## PROPOSED PUBLIC WORK AS REPORTED BY ENGINEER

### COUNCIL ADOPTS RECOMMENDATIONS OF WORKS COMMITTEE CALLING FOR CIVIC IMPROVEMENTS—ACREAGE BOUGHT FOR GARBAGE DUMPING PURPOSES.

At the City Council last night quite a lengthy report was submitted by Ald. Smith as chairman of the Committee on Works. It was adopted and read as follows:—  
That the Committee are in receipt of a letter from the Chief Engineer of the Provincial Highways Department pointing out the inadequacy of the G. T. Ry. overhead bridge on St. Paul St. West to carry the traffic on the Provincial Highway and your committee therefore recommend that the G. T. Ry. Co. be notified to provide a wider and more substantial bridge to provide properly for the present traffic and to meet the needs of the future.  
That the Minister of Railways and Canals be memorialized to have a proper bridge constructed over the Welland Canal on Queenston Road in the vicinity of Victoria-Lawn Cemetery. This bridge is not wide enough for the vehicular traffic and there is no safe accommodation for the pedestrian traffic and with the increased traffic on the Provincial Highway the conditions here will become more dangerous and immediate steps should be taken to have the Department build a proper bridge.  
Your committee are in receipt of a request from the Garden City Paper Mills to the City to supply two carloads of stone and they will unload and spread same on Lincoln Ave. to the Railway tracks and your committee therefore recommend that the offer be accepted and the stone purchased.  
That the committee have secured a dump recently used by Heaton & Sons, Garbage Contractors, located at the southern end of Ravine Road, consisting of about 4 1/2 acres of land for the sum of \$1,200.00. Your committee therefore recommend that this action of the committee be and is hereby ratified and that the City Solicitor be requested to make out the necessary transfers for the property.  
That D. H. Fleming has resigned as Assistant Engineer and accepted the position of Town Engineer of Owen Sound and your committee recommend that B. F. Lamson be and is hereby engaged as Assistant Engineer at a salary of \$140 per month. Mr. Lamson has resided in the City for several years and has been engaged on the Welland Canal Staff and will be able to begin his duties at once.  
The committee attach herewith report of the City Engineer regarding pavements and your committee recommend that the report be received and the recommendations in the report be and are hereby adopted and further that authority be and is hereby given to the City Engineer to proceed with the laying of the necessary sewer services on the list of streets as set out in the report pending the passing of the Local Improvement By-law authorize the construction of the pavements. This will enable the excavations to be made as early as possible and so not delay the work of paving.  
Report of Engineer  
The attached was the report of the City Engineer to the Committee:—  
Pursuant to recommendation of your Committee to City Council at last regular meeting recommending a paving programme for the year 1919 and instructions to the City Engineer to report on same with estimates and recommendations as to widths and classification, I beg to report as follows:—  
Ontario St.  
Welland Ave. to Elgin St. 35 feet between curbs.  
Elgin St. to N. S. & T. Ry. tracks, 50 feet between curbs. The street width here is only 46 feet which necessitates the narrowing of the pavement.  
N. S. & T. Ry. crossing to Carlton St. 30 feet between curbs. This necessitates the removal of the local line street car rails to the middle of the road and the N. S. & T. Ry. Co. have been notified to do this.  
The sewer services and water services are all constructed on the section from Welland Ave. to the tracks and from the tracks to Carlton St. It does not seem necessary to construct services on account of the uncertainty as to use of land on east side.  
Welland Ave.—  
General St. to Railway Tracks, 24 feet in width with the street car rails on the northerly side as at present

## FOUNDER OF WOOLWORTH'S HAD REMARKABLE CAREER

Leaves Eight Hundred Stores in United States and Canada  
(Special to The Journal)  
New York, April 8.—Frank W. Woolworth, founder and proprietor of 800 five and ten cent stores throughout the United States and Canada died suddenly early today at his home at Glen Cove, L.I. He was born at Rodman, N.Y., in 1852. His business was capitalized at 65 million dollars. He erected highest building in the world in New York.  
The Woolworths have a store in this city on St. Paul street.

### DIED

CONNELLY.—In this city, on Tuesday, April 8, 1919, at 173 Church Street, John Connelly.  
The funeral will take place on Thursday morning the 10th, at 8:30 a. m., from his late residence to St. Catharines, R. C. Church, where requiem mass will be chanted, thence to Victoria Lawn Cemetery.  
8-9

## RING THE CURFEW ASK THE LADIES

### Delegation From W.C.T.U. Asks Council to Pass Measure Similar to That of Olden Days—Aldermen are Wary.

The ringing of a curfew in this city to warn the little folks to scurry to the streets and get to their homes at 9 o'clock each night, or at ten in July and August, is not a practice that promptly appeals to the modern ideas of the City Council. They handled a request for this measure last night about as warily as a young boy handles a snapping turtle. Indeed they won the observation from Mrs. Cameron, of York Street, one of the delegation, of shifting the whole matter off onto some one else being used to brick bats the Councilors only smiled and again looked at the matter askance.  
Forgotten in the Past  
The proposal, which indeed, has a serious and important moral phase, was presented by Mrs. Gardner, as speaker for a delegation from the Women's Temperance Union. She said that women's organizations had in the past discussed child welfare, a good deal but had not done much of a practical nature. They had sent in letters to previous Councils asking that something be done to get children off the streets at night, but these communications had evidently been put in pigeon holes and left to dust and old age. Now the ladies wished to speak in person and ask that something be done.  
The Mayor asked what measure they proposed and they replied that they thought a curfew bell should be rung at 9 o'clock at night, or thereabouts. It had been done in other places. They also read the provincial law which provides that children shall not loiter on the streets after nine at night.  
"While I do not suggest what the Council will do," said the Mayor, "it seems to me that there is already a law covering what you ask and that you should appear before the Police Commission and ask that it be enforced if you feel that it is not now."  
His Worship pointed out that, according to the advice of the Solicitor, if a curfew bell were to be rung the Council could pass such a by-law, but in the provincial statutes there was already a law forbidding children from being on the streets at night. The Council didn't need to pass a by-law to have it enforced.  
"While it is not enforced" said Mrs. Gardner, "there is no use for it."  
(Continued on page four)

## SPEAKER DIDN'T COME IN TIME TO SPEAK

### Disappointed Audience Owing to Misunderstanding as to Arrival of Lieut. Robinson.

There was a large attendance at St. Paul St. Church last night to hear Lieut. Robinson's address on "Two Years in Germany." After waiting some time it was announced that the speaker had not arrived and the audience left the Church. In the meantime Lieut. Robinson came but the announcement had been made so it was impossible to have the address. The affair happened entirely through a misunderstanding and it is the intention of the Great War Veterans to have the address given at a later date. The Veterans wish The Journal to express their regret both to the speaker and to the public generally for the mistake which was made and to assure them that the address which is most interesting will be given in the near future.  
John Connelly, a prominent contractor of the city passed away this morning after a lingering illness of five years. Deceased was in partnership with his brother-in-law Patrick Breen and has been engaged in large contracts all over Canada and the United States. He is survived by his widow.

## HANDSOME SURPLUS FROM HYDRO ELECTRIC TO THE CITY

### CHECK FOR \$4,419.55 WILL GO TO CITY TREASURER TODAY AS SURPLUS ON ACCOUNT OF POWER SUPPLIED TO ST. CATHARINES.

At the City Council meeting last night Mr. P. B. Yates, as manager of the Public Utilities Commission, submitted a report to the Council from the Hydro which authorizes the payment to the City Treasurer of \$4,419.55 as a surplus on account of power supplied to the municipality. He stated that "this amount was calculated as a net surplus on account of power supplied by the Hydro Electric Commission of this city to the street lighting department of the municipality for the year ending 1917."  
Further than this he stated that as a result of the successful operation of the Hydro he desired to advise the Council that the street lighting rate during the remainder of 1919 will be reduced from \$7.50 per lamp to \$6.50 per year. Mr. Yates further stated that the net surplus for 1918 had not been arranged for by the Ontario Commission. The last surplus paid to the city was \$2,700. This was a splendid increase.  
The Mayor stated that it was indeed gratifying to the Council to have this much money paid back to the city from the Hydro.  
"Might I ask to have a copy of that report sent to me for the Fire and Light Committee," asked Ald. Westwood. "You know people complain every little while of lights being out there and there. If I could tell them of this surplus it would soften the criticism."  
"We would get even more money back if there were more out" smiled the Mayor and the Council joined in the joke.  
Mr. Yates promised that the Chairman of the fire and light committee and also the chairman of finance, Ald. Eagle, would be supplied with a copy.

## COMMUNISM ONLY METHOD BY WHICH CENTRAL EUROPE CAN BE SAVED FROM RUIN

### THIS IS VIEW, IN ALL EARNESTNESS TAKEN BY NEW GOVERNMENT AT BUDAPEST—CAPITALISM UNABLE TO COPE WITH THREATS.

(Special to The Journal)  
Budapest—Sunday—Great earnestness is displayed by members of the new government in carrying out the work assigned to them. They are ready to discuss their plans and to solve problems, and they refrain from abusing capitalism. The maintenance of strict discipline to protect bourgeoisie and to prevent red guard outbreaks has been decided upon by the government. Jules Alpari, a prominent socialist, and Jules Sevrski the people's commissioner in charge of social station of factories, argue that communism is the only method by which central Europe can be saved from total ruin. Capitalism, they maintain, is unable to cope with the threat of bankruptcy, high wages and the unwillingness of laborers to work. They point out that under communism workmen cannot strike and are obliged to accept reasonable wages.  
Protests against the formation of soviet government, voiced at political meeting in Bamberg, northern Bavaria, are reported in despatches from that city. Deputies of all bourgeois parties of three Franconia governments, upper, lower and middle Franconia, met in Bamberg and registered unanimous protest against proclamation of new regime at Munich.

## FARM COLD STORAGE

### Small, Efficient Plant Does Not Cost Much.

Simple and Efficient Raising Water Systems for the Farm—How Full Directions Regarding Equipment and Installation May Be Secured.  
(Contributed by Ontario Department of Agriculture, Toronto.)

