

## A BATTLE ON WITH GRAND TRUNK

### DE VALERA INTERVIEWED NEAR CITY OF DUBLIN

Predicts Violence Would Follow Turndown at Paris

SAID TO BE ON WAY TO THE UNITED STATES.

NEW YORK, N.Y., March 12. (Copyright 1919 by the United Press)—Edward De Valera, fugitive president of the Sinn Feins, who escaped from Lincoln prison in England and is being hunted by the British government, has been found and interviewed by a United Press staff correspondent. De Valera, who will probably be named President of Ireland in event of a revolution there, was located near Dublin by Ralph F. Connel, a United Press. Connel, a cap pulled down over his eyes so he could not see, was led to the rebel leader's hiding place, where De Valera gave an interview.

Later the correspondent secured a signed statement, in which the Sinn Fein chief predicted violence and bloodshed in Ireland if the Peace conference does not act to prevent it. With De Valera's statement and the interview and with much firsthand knowledge about actual conditions in Ireland, the correspondent returned to the United States, thus insuring safe delivery of his information in New York without interference by the censor.

REMARKS MADE BY DE VALERA.

DUBLIN, Feb. 21. (By Ralph F. Connel)—"Violence will be the only alternative remaining to Irish patriots if the Peace conference at Paris fails to take steps to extend self-determination to Ireland."

Edward De Valera, fugitive president of the revolutionary Sinn Fein party, made this prediction to me two hours ago at a secret midnight interview. "This means something like a continued revolution until Ireland's rights are recognized," he said.

His black eyes flashed when he said this, his big jaw squared. He spoke quickly. Nevertheless he was emphatic. De Valera, the American-born son of an Irish mother and a Spanish father, is the soul of the Irish revolutionary movement. British secret police have been hunting him ever since his romantic escape eleven days ago from Lincoln jail, on the east coast of England. I am told that only five persons in the United Kingdom knew he was hiding within a few miles of Dublin.

Not far from where we met there were thousands of English soldiers. Dublin swarms with them, as does all Ireland. These troops, tin-hatted, fully equipped and armed, guard every public building and all bridges, docks and railroad stations. Their presence has created a tense feeling. Many continually fear clashes between soldiers and civilians.

"De Valera is risking his liberty in permitting this interview," said the Sinn Fein, who arranged it, "but the chief is willing to take chances in the hope that he will be able to get across to the American people a message from the Irish republican government."

De Valera quoted from President Wilson's fourteen points to prove that Ireland has a right to self-determination. No revolutionary action will be undertaken in Ireland until the peace conference shows conclusively that self-determination will not be granted," he said. "We hope to avoid violence," he declared. "It means bloodshed, deaths, court martials and perhaps executions. But if we have to fight again to gain our rights, if that is forced on us, we shall not hesitate. Ireland must have complete independence. "It's a big job we've undertaken, gaining complete independence for Ireland. In the message I am to write for you, I'll try to give the reasons why we feel we must have it. We're going to win. I think every man in Ireland will be willing to back us in our demands when we make them. Meanwhile we have our government completely organized. We can take over the administration of our country at a moment's notice. That's what Irish republican government was organized for."

Sinn Feiners said today that by the time this is in print in America, De Valera will be on a ship bound for the United States. They plan to smuggle him out of Ireland. Meanwhile he flits about from hiding place to hiding place at night to elude British agents, and directs the work of the Sinn Feiners.

Elaborate precautions were taken before I was permitted to see this former professor of mathematics, who was condemned to death for leading the fighting during the Easter rebellion. I was told to be waiting at 8 p.m. at the side entrance of my hotel. This entrance is in a dark, narrow street. Precisely at the hour fixed a closed automobile halted at the curb. Leaving the motor running, the chauffeur approached and whispered my name. I got in hurriedly. The inside of the machine was luxuriously upholstered. In a corner of the seat was a young Irishman, who was to be my guide. He was one of seventy-three Sinn

Feiners (including De Valera) who were elected members of the British house of commons at the December elections. On his knees he held a thick, heavy cane—almost a club. He apologized, then searched me for weapons.

"We've a two-hour drive ahead of us," he said as the automobile moved away from the hotel. In a few minutes we were out of Dublin, turning and twisting over country roads until all sense of direction was lost. We arrived eventually in the outskirts of a sleeping village. There we walked up and down, while the Irishman frequently peered at his watch. Presently another auto, without lights, drew up. My guide jerked my cap down over my nose so I could see nothing, then pushed me into the car. For half an hour we drove at a rate that seemed very fast. We got out and I sensed a garage. Then I was led across what seemed to be a courtyard. My guide kept urging speed. A door slammed and I felt the warm air of a house. Up a heavily-carpeted stairs and through a door we went. Then I heard: "Now you can take the bandage from your eyes."

I was surprised to find myself in a big room, richly furnished in mahogany, with thick velvet carpets and velvet curtains, tightly drawn over tall windows. A softly-shaded lamp stood on a grand panel in one corner. Before a great fire place, warming his hands, was a tall man in a baggy black suit, with a black silk handkerchief around his throat instead of a collar. He wore rubber-soled slippers. This was De Valera.

He smiled broadly, shook hands swiftly and turned to whisper some directions to the guide. Then he talked. A maid in trim uniform appeared with a tray and silver tea service. Between sips, De Valera discussed the chances of a successful revolution against 200,000 soldiers, who he said are "occupying Ireland." A half hour later I was again speeding toward Dublin, my cap still over my nose. De Valera, I was told would soon be hurrying in another direction.

De Valera's statement will be published tomorrow.

DUBLIN CORPORATION PROTESTS.

DUBLIN, March 5.—At a meeting of the Dublin corporation last night, Sinn Fein members of parliament protested against the action of prison authorities at Belfast jail. The corporation, led by Lord Mayor, proceeded to Dublin castle where they protested to the government officials. The under secretary agreed to communicate protest to British cabinet.

The dispatch does not indicate what "action" of Belfast prison authorities was under protest.

### Wild West Tragedy In Chicago Street

CITIZEN WITH RIFLE RESISTS POLICE

CHICAGO, March 12.—Two policemen and a civilian are in the hospital today with bullet wounds inflicted by a man barricaded in his own house while the latter is dead, with part of his head blown off, having turned his rifle against himself.

For three hours, early today, George Ondek, a real-estate dealer and expert marksman, held more than half a hundred policemen at bay, exchanging shot for shot and driving the besiegers to the cover of adjacent buildings. When Ondek was reduced to his last cartridge, he shot himself.

Half an hour after the firing ceased, the police entered the house and found Ondek dead in a front room. In rear room were Mrs. Ondek and her 6 children, lying on the floor to escape the bullets that crashed through the frame cottage walls.

Ondek is said to have been drinking and the police were hunting him with a warrant charging cruelty, sworn out by his wife.

### Rhine May Be Opened To All Nations

PARIS, March 12.—The recommendation that navigation of the Rhine be opened to all nations without discrimination, was made in a report to the Peace conference today by the commission on the International regime of waterways, railways and ports.

It was suggested that the Rhine be controlled by a Commission similar to the Danube commission. The status of the Kiel canal has been settled by the commission on the basis of freedom of use for all nations and their merchant vessels and steamships in time of peace. The canal would continue under German ownership and operation.

### German Gov't Troops Take Lichtenberg

SPARTACANS HOLD SECTION OF BERLIN.

BERLIN, March 12. (Fred J. Taylor)—Berlin was menaced anew by Spartacan outbreaks today. Government troops, after desperate fighting captured the greater part of the suburb of Lichtenberg. Most of the Spartacans fled from there to the southeastern part of the city proper. Strongly reinforced by recruits they entrenched themselves. From these new positions their artillery now endangers a large portion of city.

Meanwhile the insurgent forces remaining in Lichtenberg fell back to the railway station where they organized new defenses. Detachment of a large part of the government forces to combat the Spartacans in the southeastern section of city, rendered capture of the Lichtenberg station a serious problem. The government's position was made increasingly difficult by a public demand that the use of artillery and airplane bombs cease.

Through fear that resistance this demand might turn the people against the government, it seemed possible that War Minister Noske would accede to completion of the terms for a preliminary treaty. The next step will be calling in the German delegates for submission of the draft.

The plan for the establishment of a new "buffer" state, composed of Rhineland provinces, is expected to permit rapid progress in the determination of Germany's western boundaries, probably on Friday, the day it is taken up.

