The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE BUSINESS GUIDE;

BENJAMIN FRANKLIN.

*Seest thou a man diligent in his business? He shall stand
before kings.—Prov. 22 : 29.*

Entered, according to the Act of the Parliament of Canada, in the year
one thousand eight hundred and ninety-two, by JEFFREY E. HANSFORD, at
the Department of Agriculture, at Ottawa.

INTRODUCTION.

THE BUSINESS GUIDE will recommend itself to all who desire, in a concise form, full information as to safe and correct methods of doing business. All the technical terms have been omitted, and the language is plain and comprehensive, so that *any one* may read it and understand it.

The short rules of Arithmetic will be found so practical, so concise, and so complete that it will be a marvel to all who examine the GUIDE. This book has been prepared for the masses, and the theoretical and intricate parts in solving practical problems have been omitted, and only the "*short cuts*" that are right to the point, are used. The "why" has been omitted, and the "how" thoroughly explained. A business man wants to know the "how," and cares but very little for the "why."

For lack of the information which this book contains, business men lose thousands of dollars annually, and millions are lost in litigation, owing to the careless habits, or the ignorance of the proper methods of doing business, to say nothing of the loss for the same reasons, by the trickery of confidence-men and sharpers in general.

The BUSINESS GUIDE will be found especially necessary to young men and young women, and will give them many hints and helps in doing business, and will be a safe counsellor and a friend all their lives. The principles can be easily understood, and readily applied and practised. It ought to be in the hands of every teacher and every scholar of sufficient age to understand business transactions. It deserves, indeed, a place in every household.

TORONTO, April, 1893.

IT MAKES THE SPARKS FLY.

BUSINESS ENERGY.

"Blest work, if ever thou wert a curse of God, what must His blessings be!"—*J. B. Selkirk.*

"Our greatest glory is not in never falling; but in rising every time we fall."—*Confucius.*

We love our upright, energetic business men. Pull them this way and then that way and the other, they only bend, but never break. Trip them down, and in a trice they are on their feet. Bury them in the mud, and in an hour they will be out and bright. They are not ever yawning away existence, or walking about the world as if they had come into it with only half their soul; you cannot keep them down; you cannot destroy them. But for these the world would soon degenerate. They are the salt of the earth. Who but they start any noble project? They build our cities and rear our manufactories. They whiten the ocean with their sails, and blacken the heavens with the smoke of their steam-vessels and furnace-fires. They draw treasures from the mines. They plow the earth. Blessings on them.

THE ROYAL FAMILY, &c.

THE QUEEN.

Victoria, Queen of Great Britain and Ireland, and Empress of India, born at Kensington Palace, London, May 24, 1819, the daughter of Edward, Duke of Kent, fourth son of King George III., and of Princess Victoria of Saxe-Saalfeld-Coburg, widow of Prince Emich of Leiningen. Ascended the throne at the death of her uncle, King William IV., June 20, 1837, crowned at Westminster Abbey, June 28, 1838. Married, Feb. 10, 1840, to Prince Albert of Saxe-Coburg-Gotha; widow, Dec. 14, 1861.

Issue.

I. Princess *Victoria*, born Nov. 21, 1840; married Jan. 25, 1858, to Prince Friedrich Wilhelm, eldest son of Wilhelm I., German Emperor and King of Prussia

II. *Albert Edward*, Prince of Wales, born Nov. 9, 1841; married March 10, 1863, to Princess *Alexandra*, eldest daughter of King Christian IX, of Denmark. Offspring of the union are five children:—1. Albert Victor, born Jan. 8, 1864. 2. George, born June 3, 1865. 3. Louise, born Feb. 20, 1867. 4. Alexandra, born July 6, 1868. 5. Maud, born Nov. 26, 1869.

III. Princess *Alice*, born April 25, 1843; married July 1, 1862, to Prince Frederick William Louis of Hesse-Darmstadt, died 14th December, 1878.

IV. Prince *Alfred*, Duke of Edinburgh, born Aug. 6, 1844; married Jan. 21, 1874, to Grandduchess Marie of Russia, only daughter of Emperor Alexander II.

VI. Princess *Louise*, born March 18, 1848; married March 21, 1871, to John, Marquis of Lorne, born Aug. 6, 1845, eldest son of the Duke of Argyll.

VII. Prince *Arthur*, Duke of Connaught, born May 1, 1850; married March 13, 1879, to Princess Louise of Prussia, born July 25, 1860.

VIII. Prince *Leopold*, born April 7, 1853; died March 28, 1884.

IX. Princess *Beatrice*, born April 14, 1857, married July 29, 1885, to Prince *Heinrich*, third son of Prince Alexander of Battenburg, uncle of Ludwig IV., Grand Duke of Hesse.

HON. ALEXANDER MACKENZIE,
Ex-Premier of the Dominion of Canada.

It will be a bright page in the history of Canada that tells that the first Reform minister of the great Dominion was the noblest workingman in the land.—*Hon. George Brown.*

PRACTICAL RULES FOR SUCCESS.

"Economy is itself a great revenue."—*Cicero.*

"Be not simply good, be good for something."—*Thoreau.*

1. Keep your health good by adopting regular and steady habits.
2. Never be afraid to say no. Every successful man must have the backbone to assert his rights.
3. Remember that steady, earnest effort alone leads to wealth and high position.
4. Be not ashamed to work, for it is one of the conditions of our existence. There is not a criminal who does not owe his crime to some idle hour.
5. Never covet what is not your own.
6. Remember that time is gold.
7. To industry and economy add self-reliance. Do not take too much advice, think for yourself. Independence will add vigor and inspiration to your labors.
8. Don't be selfish. Selfishness is the meanest of vices, and the parent of a dozen more. Selfishness keeps a penny so close to the eye that it can't see a dollar beyond.
9. Never forget a favor, for ingratitude is the basest trait of a man's mean character.

The Early Home of Abraham Lincoln, who was known as "Honest Abe."

HONESTY.

Let us have faith that right makes might; and in that faith let us, to the end, dare to do our duty, as we understand it.—*Abraham Lincoln.*

No legacy is so rich as HONESTY.—*Shakespeare.*

He who freely praises what he means to purchase, and he who enumerates the faults of what he means to sell, may set up a partnership with Honesty!—*Lavater.*

What is becoming, is honest, and whatever is honest must always be becoming.—*Cicero.*

Nothing more completely baffles one who is full of trick and duplicity himself, than straight-forward and simple integrity in another.—*Colton.*

Truth and honesty show themselves in various ways. They characterize the men of just dealing, the faithful men of business, the men who will not deceive you to their own advantage. Honesty gives full measure, just weights, true samples, full service, and a strict fulfilment of every engagement.

The truth of the good old maxim, "Honesty is the best policy," is fully demonstrated every day of our life; and uprightness and integrity are found as successful in business

as in everything else. As Hugh Miller's worthy uncle used to advise him, "In all your dealings give your neighbor the cast of the bank—good measure, heaped up, and running over,—and you will not lose by it in the end." Truth is the essence of principle, integrity and independence, and every man needs it. Absolute veracity is more needed to-day than at any former period in our history.

Remember that honesty rises above fortune and above kings; by that alone, and not by the splendor of riches or of titles in glory acquired, that glory which it will be your happiness and pride to transmit unspotted to your posterity. Honesty is greatness itself; dishonesty never made a man great, and never will. Rather be and continue poor, while others around grow rich by fraud and disloyalty, rather be without place or power, while others beg their way upward; rather bear the pain of disappointed hopes, while others win their way by flattery, and forego the gracious pressure of the hand for which others cringe and crawl. Wrap yourself in the cloak of virtue, and seek your bread with an honest hand, and if you grow gray in this cause, with unsolled honor bless God, and rejoice.

"The honest man, though e'er so poor,
Is king of men for all that."

GOOD MANNERS.

Manners are the ornament of action.—*Smiles.*

Guard manners, if you would protect the morals.—*Davidson.*

So good services; sweet remembrances will grow from them.

Mme. De Stael.

Good manners is the art of making easy the persons with whom we are brought in contact.—*Anonymous.*

Virtue itself offends when coupled with forbidding manners.—*Middleton.*

A good name is the best thing in the world, either to get one a good name, or to supply the want of it.—*Anonymous.*

An old saying, "politeness costs nothing, and accomplishes wonders," is a good one. Of course, politeness without sincerity is simply a refined form of hypocrisy, and sincerity without politeness is but little better. A savage, a barbarian can

be honest, but is not likely to be very polite. So politeness of speech and manners is the distinguishing trait between the civilized and the uncivilized.

A coarseness and roughness of speech, a studied effort to say things that grate upon or wound the feelings of a person possessing ordinary refinement, is utterly, inexcusably and wholly indefensible.

There are many persons, however, who seem to have the idea that because they are honest, sincere and sympathetic, after a fashion, they are excusable for being impolite, and consequently justified in cultivating boorish manners, and indulging in rough speech; but this is a mistake. It pays to regard the feelings of others, especially when it costs us nothing. It does not follow because a man is polite that he is therefore insincere. Politeness and sincerity can go together, and the man or woman who possesses both will get along much better than the individual who has either without the other.

BUSINESS MANNERS.

1. Be cheerful, and show proper civility to all with whom you transact business.
2. There are many who have failed in business because they never learned to respect the feelings or opinions of others.
3. Kindness of manners is the best capital to invest in a business, and will bear a higher rate of interest than any other investment.
4. Be accomplished, polite, refined, civil, affable, well-behaved and well-mannered, and you will never lose by it.
5. Manners make the business man, and give him the art of entertaining and pleasing all with whom he has business relations.
6. If you wish to change a man's views in reference to some business transaction or other negotiations, respect his opinions, and he will be respectful and listen to your arguments.
7. There are a thousand easy, engaging little ways, which we may put on in dealing with others, without running any risk of over-doing it.

BUSINESS.

BUSINESS, in every age of the world, has been the chief pioneer in the march of man's civilization. Blessings everywhere follow its advancing footsteps. It travels over no blood-stained fields to secure its noble ends, but everywhere brings man into friendly and harmonious intercourse. It removes local prejudices, breaks down personal antipathies, and binds the whole family of man together by strong ties of association and of mutual and independent interests. It brings men together, and towns and cities are built; it makes man venture upon the seas in ships, and traverse continents on iron pathways, and wherever we go, whether abroad or at home, it is business that controls the great interests of the world, and makes the affairs of men mighty.

HOW TO DO BUSINESS.

One cannot do successfully what he does not perfectly understand. He may have competent employes or trusted attorneys to do his business, but they may do his work imperfectly, or seek their own ease or profit at his expense, and he not being able to detect their malpractices must suffer the loss, or perhaps fail. Or he may attempt to manage everything himself, commit fatal errors, as he will be almost sure to do, and thereby sustain a still greater loss. "First understand every detail of your business, and then go ahead."

A wealthy farmer said, when asked how he made his money, "Sir, *I understand my business* and attend to it." In that reply is the sum and substance of all true success.

EDUCATION.

Stay at school another year or two, and don't be ashamed of what ought to be your glory, that you want to learn more. Step from the district school to the high school, from the high school to the college, if you can. Get a business education by all means,—you will never learn too much. If you desire to become a mechanic instead of an engineer or a farmer, an education will not unfit you to become either. It will always be capital bearing a large income of interest.

“When home and lands are gone and spent,
Then learning is most excellent.”

GET INTO THE RIGHT PLACE.

How many poor physicians who would have made masterly mechanics; how many wretched merchants, who would have made noble, athletic farmers; how many pettifogging parchment-minded lawyers, who might have done the community some service as cobblers. No wonder the old philosopher said, “God has made in this world two kinds of holes: round holes and three-cornered holes, and also two kinds of people: round people and three-cornered people, but almost all the round people are in the three-cornered holes and the three-cornered people in the round holes.” Hence the uneasiness and unhappiness of society and the failure of so many enterprises. Get into the right place, stay there and master your situation, and success is yours. There never was a business in which all failed. There is always room at the top.

WHAT TO DO.

Young men, you are the architects of your own fortunes. Rely upon your own strength of body and soul. Take for your star, self-reliance. Don't take too much advice—keep at your helm and steer your own ship, and remember that the great art of commanding is to take a fair share of the work. Think well of yourself. Strike out. Assume your own position. Put potatoes in a cart over a rough road, and the small ones go to the bottom. Rise above the envious and jealous. Fire above the mark you intend to hit. Energy, invincible deter-

mination, with a right motive, are the levers that move the world. Be in earnest. Be self-reliant. Be generous. Be civil. Read the papers. Advertise your business. Make money, and do good with it. Love your God and fellowmen. Love truth and virtue. Love your country and obey its laws.

IT NEVER PAYS TO MISREPRESENT THE THING YOU ARE SELLING.

BUSINESS MAXIMS.

1. Your first ambition should be the acquisition of knowledge, pertaining to your business.
2. Above all things acquire a good, correct epistolary style, for you are judged by the business world according to the character, expression, and style of your letters.
3. During business hours attend to nothing but business, but be prompt in responding to all communications, and never suffer a letter to remain without an answer.
4. Never fail to meet a business engagement, however irksome it may be at that moment.
5. Undertake no business without mature reflection, and confine your capital closely to the business you have established.
6. Lead a regular life, avoid display, and choose your associates discreetly, and prefer the society of men of your own type.
7. Avoid litigation as much as possible, study for yourself the theory of commercial law, and be your own lawyer.
8. Never run down a neighbor's property or goods and praise up your own. It is a mark of low breeding, and will gain you nothing.

9. Never misrepresent, falsify, or deceive, have one rule of moral life, never swerve from it, whatever may be the acts or opinions of other men.

10. Watch the course of politics in national affairs, read the papers, but decline acceptance of political positions if you desire to succeed in a certain line of business. Never be an office-seeker.

11. Be affable, polite and obliging to everybody. Avoid discussions, anger, and pettishness, interfere with no disputes the creation of others.

12. Never form the habit of talking about your neighbors, or repeating things that you hear others say. You will avoid much unpleasantness, and sometimes serious difficulties.

13. Endeavor to be perfect in the calling in which you are engaged.

14. Make no investments without a full acquaintance with their nature and condition; and select such investments as have intrinsic value.

15. Never sign a paper for a stranger. Think nothing insignificant which has a bearing upon your success.

16. There is more in the use of advantages, than in the measure of them.

17. Of two investments, choose that which will best promote your regular business.

18. Never refuse a choice when you can get it.

19. Goods well bought are half sold.

20. Goods in store are better than bad debts.

21. By prosecuting a useful business energetically, humanity is benefited.

22. Keep accurate accounts, and know the exact condition of your affairs.

23. Be economical: a gain usually requires expense; what is saved is clear.

24. Reality makes no allowance for wishes or bad plans.

25. Write a good, plain, legible hand.

26. Never gamble or take chances on the Board of Trade.

27. Never take any chances on another man's game.

28. Never sign a paper without first reading it carefully.

29. Keep your word as good as a bank.

30. Remember that an honest man is the noblest work of God.

FAMILY INSTRUCTION.

GOOD ADVICE BY GREAT MEN.

What struggling, and scratching, and shifting, and lying, and cheating is practised every day by mammon worshipers in their eagerness to make money. What a comparison between the successful and the unsuccessful of the millions, who have entered upon the active duties of life's eventful journey. "Honesty is the best policy," and he who weds himself to that principle, though poor, makes life a success. *Anonymous.*

He that departs with his own honesty
For vulgar praise, doth it too dearly buy.
Ben Johnson.

Do you what you undertake thoroughly.
Be faithful to all accepted trusts.
A Boston Merchant.

It is a mistake that capital alone is necessary to success. If a man has head and hands suited to his business, it will soon procure him capital.
John Freedley.

Time is gold, throw not one minute away, but place each one to account. Do unto all men as you would be done by. Never give out that which does not first come in.

From McDonogh's tomb, New Orleans.

There is no boy in America, however humble his birth, who, in whatever capacity his lot may be cast, if he have a strong arm, a clear head, brave heart, and honest purpose, may not, by the light of our public schools and the freedom of our laws, rise until he stands foremost in the honor and confidence of the country.
Congressman Payson, Pontiac, Ills.

Punctuality is the mother of confidence. Be on time. Be frank. Say what you mean. Do what you say. So shall your friends know and take it for granted, that you mean to do what is just and right.

John Briggs.

Be honest, be temperate and never gamble.

John Jacob Astor.

Cut short your losses, and let your profits go on.

Recardo's Rules.

He that has never known adversity, is but half acquainted with others, or with himself, for constant success shows us but one side of the world.

Colton.

What though you have found no treasure, nor has any rich relation left you a legacy. Diligence is the mother of good luck, and God gives all things to *industry*. Then plough deep while the sluggard sleeps, and you shall have corn to sell and to keep. Work while it is called to-day, for one to-day is worth two to-morrows.

Franklin.

Make a bargain at once. Be an off-hand man. Be cautious and bold.

Rothchild's Business Rule.

Until men have learned industry, economy and self-control, they cannot be safely intrusted with wealth.

John Griggs.

When I caution you against becoming a miser, I do not therefore advise you to become a prodigal or a spendthrift.

Horace.

The way to gain a good reputation, is to endeavor to be what you desire to appear.

Socrates.

You may depend upon it, that he is a good man, whose intimate friends are all good.

Lavater.

Actions, looks, words, steps, form the alphabet by which you may spell "character."

Lavater.

The best rules to form a young man are, to talk little, to hear much, to reflect alone what has passed in company, to distrust one's own opinions, and value others that deserve it.

Sir William Temple.

Deliberate with caution, but act with decision, and yield with graciousness, or oppose with firmness.

Colton.

This above all—to thine own self be true,

And it must follow, as the day, the night,

Thou canst not then be false to any man

Shakespeare.

HOW TO WRITE.

A Complete Set of Rules for Position and Practice.

1. Sit in an upright and easy position. It will add to the ease and beauty of your writing. *Keep both feet on the floor.*
2. Hold the pen firmly, but not so tightly as to cramp the fingers.
3. Place the hand on the paper so the top of the holder will always point over the right shoulder. This will cause the points of the pen to press equally on the paper.

4. Keep the wrist from touching the paper or desk, and keep the thumb from bending while writing. Avoid the finger movement. It is not practical.

5. Let every downward stroke of the pen be drawn towards the center of the body, and the writing will have the correct slant.

6. Never practice carelessly. Always practice with a free and quick stroke. Let the movement be bold, free, offhand, resting the pen so lightly that the arm, hand and fingers can move freely together.

7. In making the shades, press on the pen with a gentle, springing movement. It will avoid heavy and irregular strokes.

8. Heavy shading, or shading every downward stroke, never adds beauty nor grace to the writing.

9. The thoughtful student in penmanship, as in other studies, will win. Think and write. Practice with perseverance, and your success will be certain.

10. To make the greatest improvement in the shortest time, practice upon the letters separately until you can make them all correctly.

11. Flourishes, too heavy shading, too large or too small letters, should be carefully avoided.

12. Practice writing by copying business letters, notes, drafts, receipts, etc., and you will improve your knowledge of business as well as your penmanship.

FIVE RULES FOR SPELLING.

[There is a great variety of rules for spelling, but most of them have so many exceptions as to be a hindrance rather than a help.

The following rules have few or no exceptions, and may therefore aid the learner.]

RULE I. Verbs of one syllable, ending with a single consonant, preceded by a single vowel, and verbs of two or more syllables, ending in the same manner, and having the accent on the last syllable, double the final consonant whenever another syllable is added; as *get, get'ting; o mit', o mit'ted.*

RULE II. The plural of nouns ending in *y*, when *y* is preceded by a consonant, is formed by changing *y* into *i* and adding *es*; as, *til'y, til'ies*. When *y* final is preceded by a vowel the plural is formed by adding *s*; as, *val'ley, val'leys.*

RULE III. Nouns ending in *o* preceded by another vowel form their plurals regularly by adding *s* to the singular; as, *cam'e o, cam'e os.*

RULE IV. Words formed by prefixing one or more syllables to words ending in a double consonant retain both consonants; as, *be full', re buff'*. The exceptions are, *with al', an nul', dis til', in stil', ful fil', un til.*

RULE V. The word *full*, used as an affix, always drops one *l*; and its compounds, thus formed, make their plurals regularly by adding *s* to the singular; as, *hand'ful, hand'fuls; spoon'ful, spoon'fuls.*

THE USE OF CAPITALS.

1. Every entire sentence should begin with a capital.
2. Proper names, and adjectives derived from these, should begin with a capital.
3. All appellations of the Deity should begin with a capital.
4. Official and Honorary Titles begin with a capital.
5. Every line of poetry should begin with a capital.
6. Titles of books and the heads of their chapters and divisions are printed in capitals.
7. The pronoun, I, and the exclamation, O, are always capitals.
8. The days of the week, and the months of the year, begin with capitals.
9. Every quotation should begin with a capital letter.
10. Names of religious denominations begin with capitals.
11. In preparing accounts, each item should begin with a capital.
12. Any word of special importance may begin with a capital.

PUNCTUATION.

Punctuation is a valuable art, easily acquired, yet too frequently neglected by a vast majority of letter-writers. Business men, as a class, seem to despise points as something beneath their notice. Others omit to punctuate through ignorance or carelessness. This is a great mistake, and many mistakes are made on account of this almost universal neglect to give more attention to punctuation.

IMPORTANCE.

Punctuation is very closely connected with the construction of sentences ; so closely that a clear expression of thought in writing is almost an impossibility without it.

Many illustrations might be given to show the importance of punctuation. A young man writing to a friend, says: "I was married last Sunday night for the first time in five years ; the church was full." He intended to say : I was married last Sunday night ; for the first time in five years the church was full.

We give another, where both the spelling and the punctuation are defective. A clergyman one Sunday morning received a note from a parishioner, which, in the haste, he read as written, thus :

"Capt. John Smith having gone to *see* his wife, desires the prayers of the church for his safe return." The note should have been written : Capt. John Smith having gone to *sea*, his wife desires the prayers of the church for his safe return.

These examples strikingly illustrate the importance of punctuation. And while they are of a simple and ridiculous character in a social sense, in a business letter they might be of very grave importance.

General rule : Punctuate where the sense requires it.

HOW TO WRITE A POSTAL CARD.

1. A card should be dated either on the upper right-hand corner, or on the lower left-hand corner.
2. The writer's full name should be signed to it.
3. If an answer is required, the writer's full post-office address should be given, unless it is well known by the person to whom the card is directed.

4. Important matters should not be entrusted to a postal card, as it is open to inspection, and as the law does not provide for its return to the writer in case of failure to reach its destination. Nor is it allowable to use postal cards for notes of invitation, etc., in which society prescribes certain polite forms to be observed.

5. Never write a demand or request for money on a postal card. It is disrespectful to the person receiving it.

How to Improve Your Penmanship in Letter Writing.

1. Never be satisfied with mere legibility; for neatness, elegance and correctness are equally important.

2. Remember, carelessness and too much haste not only fail to improve your penmanship, but actually ruin what progress already attained.

3. Many persons write letters so hurriedly as to slur over the words, half forming and deforming many of the letters, or making sort of a wavy line to represent a word; this is not only an injury to the writer, but vexatious, unsatisfactory and disrespectful to the reader.

4. Write plainly and neatly as possible, rapidly if you can, slowly if you must. A neat and well worded letter of one page once a month, is better than a slovenly scrawl of four pages once a week.

5. When persons contemplate having a photograph taken, they often bestow much care upon their personal appearance, in order to heighten the effect of the artist in the presentation of their physical likeness. These same persons, however, will often sit down and write hurriedly an important letter, that from undue haste abounds in blots, illegible writing, erasures, bad spelling, and the wrong use of capital letters; without once thinking they are transmitting to their correspondent a kind of mental photograph of themselves, drawn by their own hand, and one, too, which better indicates their fitness for business or for society than the others.

How to Write a Business Letter.

1. In business letters use as few words as possible.
2. Business letters should be promptly answered.
3. Never use flourishes in a business letter or a business paper.
4. Never discuss or refer to social matters in a business letter. If necessary write two letters.
5. Always use black ink.
6. Give town, county, province and date, for it is frequently of great importance.
7. Read your letter carefully when written, and see that you have made no omissions and no mistakes. Also examine carefully your envelope when addressed.
8. Copy important business letters and preserve them.
9. In writing to others for information, a stamp should always be enclosed.
10. When it becomes necessary to request payment, it should be done in the most gentlemanly terms. There is more loss than gain in rash and insulting language.
11. In writing to a stranger, he is addressed as "Sir," or "Dear Sir." "My Dear Sir" implies very friendly relation. A married lady is addressed as "Madam," or "Dear Madam," an unmarried lady as "Miss," or "Dear Miss," usually with her last name affixed. "Rev. Sir," for clergymen: "Esteemed Sir," for formal friends; Judges and legislative officers should be addressed by the title of "Honorable." In writing to a firm, company or a number of persons, the address is "Gentlemen," or "Sirs," or "Dear Sirs."

