## Day's Doings

## J. C. HARSTONE DIES SUDDENLY AT WESTON

Principal of Local High School Succumbs to Heart Failure—County Notes and Doings.

WESTON, Jan. 17.—(Special.)—Seldom has this village been more profoundly stricken than this morning when the news became known that J. C. Harstone, principal of the Weston High School, had passed away. Deceased was at the time of his death engaged in carrying a parcel of books upstairs and had deposited them on a desk when he suddenly fell forward and was picked up a corpse. Dr. Charlton was hastily summoned, but he pronounced life extinct and gave heart failure as the cause.

Less than a year ago, or shortly after Easter, J. C. Harstone came to Weston from Lindsay, accepting the position of principal of the high school, which he has since presided with marked ability and profit to the pupils. Born in the village of St. Mary's 51 years ago, after his graduation he taught for three years in Seaford High School, and for 17 years was actively identified with the progress of Lindsay High School, which he brought to a state of high perfection. Modest and retiring in his manner, he had endeavored himself to everyone in town.

The late Mr. Harstone was not identified with any fraternal societies, but was an enthusiastic curler, and until a year last night was engaged in that sport on the local rink here. As early as 7 o'clock this morning he was up and engaged in telephoning to some friends in anticipation of a match in Prospect Park rink to-night. He was a member of the Weston Bowling Club and visitors to the town last summer will not soon forget his cheery good nature and cordiality. At the bowling banquet, held a short time ago, he was unparagon in his efforts to add to the pleasure of all.

A member of the Weston Presbyterian Church, he was also the teacher of the senior Bible class, and unremittently in his labors here as well.

He is survived by a widow and two children, a son and daughter, the former engaged in construction work on the T. & N. O. near Cochrane, and the latter the wife of John F. McCuag, manager of the Adams' Furniture Co. He leaves besides two brothers and two sisters, Leonard, barrister of the Town of St. Mary's, and Robert, employed with Mackenzie & Mann; Mrs. A. M. Thompson of Toronto is another sister.

A meeting of the high school board was held to-night to complete the arrangements with respect to the funeral, the date of which, owing to the difficulty of reaching the son, has not been definitely set.

### DOWNVIEW.

DOWNVIEW, Jan. 17.—(Special.)—The meeting of the trustees of public school section No. 17, Downview, held here yesterday, was largely attended.

## MARKHAM VILLAGE.

Local Paper Scores Outgoing Council

MARKHAM VILLAGE, Jan. 17.—(Special.)—J. J. Lunan, the well-known auctioneer, conducted a big auction sale of furniture and general household articles here on Saturday last and good prices were realized. On Thursday afternoon Mr. Lunan conducted an extensive sale of standing timber on the north half of lot 8, con. 4, Scarborough, belonging to John Sewell.

The Economist takes strong exception to certain increases in the salaries of town officials made since the new council came into office, and, incidentally, scores the outgoing council for the statement of the financial condition, which it charges is so presented as to be valueless. Altogether The Economist seems to be out of harmony with its civic administrators.

James Torrance, Robert McKay and Mr. Parks are serving on the jury. Miss Frances Morgan left on Saturday morning to take a course in nursing at Grace Hospital. Miss Morgan will be greatly missed in the village.

The Home Circle met in the town hall to-night, when the new officers were installed.

The annual meeting of the directors of the Markham Fair will be held in the town hall on Thursday afternoon, beginning at 1 o'clock.

An at home under the auspices of the Ladies' Aid of the Christian Church will be held at the home of Jacob Helser on Wednesday evening, Jan. 18. The first singing will leave the church on Church-street at 5 o'clock, and at

frequent intervals thereafter. The admission to the at home is only 15 cts.

### NORTH TORONTO.

Mayor Sees Board of Control and Action Will Shortly Be Taken.

NORTH TORONTO, Jan. 17.—(Special.)—Mayor Brown had an interview with Mayor Geary and the board of control at the city hall this morning, when the latter stated that the city representatives would name an early date for a consideration of the question of annexation.