Hundreds of thousands of troops are being mobilized for the purpose of securing the new boundaries.

### ELORA MEN PUT THEIR APPEAL FOR ELECTRIC RAILWAY BEFORE THE CITY

B. and N. Railway Co. Ready to Build Provided Municipalities Guarantee Bonds Which Would Amount to \$500,000 to \$600,000, Estimated Cost of Road. Local Board Will Seek Co-operation of City Council in order to Investigate and Have Action Taken.

The city can secure electric railway connection with Elora. The B. and N. Railway company, who own and operate the Bridgeport line are ready to proceed immediately with the extension of the present railway provided the municipalities interested and to be benefited by the extension will support the company in the way of guaranteeing their bonds, which would be issued by them to cover the cost of the extension, which would be \$500,000 to \$600,000. It was intimated some time ago by Mr. W. H. Breithaupt of the company that they would be ready to proceed soon, provided some support were received from the municipalities but the announcement made last evening in the City Hall by him before the local Board of Trade and a delegation from the Elora Board was the first definite announcement that has been received.

Elora wants the electric road and is after it in all seriousness. They placed their appeal before the local Board and they met with a reciprocal enthusiasm on the part of the city's men who were present at the meeting. The result of the discussion was that a motion was passed unanimously authorizing the Board and the Council of the Board to cooperate with the City Council in investigating the matter thoroughly and in having action taken. Assurance was given the Elora men that the city also wants the railway and that no stone will be left unturned in the efforts to secure it. "Let me assure the gentlemen from Elora that we want this road. We are going after it and will apply pressure and more pressure until we get it. This resolution to-night means action," Mr. N. M. Davison, the president of the local Board of Trade, said. "Hear, hear, that's the way to talk," one of the Elora men replied amidst the plaudits of his codelegates from the north.

Elora Needs The Road  
Mr. J. F. Cameron, the president of the Elora Board of Trade, was the first speaker of the deputation which was introduced by Mr. A. S. Capwell, who was glad to see them here, interested in a question which vitally effected all municipalities, the advantages in additional links in transportation being well-known. Mr. Cameron said: "Our purpose is to learn your attitude to the matter of getting an electric road between your city and Elora. My hope is the line will be built. Personally, I am strongly in favor of radial railways. I have travelled on the Lake Erie and Northern considerably and others and I have noticed the benefits that the various towns on these roads have derived from them. As far as Elora is concerned we must have something new. The manufacturers in our town want something this year. Our freight facilities are poor and must be improved. In our own instance we must team all our shipments to the railway."

"Regarding this matter, personally I don't know what you have done. There are a few things about which we would like to get information. What about the franchise renewal of your Bridgeport line? If we secured an extension of the line would we get connection with the Lake Erie and Northern road? What has Kitchen done with Mr. Carvell. I was under the impression that a reasonable amount had been set aside to improve the harbor facilities at Port Dover but now it seems nothing or very little is to be done. Could we get coal via the Port? We want to be on the lake."

City Has Been After It  
President N. M. Davison replied that this city has been after the desired improvement at Port Dover. "In fact the city had much to do in starting the movement to secure better facilities at Port Dover. As to our 1919 program unfortunately the matter has been left off and it must be a great disappointment to note that this occurred. But nevertheless let me assure the gentlemen that this Board will continue to apply pressure and increase it if necessary in order to secure the necessary facilities at Port Dover," the President said.

Must Build after Securing Franchise  
Mr. J. F. Richardson, M.P.P., of Elora, was called on. "Regarding

ing to New York on the steamer when she was ordered back to Halifax to coal, owing to a strike in that port.

Captain Jackson came ashore this morning to receive the decision of the Canadian authorities after he had been informed by a delegation that the men would take the ship unless they were allowed to come ashore and proceed to their destinations by rail. Captain Jackson states that he has no guns aboard and that the ship is at the mercy of the men.

Among the 293 men aboard the Toloa are eighty-one American citizens, seventy of whom claim to be American born. They all came to Canada during the early months of the war and enlisted in the British expeditionary forces. Captain Jackson contends that his orders from the British admiralty were to take the men to Halifax and disembark them there.

Allies Must Help Suppress Bolsheviks  
PARIS, March 12.—Former Grand Duke Alexander Michaelovitch, brother-in-law of the late Czar, who arrived in Paris recently from Crimea, told the Associated Press today that unless armed allied intervention in Russia began at once the situation in Russia would be so hopelessly desperate that it would take years, perhaps decades, to restore a semblance of order and bring about peace in Eastern Europe.

Referring to the proposed conference on Princes Islands, the Grand Duke said that proposal was a mistake as it gave the Bolsheviks a strong weapon to wield in Russia over the covering population. The Bolsheviks are claiming, the Grand Duke added, that the allied governments have recognized because they feared the Bolsheviks.

"It is my opinion that the Spartacans movement in Germany is kept alive only as a means of blackmail against the Allies. When the preliminary peace is signed, when it has used the Spartacans to the utmost, to blackmail the entente into sending food and granting merciful conditions of peace, then Spartacism has served its purpose, and it will be crushed."

the question of electric roads, generally speaking, leave it Sir Adam. They'll win out we know. We want the Hydro Commission to control all electric roads in the province.

"Regarding the extension as proposed let me say I will do all I can to secure it. But what about the extension of the franchise that the Bridgeport line are asking for? Will Mr. Breithaupt assure us that he will build the road soon? The main thing for Elora is to get better transportation facilities. The matter of going further, say to Fergus, might also be thought of. There is no reason why the proposition would not carry in all municipalities if we all put our shoulder to the wheel. We don't like the idea of renewing any franchise without getting the road built. We want them to build the line."

Mr. J. C. Mundall, one of Elora's big manufacturers, followed. "There is no question about the line as proposed paying, nor about the necessity. This line will not compete with any other line. The day of stage coaches is past and there is no doubt about the paying possibilities of the road. We must have a system to connect with the C.P.R. line so that we'll secure connections with the lines to the South and with the lake port to the south. I look to the line some day being extended up north too, to Fergus and even to the lake."

"As far as we in Elora are concerned we're not afraid that Kitchen will benefit to our disadvantage. We see advantages in it for us. We have a fine place up there which would become still more popular were such a line built. There are the rocks, so attractive, and we could provide a dancing quarter, a pavilion, and refreshment places."

"As I have said, there is no doubt about the desirability of the road. What has the G.P.A.H. meant for Galt, Preston and Kitchener? Just consider Preston. I remember the time when the cry was raised in Preston at the time the road was advocated that it would mean ruin for that town. In those days you could shoot a cannon down street in Preston without hitting anybody. (Continued on Page 2.)

### Tex Rickard Prefers To Stage Fight in N.Y.

Says Better 10 Rounds in New York Than 20 in Reno.

WATCHING ACTIONS OF LEGISLATURES.  
NEW YORK, N.Y., March 12. (By To Lewis)—"Better ten rounds in New York than twenty in Reno." This in substance is the slogan of Tex Rickard, promoter of the Willard-Dempsey championship contest, who has just breezed into New York, fresh from the oilfields of the southwest.

Rickard would not admit that the west is definitely out of the running for the combat, but he did confess a strong liking for the east. "I'm not jumping at a place to hold the fight," Rickard told a flock of newspapermen who bombarded him at the Biltmore, "but I will be honest about this thing. I would rather promote ten or twelve rounds in the east than to go in for a twenty-rounds slug in the west. But there are a bunch of places; and there is plenty of time."

"But how are you betting," Tex was asked.  
He laughed. "That's a puzzle," he said, "and I'll admit I haven't figured it out. "But" he added significantly, "I'll predict that Dempsey will go into the ring on July fourth an even-money choice. Think not that well I know that's something that has never happened in a championship contest, but they're mighty strong for Jack out there in the sticks."

Here the wily promoter opened up a bit and contributed this bit of information: "I'd rather bet my money that the fight won't go ten rounds than to wager that it would go over ten."

"Why?" he was asked.

"Dempsey's speed," he said laconically. "That's what makes me feel that way."

Rickard's statement, coupled with the fact that the New York boxing bill comes up for hearing in Albany today, leads boxing followers here to believe that Tex has his New York very close to his heart all along. His timely arrival here on the eve of the hearing, his frank admission that he has a hankering for the eastern battle-ground, and his easy dismissal of the subject, when flattery offers from west were suggested, confirms that belief in the minds of many that the big fracas will be staged here if Rickard has his choice.

