GREAT FUTURE

WINNIPEG VISITOR

the Believes That the City Will Make STEAMER WILL **Wonderful Advances--Condition** of Crops.

(From Wednesday's Daily.) Business Exchange, 'a well known millionaire from Winnipeg, is visiting this city. Mr. Brown has travelled between Winnipeg and Edmonton and BOSCOWIT tween Winnipeg and Edmonton, and speaks with confidence of a successful harvest being the outcome of the present growth of grain. In particular in is much struck with the condition of the fall wheat. It appears that in spite of the drawbacks of the early spring the wonderful adaptation of nature has again been illustrated in the present growth of all feed stuff in the Northwest. The stock market as regards catttle has for the last fort-night been exceptionally bright, six cents a pound being realized, which is the highest price obtained for a num-ber of years. Therefore in their stock and in the field harvests the farmers before them this year. This season

Whether one takes the C. P. R., the Grand Trunk or the Canadian Northern, there is witnessed the great commercial activity which is taxing to their uttermost the powers of these great the received at the received the results of the received the r

considered that this, although producdence of investors and of capitalists in general. The late season has, if any-In the Northwest there was an apparent tendency to make the money market easier than it was a year ago. In the opinion of Mr. Brown in another the opinion of Mr. Brown in another seight or nine months the money market will not only be "easy," but will evidence in its operations a marvellous condition of prosperity. Yet to a certain hour. She is fitted with steam winches condition of prosperity. Yet to a certain extent this is so even now, for there has never been a time when money could command such great security at so high a rate of interest. It is an axiom familiar to all that the higher the rate of interest the greater the risk to the advancer. In other words with a low ston, who went to the Old Country to risk to the advancer. In other words the greater interest offered the less certain the stability or commercial standing of those offering high interest for the use of money. The condition of affairs in the prairies contradicting a theory of money, trade and industry is due simply to the fact of the wonderful expansion which is taking place at the process of the stability of the fact of the wonderful expansion which is taking place at the process of the stability of the fact of the wonderful expansion which is taking place at the process of the stability of the fact of the wonderful expansion which is taking place at the process of the stability of the fact of the wonderful expansion which is taking place at the process of the stability of the s expansion which is taking place at present time in the Dominion of Canada. There is absolutely no lack of security. Wholesale and retail merchants in Winnipeg and Edwonton, for instance, gladly offer the higher rate to enable them to keep abreast of the times. They offer it when there is no times. They offer it when there is no And it is felt that the good season which seems now to be assured will ten, the ten-year-old son of a recently help to considerably ease the present arrived English family, was blown off

condition of the money market. that a great number will be coming vailing at the time. For six hours the here next winter from the Northwest river was searched for his body, but it properties. Having made their wealth properties. Having made their wealth they will refire from the arduous life body has been carried far down the of the Northwest for the balmier climate of Vancouver Island. He further gives figures in a proportionate esti-mate. He considers that fully twothirds of those retiring, say, from Win-nipeg, Edmonton, Strathcona, etc., will go West, while only one-third will go East. They feel that the West is more suitable to them as a home on account of the superiority of its climate

Nor is this all. He considers that the new arrivals will in every possible way German Emperor Has Acknowledged stimulate, quicken and excite the dif-ferent branches of industry which make a country really prosperous and progressive. This he attributes to the introduction of American systems having taken hold of the people of Win-hipeg, and which the Manitoban capisider ways and means for such a college in the synod of British Columbia, and which the Manitoban capital people will bring with them to the West. For instance, he says, take with them to the what it is to-day. Five years ago and consider was almost as conservative as Victoria but as the permanent location of said college until the place of the Proper interprise to make it quiver with commercial activity. These same men only come to Victoria be not see, and not seeing are unable to realize the latent wealth as been a long time only ability, enterprise and capital to college on support. make an active and valuable asset in They are coming to take the golden opportunity which is ready to hand for anyone who is not too conservative to keep abreast of the times in com-

rcial undertakings. This same conservative condition, says Mr. Brown, once existed in Winnipeg. They had been educated too "A fire, which started in the store needed and would be liberally mainniped."

They had been educated too "A fire, which started in the store needed and would be liberally mainniped."

They had been educated too "A fire, which started in the store needed and would be liberally mainniped."

They had been educated too "A fire, which started in the store needed and would be liberally mainniped."