Mayor Brown suggested that the northern representatives would be pleased to take the city men over the ground in autos, thereby whetting the appetites of the latter for the acquisition of this beautiful residential district. This was formally agreed to and while no definite date was named, it is thought that only a short time will elapse before negotiations will be opened up.

Around-town the greatest interest is taken in the outcome of the meeting and the visit of the board of control. The question of annexation has become an acute one of late, and it is safe to say that nothing that has ever come before the townspeople has aroused a tinge of the present interest, not to say anxiety in the matter.

### MIMICO.

Newly-Elected Council Object to Railway's Subway.

MIMICO, Jan. 17.—(Special.)—At a special meeting of the village council held last night, a number of resolutions were passed, including the proposed subway, objecting to the railway's subway, which it charges is so presented as to be valueless. Andrew Dods was appointed clerk and treasurer at a salary of \$100 a year, and Jay Barham, assessor, at a salary of \$100 also.

The next meeting of the council will be held on Feb. 3, and it is expected that at that meeting the whole paraphernalia of a local board of health will be appointed.

It was felt by Reeve Skelton and the other members of the council that Church-st. subway is an important one and the idea of a 20 foot subway as suggested by the G. T. R. is out of the question. The total cost will be as shown by the plans, \$37,155 for a 20-foot one. The excavation work and the steel will be the heaviest items.

### NEWMARKET.

Former North York Boy Has Flourish in the Great Northland.

NEWMARKET, Jan. 17.—(Special.)—Dr. F. W. Cane, postmaster at White Horse, Yukon Territory, and a brother of Henry Cane, president of the big manufacturing firm here, is home on a short visit to friends. On Monday Dr. Cane left for Ottawa in connection with departmental business.

Dr. Cane is a ninety-niner, having joined in the rush to the gold fields of the Klondike back in 1899. He has prospered exceedingly, and is contemplating a business trip to Europe, templating a holiday trip to Europe when his business here is completed.

Dr. Cane was in White Horse last fall during the big robberies of bullion that were pulled off while the metal was in transit from White Horse to Seattle. The gold, which was taken on two occasions, was valued at \$30,000 and \$20,000 respectively. Both quantities were recovered, but the authorities have so far failed to bring home

the theft to any particular person. Four persons were named in the "surprise party" last Friday evening against them.

### FAIRBANK.

The young people of the Fairbank Presbyterian Church, to the number of about forty, formed themselves into a "surprise party" last Friday evening and called at the manse, where they were welcomed by the pastor, Rev. T. A. Watson, and Mrs. Watson. The evening was spent pleasantly with a variety of games and music, and all expressed themselves as having enjoyed the "surprise."

### LAMBTON MILLS.

Mrs. Percy Barrett, Lambton Mills, will not receive on Thursday, as was announced, but on Monday, Jan. 23.

### TIMBER SALE.

Thursday, Jan. 19, an auction sale of standing timber, hard and soft wood, and a number of oak trees, will be held. This sale affords an excellent opportunity to secure a supply of good firewood, in lots to suit purchasers, belonging to John Sewell, north half of lot 8, con. 4, Scarborough, and will be held at 1 o'clock. J. J. Lunan, 538 Pape-avenue, auctioneer.

### REINSTATEMENT ORDERED.

STRATFORD, Jan. 17.—The enquiry conducted here by Judge Barron into the case of the G.T.R. strikers has already resulted in orders for reinstatement of some half dozen men. The judge will report fully to President Hays. His honor finished the Stratford enquiry this afternoon and goes to London to-morrow.

## MUST HAVE COMMISSION TO PROBE FARMERS' BANK

Creditors and Shareholders Alike Endorse Proposal—Curator Target for Queries.

The usual quiet of the Farmers' Bank Building was disturbed yesterday morning by the gathering of the creditors of the now defunct financial institution. The meeting was called for 11 a.m., but long before that time many creditors from all parts of Ontario were present to obtain, if possible, some light in connection with the money they had placed in the bank.

It was pointed out by Mr. Clarkson, that in the matter of certain deposits on which the exact time of the suspension would have to be decided upon before the validity of these matters would have to be referred to the courts for a decision. In this connection all depositors of Dec. 19 last, the date on which the bank suspended payment, will be requested to give particulars of their deposits.

