FROM TOKIO.' One year at the Court Theatre, Berlin, Germany. English version by Frank Tannehill, Jr., and Geo. W. Barnum. A rollicking, roystering fun-maker, seemingly funny, absolutely clean, presented by a capable company of

cording to those who invaded the stricken district today. Four children are reported to have been drowned in a schoolhouse.

Fire Chief Lauer, who was marooned on the hilltop just beyond the flooded section, reaching that point of safety in his automobile just before the waters swept the lowlands, said that he saw scores of people standing on their porches as the waters swept down, and that he cannot see how scarcely any of them escaped. The scene beggars description, he said. (Continued on Page 3.)

It is understood that counsel acting for Chief Slemin and officers Chapman and Boylan who are defendants in the action for damages instituted by friends of Gladys Meredith, the Holmedale girl, will seek to have a charge of venue for the trial which is set down for hearing here April 8th, at the Spring Assizes, before Justice Boyd. The case is a jury one and the claim will be presented that owing to prejudice existing against the defendants, a change in venue is necessary in order to have a fair trial. If the application is successful, either Woodstock or Simcoe would be the probable place of trial.

At First Baptist. There was a large attendance at the First Baptist Church last evening, when Mr. Ervurian delivered an effective address on 'Confessing Christ.' His singing was also appreciated. The services are being continued all week.

Application, it is Understood, Will Be Made For Change Of Venue.

Doomed by Fire? DAYTON, O., March 27.—Believing the city to be doomed by the fire it was reported this morning that Vice-Mayor Huber of this city has sent out appeals to all the cities of the state for dynamite with which to raise buildings in the path of the flames whenever this can be accomplished and also for all the fire fighting apparatus that can be rushed here.

City Ablaze. PHONETON, O., March 27.—A telephone message from Piqua, early this morning stated that the city was ablaze with no way of checking the flames. It is reported that the fire started in the residence section and spread to the business houses. An estimate of the casualties there could not be made at that time, the message said.

Break in Reservoir. DAYTON, O., March 27.—The reservoir at Lewistop is expected to break at any moment, according to a telephone message this morning from Llanman, Ohio, 2 miles from Lewistop. It is said a high wind is blowing water over the banks and that citizens living near by have deserted their homes. Should this reservoir give way it is predicted a flood worse than that of Tuesday will submerge Dayton.

Blizzard Raging. LIMA, Ohio, March 27.—A blizzard is raging throughout the flood district this morning, hampering the work of relief for the flood sufferers. While the cold weather has lessened the flood it has added greatly to the misery of the flood victims.

Leaving in Boats. PITTSBURG, Pa., March 27.—Telephone communication with stricken Zanesville, Ohio, was broken this morning after the following message came through to the local office from the Zanesville chief operator: 'We are leaving the exchange in boats, the water is up to the second story. Conditions here getting worse every minute.'

Ten Dead at Sharon. PITTSBURG, March 27.—Ten deaths, at least, are known to have occurred at Sharon, Pa., according to a telephone report from there at 4 o'clock this morning. It is believed others have perished. The town is under five feet of water and in absolute darkness. New Castle, Pa., is under from 6 to 15 feet of water, but no fatalities are reported.

Fire Gets New Start. COLUMBUS, O., March 27.—Word reached the office of Adjutant-General Wood this morning from the Central Union Telephone operator at Dayton, who has been a principal means of communication that the fire

there had taken a new start. The flames had broken out in several places, he said, and were getting so near the telephone building that they would have to leave. The operator who has been furnishing Columbus with bulletins for 48 hours, said he wanted to say good-bye to Columbus people. His own safety has been precarious and considerable doubt exists as to whether he was able to save himself.

No Light There. TERRE HAUTE, March 27.—Light and transportation facilities are paralyzed in this city this morning. The stage of the river is at 31 feet 6 inches and business is at a standstill. The electric light plant has just closed, and the gas plant has ceased operations. Street cars stopped entirely at 9 o'clock.

Snow Makes It Worse. DAYTON, O., March 27.—Snow added to the terrors of the elements today. Hundreds of refugees are being taken out of the Hickory street school. The weather is bitter cold, adding to the suffering of those who have been trapped on the top of their homes since the levees broke. Fire is sweeping almost the entire downtown district of the city. The flames are leaping hundreds of feet into the air. The conflagration has destroyed several blocks in the heart of the business section, as indicated from observations taken early from the roof of the National Cash Register building.

Relief From Canada. WASHINGTON, March 27.—Secretary of the Treasury McAdoo will admit relief supplies from Canada for the flood sufferers of Ohio and Indiana free of duty. He waived the tariff restrictions today upon the receipt of a telegram from Mayor R. N. Price of St. Thomas, Ont., saying the people of that city wished to send food, clothing and medical supplies.

Another Report. LIMA, Ohio, March 27.—A telephone report has reached here that the grand reservoir between St. Mary's and Celina has given way and the water is reported rushing out. The report has not been confirmed. If (Continued on Page 4.)

Three Hundred Was Fine For Having Too Much Booze

His Worship, Magistrate Livingston Soaks The Foreigners in Police Court Today—It Was Some Session.

Amed Hassan, a Turk, appeared at the police court charged with having more liquor on his premises than for his own use. Mr. Woodruff appeared for Hassan. Mr. Hollinrake for the license inspector. Mr. Hollinrake stated the defendant was a Turk who didn't drink beer so he must have had it for sale.

Mr. Woodruff—"He had it for the entertaining of his friends, in view of the fact that he had received word that he was the father of a child in his old country, and he had asked a number of Armenians and Turks in to celebrate."

Mr. Hollinrake said he must have a harem over there as he had been ordering beer every day.

Mr. Hollinrake had to leave so the case was adjourned until tomorrow. Tony Gambrocora, who lives at 17 Main street, was another who received an unexpected call from the police on Sunday. They found two kegs, 1 empty, 2 cases, 1 empty. The defendant keeps boarders and as he had more than could be reasonably be consumed by his family, his Worship thought that he was guilty. The defendant stated that he had six boarders who bought the beer and

used it personally. He had to pay \$100 or three months. Another Heavy One. Steve Lovalic, who resides at 133 1-2 Colborne street, had rather an expensive celebration Sunday afternoon. The occasion was a celebration of a christening. Lovalic had invited a number of friends in to drink the health of the child. But Lovalic keeps six boarders and hence has the privilege of having more on his premises than he and his wife could personally consume.

Mr. Woodruff and his Worship argued as to the meaning of the clause in the liquor license act, as to whether he could have that quantity—8 gallons—on his premises to entertain his guests and run a boarding house. His Worship, however, thought he was compelled to fine the defendant, but would give him two weeks in which to pay the fine of \$100, and in order that Mr. Woodruff might communicate with the Provincial authorities in regard to the meaning of the clause.