The promoter is watching the actions of the Illinois and New York legislatures with keen interest. But Rickard has ample rooming ground if these strongholds fail him.

"Haven't we got Arizona, Massachusetts, New Jersey, Colorado, Ohio, Louisiana, Rhode Island, Oklahoma, Mississippi and Texas to lean on?" he asks with his quiet grin, "and besides we have Hamilton, Quebec and Halifax. So why jump at a place?"

Rickard said he would hang up a purse of \$10,000 for the semi-wind up. He is willing that the largest man in the navy and the best man in the army shall contest for this prize. But he will tolerate no professional. "Just two big green heavy weights. Is the way we put it."

Disposing of an Idaho offer from Alla Hager of \$165,000 for the sale of the fight, Rickard said the big bout is not on the market in quite this way.

OLYMPIC B.INGING 5,000 CANADIANS.  
LONDON, March 12.—It is officially announced that the White Star liner Olympic, with five thousand Canadians on board, sails for Halifax on March 15. An additional thirty thousand Canadian soldiers should sail before the end of March.

150,000 SA LOONS PLANNED ACROSS MEXICAN BORDER.  
SAN FRANCISCO, March 11.—At least 150,000 men, according to statement of James W. Coffroth, race-track owner and sportsman, plan to open saloons and other resorts where liquor can be purchased on the Mexican side of the border after July 1.

SUNKEN EYES BRIGHTEN QUICKLY, HEALTH RETURNS In a Message to Ailing Women Doctor Hamilton Tells How it is Done

In speaking of the ills from which women suffer, Dr. Hamilton points out that nine out of every ten women are by nature inclined to habitual constipation. Harsh purgatives are resorted to which only intensify the trouble. Although not generally known, it is a constitutional condition of the bowels that causes half the sickness and tired weariness with which all womanhood is so familiar. It was after long years of study that Dr. Hamilton perfected the pills which have been of such marvelous benefit to women the world over. In his pills of Mandrake and Buttercup every sufferer will find an absolute specific for constipation, sick headache and biliousness. It is safe to say that Dr. Hamilton's Pills bring better health and keep the system in a more vigorous condition than any other medicine ever discovered. At all dealers, in 25c boxes.

Another Important Real Estate Deal

Property at Corner of King and Gault Street Changed Hands

Another important real estate deal has been consummated. The property at the southeast corner of West King and Gault Street has been sold by Mr. Ed. Lippert, the owner heretofore. The purchasers are Mr. L. J. Breithaupt, Mr. L. O. Breithaupt and Mr. C. Huehn.

The property includes the various stores on the east side of the new block. It has a frontage of 118 feet on King Street and a depth of 157 feet on Gault Street. The price paid for the property has not been given out but it is understood it is a handsome figure.

What the intention of the purchasers is could not be ascertained. A surmise is that they look forward to erecting a big block at this corner but enquirers of the purchasers to-day elicited no definite statement. The deal is another one that reflects the activity in real estate in this city and also the continued confidence that is held by its progressive citizens.

Will Notify City

Secretary E. J. Payson stated that, Mr. C. H. Mills, M.P.P., had informed him that he would give notification as to when the company's application for a renewal of the franchise would come before the Private Bills Committee, so that the city could present its views if it should be so desired.

Mr. W. H. Breithaupt Speaks

Mr. W. H. Breithaupt of the B. and N. line was called on. Mr. Breithaupt stated that he would not touch on the advisability of the road, for there seemed to be a general consensus of opinion that it was desirable. He alluded to the fact that the war had interfered with the operations of the company. A five-year franchise to build the line had been secured. Three of these years were war years and the work was delayed. The company was applying for an extension of the franchise.

The most difficult part of the proposed road had been built, this was the first half mile at Bridgeport.

"I might say we are greatly interested by the keen enthusiasm of Elora. Seven years ago when the proposal to build a line was mooted, the people up there were not so interested. The enthusiasm of Elora down here. We therefore, would bylaw to build a bridge at Bridgeport was defeated we went ahead and constructed the bridge and started on the extension."

Mr. Breithaupt said the crossing of the river would be at Bloomingdale. The distance from Bridgeport to Elora is about 14 miles. The construction of the line would be a simple problem. "Regarding the proposition, we, of course, look to the municipalities to cooperate with us. Under present day conditions it is almost impossible for private men to build alone. We, therefore, would look to local assistance, especially where there is an interest shown in the proposal. As to the cost of the road that would have to be built, it would be about \$500,000, at present day prices. Regarding prices I do not look for any great reduction in the next two or three years. Although some have come down a little, I don't think that there will be much of a drop for several years."

Regarding guaranteeing the bonds, Mr. Mundall thought the division among the municipalities should be according to population or assessment. Replying to Mr. E. W. Clement, Mr. Breithaupt said he had not given this point any consideration.

Want Connection with South

Mr. Mundall said the matter of securing connection with the Lake Erie and Northern was another point on which the Elora men wanted to be clear. "We want that connection. My idea is that this line will eventually be part of a through line from Port Dover to Collingwood, which at present can be reached only by a roundabout way."

It was the consensus of opinion that the Railway Commission would arrange the matter of any interswitching between the various railways.

The bridge at Bloomingdale, Mr. Breithaupt said, would cost about \$30,000. Under normal conditions the cost would be about \$20,000. This bridge could also well be made a county bridge and a connecting link in the high way system.

Should Guarantee Bonds

"As to the assistance the municipalities could give, that is for you to consider. The municipalities could guarantee the bonds or take stock in the road. There is no doubt that the bonds could be sold were the municipalities to guarantee the securities."

The Electric Road the Cheapest

Mr. Breithaupt said there was no doubt that the electric roads were the cheapest means of transportation. He submitted figures to show the cost of operating a truck, as follows: Cost per day operated for five-ton Gasoline unit based on 50 miles per day per truck and 300 days per year.

Direct Charges Amount Totals

Driver \$5.00

Time, based on present cost of tires (on assumed basis) 3.00

Elora Line A Better Proposition

"If the City of Elora would do only one half of what they did when they guaranteed the bonds to the extent of \$750,000 for the hydro radial proposition between London and Toronto it would be all right. In that case the proposition was to build a fourth trunk line parallel to existing three. Personally I don't think that would be a paying one. There are already three lines and they have the best route. You couldn't construct a fourth trunk line so that the cost of operations would be kept at a minimum. In spite of these facts Kitchener voted this guarantee. Now in this case, you have a much better proposition. All, of course, depends on the City of Kitchener."

Ready to Proceed

President Davidson: "Do I understand the question correctly, Mr. Breithaupt? You will go ahead and build the line if the municipalities would guarantee the bonds which would be \$500,000 to \$600,000?"

"That is correct," Mr. Breithaupt replied.

The recommendation referred to at the beginning of this article, to proceed in order to have action taken was then made by Mr. G. Charles and Mr. J. H. Best was then made.

Replying to Mr. L. J. Breithaupt as to whether the linking up with the C.N.R. at Guelph was considered, Mr. W. H. Breithaupt said this question could be taken into account.

Replying to Mr. Davidson, Mr. L. J. Breithaupt said the point asked by him would not have a bearing on the resolution as to whether action to secure the other line should be taken but he merely referred to it because it was an important point which might be considered with the general question of better railway facilities.

Regarding guaranteeing the bonds, Mr. Mundall thought the division among the municipalities should be according to population or assessment. Replying to Mr. E. W. Clement, Mr. Breithaupt said he had not given this point any consideration.

Want Connection with South

Mr. Mundall said the matter of securing connection with the Lake Erie and Northern was another point on which the Elora men wanted to be clear. "We want that connection. My idea is that this line will eventually be part of a through line from Port Dover to Collingwood, which at present can be reached only by a roundabout way."

It was the consensus of opinion that the Railway Commission would arrange the matter of any interswitching between the various railways.

The bridge at Bloomingdale, Mr. Breithaupt said, would cost about \$30,000. Under normal conditions the cost would be about \$20,000. This bridge could also well be made a county bridge and a connecting link in the high way system.

Should Guarantee Bonds

"As to the assistance the municipalities could give, that is for you to consider. The municipalities could guarantee the bonds or take stock in the road. There is no doubt that the bonds could be sold were the municipalities to guarantee the securities."

