Among some half-dozen resolutions introduced was one paving the way for the government's proposed refunding loan of \$165,000,000; one to amend the Canada temporary act in conformance with the perance act in conformance with the requirements of British Columbia and Quebec, the amendment providing that liquor may only be imported into these provinces by their governments and certain other persons privileged to conduct distilleries and requiring it for blending nurrouses.

Other measures toward the enactment of which the initial step was taken included one in the name of the minister of railways to provide drastic penalties for persons attempting to ship liquor into the United States under disguise on Canadian trains to ship liquor into the United States under disguise on Canadian trains. Another is the promised measure to make persons smuggling goods into Canada from the United States liable to imprisonment, where the value of the goods is in excess of \$200.

Paris, May 26.—Abd-el-Krim, Riffian chieftain, has redoubled his preparations for a new battle in which he hopes to throw at least 80,000 men against Marshal Lyautey's defending forces in French Morocco

British Empire, strange though it may seem to an American, has probably made Canadians less provincial than their U. S. neighbors, though there is not much to boast of in this respect. Sir Robert observes. Few newspaper readers are interested in telegraphic news from abroad or in the discussion of foreign problems.

But it must be admitted that this intellectual side of Protestantism is relatively less influential throughout the States than might have been expected."

The extraordinary reaction known as fundamentalism attracted Sir Robert's attention. The attitude of mind is found in all countries, but is relatively much stronger in the United States than elsewhere. The American is intensely in earnest about his religion. True to form he is a pragmatist. The old doctrines worked; they must be true. New doctrines are bringing unrest. He must establish the old so that peace may result. So judge those who believe that every man is a competent judge on anything that affects him as deeply as religion.

The relative strength of the Anglican church, as compared with its position in the United States, has been an important factor in differentiating Canadian nationality. The three largest churches having been reinforced from Britain, British theological views have prevailed and fundamentalism has entered into few Canadian circles. Sir Robert also thinks that Canadians are more reflective and less emotional than Americans.

Answer: I am afraid, Mr. D. M., that you have set yourself rather a difficult task in seeking to become an authority on women. The only man that I know of who has ever done that is Booth Tarkington. Therefore, if you are going to study women from books, I recom-mend the novels of Mr. Tarkington, ful tricks and snares by which girls seek to catch husbands. Most of the women in books are just lay figures, automatons that novelists created, and whose strings they pull, making them do and say things that no woman would do or say under the cir-cumstances, so I don't think you will get much profit out of spending your

NEW RUSTIC ARCHES

In spite of the frowning weather a little party of girls journeyed to Orendaga Camp, Port Bruce, yesterday to hold the season's first party at the lake shore. When the London and Port Stanley special car left the station at 9:20 o'clock there were over fifty girls aboard. At Port Stanley the party transferred to motor trucks and soon was whirling through the beautiful country toward

Mr. Meighen Wrong and Right.

At a session a day or so ago the House began to consider estimates of the public works department. Hon. Mr. King had given a short statement explaining some increases at Goderich and Port Stanley, when Mr. Meighen remarked:

While the leader of the Liberal party speaks with this generosity of appreciation and reserve of judgment, the principal Liberal newspaper in London resurrects a taunt which its former editor flung at Milner in 1917: "There is not a shred of the fabric you set up in South Africa remaining, and today General Smuts is in our midst as the witness of the virtues of that liberty you set out to destroy." One would like very much a measured judgment from General Smuts himself on the South African work of Lord Milner. Refused the Easy Task.

When Joseph Chamberlain left the cabinet or the tariff issue of 1903, Mr. Balfour offered the colonial office to Milner. Such a high and con-genial office must have been tempting. Moreover, the high commissionership of South Africa wa the most difficult and thankless of jobs in that rancorous time. But Milner would not think for a moment of leaving his post in South Africa, and he resisted all the persuasive dialectics of Mr. Balfour. The result was that Milner performed a miracle of reconstruction in South Africa which had been made a desert by the war.

Again in 1909, Milner definitely declared to the Conservatives that he would never accept office in any government which was not pledged to introduce compulsory military service. Though he was willing to make the best of the present situation by improving "consultation" as much as possible, he never pretended to agree with those who say that all's well with empire relationships, and the best thing to do with them is to leave them alone. The present relationships are ambiguous and Milner's mind could not endure ambiguity. He knew, however, he had reached an age when he must leave the new tasks of thought and action to younger men, and he believed that the initiative must come more from the dominions than from the mother country.

The Springbank car conductors heaped coals of comfort in the trolley furnaces for a good crowd that went to the park to play golf, tennis and softball.

Several of the plants grounds saw

ball games staged by men and women late in the afternoon. Most of the players wore sweaters and overcoats. There were a few fans

present.
Children, undaunted by the cool breezes and the scudding clouds, shrieked with delight as the cars approached their favorite park. They had a good time going about watching the animals at the zoo.

Over the Thames Valley golf course the players would not be done out of their exercise, and the day showed a good attendance in spite of the inclement weather. nclement weather.

