

*gone to Montreal*

## FACTS That Every Autoist Should Know!

To get more mileage, more power out of Gasoline,

### You Should Use CARBONVOID

Puts the GO in gasoline; eliminates carbon; gives uniform combustion, no backfiring, perfect ignition; saves twenty-five per cent of your fuel cost.

One teaspoonful of Carbonvoid will purify and augment five gallons of gasoline. Drop it in your tank.

We guarantee Carbonvoid to remove and prevent the formation of carbon; guarantee it will not injure carburetor or motor mechanism as the result of its use; and further guarantee twenty-five per cent increase in mileage per gallon of gasoline.

Two sizes: Prices 50c and \$1.00.

**WOMEN'S VOTES**

In the Presidential election in November all women over 21 years of age have votes in Illinois, California, Kansas, Colorado, Washington, Oregon, Arizona, Montana, Idaho, Utah, Wyoming, Nevada.

A population having the right of Franchise of 3,665,442 is to be reckoned with in this election.

Hughes has made a big bid for this vote by coming out strong in favor of Woman Suffrage for the whole country as a Federal law.

This, we would suppose would get him the entire vote of the women in 12 States mentioned above but the Democrats laugh at this and say the Women's votes will go as goes the vote of the men. As husband, father, brother or lover, votes so will vote the fair sex all over the country.

**THE GERMAN MARRIAGE FAMINE**

**Taxes to Encourage Matrimony Are Being Urged**

The terrible elimination of the youth of the nation is causing great uneasiness in Germany. The Leipzig Nachrichten publishes an article on the position of Germany's family life as a consequence of the war. It says:

"Hundreds of thousands of healthy young men have never come back from the Fatherland's battles. In 1914 half the marriageable women in the empire remained single owing to the dearth of men. What will happen after the war if the State does not interfere? Patriots would like to see taxes im-

posed with the object of encouraging marriage and to discredit bachelorhood.

The journal suggests that all families of more than six should be completely freed from taxation. No unmarried official should ever expect to receive an

increase in salary. Every newborn child should mean promotion of the father.

The Government is reminded of the importance of building workmen's homes and garden cities which are at present lacking.

"Unless all this is done in time," it says, "a victorious war will be of little use to future generations."

**WHO AM I?**

I am more powerful than the combined armies of the world. I have destroyed more men than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns.

I spare no one, and find my victims among the rich and poor alike, the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the moving of every train.

I massacre thousands upon thousands of wage earners in a year.

I lurk in unseen places, and do most of my work silently. You are armed against me, but you heed not.

I am relentless, I am everywhere, in the home, on the street, in the factory, at railroad crossings, and on the sea.

I bring sickness, degradation and death, and yet few seek to avoid me.

I destroy, crush or maim, I give nothing but take all. I am your worst enemy.

**I AM CARELESSNESS — C.N. R News.**

On Sunday evening last Mr. Henry Publicover, keeper of the lockup, took the evening meal to the soldiers incarcerated. After they had partaken of their food they asked him to unlock the cell door and remove the dishes, he granted their request and had no sooner opened the door than one named Jackson hit him a heavy blow on the chest and knocking him to the large floor, escaped. He is still at large, but his actions indicate that he is trying to "break in" the penitentiary. — Item from ridgeater.

**Light in Weight — A Giant in Power**

Nothing could give a more delightful sense of perfect comfort than the roomy, deep-cushioned tonneau. But that's not all. Look at the big, pulsing heart of the car — the wonderful Planché motor, Four-cylinders, L-head type, cast en bloc with removable head — a motor with a long stroke of 5 inches — a closus of boundless power.

Come in to our Garage and let us demonstrate this Car to you. The Car you have been waiting for.

**A. L. PELTON & CO.**  
Main St. Kentville, N. S.

**Get Real Tire Economy!**

Motoring is two things — a pleasure and a business. One might say it was used sixty per cent. for entertainment and forty per cent. for commercial purposes. Yet no matter whether you use your car to get orders or ozone, your greatest economy will be the reduced cost of mishaps.

No accident ever befel an automobile but what the tires were forced to play a part in it. And no accident ever was averted but what the tires had a say in that, too.

If you will drive fast, If you will make those sudden stops, If the city will water asphalt, If rain will make muddy roads;

Why then — the possibility of skidding will always be with you, unless you figure on those elements of danger when you buy your tires. When you think of how to avert danger in motoring you immediately think of

### A New Bracer

Seth had been trying to cure himself of the alcohol habit by eating, instead of drinking, when the craving came on. One day he met a friend, who asked him how the plan had worked.

Seth said: "Fin. Wh, never I've felt like drinkin' I've made for a quick lunch over. Sometimes it's been hard. For instance, the other night in the room next to mine at the hotel a fellow shot himself. It was awful. There was a shot and then the body thudded to the floor. I jumped out of the bed and dashed down four flights and made for the office with just enough breath left to pant to the clerk:

"My God! the man in the next room has just killed himself—it was awful for God's sake—give me some ham and eggs—and a piece of lemon-pie."

