STUBBORN FIGHT ALONG THIRTY MILE FRONT IN CHAMPAGNE DISTRICT

Heavy Losses by Both French and Germans -- Allies Now Match For Enemy in Big Guns--Stormy Weather Makes it Hard in Trenches

Paris, March 3.—A stubborn battle is raging over a thirty mile front in the Champagne district, where the French and Germans are struggling for the possession of strategic positions. Both sides have lost heavily in that region, and at some points both sides claim victory.

The French official despatches state that the French troops have captured some German artillery supports as well as trenches and barricades constructed of fallen trees and bags of earth.

The feature of the fighting along the northern end of the battle line, is the heavy artillery fire. The French and British are now on equal terms with the Germans in the matter of big guns, and the German artillery is kept on the move from position to position avoiding the accurate fire of the allies' cannon.

Stormy weather continues and at some points the soldiers are lying in trenches that are nearly half full of water. This has led to a great increase in the cases of rheumatism and pneumonia in the hospitals. A severe snow storm is raging over the Vosges. At some places the snow is so thick that the soldiers in the opposing armies fight without seeing each other.

KAISER TO FRONT London, March 3.—An Amsterdam despatch to the Express says Emperor William is expected to go to the front very soon, to witness a series of attacks in West Flanders for which the Germans are preparing. Many fresh German troops are pouring into Belgium.

London, Mar. 2.—The officers and crews of British warships present at the capture of destruction of an armed hostile ship will share in the distribution of prize money, calculated at \$25 for each person on board the enemy vessel at the beginning of the engagement. This order-in-council was promulgated today.

WOULD DESTROY ALL GOODS DESTINED FOR GREAT BRITAIN Amsterdam, March 3.—(Via London 125 p.m.)—The Cologne Gazette, commenting on Premier Asquith's recent speech, in which he outlined Great Britain's retaliatory measures for the German's submarine blockade of the British Isles, says:

Our submarines will now, we hope, endeavor to destroy all goods destined for Great Britain. Great Britain wishes war to the knife, she shall have it."

MUST BE PRIVY COUNCIL ORDER London, March 3.—Until the Privy Council issues an order, the declaration that trade to and from Germany and allied countries is to be stopped, will not be effective, in so far as Great Britain is concerned. Orders-in-council are frequently dated back; consequently the date when the declaration is supposed to become effective.

Down Prince Now Said TO BE IN DISGRACE New York, March 3.—A special to the London Daily Express and New York Herald from Geneva says:— For nearly two months nothing has been heard of the German Crown Prince, either from military headquarters or from Berlin. A report that he has been killed is wholly discredited, but his sudden retirement into obscurity has been the cause of much speculation. News received here from Innsbruck states definitely that he is in disgrace and by the Kaiser's express command is living in strict seclusion in Berlin.

Weather BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

Synopsis.—The cold wave is now centered over Lake Superior while a depression situated in Texas will likely move toward the Great Lakes. Fair, cold weather prevails in Canada.

Fair and Colder. Maritime—Strong breezes to moderate gales, northwest to northerly. Local snow flurries, but mostly fair and colder today and on Thursday.

New England forecasts—Fair and continued cold tonight and Thursday; moderate northwest to north winds.

REV. MR. KUHRIG TO THE RIFLES

Chaplain To The 6th Is Announcement Today USE FOR CAMP SUSSEX

Extensive Plan Being Worked Out—More Recruits For New Field Artillery—Ready For Inspection

Rev. Captain G. A. Kuhrig, whose appointment as chaplain with the Second Canadian expeditionary force was announced some time ago, has received orders from the militia department assigning him to the 6th Mounted Rifles.

Speaking of the appointment this morning, Rev. Mr. Kuhrig expressed his gratification in receiving the post with such a fine body of men.

The opinion is held among militia men in the province that Sussex will be the centre of mobilization for troops on a large scale during the coming summer. The belief is that a large body of men will be put under canvas in the early spring the big grounds being used as a training centre and as the recruits for the 25th Field Artillery, 7th Brigade.

Recruits Offering. A long line of volunteers arrayed themselves before the recruiting office in the army this morning waiting for an opportunity to enroll as members of the 25th Field Artillery, 7th Brigade, for which orders had been received by Captain J. R. Miller to recruit.

Leut. R. A. Major, of the 62nd has been detailed as instructor for the men recruited in St. John and who are being held here prior to being sent to Amherst, where they will be sent to a route march to Manchester's field, carrying noon-day rations. The unit is also in a state of preparation for the inspection. Drill was continued today in the vicinity of their quarters.

The recruits taken here for the 6th C. M. R. are pending the time before leaving for Amherst in a steady programme of drill. Their departure has been delayed a few days because that will not be much longer before they move to headquarters in Amherst.

Norman L. McNeil, an employee of the store department of the I.C.R., who has enlisted with the 6th Mounted Rifles, Third Contingent, has received from his fellow clerks a gold watch and a purse of gold. For the last nine years he has been a member in the 8th Princess Louise Hussars, holding the rank of sergeant for five years.

The following Sackville boys have been accepted for overseas service with the 6th Mounted Rifles—Sergeant Stanley Barnes, Woodville; Archibald Estabrook, Upper Sackville; Reginald Hicks, Middle Sackville; James Loette, Middle Sackville; Abner White, Middle Sackville; Harold Milton, Sackville; Earl Estabrook, Sackville; Manford Babcock, Upper Sackville; Thomas Babcock, Upper Sackville; Fred Fitzpatrick, Port Elgin; Roy McDonald, Port Elgin; A. W. Fryers, Shediac; J. W. Landell, Truro.

More for Frederick. Instructions were received yesterday by Q. M. Sgt. Wm. Ellis, Royal Canadian Engineers, forman of military works in Frederick, to have the military and other arrangements at the exhibition buildings put in readiness for the reception of a new body of troops to be mobilized in Frederick.

Military men are now expected an official order to follow, naming Frederick as the point of mobilization for the 25th Overseas Battery for the Third Canadian Contingent. Major W. H. Grey, the recruiting officer in this district, has already had eight volunteers make applications for places with the battery.

