## Wilson To Decline German Peace Offer; Hindenburg In Quarrel With Kaiser Quits

### BRITISH SATISFIED THAT PEACE IS NOT IN SIGHT

Expected President Wilson Will Decline Peace Offer of Teutonic Powers.

#### GERMANY'S ACTION GREAT THUNDERBOLT

All Enemy Classes Are Eager For Peace, But the War Will Go On.

By Arthur S. Draper. (Special cable to the New York Tribune and the St. John Standard.) London, Oct. 7.—It is expected that the President will decline the German peace offer, but it is hoped that he will make a reasoned reply. British feels that Germany must give material guarantees and show signs of repentance before peace can be considered. They hold that constitutional changes should be made before negotiations are begun, and a mere promise is unsatisfactory. The British are deeply interested in the question of German colonies. Deeds and not words is the phrase heard most frequently. The British think that an early peace with Austria and Turkey is coming. Notes from these countries have not been received here up to a late hour today.

Anxiously Awaited.

The Allies, the enemies, the neutrals, the soldiers and the civilians are awaiting with breathless interest the President's decision of this most critical moment since the United States became a belligerent. Everyone everywhere has been thrown off his balance by the suddenness with which the enemy countries have grasped for peace.

Prince Maximilian's first utterance as German imperial plenipotentiary to the Allied peoples in almost the same state of unpreparedness as they were in July, 1914, when the Kaiser plunged Europe into war. The dramatic offer of Germany and the dual monarchy is almost as great a shock as the blows of Ludendorff rained on the Allied lines last spring. For many months Europe has tried to penetrate the future in the hope of finding peace, and now she is unable to say whether it is close at hand or whether more rivers of blood must be poured. Europe regards Wilson as a sort of umpire, and awaits his decision.

Enemy Needs Peace.

All Britons are agreed that all enemy classes are eager for peace. Most of them interpret the chancellor's utterances as a confession of Germany's defeat, but they also feel that Max made this declaration to save the Hohenzollerns and the militarists. They think there is little chance of peace in the German ruling classes, and that no conversion but convention has brought forth this proposal. Germany pursued at Bucharest.

Prince Max appeals to each of his three chief opponents, especially America. His bid to America is largely through the acceptance of the league of nations scheme which everyone admits overshadows all territorial questions. Then he tries to placate America by promising to reopen the Russian treaties. Briefly he expresses willingness to explore the prospect of nations scheme with the hope of finding ground for general disarmament and substitution of arbitration for force. Then he acknowledges that Germany no longer expects to make peace in the west at the expense of Russia.

To Liberate Belgium.

At Britain's chief war aim has been the liberation and restoration of Belgium. Max concedes Germany's willingness to grant this demand, but in return he asks for the colonies which the British arms wrested from the fatherland. France under Max's scheme would not recover her lost provinces, but Alsace would become autonomous.

If Max's offer is unaccepted Germany's position will grow increasingly embarrassing. Baron Hunsucker, who was shouted down by the Reichstag, has resigned and the peace party now expects Professor Lammasch, (Continued on Page Two.)

### A Wonderful Stand Made By Canadians

Saddened Though They Be By Heavy Price of Victory People of Canada Have Reason To Thrill With Pride—Germans Fail To Shake Our Stranglehold on Their Vital Pivot of Cambrai—Deeds of Heroism.

With the Canadian Army in the Field, Oct. 6, via London, Oct. 7.—(By J. F. B. Livesey, Canadian Press correspondent)—Saddened though they may be by the heavy price of victory, the people of Canada will thrill with pride when they come to read the full story of the wonderful stand their troops made during the early days of this week against enemy masses determined to wrest from them their conquests. Gallant and heroic episodes are innumerable. Battalions, companies and little knots of men stood their ground against wave after wave of assaulting troops, supported by the greatest massing of machine guns this war has produced. It is the penalty of storming troops, such as the Canadian corps, that they sometimes create for themselves, in their impetuous advance, unprotected flanks.

### AMERICAN SENATE SPURNS HUN HAND

Senators Participating in Two Hours' Debate Declare Germanys Offer An Insidious Attack and Demand Its Immediate Rejection.

Washington, Oct. 7.—Germany's peace offer was peremptorily spurned today in the Senate. In spirited discussion of the latest enemy proposals, Senators participating in a two hours' debate, declared it an insidious attack and voiced a common demand for its immediate rejection. Inveighing especially against the proposal for an armistice, the speakers were unanimous in declaring that a crushing military victory must be preliminary to peace negotiations. Senator Hitchcock of Nebraska, chairman of the Senate Foreign Relations Committee, Republican leader Lodge, of Massachusetts, ranking minority leader of the committee; Senators Poindexter, of Washington; McCumber of North Dakota; Pittman of Nevada; Ashurst and Smith, of Arizona; Nelson of Minnesota and Reed of Missouri, were among the speakers, representing both political parties. The discussion which was made to vacant galleries, closed as a precaution against the Spanish influenza epidemic, may be renewed next Thursday, when the Senate reconvenes after a recess.