"See here," exclaimed the irate guest, "one of your infernal waiters spilled a plate of soup down my back." "Don't let that worry you," assured the summer hotel proprietor, "I'll see that it isn't charged on your bill."

Yesterday morning Mr. James Nass was found dead in his bed at his boarding house. As he did not answer the call for breakfast, Mrs. John Conrad with whom he boarded endeavored to arouse him, but getting no response to repeated calls the door of his room was forced open and his lifeless form was found in his bed. He retired the evening previous in his usual health and it was startling to find his lifeless body when his room was opened. The deceased conducted a meat and provision business in the town of Lunenburg for many years and was well known throughout the County. He was a great horse fancier and many times held reins over some of the speediest ones in the Province, and when he was not a participant in races he was always to be found at the track side witnessing the speed contests with interest. He was about 75 years of age. —Lunenburg Progress.

Wanted—At once a book-keeper. Apply Boylan & Gaul, Kentville.

### HIGHLANDERS GREETED BY THOUSANDS AT HALIFAX

#### 219th Battalion Made Fine Showing

(Halifax Echo, Oct 12th) ... With two bands sending them along with a martial swing in the nipping air of October, with the sun glancing brilliantly on the gorgeous regimental colors, with their fathers, their mothers, their sisters and their brothers striving to keep up to them, the 219th Battalion, Nova Scotia Highlanders, well over a thousand strong paraded thru the City today, mingled once again with their friends on the Commons and marched away again to their barracks. Today will long remain a red letter day in the annals of this city, proud of its place in the annals of the Empire.

It was just about ten o'clock when the Highlanders set out from Pier 2 for their march through the City. In the van was a band and close behind them were the recruits of the 246th Battalion with a banner urging others to fall in and join the Halifax Company of the Reserve battalion. And then the long lines of the 219th Battalion, the crack battalion of the whole brigade. Men there were from Halifax, from the farms of Cornwallis and Annapolis Valleys, from the fishing villages of the rock bound coast of the Atlantic. Big, brawny and bonny men with a long swinging stride, rose powerful shoulders and rosy ruddy cheeks. They were in the very pink of condition of health, the very finest product of the Province a breed of many men, a steel tempered in the heat and cold of this tight little Province down by the sea.

Through long lines of spectators they marched, on up to the Commons where they were greeted with more thousands. It is unnecessary to say that fathers and mothers, wives and sweethearts, sisters and brothers were there with arms, loaded with packages. Many were packages of tobacco, doubtless, candy, perhaps some of those molasses cookies "that mother used to make," socks and everything imaginable.

The men broke ranks at once and mingled with their kin. Some who did not have anyone there to greet them assumed an indifference they did not feel, and stretching out on the grass figured they would have their revenge when they shared in those packages of good things. All too soon the bugle sounded ranks. But 'did they keep good and the boys were again in the order? Well hardly. Mothers and sisters and fathers and brothers walked with their lads to the very barracks. Military discipline was for a time forgotten and all gave themselves over to those emotions that move one most deeply. There was no cheering.

A very pretty wedding and one of much interest to Halifax people, was solemnized quietly last week at the residence of Mr. and Mrs. Harold S. Freeman, Carleton Street, when their second daughter, Natilie, was united in marriage to Lieut Frederick Herbert Palmer, son of Captain and Mrs F. C. Palmer of Kingston, Ont., Rev. Dr. Archibald of Acadia University, and uncle of the bride officiated and Rev. Dr. Kempton of Dartmouth, the bride's great uncle, who also officiated at the marriage of her parents.

### WESTERN BOARD HAS IMPORTANT BUSINESS BEFORE IT

(Daily Post Yarmouth)  
The second quarterly meeting of the Western Board of Trade was held in the court house last evening. There were present delegates from every Board of Trade between Kentville and Yarmouth except Bridgetown and Canning. President George E. Corbett occupied the chair.

Quite a number of important matters were discussed but owing to the short space of time at the disposal of the delegates

many matters were left over—some of the council and others to the next meeting. The order sheet was as follows:

- 1—Employment for Returned Soldiers.
- 2—Transportation.
- 3—Tourist Travel and Business.
- 4—Motor Boats.
- 5—The Cultivation of Blueberries in the Annapolis Valley.

L. M. Fortier, and B. B. Hardwick, both of the Annapolis board moved a resolution, which afterwards passed, to have the provincial government appoint a commission to consider the advisability of dividing up vacant farm lands into smaller parcels and of placing emigrants or returned soldiers on the land under such terms and conditions as to make it easy for them to make a living for themselves in this section of the Province.

The question of the dredging of Yarmouth harbor was introduced by the local board. The urgent need of the work was pointed out. The rapidly growing freight and passenger business makes it necessary that the present boats be replaced by larger ones and this can not be done until the harbor is dredged.

The request of the local board for the co-operation of the Western Board was unanimously endorsed.

It was decided that in the future all local boards should give the secretary thirty days' notice of any business they

wished to bring before the Western Board, and that every delegate be furnished with a programme.

The matter of muffled exhausts on fishing boats was left over for the next meeting.