With the Patriots. (Sackville Post) A. C. Fawcett received a letter Monday from Geo. R. McCord. It was written in England on February 18th, and the writer stated he expected to leave the following day for France. Two other Sackville men, Rhodes and Lortie, were accompanying him. Parker Estabrook, son of G. F. Estabrook, in the course of a letter to his parents, says: "P. H. McCord is now at Tidworth barracks and is waiting orders to go to the front together with 130 more men from the 12th Battalion, to reinforce the Princess Patriots."

FOR EVANGELINE HOME Colonel C. T. Jacobs, social secretary of the Salvation Army for Canada, who is here in connection with the opening of the new Metropole, was in consultation this morning with the local officers regarding the welfare work in this city.

The army is considering several proposals with an idea of purchasing one of them for the use of the Evangeline Home and Hospital, and Colonel Jacobs is giving them the benefit of his advice on this matter also.

Mother and Three Children In Quebec Burned To Death

LOW DEATH RATE IN BRITISH ARMY PROBABLY RECORD

Disease Has Carried Off Comparatively Few Men STATEMENT IS ISSUED

Not a Single Case of Typhus or Cholera in Great Army in First Six Months of War—Most Cases of Mortality Were From Pneumonia

London, March 3.—The first six months of the war passed without a single case of typhus or cholera in the British army, including both the expeditionary forces and the troops in the British training camps.

Singapore claimed only one victim in the United Kingdom, but returns in this respect have not been given out by the armies in France and Egypt. Of 788 cases of diptheria only 41 ended fatally. So far the greatest causes of mortality among his troops has been pneumonia, which resulted in 87 deaths out of 1,500 cases.

As regards other diseases, 223 cases of typhoid fever and forty deaths are reported in the expeditionary forces, and 292 cases and forty-seven deaths in the troops in the United Kingdom. Scarlet fever had only 190 cases and four deaths in the expedition as against 1,700 cases and twenty-two deaths in Great Britain. Measles, a disease associated with childhood, sent 1,848 recruits to the English camp hospitals, with sixty-five deaths, while 50,000 men on the continent had only 175 sick from this cause, with two deaths.

Considering that the British army, regular and territorial, began the war with a total strength of 1,000,000 men, and expanded to about 2,000,000, the low death rate is said to have probably exceeded that of any other army.

The report of the Canadians being moved down camp sicknesses proved to be unfounded, and the admiralty now has in regard to a similar rumor affecting the naval division in training at the Crystal Palace, that only two per cent of the 5,000 men are now on the sick report.

BOSTON FIREMEN IN HARD FIGHT

Loss of \$150,000 Today at Corner of Summer and High Streets

Boston, March 3.—Boston firemen had their hardest fight in many months when they battled a six-story business block at Summer and High streets early today. The loss is estimated at \$150,000.

Wellesley, Mass., March 3.—Fire today destroyed the Alice Phillips Grammar school building here, causing a loss of \$100,000.

FEVERISH EFFORT TO RESCUE MEN IN MINE BUT WORK DIFFICULT

Ten Alive and Nine Dead Taken Out so Far; 143 Still in The Depths

Hinton, W. Va., March 3.—Rescue parties worked in relays throughout last night in a feverish effort to penetrate the depths of the Layland mines of the New River and Pocahontas Consolidated Mines Co., where 162 miners were entombed by an explosion yesterday. Ten miners have so far been taken out alive, while nine bodies have been brought to the surface, but owing to the wrecked condition of the mine rescue work is tedious, and it may be days before the workings have been explored.

THOUGHT HE WAS CHASED Two men arrested on charges of drunkenness were fined \$8 or two months in jail in the police court this morning.

Police Court. Two men arrested on charges of drunkenness were fined \$8 or two months in jail in the police court this morning.

Battering Down Turkish Forts

Allies Also Land Forces on Dardanelles Shore and Rout Garrison—Enemy Reported Sending Submarine Fleet

Athens March 3.—Nine battleships took part in Monday's bombardment on the forts in the Dardanelles, six British and three French. The squadron advanced to within two miles of Chanak Kalesi, at the narrowest point in the straits.

Detachments of the allies' troops were landed at Kimm Kalesi on the Asiatic side, met the Turkish garrison and scattered it easily. The telegraph station on Besika Island, near the entrance to the straits, has been demolished. On Tuesday it was reported that the allied fleet had destroyed the batteries at Chanak Kalesi (Fort Sultane).

ENEMY SENDS SUBMARINES. Geneva, via Paris, March 3.—An Austrian fleet consisting of six Austro-German submarines, accompanied by several torpedo boats and torpedo boat destroyers, left Pola, the Austrian naval base, at dawn yesterday for the Mediterranean, bound for the Dardanelles, according to the Telegram which bases its report upon what it characterizes as information received from a reliable source from Trieste. The fleet is said to have been last reported off Corfu.

A news agency despatch from Athens states that the batteries of Kalid Bahr and Fort Sultani, guarding the narrowest part of the Dardanelles, have been silenced, but this is not officially confirmed. It is said that the losses of British and French in killed and wounded are less than 600 despite the fierceness of the fire to which the allied fleet was subjected.

A Constantinople despatch denies that the success of the allied fleet in forcing an entrance of the Dardanelles, has compelled the retirement of the Turkish army of invasion in Egypt.

WAS GERMAN BUT BECAME BRITISH ON FIRST DAY OF WAR

GERMANS ARE BOMBARDING POLISH CITY

Petrograd, March 3.—A formidable bombardment of the Polish city of Olesowice has been commenced by Field Marshal von Hindenburg's army lying on the Bobr river, according to semi-official advice. "The Germans are expending a vast amount of shells in revenge for their defeat by the Russians at Phasany."

Revenge For Defeat by Czar's Men—Austrians Fail to Break Russian Front

AT THE INDOOR RANGE About forty members of the patriotic rifle company, under Captain L. P. D. Tully, spent the evening yesterday in a period of vigorous drill and then took up target work. For their use built have their drill and in their shooting they are not disturbed by and do not disturb the other patrons of the range.

