TREATMENTS OF INSANE

NEW METHODS FOR ONTARIO ASYLUMS

COMMISSIONERS REPORT

Fewer But Better Institutions For the Chronic Insane, With Larger Staffs — Psychiatric Hospitals in University Centres.

The lengthy report of Hon. Dr. Willoughby, Dr. Clark of the Toronto Insane Asylum, and Dr. Ryan of the Kingston Asylum, in regard to their trip to Europe to examine into the methods of treating the insane, was given out by Hon. Mr. Hanna last evening. They state that they have special attention to the organization and equipment of psychiatric hospitals and asylums in the most important university centres in Great Britain and on the continent — at London, Derby, Edinburgh, Dublin, Clonmel and Waterford, as well as in Berlin, Dalford, Buch, Munich, Erlangen, Tübingen and Göttingen in Germany, Zurich, in Switzerland, and in Paris. And a wealth of valuable information was acquired. They discuss: (1) The treatment of the acute insane, and (2) the care of the chronic insane. As far as the latter are concerned, in comparison Ontario gives little ground for reproach, although they learned on their trip lessons which make them hesitate about recommending absolutely the adoption of the cottage system of treatment or the multiplication of small buildings.

Theoretically, it is ideal, but, practically, it is a failure. In glaring contrast, however, was the success of one of the largest asylums near London, where some 3000 patients are treated in a series of small buildings, where proper supervision is possible, and the difficulties of a greatly-divided responsibility and management are obviated. It was quite evident to them that the difficulty of housing a very large number of chronics in one institution had been successfully solved, and that the cottage system of treatment or the multiplication of small buildings.

This in itself was an important point, because it made clear the possibility of centralizing some of our asylums for chronics rather than developing numerous small and expensively officered institutions. It means a large reduction in the cost of management to the state, and, on the whole, greater comfort and happiness to the patients.

Hospitals Nor Good Asylums.... The striking fact brought to light in Germany, France and Great Britain was the absolute impossibility of combining hospitals and asylums to accomplish the highest and best kind of scientific work. Under such conditions the acute or developing case of insanity does not receive the individual care so absolutely essential to this cure, and the surroundings cannot be made suitable for its treatment.

Only in university centres and under the stimulus of university connection, the best kind of scientific research work likely to be done.

In Great Britain and France the Canadian asylum system through obtaining patients are treated with the greatest

FOUR TORONTO COUPLES ARE SEEKING DIVORCE

Application Made to Parliament for Several Important Incorporations—Presbyterian Fund.

OTTAWA, Nov. 1.—(Special).—Application will be made to parliament for the incorporation of "The London, Continental & Canadian Trusts Corporation."

The Cumberland Railway & Coal Co. of Nova Scotia will apply to parliament for an act increasing its borrowing powers and authorizing the issue of preference stock, etc.

Catharine Anne Cannon of Toronto will next session apply for a divorce from her husband, James Promise Cannon. This is the fourth Toronto divorce action of which notice has been received.

The Erie, London & Tillsonburg Railway Company will apply to parliament for an extension of the line in which to construct its line of railway.

The Security Life Assurance Company of Canada will seek incorporation with power to issue policies on a general life insurance business.

Application will be made to parliament by the managers of the ministers' widows' and orphans' fund of the Presbyterian Church for an amendment to the act governing the fund, which will permit the board to control the fund of any number and adherents of the Presbyterian Church of Canada in good standing.

1000 HUNTERS AFTER DEER.

Moose Seen South of C. P. R. May Add to the Sport.

Over a thousand hunters have already left Toronto and vicinity for the north woods. The C.N.R. ran three excursions, on Oct. 29, 30 and 31, and carried about 500 men, with dogs and outfit. The Grand Trunk have sold over 500 hunters' tickets, and the C.P.R., nearly 100.

Deer are reported very plentiful this year. A number of moose have been seen south of the C.P.R. line, and many of the deer hunters may have a chance shot at one of the big fellows.

GENERAL BOOTH WELL.

NEW YORK, Nov. 1.—General Booth was in high spirits today, and his appearance gave little indication of his recent illness.

It was said by a high official of the army, that reports regarding his condition had been greatly exaggerated.

The Toronto World

SIXTEEN PAGES—SATURDAY MORNING NOVEMBER 2 1907—SIXTEEN PAGES

MACKAY SPEAKS ON POWER POLICY

In Favor of Government Owned Transmission Line—Also Cheap Producer Gas.

"Speaking for myself, I think that the government ought to be in a stronger position than two or three municipalities in undertaking the building of transmission lines where there are none yet built, leaving the municipalities to pay the full amount and leaving nothing to the province."

In these words did Hon. A. G. MacKay indicate his attitude on an important question connected with the Ontario Government's Niagara power policy, in a vigorous address at the annual meeting of the North Toronto Liberal Association in St. George's Hall last night.

While approving of the hydro-electric commission, the speaker said he had taken cognizance of the fact that there were municipalities which were not within the electric zone belts, and he held that the government was not giving producer gas the consideration it deserved. Practical men had told him that the figures given by the commission as to this gas were misleading. One expert had advised him that a 10-hour service could be produced for \$18 per horsepower, and another at from \$15 to \$22 per horsepower.

President George C. Campbell was chairman, and the gathering which comfortably filled the hall was an enthusiastic one. W. H. Shaw, the federal candidate, was unable to attend, owing to illness.

The election of officers showed the spirit of harmony to be very much in evidence, the several offices being filled by acclamation. Mr. Campbell was re-elected president; Albert Britnell, G. T. Ferguson and J. S. Dewar were chosen as vice-presidents; T. C. Irving, treasurer, and C. W. Kerr, secretary.

H. M. Mowat, K.C., who, with Leigh-MacCarthy, M.P., and G. W. Verrill, was called to the platform, gave utterance to the usual bits of optimism, saying that the party through he province had never before been so imbued with fighting spirit, nor stood as closely shoulder to shoulder, etc. He did not think there was need to discuss Hon. George E. Foster, because of his position of Canada had been "finding out things for themselves."

Leader Among Friends. On the other hand, Mr. MacKay, the audience displayed an enthusiasm such as a popular Marathon runner might have evoked.

Preparation for the coming campaign was urged. It was high time for general conventions under way, and, in the opinion of the speaker, the party should be better prepared for the coming year.

Mr. MacKay proceeded to attack the Whitney administration at supposedly vulnerable points. His opinion was that the chief weakness of the new Education Act was in the matter of the salary of the teacher.

There shouldn't be one law for the Jew and another for the Gentile, he argued, and held that instead of determining the salary of the teacher by the assessment of the township, remuneration should be on the basis of the teacher's experience.

Mr. MacKay renewed his attack on the system by which the University of Toronto was kept in funds through receiving half the annual salaries of the professors. The institution should depend on the "representatives of living people, not on Providence and dead men."

"Knowledge begets confidence, but ignorance begets suspicion," was his oracular reference to the refusal of the government to submit definite yearly estimates.

The speaker's allusion to the government as having turned back the hands of the clock 27 years by allowing the order-in-council whereby the university could borrow two millions annually, to go unratified by the legislature, drew from the poet Sabine an expression of approval.

"That's a very profound statement. It's all right," he interjected.

Against the spoils system. Mr. MacKay did not hit with the view that any adoption by Conservatives of the spoils system should be followed by retaliation.

"I do hope we will never introduce into Canada the spoils system, or any system of retaliation," he said, and asserted confidence that the majority of the people thought likewise.

A more practical method of dealing with re-forestation, which offered possibilities of \$30,000,000 yearly in revenue, and a system of law reform, were urged by the speaker, who made the general stand that judges and lawyers should be paid a block sum instead of by fees, which meant sometimes unnecessarily prolonged litigation.

After a short address by Mr. MacCarthy, a resolution expressive of confidence in the Dominion Government, Ontario opposition and the candidate for president moved by J. H. Denton, with Connel Harrison as second, and was carried enthusiastically.

Against Accident and Sickness. More varieties of illness are prevalent and the chances of accident are also greater in the winter time than in the summer. Our accident and sickness policies are good the year round, and they cover every liability to mischance. The premium is small and the indemnity is ample to pay all expenses during the period of incapacity. Toronto Guarantee and Accident Company, corner Yonge and Richmond-streets, Confederation Life Building. Phone Main 1642.

LONDON TO GET LOW RATE ON POWER

Reduction of \$6 in Original Price, Mr. Beck Says—Municipalities Favored in Rates.

LONDON, Ont., Nov. 1.—(Special).—Addressing a special meeting of the city council to-night, when it was decided to submit a bylaw for spending \$25,000 for a distribution plant for Niagara power, Mr. Beck stated that as a result of the negotiations now in progress, London would get power, originally quoted at \$23 per horsepower, at \$17.50, and perhaps less.

He said that 18 months after the bylaw was passed, power would be delivered and declared that in those places where electric light companies also desired to purchase Niagara power, they would be quoted as low a rate as the municipality would get, while profits derived from such companies would go to the municipality.

His declaration was a part of an argument of The Globe. No man, he thought, would be so foolish as to make a contract on that basis.

Engineer Richards submitted an estimate on the lighting end of the project, which had not been included in the previous report. This will require an additional sum of about \$135,000.

Engineer Richards and Hon. Adam Beck answered many questions put by the committee.

POLICE HEADQUARTERS AT BUFFALO BURNED

Eight Firemen Injured—Loss is \$100,000—Historic Documents Burned—Prisoners Saved.

BUFFALO, N.Y., Nov. 1.—Police headquarters, at the corner of Franklin-street, the Terrace and West Seneca-street, burned this afternoon. Police records, the rogues' gallery, and many important documents, including the original copy of Leon Czolgosz's confession of the assassination of President McKinley, were destroyed. The fire was of incendiary origin. Two companies of firemen were caught in the collapse of the roof and cupola and eight men were seriously injured. None will die. The injured men are Capt. Michael Haggarty and Firemen Chas. Basil, George J. Schuenblein, John C. Malloy, Frank Maloney, Charles Pries, Dennis Ryan and Albert Witte.

At 2:30 this afternoon Police Commissioner Zeller picked up a blazing newspaper in a hallway. Half an hour later a police messenger found a blazing window blind in the storeroom. He had just reached the commissioner's room when the smouldering brush when there was a cry of fire from the street and flames were seen shooting from the cupola over the main entrance and from the windows on the fourth floor.

The 20 prisoners were handcuffed together and marched to the jail. The firemen apparently had no idea of the danger until the cupola toppled over and crashed through the roof and top floor. Two companies of men were caught in the crash. They were released after 20 minutes of hard work, and eight of them taken to the hospital. The building was practically destroyed. The loss is estimated at \$100,000.

GOVERNMENT GRANT OF \$25,000.

WINNIPEG, Nov. 1.—(Special).—Mayor Ashdown has received a letter from Sir Wilfrid, stating that it had been decided to appropriate \$25,000 to aid Winnipeg in entertaining the British Association for the Advancement of Science, which meets in convention in this city in 1909.

JACK CANUCK: Don't ride me too hard, Son, or I may buck."

BRITISH RAILWAY MEN DECIDE TO CALL STRIKE

100,000 MEN WILL PROBABLY STOP WORK

One of Most Conservative Unions in the World Has Failed to Reach an Agreement With the Companies—Would Tie Up Business of the Nation.

LONDON, Nov. 1.—Notwithstanding the powerful influence which has been at work for some time past in the hope of averting trouble in the British railway world, there seems to-night to be but little probability of preventing a strike, which will have the most serious consequences to the traveling public and the men and companies involved, as well as to commercial interests generally. The action taken to-day by the executive committee of the Amalgamated Society of Railway Servants in adopting a resolution to call a general strike, leaves regard to the men who can be counted on to remain loyal to the companies in the event of the declaration of a general strike.

