## RUSSIANS AND TEUTONIC ALLIES ENGAGED ALONG FRONT OF NEARLY THOUSAND MILES

From the Baltic to Bessarabia, Austro-German Army Violently Attacking Russian Line — Czar's Army Fighting Back Hard — Petrograd Calmly Considers Further Retreat — Neither Side Shows Signs of an Important Movement in West Where Artillery Duels Continue.

London, July 18.—The Russian front, running from the Baltic, in the north, to Bessarabia in the south, a distance of nearly a thousand miles, is being subjected to violent attacks by the Germans and Austrians, and in places has, according to the German official report, been pierced.

In the Baltic provinces, Gen. Von Buelow, who is using large forces of cavalry, has crossed the Windau river and is moving toward Riga. In the Przanysz district, Field Marshal Von Hindenburg, who is making his fourth attempt to reach Warsaw, has twice broken the Russian lines, and compelled the defenders to retire toward the Narew river.

In Southern Poland, after a period of inactivity, Field Marshal Von Mackensen is again on the move, and claims to have captured some Russian advanced positions, which stood between him and his objective, the Lublin-Chelm railway.

Simultaneously with these attacks, which are the main ones, the Austro-German armies are on the offensive west of the Vistula river, in Central Poland, and along the Dniester river, in Galicia. As was the case in the drive through Western Galicia, the Russians are fighting stubbornly, and on occasion are turning and delivering blows at their opponents. But whether they will be able to hold their present lines is problematical.

The probability of the Russians having to evacuate Warsaw, which is threatened by Von Hindenburg in the north and Von Mackensen in the south, is being seriously discussed. The possibility of a further retreat, however, is being calmly considered in Russia, where the old theory that the further the enemy is drawn into the country the worse for him, buoys up their hopes of final victory.

For the present, Berlin is the only capital celebrating, and again Field Marshal Von Hindenburg, whose success in the Przanysz is the cause of it, is being lauded.

With the enormous number of German troops being used for the offensive in the east—the greatest movement of the kind ever undertaken in the history of war—the military critics here do not look for any events of outstanding importance in the west for some time to come. The official reports issued today show that thus far, at any rate, no important move has been undertaken by either side. There have been artillery engagements all along the front, and a few infantry attacks, but they were infinitesimal in comparison with the operations in the east.

Unofficial reports continue to refer to the fighting on the Gallipoli peninsula, but these are not confirmed by the headquarters concerned. News from that district is anxiously awaited, as the expected big effort to clear the peninsula of Turks is about due.

"There is nothing of importance on the rest of the front to report."

### NO IMPORTANT CHANGE IN THE WEST

London, July 18, (8.30 p. m.)—The following official communication was given out here this evening:

"Since the last communication of the 9th, there has been no change on our front. Although there has been considerable activity in front of our line, several mines having been sprung both by the enemy and ourselves, and various positions on our front have been subjected at times to heavy bombardment.

"On the 10th, the enemy developed a small attack north of Ypres, and gained a footing in our front line. Our local supports, however, immediately re-captured what we had lost. On the 13th, the enemy rushed an advanced post on the Ypres-Menin road, but were immediately driven back again. Further north, on the same night, our line was heavily shelled and we lost a trench held by one company. Again the Germans were driven out at once by our bombing parties, and the trench was re-occupied. A feature of this incident was the employment by the enemy of a large quantity of gas shells."

### DESPERATE FIGHTING IN WEST

Petrograd, July 18, via London, July 19.—The following official communication from general headquarters was issued tonight:

"The battle between the Vistula and Bug rivers attained a character of extreme intensity yesterday. Our troops are repulsing the enemy's onsets with valor and tenacity.

"In the direction of Lublin, the enemy delivered attacks on the whole front, chiefly concentrating his efforts on the Wilkolas district where we repulsed during the course of the day more than ten attacks.

"Great masses of German troops during the day attacked our forces on the left bank of the Vistula. The enemy succeeded in making progress northwards in the Iedevno district near Krasnostav. Notwithstanding the losses they suffered, our troops repulsed heroically the furious attacks which were continued until late in the evening.

"On the right bank of the Vistula the enemy on July 16 suffered very great losses in the course of an attack on our positions on the River Volzha,

where they left heaps of bodies in front of our trenches. There was a very violent cannonade in this region yesterday.

"On the front of the villages of Grabovetz and Beresite, the enemy delivered desperate attacks on the 16th and 17th, and after repeated bayonet charges succeeded only in capturing trenches held by two of our companies.

"Between the Gutcha and the Bug, we repulsed numerous attacks and dislodged the enemy from Metchiliv forest. On the Bug, near Ilkowitz, Trelontze and Komotopy, the enemy yesterday attempted to cross to the right bank, but was repulsed by successful counter-attacks.

"In the Riga-Shavli region, the enemy's offensive against Tsiksum and Alkatsa continues. In those directions yesterday there were actions in which large bodies of cavalry, as well as infantry, were engaged on both sides.

"East of Popelany, a successful attack resulted in our capture of 500 Germans including nine officers. Seven machine guns also were taken. An

## ESCAPED THE LUSITANIA'S FATE BY HALF A SECOND

GERMANS ATTEMPT REPETITION OF LUSITANIA AFFAIR BY FIRING ON BRITISH STEAMER ORDNA CARRYING TWENTY-TWO AMERICANS—TORPEDO MISSED THE STEAMER BY ABOUT 10 FEET—PASSENGERS ASLEEP AT THE TIME—NO WARNING GIVEN BY SUBMARINE.

New York, July 18.—The Cunard liner Ordna, bound from Liverpool to New York with 227 passengers, including twenty-two Americans, was attacked without warning, it was learned on her arrival here Saturday, by a German submarine on the morning of July 9.

Twenty miles from the graveyard of the Lusitania, off Old Head of Kinsale, the Ordna escaped the Lusitania's fate by one-half a second of time, or ten feet of space, the German torpedo churning the water that distance behind the liner's rudder. Then the Ordna sped away. She was followed by the submarine, which rose to the surface, manned a gun on her deck, and shelled the fleeing steamer. The attack was timed at ten minutes to six o'clock in the morning, when all but a few of her passengers were sleeping in their berths. Aroused by stewards, the passengers dressed hurriedly and went to the upper deck, where they put on life belts and took their places at the lifeboats. They heard the scream of the shells and saw the ocean spit up columns of water where the shells struck. When the fire grew hot they were ordered for their own protection, to the next deck below.

For half an hour the Ordna showed her heels to the assailant. Through marine glasses the passengers watched the dark spot on the upper deck, the surface astern. They saw the low lying German warship coming on with a boom in her teeth, but the Ordna's flight was faster than the pursuit, and after seven shots had been fired, without effect, the submarine gave up the chase.

A wireless call for help was sent out by the Ordna, when the torpedo was seen. She was then thirty-seven miles south of Queenstown. The reply, Captain Taylor says in his official report, was that help would be given within an hour. It was four hours before the first British vessel, a small armored yacht, appeared.

### Passengers Were Asleep.

Protest will be made to the American government by at least one citizen of the United States, and possibly others, who was aboard. William O. Thompson, of Chicago, counsel to the Federal Industrial Relations Commission, who went aboard in his official capacity last March and was returning to complete his mission by making enemy attack north of Shavli was repulsed.

"The enemy's offensive in the direction of Przanysz, which is being conducted on a wide front has forced us to concentrate on positions nearer the Narew, and this necessitates the re-grouping of our forces to the left of the Vistula—a movement which we are carrying out without molestation.

"On the Dniester Friday we gained a rather important success against enemy troops who had crossed the river, taking during the course of the day about 2,000 Austrian prisoners and seven machine guns."

### OFFICERS' CASUALTIES IN BRITISH ARMY FOR PAST FORTNIGHT 775

London, July 6.—(Correspondence of the Associated Press.)—Officers' casualties list for the fortnight ending July 5, show that the British army lost 254 officers killed, 489 wounded and 33 missing—a total of 776.

Since the beginning of the war, 3,885 officers have been killed, 7,667 wounded and 1,115 are reported as missing, a total of 12,642.

During the fortnight losses have been heavy in Lancashire regiments. Manchester's lost 15 killed, 12 wounded; Scots Fusiliers, 12 killed, 22 wounded; Yorkshires, 10 killed, 15 wounded; Cameron Highlanders, 11 killed, 16 wounded. Among the overseas contingent, the Canadians lost 15 killed and 30 wounded; the Indians lost 22 killed, 38 wounded, and the Australians 3 killed and 18 wounded.

### SWEDEN MAY ENTER WAR

Speech of Premier at Peace Congress Indicates Probability of Joining in Struggle.

London, July 19.—The Daily Telegraph's correspondent at Copenhagen says:

"That it is not impossible that Sweden will enter the war was indicated by a speech of the Swedish Premier, Dr. Hammarskjold, in replying to a deputation representing the peace congress recently held in Varberg. The Premier said:

### INTERNAL LOAN FOR INDIA

London, July 19.—That the Indian government expects to secure money at a lower rate of interest than the home government is indicated by a despatch to the Morning Post from Calcutta, which says that India has decided to issue an internal loan of \$155,000,000 bearing four per cent. interest. The issue will be at par, and redeemable in from five to eight years.

## LOSS OF KAMERUN WEST AFRICA, HARD BLOW TO GERMANS

Was Centre of Their Resistance — Franco-British Troops also Take Dehane and Tjaha Further Extending Movement to Encircle German Forces.

Paris, July 18.—Additional details regarding the capture by Franco-British troops of Garua and Ngaundere in the Kamerun, a German colony in West Africa, are contained in a statement issued tonight by the Ministry of Colonies. The assertion is made that the movement to encircle the German forces also is progressing favorably nearer the coast of the Gulf of Guinea. The communication follows:

"The allied troops recently captured the post of Garua, in the Kamerun, forcing the garrison to surrender unconditionally, and continued their victorious march to Ngaundere (125 miles south) which was captured June 29.

"Ngaundere, owing to its situation, climate and the number of roads diverging from it, appears to have been the centre of German resistance, and its loss is a serious blow to them.

