Striking Canada's Flag

Sir Wilfrid Laurier, various of his ministers and his press organs have been keen to resent interference by British public men and newspapers in the political affairs of the Dominion. No very lively imagination is necessary to anticipate the howl of indignation that would come from the reciprocity camp did prominent Imperialists appear with Mr. R. L. Borden or did the press advocates of the larger imperialism seek to sway Canadian opinion by such threats and menaces as have been common on the platforms and in the press of the neighboring republic. Yet within the last few days the Canadian people have witnessed the Prime Minister of Canada surrounded by senators and politicians of the United States while he pleaded for approval of a measure which its president, the speaker of its house of representatives, and many another of the leaders of both its political parties have declared to be an instrument designed to withdraw Canada from the imperial commercial band of British states, and to be the prelude to commercial and political union with the republic.

No Canadians who are proud of their place within the British Empire could have read the accounts of these last meetings of the premier of their country without experiencing a deep feeling of resentment. Those of them who have hitherto been inclined to support reciprocity as a purely fiscal arrangement for the increase of trade exchange between the two countries must now realize how grossly they have been misled by the assurances that no ulterior motive lies behind the action of the United States executive and congress. No mere trade agreement could have created so intense an interest in the result of the approaching general election or can explain the presence of alien politicians on Canadian soil and in open support of the Liberal Prime Minister of the Dominion. They were not there nor were they accorded places on his platform merely because reciprocity may increase the quantity of beans or wheat or other food products passing from Canada into the United States or of fruits and vegetables coming into Canada. Not the commercial but the political aspect of the Washington pact provided the reason for their presence.

No voice of protest could have been raised if these United States senators and politicians, prompted by an excusable curiosity, had been found among the general audience assembled to hear the Prime Minister of Canada. But a very different complexion is given the incident when they were accorded leading place among his immediate and most intimate supporters. Sir Wilfrid Laurier must have been strangely indifferent to patriotic obligations when he introduced this alien element into a great national controversy and presented as his allies in his campaign men who see in reciprocity the entering wedge that will split Canada from the British stem and stock. To admit this direct interference in a Canadian general election on the part of public men of the United States, while jealously resenting even the distant comment of imperial statesmen, is a strange enough proceeding. It casts grave suspicion upon his professed loyalty to the British flag and he need not be surprised if it is treated as an indication that his real sympathy is toward the continent, not the empire.

Whatever may have been Sir Wilfrid Laurier's motive in associating United States public men so prominently with his advocacy of reciprocity, the occurrence cannot but be regarded as a serious menace to Canadian liberties. His chief organ could not find language strong enough to carry its denunciation of Mr. Graham, whom it falsely accused of active participation in the electoral campaign as the agent of the United States trusts. Yet the premier of the Dominion has provided the Canadian people with a spectacle of far more menacing moment than the incursion of a stray individual would have been had the charge against him been true. It is matter for deep regret that Sir Wilfrid Laurier has not been content to confine his platform to those of his own countrymen who support his fiscal policy and maintain their British allegiance. To have been surrounded by representatives of United States opinion, hostile as it so largely is to the existence and continuance of the Canadian national spirit, is a humiliation that will not be readily condoned nor will it be soon forgotten. Sir Wilfrid Laurier has done his best to lay Canadian honor and independence in the dust.

Betraying the Railwaymen

Here is an analysis of the position assumed by Mr. Murdoch of the Brotherhood of Railway Trainmen, in his defence of Hon. W. L. M. King, written by one of the men themselves, which Mr. Murdoch and Mr. King's defenders cannot ignore:
Editor World: Can you spare the space for the venting of a railroader's indignation? Mr. Murdoch stated on Saturday night in Berlin that but for the intervention of Mr. King and the Dominion Government the trainmen's union would have been annihilated on the G.T.R. What does he mean by this assertion? The Brotherhood of Railway Trainmen is an organization extending into every corner of the U. S. and the Dominion of Canada. This late strike was the outcome of a so-called eastern association, in which over 40 American roads got what they wanted or nearly so without having any strikes, but the poor G.T.R. man who were the last on the list of this eastern association movement, got what? A telegraphic message terminating the strike with Mr. Murdoch, and Mr. Berry's signature on it saying: "STRIKE SETTLED. EVERYTHING SATISFACTORY." Please, Mr. Editor put those three words in italics, for it may be satisfactory for some people, but not the G.T.R. men. Is it possible for a union with a membership of over 70,000 and a surplus fund well into the millions to be annihilated? As a combined organization, No. But as a unit, why Yes. As part of the Eastern Association why were we allowed to be the unit? Mr. Murdoch also states that within 26 hours of the declaration of the strike we were beat. Read the papers containing his reports during the strike for an answer. Our

local leaders at that time were in daily communication with him by long distance phone and telegraph, and he was telling us daily, "We have got them where we want them; don't believe the papers, etc." Now, I suppose, he would like us to believe the papers. He thanks the government for a lot. We would have thanked them, too, had the railway commission done what was requested of them several times, that is, see that only qualified men were allowed to handle trains instead of allowing any Tom, Dick or Harry to have the safety of the traveling public in their hands.
In answer to a question put to him at the Berlin meeting, which was: "Who advocated the strike?" he answers, "4000 men on the G.T.R." Is this fair? We voted on a wage question and schedule put forth by the officers of the B. of R. T. and O.R.C. In fact not a G.T.R. schedule, but an Eastern Association schedule of lines east of Chicago, and in which over forty other roads participated. Was that a G.T.R. strike advertisement? Mr. Murdoch please reply. Mr. M. also says people have not looked in the proper place for evidence and information which would convince them. Does Mr. Murdoch recollect while paying out the strike pay a request made to him to give the boys a meeting that night? He asked "What for?" We told him to get some information which he alone could give us. He made an appointment to meet us at 7:30 p.m. But Mr. Murdoch was well on his way to Toronto by that time, he having left town at 6:30, while we had an appointment at 7:30 to get that proper evidence. Where else can we get it when our leaders don't tell us? We were misled about the agreement, too. Some of the boys don't know yet what kind of an agreement we have. We might as well know the worst. And it would enlighten the public, too. If some one had used all my spare time, so will close by saying that political bluff may be all right, but no more Grit for me. Once bit twice shy, and it is up to every railroader to turn down the government who did their best to turn down both us and our union.
A Reformed Grit Trainman.

