Mr. MacGregor, the new engineer of the *Prince Rupert*, says the steamer will go on the route next Tuesday, as by that time her repairs will have been completed.

The cylinder was not the only portion of the machinery which was damaged, for Mr. MacGregor discovered that the low pressure cylinder rod was badly bent, and this further complicated the work. He says that he cannot tell what the cause of this was. The bent will not go to Halifax to be dry docked this fall but will be sent there early in the spring, so that she may be in the best possible condition for next summer's business.—*Digby Telegram*.

What Belgium is Doing in Temperance

Education.

The School Physiology Journal, is a

monthly periodical, published at Boston

and edited by Mrs. Mary H. Hunt. It is

devoted to the subject of Temperance

teaching in the public schools, and has

for its motto: "If we save the children

to-day, we shall have saved the nation."

A recent number contains an article

translated from the International Monthly,

published at Leipzig, Aug. 1896. It

gives some idea of the spread of the

"American Educational Method for the

Prevention of Intemperance," as the

people of other countries call the com-

pulsory temperance education move-

ment which owes its origin to Mrs. Mary

H. Hunt. Through her efforts all but

four of the states in the Union have

enacted laws requiring scientific tem-

perance teaching in the public schools.

Canada has also listened to her voice,

and enacted similar laws, and her in-

fluence has extended to several of the

European governments, notably France,

England, Russia and Belgium.

The extracts which follow are from

the article above referred to:

"Of all the measures which have been

undertaken in Belgium for resisting

alcoholism, the attempt to warn and

shield the youth in school against the

danger is surely the most important.

The initiative for these efforts emanated

from the Belgian Unions who had set

themselves to resist alcoholism. Such

Unions formed rapidly in many com-

munities, and their number is on the in-

crease. The last official report of De-

cember 31, 1895, gave the following

cheerful picture:

Of 3,940 public schools and private

schools receiving state aid, 47 per cent

had a Temperance Union. Of the 104,

015 boys, aged at least eleven years, who

attended these schools, 32.84 per cent be-

longed to a Union. At that date, 64,

844 pupils (boys) of the public primary

schools had taken the required pledge.

Besides these Unions, whose finances

support the present Minister of Public

Instruction, Mr. Schollaert, has warmly

recommended to the public in a recent

circular, it appears there is instruction

in the fundamentals of hygiene, which

(study) was declared by law Sept. 1895

to be mandatory for all primary schools.

Instruction as to spirituous liquors natu-

ally takes an important place here, and

through the publication of a book for

teachers on this subject, it is to be carried

still farther. Moreover, the teachers are

requested, even in the course of other

lessons, to seek fitting opportunities for

impressing upon the children the nature

and effects of alcoholic drinks.

Even in girls' schools, henceforth

teaching in regard to the alcohol question,

based upon scientific and ethical facts,

will be introduced.

The pledge now requires abstinence

from distilled liquors till the twentieth

year, but on the other hand, names in

moderation in connection with beer and

wine.

One question seems to us of vital im-

portance in attaining a suitable result

from the work commenced; that is, the

extension of this pledge to include all

spirituous liquors without exception.

Not from fanaticism, but for good rea-

sons, we believe that this half pledge

should be displaced by the foundation

principle of total abstinence.

It has recently become known that

acute physicians everywhere of late years

are opposed to the use of all kinds of

spirituous drinks by immature persons,

as injurious and dangerous. It is also

well to consider that the physicians who

speak of this have in mind, for the most

part, not brandy at all, but especially

beer and wine.

For these reasons I am of opinion that

the Belgian School Unions will as soon

as practicable pass to the stage of total

abstinence. One might look at the mat-

ter seriously if brandy were the only

drink under consideration, but the Bel-

gians show a strong inclination for beer;

hence the extreme need of including

beer in the pledge.

But we must ask that of all what

these Unions are to accomplish, it seem

to me the results will be two-fold, re-

garded even from a hygienic standpoint.

First it will preserve in the children

their healthy instinct, their natural aver-

sion to all alcoholic drinks.

Another object which will be attained by

these young people's Unions seems to

me still more important: the children

will see and experience for themselves

the fact that without any spirituous

drinks one may live contentedly and per-

form his duty. The impression as to

the favorable effects of spirituous drinks,

the idea that they are indispensable, will

never be eradicated until the youth are

brought up in total abstinence.