A COLD storage is a room or building, depending upon the size, cooled by ice or by some mechanical means. In short, it is a place for keeping food products cool in the hot weather.  
Since the farms produce the food and since the cooling of it should be done quickly and immediately after its production, say milk for example in order to keep it in good condition as long as possible, would it not seem good business and economy to have the cold storage on the farm? This applies to our farms particularly since they produce such very perishable products as milk, butter, eggs, fruit and meat. If there was no other advantage in having cold storage on the farm than that it provides a place in which to keep the daily victuals cool and sweet, there would seem to be a good reason for including it in the farm equipment.  
There are many ways of providing a small cold storage on the farm, but with the exception of very large fruit or dairy farms, the same principle applies to all, namely, that ice is used as the means of cooling. The method of applying the ice to the best advantage constitutes the problem in each individual case. This is why no one system can be recommended for all cases. It is my intention to describe briefly below one type which should give good service in many farm homes.  
The particular name of this system is the Bunker system. It consists of a small room a few feet square with a bunker or box or rack at one side for holding the cakes of ice. It is separated from the room by a partition which is kept a few inches off the floor and likewise off the ceiling. The bunker has a slatted floor with pan just below to catch water which is disposed of readily through a drain. This arrangement provides a natural means for the cold air to drop down to the floor, escape into the cooling room proper and for the warm air to pass up over the partition to the ice. So long as this bunker is kept supplied with ice there will be a natural flow of cold air through the storage room. If the room be well insulated it should be possible to maintain a temperature of about 40 deg. Fahrenheit and fairly dry atmosphere. Those desiring plans for constructing the type just outlined or any other type may receive them free of charge by communicating with the writer. Information and assistance will be freely given to all applicants. Write us—R. R. Graham, B.S.A., Ontario Agricultural College, Guelph.  
All that was mortal of the late Gladys Frances, twin daughter of Mr. and Mrs. Frank Kimberly, No. 15 Salina street was tenderly laid to rest in the family plot, Victoria-Lawn cemetery, Monday afternoon. A brief service of prayer was held at the house. The remains were then taken to St. Thomas Church where Rev. A. W. Howitt, assisted by Rev. Canon L. W. Broughall read the beautiful church of England service. The church was comfortably filled with sorrowing friends to show their sympathy to the bereaved family, who have been called upon to suffer the loss of a loving daughter and devoted sister, who was so popular for her kindly disposition during her daily walk of life. The room in which the casket was placed was entirely monopolized by beautiful floral tributes sent by the loving friends who wished to convey their deepest regrets, and were conveyed to the cemetery and placed upon their grave. The acting bearers were Reginald Burch, Ernest Gauley, Hubert Haw-

## SHORT SESSION OF COUNCIL FOR ROUTINE BUSINESS

### VARIOUS COMMITTEE REPORTS AND BY-LAWS GO THROUGH WITHOUT CONTROVERSY—CITY BUYS FIVE ACRES FOR GARBAGE DUMP.

A short session sufficed to dispose of the business before the City Council last night. All the members were present except Ald. Nash who is in England.  
COMMUNICATIONS  
Communications were read from 23 residents of Woodland Avenue between Russell Avenue and Maple street asking for curbs.  
Department of Game and Fisheries stating that a supply of Government fish will be sent here about May 1.  
Secretary of G. W. V. A. forwarding copies of resolutions passed by the Association relative to appointment of members to Housing Commission.  
A number of acknowledgements of the receipt of communications were also read.  
Ald. Smith presented the Works report and Ald. Westwood asked if the committee had called for tenders for properties suitable for garbage dumps or if any other sites had been considered. He said he had been told by an owner of land, some five acres, that he would be willing to dispose of his site to the city.  
HAD TO GET PLACE  
Ald. Smith said he was not at the meeting of his committee but he understood the best deal had been made in the opinion of those who knew the facts. A place had to be secured for garbage dump purposes, and the city was only paying a little more than the owner had given for the land.  
Ald. Rifer said the committee had considered the matter and had to act quickly for the owner had an offer for a portion of the land. The city needed a place which was well out so that garbage could be dumped in the summer. The site which was being bought had been approved of by Board of Health.  
The Mayor said that as the city had taken over the collection of garbage it had to find a dump or rent one. To rent would be paying out \$200 a year to no purpose.  
Ald. Rifer said the site being purchased would do for a dumping ground for many years.  
The report was adopted.  
Ald. Dakers presented the Market and Buildings report giving the building permits. It too was adopted.  
OTHER CITY MATTERS  
Under the head of the executive committee the Mayor stated he had taken up with the Union Bank of suggestion that something be done to improve the vacant property on St. Paul street at the head of Queen and had been assured by the manager of the local branch, Mr. Millaly, that the Bank intended to make an improvement at an early date.  
Ald. Eagle then introduced a by-law to borrow \$25,000 from the Imperial Bank to provide the Public School Board with funds to buy a school site on Welland Avenue.  
Ald. Westwood said there must be a new school on the western hill.

## MEETING OF CLERGYMEN

A well attended meeting of the clergy of the Rural Deanery of Lincoln is being held at St. Thomas Church today, at which the following ministers were present up to noon and more expected this afternoon. The Venerable Archbishop Perry, Rural Dean Almon of Merrilton, Canon Garrett, Niagara Falls, Canon Davis, Port Colborne, Canon Broughall, St. George's, city, Rev. Mr. Ferguson, Fonthill, Rev. C. H. Smith, Niagara-on-the-Lake, Rev. Mr. West, Christ Church, city, Rev. A. R. Higgins, Port Dalhousie, Rev. Mr. Belt, Stamford.  
Rev. A. G. Emmett, Dunnville, preached the opening sermon and the usual service was conducted by the Rev. Mr. Howitt. A brief address was also given by Rev. Mr. Almon which occupied the time until the noon hour, when an elegant repast prepared by the ladies of the Church, was partaken of.  
The afternoon will be occupied in the consideration of business connected with the welfare of the Church in this district.

## THE DOMINION

Three Calgary airmen of note have started an airship depot here.  
The Mayor of Sudbury gave the casting vote in the Council against daylight saving.  
Winnipeg is said to have so many home stills that the liquor situation is beyond control.  
Daniel Wilbur, Herald Danmuir and Henry Nicholson

## ARREST THEM

(Special to The Journal)  
Copenhagen, April 8.—Herr Landsberg, Minister of Justice in the German Imperial Government, was arrested yesterday at Magdeburg the capital of Prussian Saxony, by members of Regiments stationed there, a Mordenburg despatch reports. Gen von Kleist, in command of fourth army and his staff, also were arrested.

## POLITICAL FIRES ARE SPREADING

(Special to The Journal)  
Copenhagen, April 8.—Political movement of great importance is imminent in the region of Hamburg, reports from Berlin say. Doctors Herz and Hauffenburg, Spartacus leaders, it is added, have almost succeeded in making themselves masters of the situation and in converting Hamburg and the region between Hamburg and Berlin into soviet republic.  
Former deputies Brandes and Filkel also were arrested. Other arrests of social-democrats and members of bourgeoisie are planned. The majority of Magdeburg garrison sympathize with independent socialists, the message adds.

## AIR MAY CLEAR IN PARIS TODAY

Tension Still Exists Over Proceedings of Peace Conference but Council of Four is in Session.  
(Special to The Journal)  
Paris, April 8.—The Council of Four met this morning at the residence of Premier Lloyd George. President Wilson was not able to attend the afternoon session but hoped to be able to attend the meeting this afternoon at his house.  
The overnight tension in Peace Conference circles had not been dispelled when the Council of Four met today. In conference circles, however, it was felt that the sessions today would serve to clear the atmosphere.

## ENORMOUS CROP OF WHEAT EXPECTED

(Special to The Journal)  
Washington, April 8.—The largest crop of winter wheat ever grown in the U. S. was forecast for this year by the department today. Enormous yield of 837-million bushels was announced, valued at \$1,801,620,000. Crop will be 152,000,000 bushels larger than previous record crops produced in 1914.

**THE ELECTORS CAN SAY.**

As announced in the Legislature yesterday by Premier Hearst, the public is to be given an opportunity this Fall, probably, of voting upon four significant questions relative to intoxicating liquors and their distribution. From the answers given to these questions the Government hopes to secure a full or fairly accurate expression of the opinion of the people of this province. The queries are:

- (1) Are you in favor of the repeal of the Ontario Temperance Act?
  - (2) Are you in favor of the sale of light beer containing not more than 2.5-100 per cent. alcohol weight measure through Government agencies and amendments to the Ontario Temperance Act to permit such sale?
  - (3) Are you in favor of the sale of light beer containing not more than 2.5-100 per cent. alcohol weight measure in standard hotels in local municipalities that by majority vote favor such sale, and amendments to the Ontario Temperance Act to permit such sale?
  - (4) Are you in favor of the sale of spirituous and malt liquors through Government agencies, and amendments to the Ontario Temperance Act to permit such sale?
- It is the growing view of the masses, we think, that some such step as this should be taken. The conditions in the country have changed in many ways during the last four or five years. The Government is not now in a position to know what the will of the majority is on this or other large and troublesome problems. A referendum should give a report of the electors which would have a definite result in clearing the air for many years to come on a most controversial and difficult matter.

**THE TARIFF PROBLEM**

The Toronto Star carried a dispatch last night which stated that a general election may have to be held in this Dominion to settle the knotty tariff problem which now threatens to split the east from the west.

While this is one way, and as a rule a fairly good one, to clear the air when it becomes heavy, we do not think that the present is the best time for it. The state of industry is too uncertain to justify disturbances of a national nature.

What the Journal would suggest, and what we believe, will command itself to other newspapers, is that a permanent commission of a responsible character, representing the manufacturers, trades unions' agricultural interests and the Government be appointed to constantly take evidence and give rulings in the same way and with the same idea of service to the nation as the Board of Dominion Railway Commissioners.

No one will deny, we think, that this latter Board has been a powerful factor in regulating railway and transportation matters. It has been comprised of large men whose judgment generally was sound and whose findings have stood. The tariff is a subject that might well engage the best brains of our country, not for a short time to bring in a report which would be filed away, but to constantly regulate and to fix tariffs based upon reliable statistics and data.

A letter from the Treasury Department, Washington, relieves Canadian subjects working in the United States from an Income tax, which is another step towards friendly reciprocity.

**MACHINES SAVE LABOR**

**Work of Efficient Gas Engine in House and Barn.**

How Early Winter Pruning May Be Done Without Injury—Winter Rhubarb is Delicious and May Be Grown by All.

(Contributed by Ontario Department of Agriculture, Toronto.)

**S**AVING labor in stable and home, by the use of machinery, is one of the great economic problems engaging the attention of farmers to-day. Through the use of machinery they can produce even more, at less cost, than in years past, when labor was plentiful, and tolerably cheap.

Probably never before in the history of the farming world have so many farm problems been solved by a single piece of machinery as has now been accomplished by the gas engine. In the stable it can be employed to advantage in grinding feed for the stock. It can cut feed and ensilage. It can pump water for the house and stable whenever one pleases; a hydrant on the lawn, and in the stock yards to which a hose may be attached for washing the buggy, sprinkling the lawn, flushing pens and stable and for other purposes. It is a source of much satisfaction, pleasure and comfort.