Minard's Liniment Co., Limited.  
Gents.—A customer of ours cured a very bad case of distemper in a valuable horse by the use of MINARD'S LINIMENT.

Your's truly,  
VILANDIE FRERES

**Notice to Subscribers in Arrears**  
Claims for unpaid accounts are pressing us and it is necessary to raise a large sum of money at once. To pay our accounts promptly and save legal expenses, we must collect all our outstanding subscription and printing accounts.

All subscription accounts over two years in arrears will be handed over immediately to a magistrate for collection at the rate of \$1.50 per year and his costs. As several bills have been sent out and no notice taken of them by many who are in arrears we cannot add further save the magistrate's letter and added cost remittances due for over two years should be mailed us this week, or a letter or card forwarded to us stating what postage to those accounts. To some further time is required and when account can be paid in full. We will listen to any

reasonable request for time where a distinct time for payment is promised.

The cost of producing our paper has about doubled the past two years and we cannot longer allow subscribers to remain in arrears.

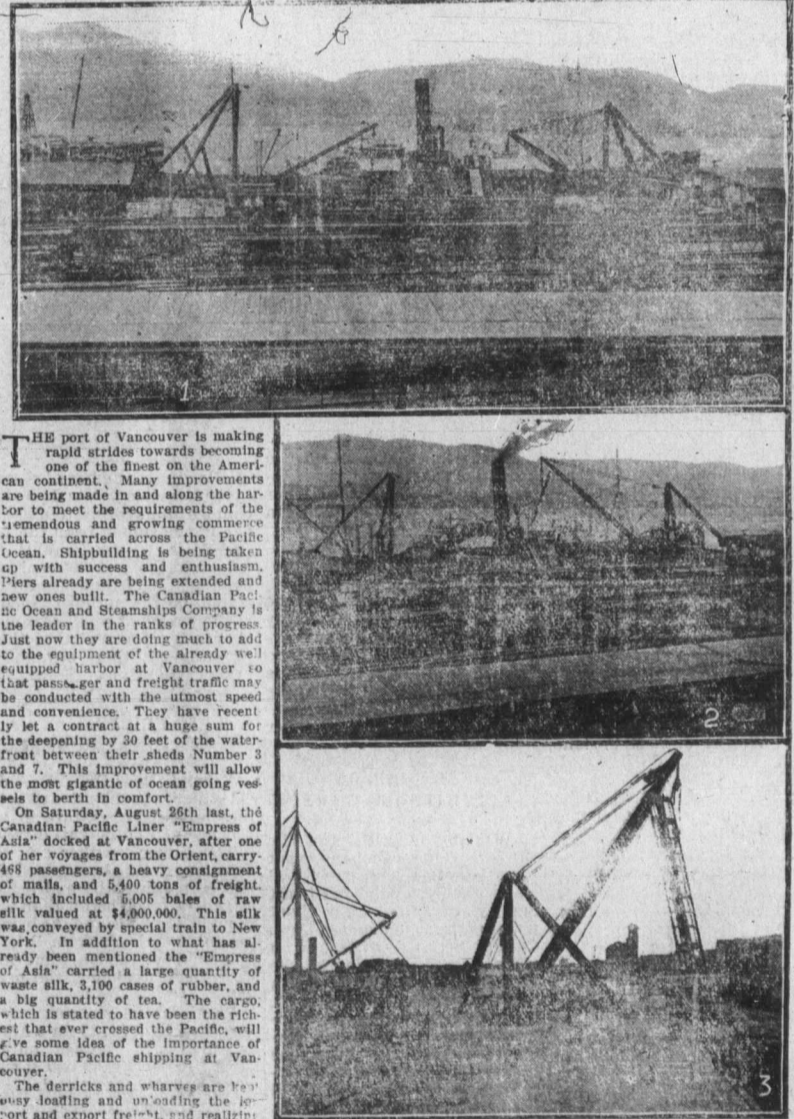

Send Post Office or Money Order to  
H. G. HARRIS,  
Kentville

### SHELTER AND COMFORT

The colder the weather the greater will be the requirement for food to make up for the lack of shelter provided. The dairy cow is more susceptible to the lack of shelter than either the winter or the fattening steer, on account of the small amount of flesh she carries, and the large quantity of water she must consume because of her milk production. There are no exact figures showing just what the loss would be from the lack of shelter, but it is safe to say that it would be great, depending upon the severity of the weather and the amount of milk produced by the cow in the beginning. It would be impossible to maintain a cow at a high level of milk production without giving her protection from the weather.

For Sale—About 500 Hemlock Logs, South two miles from Kentville. Apply John Redden, Kentville.

## HANDLING FREIGHT on the PACIFIC

THE port of Vancouver is making rapid strides towards becoming one of the finest on the American continent. Many improvements are being made in and along the harbor to meet the requirements of the tremendous and growing commerce that is carried across the Pacific Ocean. Shipbuilding is being taken up with success and enthusiasm. Piers already are being extended and new ones built. The Canadian Pacific Ocean and Steamships Company is the leader in the ranks of progress. Just now they are doing much to add to the equipment of the already well equipped harbor at Vancouver so that passenger and freight traffic may be conducted with the utmost speed and convenience. They have recently let a contract at a huge sum for the deepening by 20 feet of the waterfront between their sheds Number 3 and 7. This improvement will allow the most gigantic of ocean going vessels to berth in comfort.

