ELECTRIC LIGHTS FOR PARADISE

Poles Being Set Between Bridgetown and Paradise—Important Extensions During Past Year.

The work of extending the electric light system to adjoining communities is going steadily forward. Paradise and the district intervening along the main road between this village and town of Bridgetown, is the latest to fall into line. Poles are being distributed between the town and Paradise as rapidly as possible and a number have been set. With weather prevailing anything near to present conditions the extension to the system should be in full operation before Xmas. Conditions have been wonderfully good for this work up to the present time, and may possibly continue so for a little while longer.

Some thirty-five houses are taking light and this number will no doubt be increased materially within a short time. We understand that the residents along the section effected are furnishing poles, etc., and purchase the power from the Bridgetown Electric. With this latest extension lights on the North side of the River will extend from the Western town limits of Bridgetown, with the exception of a short break up to the limits of Lawrence town East line.

No doubt within the early future lights will be extended down through Granville and Kehone lamps become a reality in homes along the main highways in this part of the county.

On the South side of the river electric lights are round from Tupperville up to East of Lawrence town barring a small section of country. Probably ere long these two small breaks will be filled in and a continuous stretch of country between ten and twelve miles in length will be electrically lighted.

PROSPERITY IN CANADA

Sir Robert Clough Says There Appears General Contentment.

London.—Sir Robert Clough, formerly of the House of Commons for Keighley, Yorkshire, who has just returned from a visit to Canada, expressed the opinion that Premier Bowden's policy should appeal to the workers if there was time to put it clearly before them.

"During the visits I have paid to Canada," says Sir Robert, "I have noticed a standard of prosperity which I would be gratified to see among our own workers. Every one is well dressed and there is no air of poverty. General contentment is self-evident, which is contrary to the gradual and general lowering of the standard of living recently so regrettable an influence in this country. Almost all the inhabitants in Canada seem to have money for the purchase of automobiles. I was informed by one of my hosts that his laundress came to work in her motor car. I think our free trade orators would have difficulty in finding a parallel for that here. It is rare to see any suffering at all in Canada, it is only from the tightness of money which at the present time is universal."

Mr. and Mrs. Harry Ruggles are visiting in Boston.

Mr. and Mrs. A. D. Brown have returned from a visit to friends in Middleton and Torbrook.

RADIO CLUB FOR BRIDGETOWN

Initial Steps Taken And Requisite Membership Will Be Secured.

A very well attended meeting, presided over by Mayor Hicks, was held in the Board of Trade rooms for the purpose of organizing a Radio and Literary Club for Bridgetown.

All initial steps were taken. Mayor Hicks was appointed President and Mr. G. P. Humphrey Secretary at the meeting. The objective aimed at is a membership of at least forty at \$10 each, and it is anticipated that this number will be readily secured. During the season it is expected that concerts by radio will be available to the public of town and surrounding country.

CANADIAN SALES TAX AMENDED

New Regulations Is Announced Regarding Invoices.

Ottawa.—An amendment regulation in regard to the Sales Tax has been issued by the Department of Customs. It deals with the showing of the sales tax separately on invoices, and is limited to sales by licensed manufacturers or licensed wholesalers direct to retailers or consumers. The regulation issued in October provided that in these cases the sales tax be not shown separately. Under the new regulation, it is optional whether it is shown or not.

The October regulations brought a strong protest from the manufacturers of clothing and boots and shoes, and a deputation waited on Hon. W. S. Fielding, Minister of Finance, in that connection. They claimed that they had made large sales to retailers on the understanding that the sales tax should appear separately on the invoice, and that new regulation, which provided that they "shall not show the tax as a separate item", would cause them heavy loss.

Never judge a man's worth by the taxes he pays.

PORT WADE

James W. Snow, Manager of the Port Wade Lumber Co., Ltd., is sawing an order for heavy timber for E. R. Reid, who is building a valued addition to the Victoria Beach Bungalow.

Wilfred Kendall, of St. John, is visiting his parents at Chestnut Cottage.

Lumbering operations will be quite extensive this Winter in this and adjacent sections. Two firms, Barnum and Smith, are getting pulp wood for export from this pier.

James Ellis and family have moved from Lynn, Mass., to their home here. It is hoped Mr. Ellis may find profitable employ here so as to stay with us.

Amel Casey purchased recently a valuable pair of oxen of M. F. Prosser. Mr. Prosser and family have moved back to Tusket, Yarmouth Co. He is engaged by same firm for crusting lands in Newfoundland and has gone there a few days since.

Surprise parties are the rage here now. Money seems to be plentiful. This speaks well for the pulpwood industry.

We have the second store in sight. One is not enough for a large village like this. "Money makes the mare go."

A journeyman tailor in the person of H. Green, Esq., has located in this village, cleaning, pressing, etc. This is a valued addition to our village, which will make us look more refined.—Next, the "Sugar Rottery."

VICE-PRES. MATTATALL VISITS AUTUMN LEAF REBEKAH LODGE

Monday evening nominations for officers for ensuing year were received at Autumn Leaf Rebekah Lodge and election will take place on Dec. 17th.

There was present with the members, Mrs. Mattatall, of Truro, Vice President for the Maritime Provinces, Jurisdiction of the Order of Rebekah. She gave an interesting address on matters of interest to the Order, the strengthening of Lodges and also a number of remarks on the Oddfellows' Home at Pictou.

The famous birthday cake described in our last issue was cut and served with other refreshments, thus concluding an enjoyable and profitable evening.

UNITED STATES AND CANADA AGREE ON LIQUOR MEASURES

Washington.—Administrative arrangements between the United States and Canadian governments will be made effective "in a reasonable time" to effect an inter-change between them of information respecting the clearance of vessels carrying intoxicating liquors from Canadian ports; the smuggling of liquors into the United States and smuggling of narcotics, silks and other merchandise from the United States into Canada.

This announcement was made by the State Department after Assistant Secretary Moss, of the Treasury, had conferred with other members of the commission which attended the recent conference at Ottawa with him. The statement said that treaty arrangements between the two governments also would be necessary before some of the proposals could be put into effect.

It was the consensus of opinion, the statement added, that the representatives of the Canadian government participating in the conference "indicated a sincere desire to co-operate with the United States so far as might be possible under their laws."

A THOUGHTFUL EYE

As the conductor passed down the car he came to a man sitting with his eyes closed. "Wake up, sir," he said, "I want your fare."

"It's all right, friend," said the man, "I'm not asleep, but I do hate to see the ladies standing."

SUNSHINE BIBLE CLASS CONCERT

A Musical Evening of Much Merit With Amusing Playette.

An entertainment of more than ordinary merit was given in the Methodist Church Sunday School Room Monday evening by local talent, assisted by Rev. W. H. Rackham, of Lawrence town.

The orchestra contributed four numbers; Hallelujah Chorus by J. Lewis, Idyll Twilight Shadows by J. Albert Snow, Romance of Trombone by C. W. Bennett, Rosalena Waltz by Edward Hazel. This was exceedingly well received.

The Bridgetown Male Quartette—Messrs. A. C. Charlton, Rev. J. H. Freestone, George and Chas. Wheeler, rendered to fine effect: "Songs of a Summer Night," "The Old Place," "A Trombone solo," "Triple Tongue" by Mr. Ross A. Bishop, was a delightful number. Appreciated readings were given by Mrs. Hopkins and her little daughter Lydia.

There were solos by Rev. W. H. Rackham, Rev. J. H. Freestone, Mr. H. B. Hicks and also by Mr. George Wheeler and quartette chorus, and by Mr. Charles Wheeler. These were all of a high order.

Other splendid features were: piano duet by Mrs. Freeman Corbett and Mrs. A. R. Bishop; vocal duet by Messrs. George and Charles Wheeler. A most diverting feature was a playette in which the characters were Belinda Racket (R. E. Burns) Adolphus (Harold Price), Carlissa Melidmay (May J. Marshall), Penelope Ponder (Bertha A. Fulmer). A piece of a donkey's tail caused misunderstanding and domestic infelicity which was finally straightened out when the lock was properly identified.

Mr. J. M. Fulmer presided at the entertainment and a hearty vote of thanks was tendered to local and to outside people and to all who made the evening such a success.

PERSONAL MENTION

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Mr. G. E. Nichols has gone to Boston, where he will remain for the Winter.

Miss Aileen Miller was a visitor in Kentville on Friday with her sister, Miss Marguerite Miller, who is a patient at the Sanatorium.

Miss Harriett Cahill, who has been a guest of Mrs. W. C. Bauld, Upper Granville, has returned to her home in St. John.

Mr. and Mrs. S. B. Chute left for New York last week where they will spend several weeks, afterwards proceeding to Haines City, Florida, where they will sojourn for the Winter.

Mr. Chute reports the prospects very promising this year for an abundant fruit crop in his extensive orange groves in the South, and after a strenuous season gathering and marketing his 25,000 barrel apple crop in the Annapolis Valley, he will arrive in Florida at an opportune time to superintend the gathering of a bumper crop of oranges and grapefruit.—Berwick Register.

Miss Evelyn Purdy, formerly of Bridgetown, but now Assistant Superintendent at the Yarmouth Hospital, has recently completed a course in X-Ray work in Boston and has returned to her position at Yarmouth.

Mr. Roy Donaghy was called home from Boston Friday, owing to the serious illness of his brother, Harry, who is a patient at the Victoria General Hospital, Halifax.

Mr. J. P. Orlando arrived home from Boston on Tuesday.

Mr. and Mrs. J. W. Peters have returned from a visit to St. John.

Dr. N. R. Warey and his husband, Mr. Geo. H. Warey, left on Friday for Newton, Mass., accompanied by the best wishes of their many friends. The doctor will practice her profession in Newton, Mass.

Mr. F. E. Bath was on a business trip to Halifax last week.

Mr. Max Miller left for Boston last Friday.

Mr. Laurie Manthorne, of Boston, arrived last week and will be the guest of his father, Mr. Wm. Manthorne, until January.

Mrs. R. J. Bishop, of Round Hill,

UPPER GRANVILLE

Mr. S. K. Mack has greatly improved the appearance of his residence by recent painting.