Anthony Faldey. Another of the foreigners who the booze has been getting into trouble. (Continued on Page 4.)

One Minute Interviews

Mr. S. G. Read—"You can say positively that the bottom has fallen out of the real estate market. Last month the market was very active and it is keeping up."

Rev. J. C. Potts, curate of Grace Church—"It cannot be said that there are many destitute people in Brantford. In fact prosperity abounds, although there are homes where an exception can be taken."

Mr. Geo. Ryerson, Chairman School Board—"We have land set aside in the East Ward as a site for a new school and by the way we are developing it will not be long before it will be used."

THE GRIT BACK DOWN ON THE NAVY ISSUE.

In view of what is now regarded as the certain retreat of the Laurierites on the Navy question, it is decidedly amusing to note some of the recent articles in Grit papers which were fooled into the idea that the Borden Government could be forced to announce an early election.

For instance one Grit exchange in its Monday evening's issue made the boast:

"There are only five days for work during the present fiscal year, and after the thirty-first of March, all money appropriation will lapse."

The answer to that is that Sir Wilfrid Laurier has capitulated to the extent of agreeing to necessary supplies. The same newspaper says:

"In the last resort the Senate can defeat the bill, putting forward the defence that it is a serious departure in naval policy on which the electors of the Dominion should have a right to express their wishes. This would be perfectly defensible, even a laudable procedure, and it would make it impracticable ever to revive such a measure. This would be almost as great a humiliation for the Borden Government, as would be the withdrawal of the bill."

This self same paper seems to forget that Laurier is not pledged against a \$35,000,000 grant, but that he wants the \$35,000,000 spent in Canada with the additional cost of over \$700,000,000 for the necessary plant or some \$115,000,000 in all.

Of a truth some of those Grit editors are an amusing lot.

CHURCHILL'S SPEECH.

That still comparatively young man, Winston Churchill (he is only 39), has added still further to his already brilliant reputation by his great speech regarding navy matters.

It has been the pretence of Grit papers and Grit wind-jammers that in his correspondence with Premier Borden, Mr. Churchill sought to dictate to Canada, to put his nose into our affairs and so on.

The Toronto Globe shrieked that Canadian manhood and Canadian autonomy were threatened, and Hon. Mr. Emmerman was fool enough to read portions of the United States Declaration of Independence to the House and to talk about another Boston tea party, for all of which he should have been promptly clucked out of doors if any man should.

As a matter of fact, Churchill did not attempt any interference with our affairs whatever. As First Lord of the Admiralty, he made answer to some questions which Mr. Borden had a perfect right—yes, a duty—to put, and to which Churchill made courteous answer.

The same tone characterized his address in the House. It will be noticed that after stating it would be "more effective" if the overseas dominions decided to make additions to the Imperial navy rather than to construct local navies, he added:

"It could not be supposed, however, that the naval development of the dominions could be restricted on account of any European standard. They, too, like us, must be absolutely free. It is for them to choose whether their naval forces shall be additional to the British standard or whether they shall be a contribution to aid the heavy burdens of the British taxpayer."

Now, what could be in better taste than that? Churchill has stated the case most clearly, and it is for us to choose, as it always has been.

CONSERVATION OF THE GRAND RIVER.

About the time the Courier first started to agitate for a direct line communication between Brantford and Port Dover—and that is a great many years ago—it was also agitating for a system of conservation in connection with Grand River floods.

The idea, as this paper understands the matter, is not so much that there should be any extensive work on the main channel but some sort of check with reference to the contributory streams. It is their sudden onrush,

draining as they do miles of adjacent country, which causes most of the trouble.

It should be remembered that on the banks of the Grand River, as pointed out by the Galt Reporter, we have some industrial centres that in time will be to Canada what the manufacturing cities of New England are to the United States. Brantford, Paris, Galt, Preston, Berlin, Waterloo and Dunnville form a remarkable group of manufacturing towns, containing as they do large rubber industries, wood-working machinery plants, great knitting and underwear mills, furniture factories, car shops, farm implements and engine factories. The future is rosy with promise to them. If a sparsely settled country has produced these works, what will not a province of five millions, a nation of twenty-five millions, do for them? Two generations more, the Reporter thinks, should see the banks of the Grand the home of hundreds of thousands of artisans and should put seven important cities on the map.

To which the Mail and Empire adds:

What is thus truly stated and predicted for the manufacturing cities and towns of the Grand River is equally true of dozens of other Ontario cities and towns which are incipient Birminghams. But the Grand River section is peculiarly fortunate in having in close contiguity a number of particularly progressive manufacturing centres. As a district, its favorable location, the richness of its agricultural areas, the industry of its population will serve to keep it in the forefront of manufacturing advance. What has been accomplished in the last decade, as told by the manufacturing census, is interesting evidence of this.

Table with 2 columns: Value of Manufactures, 1910, 1900. Rows include Brantford, Berlin, Galt, Paris, Preston, Waterloo, Dunnville.

The Mail-Empire adds: For a population aggregating only about 60,000 this is highly creditable. It must be recognized that large manufacturing industries will never give preference, under ordinary conditions, to the small cities as sites, providing their railway and power facilities are as favorable as in the larger cities. The strength of Ontario manufacturing and the most convincing evidence of it is that the agriculture is the spread of mill and shop and factory to the small town and city.

NOTES AND COMMENTS.

Our lady of the snows evidently has a few kicks left in her northern end.

The Grit wind-jammers now realize that their blockade should be spelled blockhead.

The many disasters already this year have called attention to the 13 year of it.

Two members of the British House were named by the Speaker. Perhaps they were inoculated with some virus from Dr. Clark of Red Deer, Canada.

The shades of night were falling fast. As through Brantford City passed A Rip Van Winkle years asleep, Who took an eighteenth century peep, And when he saw the City Hall He yelled like blazes for his pall.

They are going to have a general election in the Province of Alberta on April 17. As for the Dominion event it will take place in the natural course of time, and not one second sooner.

The Toronto Globe alleges that Borden is "hedging" on the navy issue. Is you've got that twisted sonny. It is Borden who has thrown Laurier on a hedge of prickly cacti.

What the Other Fellow Thinks.

Sir Wilfrid's Unworthy Game

Toronto News.—With all his genius for party leadership Sir Wilfrid Laurier seems destined to destroy the Liberal party outside of Quebec. The appeal against the naval proposition is addressed chiefly to the non-British elements in Canada. It is significant that out of the 88 members who voted against the second reading of the naval bill 53 represent French constituencies. Probably not a score of the opponents of the measure in a House of 221 members have to answer to purely English speaking communities. It is the plain object of the Liberal leader to unite the French population of older Canada, the American communities of the West, and generally the "foreign" elements against the Government, against Great Britain and against the Empire.

