QUEEN MARY PREPARING HER JEWELS

Glorious Diamonds to Be Worn at the Coronation Ceremony

NOT SEEN FOR YEARS

London, March 20.—The weaving of the cloth of gold for the coronation robes of the king and queen has been begun at Messrs. Warner's silk works, Braintree. By order of the queen, who is specially interested in the British silk industry, the materials will be entirely of British make. The cloth consists of silk, material, into which are woven threads of pure gold. When finished the cloth, which will be valued at \$200,000, will be taken to the London School of Art Needlework and made into robes for the king and queen. The fabric is stated to be of more value than its weight in gold coinage.

Queen Mary has already begun the fascinating task of overhauling her collection of jewels. Diamonds are her favorite precious stones, and among the crown jewels which came into her possession she found several handsome specimens which have not been the light for several years, but they are to be worn during the coronation festivities. One of the queen's most prized possessions is a magnificent coronet of Indian diamonds, designed in an alteration of fleur-de-lis and maltese crosses, which was usually worn by the late Queen Victoria in her young days.

Several new features for the coronation programme have just been announced. Previous to the departure of the foreign guests the king and queen intend to give a garden party in the grounds of Buckingham Palace, a function to be run on the lines of the late king's garden parties at Windsor.

London, March 20.—A coronation concert at which the king and queen will be present is to be given in the Albert Hall on May 20, by the cooperation of the Royal Albert Hall, the Royal Choral Society, and the Royal Amateur Orchestral Society.

It is expected that the king and queen will drive through the east end of London on June 29, the day on which they will attend a service in St. Paul's cathedral.

It is probable that the city of the imperial crown will also come over with the rest of the South African troops to take part in the coronation procession.

The attendance of the detachment would be very popular and highly appropriate as the "Boer" became its colonizer as far back as January, 1905, when he was Prince of Wales.

No Italian prince has yet been nominated to represent the king of Italy at the coronation, but it seems likely that the Duke of Aosta will once again be chosen.

The government of New Zealand through the high commissioners have offered to erect an arch on the line of route between Buckingham Palace and Westminster Abbey, in honor of the coronation, and the war committee and the coronation committee are now considering the matter.

CANADIAN SCOUTS TO THE CORONATION

Headquarters Announcement of Project Also Puts The Ban on Scheme Forwarded in Montreal

(Canadian Press)

Ottawa, March 20.—A notice from the headquarters of the Canadian Boy Scouts, Ottawa, says:

"The attention of the chief scout and the dominion council has been called to an announcement by a Montreal weekly publication, that arrangements were being made towards sending a party of boy scouts to England to witness the coronation ceremonies. It is desired to announce that this scheme has not the approval of the dominion council, and all scout associations are warned against participating in it. The dominion council does not approve of the boy scouts being made the basis of an advertising scheme, a policy directly opposed to the principles of the movement. Further, if such a party of boys is sent to England it will not be recognized by the English boy scouts without the approval of the dominion council.

"Arrangements are now being made by the dominion council towards sending a contingent of Canadian boy scouts, representing each province, to England in June, either to attend the coronation or to participate in a rally to be held at Windsor Park in July. The discipline and care of such a party is of so much importance that the utmost caution will be exercised to ensure competent officers being in charge, and every precaution taken to safeguard the welfare of the boys."

PERMANENT PEACE IN ALL THE ENGLISH SPEAKING WORLD

Anglo-American Arbitration Treaty Proposals Welcomed in Hundreds of Churches in England Yesterday

(Canadian Press)

New York, March 20.—A cable dispatch from the Tribune's correspondent in London states that the proposals for an Anglo-American arbitration treaty were welcomed in hundreds of churches yesterday. The Anglicans were not silent, but the heartiest responses were from the evangelical free churches. Since the national council had sent out a general appeal for an emphatic expression of approval of the treaty, the Anglican clergy had been urged to strengthen their hands and encourage their congregations to support the treaty. The proposals were warmly received in the churches in America and the leaders of peace societies in England and the United States are expected to support the British churches.

Mr. Meyer had been sending out cables to friends in America and hopes that the enlightened opinion of the religious bodies of both countries can be expressed simultaneously at meetings to be held early in April. He considers it of the utmost importance that Sir Edward Grey and President Taft, having appealed for the moral force of public opinion, should have it at the earliest possible moment, so as to strengthen their hands and encourage them to persevere in reducing the proposals to a practical form. While there is no central committee in the established church to initiate similar action, the urgency of the situation demands that the clergy should be urged to ensure competent officers being in charge, and every precaution taken to safeguard the welfare of the boys.