"After a vain attempt to retake Ngaundere, the Germans retreated in the direction of Tibati (110 miles southwest).

"Near the coast Franco-British troops captured Dehane and Tjaha on July 14, thus extending the movement to encircle the German forces."

The British governor-general of Nigeria, in telegrams to the Colonial office already had announced the capture of both Garua and Ngaundere. The former was taken June 11, and the latter June 29. Garua is one of four government school towns in the Kamerun. Ngaundere is one of the chief interior trading stations, with a population of 30,000, situated about a hundred miles from the border of the French Congo and 450 miles from the coast.

The Kameruns are located in Western Equatorial Africa. The area is estimated at 191,000 square miles, and the population at 2,540,000, of whom about 2,000 are whites.

### HOW ALLIES RE-CAPTURED FONTENELLE

Germany Considered it an Impregnable Fortress, but Allies Artillery and Daring Charge Drove Enemy Out.

Paris, July 18.—A French official eye-witness at the front has sent a despatch giving an account of the success of the entente allies in the battle of Fontenelle in the neighborhood of the village of Senones and the forest of Ormont and the ground is described as being cut by deep ravines.

It was in this region, says the observer, that the Germans, after the battle of the Marne, took up a position on a summit commanding the surrounding countryside. The hill was about 627, which is known as Fontenelle.

"On June 22nd, after severe losses, the enemy succeeded in occupying Fontenelle, says the observer. "Although we counterattacked vigorously taking 142 prisoners, the enemy held the summit. General Van Kuderzen, in a report dated July 3, said that after a careful inspection of the German works and trenches, he firmly believed that the hill had been transformed into an impregnable fortress, and that its capture would necessitate tremendous losses.

"On July 8, all necessary preparations for the attack had been completed. The same day, at nightfall, three columns, aided by a remarkably accurate artillery fire, took a portion of the enemy's trenches. In the centre we also attacked, forcing the enemy back to the west of Launols, in ten minutes. The attack on the left progressed more slowly, but aided by gathering darkness, took possession of the northwestern portion of the hill.

"At daybreak not only the whole of the summit had been retaken, but a majority of the German defences as far as the road from Launols to Mauryen-loutier. Thanks to our artillery,

### ITALY'S KING FACES DANGER WITH HIS MEN

Watching Italian Soldier Cut Wire Entanglement, Refused to Retire to Safety When Group Became Target for Austrians.

Udine, Italy, via Paris, July 18.—King Victor Emmanuel recently stood his ground while he and a group of officers were the target of Austrian gunners, refusing to retire to a place of safety because he was interested in watching a young Italian soldier who was trying to cut the wire entanglements in front of the Austrian trenches.

The King marked the progress of the wire cutter attentively from the time the latter left the Italian lines. The ruler and the officers about him attracted the attention of the Austrians, who began to shell them. The King was advised to retire from the spot, but declined.

For a short time the Austrians did not see the wire cutter, but when they did discover him they made him the centre of a terrific fire.

The soldier, however, redoubled his efforts and accomplished his work, returning to his own lines uninjured amid the cheers of his comrades. The King wished to congratulate the daring youth, and the soldier was brought before him. When asked his name the young man gave it, adding that he was a leader of the republican movement in Romagna, which tried to overthrow the Monarchy in June, 1914. Now, he declared, he was determined to shed his last drop of blood for his King, the first soldier of the land.

All preparations for counter-attacks were immediately stopped.

"During the battles on July 8 and 9 we took 881 prisoners, including 21 officers. When questioned, the prisoners gave great praise to our excellent artillery marksmanship, saying: 'We did not believe there could be such a hell of fire.'"

# ULTIMATUM TO ROUMANIA FROM GERMANY

## ROUMANIA LIKELY TO BE FORCED TO FIGHT NOW

### Austro-German Ultimatum in Preparation and Large Bodies of Teutonic Troops Being Massed Along the Frontier.

London, July 19.—An Austro-German ultimatum to Roumania, is being prepared, according to the Moscow Russkoye Slovo, which is quoted in despatches received here. It is added that large bodies of Teutonic troops are massing on the Roumanian frontier to give emphasis to the ultimatum, which it is declared, will demand unimpeded transit for munitions of war.

#### RAILWAY TRAFFIC BETWEEN BULGARIA AND TURKEY STOPPED

London, July 19.—"A ministerial order was issued today," says the Times Sofia, Bulgaria, correspondent, under date of last Thursday, "definitely suspending railway communication with Turkey. The step appears to have been taken in consequence of continued Turkish interference with traffic, and may probably be regarded as marking the collapse of the negotiations for the cessation to Bulgaria of the Dedeghatoh railway."

London, July 19, (4.43 a. m.)—The Russian front is now pending. "There will, however, be no repetition of the Russian Dunajec disaster," says the correspondent, "the Russians can put up twice as good a fight as they did in the early stages of the Galician retreat. In fact, they were never in better shape to meet an attack. But in view of the incredible strength of the enemy, a terrible battle is to be expected, the outcome of which it is impossible to foretell."

## RUSSIANS TAKE LARGE NUMBER OF PRISONERS

Petrograd, via London, July 18.—During the month of June 1,341 German and Austrian officers and 60,848 men arrived at Kiev, as prisoners of war, according to a despatch from that city to the Novoye Vremya. Of the men more than 10,000 were Germans.

She will charge that he alienated her husband's affection.

#### NO TREATING IN BARS LOCATED NEAR THE MUNITIONS FACTORIES

London, July 18.—Besides limiting the hours during which liquor may be sold in towns where the government has taken over control of the sale of liquors, the board of control, appointed to deal with the munitions areas has ordered that there shall be no treating and has prohibited the giving of credit for liquor.

On the Russian front is now pending. "There will, however, be no repetition of the Russian Dunajec disaster," says the correspondent, "the Russians can put up twice as good a fight as they did in the early stages of the Galician retreat. In fact, they were never in better shape to meet an attack. But in view of the incredible strength of the enemy, a terrible battle is to be expected, the outcome of which it is impossible to foretell."

## BRILLIANT CHARGE BY ITALIANS

In Face of Murderous Artillery Fire Charge Enemy on Heights Above and Rout him from Position.

#### Rome, July 17, via Paris, July 18.—

The following official statement was issued tonight at the headquarters of the Italian general staff: "Our troops, continuing the offensive begun auspiciously some days ago against the groups of forts near Palzareco and Val Livinallongo, are now engaged in capturing the high and difficult region situated between them. Surmounting yesterday, grave difficulties of terrain and the desperate resistance of the enemy we reached the line which stretches from Bois Pass and Faltarego summit as far as the slopes of Lana Pass.

"Especially brilliant was the action of our infantry in fighting for the possession of the slopes which descend from Lana Pass to Salest and Agal, in the Andras Valley. Under a murderous attack they stormed with the bayonet the enemy's advanced entrenchments and now are strengthening the ground.

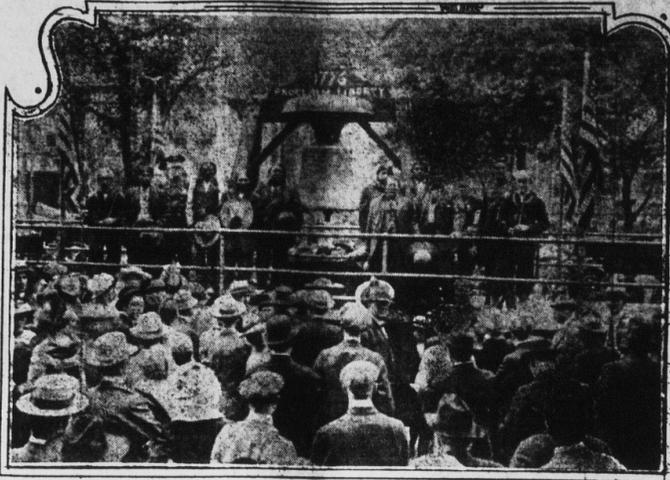

"In the Isonzo zone the enemy shows increasing activity around Plezzo. They made numerous weak assaults on the evening of July 15, against our positions on the heights forming the bridge-head of Piava, but without result.

"On the night of July 16, two of our airships bombarded enemy works around Gorizia and camps on the northern slopes of Monte San Michele, in Carso, with satisfactory results. The airships, which were constantly lighted up by fares and severely cannonaded, returned safely at dawn.

"Small encounters favorable to the Italians are reported in the Tyrol, Trentino and Carnia districts. The fire of our heavy artillery has caused explosions and a serious conflagration in the enemy works in Predil Pass.

"No change has occurred on the Isonzo front."

## CLIMB MOUNTAIN 10 THOUSAND FT. HIGH TO ENGAGE IN BATTLE

A Description of the Fighting in the Alpine Passes.

#### THE BATTLE FOR MOUNT PASUBIO.

Democratic Spirit Which Animates Officers and Men in Engineering Work of Arduous Kind Against Great Natural Obstacles.

By Gino C. Speranza.

Those of us who have employed Italian laborers must readily grant that they are willing and cheerful workers. That they are also capable of the heaviest kind of manual effort, that they are temperate, enduring, and are simple in their wants, is amply testified to by the builders of our great railroads and by the engineers of our monumental constructions and of our tunnels and dams.

These very qualities are today proving excellent assets in the war that Italy is waging against Austria—these qualities, coupled with two others which we have had little opportunity to put to the test here, but which are as characteristically Italian as the others we know of. One is daring or indifference to danger, of which we have some examples in our country, such as the readiness of Italian workmen to undertake highly hazardous labor and the more picturesque exhibition of it by Italian automobile drivers on some of our race courses. The other characteristic which is proving a great asset in the war, but which we have had no opportunity to see in play here is the Italian democratic spirit.

How all these qualities are powerfully contributing to the success of the Italian war plans for a greater Italy and a freer Europe is already being proved by the daily reports, official and otherwise, reaching us from the battle front.