Reciting the method of the formation of the bank, Curator Clarkson pointed out the irregularities of the methods which had been adopted by Travers and his associates, in getting the charter from the government. They had collected \$211,000 in cash and notes, which, after expenses had been paid, only left \$170,000. Ex-Vice-President Travers took the notes of subscribers and amount raised \$250,000, the amount sufficient to qualify for the issuance of the charter.

"The charter was obtained by an evasion of the Bank Act. When the bank began business its liabilities were greater than the assets by \$41,000. "We are making a claim of \$50,000 from guarantee companies covering from defaultations. We may recover it, but I do not wish to be too optimistic."

The Keeley mine transaction was related by Mr. Clarkson. "The bank," he said, "had practically been the only source of cash invested in the mine. The probable value of the mine was a question. I do not want to make any statement of any estimate of the Keeley mine property. I do not want to be too optimistic with regard to it. Mr. Clarkson was appointed permanent liquidator and the meeting adjourned.

Floodgates Opened. The meeting resolved itself into a public one, and J. W. Gilmore of Elgin was put in the chair. There was the signal for letting loose the pent-up feelings of the audience. "Is he not to be forced to make restitution of some of the money stolen?" asked a man with much heat.

"We have got all he has," replied Mr. Clarkson. "It will probably amount to \$75,000."

William Waddell had a number of motions, which were submitted serially, and passed unanimously. The intent of the first of these was that every effort possible be made to discover the parties in addition to the general management of wrong doing in connection with the bank, and that the attorney-general of Ontario be urged to continue the investigation of the

bank's affairs and bring the guilty to justice.

The second motion was that the Dominion Government appoint a commission to go into the question of the management of this and other banks, with a view to bettering the existing legislation for protection of bank creditors.

### Nesbitt's Whip Hand.

Burge Gunby, one of the Halton County directors, asked regarding the Beattie Nesbitt deal, said he had questioned Travers as to why he had accepted the mine shares as security for Nesbitt's move Thursday, and Friday and Mr. Thompson has it so arranged that it will not be necessary to close the city ticket office. The department will not provide much space in their new quarters, as the company were unable to secure a lease on any more than the ground floor.

### Moving C. P. R. Offices.

The C.P.R. district passenger department will commence moving operations to their new offices at No. 16 King-street east this morning. The ticket and city passenger offices will move Thursday, and Friday and Mr. Thompson has it so arranged that it will not be necessary to close the city ticket office. The department will not provide much space in their new quarters, as the company were unable to secure a lease on any more than the ground floor.

### BE A PERFECT MAN!

With No Back Pains—No Nervousness—No Loss of Ambition—But With Plenty of Life and Energy and the Vigor of Youth Restored.

To be strong and manly is the aim of every man, and yet how many are who are wasting the vitality and strength which nature gives them. Instead of developing into powerful, manly young fellows, they are nature intended them to be, they find themselves broken down and dependent—no ambition, no energy, no manly vigor. They are easily along, sooner or later, to become victims of dreaded disease, their finer sensibilities blunted and their nerves shattered.

### IS THIS THE WAY YOU FEEL?

Do you feel tired in the morning and exhausted? Is your back aching or lame? Do you have difficulty in fixing your thoughts? Is your memory failing? Are you losing ambition? Do you feel you are not the man you once were? Do you have hot flashes up and down the spine or sudden weak spells, especially after eating? Have you palpitation of the heart, dull headaches, pain at the base of the brain, sudden spells like fright from no apparent cause? Are you very restless or sleepless at night? Are you very nervous and irritable, with a feeling that you want to be alone? Are you gloomy, with a sense of some great oppression upon you? If so, then you need my treatment. You surely do not want to remain in this condition. Don't suffer longer. I cure others, I can cure you. Master your disease before it masters you.

### DR. McLAUGHLIN'S ELECTRIC BELT

Builds up broken-down men, restores youth and vigor and makes men look and feel strong. It will cure every case of Rheumatism, Lame Back, Sciatica, Varicose, Loss of Power and every evidence of weakness in men and women. It will not fail, it cannot fail, as it infuses in the weakened parts the force of life and strength.