Albert Hall, which seats 10,000 persons and is the largest building in London in which meetings can be held, has been secured, provisionally, for April 1 for the great peace demonstration. It is hoped that the Albert Hall meeting has been deferred until the end of next week.

SLANDER SUIT IN HIGH SOCIETY

Baron Arnold deForest Takes Action Against His Mother-in-Law, Lady Gerard and His Brother-in-Law

London, March 20.—A slander suit which is expected to interest all England has been filed by Baron Arnold deForest against his mother-in-law, Lady Gerard, and his brother-in-law, Henry Milner. The suit arose in connection with the engagement of his wife, about a year ago, with Lieutenant H. C. S. Ashton, of the Second Life Guards, and comments made thereon by Lady Gerard.

Baron deForest was wedded in 1904, his wife being the only daughter of the late Viscountess deForest, and a granddaughter of Lady Rosebery. She was beautiful and had a reputation as an accomplished sportswoman. He was an adopted son of the late Baron Empereur and received his title from Emperor Francis Joseph of Austria.

When deForest was twenty-one he married the wealthy widow of Monier, the chocolate millionaire of France, but subsequently their marriage was annulled. Then the Baron settled in England. In English society he met the then Miss Gerard, and after a brief courtship wedded her, giving her as a present a rope of pearls valued at \$300,000.

Lieutenant Ashton was a friend of both deForest and Gerard, and was a frequent visitor to their home. When Lady deForest vanished and Ashton was found to be missing at the same time no great amount of astonishment was discernible among the friends of all of them.

The mother-in-law, Lady Gerard, when she heard all the circumstances, remarked: "Well, Ashton would have been much more than a hard nut to run away with my daughter. DeForest was entirely too gallant to have association with other women."

It is largely upon this intimation that Baron deForest is now bringing his suit for slander. Lady Gerard's brother, Henry Milner, is said to have made remarks of the same nature.

Both Lady Gerard and Mr. Milner, according to their attorneys, will plead that they were entirely justified in saying what they did, and will introduce evidence to show that their criticisms were true.

DEATH FOLLOWS BUT FEW HOURS AFTER HER SISTER'S

Hard Fortune Follows Caroly Ripley—Amherst Takes Hold on the Boy Problem

(Special to Times)

Amherst, N. S., March 20.—One of the saddest news that has come before the people of Amherst for some time is that of the family of Caroly Ripley, townsmen of French, N. S. A year or two ago all the firm buildings and their contents were destroyed with no insurance. Last autumn, in order that his family might obtain employment, they moved to Amherst, one of two of the boys and girls securing positions in the town. Recently Mr. Ripley was stricken with measles, which are prevalent in Amherst; the disease then attacked the whole family, except the mother. On Saturday night one of the daughters, aged eighteen years, died, and yesterday morning the death of another occurred, aged fifteen years, while the lives of several others are at present despaired of. There are nine children, the majority of whom are very ill.

Mr. Ripley, who is a hard working man, and was a fairly prosperous farmer, has been reduced to very poor circumstances, and the case is one that demands the attention of charitable agencies. The double funeral will take place this afternoon at ten o'clock.

W. Moore, Y. M. C. A. secretary of boys' work, St. John, N. B., and Mr. Ritchie, Canadian secretary of this department, gave addresses to the church here yesterday. A two days' campaign to raise \$5,000 to carry on this work in Amherst will begin tomorrow. The show, which was arranged over the boy problem.

HE CONFESSES TO THE BRUTAL KILLING OF GIRL

Insanity, However, Will Be Pleaded in Effort to Save the Life of Edward Jardine

(Canadian Press)

Goderich, Ont., March 20.—Edward Jardine, aged twenty-two years, now confined in the county jail here, awaiting trial at the spring sittings next month for the alleged murder of Lizzie Anderson, has made a complete confession that he alone committed the deed.

This confession was secured by Dr. R. W. Bruce Smith, inspector of prisons and asylums of Toronto, who was here on Saturday. Chief Coroner Arthur Jukes Johnson, of Toronto, was also here to examine the sanity of Jardine and George Vanstone. The latter is awaiting trial on a charge of murdering his six-year-old son here last fall.

In the statement made to have been given, Jardine admits that he enticed the Anderson girl from the fair grounds to a vacant building a short distance away. After some alterations in which she threatened exposure, he struck her with a jackknife and she succumbed almost immediately. This murderous attack, Jardine alleges, was due to a fit of temporary insanity. Later he returned and stripped the body of its clothing by slashing away each article with his knife. It would be the defence in the case of both Jardine and Vanstone.