On Saturday, August 26th last, the Canadian Pacific Liner "Empress of Asia" docked at Vancouver, after one of her voyages from the Orient, carrying 468 passengers, a heavy consignment of mulls, and 5,400 tons of freight, which included 5,000 bales of raw silk valued at \$4,000,000. This silk was conveyed by special train to New York. In addition to what has already been mentioned the "Empress of Asia" carried a large quantity of waste silk, 3,100 cases of rubber, and a big quantity of tea. The cargo, which is stated to have been the richest that ever crossed the Pacific, will give some idea of the importance of Canadian Pacific shipping at Vancouver.

The derricks and wharves are busy loading and unloading the import and export freight, and realizing the great utility of these machines the Canadian Pacific Company has introduced the latest and best into its system.

Photograph 1 shows a vessel loading. The derrick to the left of the picture has a capacity for lifting 15 tons, and that to the right has a capacity for lifting 50 tons. Both are operated by electrically driven winches. The 15 ton derrick, which has a beam of 50 feet, is capable of taking fifteen ton lifts from the second train track along the wharf to

the vessel's hold. The 50 ton derrick, with a beam of 80 feet, can handle lifts direct from cars on any of the three tracks direct to the vessel's hold. This derrick has been recently installed.

The second photograph shows a 15 ton derrick (on the left) taking a two ton lift out of a gondola car on the second train track. This lift is being taken over a box car. The 50 ton derrick (on the right) is handling an eight ton lift in the case of a

underframe for a Russian box-car. Photograph 3 shows the 50 ton derrick swinging a Russian box car underframe from car to vessel. Large cases on the dock shown in this picture are made up of cotton linters, which in size average about 32 cubic feet each. From these pictures it will be seen that the Canadian Pacific have provided every possible facility of the most up-to-date type for handling heavy freight at its Pacific terminal.

## A GREATER CANADA

There is a movement on foot in Canada having for its objective the inclusion of the Bermudas and the British West Indies in the Dominion. The inspirers of the movement include a number of prominent Canadians who have banded themselves together as the Canadian West Indian League. The proposition has not as yet passed beyond the embryonic stage, but it is believed that people of the islands would generally welcome the change. If the proposed union should be effected, British Honduras and British Guiana—and possibly the far away Falkland Islands—might also be included in the consolidation, Newfoundland, which has hitherto persistently refused to become a part of the Dominion, would probably relent and thus complete the unification of British America, if the rest of Britain's colonies in the Western Hemisphere should get together.

## CANADIANS DO THEIR DUTY

General Sir Sam Hughes, Canadian Minister of Militia, has received a letter from Sir Douglas Haig, of which the following is an extract: "I desire to express my sincere appreciation of the generous terms in which you refer to the achievements of the army in France. It must be a source of pride and gratification to you to know that the gallant officers and men who come from Canada to fight for the King and the common cause of our Empire invariably do their duty in a way that reflects the greatest possible credit on themselves and their Dominion."

## OFFICERS OF THE 219th BATTALION.

The officers of the 219th Overseas Battalion C.E.F., are as follows:

## INFANTRY

## Wounded

Mounted Rifles  
Jas A. Wilson, Berry's Mills.  
Wounded—Robert Ernest Day, 41 Fenwick St., Halifax.

## ONLY SON OF E. S. TRACEY KILLED IN ACTION

Halifax, October 16th—Private Weldon Tracey has been killed in action. The sad news of the death of their only son was received by Mr. and Mrs. E. S. Tracey, Woodill street, Saturday evening. Mr. Tracey is the proprietor of the vinegar and pickle factory on Kempt road.

Private Tracey was twenty years of age. When the war broke out he was in the employ of Senator Roche. He left that office to enlist in the 63rd and was with the men stationed in the trenches along the Cole Harbor road. He left the 63rd after some months service and re-entering civil life he took a position in the office of the Imperial Oil Company. The call of Empire he could not resist and he enlisted in the 64th for overseas service and in April last crossed the Atlantic.

The young man who has gallantly met a hero's death had a great number of friends. Those who knew him best testify to his sterling worth and marked ability. He was a son deserving of the pride in which his parents held him and they have the sincere sympathy of a host of citizens in their sad bereavement.

## GUN MOUNTED ON LEYLAND LINER CAMBRIAN

Boston, October 15—The second armed merchant steamer to reach port this year arrived today when the Leyland liner Cambrian, with a four inch gun mounted on her after deck, came in from London. The gun, which was installed as a protection against submarines, was manned by two members of the ship's crew, and on the way across barrels were thrown overboard and used as targets to give the men practice. Members of the crew said that two weeks ago they saw a Zeppelin brought down in flames over London.

