TAX EXEMPTION FOR SOLDIERS

City Commissioners Decide to Cancel Income Assessment on Men Who Returned This Year

No soldier who has received or who will receive his discharge this year will have to pay civic taxes, unless he happens to be a property owner in which case the property is supposed to be good for the real estate tax. No tax based on incomes will be collected from the returned men who scarcely have had time to settle down to civil life. This decision was reached at a conference between the city commissioners and Major Norman P. McLeod, president of the St. John branch of the G. W. V. A., which was held in the mayor's office this morning.

Major McLeod had been delegated by the executive of the association to take up at city hall some matters of taxation which did not appear equitable to the returned men and he spent an hour this morning discussing their case with the city fathers. It had not been the intention at city hall to impose unfair burdens on the men who had just returned, but in making out the thousands of tax bills same were issued, which did not strike the recipients as fair. The general rule followed was that the men who had returned were taxed on a nominal income of \$200, which made their taxes amount to \$5.24. This had been done chiefly with the idea that it would place the soldiers' names on the voters' lists and so give them the right to exercise their franchise at the next election. In dealing with this phase of the matter, Major McLeod drew the attention of the commissioners to an act which was passed at the close of the last session of the legislature which extended to all returning soldiers the right to vote in civic and municipal elections, without the payment of a nominal income for the year, beginning on January 1 of the year following the date of the signing of the peace treaty. This carries them to the end of 1920. It was readily agreed that this was sufficient and the announcement was made that the tax bills which had been issued would be cancelled and that the soldiers who return this year will not be called upon for contributions. As there was no pressing business requiring a meeting, the usual Thursday morning session of the common council committee was not held this morning and, instead, the board met this morning in an informal discussion of various matters arising from the assessment.

FLYING BOAT TEST PROVED SUCCESS

British Air Ministry Well Pleased With Demonstration Flight to Scandinavian Countries

London, Sept. 4.—(Reuters)—The air ministry states that the demonstration flight recently carried out to Scandinavian countries by the flying boat of the Royal Air Force proved to be remarkably successful. Starting from Felixstowe and proceeding via Dundee, the machine flew direct to Norway and landed at Christiansand, this being the first occasion on which this journey has been accomplished by a British seaplane. From Christiansand the trip continued by stages to Christiania, Copenhagen, Stockholm, Gossau, Berlin and back to Felixstowe, a total distance of 2460 sea miles which was covered in a total flying time of forty hours and forty minutes. The flight was made entirely as a demonstration of the commercial use of flying boats, and it is noteworthy because of no mishap of any kind occurred despite the fact that from its departure until it returned the machine spent a total of twenty-seven days in the water or in the air. Extensive passenger carrying flights were carried out at Christiansand, Christiansand and Copenhagen. A very good impression was created in each of the Scandinavian towns visited and it is hoped valuable results will accrue to the British aircraft industry in opening up what is perhaps the best market in the world for water-going craft. The first exhibition flights were before the King and Queen of Norway, and as the queen expressed a great desire to fly she was taken up on two occasions, seated beside the pilot.

COBALT MANAGERS' STATEMENT

Cobalt, Ont., Sept. 4.—The mine managers this morning issued a statement of their position. The statement offers fifty cents a shift raise in the base wages, with a bonus based on eighty cent silver instead of sixty cent silver as at present. There is thus no raise in wages offered but the men would be protected more against a drop in the silver market. The managers say they do not consider eight hours more than a day's work underground and say they have suffered much from inefficiency underground since the war. There is no good reason, they declare, to change the nine-hour day for six-hour men.

Must Be Vaccinated

Halifax, Sept. 4.—It is stated by the board of health that it is the intention to exclude all unvaccinated children from the schools after this week.

Austria Makes Request For Two More Days

Likely Allies Will Accede—Will Serbia Follow Roumania's Course Relative to Treaty?—Americans in the Rhineland

Paris, Sept. 4.—The Austrian delegation has asked the peace conference to extend the time allowed for an answer to the terms of peace by two days. It is probable the conference will grant this request. The answer, according to the covering letter, was to be in the hands of the conference on Sept. 7, but if the request is granted the answer will not be required before Tuesday of next week. Paris, Sept. 4.—Before leaving for Vienna on Tuesday night after receiving the final draft of the Austrian peace treaty, Dr. Karl Renner, head of the Austrian delegation, said in an interview that the communications made to the Austrians by the peace conference showed that the Allies knew perfectly well the economic situation of Austria and had adopted a benevolent attitude in this connection. He thought, however, that Austria in her reply should again protest against the rigour of the territorial clauses in the treaty.

Paris, Sept. 4.—Serbia seems likely to adopt the same attitude as Roumania towards the Austrian peace treaty, says the Petit Parisien. According to information from a most authoritative source, the newspaper says the Belgrade government feels it cannot accept the treaty unless there is modification of certain clauses concerning the protection of racial minorities, which Serbia considers as infringing upon her sovereignty.

Germans Growing Berlin, Sept. 4.—(By the Associated Press)—The Tagliche Rundschau declares that the demand by the Entente that the German constitution be altered is hardly calculated to induce the German people to respect their new charter, and warns the supreme council of the danger of precipitating a new internal disruption.

The Vossische Zeitung says a flat refusal is the only possible answer to the demand of the Entente, while the Kreuz Zeitung remarks that the amateurs of Weimar must now put up with the opposition in the time for presenting the Austrian answer to the terms of peace.

Coblenz, Sept. 4.—(By the Associated Press)—Marshall Foch, Allied commander-in-chief, has decided upon the extent of the territory in the Rhineland to be held permanently by American forces. His area will be as large as that which has been under American jurisdiction since the last combats division left for home.

Paris, Sept. 4.—(Havas Agency)—The supreme council of the peace conference has decided to grant the request of the Austrian peace delegation for two days' extension in the time for presenting the Austrian answer to the terms of peace.

TROUBLE IN QUELPH OVER A FIREMAN

QueLph, Sept. 4.—Trouble is afoot over the dismissal by the city council of a lieutenant in the fire department. The chief says he will fight for the reinstatement of the man, who he says is an Austrian by birth, but that he came to Canada when an infant, and is to all intents and purposes a Canadian. The chief says he will fight for the reinstatement, as he is a good fireman. He told a delegation from the G. W. V. A. who had urged the dismissal of Stefan, that he would not be interfered with by any council as to who should be on the brigade.

ONE OF THE BEST AT BRIDGE, THOUGH 88

Stockton Springs, Me., Sept. 4.—Mr. and Mrs. Richard Bennett were tendered a surprise reception by neighbors on the 60th anniversary of their marriage. Mr. Bennett is eighty-six years old, the oldest man in town, and his wife is eighty-three. Both are in excellent health and Mrs. Bennett is one of the best bridge players in the neighborhood club. Four generations were represented at the party, including a grandson, Corp. Leslie Bennett Shannon of the Yankee Division. Mr. and Mrs. Bennett received a shower in gold coins.

HAIRCUT 50 CENTS SHAVE 20 IN NEWTON

Newton, Sept. 4.—Patrons of the barber shops here were given a surprise when they dropped in for their shaves and haircuts, for when the operations were completed they were informed that the price had gone up. The new prices are 20 cents for a shave and 50 cents for a clip. This represents a jump of a nickel on the shave and 15 cents on the hair cut.