STRONG PROTEST AGAINST HEARST'S INTERFERENCE

Big Demonstration at Montreal Condemns Attempt to Influence Canadian Voters by Free Dissemination of American Yellow Journals—N. Y. American Sends Insulting Reply to Invitation to Attend.

MONTREAL, Sept. 10.—An "Anti-Hearst" demonstration, organized by a number of Conservatives, now leading the anti-reciprocity campaign in Montreal, drew thousands to Champs de Mars last night. Here they heard the past of Hearst discussed at some length, and in a manner which certainly could not have led them to thing very highly of that gentleman. The direct cause of the assembly was the allegation that through Canada copies of pro-reciprocity journals, controlled by William Randolph Hearst, were being freely circulated with the object of influencing Canadian voters. Further, it was alleged that these journals contained false and deceptive statements and articles calculated to mislead the reader.

Mr. Hearst himself had been invited by telegram to be present, and Mr. Henri Bourassa was slated as the chief speaker, but neither appeared. The telegram to Mr. Hearst informed him that it was hoped that he could see his way clear to take part in a joint debate here so that his false and malicious allegations could be publicly refuted.

In replying to this telegram the following message came from The New York American, signed by S. S. Carvalho:
Sample of American Courtesy.
"Mr. Hearst is in Europe and has been there for the past three months. No one here has the slightest authority to speak in his name. He might see fit to answer a courteous telegram sent to him in London; but I certainly would not undertake to forward him a telegram composed of ridiculous misstatements and couched in boorish language and conveying nothing but a convincing impression of the ill-breeding, inaccuracy, and unimportance of the two individuals signing it."

On the other hand several messages were read from Canadian newspapers endorsing the stand taken by the organizers of the meeting and condemning Mr. Hearst for the free circulation of his journals in this country. Papineau Mathieu, Conservative organizer, was the first speaker, and stated that Taft and Hearst were banded together in a conspiracy to change the relations between Canada and the mother country. Oliver Asselin attacked Mr. Hearst as the publisher of "yellow journals." Rufus Pope, chief organizer of the meeting, followed in a similar strain. Mr. Hearst, he said, controlled seven yellow journals, which were condemned as rotten in the United States. Roosevelt and Root had said that the Hearst papers might be considered responsible for the assassination of President McKinley. All good Canadians should unite in

On Tuesday night Mr. Maclean will meet the North Toronto electors at the town hall; on Wednesday evening meetings will be held at the Masonic Hall, the Beaches, St. John's Parish Hall (Norway), and at Dulmage's Hall. Gerard-street (Offitway); on Thursday night at Wychwood and Fairbank; on Friday night at East Toronto and Tomdorden, and on Saturday night at West Toronto. Next Monday evening a meeting will be held at Swanses.

HER HEAD CRUSHED IN

Wife of Essex Farmer Murdered With an Ax.

ESSEX, Sept. 10.—Mrs. George Reid, wife of a prosperous farmer, was found by her son, Asher, dead in bed at their home in Maidstone Township, this afternoon. The head and face were terribly smashed, the body lay in a pool of blood, and an ax was nearby. The husband is missing and detectives are working on the case. Reid, it is stated, had been drinking heavily recently. A jury was empaneled and after viewing the remains adjourned to meet at the call of the coroner, Dr. Bryant of Essex.

UP TO BERRY AND MURDOCK.

The railway men of Toronto Junction have arranged for a public meeting in the Masonic Hall this evening, at which Messrs. Berry and Murdoch, vice-presidents of the Order of Conductors and Trainmen's Brotherhood, will speak on the Grand Trunk strike and settlement.

Much dissatisfaction has been aroused by the attitude of Messrs. Berry and Murdoch at the Berlin meeting recently, when they thanked Hon. Mr. King, whose intervention proved costly to them, say the trainmen. Tonight's meeting is the result.

GROWERS BACK PRESIDENT DELWORTH

Full Endorsation Given His Attacks on Reciprocity as Designed to Benefit U. S. Vegetable Growers and Work "Incalculable Injury" to Ontario Producers.

When Thomas Delworth, life-long Liberal, denounced reciprocity at a recent Weston meeting as ruinous to Canadian vegetable growers, he did not, as certain party organs hinted, merely speak his own mind. The following resolution unanimously adopted at a meeting of the executive of the Ontario Vegetable Growers' Association on Saturday speaks for itself:
"The executive of the Ontario Vegetable Growers' Association at their

THOMAS DELWORTH.

meeting held on the Canadian National Exhibition grounds hereby unanimously endorse the action of their president, Mr. Thos. Delworth, in opposing, thru the press and on the platform, the reciprocity agreement, which will work incalculable injury to every one engaged in the production of vegetables in the Province of Ontario, and that a copy of this resolution be forwarded to the press."

EASTERN ENTRANCE FOR EXHIBITION NEXT YEAR

Directors Hope to Have Cars Run Thru Grounds—Attendance Reached 916,000.

The Canadian National Exhibition of 1911 passed into history on Saturday night, and whatever dissatisfaction the weather may have occasioned earlier in the week, it certainly showed a properly contrite spirit for the closing day. Skies almost unclouded, and a generous warmth in the air made an irresistible combination.

In all 916,000 persons attended the fair, 78,900 over last year's attendance, which was 837,200. The attendance on Saturday was 87,000. Last year on closing day it was 80,000. The total receipts of the exhibition are estimated at about \$325,000, and the surplus is put at between \$50,000 and \$60,000. It may be more than \$60,000, as the estimate is a conservative one. Last year's surplus was \$45,000.

Some Big Revenues.
It is impossible to state exactly how much revenue was during the past two weeks, derived from every source, but it is estimated that the concessions yielded \$50,000, the Midway \$38,000, and the grand stand \$35,000. Those three items supply over half of the revenue from the fair. The show in front of the grand stand cost about \$25,000 for the two weeks.