THE GENERAL SHOOTING WAS STEADY yesterday but with few unusual scores except that of Private Downey, who scored 95 in the morning.

While there are some experienced rifle men who are shooting for the sake of sport there are many more who are taking an interest in the work for the time. While the boys are learning how to handle the rifles some of the surrounding scenery is damaged more than the targets. Several times a day usually it is necessary to effect repairs to part of the target apparatus which has been shot away. It is surprising how quickly an improvement is shown however and many fine scores are being made.

VALLEY OF CANADIAN EXPRESS CO. THIS YEAR The Canadian Express Company, which has long been established in St. John, is this year celebrating its fiftieth anniversary.

The company was incorporated on February 16, 1865, but its history dates back much further than that, as it was the successor of the British-American Express Company, and the latter's predecessor, Cheney, Rice & Company. For many years James Bryce was the active head, and since his retirement a few years ago, John Pullen has been the president.

THE HEAD OFFICE OF THE company is in Montreal; its capital stock is now \$1,700,000, and it covers a mileage of 9,676. The company's most important operations are over the Grand Trunk, Grand Trunk Pacific and Canadian Government Railway Systems, but they also serve a big territory over other lines.

THE COMPANY IS REPRESENTED IN St. John by H. C. Creighton, superintendent, and Joseph Taylor, agent.

YALE STUDENTS IN A LEACOCK PLAY New York, March 3.—The Yale University Dramatic Association made its annual New York visit last week, and there was a rush of tortoise-shell rimmed spectacles and English-cut clothes to the ballroom of the Waldorf-Astoria for the matinee and night performances.

Four playlets of widely different types made up a programme of striking contrasts that gave the students an opportunity of displaying their versatility. A most amusing travesty adapted from Stephen Leacock's stories, "Behind the Beyond," by Jack Randall Crawford, of the Sheffield Faculty, was the first number. The modern problem play with its eternal triangle was burlesqued delightfully on a miniature stage set within the proscenium. A box on either side of this secondary stage contained spectators who made their entrances through the audience.

There was the Tired Business Man and his wife in one box and a Sweet Young Thing Debutante and Abolitionist Gay, passionately fond of the dramaball, in the other, and between the acts they displayed the play from their individual viewpoints. The travesty was smartly written and the young men caught the spirit of it and played it in just the proper vein of burlesque.

THE SOLDIERS' BOOTS

More Evidence Given in Ottawa Today by Director of Contracts

Ottawa, March 3.—H. W. Brown, director of contracts for the militia department, was again on the witness stand today in the soldiers' boot inquiry. Testifying as to further orders for boots given besides those to which reference was made yesterday, he said that the Harst, Gaultier and Slater boots, out of an order of 40,000 on October 29, 30 and 31 and November 3, had been made after the departmental sample boot, whereas the Western, Kelian and Valentine firms' boots had been made according to a sample boot prepared themselves and approved by the inspectors to save time.

Mr. Brown was asked what urgency there was in regard to these orders and said that all he knew was a very short date of delivery had been given him. In these later orders storm call had been asked for in every case, and he understood, that had been furnished. Out of 15,000 pairs of boots ordered, another 4,000 pairs had been ordered in Winnipeg by the acting minister, Hon. T. D. Hazen, that, besides these, 19,999 pairs furnished by the Harst, John McPherson and Amherst Shoe Companies had been sent direct to Valcartier without inspection that the total number of pairs inspected outside the factory had been 91,177 and that 2,018 pairs of boots in had been rejected. It was decided to procure copies of the reports of the regional boards.

The Calgary board has found, for instance, that twenty pairs had been defective, the stitching of the soles having become loose, the leather being poor and porous and causing wet feet and sickness.

IMPORTANT SUCCESS AGAINST THE TURKS

Tiflis, Transcaucasia, March 3.—The Russian army of the Caucasus driving the Turkish forces before it, has reached the river Khopachas, the estuary of the Terek in Armenia. This advance by the Russians cuts the route of Turkish reinforcements and supplies from Constantinople to the Caucasian frontier through Khopa, Turkish Armenia, and isolates a large section of Turkish territory.

Have Started to Move London, March 3.—Telegrams received today by diplomats in London confirm the report that the Ottoman Bank and the German Bank of Constantinople are transferring their assets to Koniah, Asia Minor, and that the archives of the Turkish government have been removed to that point.

CONCERNING MOTHERS

To the Editor of Times-Star: Sir,—In my previous letter I did not say neglected homes were the cause of all drunkards. I said some. And I do not claim it is wrong to go to the Nickel. But there is a limit to everything, and many and many a five cent piece is spent for entertainment when it would be better spent for a cake of soap. True enough, there is many a drinker who has a mission for a home, and who is made to wet on him, and whose wife is not yet in the way of making a home, yet he may perhaps belong to some club. I think I am right when I most emphatically say that if mothers would stay by their homes and husbands a little more than they do, the world would be better. We laugh at the old-fashioned way the mothers used to have of making patch-work and staying at home and raising a family. From what I can learn the women in olden times lived longer than they do today, and they worked harder and did not have places of entertainment to which to go to keep them from the asylum. As for not knowing what I am talking about, most certainly do and would only to have gladly go and help some of these poor women, but I am a poor woman myself, with a little family, and my time is long and late to make ends meet. I did not write my letter to criticize, it was only to help.

LAST OF SERIES OF INSTITUTE MEETINGS

Rev. Gordon Dickie the speaker at the city S. S. training institute last evening at his meeting held in the schoolroom of Portland Methodist church. He gave an interesting address upon the "Social Life of the Hebrew People." He said that among this people the national spirit was strong. The Hebrew was an intense patriot. Discussing the social conditions of Old Testament times, the speaker went on to say that the problems of wealth and poverty were pressing then even as they were today in all parts of the civilized world. The gospel of Jesus Christ came to men with a message for rich and poor alike, and had within itself the power of redemption from the sins which were associated with both wealth and poverty.