ADDITIONAL AWARDS TO TWO BRAVE SOLDIERS

London, Aug. 28.—(By mail)—(Canadian Associated Press)—Private W. H. Leggett of the 25th Canadian Battalion has been awarded a second bar to the military medal. A bar to the military medal goes to Sgt. J. H. Troop, C. G. A. (Nova Scotia).

PROTESTS AGAINST PITCHER TURNER DEAL

Tulaco, Ohio, Sept. 4.—Roger Bresnahan, president and manager of the Toledo American Baseball Club, today filed protest with A. L. Tarnsey, president of the Three Eye League, against the sale of Pitcher Ted Turner to the Chicago Nationals. Bresnahan also has notified the Chicago club not to turn over money for the player.

As Hiram Sees It

The Settlement, Sept. 5. "When I was in town the other day," said Mr. Hiram Hornbeam to the Times reporter, as they at watching two young roosters in the barnyard trying to annihilate each other, "I dropped in to one of them there moving picture shows. They were just windin' up what they call a serial, an' I saw it. Well, sir, it was a caution. It seemed like they had to be in the course of the story they had to bring in about a hundred Indians to the scene. Well, sir, them Jesse James felers. They was all bad, an' all tryin' to kill the hero an' his party 'bout an' rob the hero an' his party. This was the last chapter, an' as anybody could see, none of them bandits of Indians was fit to live. They had to be killed off or they wouldn't be no moral to the story. I can't see how six people could wipe out near two hundred in half an hour on the slobber afternoon; but they done it. Yes, sir, they made a clean job of it—even when some of the felers that was killed got up an' hed to be killed over again. There never was such a time in France, no, sir. After they shot what seemed to be a hull army of bandits with rifles—an' was gittin' away—along come the Indians. Well, sir, they got out a machine gun then—an' them Indians just went down in rows. I can't see how they done it, but they did it. They run into more bandits. They got out the old machine gun agin an' hed 'em till a lot of soldiers come away—along come the Indians. Well, there was nearly a thousand people set in there watchin' that picture—that fine summer afternoon. I was one of 'em—unless there is modification of certain clauses in the treaty. If I had the doin' of it I wouldn't have no pictures like that for boys an' girls to look at. There ain't no sense to it—never could happen—'n' I don't do any good."

Toronto Men Shut Down the Service for Nearly Five Hours

Wanted Definite Word From Manager Fleming as to Acceptance of Award of Board of Conciliation and Finally Got It

Toronto, Sept. 4.—An unpleasant surprise was sprung upon the people of this city at 4:45 yesterday afternoon, when every street car in Toronto and suburbs suddenly stopped and remained just where they had stopped until 9:30 last night. The cause was a walkout of 250 electrical workers in the employ of the Toronto Railway Company, Toronto Electric Light Company and Toronto Power Company. The trouble arose as a result of a failure of the officials of the union concerned to obtain an interview with General Manager Fleming of the Toronto Railway Company and a promise from him to accept an award made by the board of conciliation in Ottawa yesterday. The union representatives said they notified Assistant Manager Hubbard that if they could not get satisfactory understanding with Manager Fleming by four o'clock yesterday afternoon the men would quit at five o'clock. They said Mr. Fleming was dodging them.

Through the intervention of Mayor Church and Commissioner Harris of the city works, Mr. Fleming agreed to accept the award in question, and just as soon as these two had informed the strikers who had assembled at the Labor Temple, to this effect, the strike was declared off and the street cars began to move again.

The award of the board of conciliation allowed the men a general increase of four and a half cents an hour, an eight hour day and a forty-four and forty-eight hour week.

So Much Shaking Has Brought Pain; Used Left in Sudbury

Algoma, Ont., Sept. 4.—The Prince of Wales at Sudbury yesterday, was compelled to give up shaking with the right hand owing to his painful condition caused by the heartiness of the grip of the hundreds of Montrealers who had greeted him on Tuesday. He had to greet his admirers in Sudbury with a shake of his left hand and give the right hand with a lotion as a consequence of the experience of the Toronto grip.

One of the English newspaper men yesterday called his paper that the Prince of Wales was suffering from the "Canadian grippe". The progress of the Prince of Wales through northwestern Ontario yesterday was punctuated with ovations, smaller but not less genuine, than the recent demonstrations in the big cities.

ANOTHER BRANCH OF RAILROAD WORKERS FOR LARGER PAY

Washington, Sept. 4.—Representatives of the 304,000 members of the United Brotherhood of Maintenance of Way and Railroad Shop Laborers asked the railroad wage board today to adjust their wages in accordance with the principle laid down by President Wilson in approving adjustments last week for the railway shopmen.

The board was told that the men adhered to the president's decision that there should be no general increases of wages while government agencies were actively seeking to return economic conditions to normal, but that they felt the inequalities in pay existing as between the employes of different railroad systems should be corrected. The maintenance of way men and shop laborers, the spokesman said, received the lowest rates of pay of any class of employes in the railroad service.

CRUCIBLE STEEL TAKES BIG TUMBLE; MAKES PARTIAL RECOVERY

New York, Sept. 4.—Further gains of one-third cent were made by leading issues at the feverishly active opening of today's stock market. Crucible Steel yesterday's sensational feature, was a striking exception, falling almost fifteen points in the first fifteen minutes. Baldwin Locomotive, which rivaled Crucible in the preceding session, advanced but reacted 5 1-2 points immediately. American Car, American Locomotive, American Iron and Steel, and American Steel, all advanced, but American Steel made only a fractional gain, which was soon forfeited.

SAY THEY MUST HAVE WORK OR WILL LEAVE SYDNEY

Sydney, N. S., Sept. 4.—The steel millers employed at the open hearths of the Dominion Iron and Steel Company held a conference at which a majority of the men were appointed to interview Superintendent Rice regarding conditions at the plant and to find out when work was resumed in their department. Later the men met Mr. Rice who gave them practically the same information published recently that the plant would be put on full time with all hands necessary when sufficient orders were booked to warrant going ahead. He could give the men no definite answer as to when this would be. Some of the millers say they intend leaving Sydney in the near future if they do not get work.

HUSBAND OF 15 IS CHARGED WITH NON SUPPORT

Met Girl at Movie Show and They Were Married—Now the Matter Gets Into Court

Montreal, Sept. 4.—There was a touch of romance in the police court yesterday when a fifteen-year-old husband appeared a charge of non-support read by his nineteen-year-old wife, and the case was dismissed, Judge Lanctot, who presided, thinking that the accused was a fit subject for the juvenile court. According to what was said by counsel on both sides, as no evidence was heard, it appears that in April last Rene Jutra, fifteen years old, met the girl while emerging from a regular marriage house in St. Lawrence Boulevard, and invited her to witness another performance with him. The invitation was accepted, they became infatuated with each other, and after a few days of courtship, Rene Jutra and the girl, Lina Gatin, eloped. They took a train to Quebec where, after a stay of two weeks, they were married.

The honeymoon was short and they soon had to return to Montreal. On the arrival here the young husband was summoned before the juvenile court on a charge laid by his mother. He appeared before Judge Choquet, who, on being given evidence that a regular marriage had taken place, advised the mother to put up with it.

Then Jutra went to his mother's shelter and took to making bread, as he was a baker by trade. This arrangement did not agree with the young woman, who had also to go back to her parents. The result was that a complaint for non-support was laid, which led to the appearance in court of the fifteen-year-old husband before Judge Lanctot.