Improvement Designs.
Considerable work will be done during the coming year in the way of improvement. It is hoped before the gates are again opened to the public that the street railway facilities will be so much improved that the crowds can go and leave much more quickly than they have been able heretofore to do. A street railway line may be run thru the grounds, making an additional outlet. The gates at Dufferin-street will be torn down and made much wider, so that there will be

CHEAPER GOODS IS NOW THE ARGUMENT

Beaten on Their Claim of Better Prices for the Farmer, the Laurier Government Has Swung Round Now on the Other Tack—Sifton's Masterly Arrangement.

WESTON, Sept. 9.—(Special.)—There was no question after Hon. Clifford Sifton had finished his address here Saturday night, that in the opinion of the people of Weston, country stands before party. All Weston, as well as a large number of people from Toronto, met the party at the station and marched in triumph to the town hall, which was filled to its utmost capacity.

Thomas Delworth, who was the first speaker, took exception to the statement that had been made to the effect that he was pleading for a higher tariff. He had heard that a large hotel had been complaining about the exorbitant price of potatoes, but he was quite sure that a man who could afford to live in an hotel and pay \$3 for a meal, would not fight to any great extent for a reduction of a few cents duty. Mr. Delworth quoted figures as to the exports of market garden produce from different states in the union, and failed to see what benefit the market gardener would derive from exporting his product into a market that was already more or less glutted.

Hon. Clifford Sifton was given a great ovation. At the outset he convinced his audience that he was not guided by partisan motives. It was because the reciprocity pact was adverse to the prosperity of the country, and it was on that ground that he pleaded the cause of the opposition candidate. "We have had a protected tariff since 1878," he said, "which was inaugurated by Sir John A. Macdonald. Since that date, Hon. W. S. Fielding has made some changes, but none of any great importance. Railways have been constructed with the aid of public money, people have been placed on western lands, large sums of money have been expended in the construction and improvement of Canada's waterways, within the past ten years, with the result that we have pursued a course of great national prosperity.

"Nowhere has there been such a vast change as in Ontario, where we have built up a large market, in which the Canadian farmer sells eighty-five per cent. of his produce, three or four per cent. going to miscellaneous countries, and twelve per cent. to Great Britain. The result of these conditions is that the eastern and western provinces are interdependent, and the bringing into operation of the reciprocity pact would cause a disaster, from which we would never recover. At the present time the country is wealthy; there never was such a time when money and the right class of emigrants flowed into the country, and what reason have we to be dissatisfied? (Applause.)

An Unwarranted Statement.
"Another cause for concern lies in the fact that besides the United States, twelve other nations get the freedom of our market, and there is not a particle of truth in The Star's statement that the imperial parliament will abrogate any of the treaties that exist to this effect, and the resolution passed at the colonial conference asking that the home government facilitate the abrogation of the favored nation clauses did not materialize.

"The main reason for Sir John A. Macdonald's advocacy of reciprocity twenty years ago, was that the scarcity of proper transportation facilities prevented produce, especially perishable produce, being transported to European countries, but only south across the line, which was within all reason then, but now conditions have improved, the country's products can be transported all over the world, and Canada is open to the competition of the world, and upon these facts alone no one dares to infer that Sir John A. Macdonald would have supported the pact now.

"Only the farmers will prosper, as

Labor Candidate Denounces Manner in Which Reciprocity Was Made Party Plank

Surrounded by large groups of sympathizers, James Richards, Independent labor candidate in East Toronto, at meetings held at the corner of Queen and Bimsham, and Queen and Lewis-streets, outlined his policies. Both meetings were held in open air, with the speaker using a box for a stand.

Mr. Richards declared for government ownership of public utilities. The speaker declared that should be a law providing for the payment of at least three years' wages to the family of a laborer killed by accident when at his work.

PREMIER WOULD BRIBE SAYS REV. W.M. STAUFFER

French-Canadians, Even More Than English, Are Opposed To the Pact.

MONTREAL, Sept. 10.—(Special.)—The campaign is at its height in the province of Quebec to-day, and everything points to a slump against the Laurier-Taft party. The fact that the one idol has to return here to endeavor to stem the tide is plainly indicative of the way things are going.

Mr. Lemieux having gone to Gaspé, the ministerialists are without a strong speaker, while Bourassa and his scores of trained speakers are swarming over the province, carrying everything before them, and C. E. Casan is doing the same amongst the English and French. Converts are being made in droves, and the anti-reciprocity feeling is even stronger amongst the French-Canadians than the English, and the strong undertone evidenced on every side would point to a very powerful union power on the fighting line.

GERMANS NAME 'MOCK INVADERS' 'ENGLISH'

Autumn Manoeuvres of Kaiser's Army on More Than Usually Elaborate Scale.

WALDBROCK, Mecklenburg-Strelitz, Sept. 10.—The great Kaiser manoeuvres, which this year are supposed to represent a decisive struggle around Berlin between invading armies landing on the North and Baltic seas, and a German force protecting the capital, are about to begin.

The manoeuvres have attracted unusual interest on account of the Moroccan crisis. The country people have been quick to name the invaders "the English," and they regard the war game as a rehearsal of a possible conflict.

The defenders are commanded by the great German strategist, Field Marshal Baron von Goetts, who probably would have the chief command if Germany were ever involved in hostilities. The invaders are commanded by Prince Friedrich Leopold. The emperor and a staff of distinguished generals will act as umpires in hostilities.

The invading "red" force are supposed to be advancing on both banks of the Elbe, driving the "blue" army before them, when news received in hostilities. The invaders are commanded by Prince Friedrich Leopold. The emperor and a staff of distinguished generals will act as umpires in hostilities.

The troops are now nearer a war footing than in any previous manoeuvres. The reserves for the first time are organized exactly as in war. Every effort is being made to render the manoeuvres realistic. Night attacks are being made by dirigibles and aeroplanes will be featured.

The emperor's chief guests will be the officers of the United States army; those of other countries are represented only by individuals.

WESTERN FEELING

Growing Against Pact, Says Sir C. Hibbert Tupper.

MONTREAL, Sept. 10.—Sir Charles Hibbert Tupper was in Montreal Saturday on his way from the west to the Maritime Provinces to fight the anti-reciprocity battle there.

He took the opportunity to address some 200 electors in the central committee room of Mr. F. Johnston, Conservative candidate in St. Lawrence division.