The railway companies contend that the society by no means represents the entire body of railway employees and say they have had a satisfactory response to the circulars issued by the directors asking for information in regard to the men who can be counted on to remain loyal to the companies in the event of the declaration of a general strike.

The British railway employees and the companies have been at loggerheads for some time past on the question whether the Amalgamated Society of Railway Servants would strike to secure recognition of the organization and a new scale of wages and hours, and finally it was decided by the employees to reach a decision by ballot.

LONDON, Nov. 1.—Richard Bell M.

KEPT FIRE FROM BIG COAL PILE

Firemen Have a Nasty Blaze to Handle on Electric Light Co. Wharf.

Fire breaking out in the blacksmith shop in the rear of the Toronto Electric Light Company's premises on the Scott-street wharf, at 7:30 last night, damaged those premises to the extent of about \$5000. While not serious in the loss incurred, the fire was very difficult to fight. The blacksmith shop was destroyed and the harness shop and stable loft much damaged.

The flames were observed by one of the stokers in the company's boiler room. He rushed to the office and E. J. Rod-board, the night telephone operator, sent in a "still" alarm and then turned in a call from the fire box on the premises. The firemen responded in quick time and three lines of hose were run out on the company's dock and operated over a huge coal bunker containing 8000 tons of mixed hard and soft coal. It was to prevent this lightning that Chief Thompson directed the efforts of his men.

From the other side of the dock, 20 horses in the company's stables to the south of the burning shed and seven horses in the Canada Ice Company's stables, adjacent to the burning shop, were removed.

Three lines of hose were also laid down the east side of the dock, extending to the long distance between the Esplanade and the end of the wharf the hose wagons had to be stripped. Two lines were taken from the fire box and the average hose wagon carried 750 feet of hose. Two engines provided good pressure.

However, the firing, Nellie Bly, proved herself a friend in need and arrived a little after 8 o'clock. Just when the large harness shop and stables at the extreme end of the dock, as it were, had gotten under control just as it threatened to weaken the sides of the bunkers, letting down the great bank of coal, which would have compelled the retreat of the firemen and greatly enhanced the loss.

Only at one spot did the coal heap catch, and there it was soon extinguished, and the firemen deserve great credit for their work, there being only a narrow lane between the stables and the coal. The blaze for a time was terrific, and the smoke was something fierce, while the dock is by no means the most convenient place for a fire.

Manager J. J. Wright says that the loss will be under \$5000. The shop burned was an auxiliary to the regular blacksmith shop, which was on another dock. He could not understand how the fire had started as the forge in the shop was always extinguished at night. The feed in the loft of the stables and whatever harness had not been removed from the harness shop, was destroyed.

Mr. Wright said that he was highly pleased with the work of the firemen, but he thought that the fire emphasized the need of a properly-equipped fireboat.

27TH YEAR

CITY IS REBUKED FOR TRACK DELAY

Mayor Says It's Deserved While Mr. Fleming Predicts Acute Overcrowding as Result.

That the overcrowding of the street cars will be worse than ever this winter because of the failure of the city to comply with the order of the Ontario Railway and Municipal Board away last April to designate those streets on which fifteen miles of necessary new tracks can be laid, is the intimation which General Manager Fleming gave last evening when spoken to regarding the "hurry-up" poster put regarding the matter, which the railway board gives indications of making on the city.

The mayor himself says he considers that the rebuke of the Ontario Railway and Municipal Board on the city's dilatoriness is well-deserved, so far as the city council is concerned. The board's control, he says, is not blameable, as the matter was passed into the hands of the council. "The city," said his worship, "has been altogether too long in agreeing on a fixed policy."

A short history of this affair is as follows: The city lodged complaint in respect to overcrowding, under section 38 of the act, which provides that only a "comfortable number of passengers" shall be admitted to each car. The case was heard and a good many witnesses were examined on both sides. The board found that, as a matter of fact, the cars were often overcrowded, but did not do what the city's representatives claimed should be done—order a lot of new cars to be placed on King, Yonge and Queen-streets. The board held that passenger traffic upon these streets was already sufficiently congested, and, deciding that the only proper remedy lay in the provision of extra car lines, ordered the city to provide about nine miles of new track and the company to furnish 100 more cars. And it is further thought that when all this is done further provision in these respects must be made within a few years.

Guilty of Breach of Contract. Since then the city has done nothing practical in the way of obeying the order, but the company states that new cars are being placed on the streets as fast as they can be turned out of the shops, although it is useless to supply the full number mentioned in the order, as the traffic on the present lines is sufficiently congested as matters stand.

Then a few months ago Mr. Fleming wrote to the city, requesting the selection of streets for the new lines, and stating that the company would be ready with the cars as soon as the streets are ready for traffic. He also called attention to the fact that congestion in traffic would be as serious this fall as it was last fall, unless this action was taken.

Fleming asked for eight miles of new tracks and suggested the following new routes: A line from Front to Bloor, one and a half miles; York to Church on Wellington, three-quarters of a mile; Victoria, Richmond and Shuter, three-quarters of a mile; and one mile, making four miles of new roadway and eight miles of tracks.

The question now arises whether the city is ready to meet the demand.

A TIGHT MONEY STORY.

James R. Keene Tell Good One of "High Finance."

James R. Keene told this story illustrative of "high finance" at the Waldorf (New York).

A Kentucky dandy negotiated a loan of \$10 from a local banker, pledging his mule and cart as security. "Money is pretty tight," explained the banker, and I shall charge you \$2.50 per year for the use of the ten for a month."

The dandy consented, signed the paper and brought the money home, but by a friend standing in the road scratching his wool with one hand and looking ruefully at the \$7.50 in the other.

"Wits de matter, Sam?" asked his friend.

"Oh, dere ain't nothin' de matter, 'cept I knows Ise right. Dat bank man he done charge me \$2.50 for \$10 for a month. Ise right, suh. Fo' if I had a ast as to de ten fo' foah months I wouldn't a got nothin'."

1000 MEN LAID OFF.

C. M. & St. P. Ry. Make Big Reduction in Staff.

MILWAUKEE, Nov. 1.—Roswell B. Miller, chairman of the board of directors of the Chicago, Milwaukee & St. Paul Railroad, issued an order today, discharging 1000 employees in the locomotive and freight car departments of the shops here.

DON'T FORGET THE DAY.

Some people thought that the Friday just gone was a Monday anticipated. Such thoughts upset shopping. There are the Monday shoppers and the Saturday shoppers, but in any event many of them patronize Dineen's, where furs and hats predominate in excellence of beauty and extraordinary value.

neen's hats, the specialists at \$2.50 and are moulded upon the neatest block brought out this year by the most prominent American and English makers. The very best in hats may be had at Dineen's, who are sole agents for the foremost factories of Great Britain and the United States. The store is at Yonge and Temperance-streets. This is Saturday, the day upon which men buy

Ontario Jockey Club Meet Had a Profitable Season

Alex. MacKenzie's Death Referred to by the President-Directors Elected for the Coming Year.

The annual general meeting of shareholders of the Ontario Jockey Club was held at the company's office on Friday, Nov. 1.

Mr. Seagram, on taking the chair, referred to the great loss the club had experienced in June by the death of its president, Mr. A. W. MacKenzie, who, he had only been three years on the board, had shown great enthusiasm in the work of the club and in the breeding and racing of thoroughbred horses. The Ontario Jockey Club might well be congratulated in having persuaded Mr. R. J. Christie to join the board.

In June of this year the club exercised the option, which it held from the late Mr. Duggan on the property at Woodbine Park and had purchased the same. They also had secured a farm of 104 acres situated in Scarborough.

BICYCLE RECORD LOWERED.

McDonald of Queen City Beats Five Mile Record by 41 2/5 Seconds.

The five-mile bicycle track record for Canada was lowered at the exhibition grounds on Thanksgiving Day by Herb McDonald of the Queen City Bicycle Club. The former record, made eight years ago by J. Wills, was 12 minutes 6 seconds. McDonald did the five miles in 11 minutes 24 2/5 seconds, lowering the record by 41 2/5 seconds. When Wills made his record he was paced by a tandem. McDonald was paced by a motor cycle, but he was at a disadvantage, as the track was in such a condition that he had to rule well out from the inside, which added at least one-eighth mile to the distance actually ridden. A strong wind on the back stretch was a further handicap.

Underwood Bicycle Race.

The following are the list of entries and handicaps for the Underwood bicycle race to-day:

1. W. Isenloch, 2 minutes, J. Hunter, 3. F. J. Crowe, scratch, R. Hart, 4. J. Edwards, 4. D. O'Brien, 4. E. Ide, 4. W. Martin, 4. G. R. W. Wallbridge, 4. J. Thornton, 4. M. McFadden, 4. F. Lynch, 4. J. Ryan, 4. J. Damp, 4. J. Thompson, 4. A. Huck, 4. A. Chamberlain, 4. T. J. Byrnes, 4. J. Newman, 4. A. Sanderson, 4. E. Kelly, 4. W. Vintet, 4. E. W. Pyke, 4. E. Young, 4. W. Corney, 4. E. Vanstone, 4. J. C. Sanderson, 4. A. E. Vandervoort, 4. L. Ross, 4. J. Hedall, 4. C. R. R. S. H. Leonard, 4.

Ready-to-Wear Company

That we've been giving satisfaction in the clothing we sell is in the fact that the fellows who dropped in here when we opened the shop last Eastertide took our word for it in the quality and style, and bought the summer suit. These fellows, old and young, are back again for the fall and winter suit and overcoat. If the clothes we sold them at the start did not please them, it only stands to reason that they'd be looking somewhere else for the new "duds" now.

CLINTON GUN CLUB.

Annual Tourney Close—Galbraith, Ridgeway, Best Amateur Shot.

CLINTON, Nov. 1.—(Special.) The 17th annual tournament of the Clinton Gun Club was held to-day with target events.

There was a very good attendance, an increase over the previous year. The trade was represented by E. G. W. of the Powder Co., Wilmington, Del.; H. Hillford, Dominion Cartridge Co., Montreal; H. H. Stevens, U. M. Co., New York; J. H. Smith, Dominion Cartridge Co., Rod and Gun Magazine, Woodstock, also present. The program consisted of 10 events of 20 targets each. High average among the professionals was won by H. H. Stevens, with 177. Among the amateurs, Fred Galbraith, Ridgeway, won his heat, with 177.

The following are the scores of those who shot thru more than seven events:

1. H. H. Stevens, 177; 2. J. H. Smith, 177; 3. C. H. Cantelon, 170; 4. J. H. Cantelon, 170; 5. J. H. Cantelon, 170; 6. J. H. Cantelon, 170; 7. J. H. Cantelon, 170; 8. J. H. Cantelon, 170; 9. J. H. Cantelon, 170; 10. J. H. Cantelon, 170.

Boys' Belt Line Record.

Leslie Williams, 80 Armstrongs—established a record for boys walking 100 yards, McKinstry gave him one hour. Leslie is 15 years of age and says he would like to see some other boy of his age make a try.

Hounds Meet To-Day.

The hounds will meet at "Chubbeigh" at 2 p.m. to-day.

Holiday Races at Bradford.

BRADFORD, Nov. 1.—On Thanksgiving Day Law McKenney, the wealthy proportioned man, beat Albert McKinstry in a footrace of half a mile by 100 yards. McKenney gave the latter's weight, which is about 280 pounds.