#### Armistice Impossible.

After Senator Hitchcock and others had declared an armistice impossible, Senator McCumber introduced a resolution, proposing as the first requisite to any peace negotiations, absolute surrender by Germany, including dissolution of her army and navy, and pledges for complete indemnifications. The resolution was referred to the Foreign Relations Committee. Although first pointing out that Germany's offer contemplated acceptance of President Wilson's fourteen peace terms, Senator Hitchcock declared that the request for an armistice is "absolutely abhorrent" to every member of the Senate. "It is unthinkable," he said, "that the German and Austrian proposals will be accepted," and he insisted that not only must Alsace-Lorraine be restored to France, but that in any peace negotiations, the Spanish influenza epidemic, may be renewed.

### MONCTON MEN DIE OF THE INFLUENZA

George Hannigan Passes Away in Boston and George Finnigan Also Succumbs.

Moncton, Oct. 7.—Friends here have received word of the death at Boston of George Hannigan, a former well known C. G. R. employe here. Death was due to Spanish influenza. He resided in Boston about twenty years. A widow and one son, Jack, reside in Moncton. Spanish influenza is reported on the increase in Moncton, although so far there have been few deaths from the malady. Geo. Finnigan, a well known C. G. R. car repairer, fell a victim of the disease this evening. Pneumonia followed an attack of influenza and death resulted after a week's illness. The deceased was about 45 years old and is survived by a widow.

### PTE. C. McDOUGALL DIES IN FRANCE

Went Overseas Last Month—Many Westmorland Boys in Casualties.

Special to The Standard. Moncton, Oct. 7.—The names of many Moncton and Westmorland County boys are appearing in the latest casualty lists. Today Mr. and Mrs. Archie McDougall received word from Ottawa that their youngest son, Pte. Colin W. McDougall, had died of a gunshot wound in the head in a hospital in France. This was the first intimation the parents had that their son had been wounded. Pte. McDougall was 23 years old, and went overseas last April with the Depot Battalion, crossing to France about Sept. 1, with a draft. Some

#### Field Marshal Von Hindenburg Resigns

Chief of German General Staff Has Row With All Highest, Declaring That Retreat on Large Scale Impossible To Avoid—British Line Advanced on Four-Mile Front.

London, Oct. 7.—Field Marshal Von Hindenburg has resigned as chief of the German general staff after a heated interview with the Emperor in which the field marshal declared that a retreat on a large scale was impossible to avoid, according to a Central News despatch from Amsterdam today. The correspondent based his despatch on reports from the frontier.

London, Oct. 7.—The British line has been advanced on a front of four miles north of the Scarpe, Field Marshal Haig reports tonight. The villages of Biache St. Vaast and Oppy were captured. The statement reads:

"In successful local operations this morning we advanced our line on a front of about four miles north of the Scarpe river, capturing the villages of Biache St. Vaast and Oppy and more than 100 prisoners and a number of machine guns. "Patrol fighting took place also northeast of Epinoy and north of Aubencheul-Aux-Bois. We progressed in both localities."

### DEFEAT OF ENEMY MAY COME SOON

Allied Soldiers Say It Would Be Great Mistake To Grant Armistice

With the British Army in France, Oct. 7.—(By The Associated Press)—The idea of the Allied armies wanting peace, but no peace except a completely victorious one. This was the opinion expressed by officers and men alike to The Associated Press correspondent today. If Germany is now willing to admit her utter defeat, then say the men who have been fighting the good fight for the liberty of the world, so much the better, but they declare the granting of an armistice at this time, unless the enemy is absolutely sincere, might prove extremely dangerous. "Victory first, then peace." This is the manner in which French civilians who have returned to their shellwrecked homes in Northern France, expressed themselves, when the subject of an armistice is discussed.

The same idea runs through the minds of all the Allied armies, where men have seen their comrades die and where the feeling is that they have died in vain, unless victory is absolute. The suspension of hostilities, even for a few days, would enable the Germans to continue their preparation of lines to which they might retire for the winter. The Allied armies are in a strong and advantageous position, and the general feeling here is that the defeat of Germany may come sooner than expected elsewhere than at the front.

#### IS NOT SANGUINE.

Glasgow, Oct. 7.—Winston Spencer Churchill, minister of munitions, speaking here today said he did not believe the "righteous war aims of the Allies at present would receive the required recognition. Therefore he was not very sanguine of a speedy termination of the war.

### HUNDREDS DIE OF INFLUENZA IN DOMINION

Disease Has Spread With Remarkable Rapidity and Thousands Are Afflicted.