#### Work in Alps.

It is to be borne in mind that a considerable part of the work of strengthening the frontier defences and of mobilizing supplies and reserves at military bases near the border had to be carried on at a season of the year when operations of this kind have been considered practically impossible, owing to the deep snows and rigorous weather in those Alpine regions. But, as the spring was to see war, it was absolutely necessary, both for Austria

## FIGHTING FOR FUTURE OF THE CIVILIZED WORLD, PREMIER TELLS CANADIANS

### Sir Robert Borden Reviews Men from the Dominion in Training at Shorncliffe — Expresses Confidence That They Will Give as Good Account of Themselves as Men Already on the Firing Line.

London, July 18.—"You are not merely fighting for the dominion, nor even for the British Empire, but in a very true sense for civilization, and therefore, it is not too much to say, for the future of the whole civilized world itself. You may be assured that popular government based on democratic ideals, such as all British dominions have been accustomed to, would be profoundly modified should Germany win. But we have no fear of that. I know you will emulate the prowess and the exploits of the first contingent, which caused a thrill of pride from one end of the dominion to the other, which has not ceased to vibrate yet. I am sure that you will render an equally good account of yourselves. H. R. H. the Governor-General, before I left, told me to wish you from him God speed. I wish you the same myself, on behalf of all Canadians."

Sir Robert Borden spoke these words to the regimental officers after the review of the Canadian troops held at Shorncliffe Camp yesterday. At the conclusion of the address, the contingent gave hearty cheers for the King, the Governor-General and the Premier of Canada.

Sir Robert afterwards visited the Queen's Canadian Military Hospital near Shorncliffe. The hospital has few inmates at present, as the whole institution will be re-arranged when the new wings, giving accommodation for 500 more patients, are opened in a few weeks. The Premier, who was taken through by Lady Markham, expressed admiration for the surroundings and the equipment, and chatted with many of the patients.

## OFFICIAL REPORTS

### RUSSIA

Petrograd, July 17, via London July 18.—The official statement issued tonight at the headquarters of the Russian general staff was as follows:

"On the Goldingen-Mouraviev front the enemy retained his positions on the right bank of the Rivers Windau and Venta and continued his advance in the direction of Takum (near the Gulf of Riga, 38 miles west of the city Riga) and Autz.

"The enemy's infantry were repulsed in the Popelany district. "Fierce fighting continued July 15 on the extension of the front on the right bank of the Orzyk. Three enemy regiments attacked the village of Podosie and captured it. They crossed the river, capturing five of our guns. The enemy was attacked, however, by our troops with bayonets and suffered severely. The guns were re-captured and the enemy was driven out of the village. Siberian detachments from Turkestan, fighting against enemy forces double their number, showed high courage.

"Northwest of Radom a brigade of Cossacks attacked the Austrian vanguard near the village of Marksetz, capturing three officers, 2,580 men and three machine guns.

"We retired south of Isekouff in the direction of Milawa on account of large enemy reinforcements having come up.

"The enemy assumed a general offensive between the Vistula and the Bug rivers on the night of the 16th. Enemy attacks at Podliff, Wilkolaz and Bikhova (east of Kraanik) were repulsed.

"On the left bank of the Vleprz the enemy advanced after desperate fighting. Our troops held their ground on the evening of the 16th on the Iedevno-Kraanostav front (south of Lublin). Enemy attacks on Volitz on the right bank of the Vleprz were repulsed.

"East of Grabovetz Friday night and the following day the enemy penetrated our wire entanglements several times but was repulsed on each occasion by our fire and bayonet attacks. South of Grabovetz between Goshava and the Bug, the enemy is obstinately attacking the front, Medelin-Maclomonts. We made successful counter-attacks in this district.

"Attacks on the Bug, near Krilov, Sokol and Koslovos were repulsed and hundreds of prisoners taken by us.

"Between the Dniester and the Bug, in the vicinity of the Dniester the fighting continues without substantial change.

"Our submarine, the Nerpa, sank a coal steamer in the Black Sea."

### FRANCE

Paris, July 18.—The following official communication was issued last night:

"In Artois the cannonade has diminished in intensity. Some shells were fired into the town of Arras.

"On the right bank of the Aisne, in the district of Troyon, there has been fighting with mines, as

well as a very violent bombardment. Twenty shells were thrown into Rheims, one civilian being killed and seriously wounding another.

"In the Argonne the day has been relatively calm and no infantry action has occurred.

"On the heights of the Meuse the Germans after last night's bombardment, launched a violent attack against our positions from the Calonne Trench to the village of Les Eparges. On the southern ridge of the Sonvaux ravine they succeeded at only one point in regaining a footing in the trench section which we captured on July 6. Some parties of Germans who succeeded in creeping into the ravine were killed or taken prisoners.

"Between the Sonvaux ridge and the Calonne Trench the enemy was also repulsed with heavy losses.

"There has been a continuous bombardment in the forest of Apremont.

The following announcement was made this afternoon at the War Office:

### AUSTRIA

Vienna, via London, July 18.—A statement issued last night at the Austrian war office regarding the progress of military operations was as follows:

"Between the Vistula and the Bug rivers important battles have developed favorably for the German allied troops. Some Austro-Hungarian, operating closely with the Germans west of Grabovetz, took an important enemy point of support after storming it seven times and pressed forward into the enemy's main position.

"Southwest of Kraanostav the Germans broke through the enemy's lines.

"On the Upper Bystrizza and north of Kraanik our troops took advanced positions of the enemy. The offensive also was resumed successfully west of the Vistula.

"The official statement issued by general headquarters is as follows:

"On the Bug river, in the region of Sokol, our troops drove the enemy from a series of stubbornly defended places. To the north-east of Sienno we broke through the Russian front.

### GERMANY

Berlin, via London, July 18.—The following official communication was issued by the War Office today:

"A French attack against the churchyard and hill at Souchez was repulsed.

"In the Argonne, the captured lines have been re-formed by some minor successes.

"Fighting continued on the heights near Les Eparges.

"In Lorraine enemy attacks Embermen, east of Luneville, and in the region of Ban-De-Sapt, were repulsed."

## GALLANT CANADIAN CHARGE IN FACE OF GERMAN SHELL FIRE AT YPRES

This picture, drawn especially for this newspaper, the New York Herald and the London Sphere, shows the superb charge of the Fourth Canadian Battalion in face of German shell fire at Ypres. Lieutenant Colonel Birchall, carrying a light can, in accordance with an old custom, fell dead while carrying his men, who charged onward in response to his last words.

## HEAVY DAMAGE FOLLOWS CLOUDBURST IN KING'S CO.

### Main Boom of Jones Bros. & Co., at head of Millstream, gives way — Believed that logs will be saved—Considerable other damage.

Special to The Standard.

Apoahqui, July 18.—A cloudburst of serious proportions occurred early yesterday morning at Millstream and over a large area in the vicinity. At Caronville, especially, the rain fell in torrents, being heaviest between two and three o'clock. The main boom of Jones Bros., at head of Millstream, gave way and throughout the day about twenty-five men were busily employed putting on cables and guy lines and otherwise engaged in the work of saving the logs. According to a report late last night it looks as if the logs will be saved.

All along the Millstream valley the land is flooded, and the damage to the grain and other crops is considerable. The roads in the vicinity are flooded in some places to the depth of seven or eight feet. Great damage has been done to the roads in and around Studholm. Small bridges have been carried away and altogether the damage done will represent a loss of some thousands of dollars.

## FRANK ATTACKED IN CELL, THROAT BADLY SLASHED

### Slayer of Factory Girl in critical condition as result of attack by another prisoner.

Milledgeville, Ga., July 18.—Leo M. Frank, serving a life imprisonment sentence for the murder of Mary Phagan, an Atlanta factory girl, was attacked last night while asleep and his throat cut by William Green, a fellow prisoner at the State prison farm here. His condition is serious, but there is a chance for recovery.

Frank's throat was slashed for several inches and the jugular vein partially severed.

Some animosity has been shown toward Frank by his fellow prisoners since his arrival at the farm.

1915, was announced at the annual meeting of the League of Empire on Saturday. This step was taken on the advice of Hon. Dr. Pyne, acting Premier and Minister of Education for Ontario, who had extended the invitation last year, before the outbreak of the war. Dr. Pyne was unable to attend the meeting, he being at Folkestone. The Earl of Meath, who presided, laid upon the teachers the duty of instructing their pupils in their imperial obligations.

## HOW VICTORIA CROSSES ARE WON

### Some of the Heroes of the British Army and their Deeds of Heroism which merited the most coveted decoration.

(London Times, July 2.)

It is announced in the London Gazette that the King has been graciously pleased to approve of the grant of the Victoria Cross to the following officers, non-commissioned officers and men:

Lieut. John George Smyth.

15th Ludhiana Sikhs, Indian Army. For most conspicuous bravery near Richborough L'Avoue on May 18, 1915. With a bombing party of 19 men, who voluntarily undertook this duty, he conveyed a supply of 96 bombs to within 20 yards of the enemy's position over exceptionally dangerous ground, after the attempts of two other parties had failed.

Lieut. Smyth succeeded in taking the bombs to the desired position with the aid of two of his men (the other eight having been killed or wounded), and to effect his purpose had to swim a stream, being exposed the whole time to howitzer shrapnel, machine gun and rifle fire.

Jemadar Mir Dast, I. O. M.

5th (Coke's) Rifles (Frontier Force), and 57th Wilde's Rifles (Frontier Force).

For most conspicuous bravery and great ability at Ypres on April 26, 1915, when he led his platoon with great gallantry during the attack, and afterwards collected various parties of the regiment (when no British officers were left) and kept them under his command until the retreat was ordered.

Jemadar Mir Dast subsequently on this day displayed remarkable courage in helping to carry eight

British and Indian officers into safety, whilst exposed to very heavy fire.

Lance-Corpl. William Angus.

8th (Lanark) Bn., Highland Light Infantry (T.F.). For most conspicuous bravery and devotion to duty at Givenchy on June 12, 1915, in voluntarily leaving his trench under very heavy bomb and rifle fire, and rescuing a wounded officer who was lying within a few yards of the enemy's position.