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for your case, and you can

### PAY WHEN CURED

Dear Sir,—Your Belt has been a boon to me. The emissions have ceased. My Rheumatism in the shoulder has gone. I must say that I feel that life is now worth living. The most noticeable thing is the blood; it seems to have increased very much in circulation. Before using the Belt, if I took a swim in the lake I have not got cold, but now I am in the water every morning about 6 o'clock, and don't feel the cold at all. I think your Belt will do all you claim it will, and then some more.

A. G. ROFFERTY, Wabigoon, Ont.

Electricity is life to the nerves and organs of the body. They cannot live without it. Get back the power and make yourself a man among men.

Nature will cure you if you give her the right kind of assistance. The reason your nerves are weak is because they are not properly fed. I don't mean that you do not eat enough. Nerve force is a food that comes from electricity. When your supply of bodily electricity has become depleted, the nerves do not get the proper nourishment, and various complications result.

## Note and Comment

H. H. Chisholm and R. Rennie are the only two local skips still undefeated in the Tankard and single ring controversies, and it is among the possibilities that they will meet in the trophy final.

Conditions were ideal yesterday for play in Tankard groups 4 and 13. Unlike in No. 3 there was not a close finish in semi-final or final.

Queen City and Newmarket proved the winners. In the final Horace Thompson of the Scarborough Leafs led with W. A. Brunton, but his running started was hopelessly in the rear. Rennie had 16 on Moose Hunter, and Bob Rice a margin of one on Geo. Duthie, the winner of the latter's only defeat of the winter. He is in the semi-final in the single ring.

C. Swabey was the efficient umpire at Victoria Rink, while Horace Lewis did the honors at Prospect Park.

Starter Mars Cassidy, who is officiating at Jurek's, has a big cockfight on for the first Monday in February. It is for \$500 a side. Cassidy has the grandest gamecock in this part of the country. Cassidy may have an extra demand for his roosters should he do the Canadian circuit. It was not hitherto generally known that Mars possessed this accomplishment.

Tom Shaw, the bookmaker well-known at the Woodbine, won \$30,000 on one race at Jacksonville last week. It was the biggest coup of the year. It hit several of the eastern bookmakers so hard that they wrapped up all that remained of their bankrolls and said starting for New York. Shaw, who, when on the block, invited you in to get shaved, had \$3000 on a successful 15-1 shot, which won on the post by a nose. A stride on the near side of the winning post, his money was lost; but just as the victory finish line was reached the bearer of Shaw's hopes, to say nothing of his money, won.

George Kennedy, one of Ottawa's famous football players, left the Rugby belt, having been transferred by the Dominion police department to Halifax. He has been connected with the force for over fifteen years. He is now being made chief of the force, which will look after the naval barracks at Halifax. Kennedy is about 46 years of age, and in almost twenty years of Canada's leading football figures. He has figured on three or four Dominion, Quebec and Interprovincial championship teams. In the past six years he was twice beaten out by Varsity for the Dominion title. Kennedy is a long lead on last year, also every effort was made to induce him to put on the uniform again. He played center in the scores of famous matches. He started football in Kingston, playing for his Alma Mater, Queen's.

Jack Johnson, falling to get his name in the papers, issued a challenge, which was promptly accepted by Sam Langford, the champion is to get \$10,000 as his bit for a six-round bout in Philadelphia three weeks hence.

It was over in Pittsburgh that the publicity promoters failed to recognize Johnson. One who tried to get his name in the papers paid any attention to him, and after he had long frozen him self stiff by speeding past policemen. Johnson made his last appearance in the police, but then undoubtedly the comforting thought occurred to him that he could distinguish him from the crowd by a roundabout atmosphere. Johnson departed with a hopeful grin and forthwith issued his challenge.

Puzzled, Johnson sought out a few more minions of the law and tried the same experiment. None of the beleaguered guardians of the peace paid any attention to him, and after he had long frozen him self stiff by speeding past policemen. Johnson made his last appearance in the police, but then undoubtedly the comforting thought occurred to him that he could distinguish him from the crowd by a roundabout atmosphere. Johnson departed with a hopeful grin and forthwith issued his challenge.