Opposition Candidate's Prospects Better Every Day—Death of Mrs. Thomas Merritt

(Special to Times)

Fredericton, N. B., March 20.—The political net in York is beginning to boil and the prospects of Mr. Burden, the opposition candidate, are growing brighter every day. The local government supporters are becoming panicky and readily admit that they are in for a hard fight.

The York county court will open tomorrow. The case of Flowers and Rolsten charged with burglary will come up.

The quarterly meeting of the St. John Presbytery will be held here tomorrow. A moderator will be elected to succeed Rev. George D. Ireland who has gone west. Six inches of snow fell here last night.

Mrs. Anna Merritt, wife of Thomas Merritt, died here on Sunday. She was a native of St. John and was sixty five years old.

RAISING BLACK FOXES

Yukon Men Get \$1,500 For One Pelt—Highest Priced Fur

Washington, March 20.—The raising of black foxes, the pelt of which is the highest priced fur on the market is proving a profitable business and has been secured by black fox and silver foxes can be bred in captivity, according to a recent report by Mr. Foulk of Carcross, Yukon territory, captured a litter of black foxes, and raised and sold them for breeding purposes. His enterprise not only has proven a success financially, but as well has increased the general knowledge that black foxes like black sheep, are merely ferals.

Mr. Foulk for the pelt of one of the black males, and has sold pelts of silver foxes as high as \$1,200.

EXCELLENT RECRUITS FOR CANADA'S NAVY

They Will Attract More to the Service, is View of Admiral Kingswell

(Canadian Press)

Toronto, Ont., March 19.—Speaking at a luncheon by the Canadian Military Institute to Admiral Kingswell and his staff of officers, Commander Boyer, R. C. N., and Engineer Commander Howe, R. C. N., on Saturday, Lieut. Governor Glasgow, in proposing the health of the guests of honor, placed himself on record as being strongly in favor of the starting of a navy in this country.

Admiral Kingswell in replying said that he and his staff were in Canada to carry out the instructions of the federal government. As an officer of the active list, he was deterred from discussing the navy as a question, but he could tell them that they were getting an excellent class of recruits, who when they were granted a full course of training, would be the means of attracting many more desirable young men to the service of their country.

HE CONFESSES TO THE BRUTAL KILLING OF GIRL

Insanity, However, Will Be Pleaded in Effort to Save the Life of Edward Jardine

(Canadian Press)

Goderich, Ont., March 20.—Edward Jardine, aged twenty-two years, now confined in the county jail here, awaiting trial at the spring sittings next month for the alleged murder of Lizzie Anderson, has made a complete confession that he alone committed the deed.

This confession was secured by Dr. R. W. Bruce Smith, inspector of prisons and asylums of Toronto, who was here on Saturday. Chief Coroner Arthur Jukes Johnson, of Toronto, was also here to examine the sanity of Jardine and George Vanstone. The latter is awaiting trial on a charge of murdering his six-year-old son here last fall.

In the statement made to have been given, Jardine admits that he enticed the Anderson girl from the fair grounds to a vacant building a short distance away. After some alterations in which she threatened exposure, he struck her with a jackknife and she succumbed almost immediately. This murderous attack, Jardine alleges, was due to a fit of temporary insanity. Later he returned and stripped the body of its clothing by slashing away each article with his knife. It would be the defence in the case of both Jardine and Vanstone.

FAMOUS GEMS OF PROSE

THE SIMPLE LAW OF SLAVERY

By Charles Sumner

From an address before the people of New York at the Metropolitan theatre, New York city, May 9, 1855.

"The cardinal principle of slavery—that the slave is not to be ranked among sentient beings, but among things—is an article of property—a chattel person—obtains as undoubted law in all of these (slave) states."—Stroud's laws of slavery, 22.

Slavery, this is enough. As out of its small egg crawls forth the slimy, scaly reptile crocodile, so out of this simple definition crawls forth the whole slimy, scaly, reptile monstrosity by which a man is changed into the whole slimy, scaly, converted into a thing—a soul is transmuted into merchandise. According to this very definition the slave is held simply for the good of his master, to whom he bestows his life, liberty and happiness are devoted, and by whom he may be bartered, leased, mortgaged, bequeathed, involved, shipped as cargo, stored as goods, sold on execution, knocked off at public auction, and even staked at the gaming table on a hazard of a card or die. The slave may seem to have a child, but he has not; for his child belongs to his master. He may be filled with the desire of knowledge, opening to him the gates of hope on earth and in heaven, but the master may impulsively close this sacred pursuit.