12. In sending money, the amount should always be mentioned. When sent by draft, check, etc., it may be written in figures.

13. Postscripts are indicative of thoughtlessness, and should be avoided, except when absolutely necessary.

14. Numbers except dates and sums of money should be spelled in full, unless exceeding three words in length.

15. Never use the character "&," except in the title of firms, as Jones & Smith.

16. A letter of introduction or recommendation should never be sealed, as the bearer, to whom it is given, should know the contents.

17. In reply, acknowledge first the receipt of the letter, mentioning its date.

18. Avoid erasures or blots, even if compelled to rewrite the whole letter.

19. Avoid writing a letter with a lead pencil, and never write others than a business letter on a half sheet of paper.

20. Properly punctuate the letter, and be especially exact in placing the proper punctuation marks on the address of the envelope.

21. The repetition of the same words, should be carefully guarded against.

22. Use contractions and abbreviations very sparingly.

23. Letters of application should be very carefully written in the applicant's own hand writing, modest but self-respectful.

24. Never address a party in a letter or on an envelope by using both Mr. and Esq., only one is admissible.

25. Never write a letter on foolscap paper.

26. Gentlemen should always use white paper, ladies may use delicately tinted and perfumed paper.

27. Both paper and envelopes should be of fine quality. Envelopes should match the paper.

28. Letters as well as other compositions should be divided into paragraphs, and a blank margin should always be left on the *left-hand* side of the page, and not on the right.

29. Always leave a *margin* of a half inch or more at the left of the page. The margin should correspond to the size of the paper.

30. Letters or papers prepared for the press should be written only on one side.

31. The closing words of respect, friendship, etc., should be, Yours truly, Yours respectfully, Yours very sincerely, Respectfully yours, Yours ever, Your affectionate brother, Your loving daughter, Your obedient servant, etc., etc. A great variety is used.

32. Do not use big words or high sounding terms. Be simple in style, for simplicity is the one thing that cannot be ridiculous.

33. When testimonials are required, and you desire to preserve the original, a copy should be enclosed, and marked "copy" at the top of the page.

34. It is almost useless for a poor writer to apply for a situation in a business house, for merchants do not wish either the discredit or the inconvenience of bad writing.

35. Fold the letter neatly, and fit to the size of the envelope, for a carelessly written and clumsily folded letter denotes either ignorance or a want of proper respect to the person addressed.

36. Business letters often partake of the nature of contracts, and mistakes, omissions, or ambiguous language often results in serious loss.

37. A Letter of Congratulation—Is a letter written to a friend who has met with some special good fortune or great joy. It should be written in a style suited to the occasion, lively, cheerful and free from all envy or prejudice.

38. A Letter of Condolence—Is a letter written to some friend who has suffered some grievous loss or bereavement. It should be consoling, comforting and full of sympathy.

Avoid calling up the harrowing details of the sad event, and do not attempt to argue the sufferer out of his (or her) sorrow.

HOW TO BEGIN A LETTER.

THE HEADING consists of place and date. In a city the number and street, city and state should be given. If the city is very large, such as Chicago, New York, Philadelphia, etc., the state need not be given.

Anyone writing from a large school, a college, a hotel, or any well known institution, generally writes the name of the institution with the place and date following. (See Form 5.)

ARRANGEMENT.—The first line on ruled paper is generally about an inch and a half below the top of the page. A letter should never begin much higher than that; but if the letter should be very short, it may begin still lower, so that the spaces above and below the letter would be about equal.

PUNCTUATION.—Always punctuate the parts of the heading as shown in the models.

THE ADDRESS consists of the name, title and residence (Post Office) of the persons written to.

SALUTATION is that term of politeness and respect with which we begin a letter; such as Sir, Dear Sir, Dear Friend, etc. In writing to a firm Sirs or Gentlemen should be used. Never use the abbreviations of "Gents" for Gentlemen or "Dr." for Dear or "Sr." for Sir.

Always state the most prominent part of your letter first.

NOTE.—The address is sometimes written at the close of a letter.

HOW TO CLOSE A LETTER.

1. Never write a letter without signing it, and write your name in full if the letter contains important matter.
2. Write your name plainly. Bad signatures often cause great inconvenience, and many times result in very serious mistakes.
3. If a lady is writing to a stranger, she should sign her name with her proper title, Miss or Mrs.
4. The complimentary close is written on the next line below the closing sentence, and the signature is written on the next line below the complimentary close.

HOW TO ADDRESS AN ENVELOPE.

<p><i>Messrs. Wicks & Nichols,</i> <i>Sic. 17 Monroe Street,</i> <i>Ottawa,</i> <i>Canada.</i></p>	
---	--

1. In writing the superscription, commence the name a little to the left of the center of the envelope. The *town* on the line beneath, and should extend a little to the right of the name. The *State* next below, should stand by itself, still further to the right. The *county* may be on the same line with the State, towards the left side of the envelope.

2. The county may be omitted where the town is a large metropolis.

3. Great care should be exercised in addressing letters. Give the full name and title of the person addressed. From the neglect of this precaution, thousands of letters are sent every month to the dead-letter office.

Gentlemen, — In reply to your letter of the 9. inst. relative to the knowledge of Mr. W. Turner who was in my employ as bookkeeper for upwards of seven years.

During that time his conduct was such as not only to win for himself the good wishes and respect of all with whom we had business relations, but by strict attention to his duty, his punctuality, and above all by his integrity, so won my esteem, that no considerations could have induced me to part with him.

Serious illness alone causing him to resign the position he held:

COMMERCIAL CORRESPONDENCE.

HOW TO WRITE A LETTER OF INTRODUCTION.

Toronto, Ont., Oct. 7, 1892.

Dear Sir: This will introduce to you my friend, F. D. Vincent, of this city. He intends staying a few days in your place, which he visits on business, and I take the liberty of recommending him to your kind attention.

He is a gentleman of excellent acquirements, and I know him to be responsible to the extent of his engagements. Any attention or favor that you render him will be considered a personal favor, which I shall be happy to reciprocate.

Very sincerely yours,

Chas. M. Hunter.

To Jared L. Morton, Esq.

Recommendation to a Young Man.**TO WHOM IT MAY CONCERN.**

This is to certify that the bearer, Mr. S. G. Auer, has long been known to me, and that he is a young man of good family, steady habits, and honest and conscientious in the performance of every duty.

He sustains an excellent reputation among his associates and neighbors. He is highly respected by all, and is possessed of a good education. We take pleasure in recommending him to any who may desire the services of an active, competent, and trustworthy young man.

J. A. WEIS.

A Tenant's Complaint.

Mr. WILLIAMS,
City.

Toronto, March 12, 1893.

Dear Sir:—Some time ago I called your attention to the condition of the house, for which we are paying a liberal rent. The drainage is in a bad condition, one of the chimneys is very defective, a large portion of the plastering from the ceiling in the north room has fallen down, and we are suffering continual annoyance owing to the bad condition of the house and premises. I trust it will not be necessary to notify you again that these things demand immediate attention. They must be remedied, or we shall be compelled to look elsewhere for another house.

Yours very truly,
ANNA HOLVERSON.

A Parent's Excuse to a Teacher.

MR. E. T. SMITH,

Will you please excuse my daughter Grace for non-attendance at school yesterday? She was detained on account of sickness.

Very respectfully,

MRS. F. J. DAVIS.

A Resignation.**TO THE DIRECTORS OF THE JOLIET LOAN ASSOCIATION.**

Gentlemen:—I herewith tender my resignation as secretary of your association, for reasons not altogether unknown to you. Same to take effect on the 15th day of April next.

Respectfully yours,

March 10, 1891.

Apologizing for Failure to Pay Money Promptly.

Rev. WM. BARRY,
Toronto, Ont.

Kingston, Jan. 14th, 1893.

Dear Sir:—I must really beg of you to defer the settlement of your account till after the middle of next month, when I shall be in a condition to meet your demand. Regretting that circumstances prevent my being more prompt in attending to your wishes,

I remain, Sir,

Yours very truly,

A. M. WINTERS.

Requesting Payment.

Messrs. DOUGLAS & HEARTH,

St. Louis, Mo.

Naperville, Ills., Oct. 31, 1891.

Dear Sirs:—We are obliged again to ask you for the balance of your account, now four months past due. We are much inconvenienced by your delay, and have waited longer than we think ought to be expected. The account must be speedily settled, and, if we do not hear from you by the 15th inst., will draw on you, at five days' sight. If the draft is not protected at maturity, we shall be compelled to adopt some other mode of settlement.

Yours truly,

ANDREW JAY.

Application for a Situation as Book-keeper.

Messrs. K. K. LANGTON & CO.,
Cincinnati, Ohio. San Jose, Cal., Feb. 20, 1891.

Gentlemen:—Having learned from Prof. George Sindlinger that you desire the services of a book-keeper, I respectfully offer myself as an applicant for the situation. I have been engaged for two years in the wholesale house of Geo. Reuss & Co., as clerk and assistant book-keeper, and have a good knowledge of accounts. My business acquaintance is extensive in the western part of Kentucky, and I could therefore influence considerable trade. I enclose copy of testimonial from my late employers, and would also respectfully refer you, as to my character and ability, to

Messrs. S. A. Welty, Banker, Creston, Ia.,
W. Scott & Co., Merchants, Naperville, Ill.

Any communication which you may be pleased to make, addressed as above, will receive prompt attention.

Very respectfully yours,

F. T. GEIST.

Recommendation enclosed in the above copy.

San Jose, June 10, 1891.

The bearer, F. T. Geist, has been in our employ as assistant book-keeper for over two years, and we have always found him to be honest, steady, and correct in his habits and deportment, and well qualified for any position of trust in a counting-house. We cheerfully recommend him as a competent book-keeper and one who will earnestly apply himself to promote the interests of his employers.

Respectfully,

L. F. WENTZEL & CO.

A Student at School.

North-Western College, Oct. 2, 1891.

My dear Parents:—It will doubtless give you much pleasure to learn that owing to the kind attention of my teachers I have made so satisfactory a progress, that I have not only been promoted one class higher in the school, but have carried off the first prize in penmanship.

I sincerely hope that I may keep up to all the expectations you have formed of me, and which you have spared no pains or expense to realize.

With feelings of regret at leaving my kind teachers and school-mates, and delight at the prospect of my return home, I remain, my dearest parents, with kindest love to all at home,

Your affectionate child,

ELMER WICKS.

Application for a Catalogue.

Dover, Del., Aug. 8, 1891.

President W. P. DYER, M.A.,
Belleville, Ont.

Sir:—Please send me a copy of your last catalogue and circular. I design attending school next winter, and wish to obtain information concerning your terms, course of study, etc. By complying with the above request you will oblige,

Yours, very respectfully,

M. H. SIGNOR.

Another Answer to an Advertisement.

A. M. BAKER & CO.,

Schuykill, Pa., Oct. 7, 1891.

Leimont, N. Y.

Gentlemen:—In answer to your advertisement in the "Times" of to-day, for an assistant in your counting-house, I respectfully offer my services to your firm. I am without experience in business, but have a desire to enter mercantile life, am willing to work, and have just graduated from our city High School.

If you will give me a trial, I will devote myself to your interests and endeavor to acquit myself to your entire satisfaction. For reference as to my character or ability, I would offer the names of

Mr. GEORGE H. BANER, Fargo, Dak.

Mr. GEORGE F. DIEGEL, Cleveland, O.

Should a personal interview be desired, please address as above.

Very respectfully,

J. W. WILLIAMS.

Letter of Recommendation.

Toronto, Oct. 7, 1892.

To whom it may concern:—The bearer of this, Mr. J. M. Horton, has been in our employ for three years past as salesman and book-keeper, and we have ever found him diligent and faithful in the discharge of his duties, and one who endeavored to make his employers' interest his own. He is correct and reliable in his accounts, and is well qualified to act as book-keeper or correspondent.

We cheerfully recommend him to any who may require the services of a trustworthy and competent person as accountant.

Very respectfully,

From a young man commencing business, to a Wholesale House, with Order.

Racine, Wis., Aug. 15, 1891.

Messrs. WILLIARD, HATCH & CO.,

105 State Street, Chicago.

Dear Sirs:—Having recently commenced business for myself, with fair prospects of success, I shall be pleased to open an account with your house, and trust it will be to our mutual advantage. Should you think favorably of the matter, you will please fill the accompanying order with the least possible delay and on your best terms.

For testimonials, I refer you to J. R. Cramer & Co., of your city, by whom I have been, until lately, employed; but as this is my first transaction with your house, upon forwarding me an Invoice of goods and deducting your usual discount for cash, I will remit a sight draft on the First National Bank of your city, for the amount, by return mail. Expecting prompt attention, I am,

Yours respectfully,

187 Madison Street.

Dear Sir:—I notice in this morning's "Clarion" your advertisement of a boy wanted in a grain commission house; for which position I take the first opportunity to apply. I am fourteen years old, have been at school the most of the time, winters, for the past seven years, and understand book-keeping and conducting correspondence pretty well, having assisted my father much of the time while he was in the coal trade, which was about three years.

I am perfectly willing and ready to take my coat off and go right to work at handling grain or anything else in your line.

I refer you to Mr. George Beldon, Coal Dealer, at 65 State Street, Chicago, who has always known me.

I will board at home, and will try to earn for you Five Dollars a week.

Very respectfully, yours,
GEORGE ARNOLD.

Asking a Loan.

Reading, May 23, 1890

Dear Sir:— I write to ask you a rather disagreeable favor. A disappointment in the receipt of some money due has exposed me to a temporary embarrassment. Would you under these annoying circumstances accommodate me with a loan of Twenty Dollars until pay-day, when I shall be able to return it without fail.

It vexes me much to ask a friend such a thing, but you will, I hope, excuse it on the part of

Requesting the Payment of a sum of Money.

Brampton, Ont., May 15, 1893.

H. M. SCHREFFER, Esq.,
Howell, Mich.

Dear Sir:— Although the balance of the account between us has been of long standing in my favor, yet I would not have applied to you at present, had not a very unexpected demand been made upon me for a considerable sum, which without your assistance, it will not be in my power to answer. When I have an opportunity of seeing you, I shall then inform you of the nature of this demand, and the necessity of my discharging it.

I hope you will excuse me this freedom, which nothing but a regard to my credit and faully could oblige me to take. If it does not suit you to remit the whole, part will be thankfully received by

1. Fit yourself by securing a fair knowledge of Arithmetic, Geography, Grammar, Canadian and United States History, Book-keeping, and master Penmanship sufficiently so as to write neatly and rapidly. Obtain a good commercial education in some reliable institution if you possibly can.

2. Secure a few letters of recommendation from your friends and prominent business men if possible.

3. Make up your mind what business you desire to follow and get a list of the best houses in this line, and then make preparation to apply.

4. Then put on your best clothes, see that they are neatly brushed, that your linen is faultless, your boots blacked, your hands and face clean, and your finger-nails properly trimmed.

5. Go to the best houses first. Walk directly to the office and ask for the proprietor. If he is not in or, is busy and cannot see you, say that you may call again and politely leave. Make a note of your call and then go to the next place on your list.

6. If you succeed in seeing the proprietor and are permitted to state your case, come to the point at once. Say that you are from Cobourg (or whatever town you are from), and that you have been in the city for so many days, or weeks, as the case may be, trying to learn some things that may enable you to be helpful in a business house, and that you desire to try, wages no object; you are willing to demonstrate your fitness at whatever work they may have, no matter what it is.

7. If you are fortunate enough to gain the proprietor's confidence, so that he is willing to try you, be glad and ask him to give you any work he may have. If he has no work he will say so, and you bid him good-day and politely retire.

8. Before you go to the next place stop for a moment and consider first, that you made no failure in not securing a position, for the reason that it did not exist, and study carefully and see if you have not made any mistakes in your method of application.

9. Enter the next house with as much courage and confidence as you would if you were sure of a favorable reply. Adopt the same course as before, and if unsuccessful, remember that you and God hold the secret, and keep on in the same way. If in a large city, visit forty or fifty houses each day. Pluck and perseverance will win you a position, for many of our most prominent business men of to-day began by working long and hard in securing their first situation in the same way.

10. Remember that most of the prominent business men of to-day worked their own way up from the bottom, and they will have considerable sympathy for a young man who is starting out in life with nothing but an honest heart and willing hands.

HOW TO MAKE CHANGE QUICKLY.

1. Consider the amount of the purchase as money already counted out; for example, if the purchase amounts to 46 cents, and you are handed a \$2.00 bill in payment, count out 4 cents to make it 50 cents, then count out the other \$1.50.

2. Should the purchase amount to \$2.54, and you are handed \$10.00, count out 46 cents to make it \$3.00, then count out even dollars to make the \$10.00, and your change is correct.

3. Always count your change after receiving, and see that it is correct.

If the parties are very intimate friends, the formal and ceremonious style may be dropped, and that of a familiar letter adopted, as in the following:—

Saturday Morning, May 10.

Dear Fanny,

We are going to Irving's Cliff this afternoon for wild flowers. Will you oblige us by making one of our little party? If so, we will call for you at two o'clock. Do go.

Yours affectionately,

Lizzie.

Please answer by bearer.

My dear Sir,

If you can come next Sunday we shall be equally glad to see you, but do not trust to any of Martin's appointments in future. Leg of lamb as before, at half-past four, and the heart of Lamb for ever.

Yours truly,

C. Lamb.

LADIES' DEPARTMENT.

A LADIES' LETTER WRITER.

New and Practical Rules for Ladies' Correspondence.

1. Letter writing is a department of literature in which ladies have borne the palm.
2. Young ladies should remember that a good letter, well written, well spelled, and well arranged, is always admired, no matter who the writer may be. Ability to write an intelligent letter is absolutely necessary to even a fair culture.

3. A poorly written epistle is always criticised and is never satisfactory, no matter what the contents may be.

4. Young ladies lose many opportunities to improve their spelling and grammar by neglecting the art of careful and prudent letter writing. A spicy, bright letter brings sunshine to both the writer and the reader.

5. Never mail a letter if you are in anywise ashamed of it on reading it over. Tear it up and try again. A thoroughly good letter always makes the reader wish there was more of it. The polished style cannot be acquired without toilsome attention previously given to the details. First be correct in spelling, punctuation, capitals, paragraphs, and grammar; it is safe to say that there are none who cannot do this. Then add to this ability, the thinking and the feeling power, and you will not only be able to write letters, but will begin to delight in literature.

6. Never flatter; be especially chary of compliments when writing to gentlemen; in all your converse let the title of sycophant be won by the man. Always say what you desire to say in a clear straight-forward way.

7. Write as you would talk. If you feel puzzled when you sit down to write as to what to say or how to say it, it is simply an indication that you need practice in writing. Select a few friends with whom you are on familiar terms; open up a correspondence with them, and after a few months of study and practice, you will find letter writing a pleasure instead of a task.

8. A well written letter has opened the way for usefulness to many a one, has led to many a happy, constant friendship, and has proved a life-long help.

9. Letter Writers are of little benefit unless it be to give a general idea of form, such as opening and closing, etc. People

must write letters out of their own heads, and it is impossible to secure them manufactured or ready made. A good letter must have head and heart in it. A copy cannot have the heart element; it is purely frigid. Besides, none but the illiterate would think for a moment of copying. Resolve, then, to be accomplished in writing. The practice of writing sentences on bits of paper, expressing your thoughts in different language, is an excellent exercise in the cultivation of this talent.

10. Thinking over the different subjects of which you desire to speak in your letter and arranging them in natural order is good practice. After selecting as many subjects as you desire to mention in your letter, write them carefully in a series of paragraphs in proper sequence, and you will find that your letter will be complete and interesting. Think your heart full and send it out through your pen.

11. When you desire to begin a letter to your friend, just consider what you would say if he or she were present, and the moment you have abstracted yourself the first words of greeting will pass through your mind, and then the inquiries will naturally follow. If you will cultivate the habit of tracing your thoughts when you begin you will soon have a natural, easy, and pleasant epistle for your correspondent to read.

12. A fitting caution is: Remember that it is possible for anything and everything written to find its way into print.

Asking for a Letter of Recommendation.

Toronto, Ont. June 15, 1892.

Will Mr. Hughes be so good as to favor me with a line, stating in what manner and with what success I discharged my duties while serving as a teacher in the school in which he is director. Such a testimonial, if as favorable as I have reason to expect, may be of great benefit to me in procuring a desirable situation as teacher.

Hoping that Mr. Hughes will favor me with a reply as soon as convenient, I remain
his friend,

Lulu Brown.

A Letter of Condolence on a Child's Death.

Ayton, Ont., June 10, 1892.

My Dear Friend:—If anything could have caused me especial pain, it was the news of your sad bereavement. How I remember your dear child! Lovely, lively, intelligent, and affectionate, ever displaying a thoughtfulness beyond her years, and to lose such a promising child truly brings a deep and heavy shadow; but remember that light sometime will break through, and there will be a glad and happy reunion in the great beyond.

It has, indeed, been a heavy blow, and I scarcely know how to talk of consolation under so bitter an affliction. But think of One who careth for us all and who loves little children. He has prepared a bright and beautiful home beyond the grave, and the spirit of the dear child will only wait a brief period when in sweetness and in love she will meet her mother and father to depart no more.

I can say no more; human consolation is weak. May God bless you in your hour of sorrow, is the wish of

A Letter to a Lady Friend.

Ottawa, June 23, 1892.

Miss Nellie Reynolds,
Scotland, Conn.

Dear Friend:—It no doubt will be a great surprise to you to receive a letter from a distant friend who has been silent so long. I will venture to try to ment, hoping you will recover from the shock in season to make an early reply.

How has the world prospered you all these long years since we last met? I hope you are in the full enjoyment of the blessings of good health and find many interesting and profitable enterprises to engage your time and attention.

Where and how are all the good people who used to be our neighbors? Scattered, no doubt, some to distant States, and some to the silent abodes of the village burial ground.

And thus, Nellie, does time make its mark, and it writes upon all living the sad, sad words, Passing away.

But I said I would be brief. Please write to me, and tell me all the items of interest. With many kind thoughts, I remain, as ever,

Truly your friend,

J. O. Everett.

Dr. Franklin to His Wife.

"Easton, Nov. 13, 1756.

"My Dear Child :

"I wrote you a few days since, by a special messenger and inclosed letters for all our wives and sweet-hearts, expecting to hear from you by his return, and to have the northern newspapers and English letters per the packet; but he is just now returned without a scrap for poor us; so I had a good mind not to write to you by this opportunity, but I never can be ill-natured enough, even when there is the most occasion. The messenger says he left the letters at your house, and saw you afterwards at Mr. Duche's and told you when he would go, and that he lodged at Honey's, next door to you, and yet you did not write; so let Goody Smith give me more judgment, and say what should be done to you. I think I won't tell you that we are all well, now that we expect to return about the middle of the week, nor will I send you a word of news—that's poz.

"My duty to mother, love to children, and to Miss Betsy and Gracy, etc., etc.

I am your loving husband,

HOW TO WRITE NOTES OF INVITATION.

Notes of invitation differ from ordinary letters in the following ways: 1. More formal; 2. Wholly or partly written in the third person; 3. Date is generally written at the bottom; 4. They are without signature.

2. Materials—The paper and envelopes used should be of the finest quality.

3. A dinner invitation should be answered immediately, others (if answered at all) not later than the third day.

4. Regrets—It is more friendly and courteous to state a reason for non-attendance, than to decline without any assigned cause.

After having accepted an invitation, never absent yourself without the strongest reasons.

HOW TO WRITE BUSINESS AND VISITING CARDS.

USES.—1. To serve as credentials, or certificates of authority when an indorsement or an introduction is written upon it.

2.—To make known one's name to a stranger.

3.—To announce a visitor's name when making a call.

4.—Business cards are used by business men to show their kind and place of business.

TITLES.—Social titles are *Mr.*, *Mrs.* and *Miss*. A man and his wife sometimes use a joint card, written *Mr.* and *Mrs. A. S. Barnard*. A married woman living with her husband generally uses her husband's name instead of her own, as *Mrs. Rev. J. C. Myers*. Mother and daughter when visiting together often use the same card (the daughter's name is placed below her mother's name). When two or more daughters are in society, the card of the eldest is written *Miss Barnard*, those of the others *Miss Libbie Barnard*, *Miss Rose Barnard*, etc. Clergymen, physicians and dentists use their professional titles instead of *Mr.*

Business Cards should contain in as few words as possible the leading features of the business which you desire to advertise.