It was some time before Johnson was noticed thru the medium of Mrs. Jack. They recently rode from Boston to New York City on a limited train. Two old ladies sat behind the oddly-mated couple in the parlor car, and when Mrs. Johnson suddenly showed a hand covered with wounds they summoned the grinning porter. "Who is that colored man?" they asked. "That's Missy Jack Johnson," replied the porter. "What did he ever do?" "He whipped me," replied the porter. "Who is Missy Jeffrey?" "A fighter," replied the porter. "Did they fight in the street?" "No, ladies, but in Reno, and Missy Johnson got \$100,000." "Why, he must be a millionaire." "Yes, ladies, those diamonds his wife wears are worth half a million." And the porter hurried away to brush some sand and hats, while Johnson, who had overheard the conversation, indulged in a golden smile.

## QUEEN CITY, NEWMARKET QUALIFY FOR THE FINALS

Parkdale and Scarborough Maple Leafs Last Competing Clubs in Groups 4 and 13.

Group No. 4, Ontario primary competition, was decided yesterday on Victoria Ice, Queen City winning out by good margins, both in semi-final and final. In the afternoon Queen City knocked out Aberdeen by eight shots, R. B. Rice being up on J. Richardson, and R. Rennie outscoring W. Booth, each having the same margin. In the other semi-final, Moose Hunter doubled the score on D. Carley, while Geo. Duthie again carried his brown, Parkdale winning by 14 shots. This left Queen City and Parkdale for the final.

Bo. Rennie was in fine fettle, and started to roll up a score on M. Hunter, getting 3, 1, 2 and 6 the first four ends. With 12 to 0 against him, Moose Hunter made a counter right back with four, and, with Rice and Duthie playing even, the result was never in doubt. Scores—Semi-Final: Parkdale—Q. W. Britnell, 10; Aberdeen—E. Forbes, 10. Final: Queen City—J. Richardson, 10; Parkdale—Bo. Rennie, 10.

Group No. 13, Ontario primary competition, was decided yesterday on Victoria Ice, Queen City winning out by good margins, both in semi-final and final. ### CARS ARE OVERCROWDED EVEN RAILWAY SAYS SO

**Evidence as to Danger to Health Given—Crown's Case is Nearly Finished.**

By to-night the crown's case against the Toronto Street Railway will be concluded, and an adjournment of the trial will then be made until Monday morning, when the company will proceed with its defence.

This was agreed to before Justice Riddell at the adjournment last evening. His lordship assured the company's counsel that they could have more time if they wished, and suggested that if he were in their position he would likely take all the time he could get in preparing a defence, but after a brief consultation amongst Messrs. Nesbitt, Dewar and McCarthy, they declared that they were fully prepared to tackle it on Monday.

**Admitted Overcrowding.**

Two features of yesterday's proceedings were the partial admission by Wallace Nesbitt, C., for the company of overcrowding of cars, and the submission by the crown of expert medical testimony to show that there was grave danger of the spread of disease through persons with coughs being crowded close to other people.

Mr. Nesbitt said that if it would shorten the case any he was prepared to admit overcrowding of cars, but he would not admit that this overcrowding was endangering the health of the public, unless he could be convinced that it was a fact. He wanted the "health" clause separated from the other.

"You will have to go the whole way," replied the judge. "You will either have to admit or deny, and the menace to health clause is included."

**Not Enough Cars.**

"No, I will only admit that with the present number of cars we cannot carry the crowds,"

Here Mr. Nesbitt turned to General Manager Fleming for corroboration.

"Yes," returned R. J., promptly. "We cannot handle the crowds with the present number of cars, and we cannot handle any more cars on the tracks we now have."

Later on in the proceedings Justice Riddell remarked:

"Now the admission is, that for three years past, at certain periods of the day, the Toronto Railway Company has been carrying passengers in such a way that the cars are overcrowded."

**Spread of Disease.**

Expert medical evidence as to the danger of a cough in a confined atmosphere to persons close by was given by Dr. Nesbitt, city bacteriologist. People suffering from such diseases as tuberculosis, pneumonia, or influenza could easily spread germs of those diseases amongst persons to their mouths, he said. Witness produced samples containing colonies of bacteria made from cultures obtained at two and three feet from a cougher's mouth. These cultures had been made at the Isolation Hospital. In six cases they looked like diphtheria bacilli.