Frenchy.

IKE BAKER'S band not only annexed two victories to celebrate Victorio Day, but dissipated two jinxes that have dogged the footsteps of local teams for seasons. Extraordinarily good crowds, despite the weather, saw the two contests.

By winning the pre-luncheon com-

tohedule-makers have annually persisted in pairing off the two clubs in Victoria Day bills.

By blanking the Wolves 10 to 0 in afternoon, they put Mogieur Lahaie, who has been a blight ou the local lot for two seasons, down among the fourth-rate jinxes. Bill Coogan, allowing the Wolves but four scattered hits, hurled one of the best games of his career, and permitted the Tecs to concentrate on their offensive against the pocket-sized ogre. Coogan got off to a shaky start, a hit being sandwiched in the first, but after that Coogan went along blithely until the sixth, when Breen and Tomer teamed in with successive singles to break the monotonous way in which the local flinger set the opposition down.

Brower opened it with a single, Sandquist walked and Kernan singled. Lahaie forced in a run by walking Vernilyea, and Coogan's second single off in his adversary showed in two tallies. Baker drew a walk. Klein's sacrifice fly scored Vermilyea, and Stimpson came through with a single, tallying two more counters. two more counters. Brower was hit on his second time around, and pot outs ended the noise of the firing and pattering of feet.

Sandy the Hero.

Sandquist was the hero of the morning game, along with Joe Deiman and a few other mentionables.

Sandy's home-run drive in the sixth inning, which went on a line above the inning, which went on a line above the fleet-footed Hughes' head and roiled on to the haystack, cinched the late breakfast affair. As the first local homer of the season. Sandy will be busy all this morning undoing parcels of merchandise. Sandy had started his good day with a double that paved the way for the Londoners' first marker in the second inning. Kernan's sacrificial choice and Vermilyee's single completed the business of getting one important with sandy also contributed with two sparkling bits of defensive play at third base, both stopping imminent railies. The first was a running dive into shorts. The first was a running dive into shorts were outstanding in four of vive great defensive high lights that kept the tarnish from spotting up Delman's brilliant effort.

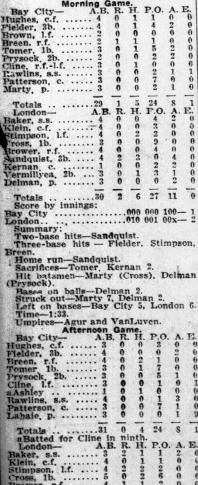

Delman's worst moments came in the seventh when Breen, who had relieved Brown in the fourth, took his first time at bat. He clubbed out a clean triple, and romped home on Tomer's sacrifice fly. Delman wounded Prysock to first, but Rawlins forced him at second, and then Baker brought the fans up from out of the depths of their overcoats by picking Patterson off at first base from Klein's squeeze of Tomer's terrific line drive in the ninth with one on and

WOODSTOCK BUSINESSMEN

DEFEAT BEACHVILLE NINE

Woodstock, May 25.—After losing to the Beachville nine in Woodstock on Saturday, the Woodstock business men came right back today at Beachville, and defeated the Quarry nine by 10 to 7. The locals were in a hitting mood, but gave McGregor, their college boy pitcher, only fair support. Home runs by Kelly and Rogers of Beachville, the latter with two on bases, failed to give Beachville sufficient runs to overcome an early lead garnered by the business men. McGregor allowed eleven hits. while two Beachville pitchers were slammed for sixteen safeties.

AFTERNOON GAME.

The Riversides were easily better in this afternoon's game. They showed a lot of fight and continued their heavy hitting, while the Terriers could do little with Young or Hales, getting two mean singles. While the visitors had one more error in the field than the locals they fought on gamely.

Preston broke the ice in the fifth, a double, five singles and a wild pitch giving them four runs. With only one hit the locals netted three counters in their half. Two walks and an error by Young filled the sacks, and them Murray crashed out the lone hit off the Riversides' twirler that brought in two runs. Hales then went to the mound, Mellauby's muff on fielding a grounder, following his bad throw to the plate, gave the locals their third. Galt tied it up in the next frame. With George Himes on third he worked the squeeze play with his brother Norman.

Sir Esme Howard Makes Firm Appeal To Reduce Fordney Law.

Washington, May 25.—Great Britain has made pointed answer to the recent speech of Ambassador Houghton. This is the general feeling here after reading the address of Sir Esme Howard, British ambassador, before the American Iron and Steel Institute in New York.

in New York.

The British argument that trade is the only solution of Europe's trouble, taken together with the significant delineation of America's commercial responsibility to the rest of the world, is viewed here as a polite, but firm appeal that the tariff wall erected by the Fordney-McCumber law be reduced.

It would have been indiscreet for the British ambassador specifically to criticize the tariff law, but without treading on undiplomatic ground, he showed the relationship between exports and imports in the British-American trade, and said plainly enough for American officials to grasp his meaning, that unless Britain sells more goods to America, neither she nor the rest of Europe can pay war Hold Up Caretaker and Carry