He commenced by stating that if Sir Wilfrid Laurier considered that the west was solid for reciprocity he was much mistaken, for he had found there a strong and growing feeling against the pact.

Canada, he said, had been flouted by the United States in the past, and had spent \$50,000,000 in making herself commercially independent. Why should she now put her fiscal system in the hands of the American politicians?

The premier had in 1903 and 1907 ridden good-bye to reciprocity, and had embarked upon the Grand Trunk Pacific scheme at enormous expense to solidify Canadian trade along Canadian lines. Why should Canada give up all that he had at the demand of Sir Wilfrid Laurier?

GERMANS NAME 'MOCK INVADERS' 'ENGLISH'

Autumn Manoeuvres of Kaiser's Army on More Than Usually Elaborate Scale.

WALDBROCK, Mecklenburg-Strelitz, Sept. 10.—The great Kaiser manoeuvres, which this year are supposed to represent a decisive struggle around Berlin between invading armies landing on the North and Baltic seas, and a German force protecting the capital, are about to begin.

The manoeuvres have attracted unusual interest on account of the Moroccan crisis. The country people have been quick to name the invaders "the English," and they regard the war game as a rehearsal of a possible conflict.

The defenders are commanded by the great German strategist, Field Marshal Baron von Goetts, who probably would have the chief command if Germany were ever involved in hostilities. The invaders are commanded by Prince Friedrich Leopold. The emperor and a staff of distinguished generals will act as umpires in hostilities.

The invading "red" force are supposed to be advancing on both banks of the Elbe, driving the "blue" army before them, when news received in hostilities. The invaders are commanded by Prince Friedrich Leopold. The emperor and a staff of distinguished generals will act as umpires in hostilities.

The troops are now nearer a war footing than in any previous manoeuvres. The reserves for the first time are organized exactly as in war. Every effort is being made to render the manoeuvres realistic. Night attacks are being made by dirigibles and aeroplanes will be featured.

The emperor's chief guests will be the officers of the United States army; those of other countries are represented only by individuals.

WESTERN FEELING

Growing Against Pact, Says Sir C. Hibbert Tupper.

MONTREAL, Sept. 10.—Sir Charles Hibbert Tupper was in Montreal Saturday on his way from the west to the Maritime Provinces to fight the anti-reciprocity battle there.

He took the opportunity to address some 200 electors in the central committee room of Mr. F. Johnston, Conservative candidate in St. Lawrence division.

He commenced by stating that if Sir Wilfrid Laurier considered that the west was solid for reciprocity he was much mistaken, for he had found there a strong and growing feeling against the pact.

Canada, he said, had been flouted by the United States in the past, and had spent \$50,000,000 in making herself commercially independent. Why should she now put her fiscal system in the hands of the American politicians?

The premier had in 1903 and 1907 ridden good-bye to reciprocity, and had embarked upon the Grand Trunk Pacific scheme at enormous expense to solidify Canadian trade along Canadian lines. Why should Canada give up all that he had at the demand of Sir Wilfrid Laurier?

Some Rugby Games. LONDON, Sept. 10.—(C.A.P.)—Altho Rugby will not be in full swing for a week or two a few prominent matches were played Saturday.

Lacrosse Vancouver 4 Westminster 3 Base Ball Sunday Scores Cricket City League Teams Tied

Note and Comment

With Con Jones' Red Shirts winning at New Westminster, they should lead at least a tie next Saturday on their own grounds.

The Teumshas are pleased that the meeting had been called for Tuesday night when the Orioles will have the chance to express their opinions and vote on the way they think the unfinished Montreal-National game should go.

A unique coincidence was that on each side a batsman's wicket was saved by the umpire calling "No ball." Haines and Reid figuring in the play.

Rochester came and landed two out of four, and thereby killed almost every chance Toronto had of getting there only one day.

If you really want something else, figure out how the Orioles will play only a few points-away, will finish the season about Toronto in second place.

N. L. U. Meeting To Be Held Tuesday In Montreal

A meeting of the N. L. U. will be held Tuesday night at 7:30 in the Windsor Hotel, Montreal, for the purpose of discussing the president's decision on the Montreal-National game of Sept. 4.

The Young Toronto will practice at the Beach on Tuesday afternoon and Wednesday of this week, commencing at 5 o'clock.

Fergus Juniors defeated Preston in Preston on Saturday in one of the cleanest and fastest Junior C.L.A. games played this season.

Owen Sound Intermediates play at Preston on the 16th, with the return game in Owen Sound on Sept. 20.

Maitland will play their return Junior game in Orillia on Wednesday night 19th, when Fred Wagborne will referee.

Maitland Intermediates play in St. Kitts on Sept. 15, as do the Capitals, the latter in the juvenile group.

If the above arrangements all work out satisfactorily, the C. L. A. will be able to reach their final games by Sept. 30, which date is plenty late enough for lacrosse matches.

Pond for the Highlanders and Walker for Washington, went 13 innings in a hard pitched battle Saturday, the Washington man prevailing in the final inning and New York won 5 to 1.

Vancouver a Winner At New Westminster

Score of 4-3 About indicates the Play—Second Game Next Saturday in Vancouver—Total Score to Count.

VANCOUVER, Sept. 10.—With a lead of one goal at three-quarters time, Vancouver to-day outplayed Westminister in the final quarter of a gruelling lacrosse game at Queen's Park, Westminster.

The Vancouver had the better of the play in about the proportion that the score would indicate, the result gave no very definite line on how the Minto cup will go.

The Vancouver had the better of the play in about the proportion that the score would indicate, the result gave no very definite line on how the Minto cup will go.

NEW YORK, Sept. 9.—The United States scored to-day in the first of a series of preliminary matches to determine whether country players of Great Britain shall constitute the challenging team for the Davis International Tennis Cup, now held by Australasia.

Shamrocks One While Nationals Scored Eighteen

MONTREAL, Sept. 9.—The Nationals had no mercy on the Shamrocks in this afternoon's match at the Shamrock grounds, and piled up a score of 18 to 1 before the final gong ended the process.

The Irish home had very little chance to do anything, as the Nationals field were so speedy, and quite out of their covers, so that there was always two or three Frenchmen to spare whenever the Irish came to aid in checking the attack.