Quebec, Sept. 4.—Questioned today on the marriage of Rene Jutra to Lina Gatin, a priest of St. Roch parish said that they were effectively married in St. Roch parish, that the wedding took place regularly, was duly registered in the books of the parish and that the children were married with their parents' consent.

"PETER" SCHILLING DEAD

For Years Known to Everybody in City—Had Reached Age of 96

For two generations one of the most conspicuous characters in the life of St. John, Frederick Peter Schilling, passed away yesterday at the Municipal Home at the age of ninety-six years. For more than half a century this little old figure was a familiar one in the street, where he was known variously as Fred or Peter Schilling. His many eccentricities, particularly his grotesque attire with utter disregard of any clothing scheme, made him a landmark and he was known by everyone. He was in the habit of wearing any cast-off garment that fell into his hands—no day he would appear in a battered silk hat and Prince Albert coat that had seen its day, the next day he would be seen in two derby hats, one on top of the other with some other combination of clothing which he fitted well or not.

One of his most marked peculiarities was the fact that he usually appeared with one leg almost bare, the trousers being rolled up sometimes above the knee and he walked on the outside of the right foot, the boot being rolled under. It was discovered only recently that this habit was due to the fact that the foot to which he referred was through necessity rather than choice that this peculiar style of locomotion was adopted.

Schilling was a very uncommunicative man and while everyone seemed friendly towards him he did not make many familiar friends. He was a target for the pranks of the young boys who delighted in having him give chase to their childish tricks. He had no fixed place of abode, but spent the most of his time in the north end of the city. He was a German by birth and even to his dying day exhibited loyalty to the Fatherland. During the late war he was very much interested in the press reports of its progress and it was rare entertainment to those standing by to hear him defending the course taken by Germany against the arguments of his fellow inmates in the home. He always referred to the Kaiser as "My Emperor."

The new schedule is retroactive dating from June.

FISHER'S PROTEST

London, Sept. 2.—(Reuters)—The protest couched in vigorous language in yesterday's Times by Lord Fisher on the expenditure has evoked interesting comments. Lord Fisher declared against alleged ruinous waste in the navy which now costs £240,000,000 annually as compared with £24,000,000 in 1904, notwithstanding that the German fleet does not exist. Lord Fisher declares that half the navy is already obsolete and should be scrapped and says that the other half will be equally useless in a few years because of internal combustion engines and oil.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 4, 1919

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank P. Northrup, 303 Fifth Ave.—CHICAGO, E. J. Powers, Manager, Association Bldg.

The proposal to give the overseas dominions a voice in the external relations which involve peace and war is but the logical recognition of their growth in stature and of the rights, earned by sacrifice of blood and treasure, to a position in an Imperial partnership proportionate to the share of the Imperial burdens which they are able and willing to bear.

St. John's chief concern regarding the selection of a federal minister of public works usually has centered on the probable attitude of the new minister towards the development of this port.

The National Board of Commerce is to be congratulated upon the action taken to control sugar prices. The arrangement announced appears to be fair to all engaged in the business of making and selling this commodity and will remove the cause for the panics which on some occasions have had more to do with price fluctuations than have market conditions.

Reports of a gold strike near Kenora, Ont., and discovery of crude oil in the Pas, Manitoba, are cheery bits in the Canadian news budget.

After seven months' preparation Colonel Fox, the director of the operation, and his staff have placed the diving and dredging plant permanently on the stream lighter and on the old Spanish Armada galleon lies in the bay.

The digger has already reached some lead and copper sheathing, which may have belonged to the sunken treasure ship, and divers report that the coating of silt over the excavations of 1912 when the operations were suspended, does not exceed an inch or two in thickness.

The treasure ship is understood to lie at a depth of from ten to fifteen fathoms and under from thirty-five to forty feet of sand. Colonel Fox enters on his work anew, confident that the wealth which went down with the galleon is all still there, as the means of taking it from these depths have not hitherto been available.

There has been a good deal of worry everywhere about the after-effects of the "flu." The health department of the city of Buffalo has undertaken to investigate these carefully, and its report is reassuring. There were some 30,000 non-mortal cases in that city. Last spring there were 745 out of these reported to the board's investigators that they felt the worse for their experience. In June the inquiry was renewed. Of the 745, 501 reported that they were fully recovered; 216 that they were improving, while four had died. The twenty-seven others, however, could not be located.

The board's comment is that it is very certain that any other grave disease leaves a much larger proportion of chronic invalids than the "flu" seems to have done in Buffalo.

There were general unanimity of opinion that the work of the session should be expedited so as to save expenses as much as possible. The general opinion was that the country was entitled to more explicit information from the prime minister upon the obligations contracted by Canada in the League of Nations and that sufficient time should be allowed members to become acquainted with the provisions of the treaty before proceeding with its ratification by parliament.

Three separate invitations are usually sent to guests in China. The first is dispatched several days before the banquet, the second on the day itself, as a reminder, and the third about an hour before the sitting down to the table.

Every foot of the ground which is within the view of Vimy ridge holds a wealth of memories for Canada and her sons and it is fitting that this, the scene of one of her greatest triumphs, should be marked well. The poor people of the commune of Vimy, their homes gone and their lands scourged with a scourge which can follow only in the wake of war, are unable to erect, as they would like to do, a monument worthy of so great a memory, but have offered out of the fullness of their hearts a piece of the land which was so dear to them and on which they placed a reminder of the men who wrested their town and their soil from the hands of their enemies.

Antonin Dubost, president of the senate, also has his followers. Alexandre Ribot, former premier, seems to be expected to present the most formidable opposition to M. Deschanel. The name of former Foreign Minister Louis Barthou is also mentioned, but many of the deputies appear to think he is too young.

President Poincaré, it is declared, will not be a candidate for a second term. "No," just think if I should be appointed and then run afoul of another Clemenceau as premier."

Prodomant among the candidates is Paul Deschanel, president of the Chamber of Deputies, who is credited with being favored by a large number of the members of the present house. It is expected that nearly 300 members of the present chamber will be returned, and M. Deschanel is reported to be certain of four-fifths of their votes. There is, of course, no basis for estimating what his strength would be among the new members of the body.

TURBULENT TIMES. Uncle Sam is feebly swearing, as he never did before, and his wintry locks he's tossing, and we see him walk the floor; for the country's all excited, and our old time peace is blighted, and the wrongs that should be righted come a-rapping at his door.

SACRIFICED LIFE TO SAVE EXPRESS

Twentieth Century Limited Saved by Engineer When Freight Train Buckled

Cleveland, O., Sept. 14—Thomas J. Sankey, of this city, engineer of the Twentieth Century Limited, on the New York Central line, lost his life in saving his train from disaster in a wreck near Painesville, about thirty miles from here.

Railroad men say it was one of the most extraordinary accidents in railroad history and that it was only the courage and quickness of Sankey that saved the lives in his care.

The train was speeding east a short distance from the Painesville station. On a parallel track was a freight train, a short distance ahead of the limited, also moving eastward. Suddenly the freight train buckled and several of the cars jumped the rails and toppled over into the path of the flyer. There was no time to stop clear of the freight cars.

Sticking to his post, Sankey applied the brakes to his heavy train and brought it to a stop so quickly that only the engine and the tender nosed into the overturned freight cars.