By means of a line shaft a gas engine may operate many labor-saving machines at the same time. It can run the grindstone, root pulper, fanning mill, cream separator, churn, sheep shears, horse clippers, rotary curry-comb and the milking machine, with which it is possible to milk two cows in about six minutes, including the time required for changing and setting. Further assistance may be had by attaching the power for refrigeration and for circulating milk over a cooling surface—a practical necessity.

No longer need the preparation of whitewash and its application with a brush be consigned to warmer regions, for the engine can pump the mixture from a tank or barrel through a hose attached to a spraying outfit. It is possible to pump it two hundred feet. When the job is done the hose should be cleaned out by having fresh water pumped through it.

The gasoline engine solves for the farmer the problems of comfort in the house, safety in the stables, and a great deal of drudgery generally.—Prof. John Evans, O. A. College, Guelph.

**Light Fall Pruning is Safe.**

Light pruning in fall is permissible, but heavy pruning is dangerous and likely to result in serious damage from winter killing, especially if the succeeding winter is severe. The injury is caused by drying out of the cut area and may be prevented by covering all wounds of any size with a good covering of paint made from pure lead and oil. Do not use prepared paints as these contain turpentine or kerosene which will prevent checking and drying of green wood. Coal tar makes an excellent wound covering and is easily applied.

This matter of covering wounds made in fall or early winter is frequently slighted by orchard men, but the writer has seen serious damage result from neglect of this precaution. He feels justified in warning fruit growers with regard to the practice. In experimental trials in the case of apple orchard, varieties so hardy as Duchess of Oldenburg, Wolf River, Snow and Scott's Winter have suffered very serious injury following November pruning with the cuts left unprotected. The wounds dry out around the edges and by spring the dead area is greatly enlarged, frequently extending down the trunk or branch for a foot or more. The dead bark comes away later, leaving a large dead area, detrimental to the parts above and certain also to decay later.—Prof. J. W. Crow, O. A. College, Guelph.

**How Winter Rhubarb is Produced.**

The production of rhubarb in winter has become of considerable value among gardeners. It is easy to do if certain methods are followed. If one is making a permanent business of rhubarb forcing, it is necessary, each year, to set out a new bed, as plants once forced are of no further value. In the spring large roots should be dug, split in one bud sections and replaced in a rich moist ground. During the growing season they are kept cultivated and free from weeds. In the fall they are covered with manure. Next spring a second bed is planted as before. That fall a large part of the first bed is taken up, leaving sufficient to replant another bed the next spring. The roots are taken up the last thing in the fall before the hard freezing weather comes and are placed in-piles in a shed where they can easily be got at during the winter but will remain frozen. Early in December take in a sufficient number of roots, place these bud side up on the floor of a warm cellar—about 68 degrees or 70 degrees—and cover with an inch of sand. Be sure to fill in all interstices. Keep this sand moist. About a week later the buds will begin to swell and in from four to six weeks, depending upon the heat of the room—the cooler and slower growth in such cases—you should have rhubarb ready. After these roots are exhausted throw them away and put in more. If a constant supply is required make a new bed every two or three weeks during the winter. Be sure to keep all the front dimmed. Put burlaps of brown paper over the windows to give the bright pink color so much desired.—H. MacLennan, B.S.A., Ontario Vegetable Specialist.

Mr. J. M. Gross, of Welland, has offered to present that city with a new clock.

**THE WEEK IN THE LEGISLATURE**

(Special to The Journal.)

Toronto, April 8.—Several interesting matters came before the House for discussion outside of the usual routine during the past week. There was a motion brought in by Mr. McDonald of North Bruce, seconded by Mr. Carter of Guelph, asserting that the representation in the Ontario Legislature is too large, unwieldy and expensive, and pointing to the huge sum of over \$150,000 for indemnity and expenses paid to members during the past year. Mr. McDonald desired a reduction of the number of constituencies to conform with the representation on Ontario in the Federal House, namely from 111 to 89. After a spirited discussion Mr. McDonald withdrew his motion. He was supported in it by Mr. Proudfoot, the Opposition Leader, who thought the motion should have been received more seriously. If the membership was reduced to 89 it would save the province \$40,000 a year and on that account it might have been advisable to consider a reduction. Mr. Sam Carter believed that the foundation of representation should be population. The motion, however, was generally opposed.

A remarkable vote took place upon a discussion of the motion placed on the Order Paper by Mr. Hartley Dewar of Southwest Toronto in connection with women's dress at the opening of the Legislature. The Government moved an amendment to Mr. Dewar's motion (which, by the way, was entirely irrelevant), substituting congratulations to the women of the Province for their splendid services in the war, and to this was added a further amendment by Mark Irish of Toronto to the effect that the House recognized the great service of the women in the production of munitions. The Liberals were not to be caught voting against these amendments and therefore the motion as amended was carried unanimously amid a great deal of laughter.

**War Tax Abolished.**  
 The Provincial Treasurer introduced a resolution to abolish the provincial war tax, which was agreed to and referred to the Committee of the Whole House in connection with a bill to repeal the Provincial War Tax Act.

**Cost of Hamilton Highway.**  
 In reply to a question from the Liberal side as to the total cost of the Toronto and Hamilton Highway, whether it had been completed; and if not what additional it would cost to complete it, the Minister of Public Works stated that up to January 31st an expenditure had been made on construction of \$1,088,017.71 exclusive of the extra cost of widening roadways, storm sewers, etc., to be paid by the radial railway and local municipalities. The road has not yet been completed and an additional cost will be an estimated charge upon the Commission of \$18,300, which does not include the Hamilton entrance, radial railway track moving, or Commission's share of bridge construction which items have to be adjusted by the Ontario Railway and Municipal Board.

**Repealed Liquor Proposals.**  
 No definite announcement has yet been made by the Government as to their proposals in connection with the referendum to be held upon the Ontario Temperance Act next Fall, but it is understood that the following questions will be submitted to the electors: (1) The repeal of the Ontario Temperance Act. (2) The sale of light beer in sealed packages under Government control. (3) The sale of light beer over the bar. (4) The restrictive sale of spirituous liquors generally under Government control.

It is expected that the Government will make a definite announcement to the House during the coming week.

**Assessment Law Change.**  
 As a result of the findings of the special committee appointed to consider the Assessment Act and the proposed amendments thereto, a report has been made to the House favoring the granting of partial assessment exemption on homes, and the exemption on personal income has been raised \$200 all round. The provisions of the proposed exemption in connection with houses is as follows: That a \$2,000 house be assessed at 50 per cent. of its value, a \$2,500 house at 60 per cent, a \$3,000 house at 70 per cent, a \$3,500 house at 80 per cent, a \$4,000 at 90 per cent, and above that at the actual assessed value of the house. The proposal is that local option shall be granted to municipalities in the matter, and it is not altogether compulsory.

**Deport Liquor Charges.**  
 The Commission appointed by the Government to investigate the charges made by H. H. Dewar, the Toronto member, in connection with the operation of the license department and the administration of the Ontario first sitting. The work of investigation. The Commission has held its first sitting in the Public Accounts Com-

tee of the Legislature is also well under way, and considerable interest is being evinced throughout the province in the results of the investigations. It transpired before the committee that over 1,000,000 quarts of liquor had been issued upon doctors' prescriptions since the inauguration of the O. T. A. The Government has changed its attitude in regard to permitting counsel to the Opposition, and they will be represented in the probe before Chief Justice Meredith by Robert McKay, K.C. Notes.

The City of Ottawa has been granted permission to adopt the single tax method of raising revenue.

The Workmen's Compensation Act has been amended whereby the monthly allowances to widows and children have been increased and the maximum for all dependents raised to \$100.

Magistrate Jelfs of Hamilton had better look out or he may be put upon the Index Expurgatus. He is said to have declared movies as good as Sunday Schools.

It is estimated there are about 1000 people now in the lecture field in Canada and the U. S., discoursing on the Great War. The bulk of the stuff meted out to their hearers is said to be compiled from newspaper clippings, badly compiled and worse delivered.

Niagara Falls has passed a by-law to abolish the smoke nuisance in the following Bostonian terms: "A by-law to prevent the emission to the atmosphere of opaque or dense smoke."

**In The Hills Above Ice River**

**T**HIS man is not carving his name on a stump. By looking closely one will identify the claws on the downbeat right forepaw as those of a good sized black bear. So the human operator is removing a handsome black coat from a sleek, fat fall brute that had ventured in innocent ignorance out on the open in search of mice and such interesting changes from a diet of berries. He did not know that men with guns were creeping up the slope toward him because the wind was sweeping down from the peaks above and the only scent it took to his keen nostrils was that of the fresh, sweet snows that were already whitening the peaks above Ice River, north of the O. P. R. transcontinental line.

So the bear waddled along with an investigating nose close to the sticks and stones he turned over with his great paws. He paused at a rotting log that had fallen before some great tree which had swept the hillside in the decades past, and he turned it over with an ease that spoke highly of strong claws and big muscles; he found some grubs and he licked them up; he started to investigate a bundle of weeds and dried grasses that looked as if it might contain some tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a slipping twist, turned on a stone and sent it clattering down through sticks and stumps. Bruin over the rise and out of sight, roared to his haunches in curiosity. He applied the crown of a hat rising slowly over the ridge and he turned and sped away with an awkward, shuffling swiftness that could be second only to that of a moose in fallen timber, and there is nothing more awkward appearing yet nothing living so destructive to distance as a moose that is really up and going with full energies through his favorite racing ground in the swamps.

A steel-jacketed bullet whistled when it kicked dust out of the running bear's coat when it burned across the shoulder. Bruin snarled and went faster. Another bullet struck his ribs and he stopped to snap in anger at the hurt and to glare back at the source of his worry. Then, as he growled low in his throat he prepared to resume his flight; a third bullet broke his neck, and his body huddled forward and settled down like a huge chunk of jelly that had scarce "set." And there we skinned him, far above the gleaming river, whose so recently he had gorged on the luscious berries and watched the deer and moose as they too gorged themselves on the rich foods that suited their cravings as satisfactorily as berries satisfied his.

—L. V. K.

**HUNGARY AND THE HUNGARIANS**

Hungary has a population of 20,000,000. Hungary is unusually rich in its mineral deposits. Its mines contain almost inexhaustible quantities of gold, silver, lead, copper, iron, coal and rock salt.

Hungary, like Austria, is inhabited by several distinct races, but since the ninth century, when the Magyars invaded the region from Asia and conquered it, they have controlled the government.

Self government through parliament in Hungary is of ancient origin, being founded upon a charter called the Golden Bull, which dates back to 1222, and is thus almost contemporary with the Magna Carta of England.

Budapest, the capital city of Hungary, consists of the sister towns Buda and Pest. Lying on either side of the Danube; just at that point where it definitely sets south, Pest spreads itself out over the flat plain on the left bank, while Buda occupies a series of small and steep hills on the right bank.