Sidelights.

Alex. Orr, resident of the City Tennis League, yesterday pulled off a game on the alleys. His scores were 170, 77, 122-50.

Individuality.

Individuality in a man's clothing is that which gives the observer the impression that the wearer's clothes, in addition to being in harmony with the season, are more personality than the average man's.

Aqueduct Card.

NEW YORK, Nov. 1.—First race, 1 mile, 2-year-olds, selling.

1. Sally Preston, 118; 2. O'Neill, 118; 3. Ace High, 118; 4. Umbrella, 118; 5. Geo. S. Davis, 118; 6. R. J. Carson, 118; 7. Live Wire, 118; 8. Earl G., 118; 9. Bad News, 118; 10. Rialto, 118; 11. The Creamer, 118; 12. Whiplop, 118; 13. R. J. Carson, 118; 14. R. J. Carson, 118; 15. R. J. Carson, 118; 16. R. J. Carson, 118; 17. R. J. Carson, 118; 18. R. J. Carson, 118; 19. R. J. Carson, 118; 20. R. J. Carson, 118.

Boys' Brigade Race To-Day.

The boys' brigade race to-day, in connection with No. 17 Company of the Boys' Brigade of Bathurst-street Methodist Church will be held this afternoon at 2:30 o'clock, starting from their schoolroom at the corner of Bathurst and Lennox-streets. The course will be as follows: West on Lennox-street to Bathurst-street; north on Bathurst-street to Bloor-street; west on Bloor-street to Christie-street; north on Christie-street to St. Clair-street; east on St. Clair-street to Bathurst-street, and south on Bathurst-street to the finishing line, which will be opposite the entrance to the lot gate. All friends of the boys are invited to be present to encourage the young contestants in this their first annual road-race.

The Whisky that goes round the World.

DUNVILLE'S OLD IRISH WHISKY

An aged mellow whisky of peerless bouquet and rare flavor. In every part of the British Empire it gratifies Epicurean tastes.

To be had at all first class Clubs, Hotels and Bars.

NEWSPAPERS FOR VANCOUVER

Senator Cox Said to Have Agreed to Contribute.

VANCOUVER, B.C., Nov. 1.—When Senator Cox was here recently it is understood, he agreed to contribute \$10,000 to start a Liberal morning paper in Vancouver with an evening edition, providing a similar amount is raised by party men in Vancouver.

McPherson, M.P., had a personal-falling out with L. D. Taylor, editor of the World, the afternoon Liberal paper. The Scripps-McRae people are also considering the placing of a one-cent daily in the field here.

Customs tariffs are complicated. Friction wastes energy. Bring your entries to us. Ordinary entries 50c. Maurice G. Thompson, Customs Broker, 60 Yonge-street.

Hunt's "Das Deutsche Zimmer" for hot and cold drinks, open after the theatre, 9 King West.

Heat, Health, Happiness. To live in a house with a "Peace" Furnace or Boiler, is to realize all the pleasure and comfort found in the most perfect system of modern heating. Let us give you a quote. 36 and 38 East Queen-street. M. 7000.

Seriously Crushed. STRATHROY, Nov. 1.—(Special).—Charles Barnes, a well-known baseball player in this district, was crushed under a pile of rails to-day and may die.

Hunt's "Das Deutsche Zimmer" for hot and cold drinks, open after the theatre, 9 King West.

The Sunday World

ILLUSTRATED SUPPLEMENT

OF NOVEMBER 3

will include eight pages dealing with the discovery, growth, resources and possibilities of the Larder Lake Mining District.

The article will be embellished with a number of half-tone engravings.

The issue will be well worth preserving as a record of the camp, which has been much talked about during the past year.

Get The Sunday World.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto, Nov. 1.—(8 p.m.)—Rain is falling this evening over British Columbia and the Upper St. Lawrence valley, while elsewhere in Canada the weather continues fair, and in all districts temperatures have been moderate.

Minimum and maximum temperatures: Victoria, 53-58; Vancouver, 46-50; Calgary, 32-44; Edmonton, 30-41; Battleford, 28-45; Prince Albert, 28-45; Regina, 28-45; Winnipeg, 25-32; Port Arthur, 34-40; Pelly, 25-30; Toronto, 34-40; Ottawa, 28-30; Montreal, 28-30; Quebec, 24-43; St. John, 30-45; Halifax, 30-52.

Probabilities.

Lower Lakes and Georgian Bay—Southwest, shifting to northwest gales; rain, clearing by night and becoming much cooler.

Upper St. Lawrence and Gulf—Fresh to strong southerly winds; fair to cloudy, followed by rain.

Maritime—Freshening easterly and southerly winds; fair, followed by rain at night.

West—Superior—Northwesterly gales; fair and cooler.

Western provinces—Fair; generally cooler in Manitoba; not much change farther west.

POLICE ON TRAIL OF HITCHCOCK

Believed to Be in Canada, or Heading This Way—Possibly on Board Steamer.

NEW YORK, Nov. 1.—Raymond Hitchcock, an actor for whom the police have been searching since Wednesday noon, when he disappeared to escape prosecution under six indictments and a previous charge of abduction, was in Bennington, Vt., Wednesday night, according to advice from that city.

The fugitive presumably was making for Canada as rapidly as possible. He cannot be extradited from that country for the offence with which he is charged.

Gilbert B. Keeler, conductor in charge of the New York Central train that left the Grand Central station Wednesday morning, believes that Hitchcock traveled from New York to North Adams, Mass., on that train. A dispatch from North Adams last night said that Hitchcock arrived in that city at 8 o'clock on Wednesday afternoon on the train on which Mr. Keeler believes he was a passenger. The actor was accompanied by two men. They asked for an American newspaper, N.E. or the Canadian, and were advised to take a trolley car to Bennington. This advice evidently was followed. The trio were traveling without luggage.

A Plot Says Fromme.

Herman Fromme said yesterday: "I believe Hitchcock either has been spirited away or murdered by the black-malerei who have been using these young girls as instruments to hold up not only Hitchcock, but at least three other prominent men in the last two years. The detectives we have working on the case have found that this band of ten men, of which Hitchcock is properly called principal, and the others tools. We have learned the identities of five of these men. One is a reporter on an American newspaper, another is a retired and discredited reporter, a third is a lawyer and the fourth holds a place in a public institution in New York. It would be a mistake to name any of them at this time. These men have the strongest kind of a motive in getting Hitchcock out of the way, for as we know their operations, I do not think we could convict more than one of them without the actor's testimony, and Hitchcock I can convict at least four of them. The motive is ample to prompt almost any measures on the part of the black-malerei."

It was said yesterday that if Hitchcock succeeds in reaching Canada, Britton cannot be extradited, and a dictum on that point was made by the court on which he could be brought back.

CANADIAN CUSTOMS INCREASE

Receipts Over \$250,000 More Than for October Last Year.

OTTAWA, Nov. 1.—The customs receipts of the Dominion for the month are more than a quarter of a million greater than for October last year. For the seven months of the current fiscal year, the increase is over six millions and a half. The receipts for October were \$4,500,000, an increase of \$275,000, and for the seven months the receipts were \$36,342,766, an increase of \$6,681,766. The revenue from all sources for the year will be over one hundred million mark.

Those delicious Little Brownies, again to-day, 20c lb. Hunt's two stores, 9 King West, 466 Spadina-Ave.

INTERPROVINCIAL BRIDGE.

Three Possible Sites Are Under Consideration.

CAMPBELLTON, Nov. 1.—(Special.) Work on the new interprovincial bridge between the cities of Montreal, N.B., and Matapedia, Bonaventure County, Quebec, will begin as soon as the engineers can make the arrangements. Three sites were examined yesterday by a committee of engineers and public men, and the report will be made to the minister of public works.

Three sites were selected for consideration by the department. The new bridge will be a boom to that part of the country. The cost will be something less than a hundred thousand dollars.

Fresh College Fudge, assorted flavors, 20c lb. Hunt's two stores, 9 King West, 466 Spadina-Ave.

YOUTHS SERIOUSLY CHARGED.

Hayden O'Brien, 17 years, 92 Hamilton-street, and Robert Spink, 19 years, 28 Thompson-street, were arrested last night by Acting Detective Guthrie, charged with criminal assault upon Mary Turner, a little girl.

Will Take Winnipeg Debentures.

WINNIPEG, Nov. 1.—(Special.) The board of control to-day passed a recommendation that the tenders of Anglo-Canadian Engineering Company of London, England, for construction of city's municipal power, schemes for sum of \$2,500,000 be accepted.

The company takes in payment \$2,500,000 of city debentures at 92. They also agree to take a further \$2,500,000 debentures at same price.

Special to-day, cocoanut nuggets, 20c lb. Hunt's two stores, 9 King West, 466 Spadina-Ave.

WANT THE NATAL ACT.

VANCOUVER, Nov. 1.—(Special.)—Gordon Grant, secretary of the Asiatic Exclusion League, has asked John Oliver, M.L.A., president of the provincial Liberal Association, to recommend the passing of the Natal Act to apply to the whole of the Dominion.

FATAL DYNAMITE EXPLOSION.

WINNIPEG, Nov. 1.—(Special.)—Disregarding the necessity of using caution in the handling of dynamite, John Henderson and William White were terribly injured by an explosion at the C.N.R. gravel pit at Bird's Hill yesterday afternoon. The accident will likely prove fatal, although they are not

GRANDS TRAPPED ON FEET OF LONG DISTANCE WALKER

Was Not Given Sufficient Police Protection in Boston and His Corns Were Trod on.

DEDHAM, Mass., Nov. 1.—On his long walk from Portland, Me., to Chicago, Edward Payson Weston trudged into the town square to-night as the bells were striking 11 o'clock. He was a few minutes behind his schedule.

Weston left the Wolfe Tavern, in Newburyport, at 6.25 in the morning, after spending the night in the hotel, and began his third day's journey under the most favorable conditions. The ice was cold and invigorating and the soft, muddy roads of the previous day had become hard and solid.

The walker started off at a merry pace, giving his followers a chase to keep up with him, and arrived at Ipswich at 9.10 o'clock, covering the eleven miles in 5 hours and 50 minutes.

Five hundred school children met Weston near the Ipswich town line and waved to him into town west, the Hamilton-Beverly town-line he was greeted by Mayor S. H. Dow, Representative Albert Vittu, A. B. Woodbury, president of the board of aldermen, and C. W. Trask, president of the common council, who rode to North Beverly in an open automobile.

After the greetings, Weston was escorted by a squad of police, the United Shoe Machinery Band, the mayor and party and about 100 men, women and children down Rantoul-street to the Hotel Trafalgar. He entered the hotel just at noon, going at once to the dining-room, where he had soup and rice pudding. Fully 3000 persons were in the square when Weston resumed his walk at 12.45 o'clock.

The pedestrian passed through Salem at 1.30 o'clock, without making a stop. He was met at the Beverly bridge by William E. Hill, city marshal, and an escort of police. He was joined by Alexander H. Libby, who trained Leary, a pedestrian, who recently walked 1000 miles in 100 hours in the west, and John Libby, 80 years old, who walked with Weston when he made his trip to Chicago forty years ago. He was also accompanied by Michael H. Donovan, champion short distance walker of the world, and John C. Fowley, a well-known pedestrian.

THE WORLD'S HOME MAGAZINE FOR WOMEN

EDITED BY
LAURA E. McCULLY, B. A.

Canadian Girl on the Stage.