## STEPHANO FIRED ON WITHOUT WARNING

Washington, Oct. 15—The British steamer Stephano, sunk by the German submarine U-53 off the New England coast last Sunday, was fired on without warning, her commander, Capt. Clifford Smith, reported in an affidavit received today by the State Department. Capt. Smith declared three shots were used, the first of which hit the Stephano's bow. No evidence corroborating his statement has been received by the Department, and action probably will not be taken until the U-53 has had time to reach home.

Germany's great object in this war was to get a big firm hold on the Near East. Constantinople was to be an "adjunct" of Berlin, along with Vienna and Sofia, and perhaps Bucharest and Athens. That grip is gradually being loosened, though Germany is clutching at the Balkans for dear life.

## THE OFFICIAL BULLETINS

Although Roumanians in Northwest Transylvania continue to fall back before the Austro-Germans, from this region all along the battle line to the vicinity of Orsova, on the Danube, they not alone are giving battle to their adversaries, but at several points, by violent counter attacks, have gained an advantage over them.

Bucharest admits the retirement of the Rumanian forces in the Kalmin mountains, on the northwest front, but says further south infantry of the Teutonic allies were put to fight by their artillery fire. Successes also were obtained by the Rumanians in the Oltuz and Jiul valleys, where violent attacks were repulsed with heavy casualties. On both sides of the Szurdok Pass the Rumanians continue on the offensive, but says their attacks have been repelled. To the north of this region, in the Carpathian mountains, the Austro-Germans have re-captured the height of Smotrec. In Volhynia violent fighting has again broken out. Here both the Russians and the Teutonic allies claim successes for their forces. Petrograd says that north of Korytniza the Russians captured a German trench, inflicting heavy casualties on its opponents. Berlin says Russian attacks were repulsed on the Stokhad.

Berlin admits that the British north of Thiepval gained a firm hold on the German trenches, and that the French south of the Somme have won a footing in the sugar refinery at Genemont. The French, in Saturday's fighting in the Ablaincourt-Belloy sector made 1,100 Germans prisoner.

In Macedonia the Serbian troops have made a further advance along the left bank of the Cerna river, while the French have cut the railway line south of Seres. The fighting throughout the region consists mainly of artillery duels, only isolated infantry attacks having been reported.

Still further gains for the Italians against the Austrians in the Carso region of the Austro-Italian theatre are recorded by Rome.

The convoking of the Greek Chamber of deputies, which was to have taken place Saturday, has been postponed for a month by decree of King Constantine.

## SAYS COAL PRICE WILL NOT ASCEND

Following a number of reports in which many local dealers claimed that, owing to a shortage in the supply from the United States a considerable increase in the cost of coal was pending, it is now definitely stated, on the authority of one of the principal retail coal merchants in Montreal that there will be no further advance in price this season.

## POTATO PRICES DROP IN ONTARIO

Coburg, Ont. Oct. 14—A decided slump in the price of potatoes is the big feature in the produce market of this district. The cooler weather and the occasional rains have helped the late crop materially and it bids fair to be much better than was thought for. This and the bringing in of carloads from British Columbia and the Maritime provinces has weakened the market.

Local dealers are now offering potatoes at \$1.65 for a ninety pound bag whereas only a short time ago -2.00 a bag was asked and 60 cents a peck.

The 239th Construction Battalion, which has been stationed at Valcartier will move to Windsor in a few days and occupy the quarters of the 112th Battalion. As soon as the unit is recruited up to strength, which should be in a few weeks, the battalion will be ready to proceed overseas.

WOLFFVILLE, N.S.

## ITALIAN MAKING GOOD PROGRESS

Rome, Oct. 13, via London—In the Pasubio region of the Trentino Italian troops have taken strong Austrian positions between Sette Croci and Monte Boite, says the official statement issued by the War Office today. Austrian attacks in the same region were driven back, it is added. Italian troops, the statement says, also have made considerable progress on the Carso plateau, where there has been heavy fighting during the past few days.

## GERMAN LOSSES SINCE WAR BEGAN 3,554,018

London, October 12—German casualties from the beginning of the war to the end of September were 3,554,018, according to an official British compilation as given out here today. The statement says:  
"German casualties, exclusive of corrections, reported in the month of September in German official casualty lists, were:  
"Dead, 32,282.  
"Prisoners and missing, 32,259.  
"Wounded, 115,343.  
"These added to those reported in previous months, including the corrections reported in September, total since the war:  
"Dead, 870,182.  
"Prisoners and missing, 428,829.  
"Wounded, 2,257,007.  
"The figures included all the German nationalities—Prussians, Bavarians, Saxons and Wurttembergers. They did not include naval casualties or casualties among the colonial troops.  
"It should be noted that the figures do not constitute an estimate by the British authorities. They merely represent the casualties announced in the German official lists. Also that the casualties are those reported during the month of September, and not reported as having incurred in September."

**THE CANKER WORM**

(By G. E. Sanders, Field Officer, Dominion Entomological Laboratory, Annapolis Royal, N.S.)

We again beg to call attention of apple growers through out the Valley to the very serious outbreak of Canker Worm no at its height, and to remind them that the best method of combatting Canker Worm is to band the trees with tanglefoot between the 20th and 25th of October, so as to prevent the ascent of the wingless females or slugs.