Miss Alice Campbell is having her initial lessons in public telephoning and is employed for a season in town.

An increase in the population in this vicinity forecasts a peaceful year.

The wonderful mild Autumn has enabled farmers far and near to do an unusual amount of ploughing in contrast to a year ago, when snow covered the hard frozen ground, remaining all Winter and could be seen in patches late in May.

A very profitable meeting of the W.A.C.E. Upper Granville branch, was held at the residence of Mrs. Barriett Gillis on the 29th inst., Rev. and Mrs. Underwood being present. Dainty refreshments were served at its close.

Kind sympathy is extended to Mrs. Adam Clark and other near relatives and friends in their recent heavy bereavement.

W. C. T. U. MEDAL CONTEST HELD

Five Contestants, Prizes Presented For Essays—Pleasant Evening At Baptist Church

The Women's Christian Temperance Union held a very successful medal contest in the Baptist Church on Thursday evening. The contestants were: Misses Ethel Harding, Jessie McLeod, Aileen Miller, Rose Ruggles and Aileen Fay.

Between the recitations were other numbers which added much to the enjoyment of the occasion, including duet by the Misses Orlando, solo by Miss Rhoda Hyson, reading by Miss Hattie Anderson, solo by Rev. J. H. Freestone, and recitation by Little Miss Lydia Hopkins, which excited much applause.

The prizes were presented by Principal Archibald; the first—a gold medal being won by Miss Fay. Silver souvenirs were given to the other young ladies in the contest. A box of stationery was presented to Lydia Hopkins.

While the judges were reaching a decision, Miss Crighton read the prize winning essay in the recent contest: "How do the use of alcohol and Tobacco affect good citizenship."

The prizes were presented by Rev. Dr. Jos—\$5 to Miss Annie Todd, winner of first prize and \$3 to Miss Viola Tupper, winner of second prize.

It might be mentioned that in this medal contest the candidates were judges on points a maximum of 10 for memory, general effect, expression, etc., etc. Each judge put down his or her estimates on the points each candidate merited on each of the features. These were totaled and divided by three (the number of judges) so that the award came out on the general average.

In some of the features the contest was a pretty close one between the different candidates, all of whom made a good showing.

Standing of candidates in order was Aileen Fay, Aileen Miller, Jessie McLeod, Ethel Harding, Rose Ruggles.

and Dr. C. E. McLaughlin, of Halifax, were recent guests of their sister, Mrs. L. M. Tupper, Washington St.

Miss Annie Ricketson returned on Tuesday from a pleasant visit with friends in Boston and other New England cities.

Mrs. William Cook and sister, Miss Leta Troop, returned from St. John on Tuesday, called here by the serious illness of their father, Mr. W. I. Troop.

Mr. H. W. Messenger, formerly a much esteemed teacher in Annapolis County, but now in the Railway Commission Department at Ottawa, leaves next week for Florida to spend a few weeks, accompanied by Mrs. Messenger.

Mrs. Kenneth Leslie, of Upper Granville, left on Saturday for Halifax with her parents, Mr. and Mrs. James W. Moir.

Mr. Hallett McLaughlin returned from Digby and spent the week-end with his children and other relatives at Round Hill.

Mrs. T. Harrison, Upper Granville, has returned from a visit of several months with friends in Boston.

Mr. and Mrs. H. S. Magee and family have moved into the Lessel property, South Street, purchased by Mr. Magee some little time ago.

Miss Alice Campbell, of Upper Granville, has joined the staff at "Central."

Mr. E. R. Orlando has returned home after the completion of the thirteen miles of public highway which he has had under construction for the Nova Scotia Highway Board from Chester West. His son, Edward Orlando, who has been time-keeping, returned with him and will enter Acadia to take up a course in engineering.

Mr. and Mrs. C. S. Bothamley and Miss Bridge spent the week-end with Mr. and Mrs. Elliott Smith, Wolfville.

In honor of Miss Bridge, who sails for England Sunday by the S. S. Doric, a party of about thirty friends were entertained by Mrs. Elliott Smith.

A letter received by Mr. W. A. Swift from his son Marshall conveyed the intelligence that the latter sustained a broken arm caused by a fall when his boarding house caught fire in Calais.

SOCIETIES ACTIVE IN PARADISE

B. Y. P. U. Enjoy Pleasant Evening At Home Of Mr. and Mrs. J. S. Longley—Social and Personal Notes.

Friday evening, Nov. 30th, the B. Y. P. U. met at the home of Mr. and Mrs. J. S. Longley. A delightful evening was spent in guessing contents and popular games. At the close of the evening the hostess served a substantial refreshment and the large number present gave expression to an appreciation of another of the many good times enjoyed in the Longley home.

Under the management of the class teacher, Mrs. H. W. Longley, the "Willing Workers" Bible Class met Nov. 26th to re-organize and arrange a program of work for the coming Winter. Class meetings are being held weekly on Saturday evenings. At present the young ladies are busily engaged in working for the Christmas sale.

Mr. Herman Spinney, a ministerial student at Acadia, spent the week-end of Nov. 25th at the parsonage with Rev. and Mrs. W. Steadman Smith. Mr. Spinney preached the Sunday evening sermon in Paradise.

Mr. and Mrs. J. S. Longley recently visited in Kingston with Mrs. Lantz, sister of Mr. Longley.

Mrs. John Jackson is convalescing in the Middleton hospital following an operation for appendicitis.

After a long illness the death of Mr. David C. Freeman occurred Nov. 23rd. Following the funeral Mrs. Freeman left Paradise for New Jersey, accompanied by her two sons, Mr. Ralph L. and Mr. Fred C. Freeman.

Mr. Harry Burnie, of Litchfield, spent the week-end at the home of Mr. and Mrs. Millege Daniels.

Do not forget your part in connection with the church sale and supper to be given in the church vestry Dec. 10th.

"Time must hang heavy on your hands." "Why do you say that?" "I see you wear a wrist watch."

UNITED CHURCH NOTES

The social evening under the auspices of the Youngs Women's Athletic Club was a decided success. Two Volley Ball matches were played—the first at the beginning of the evening between the Tuxis second team, and the girls' second team resulted in a clear win for the boys. The second game at the close of the evening between the two first teams was a hard fought affair from beginning to end. The girls won the first two quite easily and from then on the end of the series it was touch and go for either side. The boys just managed to win by one point. Other sociable games were played and then a very dainty lunch was served. We understand the Tuxis is arranging a return social for next month.

The concert under the auspices of the Sunshine Bible Class was given Monday night in spite of the heavy rain. The hall was nearly filled and the amount taken at the door more than covered the balance needed for the new carpet. Miss Ruth Burns and her committee deserve the highest praise for their untiring efforts in arranging the affair and indeed all who so willingly helped are very much appreciated. The United Church Orchestra of twelve pieces contributed several items of the programme and altogether the concert was of a very high order. The furniture loaned by Messrs. Hicks & Sons for the playette served to make it quite realistic.

HEAVY FINE IN SYDNEY LIQUOR CASE

Sydney.—H. Percy Scott, as Director and controlling stockholder in the Dows Brewery, Montreal, a subsidiary company of National Breweries Limited, was fined \$500 and costs in the police court, having been convicted of an infraction of the Canada Temperance Act in shipping a carload of ale consigned to Rafal Maturgo of this city.

Magistrate Hill took the view that as the accused was one of the principal shareholders in the company, the onus should rest with him, and found for a conviction. The maximum fine for this infraction of the law, is \$1,000, but this being a first offence the magistrate imposed the modified sentence.

ALL DISPLAY ADVERTISEMENTS MUST

be in this office by 12 o'clock noon on Monday of each week.

NOTES AND NEWS OF LAWRENCETOWN

Col. Bent Gives Fine Address to Brotherhood—Societies Active—Personal Items.

Lawrencetown.—Rev. Dr. and Mrs. Borden spent the week-end at Lawrencetown, guests of Mrs. J. B. Hall. Mr. and Mrs. McNay have received the news that their son, living in Calgary, has obtained a fine position in an oil company.

Mrs. G. Parker, Prince Albert, is a guest at the home of Mrs. Warner.

Mrs. Ruth Beals will be out of town for the Winter. Her house is closed.

Mrs. Tupper has a young lady visitor at her home.

Miss Nickerson, Williamham, was in town on Thursday.

Mrs. A. Ward will soon return to Lawrencetown.

Mrs. McLaren left on Friday for St. John to attend a meeting of Baptist W.F.M.S. Mrs. McLaren will also visit several places in N. B. in behalf of the Society.

Baptist Ladies Sewing Circle have been very busy—work coming in as people prepare for Winter.

Methodist ladies met at the home of Mrs. C. P. A. Patterson on Tuesday evening. A busy, pleasant time—needles and tongues kept up pretty well.

A class of young workers met the same evening at the home of Mrs. William Prince.

Thursday evening "The Brother" was at home. Music, readings, speeches. At the close a dainty supper was served. Mr. E. Shaffner presided and as usual in his bright and pleasant manner. Mr. Horton Pihney, Wolfville, was present and spoke kind and hopeful words to the gathering. Col. Bent gave a fine address, one not easily forgotten. He told of quiet heroes; deeds of daring, and above all he told of silent faith, deep religious feeling in the hearts of soldiers. One incident of many may be mentioned. The men were on the march going easy, laughing, talking, singing, when they came near a "Wayside Shrine", an old French woman was praying. As one man, the ranks stood silent, then went quietly past. Many a brave soldier thought of the mother in Canada, who, daily, in homes and churches, prayed for them. It well we have men like Col. Bent, brave in the battle field, faithful to his comrades and to the best interests of his native land. Rev. A. H. Whitman closed with prayer. The people passed out into the peaceful night, deeply thankful that peace is in our land. We must not forget at what a price it has been obtained.

A new building is in progress on the land of Mr. William Hall.

It is said that Cupid has been seen near Lawrencetown.

MINE WAGE PARLEY HAS COMMENCED AT GLACE BAY OFFICE

Representatives of the U. M. W. Go into Conference With General Manager McCann.