Toronto, Oct. 7.—Varying reports from towns and cities in Eastern Canada regarding the epidemic of Spanish influenza, make it impossible to estimate accurately the number of victims that it has claimed since the malady became general a little more than a week ago. Since that time it has spread with remarkable rapidity, and while all precautionary measures have been taken by medical health officials, it is safe to say there have been hundreds of deaths, while the number of cases requiring medical attention now number several thousands.

#### Many Mild Cases.

The course of the epidemic is more marked in some places than in others. Medical health officials in some towns state that in the majority of cases the outbreak is of a mild character, while in points only a few miles distant the announcement is made that Spanish influenza is of a virulent type and spreading rapidly.

Latest reports show that the disease has reached Winnipeg. Two Quebec soldiers have died in the Quarantine Hospital there, while others are at the point of death.

In a statement issued today the Ontario Medical Health Department calls upon subordinate officials throughout the province to exercise good judgment in taking precautionary measures. Closing of schools, churches, theatres and other places of assembly, is looked upon with disfavor, in view of the fact that any benefits which might accrue from such action would be more than counter-balanced by the conditions in other places which it is impossible to regulate.

### General Berthelot's Troops Deliver Heavy Blow Against Invaders Which Adds Materially To the Menace Which Is Hanging Over the German Front.

Further Advance Forward Across Railroad Will Put Great Stronghold of Laon in Pocket and Outflank Neufchatel, Another Important Enemy Centre.

(By The Associated Press.)

The troops of the French General Berthelot have delivered a successful blow against the Germans northwest of Rheims which adds materially to the menace that is hanging over the German front from the North Sea to the Swiss border. This was the capture of Berry-Au-Bac, on the north side of the Aisne, about ten and a half miles northwest of Rheims and only a scant five miles from the eastern end of the famous Chemin Des Dames Ridge at Craone. A further advance northward across the railroad not alone will put the great stronghold of Laon in a pocket, but also will outflank Neufchatel, another enemy stronghold on the west.

The Turks also have suffered a serious blow in the loss to the French of Beirut, capital of the Vilayet of Syria. The occupation of this seaport on the Mediterranean by a French naval division gives the Allies a base for the landing of men who can operate in all directions against the Turks over the roads radiating from it.

### ANCIENT CITY OF BEIRUT IS TAKEN BY THE FRENCH

Paris, Oct. 7.—A French naval division operating off the coast of Syria entered Beirut this morning. The enthusiasm of the populace is indescribable.

Beirut, or Beyrut (ancient Berytus) is the chief sea port of Syria and the capital of the vilayet of the same name. It is situated on the Mediterranean sixty miles northwest of Damascus. Before the war Beirut had a population of more than 150,000, more than two-thirds being Christians. The city stands on a tongue of land projecting into an open bay and backed by the Lebanon range, and has rapidly increased since 1835, mainly owing to the extension of the silk trade, of which it is the centre.

Its other chief exports are olive oil, cereals, sesame, tobacco and wool. Its manufactures are silk and cotton. The old town has narrow dirty streets, very different from the new with its modern houses, hotels, churches, colleges, schools, gardens and carriage drives. Gas has recently been introduced.

In ancient times Beirut was a large and important Phoenician city. The Byzantine emperor Theodosius II. raised it to the rank of a metropolis, and it again rose to importance during the Crusades. In later times it was long in the possession of the Druzes. It was bombarded and taken by the British in 1840.

### WM. J. GLENDENNING DEAD NEAR SUSSEX

Moved To Sussex Corner Last Spring and Took Up Large Farm.

Special to The Standard. Sussex, Oct. 7.—Wm. J. Glendenning, a highly respected farmer, died on Sunday afternoon at his late residence, Sussex Corner. Deceased is survived by his wife and a large family. Mr. Glendenning moved to Sussex last spring, having purchased the large farm of W. H. Holman. The funeral will take place tomorrow afternoon at 4 o'clock. The interment will be at Sussex Corner cemetery, Rev. G. B. McDonald officiating.

#### Allies Drive On.

While attempts are being made in "well informed circles" in Germany and Austria-Hungary to show that the latest peace proposals of the Central Powers are honest expressions of a desire for a just peace, Marshal Foch's armies are proceeding without pause in their task of clearing Belgium and France of the invader. And they are continuing to meet with great success. Likewise in Serbia and Albania the Serbs and Italians are fast reclaiming enemy occupied territory, while at last reports the British General Allenby in Palestine was still hard after the retreating Turks.

While further good gains have been made by the British east of Arras, where the operations have in view the capture of the highly important town of Douai, and other advances have been recorded between Cambrai and St. Quentin, chief interest in the present centres in the fighting in Champagne and between the Argonne Forest and the Meuse, where the French and Americans are driving the enemy steadily northward, despite great resistance on positions of high strategic value.