The London Advertiser of Tuesday last had a very appreciative account of the vaudeville debut of Miss Irene Currie Love, formerly the editress of this page. The London Free Press was equally enthusiastic over her singing, and Miss Love has countless friends in Toronto who will hear with interest. The following is an extract from The Advertiser's criticism:

"Miss Irene Love, the charming young vocalist of London, appeared at Bennett's Theatre yesterday afternoon and last night, and won her audiences completely. Her rare singing qualities proved a surprise to many of her friends, who were not aware of the great improvement in her voice, which careful training has brought about since she determined to try her fortune on the stage.

"Last night's audience was made up of very many personal acquaintances, but if she had been a stranger to them all she would have won applause just the same, for the three songs she sang were rendered with a quiet simplicity and vocal quality which would win favor anywhere and with any audience. The applause from the pit and boxes was deafening, but she had also the satisfaction of hearing the gallery applaud her long and loud.

"Miss Love made her debut on a local stage under auspicious circumstances. The audience was a very fine one, and included the majority of the officers of the Voluntary Barracks and the 7th Regiment. Before the rise of the curtain all stood, and sang the National Anthem.

"Miss Love's place was fourth on the bill, and a good bill it is. First she sang 'There's What the Rose Said to Me,' a beautiful number, well calculated to display her excellent voice. She was accorded a hearty encore, and sang the sweet, popular number.

World Pattern Department

Beauty Pattern Co.

A SMART BLOUSE.

There is always a place in the feminine wardrobe for one more blouse, especially a plain, practical mode, such as this pattern. Striped silk and wool flannel was chosen for the development, but the washable materials, such as linen and madras, will be equally suitable. The neck is slightly gathered in the front, thus giving extra fullness over the bust, and jaunty pockets give an air of smartness to the mode. The sleeves are in the fashionable three-quarter length, finished by pretty shaped turned back cuffs. Taffeta, mohair, flannel and pongee are all suggested for the making. For 36 inches must measure 3 1/4 yards of 36-inch material will be required.

Ladies' blouse. No. 5948. Sizes 32.

Your Meat Bill Last Month

Was it bigger than it should have been?
Then use Fish.

HALIFAX OR ACADIA CODFISH

which is pure Atlantic Codfish—has all the bones removed—is cheaper, and, the Doctors say, much healthier than meat. It is also very easy to cook, and some people prepare it so nicely you would wonder why anybody should ever want to eat meat.

You can buy "HALIFAX" Codfish in 1 and 3-lb. boxes, and "ACADIA" in 2-lb. boxes and 1-lb. Tablets.

THE TRADE MARK
IS PLAINLY STAMPED
ON EACH PACKAGE

34, 36, 38, 40 and 42 inches bust measure.

A pattern of the accompanying illustration will be mailed to any address on receipt of 10c in silver.

"School Days." He rendition was perfect. She threw into the song a wealth of feeling, and at its conclusion was given a thunderous encore.

"Then Miss Love made the hit of the evening for the song 'When Tommy Atkins Marries Dolly Gray.'"

"The officers were immensely pleased, and everybody else in the house applauded."

"Miss Love's appearance was a complete triumph. General Manager Bennett, who had never heard her sing, watched her intently for a moment, somewhat anxiously, it must be admitted, but when she sang her first note he leaned back in his seat and was satisfied. In stage parlance, Miss Love had 'made good.'"

"The London lady is no novice on the stage. She carried herself with admirable assurance, and gave every promise of winning great favor as a professional."

Personal.

The recital of Miss Margaret Huston will take place at the Conservatory of Music Hall, not at Association Hall, as erroneously announced yesterday, on Wednesday, Nov. 6, at 8.15 p.m.

Mrs. Frank H. Kent, recipient of Huntville, has now taken possession of her own home at 180 Madison avenue, and will receive on the first and second Friday of each month.

Mrs. John King, 4 Grange-road, will receive on Thursday, instead of Wednesday, as formerly. Mrs. King is visiting her parents, and will receive with Mrs. King on Thursday.

J. Pewrie, Liverpool, and S. C. Elks, London, Eng., registered yesterday at the parliament buildings; also 33 members of Erie Lodge, F. & A. M., Buffalo, who made a tour of the city.

Mrs. D. O. Roblin, 325 Palmerston-boulevard, will receive on Wednesday afternoon, Nov. 6, and afterwards on the first Thursday of each month.

A pretty event of Halloween evening was the dance of the Alumnae Association, held in the gymnasium. It was verily a "ball poudre," for nearly all the young ladies wore costumes. Too many and beautiful were the various disguises to be accurately described in detail, but the hats were specially pretty. The first consisted of Mrs. McMaster and Miss Baker (who received), Miss Marwick, Mrs. Baker, Mrs. Pakenham, Prof. Baker, Mr. Thompson, Mr. McMaster. A colonial costume set was arranged by Mrs. McMaster and Miss Long. The girls wore the traditional powder and patches. The graduates had a set arranged by Miss Creighton, in which Miss Mason, Mr. Boyle, Mr. Creighton and other took part. The costumes were chosen to represent the characters of Sheridan. The fourth year also arranged a set, in red and white (college colors), a sailor set was given by the School of Science, and a "flowers and fairies" set by the faculty of education. A Japanese set was especially arranged. Among the pretty costumes were Miss Smith, Japanese red and black; Miss Creighton, Sheridan black lace. Miss Mason, Sheridan, pink satin; Miss Olive Balfour, pink crepe; Miss Milman, flame colored shenandoah; Miss Macdonald, folly costume; Miss Lawlor, Miss Hazel Kemp, white silk; Miss Reardon, Dolly Varden; Miss Hunter, Dolly Varden; Miss Creighton, Queen Anne in Dresden shades; Miss Barber, pale blue; Miss Rose Casselman, Miss Jackson, Miss Rose, Miss Doing, a Japanese frock; Miss Wagner wore a Carmen costume in black and yellow, and was very striking; Miss Salter wore black lace over white satin with necklaces; President and Mrs. Falconer watched the fun from the balcony till late in the evening. Dr. and Mrs. Eaken, 446 also seen. Mr. and Mrs. Campbell and others. Miss Campbell looked charming in a shenandoah costume. Miss Nichol danced in the set of honor, wearing white. Many others were present with equally pretty costumes whose names could not be learned.

Mrs. J. H. Backhus and Mrs. Thomas of Port Rowan are visiting their nephew, Mr. W. B. Graham, 446 Euclid-avenue, city registrar of the Ontario College of Pharmacy, Mrs. Graham in honor of her guest gave a Halloween dinner, at which Mr. and

guests. The evening was most enjoyably spent in music and cards.

Mrs. Thomas Rennie, 10 North Sherbourne-street, will receive first Monday and Tuesday of the month during the season.

Mrs. John S. Lucas of 121, Dunn-avenue will receive for the first time this season on Thursday, Nov. 7, and afterwards on the first Thursday of each month.

Mrs. Arthur W. Connor will receive for the first time since her marriage on Tuesday afternoon and evening, Nov. 5, with her mother, Mrs. James H. Harris, at 420 Sumach-street.

Mrs. A. C. Stanners of 1202 West Queen-street will receive for the first time this season on Thursday, Nov. 7, and afterwards on the first Thursday.

Mrs. A. E. Hagerman, Elliott House Annex, will receive on Monday Nov. 4, and the first Monday in every month during the season.

A pretty wedding was solemnized at Olivet Congregational Church on Wednesday evening last when Miss Mary E. Donaldson, elocutionist, daughter of Mr. T. Donaldson, 35 Balmuto-street, was married to Mr. Steven T. Odegard of Caron, Sask., by the Rev. Y. H. Thomas, B.A. The bride who was given away by her brother, on account of the illness of her father, wore a gown of cream silk chiffon over tulle, with veil and bouquet of white chrysanthemums. The bridesmaids of honor, Kathleen and Kaufen of the bride, Hazel Gordon, were gowned in pale blue and mauve silk, with large picture hats and chiffon ties, and carried mauve chrysanthemums. The groom was supported by Mr. Edward Malloy. The ushers were Mr. Robert Pearson and Mr. James Paterson, brother-in-law and cousin of the bride. After the signing of the register, the bride party, with about forty guests, adjourned to the home of the bride's parents, where a dejeuner awaited them. The presents were numerous and costly, including a silver tea service from the members of Olivet Congregation and choir, where the bride had been a faithful member. The groom's gift to the bride was a handsome piano. The bride presented her maids of honor, who had been her pupils, with a handsomely bound copy of Shakespeare. The present of the groom to his best man was a similarly bound copy of Longfellow. Mr. and Mrs. Odegard left Thursday for Chicago en route for their western home in Saskatchewan.

Duncan Marshall, formerly Liberal organizer, now business manager of The Edmonton Bulletin, is in the city.

VOTES FOR WOMEN.

Dr. Margaret Gordon's Remarks at Excelsior Division Banquet.

"As long as one woman wants a vote and she is refused then I say civilization has not reached its highest degree," so spoke Dr. Margaret Gordon in a passing reference to the women's franchise movement in responding to the toast of "The Women's Council" at the annual complimentary banquet of the Excelsior Division, Sons of Temperance, given in the Temperance Hall, Bathurst-street, Thursday evening. There was a large company present.

SURE AND SAFE.

Baby's Own Tablets is the best medicine in the world for the minor ailments of little ones, and the safest. We do not ask you to take our word for this—we give you the guarantee of a Government analyst that this medicine contains no opiate or the new-born babe or the well grown child. It is a certain cure for all the minor ailments of childhood. Mrs. Andre Tremblay, Sayabec, Que., says: "I have proved the value of Baby's Own Tablets as a cure for several of my troubles, including skin disease, indigestion and teething troubles." Sold by medicine dealers or by mail at 25c a box from the Dr. Williams Medicine Co., Brockville, Ont.

The Right Value on Trifles

"I have two words of counsel and suggestion that I think worth your consideration," says Margaret E. Sangster to her thousands of girl readers in the November issue of The Woman's Home Companion. "The first is, be careful lest you underrate little things. In the scheme of life as it affects the well being of the home, nothing is trifling. The pretty stock that sets off the dainty toilet, the trim belt and the modish buckle, the becoming method of arranging the hair, the neat gloves and shoes that are accessories of a girl's costume, are of more value in getting people at ease, the unobtrusive helpfulness, the readiness to divert a fretful child or comfort a disappointed one, may appear trifling, but they reveal character and are indicative of nobility and nobility in womanhood. Do not underrate little things anywhere.

"The second word is, think twice before gauging anything merely by its financial return. Thousands of girls not in actual need are making the mistake of fancying that the earning of money is the most desirable thing the period has to offer. Believe me, it is often the least rewarding thing in which a girl can engage. The daughter at home on whom is laid no obligation to earn her own bread, should feel herself in no way inferior to her friends whose duty it is to take her place among the paid laborers of the world."

MARRIED THREE WOMEN.

One of Them Canadian Girl From Niagara Falls.

BOSTON, Mass., Nov. 1.—(Special). George Washington Bordon has been arrested at Lynn, Mass., charged with having married at least three women. It is claimed that wife number two is Annie Hubert of Niagara Falls, Canada, and it is alleged that his marriage to her took place July 27, 1904. In less than two weeks after this marriage it is claimed that Bordon took wife number three, who was Nora E. Baker of Binghamton, New York. In court today Bordon pleaded not guilty and told the court that he was willing to go to Binghamton. There he has been indicted by the grand jury without extradition papers. The police say that wife number one was Miss Blanche Ide of Borodino, N.Y.

The Canadian Club will hold its first regular meeting for this season, on Monday, Nov. 4, at 8 o'clock at McKenry's. The guest will be President Falconer of Toronto University.