Passengers in the Pullmans felt only the shock of the settling brakes, but when they went forward to see what was the matter they found the freight train bending over the dead form of Engineer Sankey. Just how the latter was killed has not been determined, but New York Central officials in this city said they believed he must have been struck by flying timbers.

The engine was slightly damaged. Another was obtained and the train proceeded. No persons were injured on

the freight train. Railroad officials tonight began an investigation as to the cause of the derailment of the freight cars.

Mr. Sankey spent today with his family, as they celebrated his wife's sixtieth birthday. Their son, Henry Sankey, twenty-three years old, had just returned home from France. He was with the second division.

Mr. Sankey left home at 4:30 o'clock this afternoon to take out the limited; the train he had piloted for years. He was sixty-three years old.

TO PREVENT ANNEXATION OF AUSTRIA BY HUNGARY

Paris, Sept. 3.—One clause of the Austrian treaty as had been reported has the effect of prohibiting the annexation of Austria by Germany. This clause reads:

"The independence of Austria is inalienable otherwise than the consent of the council of the league of nations. Consequently, Austria undertakes in the absence of the consent of said council, to abstain from any act which might directly or indirectly by any means whatsoever compromise her independence, particularly until her admission to the league of nations, by the participation in the affairs of another power."

There was a short meeting of the Town Planning Commission held in the mayor's office, yesterday afternoon, for the purpose of considering the proposal of having the local engineers meet Mr. Seymour, assistant to Thomas Adams, head of the Dominion Town Planning Commission, who it is understood, may be in the city next week. A survey of the situation was gone over yesterday.

RECENT WEDDINGS

Snowball-Brankley.
 Chatham, N. B., Sept. 3.—Special—The prettiest house wedding held in Chatham for some time took place at high noon today at the home of Mr. and Mrs. J. W. Brankley when their eldest daughter, Edith Alison became the bride of Frederick Laurence Snowball, son of Mr. and Mrs. W. B. Snowball, Chatham. The ceremony which was performed by the Rev. H. S. B. Strothard took place beneath a beautiful ever green and floral arch from the centre of which hung a bell of white flowers. The bride entered the drawing room on the arm of her father to the strains of Mendelssohn's wedding march which was played by Miss Alice Marven. The bride was unattended and wore her travelling suit of navy blue with hat of blue and gray and carried a beautiful bridal bouquet of pale yellow roses.

The bride and groom are two of Chatham's most popular young people and have many friends throughout the province and the array of costly wedding gifts testified to the high esteem in which they were held. The out of town guests were Mr. and Mrs. H. E. Rawlings, Montreal, Mr. and Mrs. G. Margrets and Mr. and Mrs. H. M. Dickson, St. John, Miss Mollie Robinson, D. Ritchie and Aitken Ingraham, Newcastle.

The ceremony was performed by Rev. H. D. Woods, of the bride's church, and the bride was charmingly gowned in blue silk and Georgette trimmed with silver and crystal with a picture hat to match. She carried a bouquet of bridal roses. The bride was attended by Miss Glennie Buckley, who was attired in a gray silk dress, and carried a bouquet of sweet peas. Roy Kelly of Boston, brother of the bridegroom, was the groomsman. Mr. and Mrs. Kelly will reside in Quispamsis.

after having shipped his trunks and other belongings away. Mrs. Watson's husband, Thomas D. Watson, died about two years ago. Since then Mrs. Watson has been living in Toronto with her family, where she is said to have met Anderson, who represented himself as a wealthy Californian. He recently bought an automobile, and was to have taken Mrs. Watson and her family to California to live on his estate. Mrs. Watson and her family came here about ten days ago, followed by Anderson. They made arrangements for the wedding, setting the date for yesterday, after having taken out the marriage license. The ceremony was to have been performed by the Rev. Wesley Martin, who was to have been attended by Mrs. Watson, one of her daughters and the best man was to have been the proprietor of the hotel where the group were stopping. Mrs. Watson and the bride party waited for an hour or more and when nothing was heard from Anderson, decided to cancel all arrangements. Mrs. Watson has since been under the care of a physician.

SHIP COAL SCARCE ABROAD

(New York Times) Captains of steamships arriving from England report such a shortage of coal that vessels are delayed for weeks in port waiting for fuel. The Lake Tular, which came in yesterday, left Rotterdam on July 15 and put into Cagliari, where she had to wait until Aug. 14 to get her bunkers filled. The captain of the steamship Sagus, which also arrived here, said that when he left Cardiff two weeks ago there were more than 200 vessels waiting there for coal.

The big Atlantic liners carry sufficient fuel from this side to bring them back

These include the British, French and Italian steamships as well as American vessels. The American transports carry coal from the United States naval stores at Brest.

To illustrate possible long-distance plant dispersion, it is said that for two centuries observers have been finding tropical seeds along the Atlantic coast of Ireland from Donegal to Kerry Head, and it is concluded that these have come from the West Indies without human aid.

"Will you please give a poor man something to eat?" asked the suppliant at the back door. "Why, I gave you something to eat yesterday, didn't I?" came from the woman with the gingham apron. "Yes, madam, but we are worked over you know, and we are allowed to eat every day now."

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day

Dysentery manifests itself with varying degrees of intensity, but in well advanced cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity, and is accompanied with gripping pains in the abdomen. The discharges from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resembles those of ordinary diarrhoea soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with or consisting wholly of blood. Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may set in.

Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. John V. Tanton, R. R. No. 8, Watford, Ont., writes: "My daughter was taken down two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and ate something different to what she was used to. She had as many as twenty-five movements a day, and mostly blood. We had the doctor several times, but no relief came until we used 'Dr. Fowler's.' I would not be without it in the house for a good bit."

Be sure and get "Dr. Fowler's" when you ask for it. Price, 15c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

WOOD AND COAL

Woodstock Press: Steps have been taken under the direction of the Presbytery of St. John to reorganize the congregations of Woodstock, Richmond and Kirkland. Rev. M. S. McKay of Kirkland is being removed to another field and an attempt is being made to so reorganize that the present three congregations can be served by two ministers, each of whom will have the new minimum salary of \$1,500.

Notice has been held under the direction of Rev. Frank Baird and Rev. J. Millar and prospects for a successful adjustment are good.

Sorry to Lose Father Ryan. Of the transfer of Rev. J. J. Ryan from Woodstock to Milltown, the Woodstock Press says the news "came as a shock to his parishioners and to the community as a whole." It adds that Father Ryan was an earnest worker and one of the most eloquent preachers in the diocese, and he had greatly endeared himself to all the people of Woodstock, where he is esteemed by all creeds and all classes. "The best wishes of all go with Father Ryan, his esteemed mother and Miss Power to their new home in Milltown."

To conserve the increasing supply of American newspaper, a resolution introduced at Washington would authorize a survey of available pulpwood timber supply.

SUGAR PRICES FIXED BY ORDER

Montreal, Sept. 3.—The Board of Commerce yesterday issued its order concerning the sugar inquiry. The order, in addition to providing shipments by the refiners in combination of 2,000 tons of sugar for the purpose of Western Fruit Growers, dealt with its recently promulgated embargo upon the export of sugar. It further provided for fair prices for sugar, which prices are made applicable to the refiners, who are to supply the amount of raw sugar previously allocated to that factory for that purpose.

The board further orders that hereafter and until the board shall, if necessary as the result of changed conditions otherwise order any price on sales for consumption in Canada, shall be deemed an unfair price which exceeds a price arrived at on the following basis:

1. Refiners—All sales by refiners may bear a net profit not greater than two fifths of one cent per pound, plus a commission of one per cent, payable by the refiners to wholesalers, or other distributors, for the service of distributing to the retailers and other trade.