Shamrocks only score came in the third quarter, when Quinn took the Minto Cup, and the Nationals scored with a pretty shot after a straight run in.

The only thing to relieve the dull monotony of the game was a free fight, which originated in the grand stand and ended on the field of play.

Gautier and Lamoureux were the most effective for the Nationals, the latter getting six goals and the former seven.

Teams and officials: Shamrocks (C)—Goal, Clingsen; point, Dillon; cover, Rochford; defence, Tobin, Barry, Cooligan; centre, Murray, home, George, Quinn; McCarthy; outside, McIntyre.

Nationals (C)—Goal, L'Heureux; point, Cattarino; cover, Gagnon; defence, Beccarie, Clement, LaVolette; centre, Beccarie, home, Dulude, Gaudier, Filice; inside, Lamoureux; outside, Bouliane.

Referee—W. McIntyre. Judge of play—Ruddy Fitzgibbon.

TWO GAMES TO-DAY.

Double-headers will be the order at the island to-day and to-morrow, when Buffalo will be the "Laf" opponent.

The games will be called at 2 and 4 p.m. respectively. The Blasons have been strengthened since their last appearance by the acquisition of Wratten, third baseman, Jimmy Murray, the former Leaf, who made the Eastern League in batting, and Pitcher King Prockett, late of the New York Highlanders.

Lush and Mueller will probably do the pitching for the Toronto to-day. Only one price of admission will be charged.

LEAFS AND HUSTLERS DIVIDE DOUBLE-HEADER

Great Day For Home Run Hitters, Jordan Getting Two and Shaw, Moeller and Foster One Each.

Toronto and Rochester divided a double-header on Saturday, the Hustlers winning the first by 3-2, and the Leafs the second by 4-3.

Both were well-played baseball games, the Leafs playing errorless ball in the two games, while Rochester made one in the first and two in the second.

As in the first game, the visitors scored in the initial innings. With two out, Foster drew a base on error and Moeller scored on Ward's single to left.

The Leafs also got one in their half, when Shaw doubled to right, Shaw reached third when O'Hara flew out to Moeller. Rowan popped to Foster, but Jordan threw a single, scoring Shaw.

Nothing further resulted till the fifth, when the Leafs forced a sacrifice along by Smith. Tressau popped to Foster. Shaw was safe on first and Vaughn on third on Foster's error. O'Hara not free transportation and the bases were filled.

BORDEN GETS OVA-TION IN NEW GLASGOW, N.S.

Addresses Audience of 6000 on the Pact—Leader's Nova Scotia Tour. NEW GLASGOW, N.S., Sept. 9.—R. L. Borden came over to Nova Scotia yesterday from Prince Edward Island.

U. S. EXPORTING COUNTRY. Mr. Borden spoke for an hour and a quarter. He dwelt on the fact that the United States is an exporting country and that in helping our products there we are only helping to make them the clearing house of the continent.

Every meeting held in the interests of the Conservative cause, and great enthusiasm has prevailed, while Mr. Borden has so over-estimated the requirements of the reciprocity pact.

On returning to the railway station to take the train for Sydney Mines, a crowd of some two thousand people gave him a send-off, cheering and calling out "Borden, Borden."

On Tuesday night he speaks in Halifax; on Thursday, nomination day, he will be in the constituency where Hon. W. S. Fielding and F. B. McCurdy are fighting it out.

BOURASSA REITERATES OPPOSITION TO THE PACT

Criticizes Laurier's Navy—Drummond-Arthabaska's Reply re Submitting Question. LA Prairie, Que., Sept. 10.—Four thousand people acclaimed the Nationalist chief, Mr. Henri Bourassa, and the opposition candidate, Mr. Gustav Monette, at a Nationalist rally here this afternoon.

Mr. Bourassa was once more disrupted by hecklers at the commencement of his meeting, but his supporters were, of course, greatly in the majority and those whom he could not silence by his caustic remarks were subdued by the more forceful and quite as effective method of electioneering.

Mr. Bourassa reiterated his opinion that reciprocity was not a measure in the interests of the Canadian people and that the American tariff would undoubtedly have shortly been lowered in any event.

Referring to the Fielding declaration regarding the status of the navy in the time of peace and war, and to the inducements held out to young men to join the navy, he made the following declaration:

Such a good time had the sailors of the Nobe a short time ago in Quebec that they had to be withdrawn for their conduct was such that not a single Liberal deputy would have been elected by the people to support the Laurier navy.

Bullish Interpretation Put On Government Crop Report

Chicago Market Higher for All Grains on Poor Showing by Official Crop Bulletin—Fractional Advances Shown.

CHICAGO, Sept. 10.—In view of the small crop report in many years, as shown by the government report, wheat to-day made substantial advances in price. The close was 5-8 to 7-8 to 1-2 higher than last night. A net gain of exactly the same amount went on record for corn. The outcome for oats was a rise of 1-4 to 3-8 to 1-2. In hog products the latest figures varied from 30 off to 1-2 up. It was in the latter half of the session that wheat showed the greatest activity and strength. One large local short bought during the day as much as 2,000,000 bushels of the Dominion and May options. Earlier in the day the advance was retarded by liberal commission sales, which discouraged a number of longs and caused a temporary dip to within 1-4 of yesterday's level. Sellers were scarce and the tone steady as the market came to a close. Between the opening and the finish the December ranged from 91c to 91-1/2 to 91-1/2, with latest transactions at 91-1/2 to 91-1/2, a gain of 1-8 to 1-2. Corn jumped up on account of a bullish construction put upon the crop figures from Washington, although country few longs reinstated, corn sold out in the last few days. Operators who did were of the opinion that the most active area, meeting pressure was limited. December fluctuated from 63-1/2 to 64-3/8, closing steady 3-4 higher than last night, with 64-1/2 to 65-1/8. Cash grades were firm. Oats ascended on account of the government report and especially the fact that the bottom figures reached by the December option were 45-1/4 to 45-3/8 and 46c. The close, 46-1/4 to 46-1/4, with latest transactions at 46-1/4 to 46-1/4, a gain of 1-4 to 1-4 to 1-4 to 1-4. The buying side of provisions seemed to be favored owing to corn scarcity. At the end of trading pork was 10c lower to 1-2 up, with lard and ribs running from the same as last night to 1-2 advance.