Lance-Corporal Angus had no chance whatever in escaping the enemy's fire when undertaking this very gallant action, and in effecting the rescue he sustained about 12 wounds from bombs, some of them being very serious.

Col. Sgt.-Maj. Frederick Barter.

Special Reserve, attd 1st Bn., Royal Welsh Fusiliers.

For most conspicuous bravery and marked ability at Festubert on May 18, 1915.

When in the first line of German trenches Company Sergeant-Major Barter called for volunteers to enable him to extend our line, and with the eight men who responded he attacked the German position with bombs, capturing three German officers and 102 men and 500 yards of their trenches. He subsequently found and cut 11 of the enemy's mine leads, situated about 20 yards apart.

Lance-Corpl. David Finlay.

2nd Bn., Black Watch (Royal Highlanders).

For most conspicuous bravery and devotion to duty on May 9, 1915, near Rue du Bois, when he led a bombing party of 12 men with the greatest gallantry in the attack until 10 of them had fallen.

Lance-Corporal Finlay then ordered the two survivors to crawl back, and he himself went to the assistance of a wounded man and carried him over a distance of 100 yards of fire-swept ground into cover, quite regardless of his own personal safety.

Private John Lynn.

2nd Bn., Lancashire Fusiliers.

For most conspicuous bravery near Ypres on May 2, 1915.

When the Germans were advancing behind their wave of asphyxiating gas Private Lynn, although almost overcome by the deadly fumes, handled his machine gun with very great effect against the enemy, and when he could not see them he moved his gun higher up on the parapet which enabled him to bring even more effective fire to bear, and eventually checked any further advance.

The great courage displayed by this soldier had a fine effect on his comrades in the very trying circumstances.

He died the following day from the effects of gas poisoning.

Corpl. John Ripley.

1st Bn., Black Watch (Royal Highlanders).

For most conspicuous bravery at Rue du Bois on May 9, 1915.

When leading his section on the right of the right platoon in the assault, he was the first man of the battalion to ascend the enemy's parapet, and from there he directed those following him to the gap in the German wire entanglements.

He then led his section through a breach in the parapet to a second line of trench, which had previous-

## SUBMARINE OUTSPEEDED BY STR. ORDUNA

### British Steamer Chased by Undersea Boat, Which Fired Several Shells, but Failed to Hit Mark.

New York, July 17.—Passengers aboard the British passenger liner Orduna which reached here today, said that a submarine attempted to torpedo the vessel at six o'clock in the morning of July 9, and falling in its effect fired six shells at the steamer, none of which took effect.

Few passengers were on the deck when the attack occurred. Baron Von Rosenkrantz of Denmark, one of the passengers, reached the deck as the Orduna was fleeing from her assailant and witnessed the attack.

The submarine chased the steamer, it was said, for a considerable time, and finally abandoned pursuit.

The next day a meeting of the passengers was held in the saloon and a resolution, adopted by twenty-three of them, was handed to Captain Taylor, expressing their heartfelt appreciation and admiration of the masterly manner in which you manoeuvred and handled your steamer during the sudden and deliberate attack made upon it on the morning of July 9, at six a. m. by a German submarine."

## ALIEN ENEMIES BUSY IN TORONTO?

### Believed Two Men Discovers Planned to Wreck Aeroplanes.

Toronto, July 18.—To blow up the hangar of the Curtiss Aviation School, at the island, and destroy the four hydroplanes that are being used to train airmen for the British aviation service, was believed to be the object of two unknown men who were discovered early yesterday in the hangar, tampering with one of the machines.

Guy Kilpatrick, instructor at the school, was awakened, and fired twice at the intruders, who disappeared in the bushes back of the hangar. A careful search has revealed no clues to the intruders.

ly been decided upon as the final objective in this part of our line.

In that position Corporal Ripley, with seven or eight men, established himself, blocking both flanks and arranging a fire position, which he continued to defend until all his men had fallen and he himself had been badly wounded in the head.

Acting Corpl. Charles Sharpe.

2nd Bn., Lincolnshire Regt.

For most conspicuous bravery near Rouges Bancs on May 9, 1915.

When in charge of a blocking party sent forward to take a portion of the German trench he was the first to reach the enemy's position, and, using bombs with great determination and effect, he himself cleared them out of a trench 50 yards long.

By this time all his party had fallen, and he was then joined by four other men, with whom he attacked the enemy again with bombs and captured a further trench 250 yards long.

Corpl. James Upton.

1st Bn., Sherwood Foresters (Nottinghamshire and Derbyshire Regiment).

For most conspicuous bravery near Rouges Bancs on May 9, 1915.

During the whole of this day Corporal Upton displayed the greatest courage in rescuing the wounded whilst exposed to very heavy rifle and artillery fire, going close to the enemy's parapet regardless of his own personal safety. One wounded man was killed by a shell whilst this non-commissioned officer was carrying him.

When Corporal Upton was not actually carrying the wounded he was engaged in bandaging and dressing the serious cases in front of our parapet, exposed to the enemy's fire.

Private Edward Warner.

1st Bn., Bedfordshire Regt.

For most conspicuous bravery near "Hill 60" on May 1, 1915.

After Trench 46 had been vacated by our troops, consequent on a gas attack, Private Warner entered it single-handed in order to prevent the enemy taking possession.

Reinforcements were sent to Private Warner, but could not reach him owing to the gas. He then came back and brought up more men, by which time he was completely exhausted, but the trench was held until the enemy's attack ceased.

This very gallant soldier died shortly afterwards from the effects of gas poisoning.

*"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.*  
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

### THE WAR SITUATION.

Attain the operations in the eastern war zone demand a monopoly of attention. The Austro-German forces, seemingly undeterred by the gigantic losses attending their last advance, are once more attacking the Russians and carrying forward operations on a magnitude unprecedented in the history of warfare. The Russian line from the Baltic to Bessarabia is more than 1,000 miles in length, and all along that great front the Germans are attacking. The scope of the thing can scarcely be appreciated, yet, if the contending armies were transferred to Canada they would be fighting along a line that would reach from Halifax to a point considerably beyond Toronto. Along that line it is estimated the Austro-Germans have more than two million men, so some slight idea can be gleaned of the weight of the movement the Russians are valiantly striving to hold back.

To a layman it would seem that while the mighty German movement is going on in the east it would be an opportune time for a general advance of the British and French troops in the western region. The reports from that sphere of action, however, do not indicate that such a movement is in progress. In fact the fighting is confined to a continuance of the trench warfare in which gains are counted by yards rather than miles. On the southern end of the western front France appears to be making some slight progress, but there is nothing that can be at all compared to the Austro-German movement against the Muscovite armies in the east. It is gradually working her way over the mountains and getting ready for an attack on the Austrians, but so far there has been little fighting, and nothing that can be called decisive.

### MANITOBA CONSERVATIVES.

Elections in the province of Manitoba are announced for August 6th, with nominations one week earlier. The country at large will then be afforded an opportunity of judging to what extent the disclosures at the sessions of the two commissions at Winnipeg will affect the opinion of the people. The Conservative party will enter the contest with an advantage ready made, they will have a new platform and a leader who can command the respect of all. At a provincial convention held in Winnipeg last week a progressive policy was outlined, the delegates came free handed and the proceedings were in no way cut and dried.

In many respects the programme to which the party subscribes places it in advance of the Liberal policy. The resolution pledging the party to immediate adoption of prohibition carries that question beyond the stand of the Norristes, who merely promised a referendum. The convention has also declared for a repeal of the Caldwell amendments to the School Act, and votes to women on receiving a mandate from them.

While the platform has won much favorable comment in Manitoba there is even more general support of the new leader. Sir J. A. M. Atkins is an able lawyer, a fluent speaker and a clean high-minded parliamentarian. His acceptance of the leadership is regarded as a guarantee that the party will return to the Borden standard of public life.

The large mass of Manitobans, if reports from that province can be taken as an indication of their views, laugh at the idea that Premier Norris and his colleagues who have attempted to raise the standard of purity, "are any better than the men they supplanted. "No pure, merely smoother", is the way one Winnipeg correspondent of a Toronto newspaper puts it.

However, the verdict of the polls on

August 6th will decide whether the reconstructed Conservative party holds the confidence of the electorate. No matter which side wins the contest is likely to "divide the people on political questions at a time when all thoughts should be directed to the solution of the one problem." And this, according to the Grit newspapers, is a thing greatly to be deplored. Yet it is the Liberal government of Manitoba that brought about the election.

### THE NEED OF MACHINE GUNS.

The movement to collect funds for the purchase of additional machine guns for the Canadian troops is a good one and it is pleasing to note that it is already meeting with success. There is not a man in New Brunswick who is not anxious to secure all the protection possible for the Canadian soldiers and to help them overcome the enemy. Also those who have read the letters written by the boys now at the front cannot but have been impressed by the fact that the Germans have a great superiority in machine guns, and that in consequence, the Canadians are laboring under a fatal handicap. Canadian soldiers, writing after Ypres, Neuve Chapelle and St. Julian, have laid stress on the deadliness of the German machine gun fire, through which they were literally forced to wade before they could get at close quarters with the enemy. Others have told how a few German soldiers with machine guns can riddle Canadian trenches with an effectiveness that cannot be overcome by ten times as many rifles. If the Canadians had a machine gun equipment equal to that of the Germans how many lives would have been saved in the fighting that has already taken place?

It is a patriotic duty for stay-at-homes, who are unable to do their part of the fighting, to see to it that those who go have every advantage of equipment that can be given to them. If our troops are lavishly equipped with machine guns in the future, their operations will be much more successful and many lives will undoubtedly be saved in the engagements yet to be fought. The provision of machine guns is a matter of practical business rather than of charity; the government is doing all it can to equip and maintain the troops but if the number of guns supplied by the government can be augmented by private generosity so much the better.