A summary of the Canker Worm life-history is as follows:

The winter is passed in the egg stage, the eggs being deposited in every irregular patches or clusters on the limbs of the tree. About four or five days before the apple blossoms open in the spring the young caterpillars emerge on the leaves, often defoliating entire orchards and getting more difficult as they grow. In the caterpillar stage they are popularly known as measure worms or inch worms, and may be solid green or striped with black, depending on their maturity. About the end of June they drop to the ground and burrow down about one inch and there pupate. About the first of November the adults appear; the males wings small winged moths which may be seen flying about the trunks of the apple trees, the females small wingless slugs which crawl up the trunks of the apple trees to deposit their eggs on the branches.

The best method of combatting the Canker Worm is to place a band of tree tanglefoot from two to three inches wide around the trunk of the tree and so prevent the females from depositing their eggs.

Home-made tangle foot may be made by boiling 9 lbs of resin 7 pints castor oil and 1-4 lb of paraffin or beeswax together. If found to be too hard, add more oil, if too soft add more resin, tempering to suit temperature.

Commercial tree tanglefoot may be obtained from any of the agencies of the United Fruit Company in the Province and is probably better and as cheap as the homemade article.

When the orchard is infested with Canker Worm and banding is not practiced, a very thorough application of poisoned spray immediately before blossoms next spring, when the young caterpillars are very small and so most easily poisoned, is all that can be done to prevent defoliation in an orchard.

**GREECE WILL MARCH AGAINST BULGARS**

London, Oct. 12—The Exchange Telegraph Company's Athens correspondent quotes former Premier Venizelos as declaring, in a speech at Saloniki, that he has placed himself at the head of a movement which was bound to succeed.

"The islands have all adhered to the movement, and are prepared to the mobilization which will be declared shortly," said Venizelos. "The constitution must be revered, even if we have to march without Athens and old Greece. We intend to march against Ferdinand and his treacherous troops."

**CREAM TEST AND BUTTER FAT**

How much is the test of cream that gives five pounds of butter, unsalted from a gallon?

A gallon of cream will weigh approximately eight pounds while a pound of butter will contain about 85 per cent fat. The five pounds of butter will contain four pounds of fat while the rest will be largely water, a small portion of casein and traces of other matter. To get four pounds of fat from the eight pounds of cream would require half the cream to be fat of 50 per cent. Therefore, cream testing 50 per cent will make five pounds of butter.

**MAN POWER OF CANADA OVERSEAS AND AT HOME**

Ottawa, Oct. 12—The conference of directors of national service which began on Tuesday, was concluded today and a statement issued by the director-general, Sir Thomas Tait.

It is announced that an inventory or census of the man power of Canada is to be taken and that men who offer for military service, and whose services to the state as employees at home are considered of greater value, will be exempted from service and will be given badges. To promote the employment of women it is proposed to organize women's national service boards in various parts of Canada.

All the directors attended the conference, Dr. Abbott, of Toronto, acting as secretary.

In reference to the exemption of men of military age from enlistment because their service in the employment in which they are engaged, are of more value to the state than if they were enlisted, the directors of national service make the following announcement:

Any man of military age who will offer in writing to enlist, and who the director of national service for the district determines is of more value to the state in the employment in which he is engaged than if he were enlisted, will be exempted from enlistment subject to appeal to the director-general.

Every such man will be given a badge and certificate and the wearing of such badge will signify that he has offered to enlist and that he has been exempted from enlistment for the reason that his services to the state are of more value in the occupation in which he is engaged than if he enlisted. Such exemption from enlistment will hold good as long as it is considered that his services are of more value to the state in some other capacity than in the naval and military forces.

In the case of a man who hereafter may enlist and who subsequently is considered by the director of national service to be of more value to the state in the occupation in which he was engaged previous to his enlistment than in the military forces, such man will be released from the military forces, so that he may resume the previous occupation in which his services are considered to be of more value to the state.

The subject of the better utilization of woman labor was thoroughly discussed and it was the sense of the directorate that the temporary substitution of women for men in industrial and other occupations and the more general employment of women in industrial life would help to maintain national production and promote financial stability.

**THE INFAMOUS WARFARE OF THE GERMAN NATION**

London, Oct. 12—The Daily Express this morning says:

"The depth of infamy to which the German nation has descended in its war against civilized mankind is shown by the official announcement from Bucharest of the discovery at the German legation of flagons labelled 'virus morve,' intended to propagate simultaneous epidemic among men and horses. The fact that a representative of the United States legation witnessed the discovery is convincing proof of its truth."

"Virus morve" proved one of the most loathsome disease known to mankind, generally known as glanders," said one of the most eminent pathologists in this country to the Daily Express representative yesterday. "It would be fiendish to spread it among human beings to whom it is practically always fatal. Death may come rapidly or gradually, and the victims might undergo terrible sufferings."

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live with a nine miles of his homestead on a farm or at least 80 acres, on certain conditions.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price, \$3.00 per acre.

Duties—Six months residence, in each of three years, after earning homestead patent; also 30 acres extra cultivation.