Thus he is robbed not merely of privileges, but of himself; not merely of money and labor, but of wife and children; not merely of time and opportunity, but of every assurance of happiness; not merely of earthly hope, but of all those divine inspirations that ennobles the human mind, but he is not merely restrained in liberty, but totally deprived of it; not merely curtailed in rights, but absolutely stripped of them; not merely loaded with burdens, but changed into a beast of burden; not merely shut out from knowledge, but wrested from the place in the human family; not merely compelled to involuntary labor, but degraded to be a rude thing; not merely exposed to personal cruelty, but deprived of his character as a person; and all this, sir, is according to the simple law of slavery.

HAZEN SUPPORTER IS OUT FOR THE OPPOSITION

Ex-Warden of York Presides at 'Nashwaak' Meeting—Mr. Burden's Campaign is Going With a Fine Swing

Fredrickton, March 19.—The opposition campaign continues to meet with success. Rousing meetings were held last night at New Maryland, Lower Prince William and Nashwaak. The government, however, beginning to realize that the opposition gained a great advantage in getting the campaign started first.

W. L. McFarlane, ex-warden of York, presided at the meeting at Nashwaak, and said that his members were either insincere in making them or lacked ability to carry them out. He heartily endorsed George F. Burden, the opposition candidate, saying that while a member of the municipal council of York he had become aware of Mr. Burden's ability, particularly his grasp of the financial situation as far as the country was concerned. Mr. Burden had on one occasion, in a forcible speech, Mr. McFarlane arraigned the Hazen government for its broken pledges, and said that its members were either insincere in making them or lacked ability to carry them out.

At New Maryland A. F. Bentley, M. P. for St. John county, and S. B. Hatfield, M. P. for the county, will enter the campaign in York early this week.

MR. SIFTON'S MISTAKE

(New York Evening Post.)

Only a highly emotional nature can visualize the Canadian Northwest transferred within a few years into the "backyard" of the city of Chicago, and Canada itself as a satrapy ruled from Washington. To those who see the spectre of annexation, this question might be put: If it has taken thirty years to bring so reasonable and so inevitable a thing as reciprocity within the realm of actuality, how many years must it take to make the infinitely more complex and difficult problem of annexation a living issue? Unless Mr. Sifton allies himself to the very highest type of statesmanship, which insists on looking a hundred years ahead, why use the telephone to disquiet his nerves? We do not believe that the proposed arrangement will "turn Canada from the path which leads to the capital of the British Empire to the path which leads to Washington." We insist rather on considering the benefit to this nation, to Canada, to the British Empire, and, more than that, to the peace of the world, if a Canada in friendlier relations with ourselves shall come to be the tie that binds us closer to Great Britain.

REMNANTS ARRIVED

Cardinal Gibbons was recently the guest of a human friend in Baltimore. In the home is a butler of Mrs. Partingtonian proclivities, and on the church dignitary's former informal visits to the home his mistress had been under the necessity of reminding the obtuse servant that the distinguished guest was to be addressed always as "Your Eminence."

On the present occasion when the Cardinal rang the bell the man of impulsive countenance answered, received the card, and, turning, announced to the hostess: "Please, mum, your remnants has came."—Ladies' Home Journal.

Carnegie May be Called on to Arbitrate New York Express Strike—Atlantic Steamer Rates

New York, March 20.—Americans irregular with slight changes. Decision day in supreme court. President Taft returns to Washington. His message to extra session will be filed, it is thought, to reciprocity and permanent tariff board question. Mexican situation unchanged. General belief seems to be that Senator Linnenton's arrival in Mexico City will be followed by concessions which may appease the insurgents. Reported that Democratic caucus at Albany will meet again and endorse Sullivan after which he is expected to retire and break deadlock. Andrew Carnegie may be invited to arbitrate Adams Express strike which leaders of teamsters union have refused to aid by calling general sympathetic strike. Meeting to adjust trans-Atlantic rates will be held this week in Boulogne. N. Y. statement shows improved conditions beginning of return currency movement. February exports of farm products show general business situation continues disappointing with sufficient demand to support the country per cent. of productive capacity. Subscriptions of U. S. Steel employees under general plan larger than any previous year. Twelve industrial advanced 39 per cent., twenty raw materials advanced 42 per cent. DOW, JONES & CO.

MR. HAULTAIN ON LOYALTY

(Toronto Globe.)