Medal for Heroine

The mayor has received for presentation to Miss Nellie Thomas, 125 Lisgar-street, formerly of New Lakeard, the medal awarded to her by the Royal Canadian Humane Society for bravery displayed by her in saving T. Maglad, curler from drowning in Lake Temiskaming last June.

Thanksgiving Announcement.

The choicest of fish for the fish eater; the choicest of turkey for the meat eater; bring your friends to the table of hot dinner. 5 to 8 p.m. Orchestra. Open until midnight. "St. Charles of course," the noted oyster house.

McKENDRY'S, LIMITED

McKENDRY'S, LIMITED
226 and 228 Yonge Street

HOME OF NEW THEOLOGY
TWO SERVICES DESCRIBEDWorld Correspondent Hears Ad-
dress by Rev. R. J. Campbell
and Mrs. Annie Besant

LONDON, England, Oct. 12.—(Staff Correspondence of The World.)—Quite as radical movements in the mind and heart of Britain are observable in her outer life and government. In a land so essentially conservative most of these spiritual stirrings are not seriously considered by great masses of the people, but radical ideas are present among the considerations of thoughtful people, and the very salvation of the nation character may depend on their adoption or rejection.

The "higher criticism" is now a commonplace, as all are aware who have any degree of familiarity with the teaching of those theological colleges which have any reputation for scholarship and respect for the truth. There are still, of course, many who prefer to hold to what is abandoned by honest scholars rather than give up the creeds of the last few hundred years. But the really devout and pious students appreciate the fact that the Divine Life is more than any human record, and as in all ages and climates these earnest souls have faced the great question of the Divine Immanence, and the problem whether a man can find God more certainly in his own heart than in the pages of a book. And this is the sum and substance of what is called the "new theology," although it is as old as any of the prophets.

There is, of course, a tremendous opposition to any innovation in orthodox circles, and this is not only due to conservative ignorance. Fear of trusting the people; the humility of the pious scholar; and his hesitation about removing old landmarks; the dread that essentials may be swept away along with accessories, are all reasonable grounds for refraining from the support of new movements, even the active opposition is not engaged in. It is not necessary to impute the Ephesian self-interest which regarded the danger of the gods as merely a menace to the professional interests involved, to account for the opposition to the emphy with which the new theology is regarded.

The New Theologian.
It is the reformer to be misinterpreted. Rev. R. J. Campbell is no exception to the rule. He is a gentle soul with a highly strung and spiritual nature, which sees the world as but an image of reality and who has embraced the oriental thought which has found expression in the declaration that the universe was created for the benefit of the soul. But people do not discriminate, and since he has adopted an attitude of sympathy towards the principles of socialism, towards the unthinking many and the malicious few have classified him as a representative of the new movement, the unthinking many and the malicious few have classified him as a representative of the new movement, the unthinking many and the malicious few have classified him as a representative of the new movement.

"The orthodox," he is declared by the orthodox, the devil is duly classified, and the damnation is as complete as established, and the following are the fittest opinions survive, as in other kingdoms, however, and become established in their turn. As in politics, so in religion, Mr. Campbell has gained a wonderful following in spite of certain clamorings. It is said that the "Christian Commonwealth," in which his sermons appear, has seriously affected the circulation of the "British Weekly," which cast him out under the impression that he would not survive the extra-mural treatment. Not that there is any serious difference of opinion between Mr. Campbell and the "British Weekly," but the impartial outsider can judge. Both are mystics, both adopt the higher critical methods, and both are highly conscientious, but the first occasion when men of strong character have found it prudent to labor in different fields.

Crowds at the Temple.
It was interesting to visit the city temple and hear Mr. Campbell in his own pulpit. What may be said of him has a most enthusiastic following, and the great building, even on a Thursday morning, was crowded to the doors. The ordinary people of the Bible there is nothing new in the "new theology." It is all contained in the first fourteen verses of the gospel.

CURED PAINFUL
IRREGULARITIESStrong Testimony From a Lady Resi-
dent of Clarksburg, Proving that
Ferrozone Surpasses All Other
Remedies.

The health of many women is constantly imperilled through failure of certain organs to work according to nature's requirements. Where this condition occurs there is no safer remedy to employ than Ferrozone, which has a specific action in female troubles.

Not only does it act directly on the organs, ensuring regularity and freedom from pain, but by forming rich red blood fortifies the system against weakening drains.

Ferrozone possesses a volume of merit totally absent in any other medicine, and its superiority is proclaimed by thousands of women it has restored to health. From Mrs. F. G. Caldwell comes the following endorsement, written from her home in Clarksburg, West Virginia, after she had gone through a most trying experience with what is commonly known as "Female Trouble."

"I don't need to state my symptoms, but I suffered great deal. My health was very low, and I got into such a condition that I could not even sleep. I was dreadfully nervous, weak, and pale. Different prescriptions were recommended and I tried them. But Ferrozone was the first help. I improved steadily under Ferrozone, and normal conditions were finally established. I gained weight, my color and spirits improved, and my former health was restored. Ferrozone cured me, and with a full heart I recommend this good medicine to all women."

"Beware of imitations—don't allow a druggist to palm off anything else as Ferrozone, which costs 50c per box or the boxes for \$2.50, at all dealers."

of John. But people do not read their Bibles, nor when they do they do not read the "light that lighteneth every man that cometh into the world" for help in understanding it. This is the difference in the emphasis laid by the "new theology." Accept the established view, says one school. Seek reverently in your heart for the truth, says the other. There need be no contention, and in many cases there is.

Selfishness is Sin.
Mr. Campbell's subject was, "The False Emphasis on Sin." His text was John 12, 34, "Thou wast altogether born in sins, and dost thou teach us? And they cast him out." The implication appeared to be inevitable, but the speaker is anything but egotistical, and made no attempt to point a moral which was sufficiently evident. The Pharisees, he declared, were the Non-conformists of their day. The Sadducees were the state churchmen associated with the aristocratic priestly order. The Pharisees were the Non-conformists of their day. The Sadducees were the state churchmen associated with the aristocratic priestly order.

"Every man of them must have known that he never had been guilty of anything worse than selfishness, and that his real culpability, his real guilt, was to be measured by the amount of harm he had done to his fellow-men, and not by some purely fanciful foolishness before God. There is no mysterious process whereby you can be whitewashed in the sight of God, you are still going on doing cruel things and showing grasping, unscrupulous spirit in your relations with your fellow-men."

Mr. Campbell, at the close of his address, announced that he would take the chair that same evening at a meeting at which Mrs. Annie Besant was to lecture. If the lecture hall was not large enough, the church would be thrown open.

The church was thrown open, and was fuller, if possible, than in the morning. Mrs. Besant can still draw the largest audiences in England, and she has adopted an attitude of sympathy towards the principles of socialism, towards the unthinking many and the malicious few have classified him as a representative of the new movement, the unthinking many and the malicious few have classified him as a representative of the new movement.

Not Afraid of Compromise.
Mrs. Besant preached the new theology from her own point of view, but she was careful to say that the opinions she gave must not be taken in any way to compromise the pulpit where she spoke, or the mission of Mr. Campbell, who heard her for the first time, said the city temple was for the first time, said the city temple was for the first time.

"Spiritual Life for the Man of the World" was Mrs. Besant's subject, and she taught much the same lessons as she had taught in the morning. It was impossible to ignore the humanity in the service of God. "People here speak of Sunday as the Lord's Day, as the day when we are to be holy, and He should be served on it. To call one day the Lord's day is to deny that same lordship to every other day in the week, and so to make six parts of life outside the spirit, while only one remains dedicated to the Spirit."

The world is the thought of God, the expression of the Divine mind. All useful activities are forms of Divine activity. All work done in the world is God's work, or none is His at all. The merchant in his counting house, the shopman behind his counter, the doctor in his hospital, is quite as much engaged in a Divine activity as any preacher in the church. Until that is realized the world is vulgarized, and until we can see one life everywhere, and all things are the work of God, and all things are the work of God.

Foundation of Teaching.
In a message of wonderful eloquence and devotional feeling she led us to a climax of illumined thought. In which, having traced the doctrine of Divine Immanence in ancient Scriptures, she recognized it as the foundation of Christian teaching, and the "Lamb slain from the foundation of the world" as the sacrificial basis of all manifestation.

Official religion ignores or pooh-poohs the symptoms of a spiritual awakening. In scholarly circles the contribution to such views has been very great for years past. Gradually the hidden knowledge filters down to the public. A recent example of this work on "Hermes," by George R. S. Mead, whose researches in the early Gnostic literature and other documents bearing on the origins of Christianity have already attracted attention, and

received the greatest compliment English scholarship of this description can receive—translation into German. The revelations from Alexandria and other ancient Egyptian sources are likely to startle the Christian world even more than has yet been done, and hereby hunters are likely to find their attention concentrated upon the text, "Out of Egypt have I called My Son."

STRYCHNINE IN STOMACH.

Inquest Resumed Into Death of Margaret Burns.

OTTAWA, Nov. 1.—The inquest was resumed at South Osgoode to-day into the death of Margaret Burns. Her husband, Thomas Burns, is in jail in Ottawa on a charge of murdering her. The coroner, J. H. Ellis, presided. The most sensational testimony was that of Dr. W. H. Ellis, who testified that he found strychnine in the stomach of the deceased. This was first disclosed in his letter of Oct. 25, and confirmed by another letter received yesterday.

Catherine and Benese, sisters of the deceased man, swore to washing his clothes after the death and finding no stains out of the ordinary.

Dr. Groves, who gave the burial certificate, testified to Burns coming for it at 4 in the morning, and that he was opposed to having an inquest, stating as a reason that he wanted to save the expense.

The inquiry is proceeding. More definite information is expected from the Toronto doctor.

TRAIN LEFT THE RAILS.

Engineer and Fireman Missing—Brakeman Injured.

EASTMAN, Que., Nov. 1.—The engine and eight cars on a freight train left the rails on the bridge near this place this afternoon at 2:30 o'clock. Engineer Draper and Fireman McKenny are missing, and C. Sturgeon, one of the brakemen, was seriously injured. No cause is as yet assigned for the accident. The bridge is not badly damaged, and it is expected that a few hours will suffice for repairs, with but little interruption of traffic.

FIRE IN I. C. R. SHEDS.

Plant of New Daily Newspaper Was Destroyed.

CAMPBELLTON, N.B., Nov. 1.—(Special.)—Just before 10 o'clock last night the International News Service plant was destroyed by fire, together with its contents, valued at \$3000.

Among the articles destroyed were the new typesetting machine, the printing press, and other equipment for the Graphic, Campbellton's new daily. Also six telephones, the N. B. Telephone Co., and a number of pianos.

TOBACCO TRUST WAR.

Growers Have Organized—Canadians May Profit.

In the United States the tobacco growers have apparently grappled with the tobacco trust for a death struggle. It does not appear that there has been any excess of production or decrease in manufacture, and the price of tobacco has not fallen. Prices, however, have not been satisfactory, because the trust, as against the buyers, is strong enough to fix the price at a level which is not profitable for the growers.

There is a great many pages in magazines the second kind, not the first, because they are full of advertisements. They are full of advertisements, and they are full of advertisements. They are full of advertisements, and they are full of advertisements.

KILLED BY STREET CAR.

MONTREAL, Nov. 1.—While endeavoring to cross St. Catherine-street east of the corner of Malouin-street, Henri Godreau, 10 years of age, was run over by an eastbound St. Catherine-street car yesterday afternoon.