The art of cultivation is subject to reduction in case of rough, scrubby or tony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G., Deputy of the Minister of the Interior

NOTICE

Now is the time to get your chimneys cleaned before it is too late, as most of the fires originate from dirty chimneys. Just send a card to BUSH BROS., Kentville.

DUTCH GOVT. ASKS GERMANY TO EXPLAIN

The Hague, Oct. 11.—The Dutch Government, it is learned, on the basis of facts already ascertained, will ask Germany to explain the sinking of the Dutch steamer Bloomersdijk in the Atlantic, off the New England coast, last Sunday.

Minard's Liniment Relieves Neuralgia.

FLAME OF GOD

(A Sonnet in Memory of Rupert Brooke, Poet-Soldier Died at Sycross, in the Aegean, Aged 29)

BY SERGEANT J. D. LOGAN, 85TH BATTN.

There is a grave in Sycross, amid the white and pink marble of the isle, the wild thyme and the poppies, near the green and blue waters. There Rupert Brooke was buried. Thither have gone the thoughts of his countrymen, and the hearts of the young especially. It will long be so. For a new star shines in the English heavens.

COMPANION of the great in song and arms! What legacies you left us lesser men!— Brave songs of death that quelled Death's dread alarms, And gifts of self that cannot come again.

On earth the white, swift Flame of God you were!— Your ur-shining speech illumed men's murky thought; Your ventures made mere dreamers bold to dare; Your self-surrenders dear atonements wrought.

Brother of Chaucer, Shakspeare, Byron, Keats, And brother, too, of Drake and Wellington, Know, Poet-Soldier treading God's retreats, That you raised England's glory 'neath the Sun:

Your rare, brave songs and deeds immortal are; Your name in England's heav'n—a steadfast star!

VIRTUES OF ADVERTISING

(Kingston Whig)

The surprise of the war in every country, but especially in Britain, France and Canada, is the invisible wealth of the masses. They have been constrained to study and practise thrift, and they have done it to advantage. The result is that when national loans have been put upon the market and the people have been asked to subscribe to them they have gladly done so.

ALL PLAYING THE GAME

According to the Halifax papers, at least, the Provincial Exhibition was in part a sort of a "Devil's Auction."

The bone of contention seems to have been the so called "Fakir's row," and yet it was no new thing in connection with the show.

An exhibition without the "phony" side would be like a circus without peanuts and pink lemonade.

After all, it is not a break neck leap from the stock exchange to a fakir's row. Both are a case of one fellow trying to get something from the other fellow for nothing, trying to beat the machine that was made and rigged to beat you.

People who hold up their hands in holy horror at a so-called fakers' game will play the stocks, roll their eyes heavenward, and thank the Lord they are not as other men, as those who lay the rings for canes and Jackknives and bet on the elusive pea beneath the shell.

There is only one square game, and that is the manly, game of winning your bread by the sweat of your brow, and so-called fakers are not the only people who do not want to play it. That's the only game the good Lord approves of—New Glasgow Enterprise.

TOMMY ATKINS

The name of Tommy Atkins, which is universally applied to the British soldier, originated at the time of the Indian Mutiny. When the rebellion broke out in Lucknow all the Europeans fled to the Residency. On their way they came across a private of the Duke of Cornwall's Light Infantry, who was on sentry duty at an outpost. They urged him to make his escape with them, but he refused to leave his post and was killed. His name happened to be Tommy Atkins, and whenever a deed of exceptional daring was performed during the Mutiny the doer was said to be "a regular Tommy Atkins." Since then the expression has been used in a more general sense, and now applies to all British soldiers.

STRAWBERRIES SOLD AT FIFTY CENTS

A strawberry grower, from Glenwood brought a box of strawberries to town yesterday and sold it to Cain Brothers, who later retailed it at 50 cents. The berries were of excellent size and quality and were of the Everbearing variety. The plants were put out in the spring and he has been taking fruit from them all the fall. He expects to have another box in town next week.—Yarmouth Post.

Pretty Women Prefer Plain Walls

Why? Because walls of solid shades provide better backgrounds for beautiful faces, figures and frocks than those which are "cluttered up" with intricate wallpaper patterns.

One important reason for the rapidly-growing popularity of

FRESCO-TONE

The easily applied, artistic wall finish

is that artistically-inclined women have discovered how well it sets off their beauty and that of their dresses, pictures, curtains, and furniture. Its soft, velvety, colors, may be selected to harmonize with any style of furnishings, and, being non-fading and washable, Fresco-Tone walls preserve their original beauty for many years.

And the most gratifying fact of all—to many women—is that Fresco-Tone, in spite of its superiority, costs less than ordinary qualities of wallpaper.

For beauty, cleanliness, durability and economy, use Fresco-Tone.

T. P. CALKIN & CO., KENTVILLE, N. S.

our local agents, will give you suggestions for color schemes and supply you with genuine Fresco-Tone.