Referring to the newly chosen leader of the Manitoba Conservative party, the Montreal Gazette says: "In selecting Sir James Atkins as their leader the provincial Conservatives of Manitoba have done what will strengthen them for the contest that must soon be decided. Sir James, besides being a lawyer of repute and wide views, has been at the front of many business enterprises in the West and has received many testimonials of esteem from fellow-workers in business as well as in public and philanthropic endeavor. In the House of Commons he was respected, and the Canadian Bar Association offered him the honor of its highest office. He will be a strength to the party, both for the repute in which he is held and for the judgment he will bring to its counsels."

Sir Wilfrid Laurier has addressed a recruiting meeting in Ottawa and in the course of his remarks he urged Canadian young men to cross the sea, and aid the Empire in the conflict against the demon of Prussian militarism. Sir Wilfrid has evidently revised his opinion regarding the Kaiser. There was a time not so long ago when he endeavored to make Canadians believe that one of the great factors in promoting a good understanding between Britain and Germany was the German Emperor "whose patient effort had always been in the direction of peace."

Rumors of peace are again cropping up. For the most part they can be traced to Germanic origin. Great Britain and her Allies can sanction no peace until the task to which they set their hands has been thoroughly accomplished. Otherwise it will only have to be completed later and at a heavier cost.

The slow progress made by the Allies on the Gallipoli peninsula merely serves to illustrate once more that the toughest part of the turkey is the neck.

The Welsh coal strike is still on with little prospect of speedy cessation. The miners have taken an inopportune time to stop work if they wish to secure sympathy for their cause.

### The Hero

I'd like to be a hero if it wasn't for the war,  
But the war has made me busy don't you see,  
So many men are fighting in the trenches at the front  
That it's left a fearful lot of work for me.  
There's the boys who used to cheer for the ball club at the Park,  
Lots of 'em have gone away to fight the foe  
And if no one stops behind, to jaw the other club  
How can we win is what I'd like to know.

I'd love to dress in khaki and parade about the street,  
And my girl says I'd look dandy if I did,  
But without a linen collar and my New York style in ties  
I should look some real simple sort of kid.  
Besides, I couldn't hose the lawn for Mamma,  
(Though I don't if I can dodge it, you can bet)  
And who would wind the wool for Sister Susie  
(For she hasn't finished knitting neckties yet.)

I'm sure I do my share to help the Empire  
I've all the Allies' flags, from cigarettes,  
And if any one says Britain will be beaten  
I'm prepared to take them on, in ten cent bets  
I clap my hands when I am at the Movies  
Whenever there's a picture of the King,  
And I feel so savage when I see a German  
It makes me chew my gum like anything.

So you guys that talk about me being nervous,  
And say I ought to take a gun and fight,  
Should think of all the things I'm really doing  
(I lie and think about it half the night).  
But even if I hadn't lots to keep me busy  
Just doing things for Ma and Sister Sue  
My Momma says she'd cry if I was wounded  
And I'd hate to worry Momma—wouldn't you?  
Ottawa. HAVELOCK SHELTON

### Canada's Trade Balance

(Christian Science Monitor)  
Editor Christian Science Monitor, July 16.—For the first time in its history the Dominion of Canada has a balance of trade in its favor. The two first months of the fiscal year show exports of greater value than imports by approximately \$17,900,000. This balance, of course, is small compared with the favorable balance in the United States for the same period, but it is not the amount that makes it important; it is the fact that Canada driven to dependence upon its own resources, can do business at a profit. In the past, moreover, Canada, seemingly, could not meet its own needs in necessities let alone in luxuries. It has always imported enormously. It is not importing enormously now. The port of Canada's greatest export trade for the year has not as yet set in. An immense harvest will soon demand world markets. There is at present only one serious economic problem confronting the Canadian people. They are going to have tremendous crops. The surplus crops will command high prices abroad. The problem arises from the scarcity of shipping facilities. Canadian foodstuffs would be so plentiful as to destroy values if held at home. Outlets must, therefore, be provided. Food shipments to Great Britain and to ports in the British Empire generally were but little interfered with a year ago. Attempt to intercept them, if they may be assumed, will be more frequent this summer and autumn.

### A WALL BOARD

The B. R. WALL BOARD is almost three times as thick as ordinary wall board, and comes in sheets 4x8-0.  
It makes a good, stiff wall and cools but little more than the thin kind.  
It's very interesting to know eight furlongs make a mile, and in a little week or so I'll prove it, barefoot style.  
I'll stride those furlongs, gay and free, Nor care how many there may be.

Geography, arithmetic, and all the books are splendid, But you will see me shut them quick, When school at last is ended, And range them in a solemn row, And give one jolly whoop, and go! —Nancy Byrd Turner, in the Youth's Companion.

### MACHINISTS' STRIKE IN REMINGTON COMPANY FACTORY POSTPONED

Bridgeport, Conn., July 18.—A series of conferences in this city and in New York resulted tonight in the announcement that the general strike of machinists employed by the Remington Arms and Ammunition Company would not begin at noon tomorrow, the time set for the walkout. Persons interested in the continued industrial prosperity of this city were said by labor men in charge of the situation to be responsible for an agreement to withhold the strike call for at least twenty-four hours.

Charlottetown, P. E. I., July 18.—Hon. Arthur Meighen addressed a meeting of fifteen hundred people here last night on Canada and the war.

### It Counts Against You

The fact that a man doesn't carry a watch counts against him. True, not every man who carries a watch is prompt, energetic, considerate of other's time and valuing his own. But possession of a watch tends to develop such qualities, and failure to carry a good watch is accepted as evidence that a man is lacking in qualities essential for success. Don't put a handicap on your chances for business and social advancement. Buy a good watch today at Sharpe's.

## Special Knitting Contest

In Aid of The Red Cross Society (St. John Branch)

I am publishing particulars of a fresh contest and I want you all to enter for the prize, as the work you send in will be given to the above society, and the poor wounded soldiers will be greatly comforted by your efforts. Here are the particulars: Make a knitted face measuring 7 1/2 inches square, using No. 6 knitting cotton, and knit plain, crochet a loop on one corner to hang up by. Then pin the above coupon to same and forward not later than Thursday, July 29th, 1915 to

**UNCLE DICK,  
Standard,  
St. John, N. B.**

This contest is open to both girls and boys not over 18 years of age, as I want you to make as many face cloths as possible, knowing that they are to be used for the wounded soldiers.

To the girl or boy who makes the best I shall award a valuable story book. I shall also give a special book prize to the one who sends in the most.

The Call of The Labrador.

Rev. Robert Johnston, convenor of Assembly's Board of Home Missions, has issued a call for a student missionary who will volunteer for a year's service at Harrington Harbor, on the coast of Labrador. "The work is hard but the need is great." This isolated field has been under the care of the

Home Mission Board for about thirty years, and during that time many of our ministers have had their turn ministering to those far-away fisher-folk. Among the earliest to go was "MacKenzie of Korea," who labored here as a student for eighteen months in 1888-89. It was during his sea voyage from Halifax to Harrington that

## FATHER CASEY AT CATHEDRAL YESTERDAY

Made Reference to Thirtieth Anniversary of Founding of That Church

Rev. Patrick J. Casey, S. J., one of the missionaries of St. Mary's Church, Boston, who will conduct a retreat for the clergy of this district at St. Joseph's College, preached at the morning service in the cathedral here yesterday. Father Casey spoke of the founding of the cathedral here, which event took place thirty years ago, Friday. At that time St. John was stricken with a cholera epidemic and Father Casey pointed to the hardships necessary to establish such a church at that time. He hoped the people would take a lesson from the devotions of their forefathers and continue to do them honor.

Father Casey was born in New York and this is his first visit to Canada. He came here from Worcester, Mass., where he conducted a retreat at Holy Cross College. When the retreat at St. Joseph's is completed next Saturday Father Casey will go to Charlottetown to conduct another retreat.

## MARITIME BOYS HOME FROM CAMP

Most Successful Outing  
Held at Big Cove, N. S.—  
The Work Done.

The Maritime Boys' Camp Conference and the pioneer camp in Canada using the standard efficiency tests has just completed its season at Big Cove, N. S., with an attendance of 88. H. O. Bank, of the local Y. M. C. A. staff, was camp director. Other instructors were, A. S. McAllister of Halifax, Taylor Stator of Toronto; Rev. H. Wigles of Halifax. The complete programme of the standard tests was carried out, qualifying the boys for the leaders degree, and finally equipping them for leadership in the Sunday school.

Among the numerous subjects, on which lectures were given, were sex education, public speaking, craftsmanship, woodcraft, swimming, health education, athletics, vocational guidance, good citizenship, first aid, nation study, games, personal service, church and Bible study.

All the instructors in their closing addresses said they had never attended a camp which was carried on so successfully.

Taylor Stator who has had eleven years' experience, said it was one of the most interesting and liveliest camps he had ever the privilege of attending. He left on Saturday for a similar camp to be held at Lake Couchiching, Ont.

The boys themselves were greatly delighted with the camp, and agreed to try and have a larger number attend next year. It is to be regretted that the St. John churches were not represented at Big Cove. The excellent courses in church, Sunday school and Bible work were subjects which should have induced the local Sunday schools to send representatives.

Following is the daily programme used at the camp:—6.30, rising bell, setting up drill, cold dip in the water; 7.00, Bible study on "A Campaign for Friendship"; 7.30, breakfast; 8.30, 12.30, classes and lectures (meditation period on some phase of future life's work); 1.30, 2.00, dinner, tent inspection; 2.00, classes in woodcraft; 3.00, 5.00, athletics, including physical tests in stunts, efficiency, book (quite a number of the boys passed these tests); 6.00 tea; 7.30, camp fires; 10.00, lights out.

At the camp fires Rev. H. Wigles gave lectures on Egypt, Scotland, Palestine, and Taylor Stator lectured on the sex problem and astronomy.

## FUNERALS.

## BRITAINS AT WORK ON MUNITIONS FOR WAR

HOW THEY "NOSE" A SHELL AFTER HEATING IN A FURNACE  
The above picture, drawn especially for this newspaper, the New York Herald and the London Sphere, was made in one of the big shell factories of Vickers, Ltd. One of the most interesting processes is the "nosing" of the shell. The metal cylinder is being heated in a furnace by the man seen in the foreground, who passes it on to his mate, who puts the glowing end beneath a press which gives the cylinder the conical head on which the percussion or fuse cap is eventually fixed. Walls of shells are banked up behind the long lines of workers.