Candid Comment.

Mont. Times (Lib.)—It is a blunder, which in politics is worse than a crime, for Liberal speakers to render their remarks picturesque by saying that a voluntary contribution by Canada to the Imperial defence is the very thing that provoked the Boston tea party. Just think how that exaggeration can be used in the country against them. The thing is nonsense anyway. If the general court of Massachusetts, as the legislature of that state was, and is, called, had discussed the question of Imperial defence and had resolved to make a large voluntary contribution, there would have been no revolt. It would have meant, not that the people were taxed from without, but of their own free will they taxed themselves for the general good.

Meeting Force by Force

Guelph Herald.—The manifesto of Sir Wilfrid Laurier on the naval situation is one of the weakest efforts of his political career, not a very surprising fact considering that he stands on shifting ground and is espousing one of the weakest and least popular party moves that he has made. It looks as if the Opposition leader's heart is not in his task, or else that he is losing his grip.

In explanation of the Opposition attitude Sir Wilfrid says that his party claims no more than a right of freedom of speech and of discussion in a measure in which the Opposition has the highest importance. Surely he does not expect that absurd process of reasoning to be accepted by intelligent people. Three months have already been spent in discussing the naval question and for what? Laurier on Sunday the Opposition has debited one clause night and day without intermission except for lunch.

The Grand Old Man

Calgary Herald.—Sir Charles Tupper, now in his 92nd year, has decided to return to England. He is one of the fathers of Canadian federation, and as such must ever be revered by every citizen of the Empire. He is a grand old man and would like to have him remain with us. But since it is necessary for him to go, all will unite in wishing him a pleasant voyage.

Columbus 1000 Dead

(Continued from Page 1.)

The section between Central avenue and Sandusky street was almost wiped out. After two nights of horror during which hundreds clung to house tops, calling for help until their voices gave way, while dozens were perched on the branches of trees, many are still beyond the reach of the rescuers.

The cold wave which struck the section last night, caused many to freeze, lose their grip and drop into the water. With military glasses rescuers standing on the B. and O. railroad near Central avenue, could see several dead lying on the roofs of buildings.

At the corner of Glenwood and Thames avenue the lifeless form of a man was still hanging in a tree. He had frozen during the night as he was signalling for help before dark.

Vandals looting the besieged territory added to the horror.

J. W. Gaver, justice of the peace at Briggsdale, swore in several deputies to-day and armed them with instructions to shoot down all looters.

Company E, Fourth O.N.G., at Marysville, assumed guard around the stricken district to-day.

Relief trains from Marysville and Londonbury with food and clothing relieved the situation in the refugee quarters on the hilltop.

There is more Catarrh in this section of the country than in any other disease put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing local remedies, and treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires a constitutional cure. See Cheever's Catarrh Cure, manufactured by F. H. Cheever, Toledo, Ohio. It is the only Constitutional Cure on the market, and it acts directly on the blood and mucous surfaces of the system. They fail to cure. Send for circular, and take full note of the name.

Governor's Appeal

(Continued from Page 1)

ond and Third streets—soon after noon. The blaze was noticed first in a drug store. It swept north and destroyed the St. Paul Evangelical church. The flame shot to the south through the wholesale district consuming two large wholesale liquor houses.

Still Burning.—The fire is still burning. We were advised by a telephone that people could be seen on the roofs of the buildings in the impilled section and that they were jumping from one structure to another keeping safely away from the flames. The water at this time had receded to about five feet in that part of the city.

The appeal came over the telephone to the State House that unless boats were sent at once from some part of the stricken district, the human loss would be tremendous. Later it developed that the rescue from this square was complete.

Roof Crowded With People.—The Beckel Hotel, immediately across the street was a fire at noon, but the flames were put out. Howard, from the Home Telephone Building, reported that the roof of the Beckel House was black with people standing guard over their safety point. South of the stricken square is another wholesale section and it developed that about thirty-five women and children were in several of the buildings.

Spread of Flames.—About 1 o'clock the flames spread across Third street and attacked the square bounded by Third, Fourth, Jefferson and St. Clair Sts. Lowe Bros, paint store was destroyed, and another tremendous sacrifice in human life was imminent. Fifteen men in the Home Telephone Building succeeded, however, rescuing the women and children by aid of a block and tackle, getting them into the Beaver Power building, a fire proof structure, where they are spending the night.

Instructions have been given from Columbus to the militia in the southern part of Dayton to give vigilant eye to the fire district and if the flames start in the direction of the Home Telephone building and the Beaver Power building, to send a message through the turbulent river which is now running through the city, with boats.

Fifty Boats Out.—At day light fifty boats will go into the business section from South.

Better at Columbus.—The hundreds of boats left Toledo at midnight. The Federal life saving crew with equipment will arrive at Dayton from Cleveland by way of Toledo at daylight so that unless developments during the night are extremely the water will be in a remarkably well in hand this forenoon. We are disquieted, however, by the report from Lewiston reservoir that the wind has changed to the north and the water is beating against the banks on the south shore which has caused standing water in places. Troops have been asked for and loss of life is reported. We are unable to get any accurate idea of the loss of life at Hamilton. Both that place and Middleboro are so completely isolated that we fear the worst.

In Columbus the situation has improved. The Scioto is receding. It is feared that when the waters have left the western part of the city, a considerable loss of life will be revealed. Almost within sight of the capital building three men, two women and a child, have been hanging to a tree for over twenty-four hours, and yet the waters are too swift to make their rescue possible.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-lives'"

LAKELAND, ONT., MAY 15th, 1911 "Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the disease I have had in the past, but am now, thanks to 'Fruit-a-lives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-lives' if she wants to keep herself in good health.

Before taking 'Fruit-a-lives' I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-lives' banished all these troubles and now I am a well woman!"

THE COAL SITUATION.

Next Three Months Coal Will Be Cheap.

Now is the time to order your next year's supply of coal. The price of coal is lowest during April and May than any other time in the year. At present Buffalo harbor is clear of ice and railway companies are busy loading their boats with coal. This is being done to rush the coal to the West as soon as navigation opens on account of the supply getting very low in that section of the country during the past winter. This state of affairs will have a tendency to make coal a scarce article in Ontario. It will pay you to order your coal from F. H. Walsh before May 1st, after that date all mine-owners advance the prices monthly.