HOW TO WRITE, COLLECT, AND TRANSFER NOTES.

1. Notes are very common, and of great utility in business. At the present time a large proportion of all the business is transacted on credit, that is, a tradesman instead of paying for his stock when he buys it, promises to pay at some future time; that promise, whether oral or written, is itself property, and may be transferred from one to another. Hence notes which are a written and unconditional admission and evidence of a debt, facilitate the use of credit, which is and has been a great factor in the extension of commerce and trade.

2. A note is a simple written promise to pay a certain sum at a certain time, or on demand, or at sight to a person therein named.

The person who promises is called the *maker*, and the one to whom he promises is called the *payee*; the person who endorses it is called the *endorser*, and he to whom the endorser transfers it is called the *endorsee*. The person who has possession of it is called the holder.

3. Notes are made payable to bearer or to order.

4. A note not payable on demand is not due until three days after the specified day of payment.

5. Paper payable to bearer is transferred by delivery, payable to order by indorsement.

6. A note made by an intoxicated person, or minor, is voidable.

7. A negotiable note must contain five things: (1) that the date of payment be certain to come; (2) that it have one of the two words *order* or *bearer*; (3) that the amount be specified and certain; (4) that it be payable in money only; (5) that it be an unconditional promise.

8. A signature written with a lead pencil, a mark, or initials, is valid.

9. If no time is specified, the note is payable on demand.

10. All the parties who have written their names on a note are liable for the amount due; but only one satisfaction can be recovered.

11. An indorser can avoid liability by writing "without recourse" on the back of the note with his signature.

12. A promissory note does not bear interest until after maturity, unless so specified. Interest can be charged from date only where it is so expressed, otherwise interest can be charged from date of payment only.

13. Only the legal rate of interest, six per cent., can be charged, unless a greater rate be specially mentioned on the face of the note.

14. A demand note is payable on presentation without days of grace, and will bear legal interest after a demand has been made.

15. A person who indorses a demand note is liable only for a limited time.

16. To make the indorser of a note responsible, the note must be presented and payment demanded of the maker on the very day when it becomes due. If payment is refused, the note must be protested and notice must be given immediately to the indorser or indorsers.

17. A note given by one who cannot write should be witnessed.

18. A note lost or destroyed by fire can be collected by sufficient proof, but the payee must be indemnified.

19. Fraudulently making or altering a written instrument is forgery.

20. A forged instrument is not commercial paper, and one whose name is forged cannot be made responsible.

21. A note obtained through fraud, in the hands of an innocent party who has acquired it in good faith and for value, may be collected.

22. Notes may be transferable after they are due, but only subject to all defects.

23. Always write the name of the place of payment. It is just as important as the date.

24. A note may be written in any language, and any form of words.

25. Negotiable paper, payable to bearer, or indorsed in blank, which has been stolen or lost, cannot be collected by the thief or finder, but a holder who receives it in good faith before maturity for value, can hold it against the owner's claims.

26. Money paid under mistake must be refunded.

27. Demand for payment of a note must be made upon the last day of grace; if that day is a Sabbath or a holiday, demand must be made on the day following.

28. One who receives a note knowing it to have defects, gets no better right to collect it, than the one from whom he received it had.

29. If a person at the time of taking a note, has notice that it is void through fraud, or upon any legal grounds, he cannot collect it.

30. A note as a gift is void for want of a consideration.

31. Upon presentment for payment and refusal by maker at maturity, the note should be protested by a Notary Public.

32. An extension of the time of a note by holder, releases sureties and indorsers, unless they ratify the change.

33. The signature on a note or bill must be proven.

34. When several persons unite in a note and say: "*we promise*," or "*we jointly promise*," it is a joint liability only, and all must be sued; but if they say *we* or *either of us promise*, or "*we jointly and severally promise*," the liability is both joint and several, and either or all may be sued.

35. When a note says "*I promise*," but is signed by two or more, each signer is bound for the whole amount, and each or all may be sued.

36. A note given by one who is not of age cannot be collected by law. If the minor ratifies after becoming of age, it becomes valid.

37. When a note or bill contains words prohibiting transfer, or indicating an intention that it should not be transferable, it is valid as between the parties thereto, but it is not negotiable.

 ot negotiable.

38. A material alteration in any part of a note, as in the amount, date or time of payment, will discharge all parties from liability upon such altered note, unless they are aware of the alteration and ratify it.

39. The word month in a note, means a *calendar* month, and not a *lunar* month; thus a note payable one *month* from the 31st day of January, 1892, is payable three days after the 29th day of February, 1892; this is on the 3d day of March, 1892.

40. A note which is, or on the face of it purports to be, both made and payable within Canada, is an inland note: all others are foreign notes.

RT. HON. WILLIAM EWART GLADSTONE.

What is really wanted is to light up the spirit that is within a boy. In some sense and in some effectual degree, there is in every boy the material of good work in the world; in every boy, not only in those who are brilliant, not only in those who are quick, but in those who are stolid, and even in those who are dull. —Gladstone.

How to Discount a Note at the Bank.

1. **DISCOUNT** is a certain percentage deducted from a note or debt for the payment of same before it is due.

2. **BANK DISCOUNT** is simple interest on the principal, taken in advance, and is usually reckoned for *three days* more than the specified time.

3. In discounting a note which is drawing interest, the discount must be reckoned on the amount or value of the note when due. (The interest for the full time must be first added to the face of the note before computing the discount.)

Example.— Robert F. May, on May 2d, offered the following note, properly indorsed, for discount:—

\$525.

PHILADELPHIA, MARCH 29, 1891.

Sixty days after date, we promise to pay to Robert F. May, or order, at the Union National Bank, Five Hundred and Twenty-Five Dollars, without defalcation. Value received.

R. J. BIRNEY & Co.

How much will he receive as the net proceeds of the above note?

Sixty days from March 29th is May 28th, which, with the three days of grace added, gives May 31st. From May 2d to May 31st, including the day of discount, is 30 days.

Interest on \$525 for 30 days = 2.63 discount.

525 — 2.63 = 522.37 net proceeds.

NOTE.—An accommodation note is where a person gives his note to another person, who is by agreement permitted to take it to the bank and have it discounted. In the hands of the original holder it cannot be collected.

A Note by a Married Woman.

\$200.00. San Francisco, Cal., June 15, 1892.

Two years after date, I promise to pay Fred. Lueben, or order, Two Hundred Dollars, with interest at eight per cent., payable annually. Value received.

Mrs. Mary Chandler.

N.B.—A married woman could formerly incur no liability, but now the statutes of the various Provinces give her more or less freedom to enter into contracts, and, consequently, she can contract with respect to her separate estate. In most Provinces her separate estate becomes bound by a note given to her husband, and he can give a note to her. If she lends money to him and takes his note, he will be obliged, by law, to pay it.

One year after date I promise to pay H. M. Schrepfer,
or order, Six Hundred Dollars at First National Bank, with
interest at six per cent. per annum, after July 26, 1892, until
paid.

And to secure the payment of said amount, I hereby authorize, irrevoca-
bly, any attorney of any Court of Record to appear for me in such Court,
in term time or vacation, at any time hereafter, and confess a judgment
without process in favor of the holder of this Note, for such amount as may
appear to be unpaid thereon, together with the costs and twenty dollars
attorney's fees, and to waive and release all errors which may intervene in
any such proceedings, and consent to immediate execution upon such judg-
ment, hereby ratifying and confirming all that the said attorney may do
by virtue thereof.

A Corporation Note.

\$200.00. Augusta, Me., Mar. 18, 1892.
Nine months after date, the Granite Stone Company
promises to pay J. D. Huling, or order, Two Hundred Dollars,
with interest at seven per cent. Value received.

Naperville Stone Company.

Attest: I. K. Devitt, Secretary, T. P. Phillips, President.

N. B.—If corporation notes are drawn and signed in the above manner
the officers are not personally liable.

How the Different Notes and Bills are Indorsed.

1.—Blank Indorsement.

A blank indorsement is writing the name of the holder on the back of the note. This, however, is not the best form of indorsement, and should rarely be used. Form 1 (page 84) is indorsed in blank as follows:

FORM A.

J. L. Nichols.

N. B.—This note is now transferable without further indorsement.

2.—Full Indorsement.

When the holder writes upon the back of the note, or bill, the name of the person to whom it is to be paid, and makes it payable to his order, and signs his name below, it is called a FULL INDORSEMENT.

Form 2 (page 84) is indorsed in full, and made payable to the order of J. A. West.

FORM B.

Pay to the order
of J. A. West.
H. A. Lundy.

N. B.—This note cannot be sold or transferred without Mr. West's indorsement.

3.—Qualified Indorsement, or How to Avoid Liability.

This is generally done by inserting the words "WITHOUT RECOURSE" in the indorsement. It relieves the indorser from all liability to pay, while at the same time it transfers the title perfectly to the one to whom it is sold.

FORM C.

*Pay B. G.
Meston or
order, without
recourse.
J. D. Jones.*

4.—Restrictive Indorsement.

A restrictive indorsement is intended to confine the payment to some particular person or purpose. Form 2 (page 84) is restrictively indorsed as follows:

FORM D.

*Pay to J. A.
West only.
N. A. Lundy.*

N. B.—This note cannot be transferred. The mere omission of the words "order" or "bearer" in an indorsement on the back of a note or draft does not have the same effect as the omissions of the same words in the face of the note or draft. If omitted on the face, it restricts negotiability.

5.—Conditional Indorsement.

Neither the original character of the note nor its negotiability is affected by a conditional indorsement. It only affects the title of the one to whom it is transferred.

FORM E.

*Pay J. A. West,

1. The word *indorsement* signifies a writing on the back of a bill or written instrument.

2. The indorsement may be on any part of the note, or on a paper annexed to it, in ink or in pencil.

3. When note or bill is drawn payable to a person or his order, it is transferable only by his indorsement. Nothing else in law will hold the parties to a note directly liable to the holder.

4. When money is received on a bill or note, the amount and date of receiving should be plainly written on the back of the paper.

How to Write, Present, and Indorse a Check.

1. A check is a simple order on a bank for the immediate payment of a certain sum of money.
2. A bank can stamp a check good, or certify it, and thus become responsible to the holder for the amount.
3. In sending a check away from your own town or locality, it should always be certified, as in the above.
4. A check is not due until presented. It is negotiable, and may be transferred by endorsement or delivery. It has no days of grace.
5. Giving a check is no payment of an indebtedness, unless the check is paid.
6. The death of the maker of the check before presentment to the bank, renders the check null and void.
7. A forged check paid by the bank is the bank's loss, and not the depositor's.
8. Payment of a check may be stopped by subsequent order to bank by maker before presentment of check.
9. The amount of the check should always be written out in words.
10. Every holder of a check is liable to a subsequent holder only for the time for which he would be held, if originally liable.
11. It is the safest rule always to act with diligence in presenting checks for payment.
12. Certificates of Deposit are used when money is deposited for a short time, and no regular bank account is kept. They can be used the same as a certified check.
13. In presenting a check to the bank for payment, always write your name on the back before presenting it.
14. If you have money in a bank and you wish to draw out a certain sum, write "Pay to myself," instead of writing your name in the body of the check, and then sign it.
15. A safe bank ought to be patronized, for it is dangerous to keep in possession or carry large sums of money.
16. If a bank refuses to pay a customer's check drawn for a sum not greater than the amount he has on deposit there, it is responsible in damages to such customer. But a bank is not bound to pay anything on a check unless it has funds on deposit to the customer's credit equal to the amount of the check.
17. An "I. O. U." is only an acknowledgment in writing of an indebtedness, and is not assignable by mere endorsement except in Quebec.

HOW TO WRITE ALL KINDS OF RECEIPTS.

A RECEIPT is an acknowledgment in writing that a certain sum of money or thing has been received by the party giving and signing the same.

A complete receipt requires the following statements: That a payment has been received; the date of the payment; the amount or article received; from whom received, and if for another, on whose behalf payment is made; to what debt or purpose it is to be applied; by whom received, and if for another, on whose behalf it was received.

2. If the giving and receiving of receipts was more strictly held to in the transactions of the various kinds of business, less trouble, fewer law-suits, and the saving of thousands of dollars would be the result.

3. If payment is made upon account, upon a special debt, or in full, it should be so stated in the receipt.

4. When an agent signs a receipt, he should sign his name, and then write his principal's name underneath.

5. It is not necessary to take a receipt on paying a note, draft, or other instrument indorsed by the payee, because the instrument itself shall be given up, and becomes a receipt.

6. If a receipt is obtained through fraud, or given under error or mistake, it is void.

A Due-Bill is not generally payable to order, nor is it assignable by mere
 indorsement. It is simply the acknowledgment of a debt ; yet it may be
 transferred.

Due-bills do not draw interest, unless so specified.

HINTS AND HELPS FOR WRITING, ACCEPTING, AND TRANSFERRING ALL KINDS OF DRAFTS.

1. A draft, or bill of exchange, is an unconditional written order by one person on another for the payment of a specified sum of money.

2. The one who writes the draft is called the "*drawer*," the one on whom it is written the "*drawee*," and the one to whom it is to be paid the "*payee*." If the drawee accepts the draft, he is called the "*acceptor*." If the payee transfers the draft by endorsement, he is called the "*endorser*;" if he transfers it by delivery without endorsement, the "*transferor*."

3. Drafts may be made payable at sight, on demand, or at a certain time after date, or after sight.

4. The person drawn upon is under no obligation to the holder of the draft unless he accepts it.

5. The usual method of writing an acceptance is, to write across the face of the draft, with red ink, the word "*Accepted*," following with place of payment, date and signature.

6. When acceptance or payment is refused, the draft may be protested.

7. A protest is a formal declaration made by a notary public, under his hand and seal, at the request of the holder, for non-acceptance or non-payment, and the parties liable are formally notified.

8. Drafts are negotiable both before and after acceptance, unless they contain words indicating an intention that they are not transferable.

9. Drafts drawn at sight or on demand are not presented for acceptance, but for payment only.

10. In buying a draft at the bank, it is always best to have it made payable to yourself, and then indorse it in favor of the party to whom you intend to transfer it. This gives you a good receipt for the money.

11. A promise to accept a draft will be equivalent to an acceptance if it has given credit to the bill.

12. Drafts on foreign countries are usually drawn in sets of three, each one referring to the other two. In order to prevent loss in transmission. They are sent by different routes, and the payment of one of them cancels the three.

13. An inland draft is one which is, or on the face of it purports to be, both drawn and payable in Canada; all others are foreign.

HOW TO DO BUSINESS WITH A BANK.

1. Banks are incorporated by special charter, and are authorized to issue their own notes at \$5.00 and upwards, in proportion to their authorized capital. All currency under \$5.00 is issued by the Federal Government.

2. All banks regularly incorporated have the use, under certain restrictions, of capital paid in by the stockholders, the money belonging to the depositors and the notes of their own circulation.

3. Make your deposits in the bank as early in the day as possible, and never without your bank-book.

4. Always use the deposit tickets furnished by the bank. When checks are deposited, the banks require them to be indorsed, whether drawn to his order or not.

5. Keep your check-book under a lock and key.

6. Draw as few checks as possible; when several bills are to be paid, draw the money in one check.

7. Do not allow your bank-book to run too long without balancing. Compare it with the account of the bank.

8. In filling up checks, do not leave space in which the amount may be raised.

9. Write your signature with the usual freedom, and never vary the style of it.

10. Every check is paid by the bank at its own risk. If forged the bank must lose the amount.

11. If a raised check is paid by the bank, it can only charge the depositor the amount for which he drew.

12. Always keep the stub of your check book, and in issuing a check always fill the stub out first.

COMMON FORM OF BANK CHECK

HOW TO ENDORSE A CHECK AT THE BANK.

1. The Check is the most common commercial paper in use, and it is astonishing to see how many intelligent and educated people lack the necessary information on this subject.
2. Write *across* the back (not lengthwise) near the left end.

INSURANCE.

Insurance is a contract for the payment of money on the occurring of a certain event, as loss or death.

The *premium* is the consideration paid for the insurance, and the *policy* is the document containing the terms and conditions of the contract.

There are different kinds of insurance, as life, fire, marine, guarantee and accident insurance.

The "Insurer" means the corporation undertaking the contract of insurance.

The "Assured" means the person whose property, life or insurable interest is insured.

All corporations doing insurance business, and all agents who solicit or procure insurance, must be duly registered.

Misrepresentation in any particulars material to the contract will render a policy invalid.

Errors may be adjusted between the insurer and the assured at any time before maturity of the contract.

Speculative and wagering policies of insurance are illegal.

Insurance on children under 10 years is limited, according to their age, from \$25.00 to \$147.00. Persons of 15 years and upwards are competent to effect insurance on their own lives and give valid discharges.

It is necessary to support a contract that there shall be an insurable interest. A valid contract of insurance may be effected on the life of any person in whom the insured had, at the date of the contract, a pecuniary interest. Thus, a husband may insure the life of his wife, a wife the life of her husband, and a creditor the life of his debtor. If money is loaned on the security of an insurance policy, it should be assigned, and the consent of the insurer obtained thereto.

The benefit of life insurance can be given to wife or children by making a written declaration, or by will, so that creditors cannot secure the money.

Fire insurance is a contract of indemnity.

The assured can only recover the actual loss or damage sustained by him according to the real quantities and value of the goods at the time of the fire. It is necessary to have an interest in the property insured at the time of insuring and of the fire.

The premises or goods of the insured must not be altered or removed without notice to the insurer.

A party has the right to insure property on which he has an equitable lien.

Neither the actual nor constructive possession of property is necessary to be in the assured at the time of issue of the policy or when the loss takes place.

TERMS AND FACTS OF CRIMINAL LAW.

THE RULE, “Every man’s house is his castle” only applies to civil cases. Any locked door of the house may be forced open to arrest a criminal.

EVERY MAN is justified by law to obey the call of a peace officer for assistance in making an arrest.

EMBEZZLEMENT is a fraudulent appropriation to one’s own use what is entrusted to one’s care, and can only be charged against a clerk, servant, or agent.

THE OFFENSE OF STEALING cannot be lawfully settled by receiving back stolen property.

Children under seven years of age cannot be convicted of an offence.

An assault is the act or threat of intentionally applying force to the person of another.

Arson is the wilfully and maliciously setting fire to any building, structure or combustible substance.

Bigamy consists in marrying a second time while either of the persons has a husband or wife still living. A continual absence for seven years of a person's husband or wife, without knowledge that he or she was alive at any time during that period, or a divorce, is a good defence.

A common nuisance is an unlawful act, or omission to discharge a legal duty, endangering the lives, safety, property or health of the public, or obstructing the exercise of any common right.

Perjury is making an assertion on oath, knowing the same to be false, and with the intention of misleading.

Homicide is the killing of a human being by another, directly or indirectly, by any means whatsoever.

Murder is the unlawful killing of a human being, with malice aforethought, either expressed or implied, or while engaged in some felonious act.

Manslaughter is the unlawful killing of another without malice.

Theft, or stealing, is the wilful and wrongful taking possession of the goods of another with the intention to deprive the owner of his property in them.

Robbery is theft accompanied with violence or threats of violence.

Burglary is the act of breaking into and entering a dwelling-house by night, with intent to commit any indictable offence therein.

House-breaking consists in doing the same acts by day.

Forgery is knowingly making a false document with the intention that it shall be used as genuine. Making a false document includes altering or adding to a genuine document in any material part.

Personation is personating any person, living or dead, with intent fraudulently to obtain any property thereby.

Rape is the offence of having carnal knowledge of a woman by force against her will.

A riot is an unlawful assembly which has begun to disturb the peace tumultuously.

Treason is the act of killing, attempting to kill, the Sovereign Queen or Heir-apparent, or levying war against Her Majesty, or assisting any public enemy at war with Her Majesty.

A defamatory libel is matter published without legal justification or excuse, likely to injure the reputation of any person by exposing them to hatred, contempt or ridicule, or designed to insult the person of whom it is published,

IT TAKES TWO TO MAKE A CONTRACT.

HOW TO WRITE A CONTRACT.

Rule :—1. The parties to a Contract are taken in the order in which they are written and referred to as "the party of the first part," "the party of the second part," without repeating their names. It matters not which name is written first.

2. After writing the date, names of the parties and their places of residence, state fully all that the first party agrees to do, and then state all that the second party agrees to do.

3. Next state the penalties or forfeitures in case either party does not faithfully and fully perform, or offer to perform, his part of the agreement.

4. Finally, the closing clause, the signatures and seals, the signatures of witnesses are written.

No particular form of legal language is necessary. Use your own words and state in a plain way just what you want done. Anyone who can write a letter and express his desire in an intelligent manner can write a contract.

Errors in grammar or spelling do not affect the legality of the agreement.

If the language should be obscure on certain points, the "court" will always interpret the *intent* of the parties when they entered into the agreement.

When an agreement is written it must all be in writing. It cannot be partly written and partly oral.

The Law Governing All Kinds of Contracts.

1. A contract is a mutual agreement between two or more competent parties for a valuable consideration to do or not to do a particular thing.

2. It must have, 1. Parties; 2. Subject Matter; 3. Consideration; 4 Assent of the parties. There cannot be a contract when any of these are wanting.

3. A consideration is the *thing* which induces a person to make a contract.

4. An alteration of a contract in a material part, after its execution, renders it void.

5. A contract the law forbids is void. Fraud renders all contracts voidable.

6. A contract made by a minor, a lunatic, or an idiot is not binding upon him, yet he can hold the party with whom he contracts, to all conditions of the contract.

7. A contract not consistent with law or for immoral purposes is void.

8. A fraudulent contract may be binding on the party guilty of fraud, although not laying any obligation on the part of the party acting in good faith.

9. A contract for the sale or purchase of personal property of the value of \$40.00 (in Province of Prince Edward Island \$30.00) and upwards must be in writing, except when the buyer accepts at least a part of the goods sold and actually receives the same, or gives something in earnest to bind the bargain or in part payment.

10. Any special promise by an executor or administrator to answer damages out of his own estate, and any agreement made upon consideration of marriage, must be in writing.

11. Any contract or sale of lands, tenements or hereditaments, or any interest in or concerning them, must be in writing.

12. A contract which is not to be performed within a year must be in writing.

13. A guaranty must be in writing.

14. In contracts regarding matters of importance it is advisable to have a seal. Consideration is presumed in all contracts under seal.

15. If no time of payment is stated in the contract payment must be made on the delivery of the goods.

CONTRACTS THAT ARE NOT LAWFUL.

1. A contract to commit a breach of peace or other offense.
2. A contract in violation of a statute of the Province in which it is made.
3. An agreement to prevent competition on a sale under an execution.
4. An agreement to prohibit the carrying on of a trade throughout the Province.
5. A contract with an intoxicated person, lunatic or minor.
6. All agreements in which there is fraud.
7. An agreement made by threats or violence.
8. A contract impossible in its nature: such as crossing the ocean in one day, is void.

9. Guardians, Trustees, Executors, Administrators or Attorneys cannot take advantage of those for whom they act by becoming parties to the contract.

10. Useless things cannot become the subject of a contract : such as agreeing not to go out of the house for a month.

11. Contracts made on Sunday are void, except in particular cases.

12. The right to vote or hold office, etc., cannot be sold by contract.

13. Contract without a consideration : such as a promise to make a gift, cannot be enforced.

14. An agreement for immoral purposes.

15. Where consent to an agreement is given by mistake, it cannot become a contract.

16. If a thing contracted for was not in existence at the time of making the contract, such as buying a horse and not knowing that he was dead at the time, is not good.

17. If a person agrees to serve as a laborer or clerk, he cannot be compelled to fulfill his agreement : damages, however, can be recovered.

18. Two or more persons intentionally cannot make a contract to the injury of a third person.

19. Wagers or bets cannot be collected by law.

20. More than legal interest cannot be collected, unless agreed to.

21. Contracts for concealing felony or violating public trust, for bribery and extortion are prohibited.

22. Contracts in which there is misrepresentation or concealment of material facts cannot be enforced. It is a fraud to conceal a fraud.

23. Money borrowed for the purpose of betting, the lender knowing it to be for that purpose, cannot be collected.

24. If any part of a contract is illegal, the whole is illegal, unless the legal part can be clearly separated from the illegal part.

25. A verbal release without payment or satisfaction for the debt is not good.

26. If there are two parts to a contract, and one conflicts with the other, the first part holds good in preference to the last.

