New York, Nov. 8.—The magnitude of the Democratic nation-wide sweeping Tuesday election became fully apparent today as fairly comreverses suffered by Republican candidates, which drove some of President Harding's closest personal and political friends from public life, endangered Republican control the next house, and seriously reduced the Republican margin of the senate,, put New York State overwhelmingly in Democratic control,

Ohio Deserts Harding. That Ohio, President Harding's home state, on which the administration pinned its strongest hopes for approval of the Harding program, elected a Democratic govenor and showed Democratic congressional gains, frustrated the hopes of the Re-publican chieftains. YOUTHS PELT STORE WITH BAD EGGS-PLEAD GUILTY

BUSINESS AT STANDSTILL.

BUSINESS was almost brought to a standstill out on the Hamilton road a few days ago, when three youths threw rotten eggs at Elmo Hardy's store. Frank Bail, John Porter and Harry Froude pleaded guilty to the offence and were fined \$5 and costs each. Hardy claimed he had to pay a man \$5 to clean the front of the store. The court allowed him \$3, and assessed the three youths that amount, in addition to their fines.

Hardy claimed he was unable to notify the police at the time, as his telephone wires had been cut. None of the boys could enlighten the court on this matter.

The youths could give no reason for their actions. They said they had bought the eggs at another store and used them on Hardy's place of busi-

ness.

"These young fellows belong to a gang of the most cowardly boys in the city," Chief Robert Birrell told Magistrate Graydon. ence, and still a much greater gap between them and the amount paid to a member of the Dominion House. The figures are for provinces:

British Columbia\$1,800 Alberta 2,000 Saskatchewan 1,800 Manitoba 1,800 Ontario 1,400 Quebec 1,500 Nova Scotia 700 New Brunswick 1,000 Prince Edward Island ... 500

Dominion House 4,000 A dispatch from Calgary recently gives the impression that the Farmer party in Ontario are in favor of establishing the indemnity at the same figure in Ontario, and of cutting the amount paid to a Dominion member from \$4,000 to \$2,500. It is possible there are men who can do well on the \$4,000 allowance, but there are not many of them. Take, for instance, a member from Western Canada. He has to give up his business there for the time being, the trip back and forth taking up too much time to permit of keeping up close touch, such as is possible for some of the members from Ontario, who go home almost every week-end.

It is undoubtedly not the intention of the country that men should be sent to the various legislative centers, and paid a price that represents a loss to them. By doing such a thing the country would be encouraging these men to look around to see what they could pick up in the form of "considerations" in order to break even.

It is not likely that there will be any reduction in the indemnity allowance; in fact, Ontario may have to consider making a slight increase, and doing so with the provision attached that the increased sum includes all payments for the year. This would do away with the objectionable feature of members voting themselves bonuses for long sessions.

The electorate does not like this method of doing business, and many of the members are also averse to It, even though they may vote for it. Our salary list is not high, provided we get the right sort of man.

Sumer, in the dim, uncertain light before history began, is of priests and gods in conflict; until the Sumerians were conquered by the Semites they were never united; and the same inthe temple; the priests alone read, the curable conflict of priesthoods scars all of them. But in the dissensions of the Colborne on Sunday after a six weeks the temple ruins of Egypt. It was impossible that it could have been otherwise, having regard to the elements out

of which religion arose. It was out of those two main weaknesses of all priesthoods, namely, the incapacity for efficient military leadership and their inevitable jealousy of all other religious cults, that the power of secular kingship arose. The foreign enemy either prevailed and set up a king over the people, or the priesthoods who would not give way to each other set up a common fighting captain, who Gordon Steele, equal; Walter Flan- retained more or less power in peace

This secular king developed a group of officials about him and began, in relation to military organization, to take a share in the pristly administra tion of the people's affairs. So, growing out of priestcraft and beside the priest, the king, the protagonist of the priest, appears upon the stage of human history, and a very large amount of the subsequent experiences of mankind is nly to be understood as an elaboration complication and distortion struggle unconscious or deliberate, beween these two systems of human con-

years as a neophyte; the path of learning the clumsy letters of primitive times is slow and toilsome; he becomes erudite and prejudiced rather than a man of the world. Some of the more active-minded young priests may even cast envious eyes at the king's service. There are many complications and variations in this ages-long drama of the struggle going on beneath the outward conflicts of priest and king, between the made man and the born man, between learning and originality, between established knowledge and settled usage on the one hand, and creative will and imagination on the other. It is not always, as we shall find later, the priest who is the conservative and unimaginative antagonist. Sometimes a king struggles against narrow and obstructive priesthoods; sometimes priesthoods uphold the standards of

civilization against savage, egotistical r reactionary kings. One or two outstanding facts and incidents of the early stages of this fundamental struggle in political affairs phase of temple rule on their way to are all that we can note here between civilization; they came to civilization

It can be avoided, if stubbornness does not prevail. enthusiast of the movement whom there will be no gainsaying."