Throughout the past winter several of the local dealers have been buying coal from independent firms in Detroit at an advance in price of \$1.00 a ton over what Mr. Walsh has been paying; therefore, he is able to quote you a better price for April, May and June deliveries, especially for lots for employees of factories. This coal is mined under the city of Scranton, Pa., (guaranteed), and no better coal can be purchased in the world. Mr. Walsh can quote a lower price than most dealers as he is under less expense than any coal merchant in the city. You get coal of quality and quantity, which is full of weight, worth and warmth, when you have Mr. Walsh fill your coal bins. He is already booking orders for next year's supply of coal at prices which will astonish you. If you are not already one of his many satisfied customers give him your next order and be convinced that he sells the best coal in the city and at economical prices and full weight.

He is also sole agent for Beaver Brand Charcoal. F. H. Walsh, Coal and Wood Dealer, Phone 345.

Finec 300

(Continued from Page 1) lives at 32 Pearl street, and not long ago appeared, charged with a breach of the liquor by-law. He kept a boarding house where he sells beer. Two legs and one case were seized this time, but the defendant said that these goods were the same as seized on the previous occasion. Faldie "bottled the beer because they will not leave the kegs."

His Worship asked: "Then why does he say these are the same kegs as before, if they take the kegs away?"

His Worship was of the opinion that he was telling the same yarn as before when he got off "I'm afraid you will have to invent a better story than that."

Defendant claimed he didn't know the beer was there. He knew all the time the beer was there. He told His Worship that he was "bottling the beer" for the defendant. The defendant told about six different stories.

He was fined \$50 and costs for three months. This will make up for his getting off his time.

James McMinna changed with breath in the Major by-law, will appear to-morrow.

Two of the last moving picture show managers appeared with a charge against them of a breach of the Theatricals by-law.

The adjourned case of the breach of the water by-law was again adjourned.

Wm. Harrison was charged with being drunk. This is about his third appearance in the course of a month. He was assessed 45 or thirty days.

Wm. Shannon failed to appear yesterday, but when he showed up to-day he paid three dollars.

held on Saturday afternoon in Toronto, when the election of officers, etc., for the ensuing year takes place.

Mrs. Ismond, whose illness was reported in last night's Courier, was operated upon at the Brantford General Hospital—not in Toronto. Reports from the hospital this morning are of a favorable nature, and that she is holding her own.

Mrs. E. C. Ashton is in receipt of another generous donation to the Brant Chapter of the Daughters of the Empire for the Tuberculosis Sanitarium, sheets and pillow slips having been received from Mrs. Wm. Glover, Darling street, together with a nice little note wishing their success in their undertaking.

Annual Concert of the Women's Musical Club.
A rare musical treat was in store for all those who braved the elements last evening, and attended the annual concert given under the auspices of the Brantford Women's Musical Club in Victoria Hall, the special attraction this time being Mrs. Elizabeth Campbell, the famous contralto of Toronto, whose initial appearance it was in our city, and Miss Mary Morley, pianist, who made many warm admirers on the occasion of her last visit to Brantford. The program was dainty throughout, both artists possessing strong personalities in addition to their musical attainments. Bouquets of Richmond roses and carnations were presented Mrs. Campbell and Miss Morley during the evening as a slight appreciation of their services from the Musical Club, and it is indeed good news to hear that on the 25th April Mrs. Campbell returns to this city as one of the quartet for the concert given by Mr. Jordan on that date.

Military Chapter, Daughters of the Empire.
An enthusiastic meeting was held in the mess-rooms of the Dufferin Rifles Association, 77 St. Andrew street, yesterday afternoon, when Mrs. Bruce, the Provincial Treasurer, and Mrs. Chapin, Provincial Organizer of the Imperial Order of the Daughters of the Empire (both of Toronto) met the ladies of the regimental chapter—Lieut. Colonel Howard in the chair.

After a splendid address on the subject by Mrs. Bruce, it was unanimously decided to form the Chapter—and the election of officers followed. Mrs. F. A. Howard, wife of the Commanding Colonel was chosen as Regent. The other officers appointed were as follows: Mrs. Genet, 1st. Vice Regent; Mrs. Palmer, 2nd. Vice Regent; Mrs. Nelles, Ashton, Secretary; Mrs. P. Ballachey, Treasurer; Mrs. Colquhoun, Standard Bearer, Councilors; Mrs. Mostyn Cutcliffe, Mrs. D. Gibson, Mrs. E. Gordon, Mrs. Roy, Secretary; Mrs. Miller, Mrs. Oxtoby, Mrs. Newman, Mrs. Boyce, Mrs. Coghill, Mrs. G. D. Watt.

The Motto of the Chapter to be "Pervias Rectas"—the name to be "The Dufferin Rifle Chapter."

Before adjourning, Mrs. Bruce was presented with a beautiful bouquet of Richmond roses, and afternoon tea served.

BURT-WEBSTER
An Easter wedding of much interest to Brantfordites was solemnized amidst beautiful surroundings at Grace Church this afternoon when Ada Osborne second daughter of Mr. and Mrs. A. W. Burt Park Avenue, was united in the holy bonds of matrimony to Mr. Wm. Gourlay Webster, C. E., of Hamilton—Reverend Archdeacon Mackenzie officiating.

Palms, Easter lilies and marguerites decorated the chancel—the pews reserved for the guests roped off with white bridal ribbons. Mr. Harvey Watt, Mr. Harry Bristol (Hamilton) and Mr. Percy James were the ushers while the groom was supported by Mr. Walter Towers of Toronto as best man. As both the contracting parties are very well known and popular, the church was filled with interested spectators in addition to the large number of invited guests. F. C. Thomas presided at the organ, and softly and sweetly the music stole over the church until the arrival of the bridal party at 3.30 p.m., when the beautiful wedding march rang out.

The bride looking girlishly pretty in her handsome wedding gown of ivory satin, embroidered "bolero" with motif of crystal and pearl—long court train, mob cap of tulle and the regulation veil held in place with orange blossoms—showed bouquet of roses and lilies—entered the church leaning on the arm of her father, preceded by the ushers, the three bridesmaids (the sisters of the bride) and the maid of honor; Miss Mary Watt in yellow; Miss Edith Burt in pink; Miss Jean Burt in mauve; Miss Annette Burt in pale green satin gown, veiled in shadow lace—fish-tail train, shadow lace hats and carrying bouquets of Marguerites—a veritable rainbow in group of color. At the conclusion of the service and during the signing of the register, Miss Ruth Webster of Toronto—sister of the groom—sang most sweetly "Beloved is My Lord."

