

CZECHO-SLOVAK REVOLUTION IN SIBERIA NOW SPREADING
New Provisional Government Will Fight Central Powers

POPULATION UNITED IN SUPPORT OF GOVERNMENT

Its Program Includes Liberation of Siberia From Bolsheviki, and Avoiding of Foreign Intervention; Revolution, Aided by Czechoslovaks, is Spreading

By Courier Leased Wire.

LONDON, July 10.—A new provisional government for Siberia, which has the unanimous support of the population, and which will continue to fight the Central Powers, has been established at Vladivostok.

The program of the new government includes the liberation of Siberia from the Bolsheviki; the avoidance, if possible, of foreign intervention; universal suffrage; establishment of provincial councils, and a labor bureau; distribution of the land among the landless, and control of economic activities.

Siberia will thus, adds the correspondent of The Times, become the first democratic state in the history of Russia, and, it is hoped, be the forerunner of a great Russia.

The flag adopted by the new government consists of two stripes of white and green.

WANT TO FIGHT IN WEST

By Courier Leased Wire.

LONDON, July 10.—Czechoslovak troops now operating in Russia desire to fight on the western front, and do not want to be mixed up in Russian internal affairs.

The memorandum says among other things, that the conflict between the Czechoslovaks and the Russian Soviets, must be settled for the following reasons:

"Our forces are in Russia according to the orders of the Czechoslovak council, which can only be modified by Prof. T. G. Masaryk, in agreement with the other members of the council. The orders are to transport the forces from Russia to the French front."

"The Czech army consists of volunteers whose object is to fight Germany and Austria, to liberate the Czechoslovak nation and to establish an independent state. We shall pursue this course to the last man. We desire, above all, to exhibit our determination on the battlefields of France."

"The Czechoslovaks are a subjugated nation making the first steps toward liberation by paying a blood tribute, and have no moral right to pursue a policy of protection with regard to such a state as Russia. No party in Russia and no class is capable of establishing anything that will endure. Order must be established, firm, energetic, but friendly and human force, which will open to the Russians the possibility of again finding themselves."

"For obvious reasons the Czechoslovaks cannot attempt to accomplish this. Their clear duty is to pursue a strategic movement toward France."

MUTINY IS NEAR.

By Courier Leased Wire.

London, July 10.—Indications of a breakdown in discipline in the second German army are found in two orders issued by General von Der Marwitz, which have fallen into British hands, says the correspondent of The Times at British headquarters in France.

"Discipline which is the keystone of our army, is seriously shaken. Cases of soldiers refusing to obey orders are increasing to an alarming extent."

TRIBUTE TO AMERICAN'S SACRIFICE

People of U. S., By Self Imposed Restrictions, Maintain Allied Food Supply

By Courier Leased Wire.

London, July 10.—Sir William A. M. Goode, Liaison Officer of the Food Ministry, in an address today before the Consumers' Council gave striking figures showing how the people of the United States, by self-imposed restrictions have aided greatly in maintaining the food supplies of the European allies.

From July, 1917 to April, 1918, the United States exported to the Allies 80,000,000 bushels of wheat products, Sir William said. It was calculated by Herbert Hoover, United States food administrator, that fifty million of this represented the voluntary sacrifice of the American people. American exports of pork products to the Allies in March, 1918, were 268,000,000 pounds. This was accomplished by perless days and ceaseless hog production in the United States.

In January, Sir William continued, the Allies asked Mr. Hoover for seventy million pounds of frozen beef monthly for three months. In March 86,000,000 pounds of frozen beef were shipped. This was due almost wholly to meatless days in the United States.

JEWS EXPELLED.

Stockholm, July 10.—The Finnish Government has ordered all Jews expelled from Finland before September 30 and has instructed all communities to deny food to Jews after that date, according to reports reaching the Jewish Press Bureau here.

The Finnish Government has issued an appeal to the world for assistance. The Finnish senate, it is said, will grant naturalization to only a few Jews, especially those who fought in the ranks of the White Guards.

ALLIES TAKE ACTION TO PROTECT MURMAN COAST

Will Protect Non-Bolshevik Russians Murman Railroad and Port of Kola; Population Has Decided to Join The Allies and Secede From Bolsheviki

By Courier Leased Wire.

London, July 10.—Measures taken by the Allies to aid non-Bolshevik Russians on the Murman coast and protecting the Murman railroad and the ice-free port of Kola are summarized by The Daily Express from Russian newspapers.

While the Bolsheviki opposed the landing of Allied troops and even agreed to trade the Murman coast to inland, the local population has decided to join the Allies and secede from the Bolsheviki.

The first allied intervention occurred early in April when Finnish White Guards, assisted by Germans, faced the Red Guards at Kem. The Red Guards were reinforced by an Anglo-French detachment that had come upon an armoured train. The Russian report mentions the landing of a force of British marines to cooperate in the defense of the coast. Defensive measures were said to be under the leadership of three men, a Russian, a Britisher and a Frenchman.

Two British and one French warship and some British trawlers were

in the harbor of Kola in addition to a Russian squadron. A report from the committee of the White sea Fleet to the Russian naval commander in Moscow, printed in a Russian paper, said that Kemp (assumed to be Admiral Kemp of the British navy) had declared there was no aggressive design regarding the Murman region only a desire to help the Russian republic and protect the coast and the railroad. He also offered to assist in developing the local fisheries.