They had been educated too "A fire, which started in the store needed and would be liberally mainniped." This same conservative condition, slow business methods, but the intro- shortly before midnight, is still raging duction of Americans brought about and the town is threatened. duction of Americans brought about modern methods, equipoised more or less with inbred caution native to the stroyed and the post office and all main es. In the first were included the Pres-English race. The same is bound to blappen to Victoria, and he sees no reason why this city should not become of the world's greatest centres of prosperous activity. The one thing at present required is speculative enterprises based upon sound commercial perises based upon sound commercial principles, and this is what those who have been successful in the great capital of the prairies will introduced into the most rising city on the Pactific Coast. He is further struck with the undertakings in the West at pression of the international committee of the ministry of the surface of the first struck with the undertakings in the West at pression of the most rising city on the Pactific Coast. of Ontario and was pleased as well as astonished at the progress made in astonished at the progress made in these cities during the past eight years. He considers that the city of Toronto is the Ones City of the Fast Toronto is the Queen City of the East. He was much impressed with the broad streets, with the fine buildings and residences of the city, the boule-vards, the shade trees and the parks. Dr. Campbell attended the General Assembly of the Presbyterian churches in the city of Montreal which convened in Erskine Street church, the finest Presbyterian church in the city. The Assembly was one of the best attended that has been held since the union in 1875. The spirit which prevailed throughout the meeting was everything that could be desired. The leaders in the assemblies of past years, such as Principal Grant, Dr. Caven, Dr. Ald. Vincent's Motion to Delay the McVicar and Dr. King, who have been during the recent past called to their reward, were less missed than most

committees. It is the duty of the union committee to draw up and arrange such a basis of union as shall be acceptable to every official to see the committees. to every official or member of the three denominations involved under the term "the union committee." So far as respective congregations are co cerned the question of ultimate unity remains still in the committee state; it is not yet ripe enough to be pre-

sented for acceptance to the separate religious bodies. This year Dr. Patrick, the president of the Hamilton Presbyterian college, sented to the assembly the repor of the committee on the union of the three denominations. A general discussion followed in which members from the East and West and Middle "est took part. The speeches, Dr. Campbell says, were "admirable in temper and spirit; some of the speakers being in favor of the union of the churches, others opposing it." The question was put to the assembly whether it was the wish of those present that the work of the committee should be continued. The

ports that the church's work in home and foreign missions during the past year has been most satisfactory, that the union of the Presbyterian, Methodist and Congregational churches is still in the committee state, while the union of the Baptist and Episcopal churchs is in the correspondence state. He is most hopeful of the eventual union of the various denominations into one Protestant church.

Rev. Dr. Campbell, pastor of the First Presbyterian church, after two months' absence, returned to this city Tuesday aftrenoon. During his absence he has visited the principal cities of Ontario and was pleased as well as

the change in the attitude of our move. morning contemporary. It seems to be assumed now that this important project is a matter that ought to thrust upon the federal government. And yet history demonstrates that it has all along been considered a purely great weight of his commercial reputaof British Columbia to that undertaking, and doubtless also spent a great deal of his money in bringing it prominently before the people of the province. Yet is it not a fact that Mr. R. P. Rithet considered the British Paci-

in the matter, and the project failed." Another chapter in the history of rail connection with the mainland was written when Colonel Prior appealed to the Northern scheme. The Colonel appeared on the hustings with a contract, "signed, sealed and delivered," between Mr. Greenshields of Montreal, on behalf of Messrs. Mackenzie & Mann of the Canadian Northern Railway Company, and the government of British Columbia. He was elected on the strength of his pledge that if returned the terms of the alleged contract would be fulfilled to the letter. It was asserted that the conditions of the agreement would be carried out irrespective of federal assistance to the scheme. Doubtless the Colonel will claim that if he had remained in power he would dismissed by the Lieut.-Governor of the Pel it to take action if they are earnest common with every other Canadian and have made his pledge good. But he was day, Sir Henri Joly, and nothing more was heard of rail cannection with the mainland until the Colonist appealed to the people of Victoria and the electors of surrounding constituencies to to the people of Surrounding constituencies to the surrounding constituencies to the people of Surrounding Constituencies to the people of Su Bride, who were pledged to do all in their power to secure the greatly to be desired rail connection. ordered.