Dr. Nesbitt, K. C., protested that while he did not object to this class of evidence going in, he didn't want to come into contact with diphtheria germs, and would like them removed.

Cross-examined by Mr. Dewar, Dr. Nesbitt said he had never traced any cases of infection to street car happenings.

"Would there not be just as great danger to persons traveling in elevators or ordinary railroad coaches?"

"Yes, there is a danger."

**Dr. Macdonald Testifies.**

Dr. Bruce Macdonald, principal of St. Andrew's College, said he had experienced overcrowding on two occasions on Carlton-street cars he had lost buttons off his overcoat.

"Yesterday, between 5.30 and 6 o'clock," continued the witness, "I was forced to stand in close proximity to a gentleman who suffered from a cold. He was coughing not only in my face, but in the faces of others, and I consider that is not in the best interests of my own health or of the others."

To Mr. Nesbitt, witness replied that he didn't consider that there was as much danger in a crowded theatre as in a crowded car, because the crowding in a theatre was not so dense, and as for a baseball crowd, the open air was in the crowd's favor. As for the revival crowds in Massey Hall, there could be no comparison. There might be, too, in crowded elevators or departmental stores.

**Passengers' Experiences.**

More evidence as to inability to obtain a seat in coming down to work mornings was given by D. E. Hughes, Allan Taylor, a master of St. Andrew's College, said he had seen ladies jammed and jostled and passageways of cars utterly blocked.

Further evidence as to the killing of Philip Copeland and William Cummings, who were killed by a car, was given by Mr. Trotter, who was put in.

**Dangerous Y-ling.**

The last witness of the day was J. L. Stewart, an engineer, who produced plans showing points at which the street cars were wont to back up in Y-ling. There has been some allusion to this practice being dangerous to life and limb.

Mr. Nesbitt said that if it could be shown that there was any other way of operating at these points without backing up, the company would be willing to stop it at once. He objected to the word "Y-ling" showing some annoyance at the indifference of witnesses to respond to their summonses. Five persons called yesterday did not appear and he threatened bench warrants if the occurrence is repeated.

**Crawled Into Furnace.**

NESBITON, B. C., Jan. 17.—A Chinaman employed as porter in the Strathcona Hotel, committed suicide in a room at the hotel. He was found dead in the furnace. He had crawled in with wood, and then crawled on top of the fuel. When discovered the body was almost consumed.

**Thirty Accidents.**

OTTAWA, Jan. 17.—A return presented to the house of commons yesterday by the minister of railways showed that between April 1, 1909, and Feb. 28, 1910, there had been some 30 accidents on the Intercolonial, in which 19 people were killed and 16 injured.

**Carried Power Below.**

### When the Stomach Stops Working Properly, Because There Is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

**A Trial Package Free.**

The doctor tells it flatly, "wind" unprofessional folk know it as "flatulence on the stomach," and a most distressing state of things it is. It is a serious condition of the great motor organ. Always annoying and painful in the extreme, at times often leading to more serious and even fatal results. The stomach, embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to contemplate. The entire system is implicated—made an active or passive factor in this trouble, and life soon becomes a questionable boon.

All this is explained in doctor books; how undigested food causes gases by fermentation and fermentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by indigestion and the distribution through the alimentary tract of chemically wrong elements, and as a consequence the stomach and entire system is spoiled. Plenty of food you eat, but it is not properly digested and is worthless.

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas which is produced has its worst primary effect, and the only way to do away with this is to remove the cause. Stuart's Dyspepsia Tablets go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulence or wind on the stomach simply cannot exist where these powerful and wonder-working little tablets are in evidence.

They were made for this very purpose, to attack gas-making foods and convert them into proper nutriment. This is their province and office. Whole books could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment, and the results at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

Stuart's Dyspepsia Tablets are not alone intended for the sick, but well folks as well; for the person who craves hearty foods and wants to eat heartily and run no risks of bad effects, they are like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or effort. Don't forget this. Well people are often neglected, but the Stuart Dyspepsia Tablets have them in mind.