Porcupine Stocks Develop Firm Undertone at the Week-End

Porc. Central Moves Up to Par And General Market Is Firmer

"Hicks" Stocks Show the Way to Higher Prices—Preston Makes a Small Advance—Restricted Charges the Rule.

World Office, Saturday Evening, Sept. 9.

A sudden spurt in Porcupine Central, which carried the shares up 14 points to par, and a sympathetic movement in Porcupine Northern, which ran up an advance of 12 points, were the only interesting features in an otherwise exceedingly dull mining market to-day.

Trading in general was decidedly restricted, transactions, except in the two instances above mentioned and in a few of the other active issues, being of meagre volume. Price changes were also narrow, the idea was expressed that for the initial part of the season the market showed up very well.

There was no news to account for the strenuous rise in Porcupine Central and Porcupine Northern—the Hicks stocks, as they have come to be called on the exchanges, thru the fact that Mr. John Hicks of New York is president of both concerns. Neither issue has much of a following here, and the bulk of the buying was understood to be coming from New York, where more attention is paid to the shares.

The generally active Porcupines did not move much, and outside of an advance in Preston East Dome, which carried the shares back to 27 cents, nothing more than passing interest was evoked. Preston was bought on the ground that, since the development work would be resumed next week, the shares had something ahead of them to be discounted, and buying orders were sufficiently in evidence to snap up the floating supply of the stock in short order.

The bigger issues were even duller than their usual wont, and prices for both Rea and Hollinger showed no appreciable change. The latter stock sold at \$16.00 on the Toronto Exchange, and in New York up to \$16.88, but was absolutely inert on the other exchange.

"The market (though) showed a firm undertone than during the preceding sessions, but trading was of too quiet a nature to bring about any decided change in the attitude of the general list."

WORK ON PRESTON TO BE RESUMED THIS WEEK

First of the Big Mines to Get Things Under Way Since the Fire.

Word was received at the office of the Preston East Dome Mines, Limited, on Saturday, that the repairs to the plant and buildings, which were swept by the big fire on July 11 last, had all been completed and that the shafts were being pumped out so that mining operations could be resumed this week.

An inspection is the first of the big mine, since it got under way, and the company has been making considerable progress in the work since the fire. The shafts are being pumped out and the shafts are being filled up with water as soon as the power for the pumps was cut off, he has not yet had an opportunity to inspect the shafts. This, perhaps, has been an added incentive in driving forward the work of restoration.

Now that mining is resumed the work of the next few weeks will mean much, and if the expectations of the management are realized, the ore body proves to extend to the east, the Preston property will have passed from the prospect stage into that of one of the big mines.

On the three claims owned by the company adjoining the Big Dome Mines on the east, work has been continued since the fire, with the most satisfactory results.

An incline shaft has been sunk alongside a vein which showed a width of over 10 feet on the surface. At a depth of 80 feet a cross-cut was run into the vein for a distance of five feet without reaching the other side, showing that the vein is continuing, and is strong. The ore taken out of this cross-cut shows plenty of free gold and there is every indication that the values go to depth. The shaft is being continued to the 100-foot level, where a cross-cut will be driven right thru the vein in order to determine its width and the extent of the ore body along its length, which should block out a very large body of ore for milling purposes.

The two-stamp mill which was on the ground had not been set up before the fire, and consequently suffered no damage except the loss of some of the small fittings which were stored in the power house. There, of course, are easy to replace. Development on the Preston has now reached a stage where the few weeks work should expedite the services to keep the mill running steadily.

PASSING OF BLACK MINES

Hereafter to Be Called People's Silver Mines—Stock Being Retired.

The retiring of the stock of the Black Mines, Consolidated, by the issue of shares of the People's Silver Mines, in exchange therefor, is practically completed, only comparatively few shares yet remaining to be heard from.

So soon as the stock outstanding has been redeemed, arrangements will be completed for the resumption of operations on the property in South Columbia.

The name of the Black Mines, Consolidated, will no longer be used, and the stock of the People's Silver Mines, who have become the owners of all its interests, will be listed on the mining exchanges.

The directors are now requesting such shareholders as have not exchanged their stock to do so in order that the plan may be started as soon as possible.

EXPERT REPORT ON LUCKY CROSS PROPERTY

Mr. Tyrrell Notes Discovery of Several Rich Veins and Advises Shaft Work.

Mr. J. B. Tyrrell, the well-known engineering expert, and who is connected in a consulting capacity with several of the Porcupine and Swastika mining companies, has made a special report on the Lucky Cross Mines' properties at Swastika.

In the course of his report Mr. Tyrrell says: "I visited these claims in July last year, and have been persistent in stripping the surface, and has discovered a large number of quartz veins, in several of which some showings of gold may be seen."

"In view of the success which you have already achieved in prospecting these claims, I would strongly recommend you to proceed energetically with the work of trenching and stripping the surface of the rock on them during the remainder of the autumn, before the ground becomes covered with snow, in the hope of finding more gold-bearing veins."

"You should now begin to sink a shaft on one of the gold-bearing veins already discovered; and I agree with Mr. Vandergriff, your manager, in considering the No. 16 vein, in which some beautiful large samples of gold may be seen on the surface, is a favorable place to sink such a shaft, for in it the richest section of the camp is geologically throught the winter, and from it a number of the immediately adjoining veins can be easily explored."

Following up the recommendation of Mr. Tyrrell, the directors of the Lucky Cross have instructed the manager, J. W. Vandergriff, to continue the trenching on the surface during the fall months. This trenching work has been prosecuted vigorously during the past three months, with the result that some 40 veins have been discovered, varying in width from one to thirty feet. Nine of these veins show free gold in some instances for several hundred feet on the veins. Assays on the surface of these veins show values from a few dollars to several thousand dollars per ton, with the result that sinking on No. 16 vein will be started just as soon as the foundations for the hoisting plant, boilers, six-drill air compressor and installation of this equipment can be made. The company has bought and paid for this equipment and same is now being delivered at the mine.