## VICTIM OF STABBING STILL IN CRITICAL STATE AT HOSPITAL

Hanley's Condition Said to be Unchanged—Hopes Held Out for His Recovery.

A report from the General Public Hospital at midnight was to the effect that the condition of William T. Hanley was unchanged. He was doing as well as could be expected but he was still in a critical state. As to the chances for his recovery from the wound which was inflicted with a knife by Mary Ann Rumley, those at the hospital will only say that the man will probably recover.

Mary Rumley, the woman who stabbed Hanley, is in jail, charged with attempted murder and she is taking things rather easy. When she was struck on the side of the head by Hanley while in front of the Moosepath Park gate the woman received a slight tear under her right eye which the doctor closed up with two stitches.

## MILITARY NOTES

A letter from Lieut.-Col. Massey, O. C. of the divisional train of which No. 5 Company C. A. S. C., in which D. B. Pidgeon left here as lieutenant states that the latter has been promoted to the rank of captain. Captain Pidgeon is now paymaster of the company.

Sergeant-Major Patterson, of St. John, who has been with No. 7 Company, C. A. S. C., in Sussex, will leave for Halifax this week to take a course of instruction to qualify for a lieutenancy.

Private Henry Wheaton, of Indian town, with the 26th Battalion in England, in writing to a friend speaks of his experience in camp. He says that wounded soldiers he has met describe the German gas as terrible in its effects. The Canadians he says had become noted for their bayonet charges.

A letter from Cecil McLean of the Divisional Ammunition Column now at Otterpool, England, says he is in good health.

Charles Richardson, of the 26th Battalion, writes to say that he and his brother, William, are well.

Lieutenant Eric MacDonald, son of Rev. Captain MacDonald, with the second Divisional Ammunition Column, writes to his mother, telling of their experiences under fire.

Gunner Ralph Estey says in a letter that he is expected that five U. S. B. boys with the 23rd Battery have been killed in France, but confirmation is lacking.

Corporal Andrew J. Wood, now a prisoner in Germany, is a brother of J. B. Wood of this city. He joined the 10th Battalion at Winnipeg, and was transferred to the 16th Battalion.

The report of the death of Frank Ryder, formerly of Havelock, Kings County, who enlisted with the 5th Munition Battery, has not yet been confirmed. His parents are Mr. and Mrs. Isaac Ryder, of Havelock.

## Sunday Funerals.

The attention of the Presbytery of Miramichi was called at its quarterly meeting recently to the frequency of Sunday funerals, with the result that a resolution touching the matter was passed as follows: "That the Presbytery of Miramichi request the people of their congregations to avoid, as far as possible, the holding of funerals on Sunday."

## DIED.

Notice of funeral will be given later.

CLARK—On Friday, July 16, at her residence, Prince Street, St. John West, Mary Ellen, widow of W. J. Clark, Esq.  
Funeral on Monday, at 2.30 o'clock, from the Carleton Methodist Church.

## ONTARIO PRIVATE WINS DISTINGUISHED CONDUCT MEDAL

Under Murderous Fire from German Guns Draws Map of Enemy's Territory Around Ypres.

Brantford, Ont., July 18—Private Robert Little, a Brantford man with the 16th Battalion, has been awarded the Distinguished Conduct Medal, according to word received here today. Little, who was a member of the 24th Brantford Dragons, and a native of this city, was awarded the honor for conspicuous bravery in drawing maps of the enemy's positions under heavy fire, while doing scout duty in here fighting around Ypres. The information he obtained, it transpires, proved invaluable to the Canadian division.

## OBITUARY.

Mrs. Wm. J. Clark.

The death occurred on Friday night of Mrs. Clark, widow of William J. Clark, of Carleton, deceased, who had many friends in Carleton and elsewhere, was 80 years of age. She is survived by her daughter, Mrs. J. S. Thompson, with whom and her granddaughter, Miss Mabel Thompson, she resided. Mrs. John Stackhouse of Carleton is a sister. Mrs. Clark was one of the oldest members of Carleton Methodist church.

Mrs. Francis K. Parlee.

Special to The Standard.  
Sussex, N. B., July 18—Francis K. Parlee, widow of Henry S. Parlee, died this morning at her residence, Smith's Creek. She was aged 75 years. Mrs. Parlee was well known through the county and held in high esteem by her many friends. She was before her marriage Miss Silder of Toronto. Deceased is survived by one daughter, Miss Caroline, at home, and two sons, M. H. Parlee, barrister of Hampton, and Harvey B., at home. The funeral will take place at two o'clock Tuesday afternoon interment at Smith's Creek. Rev. Mr. Shewan officiating.

George R. Smith.

Fredericton, July 18. The death occurred last evening after an illness of some weeks of George R. Smith, retired farmer of Maugeville, Sunbury county, who had been living in Fredericton for some years past. Deceased, who was aged 83 years, was predeceased by his wife some years. Leaves no children and was the last surviving member of his family. The funeral will take place on Monday afternoon at 2 o'clock from the residence of Mrs. Robert Colwell Queen street. Very Rev. Dean Neales and Rev. E. E. Lake will conduct funeral services and the remains will be conveyed to the Star line wharf and thence by steamer Annie Currier to Maugeville for burial.

AERIAL TORPEDOES ADD TO THE TERROR OF ZEPPELINS

AERIAL TORPEDOES FIRED FROM ZEPPELINS IN ANY DESIRED DIRECTION

The German military authorities have succeeded in developing an aerial torpedo which can be directed by wireless waves from the navigation platform of a distant Zeppelin. Until now the Zeppelins have had no means of discharging bombs other than to drop them from high in the air...

CLIMB MOUNTAIN 10 THOUSAND FT. HIGH TO ENGAGE IN BATTLE

Continued from page two, and Italy to attempt to do even the "impossible." Some of the Alpine passes, such as that of the Stelvio, near the Swiss border, are covered by thirty feet of snow and more during the months preceding the war they have been kept clear of snow by sappers...

In the Italian frontier where the prosperous valley of the Astico was exposed to Austrian invasions. Swiss soldiers relate the following incident which they witnessed from the border of their country near the Stelvio Pass, where Swiss, Italian and Austrian territory come together: Seven Italian Alpini were surprised by a large contingent of Austrian jägers near the Swiss line. The Alpini, with the agility of chamoise, scrambled up a steep cliff and prepared to sell their lives dearly...

troops and the democratic relations between officers and men which observers of all nations at the front dwell upon with great stress. The democratic spirit in the army is no new thing. It is partly due to the fact that the officers are drawn largely from the middle class. It has been said that the war has brought out the quality to such a fine degree that the Italian army on the battlefields today is inspiringly a people's army.

A passage in a letter from a young sub-lieutenant to his family in Southern Italy gives an ingenious, but bright new twist to the comradeship among all grades in camp: "Yesterday," writes the young officer, "was the most beautiful and most historic day of my life and for all the men in our battery, for we had an opportunity to be with the King. He sat, like the rest of us, on the ground, sharing with the soldiers the cheese, salame, and other things we had with him for lunch. My share of his gift was a lot of delicious cherries."

## SOLE LEATHER BOUGHT HEAVILY FOR PAST FEW WEEKS

New York, July 17.—A veritable war boom has laid hold of the sole leather industry. During the past three weeks buying of sole leathers for export has been heavier than at any time since the war started. One of the leading sole leather authorities of the country estimates that fully 70 per cent of the visible supply of sole leather in the United States on June 15 has been purchased since that date for export to Europe.

Naturally prices of leather have advanced. Since June 15, there has been an advance of one to four cents per pound in standard lines of sole leather used in shoe making. Belting butts for war purposes have jumped even more. Their advance have been five to eight cents. These advances cover all grades of hemlock, oak and other leathers and have been generally participated in by all sole leather tanners. It is thought that the market is bound for still higher levels and further advances in shoe prices are regarded as inevitable in the fall.

## NEGRO ONCE TRADED FOR REAL ESTATE NOW WORTH THOUSANDS OF DOLLARS

Negro who was once traded for a piece of Atlanta (Ga.) real estate that is now worth \$10,000 a front foot is shown in this picture. His name is Ian Peacock, and sixty years ago he was classed as property. Deeds are in existence showing how Ian, twenty years old, valued at \$1,200, served as the purchase price for a part of the frontage at Whitehall and Alabama streets, in Atlanta, now being used as the site for an office building.

## GAINS OF TEN TO TWENTY-FIVE POINTS RECORDED DURING SATURDAY'S SESSION

New York, July 17.—Stocks ended the week almost as they began with a further boom in the war specialties—many of which were carried to new high records with gains of ten to twenty-five points for that brief period. Crucible Steel was again the most conspicuous feature, advancing to 44, with the preferred at 104. Other issues in this class which touched quotations never before equalled included Bethlehem Steel at 191, Inland with locomotive at 75 1/2, American Can preferred at 105 1/2, and General Motors at 189 1/2.

Numerous minor industrials such as Republic Steel, common and preferred; Sloss, Sheffield, and Allis-Chalmers, common and preferred, made striking gains on fairly large absorptions. In fact, every issue in the so-called industrial and equipment divisions of the stock list was in demand, including some stocks long dormant. United States Steel was almost the only one of the former market leaders to take part in today's movement, rising to 65, its highest quotation of the year. Steel ranked second to Crucible Steel in point of activity, but such erstwhile favorites as Amalgamated Copper, Reading and Pacific were inclined to heaviness, none suffering from actual neglect. Total sales of stocks amounted to 425,000 shares.

News features bearing upon the financial situation included reports from leading centers showing an expansion of demand for merchandise and a further accumulation of "constructive factors." Improvement is most pronounced in the principal agricultural sections of the country.

An increase of about \$5,000,000 in loans and gain of \$6,000,000 in excess reserves were the only features of the weekly bank statement.