That these Unions will meet with

strong opposition, and may, at first, re-

troude, is highly probable. But it is not

the majority who decide. Five thou-

sand children brought up to the principle

of total abstinence, allowed to taste no

spirituous liquors, and taught to accept

this naturally and as a matter of course,

are more mighty in the struggle against

the drink habit than fifty thousand who,

even if they drink no strong liquors,

take beer and wine, and look upon the

same as (though possibly a little danger-

ous) yet agreeable, wholesome, and de-

sirable.

It is evident that such a change as we

wish to see brought about is possible

only with the aid of co-workers, and the

active example of total abstinence among

adults, particularly teachers. For such

an alcoholic land as Belgium, a stately

host of abstinence teachers and edu-

cators would indeed be a great good for-

tune, and by no means one of the least

gains which the country would derive

from such a reform."—Translated for the

Journal.

SUFFERED FOR YEARS.

The Experience of Mr Grant Day,

of Harrowsmith.

He Suffered Much From Rheumatism

Especially During Spring and Autumn—

Following a Neighbor's Advice

Brought About a Cure.

From the Kingston Whip.

One who has been released from years

of suffering is always grateful to the per-

son or the medicine that has been the

medium of release. It is therefore safe

to say that one of the most thankful men

in the vicinity of Harrowsmith is Mr

Grant Day, who for years past has been

suffering from rheumatism, but has now

been released from its thralldom. To a

reporter Mr Day told his experience

substantially as follows: "I have been a

sufferer from rheumatism for upwards

of twenty-five years. It usually attack-

ed me worst in spring and fall, and at

times the pain I endured was intense,

making it difficult for me to obtain rest

at night. From my hips down to my

feet every joint and every muscle ap-

peared to be affected, and the pains ap-

peared to chase one another until I was

at times nearly wild, and mind you I

was my condition for upwards of twenty-

five years. During that period I tried

many remedies, and while I obtained

temporary relief from some, I could get

nothing in the way of permanent benefit.

But last year the pains did not come

back, and they have not returned since,

and this is the way it came about. One

day while telling my neighbor, Mr W.

C. Switzer, how badly I was feeling, he

said: 'Get half a dozen boxes of Dr.

Williams' Pink Pills and use them ac-

cording to directions, and you will find

they will do just what they are adverti-

sed to do—cure you. I know this from

experience in my own family.' Well I

got the pills and used them, and the

rheumatism has been driven out of my

system, and last winter and spring for

the first time in more than twenty years

I was entirely free from my old enemy.

But there is one thing more Dr. Wil-

liams' Pink Pills did for me, and which

astonishes me a little. Over forty years

ago I had a severe earache, and used a

liquid preparation in the hope of getting

relief. It nearly ruined my hearing,

and for all the years since I have been

partially deaf. After I took the Pink

Pills my hearing came back, and my ear

is now all right. My wife and sister

have also found much benefit from Pink

Pills when run down by overwork, and

found in our house."

Dr. Williams' Pink Pills strike at the

root of the disease, driving it from the

system and restoring the patient to

health and strength. In cases of paral-

ysis, spinal troubles, locomotor ataxia, sci-

atic rheumatism, erysipelas, scrofulous

troubles, etc., these pills are superior to

all other treatment. They are also

specific for the troubles which make the

lives of so many women a burden, and

to pale and sallow cheeks. Men broken

down by overwork, worry or excess, will

find in Pink Pills a certain cure.

Sold at all dealers or sent by mail post-

paid, at \$6 a box, or six boxes for

\$2.50, by addressing the Dr. Williams'

Medicine Company, Brockville, Ont., or

Schenectady, N. Y. Beware of imitations

and substitutes alleged to be "just as

good."

The True Christian.

Christian love is not the dream of a

philosopher sitting in his study and

benignly wishing the world were

fairer than it is, congratulating himself

perhaps, all the time on the superiority

shown by himself over less amiable na-

tions. Injure one of these beaming sons

of good humor and he bears malice—

deep, unrelenting and refuses to forgive.

But give to the man who, instead of re-

flecting, shows some small, select society or as-

sociation, where his own opinions shall

be reflected, can mix with men whose

his sympathies are unmet and his tastes

are jarred and his views are traversed at

every turn, and still can be just and

gentle and forbearing. Give to the man

who can be incited and not retaliate;

meet rudeness and still be courteous;

the man who, like the Apostle Paul,

buffeted and disliked, can yet be gen-

erous and make allowances.

A wicked, witty prodigal returned, and

in his old manner, accosted his father,

"Well, governor, I've come back. Are

you going to kill the fatted calf?"

"But the gentle old man was a match