Following the ceremony, a reception was held at the home of the bride's parents—Mrs. Burt, wearing a becoming gown of golden brown satin with tussan hat and pink roses. Amongst the out-of-town guests were Rev. and Mrs. Webster, Ancaster—the latter in Amethyst chapeau, hat to correspond; Miss Ruth Webster, Toronto, April satin and shadow lace, black picture hat, with plumes; Mrs. Taylor, Mr. and Mrs. Andrew Taylor, Buffalo; R. Courlay McKinzie, Toronto; Rev. and Mrs. Sedamore, Miss Elsie Sedamore, Harrisburg; Mr. and Mrs. F. P. Burt, Chicago; Miss Burt, Birmingham, England; Mrs. John E. Smallman, Mrs. John P. Garvey, London, Ont., Mr. and Mrs. T. G. Walker, Mr. Sam Gibson, Miss Marjorie Cameron, Hamilton. The groom's gift to the bride was

TEMPERMENT IS FOE OF PITCH

McGraw Says Some Hitters Must Be Watched They'll Throw Away Games.

Some pitchers who throw too closely or they'll have a game for you. And while we are talking about indiscretion of pitchers the story of the recruit who asked O'Day what Wagner's weakness was the first time he faced the man about to hit in about here. "Well, I'll tell you," replied O'Day who was umpiring behind the seeking pitcher, "if you'll promise to give me away, because the I knew I was tipping off the ers."

"No, you can trust me," answered the aspiring recruit.

"Well, put one right over the plate and then lie down flat on stomach as quick as you can. I don't want them sending for a detaker. I'll be flat behind," answered Hank.

Most pitchers are temperamental and a little temperament in a pitcher is a bad thing. I always try to get out of my pitchers as much as I can, but some of them are real Rube Marquard is the most temperamental of my flock, but he improved greatly last year and outgrew it of it. However I fear that this winter on the stage may have put some of it back into him and I might have to go to work to remove it some this summer. Rube Waddell, Ben Raymond and all those fellows we called temperamental by the pool fellows. They were called lots of other things by the managers.

Fans often wonder why a pitcher makes a bad record in one town, shifted to another and makes good. More temperament. The pitcher, a rule, must like the town in which he appears or distaste for the climate will interfere with his work. This was the case of old Cy Young, whom Cleveland asked for waivers couple of years ago because it was thought out there he was all through with baseball. The Boston Nation team refused to waive and Cy can't go to work to remove it some this summer. Rube Waddell, Ben Raymond and all those fellows we called temperamental by the pool fellows. They were called lots of other things by the managers.

I had a pitcher once with a peculiar strain of temperament which worked against him. He always wanted to be in the centre of the middle ring. Now that is nothing new among pitchers, but this boy kept working at it all the time. Finally he pulled this one on us and expected to get away with it until there came a boomerang. He entered the clubhouse

President Tom Nelson A magnate stands amid the rain; His words are quite bombastic.

His brow is dark his eye is grim, He uses hectic phrases, For every raptur means to him A dollar gone to blazes.

We have already heard from dozens of North Ward residents in connection with comment in the issue of last night on Dufferin Park. These residents invariably appreciate the open stand the Courier takes on the issue.

In addition to the above, we wish to say this, Mr. Geo. S. Matthews' ex-chairman of the Parks Board, and also a member this year, announces that an application for an extra 150 feet of land at the O. I. B. has already been made.

Dear Father—This is my second day in training camp with Brantford, and I must be going like a house afire from the way the manager is watching me.

Dear Father—I am sure Manager Kane wants to turn me into an outfielder. You know an outfielder has to be able to hit, and he thinks so much of my hitting ability he had me batting flies all day. Gee, but I can't hit, and I doubled up with him. That's to keep me from getting chilled I think. So long, FREDDIE.

Dear Father—A peculiar thing happened to-day. We were running the bases, and when it came to my turn I scooted around like sixty. As I crossed the plate the manager told me to keep on going for the hotel.

Luther McCarty arises to remark that the hardest fight he ever had was in a box car. The hardest part of it was that there were no gate receipts.

The fact that Tris Speaker and Joe Jackson each carved out three hits recently is more likely to entice Ty Cobb back into the line than the glint of coin. In Big Leagues

Joe McManus, the former Ottawa pitcher, now with the Cincinnati Reds is one of the most popular recruits in the Red's training camp. However, some of the old timers occasionally slip out a joke on him, and one of the latest was sprung last Wednesday. Just before the club left Mobile some of the fellows remarked offhand that an Irish warship was due in the bay that day. Having a large strain of Emerald in his make-up McManus hastened down to the bay to see the battleship. He was somewhat annoyed therefore, when it proved to be a large boat loaded with bricks.

Benny Yanger Surely Absent Minded

Eddie Hanlon has the prize story to tell of absentmindedness or forgetfulness, as you please, and after listening to his story there isn't anything to do but hand the palm. "It happened just about a year after my last fight with Benny Yanger, the Chicago boy," said Eddie. "You remember in June, 1903, I boxed him a draw and then won from him in September. The next summer I was in Chicago and happened to run into Yanger.

"Hello, Benny!" I hailed him. "How are tricks?" "All right," he answered back, "but you have the advantage of me."

"Don't you know me?" I retorted in some surprise, thinking he was kidding me. "Well," he stalled, "your face seems familiar, but I can't quite place you, figure out where I met you before."

"And honestly, I had to tell him I was Eddie Hanlon, the chap that beat every fellow a year before in San Francisco."

S. O. E. TO HOLD TRIAL GAME

Teams Are Selected For Another Game This Coming Saturday.

The Sons of England had another good meeting on Tuesday in the Roberts and Van-Lane's shoe store. The business was soon got through in good time. Mr. Grattery of the Tule club was present asking for another game on Saturday, but the committee thought it best to have another trial game this week and play Tule on the following Saturday. The following teams were selected to play. Whites—Goal, W. Holmes; back, W. Mitchell and W. Smith; half backs, W. Holder, A. Harris, and E. Biggs, Capt.; forwards, E. Clark, H. Armour, H. Kapsal, Keighley, and A. Johnson. Blues—Goal, S. Fird; backs, J. Stewart and W. Stewart; half backs, H. Slat, G. Wright and J. Mathias; forwards, F. Vinley, L. Mears, A. O'Her, H. Arthur and J. Mitchell. This game will be played on Tule Park, kick-off 5.15 p.m. sharp. Referee, Mr. Mills.

Horse Notes

Can You See the Distinction?

An insurance has been effected, says The London Times, against the risk of the abandonment of the Liverpool Grand National Steeplechase on April 4, because of a national calamity, railway strike or damage by fire or the actions of the suffragettes. The rate first quoted was fifteen shillings per cent., but when it was required that the suffragist risk be specifically included the underwriters insisted on and secured an additional five shillings per cent. The rate is therefore one per cent, and the undermost liability for the underwriters is £8,000.

Possibly some casualist may be able to show the essential difference between the insurance combination laying £8000 to £80 that none of the risks named will make abandonment of the race necessary and a bookmaker laying 100 to 12 that Highbridge will not win it. Certainly the names applied to the two transactions are not identical.