Witnesseth, that the said Louis F. Heyd for himself, his heirs, executors and administrators, agrees to sell, and the said Herbert M. Forgie for himself, his heirs, executors, administrators and assigns, agrees to purchase Lot Number Nine and the North half of Lot Number Ten in the Fifth Concession of the Township of Dover in the County of Kent, containing 150 acres, together with all buildings thereon, for the price of \$5,000.00, payable as follows: The sum of \$500.00 on the date hereof; the sum of \$1,500.00 in Thirty days from the date hereof, the balance to be secured by a Mortgage, according to statutory form, to be given by the said Herbert M. Forgie on completion of this Agreement. The purchaser shall examine the title at his own expense; shall not require the production of any title deeds or evidences of title other than those in the possession of the vendor; and shall state his objections thereto, if any, in writing within ten days, otherwise the title shall be accepted. If any valid objection be made which the vendor is unable or unwilling to satisfy, he may, by notifying the purchaser in writing, cancel this Agreement, and shall then return all moneys paid him on account hereof without interest. The Vendor shall furnish a deed at his own expense. The Mortgage shall be prepared at the expense of the purchaser. Taxes, interest, insurance and rent shall be adjusted to date hereof, thereafter assumed by purchaser. This Agreement shall be performed in 30 days, and Time shall be of its essence.

The Law Governing the Sale and Transfer of Personal Property.

1. A sale is the exchange of property for money, which is either paid at once or to be paid in the future.
2. There are many complicated things pertaining to the sale of property which every thoughtful man should understand.
3. The thing sold must either exist at the time of the sale or there must be a well-founded reason that it will be in existence and in possession of the seller. For example: If a man sold a horse for \$100 and it transpires that the horse died before the actual time of the sale the transaction would not be a sale, otherwise it would.
4. Grain or other produce not yet sowed or planted can be sold because the seller may reasonably expect a crop. Machinery or other manufactured goods may be sold before they are made and the seller can be made to perform his part of the contract the same as though the articles actually existed at the time of the sale.
5. The thing sold must be specified and set apart as the property of the buyer. For example: The sale of ten bushels of wheat from a certain bin would not be a sale unless the grain was measured and set apart.

6. The price must be fixed by mutual consent, or be understood by the terms of the sale.

7. Any defects which can be seen in property or in animals when sold does not relieve the buyer from meeting his contract though he claims he did not see the defects. *The law does not furnish eyes for the purchaser of property. Caveat emptor.*

8. But defects in property or animals which cannot be seen, and the seller makes no statement in reference to such defects, but recommends it as good or sound, relieves the buyer from fulfilling his part of the contract.

9. When nothing is said as to the time of payment when the sale is made the law presumes that the property must be paid for before the purchaser can secure possession. If credit is agreed upon the buyer is entitled to immediate possession.

10. The purchaser, in order to make good his bargain, should always advance a small amount, to bind the seller to the bargain.

Agreement for Sale of Grain.

HOW TO WRITE A LEASE.

RULE.—*The party granting the possession and profit is called the LESSOR, and the party to whom the grant is made is called the LESSEE.*

A Lease is a contract to be performed by both parties, and hence they both should sign it.

It is proper and best to have two copies of the lease (both alike), so that each party may hold a copy of the original agreement.

Write the lessor's name first, and his name should be signed first at the close.

Payments of rent should be entered on the back of the lease.

Care should be exercised in giving the **TIME, DESCRIPTION and the AMOUNT TO BE PAID.**

1. A LEASE is a contract by which a party gains the possession, use and profit of lands and tenements, in return for which he pays the owner thereof a recompense, called rent.

2. A lease must always give a less interest in land than that of the lessor. If lessor conveys his whole interest, it is an assignment or conveyance.

3. A lease of lands and tenements may be by written or verbal contract, except that there cannot be a verbal lease for a longer period than one year.

4. A lease of lands and tenements in Ontario and New Brunswick, exceeding three years must be by deed, and if for seven years it must also be registered.

5. A written lease cannot be changed by verbal agreement made at the same or another time. When parties reduce their agreements to writing, they are bound by the writing as against any verbal declarations.

6. If no time is stated when the rent is to be paid, it is not due till the end of the lease.

AGREEMENT TO CULTIVATE LAND ON SHARES.

THIS AGREEMENT, made this first day of March, one thousand eight hundred and ninety-one, between H. M. Schrepfer, of the town of Cohoctah, in the County of Livingstone, State of Michigan, party of the first part, and Richard Brown, of the City of La Salle, in the County of La Salle, and State of Illinois, party of the second part.

The party of the second part agrees to cultivate the land in good, workmanlike manner, keep the land free from noxious weeds, haul out the manure, and keep the fences in repair, the party of the first part to furnish the material.

The said Richard Brown is to deliver at the residence of the party of the first part, one-half of all the grain and hay raised on the farm of the party of the first part, and pay \$4.00 per acre for the land which he feeds as pasture.

This lease to hold good from March 1st, 1891, to March 1st, 1892.

**ONTARIO SHORT HOUSE LEASE.**

THIS INDENTURE, made the Tenth day of May, in the year of our Lord one thousand eight hundred and ninety-two, in pursuance of the Act respecting Short Forms of Leases: Between John Tytler of the City of London, Esquire, hereinafter called the lessor of the first part; and William Milne of said City of London, Merchant, hereinafter called the lessee of the second part; Witnesseth, that in consideration of the yearly rents, covenants, and conditions hereinafter respectively reserved and contained by the said lessee, his executors, administrators, and assigns, to be respectively paid, observed, and performed he, the said lessor hath demised and leased, and by these presents doth demise and lease unto the said lessee all that certain household premises known and described as Number 24, Brunswick Crescent in the City of London, together with all the rights, members, and appurtenances whatsoever to the said premises belonging or appertaining; to have and to hold the said hereby demised premises, with their appurtenances, unto the said lessee, executors, administrators and assigns, for the term of five years, to be computed from the tenth day of May, one thousand eight hundred and ninety-two, yielding and paying therefor, unto the said lessor,

his heirs or assigns, the clear yearly rent or sum of Four hundred dollars of lawful money of Canada, in even portions, quarterly, on the tenth days of August, November, February and May, in each and every year during the continuance of the said term, without any deduction, defalcation or abatement whatsoever; the first payment to be made on the tenth day of August next. And the said lessee for himself, his heirs, executors, administrators, and assigns, hereby covenant with the said lessor, his heirs and assigns, to pay rent, and to pay taxes, and to repair; And that the said lessor may enter and view state of repair; And that the said lessee will repair according to notice; And will not assign or sub-let without leave; And will not carry on any business that shall be deemed a nuisance on the said premises; And that he will leave the premises in good repair.

And also, that if the term hereby granted shall be at any time seized or taken in execution, or in attachment, by any creditor of the said lessee or if the said lessee shall make any assignment for the benefit of creditors, or becoming bankrupt or insolvent shall take the benefit of any Act that may be in force for bankrupt or insolvent debtors, the then current quarter's rent shall immediately become due and payable, and the said term shall immediately become forfeited and void.

And it is hereby declared and agreed that in case the premises hereby demised or any part thereof shall at any time during the term hereby granted be burned down, or damaged by fire, so as to render the same unfit for the purposes of the said lessee, then and so often as the same shall happen the rent hereby reserved, or a proportionate part thereof, according to the nature and extent of the injury sustained, and all remedies for recovering the same, shall be suspended and abated, until the said premises shall have been re-built or made fit for the purposes of the said lessee.

Proviso for re-entry by the said lessor on non-payment of rent, whether lawfully demanded or not; or on non-performance of Covenants; or seizure or forfeiture of the said term for any of the causes aforesaid.

The said lessor covenants with the said lessee for quiet enjoyment.

In Witness whereof, the said parties have hereunto set their hands and seals.

THE MAN WHO PAYS HIS MORTGAGE AT THE DAY OF MATURITY.

THE LAW GOVERNING MORTGAGES.

1. Mortgages are conditional conveyances of estates or property by way of pledge to secure a debt, and become void upon the satisfaction of the indebtedness.

2. All mortgages must be in writing, and be signed and sealed.

3. There are two kinds of mortgages : a real estate mortgage, and a chattel mortgage. The former is a mortgage on real estate, the latter a mortgage on personal property.

4. A mortgagee may sell or transfer his mortgage to another party.

5. Mortgages given with the intent to defraud creditors are void, as to all persons knowing of the fraudulent intent.

6. When the debt is paid for which the mortgage was given, the mortgage is void.

7. A foreclosure is the legal proceeding to sell the mortgaged property to satisfy the debt.

8. Mortgages should be recorded with promptness after their execution. The first mortgage on record is the first lien on the property, notwithstanding another mortgage was given first, as to all persons not aware of that fact.

9. A mortgage on real estate is released in Ontario by the execution and registration of a Statutory Discharge of Mortgage.

10. *In writing mortgages always insert the same description of land and lots as given in the deeds of same property.*

ONTARIO SHORT FORM OF MORTGAGE.

THIS INDENTURE made the first day of February, one thousand and eight hundred and ninety-two, in pursuance of The Act respecting Short Forms of Mortgages, between John T. White of the City of Belleville in the County of Hastings, Bullder, hereinafter called the Mortgagor of the First Part, Amy White his wife of the Second Part, and Edward R. Wood of the City of Toronto in the County of York, Accountant, hereinafter called the Mortgagee of the Third Part. Witnesseth that in consideration of One thousand dollars of lawful money of Canada, now paid by the said Mortgagee to the said Mortgagor, the receipt whereof is hereby acknowledged, he the said mortgagor doth grant and mortgage unto the said mortgagee, his heirs and assigns forever: All and singular that certain piece or parcel of land and premises situate, lying and being in the City of Belleville, in the County of Hastings, and composed of Lot number Twenty (20) on the north side of Stanley Street, according to registered Plan 79 for said City of Belleville. And the said Amy White, the wife of the said John T. White, hereby bars her dower in the said lands. Provided this mortgage to be void on payment of One thousand dollars of lawful money of Canada and interest thereon at the rate of six per centum per annum, as follows: The said principal sum of One thousand dollars in two years from the date hereof and interest thereon at the rate aforesaid, payable half-yearly on the first days of February and August. Interest overdue to bear interest at said rate, and taxes and performance of statute labor. The said mortgagor covenants with the said mortgagee that the mortgagor will pay the mortgage money and interest and observe the above proviso. That the mortgagor has a good title in fee simple to said lands, And that he has the right to convey the said lands to the said mortgagee, And that on default the mortgagee shall have quiet possession of the said lands free from all encumbrances, And that the said mortgagor will execute such further assurances of the said lands as may be requisite, And that the said mortgagor has done no act to encumber the said lands, And that the said mortgagor will insure the buildings on the said lands to the amount of not less than One thousand dollars currency, And the said mortgagor doth release to the said mortgagee all his claims upon the said lands subject to the said proviso. THE MAN THAT NEVER PAYS A MORTGAGE.

HOW TO WRITE A CHATEL MORTGAGE.

Use a legal printed form or write one like the copy given below.

A Chattel Mortgage is a mortgage on personal property, such as live stock, machinery, farm implements, furniture, etc.

1. A chattel mortgage must be acknowledged by an affidavit of *bona fides* before a Judge, Justice of the Peace, Notary Public, or Commissioner for taking affidavits in the County in which the mortgagor resides.

2. The mortgage, if made in Ontario, which is not accompanied by an immediate delivery and an actual and continued change of possession of the things mortgaged, or a true copy thereof, shall, within five days from the execution thereof, be registered in the office of the Clerk of the County Court of the County where the property is situated.

3. Chattel mortgages may not run longer than one year as against creditors or subsequent purchasers, unless renewed by statement with affidavit.

4. A chattel mortgage is like a pledge in that the debtor may become entitled to the property by paying the debt; they are unlike in that in a chattel mortgage, if the debt is not paid, the property becomes the creditor's, and the debtor is not entitled to any surplus.

5. A chattel mortgage is a conditional sale of property, if the debt for which it was given is not paid.

6. A pledge is not a sale, it only gives the right to sell to some one else if the debt is not paid.

7. The property must be taken possession of by the mortgagee on the maturity of the mortgage, or it can be taken by other creditors.

8. The same form of discharge may be used in discharging a chattel mortgage as is used in discharging a mortgage on real estate.

9. In the Province of Quebec chattel mortgages are not recognized, though a creditor can have a lien on chattels by keeping them in his own possession.

CHATTEL MORTGAGE.

THIS INDENTURE, made (in duplicate) this 1st day of July, 1892, between Fred. F. Pole, of the town of Chatham, the Mortgagor, and John Tytler, of the city of London, the Mortgagee;

WITNESSETH, that the mortgagor in consideration of one hundred dollars of lawful money of Canada, to him paid by the said mortgagee, at or before the delivery hereof (the receipt whereof is hereby acknowledged), doth hereby grant, bargain, sell and assign to the said mortgagee, his executors, administrators and assigns, all and singular the following goods and chattels, being one bay mare, 4 years old, one wagon, one set of double harness, and all my household furniture of every description in my house on Nelson Street, in said town of Chatham; To HAVE AND TO HOLD the said goods and chattels unto the said mortgagee, his executors, administrators and assigns to the his and their only use forever; *Provided* always that if the mortgagor, his executors or administrators shall pay or cause to be paid to the said mortgagee, his executors, administrators or assigns one hundred dollars in one year from the date hereof, with interest thereon at eight per cent. per annum, then these presents and everything herein contained shall become cease, determine and become utterly void to every intent and purpose. And the said mortgagor for himself, his executors and administrators, shall and will warrant and forever defend by these presents the said goods and chattels unto the said mortgagee, his executors, administrators and assigns.

And the said mortgagor doth hereby for himself, his executors and administrators, covenant with the said mortgagee, his executors, administrators and assigns, that he or they will pay the money hereby secured in the manner above stated, and also in case default shall be made in payment as aforesaid or any part thereof, or in case the mortgagor shall attempt to sell any part of the said goods and chattels, or to remove the same out of the County of Kent, or suffer the same to be seized or taken in execution, then it may be lawful for the said mortgagee, his executors, administrators and assigns, his or their servants or agents, at any time during the day to enter into any lands or houses where the said goods may be, and for such person to break or force open any doors, bolts or fastenings, fences or enclosures, for the purpose of taking possession of and removing said goods, and may thereafter sell all or any part thereof at public auction or private sale, and out of the proceeds of such sale to pay such sums of money as may be due him hereunder, and all lawful expenses incurred thereby in consequence of such default as above mentioned, and to pay over to said mortgagee any surplus remaining after such sale and payment; or in case of deficiency, then that the said mortgagor, his executors or administrators will pay the same to the said mortgagee, his executors, administrators or assigns. Provided always that it shall not be incumbent to make such sale as aforesaid, but the said mortgagee, his executors, administrators or assigns, may peaceably hold, use and possess said goods and chattels without the hindrance of any person whomsoever.

HOW TO WRITE A DEED.

RULES.—1. *It must be written or printed on paper or parchment and sealed.*

3. *The date, names of the parties and place of residence are written first.*

3. *The property must be fully described. The description should be by stating the number of the Lot, Concession, Township and County, and registered number of the surveyor's plan, if any. If a portion only is to be conveyed, it should be more particularly described, as by metes and bounds, or the North half of the lot, etc.*

4. *It must express a consideration, and be signed and sealed by the grantor or grantors.*

CAUTION.—It must be completely written before delivery. Numbers should always be written in *words*. If the grantor is married, his wife should join in the deed and bar her dower in all Provinces where she is entitled to dower. Where forms are prescribed by the Statutes of a Province, they must be followed. Deeds should be drawn in duplicate (two copies), one of which should be filed in the Registry Office and a Certificate of registration endorsed on the other copy by the Registrar. Care should be taken to have all parties interested in the land join in the conveyance thereof, and to have their signatures properly verified by affidavit.

THE LAW GOVERNING DEEDS.

1. The affidavit verifying the execution of a deed can only be made before certain persons authorized to take the same, such Justices of the Peace, Notaries, Judges and Commissioners, etc.

2. A deed without consideration is void.

3. Any person of legal age, competent to transact business, and owning real estate, may convey it by deed.

4. The deed takes effect upon its delivery to the person authorized to receive it, and should be recorded at once.

5. After the acknowledgement of a deed the parties have no right to make the slightest alteration.

6. The person making the deed is called the *grantor*, the person to whom the deed is delivered is called *grantee*.

A QUIT CLAIM DEED releases only what interest the grantor has in the property to the grantee, who must already have some interest in the land.

8. Never purchase real estate without a careful examination of the title, either by yourself or a trusty Solicitor.

HOW TO WRITE A WILL.

RULE.—Use simple language, and state fully and plainly all the particulars concerning every portion or condition of the will.

THE LAW OF WILLS.

1. All persons of sound mind and memory, of lawful age, freely exercising their own will, may dispose of their property by will.
2. "Lawful age" is 21 years, in both male and female.
3. All wills should be in writing on paper or parchment.
4. No exact form of words is necessary to make a will good at law.
5. The maker of a will if male, is called a *testator*; if female, *testatrix*.
6. Any person who dies without having made a valid will is said to have died *intestate*. The property will then be distributed according to the laws of the Province in which it is situated by a person appointed by the Surrogate Court, called an *Administrator*. Though commonly used, a seal is not essential to a will.

7. A will has no force or effect until after testator's death.

8. The last will annuls all former wills.

9. A wife cannot be deprived of her dower, which is a life interest in one-third of her husband's real estate by will. A devise or bequest may be made to a wife in lieu of dower, but it must be clearly so expressed or she may become entitled to both.

10. Subsequent marriage revokes all wills made while single.

11. Testator's property is primarily liable for testator's debts and funeral expenses, which must be paid before any part of it can be distributed to legatees.

12. A will is good, though written with a lead pencil.

13. Wills must be signed in the presence of at least two witnesses who must sign in the presence of the testator and of each other. An executor is a competent witness.

14. A person who is competent to make a will can appoint his own executor. If the person so appointed is legally competent to transact business, the Surrogate Court will confirm the appointment. The person so appointed is not obliged to serve.

15. It is not necessary that the witnesses should know the contents of the will. It is necessary that testator acknowledge to them that it is his will, sign it in their presence, or acknowledge the signature already signed to be his, and request them to sign as witnesses: they should sign as witnesses in the presence of the testator and of each other.

16. Testator should write his own name in full. If unable to do so, his hand should be guided by another, and his name written, or a mark made near his name.

The following is the usual form when testator signs by mark.

John ^{his} X Smith.
mark.

17. The executors must first prove the will and be appointed by the Surrogate Court of the County in which the testator resided at the time of his death.

18. A holograph will, one entirely written and signed by the testator, requires no particular form nor an attesting witness in Manitoba.

19. Executors are allowed one year in which to collect the assets and pay the debts before the payment of legacies can be enforced, though it is always well to perform the duties expeditiously.

20. Executors must keep a strict account of all dealings with the estate, or they will be held personally responsible. A devise or bequest to a witness, or to the husband or wife of such witness is invalid.

21. An addition to an executed will is called a codicil.

22. The same essentials apply to a codicil as to a will.

23. Legacies to subscribing witnesses are generally declared void.

GENERAL FORM OF WILL.

I, Andrew Kirk, of the Town of Owen Sound, Merchant, being of sound and disposing mind and memory, do make and publish this as my last will and testament, hereby revoking all former wills and testamentary dispositions heretofore at any time by me made.

I hereby appoint my brother, Alexander Kirk, and my son-in-law, John Ross, to be the executors of my will.

I hereby direct my said executors to pay all my just debts, funeral and testamentary expenses as soon as possible after my decease.

I hereby bequeath to my wife, Clara Kirk, Ten thousand dollars, the same to be in lieu of any claim she may have for dower.

I hereby devise my house and premises known as 49 Elm Avenue, in the Town of Owen Sound, to my wife, Clara Kirk, during the term of her natural life, and after her decease to my son, Robert Kirk, absolutely.

I devise and bequeath to my son, Robert Kirk, and my daughter, Mary, the wife of John Ross, all the rest and residue of my real and personal estate in equal shares absolutely.

In witness whereof, I have hereto set my hand this 1st day of July, 1892.

Signed, sealed, etc., etc.

Andrew Kirk.

Make your will early in life—you know not what to-morrow may bring forth.

SHORT FORM OF WILL.

This is the last will and testament of Abel Baker, of the Village of Morrisburg, in the County of Dundas, Grocer. I give, devise and bequeath all my real and personal estate of every kind and description and wherever situated unto my wife, May Baker, her heirs and assigns absolutely forever, hereby appointing her the sole executrix of this my will. I hereby revoke all other wills and testamentary dispositions by me at any time heretofore made. In witness whereof, I have hereto set my hand this 24th day of May, 1892.

Signed, sealed, published and declared by said Abel Baker as and for his last will and testament in the presence of us present at the same time, who at his request, in his presence and in the presence of each other have hereunto subscribed our names as witnesses to the due execution hereof. } Abel Baker.

How to Write All Kinds of Guaranties.

1. A **GUARANTEE** is an assurance made by a second party that a certain party will perform a certain specific act.
2. A guarantee to be binding should be for a consideration.
3. All guarantees must be in writing.
4. A mere accommodation or overture is not sufficient to hold a guarantor.
5. A guarantee must be accepted to make it a contract, and the guarantor must have notice of its acceptance within a reasonable time.
6. A guarantor, after paying the debt, has the right to substitute himself in place of the creditor.
7. The terms of the contract of guaranty are to be strictly construed.
8. In the sale of a horse the purchaser can only hold the guarantor for defects of the horse when sold.
9. In case of a cough the horse must have been heard to cough previous to the purchase. If lame, the lameness must be proved to have arisen from a cause that could not have occurred after the purchase.
10. A guaranty after the sale of the horse to another is of no effect.
11. Any material alteration in the terms of the arrangement without the consent of the guarantor, will release him from liability; such as extending time for payment, etc.

How to Write a Guaranty for the Purchase of a Horse.

Osage, Kansas, June 30, 1891.

In consideration of One Hundred and Fifty Dollars, for a bay mare, I hereby guarantee her to be only six years old, sound, free from vice and quiet to ride or drive.

N. B. This guaranty embraces every cause of unsoundness that can be detected and the seller will be held for all the defects in the animal at the time of sale. This is the only safe and satisfactory way for a man to purchase a horse who is not an experienced judge of horses.

How to Form a Partnership, and the Rules and Law.

1. Partnership is a voluntary contract between two or more persons, to place their property, labor or credit, or some or all of them, in some lawful business, to share the gains and losses in certain proportions
2. Where no time is specified, any partner may dissolve a partnership at will.
3. The death of any partner dissolves the whole firm.
4. Each partner has full authority to act for the firm.
5. Not only the common property, but also all the private property of each partner may be taken, to satisfy the debts of the firm.
6. Upon the dissolution the old partners are responsible to third persons for even new debts, unless such persons have had notice of the dissolution.
7. One partner may discharge himself from liability by giving express notice to any customer or other person, not to trust one or more of his co-partners.
8. A partner cannot make the firm responsible for his separate or private debt, nor bind the firm by entering into engagements unconnected with, or foreign to the partnership.
9. The contract of co-partnership may be made verbally or in writing. It is a serious engagement and easier to get into than to get out of. Every person should use great care in involving his property and business interests in a co-partnership, and where those interests are extensive, articles of co-partnership drawn by the best qualified lawyer available are the safest expedient, and will in all cases be a good investment.
10. Anyone who allows his name to be used, or who shares in the profits, is liable like a partner.

Agreement to Dissolve a Partnership.

We, the undersigned, do mutually agree that the within mentioned partnership be, and the same is hereby dissolved, except for the purpose of final liquidation and settlement of the business thereof, and upon such settlement wholly to cease and determine.

ARTICLES OF CO-PARTNERSHIP.

ARTICLES OF AGREEMENT, made December 3d, 1890, between John H. Wagner and Gregory Ross :

The said parties hereby agree to become co-partners, under the firm name of Wagner & Ross, and as such partners to carry on together the business of buying and selling all sorts of dry goods, at No. 547 Fulton street, in the city of Brooklyn.

The said John H. Wagner agrees to contribute two thousand dollars (\$2,000) to the capital of said firm ; and the said Gregory Ross agrees to contribute one thousand dollars (\$1,000) to the same ; the sum of \$2,500 of said capital to be expended in the purchase of a stock in trade.

The said Wagner shall have exclusive charge of all the buying for the firm.

All the net profits arising out of the business shall be divided in the following proportions, two-thirds to the said Wagner and one-third to the said Ross.

Each partner shall devote all his time, attention, and efforts to the said business.

Neither partner shall, without the consent of the other, sign any bond, bill or note as surety, or otherwise become obligated as security for any other person.