## MEDALS FOR TROOPS, SILVER CROSS FOR HEROIC MOTHERS AND WIVES

INTERNATIONAL AWARD WILL PROBABLY BE MADE FOR OVER-SEAS TROOPS AND ANOTHER FOR HOME SERVICE.

Nothing definite has been decided as to the issue of war medals or as to their nature, but it is likely that two will be issued. (1) An international medal for all troops engaged in theatres of war, and a British medal for all troops serving at home or in garrison regiments. It is estimated that from twelve to fifteen million medals will be issued by the British Government.

The following are the awards to date to Canadian soldiers:  
Victoria Cross 61.  
D-S. O. 605.  
Military Cross 2312.  
D. C. M. 1453.  
Military Medal 7785.

It is also proposed to issue a silver cross, "The Cross of Sacrifice," to be worn by the mothers and wives of those who have fallen in the war, and a suitable recognition which will appeal to all.

## PROPOSED

(continued from Page 1)

eighteen feet in width be constructed on the crown of the road without curbs and without the laying of all services to vacant lots. This pavement width without curbs would be moderately priced; would permit of the services being constructed as the properties require either by boring under pavement or by tunnelling and would insure that the pavement could be safely built this year.

Russell Ave.—  
York St. to Lake St.—24 feet between curbs.  
Geneva St. to Niagara St., 24 feet between curbs. The petition for these two sections asks for concrete. There is a large number of vacant lots on these two sections requiring services to be laid before paving.  
Maple St.—Catherine St. to Geneva St., 24 feet between curbs.  
Beech St.—Lake St. Catherine St., 24 feet between curbs.  
Catherine St.—Welland Ave. to end of existing pavement, 26 feet between curbs. Curbs are built from Welland Ave. to Beech St.  
Page St.—Queenston St. to Welland Ave., 24 feet between curbs.  
Richmond Ave.—Queenston St. to tracks, 24 feet wide, curbs already built.  
Centre St.—Court St. to Geneva St., 24 feet between curbs already built.  
Maple, Beech, Catherine, Page, Richmond, Centre Sts.—These streets are for the most part well built up residential streets and all underground services should be constructed before the pavement is laid.  
Clark St.—Church St. to Welland Ave., 20 feet between curbs.  
Court St.—Church St. to Welland Ave., 19 feet between curbs.  
Clark St. and Court St. have steep grades and carry heavy hauling and should be paved with a suitable non-slippery roadway such as tar macadam or cement concrete.  
Court St.—St. Paul St. to Geneva St., 24 feet between curbs.  
Calvin St.—Church St. to Queenston St., 20 ft. between curbs.  
Vine St.—Erie St. to Welland Ave., 22 feet between curbs which are already constructed. Recommend that this be constructed in macadam to correspond with the section already built.  
Bellevue Terrace—Completion to Monk St., 24 feet between curbs already built. Recommend that this be constructed in macadam to continue the same type as already built.  
Court Alley—Academy St. to Court St. Recommend a cement concrete pavement 13 feet in width without curbs.  
Helliwell's Lane—Church St. to King St. Recommend a cement concrete pavement 13 feet in width without curbs.  
Henrietta St. from Westchester Ave. to Ridley College Lower School, 14 feet in width. Recommend cement con-

**HOW'S YOUR BLOOD?**  
Pimples and Eruptions Mean Bad Blood

People who have impure or impoverished blood should be careful to take only a temporary remedy made of wild roots and barks such as Dr. Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulation begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood, and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, back-ache, headache.

Get Dr. Pierce's Golden Medical Discovery to-day at any medicine dealers, in tablet or liquid form, or send 10c for trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Windsor, Ont.—"For over three years I suffered with stomach and liver trouble. I would blot up, gas would form on my stomach and cause me to be terribly distressed at times. I also broke out with ring worms. I doctored and took medicine but did not get any relief until a lady advised me to try Doctor Pierce's Golden Medical Discovery, which I did, and, also, the "Pleasant Pellets," and I am glad to say that these medicines so completely cured me that I have never had any return of these ailments."

## BAD BLOOD FATAL TO GOOD LOOKS

Easy Enough to Restore Both  
By a Simple Home Remedy  
That Costs But a  
Quarter

Bad looks and bad health go together. To look young, to be happy, to enjoy life, and be always at your best you must keep your blood pure, your liver active, your bowels well regulated. These are the prime essentials to a happy, healthy old age.

If you want a positive guarantee of good health, you can easily find it in the regular use of Dr. Hamilton's Pills, which for forty years have been keeping thousands of people in the pink of condition. It's no experiment to use Dr. Hamilton's Pills as a regular round of life. They are composed of certain extracts and herbs that search out disease, that regulate, tone and strengthen the system.

If in need of better health, if lack in strength, if subject to headaches, blood disorders, constipation, lack of appetite, and indigestion, 'tis safe to say you will be cured quickest by using Dr. Hamilton's Pills, sold everywhere in 25c boxes.

Questions of Tenders  
Since there is considerable uncertainty amongst contractors as to tendered prices of pavements this year and also a considerable range in price between different types that might be suitable for many of the streets in the list, I would recommend that authority be given to complete the contract plans and call for tenders for the year and seek competition among contractors for all the standard types of pavement. Then with these figures at hand it would be possible to select the best types of pavement available at the tendered prices and base our final recommendations and estimates on this information.

In the meantime I would recommend that authority be given to proceed with the laying of the sewer services where necessary on the following streets pending the passing of the by-law authorizing the pavement.

Russell Ave.—Lake to York.  
Russell Ave.—Geneva to Niagara.  
Maple St.—Catherine to Geneva.  
Beech St.—Lake to Catherine.  
Catherine St.—Welland to end of pavement.  
Page St.—Queenston to Welland.  
Richmond St.—Queenston to tracks.  
Centre St.—Court to Geneva.  
Clark St.—Church to Welland.  
Court St.—Church to Welland.  
Calvin St.—Church to Queenston.  
Vine St.—Erie to Welland.  
Yours respectfully,  
W. P. NEAR,  
City Engineer.

## NOTICE

On March 25th the City Council passed the following Resolution:  
"That the Public Utilities Commission be notified to discontinue the operation of the Civic Gas Plant for the sale and distribution of gas on and after the 15th June, 1919, and that the Commission be requested to serve notice of such discontinuance upon the customers served by the said Gas Plant so that they may make other arrangements before that date."  
In accordance with this Resolution the supply of gas from the City Gas Plant will be discontinued on June 15, 1919.

## STATEMENTS ARE UNFOUNDED

(Special To The Journal.)  
Washington, April 7.—Lord Reading, British Ambassador authorized the statement today that the suggestions that Premier Lloyd George had advised the recognition of Lenin or Trotsky, Russian Bolshevik leaders were wholly unfounded.

## MACKENZIE MANN INTERESTS SECURE IMPORTANT VICTORY

PRIVY COUNCIL ALLOW APPEAL OF COMPANY WITH COSTS AGAINST GOVERNMENT INTEREST. COMPANY CAN NOW PROCEED WITH ACTION AGAINST COMMISSION.

(Special To The Journal)  
Toronto, April 7.—Canadian associated press despatches today indicate that electrical development company interests, (MacKenzie Mann) have secured an important initial victory before the Privy Council in their fight against the Ontario hydro electric (Government) commission and the Attorney General of Ontario, when that highest court allowed with costs the appeal of the company against these government interests. This judgment permits the electrical company to proceed with their action against the commission to determine the validity of powers given by Ontario to the commission to develop certain waterpowers in the Welland and Niagara rivers. The Lower courts held that this action could not be defeated by Attorney General of Ontario who refused it.

Donald, the little son of Mr. and Mrs. Charles Jane, corner Trapnell and Niagara streets, is ill at the General and Marine Hospital and will undergo an operation on Wednesday morning.

Final arrangements have been made to transfer all the Canadian Military Police from St. Catharines to Niagara Falls, Ontario, where they will perform the duties of keeping the border clear. This was heard with regret by the G. W. V. A. club, as Tubby Clinton, one of the transferred men had just organized a bugle band in this society, but fortunately when he makes his departure, the band will be in charge of Mr. Rogers.

**FOR SALE**—Two lots 66 Peachdale sub-division and 66 Homestead sub-division. The first \$300 dollars takes the two, not sold separately. Address E. Walsh, 185 Bay Street, Ottawa, Ont.

The regular meeting of Garden City Chapter No. 53, O.E.S. will be held Wednesday evening, the 9th instant, at 7:45, in I.O.O.F. Encampment Hall, Queen Street. After the Chapter is closed refreshments will be served. a 8

### Ring The Curfew

(continued from Page 1)  
closer attention in order to protect our boys and girls from evil influences.

Reminiscent of a Village  
"Well if you ask to have the curfew bell rung, I for one do not approve of it," said Alderman Eagle. "It seems to me to be too much of a village idea." "They had the curfew bell here some years ago," said Ald. Dakers, "and I think people will tell you that it was very unpopular. My idea is like that of the Mayor, that this delegation should lay their complaint and request before the Police Commission. That is the proper body to enforce the law now on the books."

The ladies, however, felt that the Council could take action. The Mayor then pointed out that even if the Council passed a by-law, it would be the duty of the Police Commission to enforce it.

**Right From the Shoulder**  
"That is what generally happens," said a voice from the delegation, "shift it off to some one else."

"I am sure the ladies will grant me the privilege of saying that I am not endeavoring to shift responsibility, for as Mayor I am a member of the Police Commission and would be pleased to give the delegation a hearing there but I do say that any law is for the Police not for the Council, to enforce. You now have a law which gives all the necessary authority to clear the streets at 9 o'clock at night. If that were enforced I would not meet your purpose?"

"Well if the law is there, why hasn't it been enforced," asked the Ladies.

The chair explained that during the war the police force had been reduced to four or five men, an inadequate number to look after all these laws properly. Now the strength of the force was being increased to normal and if the ladies wanted a more rigid enforcement they might well lay their request before the Commission.

**He Would Meet 'Em**  
Ald. Smith asked the ladies just what they wanted and said he was willing to introduce a by-law to have a curfew rung or some bell each night at a certain hour if the ladies wanted it.

Ald. Westwood, too, said what the ladies were asking was not idle. There were too many girls and boys loitering around the streets at night. But he did not know as he would favor a curfew. In Toronto, when he was a boy, they rang a bell once at 9 o'clock at night and the children learned to know what it meant. They scampered when they heard it. Some warning of this kind might be given.

The discussion then took on some appearance of levity. Mrs. Cameron wanted the aldermen to declare themselves.

"Ald. Riffer you are representing St. Patrick's ward," she said, "What have you to say?"

Ald. Riffer, however, was deeply engrossed in other matters.

"Where is Ald. McDowell?" The Council fell to laughing, for the St. Andrew's ward member started scratching his head.

**Would Pen Them Down**  
"Now is the time to say what you are going to do," said one of the ladies. "We have been put off before."