2. The wholesalers—All sales by wholesalers may produce not more than five per cent commission mentioned.

This five per cent commission will be paid to the wholesalers by the refiners, and will be included in the refiners' list price. The refiners' list price will be that at which the wholesalers will sell to the retailer.

3. Retailers—All sales by retailers by a profit not greater than the last listed re-sales of the refiners which produces the sugar, plus the actual freight paid or payable, and plus one cent per pound as the retailers' net and only profit.

If the export market is ultimately forbidden to the companies they may apply to the board for reconsideration of domestic prices.

In brief the result of this fixation of prices is that the refiners will receive the price of the sugar, plus the actual freight paid or payable, and plus one cent per pound as the refiners' net and only profit.

The utmost profit that a retailer may make is one cent per pound. It is conceived that in actual practice it will be only occasionally that the various profits mentioned will be made in full.

Pan-American Policy—Public Opinion Adverse to Annexation to United States as Proven by 1912 Pact

(Canadian Association Press) London, Sept. 3.—The Hon. Gideon Murray, M. P., is a brother of Lord Murray of Hillbank, whose labors on behalf of the development of the Empire's resources are of world-wide fame. He himself has served with distinction in various offices in different parts of the Empire and now represents in the British Parliament one of the great industrial divisions of Glasgow.

"I gladly respond," Mr. Murray said, "to the invitation of the Canadian mission in London, to make a few remarks concerning Canada and Canadian interests. It has been my privilege to visit that country on more than one occasion, and whilst there I came in contact with a number of political and other persons.

"There is one matter," he said, "in which I am specially interested, and that is the commercial relationship between Canada and the West Indies. During the time that I was administering one of the colonies in the West Indies, it was my privilege to assist in arranging the Agreement of 1912. This was one of the first, if not the first, convention between two of the outer parts of the Empire for promoting trade connections. Unfortunately, the war intervened, and so the advantages of agreement have not been so

KING GEORGE MAY ADDRESS TRADES UNION CONGRESS

London, Sept. 3.—The Trades Union Congress which will assemble at Glasgow on September 8 promises to be the largest ever held. Already 848 delegates have been appointed to attend the congress representing more than 2,225,000 workers.

A suggestion has been made that King George, who is at Balmoral, should be invited to attend the opening session, some of the labor leaders believing that a personal appeal from the sovereign to the workers to make a special effort in the national interest would have a great effect. The parliamentary committee of the congress yesterday considered a request for representation at the international labor congress in Washington in October.

It is believed that the controversy between the alternatives of direct action and constitutional agitation will be fought out during the coming fortnight in discussions by the coal miners' conference and the triple alliance—the transport workers, miners and railway men—and finally by the Glasgow congress. The belief is expressed generally that the decision will be against direct action.

Sir Henry Drayton, it is learned, will be in North Toronto.

PRINCE WELCOMED IN NORTH COUNTRY

North Bay, Ont., Sept. 3.—Ten thousand people greeted the Prince of Wales here today and inhabitants of the north country gave to their royal visitor a warm and enthusiastic welcome. His Royal Highness arrived here at 10 o'clock and Mayor John Ferguson conducted him to a decorated platform in the C. P. R. Square where he read an address of welcome.

The address related to His Royal Highness the brave deeds of the two battalions recruited in North Bay district, the 169th and 220th, and spoke of the great mineral possibilities of the north country.

His Royal Highness, who was in a grey suit and fedora hat, replied briefly, then inspected the veterans assembled. He held a reception of the relatives of those who had fallen in the war and spoke kindly and sympathetically to each of them. Decorations were presented and the prince, accompanied by the mayor, took a short trip around the town which was everywhere besieged. The prince left at 11:15 on his way to Sudbury. Before leaving he expressed his pleasure at the reception accorded him.

ENJOY HOT BATH ONCE IN TWO WEEKS

Berlin, Sept. 3.—That any possibility of averting a coalless winter is regarded as a forlorn hope is indicated by reports received from the Silesian and Ruhr coal fields, the action taken by municipalities in many sections of the country, and the restrictive measures agreed upon by the coal commission, which promise about as much light and warmth as the winter season.

Greater Berlin was informed today that it would be permitted to indulge in the luxury of a hot bath on the first and third Friday of each month. Kitchens will not be permitted to operate between the hours of 8 and 11:30 a. m., and 2 and 7 p. m. The use of bath-tubs, electric heaters, and all emergency heating devices, consuming coke briquettes is also prohibited.

SIR HENRY DRAYTON ON VICTORY LOAN

Toronto, Sept. 3.—Sir Henry Drayton, minister of finance, in his first victory loan address at the Canadian National Exhibition directors' luncheon today, declared that he was possessed with but one burning desire, and that was to do all and everything in his power to make Canada's last victory loan a great success—to establish without doubt Canada's credit—to provide for ourselves, by ourselves, and for Canada during the trying period of reconstruction now upon us.

Speaking directly to farmers, Sir Henry, after congratulating them for their increased efforts in production, urged the need of further credits for a continuance of exports, declaring that Canada must still temporarily do the necessary banking for the export of her goods, and she can only do it through subscriptions to the Victory Loan.

Is there any other foreign country but the United States which has it in its power to pay the visitor such a characteristically British compliment? Is there any other visitor to whom Americans could offer it with such imposing significance? Just as President Wilson is the first chief of the American Republic to be made a freeman not only of London, but of many other British cities, so is the Prince of Wales the first member of the British royal family to be offered the freedom of the principal city in America."

**DISEASE RAGING;
SUPPLIES SHORT**

Situation Throughout Siberia Serious, is Report Brought by Canadian Officer

Ottawa, Sept. 4.—Typhoid, cholera and other contagious diseases are raging throughout Siberia, hospital supplies are pathetically short, food and clothing are difficult to obtain, stores that in happier times were well stocked with provisions are now almost as bare as Mother Hubbard's cupboard and altogether conditions throughout the whole of Russia are in a most pitiable state.

An outline of these conditions was given on Tuesday to Premier Borden, and later to newspapermen by Lieut.-Colonel Douglas D. Young of Toronto, an officer in the Royal Canadian Dragoons who has just returned from Siberia, where he went last January as a member of the British military mission and while there acted as the representative of Canadian Red Cross Society, whose Christian beneficence has reached out on that 4,500 mile stretch of country from Vladivostok to Omsk and beyond to wherever the Allied forces are operating.

**TWENTY-THREE TEACHERS
ON STRIKE IN OTTAWA**

Chairman of Separate School Board Says They Are Out for All Time

Ottawa, Sept. 4.—Those teachers who have walked out of the schools have taken out for every" was the terse statement of S. M. Gies, chairman of the separate school board last night in reference to a strike of twenty-three women lay teachers in the separate schools of the city.

That the women teachers feel very bitterly dissatisfied over the situation in the Ottawa separate schools is clear. They have sent a communication to the department of education at Toronto and are awaiting a reply. In addition to the disappointment following a failure of the board to grant increased salaries, they feel they are suffering humiliation at the hands of the board. They are willing to stick to their guns to have their stand vindicated. When the teachers went on strike in June the board gave them three days to return. They went back, and then they were informed that the board was not in a position to pay them more than the original salary. They are now on strike. Some have changed during the last week, although their contracts call for some weeks of notice.