Witness the hands and seals of the parties hereto, this 1st day of January, A. D. 1891.

The Time in which Debts are Outlawed in Canada and the United States.

1. The time to sue varies in different Provinces and in different classes of cases from one to thirty years.

2. In accounts it generally begins from the purchase of the last item, and is renewed by every partial payment.

3. In case the debtor makes a written acknowledgement in a note, or papers of that character, the claim is renewed.

Canada: Accounts, notes, etc., 6 years; Judgments, bonds, etc., 20 years.

In Quebec: Notes, 5 years; Judgments, 30 years.

" HIS BURDEN OF DEBT HE BORE TO THE GRAVE."

HOW TO COLLECT DEBTS.

If no settlement can be reached by mutual agreement, and every effort has been exhausted for reaching a settlement, the next thing to do is to carry the matter into the courts and there have it adjusted according to law. But this method is both expensive and uncertain. A settlement, though not very satisfactory, is often better than the results which can be reached through the courts.

ONTARIO.

ARREST FOR DEBT, ABSCONDING DEBTORS—When a creditor has a claim of \$100 or over, and can show to the satisfaction of the Judge that he has such claim and that there is reasonable and probable cause for believing that the debtor is about to leave the province with intent to defraud his creditors, an order for arrest may be granted.

EXAMINATION OF JUDGMENT DEBTOR—The judgment debtor may be examined as to his property at the time debt is incurred, and the disposal of the same, and in the higher courts the transferee may also be examined. On examination in the Division Court the Judge may order the debtor to pay the debt in such way as he deems proper, and in default may issue an order for committal.

GARNISHMENT—Debts due the debtor may be attached in the Division Court at the time of the issue of the summons, but in the County Court and High Court only after judgment, except \$25 on debts due for wages.

After judgment has been rendered, the money or goods due the defendant, if in the hands of a third person, may be attached to pay the plaintiff. The person in whose hands the money or goods attached are, is known in law as the garnishee or trustee.

ATTACHMENT—This is a writ issued by the Justice of the Peace or Judge, or some other officer having jurisdiction, commanding the sheriff or constable to attach the property of the debtor, to satisfy the demands of the creditor. This writ may be issued at the beginning or during the suit. All attachments lose their validity in case the debtor (or defendant) wins the suit.

JUDGMENT AND EXECUTION—A suit is ended by the courts giving a judgment, either in favor of the debtor or the creditor. If the judgment is in favor of the plaintiff and the defendant refuses to pay the amount of the judgment, an execution is issued by the court which commands the sheriff to take sufficient property of the defendant, if it can be found, to satisfy the judgment.

EXECUTION—In the County Court and High Court execution may issue immediately upon entry of judgment, unless stayed by order of the Court or Judge. Writs of Execution must be renewed before the termination of a year from their date, and must be renewed each year following in like manner. Lands cannot be sold for one year from the time the writ is delivered to the sheriff, but debtors' lands are bound from date of delivery.

QUEBEC.

ASSIGNMENTS—Any creditor for \$200 or over may make a demand of assignment on a debtor who does not pay, and if the latter refuses he may be arrested on a *capias*. The court, on the advice of the creditors, appoints a curator or trustee who realizes and divides the estate. The debtor is only discharged to the extent of the dividend.

ATTACHMENTS—A *capias* against the person or an attachment against the property of a debtor, may issue before judgment on an affidavit by the creditor or his agent that the debtor is about to abscond or to secrete his property with intent to defraud his creditors, or that he is insolvent and refuses to assign.

EXECUTIONS—Execution against goods and lands cannot issue until 15 days after judgment, except upon an affidavit similar to that for attachments above. Chattels can be sold after 8 days' notice and lands after two months.

MECHANICS' LIENS, HOMESTEAD EXEMPTIONS, NOTES, MORTGAGES, CONTRACTS, ETC., are explained under proper headings in other parts of the book.

THE CREDIT SYSTEM.

ITS ADVANTAGES AND DISADVANTAGES.

1. There are many good reasons why people should pay cash for everything purchased. Hopeful people will always buy more freely if they can get it on credit, and are never anxious about pay day to come around.

2. Remember that those who sell on credit *must charge from ten to fifteen per cent. more for goods* in order to cover the interest and risks. It has been found that from seven to ten per cent. of trusted out accounts become worthless.

3. It is always uncertain which of the trusted persons will fail to pay his account, and consequently all persons buying on credit have to share the extra prices, in order to meet the losses which all business men sustain that do a credit business.

4. Remember, the man who can pay cash for goods, or whatever purchases he may make, *can always secure a better bargain than the man who buys on credit.* It will therefore be a great saving if everyone could manage, by rigid economy if necessary, to pay cash for everything they buy. It would pay a high rate of interest on everything purchased.

5. Persons who buy real estate, or merchants who buy large quantities of goods, may often find it necessary to buy on credit. Many of our wealthiest farmers and business men made their money largely in having the benefit of credit, but at the same time, if cash could be paid for everything purchased, whether real estate or other articles, it would be a great saving to the purchaser.

6. *Keep your word as good as a bank and you will always have credit when you desire it, and friends when you need them.*

How to Secure a Mechanic's Lien on Property.

1. A *Lien* is a legal claim. It includes every case in which either real or personal property is charged with any debt or duty. Or in other words, it is the right to hold possession of property until some claim against it has been satisfied.

2. *Possession* is always necessary to create a lien except in case of real estate. The lien simply extends to the right of holding the property until the debt is satisfied.

3. The existence of a lien does not prevent the party entitled to it from collecting the debt or claim by taking it into Court.

4. Warehouse men, carpenters, tailors, dyers, millers, printers, etc., or and person who performs labor or advances money on property or goods of another has a lien on same until all charges are paid.

5. *Hotel Keepers* have a lien upon the baggage of their guests, whom they have accommodated.

6. *Common Carriers* have a lien on goods carried for transportation charges.

7. *Agents* have a lien on goods of their principal for money advanced.

8. *How to Hold the Lien.* Never give up possession of the property until the debt is paid.

9. *Real Property.* If the debt is on a house, barn or other real property, file a lien on the whole property, and have it recorded in the County Registry office. The claim then partakes of the nature of a mortgage.

10. *Mechanic's Lien.* Many of the Provinces have enacted special laws to protect mechanics who furnish materials for buildings which they erect for others. The lien must be registered within 30 days from the time the last work was done or material delivered and an action thereon must be commenced within 90 days from such time, otherwise the lien becomes extinct. The following form is the one generally used in Ontario:

FORM OF MECHANIC'S LIEN.

Thomas Bell, of the City of Hamilton, Bricklayer, under the Mechanic's Lien Act, claims a lien upon the estate of John Grant of said City of Hamilton, Contractor, in the undermentioned land in respect of 40 day's work performed thereon while in the employment of Peter Smith, of the City of Hamilton, Builder, on or before the 30th day of June, 1892. The amount claimed as due is for 40 day's wages at \$3.50 per day—\$140.00.

The following is a description of the land to be charged: Lot 5 and west half of Lot 6 on the west side of James Street, south according to Plan 408 filed in the Registry Office for the County of Wentworth.

LAWS OF THE PUBLIC ROADS.

1. **PUBLIC ROADS** are those which are laid out and supported by Crown or Municipal Councils. Their care and control is regulated by the statutes of the different Provinces, and in detail will not be referred to here, as they can be easily looked up by those who desire information so entirely local.

2. **OWNERSHIP**—The soil and the land remains in the Crown.

3. **LIABILITY**—The repair of highways is usually imposed upon the Municipalities, and they are made liable by statute for all damages, against persons or estates, from injuries received or happening in consequence of a neglect of duty on the part of the officers having the same in charge.

4. The opening or closing of highways is effected by the by-law of a Municipal Council.

5. **LAW OF THE ROAD**—Persons traveling with carriages or vehicles of transportation, meeting on any public way, it is customary to turn their carriages or wagons to the right of the center of the road, so far as to permit such carriages or wagons to pass without interruption.

6. **RUNAWAYS**—The owner of a runaway horse or horses, if negligent, or not exercising due care, is responsible for all damages that may occur.

7. Any unreasonable occupation of the public way, whether arising out of a refusal to turn out and allow a more rapid vehicle to pass, or from an unjustifiable occupancy of such a part of the road as to prevent others from passing, will render the party so trespassing liable for damages to any suffering injuries therefrom.

8. **PETITIONS** for laying out or changing on road or street are made to the Municipal Council.

The agreement to refer matters in dispute to the decision of arbitrators is called a *submission*, and the terms of the agreement should be written out and signed by the disputing parties.

The decision of the arbitrators is called an *award*, which should be put into writing in distinct terms and signed by them.

How to Settle Difficulties by Arbitration.

Arbitration is an agreement by parties who have a controversy or difference to the decision of a third party.

Arbitration is one of the highest courts for the settlement of personal differences, and if people would only learn more of its benefits and advantages, lawyers by the thousands would not thrive and fatten upon the earnings of those who could make better use of their money.

When the matters in difference are simply those of fact, it is often more satisfactory to submit them to the decision of mutual friends, each contending party choosing one, and the two arbitrators thus chosen choosing the third, and the three parties thus chosen constituting the court.

The decision of the arbitrators is called an *award*.

The award should be specific and distinct containing the decision of the arbitrators in as clear and concise language as possible.

The following oath should be taken by the persons chosen to act as arbitrators or referees before entering upon the examination of the matters in dispute: We, the undersigned arbitrators, appointed by and between Henry Smith and Richard Brown, do swear fairly and faithfully to hear and examine the matters in controversy between said Henry Smith and

Richard Brown, and to make a just award, according to the best of our understanding.

P. D. Crimmins,

J. O. Everett,

O. M. Powers.

Sworn to this 26th day of May, A. D. 1885, before me.

D. B. Giveler,

Justice of the Peace.

Oath to be administered to a witness by the arbitrators :
You do solemnly swear, that the evidence you shall give to the arbitrators here present in a certain controversy submitted to them by and between Henry Smith and Richard Brown, shall be the truth, and nothing but the truth, so help you God.

Nations by a system of arbitration are avoiding bloody and protracted wars.

Arbitration Best for Farmers.

Arbitration is almost invariably preferable to litigation. It is not only the easiest, quickest and cheapest way to settle disagreements, but saves much vexation and subsequent dissension. Were individuals, corporations and nations to arrange their disputes by arbitration, instead of resorting to litigation and warfare, the people would be saved millions of treasure, and the world spared much shedding of blood. A peaceful settlement of difficulties is usually followed by prosperity, while "going to law" or war usually results in loss and suffering to both contestants. Indeed, litigation and warfare are twin relics of the dark ages, and so long as they continue in vogue we may look in vain for harbingers of the promised millennium. Of all classes, farmers should, so far as possible, avoid entering into litigation; for whether they win or lose, they are proverbially worsted, the lawyers usually taking the cream, and leaving only the skim-milk for the winning contestant. Truly, there is neither glory nor honor, profit nor pleasure in litigation, and the less people who profess to live "on the square," and, according to the Commandments, have to do therewith, the better it will be for both their present and future peace and prosperity. Even in the most aggravating case of trespass, and the like, no good citizen should resort to the law, until all amicable attempts at settlement have failed. Indeed, and finally, whatever may be the provocation, don't get mad and impulsively prosecute your neighbor, but keep your temper.

purchaser a claim for delivery at any time before the maturity of the contract.

Corners.

Thousands of bushels of grains are bought and sold for every bushel brought into the elevators. Chicago Board of Trade sells every day as much wheat as the State of Illinois harvests in a year. It can thus be easily seen how "commerce" can be forced. In a Board of Trade each buyer buys upon the supposition that each seller is selling what he has not got, and the buyer is buying what he does not want. Now it is easy for a set of men with an unlimited amount of money to combine and "corner" any article in the market. It simply consists of buying more than can be delivered, and then making the sellers deliver or forfeit their margins. A "bull" is one who operates to raise the market—so called from the nature of the bull to toss with his horns. A "bear" is one who tries to lower the market, so called from the nature of the bear to tear down with his claws. A "lame-duck" is a member unable to fulfill his contracts, and is therefore expelled.

Preferred Stock.

This kind of stock takes preference of the ordinary stock of a corporation, and the holders are entitled to a stated per cent. annually out of the net earning before a dividend can be declared on the common stock. Preferred stocks are generally the result of reorganization, although sometimes issued in payment of floating or unsecured debts.

How Stock is Watered.

Sometimes the charter of a corporation forbids the declaring of a dividend exceeding a certain per cent. of the par value of its stock. In this case the directors may find it desirable to "water" the stock—that is, issue additional shares. This increase in the number of shares of course reduces the percentage of dividend, although the same profit in the aggregate is secured to the stockholders.

LAW ON LINE FENCES—ONTARIO.

Owners of occupied adjoining lands shall make, keep up and repair a just proportion of the fence which marks, or is to mark, the boundary between them. Owners of unoccupied lands shall, upon their being occupied, become liable to the same duties.

In case of dispute of such proportion, either owner may notify the other owner, or the occupant of the land of the other owner, that he will, not less than one week from the service of such notice, cause three fence-viewers of the locality to arbitrate on the matter.

He shall also notify the fence-viewers, not less than one week before their services are required.

Both notices shall be in writing, signed by the person notifying, shall state the time and place for arbitration, and may be served by leaving it at the place of abode of such owner, or occupant, with some grown-up person residing thereat, or in case of the lands being untenanted, with any agent of such owner. The occupant receiving such notice shall immediately notify the owner, or he may become liable for all damage caused by his neglecting to do so.

If the owners notified object to any or all of the fence-viewers within a week, and cannot agree on them, the Division Court Judge shall name the fence-viewers.

The fence-viewers shall examine the premises, and, if required, shall hear evidence and examine witnesses on oath. They shall make an award in writing, signed by any two of them, specifying the locality, quantity, description and lowest price of the fence to be made, the time for performing the work, and the proportion of costs to be paid by each owner. Regard shall be had to the nature of the fences used in the locality, the circumstances of the owners, and the suitability of the fence to the wants of the parties. A Provincial Land Surveyor may be employed to make an exact description of the locality. The award shall be deposited with the Township Clerk, and, if registered in the Registry Office, shall constitute a lien upon the lands charged. A dissatisfied party may appeal to the County Court Judge on serving a written notice upon the fence-viewers, Division Court Clerk and all interested parties within one week after receiving notice of the award. Any written agreement between owners respecting such line fence may be registered and enforced as if it was an award of fence-viewers.

The owner of a line fence which partly encloses the occupied land of another person, shall not remove any part thereof unless the owner or occupier of such adjacent enclosure refuses to pay therefor his just proportion after written demand without giving at least six months previous notice.

Each fence-viewer shall be paid \$2.00 per day, and the Judge his actual expenses.

HOW TO KEEP ACCOUNTS.

RULES FOR KEEPING ACCOUNTS.

The following are suggested as simple forms for keeping accounts for the use of those whose business or taste does not require a more elaborate form of book-keeping :—

Always charge or "debit" a person for what he may get, and "credit" him for what you receive from him. The word "To," prefixed to an entry, indicates a debit, and the word "By," a credit.

The books necessary are two, called a Day Book and Ledger. In the Day Book should be entered, in diary form, every transaction as it occurs, using as simple and concise wording as possible to express all the facts.

Accounts may be opened with "Cash," "Stock," "Merchandise," "Bills Payable," "Bills Receivable," "Interest," "Profit and Loss," "Expense," etc.; and the farmer may open accounts with each field of his farm, as "Field No. 1," "Field No. 2," "Orchard," "Meadow," etc., charging each field with the amount of labor and material expended upon it, and crediting it with its products. He may also keep an account with his cows, pigs, fowls, etc., and thus at any time tell at a glance the profits or losses of each department of his business.

LEGAL POINTS ON BOOK-KEEPING.

PRACTICAL SUGGESTIONS FOR BUSINESS MEN.

1. The day book, or other books of original entries, are evidences of sale and delivery of goods, and work done.
2. The time to make an entry against the purchaser is when the goods are ready for delivery.
3. Entries, to be admissible as evidences, should be made by the proper person, and made without erasure, alterations or interlineation.
4. Mistakes should be corrected by marking the wrong entry void, and then making a correct entry, or if there is sufficient room, make a brief explanation.
5. All accounts must be itemized, and no general charge can be considered as evidence without giving the items.
6. If A. guarantees that he will see that B. will pay a certain bill of goods, then the goods must be charged to A. and not to B., but if A. guarantees the account of B., if the account is for some date of the past, then such a guarantee must be in writing.
7. To collect a debt on the evidence of book account, from a person in a distant place, a copy of the account should be made out, and accompanied with an affidavit, setting forth that the above account is correctly taken from the book of original entries, and that the charges were made at or about the time of their respective dates, that the goods were sold and delivered at or about the time the charges were made, and the charges are correct, and accounts just, and that the person named is not entitled to any credits not mentioned in the account. This affidavit should be sworn to before a magistrate, commissioner or notary public, and it will save the trouble of producing or sending books.

THE CLEARING-HOUSE SYSTEM.

A clearing-house is an association of the banks and bankers of a city for the exchange of their checks and the adjustment of accounts between themselves. A business man, receiving a check in the course of trade, seldom thinks of sending it to the bank on which it is drawn, but simply deposits it in the bank with which he keeps his account, only taking the precaution to have it "certified," if he doubts its goodness. Thus, at the close of a day, each bank will hold a number of checks drawn on other banks. These are assorted, and placed in envelopes marked with the names of banks on which they are drawn and with the total amount, and taken by a clerk and messenger to the clearing-house. There the balances against or in favor of each bank are ascertained, and are paid in by a certain hour each day, and the accounts settled. By the clearing-house system the exchange of millions of dollars is daily effected in large cities by the transfer of a few thousands.

HOW TO DETECT COUNTERFEIT MONEY.

1. A COUNTERFEIT is a fac-simile of the genuine, or made as nearly like it as possible. A spurious note is different in design from the genuine and calculated to pass where the genuine is not much known. An altered note is one altered from a lower to a higher denomination. Piecing is done by making ten notes or bills of nine, by cutting a counterfeit note into ten pieces.

2. There are two silk threads through the bill lengthwise, one near the top and one near the bottom. By holding it up to the light you can easily see the threads in each bill. This is one of the best tests of a genuine bill, because no counter-

feiter can put in the silk threads and imitate the genuine bill in that respect. [This rule applies only to United States bills.]

3. See that the portraits are good, and notice that the pupil and the white of the eye show distinctly. Then see that the sky and water are clearly transparent. In counterfeit notes the pictures are always poor and the sky, water, etc., looks scratchy and irregular.

4. The ink used in genuine notes is very difficult to imitate. It gives a clear, glossy expression, while counterfeiters' ink looks dull, smutty and muddy.

5. The paper of a counterfeit is always of an inferior quality, while the government has the best and most perfect system of manufacturing the highest grade of paper.

6. Examine the medallion rulings and circular ornaments around the figures with a microscope, and see if they are regular and in all parts mathematically exact. This is done by a machine that costs from \$75,000 to \$150,000, and consequently is beyond the reach of counterfeiters. Engravings by hand can never imitate this work. These medallion lines, or rulings, can be traced by means of a line through the figures, never breaking or losing itself in another line. In counterfeits it is always broken and irregular.

8. Notes are altered by raising the denomination by taking out the genuine with acid and printing in a higher denomination with a counterfeit die. They can be easily detected by the stain which the acid produces with which the figures are taken out.

8. NEVER BE IN A HURRY IN TAKING MONEY. Look at it carefully, and never hand a bill of large denomination to a showman, especially at the tent of these traveling circuses or at the door of cheap theaters. If they have counterfeit money they will not hesitate to mix it up in the change they return to you.

HOW MERCHANTS MARK GOODS.

It is customary in many mercantile houses to use a private mark, which is placed on the goods to denote their cost and selling price. A word or phrase containing ten different letters is taken, the letters of which are written instead of figures. For instance, the word "Rockingham" is selected; then the letters represent the figures as follows:—

r o c k i n g h a m
1 2 3 4 5 6 7 8 9 0

If it is required to mark 1.50, it is done thus, *rim*; 75 would be *gi*; 37, *cg*, &c.

Blacksmith, Importance, Republican, Perth Amboy, Fair Spoken, Now be sharp, Noisy Table, and Cash Profit, are among the words and phrases which can be used in this manner.

An extra letter, called a "Repeater," is used to prevent the repetition of a figure. Instead of writing *cdl* for 100, which would show at once that the two right-hand figures were alike, and thus aid in giving a clue to the key-word, some additional letter would be selected for a repeater, —*y*, for instance,—and then the price would be written *cdy*; 225 would be written *wye*.

Instead of letters, arbitrary characters are frequently used, something like the following:—

└ Z T > △ × ⊥ ∩ Λ □
1 2 3 4 5 6 7 8 9 0

Fractions may be designated by additional letters or characters. Thus, *f* may represent $\frac{1}{2}$, *w* $\frac{3}{4}$, &c.; or $\frac{1}{2}$ may be written *o*, $\frac{1}{4}$ *+*, &c.

THE COST AND SELLING PRICE.

Rapid Methods for Marking Goods.

Those who buy largely can best appreciate the value of a quick and rapid method for calculating the per cent. of profits desired.

If you wish to calculate the per cent. on a single article, the following table will be an excellent method. If you desire to sell an article at any of the following per cents, say the article costs 70 cents, and you wish to make

- 10 per cent. divide by 10, multiply by 11=77.
- 20 per cent. divide by 10, multiply by 12=84.
- 25 per cent. multiply by 10, divide by 8=87½.
- 30 per cent. divide by 10, multiply by 13=91.
- 33⅓ per cent. add ⅓ of itself=93⅓.
- 33¼ per cent. divide by 3, multiply by 4=93⅓.
- 50 per cent. add ½ of itself=\$1.05.

Merchant's Retail Rule.

As many articles, such as tea, sugar, coffee, etc., are sold at a given number of pounds per dollar, the following method will show the number of pounds that can be purchased for any number of cents.

RULE.—*Multiply the number of pounds to be sold for one dollar by the number of cents worth desired.*

EXAMPLE.—When sugar is sold at fourteen pounds for a dollar, how many pounds can be purchased for seventy cents?

Solution, $14 \times .70 = 9.80$ or $9 \frac{4}{5}$.

When you deal with an agent you do business at your own risk.

HOW TO DO BUSINESS WITH AN AGENT.

1. A *general agent* is one authorized to transact all his principal's business, or all his business of some particular kind, or at some particular place.
2. A *special agent* is one authorized to do one or more

special things in pursuance of particular instructions, or within restrictions necessarily implied from the act to be done.

3. If a special agent exceeds his authority, the principal is not bound; but if a general agent exceeds his authority, the principal is bound, provided the agent acted within the ordinary and usual scope of the business he was authorized to transact, and the party dealing with him did not know he was exceeding his authority.

4. Express authority is given to an agent by what is called a Power of Attorney. If the authority is to execute a writing under seal and acknowledged, the power of attorney must be likewise under seal and acknowledged.

5. The agent's authority may be revoked by the principal at any time.

6. An agent concealing his principal is himself responsible.

7. An agent acting fraudulently or deceitfully is himself responsible to third parties.

8. An agent cannot appoint a substitute, or delegate his authority to another, without the consent of his principal.

9. A man may do through his agent whatever he may lawfully do himself.

Factors, Brokers, Attorneys, etc., are but agents in a business sense.

11. The authority of an agent may be constituted in three ways: By deed under seal, by writing, or by mere words.

12. Persons not of age, married women, and aliens may act as agent for others.

13. A notice to an agent is generally considered notice to the principal.

14. The principal is liable to the third person for the negligence or unskillfulness of the agent, when he is acting in the fulfillment of the agency business.

15. Money paid by an agent can be recovered by the principal, if it has been paid by mistake.

16. An agent to sell land, or to do any important business, he should be appointed by a "*Power of Attorney*," which should be registered with the deed.

HOW TO OBTAIN WEALTH.

Be cautious and brave. It requires a great deal of will and a great deal of caution to make a great fortune; and when you have got it, it requires ten times as much wit to keep it.—*Baron Rothschild.*

"In the midst of life there is death."

HOW TO WRITE RESOLUTIONS

On the Death of Members of Societies or Prominent Citizens.

1. Resolutions of societies, clubs, or any organization on the death of a member should always be deliberate, concise and consistent.
2. Great care should be taken that they are not too brief nor too long, and be careful to avoid excessive exaggerations.
3. Resolutions in form are always prefaced with a preamble which should specify the occasion of what shall follow. The preamble should begin with "whereas," and each resolution should begin with "resolved" or "be it resolved."
4. When resolutions have been framed by a committee, all their signatures should be annexed to the resolutions.