All along the front from Rheims to the Meuse, a distance of more than fifty miles, the enemy everywhere has met with serious reverses and is falling back under the heavy pressure that is being imposed against him, at some places in disorder. Where the enemy is trying to resist, the French and Americans are meeting their counter-attacks with splendid stamina and gradually forcing them to give ground step by step.

East of the Argonne Forest, between that great wooded bastion and the Meuse, the Americans have further advanced their line, notwithstanding the fact that the enemy has thrown in large reinforcements to hinder the blotting out of the forest and the forming of a junction by way of the Aire Valley between the Americans and the French troops on its western side. In the latest fighting the Americans drove the Germans out of Chatelet Chehery northwest of Apremont, and obtained command of the heights west of the Aire. The latest German official communication reports that the Americans in the evening began a new attack in this region.

Taken together the entire southern front of the Germans seems to be in a rather serious situation from Lafer to the north of Verdun.

Laon, the great storehouse of the Germans northeast of Soissons, is reported to be on fire, indicating the possibility of an early falling back; the Chemin Des Dames defenses are outflanked at both ends; Rheims has been restored and the Germans pushed back more than ten miles north of it, while eastward General Jharraud's armies and the American First Army are brilliantly carrying out their part of the great converging movement that is coming at once from so many directions that will force the enemy materially to readjust his line.

TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

## GERMANY'S PEACE PROPOSALS.

The peace proposals, or rather suggestions for a peace conference, submitted by Prince Maximilian of Baden, Chancellor of the German Empire, do not ring true and it is most unlikely that they will find favor with any of the Allied nations. The request for an armistice may be taken as an admission of defeat but before it can be regarded as bona fide in that respect Germany must withdraw from French and Belgian territory, retire behind her own boundaries and await developments. While German troops continue to occupy French or Belgian soil and to burn Allied cities and towns before evacuating them any suggestions for a peace conference must have a hollow sound.

## HARBOR COMMISSION.

The assurance given by Hon. C. C. Ballantyne that St. John harbor would shortly be taken over by the Dominion Government and administered as a national undertaking will naturally cause much rejoicing on the part of all citizens interested in, and anxious for, the prosperity of this city and port. It has long been recognized that the claims of St. John to nationalization were so great they merited the most careful consideration but the opportunity for the realization of the hope that the burden of harbor facilities and up-keep would some time be placed on the country at large was never ripe until after the immense shipments of war materials demonstrated the great part played by St. John in the trade development of the country.

## A "JOBLESS" GENERAL.

London reports that, following a heated interview with the Kaiser, Field Marshal Von Hindenburg has resigned his office as Commander-in-Chief of the Teutonic armies. It is also reported that the cause of the difference between Hindenburg and his chief was the latter's view that because of the sledgehammer blows being dealt by Foch, the only course open to the Germans is a retreat on a much larger scale than yet attempted. The Kaiser, on the other hand, is reported to have given the war the absent Government or the possibility of a retreat, is not familiar with conditions on the western front and does not know the force of the Allied pressure. It is to be hoped there will be no re-consideration of Hindenburg's resignation but that the next development of the situation will be the decision of Union Government as a hearty and devoted its leading editorial on Friday morning last to the report that the task of extricating the Teutonic armaments from the position in which Allied valor and ability has placed them. There would be a double advantage in such a development—the complete defeat of the Germans would be more speedily effected and the future of the Hohenzollern tribe would cease to be a problem.

## THE CASE OF SPEAKER CURRIE.

The Times of last evening contained the following paragraph: "The province is naturally interested in the course to be pursued by Hon. William Currie in view of the Friel report." To the ordinary observer this appears a strange statement from a newspaper which, when the Friel report was first published, contended Mr. Currie had but followed a system which had obtained for years and therefore was guilty of no wrong, but suggested that, on the contrary, the most horrible penalties should be meted out to Hon. J. B. Baxter who, having his case on the affidavit of

## Little Benny's Note Book

By LEE PAPE, EATING.  
Eating is one of the main necessities of life, and that is the reason why most people eat, most people eat because they are hungry. Another popular reason for eating because it is cool time and your place at the table is all set and the rest of the family expect you to, so you might as well. And even if you are hungry when you start to eat, you will be soon afterwards in case you don't, so you do.  
Eating is the most enjoyable when you are hungry, but it is partly enjoyable all the time, depending on what you are eating and how much. If you started to go without eating for 2 or 3 weeks, just to find out what it was like for curiosity, your curiosity would be satisfied but you would be dead. Proving the people that eat natural are the fittest.  
Meals ate in other people's houses are never as good as the best way out of it is just to eat another meal.  
There is 2 main kinds of stummin' akes, the first caused by being too empty and the 2nd by being too full. They are both painful but the 2nd is more fun getting. If you have the first kind pretty bad, you'll be glad to get the 2nd kind as soon as you have a chance, unless somebody stops giving you more helpings in time.  
The most exciting part of a meal is the dessert. When you think you're full and want to get out for sure, the best way is to ask for more dessert, and if you can't eat it you're full.