"Not by this Council," said one of the members.

"No," came a reply, "by other Councils but we don't want you to do the same." (More laughter)

"I would remind the ladies," said the Mayor, "that we have allowed a good deal of latitude in this discussion but a delegation cannot demand that members of the Council commit themselves at once. Delegations only ask for the privilege of having their own views presented. Aldermen can take the matter up again and discuss it when they will. For my part I appreciate there is a good moral work to be done and the mission of the ladies is sound in principle, but I think there is already a law covering the matter and the Police Commission is the proper body to deal with it."

The ladies then expressed their thanks and withdrew. Later in the evening the subject was considered and Ald. Riffer, Dakers, Eagle, Rose and Westwood thought that the Mayor or as a member of the Police Commission might present to that body the view that the Council thought it was the proper organization to deal with the work.

**THE WEATHER**  
Toronto, April 8.—The high area in the north has increased in intensity and moved to the northern Quebec region, while the western low area has moved northward with diminishing energy to Minnesota. Rain is falling over western portion of the Great Lakes. The weather has become somewhat cooler in Ontario and Quebec.

**Everyone Should Drink Hot Water in the Morning**

Wash away all the stomach, liver, and bowel poisons, before breakfast.

tem of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast act on the stomach liver, kidneys, and bowels.

LILA LEE  
in "The Secret Garden"  
A Paramount Picture

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick head ache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse and purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your sys-

**TIME FOR SHOW-DOWN**  
Narris Reiterates That West is in Earnest Over Tariff.

Ottawa, April 8.—Hon. T. C. Norris, Premier of Manitoba, who arrived in Ottawa says the West is dead in earnest over the tariff.

"We have had forty years of protection and all our progress has been made in spite of it," he said. "Now we think it is time we had our innings. I believe that a dozen commodities on the free list, including open markets and free food would satisfy our people for the present, anyway. The West thinks that if nothing is done this year nothing will ever be done. The people think it is time for a show down and they are unanimous."

Families who are childless can buy healthy babies at about 60 cents a piece in China.

**A Modern Luxury for Modern Homes**

IMAGINE what strides we have made since Grandmother's time! Really our house-keeping is now only a matter of remembering names—we step to the telephone, and command as we will! And think how vastly better the article—how clean, wholesome, uniform it is, from the maker to your table! Take, for example,

**Swift's Premium Oleomargarine**

—that dainty, appetizing, nutritious product that is recommended by domestic science authorities everywhere for table and kitchen use, as a delicious spread for bread, for the making of cake, cookies, sauces and general cooking. Compare it with old-fashioned standards! My goodness!! In Swift's Premium Oleomargarine you have an article that's always sweet, pure, clean (it's Government inspected, and never touched by hands)—always the same in flavour, texture, quality—reaches you fresh—and with all this, saves you about fifteen cents per pound!

Merely remember the name—telephone your grocer or butcher today for a pound carton—and a luxury undreamed of in Grandmother's home will be a necessity in yours!

## USING MILKING DEVICES

When It is Advisable to Invest  
in Milking Machines.

The Cause and Cure of Diarrhoea in  
Calves — Simple and Common-  
sense Methods of Treatment May  
Save Valuable Young Animals.

(Contributed by Ontario Department of  
Agriculture, Toronto.)  
IT is clear that if dairying is to  
develop as it ought to do in the  
Province of Ontario, more labor  
is needed on dairy farms. As the  
supply of labor is limited, cow-farm-  
ers are turning their attention to the  
mechanical milker as an aid in the  
biggest job on a farm where milk-  
cows are kept, namely, that of  
milking.

Fast the Experimental Stage.  
While it is true that mechanical  
milkers are not yet perfected, and  
possibly will never be absolutely  
"fool-proof," they have reached a  
stage of perfection where they can  
be recommended to the man who is  
in need of help at milking-time.

There are several machines now on  
the market which have proven to be  
more or less successful in tests made  
at Experimental Stations, but what is  
even more important, have stood  
the test of actual farm conditions.

The advertising columns of the agri-  
cultural press contain the names of  
the leading makes of machines which  
can now be purchased by milk-  
producers.

In answer to the question, will it  
pay to buy a milking machine? we  
would answer yes, under the follow-  
ing conditions:

- 1. Where a herd of twenty or more  
milking cows are kept, though we  
were in a stable recently where a  
man was using a machine to milk  
eight cows, and he considered that it  
paid him.
- 2. Where hand-milkers are not to  
be had, and where it means selling  
all, or part of the herd, because of  
the difficulty in getting the cows  
milked.
- 3. Where a man desires to increase  
his herd but cannot do so, because  
hand milking is impossible.
- 4. Where a man has some mechan-  
ical genius and is willing to give  
the machine the necessary attention in  
order to make it a success. Not every  
man can get good results with a milking  
machine. The cows must be  
stripped after the machine, to insure  
"milking out clean."
- 5. Where a man or woman will  
give the necessary attention in order  
to keep the machine clean. It must  
be thoroughly washed and the milking  
parts kept in a solution of chlori-  
de of lime—one pound, dissolved in  
ten gallons of water. This must be  
changed about every two weeks, or  
as often as necessary to prevent con-  
tamination.
- 6. Where a man has the necessary  
capital (about \$500) to invest in a  
machine and does not have to bor-  
row the money at the present high  
rate of interest. From H. H. Dewar,  
Ontario Agricultural College, Guelph.

Infectious Diarrhoea in Calves.  
A form of diarrhoea in calves,  
known as "infectious," is not  
uncommon in calves, and the  
owners are often at a loss to account  
for it.

It is caused by a specific germ that  
gains entrance to the system  
generally by the navel opening. It  
generally occurs as an epidemic in  
certain stables or certain localities,  
and as it is often fatal, causes great  
loss to the breeder.

The cause and results strongly re-  
semble those of joint ill or navel ill  
in foals. The virus which causes the  
trouble exists in the stable or in the  
soil.

Symptoms.—At a variable time after  
birth, in some cases a few hours  
and in others a few days, the young  
animal suffers from an acute  
diarrhoea, the symptoms of  
which do not differ markedly from  
ordinary diarrhoea, except from the  
fact that they seldom yield readily  
to treatment. The patient refuses to  
nurse or partake of nourishment,  
persists and death soon results.

Treatment.—Preventive treatment  
consists in preventing the cause.  
When we know that the entrance in-  
to the circulation of a germ causes  
the trouble, its entrance must be pre-  
vented in order that we may be suc-  
cessful. The building in which the  
cow is expected to bring forth young,  
and especially the stall, should be  
thoroughly disinfected. This may be  
done by sweeping and dusting thor-  
oughly, and following by a thorough  
washing or scrubbing with a hot five  
per cent. solution of carbolic acid or  
one of the coal tar antiseptics, or a  
thorough coat of hot lime wash with  
five per cent. crude carbolic acid.

The stall should be cleaned out daily  
and a little slacked lime spread upon  
the floor each time before supplying  
fresh bedding. The attendant should  
have a quantity of a good strong dis-  
infectant on hand, as one of the solu-  
tions above mentioned, or a solution  
of corrosive sublimate, 30 grams to  
a pint of water. The writer prefers  
the latter. The navel of the calf  
should be freely dressed with this as  
soon as possible after birth, and sev-  
eral times daily afterwards until  
thoroughly healed.

Curative treatment is often in-  
effective. The following has probably  
given better results than any other,  
viz.: Mix part formalin with 15 parts  
new milk and mix a teaspoonful of  
this with each part of milk consumed  
by the calf. When the calf is nur-  
sing its dam the mixture can be mix-  
ed with a small quantity of the dam's  
milk and given as a drench, the  
attendant estimating about how much  
it should get. When the calf is to  
nurse the dam it is well to wash  
udder and teats with the solution be-  
fore the calf nurses and once or twice  
daily for a week or so afterwards.

When this is done the parts should  
be allowed to dry, and then be well  
rubbed with a dry cloth before the  
calf is allowed to nurse.—J. H. R.,  
Ontario Agricultural College, Guelph.

Scientists say that we are never  
nearer death than when we sneeze,  
the act causing a momentary convulsion  
of the brain.

## THOROLD

Mr. and Mrs. Raymond Palmer, of  
Chappell Street, will move in the  
near future into the house on Pine  
street, at present occupied by Mr.  
and Mrs. Dalton, who contemplate  
moving to a farm in Stamford.

The many friends of Mr. Elijah  
Moore, Vine Street, will regret to  
hear he is confined to his home  
through illness, and a speedy recov-  
ery is hoped for.

Mrs. John Start and daughter,  
leave in the very near future for  
their former home in England where  
they will spend an indefinite visit.

Mr. Thomas Bradley of Buffalo, N.  
Y., spent the week end very plea-  
santly with Mr. and Mrs. Raymond  
Palmer, Chappell Street.

Mr. Roy Crowder, a real cowboy  
from the prairies in the Northwest  
gave a very interesting and instruc-  
tive talk at the Junior Epworth Le-  
ague meeting last night. There was  
a large number in attendance and  
the talk was very much appreciated.  
Miss Jessie Millar had charge of the  
meeting.

The news intimating the death of  
Mrs. Martin, widow of the late Jos.  
Martin, who predeceased her  
about six weeks ago, has been heard  
with deep regret in town. Mr. Adam  
Martin with his family attended the  
funeral which took place in Buffalo,  
N.Y.

The Thorold Board of Health com-  
posed of L. B. E. McLeary, Mr. Begg  
Adam Martin, and Policeman Perry,  
made a complete inspection of the  
town yesterday, and recommended  
that a number of places that are in  
unhealthy condition be cleaned up at  
once.

Mr. R. Turner, of Sarnia, who has  
arrived in town to take a position  
at the Steadman Jewelry Store, has  
rented one of Mrs. Dunn's houses on  
St. David's Street, and will move  
his family here in the very near fu-  
ture.

A particularly sad death occurred  
at the family home, Metcalfe street,  
last night, when Maple Rose Roger-  
son, the eight year old daughter of  
Mr. and Mrs. James Rogerson, pass-  
ed away following a brief illness.

The little girl had a bright and sun-  
shiny disposition and was loved by  
every person with whom she came  
in contact. The sorrowing par-  
ents are receiving the heartfelt sym-  
pathy of the community in their hour  
of trouble.

Mr. C. B. Child of Cliff Brothers  
Limited, Toronto, is spending a  
couple of days in town with his cus-  
tomers in the hardware trade.

Owing to the death of Mr. Mackay  
at Beaverdams Heights, the flag on  
the Sons of England Hall is flying at  
Half mast.

The word "kaiser" is derived from  
the old German "casere", from the  
Latin "Caesar".

## YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save your hair! Make it thick,  
wavy, glossy and beautiful  
at once.