Glace Bay, N. S.—The wage negotiations between the Dominion Coal Company and officials of the United Mine Workers opened at the office of H. J. McCann, general manager of the Dominion Coal Company.

H. J. McCann represented the British Empire Steel Corporation.

Representing the United Mine Workers are Sibby Barrett, provisional president of District 26; Lewis McCormick, Kent Foster and Robert Baxter, other provisional officers, and the following international officers: William Dalrymple, William Henston, John Browne and Robert Foster.

It is expected that today's negotiations will only be of a preliminary nature and that the conference will not get down to an actual discussion of the wage contract before the middle of the week.

It is understood that the miners are looking for the 1924 rates while the coal company, is not unlikely, in view of its new retrenchment policy to seek a reduction. The negotiations are likely to be long drawn out.

If you owe for The Monitor, send in your subscription debt at once. You yourself will feel better for paying your debts, and we will use it to pay ours, and so keep the money going. This is what makes good business and good times.

SHIP ONLY THE BEST APPLES

Reports are still coming to hand from England to the effect that numbers of shipments contain drop apples, thus affecting returns and also the reputation of Nova Scotia fruit. While it is hardly possible to conceive that these conditions prevail to any great extent still the influence created in this way is far beyond the actual volume of attempts on the part, here and there, of an unscrupulous grower to slip something over. The old adage "Honesty is the best policy" has no truer application anywhere than in the matter of fruit shipments to the United Kingdom. After years and years of trading it is surely now high time that even a grower who was inclined to sharp practice should be able to learn that he cannot get away with such things. He might, it is true, in local markets, but not overseas. He gains nothing himself. He loses out all along the line and indirectly injures his brother producer by helping to create an unfavorable opinion among buyers and consumers.

Whether there is anything at all in the shipment across of No. 3's is a very debatable question and many of the best informed growers have no hesitation in saying that it is much better to dispose of such fruit to evaporators than to send it to the United Kingdom, adding for one reason that this low grade fruit gluts the market and lowers prices on the better grades. Others again contend that the poorer fruit is taken up by people who cannot afford to buy one's and two's.

However, apart from the last mentioned argument is the question otherwise of profitable handling of No. 3's by the grower. Following out general prices we think as a rule it is more profitable to dispose of No. 3's in this country to evaporators than to take chances on shipment to England with high handling charges against poor gross returns. In this connection we would welcome some expression of opinion from readers who are engaged in the production of apples for market.

BUYING A LOT

Canada is running second in purchases of United States' goods at the present time. Great Britain has displaced this country as the best customer of American manufacturers. Exports from the United States to Canada during the eight months ending Aug. 31st were \$449,600,000 and to the United Kingdom \$478,600,000. In the same period of 1922 Canada bought \$354,000,000 and the United Kingdom has also displaced Canada in sales to the United States. Imports into the States from Great Britain were \$258,500,000 in the eight months as compared with \$270,700,000 from Canada. (St. John Telegraph-Journal).

TALK IT OVER THIS WINTER
Baltimore Sun: What one should like to know is whether a nation becomes intelligent because it has colleges or has colleges because it is intelligent. There is a question for the debating teams.

INVESTIGATING FREIGHT RATES

Suggestions that the Maritime Province engage an expert to deal with freight rates lend interest to an investigation the Public Accounts Committee of the British Columbia Legislature is now conducting into accounts of the freight rates investigated by that Province. Among the facts disclosed is that the lawyer who acted for the government had been paid \$48,000 prior to the presentation of his last bill of \$39,369, still unpaid, a total of \$87,369 to date. It also developed that the Province was called upon to pay, in addition to travelling expenses to Ottawa, or three experts, the travelling expenses of their wives as well. The official explanation is that these experts made their own terms, and one of the terms in most cases was that the travelling expenses of their wives should be paid across the continent and back again. Other expenditures uncovered by the Public Accounts Committee inquiry disclose that investigating freight rates can be made a very costly business, involving fifty-cent tips to railroad porters, advertisements in newspapers, and other expenditures. It must, however, be remembered that they do things in a big way in the West. British Columbia's experience, both with lawyers and experts, suggests that a substantial saving would seem to be possible in fees and travelling expenses under Board of Trade Management.—St. John Globe.

IS THIS PEACE?

A "Northern European government" has just bought a million gas masks from the surplus British stock. Resale to Russia or Germany, according to the contract, is prohibited, although how that would be prevented is not quite clear. Demand for instruments of gas warfare is not an encouraging peace sign.—(Montreal Gazette.)

THE THREE-MILE LIMIT

London Daily Telegraph: The case against extending the three-mile limit is not of a "purely formal or technical" character. Such an extension as is desired by Washington might well lead to serious complications wherever questions of seaboard jurisdiction should be raised in the future—as they frequently have been in the past—unless the most clearly-worded and positive limitations were attached to the concession which it is sought to obtain for this specific purpose. But it is our own consideration that it would be well for us to enter into such an arrangement as has been proposed. The view that the emergency which it is desired to cope with is a temporary one has been borne out by recent developments of the "run-running" traffic; and the removal of a serious obstacle to friendly feeling between the two nations is an object of policy more than sufficiently important to justify the taking of an exceptional step.

THE FALL OVERHAULING

There are a few little details involved in automobile ownership which need attention before winter comes. A fairly thorough checking up now will enable the possessor of a car to go through the frigid term with a minimum of time spent on his machine and during the coming months. A few motorists put their cars up for the winter. Their number, however, is rapidly decreasing. With the greatly increased popularity of closed cars and with the improved facilities, which make comfort in driving in zero weather possible, the motor car is fast becoming an all-year-round necessity. Even those who will put their cars in storage for a short time may find it desirable to check up on their automotive property now. For right now is the time for all good motorists to come to the aid of their pet vehicle.

First in order is a thorough check up on the engine. The carbon should be scraped from the cylinders if there is any considerable amount of carbon there. See if the valves need to be ground and adjusted. After the extensive touring of the summer season this is likely to be the case. See that the spark plugs are cleaned and properly adjusted.

Clean the vacuum tank and test the float. Drain the oil reservoir, if this has not been done lately, clean it thoroughly and refill. Oil does not flow as freely in cold weather as in warm. Take this into consideration in selecting the grade of oil for winter use. Consult your book or instructions for suggestions in this respect.

See that the engine is tight in frame. In fact see that all bolts, nuts and screws are properly adjusted and firm. Be sure that the ignition instruments are cleaned and oiled, the spark plug adjusted, and the distributor examined for tension the starter brush springs.

Inspect the carburetor float valve and carburetor needle valve to see if they are seating properly. Clean out the carburetor body and strainer chamber.

Consider the clutch. Is the collar properly lubricated and adjusted? Look into the transmission. Probably it should be drained, cleaned and refilled. See that the transmission support nuts are tightened as well as possible. Inspect the service and emergency brakes. Have them adjusted if necessary. After long trips they are quite likely to need attention. Perhaps they will require relining.

Consider also the front axle if the steering knuckle pins are badly worn. Examine the wheel bearings, adjust them and repack in grease.

ANNAPOLIS

Annapolis Royal.—Mr. and Mrs. John McKay were the recipients of many congratulations on Wednesday, Nov. 21st, when they celebrated the fiftieth anniversary of their wedding day. Rev. A. Gibson, Pastor of the Baptist Church, was among the friends who called and presented a valuable gift and address on behalf of his congregation, of which Mr. and Mrs. McKay are devoted members. It is an added matter of congratulation that Mr. McKay has recently recovered from an illness of long standing. In the year of March, 1920, which destroyed the post office, of which he was janitor, Mr. McKay was seriously injured and has been a constant sufferer until this summer, when he slowly began to recover.

Mr. and Mrs. McKay (who was formerly Miss Hannah Beiler) have spent all their wedding life in Annapolis Royal. One daughter, Mrs. Charles Frost, also resides here, and a son, Primrose, has been in Yarmouth for a number of years. Several of their children died in infancy and early childhood. A grandson, Scott, has made his home with them in babyhood. The community in general join in offering good wishes and hearty congratulations to Mr. and Mrs. McKay.

HABIT OF INTERRUPTING

Can we not learn a little more self-restraint when others are talking, so that we may cure what is really a national habit; that of interrupting? Watch any group and see how rare is a good listener; how rare is that supreme of all courtesies—to let another talk without interrupting.

Most of us are utterly unconscious of the manner in which we refuse to allow another to talk and to finish what is being said without interruption. And yet there is not a more beautiful form of courtesy—that which permits another to speak and to finish before we begin.

And by the same token there is nothing more inconsiderate, more distinctly rude, than to break another's talk and take from another the opportunity which is his or hers.

Next to what we wear, we show our inmost selves more truly by our behavior in conversation than in any other contact in life. It is the man or woman of fine instinct, of a regard for the nicety of an occasion, who permits another to finish what he has started to say, who exercises that self-control that stamps the person of gentle birth and does not interrupt.

LIMBS AND BODY ALL SWOLLEN

"Fruit-a-tives" Relieved Both Dropsy and Sick Kidneys

The Wonder of Fruit Medicine

Those who know they have Kidney Trouble—who suffer with pain in the back—who are up frequently at night—will welcome the news that "Fruit-a-tives", the wonderful medicine made from fruit juices and tonics, will positively relieve Kidney and Bladder Troubles—as proven by this letter.

"Our little girl had Kidney Trouble and Dropsy—her limbs and body were all swollen. We decided to try 'Fruit-a-tives'. In a short time, the swelling went down. Now, she is the healthiest one of the family!"

W. M. WARREN,
Port Robinson, Ont.

50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

A BETTER JOB

Our own candid opinion is that we ought to have more persons laying bricks and trowel throwing them. (Philadelphia Inquirer.)

FAITH PROVED

The directors of the Standard Bank, in announcing that they have recently increased their holdings of stock in the bank, have given a fine example of candor as well as business acumen.—(Toronto Globe.)

SEAGULLS CHANGE

A new campaign has been started in Germany. One the beer jugs and stands of the saloons there have been printed the words: "God Save Germany." A few years ago these jugs reminded customers to "strafe England." How slogans change.—(London Telegraph.)

