

SIXTH YEAR

CHOLERA IN G.T. BRITAIN

A SEVERE CASE OCCURS ON THE MERSEY

Seven Deaths at Gibraltar—A Threat to Stop the Supplies of the Garrison and People—The Number of Cases Increases.

LONDON, Aug. 21.—A girl 7 years of age at Wigan, on the Mersey, to-day, is the only case of cholera in the north of England.

TORONTO, Aug. 21.—Two new cases of cholera and one death from disease were reported here yesterday.

Quarantine on vessels arriving from Portugal has been abolished. The troops are in excellent health, and no cases of cholera have been reported for several days.

There have been altogether seven deaths from cholera here up to date.

The seven deaths from cholera at Gibraltar up to date are all within the Spanish lines. The government of Gibraltar is about to impose two days' quarantine against arrivals from the country.

It is reported that if this is done, the Spaniards in spite of the opposition of their government will continue to receive Gibraltar off from all supplies from the town.

MADRID, Aug. 21.—Throughout Spain yesterday there were 510 new cases of cholera and 1644 deaths.

The excitement among the people of the Canary Islands caused by a few deaths and a strange sight at the residence of Mrs. Thos. Wood, whose infant child died Wednesday.

When the undertaker was preparing the body one of the party suddenly exclaimed that the figure of a cross and chalice could be seen on the white cloth that covered the child's face.

The others looked and saw. Wood went out and people began to flock to the house and to the church to see the child.

The child was taken to the church and placed in a coffin. The cloth was frequently wet with water, but the figures were not seen.

There were 25 deaths here from cholera during last night.

SPAIN VERY WEAK

Over Germany's Annexation of the Car. lines.

MADRID, Aug. 21.—The reply of Germany to Spain's protest in reference to the former's annexation of the Caroline Islands has been received by the government here.

It is concluded in this city that the German government offers to submit the claims of Spain to the Caroline Islands to a fair examination.

It is reported here that the Spanish government has accepted the offer of the German government to submit the claims of Spain to the Caroline Islands to a fair examination.

The feeling in Madrid against Germany because of her assumption of the possession of the islands is no longer as bitter as it was.

At a meeting of the geographical society last night various members made speeches in denunciation of the action of Germany. Their remarks were received with applause.

Fears are entertained that a hostile demonstration will be made against the German government in consequence of a policy of German aggression.

A patriotic address has been given by the Caroline Islands will, it is expected, be made here next Sunday.

The irritation of the people increases hourly. The official press is more indignant over the seizure of the Caroline Islands than the opposition press.

Count von Solms-Sonnenwalde, the German ambassador to Spain, now abstains from visiting the theatres and avoiding the public places and places of amusement.

It is semi-officially stated that the government intends to repeat the assumption of the islands unless Germany abandons her claim to the Caroline Islands.

Spain's African policy to-day denounces Germany for trespassing upon Spanish rights. The society has decided to send a protest to the German government.

A MILLIONAIRE MURDERER

The Marquis Demore Kills a Cowboy on His Return to Little Missouri

BISMARCK, Dak., Aug. 21.—The Marquis Demore, a millionaire cattle man, has been indicted on a charge of murder by the grand jury. The charge has been hanging over him for more than two years.

When the marquis first settled in the bad lands he fenced in a large tract. The cowboys objected and bad blood was engendered.

While in Bismarck one day the marquis received a despatch warning him against the cowboys, who had threatened to kill him on his return to Little Missouri.

He returned, but stepped from the north side of the train, while the cowboys awaited his arrival in the south side.

He succeeded in getting home but the cowboys surrounded his premises. The marquis and two friends crept through the woods to safe shelter and awaited their opportunity, when the three fired.

One of the shots killed one of the cowboys. It is known who shot him but the man but the marquis was arrested, given a hearing and discharged.

The Marquis De More is an son-in-law of Baron Von Hoffman of Wall street, New York.

CLIFFORD LLOYD ON IRISH SELF-GOVERNMENT

His Friends Being Out of Power He Expresses the Opinion that Dublin Castle is a Nuisance and Should be Abolished.

LONDON, Aug. 21.—An intimated recently the Irish question is already beginning to show new developments. Clifford Lloyd, the best-known divisional magistrate in Ireland during the disturbed period, writes four columns in the Times under the head of Political Necessities in Ireland.

He has formerly been famous for administrative vigilance, was sent on a special mission to Egypt because of the supposed danger of assassination and as a reward for his services. He now takes an advanced radical view and advocates the re-organizing of the entire organization of the Irish bureaucracy established in Dublin, and the incorporation of Ireland into an integral part of the united kingdom, from which the Irish people are excluded.

DEATH OF DR. MACDONALD

Opening of an Inquest—An Announcement of the Cause of Death

An inquest on the body of Dr. W. H. Macdonald, was opened yesterday morning at 11 o'clock by Coroner Johnston. The members of the jury were J. T. Macdonald (foreman), Joseph Cresswell, J. M. Somerville, John Wilson, Frank Gillard, William Beaton, George Chaston, Edward J. Powell, Donald Murray, James Brown, Joseph Shields and G. C. Smith.

The jury viewed the body upon a post mortem examination, being made by Dr. Sheard and Dr. Teskey. Mrs. Elizabeth Melville was the first witness. She said her husband was the first witness. She said her husband was the first witness.

On leaving the house on Wednesday to go to Mr. Priestman's he was in good spirits and seemed exceedingly well. He returned at 12 o'clock, spent a few moments in his study and went to bed.

At 3:30 in the morning he was called to him to breakfast, and on receiving no answer opened the door and saw him stretched on the bed to all appearances dead. She did not get up until about 10 o'clock, when she immediately gave the alarm.

She had heard the doctor complain of a headache the night before. Her husband was away on Wednesday night, and she and Mrs. Gros were the only people in the house besides deceased.

The room was undisturbed until he was under his pillow and his money in his pocket. There was no peculiar smell in the room.

Dr. T. H. Stark said that he knew deceased well, and that two or three years ago he had complained of his head.

The inquest was adjourned at 8 o'clock in order to allow the doctors time to prepare the report of the post mortem examination.

On returning Dr. Sheard read his report. He had found all the organs including the heart to be in a normal condition.

After being closed for a few minutes the jury decided to adjourn till Monday evening for the purpose of having more witnesses examined and the contents of the stomach analyzed.