Try as you will, after an applica-  
tion of Danderine, you can not find  
a single trace of dandruff or falling  
hair and your scalp will not itch,  
but what will please you most will  
be after a few weeks' use, when you  
see new hair, fine and downy at first  
—yet—really new hair—growing  
all over the scalp.

A little Danderine immediately  
doubles the beauty of your hair. No  
difference how dull, faded, brittle and  
scraggy, just moisten a comb with  
Danderine and carefully draw it  
through your hair, taking one small  
strand at a time. The effect is im-  
mediate and amazing—your hair will be  
light, fluffy and wavy, and have an  
appearance of abundance; an incom-  
parable lustre, softness and luxuriance,  
the beauty and shimmer of  
true hair health.

Get a small bottle of Knowlton's  
Danderine from any drug store or  
toilet counter, and prove that your  
hair is as pretty and soft as any—  
that it has been neglected or injured  
by careless treatment. A small trial  
bottle will double the beauty of your  
hair.

## Watch the Meter

WEATHER  
Strong easterly winds, with occa-  
sional rains. Wednesday milder.

Your gas meter is scientifically tested for  
security and accuracy. It is never careless;  
it is never wasteful.

It only records what you use or waste.

Natural gas users should watch their meters.  
Check yourself up by it; see how far you can  
make your gas go.

Your watchword should be not, "Gas is cheap, do  
not waste it—therefore economy is unnecessary," but  
"The supply is limited, therefore how much  
can I save."

Although Natural Gas is Cheap, do  
not waste it—the Supply is not  
Everlasting.

THE UNITED GAS COMPANIES, Limited.

## SICK--WEAK--MISERABLE THOUSANDS OF VICTIMS

Man feels bad all over—feels weak, feels nervous, irritable, gloomy—gets angry at little things that ordinar-  
ily would not be noticed! You feel tired mornings! Your sleep does not rest you. You feel nervous. You  
dream at night. Your memory is poor. You can't concentrate your mind. No appetite. You lose flesh—all run  
down. You can't understand why.

### Men! Are You In Doubt

DR. WARD, SPECIALIST

As to your trouble? Have you some skin eruption that is stubborn,  
has resisted treatment? Is there a nervous condition which does not  
improve in spite of rest, diet and medicine? Are you going down hill  
steadily?

WEAK AND RELAXED STATE OF BODY, nervousness, despondency, poor  
memory, lack of will power, timid, irritable disposition, diminished  
power of application, energy and concentration, fear of impending  
danger or misfortune, drowsiness and tendency to sleep, unrefreshing  
sleep, dark ring under eyes, dizziness, pimples on face, palpitation of  
heart, easily tired, weakness or pain in back, lumbago, dyspepsia,  
constipation, headache, loss of weight, insomnia. Dr. Ward gives you  
the benefit of 28 years' continuous practice in the treatment of all  
chronic, nervous, blood and skin diseases. The above symptoms, and  
many others not mentioned, show plainly that something is wrong  
with your physical condition and that you need expert attention.

NERVE EXHAUSTION.  
The Great American Disease. There are numberless people who  
do not call themselves sick, and yet they feel nervous, weak, languid  
and tired most of the time. They have no ambition or endurance to  
work—everything they attempt is an effort. Life to them appears  
as a long, gloomy future. Their appetite is poor and variable; they  
become irritable, cross and discouraged. They have pains and aches  
in various parts of the body and there is often indigestion, belching  
of gas, pains in the stomach present. Sleepless, wakeful and restless  
nights follow. They become drowsy after meals and the brain tires  
easily.

## OF INTEREST TO THE AILING MAN

28 years' experience and learning, 28 years doing one thing and doing it well. Experimenting days long  
past. I know! My success is due to system and direct methods. I go after the cause. No delays—no waiting  
—no wondering. No weary months, and years dragging along waiting for expected results. I make a fee  
for treating the patient as long as treatment is necessary. If I make you a fee of \$100.00 or \$250.00 it means  
that I will treat your case until you are dismissed. Consultation and examination free.

DR. WARD Daily Hours: Mondays, Wednesdays, Saturdays, 9 a.m. to 9 p.m. Tues. DR. HERRICK  
days, Thursdays, Fridays, 9 a.m. to 6 p.m. Sundays 10 a.m. to 1 p.m.

# War-Savings Stamps

### A Nation of Bond-holders

Before the War, Canada looked outside her borders for Capital.  
During the last three and a half years, Canada has become a  
nation of Capitalists,—for the man who buys a \$50 Victory Bond, or  
a \$5 War-Savings Stamp, is a Capitalist of the best type.

By the discovery of ten times the number of Capitalists, or Bond-  
holders, that she previously had, Canada has made a great stride forward.  
Interest charges, necessarily high at this time, do not withdraw money  
from the country. Home industry is fostered, and the problem of the  
War Burden is solved.

EVERY CANADIAN SHOULD BE A CAPITALIST. The  
opportunity is provided by the offer of War-Savings Stamps at \$4.01 this  
month, and redeemed for \$5.00 on the first day of 1924.

Buy War-Savings Stamps, as many as you can, as often as you can,  
at Money-Order Post Offices, Banks and other places  
displaying the Beaver-Triangle sign.

### Increase Your Holding of Bonds All the Time.

\$5.00 for \$4.01  
and each dollar  
worth more.

## NO OFFICIAL REPORT YET

News Received Indicates Soviet Government has not yet Been Proclaimed

## (Special to the Journal)

Berlin, April 7.—There has been no definite news here concerning the situation in Munich since reports were received of early exciting occurrences. From such news as reached Berlin, however, it seems that the Soviet Government has not yet been proclaimed in any way that can be regarded as official or binding.

## PRESIDENT WILSON IS STILL IN BED: REPORT INDICATES IMPROVEMENT

Paris, April 7.—President Wilson remained in bed, although an official bulletin said that he was much improved this morning. The President slept well during the night and had no temperature when he awoke.

The official statement issued this morning said:  
"President Wilson had a good night and his temperature is normal. He is much better, but remains in bed."

## Letters to the Editor

### VALUE OF SINGING

To the Editor of The Journal:  
Dear Sir—

With your permission I would like to place before the citizens of St. Catharines a phase of the great Educational question not fully discussed hitherto.

No one thing contributed to the success of our Canadian boys at the Front more than the fact that they kept up their spirits by singing. Some had learned to sing before the war and they soon taught the others and thus many a weary march was possible. In "The Marseilles" is entered all the passionate patriotism of the French people. The Germans buoyed up their spirits by their singing. In fact no single man can be used to arouse and maintain a patriotic spirit in our own people than that they be taught to sing.

Now, Sir, here is where our educational system is sadly lacking. There seems to be no provision in it anywhere for instruction in music.

The other day I turned aside from my classes in mathematics for a few minutes and obtained some useful information. In the two third forms and one second form there were present 85 pupils. Of these two only had received any instruction in singing, two only were able to answer any of the three simple test questions. I asked while 51 of them had received instruction in instrumental music of one kind or another. All this instruction was had by private tuition which cost generally one dollar for each half hour lesson.

From these and other data, I concluded (a) that the total cost of teaching this one subject in St. Catharines is nearly, if not quite, equal to the whole cost of teaching in our public schools and certainly exceeds the cost of our Collegiate Institute; (b) that the poor man cannot afford to have his children taught to sing. It is a luxury which only the rich and well-to-do may enjoy; (c) that little or no vocal music is taught, but only instrumental; (d) that music is now largely professional.

Now, Sir, the meagre results of the present system of private tuition, its excessive cost, barring many from its benefits altogether and its great value in teaching true patriotism and in lightening the burdens of life is quite enough for us to consider this matter seriously. It is time, Sir, to me, to consider the advisability of the state undertaking this work.

If our educational law makers should raise the school age to 16 years as they no doubt will before many years, there would be ample time to teach the elements of vocal music to all our boys and girls.

The real educational value of an hour would be very great. We train the sense of sight, the logical and perceptive faculties of the mind, and the muscular sense but we do not train the sense of hearing. Let us call the pupils occasionally from the manual training benches, from the machinery of the technical school, and from the desks of the culture subject class rooms, and teach them to sing with some knowledge of musical sounds.

I would like, indeed, if some other of our citizens would also express their views on this matter.  
Sincerely yours,  
WILSON TAYLOR, Coll. Inst.

### PEACE BY EASTER

It now seems fairly certain that the peace treaty will be ready for signature by Easter and that the Germans will be asked to sign. If this long looked for event is accomplished it will give the Easter tide of 1919 a significance that will linger long in the world's memory.

It is reassuring to read the despatches today which give the announcement from Premier Lloyd George that there is no divergence of opinion among the allied powers with respect to the negotiations. They are working out successfully a great world wide policy and confidence can be held that they will bring it to a happy conclusion.

## NO CHARGE IN SITUATION

Strike at Essen Still Continues. Increase in Number of Strikers Causes a Standstill.

(Special To The Journal.)  
Essen, April 7.—The strike situation here shows little change today. Street car employees voted to join the Krupp workers, so that the city's transportation system is at a standstill. Essen is also without lights, because of the strike of the firemen. In Ruhr industrial district as a whole there was an increase yesterday in the total number of strikers.

## FIRST DIVISION COMING BACK

Department Announces Embarkation to Canada Will Begin About April 12th.  
Ottawa, April 7.—The Department of Militia announces that the embarkation of the First Division for return to Canada will commence about April 12. The composition of the division with dispersal stations to which units will proceed is as follows:

- No. 2 Field Ambulance.....London
- No. 3 Field Ambulance.....Winnipeg
- 1st. Divisional Train.....Toronto
- 1st. Can. Div. M. T. Co.....Toronto

## GERMANY MUST PAY TO LAST FARTHING OF ABILITY

EXPECTED THAT PEACE TREATY WILL BE READY BY EASTER. PREMIER SAYS NO DIVERGENCE OF OPINION.

Paris, April 7.—The preliminary peace treaty will be ready by Easter and the Germans will be asked to come and sign it at the end of April or the beginning of May. Premier Lloyd George of Great Britain declared in an interview yesterday with Stephan Lauzanne, editor of the Matin.

In answer to a remark by M. Lauzanne that what troubled public opinion was not so much the delay, as the secrecy in which the peace negotiations were wrapped and that there was some divergence of opinion among the British premier said:

"I affirm absolutely that there is no divergence among the negotiators. They are often confronted with technical difficulties which can only be settled after close study. Take the question of reparation. In substance the Allies have one common principle, which I once set forth thus: Must pay up to limit. 'Germany must pay up to the farthing of her power.'"

## EXPECT BOOM IN NATIONAL GAMING

Many Clubs Apply for Admission the Ontario Amateur Lacrosse Association.