## HE MUST GET OUT

St. John Globe, October 7, 1918.  
Liberals apparently find satisfaction in the statement of Commissioner Friel that Hon. William Currie is not guilty of the things specifically charged against him in the Legislature indictment. Conservatives apparently find satisfaction in the statement of Commissioner Friel that Hon. Mr. Currie is guilty of things wrong in themselves, although not specifically mentioned in the indictment. A few days should suffice for party exploitation of the silly political twaddle that Hon. Mr. Currie has been vindicated, and the equally silly political twaddle that Hon. Mr. Baxter did something wrong in preferring charges which the evidence did not substantiate. In the light of what Commissioner Friel says it is the veriest clap-trap to talk either of the vindication of Mr. Currie or the impropriety of anything Hon. Mr. Baxter did or did not do in connection with the case. Hon. Mr. Currie is not vindicated. He is condemned, and condemned for an offense that cannot be condoned, the offense of permitting his own business house to defraud the country of money to which the country was legally and morally entitled. It is no excuse of Mr. Currie and no vindication of Mr. Currie to say that he only did what others have done for years. What he did was wrong. He knew it was wrong and, further, it was his duty as a representative public man to do no wrong himself and to expose the wrongdoing of others. It may be Mr. Currie's misfortune that he is caught doing what others did without being caught. That makes his case no better. The men who in the Legislature and out of the Legislature demanded the resignation of a Gloucester member who used his office in his own interests, must in the very nature of things follow an identical course with respect to Hon. Mr. Currie. The fact that he holds the honorable and exalted position of Speaker makes it all the more imperative that action in his case be prompt and decisive.

## A BIT OF VERSE

The Achievement.  
I. A few strong turns of hand and  
And lo! the thing was done;  
My name inscribed upon the list  
Of those whose palm is won.  
Almost surpassing man's belief  
This deed achieved by me;  
I found myself a bully then,  
That opened with its key.  
II. Citizens may not know it, but  
To soldiers 'twill be plain,  
That thus I have contrived to cut  
A niche within the fane.  
When and wherever soldiers meet  
They shall not fail to speak  
Of me and my astounding feat—  
Unparalleled, unique.  
III. There may, where legions clash and  
break,  
Be braver heroes far,  
(In point of fact, for England's  
sake,  
I'm glad I think there are.)  
They rouse in me no envious grief;  
I am content to be  
The Man Who Opened Bully Beef  
With its Appointed Key.

Married Again.  
"I don't like to send out wedding

## AMERICAN SENATE SPURNS HUN HAND

(Continued from Page One.)  
Senator Fulbright declared that the Allies will deal with representatives of the German people.  
Declaring that an armistice would mean the loss of the war, Senator Lodge said that the Allies must gain a complete victory and that Germany must be "put behind the bars." He pointed out the danger of the "peace offensive," which he predicted last August the enemy would make, and said he did not believe that President Wilson contemplates accepting any such proposal as that made by the enemy.  
Senator Fulbright declared that once a source of weakness, because of difficulty in securing unified direction of the war, the association of the Allies now is a source of strength in possible difficulty in agreement upon acceptance of a "sacrifice peace."  
"It is fortunate," he said, "that the proposition for a too early peace, although concealed with its propositions of surrender and sacrifice, may be prevented because of the ability for agreement between Great Britain, France and the United States and the other Allies."  
"An armistice would mean the end forever for any additional military effort. I have faith that Clemenceau, the tiger of France—the greatest man in many respects in the present time—and the seer of Wales, that great statesman, Premier of England, will be alert to protect against any such unwelcome step."

GERMAN NAVY REBANDON THE WEST FRONT

Situation in Balkans and in Austria Serious One For Teutons.

FURTHER IMPORTANT DEVELOPMENTS SOON

Eastern Situation Will Call For German Troops in France.

By G. Spar Whitney. (Special cable to the New York Tribune and the St. John Standard.) Paris, Oct. 7.—"Look soon for some startling move by Germany," said a world-known statesman to me yesterday. "She is in a position now where she must stretch for a chance of holding her ground actually in her greedily and stupidly try to grasp and lose all."

Austria in Danger.

Germany is facing the inevitable loss, sooner or later, of Turkey and must help Austria, whose frontier now is threatened through the collapse of Bulgaria. With the east slipping from her grasp and the inevitable defeat looming ominously in the west, Germany cannot permit the disintegration of Austria with its political and military consequences and absolutely must save her, now so gravely menaced inside and outside by the establishment of a strong Balkan front.

Puts in Best Men.

Meanwhile the Boches are fiercely contesting in the west. The British and French officers say they are now meeting the highest grade of German soldiers who fight with desperate persistent bravery equal to the best the Boche has ever shown, while the Americans are having the stiffest resistance. The ground is literally alive with machine guns and laced with barbed wire, and deluged with gas and high explosives.