PLEASED WITH ST. JOHN DRY-DOCK

Sir George Hunter, of Big English Firm, in Town.

(St. John Daily Globe)
Sir George Hunter, British Shipping Magnate, of Swan, Hunter Co., England, who landed at New York recently on the S. S. Tyrrethia, arrived in his private car Metapedia attached to the regular Montreal train, from England to Montreal. Sir George was accompanied by his Secretary. He spent the morning looking over the new St. John drydock and he spoke highly of the plant, asserting that it is the finest and most modernly equipped drydock he has ever seen.

Owen Hunt and his sister, Olive, left on Friday to visit friends in Boston.

F. H. Woodworth has been appointed assistant station agent.

H. O. Egan, Assistant Provincial Scout Master, has reorganized the First Lawrencetown Troop of Boy Scouts. Addresses were made by Col. C. E. Bent, Rev. A. H. Whitman and the Assistant Scoutmaster, Aubrey Whitman.

Rev. Dr. Borden, former President of Mount Allison University, addressed large audiences in the Methodist Church Sunday afternoon and evening. The choir, assisted by the Lawrencetown orchestra, furnished special music.

THINK BALDWIN'S CHANCES POOR
New York World's Comment On The British Election.

The British election is a necessity "in order to produce a Government which can govern" is the view of The New York World.

This newspaper declared Premier Baldwin was obviously at a standstill with his Cabinet divided, his foreign policy a failure, unable to remedy unemployment by restoring the export trade, and bound by Bonar Law's pledge against tariff changes.

The tariff upon which the Conservative Party will go to the country, cuts a good deal deeper than it did in the past, the paper asserts, for the adoption of protection now would probably mean the withdrawal of Great Britain from an active party in European affairs, a tariff for the United Kingdom plus preference within the Empire being the alternative to the attempt to restore "the Euro-But a tariff for Great Britain is not at all like a tariff for the United States," the paper continues. "The difference is that the United States is an enormous agricultural and manufacturing area, while the United Kingdom is a small manufacturing area, for that reason the opposition to the Conservatives will be very powerful. The opposition has already shown great enough strength to unite the Lord George and the pean markets.

TO ERADICATE CADLOCK FROM THE FIELDS

Kalinite Will Kill This Weed.

The Montreal Star of a late date has the following letter from Prof. Trueman of the N.S.A.C. that is interesting and may be useful to many of our farmer readers: this Nova Scotia Professor says:

Numerous reports from Great Britain have stated that powdered Kalinite has been found useful in destroying wild radish, the weed known in Nova Scotia as "Cadlock." During the past summer the Nova Scotia Agricultural College tested this material in a small way. A quantity of Kalinite was ground to powder in a ball-mill and applied on a small area badly infested with cadlock. The Kalinite was used at the rate of about 400 lbs. per acre and applied with a hand blower. The results were quite satisfactory as practically all the growing cadlock was killed. The plants were quite small only a few inches high when treated. The application was made early in the morning while the leaves were wet with dew and the air was still. All the cadlock plants receiving the dust were killed and only a small number developed larger.

This preliminary test indicates strongly that cadlock may be greatly reduced and practically controlled by the use of Kalinite. Some conflicting reports have been received from England but in the main their tests have been quite successful in destroying this serious weed. The Nova Scotia Agricultural College cannot make complete and definite statements based on the results of the one test made last summer. The indications are hopeful, however, and much more extensive trials will be made the summer of 1924.

J. M. TRUEMAN,
Turo, N. S.

(This Kalinite is flesh-red in color; of a mineral nature, a magnesium sulphate and is used as a fertilizer.)

CLEAN SWEEP FOR NOVA SCOTIA AT ROYAL WINTER FAIR

J. R. Semple, of Truro, and Howard Corning, of Yarmouth, Won Senior and Grand Championships For Jersey and Guernsey Respective. —Other Maritime Winners.

Toronto, Nov. 23.—J. R. Semple, of Truro, and Howard Corning, of Yarmouth, made what the Toronto Globe called a "clean sweep for Nova Scotia" when Semple's bull, "Rowers Loss Bright Prince" won the senior and Grand Championship for the Jersey Breed, and Howard Corning, of Yarmouth, duplicated this in the Guernsey classes with his bull Dairymaids Captain of H. With a comparatively insignificant number of entries, the Nova Scotia breeders won more than their share of the honors at the second "Royal Winter Fair" against competition, the measure of which can only be appreciated when it is realized that this is the largest show of its kind in Canada and probably second in the world.

Corning, who brought up only two carloads of Guernseys, was probably the outstanding winner of all dairy breeds. Besides the grand champion bull, he also possesses the junior champion female and ten first places in the various classes. His achievement is in no way diminished from the fact that the Guernsey exhibit was characterized by W. E. Ashman, the associate judge, as "the best collection of Guernseys ever brought together in Canada—Nova Scotia, Quebec and Ontario competing." Roper Bros., of Charlottetown, the Nappan Experimental Farm, and Milligan and Sons, Westville, were also outstanding winners of ribbons. From the comments of ringside spectators Nova Scotia is becoming known as the home of the pure-bred Guernsey prize winning breed.

NEW BRUNSWICK POTATO CROP

25 Per Cent. Less Than Previous Year.

(Federal Official Report) Reports received from New Brunswick indicate that the crop throughout the Province is about 25 per cent less than that of 1922. In the Victoria district the potato acreage was 10 per cent less than that of 1922. The yield was 100 barrels per acre and for White potatoes, the average price has been \$1.50 per barrel of 165 pounds. Red stock Bliss variety sell at \$2.25 per barrel of 165 pounds. The potatoes are all clean and sound and one-third of the crop has been marketed leaving one third in storage and one-third still in the growers' hands. In the Federation district the acreage runs about 60 per cent of that of 1922, but the yield was 75 per cent, greater than that of last year. Twenty-five per cent of the crop has been marketed, the balance being in the growers' hands. The price received at the present time is \$1.40 to \$1.50 per barrel of 165 pounds. East Centreville—The acreage planted to potatoes in this district is 70 per cent of that of last year, with a yield of around 100 barrels per acre, which is slightly more in the aggregate than the crop of 1922. The condition is good as regards quality and disease. Eighty per cent of the potatoes are still in the hands of the grower. The price of potatoes at this time is \$1.25 to \$1.50 per barrel of 165 pounds.

A WONDERFUL WOMAN

People all over Canada are asking "Who is 'The Wonderful Heroine' whose life story—thrilling, romantic, inspiring—was published in the Family Herald and Weekly Star of Montreal. It is now announced that the story in pamphlet form may be obtained free of charge from the Family Herald by those who are not now subscribers to the paper. The publishers of that great farm and family paper also announce that a beautiful picture of "The Wonderful Heroine" will be sent free to all subscribers of the Family Herald and Weekly Star, new or renewal, who remit in time. It is indeed a remarkable offer, the Family Herald and Weekly Star for fifty-two weeks and a large picture of this splendid woman, who by her heroism, self-sacrifice and abounding trust and faith in God, by her sweet purity and astounding courage in the face of unspeakable horrors, came to be regarded as a living saint and the wonder woman of a Great Empire. The picture is in the true colors of the original, size 18x24 inches, on rich, heavy paper. The subscription price of the Family Herald and Weekly Star of Montreal, is only \$2.00 a year.

NO LUBRICANT

Perth Mall: One of the reasons, if not the chief reason, why the flow of immigrants to Australia, compared with that which in the past set across the Atlantic in a flood tide, is so inconsiderable, is that the capital is not here for the establishment of new and the extension on a big scale of established secondary industries.

Vicks Is The Thing For Asthma

Ontario Mother Tells of Stubborn Case Relieved.

Mrs. Wilbert E. Collier, of Bowery Street, Picton, Ont., says: "My little girl had a terrible case of asthma. I read about Vicks and sent for a sample. I rubbed my child's chest and throat with it and put a flannel on. Vicks did her so much good that I bought two jars. She now sleeps well, and is a different child. I would not be without Vicks VapoRub in the house."

A good way to get relief from asthma is to rub Vicks over the spine from shoulders to hips; then melt a little Vicks in a spoon and inhale the healing vapor. Also insert some in the nostrils, snuffing well back. You will be delighted to see how it clears the head.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Treatment with Vicks is especially desirable for children as it avoids so much internal dosing. Just as good, too, for cuts, burns, bruises, sores and skin itching.

At all drug stores, 50c. a jar. For free test size package, write Vicks Chemical Co., 244 St. Paul Street, W., Montreal, P. Q.

Though Vicks is new in Canada, it has a remarkable sale in the States. Over 17 million jars used yearly.

SKATING RINK FOR BERWICK IS NOW AN ASSURED FACT

The young people of Berwick, and some of the older ones as well, are rejoicing over the fact that D. L. Clute's proposed new skating rink is now positively assured.

At all drug stores, 50c. a jar. For free test size package, write Vicks Chemical Co., 244 St. Paul Street, W., Montreal, P. Q.

Of course with the skating season already close at hand, a closed rink was altogether out of the question. However, a spacious sheet of ice (providing, of course, that Jack Frost is agreeable) will be provided, the actual dimensions being 120x90 feet. Tickets to the number of sixty have already been disposed of, as "Doug" is assured of favorable support at the outset. The contract provides that the ice be kept entirely free of snow during the season, which, depending of course on weather conditions, will also provide the enterprising proprietor with sufficient exercise to keep his health and appetite up to maximum during the dull months of the year.—Register.

WIRE FENCE HABITMENTS

The Sydney Post relates that an old Pictou County farmer attended the Hector celebration and stayed over to watch the Military Ball at night. He hadn't been out in the world much and he was deeply impressed with the girls' clothes at that dance.

"Some of the ladies' clothes I see here," said he, "puts me in mind of a barb-wire fence." Somebody asked him why. "Well," said he, "it's this way—they appear to protect the property without obstructing the view whatever."

BEFORE MY BABY CAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. It was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will send that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

OCHE RE DEPOSIT AT ARDOISE HILL NEAR WINDSOR

Approximately Seven Thousand Tons Ochre in Hants County Deposit. Product Grades Purer Than Any Other Known in the World—First Find in Canada.