A free trial package will be sent anyone who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them; everywhere, here or at home, they are 50 cents a box, and by getting them at home you will save time and postage. Your doctor will prescribe them; they say there are 40,000 doctors using them, but you know just is the matter with yourself, why go to the expense of a prescription? For free trial package address: F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

### What Followed a Scratch.

Mrs. Brown 7 Calumet Ave., Montreal, says: "While busy in the kitchen one day the oven door fell off, striking my right leg and inflicting a nasty scratch. While this was painful, I never thought it would become a serious wound, but to my surprise it became very much inflamed and very painful. I found that the scratch had become a sore, and it was very bad. The pain and inflammation got worse and the wound discharged freely. At this stage someone advised me to try Zam-Buk and I obtained a supply. This cream seemed to reduce the inflammation and soothed the wound. I naturally persevered with Zam-Buk and within a few weeks the wound was quite healed."

### Eczema Banished.

Yes, this is the lot of such sufferers who will send trial box of Zam-Buk free! Write us, sending 1c stamp to pay return postage.

Mr. Wm. Dugan, 688 Lipton St., Winnipeg, says: "Last winter I suffered from Eczema. After trying lozions, ointments and powders given me by the doctor, which failed to do me any good, I tried Zam-Buk. This proved equal to my case and cured me."

### Use as a Household Balm.

Mrs. W. Blair, 91 St. Catharines St., Hamilton, speaks of the value of Zam-Buk as a household balm. She says: "One day I slipped and fell against a Morris rocker, knocking my knee very badly. The knee turned black and blue and was very painful. I rubbed Zam-Buk well into the injured member and it was indeed surprising how quickly I found relief. The swelling was soon reduced and pain and discoloration banished. By perseverance with Zam-Buk my injured knee was well again in a couple of days."

"I have since proved it to be the handiest and best balm for household purposes. A few applications of Zam-Buk gave me ease from rheumatism also!"

## CARNEGIE PLEADED GUILTY

### Counterfeiter Offered No Defence—His Son Will Be Tried To-day.

James F. Carnegie pleaded guilty before Magistrate Denison yesterday of manufacturing counterfeit coins, offering no defence to the charge. His son Hugh is charged with issuing the coins, and the case will go on to-day, while Mrs. Annie Carnegie, the mother, was remanded on her own bail for trial.

Hugh Carnegie was arrested after attempting to pass a coin at a tobacco store on Saturday night, after which their house at 1111 Dundas street, near the corner of the street, was searched, and a complete outfit found for making 25 and 50-cent pieces. The counterfeit was a perfect model, but of poor color and light weight.

One of the man's young daughters declared that Carnegie had been starting for some time from his work as a tailor for two or three years, during which time he manufactured and passed many of the coins.

Those who are in a hurry to get to the city make an arrangement for a night drive to Porcupine, which is at a distance of 30 miles, but stage drivers do not like to do this, and they do not like to do the evening work and are doing all in their power to discourage it.

There are three stopping places along the road, where meals and beds can be had. These places are patronized by the stage drivers and the

mostly by freight men, who take days to make the trip. Comfortable, up-to-date surreys are run by the Miller Transportation Co. Foot-warmers and plerobes are furnished. In good weather six hours takes to Bismarck. So far this year

road runs across Frederickhouse for a distance of five miles, but blocking of the track with several feet of snow caused men interested to a road from the Frederickhouse thru the woods to the Kelso N. drive. That road will soon be in

Also, there is a route in from M

road to Porcupine is reached. The  
distance there is several miles f

There is plenty of hotel accommo

### The Value of a Bold Front

Times without number a Bold Front carries the day. The best of us have, in vulgar parlance, to "hang a bluff" and put on a bolder front sometimes than we really feel. But the bold front to which we now allude has to be the real genuine article requisite to meet the wintry blast, the freezing wind and the icy sleet. There are just two things which are absolutely necessary to enable us to get even with rough old winter. Firstly, a good square meal; secondly, a good warm coat. You go home to get the former (we can help you to go in comfort) and on Thursday you go to Simpson's to get the latter.