The Electric Road the Cheapest

Mr. Breithaupt said there was no doubt that the electric roads were the cheapest means of transportation. He submitted figures to show the cost of operating a truck, as follows: Cost per day operated for five-ton Gasoline unit based on 50 miles per day per truck and 300 days per year.

## Elora Men Put

(Continued from Page 1.)

Well, the road was built and what has been the result? Preston's population is several times what it then was. Every place interested would secure the benefit of the road.

"The main question is financing it. Mr. Breithaupt tells me that if the municipalities will guarantee the bond issues of the company they will go ahead and build the extension. That's a reasonable proposition. Several years ago Kitchener voted to guarantee the bonds of the hydro radial between London and Toronto to the amount of \$750,000 and this road it was proposed was to be built alongside a competing road. Here in this instance there would be no competing road. Why it would pay from the drop of the hat. The railway service would be at the farmer's gates; it would carry his sugar beets and turnips. What a success the network of electric roads in Ohio, Illinois and Indiana are! People in those districts in the States are all thriving and likewise we here would become still more prosperous. I'd like to hear from Mr. Breithaupt. Personally, I would not have him secure a franchise and then sit down on it. We want the road."

Must Have Quicker Service

"The proposed arrangement of financing, I think, would be a fair proposition. Elora will do its share, I can assure you, and Kitchener, I think, would also do their share for both would be benefited by the road," Mr. Mundall concluded.

"It's a good thing. We in Elora need better transportation. The present train service is inadequate," Mr. J. A. Cole, secretary of the Elora Board of Trade, said. "Consider how long it requires for one to come from Elora to Kitchener. You must go by way of Guelph and you lose several hours. If you had a radial line with a one or two hour service, it would bring Kitchener closer to the northern towns. It would be convenient for us. It would improve our shipping facilities and open up trade connections with the north, including Arthur and other points. Guelph is anxious to have a connecting electric line but we're not anxious for we already have a connection, the G.T.R. and we don't want to parallel it."

Incidentally it was mentioned by Mr. Cameron that his manufacturing concern at present does not much shipping to Southern Ontario points, because the haul is too roundabout and freight rates too high. They, therefore, cannot compete in this field. The proposed radial would open up this section to them.

Will Notify City

Secretary E. J. Payson stated that, Mr. C. H. Mills, M.P.P., had informed him that he would give notification as to when the company's application for a renewal of the franchise would come before the Private Bills Committee, so that the city could present its views if it should be so desired.

Mr. W. H. Breithaupt Speaks

Mr. W. H. Breithaupt of the B. and N. line was called on. Mr. Breithaupt stated that he would not touch on the advisability of the road, for there seemed to be a general consensus of opinion that it was desirable. He alluded to the fact that the war had interfered with the operations of the company. A five-year franchise to build the line had been secured. Three of these years were war years and the work was delayed. The company was applying for an extension of the franchise.

The most difficult part of the proposed road had been built, this was the first half mile at Bridgeport.

"I might say we are greatly interested by the keen enthusiasm of Elora. Seven years ago when the proposal to build a line was mooted, the people up there were not so interested. The enthusiasm of Elora down here. We therefore, would bylaw to build a bridge at Bridgeport was defeated we went ahead and constructed the bridge and started on the extension."

Mr. Breithaupt said the crossing of the river would be at Bloomingdale. The distance from Bridgeport to Elora is about 14 miles. The construction of the line would be a simple problem. "Regarding the proposition, we, of course, look to the municipalities to cooperate with us. Under present day conditions it is almost impossible for private men to build alone. We, therefore, would look to local assistance, especially where there is an interest shown in the proposal. As to the cost of the road that would have to be built, it would be about \$500,000, at present day prices. Regarding prices I do not look for any great reduction in the next two or three years. Although some have come down a little, I don't think that there will be much of a drop for several years."

Regarding guaranteeing the bonds, Mr. Mundall thought the division among the municipalities should be according to population or assessment. Replying to Mr. E. W. Clement, Mr. Breithaupt said he had not given this point any consideration.

Want Connection with South

Mr. Mundall said the matter of securing connection with the Lake Erie and Northern was another point on which the Elora men wanted to be clear. "We want that connection. My idea is that this line will eventually be part of a through line from Port Dover to Collingwood, which at present can be reached only by a roundabout way."

It was the consensus of opinion that the Railway Commission would arrange the matter of any interswitching between the various railways.

The bridge at Bloomingdale, Mr. Breithaupt said, would cost about \$30,000. Under normal conditions the cost would be about \$20,000. This bridge could also well be made a county bridge and a connecting link in the high way system.

Should Guarantee Bonds

"As to the assistance the municipalities could give, that is for you to consider. The municipalities could guarantee the bonds or take stock in the road. There is no doubt that the bonds could be sold were the municipalities to guarantee the securities."

The Electric Road the Cheapest

Mr. Breithaupt said there was no doubt that the electric roads were the cheapest means of transportation. He submitted figures to show the cost of operating a truck, as follows: Cost per day operated for five-ton Gasoline unit based on 50 miles per day per truck and 300 days per year.

Stockers for Waterloo and District.

## Abolition of Party Lines Is Coming

**DEATH KNEEL OF PARTISAN-SHIP SOUNDED SAYS WEST-ERNER**

Ottawa March 11—In the debate on the address from the throne this afternoon R.L. Richardson of Springfield, Manitoba expressed the opinion that a new day was dawning in Canada because of the abolition of party lines. This was one of the beneficial results of the war. The Union Government he said, might not go on forever but at any rate a strong party would be evolved from it. The death knell of partisanship had been rung. Liberals talked of abolishing the tariff on agricultural implements and Mr. Richardson recalled how years ago when he came to Ottawa he thought such a policy was to be followed. But when he arrived he found that the only question before the Liberal party was whether the duty on agricultural implements should not be increased. He wished to be a beacon-light and warn any simpletons who thought they were going to get what they wanted on the tariff question from the Liberal party.

Mr. Richardson declared that the West is desperately in earnest about the tariff. If the Government would not deal with the representatives of the West it must deal with the people of the West he declared.

F.L. Pellerin who followed, pleaded for amnesty for young farmers who were defaulters under the M.S.A.

## RIOT LESS SERIOUS THAN AT FIRST THOUGHT.

LONDON, March 11.—The investigation of Sunday's riot in the Strand in which American soldiers and sailors and Canadian and Australian soldiers clashed with London civil police, was continued today. It was expected to clear up such disputed points as whether an American military policeman attempted to draw a revolver and whether the English policemen were unruly. American army officials admit the police were legally justified in stopping gambling but suggested trouble would have been avoided if the Y.M.C.A. authorities had asked American military policemen, instead of the London police, to stop the crap game over which the disturbance originated. "Unless and until the men involved are condemned by a court of inquiry, the public should withhold condemnation," the news said today.

"The affair is distinctly less serious than at first appeared."

## The Safe Soap

Ivory Soap does not cause enlarged pores or blackheads as strong soaps often do. Ivory's mildness and purity make it safe for even the tender skin of babies as shown by its use in millions of nurseries. Ivory Soap is free from uncombined alkali, unsaponified oil and all harsh materials which make some soaps harmful. Ivory will not irritate your skin no matter how tender it is or how often you bathe.

**IVORY SOAP** 99.44% PURE

## Former President of Dominion Sugar Co. Dead

PROMINENT WALLACEBURG MAN SUGGERS AT NEW ORLEANS.

Chatham March 11—Word was received in the city to-day of the death last night at Bradwaite La., of David A. Gordon, ex-M.P., for East Kent and prominent Wallaceburg manufacturer and capitalist. Death followed an illness of several years duration, following a stroke.

The life of the late Mr. Gordon was closely linked up with the progress and

prosperity of the town of Wallaceburg where he lived all his life and where he carried on to a very large extent his financial enterprises. Not only was he prominent in the commercial life of the town, but in every movement to improve conditions and advance the interests of his fellow citizens.

Born in Wallaceburg, He was born in Wallaceburg in 1858

He began business life as a manufacturer of staves and in 1883 he formed a partnership with Capt. J.W. Steinhoff for the manufacture of cooperage stock. When the Sydenham Glass Works was established he became managing director. For a considerable time he was also president and general manager of the Dominion Sugar Company and also president of the Wallaceburg Brass works.

He was active in the political life of Kent County for many years and served in Parliament as Liberal member for East Kent for 14 years. Ill health forced him to resign previous to the last general election at which time East and West Kent were merged into one riding. He was a member of the Anglican Church and fraternally he belonged to the Masons and Odd-fellows.