URGENT CALL FOR NURSES

But Few Nurses Can Be Spared From City—One Young Lady Left For Sherbrooke, Que., Last Evening.

The call for nurses from Upper Canada cities is being heard in this city, but a scarcity of nurses prevails here, as elsewhere, due in an extent to those residing in the city who are kept fully engaged. However a few find the call, which is of national importance, at a time when they are at leisure, and are rushing to the stricken areas. One young lady, a graduate of a hospital in New York City, and who practised four years in this city, left last evening en route to Sherbrooke, Quebec, where the Spanish influenza is very prevalent, to help nurse those stricken with the dreaded disease.

He expects mosothorium will at once come into wide use in luminous paints, aeroplanes, dials, compasses and sun-glasses, according to Dr. Moore.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy, lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair, in less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderrine. Also try this—moisten a cloth with a little Danderrine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderrine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for prettiness, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderrine from any drug store or toilet counter and just try it.

STAND BY TREATY.

Stockholm, Oct. 7.—(Havas)—The Russian Bolshevik government, according to a wireless despatch received here from Moscow, has declared its intention of adhering to the Brest-Litovsk treaty.

A question about the end, but time has yet to come to drive the blow home. That end may come in 1919, but it will require all our power and determination and home support in unified and unrelenting effort.

## THE JUNIOR ASSN. NATURAL HISTORY ANNUAL MEETING

Reports Received and Officers Elected—Miss Ada Colwell Chosen President—Lecture By Curator, William McIntosh.

That paper and straw are being used as dressings for the wounded soldiers at the front, because of the shortage of sphagnum moss and other materials was the statement made by William McIntosh, curator of the Natural History Society yesterday afternoon in a lecture before the Junior Association of the Natural History Society.

The gathering was the annual meeting of the association, and in the absence of the president, Miss Lucy Smith, the first vice president, Edna McQuade, was in the chair. Margaret Dunlop, treasurer, and Gretchen Bellis, secretary, presented their reports of the year's work. The election of officers resulted as follows: Ada Colwell, president; Edna McQuade, first vice president; Elizabeth MacKinnon, second vice president; Audrey Hunter, treasurer; Ruth Coster, secretary.

**Dr. Wilson's HERBINE BITTERS**  
It is a true blood purifier—a blood food—made from Nature's healing herbs—and has given new health and happiness to thousands of women during the 50 years and more it has been before the public.

**Simple Way To End Dandruff**  
There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

**To Relieve Catarrhal Deafness and Head Noises**  
If you have Catarrhal Deafness or are hard of hearing or have head noises, go to your druggist and get 1 ounce of Parmanin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs a little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

## HARVEST FESTIVAL GREATLY ENJOYED

Large Crowd Enjoy Program in St. Philip's Church—Another Entertainment Tonight.

The congregation of St. Philip's Queen street, held a Harvest Festival last evening in the church, which will be concluded this evening. A feature of the festival is an entirely different program for each evening, which consists of songs, recitations, dialogues, etc. Last evening the women of the parish staged the program, which was reported excellent. Tonight the male members of the congregation are slated to put on the numbers and their efforts are directed to surpass that given last evening by the lady members whom they consider today as hard to beat; and are awaiting in suspense to ascertain if their program cannot equal or surpass that given by the ladies.

A good crowd was in attendance last evening, and it is hoped a larger number will be on hand this evening. The entire proceeds of the festival are devoted solely to defray the salary of the pastor, through the medium of the steward body of the congregation.

## SPHAGNUM MOSS

It takes four people working hard at grading sphagnum moss to keep one person busy making dressings. This is the average, so you can easily see, if you are a clever mathematician, how many people it will take to grade enough moss for ten thousand dressings. One half pound of moss makes nine dressings.

Ninety persons were assembled at the rooms of the Natural History Society and the tables were pretty well filled, though all the workers possible are needed. The Red Cross Depot presented a scene of energy and patriotism last evening, as the various rooms were occupied with a large number of workers who were assisting in the task of making up the moss into dressings. The workers' reward in the task of their picturesque floating vests made a pretty scene. For the last four days one thousand dressings have been made each day but there are still many wanting of the required 10,000.

The packing rooms were also occupied so all departments of the Red Cross were represented last evening. The workers' reward in the task of their picturesque floating vests made a pretty scene. For the last four days one thousand dressings have been made each day but there are still many wanting of the required 10,000.

## DELEGATE RETURNS

Mrs. Alfred Morrissy returned to St. John yesterday. Mrs. Morrissy was one of the delegates to the triennial of the Women's Auxiliary, at Winnipeg. Lady Aikens entertained the visiting delegates at Government House on Saturday afternoon, at which pleasant function the following ladies were among those present: Mrs. S. P. Matheson, Mrs. Farthing, Mrs. Charles Schofield, Mrs. Willoughby Cummings, Mrs. G. E. MacPherson, Mrs. Gilbert Ferrabee (Montreal), Mrs. Heber Vroom, Mrs. Alfred Morrissy and Miss Louise Purves.