The opinion of Mr. Haultain, who governed the Northwest Territories for years before the formation of the Province of Alberta and Saskatchewan, and who has had excellent opportunities of learning the real views of the Americans now pouring into the Canadian West, should be of far more value than that of eastern critics of reciprocity who declare that it will Americanize the West.

Mr. Haultain is the Conservative leader in Saskatchewan. It was hoped that he would be one of Mr. Burden's chief lieutenants should he ever be called upon to form a government. He cannot be accused of subservience to the government at Ottawa. His opinion is that of a man who has always been actively identified with imperialistic sentiment.

Mr. Haultain, in the exercise of his duty as a member of the Saskatchewan Legislature that he did not believe the Americans who were helping under cover shipping plan larger than any annexation, and he had always found that the Americans were better satisfied with the conditions in Canada than they had been in the States. Besides, no one had ever heard of a political agitation arising where people were prosperous and contented, and for that reason there could be none in the Province of Saskatchewan. The immigrants who came here would first become good Canadians, and in the end good Britons.

It is remembered that there are almost a quarter of a million people of American birth and ancestry in Saskatchewan, and that many are being added to this total every day, the importance of Mr. Haultain's statement cannot be over-estimated. Within ten years we shall have between the great lakes and the Rockies over a million persons born south of the border who will be good Canadians and in border who will be good Britons.

OPPOSITION OBSTRUCTING BUSINESS IN OTTAWA

Ottawa, March 19.—With the ending of the fiscal year less than two weeks away, and a very small percentage of supply for the current year, the government, and with the obvious obstruction of the opposition, particularly during the past two weeks, it has been decided by the government to devote most of the balance of the month to endeavoring to get supply, leaving the opposition the part of a section of the opposition to propose a vote of confidence in the government, and to the end of a continuation of the present tactics and a refusal to pass an interim supply bill, if found necessary, it might be that an appeal to the country would be found necessary to solve the deadlock.

The issue in that event would be clearly defined, and although it would be obviously unjust for the opposition to force an appeal to the country before another session, when the redistribution bill could be put through, and the worst effects of proper representation in new members, the opposition would be with the opposition and the government would not fear the result. It may also be asserted with assurance that the government has no intention of either dropping or modifying its reciprocity proposal, and will use every endeavor to have them passed by the house as speedily as possible.

YORK AND THE VALLEY ROAD

A portion of the report on the Valley Railroad made by Chief Engineer Maxwell to the Hazen government directly and completely justified the action of the Dominion government in insisting that the Valley line shall be built up to the general standard of the transcontinental in New Brunswick. In closing his report Chief Engineer Maxwell says:

"Section 37 of the Act authorizes the Lieutenant-Governor-in-Council, in case of the construction of this road either under part 2 or 3, to make provision for running rights over the same or any part thereof, for any through line of railway seeking connection with the port of St. John or the port of L'Etang, St. Andrews, or other port in the county of Charlotte. In view of this important provision in the Act, it would not be advisable to construct a railway along the Valley of the St. John River, and particularly below Woodstock, except as specified in part 2 of the Act, as the difference in cost of construction of two lines of railway, one built to the standard transcontinental four-tenths per cent. grade and the other built to the standard intercolonial grade of one per cent., would not be at all proportional to the real value of the respective roads for transportation purposes."

Mr. Maxwell had tried to do so, could not have more completely vindicated the position of the federal government in regard to the proposed railroad through the river counties. Hon. Mr. Pugsley, Mr. Carvell, and others who are familiar with the needs of the valley, and who have worked continuously and energetically to give the people of that section adequate transportation facilities, have succeeded in bringing within easy reach the great advantages which residents of the valley are most anxious to obtain. By the acceptance of Mr. Malcolm's offer, whereby the road would be constructed according to the terms of Hon. Mr. Graham's resolution, and would be leased and operated by the I. C. R., reasonable rates and a first class railroad would be guaranteed.

Another very important feature is that the Intercolonial would agree to pay over the very large proportion of forty per cent. of the gross earnings as rental, and this would make it easy for the company to finance the undertaking, and would insure the payment of interest on the provincial bonds. The gross earnings of the Intercolonial for the year ended March 31, 1910, were \$6,220 per mile. Forty per cent. of this sum would be \$2,488 per mile. Those who know the traffic possibilities of the St. John valley will agree that it would not be many years before the new line would have as large gross earnings per mile as the main line of the Intercolonial, and forty per cent. of such earnings would pay interest at four per cent. on \$60,000 a mile.