BACK FROM SALISBURY PLAIN, INVALIDED HOME

Twelve Canadian soldiers returning from Salisbury Plain passed through Moncton last night en route to their homes in Ontario and points west. It is said they were invalided home because of rheumatism or other complaints. A Moncton chauffeur was fined \$10 and costs for reckless driving on civic election day. The car belongs to one of the candidates and was hurrying to the polls with electors.

FRENCH WAR REPORT

Paris, March 3.—The War Office reports: "There is nothing of importance to add to last night's communication. In Champagne we hold the entire first line of German trenches from a point north of Perthes to north of Beaunjour, and at several points we have progressed beyond this line. The progress at various points, reported yesterday, is confirmed. This progress has been maintained everywhere. There has been cannonading in the Argonne. On the rest of the front there is nothing to report."

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphated magnesia, which can be obtained from any druggist, and should always be kept handy.

Tonic Iron—

Why do we put it in VINOL? Because cod liver oil lacks just one ingredient the blood needs—tonic iron.

So, in taking Vinol, you get two tonics in one.

All the medicinal elements found in the cod's livers and their oil, and tonic iron added.

This makes Vinol the finest body builder and strength creator we have ever sold.

A Broad street business man was joking a friend about his residence in a certain dreary district of Jersey.

"Why do you live there, say now?" he asked.

"So as to save money."

"Is food any cheaper?"

"On the contrary, it is slightly more expensive."

"How do you save, then?"

"No opera, \$200 a year; no cafe meals, \$300 a year; no theatres, \$400 a year; no taxicab fares, \$30 a year; no distractions of any kind, \$75 a year."

"See here, old top," expostulated the Broad street man, "couldn't you save some money if you died?"

THE WAR NEWS.

Germany has replied to the American note which expressed hope that an agreement might be reached between Great Britain and Germany to free neutral commerce from the dangers to which it is now exposed. In reply to suggestions made by the American government, Germany expresses a willingness to abandon the use of drifting mines, and not to employ force against mercantile vessels which do not oppose the right of search, providing the latter also abstain from the use of neutral flags and from carrying guns.

LOANS FOR FARMERS

The potato growers of the State of Maine have petitioned congress asking for the establishment of a series of farm loan banks. They declare that the present banking system in the United States is entirely inadequate for the needs of the farmer. They point out that a Federal Farm Land Bill which was before congress in 1913 was not passed, and they declare that, perhaps with some modifications, it would meet the requirements of the farmers, especially if Farm Loan Associations were established.

The strength of Russia is impressing itself more and more upon the mind of the world. The Russian armies when they retire merely do so in order that they may return to the attack with greater vigor. They are again strongly on the offensive along the whole eastern front, and the reports from Petrograd indicate a successful if slow progress.

What is described as a semi-official statement from The Hague is to the effect that Holland is still determined to maintain her attitude of complete neutrality, and that she is not preparing to enter the war.

Sir John French confirms a previous statement that a party of the Princess Patricia's captured a German trench and displayed great dash in the attack while all along the British line the enemy has been held in check or forced slowly backward.

A cable from Athens declares that the allied squadron has advanced within two miles of the narrowest point in the Dardanelles, and that they have captured a fortress on the Asiatic side. A report comes from Geneva that a fleet of Austro-German submarines, torpedo boats and torpedo boat destroyers is on the way to the Dardanelles. This lacks official confirmation.

Today's cables give figures showing the losses sustained in the British armies through sickness, and the losses for seven months, in proportion to the number of men enlisted have been so small that the low death rate is said to have probably established a record. Evidently the provision for the health of the troops has been of the most thorough character.

THE POTATO INDUSTRY. The potato growers of the state of Maine have been in conference this week in Bangor, and proper grading and co-operative marketing were two of the strong points urged by the various speakers. Mr. J. E. Merriam, who is distributor for the Farmers' Union of Maine in New York City, said that in Maine in 1914 many potatoes had been shipped from Maine which had gone through six or eight hands before reaching the consumer, and the aggregate profits were far more than the farmers received for four years labor in producing the potatoes.

With eight square miles of land unoccupied within its limits St. John has ample room for expansion. As a matter of fact, however, a good deal of the expansion is taking place outside of the present city limits. The fact that building operations are likely to continue without serious interruption from year to year should increase public interest in the subject of town planning, and in the visit of Mr. Thomas Adams, the town planning expert, at the end of this week.

Statue of Mrs. Edith Gerstenberg, who has "perfect back," and Mrs. Nancy Coxe-McCormick, who modeled it.

The most perfect back in America, one of the few perfect backs in the world, belongs to Mrs. Edith Gerstenberg, a Chicago society woman. Many women have more beautiful features than Mrs. Gerstenberg, but her back and shoulders have defied modern fashion to destroy the perfection of line and the rosiest texture.

Mrs. Gerstenberg was asked to pose for the statue of the ideal American woman, which Mrs. Nancy Coxe-McCormack, a noted sculptor, has designed for the Panama-Pacific exposition.

FAMILY AS INSTITUTION TO PROMOTE PUBLIC WELFARE; ADDRESS AT N. H. SOCIETY

The Ladies' Association of the Natural History Society have had a very interesting series of addresses on The Economics of the Family, for the benefit of the Red Cross Fund. There has been a good attendance at each meeting. The last address of the series was given yesterday by A. M. Belding, who discussed the family as an institution to promote public welfare. He pointed out the relation between the family life and the community life, and the necessity for developing a community spirit to deal with community problems. Home training should develop a due regard for the law of sacrifice and service, and a recognition of the need of special co-operation between all the families of the community to promote social welfare. Many homes contribute only to the ill-being of the community, and there is therefore the greater burden upon the more favored homes, which must unite to develop the community spirit, arouse a community conscience, and promote needed reforms. In this connection the speaker referred to the need of a strong and well supported Children's Aid Society, an industrial farm for drunkards and other delinquents, better housing and better provision for the physical, mental and moral development of the boys and girls. The concluding portion of the address was as follows:

"The family can best contribute to public welfare by sending forth young men and women not merely strong in body and mind and morals, but conscious of their relations to the community and eager to put their ability to the test in loving service, along broad lines, without prejudice, and without fear of criticism. In the effort to make the world sweeter for all who desire, and have the capacity under favorable conditions, to develop the higher manhood and womanhood and the fruits of community life. It goes without saying that in such a home the heads of the household should realize their duty, and while developing at home a right conception of the relation of the family to the community, give the illustration of what it involves by their personal interest in community welfare work. Thus may the family become a real factor in the promotion of public welfare.