It seems that the mineral wealth of this Province has not yet been gauged. During the last week another "find" has been brought to the attention of the public—ochre.

To the general public this may not appear to be a valuable discovery, but, when it is explained that the only ochre used in Canada is imported from Georgia or from France, this Nova Scotian deposit takes on a new significance. Ardoise Hill, just a few miles east of Windsor, is the scene of this discovery and the men holding the mining rights on the property are F. W. Porter and J. E. Borden. Ochre which is also known as oxide of iron, is usually found deeply buried in the soil but this Ardoise find lies on the surface.

It is estimated by the independent report of the Prof. Flinn, mining engineer of the staff of the N. S. Technical College, Halifax, that there are nearly 7,000 tons of this valuable product in sight. This is a real discovery and represents a turning point in the paint industry of the Dominion.

Ochre is the base of all good paint and up to the present time thousands of tons have been imported from France, where it cost \$70 a ton. This would roughly mean that the Ardoise Hill mine is worth approximately half a million dollars.

From actual analysis this Nova Scotian product grades higher in pure oxide of iron than any ochre in the world. The Georgia product tests 63.2 per cent, while the local ochre shows 65.1 per cent. This fact makes it of higher commercial value than the imported article.

As has been stated, the Georgian mines are all underground with deep shafts and many processes to be gone through before the ochre is marketable. This deposit near Windsor lies right on the surface; in many places not more than two inches of loose loam cover the product and, better still, it is within 150 feet of the main highway and one and a half miles of the railway.

It is estimated that the cost of producing and placing in railway cars will not be more than \$1.50 a ton. The ochre has been subjected to many stringent tests and it is found that thirty different colors may be derived by heat process alone. Beautiful shades of purple, red and brown are available by inexpensive means. These are unexcelled as colors for linoleum and oilcloth.

Lower grade ochre, which is really only surface scrapings, have been submitted to the Halifax Gas Works, where an imported product has been used as a desulphurized for coal gas. The sample submitted has proven eminently satisfactory and it is anticipated that they as well as other gas plants will use hundreds of tons at this by-product every year.

Nova Scotia is a wonderful province. Nature has stored many rich treasures which still lie unworked, and it is anticipated that this find will be the forerunner of other discoveries of a similar nature in the Province. It is understood that the Canadian Pacific Railway are backing this development, and that soon crushers will be busy at Ardoise Hill grinding the raw product. It is certainly to be hoped that the people of this Province will not allow outside capital and interests to absorb this industry.—Hants Journal.

THE NOVA SCOTIA SANATORIUM CHRISTMAS TREAT

It is, perhaps, not early to remind the many friends of the Nova Scotia Sanatorium that our institution at Kentville has about a hundred war veterans among its patients, for whom a special effort is made to celebrate the season of Good-Will in cheerful and generous fashion. The public has not forgotten these chronic sufferers, and its generosity is keenly appreciated.

If any societies—Women's Institutes, Daughters of the Empire, Local Councils of Women, Boy Scouts, Girl Guides, etc., Church Societies—or individuals, wish to send contributions in the shape of money or gifts or filled stockings, please let the Sanatorium executive know as early as possible what they may count upon receiving, and when.

Letters and parcels should be addressed to Dr. A. F. Miller, Medical Sup't., N. S. Sanatorium, Kentville, N. S.

All contributions will be personally acknowledged as they are received.

R GROCER
HAS IT

VIRGINIA EAST

Mr. John Riley has returned home from Port Wade where he had been working the past five months in the pulp wood business.

A "sing" was held at Mr. Forest Robar's Sunday evening. All spent a very pleasant time.

Mrs. Forest Robar spent Thursday with Mrs. Avarad Robar.

Miss Esther Riley and her friend, Miss Alma Wentzell and driver, Mr. Murray Harris, spent Thursday evening with her parents, Mr. and Mrs. John Riley.

Mr. and Mrs. William Dunn spent Sunday afternoon with Mr. and Mrs. Avarad Robar.

Mr. and Mrs. Trum Hamilton spent Sunday with Mr. and Mrs. Odbur Robar.

Mr. Harley Potter had the misfortune to lose his cow and twin calves. A dandelion blossom was picked by Master Dennis Riley Dec. 2nd.

HAMPTON

Clinton Collins has gone to U. S. A. for the winter.

The farmers are certainly having a lovely Fall for doing their ploughing, as it is December and the ground not frozen yet.

It also seems that some of the birds have forgotten it is so late, as Mr. John Templeman saw a swallow the 24th November.

Miss Charlotte Fash has returned after spending several weeks in Port Lorne.

Mr. Harry Thorpe spent Sunday, 2nd, with Mr. and Mrs. Ralph O'Neill.

Mr. Harley Potter purchased a nice cow.

Mr. Charles Dunn is repairing his house.

Mr. Alden Chute, of Clementsvale, made special calls in this place Sunday.

Mr. Roy Orde made a business trip to Annapolis Friday.

OBITUARIES

William E. Edwards.

Annapolis Royal.—The death of a well-known citizen, William E. Edwards, took place here Monday at his home on St. James Street, after a short illness. The deceased was a son of the late John and Sarah Edwards, and was born in Hants Co. sixty years ago. The family moved here when he was quite young and about thirty years ago, he married Miss Sarah Rippey, who, with a daughter, Miss Dolly, survive him. A little daughter, Ina, died here twenty-eight years ago, and a son, Sammy, was accidentally killed in New York, some years later. Mr. Edwards, who was the oldest of a family of eleven, is also survived by four sisters and two brothers. The sisters are: Mrs. Samuel Rippey and Mrs. F. W. Pickles, of Annapolis Royal; Mrs. J. W. Williams, of Wolfville, and Mrs. Clifford Herbert, of Kentville. J. H. Edwards, High Sheriff of Annapolis County, is one brother, and the other, Ralph, of New York, visited his relatives here this summer.

For eighteen years Mr. Edwards was locomotive engineer on the New York, New Haven and Hartford Railway, but returned to Annapolis in July, 1905, and purchased the livery business of Norman Moore. Later he opened the well known Farmers' Hotel, which he successfully ran until 1922, when he sold out to James Wallace and has since lived in one of the cottages he built on the rear of the hotel property.

Probably few men were better known to the travelling public in this part of the Province than "Bill" Edwards, as he was familiarly called, and many will hear of his passing with deep regret. The sympathy of the community is extended to his relatives.

Mr. David C. Freeman.

The death of Mr. David C. Freeman, oldest resident of Paradise, and one of the oldest members of the Paradise and Clarence Baptist Church, occurred Sunday morning, Nov. 25th. Though in feeble health for some time, Mr. Freeman reached the age of 91 years. He was the son of Captain Thomas Freeman and was born in Liverpool, N. S. When eleven years old his family moved to Paradise. Like his father, Mr. Freeman followed the sea for a number of years though he settled down here on the present Freeman farm.

During his many years of life he saw buried his eight brothers and sisters, three of his children, a father, mother and wife's mother.

There are left to cherish his memory a wife, Antonetta, daughter of Rev. Silas Vido, well known and greatly beloved minister of former times; also four sons, Aubrey C., of Paradise; Frank C., M.D., of Philadelphia; Ralph L., and Fred C., of New Jersey.

During his years of usefulness, Mr. Freeman was a man of Christian influence in the church and community.

The funeral service was conducted at the home by the pastor, Rev. J. H. Belmont, the text of the funeral address was Gen. 25:8, "Then Abraham gave up the ghost, and in a good old age, an old man, and full of years; and was gathered to his people, and his sons buried him." Special music was furnished by members of the church choir. Interment took place in the Paradise cemetery.

Minard's Emblem for Cors.

THE NATIONAL WAY ACROSS CANADA

Canadian National Rail Services Are The Acme of Travel Comfort.

From the Atlantic Provinces to the West and to the Pacific, the ideal rail route is via Canadian National "The National Way."

Whether on business or on pleasure bound, the traveller has the advantage of a through rail service that is unequalled for excellence. The finest equipment of all steel trains is furnished, and the most modern of standard sleepers, compartment cars, and modern diners.

The "National Way" is also the finest scenic route, and by reason of its construction furnishes the smoothest and most comfortable journey.

From Maritime Province points there is the best of service to Montreal via the "Ocean Limited" and "Maritime Express."

From Bonaventure Station, Montreal, the famous "Continental Limited" leaves daily at 10.00 p. m., for Ottawa, North Bay, Cochrane, Winnipeg and Vancouver. This is the finest of through Transcontinental service, the equipment of these Canadian National trains being of the most modern standard.

Ticket agents of the Canadian National Railways will afford enquirers all the detailed information regarding these services. Enquiries addressed to the General Passenger Department, Montreal, will be promptly replied to, and booklets describing the territory will be mailed.

LOWER GRANVILLE

Abbott Wolfe and cousin, of Port Medway, are visiting Mr. and Mrs. W. W. Hudson.

Mrs. Maud Warrington opened her "Gift Shop" on Saturday with a fine display of Xmas goods.

Six pairs of foxes have arrived at the ranch here.

The mill for crossing pulpwood is now in operation.

Mr. and Mrs. John VanBarcom entertained quite a number of the young folk on Thursday evening, Nov. 15th, the birthday of their son Reginald. The evening passed pleasantly with games and music, after which refreshments were served.

WEDDING

WEXMAN-POOLE

A quiet wedding took place Saturday morning, Sept. 15th, in the minister's study, of the Madison Ave. Baptist Church, in New York City, when Miss Vera Mildred Poole, daughter of Mr. and Mrs. Frank J. Poole, of Bridgetown, N. S., was united in marriage to Chester Inglis Wenman, son of Mr. and Mrs. H. P. Wenman, of Englewood, New Jersey. Rev. Mr. Moore was the officiating clergyman.

Mr. and Mrs. Wenman are spending their honeymoon in the Berkshires and after their return they will reside in Closter, New Jersey.

—Taken from New York paper.

OUR FISHERMEN NO LONGER AT A DISADVANTAGE

After January 1st American Fishing Vessels Will Not Be Allowed Into Canadian Ports Except in Case of Distress.