INFANTILE PARALYSIS

A Germ Disease Which is Baffling the Doctors and Alarming the People Generally

It may be said that doctors are only agreed on two points regarding this much dreaded disease. First, that it is a germ disease, and second, like all germ diseases, can only be fought with pure rich blood. Prevention is always the better way and that is why we are always talking about the wisdom of keeping the blood pure and rich and the nerves strong by using Dr. Chase's Nerve Food. Rich red blood is a healthy blood to disease germs which cause infantile paralysis or any other disease. Don't let the blood thin and watery. The risk is too great. Every case of Dr. Chase's Nerve Food gets a reformation of a certain amount of pure rich blood. For this reason you are certain to benefit by this treatment.

You need not wait until you have some form of paralysis before testing this great medicine. Be warned by headache, sleeplessness, irritability, failing memory and power of concentrating the mind. Restore the system while still you are something to build on. Get new energy and vigor into the system by using Dr. Chase's Nerve Food. 50 cents a box, 8 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto.

ABSOLUTELY CURES STOMACH TROUBLE AND INDIGESTION

Heartburn, Gas, Dyspepsia and Headache Relieved in Five Minutes With a Little Diapepsin

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia, or out-of-order stomach, is merely a matter of how soon you begin taking some Diapepsin. If your stomach is lacking in digestive power, why not look the stomach to do its work, not with drastic drugs but a reinforcement of digestive agents, such as are naturally found in the stomach. People who eat rich meals should take a little Diapepsin occasionally and there will be no long waiting for relief like a lump of coal in the stomach, no heartburn, sour stomach, gas, or indigestion, no headache, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with a foul odor. All these symptoms result from a sour, out-of-order stomach and Diapepsin are generally relieved in five minutes after taking a little Diapepsin. Go to your drug store and get a 50-cent case of Pappe's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

NEW INVENTION MAY MAKE A BIG SAVING IN COAL CONSUMED

London, March 20.—Considerable interest is taken in experiments carried out for the purpose of reducing the amount of coal consumed by locomotives, as well as for the purpose of increasing the hauling power of railway engines. According to the statistics, the amount of coal consumed on home railways exceeded £2,000,000 in 1910. It is estimated that if even a slight saving could be made in the amount of coal consumed by each locomotive a day, it would be of a considerable importance to the railway companies.

THE MOST SUCCESSFUL Shoe Sale

In the History of the C. B. Pidgeon Establishment

The high quality footwear at the wonderfully low prices has recorded the opening days of March as record breaking sales days in the mammoth shoe department of the C. B. Pidgeon store.

On the first of March, this popular North End shoe house inaugurated a gigantic clearance sale, offering its entire shoe stock at tremendous price reductions.

Minds you, every pair in the entire store was marked down in price on March 1st, and although the sales have been much greater than ever, our assortment to begin with was accordingly the largest we ever offered in a special sale.

So the opportunities to buy Men's, Women's, Boys' Girls', Children's or Infants' Shoes are just glorious with money-saving inducements, right now in the midst of this great clearance sale, which no economical individual should miss.

REJECT EIGHT-HOUR BILL
South Africa Assembly Action on Measure Dealing With Labor of Miners
Cape Town, March 20.—The amendment to the mine regulation bill proposed by Mr. Sampson, a Labor member, providing for an eight-hour day, coming from the time of leaving to that of returning to the surface, instead of merely that spent below ground, has been rejected in the Union House of Assembly by 27 votes to 2. The Asiatic question was the subject of debate in the Union House of Assembly, the main points discussed being Asiatic immigration and trading. The minister of the interior, Mr. Smuts, said that there was but one way of dealing with the difficulty, namely, by stopping immigration, although he nevertheless admitted the way in which Indians stood together for what they considered to be their rights. The policy of the government that immigrants should be stopped had been communicated to the imperial government, who had asked that a limited number of Indians should be allowed to enter, a demand to which he had no difficulty in agreeing, since the number would be so small that it would not affect the stream of the country's life. The government also proposed to insist on Asiatics remaining in the particular province in which they were domiciled. A bill would, he stated, be introduced referring to the whole question of immigration, matter with your province," he asked. It is said that with the passing of the bill referred to any person who is unable to write city words distinctly by the migration officer in a language he may select will be excluded from the country.