With the O. A. L. A. nomination and amendments closing next Saturday, lacrosse clubs are endeavoring to round out material for the coming year, and with many of the best back from overseas a revival is looked forward to in Canada's national game. The annual convention of the O. A. L. A. will, as usual, be held on Good Friday.

The following clubs have signified their intention of playing this year and have sent in their application to Secretary Jimmy Dundas of the O. A. L. A.:

- Senior—Young Toronto, Riverdale, Beaches, Maitlands, Carleton Place, Simons, Brampton, Weston, St. Catharines, and Dominions of Toronto
- Intermediate—St. Catharines, Aurora
- Juniors—Riverdale, Maitlands, St. Catharines, Beaches, Carleton Place, Simons, Brampton, Weston, St. Catharines, and Dominions of Toronto

The following nominations have been received:  
President—E. E. Doyle, Newmarket.  
First Vice President—W. Tegart, Toronto.

Council—L. A. Betts, Peterborough; F. S. Coombs, E. Sullivan and L. Smith, Toronto; R. E. Van Duse, Tara; W. Clapper, Aurora.

Auditors—Jim Stevenson, D. Rose.

The Carletons, who have entered the senior series, are a club from floor street west, and have played lacrosse before, though not in the senior series. The Dominions were made up of some Port Arthur and Fort William Boys, along with others who are working at the Dominion Shipbuilding Co. Harry Halpin, Peterboro, is behind the team.

A syndicate of Toronto and Buffalo builders have made a proposal to erect a number of dwellings at Niagara Falls, Ontario.

## SPORT MEAL

An Irish cup soccer match at Cliftonville was broken up by the crowd, who bombarded the players with stones and chased the officials.

Objection to a ten day notice of release clause was the reason advanced by Tyrus Raymond Cobb for failure to sign his contract with the Detroit Tigers for the coming year.

Frank Shaughnessy will be in complete charge of all athletics at McGill University next season. He will take over the reins at the opening of the scholastic session so as not to interfere with his managerial duties of the Hamilton baseball club.

The mild weather of the past week has been bringing the "golf friends" to the open in St. Thomas, and according to advices received the formal opening of the St. Thomas Golf Club will take place on Good Friday.

Johnny Kilbane, the featherweight champion, defeated Artie O'Leary of New York, in a six round bout at Philadelphia.

Benny Leonard, lightweight boxing champion, has been matched to meet Willie Ritchie, of San Francisco, in an eight round match on April 23, at Newark.

## FAMOUS REFEREE DEAD

New Orleans, La., April 8.—John Fitzpatrick, who refereed the fight in Mississippi City, in which John L. Sullivan won the world's championship from Paddy Ryan, and the 75-round fight between Sullivan and Jake Kilrain, at Rishburg, Miss., died at his home here yesterday, aged 75. At the time of his death he was State Tax Collector. He was for many years a Democratic leader and was Mayor of New Orleans from 1892 to 1896.

The six bells of Westminster Abbey, which have not been rung as a peal since the coronation of King George, are being increased in number to eight, and will be ready to ring in the Peace.

## BRANTFORD FOR OLYMPIC

Swimmers, Cyclists and Sprinters Candidates for Canadian Team.

Brantford, Ont., April 8.—With a view to the Olympic trial tests, Physical Director G. Mosley of the local Y.M.C.A. is commencing work to develop "Pete" Verity, Ontario, swimming champion; George Verity, swimmer; Fred Shaw, Victor Walker and Fred Jackson, cyclists, and Whittaker, Kiel and Jamieson in the sprints.

It is expected that Brantford will have a share of the entrants for the Canadian trials.

## MAY EVACUATE ODESSA

Paris, April 8.—Bolshevik pressure against Odessa, the great Russian port on the Black Sea, is increasing, and the evacuation of the city by the allied forces is imminent, the Matin says.

## TOWN WANTS TO BE WET

Quebec, April 8.—The town council of Fraserville has received a petition from citizens asking for the repeal of the local option by-law. The petitioners anticipate that the Province at large on the 10th of April will vote for the sale of beer and the anti-prohibition petition on the 28th, shortly after the referendum on the sale of beer and wine.

Although ridiculed as a craze it is a scientific fact that sour milk conduces to longevity.

## PADEREWSKI IS GIVEN WELCOME BY THE PARISIANS

Polish Premier and Wife Pay Visit to French Capital.

Paris, April 7.—Premier Paderewski of Poland arrived in Paris yesterday, accompanied by Joseph Noulens, French member of the inter-Allied mission to Poland. The Polish statesman was received at the station by General Haller, commander of the Polish forces in France, K. V. Dmowski and M. Pulaski of the Polish peace delegation, William Martin, representing President Poincare and Captain Breton, representing Premier Clemenceau. A crowd which had been waiting at the station cheered when the Polish Premier emerged and threw flowers in his path.

Mme. Paderewski accompanied her husband, who expects to remain in Paris for two or three weeks if circumstances so demand. Paderewski declined to make any lengthy statement until he had received the official report on the Spa negotiations and terms, saying only when asked his opinion: Two great factors dominate the situation for us—Danzig and Teschen.

## Notice to Creditors

In the matter of the Estate of Gerald Dennis Murray, late of the City of St. Catharines, in the County of Lincoln, Mechanic, deceased.

In pursuance of the Statutes in that behalf Notice is hereby given that all persons having claims or demands against the late Gerald Dennis Murray, who died on or about the 3rd day of January, A. D., 1919, at the City of St. Catharines, in the County of Lincoln, are required to send by post prepaid or delivered to the undersigned solicitor herein for John Sweeney, the Administrator of the Estate of the said Gerald Dennis Murray, their names and addresses and full particulars in writing of their claims and statements of their accounts, and the nature of the securities (if any) held by them.

AND TAKE NOTICE that after the 26th day of April, 1919, the said Administrator will proceed to distribute the estate of the said deceased amongst the persons entitled thereto having regard only to the claims of which he shall then have had notice, and that the said Administrator will not be liable for the said assets or any part thereof to any person of whose claim he shall not then have received notice.

M. J. McCARRON,  
33-35 Bank of Nova Scotia Bldg.  
St. Catharines, Ont.  
Dated at St. Catharines this 27th day of March, A. D., 1919.

## EX-CHAMPION ARRESTED

Tommy Burns, the well-known Canadian boxer and heavyweight champion, who lost the belt to Jack Johnson, is under arrest in Los Angeles on a forgery charge.

## FOOD FOR THE BASEBALL FANS

Jack Dunns Baltimore Birds lost on Saturday and Sunday to Connie Mack's Athletics, 5 to 3 and 5 to 2, respectively, but they made the big leaguers hustle to win in both engagements.

By Cobb objected to the "ten day notice of release" in his contract, but he signed up nevertheless.

The National Board has ruled that the Southern League acted within its rights in passing a "seven players limit." This means that all the minor leagues can pass rules to suit local conditions.

The Toledo club of the American Association financially is in bad shape. Pres. Bresnahan is broke and the stockholders have refused to advance any more money. The franchise may be moved elsewhere.

## RECOGNIZE LENINE, ETC. PREMIER DIDN'T HINT IT

Washington, April 8.—Lord Rotherford, the British ambassador, authorizes the statement that suggestions that Premier Lloyd George had advised the recognition of Lenine or Trotsky, the Russian Bolshevik leaders, were wholly unfounded.

The ambassador made the following statement: "With regard to the suggestions which have appeared in some quarters that Mr. Lloyd George had advised the recognition of Lenine or Trotsky, I am in a position to state that these suggestions are wholly without foundation. Mr. Lloyd George has never suggested that Lenine and Trotsky should be recognized."

## BOMB USED IN STRIKE

Lawrence, Mass., April 8.—Rioting marked the promiscuous firing by strike sympathizers and police opened the tenth week of the textile strike here.

The outbreak occurred in the vicinity of the Everett mills shortly before seven o'clock, a few hours after the city had been stirred by the explosion of a bomb in a tenement house in the same neighborhood. Early reports indicated that no one was wounded by the shooting. Several rioters and policemen were injured by sticks, stones and clubs.

## NOW GETTING READY FOR HUN DELEGATES

Paris, April 8.—Paul Dautasta, the general secretary of the Peace Conference, will go to Versailles today to prepare for the arrival of the German Plenipotentiaries. It is probable that the preparatory meetings will take place in the former meeting room of the Supreme War Council and that the treaty will be signed in the main palace at Versailles.

## LIGHTNING FIRES 600 BARRELS OF OIL

Petrolia, April 8.—A tank containing 600 barrels of paraffine distillate took fire. It is supposed from lightning, at the Canadian Oil Company's refinery here.

## U. S. ACCEPTS CANADA'S DEF

Leading Golfers to Compete in International Match at Hamilton

New York, April 8.—The Executive Committee of the United States Golf Association has accepted an invitation for an international team match with Canada. This news was given out at association headquarters yesterday, along with the information that W. C. Fownes, jun., of Pittsburg, had been appointed Captain.

There will be ten men on a side and if Fownes sets out to comb the country for the best available material he will surely be able to master a combination of champions that would make any aggregation the world over take notice.

## OUT OF THE ORDINARY

There are 175 varieties of dogs. Normally there are 350 births to seventy deaths daily in London.

Boiling used to be a form of capital punishment in England.

The average man normally consumes about one ton of liquid and solid food in a year.

Water is a great conductor of sound. A bell which could be heard four or five miles on land would, if submerged and sounded, be heard sixty miles under the sea.

The death of little Prince John of Wales has called to mind the fact that John has been an unlucky name for royalty all through English history. From King John, who lost all his treasure in the Welsh (and died of a surfeit of lampreys, there has never been a lucky John.

DR. ARTHUR B. COBB  
Dentistry.

When it is absolutely necessary to extract a tooth—when there is no way of saving it by crowning it—then, and only then, do we advise that the tooth be removed.

Good Dentistry is based upon the principle of conserving the work of nature and our efforts are always along these lines.

When extraction is needed we perform this operation painlessly—not only in promise but ODONTUNDER—The most effective and safest local anesthetic known to Dentistry is used by us.

It is a formula of our own invention and thousands of our patients have testified to its absolute power to prevent pain. With the same sincere efforts that we make to save your teeth do we likewise endeavor to save you all unnecessary expenses.

Consultation and examinations are granted entirely without charge, and we invite you to avail yourself of these attentions.

## FOOTBALL IN MERRITON

The Merriton F. Club had their first practice Saturday. A fairly large crowd turned out and everybody was convinced that Merriton will occupy a promising place in soccer this season. There are prospects of a game being played on Saturday if so full particulars will be published as soon as possible. Merriton have invited a Toronto team for the 24th May in aid of the Soldiers Memorial Fund. Work will commence on the grounds on Monday and when completed, Merriton will have the finest soccer ground in the district.

The Merriton Football Club will hold a meeting on Wednesday evening in the Railroad Hotel at p. m.