Canada has advised the United States of her intention to terminate the policy of granting *modus vivendi* licenses to United States fishing vessels for the purpose of enabling them to buy bait, ice, lines, and other supplies at Canadian ports and also for the transportation of their catch and the shipping of crews here, announcement of this decision by the Canadian Government—a decision of great importance to the fishing industry in Nova Scotia—was made by Hon. E. M. MacDonald, Minister of Defence, in his speech at the mass meeting at the Casino Theatre.

Abrogation of the treaty will go into effect on January 1st, 1924, the minister announced amid a storm of cheers. After that date United States fishing vessels will not be allowed in Canadian ports, except in case of distress. This marks the latest phase in a long drawn out difference of opinion between Canada and the United States as to the rights of American fishing vessels to use Canadian ports. It comes in a measure as a retaliation for the placing of a tariff on Canadian fish by the United States and for the refusal of the Washington Government to give Canada a *quid pro quo* in the matter of port privileges for fishing vessels.

KENTVILLE WOMAN IS GIVEN CHECK.

Kentville.—A pleasing event took place at the meeting of the Ladies Auxiliary of the Baptist Church, when Miss Margaret Frail was presented with a cheque of \$100, an address and a large cake in honor of her seventy-fourth birthday. The presentation was from the Baptist Church and was made on behalf of the church by R. H. Lamont, accompanied by an address of appreciation of Miss Frail's untiring work for the church. The recipient spoke her thanks for the kind thoughtfulness which prompted the gift. The Auxiliary provided the birthday cake, and refreshments were served by Mrs. H. W. Porter.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, ever better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 24 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money, make \$250 to \$500 per month.

OVER 700 MILES NOW COMPLETED

Of The Main Trunk Highway In Nova Scotia.

There now remain only 192 miles of main trunk highway in Nova Scotia to be reconstructed. Since 1920, or at the earliest the season of 1919, when the present policy of the Provincial Government went into force, there have been 708 miles of main trunk highway completed, and as the total mileage is 960, next year's contracts will see the entire main system of highways of this Province placed in reconstructed condition. This mileage is made up of four principal stretches of road: the two main lines from Halifax to Yarmouth, one by the South Shore, and the other through the Annapolis Valley from Bedford to the New Brunswick border; one from Truro to Sydney, with a branch through Baddeck and Margaree, and with a branch from Monastery, in Antigonish County, to Canso.

About 90 miles of main highway, contracts for which were given last year, were completed this year, and 240 miles of new main trunk highway placed under construction, the most of this will be completed by the end of the year.

Approximately 325 miles of highway of the County and Inter-County classification have been put under reconstruction this year, making a total of about 1,550 miles completed since the policy of highway construction became effective. Main trunk and important County and Inter-County roads are under capital expenditure. There were the secondary roads, which were under the maintenance account, and maintenance was also expended upon every road in the country upon which improvements have been made.

Reports from all parts of the country say that the roads are maintaining excellent conditions despite the lateness of the season.—Chronicle.

CENTRELEA

A number from this place attended the "House Warming" given to Mr. and Mrs. Grant Wallace on Wednesday evening last.

Mr. Taylor, from Windsor, was a recent guest of Mr. and Mrs. Rupert Rice.

Miss Leta Messenger is visiting relatives and friends at Lawrence town and East Ingleside.

FROM \$25 TO \$143 IN TEN YEARS

One farmer of Waldegrave, N. S., with no special advantages 12 years ago, received an average of less than \$25 a year per cow. With the aid of the Dairy Branch he started applying business methods to the management of his herd: (1) by testing each cow for production; (2) by weeding out the poor cows; (3) by using the best pure-bred sire obtainable. He did not buy any female stock, however, but kept all the best of his heifers and started to feed his herd better. His results are certainly encouraging. In 1922 from a herd of 12 cows he sent an average of 347 lbs. butterfat per cow to the creamery, received a total return of \$1700 for his year's cream, or an average of \$143.10 per cow. An increase of over 500 per cent in ten years.

G. W. V. A. OFFICERS

U. S. SCHOOLS BELOW BRITISH STANDARDS

Average American Boy Two Years Behind His British Counterpart.

London--The assertion that the achievement of the schools of the United States is far below that of the British was made by Premier Baldwin in an election speech at Bristol. Replying to the statement of a laborite speaker that the Conservatives were opposed to popular education, the premier said:

"We hear a great deal about American education, but from such opportunities as I have had of consulting those who have visited American schools I do not believe the actual achievement of those schools is comparable to that of our schools. That judgment has been endorsed by American educators themselves. I am told a highly competent observer has said that on the whole an American boy of fifteen is in knowledge and achievement about two years behind an English pupil of the same age."

DALHOUSIE WEST

Mr. and Mrs. James Harsh, and family, of Lequille, was the Sunday guest at the home of her parents, Mr. and Mrs. Thos. Todd.

We are sorry to report that Mrs. Frank Ramsay had to go to Middleton for a treatment of her throat.

Miss Ettie Shipp is visiting friends in Waterville.

Mrs. Wm. Todd is the guest of her daughter, Mrs. Chas. Merry, of Lawrence town.

Mr. Arch Medcraft, of New Albany, spent Sunday with his uncle, Mr. Willis Gillis.

The Sewing Circle met Wednesday, Nov. 28th, at the home of Mrs. James Hannam.

There is quite a number on the sick list here.

WHERE IS THERE "A BETTER 'OLE'"

Is there a place in the world today, as well as Canada asks The London Free Press. Canadians may do a certain amount of grumbling, but there is not a country, not even the United States, where conditions generally are as good, where there is as little unemployment or as much general prosperity as in the Dominion.

The reason is not hard to seek. Canada has the greatest potential natural resources in the world and her production is rapidly increasing. She has what the world needs.

The Financial Post has been making a preliminary survey of the production of the Dominion for the year, and estimates that our revenue will be the largest of any normal year in our history. The Post places the revenue at \$250,000,000 more than last year, and after making allowances for the present higher range of values over \$200,000,000 in excess of the pre-war year, 1913.

The Post, for instance, figures on a survey made on September 29th that the total value of the products of the farm for 1913 will be \$1,700,000,000 as against \$1,626,028,000 in 1922, and \$1,051,610,000 in 1913. Revenue from minerals is placed at \$236,311,000; paper, pulp wood and timber \$443,570,000, and fish \$38,000,000, a total of \$2,420,407,000, as against \$2,168,125,000 in 1922 and \$1,407,754,000 in 1913.

The increased production is reflected in our export trade. Exports for the nine months of the year showed an increase of over \$20,000,000 over the same period of 1922. In the same period our total exports exceeded our imports by over \$94,000,000. Canada now stands in fifth place in the exporting countries of the world in foreign trade. The Post figures that Canada exports three times as much per head as the United States and one-third more than the Mother Country.

Will someone please show us "a better 'ole' than Canada?"

DEMAND RESTORATION OF THE "OWL" TRAIN

Board of Trade Petition Railway Commission--Increased Hydro Power Discussed.

Middleton--A meeting of the Board of Trade was held, A. L. Davidson, President, in the chair. Two matters of special interest were brought up and discussed. The discontinuance of trains Nos. 96 and 97, known as "The Owl," received particular attention.

The whole town and countryside are interested and its continuance in service throughout the year means progress and growth to the Valley town west of Kentville. A committee of three was appointed to memorialize the Railway Commission and find out what can be done through its good offices.

A discussion concerning the installation at Nictaux Falls of a new power unit for the development of further electric power to be supplied to new industries as they are established here, received special attention. A committee of three was appointed to act conjointly with the electric light committee of the Town Council for the purpose of working out the best scheme in regard to same.

TO CALIFORNIA FOR THE WINTER

To California, British Columbia, and Pacific Coast points, is the objective of many who wish to escape the rigors of a cold Winter.

Those who are in a position to spend this period in a land of sunshine and warmth, where flowers bloom all year, can make the journey comfortably and quickly by the Canadian National Railways and connecting routes.

Any ticket agent of the Canadian National will furnish the required information as to through train services, routes, fares, etc., or write General Passenger Dept., Moncton, for this information. 35-31.

BRIDGETOWN SCHOOLS--QUARTERLY EXAMINATIONS

Grade IV.

Cecil Marshall 90.8
Ronald MacDonald 82.6
Burke Thies 73.6

The above names were omitted in last week's list.

TO SPEND WINTER IN FLORIDA

Mr. and Mrs. S. B. Chute left on Tuesday for Haines City, Florida, where they will spend the Winter. Mr. Chute is known as the Nova Scotia "apple king." This year his orchards yielded around 25,000 barrels of apples, and in addition to these he buys very largely for export. But apples are not the only kind of fruit that Mr. Chute grows. Down in Florida he has a number of large orange plantations, which this year promise a bumper crop of oranges and grape fruit, and he expects to reach the Sunny South in good time to superintend the work of picking them. In this way he is growing and gathering fruit the whole year round.

Mr. and Mrs. Chute were accompanied South by Mrs. Willard Sanford and son, Cecil, who will spend the Winter in Haines City.

WEDDING

Allen--Felah.

The marriage of Miss Ada Althea Felah, daughter of Mr. and Mrs. Oscar W. Felah, of 78 Boardman Avenue, Melrose Highlands, and George Fred Allen, son of Mr. and Mrs. Eli H. Allen, of 272 Tremont Street, took place Tuesday evening, at the Methodist parsonage, Rev. L. W. C. Emig, pastor of the Methodist Episcopal Church, performing the ceremony.

Albert B. Allen, brother of the groom, was best man, and Miss Helen B. Felah, sister of the bride, was maid of honor. The bride wore white satin and carried a shower bouquet of pink roses and lilies of the valley. The maid of honor wore blue serge and carried a bouquet of pink rose buds.

A reception was held at the home of the groom and the ushers were Rev. H. Allen and Paul H. Hickey, both of Melrose. The house was prettily decorated with palms and white and yellow chrysanthemums.