Trading in bonds was light with a steady undertone. Total sales, par value, were \$890,000.

Panama registered 3's advanced 5 1/2 per cent on call during the week.

## CLOSING LETTER OF N.Y. MARKET BY E. & C. RANDOLPH

(McDougal & Cowans)

(Furnished by McDougal & Cowans)

New York, July 17.—There has been a very strong and active market in a number of the industrials, although elsewhere in the industrial list comparatively little has been done and the railroad stock has been neglected. Crucible Steel which had risen good in yesterday's market, advanced several points further, but later reacted and lost a considerable part of its gain. It is reported that the Allies are furnishing the capital for the building of a very large ordnance plant for the Crucible Steel Co., where long-range heavy guns will be made. Among the other very strong specialties were the Allis-Chalmers Stocks, which rose on reports of new war orders and an active demand for machinery, such as the company manufactures for mining and other purposes. U. S. Steel was very active and sold up to a new high record for the year. The price of steel billets has advanced rapidly in the past few days and this is considered the forerunner of advanced quotations for nearly all lines of finished material. The stock of the Independent Steel Co. was also strong. Total sales 435,000. Bonds \$82,000.

## THE FUNDS

For the Serbians.

The Knights of Columbus acknowledge the receipt for the Serbian fund, of two additional contributions: Mrs. R. M. Hazen \$5.00; Miss Lillian Hazen \$2.00.

The seven pneumonia jackets sent from Sackville were from the Lord Sackville Chapter, L.O.D.E.

Patriotic Funds.

C. B. Allan, secretary-treasurer of the Patriotic Fund, acknowledges the receipt of \$10 from G. Wetmore Merritt, his July contribution.

In the statement of receipts of Pransetick Chapter, I.O.D.E., for Dr. M. MacLaren's hospital, the \$50 credited to the people of Havelock should have been credited to the people of Holderville, C. C.

Tent Moth Arrives.

Young broods of the tent moth made their appearance in the city last night in force. The insects, many thousands strong, could be seen in vigorous and erratic flight around and about the electric lights. The annual visitation of this moth is a little earlier than usual.

## WATER ASSESSMENT SHOWS INCREASE

New districts now pay full rate—Stocks decreased.

WATER ASSESSMENT SO

The water assessment for 1915 was made public Saturday and showed an increase of \$3,608.90 in revenue, as compared with 1914. This is due to increases on both the valuation of property and stocks, and the charges for water fixtures. The increase in valuation is due partly to new buildings and partly to the fact that several districts which have escaped in the past with half valuation, now have been provided with water and sewerage and pay the full rate. There is a slight decrease in the value of stocks, owing to the fact that several concerns went out of business on account of war conditions. The figures are as follows:

1915 Valuation.		1914	
North .....	\$ 8,846,050	\$ 8,846,050	\$ 655,400

COUNTY COURT.

The suit of Helen G. Edgecombe vs. Annie I. Burgess and Kaye Burgess came up for hearing on Friday before Judge Armstrong in the county court chambers. An interesting point brought up during the hearing was whether the defendant Kaye Burgess not having made a special plea of infancy could under the general issue of him pleaded give evidence of his infancy. After several witnesses were examined the case was adjourned. Kenneth A. Wilson appeared for the plaintiff and S. A. M. Skinner for the defendant.

#### COAL IN BARGES.

The British tug Cruiser arrived at Portland Friday afternoon from Louisburg. C. B., having in tow barges Langen and Kaleva, coal laden to William M. Bradley. The tow has been nearly six days on the voyage, having been delayed considerably by the thick fog encountered all along the coast. The barges are good sized cratts, each carrying 1,800 tons of coal. The experience of bringing coal from the provinces in barges is pronounced a success, and the shipments will probably be continued indefinitely, as it has been demonstrated that coal can be landed here at a less cost per ton than if carried by steamer.

## BASEBALL IN THE BIG LEAGUES

### THE SECRET OF WHY THE DODGERS ARE UP WITH THE NATIONAL LEAGUE LEADERS

Above is displayed Brooklyn's "open secret"—Weiser Dell, "Jack" Coombs, "Ed" Pfeffer, "Nap" Rucker and Sherrod Smith. Collectively they compose the answer to the recent success of the Dodgers' winning streak, a winning streak that has carried them from the ruck to within easy halting distance of the top, in third place. The National League race this season is straight games. This is not intended as a prediction that the Dodgers will cop the bunting and parade through to a like feat in the world series. The race is still too much of an open one to permit of such a prediction, but it means that the Dodgers have a chance. Seldom during the last fifteen years has July 15 found the Dodgers parading along the highway in the first position. Usually they have threatened to make good at the outset of the race and then have withered under the test of a summer's play. With these five pitchers going well, not to mention Atchafson, Douglass and Appleton, the Dodgers are well fortified on the pitching mound—in fact, they are a well balanced team and with an ever break in the luck of the game they should be there or thereabouts when the final drive comes.

## BOXING WITHOUT CLINCHING WOULD BE STRENUOUS SPORT

That clinching should be altogether abolished from boxing is the contention of an English writer who advocates a change in the rules making it a foul to embrace an opponent, writes Fred Keats in the New York Evening Sun. Rather a strange stand for a countryman of Freddie Welsh to take considering that it was in England that the leading exponent of the jab and grab style of boxing was handed the lightweight title.

"That boxing would be a hundred fold more exciting if the clinch could be eliminated goes without saying. In that case practically every bout would be decisive, either ending in a knock-out or a disqualification. However, the idea obviously is impracticable for many reasons.

"Clinching is illegal under the present rules, but the full penalty never is imposed because to do so would make the sport a little too strenuous for safety. The most practical interpretation of the code as followed by the best referees is to penalize the man who forces the clinch one point. Under this system the boxer who jabs and grabs gets no credit for his work as the point he scores for landing the blow is offset by the penalty for clinching. If this style of judging bouts were followed more closely men of Welsh's type would be forced to box cleanly in order to gain credit for a victory on points.

"The really great boxers have been those who never clinched except as a last resort when too flayed and weak-footed willing to put the matter to the footwork. Under these conditions the clinch is highly necessary, but as a general thing it should be discouraged as much as possible by imposing the penalty.

"While it is doubtless impossible to dispense with the clinch it would be highly interesting to try the experiment. Perhaps two boxers can be found willing to put the matter to the test in a trial bout. Such a contest certainly would prove a great drawing card.

Johnny Dundee's manager, Scotty Monteth, makes the charge that some one has forged his name to press notices recently published in several local newspapers. The accredits to which he objects refer to Jack Britton and others in a slighting manner. Dundee's pilot declares that the purpose of the writer was to make him appear ridiculous and he wants to have it made known that he had nothing to do with the manufacture of the same and knew nothing about them until he saw them in print.

Monteth also wishes to make clear how he stands regarding a match between Dundee and Kid Lewis or Freddie Welsh, both of whom Lewis' manager accuses him of sidestepping. Says Monteth:

"The only time Dundee was offered a match with Welsh was last November and he could not accept as he was signed to box Joe Rivers 20 rounds in California. In a recent statement issued by Jimmy Johnson he said that I could have had the match if I had not wanted the Twenty-seventh street side of Madison Square Garden. Johnson also said that Shugrue took the match and eventually made \$10,000 from it. Well, Dundee made more than that in the same length of time. As to Lewis, if Johnson will offer us \$1,000 Dundee will gladly box his wonderful lightweight. Lewis has been in this country nearly a year now. He came here heralded as one of the greatest ever turned out by England. Yet he has made less in a year than Dundee makes in a month, which indicates what the public thinks of both men.

"As far as Welsh is concerned Dundee is willing to wait until he can meet him for 20 rounds to a decision. When that time comes there will be a new lightweight champion, and no one knows that better than Welsh himself."

## MILLIONS PLAYING AT GOLF

Golf has become America's national game. More American men play golf today than play baseball. The total number of men and women who play golf every day during the open season is greater than the total number of men and women who witness baseball or play baseball. Golf is the real national game now because both sexes can—and do—play the game.

Baseball is a game that the majority of Americans play only until they are around 30. After that they quit the game as a regular form of exercise and pleasure, unless they go into the professional ranks. Baseball is too strenuous a game for any one who does not play regularly. But golf is a game for all ages. And this imported game of golf was a sneered at pastime by the Americans less than ten years ago.

Golf is a game for the poor as well as the rich. It is not very expensive. A set of golfing clubs, balls and other equipments does not cost very much more than does a baseball uniform, a half dozen bats, spiked shoes and other paraphernalia.

There are at least 2,500,000—probably like 600 golfing clubs allied with the United States association. That represents a golf population of at least 500,000. But that is only a small portion of the standing army of golfers. In every city where there are public links there are tens of thousands of golfers not associated with clubs. They play either on the public or the private links at the invitation of some friend who happens to be a member of the club that owns them.

There are at least 2,500,000—probably 2,500,000—golfers in America today. They may not play every day or every week. Just as soon as the big cities in the country build more public links the golfing army probably will be increased by another 2,000,000.

"What is there about this game of golf that has increased its devotees from the 5,000 of ten years ago to the 2,500,000 or 3,500,000 of today?" is your question.

And the answer is: "Try it!"

## GERMAN DERBY TO BE RUN

Brin, via London, July 19.—The German Derby, the chief racing event in Germany, will be run as usual on Sunday over the Derby course at Hamburg. This race, which in former years preceded the Kiel regatta, always has attracted a great number of distinguished spectators. It was run last year on the day of the assassination of the Austrian Archduke Francis Ferdinand and his wife at Sarajevo.

The horses which will face the starter Sunday will include, in addition to the best of the German thoroughbreds a number of Austrian racers, among these latter Tuenders, owned by Count Leopold von Berchtold, the former Austro-Hungarian Foreign Minister. The Prussian Royal stables' Anschluss will carry Emperor William's colors. George Archibald, an American jockey, will ride the second favorite in the race, Masler.