## GIFTS TO Y. W. P. A.

The Y. W. P. A. held an executive meeting in their rooms at the G. W. V. A. last evening (Sunday) presided. As the next meeting is to be a social one only, several matters of business were transacted. \$25 was voted to the Sibirian Expedition Fund, started by the Brunswick Chapter of I. O. O. F., and \$10 to Miss van der Plier for the "Golden Book" towards the support of a Belgian orphan.

Three donations of money earned by members were gratefully received—\$12 from Miss Bertha Boyer, \$10 from Mrs. Richard Hooper and \$50 from Miss van der Plier.

Plans were made for the social evening to be held this week at which each member is to bring a jar of jam or pickles, her talent money earned during the summer and a new member.

## AFTERNOON TEA

A number of guests enjoyed the afternoon tea given yesterday by Mrs. H. A. Powell and Mrs. Daniel Mullin at the residence of Mrs. Powell, which was an informal and very pleasant affair. The guest of honor was Mrs. van der Plier, who during the afternoon gave a talk on her work, speaking so pathetically of the Belgian women and children with whom she had come in contact that all who heard her wished it were possible to contribute largely to her project. An interesting fact which she told about the garden city which is planned after the war is that it can be ready in one week so completely are all arrangements made.

Miss van der Plier received with Mrs. Powell and Mrs. Mullin, and wore her Dutch peasant costume. She had on exhibition a number of cleverly executed rings and other souvenirs made by the Belgians who are interned in Holland. Two St. John ladies who have kept up a correspondence with three of these interdependent Belgians (The Y. W. P. A. contributes \$5 a month to one) were delighted to hear news of the camps where these soldiers are interned. Miss van der Plier having visited both camps, she promises if possible, on her return to Holland to look up these men and give them special messages from their St. John friends.

Mrs. Clarence Allan and Mrs. E. H. Flood presided at the tea tables and simple refreshments in accordance with conservation rules were served.

## ENTERTAINED AT LUNCHEON.

Mrs. George F. Smith entertained at luncheon yesterday at the Sign of the Lantern, in honor of Miss van der Plier. The guests included Lady Hazen, Mrs. Walter E. Foster, Mrs. G. A. Kuhring, Mrs. George McAvity, and Mrs. Leigh Harrison.

## PEOPLE CHEERED IMPERIAL PICTURE

"My Four Years in Germany" a Wonderfully Interesting, Inspiring and Educational Presentation.

Former American Ambassador James W. Gerard's "My Four Years in Germany" had its first presentation as a photoplay yesterday at the Imperial Theatre. The most significant occurrence of the evening was the enthusiasm which greeted interpolated pictures of British and Canadian troops, an enthusiasm which gathered force until the theatre was ringing with cheers.

The photoplay loses no opportunity to impress the spectator with the stupor that the Sarajevo incident was not accidental, but coolly and carefully planned by the German empire and its advisors.

No more bit of fiction in motion pictures will hold your interest and attention as this most remarkable page in world history which created international sensation in print.

**FRENCH CANADIANS**  
FOR A TANK UNIT

Sixty-Four Persons Are Miss-  
ing As Result of New Jersey  
Disaster.

Ottawa, Oct. 7.—Orders have been  
issued from the Militia Department  
authorizing the formation of a third  
tank battalion for service overseas.  
The appearance of this unit in the field  
will render possible the formation of  
a tank brigade—one more powerful  
unit in the Canadian army overseas.

It is proposed to recruit the new  
battalion among French-Canadians,  
thereby giving this element in the  
population in Canada distinction in an  
arm of the service which has attracted  
much attention, has won much  
glory and has proved of extraordinary  
efficiency. It is intended that French-  
Canadians thus will have a complete  
distinctive unit.

Recruiting as far as possible will be  
voluntary. Earlier contingents sent  
by Canada to this arm were raised by  
volunteering, and attracted a particu-  
larly fine type of young men.

Special instructions are being sent  
to Quebec and Montreal to set on foot  
a movement to create the new unit.

'LONGSHOREMEN ASK  
WAGE INCREASE

Resolution to Notify Ship Agencies to This Effect—Action to Be Taken Next Monday—Financial Assistance to E-Policemen.

A meeting of the local longshoremen was held last evening in their hall, Water street, at which much business was transacted. Discussion arose over the consideration of an increase in wages for longshoremen. The recent increase granted to longshoremen on the American side was discussed, and conditions compared with American and Canadian Atlantic ports, which latter ports the meeting believed were justified in being granted higher rates of wages for the ensuing year. A resolution was then drawn up and adopted that "The local Longshoremen's Union, No. 273, notify the ship agencies that the union was to consider taking up a meeting rate of wages, and that a meeting would be called on Monday evening next to hear reports and take immediate action with the view of obtaining a higher wage."