BRANDRAM-HENDERSON LIMITED

### CORRESPONDENCE

Dear Mr. Editor:

As your readers know, a campaign is now being entered upon to secure several thousand dollars from the people of Kings County for the Canadian Patriotic Fund. Will you kindly permit me through your columns to make a suggestion or two re this matter? It is well known that the proximity of some six thousand soldiers to the town of Kentville for a period of three or four months has resulted in great financial benefit to the people of that town, using people in a general sense. A very modest estimate would put the amount spent by the military in Kentville during the last summer at \$80,000 to \$100,000. Very probably that sum was largely exceeded. In view of this it would seem that the splendid thing for Kentville to do would be to subscribe at least five thousand dollars to the Patriotic Fund, thus showing in the only practical way its appreciation of the free manner in which the military men have spent their wages in and around the shire town. Let Kentville "give" as well as "take," and she will have no envious eyes upon her good fortune.

Another suggestion: It is well known that a large army of men owning or hiring autos have reaped a rich harvest carrying soldiers from place to place. One man tells of earning \$1200, another of \$800, and so on. Nobody begrudges their success, but a whole lot of people are looking to these men to subscribe generously to the Patriotic Fund. Indeed they should not wait to be asked, but in appreciation of their good fortune in finding such an easy way of earning "good money," should volunteer a big contribution, either as individuals, or as a body.

These are only suggestions, but it is hoped they will be seriously considered, and made to yield a generous amount to the Patriotic Fund.

Yours truly,  
"COUNTY."

### IMPORTANT GAINS BY THE BRITISH

London, Oct. 14.—The official report from British headquarters in France tonight says:

"In local attacks today south of the Ancre we improved appreciably our position in the neighborhood of the Schwaben Redoubt (Thiepval region) and have taken 200 prisoners. Elsewhere there is nothing to report."

Enterprises undertaken yesterday by British troops in the neighborhood of the Stuff Redoubt, in the river Somme region, were highly successful, says the official statement issued today by the British war office. More than 300 Germans were taken prisoners. The text says:

"Further reports show that the enterprises undertaken yesterday in the neighborhood of Stuff Redoubt, were highly successful. North of Stuff Redoubt two lines of the enemy communication trenches were cleared for a distance of nearly two hundred yards. Nearly 300 men were taken prisoners in the course of these operations which were carried out by a single company. At the Schwaben Redoubt our gain was greater, and our line was advanced well to the north and west of the redoubt. Heavy losses were inflicted on the enemy. The total number of prisoners taken in both operations, including those reported last night, is two officers and 303 of the other ranks.

The enemy blew up a mine last night in the neighborhood of Loos. No action followed. During the night the enemy's trenches were entered west of Serre, north of Roelincourt, northeast of Festubert and north of Neuve Chapelle, prisoners were taken, and considerable damage was done to the enemy's defences."

Just received one car Canada Cement. T. P. CALKIN & CO.

### AN EYE FOR AN EYE

That surely is a rare proposal—very rare, very beautiful, very full of meaning—reported in the despatch from Paris three days ago, as made by a young English woman in a letter to one of the most famous oculists in France. He held it possible to save the sight of a wounded man by grafting a portion of the cornea of another person's eye. She wrote:

"If you believe there is any chance of success in a million I will give you one of my eyes for a soldier who lost his sight serving for France. I would prefer to give my eye to one to whom it would be especially useful—an inventor or an officer of great value."

That certainly is in very truth "an eye for an eye." But what a reversal, what a direct and absolute reversal of the old law of the "lex talionis," the pagan law of retaliation!

Two thousand years ago that pagan maxim, "an eye for an eye," still survived, and was familiar to the students of Jewish theology. But over against it was released the new idea, the idea which, first in individual life, then in social custom, and now seen in the politics of the nations, relegates retaliation and revenge to the dump-hill of paganism.

But how came this young English woman to conceive the surprising idea of a sacrifice so complete? She tells it in her letter:

"I shall consider myself under an obligation to you for

is the cheapest FEED on the market to day by far, and our advice to you is to lay in your Winter supply now as it will be considerably higher. We have just imported direct from Jacksonville, Florida, a car of the best grade, and our price is low on it by the ton lots.

**C. O. COOK & SON,**  
Waterville, June 25, 1916.

permitting me to be of use to my country in the only way possible for me."

There is real patriotism for you expressing itself in the terms of devotion. "Of use to my country!" Not a parasite feeding on my country's blood. Not a pirate enriching myself at my country's expense. Not even an idler doing nothing because nothing easy comes to hand. But doing the one thing she could do, and doing it for her country.

"The only way possible for me!" Not the desired way. No person desires to lose an eye. But the knitting of socks was for her not possible, nor the teaching of school, nor the raising of money, nor the working on munitions. "The only way possible for me"—the giving of an eye for one whose sight means infinitely more to "my country" than two eyes ought to mean to me. And she would gladly give the eye that through another's service she might serve her country.

And all over Britain, all over France, all over Canada, are men and women who, in the deep silence and strange light of this test time, have learned or are learning what that means: it is better to enter into the larger life with one eye, rather than having two eyes to go down into the enjoyment of selfish ease and the wallow of selfish wealth and the dark inferno of the selfish life.