## WORLD'S RECORDS BROKEN

San Francisco, July 18.—Four world's records and one American record were broken here last night in the Panama Pacific Exposition indoor swimming championship meet. Duke Kahanamoku of Honolulu, swimming 100 yards in 54.25 seconds, lowered his own record by one-fifth of a second. Michael McDermott of Chicago, broke all records for the 200 yard breast stroke with a mark of 2 minutes 48.25 seconds. Ludy Lancer of Los Angeles, covered the 500 yard dash in 8 minutes 15.45 seconds. The Illinois Athletic Club won the relay in 32 minutes 43.15 seconds.

Miss Frances Cowell's time in the 220 yard dash for girls was 3 minutes 20 seconds, lowering the American record.

**IF UNABLE TO GO YOURSELF SEND ALONG A MACHINE GUN**

**Rev. Dr. Morison Made Strong Plea for Donations Towards Purchasing These Useful Instruments—An Opportunity for the Older Men.**

In the course of his sermon in the Carleton Presbyterian church last evening Rev. Dr. Morison made a strong plea for the donation of machine guns for the use of the Canadians at the front. "It is impossible," said he, "to exaggerate the importance of supplying our soldiers with machine guns. Military authorities in gunnery have declared that, notwithstanding the fact that the British soldier was the better shot, yet the advantage was with the Germans because of their larger supply of machine guns. "Prominent British engineers are quoted in old country journals as lamenting the scarcity of this instrument of destruction among the British troops. There is praiseworthy effort now being made by citizens of St. John to supply to Canadian soldiers

**PERCY LAWSON AT THE HOME OF SIR JOHN MOORE**

**Writes Interesting Letter to F. H. Probert of the Intercolonial Round House.**

Gunner Percy Lawson, who was formerly employed at the Intercolonial Railway round house here, but is now with the Ammunition Column in England, writing to F. H. Probert, foreman at the round house, says: "We arrived in England O.K. after a good voyage. Only had one bad night and that was the last at sea. We ran into a fog bank in the English Channel and nearly ran down a Norse steamer. We were going at full speed at the time and in the most dangerous waters. We had to cut our speed and blow our whistle every half minute, so you see we were in some danger from submarines. "At five o'clock in the morning we sighted the Eddystone Lighthouse and at seven o'clock we saw the entrance to Plymouth Harbor, and I tell you it is some city, too. All you can see are the forts on the coast and every hill. The whole city looks fine. "The railroads over here get my goat. The cars do not have the aisles through them like ours but are divided into compartments, with the doors in the side. The locomotives are smaller than ours but they certainly can travel some. They seem to only hit the spots in some places, going at the rate of a mile in forty seconds. "On our way up in the train we passed some of the places of the big seed growers and the flowers they have would surprise you. "Our camp is a nice place, situated on a hill and the scenery is pretty. One hundred yards from my tent is a farm house and in it the famous British General, Sir John Moore, was born and lived. On the spot where we are stationed there was a battle fought. On a hill I saw a white horse, placed to mark the spot where Oliver Cromwell fought one of his battles. "The camp here is about nine miles square. The cost of living is high, a steak costing me one shilling and ten pence, equal to forty cents in Canadian money. "We see a few aeroplanes passing over on their way to Dover. Remember me to the boys. I have not much time to write. We are kept busy from 5.30 a. m. to 6.30 p. m."

Briggs was killed in a place of shell. Elsworth Reid, who was reported killed, was only wounded, says Private Rolatson, who was alongside of him when he was killed.

**A River Trip.**  
Several members of the Natural History Society are to leave this morning on the Boston express for Woodstock from which place they will on upon a two weeks' canoe trip down the St. John river as far as the Washademoak where they will join the main girls' camp. Mr. and Mrs. Wm. McIntosh will be in charge of the party, which consists of the following young ladies: Dorothy Jones, Kathleen Walker, Jill Curry, Jean Sommerville, Frances Jordan, Helen Hayes, Elizabeth McKinnon, Amelia Turner, Nellie Wilson and Etta Bauer.

**People Enjoyed Sunshine.**  
The street cars running to Glen Falls and Seaside Park did a rushing business yesterday, there being record crowds at both resorts. Rockwood Park was also attended by thousands of people, and with the large number of people who went to the country to spend Sunday, the city was almost deserted yesterday afternoon. The weather conditions were ideal, and the warm sun was greatly enjoyed. Citizens were basking in the open at every opportunity. The shore were thronged with people and the children took great delight in the bathing facilities.

**Arrived Safely.**  
The eleven year old daughter of Mrs. L. Driz, Long wharf, whose whereabouts have been the cause of considerable anxiety since last Monday, has turned up safely. She left St. John to visit friends in Amherst, but did not arrive on the train on which she was expected. Inquiries revealed the fact that she was last seen on the station platform in Moncton, but a thorough search of Moncton revealed no further trace of her. Saturday morning her mother received a letter informing her that the child had got off at Moncton by mistake, but had taken another train a little later and arrived there safely.

**ROSA MAGGLO SENTENCED TO SIX MONTHS**

**Has Been Held by Police for Several Days—Little Known About Her.**

Rosa Magglo, the young woman who was said to be a Russian, and who was arrested some weeks ago on a serious charge, was on Saturday sent to the Home of the Good Shepherd for a term of six months. There has been considerable mystery about the woman since she arrived in the city. The first time she came into the limelight was when the police detained her for walking about the city and acting strangely. While at the station she was found to have the sum of \$148 with her, and when asked where she obtained such a large amount of money she claimed to have received it while working as a chorus girl. She said she came from New York.

When questioned about different places in New York she would not answer and she had little or nothing to say about herself. She was allowed to go with the understanding that she get out of the city, but instead of going away she went to a house on the Long Wharf and there she claimed that she was robbed of her money. Shortly afterward she was arrested and was kept in jail for a few weeks but the officials could get very little information from her.

**CHASED GIRLS AND DAMAGED CLUB HOUSE**

**Millidgeville the Scene of Disgraceful Disturbance Saturday Evening.**

William Burton and George Laine, who are believed to have imbibed too much, created a disturbance at Millidgeville in the vicinity of the Royal Kennebecasis Yacht Club quarters, on Saturday evening. Besides doing damage to property they are said to have chased several young girls and women. They were finally arrested by city policemen and lodged in cells at central police station. During the evening they were released, after a deposit for their appearance had been placed with the chief of police. It was shortly after seven o'clock Saturday evening when the trouble was started by the men. It is said they smashed a window and broke in a door of the club house. The janitor was unable to do anything with them so he called on one of the yachtmen for assistance. The disturbers then gave their attentions over to young girls and women and chased several of these. One girl made her escape into a house and the men tried to break in after her.

The north end police station was communicated with and Sergeant Sullivan with Policemen Briggs and Powers went out the Adelaide road towards Millidgeville and placed them under arrest. A deposit of fifty dollars was made at police headquarters and the men were released. Both are said to hold good positions. People, who were at Millidgeville at the time, said the action of the men was disgraceful.

**ODD FELLOWS IN CHURCH PARADE TO FAIRVILLE**

**Members of Golden Rule Lodge Had Fine Turnout Yesterday.**

Members of Golden Rule Lodge, Independent order of Oddfellows with members of sister lodges paraded to the Church of the Good Shepherd, Fairville, yesterday afternoon. The Carleton Cornet Band accompanied the Oddfellows. Rev. Walter P. Dunham preached an appropriate sermon. The weather conditions were ideal for the parade, and there was a good attendance. The parade left the Oddfellows' Hall in Market Place about 2.30 o'clock and marched via King, Ludlow and Prince streets, through Fairville to the church. The return was made by the same route.

**REV. DR. PARKER PASSED AWAY**

**Was Formerly Chaplain of the Royal Kennebecasis Yacht Club.**

Rev. Lindsay Parker, Ph. D., formerly of Brooklyn, N. Y., passed away at his residence, King street east after a lingering illness. Dr. Parker was rector of St. Peter's church, Brooklyn, for several years but for the last few years has resided in St. John. He was particularly well known here, having been chaplain of the Royal Kennebecasis Yacht Club for several years. He was present at many of the annual cruises of the club and usually preached their annual sermon. His funeral will take place tomorrow afternoon at 2.30 o'clock from Trinity church.

**BARGAIN SALE AT M. R. A.'S OF WASH DRESSES SUITS AND COATS**

The sale will commence this morning at 8.30 in the Costume Section, second floor.

**Y.M.C.A. BOYS RETURN FROM RIVER CRUISE**

**Fourteen Lads Had Successful Outing in Motor Boats on the St. John.**

The Y. M. C. A. boy campers returned from their motor boat cruise up the St. John river Saturday afternoon after covering about 150 miles and visiting some of the most interesting points along the river. The party was made up of fourteen boys along with Wm. Howes and P. J. Legge, local boys' secretary in charge. A fine boat was secured and after every boy was given a duty to perform such as deckhands, cooks and stewards, the trip commenced. A good load of provisions and a big tent, loaned by T. H. Estabrooks, were taken along and both were made good use of.

Perfect weather was encountered for almost the entire trip while baseball, quoits, swimming and camp fires were the chief activities of the boys. Everybody went in for a morning dip at seven o'clock, breakfast was served at eight after which Mr. Legge instructed in Bible study. Among the many places stopped at along the river were Sand Point, Gornham's Bluff, Robertson's Point, Johnson's Creek, Gagetown, Belysa's Cove, Wilkins' Cove. On Friday night it rained for the first time during the trip. But everybody was made snug in a nearby hay loft. Saturday morning proved wet and foggy and after a late breakfast the last part of the trip home was begun. The party arrived about 6 p. m. tired but happy. Not a single accident marred the trip and the boys declared the outing most enjoyable. Great credit is due Mr. Howes for his efforts as cook and Herb Morton, who acted as engineer, for the success of the outing.

The blueberry picnic at Welsford, postponed on Saturday on account of the rain, will be held today. Trains will leave Union Station same time as previously advertised.

Don't forget the garden fete at Rothesay, Wednesday, July 21, 3.30 to 7 o'clock, for the benefit of the Red Cross.