This is the opinion of Aaron Sapiro, the well-known authority on co-operation, when seen this morning after his address to the Women's Institute in the Masonic Hall.

Ontario, he pointed out, is by lo cation and climate, one of the most favored districts on the American continent for the production of bacon

and cheese. "Why." he asked, "should the man who owns a large storage plant be entitled to make an enormous profit imply by buying farm products during the period of great production and consequent cheapness, and hold-ing them until the periods of small production caused a rise in price?"

Mr. Sapiro said he hoped to see every kind of farm produce handled by co-operative systems owned by the producers, and eventually that there would be a great universal cooperative movement that would include the farmers of America, Can-ada, Australia and New Zealand.

AND CONSUMERS Two or Three Liberals Would Welcome a Chance To Run for Seat of the Late Dr. Blacaddar-May to No Contest, as E¹ection Not Wanted.

Special to The Advertiser.

HALIFAX, N. S., Nov. 7.—The Liberals meet in convention on the 14th to select a candidate to contest the county for the vacancy in the commons, due to the death of Dr. Blacaddar. So far there are three names to go before the convention, but by nomination day they may simmer down to two-possibly one-the latter being devotedly looked for.

Hon. R. E. Finn, member of the Murray government, is being put forward, and it was thought his would be the only name, but J. J. Power, K. C., a brilliant lawyer and a life-long Liberal, announces his name will be brought forward in the convention, and what is more, he is going to contest the riding, party nomination or no nomination.

So far the Conservatives have shown no interest, it being generally understood they would not put a man in the field, but now it is announced that if Finn is the choice of the convention, then the Conservatives will call for a show of hands-in other words, will put a man in nomination, and thus force the Liberals to a fight.

More than that, it is stated on the best of authority that if the Liberal convention selects Power, then the Tories will not fight. Today both Finnites mendous power of co-operative mer- and Powerites are busy, and delegates from one end of the county to the other are being interviewed. Unionists had not appreciated that the redistribution scheme in 1918 added a huge block of Irish workingclass votes to the Exchange division, which is the commercial centre of

Liverpool.
Unionists have since counted heads, and have issued S. O. S. calls declaring Scott must poll every possible vote to avoid defeat. The Unionist rellance is off the women voters, especially the wives of men who have business qualification in the Exchange division. Women can choose between exercising their vote where they have residential qualification or where their husbands have pugned the character of the adminis-

A boxing tournament and a track meet early in January are two certainties, with the rest of the leagues starting work on their schedules right away.

Last night a time limit was set for players, a motion passing requiring that every man competing should be a bona fide member of the unit he represents by December 1. Last year the limit was November 15 but owing to the fact that some of the units' ranks had been somewhat depleted through members leaving the city, and others are just organizing, an extra two wedks was thought necessary.

Capt. Blake Jones of the Machine Gunners, chairman of the hockey committee, was able to report a possibility of at least six teams, and the secretary, Capt. Phillips was instructed to ask permission of O. C., R. C. R.'s, for the use of the big rink on the barracks square at Carling Heights, which will be constructed again this year.

Staff Sergeant Sheard suggested that a track meet be staged early in January and reported that another meeting of the committee would be held shortly to arrange more details.

Sergt. Glennie had practically every unit in the garrison to report as entrants to the indoor baseball league, with sight teams in. The indoor people will stage their games on Tuesdays and Thursdays, and have fixed on \$10 as a fee for teams entering. This committee will meet again next Tuesday night to arrange other details of getting away to a start. Barney Dunlevy, Bob Wray, Corker Legg. A. T. Taylor, Ed. Too much organization made a fiasco of the schooner race, and a much sorrier spectacle than the blue-blooded America cup races in a way. At one time it was thought there would be a real salty tang to these events, but there wasn't, unless it was the tears of the committee.