RECIPE FOR COLDS

WHICH YOU CAN MAKE AT HOME.

Buy the ingredients separately and Mix Them Yourself.

From an eminent authority we learn that the old-fashioned mixture of Toler and whiskey is still recognized as a splendid treatment for coughs, colds, whooping cough, and throat troubles. The recipe is as follows:

Fluid extract Licorice..... 1/2 oz.
Fluid extract Cascarilla..... 1/2 oz.
Elixir Toler..... 6
Best dry whiskey..... 6

These are all simple and well-known ingredients, and are inexpensive.

This is better to take than many advertised cough syrups, which only upset the stomach and digestive organs.

LUSITANIA CARRIES
A CARGO OF GOLD

Has Ten Million Dollars on Board for New York Demands.

NEW YORK, Nov. 1.—The financial situation is gradually clearing without any striking features to-day. Runs on the banks and trust companies are practically over; money is flowing into the stronger banks which were temporarily withdrawn from those subject to runs, and currency is being provided in most cases where the demand for it is considered legitimate.

Further engagements of gold from Boston and other points have brought up the total engagements under the recent movement to \$38,550,000.

The Lusitania, which sailed from Liverpool to-day, will bring about \$10,000,000 in gold, one of the largest single shipments ever made. Prices on the stock exchange were firm during the early part of the day, and did not yield sensibly at any time.

FOUND SMUGGLED FURS.

Were Consigned to New York by Montreal Manufacturer.

EAST ALBURY, Vt., Nov. 1.—Deputy Collector of Customs Charles L. Orton went to Burlington to-day to confer with Collector C. H. Darling regarding the seizure of furs made by Deputy Collector H. C. Ladd. The furs at the lowest estimate, are valued at \$2500.

Ladd, while passing along the roads between Albury Springs and East Albury, last Wednesday night, met two men driving. He became suspicious of them, and they had anything dutiable. They refused to reply and drove on toward East Albury. Mr. Ladd overtook them at the house of a Mr. McGarner, and found the furs hidden in a bin of oak in the then attempted to arrest the men, but after a short struggle they escaped.

GENUINENESS GIVES POWER.

There is nothing which will add so much to one's power as the consciousness of being a genuine man. If you are a genuine man, you are a powerful man. If you are a powerful man, you are a genuine man.

THINK RIGHT, KEEP HEALTHY

Many Thousands of Homes Wrecked by Ill-Health.

There are probably very few people in the world who could not be perfectly well and strong if they had known the secret of right-thinking in their youth and had practiced it thru life, says Success.

That a right life must follow right-thinking is as scientific as the laws of mathematics. Unfortunately, some of us were not taught this. All sorts of discordant, weak, and trivial thoughts played havoc with our minds before we learned what devastation was being effected in us. Habit had so fixed the trend of life, and the tendencies of action, that we were almost slaves to them, and to our environment.

How many thousands of homes have been wrecked by poor health! What tragedies have been wrought by shattered nerves and broken-down constitutions, even in the lives of good-intentioned people! Mentally able but physically weak men would make a good epitaph on the tombstone of many a failure.

If we only knew the secret of thinking ourselves in health, into a successful sphere, or how to surround ourselves with a healthy, prosperous atmosphere, we should know how to solve the greatest problem of life.

The brain gets a great deal of credit which belongs to the stomach and the muscles and the lungs. A single grain of strong physique, with a good will back of it, will accomplish more in life than ten talents in a weak body. What we need is a strong, vigorous vitality which will stand a tremendous strain.

Who can measure the disaster to the individual and to the world which is caused by botched work, due to ill health?

CHEVALIER GETS BAIL.

WINDSOR, Nov. 1.—(Special.)—W. H. Chevalier, held for trial on a manslaughter charge, was bailed on \$4000 cash security to-day.

SUFFERING WOMEN

Made Well and Strong by Dr. Williams' Pink Pills.

Every dose of Dr. Williams' Pink Pills makes new blood. Every drop of pure blood brings the ill, dispirited woman nearer to health and happiness. Dr. Williams' Pink Pills have brought the glow of health to thousands of sufferers who gladly bear testimony to that effect. One of these is Mrs. Elizabeth Dunham of Welling, Ont., who says: "For more than a year I was greatly run down. I had sickening headaches and my heart would palpitate so violently that at times I feared death was near. I was under the care of a doctor, but instead of improving I lost strength and my weight decreased from one hundred and forty to ninety pounds. I was discouraged, but finally decided to give up the doctors' treatment and try Dr. Williams' Pink Pills. I am glad I did so, for after using the Pills a few weeks I could see a marked improvement in my conditions. The distressing heart palpitation ceased and at the end of two months I was fully restored to health and felt better than I had for the past twenty years. Dr. Williams' Pink Pills are truly a marvel of medicine and I cannot praise them enough."

A MILLION DIVORCES.

From the census bureau comes the statement that a million American divorces were granted in 1906 and 1907 and that half a million additional cases had not as yet been docketed at the time the bureau's tentative calculations were made up.

As two persons were represented in each case, the courts have been asked within these 20 years to pass on the domestic relations of a population greater than that of Manhattan. In the preceding 20 years, 1887-1906, the divorce cases were only 325,000.

MANY PERSONS WERE GREATLY BENEFITED

Local Druggists Say Hundreds Here Are Taking Simple Prescription Which is Easily Mixed.

That the readers of this paper appreciate advice when given in good faith is plainly demonstrated by the fact that one well-known local pharmacist, many times within the past two weeks, has received orders for the "vegetable prescription" which is so easily mixed and which is so easily mixed.

THE TITLE & TRUST COMPANY

The only Company in Canada issuing absolute guarantees of Title, backed by a large, responsible corporation. Send for copy of descriptive booklet telling all about Title Insurance and its advantages. This company is operating along lines that have been eminently successful in the United States, and which have been thoroughly adapted to Canadian requirements.

Next Week at the Theatres

The Royal Alexandra Players will next week present the military comedy, "Second in Command," by Capt. Robert Marshall, who is also the author of "His Excellency the Governor" and "A Royal Family." This is the play which Mr. John Drew presented for an entire season at the Empire Theatre, New York. Matinees will be given on Tuesday, Thursday and Saturday, and at the Tuesday and Thursday matinee souvenirs will be presented to the ladies.

In this play, Maj. Christopher Bingham is the leading character. A young middle age, he is passing over the colonelcy of his regiment in favor of

wishes to give her her freedom again, and pretends to have cooled in his affection for her. Then the Boer war breaks out and the regiment is ordered to South Africa, but Bingham is told to remain behind. He, however, goes to the front, where he is wounded and returns to England, where he is nursed by Muriel. Anstruther also returns, meets Muriel and there is another love scene and they become engaged again. Bingham is decorated with the Victoria Cross and the young couple are married, with the major's blessing.

For artistic excellence few recitals have recently been given in the Greek

"The Time, the Place and the Girl," which will be given its Canadian premiere at the Princess Theatre Monday evening, is the result of the collaboration of Joseph E. Howard, Will M. Hough and Frank R. Adams. The combining of a story that can be understood with music of the whistling sort, numerous "girly" effects by Ned Wadburn and Arthur Evans, and all done in attractive settings are the pivotal features of the play.

It all happens in the mountains of Virginia at a "rest cure" sanitarium. To this place comes Johnny Hicks, a happy-go-lucky gambler, and Tom Cunningham, a rich man's son and Bosom friend of Hicks. They are fleeing to escape arrest because of an encounter with a card sharp. Tom finds that his sweetheart, "The Girl" of the play, is there with her father, a rich farmer, and her brother. The place is placed under quarantine. Others caught by the health order is an attractive widow and her son, an Italian organ grinder, who, in a borrowed dress suit, makes ardent love to the widow; a coalheaver, whose wedding is scheduled to take place on the morrow, and who is frequent in his protests, and added to the quarantine complications are "servant problems," trouble being barred after the isolation line is established. To get around this difficulty Cunningham is chosen dictator to assign duties to each of the guests. "The Girl," who has rejected the dictator's proposal, is put to scrubbing. Hicks, whose knowledge of cooking is as bad as his use of English, is made chef.

A rival of Cunningham's for "The Girl's" favor leads to a strike, and affairs reach a climax when the card sharp, injured by Cunningham, is identified as the brother of the head nurse, Molly Kelly, with whom Hicks has fallen in love. In order to help his friend, Hicks shoulders the blame for the blow delivered to the nurse's brother; this he does before he finds out that he is in love with Hicks has an uphill battle, attempting to make love in his typical slangy way, and in vain for the forgiveness of Molly, but all ends happily.

Among the principals are: Arthur Deacon, who created the role of Reginald Hicks; in the original "Peggy From Paris"; Mary Cecil, long identified with Louis Mann's "Julia Bon Bon"; and Virginia Harned in "Love Lettuce." The production is a riotous burlesque of the original "Prince of Pilsen" Co.; Violet McMillen of the first cast of "The Wizard of Oz"; also George Anderson, James Norval, John C. Rowe, George Ebner, William O'Day, Herman West, C. C. Scribner and Chas. E. Morton. This splendid cast will be assisted by a large chorus of western beauties.

Mlle. Dora de Philippe, the fourth petite Madame Butterfly, making her New York debut last week, and her sympathetic personation of the pathetic role in Puccini's flowery opera among the other stars in his English singing organization. Mlle. de Philippe came from Europe last year and sang the role of Cho-Cho-San in "Madame Butterfly" in Chicago. She spent the summer in Paris, entering into a deep study of the exciting part with Mme. Carré of the Opera Comique and having the benefit special tutelage by Compose, Puccini himself, while in Paris. She is considered in some respects the most Japanese of all the "Madame Butterfly" singers, and during the tour she will alternate with Phoebe Strakosch, Fina Vienne and Elizabeth Wolff in the picturesque title role of the opera.

James K. Hackett will be the attraction at the Princess for the entire week beginning Monday, Nov. 11, in one of the most successful of English plays, "John Gladie's Honor." The American premiere, by James K. Hackett of "John Gladie's Honor" will be made on Monday in "Wauke," the production being brought here directly after its engagement in that city.

Arthur Deacon
The Time, The Place and The Girl
AT THE PRINCESS NEXT WEEK.

Miles Anstruther, a younger man. The major has had ill luck, but rises superior to it. Despite his comparative penury and being ignored by the war office, his spirits remain as chipper, and he is as witty and popular as ever. He is also in love with Muriel Mansterville, a ward of Lady Harbrough, but she does not reciprocate his affection. She refuses twice to marry him, but subsequently accepts him, telling him that she does not love him. She has fallen in love with the painting of an officer, whom she does not know. He, however, Col. Anstruther. They meet and he promptly falls in love with her. He proposes and she tells him that she is not free. Muriel is a brother in the regiment, who is heavily in debt, and he can only be saved from disgrace by raising a large sum of money. Walter tells his troubles to his sister, and for his sake she gets a release from the major and becomes engaged to Anstruther. It is a hard blow to the major. Anstruther learns of Bingham's affection for her and

theatre of the Margaret Eaton School of Expression on Wednesday evening next under the patronage of Sir Mortimer and Lady Clark. Those participating in it are Miss Edna Sutherland, known from coast to coast as one of the most brilliant and versatile dramatic readers before the public today; Mr. Frank Smith, one of the city's leading violinists; and Mrs. H. M. Blight, the well-known pianist. Mrs. Sutherland's program has something in it to attract all classes, and Brownings should be specially pleased by the choice of "In a Balcony" and "Up in a Village—Down in the City." The artist has a most delicate sense of humor, which is delightfully shown in a New England character sketch by Kate Douglas Wiggin. The imperial poet will be represented by "L'Envoi" and "Mother of Mine," while a choice selection is "The Belated Violet," with musical setting specially written for Miss Sutherland. The plan is to be seen and tickets obtained at Nordheimer's.