TOWN OF TIMMINS HAS BEST SITUATION

Newly-Made Porcupine Town Seems Favored in Its Location to Big Mines.

The inauguration of a new town in the north country, while not an unusual occurrence, is still an event of such importance as to be noteworthy. The laying out of the town of Timmins in the most richly mineralized section of the Porcupine district has been attended with great success.

The present settlements around Porcupine Lake, beside being ill-placed so far as natural advantages go, are nowhere the real mining activity of the camp. They are too far east.

The centre of mining activity is pretty close to Pearl Lake. Here are some of the biggest properties of the district, of which are the Hollinger and the Rea, with others clustering around. A mile or two distant is the Dome mine, the richest section of the town of Timmins is closest to the big payrolls.

On the other hand there are very few properties of any size around Porcupine Lake, but the towns there have the advantage of being there first, and the advantage which has been well used. The rapid rebuilding of the burnt out town of South Porcupine shows that it will be difficult to attract the merchants away from the original settlements. The town of Timmins will have to build up on its own merits, with the growth of the mines around it, and it will not share in the lure and lustre of the first towns. But Timmins will forge ahead, there seems to be no doubt of it, for no one can overlook the fact that the new town-site is placed in the heart of the richest section of Porcupine.

The new way will be into Timmins in about a month, and until it comes there will be little doing toward erecting of buildings, but before the snow flies there should be quite a group

Buy Beaver---Temiskaming

BOTH of these Cobalt Companies on Saturday declared their regular dividend of 3 per cent, and, according to the reports presented to the directors by the respective managements, Beaver and Temiskaming are in better physical condition than ever before.

Beaver

The liquid assets of Beaver Consolidated are approximately \$190,000, and recent developments in the mine indicate that the ore is getting much richer as depths are attained.

Eight cars of ore—two high-grade and six low-grade—were shipped from the Beaver Mine during August, which will net the company in the neighborhood of \$130,000.

A mill to be erected immediately to treat the large amount of low-grade ore now on hand. Acre for acre, Beaver is proving as rich as any of the big Cobalt mines.

At present market prices, Beaver is paying more than 28 per cent on the investment, and before the next distribution is made on December 16th, the management is now paying 12 per cent.

At ten cents of the stock, which will net the company \$125,000, or sufficient to meet the dividend, as well as provide the necessary funds to erect the new mill.

Temiskaming

Temiskaming's ore reserves, its splendid financial condition, and the fact that the management are now working in an exceptionally rich body of ore below the 875-foot level, warrants the stock selling at materially higher prices. Temiskaming is now paying 12 per cent annually, or 33.4 per cent on the present market price of the stock. This handsome return, we are reliably informed, can be maintained for many years to come.

For all those who are interested in BEAVER or TEMISKAMING we have prepared an exhaustive report of the physical condition of both mines, which we will be pleased to send free of request.

We unhesitatingly advise the immediate purchase of BEAVER and TEMISKAMING, and state why in our circular.

Wire Us—Write Us—Phone Us—Your Orders

Orders in Beaver and Temiskaming executed for cash or on margin of 33 1/3 per cent, and will accept certificates in other companies when properly endorsed as collateral margin against purchases.

of business places established to take care of the heavy winter trade.

Several sales have been made privately since the opening of a week ago, and the people promoting the new townsite are very well pleased with the way the public has taken the property. Four banks have secured big corners. Lots are being reserved for schools and churches, as well as park places. A three-lot site near the station has been secured for a big hotel. Apparently business will be concentrated in a few blocks down near the railway station.

The townsite slopes gradually up from the shores of Miller Lake, and the power transmission line from Sandy Falls runs across the top of the hill. The Hollinger is across the lake, almost direct opposite, and on all sides the hills are littered with mining surface works. The situation is almost like Cobalt's in looks.

RESULTS OF PREVIOUS OFFERINGS

In the latter part of December I offered 300,000 shares of underwritten treasury stock of Porcupine Central Mining Company for public subscription at 40 cents per share. In the latter part of May I offered 150,000 shares of underwritten treasury stock of Porcupine Northern Mining Company for public subscription at 20 cents per share. Today Porcupine Central and Porcupine Northern are listed in three markets—the New York Curb, the Toronto Standard Stock Exchange and the Boston Curb, the former now ruling at \$1.00 per share and the latter at 75 cents. Porcupine Central was the first Porcupine company to list its stock on the New York Curb.

STATUTORY INFORMATION

The holder of three of the company's shares may hold the office of Director of the Development Company of Porcupine, Limited, New York City, Financial, Warren N. Adams, Wilmington, Delaware, Secretary; Vincent K. Smith, 20 Broad Street, New York, Law Clerk; and E. Carpenter, 20 Broad Street, New York, Capitalist; each of whom is the holder of three shares. The minimum subscription on which the Directors may proceed to allotment of the shares of the company now offered is \$100,000.

Of the total capital stock of the company, which is one million shares of one dollar each, 999,975 shares have been issued as fully paid and non-assessable, to the Development Company of Porcupine, Limited, of 998 Traders Bank Building, Toronto, in consideration of the sale and subscription by the said Development Company of Porcupine, Limited, to this company of all the capital stock of the Porcupine Southern Mines, Limited, less five shares thereof, or 999,975 shares of said Porcupine Southern Mines, Limited, which are fully paid and non-assessable, and of 999,975 shares, this company has subsequently acquired through the purchase of 999,975 shares of the 1,000,000 shares now being offered as a part. The company is authorized to pay a dividend or commission of five per cent on the proceeds of all sales of shares. The estimated amount of preliminary expenses of the company is \$600.

The dates of and parties to every material contract affecting the company are as follows:

1. Between the Development Company of Porcupine, Ltd., and the company, dated August 1, 1911.
2. Between the Development Company of Porcupine, Ltd., and the company, dated August 1, 1911.
3. Between John C. Hicks, President, and J. Thomas Reinhardt, broker, for the sale of shares of this company, dated September 1, 1911. Copies of all these may be seen at the office of Johnston, McKay, Doss & Grant, Traders Bank Building, Toronto, during business hours of any judicial day.