H. W. Hopkins catered. About ninety guests attended the reception. The couple received many beautiful gifts. The groom's gift to the bride was an amethyst ring with white gold setting. The bride's gift to the groom was a pair of white gold cuff links. The bride presented the maid of honor a diamond ring. The groom's gift to the best man was a pair of cuff links.

On their return from a wedding trip to Washington, D.C., and Niagara Falls, Mr. and Mrs. Allen will reside at 78 Boardman Avenue, Melrose Highlands.

The bride is a graduate of Melrose High School, Class of 1917, and is a member of the Sigma Beta Club of this city. Mr. Allen is a graduate of Stoneham High School, 1916, and is general manager of E. H. Allen Company, of Boston. He is a member of Hugh de Pavens Commandery, K. T.--Melrose Free Press.

The bride is a granddaughter of Mr. Phineas Banks, formerly of Port Lorne, but now residing in Massachusetts.

J. H. Hicks & Sons have a number of men at work making external repairs of various kinds to the Royal Bank building.

Chevrolet now rated as Class "A" Insurance Risk

Less than a dozen motor cars—all much higher in price—have similar insurance ratings, which is the lowest possible.

The sound construction of Chevrolet Superior Models has again been proved by the fact that the Underwriters have given to Chevrolet Class "A" Insurance Rating. This means that the Chevrolet owner gets the lowest possible rate of insurance on his car.

Less than a dozen other cars so low, and they are all cars of much higher price.

This new ruling is further evidence of the attention to detail which Chevrolet engineers have given to the design and production of the Chevrolet Car.

A TRUCE WITH WINTER

Under the ordinary habit of our Autumnal weather, Indian Summer sets in on or around Armistice Day. For long after men shall have forgotten that the armistice of 1918 was immeasurably more than a mere truce, the name will persist, and the anniversary will be celebrated, and the date of the anniversary will coincide, approximately, at least, with the miniature season set apart by nature to mark Autumn's truce with Winter.

This year, to be sure, Indian Summer seemed to arrive a little ahead of schedule. The mild days that ushered in the first week of November gave promise of an earlier and longer Indian Summer than might normally be looked for, even though it be broken by frosty days here and there. Such flirtations between days and seasons are characteristic of new England weather anyway; but on the whole, Autumn, and not dawning Winter, is still dominant, and the gracious spell of Indian Summer is still upon us.

The November breeze that whirled and scatters the dead brown leaves, making them objects of beauty even when refuse, is more or less typical of the wistful sweeps of memory as it gathers and scatters the invisible leaves of dead hopes long since fallen from the aspiring branches of our changeful lives. The majesty of November may not be desired, but it is not the sadness of despondency, and the fact that it is not, may largely be due to the sweet and benign heaven of Indian Summer. Love has many moods. Spring speaks of joy, Summer of maturer happiness, Autumn of fruition, and Winter of love's chastening rod; but little "season of calm weather" called Indian Summer speaks of love's mellowest mood. Like the great Emancipator, it would exult and call men into kindness and tenderly crown life with it. What is the bounty of Autumn? It not spiritually transformed by the hospitality and gratitude of Thanksgiving? And what prepares the way, what force lays the bridge of that transformation, save the hallowed spirit of human kindness, typified by the revelation of Indian Summer?

The pensive beauty and inherent message of this season have triumphed over the traditions of its name, for who now associate it with Indian opportunity for renewing masses or keeping open the war path up to Winter's very verge? In the northern end of Franklin Park a tablet marks a point in what once was the old Indian trail from Boston to Plymouth. The trail as a whole is no more, but we cherish the memory of it both for historical and for romantic reasons, never emphasizing its olden utility for purposes of war more than its uses for errands of peace. It is enough for our imaginations that it was a veritable "Indian trail," and we cling to the magic of those words, just as we cling to all the poetry and romance connected with the whole lore of the Nova America "Indian Summer." Some of the terror that may once have colored those words may unconsciously linger even yet, but only to give them a unique and intensely native flavor, whereas the season itself survives, attesting the conquest of benightedness over the malignity, and suggesting cessation rather than renewal of conflicts.

The glow of Indian Summer may be tinged with faint reflections of tragic campfires, but even so it is like the martyr's dying smile, blessing and cheering those who survive and benefit by the martyr's sacrifice.

GRANVILLE FERRY
Granville Ferry.—Major and Mrs. Warren have returned from England. Mr. Heron, of Avonport, has been a recent guest at the home of Mr. and Mrs. E. R. Reid.

Mr. and Mrs. Roy Gillatt have moved from Canning and have taken possession of the home which they bought from James Wade, previous to his returning to the West.

Albert D. Parker, who sustained three broken ribs in a recent automobile accident on the approach to the bridge, is beginning to recover from his injuries. Because of Mr. Parker's advanced age it was at first thought that they would prove fatal.

Rev. Boyd Parker, of Pugwash; Mr. Augustus Parker, of Hampton, N. H.; Mr. Avard Parker and Mrs. Lucy, of Massachusetts, were all called home because of their father's accident. Mr. Augustus Parker returned to the United States last week.

Miss Doris Pickup entertained most pleasantly on Friday afternoon and evening the Young Ladies' Sewing Circle, which is making fancy and useful articles to be sold in connection with the chicken supper and home cooking sale, which will take place in the Methodist Church on Tuesday afternoon and evening, December 4th.

Mr. Vivian Fox and Miss Lottie Halliday were married at the bride's home in Delap's Cove on Wednesday afternoon, Nov. 21st. The Ven. A. W. Watson was the officiating clergyman. Mr. and Mrs. Fox will reside at Granville Ferry, where Mr. Fox is engaged in farming.

Cause of Backaches

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment and rebel. The result is a sensation of pain in these muscles.

Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble. In fact not more than one backache in a hundred has anything to do with the kidneys. The whole trouble is due to thin or impure blood, and those who are troubled with pains in the back or loins, either frequent or occasional, should look to the condition of the blood. It will be found in most cases that Dr. Williams' Pink Pills by building up the blood and feeding the starved nerves and muscles will banish the pains and make you feel better in every other way. How much better it is to try Dr. Williams' Pink Pills for your blood than to give way to unreasonable alarm about your kidneys. If you really suspect your kidneys any doctor can make a test in ten minutes, that will set your fears at rest, or tell you the worst.

All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HEBRIDEAN FARMERS FOR NOVA SCOTIA

"A movement has been started with the object of securing three hundred sturdy Scottish families for Nova Scotia," said Hon. D. A. Cameron, Provincial Secretary. "Considerable publicity has been given to the Hebridean colony established in Alberta last year. These settlers were farmers and preferred to settle in a strictly agricultural country. I am informed that contrary to reports they are doing very well in their new environment.

"These Scottish settlers came to Canada through the efforts of Father A. McDonnell. I met Father McDonnell at Ottawa recently, and he is now in Nova Scotia at my invitation. He is making an inquiry into our conditions here and informs me that in his opinion, there is no good reason why we should not secure at least three hundred fisherman-farmers from the Hebridean Islands. These people are accustomed to conditions similar to ours and they are a hard-working, honest, thrifty race, exactly the kind of settlers that we want for Nova Scotia.

"Father McDonnell plans to bring these people to Nova Scotia by means of assistance rendered by the British Empire Settlement Board. About fifty per cent. of the men served in the navy during the war and thus will be eligible for assistance under our Department of Soldiers Civil Re-establishment. The expenses incurred in the settlement of the other fifty per cent. will be defrayed under the British Empire Settlement scheme and to this will be added whatever the Nova Scotia government can do in the way of assistance.

"An important fact in connection with this proposed settlement is that these farmer-fishermen are now paying yearly or half-yearly rentals for their lands and dwellings in the Old Country. They should not, therefore, find it irksome to pay off by instalments any loans made to them for the purpose of establishing them in this country.

"The families average about five in number. The capacity at their command will range from £50 per family to about £100.

"Father McDonnell expects to send out early next May three or four of these farmer-fishermen who will act as representatives or advance agents for the others. These envoys will tour this Province under the auspices of the Nova Scotia Government and will be assisted in every way possible in making a thorough survey of the opportunities existent for settlement along the shore of Cape Breton and of the Mainland.—Herald.

IF HE WILL

A Toronto pastor says the church has no monopoly of preaching. Every man can make his life a sermon if he will.—(Border Cities Star).

HERE'S HOPING!

London Daily News: The Irishman has always been cheerful, even in poverty. With money in his national pocket he will no doubt add something to the world's too small stock of optimism and security.

Life isn't worth living for those who think it isn't.

HARDLY PERSUADED

"You don't know what you are missing," the married man told the bachelor. "You don't know what it is to have a wife waiting for you when you return from work."

"No?" the bachelor murmured. "No," declared the married man. "Think of the joy of working in the garden. Think of the delight children give you."

THE TRANSIENT PRINTER

We are informed that there is a transient printer coming this way who has been doing other towns in the matter of selling envelopes at exorbitant prices. He gets a picture of some part of the locality and sells same to each purchaser who gets the idea that he is the only one owning said picture until afterward when he sees the same on other merchant's envelopes. The Liverpool merchants can, of course, give their money to outside printers if they wish, but at least the town should make these hawkers pay a license. Every other class of business in Liverpool is protected except the printers, but that is not the point so much as that the town should get a revenue therefrom. The local printers have to pay taxes and they are pretty heavy and it is manifestly unfair that adjacent town printers should have the unrestricted and unlicensed privilege of doing the business for which the locals are heavily taxed.—Liverpool Advance.

Conditions mentioned in the Liverpool Advance are common enough. Towns in their own interests should secure license fee from transient printers. There is no valid reason why operators of this class should enjoy privileges which the local printer who does his full share in tax-paying and in furnishing employment paying and in furnishing employment to have.—(Ed. Monitor).

Now the 5,000 moving picture employees laid off in California will get a chance to go to one.

Half An Hour With Us--- and Your Christmas Shopping Is Completed

A British woman married to a citizen of the United States is without nationality in law and without chance of immediate relief in the matter, as under United States law the woman remains British, but under British law she becomes a citizen of the United States.

A select committee of Parliament has been considering this complicated problem, but is unable to come to an agreement. The members have directed that their proceedings, with the evidence collected, be laid before the House of Lords and House of Commons.