Solution of Community Problems.

"Community problems can only be solved by community effort, or co-operation. People must put aside their prejudices, place the emphasis upon those things upon which they are agreed, and by their united strength remove the barriers to social progress. Home instruction can do no more useful thing in the community sense than to teach the members of a family to seek for the finer elements in the nature of others, to disregard minor points of difference, and endeavor to find a common ground of action for the public good. If on the other hand we magnify differences of race, of religion, of social position, and encourage the growth of narrow views, developing a spirit of pride and aloofness, rather than one of friendly co-operation, we are injuring instead of promoting public welfare, and robbing the family life itself of an opportunity.

IT RUINS HAIR TO WASH IT WITH SOAP

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulled coconut oil (which is pure and greaseless), it is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulled coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

From Thin to Plump—Girls

The expressions of happiness and gratitude of several of his young lady patients for whom he prescribed the recently successful flesh forming product, known as three grain hypo-nutrate tablets, is related by a physician in one of the medical publications and it comes as a surprise to the ordinary layman to learn the heart throbs of distress which seems to effect so many young people who are abnormally thin. Also to know that the weight can be so readily increased by the use, regularly for several months, of this peculiarly named preparation, now obtainable of the best physicians and apothecary shops in sealed packages with complete instructions for self-administration.

New Measure Adopted by Council—Old Dispute Settled—Engineer's Report Submitted—The Vacant Lands

At the meeting of the common council yesterday a letter from former Commissioner M. E. Agar, protesting against statements by Commissioner Potts that bills contracted before he took office were still coming in, was read. Com. Potts said that this was correct, but that they were all small items of less than \$25.

Com. Potts asked that a transit be purchased for his department and charged to the water and sewerage department. The mayor explained that this was the outcome of an old dispute regarding the ownership of the instrument and advised Com. Potts to buy a new one and charge it to his own department.

Don't Suffer With Stiff Aching Limbs

Don't be inconvenienced and annoyed by tired, inflamed muscles. Massage the parts with Absorbine, Jr., and rest out the trouble. Athletes do. They know that Absorbine, Jr., penetrates quickly and reduces soreness and inflammation—that it is powerful and efficacious in cases of serious sprains, wrenches, torn ligaments, and painful affections.

Absorbine, Jr., is a different kind of liniment. It is non-poisonous, anti-septic and germicide. Applied to an open sore or wound, it kills the germs, makes the part aseptic and promotes rapid and healthy healing. That is why it is so good for cuts, wounds and sores.

Absorbine, Jr., is a disiccant and solvent, effective in reducing bursal enlargements, fatty tumors, swollen enlarged glands or veins. Use Absorbine, Jr., where you want relief quickly and permanently.

NOTICE

Notice is hereby given that at the next Session of the Legislature of New Brunswick application will be made for the passing of an act to incorporate The Glen Falls Water Company, Limited, for the purpose of taking over from Honourable William Pugsley the Glen Falls water system in the Parish of Simonds, in the City and County of Saint John, and all the reservoirs, dams, pipes and other property connected therewith with power to operate the same and with authority to construct and maintain a system of sewerage. Dated December 8th, 1914.
WILLIAM G. PUGSLEY,
Solicitor for applicant.

Good Business for Valley Road. The train service opened on the Fredericton-Gagetown branch of the St. John Valley Railway yesterday met with surprisingly good business, and there would seem reason to expect that a tri-weekly service at least could be supported.

Canada in the War

Sergt. A. T. Underhill, of the 10th Battalion, C. E. F., is dead in England from appendicitis. Pte. Fred. Wright, 7th Battalion, C. E. F., is reported wounded in France. Pte. T. Taylor of Montreal, is badly wounded, and Pte. B. Walker, of Toronto, dead.

Mrs. Wm. Hudson, of Hilyard street, has been notified by the war office that her husband who has been fighting in France, is seriously ill with rheumatic fever. It is probably that he will be invalided home.

Digby Sedgley, son of W. H. B. Sedgley, of St. John, has written home from France telling of his safe arrival there with the St. John members of the D. A. C. A similar letter has been received from H. W. Bird, of the same unit, by W. Robinson, night porter in the Royal Hotel.

"Johnny," the teacher asked, "can you tell me anything about Christopher Columbus?"
"He discovered America."
"Yes, what else did he do?"
"I hope he went home and lectured about it."

Wars Are Won By Single Bullets Driven Home!

(Prepared by Mansfield House, Managing Director, The Advertising Service Company, Limited, Montreal.)

DISCIPLINE, equipment, courage and patriotism count for little on the firing line unless each man can HIT HIS MARK.

The army that can plant the greatest number of single bullets IN PLACES WHERE THEY COUNT, will inevitably win. Shells that shriek past, far overhead, may have been fired with the best intentions, and may make a lot of noise, but they DO NO DAMAGE. "Aim low!" is the standing order to British marksmen. The enemy is usually pretty close to the ground.

Canadian manufacturers need to remember this rule of the battlefield. They are aroused to the opportunity that is theirs—they are determined to put "made-in-Canada" where "Imported" used to be.

Circumstances have given them strategic advantage. They are like the men in an entrenched camp, facing a demoralized enemy, exposed on the plain. Victory is assured to them unless they SHOOT TOO HIGH.

That is the danger.

In this commercial warfare the enemy's vital spot is not in his own country—but right here in Canada.

It is the foreign-buying habit of our own people

You can't hit that vital spot with vague generalities. You can't do it merely by an appeal to patriotism. You can't do it by publishing heavy statistics, showing how many millions would be saved to Canada if she used only goods made at home. The benefit to the individual is too indirect for him to be interested in economic analyses.