Soccer fans will have the opportunity of seeing their clever players in action on the following dates: April 2nd, v. G. W. V. A. at Merriton. April 19th, v. Windle at Windle. April 26th, v. Welland at Merriton.

A list of the players signed will be published in Monday's Journal.

## ONE ATLANTIC FLIGHT IS PLANNED FOR NEXT WEEK

Limerick, Ireland, April 8.—Arrangements are being completed here for the trans-Atlantic flight of the airplane of which Major Woods will be the pilot and Captain Wylie, the navigator. It is now planned to start at noon on April 14th or 15th, reach Newfoundland in 24 hours.

The title given the late Emperor of Germany in The Almanac of Gotha, yearly consumption of soap for each is that of M. D., surely the old rascal must be a master hand at Phlebotomy.

### THIS IS THE CARRIAGE YOU WILL WANT!

The new Heyward-Wakefield Sleeper, is shown above in the picture, equipped with all the latest features, having a reversible gear, so that you can push it from either end.

Notice the graceful, roomy, reed body, the hood with back wind shield, the long flexible spring, and rubber tired wheels. Making a carriage that is not only perfect in design, but exceptionally strong and durable.

Come in and look over the different styles we are showing, and see for yourself, that the Heyward-Wakefield carriage is all that we claim it to be.

\$1.50, \$1.00, 75c.

NO WAR TAX

Box Office Opens April 23

The Communist Government in Budapest was still in office Saturday and on that day Bela Kun in a statement to correspondents of the Associated Press said that the proposition had been made to Gen. J. C. Smuts, chief allied representative in Budapest that representatives of various states of the old Austrian Empire and Rumania hold a conference to discuss the boundary and economy questions.

Recent reports from Budapest have indicated that the Communist Government was not meeting with very strong opposition at least in the Hungarian capital in carrying out its measures.

### AT THE GRAND

#### FLO FLO COMING

A beautiful corset model whose intentions are vampirish, but whose heart compels her to give up the Oshkosh hero she has ensnared to the girl he loves, lends her name to "Flo Flo" that rhythmic, sparkling musical comedy which John Cort will present at the Grand Opera House Theatre on Saturday matinee and evening, April 12th.

"Flo Flo" was one of the only two attractions that remained all last season in New York and is claimed to be the most expensively gowned production in America.

"SEVENTEEN" COMES TO THE GRAND.

Samuel Wallack's production of "Seventeen," the four act comedy made from Booth Tarkington's Willie Baxter's stories comes direct from an eight months' run at the Booth Theatre, New York, to the Grand Opera House for an engagement of one evening performance, April 16th. Like the book, the play is full of good-humored jesting at the expense of youthful human-nature's growing pains, and there is an irresistible sympathy inspired for the hurried and misunderstood hero, aged 17, William Sylvanus Baxter, Jr. And the villain of the piece is little sister, Jane, aged 10—a short-skirted, beseeched young person, with a wild affection for her bread and butter and apple sauce and sugar and an even stronger love for "telling on" Willie.

Unusual interest is being taken in the advent of Gus Hill's Big Minstrels, an aggregation of burnt-cork artists who will help to disseminate gaiety, mirth, melody and song at the Grand Opera House Theatre, Thursday, April 10, with the usual matinees.

### LEAVING FOR PARIS

Navy League Prepares Farewell to P. Wright

Toronto, April 8.—A big mass meeting will be held under the auspices of the Navy League in Massy Mall on the 14th. The meeting will be for the purpose of giving a farewell to Peter Wright, who has just received instructions from England to proceed immediately to Paris, as the representative of the British Seamen's Association to look after war indemnities at the Peace Conference. Mr. Wright will leave this week as it is necessary for him to be in Paris on the 24th of this month.

### FIVE VACANCIES IN THE COMMONS

Doubtful if Elections Will be Held Until Troops are Demobilized

Ottawa, April 8.—With the death of Capt. Joseph Read, member for Queen's P. E. I., there are now five vacancies in the House of Commons. The other seats which are open are Glengary, North Ontario, Quebec East and Assiniboia. Sir Thomas White was asked in the Commons when the bye-elections would be held, but gave no definite reply. It is doubtful if the elections will be held until the troops are demobilized, as at present there is no way of voting the overseas soldiers.

### MERRITTON

The Merritton members of the Independent Labor Party held a very successful meeting in the Watson House last night, and completed the final arrangements for their old country dance which they contemplate holding in the town hall on April 23. Delegates to attend the convention at Toronto were appointed as follows: William Benson, Arthur Watson and Daniel Teasdale were elected alternate.

A meeting of the residents of Merritton was held in the town hall last night, and was largely attended. The object of the meeting was to people to give their opinion as to what should be erected as a memorial for the fallen soldiers. The meeting was presided over by Mayor Thomas Hastings, who gave a neat speech expressing his views and thought the best thing to erect would be a memorial hall which could be built less than fifteen of twenty thousand dollars, and at the present time the finances are not high enough to undertake anything else but a monument. Mr. A. T. Smith was elected Secretary to take note of the meeting, and after a few discussions took place the following committees were appointed:

Finance Committee: A. A. Forrest, W. A. Richardson, Rev. H. L. A. Almon, Milo G. Phelps, and Alexander Hamilton.

Soliciting Committee: A. T. Smith, J. W. Riggs, Fred W. Rapsey, W. Partington, Ethel Gillis, Mrs. James Richardson, Mrs. J. H. G. Horey, Mrs. Buchanan.

Publicity Committee: Richard Clark, J. H. G. Horey, Rev. R. E. Railton, George T. Stronk, Fred Whitlock.

Refreshment Committee: Wallace Hamilton, Frank Bassett, Thomas Wheeler, Jos. Hitts, Henry Rapsey, Richard O. Leeson, William Teasdale, John Riches, and the assistance of all the ladies.

Games Committee: James Clark, J. Wynn, Alexander Watson and the fire company.

Grounds Committee: Samuel A. Moffatt, W. R. Savigny, J. Rennie, W. E. Nesbitt, Ted Miller, Robert Orr, W. A. Logan.

Parade Committee: Leroy Thompson, Daniel Leo, John McNally, W. A. Richardson, John Fawell.

Musical Committee: Henry Pilling and band.

Executive Committee: A. A. Forrest, A. T. Smith, Richard Clark, Wallace Hamilton, James Clark, S. Moffatt, Leroy Thompson, Henry Pilling, Mayor Hastings, Henry Bradley.

MACK SENNETT COMEDY  
ELSIE FERGUSON in "His Parisian Wife"

## EMPRESS'S WAR RECORD

(1) Captain Geo. S. Webster, R.N.R., of the "Empress of Britain."  
(2) Arthur E. Philp, Chief Engineer of the "Empress of Britain."  
(3) Six inch gun crew standing by the gun on the "Empress of Britain," at right Chief Officer F. H. Moore, who gave the gunners the range.

THE "Empress of Britain," which sailed from New York on Sunday afternoon with 150 officials of the British War Mission, Y.M.C.A. and Knights of Columbus workers, has already covered 173,130 miles since the outbreak of hostilities, when she was taken over by the British Government and has transported 110,000 troops overseas. She took thousands of Australians and Brits to Gallipoli, and was one of the transports assigned to take them away. The Suez Canal being closed, she made a 16 months trip around the Cape of Good Hope with troops for German East Africa and also for Mesopotamia. She made eight trips with Canadian troops and for the first seven months of the war, patrolled the South Atlantic as an admiralty cruiser.

It was during one of the trips across the Atlantic with 5,700 troops

board, that a German submarine launched two torpedoes, one of which, due to a lucky zig-zag, missed the bow by three feet, and the other passed a dozen feet astern. At least a dozen attacks were made upon the "Empress of Britain" during the war, by U-boats.

Captain George S. Webster, R.N.R., who is the present commander of the "Empress of Britain," has made 37 trips across the Atlantic since the outbreak of the war. When the "Empress of Britain" reached New York last Tuesday, she had aboard 2,450 U. S. troops, including 400 sick and wounded heroes, and she is returning to Liverpool for more. When this work of repatriating U. S. troops is finished, she will return to her home port, St. John, New Brunswick.

During the war, the C. P. O. S. ships have transported over a million troops and passengers on war bus-

ness. Only eight soldiers were lost by enemy action. The "Empress of Russia," now in Liverpool, will take troops to Australia, and then return to her regular route across the Pacific from Vancouver to ports in the far east. The "Empress of Asia" will go back to Vancouver through the Panama Canal with Canadian troops enlisted in British Columbia.

Arthur Edward Philp, O.B.E., Chief Engineer of the "Empress of Britain" and Senior Chief Engineer of the Canadian Pacific Ocean Services, Ltd., has been on the Empress throughout the war and has never missed a trip. He was personally decorated by King George for his services and is an Officer of the Order of the British Empire. His services on transports cover four wars, the Benin and Ashanti expedition, the South African war, and the present war. His fellow officers call him "Pa."

## INDIGESTION

When the food does not digest—it sours in the stomach and ferments causing burning in the stomach, bleaching of gas, headache and other things well known to the sufferer. Avoid charcoal, soda, etc., and anchor your faith to Walker's Indigestion Remedy and you will be cured—Your money back if it fails—We make it—We know the conditions—We guarantee it.

Price, 75c. Per Bottle

### American Travellers Want Private Ownership

The Traffic Club of New York, with a membership of eleven hundred, of which the majority consists of users of the transportation systems of the country, has adopted the following resolution:

That Government ownership, management or operation of railroads be not conducive to economic efficiency, and that private initiative, enterprise and responsibility in the creation, extension, improvement and operation of the American railroads should as a matter of national policy be fostered and preserved.

That the extension of the present system of Federal control for a period of five years, or any extension beyond the limitation now prescribed by law of one year and nine months after the proclamation of peace, is currently opposed as prejudicial to the public interest.

That the recognized impracticability of continuing the Government operation of the railroads for twenty-one months after peace under the present law is a conclusive reason why the properties should be relinquished, and that in view of the termination of hostilities, it should be the policy of the Railroad Administration to restore the integrity of individual properties and prepare for their return to the respective owners.

That the principle of reasonable, responsible and adequate Governmental regulation of transportation facilities is recognized and accepted, but that such regulation should provide for the encouragement, protection and development of the railroads.

That the Congress should promptly enact such revised legislation as will provide a uniform system of regulation in essential matters, safeguard the public interest, ensure adequate revenue to provide for equitable treatment of all questions affecting wages and working conditions of employees and attract sufficient capital to maintain and develop transportation facilities which shall meet the necessities of the commercial manufacturing and agricultural interests of the country.

That energetic efforts should be exerted to accomplish the early return of the transportation systems of the country to the control and management of their owners, and the enactment of suitable legislation for the protection of the shipping and traveling public, the carriers and their employees.