We very sincerely hope that after providing for the absolutely necessary expenditure for food and maintenance there will soon be some funds available for purchasing rubber for the stairways, and improving the dining room, with suitable floor covering to make it as comfortable and home-like as we long to see it.

For all kindness the committee can only express its continued and cordial appreciation to all the generous Christian hearts who always remember the Home in their distribution of charities.

Mr. Hamilton left London on August 17th, 1852, and sailed for Vancouver Island by way of Cape Horn. Rough weather was experienced, and the party of 500 did not land until January 7th, 1853, and in all that time land was sighted but once. When within sight of their landing place the flashes of the muskets could be easily discernication to all the generous Christian hearts who always remember the Home in their distribution of charities.

A BUSY CAMP.

East.

Eleven Hundred Men at Work in Phoenix-June Pay Roll Will Reach Nearly \$100,000.

Men have been arriving at the mines of the Boundary steadily for the last month by nearly every train, says the Phoenix Pioneer. As a result the mines have now, collectively, larger forces than in any previous time in the history of the camp. There is yet room, however, for good miners. It may not be generally known, but is a fact that ere are more than 1,000 men employed in this camp, all but some 150 of whom are working in or around the large producing mines. That 150 are in the employ of the C.P.R. and Great Northern railway contractors, who are building long spurs to facilitate ore 20 shipments from the Granby and Raw-

There are, of course, constant changes in the mine forces, the 6.50 varying from time to time, but the following will give the approximate de-tails: Granby mines, 500; Dominion 1.75 | Copper Co., 300; Snowshoe, 125; railway The June payday for the Phoenix

mines, which will occur July 10th, will undoubtedly be the largest that has mines, which was defined and the second and the second 1.75 ever taken place run well up to 6.50 alone, and be d 1.75 tire Boundary. ever taken place in Phoenix, and should run well up to \$100,000 for this campalone, and be double that of the en-

the Vancouverites.

Applicants Must Prove They Can Comply With Severe Conditions of Canadian Act.

(From Thursday's Daily.) Several causes, among which is principally the pressure of business, have conspired to delay the selection of the third site for the Pacific Whaling company on the seaboard of Vancouver Island. It has, however, been definitely announced this morning that the selection will be made early next week and that it will be situated in the Straits of Georgia. Some weeks ago Captain Balcom, the general manager of the company, made a trip to Nanaimo, and while there he investigated three sites, all of which possess equal advantages. The final decision will be arrived at

next week.
Within a fortnight's time the new station, which as exclusively announded in the Times some months ago, the largest in the world, will be opened. The opening will be of an entirely informal character, the St. Lawrence proceeding north to Narrow Cut Inlet and commencing hunting from that point. This station is now complete all the buildings have been erected the machinery has been installed and it is anticipated, double the take whales off the West Coast of Vancou-ver Island. Never in the history of the industry has such pronounced success attended the efforts of a company as that which has followed the pursu of mammals from Sechart during the present year. At the present time an present year. At the present time an average of two mammals are being taken each day, and some weeks back over twenty were taken inside seven days. The workmen engaged at the station have their hands full in cutting up the whales and extracting the oil and a conservative estimate of the and a conservative estimate of the this content of the conservative estimate estimate estimate estimate estimate estimates estimate estimates estimate estimates estimate estimates estimated estimates

try on this coast, numerous applicatry on this coast, numerous applications have flowed into the Dominion government for licenses to follow the industry. Among others who have applied are Captain Townsend, C. H. Lugrin, Captain Kelly and H. Larsen Bjornsgaard, a Norwegian. The latter applicant, who recently arrived in this city, came in the interests of a syndicate which is in possession of a couple of whalers in Norway.

cate which is in possession of a couple of whalers in Norway.

Some time ago H. Larsen Bjørnsgard applied for a license to hunt from Safety Cove, Calvert Island. The application was refused. Mr. Bjørnsgaard has now applied for other sites and states that his syndicate also intends to establish stations on the Alaskan coast, nd to bring out its whalers from Norway to operate from those points when they are secured.

Mr. Bjørnsgaard is palpably a new-comer to this continent, and is evidently entirely unacquainted with the laws in force on the American side. One of the provisions in the fisheries act of the United States is to the effect that no

the provisions in the fisheries act of the United States is to the effect that no whaling operations can be carried out from the Inited States seaboard in vessels other than those built in the United States. With this proviso an established law, it is difficult to understand the statement of the Norwegian, who says that his syndicate will send out their Norwegian vessels to the stations which it is hopeful of acquiring in Alaska.