COMMISSIONER REES WELCOMED IN ST. JOHN
The public welcome to Commissioner Rees, the new head of the Salvation Army in Canada, in the Opera House yesterday, was well attended. Mayor Frink presided and there were several addresses on the platform. After addresses by Brigadier Aubrey Ald. Wigmore and Col. Mapp, Commissioner Rees gave a very interesting account of his work in the army. He went back twenty years to a time when he was head of the Army in Canada and to the points he had since held, which included Central Africa, Sweden and the Training College in London. He conveyed a message of love from General Booth. He said that if the head of the army lived till April he would be eighty-two years of age, and he hoped to be here in September. The meeting closed with a vote of thanks to the commissioner. Commissioner Rees, interviewed on Saturday, intimated that the foundation of a women's college for social work, and the raising of the standard in the existing institutions might be expected. He will leave for Halifax tonight and will go from there to Newfoundland. "What is the matter with your province," he asked. "You need a revival here in the east."

The Evening Chit-Chat
By RUTH CAMERON

"THE fate of the American drama is in the hands of American women." This is the statement of a leading New York theatrical manager. It is founded on an accurate count made at the doors of five large New York playhouses for one week.

The proportion of women at the nightly-mind you, not the matinee, but the evening performances of these playhouses was from sixty-eight to eighty-nine per cent.

That means that the women of America, are the backbone of the dramatic audience, and that consequently plays are written and staged with an eye to pleasing them.

Just as much as if we went to the manager and said: "This is the kind of play we like and this is the kind we won't tolerate."

It is a big responsibility, isn't it? Such a big one and so widely diffused, unfortunately, that it is difficult for women as individuals to realize just how they can put their shoulders to it.

At an afternoon tea the other day I heard a certain play being discussed.

It is the kind of play at which the American woman most emphatically ought to turn her thumbs down.

And yet the two women who had been to the play praised the acting in such glowing terms that half a dozen other women avowed their intention of attending.

"Of course, it's not a play for children, my dear," said one of the women who had seen it. "but you are old enough and know enough of the world not to mind that sort of thing, and the acting is really splendid."

I don't absolutely know the outcome, but doubtless the ladies went and their dollars swelled the mighty voice of the box office that told the manager that this was the kind of a play American women liked.

And doubtless, now he is looking about for other plays of that type, and if he puts his star on in one next year it will be at the request of the American women.

The manager of one of the biggest vaudeville circuits in this country has barred from his stages all mother-in-law jokes "because women don't like that sort of thing."

You see, every woman that withheld her laughter helped banish that joke.

If they would, they might do the same for all the infinitely more objectionable jokes founded on drunkenness that are tolerated everywhere on our stage. And in my mind they could scarcely do a greater thing for their sons.

By making the jokes on the stage which make light of drunkenness and immorality fall by failing to laugh at them.

By never attending intentionally immoral plays and musical comedies whose sole charm is their indecency of dress and allusion, no matter how good the staging or how excellent the acting.

By not advertising these plays by talking about them (even against them).

By giving hearty support and applause to wholesome plays and clean vaudeville.

These are some of the ways in which you, an individual woman, can rightly play your part as censor of the American stage.

Daily Hints for the Cook

MARSHMALLOW PUDDING
One-half pound of fresh marshmallows cut into quarters, 1 can of shredded pineapple poured over the marshmallows. Sprinkle with sugar and let stand 2 or 3 hours. Just before serving cover with 1/2 pint of whipped cream, slightly sweetened.

BEANS-TOAST
Cut cold beefsteak into small pieces (beefsteak can be used well here), line a deep dish with good toast, spread with a layer of meat, then one of cold potatoes, cut into dice, bits of butter, salt and pepper and sugar and let stand 2 or 3 hours. Repeat this till the dish is full. Dissolve a tablespoon of flour in tepid water and pour over it; add the juices from running over. Put on the top crust, pinch down the edges and stick a fork in the centre to keep the juices from running over. The next pie mentioned so often by Charles Dickens, "beefsteak and kidney," and "beefsteak and liver" are made this way, adding a layer of either liver or kidney on top of the steak and using a chopped onion with it. Cook slowly.

RYE BREAD
Scald one pint of milk and cool it. Dissolve one yeast cake in warm water. Use half rye and half flour, 1 cup of sugar and one tablespoon of salt. Put one tablespoon of lard into a large cup or bowl and pour boiling water over it. Let it cool. Now mix flour, rye and sugar together. Dry. Add salt and then the liquid. Mix well and knead until smooth. Let it rise until light, make up into loaves and let rise again. It will require a little longer to rise than white bread. A tablespoon of molasses may be added if liked and should be added to the melted lard when it has become cool.

JUDGE RITCHIE AT EVERY DAY CLUB
Strong Appeal for Total Abstinence—"Have Courage To Say No"

The Every Day Club hall was crowded last evening to hear the address of Hon. R. J. Ritchie, which was one of the strongest appeals for total abstinence that has been heard in the hall this winter. In the course of his remarks he told of one man now in jail who had been arrested 121 times for drunkenness. He drew other pathetic pictures out of his police court experience, and emphatically declared that some lazy drunkards whose sisters have to work to support them should be whipped.