Standard Time everywhere is ELGIN Time

In every time belt between New York and San Francisco—Eastern, Central, Western and Pacific—the Elgin Watch is the standard time keeper.

Every Elgin Watch is fully guaranteed. Jewellers have Elgin Watches. An interesting, illustrated booklet about watches, sent free on request to ELGIN NATIONAL WATCH CO., Elgin, Ill.

ROBERT McWADE, JR.,
With the Royal Alexandra Company.

It is a well-known fact that the palaces of melodramatic theatre are much more difficult to please than those of the high-class houses. The one thing they won't stand for is a "talky" show. They demand action, and the wise caterer to their tastes will give it them. Producers have learned in their many years' experience in the

Scene From "Little Heroes of the Street," at the Majestic.

WORTH TAKING.

One ounce Fluid Extract
Dandelion.

One ounce Compound Salutar.

Four ounces Compound Syrup
Sarsaparilla.
Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of kidney, bladder, and all urinary troubles.

This, says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.
If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

"The Wizard of Oz" will be the offering at the Grand next week, the first time here at the Grand prices. From a scenic point of view, "The Wizard of Oz" is easily the most pretentious of any of its class, while the musical numbers and comedy of the piece are of the brightest kind. Few characters of the eccentric comedy type have scored such

profit in trying to make them take something they don't want. One of the season's most pronounced successes is the play of Chicago life, "Little Heroes of the Street," which contains about all the interesting material a score of wise heads could concoct. Love, jealousy, plots, tension fire and sensational escapades are found in this play, which will be the offering of the Majestic next week.

ANNA SUITS
As the Poet Prince in "The Wizard of Oz."

A tremendous triumph as have those of the personages, the Scarecrow and the Tin Man, and his extremely amusing and long running in the heart of the audience. Dorothy Gale, the Kansas lass, who is blown on the crest of a cyclone from her peaceful farm to the land of Oz, with her faithful dog, is well as also Trixie Twifles, Sir Dashemoff, the Lady Lunatic and the Good Witch of the North. Then there are the freckle-faced Impresario, the cow, and the timid lion to be remembered, also the funny little bogus Wizard and his little attempts to regain his throne.

Flo Irwin & Co. is one of the new acts that Manager Shea has secured for next week. Miss Irwin is presenting "Mrs. Pugh's Carouse." This farcical sketch was written by Geo. Ade. It is a story of some merry people in a small town which is going thru the throes of a temperance revival.

Mr. Walter C. Kelly, the Virginia Judge, is making his first appearance here after his European success. Mr. Kelly is a typical showman. He describes the different characters in the Virginia town that are brought up before the judge.

MacMahon & Chappell have a new act in which they are assisted by the Pullman Porter Maids. They are doing their thing specially. Twenty Minutes to Train Time, and have introduced a lot of new material.

Bert Howard and Leona Bland in "The Stage Manager," shows the stage stripped of all its finery and just as it appears at rehearsal time. Bert Howard is doing his wonderful piano specialty and Miss Bland is singing new and entertaining songs.

Galletti's Monkey Circus will make all the kiddies scream with delight, as these monkeys are the most wonderful on the stage.
Mignonne Kokin, the dainty singing comedienne, is one of the best dancers on the vaudeville stage, and Ziska and King, the burlesque jugglers, have a great act. Mr. Ziska gives his famous impersonation of the original Hermann.

The bill closes with a line of new pictures in the kinetograph.
From the viewpoint of the production of a new and magnificent work, the presentation of Max Bruch's "Cross of Fire" is one of the most notable occasions of the season. In addition, the festive chorus and orchestra will sing "The Belated Violet." The date is Thursday, Nov. 27. The subscription list is now open at Massey Hall.

The great Paderewski has arrived in America and began his tour this week. So great was the demand for him that the original tour of 40 concerts has been enlarged to 80. He appears at Massey Hall on Wednesday, Nov. 27. There will be no subscription list, but the sale will begin on Tuesday, Nov.

19. Among the numbers promised by the Polish pianist, which have not yet been published by him in this country, are: "Variations" (a new set) and a sonata; Beethoven's sonata in B flat, op. 27, No. 1; Chopin's scherzo in B flat minor; two études and a nocturne by the same composer; Stojowski's "Chant d'Amour" and Liszt's transcription of Schubert's "Auf dem Wasser Zu Singen."

A musical musical comedy in two acts, interspersed with a vast diversity of catchy, tuneful songs and music will be the attraction at the Star Theatre next week. It bears the title of "Mr. Wise From Broadway," and is presented by the Kentucky Belles, one of the best known burlesque troupes before the public. The olio is exceptionally good, containing the following meritorious acts: Flomen and Miller, "The English Americans"; The Three Melvins, gymnasts who are truly great; Cocca and Amato, fancy and novelty dancers, in "The Mixer and the Maid," and Andy McLeod, the "Irish Minstrel."

A vocal recital will be given by F. H. E. in the Conservatory Music Hall, on Saturday evening, Nov. 2. Mr. Burr will be assisted by Miss Ada.

F. Twihy, pianist. Cards of admission may be obtained at the Conservatory office.
The Conservatory School of Expression announce a recital of Shakespeare's "As You Like It," by Miss Dot Fraleigh, a pupil of the school, on Friday, Nov. 8. This recital is the second of the series of recitals by members of the faculty and students, previously announced. Invitations may be secured on application at the office of the Conservatory of Music.

HOFBRAU

Liquid Extract of Malt

The most invigorating preparation of its kind ever introduced to help and sustain the invalid or the thistle. W. H. LEE, Chemist, Toronto, Canadian Agent. Manufactured by REINFART & CO., TORONTO, ONTARIO.

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the by no means insignificant discoveries in medicine comes that of

THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rastan, Jobert, Velpeau, Maisonneuve, and the well-known Chassagnac, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy, we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has been the famous philosopher's stone, being the object of search of some hopeful, generous mind; and far beyond the mere power, if such could ever have been discovered, of transmuting the base metal into gold, it is surely the recovery of a remedy so potent to replenish the failing system, and to remove the cause of the disease, and in the other so effectual, specific and safe, to expel from the system without the aid, or even the knowledge, of a second party, the poisons of acquired or inherited disease in all their protean forms as to leave no doubt of its value.

THE NEW FRENCH REMEDY.

which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine, wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. Therapion may be obtained of the principal chemists throughout the world.

BOX CARS WRECKED.

Accident at McDougall's Chutes Which Might Have Been Worse.

McDOUGALL'S CHUTES, New Ontario, Nov. 1.—(Special).—The siding at this place was the scene of what might have been a very serious accident.

At 11 o'clock, as the third gravel train for construction work was passing the siding, the first car having partly passed, the back wheels caught the metal leading to the siding and the train followed. There were on the siding at the time five box cars. One was thrown off the under-carriage torn away and the side. There were no bumpers, so that the remaining four cars ran off about 20 feet at the end of the track. The following were in the cars at the time: E. H. Baxter, North Bay; Engineer Smith of Godolphin, Operator Archie Nasmith; J. C. McCully, Inspector of the Ontario and Provincial Constable. All except the latter escaped with a shaking. McCully had the muscles of his leg hurt in jumping from a car. He was attended by Dr. Johnson. Frank Tuohy and F. W. Duncan had just left the cars and were walking on the west side of the track when the impact came—Lincoln Morgan received a slight injury to the knee and one Italian a shaking up.

The loaded gravel train consisted of about twenty cars, plow car and engine No. 16. Three of the cars were thrown into a heap and upended.

INVITED BY COMMISSION.

CORNWALL, Nov. 1.—(Special).—Alex McCracken, mayor of Cornwall, and R. A. Pringle, M.P., have been invited to attend the meeting of the waterways commission at Ottawa on Nov. 5 to consider the application of the St. Lawrence Power Company.

It is understood that the town council and board of trade will appoint a delegation to act with the mayor and Mr. Pringle.

Pope Has Gout.

ROME, Nov. 1.—The Pope is again suffering from gout. He walks with difficulty, but continues his audiences.

SUCCESS COMES FROM ENERGY!

Every Man Can Have It if He Has the Energy Which My BELT Gives.

Energy is what makes success. This ambition which makes business men out of laborers; this spirit which awakens a man and leads him forward; this courage which backs up every intention to better himself; is nothing but nervous energy, which is created by electricity, the vital force of the body.

You can't build success without spending a great deal of nervous energy, and you can't spend nervous energy unless you have it.

DR. McLAUGHLIN'S ELECTRIC BELT

Will put new life into a body exhausted and debilitated. It will prepare any man for a battle for success by charging his nerves with the fire of vigorous energy.

It will make you strong. It will send the life blood dancing through your veins; you will feel the exhilarating spark warm your frame, the bright flash will come to your eye, and a firm grip to your hand, and you will be able to grasp your neighbor and feel that what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands in the past year.

My arguments are good, my system is good, but I know you haven't time to study these. You want proof, and I give you that, and lots of it. When your own neighbors tell you I cured them you will know I did it.

Dr. McLaughlin: Dear Sir,—Your Belt cured me of Sciatica in exactly three months. I do not now feel an ache or a pain. Yours truly, MRS. JOHN FLEURY.

Dr. McLaughlin: Dear Sir,—I received the Belt all right and am very pleased with it. It has done me a lot of good and I would not be without it now. I only wish I could have got it before. Yours truly, E. MAJOR.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and

PAY WHEN YOU ARE CURED.

The Dr. McLaughlin Electric Belt cures Indigestion, Constipation, Weakness of the Liver and Kidneys, Rheumatism, Neuralgia, Lumbago, Sciatica; overcomes the effects of exhaustive habits—every sign of Nervous System. GINGER UP! Use this Belt and become a man! Call at my office or send me this coupon and I will mail you my \$0.95 FREE BOOK. It points the way to Health and Prosperity.

GOES LONG WAY ROUND AS SHORTEST WAY THERE

Why Woodlawn-Avenue Should Be Extended—Extension Talk Provokes Scene.

In support of the request that Woodlawn-avenue be extended to Avenue Road, A. E. Benton addressed the works committee yesterday. He explained that he wanted the extension because at the present time he had to make a detour of one and one-quarter miles when visiting friends a few hundred yards to the west. He said that the McCormack estate, in its desire to keep its property intact, had at one time offered to provide an outlet to Farmham-avenue by dedicating a lot to the north of the city.

A. A. Selwyn, solicitor for the estate, claimed that the speaker's statement was simply a bluff, whereupon Benton advised him to "call the bluff."

The reply was that the extension would be so costly that it would absorb the McCormack estate property. Another petitioner, J. Swan, charged the solicitor with having said that the extension would "ruin every man on the street," but this the latter denied.

"You're a liar" was the retort, whereupon Chairman Aid. Geary intervened. It was decided to have a report from the city engineer and assessment commissioner.

Ald. Chisholm moved that the city engineer and assessment commissioner report on the extension of Badger-avenue, easterly to Marjorie-avenue, which was carried.

In receiving Mr. Rust's report, that the cost of that portion of the sea-wall between Indian-road and the Humber would be approximately \$250,000, Ald. Foster took occasion to protest against any further cribbing being done for the present, as he claimed, the wintry stormy work may have with uncompleted work. Mr. Rust explained that there was no intention of proceeding further until next year.