The only Director of the company interested in the properties proposed to be acquired by the company is John Charles Hicks, who is interested to the extent of one-quarter interest in a syndicate which will receive from the Development Company of Porcupine, Ltd., 999,975 of the shares which the last mentioned company receives from the company, part of the 999,975 shares herebefore mentioned.

Dated at New York, in the State of New York, one of the United States of America, this 9th day of September, 1911.

Filed in the office of the Provincial Secretary of the Province of Ontario, this 11th day of September, 1911.

Dear Sir: The Porcupine Southern Mining Company has been organized under the laws of Delaware, with a capital of \$1,000,000, and is authorized to issue 1,000,000 shares of one dollar each, of which \$1.00 (full paid and non-assessable). This company owns practically all the stock of the Porcupine Southern Mines, Ltd., a corporation formed under the laws of Ontario, which owns fourteen claims and has under option two claims, all located in the Township of Tisdale and Whitney, Porcupine Mining Division, Ontario, Canada. These claims are as follows:

Six hundred thousand shares of this stock has been put in the treasury of the company, and the company has underwritten 150,000 shares of this treasury stock at 60 cents per share, less 10 per cent commission of 5 per cent.

The company proposes to begin active operations immediately. The company will make application to list this stock on the New York Curb, the Toronto Standard Stock Exchange and the Boston Curb.

The distinguishing features of the Porcupine Southern Mining Company are Low Capitalization, Large Holdings, Favorable location of properties, Wide distribution of properties in proven area, Conservative Financing.

(Signed) John C. Hicks, President Porcupine Southern Mining Company.

Filed in the office of the Provincial Secretary of the Province of Ontario, this 11th day of September, 1911.

IN THE STOCK MARKETS

The Following Summary of Financial Conditions is Compiled by the Special Representative of The New York Evening Post.

LONDON, Sept. 9.—The sharp recovery in the European stock exchanges, early in the present week, represented the inevitable reaction of overbid markets, on the first indication of favorable indication of favorable outlook for the economy. However, that recovery should be short-lived, as it proved to be when all our stock markets gave away again yesterday, because the factors contributing to the present financial situation are very numerous and very complex, and being absent from the markets.
 The Franco-German negotiations still, of course, stand forth as an important immediate influence. Announcement that this irritating dispute had been definitely settled would doubtless cause another recovery; yet since it is thought the improvement could be only temporary.
 The fact is, that there are other factors in the situation more important than Morocco, or than home politics and social unsettlement in England; the financial position of London, Paris, and Berlin is a matter to be considered in itself.
 Here in London, for instance, assistance has had to be given to some financial firms, which has involved further compulsory liquidation, and there are in addition some very unpleasant rumors, which may materialize if the slump in American securities continues. Our great finance houses are simply doing nothing; considering, apparently, that the situation is one in which to keep their powder dry.

Railroad Earnings Level With Year Ago

Gross earnings of all United States railroads reporting to date for the month of August were practically the same as a year ago, according to Dun's Review, the total amounting to \$7,798,858, a decrease of only \$228 as compared with the earnings of the same roads for the corresponding month last year.
 While the returns this month are not especially satisfactory, they make a more favorable comparison with a year ago than recent preceding months, in July the same roads reporting a loss of \$12,936, or 0.3 per cent., in June \$50,434, or 1.5 per cent., and in May \$1,394, or 0.1 per cent.
 For the fourth week in August almost every system included in the statement reported more or less decrease, but for the entire month the losses are not so general, a number of leading roads reporting gains which were about sufficient to offset the smaller returns in other directions.

WALL STREET TRADING

NEW YORK, Sept. 9.—The attack on stocks of the last few days was renewed to-day with increased vigor. Prices crumbled away until active trading was on a small scale, being attributed between moderate buying by spot investors and pressure from the bear professionals. The strength shown in southern spot markets is somewhat of a surprise. Exporters claim that the demand is limited to October shipments, but the fact remains that spot values are holding well, and some above local parity. Insect damage is becoming more of a market factor. Receipts have not as yet been sufficiently heavy to test spot values. Until the demand is clearly proven, we do not look for other than temporary advances, due to operations against the short account.

QUOTIENT ABSORPTION BY SHREW INVESTORS

Noted in New York Market—New Capital Issues Fall Off During August.
 Henry Claws, the Wall Street broker, comments as follows on the financial situation:
 In August the amount of new capital issues was only \$100,000,000, as against \$250,000,000 last year, and \$300,000,000 a year ago. It was the lightest August in this respect for many years, and shows a welcome conservatism in the output of new issues, which had undoubtedly been too heavy as to temporarily induce congestion in the security markets.
 At times during the week more cheerfulness prevailed in financial circles. The labor outlook is less threatening, and present indications point to an adjustment in western troubles, without resort to strikes or other violent methods. There is also a decided betterment in the Moroccan situation.
 Within the last few days advice from the west has been somewhat discouraging. Discouraging news has subsided, and indications of moderate trade revival have already begun. This, of course, is due to the harvest, which is proving more satisfactory than anticipated. Congress will not reassemble for another three months, during which period we shall have a rest from trading and political meddling. There are signs of a reaction in the latter respect, but it is not likely that there will be any serious readjustment of the tariff until after the next presidential election, in all probability the tariff will be the burning issue in the coming gubernatorial campaign. There will be much talk and little action.

Overcoat Time is Here

The overcoats are here, and you ought to get here to-morrow for early choice. Just the shade of cloth you've set your mind on you can pick from these new arrivals. These are the well-tailored stylish garments that this store is celebrated for. Don't compare them with "ready-mades." These are in a class by themselves. Nobody but a tailor (and they are fooled sometimes) can tell these overcoats from the custom-made-to-order, which cost you twice or three times as much.

MEN'S NEW FALL WEIGHT OVER-COATS. Boys' NEW FALL WEIGHT OVER-COATS. MEN'S HEAVY WINTER OVER-COATS.

Use Linoleum and Save Scrubbing

We back up this advice with a big offering of high-grade Linoleum which will cost you no more per square yard than the price of a decent scrubbing brush. We secured the discontinued patterns and mis-prints of two of the best makers in the world. The patterns are all good; the mis-prints are not perceptible to the average buyer—they would have to be pointed out before you'd notice them. This is a timely offering before the streets get muddy with fall rains.

Screens at \$1.98