Magistrate Ritchie said that in the seventies he joined a society whose motto was "Be ye sober." He told of many bright young men whose fine mental gifts he had envied, but who died through over-indulgence in strong drink. Dividing the city into three camps, the sober, the moderate drinkers and the drunkards, he pointed out that the gap in the ranks of the last named must be filled from those of the moderate drinkers. Who, he asked, ever got any benefit from liquor except the men who sell it? Addressing the young men who were present in large numbers, he pointed out to them the value of a reputation for sobriety and industry, and how their example would do good to others. Advice is good, but example is better. The former exhorts, the latter draws men. The speaker laid emphasis upon the fact that every individual wields an influence. He pointed out also that the Bible declares no drunkard shall enter the Kingdom of Heaven. Men should take the pledge of total abstinence and ask God to help them to keep it. "Have courage, my boy, to say no," was the appeal that should influence the lives of young men in regard to the drink habit. In a very impressive manner the speaker portrayed the evil effects of excessive drinking upon the individual and the community, both from the economic and moral standpoint. At the close several men signed the roll and became members of the club.

On Wednesday evening there will be a public temperance meeting in the club's hall, to be addressed by Michael Kelly. The speaker next Sunday evening will be George Keirstead, a clever student of Newton Theological Seminary.

There are men in this world who simply can't get along without a booz.

The report of the sub-committee was as follows:— The sub-committee appointed by your board on the 26th day of February last to make arrangements for the disposal of bonds about to be issued by the city, to the amount of \$250,000, bearing interest at the rate of four per cent. per annum, called for tenders for the same and received the following, namely:— J. M. Robinson, Son, \$5.11 or \$237,775.00. Ontario Securities Co., Currency or Sterling, \$4.98 or \$237,237.00. Dominion Securities Co., Currency or Sterling, \$7.18, or \$242,812.50. H. O'Hara & Co., Sterling, \$5, or \$237,500.00. Wood Gundy & Co., Currency or Sterling, \$6.29 or \$240,000.00. Canadian Bank of Commerce, Currency or Sterling, \$7.20 or \$240,000.00. Brest, Norton & Co., Sterling, \$7.11 or \$242,775.00. A. Douglas Gird, Currency or Sterling, \$6.22, or \$238,000.00. W. A. McKenzie, Currency or Sterling, \$6.94, or \$242,000.00. Amelias Jarvis & Co., Currency or Sterling, \$8.04 or \$246,100.00. Atlantic Bank Co., Sterling, \$7, \$242,500. Your committee recommend that the tender of Amelias Jarvis & Co., being the highest be accepted.

The bonds are to retire \$100,000 maturing and to provide \$80,000 for new work. The general opinion was that the amount realized was a very good one in consideration of the present condition of the bond market.

There was but one motion, that to accept the offer of Amelias Jarvis & Co., and this was carried. The committee was continued to complete the carrying out of the bond issue. The bonds will be in denomination of \$100.

The common clerk read a letter from A. E. Hamilton asking for relief from his taxes for 1910 on all his properties, because of the fire which destroyed his mill property. He asked of financial arrangements be wished to make, and it was necessary to have the matter determined. He claimed that water shortage had to do with his loss at the fire.

It was explained that Mr. Hamilton's taxes on the property had already been written off, and the general opinion of the board members was that they could not be asked to write off the taxes from property not damaged by the fire. It was said this was in various parts of the city. Ald. Sprout said there had been talk of Mr. Hamilton bringing suit.

Ald. Potts said he would favor three years' exemption on the mill property instead of the one year. He made this a motion. The chamberlain said this would be about \$300 a year.

Ald. Potts said he was thinking of the working people dependent on the industry. To the chairman the chamberlain said what Mr. Hamilton asked for amounted to \$200 or \$300.

Chairman Hayes to Ald. Potts—"And you propose to exempt him \$300?" Ald. Potts—"Well, Mr. Chairman, if you put it that way, yes." Ald. Willet asked if there was power to do this.

Ald. Potts changed his motion to make it two years, subject to the opinions recorded. Ald. Hayes moved in amendment that the letter be filed. This was lost and the motion was carried. This will be recommended to the council.

Ald. Hayes presided and there were present: Ald. Potts, Lively, Sprout, Willet, McDonald, the Mayor, Controller, McIntyre, and Chamberlain Lingley.