His sons, Robert who is in the South, Dudley, who is overseas, John overseas (reported missing), Roy, Ray, Donald, Glenn Arthur, and William of Wallaceburg and one daughter, Mrs. Ralph Trux, of New York, survive. The remains will be brought home for interment.

Don't miss the fine programme at the Star tonight—"Tell it to the Marines"—And Still a Small Voice."

## THE GRAND TRUNK AND THE GRAND TRUNK PACIFIC

Announcement has been made that the Grand Trunk Railway Company, having, with respect to the Grand Trunk Pacific, reached the end of its tether, has quit cold. Hon. J. D. Reid has, on behalf of the federal government, been appointed receiver, so as to prevent the system ceasing operation.

The prime object of Grand Trunk Company is so to maneuver as to oblige the Dominion to take over the Grand Trunk Pacific, assume the whole of the outstanding bonds issued; return it the cash it has sunk and release it from further obligations in connection with a prematurely constructed and non-paying venture.

In the beginning of 1916, the G.T.R. had issued in all \$179,782,100 in bonds; connection with this enterprise and of itself guaranteed the repayment of \$97,301,252. In addition it had advanced \$26,179,000 in cash to the system. The government of Canada had guaranteed the remaining part of the bonds, some \$82,000,000 and guaranteed the interest on all for seven years after completion.

It is patent that were the government of the day sufficiently easy as to shoulder the \$97,000,000 worth of bonds issued by the Grand Trunk in this connection, it would leave us holding the bag. Were the Canadian government to assume the obligations of the G.T.P., the opportunity of securing possession of the G.T.R. would either be postponed or pass.

This is the very thing it ought not to do. The G.T.R. Company went into western railway construction with the purpose of making money. Having failed, it has no more right to ask that this country pay its debts and refund the money it has invested than the owner of an electric line would have to make such a demand.

The G.T.R. declines to turn over its eastern system at its value, notwithstanding that it is unprofitable and suffering for lack of equipment. It has never paid and, as an isolated system, scarcely can be made to do so. Were it held to its commitments in connection with the G.T.P., it would not long be able to resist the inevitable.

Further the Canadian public is tired playing "uncle" to weak private enterprises.

## THE SEWERAGE DISPOSAL WORKS

In addition to expending \$2000 on the removal of clogged filter media on 5 intermittent filter beds, at a cost of \$2000, and which will be raised by taxation, the Sewerage Committee finds itself faced with another problem. The pumping house at Strangely Street is obsolete and the machinery worn out.

In its estimates for the year, Chairman Greb had inserted an appropriation of \$4500 for a new pump house and pump. Since doing so, the present pump has broken down and can only, with difficulty, be made to serve until this new work can be undertaken.

The City Engineer in his report to the Committee, also pointed out the combined flow of the two trunk sewers amounts to about 1,500,000 gallons per 24 hours. Of this, 500,000 gallons are treated by the new works and the remainder on the intermittent filter beds. Heretofore there has been no means whereby the quantity of sewage run over the beds could be measured. In his opinion, and it seems reasonable, it is necessary for the Superintendent to be in a position to ascertain the exact quantity of sewage treated by each bed. For this purpose, the Committee will purchase a ten-inch Venturi meter, at a cost of \$1700.

The Sewerage Committee recommended that the costs of a new pumping house and pump and the meter, totalling \$6200, be raised by way of a debenture, spread over three or five years.

## THE BOARD OF WORKS

In presenting the estimates of the Board of Works for 1919, Chairman Amussen voiced its conviction that there are a number of local improvements which it is necessary to make but which for the most part fall upon the city's shoulders. These are:

Theresa Street Grading.....\$ 400  
Agnes Street Walk (School)..... 327  
Theresa Street Walk..... 270  
Storm Drain at G.T.R. Crossing..... 200  
Cedar Grove Bridge..... 1200

These will be proceeded with and a short term debenture issued covering the cost.

Growth spells additional outlays. As many have learned, in connection with other mundane affairs, "you cannot make omelettes without breaking eggs."

## WAIT A MINUTE

### CUNARD LINE'S NEW SERVICE

With the scheduled departure of the steamship Mauretania from New York to-day, the Cunard Line inaugurates its new service between New York and Southampton. The Mauretania will be the first of the company's vessels to use the Channel port instead of Liverpool, the British home port of the Cunard Line service, since 1840.

The change to Southampton is a move to meet the after-war conditions in the transatlantic steamship service. With the North German Lloyd and the Hamburg-American lines put out of service by the war, the Cunard Line finds itself with a virtual monopoly of the first-class passenger traffic between Europe and America. The change of the British home port from Liverpool to Southampton will afford the company a more direct route not only to London, but also to the Continent. The big passenger express steamers will stop at Cherbourg on their way to Southampton when conditions become more nearly normal.

It will be eighty years next year since the Cunard Line, then known as the British and North American Steam Packet Company, was established. During the years which have elapsed the story of the company's progress is practically that of shipping in general.

Samuel Cunard of Halifax, N.S., had a wonderful conception of the future power of steam, when in 1830 he conceived the idea of bridging the Atlantic by that method, and the company which bears his name to-day stands as a tribute to his great enterprise and determination. For many years the company has maintained regular service not only between Great Britain and America, but to Australia, New Zealand,

India and other parts of the world.

During the late war the Cunard Line rendered extensive and important services to the British and Colonial forces and those of the Allies by giving the use of practically its entire fleet, which includes leviathans of twenty-six knots down to the less pretentious but equally useful tramp steamer.

Fifteen Cunard Line steamships aggregating 206,769 gross tons were lost in the war. All except two were sunk by torpedoes or mines. The Campania and the Ascania were lost through accidents. The tonnage sunk represented approximately one-half of that possessed by the company at the outbreak of the war. Nearly all of the Cunard liners were well-known Atlantic greyhounds, the largest of which was the Lusitania. Other noted vessels of the company that went to the bottom during the four years and more of conflict were the Laconia, Franconia, Transylvania, Ivernia, Campania, Carpathia, Alania, Andania, and Royal Edward.

The Anchor Line, a subsidiary of the Cunard company, lost eight ships, including the 14,340-ton Tuscania. The total tonnage loss of the Anchor Line was 65,488.

## WESTERN CANADA LABOR CONFERENCE

What promises to be the most important conference ever held by organized labor in Western Canada will open at Calgary, Alberta, to-day for the consideration of the post-war industrial problems, chief among which will be some plan of cooperation between the returned soldiers and the workers. Many delegates arrived in the city to-day and all indications point to a full attendance representing the labor organizations of British Columbia and the prairie provinces.

## TO-DAY'S ANNIVERSARIES

1844—Patrick A. Collins, representative in Congress, mayor of Boston and a noted figure in Democratic national politics, born in Ireland. Died at Hot Springs, Va., Sept. 14, 1905.

1857—Railway suspension bridge between Toronto and Hamilton gave way; train thrown into a canal, and 77 killed.

1862—Jacksonville, Fla., surrendered to the Federals.

1894—Justin McCarthy re-elected chairman of the Irish parliamentary party.

1907—An explosion on the French battleship Jena killed 117 persons.

1911—The Mexican insurgents attacked the Federals at Agua Prieta and were repulsed with heavy loss.

1915—Berlin reported a series of victories for the Germans in northern Poland.

1916—British mercantile fleet auxiliary Fauvette sunk by striking mine, 14 lost.

1917—Russian Duma met in defiance of the Czar and nearly the whole of Petrograd fell into the hands of the revolutionists.

## ONE YEAR AGO TO-DAY IN THE WAR

Northeast coast of England raided by German airships.

Fifty persons reported killed in British air raid on Coblenz, Germany.

U.S. War Department announced second draft of 800,000 men to begin.

## TO-DAY'S BIRTHDAYS

Joseph S. Frelinghuysen, senior United States senator from New Jersey, born at Raritan, N.J., 50 years ago to-day.

Daniel W. Hoan, the Socialist mayor of Milwaukee, born at Waukesha, Wis., 38 years ago to-day.

Rt. Rev. George T. Bliss, coadjutor bishop of the Episcopal diocese of Vermont, born at Shelburne, Vt., 55 years ago to-day.

Rt. Rev. Joseph Schrembs, bishop of the Catholic diocese of Toledo, O., born in Bavaria, 53 years ago to-day.