If Canadian manufacturers depend upon such means as these they will lose the greatest opportunity they've ever had, or are likely to have again; they will SHOOT TOO HIGH.

This is not to say that the appeal to commercial patriotism is of no value, or that it is not a necessary feature of the work. It is valuable, but, like the heavy artillery of an army, it can accomplish nothing unless there are rifle-armed soldiers ready to charge the instant the big guns have made an opening.

The "made-in-Canada" propaganda now being carried on by the Press of Canada is the heavy artillery of this commercial war against imported goods.

The enemy is demoralized; his lines are broken. Individual manufacturers are our riflemen. Facts—about their respective products—are our bullets. Advertising is the powder to carry these facts straight to eight million marks—the minds of the people of Canada.

Each manufacturer who wants to share in the victory must tell the people of Canada all the reasons why they ought to prefer his goods. The fact that these goods are made in Canada is one big reason—but no one will continue to buy an article unless he is convinced that it is the best he can get for his money—and to convince him, he must be told all the reasons.

Manufacturers who can't "deliver the goods" of proper quality and at a fair price had better keep out of this fight.

To each of the others—the progressive, responsible manufacturers upon whom Canada's future as an industrial nation depends—the "order of the hour" is

"Advance—aim low—shoot straight"

By the skillful placing of your single bullets—by advertising the merits of your separate products to the buyers of Canada—the fight will be won.

Steamer Evelyn, American Cotton Ship, Sunk by Mine Off Germany

Here is a vessel flying the American flag which went down after a sudden explosion in the North Sea. The United States government is now investigating.

What United States Proposes And What Germany Will Do

London, March 2, 10.05 p. m.—A despatch to Reuter's Telegram Company from Amsterdam gives the contents of the American note of Feb. 22 to Great Britain and Germany, and Germany's reply thereto.

The American note expresses the hope that Great Britain and Germany may, by means of reciprocal concessions, discover a basis of understanding, the result of which would tend to free ships engaged in neutral and peaceful commerce from the serious dangers to which they are exposed in passing through the coastal waters of the belligerent countries.

The suggestion is made that Germany and Great Britain should agree, first, that isolated drifting mines should be laid by neither party, that anchored mines should be laid exclusively for defensive purposes, within gun range of harbors, and that all mines should bear the mark of the government of origin and be so constructed as to become harmless after breaking loose from their anchorages.

It is suggested, second, that the submarines of neither of the two governments should be employed to attack merchant vessels of any nationality, except for the purpose of carrying out the right of holding them up and searching them; and third, that mercantile ships of neither of the parties should employ neutral flags as a war ruse, or for the purpose of concealing their identity.

Opposes Food Contraband

Great Britain, it is suggested, should place on the list of absolute contraband, and that the British authorities shall neither disturb nor hold up cargoes of such goods when addressed to agencies in Germany, the names of which are communicated by the United States government for the purpose of receiving such goods and handing them over to licensed German retailers for further distribution, exclusively to the civil population.

Germany, it is contended, should declare her agreement that foodstuffs from the United States or any other neutral country, shall be addressed to such agencies.

Finally, the American government says it wishes to safeguard against the idea that it either acknowledges or repudiates any right on the part of belligerents or neutrals established on the principles of international law.

The American government would rather regard such an agreement as a modus vivendi, which is based more on suitable than on legal right.

Germany's Reply

On particular suggestions contained in the American note, the following remarks are made: "Germany would be prepared to make the suggested declaration concerning

SEVERE NEURALGIA

Cured Through the Use of Dr. Williams' Pink Pills

There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuralgia, sciatica and other complaints in the group known as disorders of the nerves.

"For over a year I was an intense sufferer from neuralgia, which located in my face and head. The pain at times was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. As time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had never known before, and only those who have suffered from neuralgia can realize what a blessing the Pills have been to me."

If you are suffering from a blood or nervous disorder begin to cure yourself today with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at 50 cents a box, or ten boxes for \$4.50. The Dr. Williams' Medicine Co., Brockville, Ont.

Mariners Are Warned How To Steer

Napanee, Ont., March 2.—Today saw the opening of the trial of Dr. C. K. Robinson, who is charged with the murder of Blanche York, whose body was found buried in the cellar of the doctor's home in Napanee.

A feature of the evidence presented was the testimony of three witnesses to the effect that the doctor had a hat and coat, which they affirmed belonged to the dead girl, hanging in Dr. Robinson's office the night the girl disappeared.

RESTRICTIONS ON BELGIAN RELIEF

All Foodstuffs Must Belong to American Commission and Be Carried in Vessels Under Its Control.

London, Mar. 2.—Walter Hines Page, the American Ambassador, today addressed the following letter to Herbert C. Hoover, chairman of the American commission for relief in Belgium, explaining the diplomatic conditions under which the commission must work.

"In view of the present maritime conditions about the British Isles, it seems desirable that you should inform all correspondents of the commission and all persons who are kindly contributing to that relief, of the following regulations which are made necessary by these maritime conditions, and by the diplomatic arrangements under which the commission must do its work.

"First—All foodstuffs must be the absolute property of the commission for the relief of Belgium—that is, either donated to the commission, or purchased by it from donated funds.

"Second—That foodstuffs must become the property of the commission at the port of departure.

"Third—Foodstuffs must be transported in ships under the control of the commission, because these are only ships whose safety the belligerent governments guarantee.

"Fourth—The distribution in Belgium must be carried out absolutely under the control of the commission, because supplies cannot reach the people through any other channel, and because the governmental guarantees hold only with reference to food belonging to the commission.

"I am sure that all well-wishers of the Belgian people will be only too happy to comply with these requirements, as no foodstuffs can be transmitted otherwise. The efficient organization of the commission, and the esteem in which it is held by all the governments concerned, are in themselves sufficient warrant for universal compliance with these regulations."

AN AMAZING CURE FOR NEURALGIA

MAGICAL RELIEF FOR HEADACHE

The Most Effective Remedy Known is "Nerviline."