The decision to strike was reached at a meeting of the Teachers' Association on Monday night and on Tuesday morning twenty-three teachers were not at their posts.

**INTERNED GERMAN SENT
HOME ON PRETORIAN**

Montreal, Sept. 4.—When the Canadian Pacific ocean steamship liner Pretorian sailed from Montreal at daybreak this morning she went as a prison ship for interned Germans, who are being returned to their native country, without any particular idea that they will ever come back to Canada.

The Pretorian left with a cargo of grain and package freight, but no passengers. At Quebec she will take on a party of 400 German war prisoners who are being sent back to the Fatherland for liberation with the conclusion of hostilities. Half of these prisoners of war have come from the internment camp at Kapuskasing and the other half from the internment camp at Amherst, N. S.

**ARRANGING INTERNATIONAL
TRAIN SERVICE IN EUROPE**

Paris, Sept. 4.—(French Wireless Service)—International train representatives of the British, Belgian and Central European railways have been in conference in Paris for the last three weeks, with the object of establishing a new service of international trains subject to confirmation at a final meeting of all the delegates, it has been decided to run the Orient express via the Suez tunnel with through carriages between Paris and Bucharest and between Paris and Belgrade. A portion will go on to Athens.

In connection with this express there will be a train from Ostend to Milan and vice versa, via Brussels. Another international express is to run between Paris, Prague and Warsaw by way of Strassbourg and Nuremberg, in place of the former Nord express. The time table for this train through the German countries concerned remains to be settled.

The delegates have also debated Paris convention to take the place of the former Berne convention, dealing with way bills, tariffs and other international traffic questions.

**ROUT OF VILLA
FORGE REPORTED**

Hundred Dead, Wounded and Prisoners Left on Field After Fight of Hour

El Paso, Texas, Sept. 4.—Official reports from General Manuel Dieguez received at military headquarters late yesterday told of the severe defeat of Villa forces at the hands of federals commanded by General Casto, six miles east of Durango. The battle lasted upwards of an hour, when the rebels fled, leaving 100 dead, wounded and prisoners on the field. The federals lost four officers and five men killed and seventeen wounded.

Washington, Sept. 4.—Albino Galan, chief of the bandits who held up and killed Adam Schaefer, an American citizen, has been killed by members of the home defence league of Pinos, who pursued the outlaw, so the Mexican embassy reported yesterday. The announcement adds that Schaefer and his driver were killed while traveling in a carriage near Pinos with 200 pesos, which were stolen by the bandits.

**RECOMMENDATIONS OF
LABOR FEDERATION**

Matters of Hours and Wages—Would Have All Election Days Holidays

Toronto, Sept. 4.—Better working conditions for all branches of labor and with it, an equal wage equal to the standard of cost of living are the salient features of the eleventh annual convention of the Canadian Federation of Labor here yesterday.

A forty-four hour week has become their slogan, and several members urged that this clause be inserted in all agreements between unions and their employers on their termination on a strike I next year. It is also urged by the federation that the minimum wage to be set in the future shall be one which will cover with the cost of living, as established by the statistics of the department of labor, and that it should be definitely understood that five and a half days should in future constitute a working week.

A resolution was passed recommending the cancellation of the recent amendment to the immigration act which makes legal the deportation, without a fair trial, any person accused of agitation.

The convention recommended that all election days, federal, provincial and municipal, be made holidays.

**BOMB THROWN AT
GOVERNOR-GENERAL IN
KOREA; AMERICAN
AND WIFE WOUNDED**

Washington, Sept. 4.—William Harrison, brother of Carter Harrison, former mayor of Chicago, and his wife received slight flesh wounds in the explosion of a bomb thrown at Governor-General Salto at Seoul, Korea, on Tuesday, says an official despatch to the state department. No other Americans were wounded.

The bomb was thrown as the governor-general and his wife were leaving the railroad station and exploded under their carriage. No one was killed.

One at Egypt's Premier.

London, Sept. 4.—A bomb was thrown at Hussein Rashed Pasha, premier of Egypt, at Alexandria on Tuesday, according to an Alexandria despatch received here. The bomb was concealed in a basket of grapes, but did not injure the premier. The assailant of Hussein Rashed Pasha was a theological student.

A HOSPITAL MATTER.

To the Editor of The Times:

Sir,—I read with interest in last night's issue of the Times the report of the county council's meeting regarding the hospital. I notice in reply to Mr. Fisher's question regarding revenue that Secretary Kelley's answer was that the hospital was not built for revenue, etc. Also the working men were keeping the hospital going and the best was none too good for them. My experience was entirely different. I am referring to the revenue end.

Having occasion to consult a doctor regarding my child I was advised to have an operation performed. I agreed and my child was taken to the hospital, placed in the "public ward" for children (I noticed the ward had been donated by a generous hearted citizen. I forgot the name on the tablet). My doctor performed the operation, which was most successful. The nurses and staff were worthy of all praise. My doctor's fee was very moderate, but when calling to take my child home I was presented with a bill for over \$40 for hospital attendance. As a man earning only a very moderate salary I would like to ask Mr. Kelley (through the courtesy of your press) why I was charged such a sum in a public ward of our hospital.

Marysville Wants Game.

The Marysville baseball club have
written to St. Peter's team in the city league
to visit them for a game of baseball. On
account of the games still to be played
in the City League it is not expected
that the up-river aggregation can be
seen on for a couple of weeks. Mary-
sville is willing to play a return game.

Hampton Lost.

A double header game of baseball was
played on the East End grounds on Wed-
nesday. In the afternoon game the Im-
perial nine were victorious over the
Hampton team by a score of 8-2. The
day for the winners was O'Boyle and
McCoy, while Trimble and Beatty formed
a battery for the losers.
In the evening game Hampton was
again defeated by the Imperials by a
score of 6-3. Beatty and Joyce formed
a battery for the winners, while Freese
and Trimble played as the Hampton
pitchers, and pitched an excellent game.
The line-up was as follows:—
Imperial—O'Regan, 3rd base;
Morton, right field; McLaughlin, 1st
base; Joyce, catcher; Mosher, short-
stop; Merryweather, 2nd base; Max-
well, left field; Hammond, centre field;
Toole and Beatty, pitchers.
Hampton—Matthews, 3rd base; Scully,
short-stop; Fleming, right field; L. Ross,
left field; Hicks, 1st base; Brown-
thorpe, Hutchings, left field; Trimble

and Freese, pitchers, also each played
second base alternately.

Picked by Joe Page.

Spencer Heath, star pitcher of the
Western Canadian League and who
pitched the Winnipeg ball team into the
championship of the first half of the
league series, has been signed up by the
Chicago American League club, and will
report to the White Sox at the close of
the Western Canadian League race;
that is to say after the championship
series between the Winnipeg club win-
ners of the first half and the winners of
the second half, which now looks to be
Saskatoon. Pitcher Heath, who, by the
way, was recommended by Joe Page,
White Sox scout, is a big husky young-
ster weighing about 180 pounds and
stands well on to six feet in height.
Among the facts was the winning of
fourteen straight games for the Peps.
Besides this he has been a tower of
strength in the outfield and at the bat.
Those who have seen him perform are
of the opinion he will prove to be a val-
uable man for the White Sox for some
seasons to come.

On East End Grounds.