FORM OF RESOLUTIONS.

WHEREAS, The great and supreme Ruler of the universe has in his infinite wisdom removed from among us, one of our worthy and esteemed fellow-laborers Henry A. Harlow; and whereas, the long and intimate relation held with him in the faithful discharge of his duties in this society makes it eminently befitting that we record our appreciation of him; therefore,

Resolved, That the wisdom and ability which he has exercised in the aid of our organization by service, contributions, and counsel, will be held in grateful remembrance;

Resolved, That the sudden removal of such a life from among our midst leaves a vacancy and a shadow that will be deeply realized by all the members and friends of this organization, and will prove a serious loss to the community and the public.

Resolved, That with deep sympathy with the bereaved relatives of the deceased we express our hope that even so great a loss to us all may be overruled for good by Him who doeth all things well;

Resolved, That a copy of these resolutions be spread upon the records of this organization, a copy printed in the local paper and a copy forwarded to the bereaved family.

PATTERN AND SAMPLE POST.

CANADA.—Patterns and samples of merchandisc, not exceeding 24 oz. in weight, when posted in Canada for places within Canada, must be prepaid by postage stamp at the rate of *one cent* per 4 oz. weight, and put up in such manner as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, not being actually trade patterns or samples, are not admissible as such.

UNITED STATES.—Patterns and samples of merchandise, posted for places in the United States, will continue to be subject to the special rate of 2 cents for first 4 oz., 1 cent each additional 2 oz. prepaid by postage stamp. Not to exceed 8 oz. in weight.

All newspapers, books, printed matter, samples, patterns to be sent by any mail, must be posted half an hour before the time of closing.

Letters to mere initials or fictitious names will not be delivered, unless addressed in care of a resident, or to some box in the Post-office.

Re-directed letters to places within the Dominion or U. S. will be forwarded without any additional charge, but should not be taken from post-office.

Letters *originating* in Canada, re-directed to any of the Postal Union countries, except the United States or *non* Postal Union countries, where prepayment is *not* compulsory, will be forwarded even if taken out of the office and subsequently re-posted.

Letters containing Gold or Silver Money, Jewels or precious articles or anything liable to Custom's duties, cannot be forwarded by Post to any of the Postal Union countries except the United States.

POST-OFFICE SAVINGS BANK.

Deposits from \$1.00 upwards, on which interest is allowed, will be received for transmission to the Central Office of the Post-office Savings Bank. Pass Books, and every information to be had on application.

ESTRAY NOTICE.

Take Notice! — On the 3rd day of June, 1891, there strayed on to my inclosed land in the town of Van Wert, County of Du Page: One two-year old colt, a dark bay, with small star in the forehead, and left hind foot white; and one dark brown calf, with black spots on each side. Anyone claiming the above described animals can obtain possession of same by furnishing sufficient proof of ownership, and paying all expense and cost.

J. A. Hertel.

1. The above notice may be printed in the local paper, or written out, and tacked up in three or four prominent places in the vicinity where the stray animal was taken up.
2. No one can claim a stray without advertising the same, and giving the proper notice, such as the statutes of the Province require.
3. If the stray is not redeemed by the owner, it may be sold at public auction to pay cost and expense.

SWINDLING SCHEMES.

SIX PRACTICAL RULES TO REMEMBER.

1. **BEWARE OF THE SWINDLER,** He is every where and in all kinds of business.
2. *Never sign a paper of any kind for a stranger. Make every man unknown to you, who desires to do business with you, prove to you, beyond a doubt, that his business is legitimate and that he acts within the limits of his authority.*
3. *Never try to beat a man at his own game.* The sharpers at every fair and circus and other places where people in large numbers congregate, will always offer you great inducements with cards, dice, wheels of fortune, etc. They will urge you to bet on a certain card or number and show you how one dollar could have won \$20.00 or a \$100.00; but when you bet your money, you never win.
4. *Never bet or gamble.* In trying to get something for nothing, we too often find ourselves the victims of confidence and swindling schemes. Honesty is the best policy, always has been and always will be.
5. *Never try to get the best of a sharper by buying a box, watch-case, or anything else in which you have seen him put a \$10 or a \$20 bill.*
6. *Deal with responsible parties, or see that the article is worth the price before paying for it, and you will never suffer the mortification of being swindled.*

A SWINDLING NOTE.

London, Ont., May 6, 1893.

One year after date, I promise to pay Fred. J. Davis, or bearer Ten Dollars, when I sell by order Four Hundred and Seventy-five Dollars (\$475.00) worth of Patent Fanning Mills, for value received, at ten per cent. per annum. . . . Said ten dollars when due is payable at London, Ont.

Witness: M. J. Meayer.

C. E. Selig,

Agent for Fred. J. Davis.

1. Although the above scheme of the confidence man has been exposed time and time again, yet it still continues to add yearly to its list of victims. A paper is drawn up wherein a farmer agrees to pay ten or twenty dollars when he has sold goods to a given amount. By tearing off the right-hand end of this paper, what is apparently an agreement for a small amount, becomes a promissory note for a considerable sum. This note is sold at a bank, thereby becoming the property of a third and innocent party, and the signer of the agreement is called upon to pay the note.

2. Never sign a paper without carefully reading and examining the same. It is dangerous to sign a paper for an unidentified stranger.

DON'T TRY TO GET SOMETHING FOR NOTHING.

THE CHEAP JEWELRY SWINDLE.

Experience has proven again and again, that there is nothing gained BY TRYING TO BEAT A MAN AT HIS OWN GAME and succeed in getting something for nothing.

THE SWINDLE.

The auctioneer starts out, after getting a crowd about him, by giving back to the purchasers more money than they paid for the article, but this does not generally last long. Higher priced articles are soon put up, such as watches, etc., and the price raised from 50 cts., or a \$1.00 to \$10.00 or \$20.00. The purchaser sees the seller stick a \$20.00 bill or a \$50.00 bill into the watch and close it up, and so sure are the spectators that they saw the money go into the watch that there is no lack of purchasers. But when the watch is purchased and opened it contains a \$1.00 bill instead of a \$20.00, and the purchaser is a wiser, but not a richer man.

A SWINDLER SECURING THE SIGNATURE OF HIS VICTIM.

THE BARB-WIRE SWINDLE.

The "Wire Fence Man" is a new swindler working the farmers. The scheme is a shrewd one and is executed as follows: A nicely dressed man, very pleasant in his manners, meets the farmer in his field or at his home, and desires the privilege of exhibiting his wire fence stretcher machine, for which privilege he will build the farmer thirty or forty rods of good fence for exhibition. All the agent asks is board while he is at work on the fence, with the understanding that the farmer is to go after the machine at the nearest depot and pay the charges not to exceed \$3.00 for the fence, all set up where he wants it. In order to have everything understood, and as a warrant of the farmer's good intentions, he requires him to sign a written order on a postal card, which he mails (as he says) to his partner, which proves to be a written contract for the machine, price \$200 (worth less than \$25.00). After the machine comes, a new man turns up with the postal

order for the machine, and requires the payment of the \$200 as per agreement on the card. He claims to be an attorney for the company and threatens to sue in the highest courts until he secures the payment of the order.

When will people begin to study the "Safe Methods of Business" and learn that it is not safe to SIGN A PAPER FOR A STRANGER?

THE PATENT FENCE SWINDLE.

It is an old but true maxim, that "experience is an expensive teacher," but many will learn in no other way. The wire and picket fence combination is a good article for fencing gardens, etc., too expensive, however, for general use.

THE SWINDLE.

An agent, very nicely dressed, meets you in your garden or field, and shows you extensive engravings of the patent combination fence. He warrants the fence to be just as represented, 44 pickets to the rod, well painted, firmly fastened by six galvanized steel wires, etc. All of this he agrees to furnish at the low price of 20 cts. per rod.

After convincing you of the cheapness of the fence, which is easily done, he offers you a special discount to take the agency for your township, for which you are to advance your credit to the amount of \$128. After securing your note he sends you a sample of the fence. But you soon find that the fence cannot be made for any such price per rod, and you are out of the amount of credit advanced. The note has been sold, and after passing into the hands of an innocent party it can be collected.

1. CAUTION. The fence is a Patent Right Fraud. Any man who asks you to sign a note to secure an agency is a swindler, or is acting the part of a rascal for some one else.

2. If the fence was not a fraud, our hardware merchants would long ago have investigated it, and if a good thing, would have it in stock. It must be a poor concern that necessitates such an unbusiness-like introduction.

3. Whoever deals with an agent deals with him at his own risk, for an agency can be revoked at any time.

4. Most of those swindling contracts are for no specified time and consequently the agency can be terminated at the pleasure of the swindler.

5. Never sign a paper for an agent without satisfactory knowledge of his character, or of his business.

THE LIGHTNING-ROD SWINDLE.

CONTRACT.

Naperville, July 3, 1891.

Mr. *F. J. Bechtold*, please erect at your earliest convenience your lightning rods on my *House* according to your rules, of which said *House* I am the owner, for which I agree to pay you cents per foot and \$3.00 for each point, \$4.00 each for vanes, \$5.00 each for arrows, \$1.50 each for balls, and \$2.00 for braces, cash, when completed, or a note due on the first day of *January* next, 1892.

F. Hauswirth.

A GOOD LIGHTNING ROD PROPERLY APPLIED IS THE CHEAPEST AND BEST INSURANCE KNOWN.

1. In the blank for cents....., the canvasser or agent puts in some single figure, say 7, that being understood to be the regular price per foot, but after the contract is signed, the agent at his leisure quietly inserts a 6 before the 7, or some other figure, making the amount 67 cents per foot instead of 7 cents, as signed and agreed upon.

2. A swindling note is generally obtained, and the contract is kept in the background ; but when the collector comes along and presents the note backed by the contract in plain figures, the farmer sees that he *himself has been struck by lightning* while trying to protect his house.

3. The note is generally in the hands of an innocent party, and according to law may be collected.

4. The agent canvassing the victim generally promises that the rodding of the house shall not cost over \$28.00 or \$35.00. But that man, however, never appears on the scene again.

5. Never deal with irresponsible persons. If you desire rods, employ your hardware merchants ; or if you desire anything in the machinery line, patronize honest and trusted dealers, and take no chances of "being taken in."

THE FARM-MACHINERY SWINDLE.

The latest scheme for fleecing unwary farmers is as follows: A plausible, well-dressed fellow drives up to the farmer's house with two or three different kinds of farm-machinery, and asks permission to store his machines in the farmer's barn, and the accommodating farmer usually gives permission.

After the machines are stored away, the sharper remarks that they are the last of a large lot that he has been selling through the country, and that he is anxious to close out the consignment, and if the farmer will sell two or more of the machines while they are stored in the barn, he shall have 50 per cent. commission on the sale. The offer is a tempting one, and the farmer usually accepts. He is then requested, merely as a business form, to affix his signature to a document, specifying the terms on which the machines are stored on the premises. The farmer signs a lengthy printed document without reading it, or perhaps, if read, without understanding it. At the expiration of 30 days he is astounded by finding himself called upon by another stranger to pay an exorbitant price for the machines stored in his barn. When the farmer objects, he is shown his signature attached to an agreement, which agreement, his lawyer tells him, is drawn in good legal form.

The victims of this game usually lose from \$200.00 to \$500.00.

ALWAYS READ BEFORE SIGNING.

Among the pithy sayings of a well-known German philosopher and reader occurs the following: "Sign no paper without reading it." In these days of education, enlightenment and progress, such a caution would hardly seem necessary to any person in the full possession of his faculties; yet it is astonishing how many people there are, including good business men, who attach their signatures to papers or documents whose contents may have a serious bearing upon themselves or their affairs, with scarcely a glance at their contents. Carelessness in failing to acquaint themselves with the contents of a paper before signing it has worked incalculable harm to thousands of well intentioned people. It is a good thing, therefore, to bear in mind continuously the above quotation, particularly with respect to such papers as express or imply anything in the nature of a contract or a legal obligation.

THE CARD SWINDLER'S TRICKS.

How People Lose their Hard-Earned Money.

1. **THE THREE-CARD MONTE TRICK.** The three-card monte game is, of course, the old one and the best one known to get the greenhorn's money.

2. There are gamblers who make from twenty-five to fifty thousand dollars a year in playing this game, and this amount all comes from the innocent and unsuspecting people who think they have got a snap and try to make something because they think they have the advantage, but on the contrary are always taken in themselves.

3. The successful three-card monte player generally appears in the disguise of a farmer or cattle man, he speaks in the farmer's tone and acts in the farmer's manner and is dressed in the farmer's style. He appears ignorant and manifests more or less intoxication. Generally has his pockets full of rolls of money.

4. **THE GAME.** The cards are three in number and are made especially stiff so that they will hold a corner when turned.

5. **THE CAPPER.** Every monte player has a capper. A capper is a green ignorant looking man who always plays the game and wins a great deal of money. This is done to induce others to play the game. The capper and gamblers are generally in partnership.

6. The first turn the capper wins. Then he turns the corner of a card when the player is not looking, and his friend think-

ing he has a sure thing bets on the card. In manipulating them the player flattens that card, with some sleight of hand movement and turns the corner of another. The betting man of course picks up the wrong card and loses his money.

7. The capper sometimes marks the card by putting a wet spot on it, and the man who bets on that card finds that the spot from the right card has been wiped off and the spot put on another card by the same sort of a sleight-of-hand performance.

8. There are some three-card monte players that are such experts at the game that the capper will tear off the corner of a card, and the innocent farmer betting on the card thus marked finds it has been turned under the corner of another card and the corner of the right card is covered up with the corner of another card.

9. BEWARE. The man who is fooling with cards and offering to bet is not fooling away his money. You will never win anything in that way. Do not try to get something for nothing and think you have a snap; for if you play the game with some one else you will soon become a wiser but a poorer man.

THE ENVELOPE SWINDLE.

1. The envelopes filling an ordinary box each have slips inclosed marked with numbers corresponding with numbers in a show case. There are generally numerous cappers around a game of this kind who play and win large prizes.

2. Many of the envelopes contain a double ticket and the man who plays the game generally opens the envelopes himself when there is nothing at stake and shows you the winning number, but when you draw it he will show you the other slip that contains the other number and you are the loser.

3. Many of these players give a lot of brass or silver washed prizes that are worth about two or three cents apiece.

4. If you desire to make money, remember that the man who plays games does not go around the country giving away money, but they are generally the sharpest and shrewdest of gamblers, and if you desire to be safe have nothing to do with them, and remember, "*that an honest man never gambles.*"

A COMPASS FOR SURVEYING LAND.

HOW LAND IS SURVEYED.

1. THE Counties and Townships of Ontario are of various sizes and different shapes, and have been surveyed according to several systems. The greater part of those Townships which were laid out and surveyed before the year 1818 were divided into concessions or ranges of single front Lots. Each Lot has a frontage of 20 chains by a depth of 100 chains, and contains 200 acres. There was an allowance for road at the front of every concession and every fifth and sixth Lot. Those parts surveyed between the years 1818 and 1829 were usually laid out in double front Lots of 200 acres each.

The newer parts of this Province have been surveyed according to other systems. In some the regular farm Lots are 20 chains in width by 50 chains in depth, and contain 100 acres each. There is an allowance for road of one chain in width between each alternate concession and every fifth and sixth Lot. Other surveys divide the country into square Townships six miles on each side, which are sub-divided into 36 sections of 640 acres, or one square mile each, and are numbered from the North East angle. There are no road allowances staked off, but 5 per cent. of the area is reserved for roads. According to the system now generally adopted, the townships are divided so as to contain 6 concessions with 12 lots of 320 acres each.

Land is commonly measured by a chain called Gunter's Chain, which is 4 poles, or 22 rods, or 66 feet long, and composed of 100 equal parts called links, each link being $7\frac{2}{100}$ inches. The acre consists of 10 square chains, or 100,000 square links. The statute pole, perch or rod is $16\frac{1}{2}$ feet long. There are 80 chains in a mile, and 640 acres in a square mile.

2. TOWNSHIPS. The land is first divided into squares by lines, six miles apart. These squares are called *townships*, and a row of townships running north and south is called a *range*. Townships are given proper names, but for the purpose of location they are designated by numbers.

3. **PRINCIPAL MERIDIANS AND BASE LINES.** First the surveyors select some prominent object or point, and drawing a straight line, north and south, through this point, make what is known as the *principal meridian line*. Then drawing a line at right angles across the *principal meridian* they establish what is called a *base line*. Marks one-half mile apart are left on each of these lines throughout their entire length.

Illustration: A. B. = Principal Meridian. C. D. = Base Line. The numbers on the line A. B. mark the *township lines*, and the numbers on the line C. D. mark the *range lines*.

Range lines are run north and south six miles apart on both sides of the principal meridian and numbered as shown in diagram above. Township lines are run six miles apart, parallel to the base line and numbered as shown above.

Example: E. is in range 5, west, and in township 4, north,

or 30 miles west from the principal meridian and 24 miles north of the base line (each square represents a township six miles each way). F. is in range 4, east, and is in township 4, south, or 24 miles east of the principal meridian and 18 miles south of the base line.

How to Locate Land and Read and Write Descriptions.

A Township is 36 sections, each a mile square. A section is 640 acres. A quarter section, half a mile square, is 160 acres. An eighth section, half a mile long, north and south, and a quarter of a mile wide, is 80 acres. A sixteenth section, a quarter of a mile square, is 40 acres.

A TOWNSHIP WITH SECTION LINES.

1. The Government survey ends with the location of the section lines. Marks are, however, made by the surveyors at the corners of the section and also half-mile marks between the corners. By these marks any piece of land may be accurately located.

2. Land is generally bought and sold in lots of 40 acres, or 80 acres, or 120 acres, or 160 acres, etc.

HOW TO MEASURE LAND AND TOWN LOTS.

FIG. 1.

RECTANGLE.

Rule to find the number of acres in a rectangular piece of land :
 Multiply the length in rods by the breadth in rods, and divide by 160.

HOW TO MEASURE TOWN LOTS.

Rule.—Multiply the length in feet by the breadth in feet, and divide by 43,560 (the number of square feet in an acre).

TRIANGULAR PIECES.
 When the Triangle is a Right-angled Triangle.

FIG. 2.

Rule—Multiply the width by the length, and divide by 2.

Example—How many acres of land in a triangular field 80 rods long and 40 rods wide? $80 \times 40 \div 2 = 1600$ sq. rods. $1600 \div 160 = 10$ acres. Ans.

Where the Triangle is Not a Right-angled Triangle.

FIG. 3.

If a triangle is without a right angle, a perpendicular has to be found.

Rule—Multiply the base in rods by the perpendicular height in rods, and divide by 2, and you have the area in square rods.

Example—How many acres in a triangular field whose base or side is 120 rods, and its width (perpendicular height) is 40 rods?

Solution: $120 \times 40 \div 2 = 2400$ sq. rods. $2400 \div 160 = 15$ acres. **Ans.**

HOW TO FIND THE AREA OF A PIECE OF LAND WHEN ONLY TWO OF THE OPPOSITE SIDES ARE PARALLEL.

Rule—Add the two parallel sides together, and divide by 2, and you have the average length. Then multiply the width in rods by the length in rods, and divide by 160, and you have the number of acres.

Example—How many acres of land in a field the two parallel sides of which are 60 and 100 rods long respectively, and 40 rods wide?

Solution: $60 + 100 \div 2 = 80$ sq. rods. $80 \times 40 \div 160 = 20$ acres. **Ans.**

FIG. 5.

FIG. 6.

When land is irregular as in Figure 5, divide the field into triangles and use the rules under Figure 2 or 3.

When land is very irregular as in Figure 6, divide the field up into as many triangles and rectangles as may be necessary and apply the rules as given above.

HOW TO MEASURE TOWN LOTS.

Rule: Multiply the length in feet by the width in feet and divide the result by 43,560 and you will have the fractional part of an acre in the lot.

Example: What part of an acre is there in a lot 200 feet deep and 150 feet wide?

Solution: $200 \times 150 = 30,000$ sq. feet in the lot.

$\frac{30000}{43560} =$ or about $\frac{3}{5}$ of an acre.

HOW TO LAY OFF SMALL LOTS OF LAND.

Farmers and gardeners often find it necessary to lay off small portions of land for the purpose of experimenting with different crops, fertilizers, etc. To such the following rules will be helpful:

One acre contains 160 sq. rods, or 4,840 sq. yards, or 43,560 sq. feet.

To measure off

One acre it will take $208\frac{7}{10}$ feet each way.
 One-half acre it will take $147\frac{1}{2}$ feet each way.
 One-third acre it will take $120\frac{1}{2}$ feet each way.
 One-fourth acre it will take $104\frac{1}{4}$ feet each way.
 One-eighth acre it will take $73\frac{3}{4}$ feet each way.

**How to Calculate the WEIGHT of Coal in a Bin or Box.**

A solid cubic foot of anthracite coal weighs about 93 pounds. When broken for use it weighs about 54 pounds. Bituminous coal when broken up for use weighs about 50 pounds.

Rule.—Multiply the length in feet by the height in feet, and again by the breadth in feet, and this result by 54 for anthracite coal, or by 50 for bituminous coal, and the result will equal the number of pounds.

To find the number of tons, divide by 2,000.

Example: A coal bin is ten feet long, 8 feet wide, and 5 feet high. How many tons of anthracite coal will it hold?

Solution: $10 \times 8 \times 5 \times 54 = 21,600$ $21,600 \div 2,000 = 10$ tons and 1,600 pounds.

Legal Hints and Helps Concerning Interest.

1. It is the general practice of the courts in this country to award interest computed at the legal rate, from the time when payment should have been made. Interest upon a judgment dates from the time the judgment is rendered.

2. A CREDITOR may charge interest on an account from the expiration of the time of credit. When no time is specified, interest may be charged from the time payment is demanded, or when the statement of account has been rendered.

3. A DEBT for board and lodging, where there was no fixed price or time of payment fixed, will not draw interest until it is reduced to judgment, or its amount otherwise determined. Interest may not be charged upon the items of a running account until the balance is struck, and the statement rendered.

4. COMPOUND interest cannot be collected by law. When interest has already accrued and become payable, an agreement that it shall be added to the principal thus formed, will generally be deemed legal. When such interest would not be recoverable upon an ordinary contract in which its payment was agreed upon, yet, if it has actually been paid, it cannot be recovered.

5. GUARDIANS, EXECUTORS and ADMINISTRATORS, and TRUSTEES of every kind, may be charged interest upon all trust funds in their hands after their failure to invest them within a reasonable time.

6. CUSTOM: Where it is a uniform practice of the seller to charge interest and this is known to the customer or purchaser at the time when the transaction takes place, interest may be charged on book accounts.

7. PARTNERS: If a partner withdraws money from the partnership funds belonging to the firm, for private use or for the purpose of speculation, he will be liable for *interest* on the money so withdrawn.

8. INSURANCE POLICY: When loss occurs under a policy of insurance, it bears interest from the time it is due according to the terms of the policy.

The Celebrated Lightning Method for Calculating Interest.

WHERE THE TIME IS FOR DAYS ONLY.

Rule—To find the interest on any given sum for any number of days, multiply the principal by the number of days, and divide as follows:

- At 5 per cent., divide by 72
- At 6 per cent., divide by 60
- At 7 per cent., divide by 52
- At 8 per cent., divide by 45
- At 9 per cent., divide by 40
- At 10 per cent., divide by 36
- At 12 per cent., divide by 30

Example: What is the interest on \$900.00 for 8 days at 6 per cent.?

Solution: $900 \times 8 \div 60 = \$1.20$ interest.

WHEN THE TIME CONSISTS OF YEARS, MONTHS AND DAYS.

1. *Rule.—Reduce years to months, adding the number of months, then place $\frac{1}{2}$ of the number of days to the right of the months with a decimal point between.*
2. *Then remove the decimal point two places to the left in the principal, and divide by 2, and the result will equal the interest for one month at 6 per cent.*
3. *Multiply the interest for one month by the number of months, and the product is the interest at 6 per cent. for the given time.*

- Then add $\frac{1}{6}$ of itself for 7 per cent.
- “ “ $\frac{1}{3}$ of itself for 8 per cent.
- “ “ $\frac{1}{2}$ of itself for 9 per cent.
- “ “ $\frac{2}{3}$ of itself for 10 per cent.
- Subtract $\frac{1}{6}$ of itself for 5 per cent.
- “ $\frac{1}{3}$ of itself for 4 per cent.

Example: Find the interest on \$150, at 9 per cent. for 1 year, 4 months and 12 days.

Solution: $\$1.50 \div 2 = .75$ interest for 1 month, 1 year, 4 months and 12 days = 16.4 months.

