THE
SIXTEENTH ANNUAL REPORT
OF THE
QUEBEC DIOCESAN COMMITTEE
OF THE
SOCIETY FOR PROMOTING CHRISTIAN KNOWLEDGE.

JANUARY, 1835.

THE QUEBEC DIOCESAN COMMITTEE of the SOCIETY FOR PROMOTING CHRISTIAN KNOWLEDGE, in communicating to the General Meeting the Report of their proceedings during the past year, beg leave to express a hope that the friends and supporters of the Institution will not find it devoid of interest.

Moral improvement being necessarily slow in its progress, it is not to be expected that the operations of the Society should be attended with results of a marked character; but there can be no doubt that the exertions made have been productive of much good, and that the seeds of religious instruction sown through the instrumentality of the Society, have in many instances been followed with the Divine blessing, and brought forth corresponding fruits.

The circulation of that knowledge which flows from the sources of Divine Truth, is the most efficacious means of promoting the well-being of society, and the eternal welfare of mankind. The greatest benefit which can therefore be conferred upon society, is to promote and diffuse knowledge having Christianity for its basis.

Such has been the constant aim of this Society, and by such principles have its operations been actuated; and it is to enable it to continue exertions of a character so beneficial, and to promote objects so desirable, that it still calls

for the support of its members and friends. This support becomes the more necessary as its sphere of operation becomes enlarged. The tide of emigration flowing into these Provinces is every year adding thousands to the population, and the proportion of it directed to the uncultivated parts of the Lower Province, has, of late years, been on the increase: numbers of our brethren are every year forming themselves into new settlements in remote parts of the Province, where, without Church or Minister, they are not only deprived of the means of hearing the word of God preached, but also of receiving proper education and instruction. They are thus left, either to regret in the solitude of the wilderness that they are out of the reach of those spiritual blessings to which they had been accustomed in their native land—or by having been long deprived of them, have perhaps learned to look upon them with indifference and unconcern, or what is still more to be regretted, have probably yielded to the seductions of such as sought to pervert them from the truth. To assist them in relieving the spiritual wants of such persons, as far as books can do so, on a larger scale than they have been hitherto able to do, to co-operate with them in sowing the good seed where otherwise tares would infallibly spring up, the Committee invoke the benevolence and support of every friend of true religion.

The account given in the Report last received, (which was that for the year 1833) of the prosperity of the Parent Society, is in the highest degree gratifying. The receipts of the Society for the previous year, amounted to £70,336 19s. 8d. being an increase of above four thousand pounds over those of the year 1832. Which increase had not arisen from any extraordinary sources, but was to be attributed to a regular and progressive improvement in the benefactions and subscriptions, and in the amount received for the Society's publications. The number of books and tracts circulated during the year, had far exceeded that of any former year. It exceeded that circulated in 1832 by 364,018; the total amount of the year's circulation being 2,079,341. From this gratifying information, some idea may be formed of the exertions of the Society, and of the success which attends them.

The Committee think it proper to direct the attention of the members to the Report of the Committee of General

Literature and Education, Appendix No. 1. The circumstances which led to its formation, are alluded to in the Report, and were,—the increasing demand for religious and general information, the very unsatisfactory mode in which that demand was supplied, and the manner in which the increasing power of the press was directed towards the subversion of religion, and of the religious institutions of the country. The following extract from the Report must be satisfactory to the members, and may serve to direct their attention to the interesting publication therein mentioned:—“The first object to which the Committee directed their labours, was the establishment of a cheap weekly publication; and they have the pleasure to report that *THE SATURDAY MAGAZINE*, which they commenced publishing on the 7th of July last, has completely fulfilled their expectations. With one exception, it has outstripped all its contemporaries in the extent of its circulation; and the effect of its competition has been to produce a decided and acknowledged improvement in this branch of popular literature. The whole number of copies issued during the ten months which have elapsed since its establishment, amount to above four millions and a quarter; and its regular sale is now about eighty thousand. The success of such a publication cannot but be a source of satisfaction to every one who feels an interest in the progress of sound principles, as affecting the welfare of society. Without any appeal to the passions or prejudices of men, it has made its way, in a time of strong political excitement, among all classes of the people; a fact, from which it may be inferred, that when the tastes and habits, and the means of the people are consulted, in the productions of popular literature, a preference for that which is good may reasonably be calculated upon by those who are engaged in promoting their welfare. And it is hoped that by thus mixing amusement with instruction, the principles of the Society and the truths of religion now find their way to multitudes of persons who might not so readily have received them through any other channel.” It is unnecessary to enlarge further upon the matters contained in the Report, but the Committee would recommend it to the perusal of the members.