The reason Nerviline is infallibly a remedy for neuralgia resides in two very remarkable properties Nerviline possesses.

The first is its wonderful power of penetrating deeply into the tissue, which enables it to reach the very source of congestion.

Nerviline possesses another and not less important action—it equalizes the circulation in the painful parts, and thus affords a sure barrier to the re-establishment of congestion.

You see the relief you get from Nerviline is permanent. It doesn't matter whether the cause is spasm or congestion, external or internal; if it is pain—equally with its curative action upon neuralgia—Nerviline will relieve that quickly cure rheumatism, sciatica, lumbago, strain, swellings or enlarged joints, and all other muscular aches.

Nerviline is a guaranteed remedy. Get the large 50 cent family size bottle; it is far more economical than the 25 cent trial size. Sold by druggists everywhere, or direct from the Catarhozone Co., Kingston, Canada.

Possibly the most valuable and certainly the smallest exhibit to be displayed at the San Francisco Exposition is a bit of mesothorium, a derivative of radium, weighing but a fraction of a grain. It is said to be worth \$200,000. It will repose in a tiny lead box in the Palace of Liberal Arts.

RECENT DEATHS

Word reached the city yesterday telling of the death of John Harrington, a native and for many years a resident of this city, which occurred at the home of his daughter in Milford (Mass.).

The body is being brought to the city and will be buried on Thursday morning after the arrival of the Boston train.

He leaves to mourn, one son, John, and four daughters—Mrs. Frank McKenna, Milford (Mass.), with whom he lived; Mrs. William Nash, Sydney, Mrs. John C. Lord of this city, and Sister De Sales, of St. Patrick's Industrial school.

Mrs. Annie M. Cain, daughter of John Tennant of St. John, died in Boston on Sunday, after a very short illness from diptheria, W. B. Tennant of St. John is a brother.

Friends of Mr. and Mrs. C. S. Harrington, 115 Union street, will sympathize with them in the loss of their oldest son, William Stanley Harrington, who died yesterday after two years' illness. The little fellow was only twelve years of age and before his illness a

There is a growing tendency among women of fashion to pay more attention to hygienic means of preserving their charms. The advent of ripercleanse was doubtless a very timely one for this purpose. This remarkable substance produces complexion so natural in appearance, so magnetically beautiful, artificial cosmetics are no longer desired.

Another hygienic treatment now much in favor is one to remove wrinkles, made by dissolving 1 oz. powdered saccharine in 1/2 pint witch hazel. Use as a wash lotion it "acts like magic."

A German Falsehood Is Exposed. Washington, March 2.—A statement was issued tonight by the British embassy denying that Great Britain had declared all English harbors to be fortified places, and that women and children had been interned in civilian camps in Great Britain. The statement follows:

"The British embassy are authorized to declare that statements that have recently appeared implying that women and children were at any time interned in civilian camps in Great Britain are devoid of all foundation."

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have."

"I have a family of five, sew, cook and do my housework and I became very much run-down in health. I had indigestion and stomach pains and headaches. Often I would be in bed for several days at a time, and before I took Vinol I tried too many remedies to mention, without benefit. A friend asked me to try Vinol. I did so and before I had taken one bottle noticed a big improvement. Now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers."

ABOUT YOUR OWN VIGOR Sent Free to Men MR. READER: Here is something I have to offer you absolutely for nothing—a little private book of special information about the legitimate use and unnatural abuses of manly vigor, all put in perfectly plain, easy-to-read language, with many things that you can surely apply to your own self, no matter how strong you may be, or how nervous or run-down you may be—if you want to know the facts about this particular subject, given to you without a single cent, then fill in the coupon below, send me and receive my book, sealed by return mail. In one part of this little publication I describe a mechanical invention of my own, which I call the SANDEN Vitalizer, something you wear at night as an aid to the restoration of lost or waning strength; but you are not expected to get one of these appliances unless you decide for yourself that you want one. The book is complete, and there is absolutely nothing you are required to buy or pay, either now or in the future. Therefore, please send your names and address today.

Manhood Wins in all Walks of Life. Influence which only an abundant vigor and rugged manly health can radiate. I believe any man can hope to completely develop or restore his manly vigor or manly strength, no matter how his past follies may have been, provided he is willing to REALLY MAKE THE EFFORT; and provided, of course, he is not weighed down by extreme old age or is not incurably diseased. To my mind, the road of the one who wants more vigor is perfectly plain, but it is a road that many men MUST travel if he attains the highest ideals in respect to his own manhood. A "GET TOGETHER" MOVEMENT IN SUSSEX

Important Matters Discussed on Occasion of First of Series of Addresses Arranged by Mayor Wallace

Mayor Wallace of Sussex, with the idea of making things pleasanter for the citizens of the town, has been instrumental in getting their little hall thoroughly renovated and painted, with pictures on the walls, and trophies won by the firemen in various competitions prominently displayed, with the result that they now have admirable quarters in which to spend the evening and to which to invite their friends. Mayor Wallace has also arranged for a series of fortnightly addresses to the firemen and their friends.

The first of these, which formally opened the newly furnished room, was given Monday evening. Chief Daley was in the chair, and there was a good attendance of firemen in their natty uniform, as well as of other citizens.

A. M. Belding of St. John delivered a short address on "The Community Spirit." After directing attention to the different elements making up a community, the speaker gave illustrations from his own experience in the city of St. John, showing how he became interested in the work of encouraging the growth of a community spirit, to promote such reforms as an industrial or prison farm, well equipped playgrounds and clubs for boys and girls, a Children's Aid Society, a movement for better housing, and others which could only be brought about by community effort. He urged the importance of the people forgetting their minor differences and organizing to promote the general welfare of the town.

