The copy filmed here has been reproduced thanks to the generosity of:

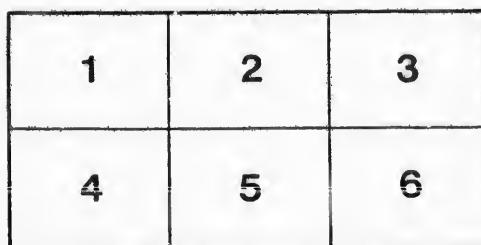

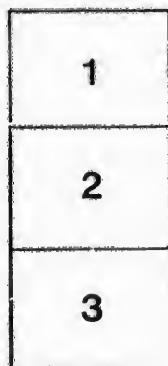

Metropolitan Toronto Library
Canadian History Department

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Library
Canadian History Department

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "Fin".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

INLAND MARINE ASSURANCE.

British America Assurance Company.

TARIFF FOR 1856.

According to data compiled and published by Mr. Secretary Dobbins, the loss of life and property on vessels and cargo navigating the lakes and inland waters connected with the river St. Lawrence during the season of 1854, amounted to \$2,187,852 and 118 lives; and in 1855, they amounted to \$2,797,839 and 119 lives. Thus, in two seasons, were lost property to the amount of one million two hundred and forty-six thousand four hundred and sixteen pounds, Provincial currency, and two hundred and thirty-seven lives.

These enormous losses are much to be deplored : they have been noticed by the judges in the neighbouring States in their charges to Grand Juries,—who, in their presentiments have attributed these disasters to the defective construction of vessels employed in the navigation, and in the employment of persons to command them wholly inexperienced and incompetent to the duties they assume ; and that those suggestions were correct is sufficiently proved by the known character of the losses of the preceding years, and the concurrent testimony of those whose experience enables them to form reliable opinions upon the subject.

To counteract these evils,—to reduce the rate of the premium of insurance upon sound vessels, properly constructed and ably commanded ; to lessen this sacrifice of human life and the destruction of property, the Lake Underwriters have formed an Association, at the estimated cost of \$37,500, and have engaged a number of intelligent and experienced Shipmasters

and others, and assigned to them regular beats extending along the margin of the Lakes and Rivers to Quebec, whose duties are to render prompt advice and assistance whenever disasters occur,—to carefully survey and register all vessels used in the navigation, and cause them to be duly registered ; and also, during the season to visit and inspect, as far as practicable, all vessels mooring within their respective beats. And in order to offer all possible encouragement to deserving and meritorious officers, their names will be duly recorded.

When these plans are fully matured, cargoes shipped on board first-class vessels with officers whose names are on the preferred list, will be insured at moderate rates of premium ; and the seaworthiness of the vessel, the competency of the officers, and the warranty that ordinary care and skill will be observed in the management of the voyage,—risks hitherto borne by the merchant,—may then be assumed by this Company, and the conditions erased from the policy.

The following Tariff under the new classification has been compiled for the present season, and it is hoped will be found acceptable to the Commercial Community.

Manager, Marine Department.