No additional District Committee has been established within the Diocese since the last General Meeting.

The Committee proceed now to submit to the General Meeting, a detailed statement of its proceedings during the past year, as respects each branch of the Institution ; the first relating to the distribution of books and tracts :

The amount of sales at the Repository since last January, is £131 13s. 4d. including £1 3s 6½d. charged to the Sunday School Society, being for books sold for Sunday Schools. Books have been procured by the Lord Bishop of Quebec to the amount of £25 7s. 2½d. And the undermentioned Clergymen have received supplies of Books from the Repository for distribution :—

The Venerable Archdeacon Mountain, the Rev. Messrs. Sewell, Burrage, Whitwell, Doolittle, Alexander, Anderson, Grasset, and Brown. The whole amounting to £20 8s. 1d.

Books to the value of £6 11s. 7d. have also been sent to the following Catechists :—

Messrs. Hoffman, Eden, Benson, Knight, Lane, Tuzo, Wood, and Turner.

Books to a limited amount have been, as usual, gratuitously distributed to the poor and sick by the resident clergy in Quebec, the amount of which is included in that of Books furnished to the Clergy. A portion of these Books was taken down to Grosse Isle by the Clergy, when visiting that station, and was left for distribution with the resident Medical Officer, who kindly took much pains to give them an effectual and advantageous circulation. A grant of Prayer Books was also made by the Diocesan Committee, for the use of the different wards of the Gaol and House of Correction of this city, they having been previously supplied with the Holy Scriptures. The cost of Books furnished to the National School is, for the year, £5 3s. 1d. The different Sunday Schools connected with the Church of England, in this city, have also been supplied with such books as they required from the Repository. The St. Roch Sunday School, formerly held in a building lent by Mr. Finch, has been removed to St. Peter's Chapel, lately erected in that suburb. This school is in a prosperous state, the number of children attending it being on the increase. An Infant Sunday School has also been established in St. John's Suburbs within the last year. The number of children who are receiving the benefit of instruction at these Sunday Schools exceeds 400, and there is every

reason to believe, that under the Divine blessing, they are instrumental in producing much good. The amount to which they have been supplied with books from the Repository is £7 7s. 9d.

The following statement exhibits the number of Books issued from the Repository from January, 1834, to 15th January, 1835 :—

Bibles	51
Testaments	18
Prayer Books	246
Bound Books	362
Tracts	4107
	<hr/>
Total	4784
	<hr/>

Three cases of Books were received in May last, the cost of which was £95 6s. 6d. sterling. These were to supply the place of the Books which had been shipped on board the *HELEN* in September, 1833, and which had never been received, that vessel having been wrecked near the entrance of Miramichi River, on her way out. An additional supply of Books to the value of £196 11s. 2d. sterling, was sent out in May and arrived in August last. Among these are several new and interesting Books and Tracts, not to be found in the former catalogue.

At the last General Meeting, a resolution was adopted, declaring it to be expedient to establish additional depôts for the books of the Society. In pursuance of which resolution, four branch Repositories have been established in the following parts of the city :—In St. John Suburbs, at the Messrs. Rickaby's, near the Burial ground ; in Mountain Street, at Mr. Wheatley's, the Stationer ; at Mr. Irvine's, in the Cove School, Mariner's Chapel ; and at Mrs. Marshall's, in St. Vallier Street, St. Roch's Suburbs. It is also in contemplation to establish a fifth in the Upper Town. The Central Repository will be continued in the lower part of the building of the National Schools where it has hitherto been kept.