The city solicitor will report on whether the city has any legal right to attempt to exact penalties amounting to \$250,000 from the Canada Foundry Company for delay in delivering water pipes from July 17 to Sept. 7. Controller Hubbard pointed out that Mr. Chisholm had previously advised that penalties were not collectible unless damage to the city could be proven.

INTERMENTS.

The record of interments in the city cemeteries for the past three months is as follows:

	Aug.	Sept.	Oct.
St. James'	57	41	48
St. Michael's	55	38	34
St. Hope	19	28	24
St. Francis	113	125	110
St. Nicholas	16	13	32
Prospect	22	29	62

Those interred in Humboldt were 23, or 13 more than in August. The number interred in St. John's Cemetery, Norway, was 29, a decrease of 21.

TWO OLD KINGSTON PEOPLE DIE

KINGSTON, Nov. 1.—Mrs. Jane Whitfield, aged 95, died today. She lived in Kingston for over 85 years. Mrs. Leabell Hickey, aged 82 years, died last night. One was a Methodist, the other a Presbyterian. For over 75 years Mrs. Whitfield was a Sunday school scholar and worker.

FIRE AT MANGETAWAN.

MAGNETAWAN, Nov. 1.—L. F. Purdy's roller flour mill was destroyed by fire last night about 10 o'clock. The loss was over \$7000, with \$4000 insurance on building and contents. The cause of the fire is unknown.

COAL FOR U. S. FLEET.

GLASGOW, Nov. 1.—It was announced today that twenty-one steamers have been chartered here to convey coal and other supplies to the American fleet which is to visit Pacific waters.

Cald Maclean Escapes.

MADRID, Nov. 1.—Despatches from Tetuan convey a native report to the effect that several days ago Cald Maclean escaped, but was recaptured and put in chains by order of Raisuli.

WANT WHOLE MARSH FOR THE NEW SMELTER

Proposed Company is Already Planning for Extension of Works.

The Moose Mountain Smelter Syndicate would like to have the entire 828 acres of marsh for filling in the Ashbridge's Marsh, according to the report of Commissioner of Industries Thompson. The originally 450 acres had been asked for.

This would take in 79 houses and a church and Simcoe Park. They would leave about 2500 feet out of 4900 of frontage along the bay for city docks. "Leasehold would not be considered by the company," says the report.

"They want the area covered to be intact, and need the lake front, as an enormous amount of water will be used. The fact of them occupying the lake front at this point loses considerable of its significance when it is considered that the tract would be useless as a park with an iron and steel industry in close proximity."

The blast furnaces would be erected near the eastern park. The company would not ask for exemption, but think that a fixed assessment for a term of years should be granted.

The company intend to build their own tracks to serve their works, but this would not interfere with a spur line common to all railways on the north side of Keating's Channel and moving the new waterfront on the bay side.

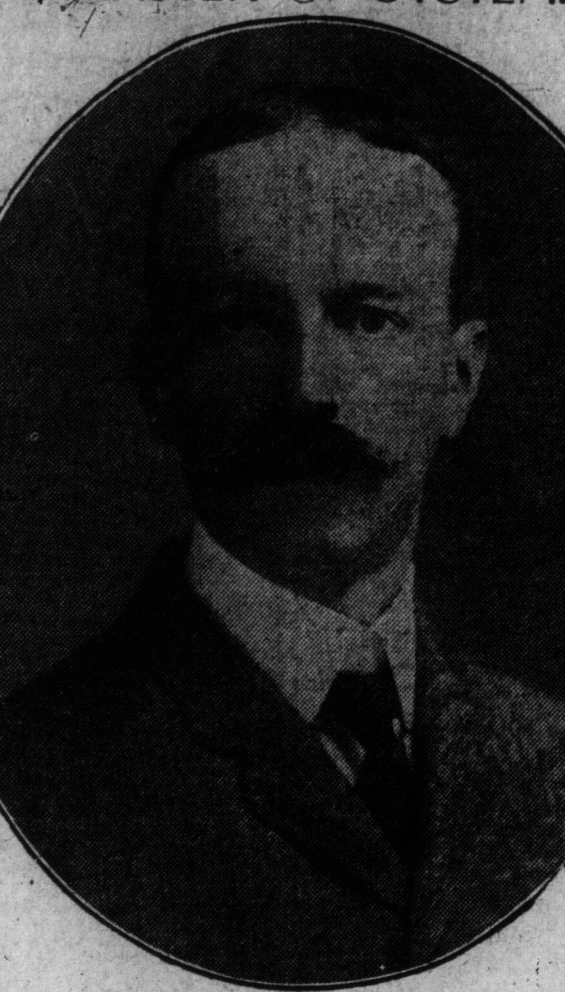

The Riverdale Business Men's Association was out in full force before the board of control yesterday to urge the early construction of the proposed \$80,000 spur line into Ashbridge's marsh.

The increased taxes from the enhanced value of the land would more than pay for it," said Mr. Monaghan. "The fact that only four industries will be served is the strongest argument for the line. One manufacturer who went to the Junction told me he would have located there if he had the facilities."

The board decided to go down and go over the ground before coming to a decision.

Oster Wade, assignee of the Pools Publishing Company, has accepted the tenders of the Canada Paper Company, Brown Bros. Limited, Copp-Clark, Limited, J. A. MacAlpine and J. A. MacAlpine Company for the first portion of the stock, amounting to about \$25,000.

A MASTER OF SYSTEM.

CHARLES P. CREAMER
Managing Director Semi-Ready, Limited.

The big Semi-Ready Tailoring Company in Montreal was reorganized a few years ago by some American, as well as by Canadian, capitalists. Two former residents of Toronto—Messrs. Charles H. Nelson and Alfred Wood—secured control of the majority of shares in the company early in 1906, and after reconstructing the affairs of the business, they sought out one of the best masters of business system in New York.

Charles P. Creamer, the present managing director of the Semi-Ready Company, is credited with being one of the ablest executive officers in America, and he has, within six months, carried out the ideas of the directors with more than initiative skill. He is the owner of a considerable block of stock in this great tailoring house.

First carried out on the conception of a prominent shoe manufacturer in Montreal, the "Semi-Ready" idea for a few years was handicapped by the erratic genius of the enthusiastic builders. Yet the fundamental strength of a system which must eventually revolutionize the whole industry of making men's clothes, was such that it conquered, despite any unwisdom and lack of business foresight in its earlier days.

Too much profit was being made by the retailers, for instance, and this had to be rectified. The retail managers of the stores became rather greedy when success was assured, and would make a profit of \$5 on every \$15 sale, and then they complained of consequent lack of sales and quality. These retailers were gotten rid of. A part of the Semi-Ready claim is that their goods cost more to make, and are sold at a less profit than any tailored or ready-made clothes.

Mr. Creamer, the new managing director, soon demonstrated his possession of a high order of organizing ability. The Semi-Ready business had developed from a local to a world-wide organization. In the transformation, it was necessary to erect a system which would have a perfect routine without. The present-day modern system has replaced the one-man motive power in all successful industrial enterprises. Mr. Creamer represents the "to-day" in business as against the methods of "yesterday."

ESTATE NOTICES.

TRUSTEE'S NOTICE TO CREDITORS. In the matter of The Berlin Electrical Mfg. Co., Limited, of the City of Toronto, in the County of York, insolvent.

Notice is hereby given that the above-named insolvent has made an assignment to me, under the provision of Chapter 197, R.S.O. 1897, of all their estate and effects, in trust for the benefit of their creditors.

A meeting of the creditors of the said estate is hereby convened to meet at my office, Imperial Bank Chambers, on Friday, the 8th day of November, 1907, at 10 o'clock a.m., for the purpose of receiving a statement of the affairs, appointing inspectors and fixing their remuneration, and for the ordering of the affairs of the estate generally.

All persons claiming to rank upon the estate of the said insolvent must file their claims with me on or before the 15th day of November, 1907, after which date I will proceed to distribute the assets thereof, having regard to those claims only of which I shall then have received notice, and I shall not be responsible for the assets of the said estate, or any part thereof, to any person or persons whose claim or claims shall not have been filed.

HARRY VIGORON, Trustee.
Toronto, 1st November, 1907.

JUDICIAL NOTICE TO CREDITORS. Contributors, Shareholders and Members of the Old Chap Mining Company, Limited.

Pursuant to the winding-up order in the matter of the above-named Company, made on Monday, the 11th day of November, instant, at 10 o'clock in the forenoon, at his Chambers at O'Connell's Buildings, Toronto, I appoint a permanent Liquidator of the above Company.

Let all parties then attend if they so desire.
(Signed) JAMES S. CARTWRIGHT, Official Referee.

ADMINISTRATOR'S NOTICE TO Creditors in the Surrogate Court of the County of York, in the estate of Henrietta Casoli, late of the City of Toronto, deceased.

Notice is hereby given pursuant to the Revised Statutes of Ontario, Chapter 129, Section 38, that all persons having claims against the estate of Henrietta Casoli, who died on the 10th day of June, 1907, at the City of Toronto, in the Province of Ontario, are required to send by post, prepaid, to the undersigned solicitors for the administrator of the said estate, on or before the 15th day of December, 1907, their names, addresses, and the statement of their respective claims, and the nature of the security (if any) held by them.

And further take notice that after the said 15th day of December, 1907, the said administrator will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which he then shall have notice, and that the said administrator will not be liable for the assets, persons of whose claims notice shall not then have been received by him.

KERR, BULL, SHAW & MONTGOMERY, Solicitors for the Administrator, Henry Britton, Esq., 200 Queen's Quay East, Toronto, Ont.
Dated at Toronto, this 21st day of October, 1907.

NOTICE.

Notice is hereby given that Catherine Ann Cannon of the City of Toronto, in the County of York, and Province of Ontario, will apply to the Parliament of Canada, at the next session thereof, for an act to amend Chapter 129 of the Revised Statutes of Ontario, in relation to the winding-up of companies, and to give effect to the provisions of the said Chapter 129, in relation to the winding-up of companies, and to give effect to the provisions of the said Chapter 129, in relation to the winding-up of companies.

HEYD & HEYD, Solicitors for the applicant, The Surrogate Court of the County of York, in the County of York, and Province of Ontario, on the ground of adultery.
Dated at Toronto, this 2nd day of November, A.D. 1907.

MORTGAGE SALE.

Under and by virtue of the powers contained in a certain mortgage, which will be produced at the place of sale, there will be offered for sale at Public Auction, by C. J. Townsend & Co., Auctioneers, at their Auction Rooms, 44 West King-street, in the City of Toronto, in the County of York, on SATURDAY, THE 9TH DAY OF NOVEMBER, 1907, the following property:

All and singular, that certain parcel of land and premises situate, lying and being in the County of York, in the County of York and Province of Ontario, being composed of the southerly part of Lot No. 8, according to a plan filed in the Registry Office for the Western Division of said City as No. 81, and which parcel is more particularly described as follows:

Commencing at a point in the easterly limit of Bathurst-street, distant eighteen feet and four inches (18 ft. 4 in.), measured northerly therefrom, and extending westerly along the said lot, the southerly angle of the said lot, thence easterly to and along the place of the line, and continuing thence easterly and parallel to the northerly limit of said lot, a distance of one hundred and twenty-six feet (126 ft.), to the westerly limit of said lot, thence southerly along said lot, a distance of one inch (1 in.), to the southerly limit of said lot, thence westerly along the said southerly limit one inch (1 in.) to the easterly limit of said lot, thence southerly along the said lot, a distance of one hundred and twenty-six feet (126 ft.), to the westerly limit of said lot,