The Bolsheviki Government, however, made public a protest through the Russian wireless on June 30, Leon Trotsky, the war minister, on July 10, denounced as high treason any help given "the foreign detachment which has invaded the Soviet Republic." He also proclaimed Mr. Furr, president of the local Soviet

A dispatch to The Daily Mail from Copenhagen, dated Monday, quotes German papers as saying there are 25,000 Bolsheviki troops left on Kola peninsula.

Heavy Firing Recorded on Front North of Montdidier and South of The Aisne, Where French Made Recent Inroads—Artillery Active East of Amiens Also—No Major Operations as Yet

By Courier Leased Wire.

PARIS, July 10.—Bulletin.—Artillery duels on the front north of Montdidier and south of the Aisne, near Shavigny Farm, where French troops have recently made inroads upon the German lines, were announced by the war office today.

The text of the statement reads: Activity was displayed by our own and the enemy's artillery north of Montdidier and south of the Aisne in the region of Chavigny Farm. In the Champagne, French troops carried out several operations which resulted in the taking of prisoners. There is nothing to report from the remainder of the front.

On July 8, seven German airplanes were brought down and two captive balloons set afire and destroyed by our air forces.

BRITISH OFFICIAL. LONDON, July 10.—Bulletin.—Considerable activity was developed early this morning by the German artillery and machine guns in the region east of Amiens, from the vicinity of Villers-Bretonneux to the Ancre, says today's war office report.

The Germans delivered local attacks in the Villers-Bretonneux area, but these were repulsed.

On the Flanders front the British carried out an operation in the vicinity of Merris, northeast of Nieppe Wood, by means of which the line was advanced a short distance and prisoners were taken.

The text of the statement reads: "Increased hostile artillery activity early last night east of Villers-Bretonneux was followed by local attacks which were repulsed. Early this morning, the enemy's artillery and machine guns developed considerable activity from the vicinity of Villers-Bretonneux to the Ancre. A hostile raiding party was driven off yesterday afternoon south of Bucoy. During the night we advanced our line a short distance, by a successful local operation in the neighborhood of Merris, and captured several prisoners and machine guns."

OUTBREAK COMING. With the American Army on the Marne, July 10.—(By The Associated Press)—The fronts west and east of Chateau Thierry, where American troops held positions, have been unusually quiet, but it is believed that heavy fighting may break loose at any moment.

Last night the enemy artillery fire was far below normal. The American gunners maintained an intermittent bombardment of the enemy lines, especially in the region of Hill 204, west of Chateau Thierry.

SITUATION IN REVIEW

(By The Associated Press.) Fighting activity on the western and Italian fronts still is confined to local operations. The lull on both fronts, however, will not be prolonged as there are many signs that the great combats which marked the German offensives on the west and the Austrian stroke in Italy will shortly be rivalled.

FOE NOT YET ROUSED. Satisfactory as have been the "nibbling" tactics of the Allied command, apparently they have not yet roused the Germans to action. Franco-American troops on the French front have taken 8,400 prisoners since June 15. The German hesitation in resuming the offensive is giving the Allies, although prepared to meet it, little concern as day by day they improve their positions by advances in local operations, which a year or so ago would have been looked upon as sizeable battles.

In an attack against the new French positions in the Longpont region, south of the Aisne, the Germans have failed to advance. The enemy has made no attempt to recoup the losses sustained in the French forward movement southwest of Noyon, in which the Germans lost 530 prisoners and 80 machine guns. The weather on the British front has been rainy and unfavorable.

BERLIN CLAIMS. Berlin continues to report officially that all Allied efforts are being repulsed. Allied operations are made to appear as attacks and Allied attacks as small raids. Claim is made by the German command that successful local engagements have been fought west of Chateau Thierry, where the Americans and French hold the line northward toward the Reux Forest, east of Villers-Cotterets.

In the British House of Commons yesterday, Sir L. Money, Parliamentary Secretary to the Ministry of Shipping, announced that the percentage of ships lost, while homebound to the United Kingdom since Jan. 1st, 1918, was only a little more than one per cent. The losses of food ships during the same period totalled less than 1.4 per cent.

AUSTRIA REFUSES GERMAN GENERAL

Will Not Accept Otto Von Below as Commander-in-Chief

WANTS MORE TROOPS. Idea of Revenge on Italy Has Been Temporarily Abandoned

By Courier Leased Wire.

Rome, July 10.—Austria has declined to accept the German general, Otto von Below, as commander-in-chief of the Austrians on the Italian front, because Germany refused to send twelve German divisions with him, according to the newspaper, Epoca, which bases its statement on Swiss reports.

Austria, it adds, has temporarily given up the idea of revenging herself for her recent defeat by Italy. Despatches from Rome through Paris on July 7 reported that Germany intended sending three army corps to the aid of Austria to be put under General Otto von Below as commander-in-chief of the Italian front. Reports from Zurich several days earlier declare that General von Below has been appointed commander-in-chief, but there has been no official confirmation that such a change in command had been effected or was contemplated.

DESERTIONS IN BULGAR ARMY ARE ON INCREASE

Deserters Agree That Internal Conditions Are Unbearable And That Hope of Victory Has Vanished—Spirit of Revolt Spreads

By Courier Leased Wire.

London, July 10.—Desertions from the Bulgarian army on the Macedonian front are increasing greatly, French headquarters in Macedonia informs the Salonik correspondent of The Times.

All the deserters say that conditions in Bulgaria have become unbearable and that hopes of an ultimate victory have vanished. Many units recently have refused to obey orders to attack. The submarine danger in the Mediterranean is declining, the correspondent adds. Supplies needed in Greece are arriving with greater regularity.