The Committee will conclude this branch of their proceedings, by giving a brief statement of their accounts with the Parent Society. The outstanding debts of the Committee

amount at present to £30 14s. which the Committee have no doubt of being able to collect. In the month of February last, a Bill of Exchange for £100 sterling, was purchased here and sent to the Secretary of the Society, the proceeds of which were placed to the credit of the Quebec Diocesan Committee. The amount of Books sent out by the Society in March and May last is £291 17s. 8d. sterling, from which is to be deducted the above £100 sent home in February, leaving a balance of £191 17s. 8d. sterling, now due by the Committee to the Parent Society. The balance in the hands of the Treasurer and Librarian, is £246 13s. 6d. out of which must immediately be taken the above sum due to the Society for Books. The balance which will then be left in the Treasurer's hands will be very inconsiderable. The sum, however, of £120, mentioned in the last Report as due to the Committee by the Treasurer of the National School, still remains unpaid, in consequence of the low state of the School fund.

The Committee now proceed to notice the second branch of the Institution—the Education of the Poor upon the Madras system—and they have great satisfaction in being able to state, that the Central Schools have been conducted with zeal and ability by the Master and Mistress respectively in charge of them. The number of children now on the books amount to 251, and the average daily attendance consists of 171. The number admitted since the last Report is 209. The public examination took place on the 24th of last December; the following extract from the account given of it, cannot fail to afford ground of satisfaction to the members:

“ The children of the male and female National Schools of this city, were publicly examined on Wednesday last, and the result was the most highly satisfactory. His Excellency Lord Aylmer was pleased to attend the examination of the boys. Besides the inferior branches of education, in which a very considerable proficiency was manifested by the scholars at large—the more advanced boys exhibited a readiness which was really surprising, in mental Arithmetic, Geography, Geometry and Grammar. In a young and rising country like Canada, where so many openings present themselves to the intelligent and the enterprising, a knowledge of such branches of science may be of eminent advantage to these children in after life.

In b
Comm
remark
has, u
tude,

“ The number of children present in the schools was 224.
 “ The examination of the Girls’ School in the branches proper
 “ to that department, passed off in a most creditable man-
 “ ner.”

The whole number of children who have had the benefit of instruction in these Schools since their establishment in 1819, is 5925. The number on the Sunday School books is 182.

The Library attached to the Sunday School contains 260 volumes of a moral and interesting nature, comprising 21 volumes of the Saturday and Penny Magazines, which were kindly contributed by Mr. Symes, the Superintendent, on his return from England last Spring.

The Committee cannot dismiss this branch of their labours without calling the attention of the public to the state of the funds of these excellent and highly useful institutions. It was a resolution of the last General Meeting that the Members of the Committee should be requested to take charge of a subscription paper to circulate among their acquaintance in aid of the funds of the Schools which were then in a very reduced state, and the Committee regret that their exertions have not been attended with much success—a circumstance to be no doubt attributed, in a great measure, to the extreme pressure of the times. Temporary relief has however been afforded by the sale of part of the lot of ground upon which the School House is erected, and which was not required for the purposes of the Institution. The net proceeds of the sale were £83 10s. 1d. and the addition of this sum to the funds of the Schools, enabled the Committee to pay the salary of Mr. Jameson, the present Master, which in consequence of the acknowledged value of his services, has been augmented to £100. This relief has, however, been but temporary, and unless the public come forward and afford more ample support to these institutions than has hitherto been done, they will again be shortly involved in renewed difficulties.

In bringing their Sixteenth Report to a conclusion, the Committee, on a review of its contents, may be permitted to remark, that although the degree of prosperity with which it has, under the Divine blessing, been favoured, calls for gratitude, there is yet a wide field for further exertion in the

advancement of the objects which the Society has in view. These objects are to train up the young in the path of life, in the hope that they will not depart from it when they are old, and to circulate the Book of God and other devotional Books and Tracts, amongst the poor of more mature years, who would otherwise perhaps dwell in darkness, without a single ray of Gospel light shed upon their benighted minds, and thus to increase the love of God, and to promote useful knowledge.

These objects are doubly important in a country situated as this is, receiving a constant influx of new inhabitants, and thus opening on every side new Channels through which the light of the Gospel may be poured into the minds of thousands of our countrymen, who are in many instances without the means of improving themselves and instructing their children in the principles of moral and religious duty. To assist them in advancing these great objects, the Committee request increased exertions and support from the Members of the Society, and the zealous co-operation not only of every Member of the Established Church, but of every friend to Christianity.

By order of the Committee,

W. M'TAVISH,
Assistant Secretary,