## FROM HERE AND THERE

Red was regarded by the Egyptians as symbolic fidelity.

Seventy-five railroad cars are needed daily to haul away the merchandise sold by America's largest mail-order house.

Twenty-five million sheets of music were sold last year by one of the well-known chains of five-and-ten-cent stores.

A food scientist states that one and a half pints of milk with half-a-pound of pea-flour would supply all the essential ingredients for a whole day's food.

The first attempt to transport the mails by air is credited to the British, under whose auspices the experiment was made with varying success in India in 1911.

Although green is the gala color of the Turks it is seldom found in Turkish rugs. This is because the Turk does not approve of the use of the color where it would be trodden by the feet.

As far as can be learned, the earliest use of the nickname John Chinaman as a designation for Celestials is in "A Letter to the Committee of Management of Drury Lane Theater," published in London just one hundred years ago.

From the beginning of history the custom of sending ambassadors has been practiced in Europe, but it was not until the close of the fifteenth century that the permanent embassy became at all common, and not until the end of the sixteenth that it became a generally recognized institution.

For centuries the Chinese had a monopoly, of silk making and jealousy guarded the secret of its manufacture, but eventually the knowledge of the art spread to Korea and thence to Japan, where the industry was established about the third century of the present era. The art was carried thence to India and finally reached Europe.

The coming summer will mark the semi-centennial of the formal opening of the Suez Canal, one of the greatest engineering projects of the world. The festival given by the Khedive of Egypt in commemoration of the opening is said to have cost \$23,000,000. The festivities extended over a period of several weeks and were attended by the Emperor of Austria, the Empress of the French and many other high personages.

Many interesting bits of history are connected with Gibraltar, the famous rock at the entrance to the Mediterranean, which rumor says Great Britain may give up to Spain. Among other things it is recalled that the last siege of Gibraltar was by far the longest of modern times. It commenced on June 21, 1779, and ended in February, 1783. It thus lasted for the long period of three years and eight months.

The illusion of motion in the so-called motion-pictures is based on the fact that the retina of the eye retains an image for two forty-fifths of a second—and that it takes that much more time for the image to fade away. Each picture is still when flashed on the screen, and a shutter cuts off the light during the shift to the picture following. The mission of the projecting machine is to finish each picture sufficiently fast enough as to cause the images to overlap on the retina, that is to give the eye a new image before the preceding one has faded away.

Dorothy Gish, one of the most popular of the young-er photoplay stars, born at Dayton, O., 21 years ago to-day.

## Trained Nurse Now Testifies

Says She Feels Made Over Since Taking Tanlac—Gains Nine Pounds.

Mrs. F. O. Forrester, a trained nurse residing at the Grand Central Hotel, Denver, Colo., is but one of this high profession who have testified to the merits of Tanlac. Mrs. Forrester recently said:

"I had been in miserable health seven years, suffering from indigestion. Everything I ate would sour and even cold water would cause me much distress. The pains in my chest and about my heart were almost unbearable at times and I suffered terribly from neuralgia. I would have vomiting spells daily and for three months could not retain a thing on my stomach but oatmeal. Often at night I would wake up feeling like I was smothering to death and would have to get up out of bed and stand on my feet awhile to get my breath.

"One of my friends who knew of my awful condition and who had been benefited by Tanlac advised me to try it. I did so and my belief has been remarkable. Really I feel like I have been made over again. I have already gained nine pounds in weight and intend to keep on taking Tanlac as long as it does me as much good as it is now."

Tanlac is sold in Kitchener by E. O. Ritz & Co., in Galt by R. W. Meikleham in Hespeler by Jno. R. Phin, in New Hamburg by W. H. Boulton, in Milbank by R. B. Hamilton, in West Montrose by A. E. Richter & Co., in Preston by H. L. Frick, in Waterloo by A. B. Learn, in Doon by L. C. Bullock.

## St. Agatha

The death took place on Saturday March 8th at 7 p.m. of Mary Hawok, relict of the late Joseph K. Dietrich. She had been confined to bed but a week when hemorrhage of the stomach caused her death. She was in her 62nd year. Her husband predeceased her by thirteen years. She is survived by her dear husband's four sons and four daughters viz:—John, on a farm near St. Agatha, Joseph and Henry at home and William of Bamberg and Emma (Mrs. J. J. Baechler) of Galt. Many (Mrs. Francis Haid) of Preston, Kate at home and Elizabeth of Kitchener. Besides the immediate family there are also six grandchildren to mourn her passing.

The funeral will take place on Tuesday March 11th at 9:30 a.m. to St. Agatha's R.C. church and cemetery. A few invited guests enjoyed a jolly evening at the home of Mr. and Mrs. Louis B. Dietrich on the eve of Ash Wednesday.

St. Agatha friends were sorry to learn of Miss Agnes Forke's accident in Kitchener. Wishing you a speedy recovery, Agnes.

## THIS AGED WOMAN Was Made Strong by A Simple Remedy.

The following letter from Mrs. Wells adds another link to the great chain of evidence which proves that there is nothing equal to Vinol to create strength for feeble, weak, run down, nervous conditions.

Malone N.Y.—"I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength, but it has given me a good appetite and I sleep all right now"—Mrs. S.B. Wells.

We strongly recommend it. A. J. Roe, Kitchener, A.G. Hasbuel, Waterloo, and at the best drug store in every town and city in the country.

## CONESTOGO

Mr. Chas. Fritz has sold his property here to Mr. M. L. Beam, of Kitchener, who gets possession in May. The former having bought the Peter Kuhl property north of Elmira.

Mr. and Mrs. Dilman Snyder, of Caledonia, Mich., are visiting friends here.

Mrs. Richard Bartscher and daughter, of Whitney, are visiting at the former's parental home, Mr. and Mrs. Geo. Scheffele.

The local Women's Institute will give a St. Patrick's Concert in the Township Hall here next Monday evening.

Our Hockey boys journeyed to Elmira on Thursday evening, where they played and defeated the West Montrose boys in a game by an 8-4 score.

Mr. and Mrs. Oscar J. Steis visited Heidelberg friends during the week.

Miss Clara Dahmer, of Kitchener, spent over Sunday at her home here.

Mrs. Clayton Shantz, of Carleton Place, has returned home here with her parents, Mr. and Mrs. Leander Bowman.

## GIRLS! MAKE LEMON LOTION TO WHITEN AND BEAUTIFY SKIN

In all weather the skin and complexion can be kept wonderfully clear, soft, and white by the use of inexpensive lemon lotion which any girl or woman can easily prepare.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months.

Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion. It naturally should help to soften, freshen, bleach and bring out the roses and hidden beauty of any skin. Those who will make it a habit to gently massage this lotion into the face, neck, arms and hands once or twice daily, may be repaid with a skin that is flexible and young looking and a radiant complexion.

## Protest Against The Use of Lake Water

At the regular meeting of the Twin-City Trades and Labor Council held last night the following important resolution was passed in regard to the present water situation in the City: "That we view with alarm the prospect of the Water Commission forcing the citizens to use for human consumption the water from Shoemaker's Lake and we call upon the Commission in the name of humanity to cease using the water from this Lake and that we respectfully request the City Council and Board of Health to use their utmost efforts to see that this nuisance is remedied before the spring time freshets carry from the adjoining fields the extracts of the manure covered earth."

Copies of this Resolution will be sent to the Water Commission, the Board of Health and City Council.

In the absence of President Shantz, Mr. O. Hughes acted as Chairman. Reports were received from the Organization Committee that the Woodworkers and Upholsterers Union has added a number of new members and that they would hold an open meeting in Waterloo in the near future.

The Ladies Auxiliary of the Independent Labor party were given the free use of the Hall for their meetings.

Endorsement was given to a resolution of the Allied Printing Trades Council of Toronto requesting the Anglican Synod of Canada to have

their New Hymn Book about to be printed, printed in Canada instead of Great Britain. The following nominations were made for the several offices election to take place on March 26: President—Osbelt Heighes, A.E. Shantz, Fred Akerknecht.

Vice-President—Jas Clark, F. Akerknecht, C. Emmerich, Philip Sauer, H.P. Weinstein.

Rec-See.—J. Hammond, M. Dahmer J.T. Uttley, Financial Sec.—S. Wellheiser, Beck-er, Shippinowski, Vidal.

Treas.—O. Brill, M. Dahmer, F. Akerknecht.