Improvisions in the fisheries act of the United States is to the effect that no whaling operations can be carried out from the Inited States seaboard in the Channel Islands.

Among the other passengers, the majority of whom were tourists, was T.

H. Race, the Canadian commissioner in charge of the Dominion exhibits at the New Zealand exhibition.

A passenger on board who has come over here from Australia gave some interesting details of the conditions of affairs there. His name is A. Rassmussen, and he has resided in the Alaska.

fisheries are taken away from Canadians who are eager to develop them and who have both the brains and capital to do so, or whether they are sold out to foreigners. In this respect it is interesting to note that the Norwegians did not entered to which the Australian if Squires is victorious. The following passengers were landed to the Australian if Squires is victorious. A large open air arena, having a seating capacity of 8,000, has been completed, and everything is in readiness DEPU

ing Her Tair at Window-Several Arrests.

New York, July 4.-While combing her air at the window of her room, Nimiha Grezzanti, 19 years of age, an Italian girl, was killed to-day by a bullet through the head, which the police ar convinced was fired by some one wh sought to conceal the source of the fatal shot in the noise of Fourth of July fire-works. Another shot buried

tself in the wall of the room.

The tragedy occurred on Elizabeth street. Several arrests have been made of Italians living in the rear of the flat on Mott street, which is opposite the house where the girl was shot. Two empty cartridges were found in hallway of the Mott street house. The police have so far been unable to find motive for the shooting, as she was not known to have any enemies.

MOTORMAN KILLED.

Bellingham, July 4.-Motorman Frank Hickok was killed and one passenger fatally injured, while three others were seriously hurt in a head-on collision on among citizens that there might be a the Whatcom-Lake line. The accident very serious shortage in the supply bewas due to Hickok having misunderstood fore the season was out. According to

tions which it is hopeful of acquiring in Alaska.

With regard to the non-granting of sites to the Norwegians on the British Columbia coast, it may be stated that they have no cause to complain. All the sites possible by the Whaling Act of Canada have been applied for by Canadians long since, and it is only just that those who apply first should be considered first.

Up to the present there have been now whaling licenses issued except to persons who have been able to prove to the government that they are in a position to comply with the severe conditions of the Canadian Whaling Act. With respect to the whaling along this Coast there is a spirit of speculation in the air. This may be judged by the fact of so many applications of the conditions of the conditions of the has resided in the antipods, both New Zealand and Australia, for the past 20 years. His visit is for the purpose of seeing what are the prospects of investing money, as he intends settling down here if the prospects are good.

Alluding to the question of agricultural land, he says: "All the good land in Australia has already been taken up, and there is only a very poor chance for immigrants coming in at present. The land which is capable of cultivation is at a very high figure, and immigrants who do not possess money are almost hopelessly handi-

WATER COMMISSIONER TELLS OF CONDITION

Level is Seventeen Inches Higher Than Last Year at This Time.

(From Thursday's Daily.) The water commissioner, J. Raymur sees no cause for alarm in connecti with the water situation this season. There has been a growing impression

the water commissioner this is not probable. The capacity of the mains from the lake to the city is limited so that the amount delivered in the city cannot be increased. In about two weeks' time the new pumping station at Elk lake will be in

working order, and this should increas the amount of water brought in to some extent. That done the limit of the mains from the source of supply will be reached. To derive a greater quantity will require attention being given to the mains which have been in ise sixteen years without change. The situation at Elk lake is better than it was at this time last year. The

water stands 17 inches higher than it was at this date last summer, so that with a limit put upon the amount which can be brought into the city owing to the capacity of the mains being reached, there can be no shortage Laing, of Vancouver, Defeated Ken-The use of water for city purpose

and the loss by evaporation reduces the a month during July and August, s that the higher level this year, as com pared with last, leaves no question as to supply remaining greater than last

Mr. Raymur, speaking of the loss last winter by water running over the dam said that this was magnified. The amount which went to waste would have played little part in the supply. It would only have raised the lake about two inches and a half. Such an amount of water would have very little effect on the general supply.