The men contend that due to the increased cost of living, they are asking only what is fair and just, and hope to obtain their request. A resolution was next drawn up, and adopted, that the Longshoremen's Local Union, No. 273, pledge itself strictly in sympathy with the expolice of the city in their recent trouble, and further that the union pledged itself to aid their cause both financially and morally. Hereupon a grant of money was devoted to the cause, and each member pledged himself to get out on the recall next to hear reports and take immediate action with the view of obtaining a higher wage."

MISS VAN DER FLIER CAUSE OF  
JUDGMENT IN NEW HERALD

**Says She Spent \$8,029 and Collected \$9,595  
Prosecutor Thinks More of Fund Should Have Gone To Belgian Millions—She Gives Satisfactory Explanation To St. John Lady-Telegrams From Committee and Consul General.**

The fact that Miss van der Plier's work has been the subject of criticism was referred to in an interview with her published recently in this paper. The following article appears in the New York Herald of Friday last:

District Attorney Swann replied yesterday to Major August Belmont and Eben E. Olcott, who in a jointly signed statement defended the war charity work here of Miss Hendricka A. C. van der Plier, of Holland. Miss van der Plier has been chairman of the Holland-American Homes for Belgian Women and Orphans and recently was questioned at the District Attorney's office regarding the amount of money she collected and paid out for expenses. An article in a Sunday newspaper on September 29 was responsible for the present controversy, it is said.

Adelbert W. J. Flack, of the Audit Company of New York, in answer to a subpoena issued by District Attorney Swann took to the latter's office yesterday a statement of his examination into the accounts of Miss van der Plier. Major Belmont is chairman and Mr. Olcott treasurer of the charity for which Miss van der Plier is gathering funds. Major Belmont, according to Mr. Flack, directed the audit to be made and it includes the period between February 14 and September 9, 1918. A certified account shows that Miss van der Plier collected \$9,595 and expended \$8,029.

Had \$10,000 Expense Fund.  
Edwin P. Kilroe, assistant district attorney in charge of the charity investigation, stated that Miss van der Plier told him several days ago that there was on deposit in a bank in Holland \$10,000 for her credit for expenses in collecting money here and that she was expected to pay back this amount out of funds gathered in this country. Mr. Flack insisted that there should be no criticism of the charity itself or the honesty of purpose of Miss van der Plier.

At this time when the people are striving every nerve to raise sufficient money to supply the sinews of war all attention and effort should be concentrated in a single purpose of raising money to win the war," District Attorney Swann stated. "If any part of the limited supply of funds at the disposal of the public is not given to charity it should be seen that one hundred per cent. of every dollar goes direct to charity."

In line with the efforts of this office to protect the generous public and to see to it that every dollar given by the New York public goes direct to the beneficiary, and not to any other account of every dollar to expenses of collection, we suggested to her that she either discontinue her activities or reduce her expenses of collection.

**CRITICIZED HER EXPENSES.**  
"Upon inquiry I find that an officer of the Charity Organization had written an article in the New York Herald of the Merchants' Association of this city criticizing the expenses incurred in making her collections. It was called to the attention of the office that the expenses were out of all proportion to the collections. In respect to an article recently published, I did not write, compose or suggest it above the hear of Miss van der Plier's work until I read the article she complains of."

**GREAT WAR VETERANS REGULAR MEETING**  
Report of Benevolent Fund Committee Very Gratifying—Discussion Over Alien Question—Speaker To Come From Ottawa.

The regular meeting of the Great War Veterans' Association was held last night in their rooms on Wellington Row, with Major Gordon Johnson in the chair. There was a large attendance and great interest was displayed in the questions brought up. A letter was acknowledged from the Fairvale Outing Association containing a donation of \$50 for the Benevolent Fund. It was brought out that the Benevolent Fund Committee, under the chairmanship of Sergt. Paddy, has paid out since August 1st in relief the sum of \$41, of which \$48 was paid back by the members helped. The balance in the bank amounts to over \$2,000 and has been paid out, most of which was raised by the members in concerts and by donations.

It was reported that several politicians were open for men to act as a discussion arose over the alien question, and it was brought out that some aliens working on the railroad were getting 70c a day more than the native workers, and a resolution was passed that they be paid hereafter the rate of pay drawn by the soldiers, and the difference to be paid into the patriotic fund.

A resolution was passed that the pay allowance of the soldiers be increased fifty per cent. on account of the high cost of living. This resolution will be forwarded to the Dominion headquarters.

The matter of obtaining new members was up for discussion and it was decided to import a speaker from Ottawa to address those interested on the aims of the association.