No sooner is a new road finished than it clogs up with cars.

Home Comfort

demands even heat evenly distributed — which means clean, temperate air properly humidified and circulating in any and all rooms you desire.

This is what the Findlay guarantee means to home owners.

When you buy a Findlay Furnace, you get not only a Furnace of proven heating capacity and efficiency, but also an entire heating system designed by heating engineers and installed to suit the requirements of your individual home.

Findlay's pipe and pipeless FURNACES

burn hard or soft coal, or wood

are built to give you real heating with the minimum fuel consumption. Take the "600" Series All-Cast Findlay for instance. From top to bottom, this furnace is made of solid cast iron — heavy — substantial — and proof against leakage of any kind. The firepot is made to last a lifetime. The grates are of the most improved roller-bearing duplex type.

Then, there is the AIR BLAST ATTACHMENT for burning soft coal — a special feature of the All-Cast Findlay.

Through the Service Department of Findlay Bros. Co. Limited, of Carleton Place, Ont., you can, without charge, get an absolutely dependable recommendation for the heating of your home.

Call and see us or write for free booklets and Service Sheets.

Guard the Baby Against Colds

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

HOW MUCH MOVIE STARS GET IN THEIR WEEKLY ENVELOPES

According to the Famous Players-Lasky Company of film producers, the approximate weekly salaries of the high lights in the movies run as follows:

J. Warren Kerrigan	1,500
Milton Sills	2,500
Lewis Stone	2,500
Rockliffe Fellowes	1,000
Richard Dix	1,250
Jack Holt	1,500
Conrad Nagle	1,250
Tom Mix	4,000
Conway Tearle	2,750
James Kirkwood	2,500
May McAvoy	3,000
Akka O. Nilsson	1,500
Wallace Beery	2,500
Noah Beery	1,500
Mary Astor	750
Lila Lee	1,500
Betty Compson	3,500
Fatsy Ruth Miller	1,500
Kenneth Harlan	1,000
Hope Hampton	1,000
House Peters	2,500
Florence Vidor	1,500
George Walsh	1,500
Elliott Dexter	2,000
Elaine Hammerstein	2,500
Larry Semon	5,000
Shirley Mason	1,500
Priscilla Dean	3,000
Norma Talmadge	10,000
Constant Talmadge	5,000
Pauline Frederick	4,000
Dorothy Dalton	7,500
Richard Barthelmess	3,000
(And share of profits)	
Lillian Gish	5,000
Mae Marsh	1,000
Betty Blythe	2,500
Walter Long	1,500
Mary Pickford, Douglas Fairbanks, Charlie Chaplin and Harold Lloyd are each rated in the \$10,000 a week class, but all are making independent pictures, and so no producer is called upon to lay out that much for their services.	

ROYAL YEAST CAKES

GOOD home-made bread has always been the chief food of the earth's sturdiest races. None of the breakfast foods or health foods can equal bread in nourishment. Good bread is the most digestible food as well as the cheapest.

MORE APPLES, BETTER HEALTH AND GREATER EFFICIENCY

There is a bountiful crop of apples this year, above the average in many districts and apparently enough to supply the market under present conditions. Sales on the home and export markets are reported to be non-summer is not getting the class of apples he wants at a reasonable figure. If the barriers that exist between the piles of apples waiting in the orchards and the city family could be taken down or lowered it should be possible to let everybody have the apple today that keeps the doctor away. Orchard would then become profitable and new plantings could be made too brisk, which means that the crop with prospect of success. Other good results are possible from the expansion of the apple eating industry. A daily paper ventures the remark that it was through eating an apple that our first percent started manual labor. This leads the Editor of the Rural New Yorker to observe that as a cure for laziness the fruit starts on a new career. "What," says the writer, "could be a greater social blessing than some 'new discovery' that will make lazy people jump for joy at the thought of labor? When husband goes to sleep in his chair instead of filling the woodbox, all you have to do is to give him an apple. When wife refuses to cook a good dinner because it is too much work we may be saved from a meal composed mostly of thought by inducing the lady to eat a good Baldwin or Greening! We read some time ago that laziness is caused by a germ. Very likely—and it applies will destroy the germ let us vaccinate every lazy person with apples until laziness becomes as rare as smallpox. And one more point of interest to fruit growers. There are millions of people in this country. The full treatment will require two apples a day for each one. Now let someone good at mathematics figure the 'boom' that will come to fruit growing with this treatment in full swing."

NO INCREASED WAGE

President Wolvin of Besse Says Conditions Do Not Warrant It.

Sydney, N. S.—When asked with reference to new agreement with the U.M.W. and the prospects for increased wages in the coal mines, Mr. Wolvin, President of British Empire Steel Corporation, said: "Our officials and officials of the U.M.W. will very soon be meeting to negotiate conditions of contract and wage scale, but I very much regret that the present competitive market prices of coal and steel will not permit any serious consideration of an increased wage scale." He preferred not to discuss the matter of wage scale or new contract, but commented that, based on existing costs of coal production, it would be impossible next year to find a market for sixty per cent as much coal as produced this year. He said, however, that if it were possible to obtain reduced mining costs of coal, either through a reduction of wages or a reduction in the number of non-producing mine workers, or both, it would make possible the obtaining of orders for coal that would otherwise be lost to this district, and would correspondingly increase the amount of unemployment.

ROYAL YEAST CAKES

GOOD home-made bread has always been the chief food of the earth's sturdiest races. None of the breakfast foods or health foods can equal bread in nourishment. Good bread is the most digestible food as well as the cheapest.

COST OF ADVERTISING GUESSED BY DEMAND

The Associated Advertising Clubs of the World have stated that during 1922 a billion dollars was expended on advertising in the United States and Canada. The expenditure has sought forty percent. There are some who contend that advertising is in economic waste and that if the manufacturers did not have to spend gigantic sums to sell in competition with one another the ultimate consumer would be able to purchase commodities at a much lower figure. Advertising is but a mode of education in which the knowledge of consumable goods is increased and effective demand created. Without advertising, large-scale manufacturing would be impossible and the economy of volume production would be lost. The production cost of a commodity depends directly upon the volume in which it is manufactured, and through advertising manufacturers increase their market to an extent where the ultimate consumer price is greatly reduced.

Always looking for better Johnson's ANODYNE Liniment Always able to stop it.

WORLD'S DIAMOND SUPPLY

In the last forty years 75,000 pounds of gems have been found in Africa, which is now regarded as the world's chief source of diamonds. Before the eighteenth century India was almost the sole source of supply. The Brazilian fields discovered in the eighteenth century have produced about five thousand five hundred pounds. Altogether it is computed that about forty-two tons of diamonds exist in the world today—not counting the stones that may still lie undiscovered in the diamond mines of the future.

"Time must hang heavy on your hands." "Why do you say that?" "I see you wear a wrist watch."

The Value of a Guarantee

lies not so much in its protective penalty as in its satisfying assurance. No firm selling goods with a guarantee attached, expects to be called upon to pay the penalty. For it is naturally the intention to so carefully guard the quality that dissatisfaction will be impossible. Throughout its many years of service "King Cole" Tea has consistently been sold with a guarantee—a guarantee definite and substantial. It is printed on every "King Cole" package.

It carries to the buyer an evidence of good faith—a confidence in ability to serve—a determination to serve well.

"You'll Like the Flavor."

LACK OF SNOW KEPT MOOSE HILL DOWN TO LESS THAN LAST YEAR AND SAME IS TRUE OF DEER

Official Returns Not Yet Complete But Indications Are That Total Will be Comparatively Small—Rabbit Hunters Not Having Much Success—Beavers Are Scarce, Halifax Co. Reports Show—Open Season for Ducks.

The official returns of the kill of moose in Nova Scotia for the season of 1922—Oct. 1st to Nov. 15th—and deer—Oct. 16th to 31st—are not yet complete and the exact number of the season's kill is not known, but indications are that the total numbers killed were somewhat below the figures of the 1922 season, which were: 1156 moose and 232 deer. One cause to which the reduction this year is attributed is the absence during the open season of snow and frost. Last year there was snow on the ground through the greater part of the open season, the first snow having come in October. Many local sportsmen prefer their big game hunting when they may do so over the snow and frozen ground.

The open season for rabbits is now in full swing, but in that, too, the absence of snow is felt, for there are many people who believe that rabbits are not at the best as a food until the snow has come. The rabbit season which opened on November 1st extends until March 1st. The open season for fur-bearing animals such as mink, otter, fox, raccoon and muskrat begin on Nov. 15th and will continue to Jan. 15th. So far there are very few reports from trappers in or near the City as to whether the fur-bearing animals are plentiful or not. It is unwise to take or have beaver, fisher or marten at any time. Non-residents of the Province may not trap, without a license, the fee for which is \$50 and fur skins may not be exported without a license.

Ducks and rails come under the Migratory Birds Convention Act and the open season in Nova Scotia, now on, extends to Dec. 31st, except in Shelburne and Shelburne counties where it lasts a month longer. Except in Shelburne and Queens counties the open season in the Province likewise ends Dec. 31st, but in the two counties named runs until Jan. 21st. The open season for woodcock and jacksnipe ends on Friday, Nov. 20th, as also for Wilson snipe, plover and yellow legs. There is a close season throughout the year under the convention on band-tailed pigeons, eider or sea ducks, wood ducks, swans, cranes, curlew and all shore birds for which open seasons are not provided.

So far there have not been many applications in this county for bounties on wild cats or bears, but when the snow comes there will probably be a change in this respect, though, as a matter of fact, bears have been unusually scarce in Halifax county during the last two years, though wild cats were rather plentiful so far as bounty applications show them in 1922.—Chronicle.

Notice

We are now open for Cider and Evaporated Apples at the following prices:

Cider Apples (must be sound and exclusive of the early withered drops.) 25c per bbl

Evaporated Apples (Good sound apples suitable for paring, but exclusive of Green Mountains and such early soft varieties 2 1/2 c up) 40c per bbl.

We still have a few openings for girls and boys as operators on paring machines. Apply promptly

Yours very truly,
M. W. Graves & Co. Ltd.