Sergt. at Arms.—G. Scharlach, O. Hughes, J. Clark.

Legislation and municipal Committee.—Jas. Clark Chr. Labor Committee.—P. Sauer.

# New and Distinctive Spring Apparel

## Featuring Coats, Suits and Blouses

We call your attention the next few days to our large and diversified showing of Spring Suits and Coats—exclusive models that will appeal to women and misses of good taste. Each garment is beautifully tailored and embodies all the smart features usually found in QUALITY CLOTHES. These Spring Suits and Coats spell distinction in every line. The former come in navies, sands, taupe, Pekin blue, etc., some plainly tailored and some military braided, while others are embroidered in harmonizing shades. Coat colors may be had in taupe, sand, reindeer, French blue and navy.

## The Blouses are wonderful this season

And you have a most comprehensive collection to choose from including plain effects and neat trimmed—all delightful and in styles appropriate for afternoon and informal evening wear. Our newest range comprises Crepe-de-Chine, Georgette and the very latest Parisian origination—a combination of Dresden Silk and Georgette. The colors include flesh, maize and sunset besides the darker shades of navies, taupes, etc. Certainly an elegant display and at extremely moderate prices.

## "How To Buy Shoes"

THERE are many things which you need not buy unless you choose. But footwear is not one of them. You must have shoes. And the problem of buying shoes is one which comes home to every man and every woman in Canada.

In order to help you solve this problem, we have prepared a booklet with the title given above. We believe that you will find it helpful and interesting, whether you buy A.H.M. Shoes or not. And it is not necessary to buy A.H.M. Shoes in order to profit by the information which is contained in it.

We are glad to send a copy with our compliments to any address in Canada. Please send your request to our Head Office, at Montreal.

## Under-Currents By The Duchess

"Enough, however. But how do you know that?"  
"I've heard a good deal about him off and on. People will talk you know and he's eccentric isn't he?"  
"If you mean weak in mind, you were never further out in your life," says Griselda mournfully. "He is all mind, in my opinion. There isn't a weak spot in him."

"Well, but you know he won't see anybody. Shuts himself up like a hermit, and neither visits nor receives. Everyone talks his brain unsound ever since his father's death. He was quite reasonable before that, but shortly afterwards gave himself terribly queer airs, and grew melancholy to the verge of madness. And the funniest part of it all was that he and his father didn't get on at all whilst the old chap was living. Fought it out regularly like cat and dog. So that the overwhelming grief at his loss was hardly to be accounted for."

"I can see a simple solution of that difficulty," says she scornfully. "He had lost his principal object in life: he was left with no one with whom to quarrel, save himself. And we all know how it is for John Jones to fight with John Jones."

"I say," says the young man suddenly turning upon her a rather apologetic face. "You must think me awfully rude. Here am I pretending to tell you facts of your own people, that of course are well known to yourself."

"On the contrary all you have said is news. By the way, have you ever been to Greycourt?"

"No. I've often thought I should like to go on some Wednesday or other, but haven't been able to make up my mind yet."

"Some Wednesday! What Wednesday? And why Wednesday? Griselda is distinctly puzzled, but hardly likes to ask a question on the subject. Already she has shown herself disgracefully ignorant on her family history."

"It's a quaint old house," she says. "and might be lovely, I think if the trees were cut away and some sunlight let into it, and a little furniture. It's empty, positively empty."

"Surely you don't like galleries?" says he.

"The picture galleries," she says, "rows upon rows of hideous men and women upstairs, if you mean that, who glare down at one with simpering and frowns until one feels inclined to—well, to hate them. But what of that?"

"I don't mind having learned how to rush past them when dusk comes on, so as to escape the cruel fingers that they have always seemed to be stretching out to seize me, I have taken little notice of them."

"You would be but a poor art critic," says he, laughing. "It is indeed possible that you do not know that those despised pictures of your ancestors are absolutely priceless? Pure Lelys and Kneller, Gainsboroughs and Reynolds. Why, those galleries at Greycourt, I've often heard my father say, are about the finest in England. Your uncle is good enough to open them to the public every first Wednesday in the month at the very trifling charge of half a crown."

"What! open to the public? How so hot a colour that the tears grow within her eyes. 'Oh, I can't mean that.'"

"That is—Peyton, who is wishing now with all his heart, that the unlucky information had not come through him."

"Yes, you know what you said: that he makes the people pay to see his house."

"Well, why not?" says the young man boldly, preparing with a stout courage to defend a vile cause. "It is to improve the tastes of the multitude that he does it, of course. And if he chooses to repay himself for the wear and tear of his carpets, who shall say he has not common sense on his side?"

Griselda looks at him askance from under the long fringes of her lids. "Carpets?" she says slowly.

"Under the—light something in it?"

seers pulled out—that is worked havoc with them," replies he valiantly.

"And if there aren't carpets, there are still the pictures, and one should pay to enjoy their beauty. I'm thinking with a casual air of going to Greycourt myself next time the galleries are open to see these famous pictures."

"Oh, don't, don't," cries she impulsively. Then she stops short, hardly knowing how to explain her impetuous outcry. "It isn't to educate the multitude, that he throws open his inhospitable doors," she says at last, with downcast eyes. "It is because he wants—the money. He—"

she hesitates, and then says sharply, though her voice is very low "is a miser."

"Why now some people are so fond of money," says Peyton, speaking lightly, with a view to showing himself ignorant of her confusion.

"It's the commonest fault known. And it doesn't do them a bit of good. After all, I'm glad my father was afflicted with the opposite complaint; but I dare say it is not bad sign of a man to keep together that which is his own. My father, you see though he was as satisfied a one as ever breathed, whilst he did breathe, left me considerably poorer than I imagined I should be when he died."

"We have come to the common there," says she a little sadly. "My father left us penniless; but then he was no satisfactory, so we gained at no time."

At this moment the chimneys of Greycourt shine through the interstices of the trees on her left, and, with the knowledge that she has gained her toes on the trees on her left, and, with the knowledge that she has gained her home, comes, too, the sound of running water, and the thought that all through her return walk through the leafy woods that music had rushed as a chorus to her words.

"Ah, now I know!" cries she, stopping abruptly, and looking full

## HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years, my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."

Mrs. W. D. WELLS, 226 North Adams Street, Petersburg, Va. If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, headache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

## Cleanses Your Hair Makes It Beautiful, Thick, Glossy, Wavy

Try this! All Dandruff disappears and hair stops coming out

Surely try a "Dandergine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Dandergine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, one application of Dandergine dissolves every particle of dandruff; invigorates the scalp stopping itching and falling hair. Dandergine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating stimulating and life producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, soft, lustrous hair and lots of it, if you will spend a few cents for a small bottle of Knowlton's Dandergine at any drug store or toilet counter and try it as directed.

## HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up: the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

### House Wanted

Would buy a medium sized residence with all conveniences. Location must be central between north ward industries and centre of city. Apply at Record for particulars.

ders. A. W. Tyson, W. W. Simpson, Seeds—T. G. Raynor, A. McMeans, R. E. Mortimer, W. J. Lennox, Messrs. A. W. Tyson, W. Whitelaw and W. W. Simpson were the Guelph representatives at the meeting.

At the annual meeting of the directors of the Ontario Poultry Show the question of the future of the annual Ontario Provincial Winter Poultry Show came up for discussion and a motion was passed requesting the Hon. G. S. Henry, Minister of Agriculture, and the Government to make Guelph the permanent home of this great show. It was pointed out at the meeting that the Guelph Show has the reputation of being the finest poultry show in America.

## Rounds Consolation Series HOCKEY

STRATFORD vs.

UNION JACKS

At Auditorium

WED. March 12th 8 15.

Admission, Reserved seats 35c.

General Admission - 25c.

Plan at MacCallum's.

provided the best hockey of the season; this game particularly owing to the fact they are well matched.

Stratford lost only two games all season. Union Jacks lost one game all season.

Hewitson or Whitehead will referee.

Union Jacks play at Stratford tomorrow night, goals to count for the three games for the Rounds Trophy.

DULUTH MAN ACCEPTS POSITION  
The manager of the Kitchener baseball team in the Ontario-Michigan League is J.W. Beattie of Duluth. In a message received today by the Club he announces his acceptance of the position. He will commence his duties on or about April 15th but he will be here in the near future to meet the Club members and arrange the preliminaries of the team.