Several times last summer there was printed a report that Ty Cobb would retire from the playing field at the end of the season and devote his future days in the major league to managing the Detroit team from the bench.

On one of the days when this rumor was conspicuously displayed in a newspaper, the Tygers happened to deliver a bad exhibition of baseball. They made a number of stupid plays that lost.

Cobb, in the clubhouse after the game, was criticizing the work of several players who had had a bad afternoon.

"I read in the paper this noon that I was to quit playing bail at the end of the general," said Cobb. "Ontil I

\$12,000 AT BENEFIT.

The Arless benefit game in Montreal on the holiday netted some \$12,000 for the widow of the young Montreal football player, who died as a result of an accident on the field in the first game of the season. The response of the fans at the Argo-Tiger game was whole-hearted and generous.

Edouard Horemans, the Belgian title holder, is one of the most brilliant billard players in the country when on his game. In his matches in this country Horemans has shown to great advantage in all his exhibitions, but has not done so well in match play. He is a dangerous contender.

When Horemans first came to this country seeking a match with Hoppe, the manager of the Belgian champion accused Hoppe of dodging the issue. Prior to the big tournament in which Schaefer won the title from Hoppe, Horemans was given a better chance to win than the present title-holder. Hoppe very frankly admitted that he regarded Horemans as the most dangerous contender.

HAMILTON GROWS.

An incident happened Saturday after noon after the Argo-Tiger game which a lot of people did not see or hear. As the Tigers were leaving in their tally-ho one of the players called for "three cheers for Conacher, the greatest rugby player in Canada," and it was given in a real right manner.

No doubt the promoters figured that a meeting between Greb and Gibbons would whet the appetite of the fight fans for a bout with Dempsey.

Michael was a pinboy in a bowling alley when he first got the notion of being a professional fighter. His cousin, Joe Higgins, a former amateur boxer, took him in hand when he was about seventeen years old and gave him his first boxing lessons. After Higgins decided that he couldn't teach Mickey anything new he took him down to the Elizabeth Y. M. C. Young Orsini floored Mickey in one of these Y.M.C.A. bouts and so they matched the two to box at the Foresters' Club. And that was the kid's first ring fight.

They went four slashing rounds with honors even, but a year later Mickey was able to dispose of Orsini in one round. Jimmy McCrann, who was regarded as a pretty good boy in Elizabeth then, offered to clean Mickey up and got knocked out in two rounds.

Mickey's first important fight was against Tommy Speno, the star battler of the town. They went eight hard rounds. This launched Mickey's ring career in earnest, and they started to stack him up against such seasoned battlers as Marty Summers, Johnny

The proposal to create two Davis Cup zones is an outgrowth of discussion at a meeting in London last summer and designed to meet the enlarging scope of the contest. Separate draws would be made, the winners of the sectional play to meet for the right to challenge, the nation holding the tropht. Then came the big puglistic upset, the defeat of Gibbons by Harry Greb. Gibbons, because of his sensational knockout record, was then the most talked about man in the ring. New Yorkers wanted to see him pitted against a good man before taking on Dempsey.

Three great faults dominate these people when they are on the animal plane. These are anger, jealousy and passion, and if permitted to hold sway will soom ruin their lives and destroy their integrity.

The habit of procrastination and indolence are very marked in these people, and if not broken become almost a disease. Those who have not learned the higher laws of love are often very unsatisfactory and are often very unsatisfactory and eccentric in their dealings with friends. DENIES SUGGESTING SUSPENSION OF LAW.

MONTREAL, Nov. 7.—A dispatch from Ottawa stating that the suspension of Canadian coasting laws for the remainder of the season of navigating in the Great Lakes will shortly be announced by the Hon. Charles Stewart is the cause of considerable surprise here. The dispatch states that the suspension of the coasting laws was petitioned for by the Montreal Board of Trade. When interviewed in this connection Stanley Cook, the secretary of the board of trade, said: "We made no such suggestion, and furthermore the matter of coasting laws in the Great Lakes was not even discussed by

The dispatch, he suggests, refers to a resolution passed by the Mon-treal Corn Exchange in September, when it was suggested to the minister of commerce that only on their last trip of the season American ships be permitted to unload their grain cargoes at any Canadian port.

As other grain men remarked today, this resolution obviously is to grain being shipped for storage and not for export.

The Best Cough Syrup is Home-made.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for \$2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlezm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded.