$.75 \times 16.4 = \$12.30$, interest at 6 per cent.

$12.30 + 6.15 = \$18.45$, interest at 9 per cent.

N. B.—The \$6.15 is one-half of \$12.30.

Banker's Method for Computing Interest.

In banking nearly all the business is transacted on the basis of 30, 60, and 90 days.

Rule.—To find the interest on any amount at 60 days, remove the decimal point two places to the left, and you have the interest at 6 per cent.

Increase or diminish according as the time is increased or diminished.

For 90 days add $\frac{1}{2}$ of itself.

For 30 days divide by 2.

For 15 days divide by 4.

For 120 days multiply by 2.

Example: What is the interest on \$240 for 90 days at 6 per cent?

2.40 interest for 60 days.

1.20 interest for $\frac{1}{2}$ of 60 days, or 30 days.

3.60 interest for 90 days.

OIL WELLS OF THE STANDARD OIL COMPANY.

The Standard Oil Company was one of the first companies to organize a "trust."

TRUSTS.

What Trusts are, and How they are Organized.

1. The name is certainly innocent, but the abuses and wrongs growing out of it are alarming.
2. It is organized or brought about in the following way. A majority of those dealing in, or manufacturing special or certain articles unite their capital and form a corporation with a capital of two or three times that actually invested in

the business. Thus the capital stock of each individual or corporate member of the trust is doubled without the investment of an additional dollar. When this is done, the corporation is so managed that it pays on this doubled or trebled capital stock dividends as great or greater than the earnings before secured separately.

3. The "Trust" has absolute command of the product which it is formed to control, so that it is able to name its price and profits.

4. If the supply is too large, certain of the mills or factories or refineries in the association are closed, and the owners can make no objections because they are partners in the scheme, and are sure of their dividends on two or three times the capital they had invested in their former business. Reducing the production only makes their dividends more certain.

5. OBJECT.—It is very easily seen that the "trust" is but a dishonest device to destroy competition, and to swell the profits of the manufacturers, or operators, or dealers, without a dollar of additional capital being put into the business.

6. RESULT.—The results are, that the consumer pays the increased profits of the bogus capital of the corporation, and the producer has to accept for his products just what the managers of the "trust" choose to pay.

7. ROBBERY.—It is organized robbery, and nothing less, and should be treated by our courts the same as any other stealing.

Example.—What will \$400. amount to in 8 years and 6 months at 4 per cent. compound interest, interest added semi-annually? Referring to table, it is found \$1. in 8 years and 6 months at 4 per cent. will amount to \$1.400241. The amount of \$400. will be 400 times this or \$560.0964.

NOTE.—If the interest only be wanted, deduct the principal \$400. from \$560.0964.

HOW TO SEND MONEY BY MAIL.

BANK DRAFTS.—A draft on some reliable bank is by far the best and most business-like way to send large amounts of money. It is safe, convenient and cheap.

Better, however, have the draft issued in your favor (to your own order), and then indorse it, and make it payable to the party to whom you intend to send it. (See indorsement on page 88.)

POST OFFICE ORDER.—By Post Office Order is also a safe and reliable way to send money. It costs a little more than to remit by draft, but it is equally as secure, and many times more convenient, because the Post Office is accessible at all hours of the day.

REGISTERED LETTERS.—The Government promises special care in handling and transmitting a Registered Letter or Package, but should it be lost, the owner is the loser, and not the Government. Money sent by *Registered Letter is always at the risk of the sender.*

EXPRESS ORDERS.—The Express Order, as to security, has all the advantages of the Bank Draft or Post Office Order. Serious disadvantages often arise, however, when the Express office on which the order is drawn has not the money on hand to pay it, consequently the holder of the order has to wait the slow action of the company's agents in getting the amount forwarded from some other office.

LIMITED PARTNERSHIPS AND COMPANIES.

Limited partnerships for the transaction of any mercantile, trading, mechanical or manufacturing business (excepting for the purpose of banking or making insurance), within the Province of Ontario, may be formed by one or more general partners and one or more special partners.

Special partners contribute in actual cash payments a specific sum as capital to the common stock, and are not liable for the debts of the partnership beyond the amounts so contributed, but general partners are jointly and severally responsible at law.

The general partners only are authorized to transact business and sign for the partnership, but the special partners may examine into and advise as to the management of partnership concerns. The partners shall sign a certificate containing the firm name, general nature of the business, names of all general and special partners, with the names of their usual places of residence, the amount of capital stock contributed by each special partner, and the periods at which the partnership is to commence and terminate. Such certificate shall be signed by each partner before a notary public, and filed with the Clerk of the County Court.

All persons associated in such partnership shall sign a Declaration in writing, and cause the same to be delivered and filed in the Registry Office within six months next after the formation of the partnership.

A Company is an association of persons who contribute money to a common stock and employ it in business or trade, sharing the profit or loss which may arise therefrom. These persons are not personally responsible for the company's obligations, and their property is liable only to the extent of their shares in the company. This limited responsibility is the chief difference between a partnership and a company.

Any number of persons, not less than five, may petition the Governor in Council for a Charter, constituting such persons, and others who thereafter become shareholders in the company thereby created, a body corporate and politic for the purpose of carrying on any mercantile, mechanical or manufacturing business, except the construction of railways, banking or insurance business.

The word "Limited" must always form part of the name of the company.

CERTIFICATE OF PARTNERS.

We, the under-igned, do hereby certify that we have entered into co-partnership, under the style or firm of B. D. & Co., as Commission Merchants, which firm consists of A. B., residing usually at O., and C. D., residing usually at P., as general partners; and E. F., residing usually at Q., and G. H., residing usually at R., as special partners.

The said E. F. has contributed \$1000.00 and the said G. H. \$2000.00 to the capital stock of the said partnership.

The said partnership commenced on the First day of June, 1893, and terminates on the First day of June, 1898.

Dated this First day of June, 1893.

RAPID METHODS IN BUSINESS CALCULATIONS.

To Multiply any Two Numbers together, each having the same Fractions.

1. Multiply the whole numbers together.
2. Add the two numbers together and multiply this sum by either one of the fractions.
3. Multiply the two fractions together.
4. Add the results together.

EXAMPLE.

12 $\frac{3}{4}$
8 $\frac{3}{4}$
96
15
9
111 $\frac{9}{8}$ Ans.

How to Multiply any Mixed Numbers.

1. Multiply the whole numbers together.
2. Multiply the upper whole number by the lower fraction.
3. Multiply the lower whole number by the upper fraction.
4. Multiply the fractions together.
5. Add the four products together.

EXAMPLE.—MULTIPLY 16 $\frac{2}{3}$ BY 9 $\frac{3}{4}$.

1. Whole numbers multiplied.....	144
2. Multiply 16 by $\frac{3}{4}$	12
3. Multiply 9 by $\frac{2}{3}$	6
4. Multiply $\frac{2}{3}$ by $\frac{3}{4}$ = $\frac{1}{2}$ or	$\frac{1}{2}$
5. Add results together.....	162 $\frac{1}{2}$ Ans.

N. B.—The examples should be worked by not writing out the middle parts, but add the amounts mentally.

Business Methods for Multiplying all kinds of Mixed Numbers.

Rule.—Multiply the whole numbers together, then multiply each whole number by the fraction in the other number to its nearest unit and add the products.

NOTE.—In business it is the custom to reject fractions less than $\frac{1}{2}$ in each sum and count one for each fraction over $\frac{1}{2}$.

How much will 34 $\frac{3}{4}$ yards of cloth cost at 22 $\frac{1}{2}$ cents per yard?

Solution, 34 x 22 = \$7.48

34 x $\frac{1}{2}$ = .17

Nearest unit, 22 x $\frac{3}{4}$ = .16 (We omit the fraction and call it 16)

$\frac{3}{4}$ x $\frac{1}{2}$ = $\frac{3}{8}$

\$7.81 $\frac{3}{8}$ Ans.

What is the cost of 17 dozen and 9 eggs at 12 $\frac{1}{2}$ cents per dozen?

Solution, 17 x 12 = \$2.04

17 x $\frac{1}{2}$ = 9 (Make the $\frac{1}{2}$ a unit.)

9 eggs = $\frac{3}{4}$ dozen, 12 x $\frac{3}{4}$ = 9

\$2.22 Ans.

N. B.—The last fraction in business is generally omitted.

HOW TO FIND THE CARRYING CAPACITY OF TILE.

GALLONS PER MINUTE.

SIZE OF TILE.	FALL PER 100 FEET.						
	1 in.	3 in.	6 in.	9 in.	12 in.	24 in.	36 in.

A large tile will carry more water according to its size than a small one. This is because there is less surface on the inside of the large tile compared with the size of stream, and therefore less friction. More water will flow through a straight tile than a crooked one having the same diameter.

EXAMPLE: A nine-inch tile at 6 inches fall to the 100 feet will flow 593 gals. per minute.

How to Estimate the Contents of a Pile of Grain, Potatoes, Hay or Wood.

Rule.— Put the commodity in the form of a heap. Then multiply the diameter in feet by itself, and then again by the height in feet, and divide the result by 4, and you have the approximate contents in bushels.

Example:—How many bushels in a heap of grain 6 feet in diameter and 3 feet high?

Solution:— $6 \times 6 \times 3 \div 4 = 27$ bushels. Ans.

How to Figure Up a Load of Grain.

Rule.—Find the total number of pounds and divide that by the number of pounds in one bushel and it will equal the number of bushels.

Example: How many bushels in 2840 pounds of wheat, and what will it cost at 90 cents per bushel?

Solution: $2840 \div 60 = 47$ bushel and 20 pounds or $47\frac{2}{3}$ bushels.

$$47\frac{2}{3} \times 90 \text{ c.} = \$42.60. \text{ Ans.}$$

How to Measure Ear Corn in a Crib.

A bushel of corn means, either a bushel of shelled corn, or ear corn enough to make a bushel of shelled corn.

Rule.—Multiply the length in feet by the height in feet, and that again by the width in feet, multiply the result by 4, and cut off the right hand figure, and you have the contents in bushels of shelled corn.

Example: How many bushels of shelled corn in a crib of corn in the ear, 20 feet long, 10 feet high, and 8 feet wide?

Solution: $20 \times 10 \times 8 \times 4 = 640.0$ bushels. **Ans.** This is counting $2\frac{1}{2}$ cubic feet to the bushel.

If the corn is medium good use the above rule. If good sound corn well settled multiply by 5 and cut off one figure instead of multiplying by 4.

When the crib is flared at the side multiply half the sum of the top and bottom widths in feet by the perpendicular height in feet, and then again by the length in feet, and then multiply the result by 4, and cut off the right hand figure.

Example: What is the contents of a crib 10 feet wide at the top, 6 feet wide at the bottom, 12 feet long, and 10 feet high?

Solution: $10 + 6 \div 2 = 8$ feet average width. Then $12 \times 10 \times 8 \times 4 = 384.0$ bushels of shelled corn.

HOW TO FIND THE NUMBER OF HEAPED BUSHELS OF EAR CORN, APPLES OR POTATOES IN A CRIB OR BIN.

Rule.—Multiply the length in feet by the breadth in feet, and that again by the height in feet, and multiply the result by 6, and cut off the right hand figure, and that will equal the number of heaped bushels.

Example: How many bushels of potatoes in a bin 10 feet long, 8 feet wide, and 7 feet high?

Solution: $10 \times 8 \times 7 \times 6 = 336.0$ heaped bushels.

N. B.—Deduct $\frac{1}{3}$ for shuck.

How to Measure Hay in the Mow or Stack.

A ton of dry hay is variously estimated from 400 to 500 cubic feet to the ton.

To be on the safe side, it is best to estimate about 500 cubic feet to the ton.

HAY IN A MOW.

Rule.—Multiply the length in feet by the height in feet, and this by the breadth in feet, and divide the result by 500, and you have the number of tons.

Example: How many tons of hay in a mow 20 feet long, 10 feet high, and 15 feet wide?

Solution: $20 \times 10 \times 15 \div 500 = 6$. Ans.

HOW TO ESTIMATE THE NUMBER OF TONS IN A STACK.

Rule.—Multiply the length in feet by the width in feet, and this by one-half the height, and divide the product by 300.

Example: How many tons of hay in a stack 20 feet long, 12 feet high, and 15 feet wide?

Solution: $20 \times 6 \times 15 \div 300 = 6$ tons. Ans.

HOW TO ESTIMATE THE CONTENTS OF A ROUND STACK.

Rule.—Multiply the square of the distance around the stack in yards by 4 times the height in yards, and point off two places from the right, and this will be the number of cubic yards in the stack, which divided by 20 will equal the number of tons.

Example: How many tons of hay, in a stack, distance around the bulge, 25 yards, and height, 9 yards?

Solution: $25 \times 25 = 625$, then $625 \times 36 = 22,500$, pointing off two places makes 225, then $225 \div 20 = 11\frac{1}{4}$ tons. Ans.

HOW MANY BRICKS FOR A CHIMNEY.

Bricks for chimneys are generally estimated for each foot in height, as follows :

Chimney.	Size of Flue.	Number of brick for each foot in height.
16 x 16.....	8 x 8.....	30
20 x 20.....	12 x 12.....	40
16 x 24.....	8 x 16.....	40
20 x 24.....	12 x 16.....	45

How to Find the Number of Common Brick in a Wall or Building.

A BRICK is 8 inches long, 4 inches wide and two inches thick, and contains 64 cubic inches. Twenty-seven brick make one cubic foot of wall without mortar, and it takes from 20 to 22 bricks according to the amount of mortar used to make a cubic foot of wall with mortar.

Rule—Multiply the length of the wall in feet by the height in feet, and that by its thickness in feet, and then multiply that result by 20, and the product will be the number of bricks in the wall.

Example : How many bricks in a wall 3 feet long, 20 feet high, and 18 inches thick ?

Solution : 30 length \times 20 height \times 1½ thick = 900 \times 20 = 18,000. **Ans.**

N. B.—For a wall 8 inches thick, multiply the length in feet by the height in feet, and that result by 15, and the product will equal the number of bricks.

When doors and windows occur in the wall, multiply their height, width and thickness together, and deduct the amount from the solid contents of the wall before multiplying by 20 or 15, as the case may be.

How to Find the Contents of a Wagon Box.

A common Wagon Box is a little more than ten feet long and three feet wide, and will hold about two bushels for every inch in depth.

Rule.—Multiply the depth of the wagon box in inches by 2, and you have the number of bushels.

If the wagon box is 11 feet long, multiply the depth in inches by 2, and add one-tenth of the number of bushels to itself.

Example: How many bushels of grain will a wagon box hold 22 inches deep and 10 feet long?

Solution: $22 \times 2 = 44$. Ans.

N. B.—A bushel to the inch is calculated for corn on the cob.

How to Find the Number of Bushels of Grain in a Bin or Box.

Rule.—Multiply the length in feet by the height in feet, and then again by the breadth in feet, and then again by 8, and cut off the right hand figure. The last result will be the number of bushels.

Example: How many bushels in a bin 12 feet long, 10 feet wide, and 6 feet high?

Solution: $12 \times 10 \times 6 \times 8 = 576.0$. Ans.

NOTE.—For exact results multiply the length in inches by the height in inches, and that again by the width in inches, and divide the result by 2150.4, the number of cubic inches in a bushel.

BUSHEL.

The dimensions of the bushel are $18\frac{1}{2}$ inches inner diameter; $19\frac{1}{2}$ inches outer diameter, and 8 inches deep; and when heaped, the cone is not to be less than 6 inches high; which makes a heaped bushel equal to $1\frac{1}{4}$ struck ones. To reduce U. S. dry measures to British ones of the same name, divide by 1.031516; to reduce British ones to U. S., multiply by 1.031516; or for common purposes use 1.032.

BARRELS.

In measuring cisterns, reservoirs, vats, etc., the barrel is estimated at $31\frac{1}{2}$ gallons, and the hogshead at 63 gallons.

A gallon of water, imperial measure, weighs 10 pounds.

30 imperial gallons are equal to nearly 36 American gallons.

How to Find the Contents of Barrels or Casks.

Rule.—Add together the diameters of the bung and head in inches, and divide the sum by 2, which equals the average diameter. Then multiply the average diameter by itself in inches and again by the height in inches, then multiply by 8, and cut off the right hand figure, and you have the number of cubic inches. Divide by $277\frac{1}{4}$ and you have the number of gallons. To find the number of bushels divide by 2150.4.

Example : What is the contents of a barrel in gallons, whose middle or bung diameter is 22 inches, and end diameter 18 inches, and 30 inches in height ?

Solution : $22 + 18 \div 2 = 20$ average diameter.

$20 \times 20 \times 30 \times 8 = 9600.0$.

$9600 \div 277\frac{1}{4} = 34\frac{3}{4}$ gallons. Ans.

NOTE.—Barrels used in commerce are made in various sizes, from 30 to 50 gallons. There is no definite measure called a hogshead, they are usually gauged, and have their capacities in gallons marked on them.

How to Find the Contents of a Round Tank.

Multiply the square of the diameter in feet by the depth in feet, and multiply this result by 6, and you have the approximate contents of the tank in gallons. (For exact results multiply the product by $5\frac{7}{8}$, instead of 6.)

Example : How many gallons will a tank hold 6 feet in diameter and 8 feet deep ?

Solution : $6 \times 6 \times 8 = 288$.

$288 \times 6 = 1728$ gallons, or 1440 Canadian gallons.

NOTE.—The Imperial gallon contains $277\frac{1}{4}$ cubic inches, and the United States gallon only 231, therefore take $\frac{5}{6}$ of the result to reduce to Canadian measure.

FOR MORE EXACT RESULTS.

Rule.—Multiply the square of the diameter in feet by the depth in feet, and multiply this by 47 and divide the product by 8, and you will have the number of gallons.

NOTE.—In calculating the capacity of tanks, $31\frac{1}{2}$ gallons are estimated to one barrel, and 63 gallons to one hog-head.

A TABLE FOR CIRCULAR TANKS ONE FOOT IN DEPTH.

Five feet in diameter holds	$4\frac{3}{4}$ barrels.
Six “ “ “	$6\frac{5}{7}$ “
Seven “ “ “	9 “
Eight “ “ “	12 “
Nine “ “ “	15 “
Ten “ “ “	$18\frac{3}{4}$ “

N.B.—To find the contents of a tank by the table, multiply the contents of one foot in depth by the number of feet deep.

These tables are United States measure ; always take $\frac{5}{6}$ of the result for Canadian measure.

Shorter Forms of How to Find the Contents of Cylindrical Cisterns, Tanks, Etc.

If you cut the largest possible square from a circle drawn on paper, the square will be a little more than $\frac{3}{4}$ of the whole circle. Therefore, to find the area of a circle, take $\frac{3}{4}$ of the square of the diameter (or for exactness .78) and the result will be the area of the circle.

Rule.—Multiply the square of the diameter of the cistern in feet, by the height in feet, and divide this result by 5, and it will equal the number of barrels the cistern will hold (approximately). (Or for exact results, instead of dividing by 5, take $\frac{3}{16}$ of the product.

Example: A cistern is 5 feet in diameter, and 8 feet deep. How many barrels will it hold?

Solution: $5 \times 5 \times 8 = 200$.
 $200 \div 5 = 40$ barrels. **Ans.**

To find the number of gallons, multiply by $31\frac{1}{2}$.

To Find the Number of Barrels in a Square Cistern.

Multiply the height, width and depth together, and divide the product obtained by 4 (or for exactness, by 4.2), and the result will equal the number of barrels of $31\frac{1}{2}$ gals. each, the cistern will hold.

Example: $4 \times 8 \times 5 = 160$.

16 $160 \div 4 = 40$ barrels, or $33\frac{1}{3}$ Canadian barrels.

How to Find the Contents of a Watering-Trough.

Rule.—Multiply the height in feet by the length in feet, and the product by the width in feet, and divide the result by 4, and you will have the contents in barrels of $31\frac{1}{2}$ gallons each.

Example : What is the contents of a watering trough 8 feet long, 4 feet wide, and 3 feet deep ?

Solution : $3 \times 4 \times 8 \div 4 = 24$ barrels.

NOTE.—For exact results multiply the length in inches by the height in inches, by the width in inches, and divide the result by 231, and you will have the contents in gallons.

Table for Finding the Contents of Square Tanks.

“ Six feet by six feet holds	$8\frac{1}{2}$	“
“ Seven feet by seven feet holds....	$11\frac{1}{2}$	“
“ Eight feet by eight feet holds	$15\frac{1}{4}$	“
“ Nine feet by nine feet holds.....	$19\frac{1}{2}$	“
“ Ten feet by ten feet holds.....	$23\frac{3}{4}$	“

The above table is for one foot of depth only.

To find the contents of a trough, measure its depth in feet and multiply it by the contents of one foot in depth.

Take $\frac{2}{3}$ of the result for Canadian barrels.

HOW MUCH ADVANTAGE IS GIVEN BY CHANGING THE EVENER.

How Much Advantage is Given by Changing the Evener.

Caution.—In moving the center pin of an evener one inch toward one of the end pins it changes the draft twice as much as it does to move one of the end pins one inch toward the center pin. Or in other words, moving the center pin changes the draft twice as much as changing one of the end pins or clevises.

An average evener is 42 inches in length.

Now if the center pin is moved one inch from the center to the right or left, the horse drawing on the short end will pull about $\frac{1}{20}$ more than the horse drawing on the opposite end.

If one of the end pins is moved one inch the difference will be about $\frac{1}{40}$.

Example: If a team of horses draw 2000 pounds, and the center pin is moved one inch from the center, what part of the whole load will each draw?

$$2000 \times \frac{1}{20} = 100 \text{ pounds, the difference.}$$

$$100 + 1000 = 1100 \text{ pounds.}$$

$$1000 - 100 = 900 \text{ pounds.}$$

Hence the horse at the short end of the evener draws 1100 lbs., and the other horse draws 900 lbs.

The draught on a 14-inch plow plowing 4 inches deep, is about 1000 lbs.; 5 inches deep, 1250 lbs.; 6 inches deep, 1500 lbs.

General Observations.

1. There are 43,560 square feet in an acre
2. A piece of land 1 foot wide and 43,560 feet long is one acre
3. 43,560 feet equal $8\frac{1}{4}$ miles.
4. There are a less number of turns in ploughing a long and narrow field than in ploughing a square one containing the same number of acres.
5. It takes less fence per acre to inclose a square field than it does to inclose a long and narrow field containing the same number of acres.

Facts Concerning Stone-work, Brick-Work and Plastering.

STONE-WORK.

1. A cord of stone, three bushels of lime and a cubic yard of sand will make 100 cubic feet of wall.
2. One cubic foot of stone-work weighs from 130 to 175 pounds.

BRICK-WORK.

3. Five courses of brick will make one foot in height on a chimney.
4. One cubic foot of brick-work with common mortar weighs from 100 to 110 pounds.
5. A cask of lime will make mortar sufficient for 1000 bricks.

FOR PLASTERING.

6. Six bushels of lime, 40 cubic feet* of sand, and 1½ bushels of hair will plaster 100 square yards with two coats of mortar.

* N. B.—There are about 1¼ cubic feet in a bushel.

Short Method of Estimating Stone-work.

Rule.—Multiply the length in feet by the height in feet, and that by the thickness in feet, and divide this result by 22, and the quotient will be the number of perches of stone in the wall.

Example: A wall is $4 \times 15 \times 2 = 120$ the solid contents.
 $120 \div 22 = 5\frac{5}{11}$ perches.

N. B.—In a perch of stone there are $2\frac{3}{4}$ cubic feet, but $2\frac{3}{4}$ cubic feet are generally allowed for the mortar and filling.

FOR APPROXIMATE RESULTS.

Rule.—Multiply the length in feet by the height in feet by the thickness in feet, and multiply that result by 4, cutting off the two right hand figures, and the product will equal the number of perches of stone.

How to Find the Weight of Cattle by Measurement.

To find the approximate weight, measure as follows: 1. The girth behind the shoulders. 2. The length from the fore-part of the shoulder-blade along the back to the bone at the tail, in a vertical line with the buttocks. Then multiply the square of the girth in feet by five times the length in feet. Divide the product by 1.5 for average cattle, (if cattle be very fat, by 1.425; if very lean, by 1.575; and the quotient will be the dressed weight of the quarters. Thus: the girth of a steer is 6.5 feet, and the length from the shoulder-blade to the tail bone is 5.25. The square of 6.5 is 42.25, and 5 times 5.25 is 26.25. Multiplying these together gives 1109.0625, which, when divided by 1.5, produces 739.375 lbs. the approximate net weight of the steer after being dressed.