Frank Baker is one of the few earnest athletes who bombards out-fanciful, but I can't quite place you, figure out where I met you before."

SPORTING COMMENT

(Continued from Page 7.) The Cub owner, in his stand with Jimmy Archer, is bringing a strong portion of the Chicago press in action against the "reserve clause," of the game; and it takes no deep inside knowledge of baseball to know that not only will this "reserve clause" fail to stand the test of any court, but that it is also quite vulnerable to public assault.

The Chicago Post has charged Mr. Murphy with driving Overall out of baseball through his reserve slip—with attempting to drive out Chance—and now with attempting to force Archer into retirement, unless he is willing to act as Murphy's slave.

The reserve clause, under wise and liberal ownership, is not unjust. Under a man like Murphy it is the most unfair proposition established in the last four decades. Murphy has shown that he will go to any limit to humiliate, degrade and oppress a ball player unwilling to act as his complete vassal or serf. And Murphy, before he finishes, will bring on ten times the amount of trouble he has already caused unless his league steps in with a curb.

And for its application in other sports, only suppose there was a reserve clause binding on Bombardier Wells to stick to America and ply his chosen profession for an unlimited period? The Britain would soon have a good suit against this country for attempted murder.

Big League

When you get a first hand view of the importance that a player who is done, or who hasn't started, attaches to a five dollar note at this time of the year, the complaints of a man who is drawing \$3,000 or \$4,000 and who thinks he is an underpaid slave seem to be puerile. Which was illustrated at Mobile a day or two before the Tigers got there for their exhibition series.

Cleveland was playing some games and they were being umpired by Pat Wright, an old time first baseman who will be on the Southern League staff of arbitrators this season. Patrick is engaged for the entire spring series in Mobile under an agreement whereby he gets his board and pay in addition \$5 for every game he umpires. Of course on open dates, or days on which rain prevents or cuts short a game he has no money coming.

One day last week a game started in a drizzle. It became a shower in the first inning and was a down pour when Mobile sent its first man to bat in the second inning. The Cleveland players looked at the umpire expecting him to call time. The umpire stood behind the catcher peering no attention to anything but the game itself, though his mind was on the \$5 bill that was rapidly drifting away. About that time everybody was soaked to the skin, the Naps made a combined rush to their dugout and the Mobile batter, deserted, ran to his team's bench.

Wright stood there the only figure on the field, for a few seconds. Then he called time to call time in base ball," he said, "but that's the first occasion that I ever saw the players call time themselves."

Patrick didn't get his five. You have to hand it to some of these youngsters trying to break in, for pulling explanations of plays not dare to make. On the Mobile team there is a shortstop named Hodze from the semi-pro ranks, who is trying to land a place. In one of the games played with the Gulls, Stanley fled to the right fielder, muffed, and Powell tore for third. Stanley tried to take two bases but the right fielder got the ball to second in time to nip this runner. This shortstop, Hodze, made the play on Stanley, and then tossed the ball away between the pitcher and third base, where there was no one to receive it and no reason for throwing it. Powell darted for home, but the pitcher got to the ball in time to nail him at the plate on a very close play. That retired the side.

OPENS UP NOSTRILS, CLEARS HEAD, ENDS COLDS OR CATARRH AT ONCE

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Tly's Cream Balm" at any drug store. This sweet, fragrant

Mike Finn, the Mobile manager, was "dazed by the bushy's throw. "What kind of a play was that throw that you made?" he asked. "Where were you tossing the ball?" "That was a trick play," said the youngster, "I fooled that big league runner, and then we doubled him, didn't we?" Finn frowned. He had never had like that pulled on him before. But there were two men on the field Mullin and Schmidt, who really originated the yarn. Their story of the intentional wild pitch, to get a Philadelphia runner, coming home from second is a classic. Schmidt has always maintained that the ball off the intentional wild pitch, to get a Philadelphia runner, coming home from second is a classic. Schmidt has always maintained that the ball off the intentional wild pitch, to get a Philadelphia runner, coming home from second is a classic.

Football A meeting of the representative of the different clubs in the football league was to have been held in the Borden Club last night but owing to the disagreeable weather only a few put in an appearance and consequently there was nothing doing—not even a chance for an argument.

Cockshutt United. The captain of the Cockshutt United team has called a meeting of the club for to-night at the Borden Club rooms for the purpose of transacting the important business and to have a heart to heart talk with the layers. Cup Figures and Pictures. In the fourth round of the Football Association Cup, the attendances and receipts were as follows: Everton v. Oldham Athletic—43,000 and receipts £1,900.

Bradford v. Aston Villa—24,000 and receipts £1,663. Blackburn Rovers v. Burnley—48,000 and receipts £3,200. Sunderland v. Newcastle U.—30,000 and receipts £2,026.

The arrangements for the semi-final, to be played on Saturday next are: Sunderland v. Burnley, at Bramall Lane, Sheffield. Referee, A. Adams (Nottingham). Linesmen, A. E. Ansell (In case of a draw, to replay on the Birmingham Club's grounds.) Aston Villa v. Oldham Athletic, at Blackburn. Referee H. S. Bamlett (Liverpool). Linesmen, J. Gettins (Liverpool), G. H. LAXATIVE FOR OLD PEOPLE—"CASCARETS"

What Glasses are to weak eyes, Cascares are to weak bowels—a rosent box will truly amaze you Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active, and the muscles are less elastic. And the bowels are muscles. So all old people need Cascares. One might as well refuse to aid weak eyes with glasses as to neglect the bowels with laxatives. This is important at all ages, but never so Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels need is a gentle and natural tonic. One that can be constantly used without harm. The only tonic is Cascares and they cost only ten cents per box at any drug store. They work while you sleep.

(Continued from Page 1) readiness. To man and maintain these resulting with least a continual large increase in numbers of officers and men of all ranks and ratings is required. The increase in size, cost and speed of capital ships, compelled by the general development of naval science and the types building abroad, is marked and increasing. The increase in speed affects not only capital ships but destroyers, light cruisers and submarines. Increase in speed involves increase in cost of fuel, particularly oil fuel, is a serious and shows no likelihood of immediate abatement. The adoption by Germany, America and Italy of larger guns for primary armaments and of larger and more numerous guns for secondary armaments has necessitated a further advance by us. The increased power and size of new and more expensive torpedoes has led to an increase in the number of torpedo tubes, with a further increase in the cost of torpedoes. Larger ships and guns involve larger demands and an increase in the scale of all appliances and shipyard machinery.