DISCRIMINATION IN FREIGHT RATES

WINNIPEG BOARD OF TRADE REPLIES

Officer of the Railway Commission.

Ottawa, July 3.—The complaint of British Columbia in regard to discrimination against Pacific Coast cities in favor of Winnipeg upon all classes of goods from Vancouver to points in British Columbia and Alberta as far east as Calgary on the main line of the C. P. R. and MacLeod on the Crow's

Nest line, is nearing a settlement. The traffic office of the railway com ssioner on December 17th, 1906 made

The Canadian Pacific sent its reply on March 23rd, 1907, setting forth the company's objection to the report. Or April 25th the traffic officer of the railway commission replied to the criti cism of the railway company. All these reports were forwarded to the Winnipeg board of trade and now the views that board have been received on the whole question, which are of course against the contentions of the Pacific coast cities and opposed to the report of the traffic officer of the railway

Mr. Ewart. K. C., represents Winnipeg. He deals exhaustively with the whole subject of undue discrimination. Mr. Ewart says that the traffic officer very inadequately replies to the railway company's point in reference to empty cars. The Canadian Pacific says that Vancouver is so situated that a large number of empty cars have to be hauled from the Prairies to the Pacific The contentions of Vancouver say the Canadian Pacific will aggravate this situation and consequently a lack of return traffic will affect rates upon east-

bound traffic.

vantages of Winnipeg with respect to Alberta trade shou In reference to Vancouver's imports by water, Winnipeg maintains that to reduce the railway rate east would be an injustice to eastern cities. Calgary has yet to be heard from

A KLOOTCHMANS' RACE.

Attraction Secured for the Fall Fair by J. E. Smart. A galloping race between klootchmans riding in true Indian bare-back fashion will be a special feature of the coming fair in this city. J. E. -Smart, secretary of the local Agricultural Association, has made arrangements whereby four klootchmans will be brought down from Savonas, B. C., for this purpose.

These klootchmans are said to be among the most event horsemen, or rather

the most expert horsemen, or rather horsewomen, in the West, and seen as

TO BEGIN WORK

Newly Equipped With Machinery the Handling of Grain Will Commence at Once.

(From Thursday's Daily.) Within a week's time the old Victoria has been absent from Victoria for over possible in the factory. Electric forced ten years will be in active operation. draught blowers are to be used for the fires; electric welding machines for turing Company, of Montreal, which turing Company, of Montreal, which putting on the rubber tires, and a big electric motor for the woodwork machines, drills and emery wheels.

In every way T. M. Brayshaw is dein the prairie provinces from the local termined to have a manufactory cap-able of meeting the requirements of all classes of customers, and of turning out tons of the finished product, which is

valued at nearly \$75 a ton.

The mill has been equipped with new MOTOR CLUB MEETS.

And be shelf Meesrs. J. H. Lawson, Meesrs. J. H. Lawson, Meet and their cases.

Subsequent to the ceremony a reception was held at the house of the bride's mether at Oak Bay. In the bride's mether on the Princess Victoria for Seattle on the bride's medding to some trip.

If we make their cases.

DISABLED VESSEL

OFF THIS COAST

The Victoria Motor Club held a meeting in the Garcesh block last night on the purpose of discussing the recent run to the plant and also general business. The victoria made and the court of the purpose of discussing the recent run to the plant and also general business. The victoria made are the recent run to the plant and also general business. The victoria Motor Club held a meeting in the Garcesh block last night on the plant and also general business. The victoria Motor Club held a meeting in the Garcesh block last night on the plant and also general business. The victoria Motor Club held a meeting in the Garcesh block last night on the plant and also general business. The triple of the rice-cleaning equipment has been made, and during the past few bridge on Penalty and the victoria meeting the committee was appointed to look into the plant and the purpose of discussing the recent run to the plant and the purpose of the safety run was provided in the victoria meeting the committee was appointed to look into the source of the pl machinery and an electric motor of 75 horse-power has been installed to run

The mill from the commencement will employ about 15 men, but this staff will be considerably increased as the business grows. White labor will be used except in the packing of cleaned rice for export to China, which can only be done by natives of that coun-

try.

The local representative of the company is J. McLerie, who stated, in conversation with a Times reporter, that he anticipated a considerable demand for the products of the industelegraphy and superintendent of wire-less stations for the Dominion, who is