At the conclusion of his remarks, Mayor Wallace, Dr. George N. Pearson, S. H. White, Dr. McAllister, Rev. Mr. Parker, Gordon Mills, Garfield White and J. A. Freese took part in a very interesting discussion which is likely to lead to good results. Rev. Mr. Parker made a plea for more organizations in the town, and for more interest in the Association and Garfield White for the board of trade. Mr. Mills pointed out that there were enough organizations in the town, and Mr. Belding endorsed this view, adding that there was likely to be

more harm than good in multiplying the number of organizations. It would be better to establish a working agreement between those in existence and coordinate their forces. He suggested that the room of the firemen might very well be made a people's forum for the discussion of town matters, and if it were desirable to have larger meetings of citizens the assembly room of their splendid school building, which was the property of all the people, would be very desirable place.

Dr. Pearson and Dr. McAllister protested vigorously against that spirit which would have larger meetings of citizens in the town council without having a knowledge of town affairs, and all the speakers expressed the view that a get-together movement would be of much benefit. Rev. Mr. Parker and Dr. Pearson both referred to the necessity of town planning, and it was suggested that it would be a good thing for Sussex to have a visit from Thomas Adams, the town planning expert of the Conservation Commission.

The mayor and other speakers paid a splendid tribute to the Sussex firemen, and congratulated them on the cosy appearance of their home. The next address will be delivered by Dr. McAllister on the subject, How to Keep Well.

The Man In The Street

The grouch who has been kicking all winter because the mild weather was "unseasonable" is now beginning to predict a long cold spring.

About two days in the trenches would teach a man like that to recognize comfort when he has it.

The soldier who wrote to the papers complaining that a small deduction is made from the pay to cover the cost of milk, not included in service rations, should get his share in a nursing bottle.

As if Przemel was not bad enough, he has now written about the battle of Przemysl—Better, though, than seeing English names as the scenes of battle.

Near time for me to introduce the sulphur and molasses spring tonic.

Reading in the trenches is probably an exciting diversion, but trying to read a newspaper in some of our street cars is not a much smoother task.

News headline: "Police station a house of mystery." From yesterday's doings with the firing and firing done, misery might well be added to the heading.

New York despatch speaks of "the banking of a plot to kill Mr. Rockefeller, and Mr. Carnegie, and other wealthy men with bombs." Presumably those not carrying bombs would not be troubled.

"George Guy" was the English name chosen by a Chinese arrested in Ottawa this week, but "George Sad" under the circumstances would do just as well.

With flour nearly 810 a barrel, substitutes might be welcomed.

Even the announcement that a steamer pays for itself, under present ocean rates, in two or three trips, will probably not cause a rush to charter the Ouzigony.

Candy manufacturers say that the bombardment of the Dardanelles can hardly be causing "Turkish Delight."

A new motto for City Hall—Six transit gloria mundi.

Thought He Could Do As Well
 A prominent member of the home guard is afraid that his small boy does not realize the seriousness of the work they are doing. He was preparing for the weekly drill the other evening and saw his father watching him with wistful eyes. "Daddy going out to play golf?"

THE FUNDS

Mayor Frink has received for the Belgian fund a contribution of \$11.33 from the ladies of Elmville, Rolling Dam, per Mrs. E. E. Maguire.

Patrician Fund
 C. B. Allan has received for the patriotic fund the monthly subscriptions of the post office staff for February as follows:

Mr. Sears, \$8; Mr. Potter, \$11; Mr. Woodrow, \$9; Mr. Ring, \$9; Mr. McAllister, \$10; Mr. Buckley, \$10; Mr. Quinlan, Mr. Harrison, Mr. Clark, Mr. Joyce, Mr. Murdoch, Mr. Lewis, Mr. Levine, Mr. Lingley, Mr. Ryan, Mr. Shea, Mr. Murphy, Mr. Morray, Mr. Malcolm, Mr. Ferris, Mr. Thurston, Miss Perkins, each 50c. Total \$17.50.

EVANGELISTIC MEETINGS

The evangelistic meetings in Douglas Avenue Christian church were opened with a large attendance last night and an interesting address was given upon "How Christ Would Win Men in St. John." The earnest appeal of Evangelist L. C. McPherson resulted in one making the decision for the Christian life. An efficient chorus led the singing which was enthusiastically taken up by the congregation.

FAIRVILLE NEWS

The Fairville Brotherhood met in regular session last evening. An instructive address on Constitutional Law was delivered by A. W. Worrell. He traced the laws in vogue in England years ago, and gave an interesting outline of the present constitution of England. The address was attentively followed and a hearty vote of thanks was tendered by David Linton, Jr., seconded by Charles Ellworth.

It was announced that arrangements had been made with Rev. T. Albert Moore of Toronto to deliver a mass meeting for men this month and the programme committee was instructed to communicate with all lodges and men's organizations in Fairville, enclosing invitations.

Last evening the Triangle Club met at the home of Walter Ross, Prospect street, with a good attendance. President H. P. Allingham occupied the chair. An address was delivered by Rev. Gilbert Eagle on "English Social and Political Conditions" which included a resume of the history of the English land system. The speaker outlined the chief differences in the two great parties in England. Reference was also made to home rule, the insurance act, unemployment act and other measures of interest.

Vocal solos were contributed by Eddie Osborne and Mr. Fry. A new visiting committee for the month was appointed composed of Harvey Aris, William Ring and J. W. Stevens. Refreshments were served and all report the meeting most enjoyable from every standpoint.

TWO OF HER SONS FOUGHT FOR EMPIRE IN SOUTH AFRICA

Moncton, March 3.—The death of Mrs. Richard J. Lutes occurred at her home in Harrisville on Monday, in the seventy-fifth year of her age. She was the mother of two veterans of the South African war, John H. and Ernest A. Lutes. A grandson, Edwin P. Lutes has enlisted with the second contingent. She is survived by her husband, three sons and four daughters. The sons are Albert V. H. Lutes, a conductor on the I.C.R.; John H. of Winnipeg, and Ernest, in Alberta. The daughters are Mrs. L. P. Schmittgesser, of Harrisville; Mrs. D. K. Finke of Philadelphia, and Mrs. H. Donald and Miss Cinderella, at home. Before her marriage Mrs. Lutes was Miss Mary A. Mahoney of Kings county.