THE SHORT METHOD.

Multiply the square of the girth (back of the fore-shoulder) by length, then multiply that result by 7, and divide the product thus obtained by 2, and you have the weight of the animal (nearly).

How to Find the Amount of Paper to Paper a Room.

Measure the distance around the room; deduct the width of each window and door; take $\frac{3}{4}$ of the result, and it will equal the number of strips required. Divide the result thus found by the number of strips that can be cut from one roll, and it will equal the number of rolls required to paper the room.

Each roll is $1\frac{1}{2}$ feet wide, 24 feet long and contains 36 square feet or 4 square yards.

How to Find the Number of Yards of Carpet to Cover a Floor.

Rule.—Multiply the length of the room in feet by the width in feet, and divide the result by the number of square feet in one yard of carpeting, and the result will equal the number of yards of carpeting it will take to cover the floor.

NOTE.—To find the number of square feet in one yard of carpet, multiply the width of your carpet by 3 (the length of one yard), and the result will be the number of square feet in one yard.

Or for greater accuracy, multiply the length of the room in inches by the width in inches, and divide the result by the number of square inches in one yard of your carpet.

Or divide the width of your carpet in inches into the width of the room in inches, and the result will be the number of strips, multiply the number of strips by the length of your room, and the result will equal the number of yards of carpeting to cover the floor.

Example: A room is 12 feet 9 inches by 14 feet 6 inches, which I wish to cover with carpet one yard wide.

Solution: $12\frac{3}{4} \times 14\frac{1}{2} = 184\frac{7}{8}$ square feet in the room.

$184\frac{7}{8} \div 9 = 20\frac{1}{2}$ yards, nearly.

Or by inches, 12 ft. and 9 in. = 153 inches.

14 ft. and 6 in. = 174 inches.

$153 \times 174 = 26622$ square inches in the floor.

$26622 \div 1296$ (sq. in. in one yd.) = $20\frac{1}{2}$ yds. nearly.

HOW TO MIX PAINTS OF VARIOUS COLORS.

A correspondent asks us a question on this subject, and we have no doubt there are numerous painter's manuals, or books of instruction, in existence; but many of these are not very reliable. We give the following table of compound colors, showing the simple colors which produce them, which may be of some service to our inquirer.

Buff—White, yellow ochre and red.
 Chestnut—Red, black and yellow.
 Chocolate—Raw umber, red and black.
 Claret—Red, umber and black.
 Copper—Red, yellow and black.
 Dove—White, vermilion, blue and yellow.
 Drab—White, yellow ochre, red and black.
 Fawn—White, yellow and red.
 Flesh—White, yellow ochre and vermilion.
 Freestone—Red, black, yellow ochre and white.
 French Grey—White, prussian blue and lake.
 Grey—White lead and black.
 Gold—White, stone ochre and red.
 Green Bronze—Chrome green, black and yellow.
 Green Pea—White and chrome green.
 Lemon—White and chrome yellow.
 Limestone—White, yellow ochre, black and red.
 Olive—Yellow, blue, black and white.
 Orange—Yellow and red.
 Peach—White and vermilion.
 Pearl—White, black and blue.
 Pink—White, vermilion and lake.
 Purple—Violet, with more red and white.
 Rose—White and madder lake.
 Sandstone—White, yellow ochre, black and red.
 Snuff—Yellow and vandyke brown.
 Violet—Red, blue and white.

In the table on preceding page of the combination of colors required to produce a desired tint, the first-named color is always the principal ingredient, and the others follow in the order of their importance. Thus in mixing a limestone tint, white is the principal ingredient, and the red the color of which the least is needed. The exact proportions of each color must be determined by experiment with a smaller quantity. It is best to have the principal ingredient thick, and add to it the other paints thinner.

THE LIGHTNING METHOD FOR MEASURING LUMBER.

1. A FOOT OF LUMBER is one foot long, one foot wide and one inch thick.
2. PIECE STUFF OR DIMENSION STUFF is lumber that is two or more inches thick and of uniform width and length.
3. SCANTLING is usually from three to four inches wide and from two to four inches thick.
4. JOIST is 1-inch lumber of any width.
5. PLANK is two inches in thickness and wider than a scantling.

Rule for 12-foot Boards: Find the width of the boards in inches and add together, and the sum obtained will be equal to the number of feet in the pile. (Each inch in width equals one foot of lumber.)

Note: Use no fractions. If a board is between 9 and 10 inches wide, but nearer 9 than 10, call it 9; if nearer 10 than 9, call it 10. If it is $9\frac{1}{2}$, call it either 9 or 10.

For 14-foot Boards add the width of the boards in inches, and to the sum add $\frac{1}{6}$ of itself, and the result will equal the number of feet in the pile.

For 16-foot Lumber, add the width of the boards in inches and to that sum add $\frac{1}{3}$ of itself, and you will have the number of feet in the pile.

Example: How many feet of lumber in 10 boards, 9 inches wide, and 16 feet long?

$$\text{Solution, } 10 \times 9 = 90.$$

$$\frac{1}{3} \text{ of } 90 = 30.$$

$$30 + 90 = 120, \text{ the number of feet.}$$

How to Find the Number of Shingles Required for a Roof.

Rule.—Multiply the length of the ridge pole by twice the length on one rafter, and, if the shingles are to be exposed $4\frac{1}{2}$ inches to the weather, multiply by 8, and if exposed 5 inches to the weather, multiply by 7, and you have the number of shingles.

NOTE.—Shingles are 16 inches long, and average about 4 inches wide. They are put up in bundles of 250 each.

How to Find the Number of Laths for a Room.

Rule.—Find the number of square yards in the room, and multiply by 18, and the result will be the number of laths.

NOTE.—Laths are usually 4 feet long, and 1 inch wide, and $\frac{1}{4}$ inch thick. It is estimated that 1000 laths, set $\frac{1}{4}$ of an inch apart, cover about 55 square yards.

How to Find the Number of Cords in a Pile of Wood.

A cord of wood is a pile 8 feet long, 4 feet wide and 4 feet high and contains 128 cubic feet.

Rule.—Multiply the length in feet by the width in feet and that result by the length in feet and divide the product by 128 and you have the number of cords.

Example: How many cords in a pile of wood 4 feet wide, 7 feet high, 24 feet long?

Solution: $4 \times 7 \times 24 = 672$ cubic feet. $672 \div 128 = 5\frac{1}{4}$ cords. Ans.

Board and Plank Measurement—At Sight.

This table gives the sq. ft. and inches in Board from 6 to 25 in. wide, and from 8 to 36 ft. long. If a board be longer than 36 ft., unite two numbers. Thus, if a board 38-30 ft. long, and 16 in. wide, add 30 and 10 and you have 53 ft. 4 inches. For 2 in. plank double the product.

HOW TO USE THE LOG TABLE.

First find the average diameter of the log by adding together the two ends of the log, in inches; then divide by two and the result will equal the average diameter, and then apply the above table.

Example.—How many feet of lumber is there in a log 15 inches at one end and 21 inches at the other, and 22 feet long?

Solution.—15 + 21 = 36 one half of 36 = 18 inches the average diameter. Then refer to the column under 18 inches opposite of 22 and you will find the answer—293 feet.

How to Ascertain the Number of Feet (Board Measure) in a Log.

Rule: Subtract from the diameter of the log in inches, 4 inches (for slabs), one-fourth of this result squared and multiplied by the length in feet, will give the correct amount of lumber made from any log.

Example:—How many feet of lumber can be made from a log which is 36 inches in diameter and 10 feet long?

Solution:—From 36 (diameter) subtract 4 (for slabs) = 32. Take $\frac{1}{4}$ of 32 = 8, which multiplied by itself equals 64. Then multiply 64 by 10 (length) = 640. Ans.

How to Find the Number of Cubic Feet in a Log.

Rule.—Multiply $\frac{1}{4}$ of the average circumference by itself, and this product by the length, the result will be the contents in cubic feet.

How to Measure Wood.

Wood is measured by the cord, which contains 128 cubic feet.

Rule.—Multiply the length in feet by the height in feet, and that again by the breadth in feet, and divide the result by 128, and you have the number of cords.

Example:—How many cords in a pile of wood 6 feet high, 12 feet long, and 4 feet wide?

Solution:— $4 \times 6 \times 12 \div 128 = 2\frac{1}{4}$ cords. Ans.

A COMPLETE SET OF CARPENTER'S RULES.

PLAIN, SIMPLE AND PRACTICAL.

1. THE GABLE is a space the form of a triangle on the end of a building, with a common double roof.
2. QUARTER PITCH.—Is a roof that is one-fourth as high as the width of the building.

Rule.—To find the area of the gable end, multiply the width of the building by the height of the roof, and take one-half of the result. Or, if the roof is "quarter pitch," find the area by multiplying the width of the roof by $\frac{1}{2}$ of itself.

3. To find the number of feet of stock boards to cover a house or barn.

Rule.—Multiply the distance around the barn by the height of the posts, and to this result add the area of the two gable ends. (If there are many openings, allowance should be made for them).

4. SHINGLES.—There are 250 shingles in a bunch.

Rule.—Nine hundred shingles, laid 4 inches to the weather, will cover 100 square feet, and 800 shingles, laid $4\frac{1}{2}$ inches to the weather, will cover 100 square feet.

5. FLOORS AND SIDING.—To find the number of feet of six-inch *matched flooring* for a given floor. Find the number of square feet of surface to be covered, and add $\frac{1}{2}$ of itself to it, and the result will be the required number of feet.

6. FOR 3-INCH FLOORING. Find the number of square feet to be covered, to which add $\frac{1}{3}$ of itself.

7. LATH—50 in a bunch.

Contractor's Rule.—One bunch of lath will cover 3 square yards.

Does it Take More Pickets to Build Over a Hill than on a Level?

Many arguments and discussions have taken place over this simple problem. It takes no more pickets to build over a hill than on a level! You can see from the above figure, that the number of pickets are the same by actual count. The curve lines represent the hill, and the lower lines the level ground. The dotted lines join the two, and they make the same fence over the hill, and are no farther apart than on the level.

How to Find the Length and Bevels of Rafters.

1. Place your steel square on a board (say the building is 40 feet long) 20 inches from the corner one way, and seven inches the other, and mark it as shown in the above figure. Now the angle at C. will be the bevel of the upper end, and the angle at d, the bevel at the lower end of the rafter.

2. LENGTH OF RAFTER.—The length will be from a to b on the outer edge of the board. The 20 inches shows the 20 feet or half of the width of the building, the 7 inches the seven foot rise. Now the distance from a to b, on the edge of the board, is 21 inches, two-twelfths and one-quarter of a twelfth, (always use a square with inches on one side divided into twelfths) therefore this rafter will be 21 feet and $2\frac{1}{4}$ inches long.

How to Make a Curve with a Set Triangle.

1. In the above figure let a, b, represent the length, and c, d, the height of the curve. Drive two awls at e and e; then take two strips, marked s.s., and nail them together at the point d, and spread out the sides to the awls at e and e. Then tack on the brace f, hold a pencil at the point d, then move the point towards the point e both ways, be sure and keep the strips s.s. hard against the awls at e and e, and the pencil will mark out the exact curve.

How to Make the Curves for Brick and Stone Arches.

Measure the width, and draw the figure as above. If the points in 1, 2, 3, 4, etc., are equal on both sides, the curve will be an exact part of a circle.

How to Find the Height of a Tree.

Suppose you desire a log 30 ft. long, measure off from the base of the tree 30 ft. (allow for the height of the stump), then measure ten feet back, and put your ten-foot pole at *b*, let some one hold it the height of the stump from the ground, then put your eye at *e*, looking over the top of the pole at *c*, and where the eye strikes the tree at *d*, will be 30 feet from *a*.

N.B.—This rule will apply to any tree, or any height. The principles hold true in any case.

How to Find the Height by Measuring the Shadow.

RULE.—Measure a pole, and hold it perpendicular in the sun, and measure its shadow, then measure the shadow of the tree whose height is desired. Then multiply the length of the pole by the length of the tree's shadow, and divide the product by the length of the shadow of the pole, and the result will be the height of the tree.

Example :—If a pole 3 feet long casts a shadow $4\frac{1}{2}$ feet long, what is the height of a tree whose shadow measures 180 feet ?

Solution :— $180 \times 3 \div 4\frac{1}{2} = 120$ feet, the height of the tree.

SHORT RULES OF ARITHMETIC.

In these short rules, which we have developed and compiled, our aim has been to make them superior to anything that has ever been published. We have endeavored to teach the how, and not the why. Our object is brevity and completeness. Business demands brief and practical rules. To every farmer, teacher, mechanic, merchant, lawyer and laborer, these rules will prove available and valuable knowledge.

How to Multiply by Eleven.

To multiply any two figures by 11, add two figures together and place their sum between the two figures of that number.

Example: $43 \times 11 = 473$, or 4, (4+3,) and 3. If the sum of the two figures exceed 9, the left-hand figure must be increased by 1. Thus $48 \times 11 = 528$.

Lightning Method of Multiplication and Division.

To multiply by 125, divide by 8, and call it thousands, because 125 is $\frac{1}{8}$ of a thousand.

To multiply by $12\frac{1}{2}$, divide by 8; call it hundreds.

To multiply by $1\frac{1}{4}$, divide by 8; call it tens.

To multiply by $62\frac{1}{2}$, divide by 16, and call it thousands.

To multiply by $6\frac{1}{4}$, divide by 16, and call it hundreds.

To multiply by $31\frac{1}{4}$, divide by 32, and call it thousands.

To multiply by $333\frac{1}{3}$, divide by 3, and call it thousands.

To multiply by $33\frac{1}{3}$, divide by 3, and call it hundreds.

To multiply by $3\frac{1}{3}$, divide by 3, and call it tens.

To multiply by 50, divide by 2, and call it hundreds.

To multiply by $66\frac{2}{3}$, divide by 15, and call it thousands.

To multiply by $833\frac{1}{3}$, divide by 15, and call it ten thousands, by annexing four ciphers.

To multiply by $83\frac{1}{3}$, divide by 12, and call it thousands.

To multiply by $8\frac{1}{3}$, divide by 12, and call it hundreds, because $8\frac{1}{3}$ is $\frac{1}{12}$ of a hundred. The reason is similar in each case.

To multiply by $166\frac{2}{3}$, divide by 6, and call it thousands.

To multiply by $16\frac{2}{3}$, divide by 6, and call it hundreds.

To multiply by $1\frac{2}{3}$, divide by 6, and call it tens.

To multiply by $37\frac{1}{2}$, take $\frac{3}{8}$ of the number, and call it hundreds; $87\frac{1}{2}$, $\frac{7}{8}$ of the number, and call it hundreds, etc.

We simply reverse these methods to divide. To divide by 10, 100, 1,000, etc., we remove the point one, two and three places to the left.

To divide by 25, remove the decimal point two places to the left, and multiply by 4.

Removing the point two places divides by one hundred; hence the quotient is 4 times too small; hence we remove the point two places, and multiply by 4.

To divide by $2\frac{1}{2}$, remove the point one place to the left, and multiply by 4.

To divide by 125, remove the point three places to the left, and multiply by 8.

To divide by $12\frac{1}{2}$, remove the point two places to the left, and multiply by 8.

To divide by $1\frac{1}{4}$, remove the point one point to the left, and multiply by 8. There are about $1\frac{1}{4}$ cubic feet in one bushel. Hence dividing the number of cubic feet by $1\frac{1}{4}$ gives the number of bushels nearly.

To divide by $133\frac{1}{3}$, remove the point three places to the left, and multiply by 3.

To divide by $8\frac{2}{3}$, remove the point two places to the left, and multiply by 12.

SHORT METHODS OF MULTIPLICATION.

HOW TO MULTIPLY ANY SMALL NUMBER ENDING WITH 5.

Example: 25×85 . To the product of 2 and 8 add one-half their sum, and to this result annex 25.

$$\begin{array}{r} \text{Solution: } 25 \quad 5 \times 5 = 25 \\ \quad \quad 85 \quad 2 \times 8 = 16, 16 + \frac{1}{2}(2+8) = 21. \\ \hline \quad \quad 2125 \end{array}$$

This rule is very simple and useful; practise it, it never fails.

THE COMPLEMENT RULE.

98 - 2 The complement of a number added to the number makes it 10, or
91 - 9 100, or 1000, etc. The complement of 98 is 2, of 91 is 9. To find the
product of these two numbers, multiply the complements together;
and for the other two figures subtract across, either the 2 from the 91,
8918 or the 9 from the 98.

HOW TO MULTIPLY ANY NUMBER BY 21, 22, 23, 24, etc.

2102 Multiply each figure in the multiplicand by the units figure in the multi-
plier, increasing each separate product by double the figure to the
right of the one multiplied; double the last figure.
23 Solution: $3 \times 2 = 6, 3 \times 0 = 0$, and double the right-hand figure, $2, = 4$.
48346 $3 \times 1 = 3$, and double the right-hand figure, $0, = 3. 3 \times 2 = 6$, double the
1, = 8. Double the last figure.

HOW TO MULTIPLY ANY NUMBER BY 21, 31, 41, etc.

To multiply any number of two figures when the last is 1, or of three
figures when the last two are 01.
230412 Example: Multiply 230412 by 21. Instead of the ordinary long
460824 process, simply multiply by 2, placing the product one figure to the
left, and then add. This rule is as practical as it is simple; try it,
4838652 using 31, 51, 201, etc.

How to Multiply any Two Numbers whose right-hand figures add to TEN, and the left-hand figures are the same.

Example: 87 Three times 7 are 21. Put down both figures, add one to
the second 83 figure, and then say 9 times 8 are 72. Put down both
figures, and 7221 you have the correct result. This rule is practical, and
the applica- tion of it is simple.

Try it with, $\begin{array}{ccccccccc} 21 & 32 & 43 & 54 & 65 & 76 & 87 & 98 \\ 29 & 38 & 47 & 56 & 65 & 74 & 83 & 92 \end{array}$

TO MULTIPLY BY 9's.

To multiply by 9, 99, or any number of 9's, annex as many ciphers to the
multiplicand as there are 9's in the multiplier, and from the result subtract
the multiplicand.

Example: Multiply 2,736 by 999 = 2,736,000
2,736
2,733,264 Ans.

Weight and Value of Gold and Silver.

A ton of pure gold is valued at \$302,799.21. The weight of a million dollars
in gold coin is 3,685.8 pounds.

A ton of pure silver is valued at \$37,704 84. The weight of a million dollars
in silver coin is 58,926.9 pounds.

RULES IN MENSURATION.

To find the area of a rectangle.—Multiply the length by the breadth.

To find the contents of an irregular body.—Immerse the body in a vessel full of water, and measure the quantity of water displaced.

To find the area of a triangle.—Multiply the base by one-half the altitude. *Or:*—From half the sum of the three sides subtract each side separately; multiply together the half sum and the three remainders, and extract the square root of the product.

To find the diameter of a circle:—Divide the circumference by 3.14156; or multiply it by .318309.

To find the circumference of a circle:—Multiply the diameter by 3.14156, or $3\frac{1}{4}$.

To find the area of a circle:—Multiply half the diameter by half the circumference. *Or:*—Multiply the square of the diameter by .785398.

To find the side of a square equal to a given circle:—Multiply the diameter by .886227 or $\frac{1}{2}$ of $\sqrt{3.14156}$.

To find the diameter of a circle equal to a given square:—Multiply the side of the square by 1.12838.

To find the diameter of the three largest equal circles that can be inscribed in a given circle:—Divide the diameter of the given circle by 2.155.

Wanamaker's Discount Rule.

This rule is extensively used by many firms, where more than one discount is allowed from the list price.

Example: What must be paid for a bill of goods listed at \$500, with a discount of 20, 10 and 5 % off?

$$\begin{array}{r} \text{Solution: } 100 \quad 100 \quad 100 \\ \quad \quad 20 \quad \quad 10 \quad \quad 5 \\ \hline 80 \times 90 \times 95 = .684 \end{array}$$

$$\$500 \times .684 = \$342 \text{ Ans.}$$

How to Discount Bills and Invoices.

First deduct the trade or general discount from the amount of the bill, and from this remainder subtract the discount for cash.

Example: What must be paid for a bill of goods amounting to \$200., with a discount of 25% and 10% off?

$$\begin{array}{l} \text{Solution: } \$200 \times 25\% = \$50.00 \text{ trade discount.} \\ \$200 - 50 = \$150. \\ \$150 \times 10\% = \$15.00 \text{ discount for cash.} \\ \$150 - \$15 = \$135. = \text{Ans.} \end{array}$$

AN EASY WAY TO ADD.

This is a very simple and easy method, and will be a great help to those who find difficulty in adding long columns of figures correctly :

47

EXAMPLE :

7 *Process.*—Begin at 9 to add as near 20 as you can,
 6 thus: $9 + 2 + 4 + 3 = 18$, reject the tens and place
 3⁶ the 8 to the right of the 3, as in example; begin
 4 at 6 and add $6 + 8 + 4 = 18$, reject the tens, as be-
 9 fore, and place 8 to the right of 4, as in example;
 47 begin at $6 + 7 + 4 = 17$, reject tens, place 7 to the
 7 right of 4, as in example; then $9 + 4 + 3 = 16$, re-
 6 ject tens, place 6 to the right of 3; then $6 + 7 +$
 4⁸ $4 = 17$, reject tens, and place 7 to the right, as
 8 before; having arrived at the top of the column,
 6 add the figures in the new column, thus: $8 + 8 + 7$
 3⁸ $+ 6 + 7 = 36$, or 3 tens and 6 units; place the 6
 4 units as the unit's figure of the sum, having 3 tens
 2 to carry to 5 tens, the number of integers or catch
 9 figures already rejected. $3 + 5 = 8$ tens, which pre-
 86 fixed with the 6, makes 86 the sum.

N. B.—Two or more columns may be added in the same way by using a lead pencil, and then erasing the figures used after the addition is completed.

ADDITION.

“Lightning addition” lies in the ability to see and take in the result of two or more figures without stopping to add each figure separately, i. e., to read results in figures as in reading a book, the meaning of the word or sentence is known without spelling out each syllable or word.

Process: Commence at the bottom at the right and add thus in the above example: 11, 20, 29; then carry the 2 tens to the second column; then add, 7, 16, 25, 33; carry the 3 hundreds to the third column and add the same way; 10, 21, 30, 36, etc., etc.

Never allow yourself to add up a column in this manner: 9 and 2 are 11 and 5 are 16 and 4 are 20 and 9 are 29. It is just as easy to name the results of two or more figures at once, and five times as rapid.

Practice adding columns of figures fifteen minutes each day for six months, and you will become an expert in addition.

HOW TO FIND THE DAY OF THE WEEK FOR ANY DATE.

RULE.—Take the last two figures of the given year and add one-fourth of itself to it; add also to this the day of the month and the ratio of the month and divide the sum by 7, and the remainder will be the day of the week, 1 denoting Sunday, 2 Monday, 3 Tuesday, and so on.

Ratio: For Feb., March and Nov. is 6; for Sept. and Dec. 1; for April and July 2; for May 4; for Jan. and Oct. 3; for Aug. 5, and for June 0.

Example: On what day of the week was John born if the date was Sept. 16, 1841?

Last 2 figures 41 of the year
 Solution : $41 \div 4 = 10$
 Day of the month 16
 Ratio 1
 Total 68

$68 \div 7 = 9$ with 5 remainder.

Hence John was born on the 5th day of the week or Thursday.

N.B.—The above rule is for the present century; for the last century add 2 before dividing by 7, and for the next century subtract 2 before dividing by 7. For leap years subtract 1 from the ratio of January and February.

How to Write Your Name on Iron Tools.

1. Melt a little beeswax or hard tallow and pour it on the iron at the place intended to be marked. After the wax or tallow cools take an awl or sharp piece of iron and write your name in it.

2. Pour a little nitric acid on the wax, where you have written your name, and allow it to remain a few moments. Then wipe off the wax, and your name remains indelibly marked as written in the wax.

3. Be careful and allow none of the acid to come in contact with your clothes or hands.

How to Write Your Name on Glass.

1. Apply beeswax and write your name as in the above.

2. Then instead of nitric acid, apply hydrofluoric acid, and your name will remain permanently written on the clear surface of the glass.

English-speaking population

107,050,000

English bids fair to become the universal language; already it is more widely spread and more freely spoken than any other tongue. In Europe it is regarded as the language of polite society. On the vast Australian and North American continents it is the one tongue; and in the East fully 15,000,000 of Hindus, Mohammedans, Buddhists, and others, read and speak English. In point of number at the present time, it is exceeded by the Chinese alone.—*Whitaker's Almanac.*