## Stratford Juniors Here This Evening

To-night is the big Junior hockey game. Stratford comes here to try to overcome a one goal lead secured by the Union Jacks in Woodstock. This will be the second game in the series of the Rounds Trophy. Another game will be played in Stratford tomorrow night. Goals count on the round.

The series are the Rounds consolation. Ice is good for game to-night. Come and see Berger and Kelterborne play against Union Jacks. Played, last season, with the Union Jacks. They are the stars for Stratford. Union Jacks and Stratford always

## Clever New Tailored Suits

Whatever type of Suit a woman prefers, whether it be extremely conservative, plain tailored model cut on severely simple lines, the elaborate "Costume Suit" or the "betwixt and between" Suit for general wear, she will be sure to find a desirable, wholly satisfactory model at Goudies. Range of fabrics, coloring and price leaves nothing to be desired.

**Goudies Limited**

## Collingwood Won The First Game

Intermediate Finals are Being Played

Playing a brand of hockey that provided a revelation to the fans, Collingwood last night in the first game of the O.H.A. intermediate finals defeated Kingston at the Toronto Arena by 6 to 4. The winners won on their merits and unless the Limestone City aggregation improve the title will go to the Northern sextette. The teams will play the deciding contest at the Arena tomorrow night.

Last night's fixture was replete with thrills and surprises, and one of the latter was the fact that nearly 2,500 spectators were on hand. When it is considered that both are outside teams and local fans were not thought to be particularly interested in the result the attendance was remarkably good. Another theory that was exploded was that the intermediates lack class. If last night's fixture can be taken as a criterion, they possess far more ability than they are generally given credit for. Experience Tells.

The Collingwood players are an experienced lot and showed it. Every man did his part well and was cool and collected at all stages. Kingston on the other hand lacked systematic play and it was noticeable that several of their players were over-anxious. Brown was plainly not himself and seemed to be nervous. However, in the final period he came down to earth and made several clever rushes. Another defect which proves disastrous was the failure of the Kingston forwards to check back. They left far too much of the work to their defense, and had it not been for Walsh in goal the score would have been much larger.

Ernie Fryer who has been playing for Collingwood for sixteen years was one of the best men on the ice. He used good judgment on the attack and notched three of the tallies. G. Goulis at centre was the star of the winners. His corkscrew rushes were of the sensational variety and were always dangerous. McLeod was another who was in the line. The big defense man blocked well and made many end-to-end dashes.

Walsh Plays Well.  
For Kingston Walsh in goal was undoubtedly the best. He stopped a fusillade of shots, and by his grand work kept the Blue Shirts in the hunt. "Rube" Millan worked hard, but he was unfortunate in his shooting. Derry played well on the wing, while Brown was good in flashes.

Collingwood—Goal Cook; defense, Becher and McLeod; centre, Foulis; wings, Sanderson and Fryer. Substitutes—L. Whitehead.  
Kingston—Goal Walsh; defense, Brown and Hagerman; wings Smith and Terry; Millan centre; "Rube" Millan, Sanderson and Derry. Referee—L. Whitehead.

## County League Is To Be Reorganized

A Preston report says:—There will be a meeting at the Central Hotel on Wednesday night, March 12, to reorganize the Waterloo County Baseball League. It is expected that each city and town in the county will send delegates. Stratford wants to enter a team and there is a possibility of reorganizing the Trolley League, which will allow all teams outside of the county to enter the league. The question will be decided at to-morrow night's meeting. Galt, Kitchener, Hespeler, Elmira and Preston will enter teams with a possibility of New Hamburg, Stratford and Guelph also coming in.

## HYDRO PROPERTY OF THE PEOPLE OF ONTARIO

YOU are part owner of a great organization having an investment of over 80 million dollars.

You, as a citizen of Ontario, have an interest in every generating plant, every pole, every foot of wire, every piece of machinery and all buildings under the control of the Hydro-Electric Power Commission of Ontario.

You buy electricity from yourself and pay yourself for it.

Your interest in Hydro should not end with the power but extend to electrical appliances as well. The name "HYDRO" goes on appliances only after they have been thoroughly tested in the laboratories of the Commission and proved to be thoroughly reliable.

HYDRO Quality Lamps, for example, are tested for candle power, current consumption, length of life and freedom from mechanical defects. When you light your home with HYDRO Quality Lamps you know that they give their full-rated light, use only the proper amount of current and burn for at least 1,500 lighting hours.

## French Officials Fear German Voluntary Army

Believe it Would Become Officers University.

YIELDING 100,000 TRAINED OFFICERS

PARIS, March 13.—(By William Philip Simms). Within five years after peace is signed, Germany will be able to throw a fully-trained army of several millions into the field, providing the Allies impose the volunteer system in that country according to a belief expressed in French military and official circles to-day.

The French regard the proposed volunteer system, providing for a German army of 100,000 as a "potential and stupendous Saint Cyr" (the French west point). They declare Germany could easily maneuver the system so as to permit only of a few million to enter the standing army, which would become in reality only an officers' training school yielding after 4 or 5 years, the equivalent of 100,000 West Pointers. These would be sufficient to command an army of 100,000. France cannot forget there are several million comparative youngsters in Germany, who can already be regarded as veterans. In addition, it is feared a twelve-year term of enlistment would encourage young men to make army life their profession.

Admittedly it is practically impossible to prevent a continuation of Germany's shooting and turn-over organizations, which in fact are only thinly disguised military training centers. Germany, the French point out, could disguise turn-over and use them as schools for private with the volunteer army as an officers' university. Thus, should the Allies consider Germany disarmed and proceed to disarm themselves, Germany would at once become an immense standing peril. History it is emphasized has proven that Germany may be expected to turn any set of conditions to her maximum advantage. It is recalled that early in the Napoleonic era, when the army was limited to little more than a police force, she trained an entirely new arm each year, with the result that she was able to place a formidable force in the field when opportunity came.

The French press generally professes to have conscription retained in Germany, under allied control. If the Allies decided to establish the volunteer system, the newspapers express the hope that the league of nations will exercise most the drastic supervision over Germany's war machine.

## Wilson Expects To Be In Paris Tomorrow

WILL IMMEDIATELY BEGIN WORK.

ON BOARD THE U.S.S. GEORGE WASHINGTON, March 13.—President Wilson expected to arrive at Brest at about 8.30 o'clock this evening. He will immediately board his special train and will probably arrive in Paris at about 9 o'clock Friday morning. Wilson sent wireless messages to the Secretary of State Lansing and the House and arranged to begin work in Paris without any loss of time.

WILSON ANXIOUS TO CONCLUDE PEACE

ABOARD U.S.S. GEORGE WASHINGTON, March 13, (Carl D. Grost).—President Wilson, determined to complete the peace settlement as rapidly as possible, is making no effort to conceal his anxiety to get to work. The George Washington is due at Brest about 8.30 to-night.

## German Delegates to Peace Conference

LIST OF OFFICIALS WHO WILL ATTEND

WEIMAR, (Wednesday).—German delegates to the Peace conference will be Count von Brockdorff-Rantzau, Foreign Minister Dr. Eduard Dauterive, Majority Socialist, and the first president of the National Assembly Dr. Adolf Warburg; Dr. Adolf Mueller, Minister to Switzerland; Professor Walther, M. A. Schuecking of Marburg University, and Herr Geisberg, Minister of Post & Telegraphs in Prussian ministry.

## Help Him to Help Himself

We owe the returned soldier every effort we can make towards securing steady employment for him.

Do not try to throw the burden entirely on employers. They have a grave responsibility, but only insofar as every man, woman and child gives willing help can Canada ensure a fair day's pay for a good day's work for all her men.

How can YOU help? By investing in War-Savings Stamps.

How will THAT help? Canada must secure foreign purchasers for the products of her forests, farms, and factories. Many nations are anxious to buy our goods, but can only do so if Canada grants credit to them.

Lend your money to Canada, so that Canada may re-lend to those who must buy on credit. The money is being raised by the sale of War-Savings Stamps, so that when you invest in a War-Savings Stamp you provide a day's pay for some returned soldier.

A War-Savings Certificate with 10 W.S.S. affixed will be redeemed by the Dominion of Canada on January 1st, 1924, for \$50.00, for at that date the W.S.S. are worth \$5.00 each.

War-Savings Stamps cost \$4.02 in March; \$4.03 in April; \$4.04 in May, and they may be purchased at any place displaying the Beaver-Triangle sign.