The Imperials and Cotton Mill team
will play this evening at 7 o'clock on
the East End grounds, if weather per-
mits.

Davenport Suspended.

St. Louis, Sept. 4.—Dave Davenport,
pitcher with the St. Louis Americans,
was suspended yesterday for the season
and fined \$100 by Manager Burke, fol-
lowing an altercation in the clubhouse
with Burke and Business Manager Bob
Quinn. Police were called and ejected
the pitcher. It was said that the trouble
started when Davenport resented being
reprimanded by Burke. Davenport, who
has been with the club since 1916, an-
nounced he would retire from profes-
sional baseball.

Ban Johnson Case.

New York, Sept. 4.—The legal battle
over the control over the American
League, which has been postponed sev-
eral times within the last few weeks,
began today with B. B. Johnson, presi-
dent of the league, appearing before George
J. Gillespie, referee, for a hearing pre-
liminary to the arguments tomorrow as
to why a temporary injunction, secured
by the New York American League club
against Johnson's interference with the
activities of Pitcher Carl Mays, should
not be made permanent. It was expect-
ed that President Johnson would be ex-
amined regarding his alleged financial
interests in the Cleveland club of the
American League; his alleged animosity
toward President Harry Frazee of the
Boston American League club, and his
alleged partisan action in disciplin-
ing Mays.

Challenge to Y. M. C. I.

The Hampton baseball team chal-
lenges the Y. M. C. I. baseball aggrega-
tion to a game to be played in this city
at any time that satisfactory arrange-
ments can be made. It is stipulated
that only members of the Y. M. C. I.
team play. Arrangements can be made
by communicating with Thomas Ross,
Hampton.

Game Tonight.

Carlton and Fairville are scheduled
to play in the City League series on the
Queen Square diamond, West End, this
evening.

How Herman Lost.

Joe Lynch of New York, chief con-
tender for the world's heavyweight
crown, who outfought Champion Pete
Herman of New Orleans in eight rounds
of a ten-round bout before a crowd of
10,000 people at Waterbury, Conn., on
Labor Day, Lynch led in every round
except the first and fourth. Herman
having a shade in the former, while it
was even going in the latter session.
The bout was a no-decision affair.
Lynch weighed in at 119 pounds, while
Herman was under 118.
The Manhattan boy fought like a real
challenger, following up every lead and
forcing the champion to the ropes on
several occasions with a series of tri-
hammer blows. Herman covered up re-
peatedly and seldom showed a disposi-
tion to mix. When he did, however, he
was met with a volley of blows and
soon resorted to safety-first style.
Herman displayed a few good left
hooks in the first round while each bor-

er was feeling the other out. These and
several displays of infighting earned him
that "inning." Lynch, however, soon got
the idea of the left hook. He gave the
champion more than enough in the in-
fighting.

The sixth was perhaps the best round.
Lynch opened up with a left to the
champion's chin and followed with more
than a score of body blows with light-
ning-like rapidity. Herman covered and
hung up. He landed two punches to
Lynch's face, however.

Only in the ninth and tenth did Her-
man try to lead. "When he did Lynch
rained blows upon him and soon had
him covering up. The champion fought
warily, taking considerable punishment.

Battler Loses.

Wheeling, W. Va., Sept. 3.—Harry
Greb of Pittsburg, won the newspaper
decision over Battling Levinsky of Water-
bury, Conn., in a 10-round bout here
tonight. Greb had the advantage in
every round except the first.

THE RAIN.

Turf Again at Hartford.
Hartford, Conn., Sept. 3.—Rain again
caused a postponement of the Grand
Circuit races here today. Five classes
with the Charter Oak purse of \$10,000
for 212 trotters as the feature event are
carded for tomorrow. Friday's pro-
gramme also calls for five races.

THE KENNEL.

Another St. John dog has achieved
noteworthy honors, Sir Nangis owned by
Bliss A. Smiths of this city, having won
two first prizes and gone through to win-

part-colored cocker spaniel and com-
peted against a field of over sixty entries
including dogs from New York, Winni-
peg, Ottawa, Montreal and other large
Canadian and American cities. The same
dog went to winners in the Montreal
show this spring and will be a feature
of the New Brunswick Kennel Club
show in this city later this month.

ly American woman champion, was mar-

WHO WILL BE IN
WORLD SERIES?

Joe Page Discusses Chances of
The Leaders

Matter of Pitchers Enters Very
Largely Into the Calculation—
Cincinnati Strong in That De-
partment—White Sox Down to
Two

(By Joe Page.)

The race for the baseball honors of
the National League for the season of
1919 will, unless they drop dead, go to
the Cincinnati club, of which the real
manager, Pat Moran, is manager.
So the fans who are interested in the
National League to want to see
the world series can arrange for their
railway tickets to the Ohio city.

There is no question that the fans
will be well taken care of in the home
of the Reds. Arrangements are now
being completed for the games taking
place there, to be staged at the Speed-
way, which will readily seat in the
neighborhood of 100,000 people. While
it is a matter of course, the writer pre-
dicts that the worst series attendance at
Cincinnati will shatter all previous at-
tendance records of world series con-
tests of the past. Not only is the city
baseball crazy but the cities, towns and
villages of the neighboring states, which
have always been a hotbed of baseball,
are just as crazy. Cleveland, Columbus
and Toledo alone will send enough fans
to the series to assure the attendance
records.

The American League.

But doping the American League race
is another matter. Of course ninety
per cent of the fans would say nothing
to it but the Chicago White Sox. They
are six games in the lead and have only
twenty games more to play. Yes, it
looks mighty easy for Kid Gleason and
his White Sox band to come through—
is it? To answer the question, the bet-
ting odds on the leaders in the
Chicago has on hand only two pitchers
or Detroit will beat out the White Sox.
While in the National League the Cin-
cinnati is better than ten to one that Cin-
cinnati will win, yet at the present
writing the latter club is only one game
better off in the race over the contender
than Chicago over Cleveland.

The reason of the great difference in
the betting odds on the leaders in the
two leagues is that while Cincinnati has
got six pitchers all in first class shape
and taking their regular turn in the box,
Chicago has on hand only two pitchers
that they can depend on to send them
to the wire first under—Williams and
Cicotte. It is true they have no fewer
than eleven pitchers on the bench, but
since Aug. 18, with one exception Kerr,
practically all the games lost by Chi-
cago have been with three or more of
these extra pitchers in the box. Since
the above date Williams and Cicotte
have lost only one game. The former
win in every other day while Cicotte
has been in the box in every five
days. As for example the New York
series starting Aug. 23. On that date
Williams beat them. Cicotte won out
the following day, while Williams again
winning out in the third game. The
fourth game went to New York with a
string of four pitchers trying to hold
them back—Ludermilk, James, Baber
and Ragan. The conditions obtained
the same in the recent St. Louis, Cleve-
land and Detroit series, Williams in this
cases dropping one game.

There are twenty bruising games to
go yet with Cleveland, Detroit and St.
Louis in Chicago Sept. 6-4-7-24-25-26-27-
28 and Chicago at Washington Sept. 9-
10-11, Philadelphia 12-13-15, New York
16-17-18 and Boston 19-20-22, and only
two pitchers, who have already been
greatly overworked, to man them. The
majority of the games are with first di-
vision clubs, all of whom have pitching
stuffs in tip-top condition. It is to be
wondered at that the halcyon betting
sharp is willing to wager his money at
less than one to two that the White Sox
fall to get through the stretch and first
under the wire? Personally I am of the
opinion that the riding, patting, con-
fiding and judicious use of whip and spur by
their brilliant and game little rider, the
famous Kid Gleason, will send them
there ready to put up a game and bril-
liant battle for world's championship
honors, or, if one game, the writer will
have more to say soon.