Naval Expansion Unavoidable. "There is, I fear, no prospect of avoiding large and continuing increases in the naval estimates of future years, unless the period of active rivalries, of rapid scientific expansion through which we are passing, comes to an end. Of all the nations of the world we are perhaps best able to bear such a strain if it should continue. We have greater accumulations of capital than are found elsewhere. We are freed from the need of maintaining an army of the continental scale, and financial system enables large expansions of taxation to be made without the cost of living to the masses of the people being directly affected. But although we are not likely to be in grave difficulty for supplies, men and money, and although the maintenance of naval security must always be regarded as a first charge on the resources of the British Empire, yet the evil and the immense folly of what is now taking place here and all over the world, is so potent to the means of understanding that concerted effort to rest it should surely be the first of international objects.

One Way Always Open. "There is happily, a way open, and which will remain open, whereby the peoples of the world could, by the most instantaneous mitigation of the armaments, everything is relative. The strength of one navy is its strength compared with another. The value of a ship depends entirely upon its contemporary ship it may have to meet. The usefulness of naval invention ceases when it is employed by other powers, or when the ship types of every naval power supersede those of the previous year. It is not remembrance of the previous year's scores of millions are being absolutely squandered on the armaments of the previous year. It is not the fleets of their rivals but their own fleet obsolescence without adding to their strength or actual security. Could any process be more stupid?

A Naval Holiday. "The question that should be asked of the great powers is this: 'If for the space of a year no new vessels were built for any navy would you have any interest or national security prejudiced in any conceivable naval holiday for a year so far as new construction or new construction of capital ships is concerned?' That question I asked last year, that proposal I repeat this year. It implies no abandonment of any scheme of naval organization or of any increase of naval strength. It implies no check upon the development of true naval efficiency. The finances of every country, would obtain relief, no navy would sustain the slightest injury. This is no appeal of weakness, but of strength behind which I address to all nations, and to no nation with more profound sincerity than to our great neighbor over the North Sea. Let me say at once and without reserve how much we welcome the calm, friendly tone and temper of the recent German naval discussions. Britain and Germany have the conviction that the desire of both is to preserve peace."

British Construction. Mr. Churchill then turned to British construction. He was glad to say that nothing had happened during the year after the numerical program submitted in 1912 giving, for a six years' period, to Britain 25 Dreadnoughts against Germany 14. He said that two ships would be added to this total for every extra one laid down by Germany. Additional to this would be ships Britain might have to build in consequence of new naval developments in the Mediterranean; but no such developments are observable at the present time. He emphasized the fact that the Malay Dreadnought and the three ships under discussion in the Singapore would be additional, that being upon specific condition upon which they are to be given and accepted.

These added Mr. Churchill, "are the bases of a naval policy which is coolly and inflexibly pursued during the next few years, will, we believe, place this country and the Empire beyond the reach of purely naval pressure, and which need not at any stage of its execution, be fomented into a cause of quarrel with our German neighbors."

ANOTHER PROOF FROM THE WEST

That Dodd's Kidney Pills Are a Natural Remedy For Cases of Exhaustion and Nerve Weakness—How S. Jeremy Found Relief When He Cured His Kidneys. Sinityn, Alta., Mar 24—(Special)—That the natural remedy for exhaustion and nerve weakness is one that will give good circulation and pure blood carrying nutrition to all parts of the body, is again proved in the case of S. Jeremy, a well-known resident of this place. "For over two years I suffered from attacks of exhaustion and nerve weakness," Mr. Jeremy states "I tried many nerve foods and tonics but most admit that Dodd's Kidney Pills have benefited me more than anything else I ever used. "I am more than grateful for what Dodd's Kidney Pills have done for me."

Nerve weakness and exhaustion are caused by impure blood. Impure blood is caused by diseased kidneys failing to strain the waste matter of the body out of the blood. The natural remedy is to cure the kidneys. Dodd's Kidney Pills have yet to find a case of kidney disease they cannot cure. The Colonial Ships. "I will now examine three sub-

diary objections which may, with some show of plausibility, be urged from different parts of the House," continued Mr. Churchill. "First, there is the obvious dilemma about colonial ship building. It is said, 'our standard fleet of sixty per cent, is sufficient for the time being or it is not. If it is not give us your proof, and if we are convinced we will increase it. If it is sufficient, then colonial ships are redundant, and from that very fact an unjustifiable extravagance. That is, in my opinion, a false dilemma. The people of these Islands cannot be expected to go on indefinitely bearing the whole burden of Imperial naval defence. We have done and we are doing our duty, more than our duty, to the Empire. We are confronted with great preoccupation in European waters, in consequence of which we are making naval preparations hitherto unimagined in peace time. The maintenance of the strongest navy at the decisive theatre is itself the main safeguard for the peace and security of the whole British Empire. We have also now and in the immediate future, to send powerful squadrons to any part of the Empire which may be locally threatened. It is evident, however, that were the pressure indecisive and the theatre of operations continually in peace time, gradually be diminished. It behooves the overseas dominions to make exertion for their own and the common security, whether by the provision of local navies, or by what is more effective, the reinforcement of the Imperial navy, which will preserve, restore or increase the world-wide mobility of its squadrons.

It could not be supposed, however, that the naval development of the Dominions could be restricted on account of any European armaments race. It is for us, to be absolutely free. It is for them to choose the method of their naval development. It is also for them to choose whether the naval forces shall be additional to the British fleet, or whether they shall be contributed to aid the heavy burdens of the British taxpayer. Therefore we can answer regarding this false dilemma of Dominion ships that they are additional to the standard fleet of the sixty per cent to the world-wide requirements of the British Empire."

Canada's Contribution. Turning to the proposed Canadian ships, Mr. Churchill said: "While it will be directly controlled by the Admiralty, we propose to form them, with the Malay and New Zealand ships, into a new squadron of five ships of high unit speed. It would be based at Gibraltar, and thence able to reach Halifax in five days, Quebec in six days, the South American coast in twelve days, Jamaica in nine days, Alexandria in three days, New Zealand in 32 days, and Honolulu in 27 days. Our Vancouver in 23 days. Our intention is that this squadron shall, as opportunity serves, cruise freely about the Empire, visiting the Dominions, ready to operate at any threatened point at home or abroad. The Dominions will be considered in all movements, not dominated by military considerations. Special facilities will be given for Canadians, South Africans and New Zealanders to serve as men and officers in the squadron. In this way the true idea will be given a mobile, Imperial squadron of the greatest strength and speed, patrolling the Empire, showing the flag and bringing effective aid wherever needed. There is no more valuable principle than Imperial federation and inter-Dominion action. We cannot control these developments. Each Dominion is absolutely free to take its own course. The Admiralty will do its best to assist the greatest responsible body of any Government that may come into power in any part of the Empire. That is our duty. But it is also our duty, with our knowledge and experience in naval affairs, to state clearly what we believe to be the right, sound plan for these important developments to follow, and to combine as far as possible what is best for each with what is best for all."