Taking risks which seemed to specta-

their lives away firemen made three dif-
ficult rescues at a fire which destroyed
a five-story brick tenement house at 247
Clinton street.

The fire started on the first floor and
in a few minutes was roaring up the
stairs and spreading on each floor. The
flames in the hall of the fifth
floor by the occupants of that floor had
warning. By the time they got to the fire
escapes flames from the windows of the
lower floors were enveloping the iron
ladders.

Nellie Callahan, nineteen years old,
gave lives; on the top floor, ran back to
one of the top windows when she found
all escape cut off. She was about to
jump when the crowds shouted to her
that the firemen were trying to rescue
her. Fireman Timothy O'Leary of En-
gine 15, who was off duty at the time,
appeared in the window of the fifth
floor of an adjoining building, the occu-

of the battalion chief, who moved back-
ward and forward, with his head down-
ward, clinging to the woman's waist. The
weight was too great for the firemen in
the window to pull them back. The
chief's grip of the woman seemed to be
loosened, while there was danger that
all four would fall.

"An aerial ladder, forty-five feet long,
was thrown up against the wall and Fire-
man Frederick Miller ran up to catch the
woman if she fell. Winding his legs
against the ladder he leaped far out and
held the woman who was finally carried
into the room. For a few seconds they remained in
this desperate situation, where a false move
or the sudden exhaustion of the strength
of any of the four firemen might have
sent all crashing down forty feet to the
sidewalk. Then more firemen reached
the window, gripped O'Leary and Scan-
lon, and began slowly to lift the bat-
talion chief, while Fireman Miller wriggled
up the ladder and continued to aid in
holding the woman who was finally car-
ried into the room. She was Mrs. Cath-
erine Callahan, mother of the girl who
had been previously rescued.

While the second rescue was being
made another woman appeared at the
window surrounded by flames. To avoid
being burned to death there she gripped
the window sill and hung her body out
on the woman. Firemen shouted to her
not to drop. A ladder was placed against
the window and Fireman William Hart-
man of Truck No. 6 ran up it. Gripping
the ladder with his legs he hung far over
to get a firm grip with both hands on
the woman.

Her weight nearly dragged him from
the ladder, when other firemen behind
him on the ladder supported him and the
woman. The third woman to be res-
cued was Mary Heffernan, twenty-four
years old, who lives on the third floor, but
was forced to run to the top floor when
the flames cut off the stairs and the fire-
escape. She was severely burned and
singed.

"No commendation is too strong," said
Deputy Chief "Smoky Joe" Martin, "for
the energy and efficiency displayed in the
rescue. I cannot praise those firemen suf-
ficiently for their valor."
Fireman Timothy O'Leary, who made

the first rescue single-handed and aided
in the second, received the Thomas
Crimmins Medal in 1914 for valor dis-
played while rescuing a baby from the
top floor of 214 Monroe street.

Grandma was of the old school; she
didn't like modern manners at all.
"There is one thing I notice particu-
larly about that young man who come
to see you," she said to her sweet, young
granddaughter. "He seems to have an in-
born, instinctive respect for women. He
treats every woman as though she were
a being from a higher sphere, to be ap-
proached only with deference."
"Yes, he's horribly bashful, isn't he?"
said the 18-year-old miss.

MUST NOT SPEED

AUTOS IN THE CITY
A bye-law case against John Gabriel, who was charged in the police court yesterday with speeding in Wall street, was resumed this morning. The defendant, a man told of seeing this man driving in the street at the rate of about twenty miles an hour and hitting a dog. G. M. Barker, of 2-Barker, Limited, said that this man was delivering goods in Carleton on the afternoon of August 27 and did not return to the store until about four o'clock. The defendant, who is driving for Messrs Barker on Wednesdays, said that he did not remember this incident. He was fined \$10.

At the conclusion of the case the magistrate said this speeding in the streets must be stopped. He said he and a friend were crossing Sydney street and a car came along at the rate of about forty miles an hour, according to the estimate of his friend. The magistrate said that should he have been able to get the number of the car the driver would have been in the court to answer for speeding.

HOME FROM WAR

After a considerable length of service overseas, Major Robert Rankine and Lieut. William Henderson, D.C.M., returned home this morning via Montreal from Boston, where they had landed on the S.S. "Bohemian." Major Rankine went from here with the 55th battalion, and on its being disbanded served in different reserves in England until going to France with the imperials on lines of communication. He will remain here for a few days prior to going to Los Angeles, where his wife is at present visiting.

Lieutenant Henderson was a sergeant-major with the signals of the 1st division under Col. T. E. Powers, but later transferred to the 3rd division signalling company, winning the D.C.M. and getting his commission. He has had a very lengthy period of service in the field. Both he and Major Rankine were warmly welcomed by friends this morning.

POLICE COURT

In the police court this morning, Stella Gordon, who was arrested yesterday afternoon by Detective Biddiscombe, was charged with stealing clothing and money, the articles valued at about \$15, from her room-mate. Detective Biddiscombe told of going to a house at 44 Union street, in company with Miss Mary Patton and Miss Babine, who are the complainants in the case. He said in consequence of information received from them he went to the defendant's room, where the defendant was asleep. He told her that he had come to see about some goods which had been lost by her room-mate, but she said she did not know anything about them. In searching through the bureau drawers the detective said he found several articles belonging to a manure and toilet set, also a pair of kid gloves, halpins and a pocketbook containing \$1.90.

The goods were identified yesterday by Miss Mary Patton and Miss Babine who belong to them, but some articles were found which the young ladies said belonged to Mrs. Cameron, with whom the accused was lodging. It was estimated that the value of the goods would amount to about \$15. The case was postponed until tomorrow morning when the complainants will appear in court to give evidence.

Frank Coleman was charged with being drunk and also with assaulting Robert Garnett, in Union street, between six and seven o'clock last evening. Mr. Garnett told of meeting the defendant, who wanted \$10, but said he told him that he had no money for him or anybody else. To this the defendant, he said, used obscene and abusive language, and grasped him by the collar and following Mr. Garnett into an alley, struck him and knocked him down.

The defendant declared to the court that Mr. Garnett was in debt to him in the sum of \$10 and that he merely asked him for the return of the money, but did not in any way assault him. A fine of \$8 for drunkenness, \$8 for using obscene language, and \$20 for committing the assault, were imposed.

Two men were charged with drunkenness, one told the court that he had been playing cards and some one had struck him several times in the face and bruised and cut on his face. Evidence of this fact. He was remanded to jail while the other offender was fined \$8.

SEPTEMBER BRIDES

The bride wore a becoming costume of pale blue silk and carried a bouquet of bridal roses and maiden hair fern. She was assisted by Miss Ethel Blatford as bridesmaid, who wore a blue silk dress. George Marr, brother of the groom, was groomsmen. A wedding luncheon was served after the ceremony, and this morning Mr. and Mrs. Marr left by steamer for a trip through Nova Scotia. The bride's traveling costume was sand-colored serge with hat to match. On their return they will reside in Moncton. They were the recipients of many valuable wedding gifts.