Mr. Churchill next pointed out that he had offered, in 1912, to build no British capital ships this year if Germany built none. This had no result. Fruit. Germany had already sanctioned the ships of 1913.

For Cases of Exhaustion and Nerve Weakness—How S. Jeremy Found Relief When He Cured His Kidneys. Lady Marjorie's Love

"As for what you are foolish enough to say as to Mr. Barrington's position," she proceeded as before.

"I'm not," she said, "but that is the best advice that I can give you."

"You know what I said—you know that I won't go to her!" Marjorie clenched her hands, steepling herself.

"Indeed!" A swift change flashed over Lady Marjorie's handsome face.

"I don't know how long," Marjorie held up her head defiantly.

"Only until then!" The Countess laughed, a faint cruel laugh.

"It isn't true," she said, "I would never dare do that."

Issues Written Statement in Which She Tells Her Side of How Women Attendants and Doctors Make Her Eat.

LONDON, March 27.—The prison experiences of Sylvia Pankhurst, described in a statement issued by her last evening.

Immediately on her incarceration she went on a hunger strike. After three days she was told she would be subjected to forcible feeding unless she consented to take food voluntarily.

After two days of forcible feeding the prisoner was ordered to solitary confinement for refusing food.

After being imprisoned for twenty-six days she was allowed to exercise with Miss Zelic Emerson, of Jackson, Mich., who was also serving a two-month term for window smashing.

"At first," says Miss Pankhurst, "I could hardly believe it was she—her figure was so much changed, only half the size it was when she entered the prison with me."

According to her account Miss Pankhurst by this time was a physical wreck—her eyes "like two cups of blood," her nerves shattered.

How to Help the Government

By RUTH CAMERON

Do you read the preludes and foot notes in books, and the printed directions that come with the articles you buy?

If you are a woman, I don't believe you do. Nine women out of ten never glance at such things; men are more apt to do.

These preambles are colored with copper sulphate. None of us had, and yet it had been there all the time.

Whether a small quantity of copper sulphate is harmful or not, we do not yet know. But whether it is or not, there is no question that we should have read what was written on that can.

This Government comes half way in protection of the individual from the dangers of impure food.

In some of the little basement stores in the slums of the big cities, where the soda is extra good.

No doubt the manufacturers who supply us with our canned goods feel a similar confidence in our indifference to any warning they may print.

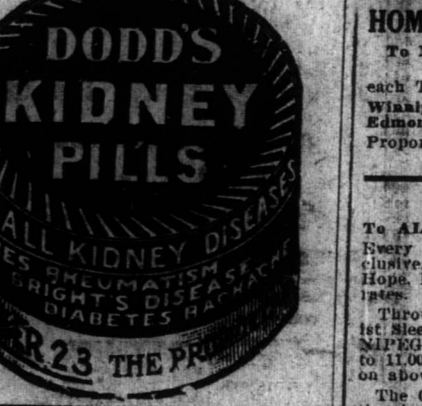

It is every woman's duty to do what she can to get good legislation, but we must not forget that we have a further duty, and that is to make the legislation we already have as effective as possible.

ing the individual from the dangers of impure food. But unless the individual efforts of the Government are useless.

Baldness

By HOWARD L. RANN

BALDNESS is a melancholy affliction which never attacks anybody but the male sex. It is caused by the brain becoming too active and throwing off sparks, which consume the roots of the hair. The feminine brain is not troubled with anything of this kind, as it has an outlet through the vocal chords which man cannot use on account of his reticent and self-facing nature.

Without first thinking long and deeply upon some abstruse subject, such as dandruff cures and patent hair restorers. Nobody ever saw a bald-headed man whose dome was not inflated with wrinkles caused by the effort of his intellect to escape from its environment and be arrested. Once in a while the intellect escapes and leaves a reverberating vacuum, without first thinking long and deeply upon some abstruse subject, such as dandruff cures and patent hair restorers. GRAY FADED HAIR, OR BEAUTIFUL, DARK, ATTRACTIVE--CHOOSE, MADAM!

Says Sage Tea Mixed With Sulphur Restores Natural Color and Lustre.

Gray, faded hair turned beautifully dark and lustrous almost overnight, is a reality, if you'll take the trouble to mix sage tea and sulphur, but what's the use, you get a large bottle of ready-to-use tonic, called "Wyeth's Sage and Sulphur Hair Remedy" at drug stores here for about 50 cents. Millions of bottles of "Wyeth's" are sold annually, says a well-known druggist because it dardens the hair so naturally and evenly that no one can tell it has been applied.

You just dampen a sponge or soft brush with Wyeth's Sage and Sulphur and draw it through your hair, taking one small strand at a time. Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after just one application the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth, grey-haired, unattractive folks aren't wanted around, so get busy with the Sage and Sulphur to-night and you'll be amazed at your youthful appearance and the real beauty and health condition of your hair within a few days. Inquiry at drug stores here shows that they all sell lots of Wyeth's Sage and Sulphur and the folks using it are enthusiastic.

Changes In The Liquor Act Will Shorten Hours Of Sale

Conservative Members in Caucus Given Outline of Government's Proposals and Future Plans.

TORONTO, March 27.—The government members of the Legislature met in caucus yesterday and for the first time since the session opened gave consideration to the various temperance proposals submitted to the government.

While the government gave no definite indication of what changes it proposes to introduce in the license legislation to be brought down, a general outline was furnished the members. The efforts of many of the members to have the hours of sale shortened have received considerable encouragement, and the government proposal explained to the caucus yesterday by Hon. Mr. Hanna suggested that the bars be not opened until 8 o'clock.

The proposal first made to the government provided for the shortening of the hours of sale to twelve, which meant closing the bars from eight in the evening until eight next morning, in addition to the elimination of Saturday afternoon selling.

The legislation being drafted into the Liquor License Act in the statutory revision will, it is understood, considerably limit the hours of sale, particularly in the mornings.

Opposition, in taking for granted that the anti-treating policies have been abandoned by the government is apparently letting itself in for a bump. It is understood that it was stated at the caucus yesterday that investigations were being made in one or two states of the neighboring republic where anti-treating laws positive information as to the manner in which such laws are operated. The government will take this information into consideration, while there is probability that anti-treating clauses will not be introduced in this session, the government has an intention of receding from its position.

The renewed popularity of the Canadian Temperance Act, betrayed in the Scott Act, was reflected in the caucus. The government was asked whether, in the event of counties or districts adopting this act, if steps would be taken to properly enforce it, and were given assurance every effort in the enforcement of the law.

The government's definite proposals with respect to this, to the elimination of bottle selling over the bars and anti-treating, will be submitted at a later caucus.
